PARTIES

The Chief Executive Officer of AUSTRAC

1. The Applicant is the Chief Executive Officer (**CEO**) of the Australian Transaction Reports and Analysis Centre (**AUSTRAC**), an office established under s211 of the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (Cth) (the **Act**).
2. The AUSTRAC CEO may apply for a civil penalty order by reason of s176 of the Act.
3. The objects of the Act, among others, include to provide for measures to detect, deter and disrupt money laundering, the financing of terrorism and other serious financial crimes.

Particulars

Section 3(1)(aa) of the Act.

4. The objects of the Act, among others, also include to promote confidence in the Australian financial system through the enactment and implementation of controls and powers to detect, deter and disrupt money laundering, terrorism financing and other serious crimes.

Particulars

Section 3(1)(ad) of the Act.

5. The AUSTRAC CEO may, by writing, make rules prescribing matters required or permitted by any provision of the Act to be prescribed by the rules.

Particulars

Section 229 of the Act.

Anti-Money Laundering and Counter-Terrorism Financing Rules 2007
(the **RULES**).

Star Sydney

6. The First Respondent, The Star Pty Limited (**Star Sydney**):
 - a. is and was at all material times a company incorporated in Australia;
 - b. is and was at all material times a person within the meaning of s5 of the Act;
 - c. at all material times has carried on activities or business through a permanent establishment in Australia for the purposes of the Act;
 - d. is and was at all material times a reporting entity within the meaning of s5 of the Act;
and
 - e. provides designated services to customers within the meaning of s6 of the Act, including:
 - i. **Item 6, table 1** – making a loan, where the loan is made in the course of carrying on a loans business.
 - ii. **Item 7, table 1** – in the capacity of a lender for a loan, allowing the borrower to conduct a transaction in relation to the loan, where the loan was made in the course of carrying on a loans business.
 - iii. **Item 31, table 1** – in the capacity of a non-financier carrying on a business of giving effect to remittance arrangements, accepting an instruction from a

transferor entity for the transfer of money or property under a designated remittance arrangement.

- iv. **Item 32, table 1** - in the capacity of a non-financier carrying on a business of giving effect to remittance arrangements, making money or property available, or arranging for it to be made available, to an ultimate transferee entity as a result of a transfer under a designated remittance arrangement.
- v. **Item 47, table 1** – providing a safe deposit box, or similar facility, where the service is provided in the course of carrying on a business of providing safe deposit boxes or similar facilities.
- vi. **Item 1, table 3** – receiving or accepting a bet placed or made by a person, where the service is provided in the course of carrying on a gambling business.
- vii. **Item 4, table 3** – paying out winnings in respect of a bet, where the service is provided in the course of carrying on a gambling business.
- viii. **Item 6, table 3** – accepting the entry of a person into a game where: that game is played for money or anything else of value; the game is a game of chance or of mixed chance and skill; the service is provided in the course of carrying on a gambling business; and the game is not played on a gaming machine located at an eligible gaming machine venue.
- ix. **Item 7, table 3** – exchanging money or digital currency for gaming chips / tokens / betting instruments, where the service is provided in the course of carrying on a business.
- x. **Item 8, table 3** – exchanging gaming chips / tokens / betting instruments for money or digital currency, where the service is provided in the course of carrying on a business.
- xi. **Item 9, table 3** – paying out winnings, or awarding a prize, in respect of a game where: that game is played for money or anything else of value; the game is a game of chance or of mixed chance and skill; the service is provided in the course of carrying on a gambling business; and the game is not played on a gaming machine located at an eligible gaming machine venue.
- xii. **Items 11 to 13, table 3** – in the capacity of account provider:
 - A. opening an account; or
 - B. allowing a person to be a signatory on an account; or
 - C. allowing a transaction to be conducted in relation to an account,
where the account provider is a person who provides a service covered by items 1, 2, 3, 4, 6, 7, 8 or 9 above, and the purpose, or one of the purposes, of the account is to facilitate the provision of a service covered by items 1, 2, 3, 4, 6, 7, 8 or 9 above, and the service is provided in the course of carrying on a business.
- xiii. **Item 14, table 3** – exchanging one currency (whether Australian or not) for another (whether Australian or not), where the exchange is provided by a person who provides a service covered by items 1, 2, 3, 4, 6, 7, 8 or 9 above, and the service is provided in the course of carrying on a business.

Particulars

Star Sydney was the reporting entity enrolled on the Reporting Entities Roll, for the purposes of Part 3A of the Act for the casino located in Pymont, Sydney, NSW (**Star Sydney casino**).

Star Queensland

7. The Second Respondent, The Star Entertainment QLD Limited (**Star Qld**):
- a. is and was at all material times a company incorporated in Australia;
 - b. is and was at all material times a person within the meaning of s5 of the Act;
 - c. at all material times has carried on activities or business through a permanent establishment in Australia for the purposes of the Act;
 - d. is and was at all material times a reporting entity within the meaning of s5 of the Act; and
 - e. provides designated services to customers within the meaning of s6 of the Act, including each of the designated services pleaded at paragraph 6e.

Particulars

At all times, Star Qld was the reporting entity enrolled on the Reporting Entities Roll, for the purposes of Part 3A of the Act, for two casinos located in Queensland, being the Treasury Casino and Hotel in Brisbane (**Treasury Brisbane casino**), and The Star Gold Coast Casino (**Star Gold Coast casino**) (together, the **Star Qld casinos**).

The Star Entertainment Group Limited

8. The First and Second Respondents are wholly owned subsidiaries of The Star Entertainment Group Limited (**SEG**).

Particulars

Prior to November 2015 SEG was named Echo Entertainment Group Limited.

Collectively, the Star Sydney, Treasury Brisbane and Star Gold Coast casinos are referred to as the **SEG casinos**.

The SEG Board and senior management had oversight of the SEG casinos' compliance with the Act. See paragraphs 203 to 206.

The Anti-Money Laundering Compliance Officer (**AMLCO**) for the SEG casinos was a senior manager employed by SEG at all times.

The role of the AMLCO is particularised at paragraph 216.

EEI Services (Hong Kong) Limited

9. EEI Services (Hong Kong) Limited (**EEIS**) was a company incorporated in Hong Kong in November 2013 that was wholly owned by SEG.

Particulars

EEIS was a wholly owned SEG entity that was established to facilitate offshore settlement activities and provide credit to international junkets and premium players, on behalf of SEG casinos.

EEIS was established to create a payment channel for international customers who did not want to, or could not, send funds directly to a casino in Australia.

See from paragraph 461 for a description of the EEIS remittance channel.

THE ML/TF RISKS FACED BY STAR SYDNEY AND STAR QLD

10. Money laundering:
 - a. is the process of turning the proceeds of crime into money that appears to be legitimate;
 - b. aims to conceal the identity, source, and destination of illicitly-obtained money; and
 - c. aims to move illicitly-obtained money through a legitimate business or transfer system.
11. The Act requires reporting entities to identify, mitigate and manage the money laundering and terrorism financing (**ML/TF**) risks reasonably faced with respect to the provision of designated services to customers.

Particulars

See paragraphs 28 to 42 below.

12. The ML/TF risks faced by Star Sydney and Star Qld arise from both:
 - a. the provision of gambling services (table 3, s6 designated services); and
 - b. the movement of money facilitated by the provision of financial services (table 1, s6 designated services).

The risk-based approach and ML/TF risk

13. The Act and Rules permit a risk-based approach to the identification, mitigation and management of ML/TF risks by reporting entities.
14. When determining and putting in place appropriate risk-based systems and controls, a reporting entity must have regard to the nature, size and complexity of its business and the type of ML/TF risk it might reasonably face.

Particulars

Sections 85(2)(a) and (c) and rule 9.1.3 of the Rules.

15. In identifying, mitigating and managing ML/TF risks, a reporting entity must consider the risk posed by:
 - a. its customer types, including any politically exposed persons (**PEPs**);
 - b. the types of designated services it provides;
 - c. the methods by which it delivers designated services (which is known as **channel risk**); and
 - d. the foreign jurisdictions with which it deals.

Particulars

Sections 85(2)(a) and (c) and rule 9.1.4 of the Rules.

The nature, size and complexity of Star Sydney's and Star Qld's business and ML/TF risks reasonably faced

16. Star Sydney and Star Qld facilitate high volume, high frequency and high value designated services, 24 hours a day, 7 days a week, including across international borders.
17. The proceeds of crime are often in cash.
18. The casinos operated by Star Sydney and Star Qld are vulnerable to laundering of proceeds from a range of serious and organised crime activities including drug and tobacco offences, tax evasion, tax and welfare fraud and illegal gambling because:
 - a. they are cash intensive businesses; and
 - b. the source and ownership of cash is harder to trace compared to other forms of money.
19. A customer of Star Sydney and Star Qld can move money through different designated services, including by:
 - a. transferring money through cash, casino value instruments (**CVIs**), such as chips and tickets, and gaming accounts (table 3, s6 services);
 - b. transferring money to or from their own gaming account (items 32 and 31, table 1, s6 services, respectively, or **remittance services**); and
 - c. drawing on or redeeming credit provided by Star Sydney or Star Qld (item 7, table 1, s6 services - **loans or credit**), which could be used for table 3, s6 gambling services and could involve remittance services.
20. The movement of money through different designated services by Star Sydney and Star Qld customers can involve:
 - a. long and complex transaction chains; and
 - b. multiple channels, including non-face-to-face channelswhich make it difficult to understand the purpose of transactions, the beneficial owner of funds or the ultimate beneficiary of value moved.
21. Star Sydney and Star Qld provided both gambling and financial services to higher risk customers, including:
 - a. through junket and rebate channels;

Particulars

Star Sydney and Star Qld offered a number of different rebate programs to VIP or premium players.

Specific rebate programs were offered to junkets.

- b. to customers from foreign jurisdictions, including to international premium and junket players; and
 - c. to PEPs, including foreign PEPs.
22. Star Sydney and Star Qld dealt with customers, including higher risk customers, through agents and third parties.

Money laundering vulnerabilities and typologies

23. The Financial Action Task Force (**FATF**), the Asia/Pacific Group on Money Laundering (**APG**) and AUSTRAC have identified significant money laundering vulnerabilities, related case studies and 'ML/TF typologies' specific to casinos.
24. **ML/TF typologies** are the various methods that criminals use to conceal, launder or move illicit funds.
25. The FATF, APG and AUSTRAC publications describe the following vulnerabilities and ML/TF typologies:
 - a. As casinos are cash intensive businesses, they are vulnerable to **structuring**. This is the deliberate division of a large amount of cash into smaller deposits to avoid the reporting threshold in s43 of the Act.
 - b. **Cuckoo smurfing** is a method of money laundering used by criminals to move funds across borders and make money generated by their illegal activities appear to have come from a legitimate source.
 - c. Cuckoo smurfing is facilitated by professional money laundering syndicates who work with a corrupt remitter based overseas:
 - i. The corrupt remitter accepts an instruction from a customer to make a payment to an Australian-based beneficiary customer.
 - ii. The corrupt remitter hijacks the money transfer coming into Australia in order to place funds in the Australian-based beneficiary account which are sourced from criminal activity.
 - iii. A **smurf or third-party agent**, deposits cash into Australian bank accounts on behalf of a money laundering syndicate controller.
 - iv. The international transfer is offset without the physical movement of funds.
 - d. Casinos accepting cash or third party deposits for customers are vulnerable to cuckoo smurfing.
 - e. Designated services facilitated through junkets are vulnerable to cuckoo smurfing and structuring. Junket operators may act as remitters and may facilitate cuckoo smurfing.
 - f. **Offsetting** enables the international transfer of value without actually transferring money. This is possible because the arrangement involves a financial credit and debit (offsetting) relationship between two or more persons operating in different countries. Criminals can exploit offsetting to conceal the amount of illicit funds transferred, obscure the identity of those involved and avoid reporting to AUSTRAC.
 - g. Gaming accounts are vulnerable to offsetting.
 - h. **Loans or credit** can also be used to launder funds. Loans can be taken out as a cover for laundering criminal proceeds under the guise of repayments, including by lump sum cash payments, smaller structured cash amounts or offsetting.
 - i. Customers of casinos may seek to use third parties to obtain designated services on their behalf. Third parties may also seek to deposit money into a customer's gaming account. A customer may seek to transfer money from their gaming account to a third party. The involvement of **third-parties in transactions** such as these can distance

customers from illicit funds, disguise ownership of funds and complicate asset confiscation efforts by authorities. Third parties can also be used as **smurfs**.

- j. Money deposited with a casino or exchanged for CVIs (including chips and tickets) and then withdrawn with **minimal or no gaming activity** may appear to have a legitimate origin, even though very little money was actually risked.
- k. Gaming losses sustained by a customer, even if minimal, can give the incorrect appearance that the customer is engaging in genuine gaming activity.
- l. Gaming involving **high turnover or high losses** may indicate unusual or suspicious activity and may raise questions about the customer's source of wealth or funds.

Particulars

Turnover is the total amount wagered by customers at a table or on a gaming machine.

Paragraph 634 particularises how rebates are calculated on turnover.

- m. Gaming involving **escalating rates of high turnover or high losses** may indicate unusual or suspicious activity and may raise questions about the customer's source of wealth or funds.
- n. **High turnover** offers further opportunities for the **placement and layering of illicit funds**. This is a particular problem with junkets, where funds are pooled and the payment of winnings is facilitated by the junket operator. The problem is exacerbated where cash can be brought into private gaming rooms by unknown persons who are not junket players.
- o. Games that have a **low house edge** can be attractive to money launderers, as they offer the opportunity to launder large amounts with minimised losses. The house edge is a term used to describe the mathematical advantage that a game, and therefore the casino, has over the customer with play over time.
- p. Where games permit **even-money wagering** (such as roulette and baccarat), two customers can cover both sides of an even bet to give the appearance of legitimate gaming activity while minimising losses.
- q. Games that permit **rapid turnover of cash or CVIs** are vulnerable to money laundering. This vulnerability is exacerbated where the game is automated and not face-to-face.
- r. **Chips and other CVIs are highly transferable** and may be handed over to third parties or removed from casinos and used as currency by criminal groups, or taken out of the jurisdiction as a means of transferring value. The chips may be returned to the casino by third parties and cashed out, including in amounts below a reporting threshold.
- s. **Purchase of CVIs such as tickets** means a money laundering typology whereby individuals purchase CVIs from other customers using illegitimate funds and claim winnings.
- t. The acceptance of **bank cheques** made out to casinos may facilitate money laundering. Bank cheques are essentially anonymised, as the casino cannot identify the source of the funds. A customer may use the bank cheque to purchase CVIs, which may then be converted to cash.

- u. **Bill Stuffing** involves a customer putting cash into an electronic gaming machine (**EGM**), collecting tickets with nominal gaming activity, then cashing out or asking for a cheque.
- v. Casinos are also vulnerable to **refining**, which involves changing of an amount of money from smaller denomination bills into larger ones.
- w. **Loan sharking** is when a person lends money in exchange for its repayment at an excessive interest rate, and may involve intimidating or illegal methods to obtain repayment. Although there is no specific offence for loan sharking, the conduct of a loan shark may breach other laws.
- x. Money may be **parked** in gaming accounts. Parking of illicit money puts distance between the act or acts that generated the illicit funds and the ultimate recipients of those funds, making it harder to understand or trace the flow of money. Gaming accounts can be used to park or hide funds from law enforcement and relevant authorities.

Particulars

Vulnerabilities of Casinos and Gaming Sector, FATF/APG Report, (March 2009), Financial Action Task Force / Asia/Pacific Group on Money Laundering (**FATF/APG Casino Typologies Report**).

Detect and Report Cuckoo Smurfing: Financial Crime Guide, (June 2021), AUSTRAC and Fintel.

Junket Tour Operations in Australia: Money Laundering and Terrorism Financing Risk Assessment, (2020), AUSTRAC (**AUSTRAC Junket Assessment**).

FATF - Risk Based Approach Guidance for Casinos, (October 2008) (**FATF RBA Guidance**).

- 26. At all times, Star Sydney and Star Qld were exposed to the vulnerabilities and ML/TF typologies pleaded at paragraph 25 with respect to the provision of designated services.
- 27. By reason of the matters pleaded at paragraphs 16 to 26, the provision of designated services by Star Sydney and Star Qld involves higher ML/TF risks.

THE AML/CTF PROGRAM

- 28. A reporting entity must not commence to provide a designated service to a customer unless the reporting entity has adopted and maintains an anti-money laundering and counter-terrorism financing program (**AML/CTF program**), within the meaning of s83 of the Act, that applies to the reporting entity.

Particulars

Sections 81(1) and 83 of the Act and rule 1.2.1 of the Rules.

- 29. An AML/CTF program is relevantly defined to include a standard AML/CTF program and a joint AML/CTF program.

Particulars

Section 83(1)(a) and (b) of the Act.

Joint AML/CTF Program

30. A joint AML/CTF program is:
- a. a written program that applies to each reporting entity that belongs to a particular designated business group (**DBG**); and
 - b. divided into Part A (general) and Part B (customer identification).

Particulars

Section 85(1) of the Act.

31. At all times on and from 30 November 2016, Star Sydney and Star Qld were members of a DBG (the **Star DBG**).

Particulars

The definition of designated business group is in s5 of the Act.

32. Part A of a joint AML/CTF program is a part the primary purpose of which is to:
- a. identify; and
 - b. mitigate; and
 - c. manage

the risk each of those reporting entities within a DBG may reasonably face that the provision by the relevant reporting entity of designated services at or through a permanent establishment of the relevant reporting entity in Australia might (whether inadvertently or otherwise) involve or facilitate money laundering or terrorism financing (as defined in paragraph 11, **ML/TF risk**).

Particulars

Section 85(2)(a) of the Act.

33. Part A of a joint AML/CTF program must comply with the Rules.

Particulars

Section 85(2)(c) of the Act.

34. Part B of a joint AML/CTF program is a part the sole or primary purpose of which is to set out the applicable customer identification procedures (**ACIPs**) for the purposes of the application of the Act to customers of the reporting entities in the DBG.

Particulars

Section 85(3)(a) of the Act.

35. Part B of a joint AML/CTF program must comply with the Rules.

Particulars

Section 85(3)(b) of the Act.

The Rules - The joint Part A Program

36. Section 85(2)(c) of the Act requires a joint Part A program to comply with requirements specified in the Rules including:

- a. rule 9.1.3 which requires each reporting entity in a DBG, when putting in place appropriate risk-based systems or controls, to have regard to the nature, size and complexity of the reporting entity's business and the type of ML/TF risk that the reporting entity might reasonably face;
- b. rule 9.1.4 which requires each reporting entity in a DBG, in identifying its ML/TF risk, to consider the following factors:
 - i. its customer types, including any PEPs;
 - ii. the types of designated services it provides;
 - iii. the methods by which it delivers designated services; and
 - iv. the foreign jurisdictions with which it deals;
- c. rule 9.1.5 which requires the joint Part A program to be designed in a way so as to enable each reporting entity in the DBG to:
 - i. understand the nature and purpose of the business relationship with its customer types;
 - ii. understand the control structure of non-individual customers;
 - iii. identify significant changes in ML/TF risk for the purposes of its Part A and Part B programs, including (a) risks identified by consideration of the factors in rule 9.1.4 and (b) risks arising from changes in the nature of the business relationship, control structure, or beneficial ownership of its customers;
 - iv. recognise such changes in ML/TF risk for the purposes of the requirements of its Part A and Part B programs;
 - v. identify, mitigate and manage any ML/TF risk arising from: (a) all new designated services prior to introducing them to the market; (b) all new methods of designated service delivery prior to adopting them; (c) all new or developing technologies used for the provision of a designated service prior to adopting them; and (d) changes arising in the nature of the business relationship, control structure or beneficial ownership of its customers;
- d. rule 9.4.1 which, except where rule 9.4.2 applies, requires a joint Part A program to be approved by the governing board and senior management of each reporting entity in the DBG. A joint Part A must also be subject to the ongoing oversight of each reporting entity's governing board and senior management. Rule 9.4.2 provides that where each member of a DBG is related to the other members, the joint Part A program may be approved by and subject to the ongoing oversight of the governing board and senior management of the main holding company of the group.
- e. rule 9.5.1 which requires the joint Part A program to provide for the DBG to designate a person as the AMLCO at the management level; and
- f. rule 9.6 which requires that the joint Part A program be subject to regular independent review and in the manner provided for under the rule.

The Rules - Carrying out the applicable customer identification procedures (ACIPs) and the joint Part B Program

37. Reporting entities are required to carry out ACIPs to identify customers, generally before commencing to provide a designated service.

Particulars

Section 32 of the Act.

38. Exceptions to this general rule apply in relation to some designated services provided by Star Sydney and Star Qld.

Particulars

Chapter 10 of the Rules made under s39 of the Act.

39. Chapter 10 of the Rules relevantly provide:

- a. The obligation in s32 of the Act does not apply in respect of a designated service under items 1, 2, 4, 6, 7, 8 or 9 of table 3, s6 that involves an amount of less than \$10,000.

Particulars

Rule 10.1.4 of the Rules (from 30 November 2016 to 16 June 2021).

Rule 10.1.3 of the Rules (from 17 June 2021).

- b. The obligation in s32 of the Act does not apply in respect of a designated service under items 1, 2, 4, 6 or 9 of table 3, s6 that involves:
- i. an amount of less than \$10,000; and
 - ii. the customer giving or receiving only gaming chips or tokens.

Particulars

Rule 10.1.5 of the Rules (from 30 November 2016 to 16 June 2021).

Rule 10.1.4 of the Rules (from 17 June 2021).

- c. The exemptions in rules 10.1.3 and 10.1.4 do not apply in circumstances where a reporting entity determines in accordance with its enhanced customer due diligence (**ECDD**) program that it should obtain and verify any know your customer (**KYC**) information in respect of a customer in accordance with its customer identification program.

Particulars

Rule 10.1.6 of the Rules (from 30 November 2016 to 16 June 2021).

Rule 10.1.5 of the Rules (from 17 June 2021).

40. Rule 14.4 of the Rules relevantly provides that the obligation in s32 of the Act does not apply to a designated service under item 14, table 3, s6 (foreign exchange):
- a. where the value of the currency is less than \$1,000 (in Australian dollars or foreign equivalent); and
 - b. the proceeds and/or funding source of the designated service is in the form of physical currency.

41. The exemption in rule 14.4 does not apply where a reporting entity determines in accordance with its ECDD program that it should obtain and verify any KYC information about a customer in accordance with its customer identification program.

Particulars

Rule 14.5 of the Rules.

42. Section 85(3)(b) of the Act requires a joint Part B program to comply with the requirements specified in Chapter 4 of the Rules which include the following:
- a. Relevantly, rule 4.1.3 provides that for the purposes of meeting the requirements of Chapter 4 of the Rules, a reporting entity must consider the risk posed by the following factors when identifying its ML/TF risk:
 - i. its customer types, including any PEPs;
 - ii. its customers' sources of funds and wealth;
 - iii. the nature and purpose of the business relationship with its customers;
 - iv. the types of designated services it provides;
 - v. the methods by which it delivers designated services (or channel); and
 - vi. the foreign jurisdictions with which it deals.
 - b. Rule 4.2.2 requires a Part B program to include appropriate risk-based systems and controls that are designed to enable the reporting entity to be reasonably satisfied that a customer who is an individual is the individual that he or she claims to be.
 - c. Rule 4.2.3 requires a Part B program to include a procedure for the reporting entity to collect, at a minimum, the following KYC information about an individual: full name, date of birth, and residential address.
 - d. Rule 4.2.5 requires a Part B program to include appropriate risk-based systems and controls for the reporting entity to determine whether any other additional KYC information will be collected in addition to this information.
 - e. Rule 4.2.6 requires a Part B program to include a procedure for the reporting entity to verify, at a minimum, the customer's full name and either the customer's date of birth or their residential address.
 - f. Rule 4.2.8 requires a Part B program to include appropriate risk-based systems and controls for the reporting entity to determine whether any additional KYC information should be verified.
 - g. Rules 4.2.10 to 4.2.14 set out safe-harbour ACIPs for individual customers whose risk is medium or lower.
 - h. Part 4.11 of the Rules makes provision for ACIPs for agents of customers.
 - i. Rule 4.11.2 requires a Part B program to include a procedure for the reporting entity to collect, at a minimum:
 - i. the full name of each individual who purports to act for or on behalf of the customer with respect to the provision of a designated service by the reporting entity; and
 - ii. evidence (if any) of the customer's authorisation of any such individual.

- j. Rule 4.11.3 requires a Part B program to include appropriate risk-based systems and controls for the reporting entity to determine whether and to what extent it should verify the identity of individuals (either the customer or their purported agents).
- k. Part 4.13 of the Rules provides for the collection and verification of PEP information.
- l. Rule 4.13.1 requires a Part B program to include appropriate risk-management systems to determine whether a customer or beneficial owner is a PEP; either before the provision of a designated service to the customer or as soon as practicable after the designated service has been provided.
- m. For domestic PEPs and international organisation PEPs, rule 4.13.2 requires a Part B program to determine whether the person is of high ML/TF risk.
- n. If the person is a domestic PEP or international organisation PEP who has been assessed as posing a high ML/TF risk, or if the person is a foreign PEP, then rules 4.13.2(3) and 4.13.3 respectively require a Part B program to include appropriate risk-management systems for the reporting entity to undertake each of the following steps:
 - i. comply with identification requirements in rules 4.2.3 to 4.2.9 of the Rules in the case of a beneficial owner;
 - ii. obtain senior management approval before establishing or continuing the business relationship;
 - iii. take reasonable measures to establish the PEP's source of wealth and source of funds; and
 - iv. comply with Chapter 15 of the Rules.

THE STAR SYDNEY AND STAR QLD AML/CTF PROGRAMS

43. At all times on and from 30 November 2016, Star Sydney and Star Qld could not commence to provide a designated service to a customer unless they:
- a. each adopted and maintained a standard AML/CTF program; or
 - b. jointly adopted and maintained a joint AML/CTF program.

Particulars

Sections 81(1), 83, 84 and 85 of the Act.

Section 81(1) is a civil penalty provision: s81(2) of the Act.

Star Sydney and Star Qld's Joint AML/CTF Program

44. On and from 30 November 2016, Star Sydney and Star Qld each purported to adopt and maintain a Part A joint AML/CTF program (the **Joint Part A Program**).

Particulars

Version 4 effective from 29 September 2016 to 21 August 2017;

Version 5 effective from 22 August 2017 to 7 February 2018;

Version 6 effective from 8 February 2018 to 30 October 2018;

Version 7 effective from 31 October 2018 to 19 February 2019;

Version 8 effective from 20 February 2019 to 31 October 2019;

Version 9 effective from 1 November 2019 to 31 May 2020;

Version 10 effective from 1 June 2020 to 30 August 2022;

Version 11.1 effective from 31 August 2022.

The Joint Part A Program also comprised the following:

A. The Star Entertainment Group AML/CTF Risk Management and Assessment Framework (the **AML/CTF Framework**), implemented from 1 November 2019 (version 1.2). Earlier versions (version 1 dated 31 October 2018 to 23 July 2019 and version 1.1 dated 24 July 2019 to 31 October 2019) were approved but not implemented.

B. The Star Entertainment Group Enhanced Customer Due Diligence Standard (the **ECDD Standard**).

(Version 1 effective from 1 November 2019 to 10 November 2019; Version 1.1 effective from 11 November 2019 to 29 February 2020; Version 1.2 effective from 1 March 2020 to 30 August 2022; Version 2 effective from 31 August 2022).

C. The Star Entertainment Group Transaction Monitoring and AUSTRAC Reporting Standard (the **TMP and Reporting Standard**).

(Version 1 effective from 1 November 2019 to 16 March 2021; Version 2 effective from 17 March 2021 to 12 May 2021; Version 3 effective from 13 May 2021).

D. The AML/CTF Standard Operating Procedures (**AML SOPs**).

(Versions dated August 2015, 1 June 2018, 1 November 2019, 1 June 2020, 1 July 2021).

45. On and from 30 November 2016, Star Sydney and Star Qld each purported to adopt and maintain a Part B joint AML/CTF program (the **Joint Part B Program**).

Particulars

Version 4 effective from 29 September 2016 to 21 August 2017;

Version 5 effective from 22 August 2017 to 7 February 2018;

Version 6 effective from 8 February 2018 to 30 October 2018;

Version 7 effective from 31 October 2018 to 19 February 2019;

Version 8 effective from 20 February 2019 to 31 October 2019;

Version 9 effective from 1 November 2019 to 31 May 2020;

Version 10 effective from 1 June 2020 to 30 August 2022;

Version 11.1 effective from 31 August 2022.

The Joint Part B Program also comprised:

The Star Entertainment Group Know Your Customer Standard.

(Version 1 effective from 1 November 2019 to 31 May 2020; Version 2 effective from 1 June 2020 to 30 August 2022; Version 3 effective from 31 August 2022).

46. At no time from 30 November 2016 did either Star Sydney or Star Qld purport to adopt and maintain a standard AML/CTF program.

STAR'S INFORMATION MANAGEMENT SYSTEMS

47. Star Sydney and Star Qld had multiple information management systems to record information relevant to its customers and the provision of designated services.
48. At all times **Synkros** was the information management system used by Star Sydney and Star Qld to record:
- a. gaming activity;
 - b. buy-in and pay-out or cash-out transactional data;

Particulars

The '**buy-in**' stage is when a customer purchases chips, tickets, or other CVIs in order to commence gambling.

The '**pay-out**' or '**cash-out**' stage is when a customer converts chips, tickets, other CVIs or gaming machine credits to money.

- c. customer account transactions;

Particulars

Customer accounts on which transactions were recorded included front money accounts (**FMAs**); safekeeping accounts (**SKAs**); cashless wagering accounts (**CWAs**); cheque cashing facilities (**CCFs**); loyalty accounts; and membership accounts.

See paragraph 253 as to the details relating to transactions that were recorded, and not recorded, with respect to FMAs and SKAs.

- d. customer profiles;
- e. KYC information;
- f. customer risk ratings;
- g. notifications relating to customer information and exclusions;

Particulars

See paragraph 174.

- h. threshold transaction reporting; and
 - i. foreign exchange transactions.
49. At all times Synkros interfaced with and captured data from, or shared data with, other Star Sydney and Star Qld systems, including:
- a. table gaming and EGM activity database, **Game Connect**;

Particulars

The Star Sydney and Star Qld casinos used Game Connect to capture carded transactional and win/loss data at a gaming table. Game Connect also captured carded play on an EGM or Electronic Table Game (**ETG**).

Each of Star Sydney, Treasury Brisbane casino and Star Gold Coast casino maintained their own, separate versions of Game Connect.

The records made on Game Connect are described at paragraphs 566 to 569.

- b. the **Angel Eye** gaming surveillance system from mid to late-2020;
- c. the AML case management systems, **Protecht** until 16 April 2021 and **TrackVia** from 17 April 2021 (see paragraph 58);
- d. the investigations case management system, **iBase**, from June 2019;

Particulars

Information regarding customers under investigation by the Investigations team was recorded in iBase.

iBase was a SEG wide database used by all SEG casinos.

Paragraph 157(c).

- e. the Casino Information Database (**CID**), which was a database used to log events, operational activities, customer exclusions and interrogate reports.

Particulars

CID recorded details of customer identification information, customers who had been excluded, manual reviews of customer gaming activity, and staff observations of suspicious transactions involving customers.

Paragraph 59, 174 to 175.

- 50. Star Sydney and Star Qld used the International Rebate Business Management System (**IRBMS**) to:
 - a. record the betting data and to track chip exchange activities of customers playing on an individual rebate program and on junkets; and
 - b. calculate the rebate payable to a customer based on their gaming activity.
- 51. Synkros did not automatically interface with IRBMS although some transaction data relating to rebate play was entered on to Synkros.

Particulars

The information that is generated through play on an EGM and ETG automatically transfers to Synkros. Table games records are manually recorded in Game Connect and automatically transferred into Synkros. The customer's betting data and track chip exchange activities are manually recorded in the handle app and Roll over app respectively and automatically transferred to IRBMS.

- 52. From November 2017, the Credit and Collections team in SEG maintained a document storage and record keeping database known as **OnBase**, which contained:

- a. documents related to CCF approval workflows including customer application forms, screening searches, KYC identification documents, and the Credit Establishment Authorisation Form including the Risk Matrix;
- b. records relating to background and creditworthiness checks, including records relating to source of wealth, source of funds and credit checks; and
- c. records related to transactions through the Hotel Card channel.

Particulars

Paragraph 503 and 157(d).

- 53. Prior to November 2017, Credit and Collections maintained hard copy records. From November 2017, these hard copy records were uploaded to OnBase as historical records.
- 54. From November 2017, hard copy records obtained by the Star Sydney or Star Qld Cage relating to Credit & Collection workflows were also uploaded manually to the customer's OnBase file.
- 55. Star Sydney used **TBoss** until December 2018 and then **GES**, to record guest tournament transactions in relation to poker tournaments.
- 56. Star Qld used Tboss, Card Room Magic and excel spreadsheets to record guest tournament transactions in relation to poker tournaments. GES was introduced in September 2019 at Star Gold Coast casino and December 2021 at Treasury Brisbane casino.
- 57. Synkros did not interface with and did not capture, or share transactional data from, TBoss and GES.
- 58. Protecht (until 16 April 2021) and TrackVia (from 17 April 2021) were the compliance and risk case management systems used by Star Sydney and Star Qld to record:
 - a. KYC and ECDD information;
 - b. customer risk ratings;
 - c. the customer risk register (as pleaded at paragraph 117);
 - d. customer profiles; and
 - e. analysis of customer transactions.
- 59. Each of Star Sydney, Treasury Brisbane casino and Star Gold Coast casino maintained their own, separate versions of Synkros, Game Connect, IRBMS and CID.

Particulars

The transaction records in each version of Synkros recorded only transactions at the relevant casino site.

Star Sydney, Treasury Brisbane casino and Star Gold Coast casino were unable to automatically collate transaction data in Synkros across casinos for customers that played across multiple SEG casino sites.

Each SEG casino maintained their own CID. From January 2019, Queensland exclusion orders were entered into NSW CID by Star Qld Investigations staff. NSW exclusion orders were entered into Queensland CID by Star Sydney Investigations staff.

CID exclusion details interface with iBase automatically every 24 hrs.

60. Protecht and TrackVia interfaced with and captured some KYC information from other Star Sydney and Star Qld systems, including:
- a. Synkros;
 - b. CID; and
 - c. iBase.

Particulars

KYC information collected in carrying out an ACIP, and other KYC information, was automatically drawn from or shared between Synkros, Protecht and TrackVia.

The AML Administrator would manually check the Protecht system, TrackVia and Synkros systems when new risk information became available any time that a trigger arose, for example during transaction monitoring.

Records entered into TrackVia need to be manually updated in the CMS (Synkros).

Trackvia transaction monitoring alerts (and also Transwatch transaction monitoring alerts) used Synkros data inputs.

61. Customer risk, gaming and transaction data was recorded against multiple patron account numbers and dispersed in multiple IT systems.

Particulars

Where a customer was risk rated, Star Sydney and Star Qld did not consistently record the same risk rating or risk information against all patron account numbers. Consequently, where a customer had multiple patron account numbers, different risk ratings and risk information could be recorded for the same customer against different numbers.

Star Sydney and Star Qld were unable to automatically collate transaction data where a customer had multiple accounts.

Paragraphs 764, 847 and 848.

62. The risk-based procedures, systems and controls in Star Sydney and Star Qld's AML/CTF Programs were not capable, by design, of complying with the requirements of the Act and Rules including because Star Sydney and Star Qld's information management systems did not enable these risk-based procedures, systems and controls to operate as intended.

Particulars

See paragraphs 157, 566 to 569, 666 to 670, 751 to 765 and 843.

The procedures, systems and controls were not capable, by design, of operating in the manner described in the Star Sydney and Star Qld's AML/CTF Programs due to the deficiencies in the information management systems. Consequently, the Star Sydney and Star Qld Joint Part A Programs did not establish risk-based systems and

controls whose primary purpose was to identify, mitigate and manage
ML/TF risk.

Section 85(2)(a) and (c) of the Act and rule 9.1.3 of the Rules.

THE AML/CTF PROGRAM CONTRAVENTIONS – SECTION 81

The Joint Program - Part A and Part B

63. A reporting entity cannot adopt and maintain a joint AML/CTF program for the purposes of s81 of the Act unless it has adopted and maintained both a:
- a. joint Part A program that meets the requirements of s85(2) of the Act and Chapters 9 and 15 of the Rules (made under s85(2)(c)); and
 - b. joint Part B program that meets the requirements of s85(3) of the Act and Chapter 4 of the Rules (made under s85(3)(b)).

Particulars

Section 85(1) of the Act.

The Joint Part A Programs

64. A reporting entity cannot adopt and maintain a Joint Part A program for the purposes s81 of the Act unless the Part A program complies with the requirements of:
- a. section 85(2)(a) of the Act;
 - b. section 85(2)(c) of the Act; and
 - c. rules made under s85(2)(c) of the Act, including Chapters 9 and 15 of the Rules.
65. From 30 November 2016, the Star Sydney and Star Qld Joint Part A Programs (the **Joint Part A Programs**) did not meet the requirements of s85(2) of the Act and Chapters 9 and 15 of the Rules because the Joint Part A Programs did not:
- a. have the **primary purpose of identifying, mitigating and managing the ML/TF risks** that Star Sydney and Star Qld each reasonably faced and did not comply with the requirements of the Rules;

Particulars

Sections 85(2)(a) and (c) of the Act and rules 9.1.3, 9.1.4, 9.1.5, 9.4.9.6 and 9.7 of the Rules.

See paragraphs 74 to 707.

- b. include a **transaction monitoring program** that complied with the requirements of the Rules;

Particulars

Section 85(2)(c) of the Act and rules 9.1.3, 9.1.4, and 15.4 to 15.7 of the Rules.

See paragraphs 708 to 791.

- c. include an **enhanced customer due diligence program** that complied with the requirements of the Rules;

Particulars

Section 85(2)(c) of the Act and rules 1.2.1, 9.1.3, 9.1.4 and 15.8 to 15.11 of the Rules.

See paragraphs 792 to 852.

- d. include systems and controls designed to ensure Star Sydney and Star Qld complied with the **reporting requirements under Part 3 of the Act**.

Particulars

Rule 9.9.1(2) of the Rules, made for the purposes of s85(2)(c) of the Act.

See paragraphs 853 to 858.

- 66. By reason of the matters pleaded in paragraphs 64 and 65, Star Sydney and Star Qld did not adopt and maintain a joint Part A program for the purposes of s81 of the Act from 30 November 2016.
- 67. By reason of the matters pleaded in paragraphs 6, 7, 63 and 66, Star Sydney and Star Qld commenced to provide designated services from 30 November 2016 in contravention of s81(1) of the Act.
- 68. By reason of the matters pleaded in paragraph 67, Star Sydney and Star Qld each contravened s81(1) of the Act on each occasion that they provided a designated service from 30 November 2016.

Particulars

Section 81(1) of the Act is a civil penalty provision: s81(2) of the Act.

The Joint Part B Programs

- 69. A reporting entity cannot adopt and maintain a joint Part B program for the purposes of s81 of the Act unless the Part B program complies with the requirements of:
 - a. section 85(3)(a) of the Act;
 - b. section 85(3)(b) of the Act; and
 - c. rules made under s85(3)(b) of the Act, including Chapter 4 of the Rules.
- 70. From 30 November 2016, the Star Sydney and Star Qld Joint Part B Programs (the **Joint Part B Programs**) did not comply with the requirements of s85(3) of the Act because they did not:
 - a. set out the ACIPs for the purposes of the application of the Act to all customers of Star Sydney and Star Qld: s85(3)(a); and
 - b. comply with requirements of Chapter 4 of the Rules made under s85(3)(b) of the Act.

Particulars

Chapter 10 and rule 14.4 of the Rules made under s39 of the Act.

See paragraphs 859 to 873.

- 71. By reason of the matters pleaded in paragraph 70, Star Sydney and Star Qld did not adopt and maintain a joint Part B program for the purposes s81 of the Act from 30 November 2016.
- 72. By reason of the matters pleaded in paragraphs 6, 7, 69 and 71 Star Sydney and Star Qld commenced to provide designated services from 30 November 2016 in contravention of s81(1) of the Act.

73. By reason of the matters pleaded in paragraph 72, Star Sydney and Star Qld each contravened s81(1) of the Act on each occasion that they provided a designated service from 30 November 2016.

Particulars

Section 81(1) of the Act is a civil penalty provision: s81(2) of the Act.

THE JOINT AML/CTF PROGRAM CONTRAVENTIONS – s81

The primary purpose of identifying, mitigating and managing ML/TF risks reasonably faced

74. From 30 November 2016, the Joint Part A Programs did not:
- a. have the primary purpose of identifying, mitigating and managing the ML/TF risks that each reporting entity reasonably faced with respect to designated services for the purposes of s85(2)(a); and
 - b. comply with the requirements specified in the Rules for the purposes of s85(2)(c) for the reasons pleaded at paragraphs 75 to 78 below.
75. The Joint Part A Programs did not include an appropriate **risk methodology** that was capable of appropriately identifying and assessing the ML/TF risks of designated services provided by Star Sydney and Star Qld for the reasons pleaded at paragraphs 79 to 92.
76. The Joint Part A Programs were not **aligned to the ML/TF risks reasonably faced** by Star Sydney and Star Qld with respect to the provision of designated services for the reasons pleaded at paragraphs 93 to 193.
77. The Joint Part A Programs did not include or establish an **appropriate approval and oversight framework** that was capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld and of meeting the requirements of the Rules for the reasons pleaded at paragraphs 194 to 235.
78. The Joint Part A Programs did not include **appropriate risk-based systems and controls** that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to:
- a. **Gaming accounts**, including:
 - i. Front money accounts (**FMA**s) and safekeeping accounts (**SKA**s), for the reasons pleaded at paragraphs 243 to 289;
 - ii. Cashless wagering accounts (**CWA**s), for the reasons pleaded at paragraphs 290 to 303;
 - b. **Remittance services**, for the reasons pleaded at paragraphs 304 to 493;
 - c. **Loans and transactions relating to loans**, relating to cheque cashing facilities (**CCF**s) for the reasons pleaded at paragraphs 495 to 553;
 - d. The **exchange of money for casino value instruments such as chips and tickets (and vice-versa)**, for the reasons pleaded at paragraphs 554 to 558;
 - e. **Table games and electronic gaming machines**, for the reasons pleaded at paragraphs 559 to 581;

- f. **Foreign currency exchange**, for the reasons pleaded at paragraphs 582 to 590;
- g. **Designated services provided in foreign currency**, for the reasons pleaded at paragraphs 591 to 594;
- h. **Safe deposit boxes**, for the reasons pleaded at paragraphs 595 to 610;
- i. **Designated services provided in cash**, for the reasons pleaded at paragraphs 611 to 617;
- j. **Designated services provided through junket and rebate channels**, for the reasons pleaded at paragraphs 619 to 707.

Risk methodologies

79. A joint Part A program will not be capable, by design, of identifying, mitigating and managing ML/TF risks if it does not include an appropriate risk methodology to identify and assess the ML/TF risks of the designated services provided by the reporting entities.

Particulars

Sections 85(2)(a) and (c) of the Act and rules 9.1.3, 9.1.4 and 9.1.5 of the Rules.

80. From 30 November 2016, the Joint Part A Programs did not include or incorporate an appropriate risk methodology that was capable of appropriately identifying and assessing the ML/TF risks of designated services provided by Star Sydney and Star Qld for the reasons pleaded at paragraphs 81 to 92 below.

Particulars

Sections 85(2)(a) and (c) of the Act and rules 9.1.3, 9.1.4 and 9.1.5 of the Rules.

81. Prior to November 2019, the Joint Part A Programs did not include any methodology to assess the inherent ML/TF risks of designated services.

Particulars

KPMG advised SEG in its report dated 16 May 2018 (**KPMG report**) that the Joint Part A Program did not include an adequately documented ML/TF risk assessment methodology on which its ML/TF assessments had been performed. KPMG rated this finding high risk.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

Rule 9.1.4(2) of the Rules.

82. In October 2018, the SEG Board Risk and Compliance Committee approved the AML/CTF Framework.

Particulars

Paragraphs 44 and 198.

The primary objective of the framework was to provide guidance on how to conduct assessments of the ML/TF risks of SEG casinos.

83. The AML/CTF Framework was not implemented until November 2019.

Particulars

From November 2019, the Joint Part A Programs provided that:

- A. the assessment and management of ML/TF risks relating to the provision of designated services was to be determined in accordance with the AML/CTF Framework; and
- B. details of risk assessments conducted in respect of individual products and services, were to be maintained in the Risk Registers (described at paragraph 100).

Star Sydney and Star Qld did not develop or start to implement any AML/CTF risk assessment procedures or tools until November 2019.

84. The AML/CTF Framework did not provide for an appropriate methodology for the assessment, weighting or rating of the inherent risk attributes reasonably faced by Star Sydney and Star Qld with respect to the designated services they provided.

Particulars

The AML/CTF Framework set out some risk attributes of designated services and some indicators of money laundering activities. The framework also set out risk rating categories.

However, the AML/CTF Framework did not set out any methodology for assessing, rating and weighting the complete set of risk attributes of designated services.

Rules 9.1.3 and 9.1.4 of the Rules.

85. From November 2019, the Risk Registers (as pleaded at paragraph 100) contained a generic risk matrix.
86. The risk matrix in the Risk Registers did not provide an appropriate methodology for the assessment, weighting or rating of the inherent risk attributes reasonably faced by Star Sydney and Star Qld with respect to the designated services they provided.

Particulars

Rules 9.1.3 and 9.1.4 of the Rules.

See paragraphs 13 to 27 above.

87. At no time did the Joint Part A Programs include or incorporate a methodology to appropriately consider the risk factor of channel in assessing the ML/TF risks posed by designated services provided by Star Sydney and Star Qld.

Particulars

Rule 9.1.4(3) of the Rules.

Channel risks are pleaded at paragraph 180.

Prior to November 2019, the Joint Part A Programs acknowledged that designated services that were not provided face-to-face were higher risk, but did not acknowledge which designated services were not provided face-to-face.

From November 2019, the AML/CTF Framework stated that all designated services were provided face-to-face with the exception of those provided through junkets, electronic gaming machines (**EGMs**) or electronic table games (**ETGs**) and electronic funds transfers.

However, at no time did the Joint Program or the AML/CTF Framework provide for a methodology to identify, assess, rate or weight the risk attributes associated with the provision of designated services through different channels – whether face-to-face or non-face-to-face.

From November 2019, some channel risks were factored into the customer risk assessment tool (**CRT**) in the assessment of composite customer risk. For this purpose, telegraphic transfers were recognised as high risk and face-to-face channels were recognised as low risk. The CRT did not have appropriate regard to other channels risks.

88. At no time did the Joint Part A Programs include or incorporate any methodology to consider the ML/TF risks posed by the customer types receiving designated services provided by Star Sydney and Star Qld.

Particulars

Rule 9.1.4(1) of the Rules.

Prior to 1 November 2019, the Joint Part A Programs did not include any methodology to assess customer risk.

From 1 November 2019, the CRT was being developed.

The customer risk assessment tool was to be used through TrackVia which was not implemented until April 2021. It was not until July 2021 that the AML SOPs included a procedure for the AML Administrators to refer to the customer risk assessment tool for the purposes of customer risk assessments.

The CRT was not an appropriate risk methodology for customer risk. The CRT did not consider the ML/TF risk factors of all customer types. Nor did it appropriately consider the ML/TF risks factors identified at paragraph 110.

89. At no time did the Joint Part A Programs include appropriate criteria or risk parameters for categorising customer types who were not low risk.

Particulars

Paragraph 112.

90. Prior to 1 November 2019, the Joint Part A Programs did not include or incorporate a methodology to appropriately consider the risk factor of foreign jurisdictions in assessing the ML/TF risks posed by designated services provided by Star Sydney and Star Qld.

Particulars

Rule 9.1.4(4) of the Rules.

Jurisdictional risks are pleaded at paragraph 181.

Prior to November 2019, Star Sydney and Star Qld did not apply risk ratings to individual jurisdictions.

From November 2019, the Jurisdictional Risk Tool (**JRT**) was included in the Joint Part A Programs. From November 2019, jurisdictional risk was intended to be factored into customer risk.

91. The Joint Part A Programs did not include or incorporate a methodology to appropriately assess the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to complex designated service chains, having regard to the nature, size and complexity of their businesses including that:
- a. during the course of a visit to the casino, customer funds could be moved through cash, gaming chips and gaming accounts (table 3, s6 services), and transferred to or from third parties, another casino, or a domestic or foreign bank (items 31 and 32, table 1, s6 and item 13, table 3 s6 services);
 - b. the designated services provided to customers could involve long and complex transactional value chains ranging from receipt of funds, account management, gaming activities and outward disbursement of funds; and
 - c. these transactional chains involved different channels and jurisdictions.

Particulars

There was no methodology or process by which composite risk ratings would be reflected in the risk or control framework to identify, mitigate and manage the ML/TF risks of designated services. Nor was there any methodology that addressed that designated services provided to customers could involve long and complex transactional value chains. The CRT did not address these factors.

Rules 9.1.3 and 9.1.4 of the Rules.

92. The Joint Part A Programs did not include a methodology to assess the residual ML/TF risks of designated services provided by Star Sydney and Star Qld, once risk-based controls had been applied.

Particulars

Rules 9.1.3 and 9.1.4 of the Rules.

Prior to 1 November 2019, the Joint Part A Programs provided that residual risk was the risk that the provision of designated services facilitates ML/TF after applying minimum KYC. This was not an appropriate methodology to determine residual risk. Customer identification in accordance with Part 2 of the Act is not a control that reduces the inherent risk of designated services.

From 1 November 2019, the Risk Registers required control effectiveness to be rated but did not provide for an appropriate methodology against which: (1) the inherent risks of designated services could be appropriately assessed; (2) the controls applying to each of those designated services would be identified, and (3) the effectiveness of those controls could be assessed as against the inherent risks of each designated service.

Alignment of the Joint Part A Programs to ML/TF risk

93. Once reporting entities identify the ML/TF risks they reasonably face, and carry out an assessment of those risks in accordance with an appropriate ML/TF risk methodology, the reporting entities must align their Joint Part A Program to those risks as assessed.

Particulars

Sections 85(2)(a) and (c) of the Act and rules 9.1.3 and 9.1.4 of the Rules.

94. In aligning a Joint Part A Program to the ML/TF risks reasonably faced, the reporting entities must have regard to:
- a. the nature, size and complexity of their business; and
 - b. the type of ML/TF risks they reasonably face.

Particulars

Rule 9.1.3 of the Rules.

95. When having regard to the ML/TF risks they reasonably face, reporting entities must have regard to the risk factors of:
- a. designated services;
 - b. customers;
 - c. channel; and
 - d. foreign jurisdictions.

Particulars

Rule 9.1.4 of the Rules.

96. The ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services are also dynamic.
97. Reporting entities must review and update ML/TF risk assessments, at intervals that are appropriate having regard to the nature, size and complexity of their business.

Particulars

Rules 9.1.3 and 9.1.5 of the Rules.

98. For the reasons pleaded in paragraphs 99 to 181, at no time were the Joint Part A Programs aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld having regard to the requirements pleaded at paragraphs 93 to 97.

No ML/TF risk assessment prior to November 2019

99. At no time prior to November 2019 did Star Sydney or Star Qld purport to carry out an assessment of the ML/TF risks they each reasonably faced with respect to the provision of designated services.

Particulars

The versions of the Joint Part A Program prior to November 2019 contained a statement in Appendix C or Appendix B, which was presented as a risk assessment. The statement noted, at a high level, the risk factors for table games and EGMs, but was based on a generic industry risk assessment dated from around 2009. The statement did not consider the ML/TF risks specific to Star Sydney or Star Qld. Nor did the appendices consider designated services provided under table 1, s6 of the Act.

In its 16 May 2018 report, KPMG advised SEG that the ML/TF risk assessment in the Joint Part A Program was not sufficiently detailed or specific to constitute an adequate ML/TF risk assessment.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

Prior to November 2019, SEG conducted periodic risk assessment workshops chaired by the AMLCO in conjunction with the AML Administrators (and on some occasions, representatives of gaming and cage management team). These workshops did not constitute a risk assessment of the ML/TF risks Star Sydney and Star Qld reasonably faced with respect to the provision of designated services.

Risk registers dated 2016 and 2017 were also prepared. These risk registers did not constitute a risk assessment upon which the Joint Part A Programs were based. These registers listed some high-level ML/TF typologies and vulnerabilities related to 'patron activity risks', but did not assess the risk attributes of each of the designated services provided by SEG casinos.

The risk registers from November 2019

100. From November 2019, the Joint Part A Programs included designated services risk registers (the **Risk Registers**), as amended from time to time.

Particulars

There were two Risk Registers:

- A. the Designated Services Risk Register, dated November 2019;
and

B. the AML Risk Register and Controls, dated 22 June 2022.

From November 2019, cl 3 of the Joint Part A Program provided that:

A. the assessment and management of ML/TF risks relating to the provision of designated services was to be determined in accordance with the AML/CTF Framework; and

B. details of risk assessments conducted in respect of individual products and services, were to be maintained in the Risk Registers.

A designated services risk register was not maintained, and did not form part of the Joint Part A Program prior to November 2019.

From November 2019, the Risk Register was maintained by the AMLCO.

101. The Risk Registers purported to record:

- a. the ML/TF risks reasonably faced by Star Sydney and Star Qld;
- b. the systems and controls intended to mitigate and manage those ML/TF risks; and
- c. the residual ML/TF risk with respect to designated services.

Particulars

The Joint Part A Programs state that the purpose of the Risk Register is to record risk information and current risk ratings for each of the designated services offered by Star Sydney and Star Qld. Details of risk assessments conducted in respect of individual products and services, are maintained in the Risk Register.

Star Sydney and Star Qld purported to use the Risk Register to identify any control weaknesses that would inadvertently enable criminals to exploit their products, services, and delivery methods to facilitate their illegal activity.

SEG viewed the 2019 Risk Register as an intermediate step toward accomplishing a risk assessment of designated services.

102. The Risk Registers did not include an appropriate analysis or assessment of a number of the inherent ML/TF risks that Star Sydney and Star Qld might reasonably have faced with respect to the provision of designated services, including:

- a. the risk attributes with respect to different product or designated service types;
- b. risks with respect to table 1, s6 designated services (financial services);
- c. channel risk, including non-face-to-face channels, junket and rebate channels, private gaming rooms and Star Patron accounts (as defined at paragraph 311);
- d. ML/TF typologies and vulnerabilities (as defined at paragraph 25), including but not limited to:
 - i. customers, including international customers, whose source of funds or wealth is unknown, or if known, is not commensurate with their gambling activities;
 - ii. the involvement of third parties in customer transactions;

- iii. offsetting;
- iv. cuckoo smurfing;
- v. customers attempting to deposit front money or make payments using complex means;
- vi. customers receiving designated services in high value and high volume;
- vii. customer requests for transfers to and from other casinos;
- viii. dramatic increases in gaming activity, including escalating rates of high turnover or high losses; and
- ix. loan sharking.

Particulars

The risks included in the Risk Registers were based on assessments conducted on 12 November 2019 and 20 June 2022.

103. The risks included in the Risk Register had not been assessed in accordance with an appropriate risk methodology.

Particulars

See paragraph 80.

104. The Risk Registers did not include appropriate risk-based controls that, by design, were capable of identifying, mitigating and managing the ML/TF risks reasonably faced Star Sydney and Star Qld.

Particulars

Paragraphs 242 to 707.

Residual risk

105. The controls listed in the Joint Part A Programs prior to November 2019 did not provide a basis for Star Sydney and Star Qld to determine that the residual risk of designated services was low.

Particulars

Sections 8 and 15 of the Joint Part A Program stated that the ML/TF risks of designated services was low or very low.

On 16 May 2018, KPMG advised SEG in its report that a default rating of low ML/TF risk may not have been appropriate due to the cash intensive nature of many casino customers and the lack of a sufficiently detailed ML/TF risk assessment methodology that utilised both domestic and international trusted sources (such as the FATF and AUSTRAC).

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star

Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

106. From November 2019, the controls listed in the Joint Part A Programs and the Risk Registers did not provide a basis for Star Sydney and Star Qld to determine that residual risk was low or medium.

Particulars

Risk assessments were conducted in 2019 and 2021.

In 2019, SEG determined that the overall risk rating for its casinos was low, with some pockets of the organisation that are higher than low, including with respect to table games, EGMs, junkets and safe deposit boxes.

On and from November 2019, the AML/CTF Framework stated that the designated services provided by SEG casinos had low residual risk.

In 2020/21, SEG determined that the overall risk of money laundering or terrorism financing occurring in SEG's casinos was assessed as medium with some pockets of the organisation (International Rebate Business Junkets) that are higher than medium.

The risk assessments did not identify appropriate controls that were capable of reducing residual risk to low or medium.

The ML/TF risks factors - designated services

107. The risk-based systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to each of the designated services they provided under tables 1 and 3, s6 of the Act.
108. At no time did Star Sydney and Star Qld appropriately identify and assess the ML/TF risks of designated services according to an appropriate methodology, as pleaded at paragraph 80 above.
109. At no time did the Joint Part A Programs include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks of the designated services provided by Star Sydney and Star Qld, as pleaded at paragraphs 236 to 707 below.

Particulars

Rule 9.1.4(2) of the Rules.

The ML/TF risk factors - customers

110. The risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to customers, for the reasons pleaded at paragraphs 111 to 179 below.

Particulars

Rules 9.1.4(1), 9.1.5(1), 15.2 and 15.3 of the Rules.

111. As pleaded at paragraph 88, at no time did the Joint Part A Programs include or incorporate any methodology to consider the ML/TF risks posed by the customer types receiving designated services provided by Star Sydney and Star Qld.

Customer type risk classification categories and low default ratings

112. The Joint Part A Programs provided that all Star Sydney and Star Qld customers were automatically rated low ML/TF risk by default (the **default rating**), unless the Programs or a decision made under them required otherwise.

Particulars

Clauses 14 and 15 of the Joint Part A Programs, prior to November 2019.

Since November 2019, the AML/CTF Framework provided guidance in relation to risk ratings. Under the framework, customers were considered low risk by default.

Paragraphs 113 to 114 identify the circumstances in which a customer was required to be rated higher than low.

113. The Joint Part A Programs required the following types of customers to have an automatic medium or moderate risk rating:
- a. special interest foreigners (until November 2019);
 - b. domestic PEPs;
 - c. residents of a prescribed foreign country;
 - d. criminal record holders (until November 2019); and
 - e. customers who are known to be providing funds for junket play, including:
 - i. junket operators and junket funders (from February 2020 to early 2021); and
 - ii. junket key players from February 2020.

Particulars

Clauses 14 and 15 of the Joint Part A Programs, prior to November 2019.

In their Joint Part A Program documents, a rating of medium or moderate risk was expressed by SEG to be equivalent to a rating of 'low' risk in Chapter 4 of the Rules.

Since November 2019, as noted above, the AML/CTF Framework provided guidance in relation to risk ratings.

From 2015 until February 2020, Star Sydney and Star Qld did not automatically assign a pre-determined higher risk rating to customers who were junket operators, representatives, funders or players. These customers were rated low by default.

At all times, manually assigned risk ratings and changes (if any) relating to junket customers occurred at the settlement of a junket.

114. The Joint Part A Programs required the following types of customers to have an automatic high risk rating:
- a. foreign PEPs;
 - b. beneficial owners who are a foreign PEP;
 - c. international organisation PEPs;
 - d. customers known to have engaged in ML/TF;
 - e. special interest foreigners (from November 2019);
 - f. criminal record holders (serious indictable offences where there is monetary gain) (from November 2019);
 - g. junket operators and junket funders from early 2021, as a result of the Junket Operation Risk Assessment released in December 2020.

Particulars

Clauses 14 and 15 of the Joint Part A Programs, prior to November 2019 and the AML/CTF Framework

In their Joint Part A Program documents, a rating of 'high' risk was expressed by SEG to be equivalent to a rating to 'medium' risk in Chapter 4 of the Rules.

Since November 2019, as noted above, the AML/CTF Risk Framework provided guidance in relation to risk ratings.

115. At all times, certain classes of high risk customers could be rated critical or very high risk.

Particulars

Special interest foreigners, foreign PEPs, a customer with a beneficial owner who is a foreign PEP, international organisation PEPs, criminal record holders (serious indictable offences where there is monetary gain) and customers known to have engaged in ML/TF could be rated very high risk.

In their Joint Part A Program documents, a rating of 'very high' risk was expressed by SEG to be equivalent a rating to 'high risk' in Chapter 4 of the Rules.

Prior to November 2019, 'very high' risk was referred to as critical risk.

At all times, foreign PEPs were to be rated critical or very high.

The Joint Part A Programs did not provide any guidance as to when other classes of customers should be considered critical or very high risk.

116. The Joint Part A Program did not set out an appropriate basis for customers to be rated low risk by default, if they did not meet the criteria pleaded at paragraph 113 or 114.

Particulars

On 16 May 2018, KPMG advised SEG in its report that the default low risk rating for customers did not consider in sufficient detail the ML/TF risk posed by specific parts of the business, in particular where the ML/TF risk may be higher. Given the cash intensive nature of transactions conducted by many customers, KPMG considered that a default low risk rating may not be appropriate. Further, KPMG advised that jurisdictional risk was not considered in the default risk rating for customers.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

See paragraph 88.

In setting the default low risk ratings, the Joint Part A Programs did not have appropriate regard to the matters pleaded at paragraphs 139 to 143.

The customer risk register

117. At all times, Star Sydney and Star Qld maintained a register of customers rated medium and above (the **customer risk register**).

Particulars

Prior to April 2021, the customer risk register was maintained on Protecht. From April 2021, it was maintained on TrackVia.

The customer risk register was a central register across all SEG casinos.

All information entered into the customer risk register was completed by the AML Administrator.

118. A number of ongoing due diligence processes in the Joint Part A Programs were reliant upon the customer being entered into the customer risk register.

Particulars

For example, see paragraphs 127 to 130.

Identification, escalation and assessment of customers who were not low risk

119. The Joint Part A Programs did not include appropriate procedures to identify, escalate, and assess and appropriately risk rate customers who were not:

- a. low risk by default; or
- b. low risk

for the reasons pleaded at paragraphs 120 to 144.

Particulars

During the 2017 financial year, The Star Club loyalty program had over 200,000 members and annual visitors across the Star Sydney and Star Qld casinos numbered 18 million. As at December 2017, only 6,039 customers, or 3% of carded members were included on the customer AML Customer Risk Register and assigned a proactive risk rating. Of these, only 306, or 5%, were categorised as high or critical risk. A member was carded if they had Star Club membership or loyalty card).

In its 16 May 2018 report, KPMG advised SEG that some of the customer risk ratings applied appear to understate the level of ML/TF risk.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

120. At all times, there was an AML Administrator role for each of Star Sydney and Star Qld or SEG.

Particulars

The AML Administrator was responsible for the day to day operation of the substantial aspects of the Program.

The AML Administrator was responsible for dealing with AML/CTF matters escalated to them from other parts of the business.

The AML Administrator was also responsible for escalating matters to the AMLCO, and reporting to the AMLCO.

The AML Administrator's duties included undertaking customer screening, updating the customer risk register, conducting enhanced customer due diligence measures and transaction monitoring and reporting to AUSTRAC under Part 3 of the Act.

Prior to October 2018, Star Sydney and Star Qld each had a single AML Administrator role who was responsible for the above tasks with respect to the relevant casino.

From October 2018, a third AML Administrator was engaged.

The AML team and AML Administrators were not appropriately resourced to fulfil their functions and responsibilities.

Paragraph 222.

As at August 2022, there were 18 persons engaged in the AML Administrator role, on a SEG wide basis.

121. At all material times the AML Administrator was responsible for:
- a. determining whether an assessment of a customer's risk should be conducted;
 - b. conducting any such assessment of the customer's risk; and
 - c. referring the customer to the AMLCO to determine any risk rating to be applied to the customer following that assessment.
122. The Patron Activity Monitoring Meeting (the **PAMM**) could also assess a customer's risk.

Particulars

For an explanation of the PAMM, see paragraph 818.

From November 2019, the Joint Part A Programs and the AML SOPs provided the PAMM would generally assess customer risk ratings.

Prior to November 2019, this occurred as a matter of practice including in accordance with the PAMM's terms of reference.

123. Decisions to determine the risk rating to be applied to a customer were either made:
- a. by the AMLCO; or
 - b. through the Joint Risk Assessment meetings (the **JRAM**).

Particulars

Clause 15 of the Joint Part A Programs prior to November 2019, the AML/CTF Step by Step Guide from March 2019 and the AML SOPs.

Pre-November 2019

Prior to November 2019, the Joint Part A Programs provided that moderate exposure to ML/TF risks, generally, required review by responsible department management response with AMLCO sign-off:

Appendix C, clause 1.4 of versions 4-6; Appendix B, Part 2 of versions 7-8.

Prior to November 2019, the Joint Part A Programs provided that moderate to significant exposure to ML/TF risks, generally, required discussion at JRAM, as well as AMLCO sign off: Appendix C, clause 1.4 of versions 4-6; Appendix B, Part 2 of versions 7-8.

In particular, proposed customer risk ratings above medium required consultation with the relevant casino management representatives and, if relevant, approval to update the Risk Register: clause 15 of the Joint Part A Programs.

Post-November 2019

From November 2019, the AML SOPs relevantly required the AMLCO to arrange for the PAMM members to meet to consider various forms of financial and non-financial information pertaining to customers with a view to adding information to the customer risk register and generally assess ML/TF risk (including customer risk ratings).

In accordance with the AML/CTF Step by Step Guide, a JRAM was to be held to discuss all customers raised at the individual SEG property PAMM and discuss the appropriate AML risk rating across all properties. Once the minutes for the JRAM were distributed, the customer risk ratings were added to the customer risk register.

Risk ratings of high or critical/very high were usually on the advice of the AMLCO.

The AML Framework from November 2019 also stated that the AMLCO must be immediately informed of any circumstance where a current or proposed customer is rated as very high. The provision of designated services to the customer must only proceed with the approval of the AMLCO.

However, at all times, the JRAM was authorised to determine customer risk ratings without the input or advice of the AMLCO, for example, if the AMLCO was unable to attend the JRAM.

Although it was chaired by the AML Administrator, the JRAM was a management committee that did not have an expert driven approach to AML.

For an explanation of the JRAM, see from paragraphs 818.

124. At all times, customer risk ratings were applied across all SEG casinos.
125. The AML Administrator, as a delegate for the AMLCO, could determine customer risk ratings in certain circumstances, subject to advice or approval by senior management, the PAMM or JRAM.

Particulars

See the particulars at paragraph 123.

From November 2019, the ECDD Standard (Task 8) provided that customers proposed to be rated very high must be escalated to senior management for review and approval by using the template provided in Appendix B.

If a WorldCheck or Dow Jones check identified a customer as a PEP, the AML Administrator would raise the customer's risk rating to high on the customer risk register and was required to notify the AMLCO.

126. The Joint Part A Programs did not include appropriate risk-based procedures to consistently identify and escalate customers to the AML Administrator for a risk assessment for the reasons pleaded at paragraphs 127 to 143 below.

Screening – daily and ad hoc

127. Screening was relied upon to identify and escalate customers to the AML Administrator for the purposes of determining whether they should be risk rated.

Particulars

The purpose of screening was to identify whether the customer was a PEP, on a sanctions list or subject to adverse media. Its purpose was

also to inform determination of risk ratings or escalation to the AMLCO.

128. Daily automated screening was conducted on customers rated medium or above once they were added to the customer risk register:
- a. Daily automated screening applied to customers who had already been risk rated medium or above.
 - b. Customers who were low risk by default were not on the customer risk register and were not subject to daily screening (subject to paragraph 129).
 - c. Daily automated screening did not apply to customers who had been risk assessed and rated low risk (subject to paragraph 129).

Particulars

The Transwatch database and WorldCheck were used to conduct daily screening up until 31 December 2020. Any changes to the World Check profile of a customer would generate a flag in the Transwatch database for the AML Administrator to investigate and resolve.

On 1 January 2021, SEG transitioned to a different customer screening service provider, Dow Jones/Factiva.

129. Additional daily automated screening occurred through the Dow Jones/Factiva database:
- a. From January 2021, customers that were the subject of a threshold transaction report (**TTR**) would be entered into the Dow Jones/Factiva database by the Cage team and thereafter subject to ongoing daily screening; and
 - b. From February 2021, customers who applied for access to a private gaming room were entered into the Dow Jones/Factiva database and thereafter subject to ongoing daily screening.
130. There was limited quality assurance over the information entered into the customer risk registers on Protecht and TrackVia, thereby limiting the application of daily automated screening.

Particulars

See paragraph 158.

131. In addition to daily automated screening, customers were subject to ad hoc screening in the following circumstances:
- a. Customers the subject of unusual activity reports (**UARs**) and suspicious matter reports (**SMRs**).
 - i. However, SMR reporting processes were not capable of consistently detecting customers posing higher ML/TF risks.

Particulars

See paragraph 854.

Clause 3 of the AML SOPs until November 2019 and task 3 of the AML Standard Operating Procedures from November 2019.

The AML Administrator or AML team conducted this screening.

- b. From November 2019, AML Administrators could screen customers the subject of automated transaction monitoring alerts, at their discretion.
 - i. Automated transaction monitoring was not capable of consistently detecting customers posing higher ML/TF risks.
 - ii. The AML SOP did not require screening to be conducted with respect to each alert or on each occasion that an alert was raised.
 - iii. The AML SOPs did not require consideration of whether screening would be appropriate on receipt of manual referrals or manual reports.

Particulars

From 2019, the AML SOPs required the AML Administrator to log into WorldCheck when reviewing a batch of automated alerts. However, there was no requirement to carry out any screening and no guidance on when screening should be carried out.

Paragraphs 717 to 747.

- c. In 2018, Star Sydney employees advised KPMG that Cage staff conducted a World Check search for all customers conducting threshold transactions and that positive results were forwarded to the AML Administrators.
 - i. There were no written procedures for this process.
 - ii. There were no written procedures for the Cage team to escalate positive results to the AML team.
 - iii. In the absence of documented procedures, this process was not capable of being reliably or consistently applied.
- d. Customers at the time of opening FMAs, SKAs or CCFs:
 - i. The Cage screened a customer on opening an FMA and SKA
 - ii. The CCF Standard Operating procedures provided that the Credit and Collections team were to screen a customer on application for a CCF as soon as practicable after the customer was identified.
 - iii. The AML team did not have access to OnBase, the database maintained by the Credit and Collections team, and on which records related to screening were held.
 - iv. However, the Cage and CCF procedures required confirmed matches for PEPs, terrorism, or illegal or undesirable activity to be escalated to the AML team.

Particulars

Referrals to the AML team were by email.

- e. Customers who were junket operators, representatives, funders and players were screened by the Cage at settlement of each junket program, although the written procedures did not set this out clearly.

- f. Customers who sought access to private gaming rooms at Star Sydney were to be screened by the VIP team on application, although the procedures were not clearly set out and did not apply to guests or third parties who were permitted to enter private gaming rooms;
 - g. Star Qld did not have any procedures requiring customers, guests or third parties who sought access to private gaming rooms to be screened.
132. The procedures for ad hoc screening were not capable, on a risk basis, of consistently identifying customers who may not have been low risk and who should have been escalated to the AML Administrator for an assessment or reassessment of their risk rating for the reasons pleaded at paragraph 131.

Particulars

For example, see Customer 1 who funded junkets at Star Sydney and Star Qld between 2016 and 2020, was not detected as a foreign PEP until March 2020. Junkets funded by Customer 1 recorded a turnover exceeding \$12.6 billion at Star Sydney and exceeding \$2.9 billion at Star Qld.

Customer 1 was first rated medium on 13 April 2014. He was not rated high until August 2019. He was then rated very high on 15 July 2020.

The AML team and AML Administrators were not appropriately resourced to fulfil their functions and responsibilities. Escalation of screening results and other risk information was not supported by appropriate case management systems, having regard to the nature, size and complexity of Star Sydney's and Star Qld's business.

Paragraph 222.

133. As a result of the matters pleaded at paragraphs 136 to 143, the customer risk registers did not contain a full list of customers whose risk profile was medium or above, thereby limiting the scope of ongoing daily screening.
134. Screening had limited scope to identify higher risk customers who were playing uncarded.

Particulars

Paragraph 562 to 569.

Other processes to escalate a customer to the AML Administrators for a risk assessment

135. The Joint Part A Programs did not include appropriate procedures to:
- a. identify customers who were:
 - i. low risk by default or rated low risk; but
 - ii. presenting higher ML/TF risks but may not have been detected by the screening processes pleaded at paragraph 128 to 131; and
 - b. escalate the customer to the AML Administrator for an assessment of their ML/TF risk rating.
- for the reasons pleaded at paragraphs 136 to 143.

136. Prior to November 2019, the AML Administrator could decide to carry out a customer risk assessment at their discretion, but the triggers for a customer risk assessment were not subject to appropriate procedures or guidance in the Joint Part A Programs.

Particulars

For example, the AML Administrators might have assessed a customer's risk rating if the customer came to the attention of the AML team:

- A. as part of compliance with (international funds transfer instructions) **IFTIs** or TTR reporting;
- B. upon requests to the AML team to provide information from regulators such as AUSTRAC or law enforcement;
- C. as part of transaction monitoring;
- D. if new information was entered onto the customer risk register in relation to customers that had already been risk rated.

However, there were no written procedures requiring or triggering a customer risk assessment in these circumstances.

Transaction monitoring was not capable of appropriately escalating customers to the AML Administrators for risk assessment: see paragraphs 708 to 791.

137. From November 2019, the Joint Part A Programs provided that:
- a. customer risk assessments will be conducted in accordance with the AML/CTF Risk Framework; and
 - b. risk ratings will be considered each time new information relating to a customer is included in the customer risk register.

Particulars

Clause 3.1 of the Joint Part A Programs.

138. The procedure pleaded at paragraph 137 did not apply to customers that were low risk by default because they were not on the customer risk register.
139. At no time did the Joint Part A Programs contain appropriate risk-based procedures and criteria to consistently identify, escalate and risk rate customers who were transacting in large amounts of money.

Particulars

In its 16 May 2018 report, KPMG advised SEG that customers bringing significant amounts of money into the casinos should be considered as potentially involving higher ML/TF risks.

In KMPG's view, customers who brought in large sums of money should have been considered higher risk by default until a risk assessment was undertaken.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the

findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

From November 2019 clause 3.1 of the Joint Part A Programs stated that transaction monitoring results will be used to inform risk assigned to each customer. However, the Joint Part A Programs did not trigger any review of a customer's risk rating based on transactional parameters. Nor did the Joint Part A Programs include appropriate guidance or criteria against which to rate customers against transaction monitoring results. See paragraphs 708 to 791.

140. At no time, did the Joint Part A Programs include appropriate risk-based procedures for Star Sydney and Star Qld to identify, escalate and risk rate customers the subject of multiple SMRs.

Particulars

At no time have the Joint Part A Programs included an appropriate methodology to risk rate customers the subject of multiple SMRs. See paragraph 88.

From November 2019, the AML SOPs and ECDD Standard provided that the AML Administrator would review a customer's risk rating when they received a UAR or submitted an SMR.

The systems and controls to ensure SMR reporting were not appropriate for the reasons pleaded at paragraph 854.

The Joint Part A Programs indicated that a customer's risk rating should be medium, or above, if they were subject of two SMRs within a twelve-month period: Appendix B to the Joint Part A Programs prior to October 2018 and the AML Step by Step guide from March 2019.

On becoming aware of these facts, the AML Administrator was to enter the customer on to the customer risk register. However, there were no processes in place to consistently escalate customers to the AML Administrators for this purpose.

However, prior to April 2021, customers who were the subject of SMRs were not automatically referred for ECDD. See paragraph 801.

From April 2021, a functionality was added to TrackVia, which enabled the customers who were subject to multiple SMRs, or those identified throughout the course of transaction monitoring assessment, to be added to a SEG wide Watchlist for the purposes of assessing the ML/TF risk rating.

A customer who was included on the Watchlist may either have their risk rating reclassified at the monthly Watchlist meeting (from August 2021) or have their case referred to a JRAM (which would then result

in their risk rating being reconsidered and may result in it being reclassified).

The JRAM processes were not appropriately risk-based for the reasons pleaded at from paragraphs 818.

141. At no time did the Joint Part A Programs contain appropriate risk-based procedures and criteria to consistently identify, escalate and risk rate customers where discrepancies in KYC information arose.

Particulars

Rules 9.1.5, 15.2 and 15.3; and the definition of KYC information in rule 1.2.1 of the Rules.

Procedures to respond to discrepancies related to discrepancies in customer ID only, not other discrepancies with KYC information such as between the customer's transactional behaviour and their source of wealth or source of funds.

See from paragraphs 859.

142. At no time did the Joint Part A Programs contain appropriate risk-based procedures and criteria to consistently identify, escalate and risk rate junket players who were not:
- a. low risk by default prior to November 2019; or
 - b. medium or moderate risk prior to February 2020.

Particulars

At all times, the AMLCO could determine that a particular junket player was high or very high risk.

Star Sydney and Star Qld did not make and keep appropriate records of individual play by junket players. Therefore the high ML/TF risks posed by large or unusual transactions by junket players were not capable of being detected and escalated consistently. Paragraph 666 to 670.

Junket players were not screened until settlement of their program.

SEG casinos ceased junket programs in October 2020.

143. At no time did the Joint Part A Programs include appropriate risk-based procedures for Star Sydney and Star Qld to identify, escalate and risk rate customers excluded by law enforcement in other jurisdictions.

Particulars

Paragraph 168.

Guidance or criteria to assess customers who were not low risk

144. The Joint Part A Programs did not include appropriate guidance or criteria on the risk parameters against which the AML Administrators could consistently identify and assess customers who were not low risk.

- a. In the absence of an appropriate ML/TF risk assessment methodology, the Joint Part A Programs could not appropriately identify and assess the full scope of customer risks reasonably faced.

Particulars

On and from November 2019, the CRT had the limitations pleaded at paragraph 88.

- b. The Joint Part A Programs contained some guidance and criteria on risk parameters to guide customer risk assessments, but did not contain appropriate coverage across all ML/TF risk factors reasonably faced by Star Sydney and Star Qld.

Particulars

See paragraph 25.

Prior to 30 October 2018, Appendix C of the Joint Part A Program provided some criteria for the characterisation of ML/TF risks relating to designated services that referred to customer risk. These criteria did not have appropriate coverage across risk factors reasonably faced with respect to customers.

Appendix B of the Joint Part A Programs prior to 30 October 2018 listed some risk factors that, on awareness, were to be entered into the customer risk register, some of which might have been relevant to the assessment of the customer's risk.

For example, Appendix B provided that the customer's occupation was to be considered, but did not provide appropriate criteria against which to assess these risks. Further, customers were not obliged to provide details of their occupation or source of wealth. (For the purposes of credit risk assessments, source of wealth information was required to be provided by junket funders or operators for the purposes of a CCF application).

- c. Appendix B also indicated that a customer's risk rating should be medium, or above, if they were subject of two SMRs within a twelve-month period. The Joint Part A Programs did not contain appropriate guidance and criteria on risk parameters to guide risk assessments of customers playing through junket and rebate channels.
- d. The Joint Part A Programs did not include any guidance or criteria on assessing the ML/TF risks of customers with respect to table 1, s6 financial services, including with respect to loans and remittance services.
- e. The Joint Part A Programs did not include appropriate guidance or criteria on assessing the ML/TF risks of customers with respect to unusual large, complex or unusual patterns of transactions.

Particulars

See paragraph 25.

Appendix B of the Joint Part A Programs prior to October 2018 referred to minimal betting as a risk that might need to be entered into the customer risk register.

Prior to October 2018, Appendix C provided that customers whose transactional activities were not supported by gaming activities on five or more occasions were to be considered critical risk; and that customers whose transactional activities are not supported by gaming activities on two out of five occasions were to be considered as medium risk.

KPMG considered customers in the latter category should also be rated as high risk (being "critical" risk as defined by the Joint Part A Program) unless there were legitimate reasons why the relevant transactional activity did not match game play as it may indicate possible ML/TF risk.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

Procedures to collect, update and review KYC information

145. At no time did the Joint Part A Programs include or incorporate appropriate risk-based procedures for Star Sydney and Star Qld to collect, verify, update, review and assess KYC information with respect to Star Sydney and Star Qld customers for the reasons pleaded at paragraphs 146 to 156 below.

Particulars

Rules 9.1.5, 15.2 and 15.3 and the definition of KYC information in rule 1.2.1 of the Rules.

See from paragraph 859.

146. Prior to November 2019, the Joint Part A Programs provided that, where it was considered useful, the AMLCO or delegate were to endeavour to:
- a. update existing KYC information; and
 - b. obtain certain further KYC information
- in relation to customers on the customer risk register.

Particulars

Clause 16 of the Joint Part A Programs.

147. The procedure pleaded at paragraph 146 did not:
- a. set out any criteria or guidance for when KYC information should be updated, obtained, reviewed or assessed;
 - b. set out any criteria or guidance for what KYC information should be updated, obtained, reviewed or assessed on a risk-basis; and
 - c. apply to customers who were low risk rated by default or rated low risk.

148. From November 2019, the Joint Part A Programs provided that KYC information would be reviewed in relation to a Star Sydney or Star Qld customer when:
- a. completing the annual ongoing customer due diligence review of critical or very high risk customers.

Particulars

Clause 7 of the Joint Part A Programs and cl 5.3(e) of the ECDD Standards.

- b. conducting ECDD on critical or very high risk customers.
- c. the customer attempted to drawdown on a CCF.

Particulars

There was no similar requirement to review KYC information and to ensure identification was up to date with respect to FMAs, SKAs or CWAs.

- d. the customer was reissued with a loyalty account card - the customer was required to provide current photographic ID.

149. The procedure pleaded at paragraph 148 did not:

- a. set out any criteria or guidance for what KYC information should be updated, reviewed or assessed on a risk-basis; and
- b. had minimal application to customers who were low risk by default or who were not rated very high or critical risk.

150. At no time did the Joint Part A Programs require the AML Administrators to obtain, review and assess source of wealth information, on an appropriate risk basis, for the purposes of assessing a customer's risk rating.

- a. The AML Administrators would review source of wealth or source of funds, in their discretion, if it came to their attention when reviewing a customer's risk, but there were no procedures requiring this information to be obtained, updated or reviewed for the purposes of a customer risk assessment.
- b. At no time were customers obliged to provide Star Sydney or Star Qld with source of wealth information before a designated service was provided.
- c. The customer risk assessment tool, introduced in November 2019, did not include any criteria to assess a customer's source of wealth or source of funds.

Particulars

Paragraph 88.

Clauses 15 and 16 of the Joint Part A Programs prior to November 2019.

Rules 9.1.5, 15.2 and 15.3 and paragraphs (i) to (l) of the definition of KYC information in rule 1.2.1 of the Rules.

151. Prior to 1 November 2019, source of wealth or source of funds investigations with respect to customers were primarily facilitated through PAMMs and JRAMs, in circumstances where gaming activity was identified that was outside of expectations.

Particulars

Paragraph 822(a) and 826(c).

152. Star Sydney and Star Qld customers who were not low risk were not:
- a. reliably or consistently identified and escalated to PAMM or JRAM for source of wealth or source of funds investigations; and then
 - b. reliably or consistently risk assessed through the PAMM or JRAM process.

Particulars

See from paragraph 818.

153. From 1 November 2019, Star Sydney and Star Qld customers were asked for source of wealth information when the customer:
- a. was a Star Gold Tier member or above;
 - b. applied for a CCF;
 - c. applied for a junket operator approval;
 - d. was identified as a PEP;
 - e. opened an FMA.
154. Unless the customer was applying for a CCF, at no time were customers obliged to provide Star Sydney or Star Qld with source of wealth information, when asked, before a designated service would be provided.

Particulars

Source of wealth information was obtained through the CCF application processes to assess credit risk not ML/TF risks.

The AML Administrator and the AML team did not have access to OnBase.

Paragraph 500 and 503.

155. In the absence of a risk-based requirement in the Joint Part A Programs to obtain and assess information about source of wealth or source of funds, the AML Administrators were unable to understand the ML/TF risk posed by certain customers when assessing a customer's risk rating.

Particulars

See the definition of KYC Information in rule 1.2.1 of the Rules in relation to customers who are individuals.

Source of wealth and source of funds information was not necessarily required from all customers. However, there were higher ML/TF risks related to source of wealth and source of funds for international VIP customers and high rollers, among others.

156. At no time did the Joint Part A Programs include appropriate risk-based processes to:

- a. collect, verify or review further KYC information relating to the beneficial ownership of funds or the beneficiaries of transactions being facilitated, including the destination of funds; and
- b. escalate such KYC information to the AML Administrator or AMLCO for the purposes of assessing a customer's risk.

Particulars

Rules 9.1.5, 15.2 and 15.3 and paragraphs (l) and (m) of the definition of KYC information in rule 1.2.1 of the Rules.

Star Sydney and Star Qld accepted deposits from third parties and remitted money to third parties on behalf of customers. Paragraph 269.

Information management systems – customer risk ratings

- 157. At no time did the Joint Part A Programs establish appropriate information management systems to enable the AML Administrators to consistently assess customer risk ratings.
 - a. The AML Administrators relied on KYC information recorded in Synkros and Protecht (prior to April 2021) and TrackVia (from April 2021) when conducting an assessment of a customer's risk.
 - b. The KYC information with respect to customers was not consistently or accurately recorded on Synkros and Protecht or TrackVia.

Particulars

Until May 2021, all staff who could access the Synkros system could edit a customer risk rating in Synkros, creating a risk of potential inconsistencies with the customer risk ratings in Protecht, requiring a manual review process to avert this risk.

There was limited quality assurance over the information recorded in the Protecht and TrackVia systems.

Customer risk ratings were also entered into Synkros and were not always consistent with the customer risk ratings on Protecht or TrackVia.

There was no record or log on Protecht of changes to a customer's risk rating over time.

Suspicious matters that were referred to the AML team but were ultimately not reported to AUSTRAC were not consistently recorded against the customer in Protecht or TrackVia.

While information relating to the period pre-April 2021 was migrated from Protecht to TrackVia, there was a technological limitation in the reporting function of TrackVia such that certain information relating to the pre-April 2021 period could not be included in the customer risk register and due diligence reports.

- c. Star Sydney, Treasury Brisbane and Star Gold Coast were unable to automatically collate transaction data in Synkros across casinos for customers that played across

multiple SEG casinos. Information regarding customers under investigation by the Investigations team was recorded in iBase. The AML Administrator did not have access to iBase.

Particulars

There was no requirement for iBase to be searched for the purposes of determining customer risk ratings.

There was no requirement for the Investigations team to share with the AML team information from iBase relevant to customer risk ratings.

- d. The AML Administrator did not have access to OnBase.

Particulars

OnBase contained documents relating to CCF approval workflows (including WorldCheck and Dow Jones searches and source of wealth information) and transactions through the Hotel Card channel.

Assurance

158. The Joint Part A Programs did not include or incorporate any assurance processes relating to the methodology to assign risk ratings to customers.

Customers excluded by law enforcement

159. At all times, the Commissioner of New South Wales Police could direct Star Sydney to give an exclusion order to any person prohibiting the person from entering or remaining in Star Sydney casino (**NSW exclusion order**).

Particulars

Sections 79 and 81 of the *Casino Control Act 1992* (NSW) (the **NSW Casino Control Act**).

From 18 May 2010, it was a condition of a casino licence that the casino operator (being Star Sydney) must, as soon as practicable after an exclusion order is given to a person by the operator following a direction given under section 81, cause notice of the order to be given to the Commissioner of Police: section 79(4A), NSW Casino Control Act (inserted 18 May 2010).

From May 2010, an exclusion order given at the direction of the Commissioner of Police may not be revoked except with the written approval of the Commissioner: section 82 of the NSW Casino Control Act.

It is a condition of a casino licence that the casino operator (Star Sydney) must maintain a list of names of persons the subject of exclusion orders: section 83(1), NSW Casino Control Act.

The Commissioner of Police is to give a direction under section 81(1) in relation to a person if the Commissioner becomes aware that the person was subject to exclusion from another casino following the

giving of a similar direction under a corresponding law: section 81A(1), NSW Casino Control Act (inserted 18 May 2010).

160. At all times, a person the subject of a NSW exclusion order was prohibited from entering or remaining in Star Sydney casino.

Particulars

Section 84 of the NSW Casino Control Act.

Maximum penalty—from 1 July 2001, 50 penalty units or imprisonment for 12 months, or both.

161. At all times, as soon as practicable after it became known that a person subject to a NSW exclusion order was in Star Sydney casino, Star Sydney was, amongst other things, required to remove or cause the person to be removed from the casino.

Particulars

Section 85 of the NSW Casino Control Act.

Maximum penalty—20 penalty units and from 5 September 2022, maximum penalty—

(a) for the person for the time being in charge of the casino—500 penalty units, and

(b) for an agent of the casino operator—500 penalty units, and

(c) for a casino employee—20 penalty units.

This section applied to Star Sydney through the person, for the time being, in charge of the casino; an agent of the casino operator; or a casino employee: section 85(1), NSW Casino Control Act.

162. From 21 December 2018, a person was prohibited from making any wager at Star Sydney casino if the person is the subject of a NSW exclusion order.

Particulars

Section 86A of the NSW Casino Control Act.

A person the subject of a NSW exclusion order is not entitled to any winnings from a successful wager. A casino operator must pay the amount of any winnings forfeited to the casino operator by operation of section 86A into the Responsible Gambling Fund within 3 months after the winnings are forfeited: section 86A(2), NSW Casino Control Act.

Maximum penalty—50 penalty units and from 5 September 2022, 500 penalty units.

163. At all relevant times, Star Sydney and/or SEG were aware that each of the customers listed in Confidential Schedule H was subject to a NSW exclusion order on and from the date listed in the Schedule.

164. At all times since the Star Qld casinos opened, the Commissioner of Queensland Police could direct Star Qld to exclude a specified person from a Star Qld casino (**Qld exclusion order**) and Star Qld was required to comply.

Particulars

Section 94 of the *Casino Control Act 1982* (Qld) (the **Qld Casino Control Act**).

The Commissioner was to give notice to the person to be excluded where practicable: section 94(2)(b) of the Qld Casino Control Act.

A direction under s94 remained in force unless and until revoked by the Commissioner: section 96(1) of the Qld Casino Control Act.

From 1 May 2005, Star Qld was required to keep a register of persons subject to a Qld exclusion order: section 100C, Qld Casino Control Act.

From 15 December 2000, the Commissioner could notify an authority responsible for administering gaming legislation of another State or Territory of a direction under s94: section 94(3).

From 15 October 2009, Star Qld was prohibited from distributing promotional or advertising material about the casino to persons who the operator or manager knows or ought reasonably to know are prohibited from entering or remaining in the casino under a Qld exclusion order; section 100E Qld Casino Control Act.

Maximum penalty – 40 penalty units.

At all times, Star Qld was the casino operator for the Treasury Brisbane and The Star Gold Coast casinos: see paragraph 7.

165. At all times, a person the subject of a Qld exclusion order was not permitted to enter or remain in a Star Qld casino.

Particulars

Section 100 of the Qld Casino Control Act.

Maximum penalty— from 29 March 1995, 40 penalty units.

166. From 1 May 2005, if Star Qld, or its employee or agent, knew a person was subject to a Qld exclusion order, Star Qld, or its employee or agent, was required to take reasonable steps to prevent the person from entering or remaining in a Star Qld casino.

Particulars

Section 100B of the Qld Casino Control Act.

Maximum penalty—for the casino operator, 250 penalty units; for another person, 40 penalty units.

167. At all relevant times, Star Qld and/or SEG were aware that each of the customers listed in Confidential Schedule I was subject to a Qld exclusion order on and from the date listed in the Schedule.
168. At no time did the Joint Part A Programs contain appropriate risk-based criteria to:
- a. identify, escalate and risk rate Star Qld customers who were subject to a NSW exclusion order law enforcement exclusion;

- b. identify, escalate and risk rate Star Sydney customers who were subject to a Qld exclusion order;
- c. enable SEG or Star Qld to determine whether designated services should be, or should continue to be, provided to a customer subject to a NSW exclusion order, having regard to ML/TF risks; or
- d. enable SEG or Star Sydney to determine whether designated services should be, or should continue to be, provided to a customer subject to a Qld exclusion order, having regard to ML/TF risks

for the reasons pleaded at paragraphs 169 to 177.

169. On and from 30 November 2016, SEG issued various policies:

- a. relating to customers or prospective customers subject to law enforcement exclusion orders issued under the NSW Casino Control Act and the Qld Casino Control Act;
 - b. applying to all SEG casinos.
- (the **Exclusions policies**).

Particulars

Echo Entertainment Exclusions and Contact Policy dated 7 August 2015; SEG Exclusions and Contact Policy dated 7 January 2016; the Exclusions and Withdrawal of Licence (**WOL**) Procedure dated 29 February 2018; the SEG Exclusions Policy issued 6 December 2018 as updated on 7 February 2019; and on 3 December 2020; the SEG Exclusion Guidance dated 19 January 2021, as revised on 21 June 2021.

170. At no time did the Joint Part A Programs include an appropriate procedure to escalate a customer excluded in one State (NSW or Qld) for an ML/TF risk assessment in the other State (Qld or NSW).

Particulars

The Exclusion policies and procedures were not identified by SEG as policies and procedures that were adopted for the purposes of the Joint Part A Programs, or that required consideration of ML/TF risks.

171. Prior to February 2019, the Exclusions policies:

- a. provided that, upon issuance of a NSW or Qld exclusion order, SEG would determine if there were grounds to exclude the customer from the SEG casino/s in the other state; and
- b. authorised the Executive General Manager - Governance, Risk & Compliance and the General Counsel to exclude customers across SEG properties; but
- c. did not include procedures to appropriately escalate customers the subject of NSW or Qld exclusion orders to the Executive General Manager - Governance, Risk & Compliance or the General Counsel; and
- d. did not set out any criteria, having regard to ML/TF risks, against which the Executive General Manager - Governance, Risk & Compliance or the General Counsel could determine if there were grounds to exclude such customers in the other State.

Particulars

See paragraphs 833 to 842.

172. From February 2019, the Exclusions policies required that a NSW or Qld exclusion order applying to a customer in New South Wales or Qld be mirrored with a withdrawal of licence or venue exclusion applied to the customer in the other State, subject to exceptions:
- a. at the discretion of the SEG Chief Risk Officer; or
 - b. determined by the SEG Ethics Panel.

Particulars

See paragraphs 833 to 842.

173. Subject to paragraph 176 below, the requirement pleaded at paragraph 172 was not applied to Star Qld or Star Sydney customers who had been the subject of NSW or Qld exclusion orders issued prior to February 2019.

Particulars

Star Sydney and Star Qld determined that it was administratively too onerous to apply this process retrospectively to customers who had been excluded by law enforcement prior to 7 February 2019.

In the period after 30 November 2016, 15 customers who were the subject of NSW exclusions orders had active gaming recorded at a Star Qld casino after the date of their exclusion. For example:

By June 2015, Star Qld was aware of a media article which alleged that Customer 83 had been at the centre of criminal investigations in respect of various criminal activity, including murder, gunshot wounding and arson. Nonetheless, between 2016 and 2021, Star Qld recorded turnover exceeding \$13.9 million for Customer 83.

Between 2008 and 2016, publicly accessible media articles alleged that Customer 84 and his company were being investigated in respect of a money-laundering scheme. Nonetheless, between 2016 and 2021, Star Qld recorded turnover exceeding \$300 million for Customer 84.

Of these 15 customers, 13 customers continued to receive designated services at the Star Gold Coast and/or Treasury Brisbane casinos after 7 February 2019, including Customer 84 and Customer 91. The most recent designated service was provided on 27 January 2022.

Star Club membership entitled a customer to access benefits at any SEG casino. Prior to January 2019, Star Club membership was not consistently cancelled or revoked in one jurisdiction following an exclusion in the other.

Customers subject to a NSW exclusion order remained eligible for accommodation benefits at Star Qld.

Star Qld facilitated the travel of NSW excluded customers to Qld for the purposes of receiving designated services in Qld. Star Qld offered

other complimentary incentives to NSW excluded customers who travelled to Star Qld.

174. Prior to January 2019:
- a. information about NSW exclusion orders was entered in Star Sydney systems only; and
 - b. information about Qld exclusion orders was entered in Star Qld information systems only.

Particulars

The primary information system used by Star Sydney and Star Qld to record that a customer was subject to a NSW or Qld exclusion order was Casino Information Database (**CID**). The CID record of the exclusion order is linked to the customer's profile on Synkros. The only information stored in Synkros is the fact of the exclusion order.

Star Qld and Star Sydney both used CID and Synkros, but each SEG entity uses its own, separate version of these two information systems. Paragraphs 49(e) and 59.

If a Star Sydney or Star Qld employee was to enter information about an excluded customer into its version of Synkros, a warning would appear stating '*This patron is casino barred. Refer to the patron's notes for further information*'.

This alert would not be raised if the customer had been excluded in the other jurisdiction.

175. From January 2019, information about NSW and Qld exclusion orders were entered into both Star Sydney and Star Qld information systems.
176. It was not until May 2022 that SEG amended its Exclusion policy and implemented changes to require:
- a. NSW exclusion orders that were issued prior to February 2019 to be mirrored by an exclusion at Star Qld casinos; and
 - b. Qld exclusion orders that were issued prior to February 2019 to be mirrored by an exclusion at Star Sydney casino.
177. At no time did the Joint Part A Programs contain appropriate risk-based procedures to determine whether designated services would continue to be provided to a Star Sydney or Star Qld customer who was subject to a NSW exclusion order or a Qld exclusion order.

Particulars

The exclusion policies stated that no transactions or activities were permitted by customers across SEG casino properties after they become subject to an exclusion order.

However, this policy was not incorporated into the Joint Part A Programs and had no effect. For example, Customer 84 was the subject of a NSW exclusion order from Star Sydney on 24 July 2007. As a result, Customer 84's Star membership card was deactivated.

A JRAM meeting held in July 2016 noted that Customer 84 was excluded from Star Sydney. The meeting was attended by the senior management, including the Group Investigations Manager, and the Chief Risk Officer.

On each occasion that Customer 84 attended Star Qld from 30 November 2016, Star Qld staff reactivated Customer 84's membership card to allow Customer 84 to receive gaming services. At the end of Customer 84's trip, Star Qld staff would change Customer 84's account status back to 'Excluded NSW'.

An FMA, SKA, CWA or CCF account was not automatically closed upon the customer being issued with an exclusion order.

The exclusion policies stated that a 'stop code' was to be placed on all accounts of customers subject to exclusion orders to prevent them from transacting on accounts.

Risk based controls

178. The Joint Part A Programs did not include appropriate risk-based systems and controls to mitigate and manage the ML/TF risks of customers who had been assessed as high risk.

Particulars

See paragraphs 792 to 797 and 810.

179. The Joint Part A Programs did not include appropriate risk-based controls or criteria to identify and manage customers who presented ML/TF risks outside of risk appetite.

Particulars

Sections 85(2)(a) and 85(2)(c) of the Act and Parts 9 and 15 of the Rules.

Paragraphs 811 and 812.

The ML/TF risk factors – channel

180. The risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld having regard to the channels through which designated services were delivered for the following reasons:

- a. The Joint Part A Programs, the AML/CTF Framework and the Risk Registers did not adequately or appropriately address channel risk.

Particulars

Paragraph 87.

- b. Star Patron accounts (see paragraph 311 below) were not recognised by the Joint Part A Programs as a channel through which designated services were provided and the ML/TF risks of this channel were therefore not assessed.

- c. The ML/TF risks of the Hotel Card channel were at no point appropriately assessed.

Particulars

Paragraph 366.

- d. The ML/TF risks of the Customer 9 channels were at no point appropriately assessed.

Particulars

Paragraph 440.

- e. The Joint Part A Programs did not appropriately recognise that some item 31 and 32, table 1, s6 designated services (remittance services) are not provided face-to-face, including those provided through the Star Patron account channel above.
- f. The Joint Part A Programs did not appropriately recognise that some item 13 table 3, s6 designated services (account transactions) are not provided face-to-face, including those provided through the Star Patron account channel above.

Particulars

Paragraph 285.

- g. The Joint Part A Programs did not appropriately recognise that some item 7 table 1, s6 designated services (including CCF repayments through Customer 9 and third party remitters) are not provided face-to-face.
- h. The Joint Part A Programs did not include appropriate risk-based systems and controls that were aligned to the ML/TF risks of providing designated services through junket and rebate channels.

Particulars

Paragraphs 628 to 707.

- i. The Joint Part A Programs did not appropriately recognise that some table 1 and table 3, s6 designated services were provided as part of complex transaction chains through multiple channels.
- j. As a result of the matters pleaded at sub-paragraphs a to i, the Joint Part A Programs did not include risk-based systems and controls that applied to and were aligned to each of these channel risks.

Particulars

Rule 9.1.4(3) of the Rules.

The ML/TF risk factors – jurisdiction

- 181. The risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services having regard to foreign jurisdictions for the following reasons:

- a. Prior to November 2019, jurisdictional risks were not rated.

Particulars

Paragraph 90.

The only jurisdictional risk factor considered prior to November 2019 was whether foreign jurisdictions were regulated for AML/CTF. The Joint Part A Programs did not consider other factors, such as countries who are the subject of sanctions, identified tax havens, or are listed as high corruption or drug transit countries.

- b. At no point was there an overall assessment of SEG's jurisdictional risk and jurisdictional risk was described inconsistently throughout the Joint Part A Programs.

Particulars

Given the number of international customers and the volume of funds received from overseas, a jurisdictional ML/TF risk assessment that covers appropriate ML/TF jurisdictional risks was necessary to understand appropriate ML/TF risks and to implement appropriate controls within the AML/CTF Program.

Whilst jurisdictions were rated on and from November 2019 through the JRT, at no time were the Joint Part A Programs appropriately aligned to overall assessment of SEG's jurisdictional risk.

- c. The Joint Part A Programs did not identify the foreign jurisdictions that Star Sydney and Star Qld dealt with.
- d. Prior to November 2019, the Joint Part A Programs did not identify how jurisdictional risks were factored into customer risk profiles.
- e. The Joint Part A Programs did not identify how jurisdictional risks were factored into the assessment of the ML/TF risks of designated services and channels.

Particulars

For example, the jurisdictional risks of international payment channels were not appropriately considered.

- f. The Joint Part A Programs did not include any appropriate risk-based procedures, systems or controls that applied to high risk jurisdictions.

Particulars

Rule 9.1.4(4) of the Rules.

Changing or emerging ML/TF risks - reviewing and updating ML/TF risk assessments and controls

- 182. At no time did the Joint Part A Programs include appropriate risk-based systems and controls to identify significant changes in ML/TF risks and to recognise such changes for the purposes of the Joint Part A and Joint Part B Programs for the reasons pleaded at paragraphs 183 to 191.

Particulars

Sections 85(2)(a) and 85(2)(c) of the Act and rules 9.1.5(3) and 9.1.5(4) of the Rules.

- 183. Prior to November 2019, Star Sydney and Star Qld:
 - a. did not carry out an assessment of the ML/TF risks they reasonably faced with respect to designated services; and
 - b. were therefore unable to identify significant changes in ML/TF risks and to recognise such changes for the purposes of the Joint Part A and Joint Part B Programs.

Particulars

Paragraph 99.

Prior to November 2019, SEG conducted periodic risk assessment workshops chaired by the AMLCO in conjunction with the AML Administrators (and in some occasions representatives of gaming and cage management team). These workshops did not constitute a risk assessment of the of the ML/TF risks they each reasonably faced with respect to the provision of designated services, and were not capable of identifying significant changes in ML/TF risks.

184. From November 2019, the Joint Part A Programs required the Risk Registers to be reviewed annually.

Particulars

Clause 3 of the Joint Part A Programs from November 2019.

185. By reason of the matters pleaded at paragraphs 102 to 104 above, from November 2019 the Risk Registers did not include key ML/TF risks reasonably faced with respect to the provision of designated services.
186. By reason of the matters pleaded in paragraph 185, annual reviews of the Risk Register on their own were not capable of identifying significant changes in ML/TF risks and recognising such changes for the purposes of the Joint Part A and Joint Part B Programs.

Particulars

Reviews of the Risk Register after November 2019 failed to recognise and address the fundamental deficiencies in the Risk Register, as pleaded at paragraphs 102 to 104 above.

187. As the Joint Part A Programs did not include an appropriate risk methodology, ML/TF risks were not capable of being consistently assessed and re-assessed over time.

Particulars

See paragraphs 79 to 92 above.

188. The Joint Part A Programs did not include risk-based procedures for Star Sydney and Star Qld to identify and assess trends arising from or disclosed by:
- a. usage of designated services or channels;
 - b. transaction monitoring;
 - c. suspicious matter reporting;
 - d. internal financial crime reporting;
 - e. information from AUSTRAC and law enforcement; and
 - f. the external risk environment.
189. The Joint Part A Programs did not include appropriate risk-based procedures to escalate emerging trends to senior management.
190. The Joint Part A Programs did not provide procedures for appropriate Board and senior management oversight of the Risk Register for the purposes of identifying and recognising significant changes in risk.

Particulars

See paragraphs 203 to 235.

191. At no time did the Joint Part A Programs include any risk-based systems and controls to identify, mitigate and manage any ML/TF risks arising from:
- a. all new designated services prior to introducing them;
 - b. all new methods of designated service delivery (channel) prior to adopting them; and
 - c. all new or developing technologies for the provision of designated services prior to introducing them
- for the reasons pleaded at paragraphs 192 to 193.

Particulars

Sections 85(2)(a) and 85(2)(c) of the Act and rule 9.1.5(5) of the Rules.

192. At all times, where Star Sydney or Star Qld proposed to introduce a new table game or EGM, a form titled Compliance Assessment AML (previously called ML/TF and RG Risk Assessment and Approval Form) was completed and approved by a General Manager:
- a. The purpose of the form was to determine whether State regulatory approvals were required.
 - b. The form did not require or involve an appropriate risk-based assessment of the ML/TF risks posed by new table games or EGMs prior to their introduction.

Particulars

Clause 9 of the Joint Part A Programs prior to November 2019.
Sections 85(2)(a) and 85(2)(c) of the Act and rule 9.1.5(5) of the Rules.

193. From November 2019, the Joint Part A Programs did not include appropriate risk-based procedures to identify and assess the ML/TF risks of designated services, including new designated services and their associated channels and technologies.

Particulars

Paragraphs 81 to 106.

From November 2019, risk assessments were to be conducted in accordance with the AML/CTF Framework. From November 2019, clause 3 of the Joint Part A Programs provided that risk assessments of the relevant designated services will be conducted prior to implementing an entirely new game, service, technology, methodology or procedure; or a substantial new aspect or significant variation to an existing game, service, technology, methodology or procedure.

However, the processes for triggering and conducting an assessment of the ML/TF risks of new products, channels or technologies prior to introducing them remained inadequate.

Approval and oversight of the Joint Part A Programs

194. At all times, SEG wholly owned the following enrolled reporting entities which were members of the Star DBG:
- a. Star Sydney; and
 - b. Star Qld.
195. At all times:
- a. Star Sydney was the reporting entity providing designated services through the Star Sydney casino; and
 - b. Star Qld was the reporting entity providing designated services through Treasury Brisbane casino and Star Gold Coast casino.

Approval of the Joint Part A Program

196. At all times, either:
- a. the Board and senior management of Star Sydney and Star Qld; or
 - b. the SEG Board (as the governing board of the main holding company, being SEG) and SEG senior management
- were each required to approve the Joint Part A Program.

Particulars

Section 85 of the Act and rules 9.4.1 and 9.4.2 of the Rules.

197. At all times, the Joint Part A Program provided that the SEG Board would approve any amendment to the Joint Part A and Part B Program.

Particulars

Clause 3 of the Joint Program, versions 4 to 8.

Clause 4 of the Joint Program versions 9 to 11.1.

Section 85 of the Act and rules 9.4.1 and 9.4.2 of the Rules.

198. Each version of the Joint Part A Program on and from 30 November 2016 was approved by the SEG Board or the SEG Board Risk and Compliance Committee (**BRCC**).
199. At no time did the Joint Part A Program require both the SEG Board and SEG senior management to approve the Joint Part A Program.
200. At no time did the Joint Part A Program require both the:
- a. the Board and senior management of Star Sydney; and
 - b. the Board and senior management of Star Qld
- to approve the Joint Part A Program.
201. The Joint Part A Programs were not approved by the Board and senior management of Star Sydney and Star Qld.
202. In contravention of rr9.4.1 and 9.4.2 of the Rules and s85 of the Act, the Joint Part A Programs were not approved by SEG senior management.

Oversight of the Joint Part A Program

203. The Joint Part A Program was required to be subject to the ongoing oversight of either the:
- a. Board and senior management of Star Sydney and Star Qld; or
 - b. the SEG Board and senior management.

Particulars

Section 85 of the Act and rules 9.4.1 and 9.4.2 of the Rules.

204. From 30 November 2016 until November 2019, each version of the Joint Part A Program provided that the SEG Board together with the BRCC would oversee compliance with the Program.

Particulars

Clause 3 of the Joint Program versions 4 to 8.

205. From November 2019, each version of the Joint Part A Program provided that the SEG Board would oversee compliance with the Program. The AMLCO was to regularly report to the BRCC about matters relevant to compliance with the Program.

Particulars

Clause 4.1 of the Joint Program, versions 9 to 11.1.

All matters pertaining to ML/TF risk with respect to Star Sydney and Star Qld were overseen at the SEG Board level. The Star Sydney and Star Qld Boards convened meetings only to approve Annual Financial Reports and did not oversee compliance with the Part A Program.

Clause 4.1 of version 11.1 of the Joint Program referred to the BRCC as the Board Risk and Compliance Committee.

206. The oversight required of the SEG Board and senior management included oversight of how, and the extent to which, the Joint Part A Program was achieving the primary purpose of identifying, mitigating and managing ML/TF risk.

Particulars

Section 85(2)(a) and (c) of the Act and rules 9.4.1 and 9.4.2 of the Rules.

207. In the absence of an appropriate oversight framework, a Part A program will not be capable, by design, of:
- a. identifying, mitigating and managing the ML/TF risks reasonably faced by a reporting entity; and
 - b. being subject to the ongoing oversight of the reporting entity's Board and senior management.
208. A reporting entity of the nature, size and complexity of Star Sydney and Star Qld will not be in a position to have an appropriate oversight framework, for the purposes pleaded at

paragraph 207, unless their Joint Part A Program has established an appropriate framework for the Board and senior management to:

- a. determine and set each reporting entity's ML/TF risk appetite;
- b. set controls to ensure designated services are provided to customers consistent with that ML/TF risk appetite;
- c. appropriately monitor management's performance against an appropriate ML/TF risk management framework, including risk appetite;
- d. ensure the Board receives and reviews management reports about new and emerging sources of ML/TF risk and about the measures management are taking to deal with those risks;
- e. establish an appropriate ML/TF risk management capability framework, including with respect to:
 - i. roles and accountabilities;
 - ii. operational procedures;
 - iii. reporting lines;
 - iv. escalation procedures;
 - v. assurance and review; and
 - vi. information management.

Particulars

Sections 81, 85(2)(a) and 85(2)(c) of the Act and rules 9.1.3, 9.1.5(4) and Part 9.4 of the Rules.

209. Each of the features alleged at paragraphs 208.a to 208.e was fundamentally absent from the Joint Part A Programs for all or most of the period, although some independent review was conducted.

Particulars

Independent reviews were conducted in 2015, 2018 and 2021.

ML/TF risk appetite

210. At no time did the Joint Part A Programs include or incorporate appropriate systems and controls for the SEG Board to:
- a. set the ML/TF risk appetite of Star Sydney and Star Qld; and
 - b. ensure that their business was managed consistent with ML/TF risk appetite.

Particulars

From 30 November 2016 to 30 October 2018, SEG's risk management framework and policy in Appendix C of the Joint Part A Program acknowledged the need to define risk appetite.

At no time did the SEG Risk Appetite Statements set appetite for ML/TF risk.

From November 2019 (version 1.2), the AML/CTF Framework was implemented. Earlier versions (version 1 dated 31 October 2018 to 23 July 2019 and version 1.1 dated 24 July 2019 to 31 October 2019) were approved by the BRCC but not implemented.

The primary objective of the AML/CTF Framework was to provide guidance on how to conduct assessments of the ML/TF risk of SEG casinos. The AML/CTF Framework did not set the ML/TF risk appetite of Star Sydney and Star Qld.

At no time did the Joint Part A Programs include or incorporate any other process for ML/TF risk appetite to be appropriately set by the SEG Board.

At no time did Star Sydney or Star Qld appropriately identify and assess the inherent and residual ML/TF risks they reasonably faced with respect to designated services. In the absence of such an assessment, ML/TF risk appetite could not be appropriately set. See paragraphs 79 to 106.

Monitoring management performance

211. At no time did the Joint Part A Programs include or incorporate appropriate systems and controls for the SEG Board to monitor management's performance against an appropriate ML/TF risk management framework, including as against ML/TF risk appetite.
212. The SEG Board was unable to have oversight of senior management's performance in mitigating and managing ML/TF risk because:
 - a. the ML/TF risks reasonably faced with respect to the provision of designated services by Star Sydney and Star Qld had not been appropriately assessed;
 - b. the SEG Board had not appropriately set a ML/TF risk appetite;
 - c. the Joint Part A Programs did not include or incorporate appropriate qualitative and quantitative metrics triggering reporting for material risk categories up to the SEG Board;
 - d. the Joint Part A Programs did not include or incorporate appropriate processes for monitoring and reporting of Star Sydney, Treasury Brisbane casino and Star Gold Coast casino's risk profile relative to quantitative parameters (risk tolerances) against material risk categories up to the SEG Board;

Particulars

Paragraphs 79 to 106.

From 30 November 2016 to 30 October 2018, clause 1.4 of Appendix C of the Joint Part A Program (versions 4-6) and from 31 October 2018 to 31 October 2019, Part 2 of Appendix B of the Joint Part A Program (versions 7-8) set out when certain levels of risk were required to be escalated. For example, ML/TF risks assessed as 'critical' were required to be escalated to the SEG Board and Executive Level.

However, the risk metrics were not appropriately representative for a business of the nature, size and complexity of SEG such that the

SEG Board would not have been able to consistently ensure where Star Sydney or Star Qld was operating against ML/TF risk appetite and tolerance.

- e. at no time did the SEG Board or the BRCC have a documented process in place to ensure in-depth discussion of ML/TF risk as against measurable criteria at regular intervals as part of a rolling agenda.
213. In the absence of a clearly set ML/TF risk appetite, senior management did not have appropriate guidance in relation to:
- a. the ML/TF risks that could be accepted and the controls required to appropriately manage those risks;
 - b. when to escalate ML/TF risks to the SEG Board that may potentially be out of ML/TF risk appetite to the SEG Board; or
 - c. how those ML/TF risks should be reported to the SEG Board to allow for appropriate consideration by the Board.

Particulars

For example, in the absence of any ML/TF risk appetite:

A. High risk and non-transparent international remittance channels evolved without appropriate consideration being given to ML/TF risks or as to whether higher risks should have been escalated to the SEG Board. See paragraphs 357 to 462.

B. Decisions made with respect to the approval of CCFs had regard to credit risk only and not ML/TF risks. See paragraph 507.

C. Decisions were made to continue ongoing business relationships with customers without appropriate regard to ML/TF risks. For example, SEG decided to cease its junket operations in October 2020. In August 2021, despite the higher ML/TF risks associated with their junket activity, SEG senior management determined to maintain a business relationship with a number of customers including Customer 1, Customer 3, Customer 28, Customer 20 and Customer 29.

D. Concerns of SEG senior management regarding the ML/TF risks faced by Star Sydney in respect of the Suncity Service Desk and Suncity's use of Salon 95 were not appropriately reported to the SEG Board: see paragraph 691.

214. The SEG Board and senior management were unable to determine whether risk-based systems and controls required any revision for the purposes of the Joint Part A Programs because:
- a. at no time did the Joint Part A Programs include appropriate systems and controls for the SEG Board to receive and review management reports about new and emerging sources of ML/TF risk or the measures management was taking to deal with those risks;

Particulars

From November 2016 to 31 October 2019, clause 3 of each version of the Joint Part A Program provided that any systemic concerns would be reported by the AMLCO to SEG management and the Chief Executive Officer.

From December 2016 to July 2020, this process was supported by the Chief Risk Officer providing a report to the BRCC on whether SEG was operating within its risk appetite. However, this process was not capable of being effective because the SEG Board had not determined or set its ML/TF risk appetite. From August 2020, the Chief Legal Officer and Chief Risk Officer (or delegate) would provide a similar report.

From November 2019, clause 4.2 of each version of the Joint Part A Program provided that the Compliance Officer would report to the BRCC any concerns about compliance with or the effectiveness of the Joint Program and accompanying standards.

There was no appropriate documented guidance about matters which the AMLCO should be escalating or providing to the BRCC, including but not limited to emerging sources of ML/TF risk.

- b. the Joint Part A Programs did not include appropriate systems and controls to detect changes in ML/TF risks, including in both the external and internal environment.

Particulars

See paragraphs 182 to 193.

Senior management accountabilities

- 215. A Joint Part A Program must establish appropriate accountabilities for senior management with respect to ML/TF risk management and compliance.

Particulars

A Part A program must define risk ownership and assign risk management accountability to senior management to support the consideration of risk in all decision making.

Risk ownership and accountability must be supported by policies, processes, systems and controls to enable senior management to appropriately identify, assess, manage and monitor ML/TF risks reasonably faced by the reporting entity in a manner consistent with the ML/TF risk appetite set by the Board.

- 216. At no time did the Joint Part A Programs appropriately define ML/TF risk ownership and assign ML/TF risk management accountability with respect to the AMLCO and senior management in business lines.

Particulars

In the absence of a clear ML/TF risk appetite set by the SEG Board, ML/TF risk ownership and accountabilities in the Joint Part A Programs was not clear.

The role of the AMLCO was to perform all functions specifically assigned to them under the Joint Part A Programs; report any systemic concerns to SEG management and the Chief Executive Officer; consult with, and make recommendations (if any) for improvement of the Program to, SEG senior management and the Chief Executive Officer; and keep records of the discharge of their functions under the Programs.

From November 2019, the AMLCO was also required to report to the BRCC any concerns about compliance with or the effectiveness of the Program and the Standards, but was no longer required to report systemic concerns to SEG management and the Chief Executive Officer: clause 4.2 of the Joint Part A Program versions 9, 10, 11.1.

Prior to November 2019, the AMLCO's functions, however, were subject to unclear requirements relating to consultation and approvals by business lines. This meant that ownership and accountability for ML/TF risks was unclear, and created risks that decision making under the Joint Part A Program would not be appropriately based on AML/CTF considerations.

In particular, accountability for ML/TF risks rated moderate/medium or above were not clear: paragraph 123.

The AMLCO's accountabilities, at all times, were not subject to appropriately clear definition.

For example, responsibilities and accountabilities for customer risk ratings were dispersed between different roles. It was not clear whether the AMLCO, or another role had final responsibility with respect to customer risk ratings: see paragraphs 123 and 125.

Also, accountabilities for escalating high risk customers to senior management for consideration of whether to continue a business relationship were not clear: see paragraphs 806, 813 to 817.

Operational procedures and training for front line business functions

217. At no time did the Joint Part A Programs establish a framework for operational procedures to ensure that the Joint Part A Programs were capable of being consistently applied across the business.

Particulars

The KPMG report advised SEG that the Joint Part A Program did not include sufficient detail for each component or make reference to the underlying Standard Operating Procedures (**SOPs**). The Joint Part A Program did not provide sufficient information as to how the SEG casinos comply with some obligations and, because of the number of relevant SOPs and the variations between them, it was difficult to identify what specific procedures were applied by the different operational areas of the business.

KMPG also noted that the number of AML/CTF resources in place may not be sufficient to operate the Joint Part A Program.

KPMG expressed concern that the AML Administrators had a high level of discretion on how they operationalise the AML/CTF Program, with limited senior management oversight, including with respect to transaction monitoring, ECDD and SMR reporting.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23 and 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

The versions of the Joint Part A Program that came into effect after the Board received the KPMG advice continued to fail to refer to the underlying SOPs and did not otherwise address the related KPMG advice.

For example, there were no appropriately risk-based procedures for the VIP Services, Cage and Credit & Collections teams to escalate screening matches to the AML team or the AML Administrators for the purposes of assessing the customer's risk (paragraphs 127 to 134), to identify, escalate and risk rate customers who were transacting large amounts of money (paragraph 139), consistently identify and assess customers who were not low risk (paragraph 144) or to properly address the suite of risk-based ECDD measures to be applied (paragraph 807).

218. In the absence of a framework for the consistent application of the Joint Part A Programs, the SEG Board and senior management were unable to provide appropriate ongoing oversight of the Joint Part A Programs.

Particulars

Management cannot appropriately identify, assess, manage and monitor ML/TF risks reasonably faced by the reporting entity in a manner consistent with risk appetite if the Part A program does not include or incorporate policies, processes, systems and internal controls to support and guide business decision making.

219. At no time did the Joint Part A Programs establish appropriate AML/CTF risk awareness training for front line business functions.

Particulars

Rule 9.2 of the Rules.

See paragraphs 748 and 749.

In its 16 May 2018 report, KPMG advised SEG that the Risk Awareness Training Program was a key component of its Joint Part A Program, due to the higher reliance on human controls, instead of automated transaction monitoring, to detect potentially suspicious matters. KPMG reported observing through staff interviews that,

compared to the number of matters referred to the AML Administrators by the Cashier Services or Cage team, few are referred from the main gaming floor, which may be indicative that the current training program could be improved.

KPMG also advised that the Part A Program did not state any timeframe for training to be completed or follow-up procedures for non-completion. The training content did not include SMR obligations in detail or any reference to the prohibition against 'tipping-off' as required under the Act and Rules.

KPMG advised there was no documented AML/CTF training specific for table games staff or for NSW based cashier staff.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23 and 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

Roles, accountabilities and reporting for the ML/TF risk management and compliance function

220. At no time did the Joint Part A Program establish an appropriate framework for roles, accountabilities and reporting lines for ML/TF risk management and compliance, for the reasons pleaded at paragraphs 221 to 226.
221. The Joint Part A Programs did not set out an appropriate framework for end-to-end accountabilities for ML/TF risk management or compliance.

Particulars

In the absence of an appropriate ML/TF risk assessment, the Joint Part A Programs were not capable of establishing a framework for senior business ownership with respect to AML/CTF processes across all products, customer groups and channels - including ownership with respect to related IT, assurance, reporting and remediation.

222. The Joint Part A Programs did not set out a framework for an appropriately:
- a. resourced; and
 - b. expert ML/TF risk management function
- to monitor, support and challenge the business on ML/TF risk-related matters.

Particulars

The AML and Financial Crime teams were under-resourced and did not receive adequate AML/CTF training.

In December 2013, AUSTRAC recommended to Star Sydney that it give consideration to providing more personnel and electronic resources to assist the AML Administrator with their responsibilities.

In December 2018, AUSTRAC recommended to Star Sydney that it increase resourcing of its compliance function. AUSTRAC expressed the view that additional compliance resources would strengthen Star Sydney's capacity to implement and maintain its AML/CTF program for the identification, management and mitigation of ML/TF risk.

As at 2019, there were 3 full time employees (**FTEs**) in SEG's AML function. By August 2022, there were 31 FTEs.

The AML Administrators were primarily responsible for executing the Joint Part A Program. The KPMG Report found that there was inadequate resourcing in place to operate the Program.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23 and 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

The AML Administrators and AMLCO did not have authority to make a number of key AML/CTF decisions, which required approval from business line managers. See for example, paragraphs 123, 125, 806, 813 to 817.

As Star Sydney and Star Qld did not appropriately identify and assess the ML/TF risks of their business, the AML/CTF risk awareness training remained fundamentally inadequate, including at the AML Administrator or AMLCO levels.

Rule 9.2 of the Rules.

See paragraphs 748 and 749.

223. The Joint Part A Programs did not establish appropriate reporting lines for AML/CTF from the business and compliance functions up to senior management, or the BRCC (where required).

Particulars

From November 2019, clause 4.1 of the Joint Part A Program, versions 9 and 10, provided that the AMLCO would regularly report to the BRCC about matters relevant to compliance with the Joint Program. However, there was no specific documented guidance about matters the AMLCO should be escalating or providing to the BRCC, including but not limited to ML/TF risks and emerging sources of ML/TF risks.

224. From 30 November 2016 the Joint Part A Program established or included the AML/CTF Working Party Meetings.

Particulars

Clause 5 of the Joint Part A Programs (versions 4 to 8) stated that the AMLCO will convene meetings of the AML/CTF Working Party, which consists of, at a minimum, the AMLCO and the AML Administrators. The working party will invite participation by others as required and will meet at regular intervals of no less than twice a year to review compliance with the Program and to discuss issues, such as legislative changes, that affect the Group.

From on or about May 2019, the AML/CTF Working Party meetings were referred to as the AML Weekly Meetings.

From around March 2022, the meetings became known as the AML Operations Weekly Meetings to include members of the AML Operations team.

225. The Joint Part A Programs did not clearly establish the role, accountabilities or reporting lines from the AML/CTF Working Party meetings.

Particulars

There was no charter or documented terms of reference setting out the functions, responsibilities or decision-making process for the AML/CTF Working Party meetings.

There was no regular reporting from the AML/CTF Working Party to any single role, committee or body.

226. The Joint Part A Programs did not set out a framework for appropriate assurance and audit functions for AML/CTF matters.

Escalation and emerging risks

227. The Joint Part A Programs had some processes in place for matters to be reported to senior management or the Chief Executive Officer.

Particulars

From 30 November 2016 to 31 October 2019, the Joint Part A Program provided:

- A. that management would report to the BRCC about compliance at meetings relating to operational risk management and compliance matters; and
- B. that any systemic concerns would be reported by the AMLCO to SEG management and the Chief Executive Officer.

From 1 November 2019, the Joint Part A Programs provided that the AMLCO would:

- A. regularly report to the BRCC about matters relevant to compliance with the Joint Program; and
- B. report to the BRCC any concerns about compliance with or the effectiveness of the Joint Program and accompanying standards.

228. At no time did the Joint Part A Program have appropriate processes to escalate, mitigate and manage material ML/TF risks.

Particulars

The risk management function should be primarily responsible for monitoring compliance with the Board's articulated risk appetites and risk tolerances and escalating material risk issues to the Board.

Senior management should be primarily responsible for ensuring that appropriate reporting and monitoring processes are developed and implemented to escalate material risk issues from business units to senior management, the risk management function and, if necessary, the Board, including material risk issues identified by external stakeholders.

The Joint Part A Program did not incorporate or establish appropriate escalation processes.

There was no specific documented guidance about matters the AMLCO or other senior management should be escalating or providing to the BRCC, including but not limited to ML/TF risks and emerging sources of ML/TF risks.

In the absence of these processes, 'red flags', or and higher ML/TF risks were not appropriately escalated: see, for example, paragraphs 460, 365, 460 and 692.

229. The Joint Part A Programs did not have any process or procedure to appropriately consider, act on or escalate applicable recommendations or guidance disseminated or published by AUSTRAC.

Particulars

Rule 9.7 of the Rules.

For example, see paragraphs 742 and 750.

230. At no time did the Joint Part A Programs include appropriate systems and controls to ensure that emerging risks identified through Part A program processes such as transaction monitoring, SMR reporting and ECDD were appropriately escalated to management for the purposes of the ongoing assessment and management of the ML/TF risks that Star Sydney and Star Qld reasonably faced.

Remediation

231. At no time did the Joint Part A Programs include appropriate systems and controls to identify, review and remediate recurring failures in ML/TF risk management and compliance, as they occurred.

Particulars

Compliance issues raised by KPMG in 2018 remain outstanding according to recent external reviews. AML/CTF processes continue to be manual, not informed by ML/TF risk assessments, and not appropriately embedded in operational procedures.

Information management and records

232. At no time did the Joint Part A Programs establish or incorporate an appropriate information management framework to support ML/TF risk management and compliance.
- a. Star Sydney and Star Qld did not establish an appropriate framework to create and maintain transaction and customer records.
 - b. Star Sydney and Star Qld did not establish an appropriate framework to create and maintain transaction and customer records relating to designated services provided through junket and rebate channels.
 - c. Star Sydney and Star Qld did not establish appropriate information or data management systems and controls that were capable by design of supporting:
 - i. customer risk assessments;
 - ii. transaction monitoring;
 - iii. ECDD; and
 - iv. reporting under Part 3 of the Act.
 - d. Star Sydney and Star Qld did not establish appropriate procedures to document ML/TF risk management decisions, including relating to ML/TF risk assessments and controls.

Particulars

See paragraphs 102 and 157.

233. In the absence of accurate information management, the SEG Board and senior management could not be assured that they had a full view of significant matters relating to the Joint Part A Program, over which to exercise ongoing oversight.

The oversight failures – the failure to adopt and maintain a Part A program

234. The absence of a framework for appropriate oversight of ML/TF risk management in the Joint Part A Program, as pleaded at paragraphs 203 to 233, meant that the SEG Board and senior management, respectively, had no basis to be satisfied that the Joint Part A Program was operating as intended and that it had the primary purpose of identifying, mitigating and managing the ML/TF risks reasonably faced by the provision of designated services.

Particulars

Section 85(2)(a) of the Act.

235. The absence of a framework for appropriate oversight of ML/TF risk management in the Joint Part A Program meant that the SEG Board and senior management were unable to exercise ongoing oversight of the Joint Part A Program.

Particulars

Section 85(2)(c) of the Act and rule 9.4 of the Rules.

Appropriate risk-based systems and controls

Controls to manage residual risks within appetite

236. Once a reporting entity identifies and assesses its inherent ML/TF risks and determines its risk appetite, the reporting entity must ensure that its Part A program includes appropriate risk-based systems and controls to mitigate and manage residual risks within appetite.
237. These systems and controls must be aligned to and proportionate to the ML/TF risks reasonably faced by the reporting entity with respect to the provision of designated services.

Particulars

Rules 9.1.3 and 9.1.4 of the Rules.

238. Star Sydney and Star Qld did not determine their ML/TF risk appetite and did not determine appropriate Part A program controls to enable designated services to be provided within ML/TF risk appetite.
239. From 30 November 2016, the Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services they provided for the reasons pleaded at paragraphs 240 to 707 below.

Particulars

Sections 85(2)(a) of the Act and rules 9.1.3 and 9.1.5(4) of the Rules.

See paragraphs 93 to 191 above.

Preventative controls

240. From 30 November 2016, the Joint Part A Programs had very few preventative controls designed to enable Star Sydney and Star Qld to mitigate and manage their ML/TF risks.

Particulars

Preventative controls are those that limit the ability to use a product or channel in a way that would increase the ML/TF risks.

Examples of preventative controls include: setting transaction limits; having a management approval process for high-risk customers, products or countries; applying different identification processes for customers not dealt with in person; or not accepting customers who are deemed too high risk.

241. At all times, the controls in the Joint Part A Programs were predominantly detective and focussed on surveillance for unusual activity that may require SMR reporting to AUSTRAC.

Particulars

Detective controls only seek to monitor activity through a product or channel. Examples of detective controls include: gathering information about how products or channels are used; and reviewing information from internal records, such as transaction monitoring and suspicious matter reporting.

Detective controls do not, of themselves, reduce inherent risks.

The detective controls in the transaction monitoring programs were not appropriately risk-based and did not comply with the Act and Rules. See paragraphs 708 to 791.

Gaming accounts - items 11 and 13, table 3, s6

242. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to items 11 and 13, table 3, s6 designated services for the reasons pleaded at paragraphs 243 to 303.

Front money accounts (FMAs) and Safekeeping accounts (SKAs)

243. At all times, Star Sydney and Star Qld provided customers with FMAs and SKAs.
244. An FMA was opened by Star Sydney and Star Qld on application by a customer.
245. A customer was required to be a member of SEG's loyalty program to open an FMA.
246. Customers were required to maintain a separate FMA at each of the Star Sydney, Star Gold Coast and Treasury Brisbane casinos.

Particulars

The balances of a customer's FMA at each casino property were separately maintained. However, the customer could request a transfer of funds from one casino to another via their FMAs.

247. A SKA was an account automatically created on the establishment of an FMA.

Particulars

When a SKA was automatically opened on the establishment of an FMA, it was given the same account number as the FMA. However, these accounts had separate balances.

248. The opening of FMAs and SKAs constituted item 11, table 3, s6 designated services.
249. At all times, customers of Star Sydney and Star Qld could use money in their FMAs and SKAs to obtain table 1 or table 3, s6 designated services.
250. As a matter of practice, at all times, customers of Star Sydney or Star Qld also used SKAs to:
- a. hold bank cheques while waiting for funds to clear. Once funds cleared, a customer could transfer the funds to the relevant FMA; and
 - b. separate funds relating to play on programs, as pleaded at paragraph 266.
251. Transactions (deposits and withdrawals) on FMAs and SKAs constituted item 13, table 3, s6 designated services.

Particulars

Paragraph 255.

FMAs and SKAs maintained on Synkros

252. FMAs and SKAs were maintained by both Star Sydney and Star Qld on Synkros.

Particulars

Transactions on customer accounts, and most other cash-based transactions, were recorded in Synkros and the related debit / credit information flows to an accounting repository called 'Main Bank Balance Sheet' (**MBBS**).

253. The following information was recorded in a customer's FMA or SKA on Synkros:
- a. amount of deposit or withdrawal; and
 - b. the form (or type) of deposit or withdrawal.

Particulars

The form or type of the deposit or withdrawal that would be recorded included whether it was made by CCF drawdown, cash, chips, transfer from CWA, transfer from SKA, cheque (various types), cash disbursement, transfer from another customer's FMA, program settlement, gaming machine ticket, travellers cheque, telegraphic transfer (EFT), tournament winnings, chip purchase voucher (**CPV**), foreign currency (converted to AUD equivalent) or intercompany transfer (transfer from another SEG casino), FMA to FMA transfers between primary or secondary accounts or sub-accounts. See paragraphs 261 and 264.

The details of the person who deposited the funds were not recorded in Synkros. Nor were details recorded of the person to whom funds were transferred.

For transfers from a customer's FMA or SKA to another customer's FMA/SKA, details of the recipient were contained in the recipient's profile in Synkros and in hard copy records, but not in the FMA or SKA transaction record.

254. The FMAs and SKAs for Star Sydney casino, Star Gold Coast casino and Treasury Brisbane casino were maintained on separate Synkros databases:
- a. A customer who opened an FMA or SKA at the Star Sydney casino could use the account to obtain designated services from Star Sydney only.
 - b. A customer who opened an FMA or SKA at the Star Gold Coast casino could use the account to obtain designated services from Star Qld at the Gold Coast casino only.
 - c. A customer who opened an FMA or SKA at the Treasury Brisbane casino could use the account to obtain designated services from Star Qld at the Treasury Brisbane casino only.

Particulars

The balances of FMAs or SKAs held by a customer at each SEG casino were maintained separately on Synkros.

However, a customer could request a transfer of funds from one SEG casino to another, via an FMA or SKA (paragraph 255(a)(iii)).

Some customers had multiple accounts with multiple account numbers. See paragraph 847.

Transacting on FMAs and SKAs

255. At all times, a Star Sydney or Star Qld customer, or their representative, could deposit funds into their FMA or SKA, or withdraw funds from their FMA or SKA, by way of:
- a. money in the form of:
 - i. cash;
 - ii. a transfer to or from a bank account (held by either the customer or a third party);
 - iii. a transfer to or from another FMA or SKA held with any SEG casino;
 - iv. a transfer to or from the customer's primary FMA, secondary FMA or a sub-account of their primary FMA (defined at paragraph 261);
 - v. a transfer to or from a CCF account (held by the customer or a third party, such as a junket funder);
 - vi. a transfer to or from a CWA held with any SEG casino;
 - vii. cheque;
 - b. chips or other CVIs (items 7 and 8, table 3, s6).

Particulars

The deposit or withdrawal of money into or out of FMAs and SKAs was an item 13, table 3, s6 designated service.

In addition, the deposit of money or withdrawal of money via the channels pleaded at paragraphs 255(a)(ii) to (vi) were items 32 and 31, table 1, s6 designated services respectively. See paragraphs 304 to 310.

256. The provision of item 6 and item 9, table 3, s6 designated services to customers was not recorded on the customer's FMA or SKA.

FMAs and CCFs

257. At all times, a Star Sydney or Star Qld customer was not eligible for a CCF unless they had first opened an FMA with Star Sydney or Star Qld.

Particulars

See paragraph 500(d).

258. At all times, a Star Sydney or Star Qld customer could:
- a. deposit an amount drawn down from a CCF into their FMA (including a drawdown from a Hotel Card-funded CCF: see paragraph 358(c)); and
 - b. redeem an amount or repay a balance owed under a CCF by transferring money from their FMA or SKA to their CCF account.

Particulars

Each of these transactions were item 13, table 3, s6 and item 7, table 1, s6 designated services.

Paragraph 542(c).

FMA, SKA, junket play and other rebate play

259. With respect to play on a junket program, at all times:

- a. Star Sydney and Star Qld required the junket operator or junket representative to first open an FMA (the **primary FMA**).

Particulars

A junket representative could be authorised as a signatory on a junket operator's FMA (item 12, table 3, s6 of the Act).

- b. A junket player could play on a junket program without having an FMA.

Particulars

The junket operator acted as an agent for junket players. Transactions conducted on a junket operator's FMA could be transactions conducted by the junket operator (as agent) on behalf of a junket player.

260. At all times, junket funders opened FMAs and SKAs with Star Sydney and Star Qld.

Particulars

A junket funder could give a third party authority to a junket operator, junket representative or individual rebate player authorising them to transact on the junket funder's FMA and SKA.

Also, as pleaded at paragraph 526, a junket funder could authorise a junket operator, junket representative or individual rebate player to draw down on their CCF account.

Item 12, table 3, s6 of the Act.

261. At all times, Star Sydney and Star Qld opened sub-FMAs (**sub-accounts**) for junket operators, junket representatives and junket funders who operated multiple junket programs or junket groups.

Particulars

Sub-accounts were separate accounts to the primary FMA.

Each sub-account allowed junket operators, junket representatives and junket funders to maintain separate balances and funding (including through CCFs) for different junket programs or junket groups.

At Star Sydney and Star Qld, sub-accounts also facilitated the operation of financial accounts and junket programs in multiple currencies.

Customers could transfer funds between their primary FMA and sub-account where, for example, they were participating in concurrent junket programs and one junket had lost, whilst another had won.

Junket operators or representatives could transfer funds from the losing sub-account to the winning sub-account to make more funds available.

Many of the larger junket operators and junket funders whose number of sub-accounts increased over time had individual junket summaries completed which detailed all accounts by property, CCF amounts drawn, due dates and FMA and SKA balances prepared daily by the VIP Credit and Collections team.

262. At all times, a Star Sydney or Star Qld customer was not eligible for play on an individual rebate program (other than as a junket player) unless they had first opened an FMA.
263. At all times:
- a. Some individual rebate programs required a participating customer to deposit a minimum amount of front money into their FMA.
 - b. The minimum front money deposit into the customer's FMA was used to purchase rebate-specific chips, such as non-negotiable chips, premium chips or Star VIP chips.
 - c. Funds in an FMA could be applied against non-gaming expenses incurred in connection with the customer's visit for an individual rebate program.
264. At all times, Star Sydney opened secondary FMAs for rebate players to facilitate separate balances for play on different individual rebate programs (**secondary FMAs**).

Particulars

A physical card was given to the customer which allowed them to play on separate rebate programs at the same time.

Separate Synkros profiles were required to separate the funds and play/turnover/rebate calculations.

265. At Star Sydney, selected individual rebate program players on HKD programs could open sub-accounts to facilitate separate balances for play on different individual rebate programs.
266. As a matter of practice, at all times, customers of Star Sydney or Star Qld also used SKAs to separate funds from program play when participating on an individual rebate program.

Particulars

By way of example, the minimum front money for a Non-negotiable Chip Program is \$75,000. If a customer makes a telegraphic transfer of \$80,000, the customer would then deposit \$75,000 into their FMA to meet minimum front money for the Non-negotiable Chip program and deposit the remaining \$5,000 into their SKA. The customer is then able to use the \$5,000 for other gaming outside of the rebate program.

The FMAs and SKAs were a channel for financial and gaming services

267. FMAs and SKAs were a channel through which other table 3, s6 designated services were provided by Star Sydney and Star Qld.
- a. A customer could exchange money in an FMA for chips or other CVIs (item 7, table 3, s6).

Particulars

Chips or CVIs could be used by a customer to enter a game (item 6, table 3, s6).

- b. A customer could deposit chips or other CVIs (item 8, table 3, s6) into an FMA.

Particulars

Winnings that had been paid to a customer (item 9, table 3, s6) (in the form of chips or other CVI) could be deposited into a customer's FMA or SKA account.

- c. A customer could exchange one currency for another by deposit into an FMA or SKA (item 14, table 3).
 - d. A customer could exchange one currency for another by withdrawing AUD from an FMA or SKA in a foreign currency (item 14, table 3)
268. FMAs and SKAs were a channel through which table 1, s6 designated services were provided by Star Sydney and Star Qld.
- a. Star Sydney and Star Qld provided customers with items 31 and 32, table 1, s6 designated services (remittance services) through FMAs and SKAs.

Particulars

Paragraphs 304 to 310.

- b. Credit (by way of a loan through a CCF) provided to a customer by Star Sydney and Star Qld could be drawn down and deposited into a customer's FMA, being an item 7, table 1, s6 designated services.

Particulars

Paragraphs 494 to 550.

- c. CCF repayments could also be first credited to a customer's FMA, being items 7 and 32, table 1, s6 designated services, and then transferred to a CCF account.

Particulars

Paragraphs 494 to 550.

Third party deposits

269. At all times, a third party could deposit money into a Star Sydney or Star Qld customer's FMA or SKA by:
- a. cash deposit at the Cage;
 - b. deposit of chips or other CVI at the Cage;
 - c. transfer from another FMA, SKA or CCF account held by the third party (held either at Star Sydney or Star Qld); or
 - d. transfer from a bank account through the Star Patron account channels (defined at paragraph 312).

(third party deposits)

270. Star Sydney's and Star Qld's policies that purported to limit third party deposits into FMAs and SKAs:

- a. were not supported by appropriate operational procedures such that they were not capable of being consistently applied;

Particulars

Paragraphs 271 to 274 and paragraphs 276 to 277.

- b. included material exceptions and omissions; and/or

Particulars

Paragraph 275.

- c. were inconsistent with other policies and practices that permitted third party deposits.

Particulars

Paragraphs 275 and 276.

- 271. Until 5 November 2021, there was no prohibition in SEG's Cage Standard Operating Procedure on third party deposits into a customer's FMA or SKA.
- 272. From 5 November 2021, SEG's Cage Standard Operating Procedure introduced a prohibition on third-party deposits unless there was an authorisation from the beneficiary of the FMA or SKA.

Particulars

Provided that the third party was a customer of SEG, the Cage Standard Operating Procedure did not purport to restrict the category of third parties who could be authorised to deposit money into a customer's FMA or SKA.

- 273. Prior to 5 November 2021, SEG had an informal policy that third parties could deposit funds into a customer's FMA or SKA (and CCF) if the customer provided Star Sydney or Star Qld with a third party authority.

Particulars

The informal policy was that the third party was required to be an established customer of a SEG casino, with KYC checks already completed. The authority could be limited in time and value.

- 274. The informal policy pleaded at paragraph 273 was not supported by appropriate operational procedures and was not capable of being reliably or consistently applied.

Particulars

The informal policy was not supported by a Standard Operational Procedure that Cage staff were required to follow.

Third party authorities were not centrally recorded but were stored offsite in hard copy, together with the deposit receipt which would contain the signature of the third party. There was no reliable or consistent way of verifying that a third party was authorised to make deposits on each occasion that a deposit was made.

There were no processes in place for the Cage to obtain the full name and customer ID of a third party who was depositing funds.

In practice, there were occasions where deposits by third parties were accepted at the Cage without authorisation.

For example, on 8 August 2019, two Suncity staff members each deposited \$100,000 into the Star Sydney FMAs of two different customers. Neither staff member was a junket representative.

By way of further example, in September 2018, Customer 73 arrived at the Star Gold Coast casino to play as an international guest on a premium group program, notwithstanding that he was resident in Queensland. The front money of \$130,000 for Customer 73's play was supplied by another player. The \$130,000 was transferred from the other player's FMA to Customer 73's FMA. The source of these funds was a bank cheque. The following day the other player provided Customer 73 with a \$50,000 bundle of cash in a private gaming room which Customer 73 converted to cash chips. The Star Gold Coast casino was aware that the other player and Customer 73 were linked to Customer 54 and that Customer 54 was of interest to law enforcement.

275. At all times, material exceptions to the policies prohibiting third party deposits have applied.
- a. A junket operator could deposit funds into a customer's FMA or SKA to disburse funds to winning junket players mid-program or at settlement pending the funder's cash out.

Particulars

Cash Out Policy dated 17 June 2016 (**Cash Out Policy**), Schedule.

- b. A junket funder could deposit funds into a junket operator's or junket representative's FMA.

Particulars

Paragraphs 533 to 535.

- c. A junket operator or representative could approve the deposit of funds into a junket operator's FMA by third parties.

Particulars

There were numerous instances of suspicious or unusual third party deposits into FMAs at private gaming room cages, including cash, that were authorised by junket operators or representatives. For example:

In June 2018, a junket operator presented \$2.6 million in cash in \$50 notes from a large suitcase. Star Sydney formed the view that the cash related to earlier Suncity transactions in respect of which it had previously lodged SMRs. The junket operator requested that \$2.57 million be deposited into his FMA and that the remaining \$30,000 be returned to him in cash. The junket operator then requested that the \$2.57 million be transferred to Customer 3's FMA. Customer 3's representative was at the Cage to authorise the deposit to Customer 3's FMA. Star Sydney considered the \$30,000 appeared to be a fee

to the junket operator for completing the cash transaction on Suncity's behalf.

- d. A junket operator, junket representative and junket player could deposit funds into a junket funder's FMA or SKA.

Particulars

Cash Out Policy.

- e. Third party remitters could deposit money into a customer's FMA or SKA via Star Patron accounts at all times.

Particulars

See paragraph 442.

Notwithstanding the 5 November 2021 Cage Standard Operating Procedure, remittance providers were permitted to continue depositing funds into customers' FMAs and SKAs via Star Patron accounts.

- f. Through the Customer 9 channels, funds from a third party could be deposited to a Star Sydney customer's FMA or SKA.

Particulars

Paragraph 391.

Star Sydney had no appropriate processes in place to consistently or reliably identify third party deposits through the Customer 9 channels; nor to understand the relationship between the third party and the customer: see paragraph 439.

- g. Other third parties could deposit money into a customer's FMA or SKA via Star Patron accounts at all times.

Particulars

For example, transfers from third party bank accounts were accepted into the Bank 1 (Macau) account. Senior SEG Macau employees facilitated some of these transfers but considered it was not their duty to check for source of funds, as these VIP customers "were doing big business".

- h. Cash could be deposited into Star Patron accounts.

Particulars

Narratives on the bank statements for Star Patron accounts did not consistently or reliably identify if a deposit had been in cash and, if so, the identity of the person making the deposit.

- i. Funds could be deposited to a Star Sydney or Star Qld customer's FMA or SKA by transfer from the gaming account of another casino.

Particulars

Star Sydney and Star Qld had no processes to verify whether these transfers came from the customer or a third party.

276. At no time did Star Sydney or Star Qld have appropriate policies or procedures in place to identify which deposits made into Star Patron accounts were made in cash.

Particulars

Narratives on the bank statements for Star Patron accounts did not consistently or reliably identify if a deposit had been in cash and, if so, the identity of the person making the deposit.

No other systems or controls were in place to identify which deposits made into Star Patron accounts were made in cash.

Cash could be deposited into Star Patron accounts in foreign jurisdictions and in Australia.

Prior to December 2020, cash could be deposited into Star Sydney's and Star Qld's Bank 2 accounts via Bank 2's Smart ATMs. See paragraph 327(j).

277. At no time did Star Sydney or Star Qld have appropriate policies or procedures in place to return third party deposits that had been deposited into Star patron accounts in contravention of the policies purporting to limit third party deposits.

Particulars

Prior to 5 November 2021, Star Sydney and Star Qld did not have in place policies and procedures in relation to third party deposits into Star Patron accounts, including with respect to the rejection and/or return of funds deposited by third parties into the accounts.

The Cage Operations Standard Operating Procedures 'Task 11 - Bank Telegraphic Transfers – Accepting' was updated on 5 November 2021.

It provided that if a clear connection cannot be established between the guest and the narrative on the bank statement or the information received from the bank, the payment will be rejected.

However, there was no procedure to give effect to the rejection of the deposit or to return the funds.

Narratives on bank statements would not consistently or reliably identify if a deposit had been made by a third party, particularly with respect to cash deposits.

278. Deposits by third parties into FMAs and SKAs involved higher ML/TF risks, including:
- a. a lack of transparency as to source of funds;
 - b. a lack of transparency as to the purpose of the transaction; and
 - c. risks of smurfing, cuckoo smurfing or offsetting.

Particulars

Paragraph 25.

279. At no time did the Joint Part A Programs include appropriate risk-based procedures to:
- a. verify the identity of third parties depositing funds into Star Patron accounts;

- b. understand the source of funds relating to third party deposits; or
- c. understand the nature of the relationship between the customer and the third party;

Particulars

Rules 9.1.5, 15.2 and 15.3; and paragraphs (l) and (m) of the definition of KYC information in rule 1.2.1 of the Rules.

An authorisation given to a third party to deposit funds into a customer's FMA or SKA, on its own, was not an appropriate risk-based control.

Third party transfers

280. At all times, Star Sydney and Star Qld would process a transfer of funds from a customer's FMA or SKA to a third party (**third party transfer**) in the following circumstances:
- a. A junket operator, junket representative and junket player could transfer funds from their FMA or SKA to a junket funder's FMA or CCF account.

Particulars

At the conclusion of a program, outstanding amounts owed under a CCF funding the program would be transferred from the junket operator's FMA or SKA to the junket funder's FMA or CCF account before winnings were disbursed to players.

Where rebates were payable by Star Sydney or Star Qld to a junket operator pursuant to a Revenue Sharing Agreement, being a rebate calculated by reference to the wins or losses recorded by the junket, or Rebate on Turnover, being rebates calculated by reference to the turnover recorded by the junket (see paragraph 634) that rebate was used to offset any outstanding amounts on a CCF used to fund the junket program. The CCF used to fund the junket program could be in the name of the junket operator or a junket funder. See paragraph 634.

A transfer from a junket operator's or representative's FMA or SKA to a junket funder's CCF account to redeem credit loaned to a junket program did not necessarily equal the amount drawdown on the junket funder's CCF and deposited into the junket operator's or representative's FMA or SKA at the commencement of a program because:

- a. rebates could be offset; and
- b. junket players or other third parties could repay credit loaned by a junket funder to a junket program.

The repayment of CCFs via transfers from customers' FMAs or SKAs therefore lacked transparency.

Paragraphs 631 and 666.

- b. Any customer could transfer funds from their FMA or SKA to repay a third party's CCF account.

Particulars

Paragraph 542(c).

- c. A junket funder could transfer funds from their FMA or SKA to a junket operator, junket representative or junket player.
- d. A junket operator could transfer funds from their FMA or SKA to junket players to disburse funds to winning junket players mid-program or at settlement.
- e. A junket representative could withdraw cash or chips from a junket operator's FMA or SKA, subject to authority.
- f. Under the Customer 9 channels, Customer 9 could transfer funds from his FMA to any third party FMA.

Particulars

Paragraphs 404, paragraph 414(b), 422(g), 424(b), 430(b) and paragraph 435.

- g. Any customer could transfer money to a third party from their FMA or SKA via telegraphic transfer to an external bank account, including Australian bank accounts or overseas banks accounts in the following circumstances:
 - i. Junket operators were permitted to send funds to junket players.
 - ii. A customer could send funds to the bank account of another casino.
 - iii. If money had been deposited into an FMA from a third party bank account, the funds could be returned to the same source account (for example to the company account, joint account or trust account) if proof of deposit was provided via the form of a receipt.

- 281. Transfers from FMAs and SKAs to third parties involved higher ML/TF risks, including:
 - a. they often formed part of a complex transaction chain;
 - b. a lack of transparency as to the purpose of the transaction; and
 - c. risks of smurfing, cuckoo smurfing or offsetting.

Particulars

Paragraph 25.

- 282. At no time did the Joint Part A Programs include any policies or procedures to appropriately limit or monitor third party transfers from FMAs and SKAs, having regard to ML/TF risk.
 - a. There were no policies or procedures to limit or monitor the transfer of money from one customer's FMA or SKA to another customer's FMA or SKA.
 - b. There were no policies or procedures to limit or monitor the transfer of money from one customer's FMA or SKA to another customer's CCF account.
 - c. There were no daily or transaction limits applying to FMA or SKA accounts with respect to withdrawals, including third party transfers.
 - d. There were no risk-based controls to understand the nature of the relationship between the customer and the third party.

Particulars

Rules 9.1.5, 15.2 and 15.3; and paragraphs (l) and (m) of the definition of KYC information in rule 1.2.1 of the Rules.

Dormant or parked funds in FMAs and SKAs

283. At all times, a customer of Star Sydney and Star Qld could leave unlimited funds in an FMA or SKA for an unlimited period without applying those funds to gaming (**parked or dormant funds**).
284. Parked or dormant funds in FMAs or SKAs posed higher ML/TF risks for the following reasons:
- a. An FMA or SKA having a large dormant balance, of itself, was an indicator of ML/TF risk as it is contrary to the purposes of such accounts.
 - b. FMAs and SKAs could be used to store money outside the banking system.
 - c. The 'parking' of illicit money puts distance between the act or acts that generated the illicit funds and the ultimate recipients of those funds, making it harder to understand or trace the flow of money.
 - d. Gaming accounts such as FMAs or SKAs could be used to park or hide funds from law enforcement and relevant authorities.
 - e. A customer who held a large dormant balance in an FMA or SKA may have had a higher risk profile that may have required closer monitoring or enhanced customer due diligence including analysis as to the source of funds or wealth.
 - f. FMAs and SKAs held by junket operators and representatives were highly vulnerable to the storage and movement of potentially illicit funds.

Particulars

See paragraph 650 below.

- g. FMAs or SKAs that held a large dormant balance, with minimal gaming by the customer, could involve higher ML/TF risks.
- h. The use of FMAs and SKAs for predominantly financial transactions, namely the movement of money into and out of the casinos, represented a higher ML/TF risk.
- i. Large withdrawals from a previously dormant account could indicate higher ML/TF risks.

The ML/TF risks of FMAs and SKAs

285. At all times, FMAs and SKAs involved higher ML/TF risks, including:
- a. FMAs and SKAs facilitated the movement of money into and out of the casino environment, including through complex transaction chains involving the provision of both table 1 and table 3, s6 designated services.
 - b. Customers could deposit money into FMAs and SKAs through non-face-to-face Star Patron account channels, both domestic and international, including cash.

Particulars

Paragraphs 370 to 384.

- c. Third parties could deposit money into FMAs and SKAs by domestic or international telegraphic transfer, via non-face-to-face Star Patron accounts, including cash.

Particulars

Star Patron accounts are defined at paragraph 311; see also paragraph 327.

Paragraphs 269 to 279.

- d. Overseas based remitters could deposit funds into FMAs and SKAs by domestic or international telegraphic transfer, via non-face-to-face Star Patron accounts.

Particulars

Star Patron accounts are defined at paragraph 311: see also paragraph 327.

Paragraphs 442 to 460.

- e. Money could be transferred through FMAs through the non-transparent Customer 9 channels.

Particulars

See paragraphs 391 to 441.

- f. A customer could withdraw cash from their FMA or SKA, including when the customer had applied the funds to minimal or no gaming.

Particulars

Paragraph 708.

- g. Customers could withdraw money from an FMA or SKA through non-face-to-face channels, without being present at the Cage.

Particulars

For example, the customer could provide the casino with an instruction, non-face-to-face, for the funds to be transferred from their FMA or SKA to their CCF account or to the CCF account of a junket funder.

- h. Star Sydney and Star Qld provided customers with multiple FMAs, sometimes with different customer identification numbers. Funds could be transferred between these accounts.

- i. Junket operators, representatives and funders could hold multiple FMA accounts and multiple sub-accounts. Funds could be transferred between these accounts.

Particulars

Paragraph 261.

For example, see Customer 45.

- j. Players on rebate programs could hold secondary accounts for multiple rebate programs.

- k. Money could remain dormant or parked funds in FMAs and SKAs.

Particulars

Paragraph 284.

- I. Money could be transferred between the FMAs held by a customer at each of the Star Sydney, Star Gold Coast and Treasury Brisbane casinos.

Particulars

Each SEG casino maintained records of transactions on separate Synkros databases which could not be automatically collated.

- m. Money could be transferred out of the casino through Star Patron accounts, including to third parties.

Particulars

Paragraphs 280 to 282.

286. At no time did Star Sydney and Star Qld conduct an appropriate assessment of the ML/TF risks of providing:
 - a. table 1, s6 designated services through FMAs and SKAs; or
 - b. table 3, s6 designated services through FMAs and SKAs.

Particulars

Paragraphs 99 to 104.

Star Sydney and Star Qld purported to conduct an ML/TF risk assessment of FMAs in 2019, during a risk register review. The assessment rated the overall risks of FMAs as low, with controls rated effective. This assessment did not have appropriate regard to the ML/TF risks pleaded at paragraph 285.

On 12 November 2019, Star Sydney and Star Qld conducted a casino wide money laundering product risk assessment, including in relation to FMAs. The purported assessment of FMAs did not have appropriate regard to the ML/TF risks pleaded at paragraph 285.

The 2019 risk register review did not assess the ML/TF risks of SKAs.

Nor did the 2019 casino wide money laundering product risk assessment.

287. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services provided through FMAs and SKAs.
 - a. The Joint Part A Programs did not include appropriate risk-based systems and controls to identify, mitigate and manage the ML/TF risks identified at paragraph 285 above.
 - b. Star Sydney and Star Qld did not impose a limit on the amount of money that a customer could hold in an FMA or SKA.
 - c. There was no limit on telegraphic transfers into or out of FMAs or SKAs, or on cash withdrawals.

- d. There were no limits on transfers from the FMA or SKA of one customer to the FMA, SKA or CCF account of another.
- e. Controls on third party deposits and transfers were not appropriately risk based

Particulars

Paragraphs 269 to 282.

- f. Star Sydney and Star Qld did not apply appropriate risk-based monitoring of dormant or parked funds in FMAs and SKAs to identify, mitigate and manage the ML/TF risks pleaded at paragraph 284 above.
- g. In the absence of key details of transactions being recorded on Synkros, Star Sydney and Star Qld could not appropriately understand and monitor the ML/TF risks of transactions.

Particulars

Paragraph 253.

- 288. The failure to appropriately identify, mitigate and manage the ML/TF risks of FMAs and SKAs made Star Sydney and Star Qld vulnerable to criminal exploitation.
- 289. As at January 2021 Star Sydney and Star Qld held \$43.8 million of customers' monies, comprising:
 - a. Just under \$24.9 million in 46,124 FMAs; and
 - b. Over \$18.9 million in 45,828 SKAs.

Cashless wagering accounts (CWAs)

- 290. At all times from November 2017, Star Sydney and Star Qld offered customers (with Silver tier membership or above) cashless wagering accounts (**CWAs**) that facilitated play on electronic gaming machines (**EGMs**) or electronic table games (**ETGs**).

Particulars

See paragraphs 559 to 581 below with respect to designated services provided through EGMs and ETGs.

- 291. A Star Sydney or Star Qld customer with a Star Club loyalty membership card (**membership card**) was eligible to apply to activate a CWA.

Particulars

A customer was not required to first open an FMA in order to be eligible to activate a CWA.

- 292. Star Sydney and Star Qld maintained CWAs on Synkros.

Particulars

A CWA activated at Star Sydney casino could be used for play on EGMs and ETGs at the Star Sydney casino only.

A CWA activated at Star Gold Coast casino could be used for play on EGMs and ETGs at the Star Gold Coast casino only.

A CWA activated at Treasury Brisbane casino could be used for play on EGMs and ETGs at Treasury Brisbane casino only.

293. A Star Sydney or Star Qld customer could transfer or load funds from their CWA to an EGM or ETG by inserting their membership card into the EGM or ETG and entering their PIN.
294. A customer was also able to transfer credits between EGMs or ETGs via their CWA.
295. A CWA facilitated the provision by Star Sydney and Star Qld of items 6 and 9, table 3, s6 designated services to a customer.
296. Once a CWA is activated, funds could be deposited into the CWA at Star Sydney or a Star Qld casino by way of:
 - a. cash or cheque deposit at the Cage, with no limit;
 - b. prior to June 2020, cash through an EGM or ETG up to \$7,500;
 - c. from June 2020, cash through an EGM or ETG up to \$5,000;
 - d. cash deposit through a cash redemption terminal at Star Qld, up to \$5,000 on the main gaming floor and up to \$9,000 in private gaming rooms;
 - e. credit from an EGM or ETG up to \$9,999 at Star Sydney;
 - f. credit from an EGM or ETG at Star Qld, up to \$9,999 prior to November 2020, and up to \$7,500 from November 2020;
 - g. a ticket-in-ticket-out (**TITO**) ticket;
 - h. a payout or hand-pay ticket;
 - i. casino dollars (being the Star Club loyalty program currency), which could be redeemed directly at an EGM at 1:1 value;
 - j. transfer from any FMA or SKA held by the customer at the Cage, with no limit;
 - k. deposit into a Star Patron account, which would be credited to the customer's FMA or SKA (if the customer held such an account) and then transferred to their CWA; or
 - l. transfer from the customer's CWA at another SEG casino via their FMA.
297. A Star Sydney or Star Qld customer could withdraw funds from a CWA by way of:
 - a. cash at the Cage;
 - b. cash through a participating cash redemption terminal up to a limit of \$5,000 at Star Sydney;
 - c. cash through a participating cash redemption terminal up to a limit of \$5,000 at Star Qld on the main gaming floor or \$9,000 in private gaming rooms;
 - d. transfer to the customer's FMA or SKA at the Cage;
 - e. once funds had been transferred to the customer's FMA or SKA, by electronic transfer at the Cage to:
 - i. the customer's bank account;
 - ii. a third party's bank account;
 - iii. a third party's FMA; or

- iv. cheque;
 - f. once funds had been transferred to the customer's FMA or SKA, by gaming cheque; and
 - g. transfer to the customer's CWA at another SEG casino.
298. There were no limits on the amount of money that could be held in a CWA.
299. Star Sydney and Star Qld provided item 11, table 3, s6 designated services when they opened a CWA for a customer.
300. Star Sydney and Star Qld provided item 13, table 3, s6 designated services when funds were:
- a. deposited or credited to a CWA; or
 - b. withdrawn from a CWA.
301. Having entered into a game on an EGM or ETG (item 6, table 3, s6) using credit on a CWA, a customer could be paid out winnings (item 9, table 3, s6) in the form of a ticket, including where there was minimal to no play.

Particulars

TITO tickets could be exchanged for cash at a cash redemption terminal up to \$5,000 at Star Sydney and up to \$9,000 at Star Qld or at the Cage for amounts above these limits.

Paragraph 579.k.

Tickets were highly transferrable.

302. Star Sydney and Star Qld did not conduct an appropriate assessment of the ML/TF risks of providing designated services through CWAs.

Particulars

Assessments relating to CWAs were recorded in documents dated May 2017, June 2017, September 2017, 2019, January 2020, June 2020, 2020-21 and August 2021.

Star Sydney and Star Qld did not adequately assess the ML/TF risks associated with cash deposits and withdrawals through CWAs. Nor did they assess the ML/TF risks that money could be moved through complex transaction chains involving CWAs.

In 2017, Star Sydney and Star Qld identified in the risk assessment that there was no possible way for AML Administrators to conduct any form of transaction monitoring on CWAs in order to meet AML obligations. It was observed that there was potential for large sums of cash or cash equivalents to be moved through CWAs without any further KYC or enhanced customer due diligence being conducted.

303. At no time did the Joint Part A Programs include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to CWAs:

- a. Prior to 1 June 2020, Star Sydney and Star Qld did not have appropriate risk-based procedures in place to determine whether to collect and/or verify KYC information when opening a CWA.

Particulars

A customer was not required to first open an FMA before they could open a CWA.

Prior to 1 June 2020, the Joint Part B Programs did not require an ACIP to be carried out with respect to a customer opening a CWA: paragraph 868.

- b. At least until April 2021, the AML team's access to CWA transaction data was restricted, impacting the AML's team ability to conduct:
 - i. transaction monitoring; and
 - ii. assurance on threshold transaction reporting.
- c. There were no appropriate controls to identify ML/TF risk factors such as refining or structuring.
- d. There were no appropriate controls to identify, mitigate and manage the ML/TF risks posed by the anonymous transfer of value and transfer of value between instruments such as CVIs.
- e. The Joint Part A Programs did not include appropriate:
 - i. transaction limits or daily limits on CWA deposits or CWA withdrawals at the Cage (including cash) or via FMAs or SKAs;
 - ii. limits on account balances;
 - iii. limits or controls on the cashing out of tickets issued from CWA credits;
 - iv. controls to identify whether money was being withdrawn from a CWA with little or no play;

Particulars

Transwatch alerts developed after the KPMG Report in May 2018 were not effective because transaction data for CWAs was inaccessible.

The TrackVia alerts post 2021 were not appropriate because they did not include any alerts specifically targeting the CWA account type, and relied on manual processes with significant data limitations.

- v. controls with respect to the channels through which funds could be deposited into CWAs, including FMA deposits via channels such as the Star Patron account channel.
- f. It was not until around October 2019 that the SEG Cage Standard Operating procedures provided that:
 - i. a customer could not deposit \$10,000 or more into a CWA unless the customer was first established in Synkros;

- ii. the Cage obtained suitable KYC identification before processing the transaction; and
 - iii. a TTR be lodged.
- g. It was not until around October 2019 that the SEG Cage Standard Operating procedures:
- i. provided that the Cage was not to allow CWA transactions or activate a CWA for excluded customers; and

Particulars

Paragraphs 159 to 177.

- ii. required the Cage to first check if the customer was an excluded customer, by checking the customer's name against Synkros upon swiping the customer's card.

Particulars

As at 30 September 2019, there were 748 unique member accounts to have used CWA since its inception.

Remittance services - items 31 and 32 table 1, s6 designated services

304. Star Sydney and Star Qld were non-financiers.

Particulars

Section 5 of the Act.

305. At all times, with respect to each of the transactions pleaded at paragraphs 323, 344(b), 359(b), 374, 404(d), 414(b), 422(g), 424(b), 430(b), 437(c), 444, 448(c), 455(b), 467, 477 and 483, Star Sydney and Star Qld made money available, or arranged for it to be made available to customers as a result of transfers under a designated remittance arrangement.
306. At all times, Star Sydney and Star Qld provided the services as described at paragraph 305 in the capacity of a non-financier in the course of carrying on a business of giving effect to remittance arrangements.

Particulars

Table 1, s6 remittance services were regularly provided to customers as part of Star Sydney's and Star Qld's business.

The provision of remittance services facilitated gaming (table 3, s6), including high value gaming, and generated gaming revenue.

Remittance services were provided and recorded through Star Sydney and Star Qld's systems including those used for FMAs and SKAs, and were the subject of documented processes and procedures.

307. At all times, Star Sydney and Star Qld provided designated services within the meaning of item 32, table 1, s6 when it provided the services described at paragraphs 305.
308. At all times, with respect to each of the transactions pleaded at paragraph 332, 334(a), 404(b), 414(b), 424(b), 430(a), 430(b), 437(c), 483, 485(a), 485(b) and 485(f), Star Sydney

and Star Qld accepted instructions from the customer for the transfer of money under a designated remittance arrangement.

309. At all times, Star Sydney and Star Qld provided the services as described at paragraph 308 in the capacity of a non-financier in the course of carrying on a business of giving effect to remittance arrangements.

Particulars

See paragraph 306.

310. At all times, Star Sydney and Star Qld provided designated services within the meaning of item 31, table 1, s6 when it provided the services described at paragraph 308.

The Star Patron account channel

311. Star Sydney, Star Qld and EEIS maintained bank accounts (**Star Patron accounts**) to facilitate the transfer of funds into and out of FMAs and SKAs:

- a. At various times, Star Sydney maintained up to:
 - i. 5 accounts in Australian dollars; and
 - ii. 15 foreign currency or multi-currency accounts.
- b. At various times, Star Qld maintained up to:
 - i. 6 accounts in Australian dollars; and
 - ii. 10 foreign currency or multi-currency accounts.
- c. At various times, EEIS maintained up to:
 - i. 2 accounts in Australian dollars;
 - ii. 13 foreign currency or multi-currency accounts; and(the **EEIS Patron accounts**).

Particulars

EEIS opened two accounts with Bank 1 (Macau) from February 2014 – one being multi-currency and one being in foreign currency. EEIS opened four further accounts with Bank 1 (Macau) in February 2015 – one being in Australian currency, and the remainder being foreign or multi-currency accounts. (In relation to the Bank 1 (Macau) cash channel, see paragraph 370).

EEIS opened four accounts with Bank 1 (Hong Kong) in February 2015 – one in Australian currency, and the remainder being foreign or multi-currency accounts.

EEIS opened four bank accounts with Bank 2 in Australia in December 2013, each in foreign currency. One further Bank 2 account in Australian currency was opened in Australia in April 2018.

Each of SEG, Star Sydney and Star Qld could access and operate the Bank 2 EEIS patron accounts.

SEG could access and operate the Bank 1 EEIS patron accounts.

312. The Star Patron accounts were a channel through which Star Sydney and Star Qld provided designated services (the **Star Patron account channel**).

Particulars

Paragraphs 313 to 344.

Transfers into FMAs and SKAs through the Star Patron account channel

313. At all times, Star Sydney and Star Qld customers could transfer or deposit money into Star Patron accounts including for the purposes of:
- a. making front money available to the customer for gaming;
 - b. repaying a CCF; or
 - c. facilitating other expenditure during a visit to a Star Sydney or Star Qld casino.
314. Star Sydney and Star Qld customers could transfer or deposit money into Star Patron accounts that were maintained in Australia and in foreign jurisdictions.
315. Both domestic and international Star Sydney and Star Qld customers could transfer or deposit money into Star Patron accounts that were maintained either in Australia or in foreign jurisdictions.
316. Customers could deposit funds into Star Patron accounts by:
- a. non-face-to-face direct transfer, both from:
 - i. within Australia; or
 - ii. another country; or
 - b. deposit at the Cage.
317. Funds could be deposited into a Star Patron account by cash, cheque or telegraphic transfer, in Australian dollars or foreign currency.
318. A customer of Star Sydney and Star Qld could:
- a. deposit funds personally into a Star Patron account;
 - b. arrange for any third party to deposit funds into a Star Patron account for or on their behalf;

Particulars

Third parties who could deposit funds into a Star Patron account for or on behalf of customers included remittance service providers, Customer 9, junket operators and others.

Cash deposits were accepted into Star Patron accounts held with Bank 2, Bank 1 (Macau), Bank 1 (Hong Kong) and two other banks.

Star Sydney and Star Qld were not in a position to identify which deposits into patron accounts were in cash, or to know the identity of the depositor.

- c. instruct another casino (Australian or foreign) to transfer funds from a gaming account held with that casino into a Star Patron account.

Particulars

See the particulars at paragraph 285.

319. Star Patron accounts were used by some corporate entities to make deposits on behalf of Star Sydney and Star Qld customers, including:

a. corporate entities run by junket tour operators;

Particulars

For example, Company 6, whose director, Person 68, was arrested in December 2016. Notwithstanding the arrest, Star Qld continued to provide designated services to Company 6.

From 30 November 2016 to 4 April 2017, Star Qld facilitated approximately four junket programs in Australian currency and foreign currencies for the Company 6 junket. In the 2017 calendar year, rebates of \$182,320, were payable to the Company 6 junket operator, Company 6.

b. remittance service providers;

Particulars

Paragraph 442 to 460.

c. other corporate entities.

Particulars

From November 2021, if funds were transferred from a company, the customer was required to provide an ASIC company extract stating the association between the guest and the company. The guest was required to be a director and 100% shareholder of the company.

Prior to November 2021, there was no restriction on which companies could deposit funds to the Star.

See the particulars at paragraph 285.

For example, see Customer 87 and Customer 86.

320. Star Sydney and Star Qld customers who wanted to deposit front money or repay a CCF were:

- a. provided with the Star Patron account details by either the SEG's International Marketing team, VIP Host team, Credit and Collections teams or the Cage teams; and
- b. advised to reference their name and/or membership number as a narrative (the **customer narrative**).

321. The Star Patron accounts were reviewed daily by Cage Management of each of the SEG casino properties to identify transactions with a customer narrative.

322. Where a transaction with a customer narrative was identified in a Star Patron account, the deposited money was credited to the customer's FMA or SKA in Synkros.

Particulars

Paragraph 277.

323. Star Sydney and Star Qld made money available to a customer when it credited the customer's FMA or SKA with the money that had been deposited into a Star Patron account.

Particulars

Paragraph 313.

324. The credit to an FMA or SKA, as pleaded at paragraph 323, was a designated service provided by Star Sydney or Star Qld under:
- a. item 32, table 1, s6 of the Act; and
 - b. item 13, table 3, s6 of the Act.

Particulars

Paragraph 307.

325. Once the money deposited into the Star Patron account had been credited to the customer's FMA, the customer of Star Sydney and Star Qld could access the money at the Cage by:
- a. obtaining chips or other CVIs (items 7 and 13, table 3, s6 designated services).
 - b. withdrawing cash in Australian dollars or foreign currency (item 13, table 3, s6 designated services).
326. Once funds had been deposited into an FMA or SKA, including via the Star Patron account channel, a customer could instruct Star Sydney or Star Qld to transfer the money to:
- a. a CCF account in the customer's name held at the same SEG casino for the purpose of redeeming an outstanding CCF balance;

Particulars

Paragraphs 484 to 553.

- b. another FMA or SKA in the customer's name held at either Star Sydney or a Star Qld casino;

Particulars

A customer could transfer funds between their FMAs or SKAs for the purposes of program play.

For example, a customer could transfer funds from their SKA to an FMA that was committed to a junket or rebate program. Such a transfer could occur if a customer was in a losing position and was holding excess funds in SKA.

A customer could also transfer between their FMAs at other SEG casinos, and between their SKAs at other SEG casinos.

- c. a CWA in the customer's name at the same SEG casino at which the customer held their FMA or SKA;

Particulars

Paragraphs 290 to 303.

- d. a bank account, including the customer's personal account, a third party bank account or a bank account of another casino;

Particulars

Paragraph 332.

Money could be transferred from a customer's FMA or SKA to a bank account for the purpose of returning front money as well as remitting winnings, including to customers overseas. Generally, outward telegraphic transfers were sent to a bank account in the same customer name as the FMA.

Money could be transferred from a customer's FMA or SKA to a third party bank account where the third party and the customer were participants in the same junket and the junket settled with winnings being transferred to the players.

Money could be transferred from a customer's FMA or SKA to a third party bank account if funds had been deposited into the customer's FMA or SKA from that third party bank account.

A customer could request a transfer of funds in their FMA or SKA to a casino of their choice either inside or outside of Australia.

- e. another customer's FMA, SKA or CCF account held at the same SEG casino at which the customer held their FMA or SKA.

Particulars

Paragraphs 280 to 282.

- f. another customer's FMA held at another Star casino, via the transferring customer's FMA at the recipient customer's casino.

Particulars

The acceptance by Star Sydney or Star Qld of each of the instructions pleaded at paragraph 326(a) to (f) was an item 31, table 1, s6 designated service and an item 13, table 3, s6 designated service.

- 327. The provision of item 32, table 1, s6 designated services through the Star Patron account channel involved higher ML/TF risks, including risks arising by reason of the following:
 - a. Designated services provided through the Star Patron account channel were facilitated through FMAs and SKAs, which involved the ML/TF risks pleaded at paragraph 285.
 - b. Remittance services were often provided as part of a complex chain of different designated services under tables 1 and 3, s6 of the Act.
 - c. Money could be remitted through Star Patron accounts 24 hours a day, 7 days a week.
 - d. Funds could be deposited into Star Patron accounts through non-face-to-face channels.
 - e. Funds could be deposited into Star Patron accounts offshore, including in foreign currencies.
 - f. Funds could be moved across international borders through Star Patron accounts.

- g. Star Sydney and Star Qld had very limited visibility over who was depositing funds into Star Patron accounts.
- h. Star Sydney and Star Qld conducted no, or very limited, checks to identify the party depositing the money and their source of funds.
- i. Star Sydney and Star Qld accepted cash deposits through Star Patron accounts.

Particulars

Paragraphs 373, 401, 414, 453, 466.

From 2013 to January 2018, Star Sydney and Star Qld maintained accounts with the Bank 1 (Macau) branch. From 2013 to April 2018, EEIS maintained accounts with the Bank 1 (Macau) branch. The accounts held by Star Sydney, Star Qld and EEIS accepted cash deposits from or on behalf of Star Sydney and Star Qld customers for the payment of CCFs or for front money in advance of play.

From 16 February 2015 to 30 June 2022, EEIS also maintained accounts with the Bank 1 (Hong Kong) branch which accepted cash deposits from or on behalf of Star Sydney and Star Qld customers for the payment of CCFs or EEIS loans.

At all relevant times, Star Sydney maintained an account with another foreign bank. Although this account was not set up with the intention of receiving cash deposits, there were no bank restrictions that would prevent cash deposits being made.

Until 31 December 2021, Star Sydney and Star Qld maintained accounts with a third foreign bank. Whilst these accounts were not supposed to accept cash deposits and were only supposed to accept cheque deposits and TTs, the third foreign bank did not prevent or restrict cash deposits from being made into these accounts.

At all relevant times, Star Sydney, Star Qld, and EEIS maintained accounts with Bank 2 in Australia, which were capable of receiving cash deposits.

The source of funds relating to cash deposits is more difficult to identify and trace than deposits by telegraphic transfer or cheque.

- j. Prior to 24 December 2020, Star Patron accounts held with Bank 2 permitted cash deposits through ATMs (including Smart ATMs) where the identity of the depositor could not be known or verified.

Particulars

In December 2020, a formal request was made that Bank 2 would no longer allow Smart ATM deposits into SEG entity bank accounts. From 24 December 2020 Smart ATM deposits could no longer be received into SEG entity bank accounts with Bank 2.

For example, see the suspicious Smart ATM transactions conducted by Customer 74.

- k. Star Sydney and Star Qld accepted deposits into Star Patron accounts from third parties (both telegraphic transfer and cash).

Particulars

Paragraphs 269 to 279.

- l. Star Sydney and Star Qld accepted deposits into Star Patron accounts from remittance service providers.

Particulars

Between January 2018 and October 2021, 11 overseas remittance service providers, including Company 1, Company 4, and Company 8, deposited at least \$47.2 million into three Star Patron accounts (excluding EEIS Patron accounts).

Star Sydney and Star Qld relied on the remitter having conducted due diligence on the depositor, and did not make its own inquiries as to the identity of the depositor.

- m. Acceptance of third party payments into Star Patron accounts provided an avenue for money laundering through smurfing or cuckoo smurfing.
- n. There were no limits on telegraphic transfers into an FMA or SKA.

Particulars

Paragraph 287(d).

- o. Once funds were deposited into an FMA or SKA via the Star Patron account channel, the funds could be transferred out of the FMA or SKA through further transactions, including by way of cash withdrawal and telegraphic transfer to another bank account (including to third parties).
- p. Deposited funds could be withdrawn, including through non-face-to-face channels, whether or not the customer used these funds to gamble.
- q. A customer could move funds deposited in Star Patron accounts from an FMA to a CWA.
- r. Star Sydney and Star Qld provided item 32, table 1, s6 designated services in Australian dollars and foreign currencies.

Particulars

See the particulars at paragraph 285.

- 328. The EEIS Patron accounts posed particularly high ML/TF risks.
 - a. The EEIS Patron accounts involved the ML/TF risks pleaded at paragraph 327.
 - b. The EEIS Patron accounts were established as a payment option for international customers who did not want to send money directly to a bank account in the name of a Star casino.

Particulars

At all times from 30 November 2016, foreign jurisdictions prohibited its citizens from gambling offshore.

The EEIS Patron accounts were established from 2013 to give international customers 'privacy' in moving money.

- c. Higher risk customers deposited money into the EEIS Patron accounts, including junket operators, junket funders, money remitters, foreign PEPs and other individuals.

Particulars

See paragraph 491.

For example, between 14 October 2019 and 20 April 2020, third party companies acting on behalf of Customer 1 deposited a total of \$10,667,257 into the EEIS Patron accounts, which Star Sydney made available to Customer 1 through the EEIS remittance channel.

- d. The EEIS Patron accounts were used by Star Sydney and Star Qld to receive CCF repayments.
 - e. Money owed by a Star Sydney or Star Qld customer could be paid by a third party depositing into an EEIS Patron account, including through overseas remitters.
 - f. EEIS loans could be repaid through EEIS Patron accounts (paragraph 485(c)).
 - g. The EEIS Bank 2 Patron accounts were used to deposit money that was collected from Star Sydney customers through the modified Customer 9 channel (paragraph 422(f)).
 - h. The EEIS Patron accounts were not transparent because:
 - i. from the name of the accounts, their connection to Star Sydney and Star Qld was not apparent on their face; and
 - ii. some customer deposits were entered with the description "investment" or "property investment", disguising their purpose.
 - i. The EEIS accounts were at risk of being exploited by organised crime.
329. Star Sydney and Star Qld failed to assess the ML/TF risks of providing item 32, table 1, s6 designated services through the Star Patron accounts channel.
330. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to item 32, table 1, s6 and item 13, table 3, s6 designated services provided on FMAs and SKAs through the Star Patron account channels, including for the following reasons:
- a. The Joint Part A Programs did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks pleaded at paragraphs 327 and 328.
 - b. The Joint Part A Programs had no risk-based processes in place to understand the source of funds of transactions through the Star Patron account channel.

Particulars

Star Sydney and Star Qld did not carry out checks for source of funds with respect to telegraphic transfers into Star Patron accounts for or on behalf of customers.

- c. The Joint Part A Programs had no processes in place with respect to third party deposits to consistently check the identity of the third party or their source of funds.

Particulars

For example, Star Sydney and Star Qld could not check and verify the source of funds of deposits by remittance service providers. Instead, it was reliant on the remitter to conduct source of funds checks.

See paragraphs 269 to 279 as to the failure to include appropriate controls on third party deposits.

- d. The Joint Part A Programs had no processes to identify deposits into Star Patron accounts that were made in cash.
- e. The Joint Part A Programs did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks of remittance services provided through junket and rebate channels.

Particulars

Paragraph 665.

- f. No appropriate preventative controls were applied to remittance services to mitigate and manage ML/TF risks, such as controls to:
 - i. restrict remittance from third parties;
 - ii. require senior management approval of remittance at or above appropriate pre-determined levels, with the criteria for approval having regard to ML/TF risks; and/or
 - iii. impose daily or transaction limits on remittance.

Particulars

See the particulars at paragraph 285.

- g. Detective controls applied to deposit of funds into FMAs and SKAs through the Star Patron account channel were inadequate.

Particulars

See the particulars at paragraphs 285 and paragraphs 771 to 776.

- 331. The failure to appropriately identify, mitigate and manage the ML/TF risks of providing designated services through the Star Patron account channel made Star Sydney and Star Qld vulnerable to criminal exploitation.

Transfers out of FMAs and SKAs through the Star Patron account channel

- 332. At all times, Star Sydney and Star Qld accepted instructions from its customers to transfer money sourced from customers' FMAs or SKAs to bank accounts by way of telegraphic transfer, including for the purposes of:
 - a. returning front money to customers not used for gaming;
 - b. paying a customer winnings;
 - c. returning front money or paying rebates to a junket funder or junket operator on settlement of a program;

- d. returning money to a bank account from which front money was originally deposited into the FMA; or
- e. otherwise transferring a balance of funds in an FMA or SKA.

Particulars

Paragraphs 280 to 282.

- 333. Star Sydney and Star Qld transferred money from Australia to foreign jurisdictions, sourced from the FMAs or SKAs of foreign resident customers, including for the purposes pleaded at paragraph 332.
- 334. Star Sydney and Star Qld transferred money domestically within Australia, sourced from the FMAs or SKAs of customers, including for the purposes pleaded at paragraph 332.
- 335. Telegraphic transfers out of FMAs and SKAs, via the Star Patron account channel, as pleaded at paragraph 332, involved the provision of:
 - a. item 31, table 1, s6 designated services by Star Sydney and Star Qld, including both domestic and international remittance; and
 - b. item 13, table 3, s6 designated services on FMAs and SKAs.
- 336. When a customer requested to withdraw funds from their FMA and transfer them to a personal bank account, the Cash Services Supervisor/ Duty Manager prepared the transfer paperwork.
 - a. The withdrawal paperwork and the TT paperwork was signed by the customer with a receipt issued. A duplicate copy was sent to the Cage for end of shift reconciliation.
 - b. The Cash Services Supervisor/ Duty Manager loaded the pending TT payment into the online banking portal (the Bank 2 online banking portal) in readiness for approval. The Cashier Services Manager/Duty Manager and Gaming Manager are then sent a copy of the pending transaction via email for their approval.
 - c. Both the Cashier Services Manager/Duty Manager and Gaming Manager are independent approvers who are then able to authorise the payment via the Bank 2 Bank portal.
- 337. From February 2015 to November 2021, Star Sydney and/or Star Qld issued **letters of comfort**, at a customer's request, that purported to verify the customers' winnings.

Particulars

The purpose of a letter of comfort was to provide the customer with proof of the source of funds related to winnings from gaming at a Star casino. A letter of comfort could also be provided to the customer's bank by the customer, if funds were sent offshore by telegraphic transfer or if a casino cheque was issued.

A letter of comfort could only be provided to a customer of Star Sydney who had a loyalty program membership and played in a private gaming room. Such customers were usually playing on a rebate program.

In order to be issued a letter of comfort, the customer was required to have rated winnings from play, as recorded in Synkros or IRBMS.

The amount of winnings stated in the letter of comfort could not exceed the rated winnings as recorded in Synkros or IRBMS.

Prior to issuing a letter of comfort, The Star Sydney verified the winnings by checking the ratings in Synkros or IRBMS and confirmed that the ratings were attributable to the customer requesting the letter.

A letter of comfort was approved and issued by the Cash Services Duty Manager and it recorded a Star reference number, the customer's name and account number. A copy of each letter was retained in the private gaming room Cage.

519 letters of comfort were issued by Star Sydney from 10 February 2015 to 18 November 2021.

13 letters of comfort were issued by Treasury Brisbane casino from 23 October 2018 to 16 June 2021.

64 letters of comfort were issued by Star Gold Coast casino from 4 March 2019 to 12 June 2021.

338. The letters of comfort issued by Star Sydney and Star Qld were estimates of winnings only because Star Sydney and Star Qld did not make or keep complete records of item 6 and 9, table 3, s6 designated services provided to customers.

Particulars

The data relied on from IRBMS did not contain records of gaming transactions that were not specified in the customer's program agreement. The data did not include any uncarded gaming transactions.

The data relied on from Synkros did not include records of any uncarded gaming transactions. The data in Synkros was based on transactions records from Game Connect, which were an estimate based on staff observation and were inputted manually.

Winnings from a tournament or a promotion/draw could not be verified from Synkros/IRBMS data.

Star Sydney and Star Qld were unable to reliably verify that money being paid out to customers was attributable to winnings.

On 5 March 2019, Star Qld prepared 12 letters purportedly confirming Customer 45's winnings totalling \$16,092,500 under individual rebate programs recorded under various account numbers allocated to Customer 45. These letters were issued in circumstances where Customer 45 had attended 21 individual rebate programs and recorded an overall win of \$1,015,000.

339. From 1 May 2019, letters of comfort relating to large payouts to high risk customers were issued by Star Sydney and Star Qld, including:
- a. A letter dated 6 May 2019 issued by Star Sydney, relating to a payout of just under \$2 million by Customer 9;

- b. A letter dated 3 January 2020, issued by Star Sydney relating to a payout of \$4.9 million by Customer 5;
- c. A letter dated 10 February 2020, issued by Star Sydney relating to a payout of \$11.6 million by Customer 5;
- d. A letter dated 14 May 2021, issued by Star Sydney relating to a payout of \$2.9 million by another customer;
- e. A letter dated 1 June 2021, issued by Star Sydney, relating to a payout of just under \$5 million by that same customer;
- f. 12 letters issued by Star Qld on 5 March 2019 relating to payouts totalling over \$16 million by Customer 45.

Particulars

Star Sydney and Star Qld were unable to reliably verify that money being paid out to these customers was attributable to winnings.

See paragraph 338.

The verification provided in letters of comfort issued with respect to Customer 45 was not consistent with Star Qld's and Star Sydney's records of this customer's winnings.

- 340. The provision of item 31, table 1, s6 designated services through the Star Patron account channel involved higher ML/TF risks, including risks arising by reason of the following:
 - a. Money could be remitted out of the casinos 24 hours a day 7 days a week, including offshore.
 - b. Remittance services were often provided as part of a complex chain of different designated services under tables 1 and 3, s6 of the Act.
 - c. Funds sourced from FMAs and SKAs could be moved across international borders through Star Patron accounts.
 - d. Money could be remitted to third parties, including through junket channels.

Particulars

Paragraph 280(g) and 281.

- 341. Star Sydney and Star Qld failed to assess the ML/TF risks of providing item 31, table 1, s6 designated services through the Star Patron accounts channel.
- 342. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to item 31, table 1, s 6 designated services provided on FMAs and SKAs through the Star Patron account channels, including for the following reasons:
 - a. The Joint Part A Programs did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks pleaded at paragraphs and 340.
 - b. The Joint Part A Programs did not include appropriate preventative controls to mitigate and manage ML/TF risks, such as controls to:
 - i. restrict remittance to third parties;

- ii. require senior management approval of remittance at or above appropriate pre-determined levels, with the criteria for approval having regard to ML/TF risks; and/or
- iii. impose daily or transaction limits on remittance.

Particulars

See the particulars at paragraph 285.

- c. The Joint Part A Programs did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks of remittance services provided through junket channels.

Particulars

Paragraph 665.

- d. Star Sydney and Star Qld remitted money to junket players from junket operator FMAs and SKAs, where they could not reliably attribute winnings to individual players and where they relied upon instruction from the junket operator.

Particulars

Paragraph 665.

- e. Star Sydney and Star Qld could not always reliably attribute payouts to winnings.

Particulars

Paragraphs 337 to 339.

- f. Star Sydney and Star Qld did not have appropriate risk-based systems and controls to identify customers requesting withdrawing funds from FMAs/SKAs who had engaged in minimal or no gaming.

Particulars

Paragraph 558.

- g. Transaction monitoring on outward transfers from FMAs was not appropriately risk-based.

Particulars

See the particulars at paragraphs 285.

Items 31 and 32, table 1, s6 designated services - transfers between FMAs, SKAs or CCF accounts

- 343. At all times, Star Sydney and Star Qld could transfer money from one customer's FMA (the **first customer**) to another customer's FMA, SKA or CCF account (the **second customer**) at the first customer's request.

Particulars

There were no limitations on when one customer could transfer funds from their FMA or SKA to another customer's FMA, SKA or CCF account.

Such transfers occurred frequently in the following circumstances.

A junket operator, junket representative and junket player could transfer funds from their FMA or SKA to a junket funder's FMA or CCF account

A junket funder could transfer funds from their FMA or SKA to a junket operator, junket representative or junket player

A junket operator could transfer funds from their FMA or SKA to junket players to disburse funds to winning junket players mid-program or at settlement

344. At all times, when Star Sydney and Star Qld transferred money from the first customer's FMA or SKA to the second customer's FMA or CCF account, Star Sydney and Star Qld:
- a. accepted instructions from the first customer for the transfer of money under a designated remittance arrangement; and
 - b. made money available, or arranged for it to be made available to the second customer as a result of transfers under a designated remittance arrangement.
345. At all times, Star Sydney and Star Qld provided an item 31, table 1, s6 designated service when it accepted instructions from the first customer for the transfer of money to the second customer's FMA or CCF account.
346. At all times, Star Sydney and Star Qld provided an item 32, table 1, s6 designated service when it made money available, or arranged for it to be made available to the second customer as a result of a transfer from the first customer's FMA or SKA.
347. The transfer of funds between the FMAs, SKAs or CCF accounts of different customers facilitated transactions through junket channels and involved higher ML/TF risks.
348. Star Sydney and Star Qld failed to assess the ML/TF risks of providing item 31 and 32, table 1, s6 designated services with respect to transfers between FMAs, SKAs and CCF accounts.
349. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to item 31 and 32, table 1, s6 designated services provided with respect to transfers between gaming accounts, including for the following reasons:
- a. There were inadequate processes in place to understand the reasons for the FMA/SKA to FMA/CCF account transfers, including the relationship between the customers and source of funds.
 - b. Star Sydney and Star Qld would assist junket operators to distribute winnings to individual junket players, without adequate processes to understand the reasons for the transfers.

Particulars

Paragraph 665.

- c. The Joint Part A Programs did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks of remittance services provided through junket channels.

Particulars

Paragraph 665.

- d. The Joint Part A Programs did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks of remittance services provided through the Customer 9 channels.

Particulars

Under the Customer 9 channels, Customer 9 could transfer funds from his FMA to any third party FMA.

- e. No appropriate preventative controls were applied to remittance services to mitigate and manage ML/TF risks, such as controls to:
 - i. restrict remittance to and from third parties;
 - ii. require senior management approval of remittance at or above appropriate pre-determined levels, with the criteria for approval having regard to ML/TF risks; and/or
 - iii. impose daily or transaction limits on remittance.

Particulars

See the particulars at paragraph 285.

- f. FMA/SKA to FMA/CCF account transfers were not subject to appropriate transaction monitoring.

Remittance channels for international customers to transfer money into Australia

- 350. Star Sydney's and Star Qld's international customers transferred money from foreign jurisdictions to Australia, to be credited to their Star Sydney or Star Qld FMA, including for the purposes of:
 - a. making front money available for gaming;
 - b. repaying a CCF;
 - c. facilitating other expenditure during a visit to a Star Sydney or Star Qld casino;
 - d. other non-gaming purposes.
- 351. On and from 30 November 2016, Star Sydney and Star Qld utilised a number of channels to enable international customers to transfer money from foreign jurisdictions to Australia, to be credited to their Star Sydney or Star Qld FMA or SKA (the **international remittance channels**).
- 352. The international remittance channels included:
 - a. The Hotel Card channel (from paragraph 356);
 - b. The Bank 1 (Macau) cash channel (from paragraph 370);
 - c. The initial Customer 9 channel (from paragraph 391) and the modified Customer 9 channel (from paragraph 414) (together, the **Customer 9 channels**);
 - d. Overseas remitter and cash collection channels, including Company 11 (paragraph 442); and
 - e. The EEIS remittance channel (paragraphs 461).

353. Each of the international remittance channels involved the provision by Star Sydney and Star Qld of item 32, table 1, s6 designated services.

Particulars

Paragraphs 360, 407, 432, 418.

354. The international remittance channels also involved the provision by Star Sydney and Star Qld of item 31, table 1, s6 designated services.

Particulars

Paragraphs 406, 429, 417.

355. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to items 31 and 32, table 1, s6 designated services through the overseas remittance channels for the reasons pleaded at paragraph 356 to 493 below.

The Hotel Card channel

356. Star Sydney and Star Qld adopted a practice of making money available to customers at the Star Sydney and Star Qld casino Cages that was sourced from the customers' debit card transactions at SEG hotels (the **Hotel Card channel**).

- a. The Hotel Card channel was adopted by Star Sydney from 2013; and
- b. The Hotel Card channel was adopted by Star Qld from 1 January 2017.

357. At all times, Star Sydney and Star Qld customers accessed money from their debit card using the Hotel Card channel by:

- a. swiping their debit card at a Bank 2 eftpos terminal at either:
 - i. The Star Grand hotel in Sydney (previously known as the Astral hotel);
 - ii. The Star Grand hotel at The Star Gold Coast;
 - iii. The Darling at The Star Gold Coast; or
 - iv. The Treasury Brisbane hotel;(collectively, the **SEG hotels**)
- b. authorising a payment to one of the hotels pleaded at paragraph 357(a) (the **Hotel Card payment**); and
- c. presenting the Hotel Card payment receipt from the Bank 2 eftpos terminal to the Cage at a Star Sydney or Star Qld casino.

Particulars

The VIP/Premium Services Executive Host escorted the customer to the Cage and presented copies of both the merchant and customer copy eftpos receipts.

358. Once the Hotel Card payment receipt was presented to the Star Sydney casino Cage, Star Sydney:

- a. checked the name of the debit cardholder, the debit card user and the customer presenting the Hotel Card payment receipt;
- b. in some instances, approved a temporary CCF or increased the CCF limit for the customer in an amount that was all or most of the amount on the Hotel Card payment receipt, pending clearance of the Hotel Card payment; and

Particulars

Item 6, table 1, s6 of the Act.

See paragraphs 495, 501, 502, 505, 514, 527 and 542 on temporary CCFs.

It could take up to 24 to 48 hours for a Hotel Card payment to be cleared.

- c. deposited money into the customer's FMA that was equal or proximate to the amount of the Hotel Card payment, and in some instances, equal to the amount approved for the temporary CCF or increased CCF limit.

Particulars

Item 13, table 3, s6 of the Act.

- 359. Once the Hotel Card payment receipt was presented to the Star Qld casino Cage, Star Qld:
 - a. checked the name of the debit cardholder, the debit card user and the customer presenting the Hotel Card payment receipt;
 - b. deposited money into the customer's FMA that was equal or proximate to the amount of the Hotel Card payment..
- 360. Star Sydney or Star Qld made money available to the customer within the meaning of item 32, table 1, s6 of the Act when it credited an amount equal or proximate to the Hotel Card payment to the customer's FMA.

Particulars

Paragraphs 305 to 307.

- 361. Once money equal or proximate to the Hotel Card payment was credited to the customer's FMA with Star Sydney or Star Qld, the customer could:
 - a. apply the money to the purchase of a chip purchase voucher for play on table games;
 - b. withdraw the money in cash or by way of an EGM redeemable ticket for play on EGMs;
 - c. access the funds in any other way permitted by Star Sydney or Star Qld, including by way of cash withdrawal or telegraphic transfer to a bank account; and
 - d. apply the money to repay monies owed under a third party CCF.

Particulars

Paragraph 255.

- 362. At all times:
 - a. The Hotel Card payment was recorded in OPERA, the record keeping system maintained by SEG hotels, as a charge to a hotel room account.

- b. The relevant SEG hotel generated a receipt for the Hotel Card payment on a hotel letterhead.

Particulars

The hotel receipt specified the customer's name, a room number and arrival and departure dates. The receipt also recorded a debit and credit to the customer in the amount of the Hotel Card payment, with a description such as "transfer to customer's account". The receipt indicated that no GST was applied to the transaction.

It is not clear whether the hotel receipt was provided to the Star Sydney or Star Qld customer in each instance of it being generated.

363. Star Sydney made money available to customers through the Hotel Card channel from 2013 to 18 February 2022.

Particulars

Generally, Star Sydney permitted customers to access the Hotel Card channel until about March 2020.

Additionally, Star Sydney processed four transactions through the Hotel Card channel from 24 January 2022 to 18 February 2022 totalling \$1.1m.

364. Star Qld made money available to customers through the Hotel Card channel from 1 January 2017 to 26 October 2021.

Particulars

Generally, Star Qld permitted customers to access the Hotel Card channel until about March 2020.

Additionally, Star Qld processed one transaction through the Hotel Card channel on 26 October 2021 totalling \$10,000.

365. The provision by Star Sydney and Star Qld of designated services through the Hotel Card channel involved higher ML/TF risks because:

- a. the designated services provided by Star Sydney and Star Qld that were funded by the Hotel Card transactions related to gaming services within the meaning of table 3, s6 of the Act;
- b. the rules applicable to the use of debit cards made by the issuer of the debit cards used in the Hotel Card channel contained provisions stating the use of its card services for the purpose of gaming was prohibited;

Particulars

For example, the issuer's rules included a statement that "a merchant with a prohibited merchant category code should not be recruited by an Acquirer for the acceptance of [the issuer's] Cards". One of the prohibited codes was "betting... including casino gaming chips".

The issuer's rules also stated: "A [card issued by the issuer] must not be used for any purpose prohibited by local laws applicable in the cardholder's jurisdiction."

From mid-2019 senior management of Star Sydney were aware that the issuer had raised concerns with Bank 2 about transactions that had been identified as suspiciously large gambling transactions, using a prohibited merchant code.

- c. the Hotel Card channel lacked transparency, enabling customers to disguise the purpose and nature of transactions on their debit cards;

Particulars

SEG hotel records presented the Hotel Card payments as relating to hotel charges. The Hotel Card payments were not payments relating to SEG hotel charges. In some instances, the SEG hotels noted dummy rooms on Hotel Card payment records where the customer was not staying at the hotel.

The SEG hotel records thereby created a misleading record of the purpose and nature of the transaction.

An external auditor's report found that the Hotel Card channel introduced features designed to present the Hotel Card transactions as being something other than what they were.

During the period June-December 2019, Bank 2 sent various requests for information to SEG regarding transactions identified as suspicious by the issuer.

SEG provided responses on 19 June, 28 August, 4 November, 7 November and 16 December 2019. These responses indicated that the transactions related to hotel accommodation, and SEG provided documents described as invoices for these transactions. SEG also advised that the use of the service may include other non-gaming expenses processed through a customer's hotel account (such as travel, tourism and entertainment expenses). Senior management were involved in the preparation of these responses. For example, the 7 November 2019 response was approved by the Chief Financial Officer, and had been sent in draft to the SEG General Counsel, Corporate, and the SEG Chief Legal and Risk Officer.

These responses were misleading because they obfuscated the purpose of the transactions and the Hotel Card channel.

- d. transactions through the Hotel Card channel were complex and involved multiple stages, thereby presenting risks that funds could be layered;

Particulars

An external auditor's report found that the procedures and documentation associated with the Hotel Card channel were complex, involved multiple stages and introduced features designed to present the transaction as being something other than what it was. The auditor considered this had the hallmarks of a layering typology and rendered the arrangements vulnerable to exploitation by money launderers.

- e. the jurisdictional profile of the customers involved additional ML/TF risks;

- f. junkets could be funded by a Hotel Card deposit by a junket operator, junket participant or third party;
- g. there was a risk that the Hotel Card channel was facilitating capital flight;
- h. money deposited in FMAs sourced from a Hotel Card transaction could be withdrawn in cash;
- i. money deposited in FMAs sourced from a Hotel Card transaction could be transferred to third parties;
- j. money deposited in FMAs sourced from a Hotel Card transaction could be withdrawn without gaming;
- k. there was a significant volume of money moving through the Hotel Card channel;
- l. the Hotel Card channel was used by junket operators;

Particulars

For example, between 6 January 2017 and 2 February 2017, Customer 14, a junket operator funded by Customer 13, transacted \$327,000 through the Hotel Card channel in four transactions. On each occasion, Star Sydney approved a temporary CCF for Customer 14.

On 7 October 2018 and 23 August 2019, Customer 8, a junket operator funded by Customer 7 transacted \$120,000 through the Hotel Card channel in two transactions. On each occasion, Star Qld made the funds available to Customer 8.

- m. a number of high risk customers were accessing money through the Hotel Card channel.

Particulars

Customer case study: Customer 85

For example, Customer 85 used the Hotel Card channel at Star Sydney during the period November 2014 to February 2018. Customer 85 had debit cards that could be used in the Hotel Card channel with at least five banks in a foreign country, and he never stayed at a SEG hotel.

Customer 85's use of the of the Hotel Card channel was not commensurate with his level of gambling. He was permitted to use the Hotel Card channel to purchase more chips than he used for gambling, and to obtain cheques.

Customer case study: Customer 51

Another example involved Customer 51. By 7 February 2017, Star Sydney was aware of media reports alleging that Customer 51 was being investigated by law enforcement for money laundering offences, and that Customer 51 had planned travel to Star Sydney proposing to buy-in for \$100,000 using the Hotel Card channel. The Star Sydney CEO approved Customer 51's access to funds via the Hotel Card channel on 7 February 2017.

In the period 16 February 2017 to 9 May 2017, Customer 51 transferred \$258,000 in total to Star Sydney using the Hotel Card channel and was provided with a temporary CCF on each occasion, including one instance where a temporary CCF of \$124,000 was approved but the Hotel Card payment was \$24,000 only.

366. At no time did Star Sydney and Star Qld carry out an ML/TF risk assessment of the provision of designated services through the Hotel Card channel.

Particulars

Assessments of the Hotel Card channel conducted by Star Sydney in 2013 and by Star Qld in 2015 did not consider the ML/TF risks of designated services provided through this channel. Nor did these assessments identify the fundamental lack of transparency this channel involved.

367. The Joint Part A Program did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services provided on FMAs through the Hotel Card channel, for the following reasons:
- a. The Hotel Card channel was designed by Star Sydney and Star Qld so that the purpose of the transactions lacked transparency.
 - b. In the absence of an assessment of the ML/TF risks of the Hotel Card channel, this fundamental lack of transparency was not identified.
 - c. In the absence of an assessment of the ML/TF risks of the Hotel Card channel, the risk-based preventive and detective controls throughout the Joint Part A Programs were not designed to manage and mitigate the ML/TF risks specific to the Hotel Card channel, as required by the Act and Rules.
 - d. In particular, transaction monitoring and subsequent suspicious matter reporting undertaken by Star Sydney and Star Qld was not able to identify, assess or report ML/TF risks presented by the channel or by the origin of the Hotel Card funds.
 - e. Star Sydney and Star Qld did not keep a central record of all customers who used the Hotel Card channel, which inhibited the ability to appropriately monitor the ML/TF risks of these transactions.
368. Over \$990 million was deposited through the Hotel Card channel at Star Sydney from 2013 to 18 February 2022, with over \$493 million being deposited on and from 30 November 2016.

Particulars

As at September 2018, the volume of funds deposited using the Hotel Card channel was consistently totalling \$10-20 million per month.

369. About \$55.4 million was deposited through the Hotel Card channel at the Star Qld casinos from 1 January 2017 to 8 March 2020.

The Bank 1 (Macau) cash channel

370. At various times from 22 November 2013 until 27 April 2018, a number of SEG related entities held bank accounts with Bank 1 (Macau) to facilitate customer transactions (the **Bank 1 (Macau) accounts**).

Particulars

Star Sydney opened two accounts with Bank 1 (Macau) in November 2013, two further accounts in February 2015 and one account in August 2016.

Star Qld opened three bank accounts with Bank 1 (Macau) in November 2013, and two further accounts in August 2016.

Bank 1 (Macau) closed the Star Sydney and Star Qld accounts in January 2018 (although SEG understood these had been closed on 31 December 2017).

EEIS opened two bank accounts with Bank 1 (Macau) in February 2014, and a further four accounts in February 2015. These accounts were closed on 27 April 2018.

The EEIS bank accounts accepted deposits for and on behalf of Star Sydney and Star Qld customers.

371. Many international customers wanting to transfer money to Star Sydney, Star Qld or a related entity often preferred to do so in cash.

Particulars

Due to prohibitions on offshore gambling in foreign jurisdictions, some international customers were reluctant, or unable, to: send money to Star Sydney, Star Qld or SEG by telegraphic transfer from their offshore bank accounts; or provide a personal cheque drawn from their offshore bank accounts, including for the purposes of securing a CCF.

372. From 22 November 2013 to April 2018, customers of Star Sydney and Star Qld could deposit cash directly into the Bank 1 (Macau) accounts at Bank 1 (Macau) branch (the **Bank 1 (Macau) cash channel**).

Particulars

In the period 2013 to at least the end of 2017, the Bank 1 (Macau) accounts were heavily utilised for deposits by customers in Macau, both for the deposit of front money and the redemption of cheque cashing facilities. Bank 1 would accept large cash deposits in HKD for this purpose.

When a customer wanted to deposit cash into a Bank 1 (Macau) account, the customer would contact SEG IRB (International Rebates Business) or Credit and Collections in Macau.

373. Cash deposits by customers through the Bank 1 (Macau) cash channel had a number of funding sources:
- a. cash withdrawn by customers from junket cages or junket desks at Macau based casinos;

Particulars

Junkets were unable to transfer funds directly to Star Patron accounts. Star Sydney and Star Qld customers with junket accounts

were therefore required to withdraw funds in HKD from the cage of a Macau junket.

SEG Macau staff would accompany the customer to the junket cage or junket desk, where the customer would withdraw cash and be given a withdrawal receipt by the junket. The SEG staff would accompany the customer to the Bank 1 (Macau) branch, where the cash would be deposited into a SEG account.

It appears that the majority of cash deposits through the Bank 1 (Macau) cash channel were from this source, but this cannot be verified as complete and reliable records were not kept of cash deposits into the Bank 1 (Macau) account or of their source.

Star Sydney, Star Qld and SEG had no visibility over the source of cash withdrawn from junket accounts from Macau casinos.

See paragraph 376.

- b. cash withdrawn from a bank account;

Particulars

Star Sydney and Star Qld did not have any processes in place to determine whether the bank account from which the cash was withdrawn was in the customer's name or a third party's name.

See paragraph 376.

- c. cash from another source.

Particulars

This cash could be sourced from a foreign country.

See paragraphs 377 to 379.

- 374. Cash deposited into the Bank 1 (Macau) bank accounts was made available to Star Sydney and Star Qld customers by way of a credit to their Star Sydney or Star Qld FMA or SKA.

Particulars

Deposit receipts would be provided by Bank 1 (Macau), SEG staff would send them to the Star Sydney or Star Qld Cage, and then the Cage would credit the funds to the customer's FMA or SKA.

Paragraph 322.

This was an item 32, table 1, s6 designated service provided by Star Sydney and Star Qld.

- 375. At all times, the Star Sydney or Star Qld customer could apply the cash deposited into the Bank 1 (Macau) accounts to:
 - a. front money for gaming services, which could be accessed by the customer at the Star Sydney or Star Qld Cage once the deposit had been credited into their FMA or SKA; or
 - b. a debt that was owed by the customer to Star Sydney or Star Qld, such as to an amount owed under a CCF; or

- c. any transaction otherwise permitted through their FMA to SKA, including cash withdrawals.

376. At all relevant times, Bank 1 (Macau) required SEG to provide evidence of the source of funds before it would accept cash deposits into the Bank 1 (Macau) accounts by customers of Star Sydney and Star Qld:

- a. With respect to cash deposited from the source pleaded at paragraph 373(a), a SEG employee would attend the Macau branch with the customer to provide the withdrawal receipt from the junket to Bank 1 as evidence of the source of funds.
- b. With respect to cash deposited from the source pleaded at paragraph 373(b), a SEG employee would attend the Macau branch with the customer to present the bank withdrawal slip to Bank 1 as evidence of the source of funds.

Particulars

The purpose of the SEG employee's attendance at the Macau branch was to represent that the cash was SEG's cash, on the basis that it had been deposited with, or withdrawn from, SEG's Macau branch office.

377. By no later than April 2016, SEG's office in Macau, in consultation with SEG's relationship managers at the Bank 1 Macau branch, developed template letters to meet Bank 1's requirements for source of funds checks for cash deposited from the source pleaded at paragraph 373(c) (the **source of funds letters**).

Particulars

The source of funds letters may have been developed and used as early as 2013. By no later than 1 April 2016, SEG's office in Macau was using them as a matter of practice.

The source of funds letters identified payments that were to be received into Bank 1 (Macau) accounts. The letters purported to provide proof of the source of funds of the deposit and/or a description of the reason for the deposit.

378. From at least 2016, where a Star Sydney or Star Qld customer wanted to deposit cash from the source pleaded at paragraph 373(c) into a Bank 1 (Macau) account, an employee of SEG in Macau would:

- a. complete the source of funds letter with details relating to the depositor;
- b. attend the Bank 1 Macau branch with the Star Sydney or Star Qld customer at the time the cash was being deposited;

Particulars

International employees of SEG attended the branch because they had knowledge of customers and their associates, who may have been depositing funds, which would assist in the identification processes.

- c. provide the Bank 1 (Macau) branch with a copy of a source of funds letter relating to the customer;

Particulars

It was not SEG Macau's practice to keep copies of the completed source of funds letters provided to Bank 1 (Macau).

- d. take a photo of the cash deposit receipt issued by Bank 1 (Macau) to the customer, which was then emailed to the Star Sydney or Star Qld Cage for processing.
379. On and from 30 November 2016, the source of funds letters provided by SEG to Bank 1 (Macau) as pleaded at paragraph 378, contained information relating to the source of funds for the cash being deposited by the Star Sydney or Star Qld customers that was:
- a. false; or

Particulars

For example, one of the template source of funds letters asserted that the cash being deposited by the SEG employee had been withdrawn from the "Macau branch office safekeeping" and any balance would be returned back to a SEG entity "Macau Cage Safekeep", when SEG never had a Cage or safekeeping facility operating in Macau.

Another template letter, being a false letter of demand, was also provided to Bank 1 (Macau) that was intended to create a false impression as to the source of funds for the cash deposit – namely that the cash had previously been paid to SEG and was now SEG's cash.

Other template letters referred to a request for CCF repayment or payment outstanding on a junket, and included the option for a customer to pay cash to SEG's Hong Kong or Macau Office, notwithstanding that this payment method was not offered.

SEG Macau prepared different source of funds templates so that the same documentation was not always provided to Bank 1 (Macau).

The provision of false source of funds letters to Bank 1 (Macau) indicated inadequate control and supervision of the activities of offshore SEG employees.

It was not until late 2021 that SEG senior management identified that false source of funds letters had been issued by SEG Macau, but did not notify this to the SEG Board until 16 February 2022.

- b. not verified, or capable of being verified, by SEG at the time the letters were provided to Bank 1 (Macau).

Particulars

At the time the letters were prepared and the cash was being deposited into the Bank 1 (Macau) accounts, SEG Macau did not conduct any source of funds checks on the customer's cash deposit. Nor did Star Sydney or Star Qld.

SEG Macau did not retain complete records of all of the source of funds letters that were prepared and provided to Bank 1 (Macau).

SEG employees estimated about 20 source of funds letters were issued each year during the period in which this practice was adopted.

Five of the draft letters related to deposits by or on behalf of Customer 1, including for payment of AUD 7.3 million; six letters related to Customer 25, including for payment of HKD 80 million, and one letter related to Customer 34, for payment of over HKD 45 million.

380. During the period of time that the Bank 1 (Macau) accounts were opened, Star Sydney, Star Qld and/or SEG did not keep appropriate records of:
- a. which deposits in the Bank 1 (Macau) accounts were made in cash; and
 - b. which Star customers deposited cash through the Bank 1 (Macau) channel.

Particulars

For cash deposited from the source pleaded at paragraph 373(c), in the process of providing the Bank 1 (Macau) letters, deposit slips were created. These were passed to the Cage at SEG's properties in Australia, sometimes by sending photographs. Hard copy bank deposit receipts were likely held by the Macau office.

No SEG entity retained centralised records identifying which credits to FMAs had been sourced from cash deposits into the Bank 1 (Macau) accounts. Synkros records with respect to these deposits were not complete or accurate.

Although at least \$28 million was deposited through the Bank 1 (Macau) cash channel, it is not known precisely how much cash was deposited through the Bank 1 (Macau) accounts, what the source of the cash was, or how much cash was deposited using the false or incorrect source of funds letter. Star's records suggest the total value of cash deposits made through the Bank 1 (Macau) cash channel could be around \$200 million.

A paper given to the SEG Board in early 2018 reported that although management had implemented an interim solution (being the Customer 9 channel), the closure of the Macau bank accounts was estimated to have a \$21.5 million annual EBITDA impact unless rectified (offset by higher tax costs). This was driven by the assumption that junkets and/or premium direct players who had previously repaid outstanding balances in Macau would not visit SEG properties as frequently.

See paragraph 389 for a description of the EEIS Steering Committee.

381. At no time did SEG, Star Sydney or Star Qld appropriately assess the ML/TF risks of accepting cash deposits through the Bank 1 (Macau) cash channel for and on behalf of customers.

Particulars

The risk register reviews and assessments of FMAs did not consider channel risk, including the risks of depositing cash through the Bank 1 (Macau) channel.

A large number of cash deposits into Bank 1 (Macau) accounts were received from junket operators, including Customer 24.

382. At no time did SEG, Star Sydney or Star Qld include or incorporate appropriate risk-based procedures in the Joint Part A Program to identify or verify the source of funds of cash deposits by or on behalf of customers through the Bank 1 (Macau) cash channel.

Particulars

SEG Macau did not conduct any source of funds checks at the time the source of funds letters were prepared and the cash was being deposited into the Bank 1 (Macau) accounts. Nor did Star Sydney or Star Qld.

Also see the particulars at paragraph 371.

There were no policies or procedures that required cash deposits into the Bank 1 (Macau) accounts to be made by the customer and not by a third party or associate of the customer.

The false or incorrect source of funds letters issued to Bank 1 (Macau) obscured or falsely characterised the true source of funds of the cash deposits into the Bank 1 (Macau) accounts.

383. In the absence of appropriate records of cash deposits into the Bank 1 (Macau) accounts, Star Sydney and Star Qld were unable to apply appropriate risk-based transaction monitoring to these cash deposits.

Particulars

Paragraph 380.

The processes under the Joint Part A Program, including transaction monitoring, could not identify which deposits into the Bank 1 (Macau) accounts were cash or the customer on whose behalf these cash deposits were made. Nor could the processes identify which cash deposits were made by third parties.

384. In the absence of appropriate risk-based transaction monitoring and appropriate information on source of funds or source of wealth, Star Sydney and Star Qld were unable to identify, assess and monitor the ML/TF risks of cash deposits into Bank 1 (Macau) accounts.

Particulars

Paragraphs 380, 382 and 383.

De-risking by offshore banks and the search for new payment channels

385. On and from late 2017 to early 2018, a number of offshore banks started closing bank accounts held by SEG and its related entities.

Particulars

The Bank 1 (Macau) accounts held by Star Sydney and Star Qld were closed by late January 2018.

The Bank 1 (Macau) accounts held by EEIS were closed by late April 2018.

The accounts held by Star Sydney with another foreign bank were closed in May 2018.

386. SEG, Star Sydney and Star Qld understood that the Bank 1 (Macau) accounts were closed because Bank 1 decided to cease providing transactional banking services in Macau to international gaming operators.

Particulars

From 2017, money transfers out of Macau were increasingly scrutinised.

For example, Suncity was discouraged by Bank 1 (Macau) from making payments to SEG and had to use alternative banks to remit the funds.

387. From late 2017 to early to mid 2018, in response to the closure of its offshore bank accounts, SEG began exploring alternative ways to accept cash and other deposits from Star Sydney and Star Qld customers and prospective customers offshore.

Particulars

As at March 2018, SEG's top ten customers in the year to date were cash paying customers in Macau.

388. The **EEIS/MMS project** was first proposed to the SEG Board on 26 September 2017.

Particulars

EEIS was incorporated in November 2013. It was established with the intention to facilitate offshore settlement activities and provide credit to international junkets and premium players, on behalf of SEG casinos.

Whilst EEIS had opened bank accounts in November 2013 which were being used by customers of Star Sydney and Star Qld to deposit funds initially, it was not providing other services to customers.

In February 2017, in light of issues emerging in the region affecting the international business, members of SEG management began contemplating the "activation" of EEIS.

An International Rebates Business (**IRB**) strategy update prepared by the Chief Executive Officer, and the President International Marketing was presented to the SEG Board at its meeting on 26 September 2017. The IRB Strategy update developed the idea of activating EEIS.

The presentation showed that the IRB had delivered AUD 234.1 million EBITDA to the business over the previous four years.

389. By January 2018, the EEIS/MMS Project was established.

Particulars

The project sponsor was the General Manager, Commercial Finance, International Marketing. The project leads were the General Manager, Commercial Finance, International Marketing and the General Corporate Counsel.

There was an EEIS Steering Committee that reported to the SEG Board.

The Steering Committee members included the Chief Executive Officer; the Chief Financial Officer; the Group General Counsel and Company Secretary; the Chief Risk Officer; the President International Marketing; the General Manager, Commercial Finance International Marketing; the General Corporate Counsel; the Head of Strategy and Investor Relations; and the Project Manager, EEIS Project.

An EEIS Working Group was established, which comprised all the project leads in the individual workstreams, along with others including the General Manager, Commercial Finance, International Marketing; the Star Sydney Cashier Services Manager; the General Manager, Credit and Collections; the General Corporate Counsel; the Manager, VIP Credit and Collections; the Compliance Manager; and the Head of Strategy and Investor Relations.

390. Whilst the proposal to activate the EEIS/MMS project was being developed (as pleaded from paragraph 461), SEG:

- a. established a cash collection and remittance channel with a longstanding Star customer, Customer 9 (paragraphs 338 to 441); and
- b. used remittance service providers to remit money for customers (paragraphs 442 to 460).

The Customer 9 channels

391. On 15 January 2018, Star Entertainment International Pty Ltd, a fully owned subsidiary of SEG, entered into a written agreement with a Macau-based individual, Customer 9, described as a relationship management service agreement (the **Liquidity and Credit Management Service or LCMS**).

392. On 9 February 2018, Star Entertainment International Pty Ltd and Customer 9 entered into a supplementary agreement relating to the LCMS.

Particulars

The 15 January 2018 and 9 February 2018 agreements are referred to collectively as the **written LCMS agreement**.

The purpose of the LCMS was for Customer 9 to receive cash payments, on behalf of SEG casinos, from international customers in Macau. The cash payments were to be applied to the repayment of CCFs or for front money buy-in amounts. The remittance of funds

was intended to occur in one direction - from international jurisdictions to SEG entities in Australia. The LCMS was not intended to facilitate the payment of funds to international jurisdictions.

The channel was intended to be a short-term solution whilst the EEIS/MMS process was put in place. See paragraph 389.

The SEG Board and SEG's Chief Risk Officer were briefed on the arrangements with Customer 9 on or about 8 February 2018.

In a memorandum dated 8 February 2018 from the President, International Marketing, the Chief Risk Officer and Board were advised on the arrangements in place to facilitate international rebate business customers' management of funding for play and to seek the SEG Board's approval for consequential changes to the Joint Part A Program.

- 393. At the time it was executed, the written LCMS agreement was intended to operate from January 2018 to June 2018.
- 394. At all times, Customer 9 was a customer of Star Sydney and Star Qld.
- 395. At all times, Customer 9 held multiple FMAs and SKAs with Star Sydney and Star Qld.

Particulars

Customer 9 had one primary FMA with Star Sydney in AUD. This primary AUD account had 5 sub-accounts. Customer 9 also had three SKAs with Star Sydney in AUD.

Customer 9 had one primary FMA and one SKA with Star Sydney in HKD.

Customer 9 had five FMAs at Star Qld and three SKAs.

- 396. At all times, Customer 9 was a junket operator at Star Sydney and Star Qld.
- 397. During the relevant period, Customer 9 was a player on:
 - a. some of the junkets he operated; and
 - b. two additional Suncity junkets.

Particulars

Star Sydney did not understand the relationship or connection between Customer 9 and the Suncity junket and/or Customer 1.

- 398. Following the execution of the written LCMS agreement and until May or June 2018, Customer 9:
 - a. accepted cash deposits in foreign jurisdictions for or on behalf of Star Sydney customers (see paragraph 401);
 - b. accepted non-cash deposits in foreign jurisdictions for or on behalf of Star Sydney customers (see paragraph 402);
 - c. facilitated the remittance of the deposits pleaded at a. and b. to the Star Sydney customers' FMAs or SKAs in Australia (see paragraph 404 and 414);

- d. facilitated the purchase of non-redeemable gaming chips from Star Sydney for and on behalf of customers (see paragraph 408(d)).
(the **initial Customer 9 channel**).

- 399. At all times, Customer 9 could accept a cash or non-cash deposit for a Star Sydney customer if the customer held an FMA or CCF account with Star Sydney.
- 400. At all times, Customer 9 could accept a cash or non-cash deposit for a Star Sydney customer who was a junket operator, junket representative or junket funder.

Particulars

For example, the following junket operators, funders or players transferred over HKD 112.7 million through the initial Customer 9 channel between January 2018 and June 2018: Customer 35 (Star Qld junket operator), Customer 22 (junket funder and junket operator), Customer 20 (junket operator), Customer 5 (junket funder and junket operator), Customer 28 (junket operator), Customer 19 (junket operator) and Customer 24 (junket funder, junket representative, junket player).

Funds transferred through the initial Customer 9 channel were applied to recover part of the \$21 million debt owed by Customer 28's junket: see paragraph 413.

- 401. At all times until at least mid-2018, Customer 9 accepted cash deposits for or on behalf of Star Sydney customers through the initial Customer 9 channel in a number of ways including by way of:
 - a. cash deposit into an account he held with a casino or casinos in Macau;
 - b. cash deposit into an account or accounts he held with a junket operator in Macau; or

Particulars

Cash payments were made to Customer 9's junket account either with Suncity or another junket account, as convenient. Customer 9 had accounts with most of the large Macau junkets.

At a time of his choosing, Customer 9 would withdraw funds from his junket accounts in cash and deposit to his Bank 1 personal account in Macau.

Star Sydney did not have knowledge of each step in the process by which funds deposited with Customer 9 were sourced from those casinos.

- c. cash deposit into an account or accounts Customer 9 held with Bank 1 (Macau).
- 402. At all times until at least mid-2018, Customer 9 accepted non-cash deposits through the initial Customer 9 channel for or on behalf of Star Sydney customers by way of:
 - a. a deposit of chips into an account he held with a casino or casinos in Macau;
 - b. a transfer of funds from the customer's gaming account with a Macau casino to Customer 9's gaming account with the same Macau casino;
 - c. a deposit of chips into an account or accounts he held with a junket operator in Macau.

Particulars

Customer 9 held an account or accounts with the Suncity junket in Macau and with most large Macau-based junkets.

Star Sydney was aware of at least six Macau-based casinos from which funds deposited with Customer 9 were sourced.

403. At all times, the process by which a deposit identified at paragraphs 401 or 402 was made was as follows:
- a. The Star Sydney customer would submit a request to the SEG Sales Department or the Credit and Collections team in Macau to make a payment in order to repay a CCF or to make funds available in a Star Sydney FMA for gaming.
 - b. The Star Sydney customer, or a member of their staff or representative, and a Macau based representative from SEG Credit and Collections would meet at either:
 - i. the Cage of the Macau casino at which Customer 9 held an account;
 - ii. the junket room of a junket operator in Macau; or
 - iii. a branch of Bank 1 (Macau).
 - c. The customer or representative would:
 - i. deposit cash or chips, or would arrange for an account to account transfer, into the relevant account held by Customer 9 with the Macau casino;
 - ii. deposit cash or chips into the relevant account held by Customer 9 with the junket operator in Macau; or
 - iii. deposit cash into the relevant account held by Customer 9 with Bank 1 (Macau).

Particulars

Once at the Macau casino Cage, junket room or bank branch, the SEG representative would contact Customer 9 to seek advice on which account the money was to be deposited into. Once this was agreed, the SEG representative would provide the details to the Star Sydney customer, and would wait until the deposit was completed.

The SEG representative would make a record of the details of the deposit, such as its amount, the time and date of the deposit.

- d. The SEG representative completed an International Depositor Identity form with the customer's details and was required to sight a form of ID (either Star Club photo ID or passport).

Particulars

The form included fields for the following information to be collected:

- i. SEG customer/debtor name and membership number;
- ii. Agent details (including name, date of birth, casino membership number, passport number, residential address and relationship between agent and SEG customer/debtor);

- iii. Funder details (including name, date of birth, casino membership number, passport number, residential address and relationship between funder and SEG customer/debtor).

The form did not include any field to collect and/or verify information as to source of funds for the deposit.

The International Depositor Identity Form anticipated that deposits could be made for or on behalf of the customer by third parties.

Copies of the International Depositor Identity Forms were sometimes retained by SEG Macau, but not on every single occasion that a deposit was made. Any information on these forms relating to the beneficial ownership of funds was not available for TMP or ECDD purposes, as they were not stored on Protecht or TrackVia.

There were no written policies or procedures giving effect to the processes relating to this form.

- e. SEG Credit and Collections, Macau, would email the International Depositor Identity Form to the Star Sydney Cage.

Particulars

The forms were used by the AML/CTF Administrator for the purposes of IFTI reporting, but not for the purposes of monitoring these transactions and/or identifying any unusual or suspicious activity.

Any information on these forms relating to the beneficial ownership of funds was not available for TMP or ECDD purposes, as they were not stored on Protecht or TrackVia.

- f. Once the funds were deposited as described in subparagraph (c), the SEG representative would confirm that the deposit had been made and a receipt was issued by SMS to Customer 9 from the casino, junket room or Bank 1 branch.
 - g. The SEG representative would return to the SEG Macau office to attend to the steps pleaded at paragraph 404.
404. Once a deposit as described at paragraph 403 had been made, Star Sydney transferred funds from Customer 9's Star Sydney FMA or SKA to the customer's Star Sydney FMA or SKA in accordance with the following process:
- a. SEG Credit and Collections, Macau, would request the Star Sydney Cage to raise an 'FMA to FMA' transfer from Customer 9's Star Sydney FMA or SKA, which were in HKD, to the customer's Star Sydney FMA or SKA.

Particulars

Paragraphs 591 to 594.

- b. Customer 9 authorised the transfer from Customer 9's Star Sydney FMA or SKA to the customer's FMA or SKA in one of two ways:
 - i. either, the 'FMA to FMA transfer form' was printed and provided to Customer 9 for signing;

- ii. or the standing authority, set out in the written LCMS agreement, was relied upon to authorise the transfer as soon as the customer deposit was received or deemed to be received by Customer 9.

Particulars

Customer 9 was not always present when the steps pleaded at paragraph 403 were undertaken.

Clause 3.2 of the LCMS agreement of January 2018.

- c. SEG Credit and Collections, Macau, would email the FMA to FMA transfer form to the Star Sydney Cage.
 - d. Once Customer 9's authorisation was provided or deemed to have been provided, the funds were transferred from Customer 9's Star Sydney FMA or SKA and credited to the customer's Star Sydney FMA or SKA.
405. The authorisation from Customer 9, as pleaded at paragraph 404(b), was an instruction from Customer 9 to Star Sydney to transfer money from his FMA account to the customer's FMA account.
406. Star's Sydney's acceptance of the instruction from Customer 9 to transfer money from his FMA or SKA to the customer's FMA or SKA, as pleaded at paragraph 404(b), involved the provision by Star Sydney of:
- a. an item 31, table 1, s6 designated service; and
 - b. an item 13, table 3, s6 designated service.
407. The credit of money to the customer's FMA, SKA or CCF account from Customer 9's FMA or SKA, as pleaded at paragraph 404(d), involved the provision by Star Sydney of:
- a. an item 32, table 1, s6 designated service; and
 - b. an item 13, table 3, s6 designated service.
408. Once the deposit was entered into the Star Sydney customer's FMA or SKA, the money could be applied by the customer:
- a. to repay a debt owed to Star Sydney, including under a CCF (item 7, table 1, s6), by way of transfer from the customer's FMA to their CCF account (item 13, table 1, s6);
 - b. as front money for gaming (items 7 and 13, table 3, s6);
 - c. to any other transaction permitted through an FMA, including a cash withdrawal (item 13, table 1, s6); and/or
 - d. to the purchase of non-redeemable gaming chips from Star Sydney (items 7 and 13, table 3, s6).

Particulars

The initial Customer 9 channel was predominantly used by Star Sydney customers to repay debts owed under CCFs.

In February 2018, the arrangement was extended to include payments by customers for front money deposits prior to play and for the purchase of non-redeemable gaming chips.

Customer 9 facilitated the purchase of non-redeemable gaming chips from Star Sydney for and on behalf of customers from 12 February 2018 to approximately 25 October 2018.

Star Sydney is not aware of any maximum possible amount of nonredeemable gaming chips that the customer could purchase through the Customer 9 channel.

409. In accordance with the written LCMS agreement, Customer 9 was required to maintain a minimum balance in his FMA at the end of each month to fund the LCMS arrangement.

Particulars

Customer 9's Star Sydney FMA was to be topped up to HKD 90 million (about AUD 15 million) at the end of each month.

Customer 9 made payments into his FMA for this service through cheques drawn on his personal accounts; by electronic funds transfers from his personal bank accounts to Star Sydney's bank accounts; and by a cashier's order. On one occasion lucky money was converted and deposited into Customer 9's HKD FMA.

Customer 9 also funded his minimum FMA balance through transfers into his Star Sydney FMA from the FMA of another customer.

410. The deposit of funds into Customer 9's FMA for the purposes described at paragraph 409 involved the provision of an item 13, table 3, s6 designated service by Star Sydney.
411. Star Sydney or SEG paid Customer 9 a fee to facilitate the remittance of cash deposits to the FMAs of Star Sydney customers.

Particulars

Under the written LCMS agreement, Customer 9 was to be paid a monthly fee by SEG.

412. On or about 31 March 2018, Customer 9 advised SEG that Bank 1 (Macau) had blocked all his wire transfers, issuances of cashier orders and personal cheques from his Macau accounts and that he could no longer continue with his contractual arrangements with SEG.
413. At all times from March 2018, many international customers who:
- a. owed money to Star Sydney or Star Qld under a CCF; or
 - b. wanted to transfer money to Star Sydney or Star Qld casino
- were unable to, or did not want to, transfer money direct to a Star Patron account.

Particulars

On receipt of the advice from Customer 9 on 31 March 2018, the General Manager, Credit and Collections, SEG advised SEG management that credit notes and front money expected by Macau cash deposits for April 2018 totalled AUD50 million to AUD75 million, with no solution presently viable for Star to accept these funds.

As at the end of March 2018, cash paying customers in Macau represented 65% of IRB's business volume. These customers included a representative for Customer 22, a representative for

Customer 78, Customer 6 (a junket operator funded by Customer 5), and Customer 21.

Significant high value customers of Star Sydney and Star Qld would not transfer money to Star Patron accounts. For example, the second largest junket in Macau, Customer 28's junket, was unwilling or unable to transfer money directly to a Star Patron account, resulting in a default on a CCF repayment on or about March 2018 in the order of AUD 21 million.

414. From March or April 2018:

- a. Customer 9, or an associate, continued collecting cash from Star Sydney customers, including from customers in Macau.
- b. The funds would be transferred from Customer 9's Star Sydney FMA or SKA to the customer's Star Sydney FMA or SKA, on authorisation or deemed authorisation from Customer 9.
- c. Customer 9 maintained a balance in his Star Sydney FMA or SKA to cover these transfers in a number of ways, including:
 - i. Customer 9 transferred the cash collected from the customer to a third-party remitter.

Particulars

The funds may have been transferred to remitters in Hong Kong.

- ii. The third-party remitter deposited these funds into EEIS patron accounts in Hong Kong or Australia.

Particulars

Paragraph 311.

Some funds were initially deposited in Hong Kong accounts, prior to the EEIS accounts being opened in Australia.

- iii. Customer 9 otherwise arranged for the funds to be credited to his FMA or SKA, including by deposits into a Star Patron account.

415. By about June 2018, Customer 9 advised SEG that he would no longer use his money to assist SEG in recovering outstanding remittance from SEG customers.

Particulars

Customer 9 advised SEG that his banks in Hong Kong were questioning his use of their accounts and was putting stops on some transfers.

416. The authorisation from Customer 9, as pleaded at paragraph 414(b), was an instruction from Customer 9 to Star Sydney to transfer money from his FMA account to the customer's FMA account.

417. The instruction from Customer 9 to transfer money from his FMA account to the customer's FMA account, as pleaded at paragraph 414(b), involved the provision by Star Sydney of:

- a. an item 31, table 1, s6 designated service; and

- b. an item 13, table 3, s6 designated service.
418. The credit of money to the customer's FMA account from Customer 9's FMA account, as pleaded at paragraph 414(b), involved the provision by Star Sydney of:
- a. an item 32, table 1, s6 designated service; and
 - b. an item 13, table 3, s6 designated service.
419. The written LCMS agreement was not extended past 30 June 2018 because Customer 9 was no longer able to transfer funds from his Hong Kong bank or Macau accounts to his Star Sydney FMA.
420. Notwithstanding the expiry of the written LCMS agreement, customers continued to remit money through Customer 9, as pleaded at paragraphs 421 to 434, after 30 June 2018.

The modified Customer 9 channel

421. From about May 2018, the operation of SEG's arrangement with Customer 9 began to evolve, including with the assistance of third parties, such as:
- a. third-party remitters in foreign jurisdictions;
 - b. offshore junket operators; and
 - c. other third parties

(modified Customer 9 channel), as pleaded at paragraphs 422 to 431.

Particulars

The modified Customer 9 channel evolved as a matter of practice and was not subject to any written arrangement. It was not a process that was approved by the SEG Legal or AML Compliance teams.

The third-party remitters included Company 7, Company 9, and Company 1.

The type of customers who transferred funds through these remitters were customers that played on junkets and premium players.

The modified Customer 9 channel was used by customers who had no alternative but to repay CCFs with cash, including those with overdue debts.

422. From about May 2018 to September 2019, customers of Star Sydney and Star Qld who used the modified Customer 9 channel were variously involved in the following:
- a. The customer contacted SEG International Marketing team to advise they wished to make a cash payment in Macau.
 - b. The International Marketing team member contacted SEG VIP Credit & Collections to arrange a meeting between the customer and a representative of a third-party remitter.
 - c. Representatives or agents of the third-party remitters collected cash from the customer in Macau.

Particulars

The customer would either deposit cash directly with the remitter or would arrange for cash to be provided to the remitter via a casino in Macau.

- d. SEG employees in Macau accompanied the customers when the third-party remitter collected the cash, if required.
- e. The customer would send a copy of the remittance receipt to SEG Macau.
- f. The third-party remitters would deposit these funds into EEIS bank accounts in Australia.

Particulars

By early May 2018, CCF redemption began to be permitted through the EEIS Bank 2 Account, opened on 24 April 2018. Some of these were made through the modified Customer 9 channel.

Each of SEG, Star Sydney and Star Qld could access and operate the EEIS Bank 2 accounts.

SEG did not understand or have any visibility over the relationship between Customer 9 and the third-party remitters.

- g. Once the funds had been received into the EEIS Patron account or other Star Patron account, the Cage would credit the funds into the customer's FMA or SKA; or

Particulars

If the customer was not playing in an active junket program, the funds would be transferred to the customer's FMA and it would be recorded as a deposit. The funds would then be withdrawn from the FMA and transferred to redeem, either partially or wholly, the customer's CCF, in which case the transfer would be recorded as a deposit in the CCF account. These records were maintained in Synkros.

If the customer was playing in an active junket program, the funds would first be transferred to the customer's SKA and the same process as described in respect of transfers to the FMA would also apply.

The third-party remitters agreed they would pay the first month of collections in full to SEG, and recover their 3% fee in the following month by withholding 3% of any future payments, and depositing 97% of all monies collected into the EEIS bank accounts.

- 423. The credit of funds into a customer's FMA or SKA as pleaded at paragraph 422(g) was an item 32, table 1, s6 designated service provided by Star Sydney and Star Qld.
- 424. In addition, from about June 2018 to September 2019, the modified Customer 9 channel also involved the following transactions:
 - a. Customer 9, or an associate, would collect or receive cash payments from a Star Sydney customer including in Macau.

Particulars

Paragraphs 430 and 431.

- b. The funds would be transferred from Customer 9's Star Sydney FMA or SKA to the customer's Star Sydney FMA or SKA, on authorisation or deemed authorisation from Customer 9.

Particulars

The 'FMA to FMA transfer form' used in connection with the LCMS agreement continued to be used after the written LCMS agreement lapsed.

SEG Macau staff used copies of the FMA to FMA transfer form pre-signed by Customer 9, or photocopied forms previously signed by Customer 9, to authorise transfers from Customer 9's FMA.

- c. Customer 9 maintained a balance in his Star Sydney FMA or SKA to cover these transfers in a number of ways, including:
 - i. Customer 9 would deposit, or arrange for, the funds into a Star Patron account, which were then credited to his Star Sydney FMA or SKA.
 - ii. Alternatively, an associate of Customer 9 would transfer funds from his Star Sydney FMA or SKA to Customer 9's FMA or SKA: paragraphs 430 and 431.
425. The authorisation from Customer 9, as pleaded at paragraph 424(b), was an instruction from Customer 9 to Star Sydney to transfer money from his FMA or SKA to the customer's FMA or SKA for the purposes of item 32, table 1, s6 of the Act.
426. The instruction from Customer 9 to transfer money from his FMA or SKA account to the customer's FMA or SKA, as pleaded at paragraph 424(b), involved the provision by Star Sydney of:
- a. an item 31, table 1, s6 designated service; and
 - b. an item 13, table 3, s6 designated service.
427. The credit of money to the customer's FMA or SKA from Customer 9 FMA or SKA, as pleaded at paragraph 424(b), involved the provision by Star Sydney of:
- a. an item 32, table 1, s6 designated service; and
 - b. an item 13, table 3, s6 designated service.
428. Customer 9 received a service fee for transfers through the modified Customer 9 channel.

Particulars

Customer 9 received a 3% service fee for transfers that were made by customers based in Macau through third party remitters and which were paid into an account held by EEIS; and for deposits that were made directly into Customer 9's FMA or SKA from another junket operator and which funds were then subsequently used for the purpose of redeeming customers' CCFs. Customer 9 received a 0.15% fee in respect of cash deposits made into an account in his name with Bank 1 (Macau).

429. The modified Customer 9 channel:
- a. was not directly used to deposit money into Customer 9's Star Qld FMA for or on behalf of Star Qld customers; but

- b. was used to transfer money into Star Sydney FMA accounts, which was then transferred to Star Qld FMA accounts;

Particulars

See paragraph 437 in relation to transfers to Star Qld customers that were routed through Customer 9's Star Sydney FMAs as part of the modified Customer 9 channel, including for and on behalf of junket funders.

- c. was used for transactions following the process described at paragraph 422, to deposit funds originating in the EEIS Bank 2 account to the FMA and SKA accounts of Star Qld customers.

Particulars

Between 20 July 2018 and 12 August 2019, 10 transactions totalling over \$4.6 million were made to the EEIS Bank 2 account, from Company 1 and Company 9. Each deposit was made available to Star Qld customers, for the redemption of their CCFs at Star Gold Coast.

This included one transfer of \$563,087.00 into the EEIS Bank 2 account on about 12 August 2019, which was credited to a Star Gold Coast FMA of Customer 1, and subsequently used to redeem his CCF at Star Gold Coast.

- 430. By no later than September 2018, a junket operator, who was an associate of Customer 9, assisted with the conduct of transactions through the modified Customer 9 channel (**Customer 9's Associate**):
 - a. Customer 9's Associate authorised transfers from his Star Sydney SKA to Customer 9's Star Sydney FMA;
 - b. Customer 9 authorised the transfer of the funds from his Star Sydney FMA or SKA to another Star Sydney customer's FMA to be applied to redeem the customers' CCFs; and
 - c. Customer 9 received a service fee in relation to the transfers from his Associate that were used from Customer 9's account to redeem customers' CCFs.

Particulars

Transfers from Customer 9's Associate's SKA were not recorded in the LCMS spreadsheet (a spreadsheet maintained by the Cage which included transactions in relation to the LCMS agreement).

Neither SEG nor Star Sydney understood the arrangements between Customer 9 and his Associate.

- 431. By around May or June 2018, Star Sydney and or SEG understood that an associate or associates of Customer 9 were assisting him with respect to the remittance of customer funds through the modified Customer 9 channel.

Particulars

SEG and/or Star Sydney understood that an associate of Customer 9, or corporate entities connected to the associate, were assisting

Customer 9 with respect to the collection of cash from customers to be remitted through the modified Customer 9 channel. The associate did not want to transfer payments directly to a casino.

The associate used remitters in foreign jurisdictions to deposit funds into an EEIS Patron account for Star Sydney and Star Qld customers.

Customer 9 received a fee for transactions facilitated by his associate through the modified Customer 9 channel.

432. The instruction from Customer 9's Associate to transfer money from his SKA account to Customer 9's FMA or SKA, as pleaded at paragraph 430(a), and the instruction from Customer 9 to transfer money to the customer's FMA as pleaded at paragraph 430(b), involved the provision by Star Sydney of:
- a. an item 31, table 1, s6 designated service; and
 - b. an item 13, table 3, s6 designated service.
433. The credit of money to the customer's FMA or SKA from Customer 9's FMA or SKA, as pleaded at paragraph 430(b), involved the provision by Star Sydney of:
- a. an item 32, table 1, s6 designated service; and
 - b. an item 13, table 3, s6 designated service.
434. By August 2019, Customer 9 had advised SEG that he wished to cease dealing with SEG in any way that involved the recovery or collection of outstanding debts.

Particulars

At a meeting with SEG Macau employees in August 2019, Customer 9 requested an immediate stop to these transactions, but agreed to give SEG a month to get its systems in order.

*Transactions through the initial Customer 9 and modified Customer 9 channel (**together the Customer 9 channels**)*

435. Between January 2018 and September 2019, money was transferred through the Customer 9 channel to the FMAs or SKAs of at least 60 Star Sydney and Star Qld customers, including a number of high risk Star Sydney customers such as:
- a. Customer 34;
 - b. Customer 20;
 - c. Customer 5;
 - d. Customer 45;
 - e. Customer 28;
 - f. Customer 19.

Particulars

Customer 34 received three AUD transfers totalling approximately \$2.5 million, and four HKD transfers totalling over HKD 12.3 million.

Customer 20 received five AUD transfers totalling over \$5.3 million and two HKD transfers totalling over HKD 11 million.

Customer 45 received one HKD transfer totalling over HKD 17.8 million.

Customer 5 received four AUD transfers totalling over \$12 million and two HKD transfers totalling over HKD 13.4 million.

Customer 28 received two AUD transfers totalling over \$1.4 million, and four HKD transfers totalling over HKD 45.6 million.

Customer 19 received six AUD transfers totalling over \$7.1 million, and two HKD transfers totalling over HKD 12.2 million.

436. From 12 August 2019 to 23 August 2019, about AUD3.9 million was transferred by Company 9, into the EEIS Bank 2 Account through the modified Customer 9 channel to partially redeem Customer 1's CCF.
437. Between July 2018 and July 2019, money was transferred to Star Qld customers via Customer 9's Sydney FMA on at least eight occasions:
- a. On each occasion SEG employees based in Macau instructed the Star Sydney Cage to transfer money from Customer 9's Sydney FMA or SKA to the customer's Star Sydney FMA or SKA.
 - b. This was followed by a subsequent transfer of the money from the customer's Star Sydney FMA to the customer's Star Qld FMA.
 - c. The money transferred to the customer's Star Qld FMA originated from Customer 9's Star Sydney FMA or SKA.
 - d. The transfer of money pleaded at (c) was a designated service provided by:
 - i. Star Sydney, within the meaning of item 31, table 1, s6 of the Act;
 - ii. Star Sydney, within the meaning of item 13, table 3, s6 of the Act;
 - iii. Star Qld, within the meaning of item 32, table 1, s6 of the Act; and
 - iv. Star Qld, within the meaning of item 13, table 3, s6 of the Act.
 - e. The designated services pleaded at (d) were provided through the modified Customer 9 channel.

Particulars

Three transfers were conducted for Customer 24, being:

- A. a transfer of HKD243,660 on about 24 July 2018, for the purpose of redeeming the customer's CCF with Star Qld;
- B. a transfer of \$200,007.02 on about 1 November 2018, for the purpose of redeeming the customer's CCF with Star Qld; and
- C. a transfer of \$89,365.19 on about 9 November 2018 for the purpose of redeeming the customer's CCF with Star Qld.

Customer 24 was a junket funder who remitted funds through Customer 9's Star Sydney FMA to fund junkets at Star Qld casinos.

The transfer referred to in (A) was made from the service fee paid to Customer 9 from SEG.

The transfers referred to in (B) and (C) were made from funds deposited into Customer 9's SKA (sub-account, junket 5#) from a junket operator and Customer 9's Associate.

Three transfers were conducted for a Star Qld customer, being:

- A. a transfer of \$472.68 on about 12 November 2018 for the purpose of redeeming the customer's CCF with Star Qld;
- B. a transfer of \$972,408.19 on about 12 November 2018 for the purpose of redeeming the customer's CCF with Star Qld;
- C. a transfer of \$242,345.20 on about 1 February 2019 for the purpose of redeeming the customer's CCF with Star Qld.

The transfer referred to in (C) was made from funds deposited into Customer 9's SKA (sub-account, junket 5#) from Customer 9's Associate.

One transfer was conducted for a Star Qld customer, being a transfer of \$169,505.40 on about 4 July 2019 for the purpose of redeeming the customer's CCF with Star Qld. This transfer was made from funds deposited into Customer 9's SKA (sub-account, junket 5#) from Customer 9's Associate.

One transfer was conducted for a Star Qld customer, being a transfer of \$683,165 on 11 September 2018 for the purpose of redeeming the customer's CCF with Star Qld.

On the information available to SEG, it is unclear why Customer 9's Associate was involved in the transactions identified above, or what (if any) arrangement existed between Customer 9 and Customer 9's Associate.

438. From January 2018 to September 2019, at least AUD 140 million moved through the Customer 9 channels.

Particulars

Over HKD 214 million (over AUD 40 million) was transacted through the initial Customer 9 arrangement.

Following the conclusion of the written agreements, from the period of 30 May 2018 to August 2019, AUD 103 million (as a total in AUD, comprising AUD and foreign currency transactions) was transacted through the Customer 9 Channels.

Of this, over AUD 73 million was transacted through the EEIS Bank 2 account. The balance was funds made available through Customer 9's FMA and SKA accounts.

439. The provision of designated services by Star Sydney and Star Qld through the Customer 9 channels involved high ML/TF risks including:
- a. The funds made available were deposited in cash;

- b. Funds could also be deposited in the form of chips issued by third party casinos, or transfers from the gaming accounts of other casinos;
- c. There were no limits on the amount of money, including cash, that a customer could deposit with Customer 9;
- d. Deposits by third parties were permitted, including in cash, chips or transfers from other gaming accounts;
- e. SEG had limited visibility over the source of funds of deposits made through remitters;
- f. The customers using the Customer 9 channels to remit funds had higher ML/TF risks;
- g. Deposits by junket operators and funders were permitted, including by customers with known criminal connections;

Particulars

For example, Customer 1 used the Customer 9 channel to transfer funds, through Company 9, into the EEIS Bank 2 bank account to partially redeem a CCF.

- h. Deposits were permitted through non-transparent and high risk channels, such as through Macau based casinos, junket operators and remitters;
- i. Star Sydney had no visibility over the source of funds that were sourced from Macau-based casinos or junket operator accounts;
- j. There were risks that the customer may not be providing their own funds (or that the customer would use a junket representative to deposit the funds);

Particulars

See paragraphs 400 to 402.

- k. The Customer 9 channel was intended to mask that customers were transferring funds to an Australian casino;
- l. The Customer 9 channel could be used to facilitate currency flight;
- m. Some deposits into Star Patron accounts through the Customer 9 channels involved misleading payment descriptors;
- n. Some deposits into Star Patron accounts through the Customer 9 channels were split amongst different customers when being credited to the customer's FMA or SKA.

Particulars

For example, a single deposit of just under \$155,000 by Company 1 on or around 28 June 2018, was credited to a customer in the amount of just over \$51,000 and a different customer in the amount of just under \$103,000.

A single deposit of just over \$570,000 by Company 1 on or around 29 June 2018 was credited to Customer 35 in the amount of just under \$301,000 and another customer in the amount of just under \$270,000.

These deposits were described as a 'Property Investment'.

440. At no time did SEG or Star Sydney (or Star Qld), carry out an appropriate risk assessment of the ML/TF risks posed by the Customer 9 channels.

Particulars

On 10 January 2018, SEG purported to carry out an assessment with respect to the LCMS, as revised on 8 February 2018.

The risk assessment identified that the ML/TF risks of this arrangement included risks as to source of funds, a lack of transparency and criminal infiltration. It acknowledged that remitters in Hong Kong and Macau, where SEG was looking to introduce these services, were unlikely to conduct inquiries into the source or beneficial owner of the funds involved and if these inquiries were completed, the visibility of this information to Australian regulators would be limited. The assessment acknowledged that third parties could be involved in the deposit transaction. The assessment acknowledged the risks that the arrangement could be used to bypass currency flight controls or to evade tax laws.

Although these risks were acknowledged, the assessment did not appropriately identify or assess the ML/TF attributes pleaded at paragraph 439.

The assessment concluded that the ML/TF risks of the arrangement were low. The ML/TF risks of the LCMS were not low.

At no time did Star Sydney or SEG conduct an appropriate assessment of the ML/TF risks of the modified Customer 9 channel.

The practice of accepting deposits from third-party remitters into bank accounts of Star Sydney and EEIS pursuant to the modified Customer 9 channel was not the subject of a legal and risk assessment, was not formally approved, was initiated and maintained by the VIP Credit & Collections team and was not disclosed to the Board before or while it was operating.

On about March 2020, SEG conducted due diligence in relation to Company 9 for the purpose of preparing a risk assessment, which was prepared in draft and not finalised.

441. At no time did the Joint Part A Programs include appropriate risk-based systems and controls to identify, mitigate and manage the ML/TF risks of the Customer 9 or modified Customer 9 channels:
- a. The only due diligence conducted on Customer 9 by SEG with respect to the Customer 9 channels involved WorldCheck searches conducted on Customer 9 by the AML team on 28 January 2018, 7 August 2018, 4 May 2019 and 18 June 2019. This was not an appropriate risk-based control.
 - b. SEG did not impose any limits on the amount a customer or third party could deposit through the Customer 9 channels.
 - c. SEG did not have appropriate systems or controls in place to understand the identity of the depositor. It was not possible for SEG to verify from the LCMS Spreadsheet the

identity of the depositor (in circumstances where that was someone other than the customer).

- d. SEG did not have appropriate systems or controls in place to verify the source of funds being deposited through Customer 9, including deposits by third parties.
- e. SEG considered that source of funds were verified by a SEG Macau staff member sighting the receipt of the customer's deposit into Customer 9's Macau casino account. This procedure did not provide any verification of source of funds. It was a process confirming the deposit had been made.
- f. SEG employee involvement in the transactions was not an appropriate control because their role was limited to observing that a deposit was made.
- g. SEG assumed that the majority of funds would come from personal bank accounts or other personal sources of liquidity, such as FMAs at Macau based casinos, available to known customers' in Hong Kong and Macau. There were no processes to confirm this assumption; nor did SEG have any basis to understand the source of funds or wealth from bank accounts or FMAs with other casinos.
- h. The International Depositor Identity Form was not an appropriate risk-based control because it did not require the collection and/or verification of information relevant to source of funds.
- i. SEG did not have any written policies or procedures that set out guidelines as to the completion of the International Depositor Identity form.
- j. Credit worthiness assessments on the CCF accounts held by customers were not an appropriate AML/CTF control.

Particulars

The AML team did not have access to OnBase, the database maintained by the Credit and Collections team, and on which records related to screening were held.

- k. The transaction monitoring applied to remittance through the Customer 9 channels involved no more than the same monitoring applied to any customer who held an FMA or SKA with Star Sydney or Star Qld. See paragraphs 771 to 722.
- l. A central record of transactions facilitated by Customer 9 was not maintained. Records of transactions relating to the Customer 9 channels were dispersed across different documents and databases, including in spreadsheets maintained by the Cage or in Synkros records. Records on spreadsheets did not permit appropriate risk-based monitoring.
- m. SEG Macau employees were not adequately trained on Australian AML/CTF requirements.
- n. On and from 8 February 2018 the Joint Part B Programs required customer identification to be conducted by the Cage Manager at the time of the FMA deposit with respect to:
 - i. transfers to a SEG casino for the repayment of a CCF via the LCMS;
 - ii. transfers to a SEG casino for the prepayment of a program buy-in via the LCMS.

- o. This control was not appropriately directed towards the ML/TF risks of the Customer 9 channels, particularly the ML/TF risks relating to source of funds and third party deposits. As the customers had already been identified when opening their FMA or CCF accounts, this process involved no more than checking identity information that had already been collected.

Overseas based remitter channels and cash collection services

- 442. At all times on and from 30 November 2016, Star Sydney and Star Qld customers used overseas based remitters to deposit money into Star Patron accounts.

Particulars

For example, deposits were made into the Star Patron accounts by 10 remitters including Company 9, Company 1, Company 7.

- 443. Following the closure of the Bank 1 (Macau) accounts in early 2018, SEG referred Star Sydney and Star Qld international customers to overseas remittance service providers to facilitate the transfer of offshore funds into Star Patron accounts.

Particulars

Whilst Star Sydney and Star Qld customers were unable or unwilling to deposit funds directly into a Star Patron account, they could deposit funds with overseas remitters.

SEG referred Star Sydney and Star Qld customers to overseas remitters including Company 9 and Company 1. Star Sydney also referred customers to Company 11.

The VIP Credit and Collections team in Macau would introduce a customer wanting to remit money to remitters such as Company 9. If required, the VIP Credit and Collections team member would attend the meeting between the customer and the representative of Company 9.

From 22 November 2018 to 2 March 2020, Company 9 facilitated at least 83 transfers of offshore funds into the EEIS Bank 2 account, totalling about \$52.1 million.

From 8 June 2018 to 9 August 2019, Company 1 facilitated at least 32 transfers of offshore funds into the Star Patron accounts, totalling over \$34.9 million.

Of these, at least 12 transfers, totalling \$14.4 million, were made into the Star Sydney Bank 2 account other than through the Customer 9 channels.

From 8 June 2018 to 17 June 2019, Company 1 facilitated at least 12 transfers of offshore funds totalling over \$14.4 million, into the Star Sydney Bank 2 account, for four customers.

From 8 June 2018 to 9 August 2019, Company 1 facilitated at least 20 transfers of offshore funds into the EEIS Bank 2 account, totalling about \$20.5 million.

Examples of deposits into Star Patron accounts facilitated by Company 9 included:

- A. Star Sydney facilitated the repayment of a customer's CCF, via a deposit into a Star Patron account by Company 9. The source of funds for the deposit was understood to be a winning cheque from a foreign casino in the amount of HKD1.9 million.
- B. In early September 2019, SEG staff introduced Suncity representatives to Company 9 to facilitate remittances for Customer 1 and Customer 3, in the order of over AUD3 million.
- C. A deposit in February 2020 by Company 9 for Person 25 to repay a Star Sydney CCF in the order of over \$800,000.
- D. A deposit in March 2020 by Company 9 for a customer which was credited to a Star Sydney SKA in an amount just under \$400,000.

SEG understood that Company 9 facilitated deposits into Star Patron accounts for or on behalf of:

- A. junket operators, including Suncity junket operators (for example, Customer 4).
- B. junket funders, including Customer 1, and others.
- C. customers who sourced their funds from junket accounts in Macau.

444. Funds deposited into Star Patron accounts by or on behalf of customers through overseas based remitters were credited to the customer's FMA, SKA or CCF account.

Particulars

This was an item 32, table 1, s6 designated service: see paragraph 305 to 307.

445. The deposit of funds into Star Patron accounts by overseas remitters involved higher ML/TF risks.

Particulars

The source of funds for deposits through remitters was not transparent.

Paragraph 327.

SEG Macau employees had concerns in early 2018 that the use of money changers to remit customers' money to Australia would not fulfil SEG's AML/CTF compliance requirements.

446. In early 2018, SEG also started to explore possible arrangements with overseas remittance service providers to facilitate the transfer of offshore funds into Star Patron accounts.
447. In January or February 2018, SEG and Company 11, a licensed money remitter in Hong Kong, discussed the cash collection, payments and remittance services that Company 11 could offer SEG.

Particulars

Company 11 provided cash collection services in Macau and Hong Kong. It also provided an online payment platform to enable clients to both make deposits and provide settlements in foreign jurisdictions. Company 11 also facilitated multi-currency cross-border remittance.

448. By March 2018, SEG and Company 11 were discussing the following proposal:
- a. Company 11 would accept cash from or on behalf of Star Sydney customers in Macau.
 - b. Company 11 would hold the cash in a secure safe for 70 days or deposit the cash into various facilities;
 - c. Funds would enter Company 11's bank account from these various sources.
 - d. Company 11 would deposit the cash deposits into the bank accounts of SEG related entities in small amounts over a long period of time.
 - e. Star Sydney would credit these deposits to the customer's FMA or SKA.
 - f. Commissions to Company 11 were to be negotiated at 3%.

Particulars

By late March 2018, SEG had been unable to find another service that could offer the "[Company 11] cash solution". SEG was under immense pressure from its international customers and junkets to present cash options to them. No other bank or third party was willing to pick up SEG's volumes without exposing themselves negatively with their bankers similar to Customer 9.

As at 20 March 2018, the General Corporate Counsel, SEG, understood that Company 11 did not hold a licence to accept remittance in Macau.

449. By late March 2018, Company 11 had expressed an interest in arranging a permanent contract with SEG.
450. SEG was concerned about the time required by Company 11 to clear the funds under the proposal.

Particulars

SEG Macau management reported that the main issue, with the large volume of remittance that SEG required, was the turnaround time on the funds to be deposited with Star Sydney. Star Sydney customers expected that when they paid their debts, their personal cheque (held under the CCF) would not be banked. Under the NSW Casino Control Act, Star Sydney was required to bank cheques relating to CCFs by 30 business days after issuance of the CCF.

See paragraph 539.

451. As at late March 2018, the potential solution being considered by SEG to manage the time Company 11 required to clear funds was:
- a. To raise a Star Sydney disbursement to temporarily clear the customer's CCF marker, once they had deposited funds with Company 11. However, this proposal was not implemented or made available to customers.

- b. The disbursement would be reversed pending the clearance of the funds deposited into a Star Patron account at an agreed time of maturity.
 - c. Front money cash players may have temporary CCF facilities offered to them similar to those made available through the Hotel Card channel.
452. In April 2018, the General Manager of Commercial Finance, International Marketing met with an officer of Company 11 to discuss next steps in agreeing on an arrangement.
453. By no later than March 2018, some Star Sydney customers had used or were using the services of Company 11 to remit money to Star Sydney in accordance with the following process:
- a. The customer contacted the SEG International Marketing team in Macau to advise they wished to make a cash payment in Macau;
 - b. The SEG staff would provide the customer with an introduction to Company 11. SEG personnel were advised not to recommend Company 11 to customers, but only to inform the customer that SEG was aware that other customers had used Company 11 in similar circumstances;
 - c. The International Marketing team arranged and observed a meeting between the customer and the Company 11 representative;
 - d. A VIP Credit and Collections team member in Macau sometimes attended as an observer, but was not always present;
 - e. Company 11 representatives generally travelled from Hong Kong to Macau for a meeting with the customer to receive the cash deposit.
 - f. Company 11 arranged for another remittance service provider to deposit the funds collected from the customer into a Star patron account.

Particulars

Star Sydney identified correspondence which referred to customer funds as having been transferred through Company 11 that contain receipts that reference Company 1 or Company 9 as the transferor.

In addition, funds identified in correspondence as having been transferred through Company 11, were sent from a foreign bank to Star Sydney's Bank 2 account, by a third party transferor.

Company 11 offered international Star Sydney and Star Qld customers a cash payment path whilst the EEIS remittance channel was in the process of being operationalised. Paragraph 461.

454. From at least April 2018, senior management in SEG were aware that Company 11 did not apply any KYC or AML procedures when collecting cash from Star Sydney customers.

Particulars

Company 11 did not have procedures to identify the person depositing the cash for or on behalf of the Star Sydney customer; nor were there any procedures to make inquiries as to source of funds.

The senior management aware of this included the Managing Director and Chief Executive Officer, Chief Financial Officer, Group

General Counsel and Company Secretary, Head of Strategy and Investor Relations, and the Managing Director of Star Sydney.

455. From March 2018 to at least January 2019:
- a. Company 11 facilitated the transfer of offshore funds into Star Patron accounts on behalf of Star Sydney customers via other overseas remitters; and
 - b. Star Sydney credited these deposits into their customers' FMAs, SKAs and/or CCF accounts.

Particulars

Customer 5

On or about late March 2018, Customer 5 used Company 11 to repay an AUD 3.2 million CCF marker at his own expense.

Customer 5 did not want Star Sydney to bank a cheque against his personal account as this "would have had serious ramifications to [Customer 5] with his bankers as has done to him in the past". Following receipt of the funds into a Star Patron account, the funds were credited to Customer 5's SKA (junket #3) account.

Customer 5 subsequently engaged Company 11 on or around 3 April 2018 for the deposit of approximately AUD 4.9 million.

Funds were made available by Star Sydney to Customer 5 in three transfers each of AUD 1.6 million, which were credited to Customer 5's primary SKA.

These transfers were made by a third party transferor from a foreign bank.

The funds were applied by Star Sydney to redeem Customer 5's CCF.

As at 19 August 2018, the majority of funds in Customer 5's Star Sydney FMA came from domestic transfers through Company 1 (Australia).

Person 69

On 17 April 2018, Star Sydney credited AUD3.3 million to Person 69's FMA for the purpose of redeeming his CCF. Company 11 had collected these funds from or on behalf of Person 69 and arranged for the funds to be remitted to a Star Patron account.

On 3 May 2018, SEG approved Company 11 to collect HKD 50 million / AUD 7.6 million in cash from Person 69. Person 69 funded a junket, with key player Customer 78. The junket had fully exhausted its CCF. A repayment was required following play by Customer 78.

Person 70

On 14 September 2018, SEG referred Person 70 to Company 11. On 29 September 2018, \$848,273.00 was deposited into a Star Patron account for Person 70. The deposit was made by Company 1 with the purpose of the payment being recorded as "investment".

Customer 21

On 7 January 2019 two deposits were made to a Star Patron account by Company 1, totalling AUD 3.4 million, for the redemption of a CCF in the name of Customer 21. The funds were credited to Customer 21's SKA. The deposit was facilitated by Company 11.

On 10 January 2019, a further deposit of AUD 1.7 million was made into a Star Patron account by Company 1 for the benefit of Customer 21. The deposit was facilitated by Company 11.

456. The credits to customer accounts pleaded at paragraphs 444, 448(e) and 455(b) were designated services provided by Star Sydney or Star Qld (paragraph 444 only) under:
- a. item 32, table 1, s6 of the Act;
 - b. item 7, table 1, s6 of the Act; and
 - c. item 13, table 3, s6 of the Act.
457. SEG continued to have discussions with Company 11 until November 2018, but no formal arrangement was entered into.

Particulars

Company 11 was not a registered remitter in Macau and was not lawfully permitted to collect cash in Macau. SEG recognised that this posed problems for this solution.

By no later than November or December 2018, SEG senior management were aware that cash collection services conducted by Company 11 in Macau were unlawful because Company 11 had a remittance licence in Hong Kong only, and did not hold a remittance licence in Macau.

458. As at August 2019, SEG employees were continuing to refer Star Sydney customers to Company 11.

Particulars

The process as at late August 2019 involved a SEG International Marketing team member arranging and observing the meeting between the customer and Company 11, with VIP Credit and Collections sometimes in attendance.

On 26 August 2019, the General Corporate Counsel, advised the Chief Legal & Risk Officer that SEG could not be certain that Company 11's cash operations in Macau were lawful.

459. At no time did SEG, Star Sydney or Star Qld, carry out an appropriate risk assessment of the ML/TF risks posed by overseas remittance channels including transfers through Company 11.

Particulars

By at least December 2018, SEG had undertaken due diligence in relation to Company 11 and decided not to enter into a formal agreement with Company 11.

A memorandum prepared by SEG's General Corporate Counsel in August 2019, into the use of overseas remitters including Company 11, indicated that the risks would be high. The memorandum identified legal, source of funds and reputational and operational risks of any relationship with Company 11.

Nonetheless, SEG referred customers to Company 11 and Company 11 facilitated the transfer of customer funds into Star Patron accounts: paragraph 424.

It was not until March 2020 that SEG started preparing a draft risk assessment of the use of Company 9 to facilitate the payment of debts incurred by SEG casino customers. The risk assessment was not finalised.

460. Transfers facilitated through Company 11 posed higher ML/TF risks:
- a. Star Sydney had no visibility over the source of funds relating to transfers that were facilitated through Company 11.
 - b. SEG was advised that Company 11 could not lawfully collect cash in Macau and could not lawfully remit cash collected in Macau.

Particulars

Paragraphs 457, 458 and 454.

- c. Company 11 did not directly remit money to Star Sydney, but SEG was aware that Company 11 used other overseas remitters to transfer the funds to Star Sydney or Star Qld.
- d. The use of another remitter involved ML/TF risks as it created a further layer of non-transparency.
- e. In recognition of the higher ML/TF risks, SEG chose not to enter into a formal arrangement with Company 11.
- f. SEG advised their employees not to recommend Company 11 to customers, but only to inform the customer that SEG was aware that other customers had used Company 11 in similar circumstances
- g. Notwithstanding the matters pleaded at e, Star Sydney provided item 32, table 1, s6 designated services to customers, knowing that Company 11 had facilitated the transfer.

The EEIS remittance channel

461. From 2015 to April 2021, Star Sydney and Star Qld made money available to customers by crediting money, that:
- a. had been deposited into EEIS Patron accounts; or
 - b. was funded by the EEIS CCF (as defined in paragraph 476, from June 2019)
- to the customers' FMAs or SKAs (the **EEIS remittance channel**).

Particulars

Paragraphs 468 and 479.

Remittance through the EEIS remittance channel also involved remittance of cash or other funds collected through Customer 9 and other overseas remitters.

462. From January 2018, the expansion of the EEIS remittance channel was considered through the EEIS Steering committee to facilitate and support the International Rebates Business or **IRB**.

Particulars

Paragraph 389.

463. On 22 March 2018, the SEG Board was briefed with a paper providing an update on the strategy to establish and re-activate a number of EEIS entities to facilitate and support payments for IRB customers (**IRB paper**).

Particulars

The IRB paper was an update on the IRB Strategy presented at the September 2017 Board meeting (as pleaded at paragraph 388), which was intended to address the closure of the Bank 1 (Macau) accounts from early 2018.

The paper reported that although management had implemented an interim solution (the Customer 9 channels), the closure of the Macau bank accounts was estimated to have a AUD21.5 million annual EBITDA impact unless rectified (offset by higher tax costs). This was driven by the assumption that junkets and/or premium direct players who had previously repaid outstanding balances in Macau would not visit SEG properties as frequently.

464. The strategy to facilitate and support payments for IRB customers included a proposal to establish EEIS as a licensed money lender and licensed remittance agent to:
- a. provide loans to junkets and players;
 - b. operate a CCF with each of Star Sydney and Star Qld; and
 - c. facilitate the payment of money owed by customers to Star Sydney and Star Qld.

Particulars

The intention of the proposal was to change the nature or appearance of the payments made by international customers from being the repayment of gambling debts in Australia to being the repayment of loans made in Hong Kong.

The intention of the proposal was also to extend the time for customers to settle amounts owed following settlement of a junket program. Customers loaned money by EEIS were to have 30 calendar days from the program end date to settle any outstanding debt, as required by the Casino Control Acts in NSW and Qld. This was in contrast to CCFs, which were required to be settled by 30 business days from buy-in. See paragraph 539.

The proposal also involved establishing the Macau Marketing Subsidiary (**MMS**) which would be established via EEI Services (Macau) Limited to market SEG casinos to Macau licenced junkets and enter into rebate agreements with junkets. It was initially proposed to establish EEI Services (Hong Kong) Holdings Limited as an EEIS Junket, but this proposal ultimately was not introduced.

Management intended for the EEIS/MMS project to be fully operational from 1 July 2018.

465. On 24 May 2018, the SEG Board approved the establishment of an internal CCF for EEIS with a limit of \$400 million to facilitate the provision of loans to IRB customers.

Particulars

For an explanation of the internal CCF, see paragraphs 476 to 481, 485 to 486.

At a meeting of the SEG Board on 24 May 2018, the Chief Financial Officer, introduced a paper titled '*EEIS Money Lender/ Macau Marketing Subsidiary Structure*'. The paper discussed the nature of the EEIS project and the process under the proposed money lender arrangements, as well as the proposed structure and implementation for the first phase of the project.

In the paper, it was advised that due to the continued tightening of the Macau regulatory environment, SEG had not yet been able to open bank accounts in Macau.

It was stated that introducing the EEIS Money Lender CCF provides customers the opportunity to repay their loan in Hong Kong to a Star group bank account rather than to the casino operations bank account in Australia.

This payment path was not activated until June 2019 - see paragraph 470.

466. By at least early May 2018, customers could repay amounts they owed to Star Sydney and Star Qld including under a CCF by depositing funds, by EFT or cash, into:
- a. the EEIS Bank 2 accounts in Australia; and
 - b. the EEIS Bank 1 (Hong Kong) accounts.

Particulars

The EEIS Bank 2 accounts were opened on 26 April 2018. Each of SEG, Star Sydney and Star Qld could access and operate these accounts.

The EEIS Bank 2 accounts were used to accept:

- A. deposits which were subsequently transferred into the customer's FMA with Star Sydney to fund gaming, including the repayment of amounts owed under a CCF;

B. deposits which were subsequently transferred into a customer's SKA with Star Sydney and disbursed to the customer;

C. a deposit which was subsequently transferred into a customer's SKA with Star Sydney and disbursed to pay a non-gaming (hotel related) debt to Star Sydney.

By 6 June 2018, over AUD 12 million had been received through the Australian EEIS bank accounts for the repayment of CCFs.

By 27 July 2018, over AUD24 million had been received through the Australian EEIS accounts.

From 30 November 2016 to April 2021, at least \$182.1 million (as a total in AUD, comprising AUD and foreign currency transactions) was remitted for the benefit of Star Sydney or Star Qld customers via the EEIS remittance channel. Of those deposits, at least \$154 million was deposited by third parties into EEIS Patron accounts. Additional deposits were made through the EEIS remittance channel by Customer 9.

The EEIS Bank 2 foreign currency accounts were also used to accept a number of deposits which were subsequently transferred into the customer's FMA to fund gaming, including the repayment of amounts under a CCF.

Any such amounts received into the EEIS Bank 2 account were transferred to the account of Star Sydney or Star Qld, as the case may be, to ensure the funds were clearly identified for internal processing to clear the amount outstanding in the customer's CCF account.

The EEIS Bank 1 (Hong Kong) account was opened in February 2015 and also accepted CCF repayments and EEIS loan repayments on behalf of Star Sydney and Star Qld customers, including by third party remitters.

See paragraph 328.f.

467. The deposits pleaded at paragraph 466 were made available to Star Sydney or Star Qld customers by a credit into the customer's FMA, SKA and/or CCF accounts.

Particulars

Deposits made for the purposes of redeeming a customer's CCF were generally made to, and recorded on, the customer's FMA or SKA first and then withdrawn and applied to the customer's CCF. The application of funds to the customer's CCF balance is known as a CCF redemption. There were also occasions where the deposit was not made to the FMA or SKA first but was recorded directly to the customer's CCF account.

468. The credits to FMAs, SKAs or CCF accounts pleaded at paragraph 467 involved designated services provided by Star Sydney or Star Qld under:

- a. item 32, table 1, s6 of the Act;
 - b. item 7, table 1, s6 of the Act (for repayment of amounts owed under CCFs);
 - c. item 13, table 3, s6 of the Act.
469. During mid to late 2018, the EEIS Steering Committee continued to review, assess and monitor payment pathways for international customers of Star Sydney and Star Qld.

Particulars

On 3 August 2018, the EEIS/MMS Project team was briefed with a discussion paper on the development of new payment pathways.

The payment pathways discussed included the ongoing development of EEIS, and were intended to overcome the ever-increasing challenges international customers were facing to remit and receive funds to and from SEG casinos.

The discussion paper stated that the development of new pathways had to be continuous in order to address the ever-rising tide of AML/CTF regulations as well as to respond to the pressure from foreign authorities to stem capital outflows.

The discussion paper reported that the customers predominantly affected were junket funders, junket operators and premium players (including those playing on junkets).

The challenges these customers reported included that their banks were not making payments to SEG casinos or that their banks were challenging incoming payments from SEG casinos. Further, SEG had no method for accepting cash payments outside the casino Cage.

On 16 November 2018, the IRB payment pathways were presented in an EEIS Steering Committee presentation.

Four central pathways were presented:

First, if customers were able to transfer funds electronically to an existing Star Patron account in Australia, the preference was that they utilise existing CCF processes. This required a personal cheque, which was required to be banked 30 working days after buy in, unless redeemed earlier.

Second, if customers were unable to transfer electronically directly to a Star Sydney or Star Qld account in Australia, but were able to transfer money to an EEIS bank account in Australia or Hong Kong, they were to be offered remittance services through the EEIS accounts.

Third, EEIS was to offer loans to approved customers as an alternative to a CCF. The EEIS loan also required a personal cheque to be provided, but it was required to be banked 30 days after program settlement (not after buy-in).

Fourth, if customers were only able to pay by cash or EFT in Macau, SEG would refer the customers to money remitters. However, neither

SEG nor the SEG casinos would directly engage with these entities.
Deposits by these remitters could be made into EEIS Patron accounts and other Star Patron accounts.

Pending full activation of the EEIS, the pathways that continued to be used by Star Sydney and Star Qld customers included overseas remitters, including Company 1, the Customer 9 channels, and direct payments to EEIS bank accounts in Australia.

Remittance through EEIS loans

470. By June 2019, EEIS commenced providing loans to international customers of Star Sydney and Star Qld (the **EEIS loans**).

Particulars

Only International Premium Direct customers or international junket operators were eligible for EEIS loans.

The EEIS loans were intended to be an alternative to a Star Sydney or Star Qld CCF.

471. EEIS loans were provided in AUD and HKD.
472. Funds drawn under EEIS loans were used to fund rebate program play at the Star Sydney casino, the Star Gold Coast casino or Treasury Brisbane casino and were subject to relevant policies and procedures applicable to such program play.
473. All EEIS loans were approved by persons employed by SEG.
474. All EEIS loan documents were executed by persons employed by either SEG, Star Sydney or Star Qld.
475. The key terms and conditions of the EEIS loans included that:
- a. the loan was only to be drawn at a casino operated by SEG in Australia and credited to the customer's FMA;

Particulars

Funds drawn on an EEIS loan could be deposited into an FMA with either Star Sydney or Star Qld in the name of the borrower only.

- b. the use of the facility by the customer was subject to the standard terms and conditions for an FMA, which required those funds to be used for gaming purposes;
 - c. the facility allowed multiple drawdowns, subject to the facility limit;
 - d. funds could be accessed in either AUD or HKD;
 - e. it was an interest-free loan;
 - f. there was a standard requirement to hold a cheque as collateral for the loan; and
 - g. the standard repayment was 30 days following settlement of the program funded by the loan. (This could be extended to 90 days with approval).
476. EEIS held a master CCF with Star Sydney and with Star Qld (the **EEIS CCF**), from which Star Sydney or Star Qld customers would drawdown on the EEIS loan.

Particulars

The SEG Board approved the EEIS CCF on 24 May 2018.

Paragraph 465.

477. A drawdown on an EEIS loan was effected by Star Sydney or Star Qld by transferring money from the EEIS CCF to the Star Sydney or Star Qld customer's FMA.
478. Star Sydney and Star Qld made money available to a customer when it credited the customer's FMA with an EEIS loan drawdown.
479. The credit to an FMA, as pleaded at paragraph 478, was a designated service provided by Star Sydney or Star Qld under:
 - a. item 32, table 1, s6 of the Act; and
 - b. item 13, table 3, s6 of the Act.
480. EEIS provided a cheque from its Bank 1 (Hong Kong) account as security for each drawdown on the EEIS CCF (the **EEIS cheques**).
481. In accordance with the Casino Control Act in NSW and Qld, the EEIS cheques were required to be banked 30 business days after presentation, unless the outstanding amount under the EEIS CCF had been cleared prior to that date.

Particulars

EEIS settled the CCFs with Star Sydney and Star Qld within the statutory time limit under the Casino Controls Acts in each State.

EEIS was to recover debts from losing players or junkets. The players were to have 30 calendar days from program end date (as opposed to the current 30 business days from buy-in) to settle any outstanding debt. If the debt was not settled within the time limit, EEIS would bank the customer cheque.

482. Once the EEIS drawdown was credited to the customer's FMA with Star Sydney or Star Qld, the money could be used by the customer to acquire gaming chips or a CPV at Star Sydney and the Star Qld casinos.

Particulars

Items 6, 7 and 13, table 3, s6 of the Act, provided by Star Sydney or Star Qld.

483. Once the EEIS drawdown was credited to the customer's FMA with Star Sydney or Star Qld, the customer or their authorised representative could:
 - a. transfer the funds in the customer's FMA to the FMA of a third party to fund a rebate program of a third party; or
 - b. access the funds in the customer's FMA in the form of chips or a CPV to fund a rebate program of a third party.

Particulars

Items 31 and 32, table 1, s6 of the Act, provided by Star Sydney or Star Qld.

Items 6, 7 and 13, table 3, s6 of the Act, provided by Star Sydney or Star Qld.

484. Once money was transferred or accessed as pleaded at paragraph 483, the third party could access:
- a. cash, subject to the cash out policy;
 - b. gaming chips or a CPV;
 - c. an electronic funds transfer, subject to the cash out policy.

Particulars

Items 6, 7 and 13, table 3, s6 of the Act, provided by Star Sydney or Star Qld.

485. EEIS loans could be repaid by Star Sydney or Star Qld customers by a credit entered in the EEIS CCF account, which could be funded in the following ways:
- a. from the customer's winnings on a rebate program;

Particulars

A customer's winnings on a rebate program would be credited to the junket operator's FMA. When conducting an IRB settlement, all funds are withdrawn from the FMA at the end of play and, if the IRB program is funded by CCF, used to repay the outstanding CCF balance.

- b. by offsetting the rebate to be paid by Star Sydney or Star Qld to the customer, if their losses were sufficiently small;
- c. by the customer transferring funds to an EEIS bank account;

Particulars

Four Bank 1 (Hong Kong) accounts.

Two Bank 2 accounts in Australia.

SEG could access and operate the Bank 1 accounts.

Each of SEG, Star Sydney and Star Qld could access and operate the Bank 2 accounts.

No cash deposits were made to repay any EEIS loan.

- d. by cheque banked in an EEIS bank account;
 - e. by SEG disbursement (on one occasion where there was a discount on a debt); and
 - f. from funds from the customer's FMA or SKA with a SEG casino.
486. The credit to the EEIS CCF in each case pleaded in paragraph 485 (a), (b) and (f) involved an item 31, table 1, s6 designated service provided by Star Sydney or Star Qld to the Star Sydney or Star Qld customer.
487. EEIS loans could be repaid by a third party on behalf of the Star Sydney or Star Qld customer in the same ways pleaded at paragraph 485.

Particulars

Third party repayments for EEIS loans occurred in relation to those EEIS loans drawn to fund an International Junket Operator or International Premium Direct customers who were not the borrower under the loan.

Where the rebate programs so funded were winning programs, the EEIS loan was repaid by a transfer of the funds available from the International Junket Operator or International Premium Direct customer on settlement of the relevant rebate program. As the front money for the relevant rebate program was funded by the EEIS borrower, the return of funds at the end of that rebate program was a return of the same funds.

488. The repayment of any outstanding EEIS loan balance was recorded by SEG as follows:
- a. The repayment was not recorded by either Star Sydney or Star Qld on Synkros.
 - b. The repayment was recorded in the EEIS Receivables Control sheet.
 - c. The EEIS Receivables Control sheet was managed by the SEG Credit and Collections team on behalf of EEIS.
 - d. The SEG Credit and Collections team are employed by various entities within the SEG group, depending on their location.
489. As at August 2019, although the EEIS loan product had been established, challenges remained with customers using EEIS remittance services.

Particulars

Although EEIS had been established and had provided initial loans to customers, the remittance services that EEIS could offer had not been utilised to date and were subject to finalisation with advice on different scenarios being sought from Hong Kong lawyers.

In the absence of this, customers generally used the following methods:

A: electronic transfer of funds from a bank account to a SEG bank account (or, if repaying a CCF, to the Australian bank account of EEIS) - usually customers bore their own transfer fees, but this could be varied by agreement with suitable approvals;

B: the use of a licenced remittance provider in their home jurisdiction to make the transfer from their home jurisdiction to a SEG bank account (or, if repaying a CCF, to the Australian bank account of EEIS) - subject to paragraph (C) below, usually patrons bore their own transfer fees, but this could be varied by agreement with suitable approvals.

C: referral to Company 11, in some instances.

490. Between 25 June 2019 and March 2020 EEIS provided six loans to five international customers of Star Sydney and Star Qld.

Particulars

Of the six loans provided by EEIS, five were repaid in full or in part by a 'winning program', which involved a set-off of winnings against the loan, as facilitated by SEG and/or Star Sydney in Australia.

One of the loans (to Customer 21) was repaid by a deposit into an EEIS Bank 2 account held in HKD.

One of the loans to another customer was repaid by a deposit to an EEIS Bank 2 account held in AUD.

There were two instances where existing International Premium Direct customers used an EEIS loan to fund an International Junket Operator (and, in one of those cases, to also fund two other International Premium Direct customers. Both of those borrowers were junket participants (or junket players) on some of the junket rebate programs those borrowers funded with an EEIS loan.

491. Designated services through the EEIS remittance channel involved the following high ML/TF risks:
- a. The EEIS remittance channel involved the ML/TF risks relating to EEIS Patron accounts pleaded at paragraph 328.
 - b. The EEIS remittance channel was used by high risk customers to remit offshore funds into Australia, including junket operators, representatives, funders and players.
 - c. The EEIS remittance channel was used by international customers to repay CCFs, including junket funders.

Particulars

Paragraph 552(j)-(n).

- d. Remittance through the EEIS remittance channel involved money collected from Star Sydney and Star Qld customers through Customer 9, Customer 9's associates and Company 11.
- e. Money collected through Customer 9, Customer 9's associates and Company 11 included cash, chips, money in overseas casino accounts and money in overseas junket accounts.
- f. Third parties could remit money through the EEIS remittance channel for or on behalf of customers.
- g. Remittance through the EEIS remittance channel lacked transparency as to source of funds.
- h. The EEIS channel could be used to repay amounts owed under CCFs, and thereby offsetting and cuckoo smurfing.
- i. Remittance through EEIS loans involved an additional layer of non-transparency.
- j. SEG, Star Sydney and Star Qld had very limited visibility over the source of funds remitted through the EEIS remittance channel.

Particulars

An external auditor concluded that the design and promotion of the EEIS loan arrangements during the Relevant Period indicates SEG

was prepared to engage in window dressing so as to navigate potential legal, regulatory or contractual obstacles. These arrangements put SEG at grave risk of, first: failing to mitigate, manage and report the risk of ML/TF; and second: potentially being complicit in enabling the placement, layering and integration of illicit funds. These risks were considered to be heightened by the lack of curiosity and rigour in relation to a customer's source of wealth and source of funds.

492. At no time did Star Sydney or Star Qld carry out an appropriate assessment of the ML/TF risks of the EEIS remittance channel.

Particulars

On or about 28 August 2018, a risk assessment was conducted with respect to remittance and lending services provided by EEIS. It assessed the risk of ML/TF for EEIS to be medium.

The risks identified were not specific to the provision of designated services by Star Sydney and Star Qld through this channel, but largely referred to the FATF and AUSTRAC guidance that identified risk typologies.

For example, there was no assessment of the ML/TF risks of Star Sydney or Star Qld accepting CCF redemptions through the EEIS Bank 2 accounts, including through third-party remitters more generally.

Whilst the assessment identified some risks of the use of third party remittance services, SEG framed EEIS as a control to mitigate risks associated with remittance. EEIS loans were described as being less attractive to customers wishing to launder money via remittance services as the funds can only be remitted to SEG casinos for the purposes of gambling. This conclusion was not reasonably open.

The assessment concluded that EEIS loans would decrease the likelihood of casino customers (including junket operators) engaging third party underground remittance services to bring money to SEG casinos because a legitimate channel exists for the transfer of these funds. This conclusion was not reasonably open.

Paragraphs 329, 341, 348, 366, 381, 440 and 459.

493. At no time did the Joint Part A Programs appropriately identify, mitigate or manage the ML/TF risks of the EEIS remittance channel because:

- a. They did not include appropriate risk-based controls to understand the source of funds of transactions through this channel.
- b. Processes to obtain, review or update appropriate KYC information with respect to customers transacting through this channel were inadequate.

Particulars

Paragraphs 146 to 156.

- c. There were no transaction or daily limits on transactions through the EEIS remittance channel.
- d. Star Sydney and Star Qld had systems and controls in place to assess credit risk exposure (**CRE**) but not the ML/TF risks of CCF repayments.

Particulars

Paragraph 507 and 553.

- e. Appropriate transaction monitoring was not applied to item 32, table 1, s6 designated services through EEIS Patron accounts.

Particulars

See paragraph 779.

- f. There was insufficient guidance on how to identify suspicious transactions through this channel, and how to escalate any unusual activity.

Particulars

See paragraph 854.

Loans - items 6 and 7, table 1, s6 – cheque cashing facilities (CCFs)

- 494. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to items 6 and 7, table 1, s6 designated services for the reasons pleaded at paragraphs 495 to 553 below.
- 495. At all times, Star Sydney and Star Qld provided Cheque Cashing Facilities (**CCFs**) to customers.

Particulars

A CCF permitted a customer to exchange credit granted under the CCF for gaming services under table 3, s6 of the Act.

CCFs were also issued to Star Sydney customers pending clearance of funds transacted through the Hotel Card channel (paragraph 358).

These CCFs were known as **temporary CCFs**.

CCFs could be issued in AUD and HKD.

CCFs were the most common method for making front money available to customers.

- 496. CCFs were available to both domestic and international customers of Star Sydney and Star Qld.
- 497. At all times, a junket operator could be funded by a third party (a **junket funder**).
- 498. At all times, a junket funder could open a CCF to fund a program run by a junket operator.
- 499. Members of the SEG Sales team would identify a Star Sydney or Star Qld customer to whom they would wish to offer a CCF, or a customer could directly approach Star Sydney or Star Qld for a CCF.
- 500. In order for a customer to be eligible for a CCF, the customer was required to:

- a. complete and sign an application for a CCF;
- b. undergo a background and creditworthiness review undertaken by the SEG Credit and Collections team;
- c. be on-boarded as a customer of Star Sydney or Star Qld, if they were not an existing customer; and
- d. open an FMA, if they did not already have an FMA with Star Sydney or Star Qld.

501. The limit being sought under the CCF was:

- a. specified in the customer's application;
- b. otherwise negotiated between the customer and Star Sydney or Star Qld; or
- c. equal to or greater than the amount of the transaction facilitated through the Hotel Card channel in the case of a temporary CCF.

502. The background and creditworthy review by the SEG Credit and Collections team included:

- a. checks on the customer with a credit reporting body based overseas dedicated to the casino industry, potentially with follow up calls to other casinos in Australia and other jurisdictions to confirm a customer's status;
- b. checks with other relevant credit reporting bodies, depending on the jurisdiction of residence of the proposed customer. If an appropriate credit reporting body was not available in a relevant jurisdiction, internet searches were conducted to verify background information provided by the customer and, where relevant, the SEG Sales team representative;
- c. formerly a World-Check search, now a Dow Jones Factiva search, on the customer;
- d. real estate checks on customers in selected foreign jurisdictions; and
- e. if a business card or business details were provided by the SEG Sales team, checks were conducted to verify such details, to the extent possible.

Particulars

Limited checks were conducted on customers being granted a temporary CCF.

503. The purpose of the background and creditworthy checks was to assess credit risk not ML/TF risk.

Particulars

The Credit and Collections team did not make any in-depth enquiries as to the junket operator's or funder's source of wealth or source of funds.

The AML team did not have access to OnBase, the database maintained by the Credit and Collection team, and on which records related to background and creditworthy checks were held.

If negative holdings were identified in a World-Check or DOW Jones Factiva check, the customer could be referred by email to the AML team for further investigation separate from the credit approval process.

504. If, following the background and creditworthy checks, the customer was considered sufficiently creditworthy to be considered for approval for a CCF, a CCF Risk Matrix was completed by the SEG Sales team.
505. The CCF Risk Matrix did not include appropriate risk-based criteria against which to identify and assess the ML/TF risks of providing the CCF to the customer.

Particulars

The CCF Risk Matrix criteria were focussed on credit risks, credit history, market comparisons to credit limits at other casinos and local laws for the enforcement of gaming debts in the customer's jurisdiction of residence.

One criterion included: 'AML jurisdiction – in what jurisdiction is the customer's cheque bank account located?'

This criterion did not adequately address the ML/TF risks posed by CCFs.

Customers who were to receive a temporary CCF were considered to be a low credit risk because the funds to clear the CCF arrived within 48 hours of the drawdown on the CCF being issued.

506. If, following the CCF Risk Matrix review, the customer was determined to be suitable for a CCF, the customer's application for a CCF was referred for approval in accordance the SEG Delegated Authorities Policy.
507. The level of approval required for a CCF under the SEG Delegated Authorities Policy was dependent upon the credit risk exposure or **CRE** associated with the CCF.

Particulars

The CRE was the maximum credit risk for an individual customer or junket.

The CCF limit could be significantly higher than the CRE. This was because the Table Play Rebate reduced the casino's CRE with respect to a CCF. See paragraph 634; and see paragraph 509 for an example.

The delegations for approving CCFs were based on CRE rather than the limit for the CCF. In approving CCF applications, CRE only was taken into account.

The ML/TF risks of the CCF flowed from the CCF limit not the CRE limit. Star Sydney and Star Qld did not have appropriate risk-based systems and controls in place to identify, mitigate and manage the ML/TF risks of the CCF limits. See paragraph 553.

508. Depending on the credit risk exposure of the CCF for which approval was being sought, approval from one or more of the following SEG employees was required:
- a. Chief Executive Officer;
 - b. Group Chief Financial Officer;
 - c. Company Secretary;

- d. Property Managing Director;
- e. Property Chief Financial Officer;
- f. Group Financial Controller;
- g. Chief Operating Officer;
- h. General Manager of VIP Credit and Collections; or
- i. Manager of VIP Credit and Collections.

509. Applications for CCFs with large CRE limits were approved by the SEG Board, including with respect to CRE limits that exceeded those in the SEG Delegated Authorities Policy.

Particulars

For example, on or about 18 November 2017, the SEG Board approved a proposal to provide a junket operator, Customer 5, with a CCF facility limit of \$166.7 million, which would be available for drawdowns on a permanently active basis. The CRE for this facility was \$50 million. SEG did not assess the ML/TF risks of the \$166.7 million facility.

See Customer 5's risk profile below.

On or about 16 February 2018, the SEG Board approved a proposal to provide Customer 1, the Suncity junket funder, with a CCF facility limit of \$266.7 million, subject to a 70/30 Revenue Sharing Agreement (see paragraph 634). The CRE for this facility was \$80 million. SEG did not assess the ML/TF risks of the \$266.7 million facility.

See Customer 1's risk profile below and paragraph 657.

510. Generally:

- a. a CCF was approved for the duration of an international customer's visit to a Star Sydney or Star Qld casino (a 'this trip only' or **TTO** approval);
- b. the customer's creditworthiness would need to be reviewed before each subsequent trip or visit to a Star Sydney or Star Qld casino; and
- c. a new CCF would be approved for each subsequent trip or visit to a Star Sydney or Star Qld casino.

511. A permanent active CCF could be approved for:

- a. international customers who used their CCF frequently; and
- b. domestic customers.

512. The limit of a permanent active CCF would be assessed and reapproved periodically.

Particulars

CCFs for customers in these categories would be reassessed and reapproved at least every 12 months, with some customers checked as frequently as monthly.

513. If a Star Sydney or Star Qld customer wanted to increase the limit of a CCF:

- a. an updated application form was required to be completed and signed; and
 - b. the application was assessed and approved in accordance with the process pleaded at paragraphs 502 to 508.
514. For a temporary CCF issued to a customer pending clearance of funds transacted through the Hotel Card channel:
- a. a temporary CCF was approved for each Hotel Card swipe; and
 - b. a new temporary CCF or increased limit for an existing temporary CCF was approved for each subsequent Hotel Card swipe.

Particulars

Paragraph 358.

515. The approval of a CCF in accordance with the process pleaded at paragraph 508 entitled the customer to use the facility at any SEG casino.

Particulars

The approved limit of a CCF applied across all SEG casinos. The limit was monitored and controlled by Cage employees at each casino property communicating with the other sites when a drawdown was requested. However, each property opened a separate CCF account: paragraph 521.

516. Star Sydney and Star Qld made a loan to a customer upon the:
- a. approval of a CCF for a customer;
 - b. re-approval of a CCF for a customer; and
 - c. approval of a CCF with a new limit.

Particulars

A CCF was an advance of money by Star Sydney or Star Qld to the customer.

Paragraph (a) of the definition of 'loan' in s5 of the Act.

517. At all times, Star Sydney and Star Qld made loans as described at paragraph 515 in the course of carrying on a loans business.

Particulars

The provision of CCFs was a core activity of Star Sydney and Star Qld that facilitated gaming (table 3, s6) and the generation of gaming revenue.

CCFs were provided to international VIP players and junket operators and players, and facilitated high value gaming.

The international VIP and junket business was a significant component of Star Sydney and Star Qld's revenue.

- A. In the 2016, 2017, 2018 and 2019 calendar years, the total value of drawdowns under CCFs at Star Sydney was \$1.3 billion, \$3.4 billion, \$3.1 billion, and \$3.1 billion respectively.

B. In the 2020 calendar year, in which gaming activity was reduced due to COVID-19-related travel restrictions and lockdowns, the total value of drawdowns under CCFs at Star Sydney was \$581 million.

C. In the 2016, 2017, 2018 and 2019 calendar years, the total value of drawdowns under CCFs at Star Gold Coast was \$243 million, \$480 million, \$916 million and \$775 million respectively and at Treasury Brisbane was \$14.4 million, \$15 million, \$32.8 million and \$42.7 million respectively.

D. In the 2020 calendar year, in which gaming activity was reduced due to COVID-19-related travel restrictions and lockdowns, the total value of drawdowns under CCFs at Star Gold Coast was \$361 million and at Treasury Brisbane was \$22.4 million.

CCFs were provided and recorded through Star Sydney's and Star Qld's systems, and were the subject of documented processes and procedures.

CCFs were provided to customers regularly as part of Star Sydney's and Star Qld's business.

518. At all times, the approval by Star Sydney or Star Qld of a CCF for a customer as pleaded at paragraph 515 involved the provision of an item 6, table 1, s6 designated service to the customer.

Cheque cashing facilities - item 7, table 1, s6 designated services

The drawdown of funds under a CCF

519. Once a CCF was approved for a customer who had not previously been approved for a CCF:
- a. a CCF account would be opened in Synkros for the customer at the SEG casino for which the CCF had been approved; and
 - b. the credit limit approved under the CCF would be credited to the customer's CCF account.

Particulars

A FMA and SKA would also be opened, if the customer did not already hold these accounts.

These steps were undertaken by the SEG Credit and Collections team or by the Cash Services Duty Manager or Supervisor at the Cage of a casino property.

520. For a customer with a pre-existing CCF account, once a new CCF or new CCF limit had been approved:
- a. the existing details in Synkros (including details of the bank on which the cheque was to be drawn and KYC information) would be checked and updated as required; and
 - b. the credit limit approved under the CCF would be credited to the customer's CCF account.

Particulars

These steps were undertaken by the SEG Credit and Collections team or by the Cash Services Duty Manager or Supervisor at the Cage of a casino property.

- 521. The Star Sydney, Star Gold Coast and Treasury Brisbane casinos each maintained separate CCF accounts for their customers.
- 522. A customer was required to open a separate CCF account at each SEG casino to access their CCF at that casino.

Particulars

A single CCF limit was approved for all SEG properties. However, a customer was required to open a separate CCF account at each casino. The balances of a CCF account at each casino were kept separately. The approved limit across all SEG casinos was monitored and controlled by Cage employees at each property communicating with the other sites when a drawdown was requested.

- 523. The opening of a CCF account was a designated service provided by Star Sydney or Star Qld under item 11, table 3, s6 of the Act.

Particulars

Paragraph 471(a).

- 524. The credit entry to the CCF account corresponding to the approved limit of the CCF was a designated service provided by Star Sydney or Star Qld under item 13, table 3, s6 of the Act.

Particulars

Paragraphs 471(b) and 520(b).

- 525. At all times, a customer could draw on an approved CCF:
 - a. at the Star Sydney or Star Qld Cage for which the CCF was approved; or
 - b. through another individual authorised in writing to operate the CCF on their behalf, either under a standard form "Junket to Representative Authority" or under a standard form "Third Party Authority".

Particulars

Any existing customer of Star Sydney or Star Qld could be authorised under a third party authority to operate a CCF holder's CCF account.

A junket representative could be authorised to operate a CCF holder's account on behalf of the CCF holder, subject to the junket representative being approved and subject to KYC.

- 526. A junket funder would usually provide a third party authority giving:
 - a. the nominated junket operator;
 - b. a nominated junket representative;
 - c. a nominated individual rebate playerauthority to drawdown on the CCF account for a specified amount and time period.

Particulars

Item 12, table 3, s6 of the Act.

527. Prior to the first draw-down on a CCF, a customer would be required to undergo a KYC check in accordance with the KYC Standard under the AML/CTF Program at the relevant time.

Particulars

This check would occur at the Cage of the relevant casino, if the customer was present at the property. If the CCF holder was not present at a casino property, the KYC would take place in the customer's jurisdiction of residence by a casino licensed employee of SEG to the same standard. This would not occur every trip but would be done for the first use of a CCF or if KYC updates were required.

Limited checks were conducted with respect to customers drawing down on a temporary CCF.

528. At all times, subject to paragraph 529, to draw on a CCF a counter cheque was:
- a. generated by Star Sydney or Star Qld from Synkros at the casino Cage in the amount designated by the customer, which could be any amount up to the CCF limit; and
 - b. signed by, or on behalf of, the customer.

Particulars

A counter cheque included a customer's bank account details and was bankable.

A counter cheque was required to be issued in the name of the CCF account holder.

529. In place of a counter cheque, Star Sydney or Star Qld would accept a replacement cheque.
530. A replacement cheque was a blank cheque from the customer's bank-issued cheque book made payable to the Star Sydney or Star Qld casino and signed by the customer.

Particulars

Ordinarily, a replacement cheque would be accepted if it was issued from the CCF account holder's bank-issued cheque book.

531. At all times, once the counter cheque was signed by or on behalf of the customer, or a replacement cheque was provided to Star Sydney or Star Qld, an amount equal to the cheque was:
- a. either:
 - i. deposited into the customer's FMA (item 13, table 3, s 6); or
 - ii. issued as chips or a CPV (item 7, table 3, s 6)
 - b. and
 - iii. debited from the customer's CCF account (item 13, table 3, s6).

(the drawdown of funds under a CCF).

532. Funds could be drawdown from a CCF in AUD or HKD.

533. A single CCF approved for a junket funder could be drawdown to multiple FMAs held by multiple junket operators for multiple programs.
534. A single CCF approved for a junket funder could be drawdown to multiple sub-accounts held by a junket operator for different programs.
535. Where a person had authority to drawdown on a junket funder's CCF account (as pleaded at paragraph 526), the amount drawn down could be deposited into that person's FMA.

Particulars

Multiple junket operators or representatives could have third party authority to drawdown on a CCF account held by a junket funder.

Paragraph 553(f).

536. At all times, the drawdown of funds under a CCF was a transaction in relation to a loan, where the loan was made in the course of carrying on a loans business.

Particulars

See paragraph 452.

537. At all times, Star Sydney and Star Qld provided an item 7, table 1, s6 designated service when they provided a customer with a drawdown of funds from a CCF.

Particulars

See paragraph 531.

Repayments under a CCF

538. At all times, the balance owed to Star Sydney or Star Qld under a CCF could be repaid by:
- a. redemption of the counter cheque drawn from the customer's CCF account;
 - b. banking of the counter cheque; or
 - c. banking of a replacement cheque
- in the ways pleaded at paragraphs 539 to 544.

539. A counter cheque or a replacement cheque was required to be banked within the time prescribed by State legislation, unless it had been redeemed.

Particulars

Section 75, NSW Casino Control Act; ss 69-70, Qld Casino Control Act.

540. If a counter cheque or replacement cheque was not redeemed prior to the prescribed date for banking, Star Sydney or Star Qld would bank the cheque.
541. Prior to banking, Star Sydney or Star Qld completed a replacement cheque by dating the cheque and including the amount outstanding under the CCF at the date of banking.
542. A Star Sydney or Star Qld customer could redeem a counter cheque drawn on a CCF account, or could redeem a replacement cheque by:
- a. an electronic transfer of funds to a Star Patron account, including from a third party;

Particulars

SEG's policy was that a telegraphic transfer to repay a CCF balance could be made by the beneficiary of the CCF only.

However, Star Sydney and Star Qld accepted external telegraphic transfers from third party remitters for the repayment of CCF balances. Information relating to the sender of the funds received from third party remitters was difficult to ascertain. Star Sydney and Star Qld would not reject the payment unless there was evidence that they were not from the person responsible for the debt.

Third party remitters and other third parties collected cash from or on behalf of customers in Macau for the repayment of CCFs: see paragraphs 370 to 384, 391 to 441, 442 to 460.

Star Sydney and Star Qld would accept repayment of a CCF balance sourced from an FMA transfer from a third party. The third party deposited funds into their Star Sydney or Star Qld FMA by telegraphic transfer, and then requested for it to be transferred to the other customer's CCF account.

Payments from third parties were not always identifiable. See Paragraphs 275 and 277.

- b. applying winnings available at the conclusion of gaming;

Particulars

Paragraph 281.

A junket operator could move money between different sub-accounts for different programs. Paragraph 261.

- c. transfer from an FMA, whether in the customer's name or in a third party's name;

Particulars

For example, a Star Sydney or Star Qld customer could repay a third party CCF with funds sourced from a Hotel Card swipe.

- d. cash deposit at the Cage, including from third parties;

Particulars

For example, paragraph 662(f) regarding Customer 12.

- e. bank cheque;
- f. personal cheque that had been banked and cleared;
- g. disbursements from SEG authorised by the SEG Credit Committee; or
- h. a cleared deposit facilitated through the Hotel Card channel (see paragraph 358).

- 543. A junket operator could apply the settlement proceeds of a junket program to redeem a CCF held by a person funding the program in any of the ways pleaded at paragraph 542.

Particulars

Most Junket Program Agreements (**JPA**s) required any settlement proceeds payable to the junket operator, including rebates or

commissions, to be first applied to clear any outstanding amounts on the CCF that funded the program, pursuant to the terms of the JPA.

The junket funder was often not the same person as the junket operator.

544. The banking or redemption of a counter cheque or replacement cheque was recorded as a credit to the customer's CCF account.

Particulars

Item 13, table 3, s6 designated service.

545. The banking or redemption of a counter cheque or replacement cheque was a transaction in relation to a loan where the loan was made in the course of carrying on a loans business.

Particulars

See paragraph 452.

546. Star Sydney and Star Qld provided an item 7, table 1, s6 designated service when it banked or redeemed a counter cheque or replacement cheque.

Particulars

See paragraph 545.

547. If a cheque under a CCF was dishonoured, Star Sydney or Star Qld would recover payment from the customer in other ways.

548. Once funds were recovered from a customer following a dishonoured cheque, the recovered funds were recorded as a credit to the customer's CCF account.

Particulars

Item 13, table 3, s6 designated service.

549. The recovery of funds owed under a CCF by Star Sydney or Star Qld if a CCF cheque was dishonoured involved a transaction in relation to a loan where the loan was made in the course of carrying on a loans business.

Particulars

See paragraph 452.

550. Star Sydney and Star Qld provided an item 7, table 1, s6 designated service when it recovered funds owed under a CCF.

Particulars

See paragraph 549.

ML/TF risk assessments of CCFs

551. At no time did Star Sydney or Star Qld carry out an appropriate ML/TF risk assessment of the items 6 and 7, table 1, s6 designated services provided through CCFs.

Particulars

The 2019 Designated Services Risk Register considered CCFs.

552. The provision of items 6 and 7, table 1, s6 designated services by Star Sydney and Star Qld through CCFs involved higher ML/TF risks:
- a. CCFs enabled funds held by customers in foreign jurisdictions to be used in Australia without the need for a cross-border transfer.
 - b. Loans under CCFs could be drawdown and repaid as part of a complex chain of different designated services under tables 1 and 3, s6 of the Act.
 - c. A single CCF approved for a junket funder could be drawdown to multiple FMAs held by multiple junket operators for multiple programs.
 - d. A single CCF approved for a junket funder could be drawdown to multiple sub-accounts held by a single junket operator for different programs.
 - e. Multiple junket operators or representatives could have third party authority to drawdown on a CCF account held by a junket funder.
 - f. Credit approved through a single CCF facility could be shared across Star Sydney and Star Qld through multiple accounts.
 - g. Loans under CCFs could be drawn down by way of an FMA deposit and then withdrawn in accordance with the terms of an FMA, including by way of cash withdrawals.

Particulars

A cash withdrawal from the CCF holder's FMA (or the FMA of the operator or player funded by the CCF) was permitted where the customer was gaming on slot machines. A portion of those funds would be permitted to be taken in cash, the rest either as a ticket-in-ticket-out (**TITO**) voucher or funds could be transferred to the customer's CWA.

If a CCF was used to fund a rebate program, SEG's cash out policy would apply. Cash, funded by a CCF, could be withdrawn from a rebate program as follows:

- A. Premium Player or junket operator (Category A): Non-winnings of 5% of front money to a maximum of \$500,000;
- B. Premium Player or junket operator (Category B): Non-winnings of 5% of front money to a maximum of \$250,000; and
- C. Premium Player or junket operator (Category C): Non-winnings of 1% of front money to a maximum of \$25,000.
- D. These limits could be exceeded with relevant approvals.

- h. CCFs facilitated high volume and high frequency gambling by high risk customers playing through junket and rebate programs.
- i. Junket funders and operators were provided with significant lines of credit through CCFs. Following each drawdown of a credit facility or CCF by the junket operator or junket representative, chip purchase vouchers, gaming chips or cash equivalents that were issued by Star Sydney or Star Qld would be provided at the junket operator's or representative's discretion to the junket players.

Particulars

See paragraph 657.

- j. Loans under CCFs could be repaid through non-face-to-face channels, including by international and domestic telegraphic transfers.

Particulars

See paragraphs 350, 361(d), 375(b), 408, 429(c), 444, 467, 468 and particulars to 421 and 422.

- k. Loans under CCFs could be repaid by third party transfers through non-face-to-face channels, including third party companies.

Particulars

See the particulars at paragraph 285.

- l. Loans under CCFs could be repaid by transfer from a junket operator's FMA.

Particulars

Winnings from a junket program could be applied to redeem an amount owed by a junket funder under a CCF.

A junket operator could move money between different FMA sub-accounts for different programs.

- m. Temporary CCFs could be granted, with limited checks, for amounts that exceeded Hotel Card channel payments.

Particulars

Paragraph 358.

Customer 85.

- n. The provision and repayments of loans via CCFs created an avenue for money laundering through smurfing, cuckoo smurfing or offsetting.

Particulars

Paragraphs 25(a) to (h) and 650(h).

The Part A Programs did not apply controls to loans - CCFs

- 553. The Joint Part A Programs did not apply to items 6 and 7, table 1, s6 designated services and were not capable, by design, of identifying, mitigating and managing the ML/TF risks of these designated services.
 - a. The Joint Part A Programs did not include systems and controls to ensure that the approval of CCFs had regard to ML/TF risks.
 - b. The approval of credit limits under CCFs was subject to credit risk assessments not ML/TF risk assessments.
 - c. Where the customer being offered the CCF was funding or operating a junket that involved a table performance rebate arrangement, the CCF limit was higher than the CRE limit.

Particulars

For example, on 16 February 2018, Customer 1 was granted a CCF with a limit of \$266.67 million where the approved CRE was \$80 million.

Also, by 18 November 2017, the SEG Board had approved a CCF for Customer 5 with a limit of \$166.67 million where the approved CRE was \$50 million.

The CCF limit was calculated on the basis that the junket operator had a loss of the entire amount of that funding and was entitled to a rebate of 70% (being approximately \$116 million /\$186 million), providing a net exposure of approximately \$50 million /\$80 million.

- d. The ML/TF risks of the CCF flowed from the CCF limit not the CRE limit. Star Sydney and Star Qld did not have appropriate risk-based systems and controls in place to identify, mitigate and manage the ML/TF risks of the CCF limits.
- e. The Joint Part A Programs did not include appropriate risk-based controls to identify customers to whom the provision of credit was outside of risk appetite.

Particulars

Paragraphs 811 and 812.

- f. The Joint Part A Programs did not include controls to monitor drawdowns under CCFs or to understand the relationship between junket funders and the persons operating or playing on programs being funded by the CCF.
- g. The Joint Part A Programs did not have any processes in place to identify how, for example, the gaming chips issued by Star Sydney and Star Qld, based on the approved junket credit, were subsequently distributed among the junket players by the junket operator or representative.
- h. The Joint Part A Programs did not include appropriate risk-based controls to restrict withdrawals from FMAs that were funded by CCFs, including cash.
- i. The Joint Part A Programs did not include appropriate risk-based controls to restrict the ability of third parties to repay loans on behalf of customers.
- j. The Joint Part A Programs did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks of CCF repayments through non-transparent international remittance channels.
- k. Star Sydney's and Star Qld's systems, processes and procedures could not adequately determine whether funds drawn on the CCF were used for game play.

Exchanging money for casino value instruments, including chips and tokens (and vice-versa)

- 554. From 30 November 2016, the Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to items 7 and 8, table 3, s6 designated services for the reasons pleaded at paragraphs 555 to 558 below.
- 555. Customers could use a number of different casino value instruments (**CVIs**) to obtain table 3, s6 designated services from Star Sydney and Star Qld, including those pleaded below:

- a. Chips:
- i. The exchange of money for chips was an item 7, table 3, s6 designated service.
 - ii. The exchange of chips for money was an item 8, table 3, s6 designated service.
 - iii. Chips could be used to enter into a game within the meaning of item 6, table 3, s6.
 - iv. A customer could be paid chips as winnings for the purposes of item 9, table 3, s6.

Particulars

Star Sydney and Star Qld issued different types of chips, including:

Cash chips: These were the main chip type used at the casino. Each chip had the actual value shown on both sides of the chip. Cash chips could be used at any table.

Premium chips: This was a type of chip issued to players participating in international or interstate premium player or junket programs. Use of these chips facilitated the tracking and calculation of drop, turnover and win/loss for these programs, separate from other gaming drop and win/loss on the same table(s). Premium chips were also available in HKD for use in specific HKD gaming areas.

Non-negotiable chips: This was a type of chip issued to players participating in international or interstate premium player or junket programs. Use of these chips facilitated the tracking and calculation of drop, turnover and win/loss for these programs, separate from other gaming drop and win/loss on the same table(s). Non-negotiable chips could not be redeemed for cash at the Cage without first being deposited into the FMA of the customer or the junket operator participating in premium player or junket program. Non-negotiable chips were also available in HKD for use in specific HKD gaming areas.

- b. Chip purchase vouchers (**CPVs**):
- i. This was a voucher drawn on a customer's FMA or CCF account, which involved an item 13, table 3, s6 designated service.
 - ii. A CPV could be exchanged for gaming chips at a table or selected Cage locations, or exchanged for credit for a gaming machine or ETG.
 - iii. A customer could deposit funds held in a CPV into an FMA, which involved an item 13, table 3, s6 designated service.
 - iv. A CPV was a channel through which items 6 and 7, table 3, s6 designated services could be obtained.
- c. Chip exchange vouchers (**CEVs**) or rollover slips:
- i. A CEV was used to record the exchange of premium cash chips for premium non-negotiable chips by participants in a program (including by premium players, junket operators, junket representatives, and junket players).

- ii. A CEV could not be exchanged for value at the Cage.
 - iii. CEVs were used to track turnover on a program.
 - iv. A CEV was a channel through which items 6 and 7, table 3, s6 designated services could be obtained.
- d. 'Ticket-in-ticket-out' tickets (**TITO tickets**):
- i. A TITO ticket was a barcoded ticket dispensed from EGMs or ETGs when a customer elected to collect credits.
 - ii. A TITO was a token for the purposes of the Act.
 - iii. A customer received an item 9, table 3, s6 designated service when a TITO was dispensed from a gaming machine.

Particulars

At Star Sydney, generally, the payout limit on tickets without human intervention was \$2,000 on the main gaming floor or \$5,000 in private gaming rooms. Paragraph 575.

At Star Qld, generally, the payout limit on tickets without human intervention was \$9,999 before July 2021 or \$5,000 on the main gaming floor or \$7,500 in private gaming rooms from July 2021. Paragraph 576.

Some machines at Star Sydney and Star Qld could dispense tickets up to \$100,000 without human intervention. Paragraph 577.

- iv. A TITO ticket could be exchanged or redeemed for cash at a cash redemption terminal (up to \$5,000 at Star Sydney and \$9,000 at Star Qld) or at the Cage with no limit.

Particulars

Paragraphs 579.j).

- v. A TITO ticket could also be redeemed for a cheque.
 - vi. The redemption of a TITO ticket was an item 8, table 3, s6 designated service.
 - vii. A TITO ticket could be inserted into an EGM or ETG to obtain an item 6, table 3 s6 designated service on an EGM or ETG.
 - viii. A customer could deposit funds held in a TITO ticket into an FMA or CWA, which involved an item 13, table 3, s6 designated service.
 - ix. A TITO ticket could also be purchased at the Cage and used for gambling purposes.
 - x. The purchase of a TITO ticket was an item 7, table 3, s6 designated service.
- e. Payout or hand-pay tickets:
- i. A hand-pay ticket was a document that was issued by Star Sydney or Star Qld when a customer wanted to cash-out on an EGM or ETG by a manual disbursement (where the customer was not automatically and totally cashed out directly by the machine).

- ii. A payout or hand-pay was a token for the purposes of the Act.
 - iii. The issue of a hand-pay slip was an item 9, table 3, s6 designated service.
 - iv. Payout or hand-pay tickets could be exchanged or redeemed for cash at the Cage or cash redemption terminals (up to the limits pleaded at paragraph 571(k)).
 - v. A payout or hand-pay ticket could also be redeemed for a cheque.
 - vi. The redemption of a payout or hand-pay ticket was an item 8, table 3, s6 designated service.
 - vii. A customer could deposit funds held in a payout or hand-pay ticket into an FMA or CWA, which involved an item 13, table 3, s6 designated service.
- f. Redeemable tickets:
- i. A redeemable ticket could be purchased with cash, chips, TITO tickets, or from funds in an FMA or SKA.
 - ii. A redeemable ticket was a token for the purposes of the Act.
 - iii. The purchase of a redeemable ticket was an item 7, table 3, s6 designated service.
 - iv. A redeemable ticket could be inserted into an EGM or EGT to obtain an item 6, table 3, s6 designated service on an EGM or ETG.
 - v. A redeemable ticket could be redeemed at cash redemption terminals (up to the limits pleaded at paragraph 571(k)) or at the Cage.
 - vi. The redemption of a TITO ticket was an item 8, table 3, s6 designated service.
 - vii. A redeemable ticket could be used to register a credit entitlement on an EGM or ETG.
- g. Multi play vouchers (**MPV**):
- i. This was a voucher issued to rebate players on programs if approved by SEG Marketing /Sales Managers.
 - ii. An MPV could be used at a gaming table in VIP gaming areas.
 - iii. An MPV could not be exchanged for value at the Cage.
 - iv. An MPV could be exchanged for tokens at a gaming table to place a wager.
 - v. An MPV was a channel through which item 6, table 3, s6 designated services could be obtained.
- h. Free bet vouchers (**FBV**):
- i. This was a complimentary bet voucher that was issued to a customer.
 - ii. An FBV could be exchanged for tokens at a gaming table to place a wager.
 - iii. An FBV could not be exchanged for value at the Cage
 - iv. An FBV was a channel through which item 6, table 3, s6 designated services could be obtained.

- i. Casino dollar chip purchase voucher (**CDCPV**):
 - i. A CDCPV was an electronically produced gaming document issued from a Member Kiosk, Customer Service desk or Cage when a customer chose to redeem their Casino Dollars.
 - ii. Casino dollars were a loyalty program currency that was accumulated by members as they purchased select goods and services on the casino property (e.g. gaming, hotel, food and beverage, select owned retail outlets).
 - iii. A CDCPV could be used for EGM play and for chips to play at tables.
 - iv. A CDCPV was a channel through which item 6, table 3, s6 designated services could be obtained.

556. The use of CVIs to obtain table 3, s6 designated services from Star Sydney and Star Qld involved the following higher ML/TF risks:

- a. Each of the above CVIs either directly involved the provision of table 3 designated services or were a channel through which table 3 designated services were provided.
- b. During a visit to the casino, a customer could use CVIs to undertake multiple transactions, such as buying into and cashing out of table games or EGMs (items 6 and 9, table 3, s6), or transacting on an FMA or SKA (item 13, table 3, s6).
- c. CVIs could be purchased with cash.
- d. CVIs could be issued in large values.
- e. There were no limits on the amount of chips that could be purchased, including in cash.
- f. CVIs were highly transferrable and could not always be traced to an account holder or identified customer.
- g. Customers could therefore transfer value from one person to another by passing on the CVIs.
- h. The redemption of CVIs could not always be attributable to winnings and could be cashed out with minimal or no play.
- i. The issue or redemption of tickets was not always face-to-face.

Particulars

See paragraphs 575, 576 and 577 with respect to the payout limits on TITO tickets through non-face-to-face channels.

See paragraph 579.j) for the maximum deposits and withdrawals through cash redemption terminals.

- j. By reason of (a) to (i), CVIs could be used to layer funds, as part of a more complex transaction chain of designated services, making it difficult to understand the purpose of transactions, the beneficial owner of funds or the ultimate beneficiary of value moved.

Particulars

Chapter 2 FATF/APG Casino Typologies Report.

See paragraph 25.

557. At no time did Star Sydney and Star Qld conduct an appropriate ML/TF risk assessment of the provision of table 3, s6 gaming services through CVIs.

Particulars

Whilst the Risk Registers referred to some risks relating to CVIs, at no time did Star Sydney and Star Qld adequately identify and assess all of the risks pleaded at paragraph 556.

At no time did Star Sydney and Star Qld identify and assess the different ML/TF risks of different CVIs in accordance with an appropriate ML/TF risk methodology.

558. At no time did the Joint Part A Programs include appropriate risk-based systems and controls to identify, mitigate and manage the ML/TF risks of the provision of table 3 gaming services through CVIs:
- a. At no time did the Joint Part A Programs include appropriate risk-based controls to mitigate and manage the ML/TF risks pleaded at paragraph 556.
 - b. With the exception of some limits on amounts printed on TITOs and transaction limits on cash redemption terminals, controls on CVIs were predominantly detective, not preventative.
 - c. Some TITO tickets had very high limits and posed ML/TF concerns, as pleaded at paragraph 577.
 - d. Cage staff applying detective controls to item 8, table 3, s6 designated services did not have adequate visibility over these complex transaction chains involving CVIs.
 - e. The transaction monitoring program did not include appropriate processes to identify customers who purchased or cashed out chips or other CVIs with minimal or no play (items 7 and 8, table 3, s6).

Particulars

Manual alerts or referrals could be raised by Cage staff if they observed such activity, but there were no risk-based procedures requiring Cage staff to verify play before cashing out chips. Game Connect did not record uncarded play.

It was not until April 2021 that automated rules were created to identify minimal gaming following a chip purchase or chip cash-out with no play. This rule relied on data from Game Connect which recorded carded play only.

Table games and electronic gaming machines

559. From 30 November 2016, the Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to items 6 and 9, table 3, s6 designated services for the reasons pleaded at paragraphs 560 to 581 below.
560. Star Sydney and Star Qld provided designated services under items 6 and 9, table 3, s6 through:
- a. table games; and

b. electronic gaming machines (**EGMs**), or pokie machines.

561. Star Sydney and Star Qld offered a range of different table games.

a. Table games included roulette, baccarat, blackjack and poker.

b. Some table games were semi-automated or fully automated (electronic table games or **ETGs**).

Rated and unrated gaming play

562. Star Sydney and Star Qld recorded table 3, s 6 gaming activity of customers differently depending on whether the customer was playing using their membership or loyalty card (**rated or carded play**) or not (**unrated or uncarded play**).

563. Star Sydney's and Star Qld's customers were free to choose whether to play carded or uncarded.

564. To play carded, the table games dealer scanned the customer's Star Club membership card and visually identified the customer.

565. Star Sydney and Star Qld customers accrued awards for carded play.

Record-keeping of rated play

566. Star Sydney and Star Qld recorded carded or rated play differently depending on the gaming services provided to the customer.

a. Where a customer engaged in carded or rated play at table games, Star Sydney and Star Qld:

i. manually input information about the customer's gaming activity into Game Connect;

Particulars

Gaming staff at Star Sydney and Star Qld manually record:

- a. the amount of cash or value of CPVs used by the customer to purchase chips;
- b. the number of chips brought by the customer to the table;
- c. the number of chips the player leaves the table with; and
- d. any adjustments to the preconfigured default average bet calculated by the Game Connect system, being the minimum bet available for the table, if gaming staff observe a customer to consistently place bets of a particular value.

As data is all drawn from staff observation and manually inputted into Game Connect, the accuracy of this data is limited for the following reasons: (A) Staff may not accurately observe the number of chips the customer brings to the table or leaves the table with; and (B)

While monitoring and recording the table game activity and transactions, there is a risk of human error in that transactions may go unrecorded or be incorrectly recorded.

- ii. record details of the customer's average bet, turnover and win/loss in Synkros based on automatic formulas;

Particulars

Following the end of play, manual data recorded in Game Connect is transferred to Synkros and automatic calculations are performed to calculate:

- a. the customer's win/loss based on the amount of cash and/or CPVs used to buy in and the number of chips brought to the table, less the number of chips the customer leaves the table with;
- b. the customer's average bet, based on the preconfigured default amount for each table set up in Game Connect which is the minimum bet available for the table, modified by any adjustments by gaming staff; and
- c. the customer's turnover based on the value of a customer's average bet and the number of decisions per hour, multiplied by the total time spent playing the table game.

This information is recorded against the membership number associated with the customer in Synkros.

- iii. from November 2020, only record the customer's wagering activity on a bet by bet basis where it occurred at Smart Tables at Star Sydney.

Particulars

By November 2020, Star Sydney commenced recording the customer's wagering activity on a bet by bet basis at Smart Tables via the Angel Eye surveillance system.

Smart Tables were available for customers who played Baccarat in two specific private gaming rooms only.

- b. Where a customer engaged in carded or rated play on EGMs, Star Sydney and Star Qld:
 - i. record details about the customer's gaming activity at the EGM;

Particulars

While the customer's membership card is inserted in the EGM, details of customer's gaming activity at the EGM are transferred to Synkros, which records:

- a. the customer's membership card number;
- b. the time the card was inserted in the machine;
- c. the time the card was removed from the machine;
- d. the **Total In**, being of all bets placed whilst the card was in the machine, including cash bills in, TITO tickets in, CWA transfers to the credit meter, cash equivalents issued by Star, or any free play awarded; and

- e. the **Total Out**, being all monies won or lost by the customer whilst their card was in the machine.
- ii. record details of the customer's average bet, turnover and win/loss in Synkros based on automatic formulas;

Particulars

When the customer's card is removed from the machine, the data is transferred to Synkros and automatic calculations are performed to calculate:

- a. the customer's win/loss based on the 'Total In' figure less the 'Total Out';
- b. the customer's average bet per spin based on the Total In divided by the preconfigured default number of spins played at the machine whilst the customer's card is inserted into the machine; and
- c. the customer's turnover based on the total of all bets placed by the customer.

This information is recorded against the membership number associated with the customer in Synkros.

- iii. can only link data related to a customer's gaming activity while the customer's membership card is in the machine. The customer's membership card could be removed from the machine at any time, after which time play would be uncarded.

567. Star Sydney and Star Qld's record-keeping methodology in respect of rated play is designed to primarily estimate gaming activity in order to calculate the accrual of rewards for customers, not to accurately capture the customer's actual gaming activity.

Record-keeping of unrated play

568. Where a customer engages in unrated play at table games, Star Sydney and Star Qld:
- a. do not track the gaming activity against the customer;
 - b. record details of cash transactions under \$10,000 in Game Connect but do not record the customer associated with the buy-in; and
 - c. record details of cash transactions over \$10,000 in Synkros.

Particulars

Paragraph 757.

569. Where a customer engages in unrated play at EGMs, Star Sydney and Star Qld record data on EGMs, including cash in and tickets in and tickets out, for a period of 90 days from play but do not record this against a particular customer.

The ML/TF risks of table games, EGMs and ETGs

570. Different table games and EGMs have different ML/TF risk profiles depending upon matters including:
- a. whether they are face-to-face or not;

- b. whether they permit even-money betting;
- c. the degree of uncertainty of outcomes;
- d. how rapidly money can be processed;
- e. ticket limits, which can vary between machines;
- f. whether they permit peer-to-peer gaming.

571. Prior to August 2017, cash of up to \$10,000 generally could be inserted into ETGs and EGMs at Star Sydney and Star Qld.

Particulars

Some Star Sydney machines were not applying these limits as at 2017.

- 572. Generally, from August 2017, cash of up \$7,500 could be inserted into ETGs and EGMs.
- 573. Some unrestricted EGMs and ETGs at Star Sydney and Star Qld could accept cash of \$10,000 or more.

Particulars

Machines that could accept cash of \$10,000 or more were predominantly in private gaming rooms. Some machines could accept unlimited cash.

574. From 30 November 2016, Star Sydney and Star Qld permitted unlimited cash deposits into EGMs and ETGs for customers playing on slot rebate programs.

Particulars

There were no limits on buy-in for slot rebate programs, and cash could be inserted directly into machines for slot rebate program play.

575. At all times, generally, EGM and ETG automated payout limits at Star Sydney were \$2,000 for the main gaming floor and \$5,000 for private gaming rooms.

Particulars

Ticket payments over a payout limit were required to be verified by a Star Sydney gaming attendant or above.

Some high value machines at Star Sydney could print a ticket for up to \$10,000 without requiring an attendant.

576. Generally:

- a. prior to July 2021, automated EGM and ETG payout limits at Star Qld were \$9,999; and
- b. from July 2021, automated EGM and ETG payout limits at Star Qld were \$5,000 for the main gaming floor and \$7,500 for private gaming rooms.

Particulars

Ticket payments over a payout limit were required to be verified by a Star Qld gaming attendant or above.

Some high value machines at Star Qld could print a ticket for up to \$10,000 without requiring an attendant.

577. Some unrestricted ETGs at Star Sydney and Star Qld printed tickets up to \$100,000 with no oversight by a gaming attendant.
578. At all times, a Star Sydney or Star Qld staff member was required to confirm a jackpot win before a payout could be awarded to a customer.
579. Table games and EGMs offered by Star Sydney and Star Qld involved the following ML/TF risks:
- a. Money could be moved through table games and EGMs through buying-in and cashing-out using cash, chips, TITO tickets and other CVIs.
 - b. Chips, TITOs and other CVIs were highly transferrable.
 - c. Customers could therefore transfer value from one person to another by passing on chips, TITOs, jackpot vouchers and other CVIs.
 - d. EGMs and ETGs were not face-to-face.
 - e. ETGs and EGMs involved less oversight by Star Sydney and Star Qld staff because they are not face-to-face.
 - f. EGMs and ETGs accepted large amounts of cash, and in particular:
 - i. Some unrestricted machines at Star Sydney and Star Qld could accept cash of \$10,000 or more.
 - ii. Unlimited cash could be deposited into EGMs and ETGs by customers playing on slot rebate programs.
 - g. Other than the limits on cash pleaded at (f), there were no limits on the amount of money that could be inserted into a Star Sydney and Star Qld ETG or EGM.
 - h. EGMs primarily accept cash and cash continues to be the primary method by which criminals obtain wealth from dealing in illicit commodities.
 - i. EGMs and ETGs issued tickets automatically in high values, and in particular:
 - i. some high value machines at Star Sydney and Star Qld could print a ticket for amounts just below \$10,000 without requiring a gaming attendant;
 - ii. some unrestricted ETGs at Star Sydney and Star Qld printed tickets up to \$100,000 with no oversight by a gaming attendant.
 - j. Tickets, including tickets that had been issued automatically by ETGs and EGMs could be redeemed for cash at cash redemption terminals (or ticket-in-cash-out terminals) without human oversight up to the following limits:
 - i. At Star Sydney, cash could be redeemed up to \$2,000 on the main gaming floor and \$5,000 in private gaming rooms.
 - ii. At Star Qld, cash could be redeemed up to \$9,000.
 - k. Money including cash could be inserted into ETGs and EGMs, and tickets could be collected with minimal or no play.

Particulars

Loading cash into EGMs, engaging in no limited play, and then claiming the credits as winnings is a well-known money laundering method.

- i. Some Star Sydney and Star Qld customers were issued with multiple gaming cards for use at EGMs, which allowed them to play multiple machines at once:
 - i. Star Qld platinum and diamond tier members were eligible to receive an additional card called a 'gaming card' to be used on EGMs when a member wished to play multiple machines at once.
 - ii. Star Sydney permitted customers to engage in slot rebate play using up to 2 gaming cards.

Particulars

For example, Person 67 appeared to have been issued 30 gaming cards in 15 days by Star Sydney. Star Sydney records indicated that the customer appeared to have been at multiple devices at the same time, but it was not clear why he was issued with 30 cards.

- m. In table games that permit even-money wagering (such as roulette and baccarat), two customers could cover both sides of an even bet to give the appearance of legitimate gaming activity while minimising net losses.
- n. Further, table games such as baccarat involve a low 'house edge'. Each hand can be high in value and is played within seconds. Money can therefore be turned-over very quickly, with minimal net loss and in collusion with other players.
- o. The risks of even-money waging are higher with ETGs and EGMs, as there is little to no oversight and a player can play several terminals at the same time.
- p. EGMs and ETGS are vulnerable to refining because they process large volumes of smaller amounts quickly.
- q. EGMs and ETGs are vulnerable to structuring by way of cash deposits of \$7,500 or under and structured funds could be redeemed through non-face-to-face channels.
- r. CWA credits, including credits derived from cash deposits, could be moved through EGMs.
- s. Poker permitted peer-to-peer gaming, which posed risks of collusion.
- t. Poker, particularly poker tournaments, could be used as a vehicle to legitimise the transfer of large amounts of funds between players.
- u. Third parties can purchase winning tickets and convert the proceeds to a winning cheque.
- v. By reason of (a) to (u), play on table games and EGMs could be used to layer funds, as part of a more complex transaction chain of designated services, making it difficult to understand the purpose of transactions, the beneficial owner of funds or the ultimate beneficiary of value moved.
- w. EGM related transactions are difficult to trace.
- x. EGMs can be used for spending proceeds of crime (not just cleaning money).

Particulars

See paragraph 25.

580. At no time did Star Sydney and Star Qld identify and assess the different ML/TF risks of different table games and EGMs in accordance with an appropriate ML/TF risk methodology.
581. At no time did the Joint Part A Programs include appropriate systems and controls to identify, mitigate and manage the ML/TF risks of designated services provided under items 6 and 9, table 3, s6 through each of the different table games and EGMs:
- a. The Joint Part A Programs did not have appropriate regard to the different ML/TF risk profiles of different table games and EGMs when determining and putting in place risk-based systems and controls for items 6 and 9, table 3, s6 designated services.
 - b. The Joint Part A Programs did not include appropriate preventative controls, such as appropriate transaction or daily limits, with respect to buy-ins and cash-outs.
 - c. The Joint Part A Programs did not include appropriate risk-based procedures to understand source of wealth or funds with respect to items 6 and 9, table 3, s6 designated services (especially with respect to uncarded play as defined in paragraph 562).
 - d. Detective controls were limited because Star Sydney and Star Qld did not make and keep complete or reliable records of transactions relating to items 6 and 9, table 3, s6 designated services.

Particulars

Paragraph 752.

- e. Detective controls were largely reliant on staff observation and surveillance, which were inadequate including for the following reasons:
 - i. the ML/TF risks of EGMs and ETGs could not be adequately monitored by manual and observational methods;
 - ii. manual and observational controls were not capable of consistently detecting the use of table games and EGMs to layer funds, as part of a more complex transaction chain of designated services; and
 - iii. the Part A detective controls did not allow the Cage visibility over any unusual patterns of activity on table games and EGMs at the point in time when the Cage exchanged chips, TITO tickets or other CVIs for money.

Foreign currency exchange - item 14, table 3, s6 designated services

582. From 30 November 2016, the Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to item 14, table 1, s6 designated services for the reasons pleaded at paragraphs 583 to 590 below.
583. At all times, Star Sydney and Star Qld provided foreign currency exchange services to customers within the meaning of item 14, table 3, s6 of the Act.
584. Subject to paragraph 585, the Star Sydney and Star Qld Cages each accepted physical currency, foreign cheques and travellers' cheques for the purposes of currency exchange.
585. Since late 2021/2022, Star Sydney no longer accepts travellers' cheques.

586. Customers could also deposit or transfer funds into foreign currency accounts held by Star Sydney and Star Qld.
587. Sydney and Star Qld would convert the funds to Australian dollars and make them available to the customer in their FMA.
588. Currency exchange was also facilitated for customers who were repaying debts owed to Star Sydney and Star Qld.
589. At no time did Star Sydney and Star Qld carry out an appropriate ML/TF risk assessment with respect to designated services provided through its foreign currency accounts, including currency exchange services.

Particulars

Star Sydney and Star Qld purported to carry out risk assessments of item 14, table 3, s6 designated services in 2016, 2017, 2019 and 2020.

These assessments did not have appropriate regard to the ML/TF risks pleaded at paragraph 564 below:

- A. The assessments in 2016 and 2017 identified risks of fraudulent or stolen foreign currency or travellers' cheques only.
- B. The 2019 and 2020 assessments identified risks of large, one-off, or frequent foreign currency exchanges or deposits of foreign currency to launder funds, which may also employ structuring methods to avoid TTR reporting; risks of exchange of foreign currency for casino cheques with little or no play; currency exchanges with no reasonable purpose (no play); and sudden inflow of foreign currency funds, followed by little or no gambling activity and a sudden outflow through a financial instrument (cheque).

None of these assessments analysed the risks specific to Star Sydney or Star Qld, having regard to the nature, size and complexity of their business. None of the assessments considered the risks posed specifically by international and rebate players.

590. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to item 14, table 3, s6 designated services.
- a. The FATF/APG Casino Typologies Report, Chapter 2, identifies indicators of money laundering using currency exchange, including:
- i. bank drafts/cheques cashed in for foreign currency;
 - ii. multiple currency exchanges;
 - iii. dramatic or rapid increases in size and frequency of currency exchange transactions for regular account holders;
 - iv. currency exchange for no reasonable purpose;
 - v. currency exchanges with low denomination bills for high denomination bills;
 - vi. currency exchanges carried out by third parties;

- vii. large, one-off, or frequent currency exchanges for customers not known to the casino;
 - viii. requests for casino cheques from foreign currency;
 - ix. currency exchanges with little or no gambling activity; and
 - x. structured currency exchanges.
- b. The Joint Part A Programs did not include controls for monitoring or managing transactions indicative of the above typologies.

Particulars

Controls were limited to staff training, the collection of customer identification information, SMR reporting, screening and monitoring for counterfeit notes.

None of these controls were appropriately directed toward detecting or managing the ML/TF risks pleaded above.

Star Sydney's and Star Qld's systems and controls to monitor for minimal or no play were limited.

Item 14, table 3, s6 transactions under \$1,000 were not recorded, and were therefore not capable of being monitored.

Manual monitoring of foreign currency transactions via the TT spreadsheet was not appropriately risk-based and was not subject to any guidance.

Controls assumed that foreign currency exchange was face-to-face, which did not apply to exchange of foreign currency via deposits into FMAs or SKAs through the Star Patron account channel.

Designated services provided in foreign currencies

591. From 30 November 2016, the Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to table 1 and table 3, s6 designated services provided in foreign currencies for the reasons pleaded at paragraphs 592 to 594 below.
592. At all times, Star Sydney and Star Qld provided the following designated services in Hong Kong Dollars (**HKD**):
- a. Table 3, s6 gaming services were provided to international or interstate premium players and junket players in HKD (with the exception of designated services provided through EGMs).
 - b. Star Sydney and Star Qld issued chips in HKD, being item 7, table 3, s6 designated services.
 - c. Chips in HKD enabled customers to purchase table 3, s6 designated services in HKD.
 - d. CCFs were provided to customers in HKD, including to international program and junket players, involving items 6 and 7, table 1, s6 designated services.

- e. Customers could open an FMA or SKA in HKD, and transact on these accounts in HKD, being items 11 and 13, table 3, s6 designated services.

Particulars

Customer 9 held FMA and SKA accounts in HKD to facilitate international remittance.

Junket operators were permitted to hold FMAs and SKAs in HKD.

- f. Star Sydney and Star Qld provided item 14, table 3, s6 designated services (currency exchange) in HKD to all customers.

Particulars

The ICM Cage Operations required the Cash Services Manager to ensure that computer systems were configured so that chip bank/fill bank/front window and tables could only conduct transactions in one currency (either AUD or HKD).

- 593. At no time did Star Sydney and Star Qld conduct an appropriate assessment of the ML/TF risks of providing designated services in HKD.
- 594. At no time did the Joint Part A Programs have appropriate regard to the fact that some table 1 and table 3, s6 designated services were provided in HKD for the purposes of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to these designated services.
 - a. At no time did the Joint Part A Programs include appropriate risk-based controls to monitor the provision of designated services in HKD, including with respect to designated services provided through international programs or junkets.
 - b. At no time did the transaction monitoring program in the Joint Part A Programs have regard to the fact that some customers received designated services in HKD for the purposes of determining whether the customer's transactional activity was unusual.

Particulars

For example, there were no processes in place to identify international program or junket customers provided with credit in HKD (item 6, table 1), gaming in HKD (table 3), but repaying credit in AUD (item 7, table 1) or receiving winnings in AUD (items 4 and 9, table 3).

Sections 85(2)(a) and 85(2)(c) of the Act.

Safe deposit boxes

- 595. From 30 November 2016, the Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to item 47, table 1 s6 designated services for the reasons pleaded at paragraphs 596 to 610.
- 596. At all times, Star Sydney and Star Qld provided safe deposit boxes inside private gaming rooms within the casino premises to customers within the meaning of item 47, table 1, s6 of the Act.
- 597. At all times, cash, chips and other items could be stored in a safe deposit box.

598. Safe deposit boxes were available in private gaming rooms at Star Sydney and Star Qld for:
- a. international customers; and
 - b. junket operators, junket funders and junket representatives authorised to access a safe deposit box on behalf of customers participating in a junket program.
599. A customer could nominate one agent to also have access to the safe deposit box.
600. A customer applied for a safe deposit box by completing a “safe deposit box record” form.

Particulars

The safe deposit box record was a manual form retained at the Cage.

The minimum information to be recorded on the form was: (i) box, key and guest number; (ii) box holder information including name, DOB, address and contact number; (iii) identification details including ID type, expiry date and points; (iv) nominated agent information (if applicable) including name, guest number, signature and identification details including ID type, expiry date and points; (v) terms and conditions of use; (vi) date and time, (vii) box holder signature, and (viii) Cash Services KE Cashier signature and licensed number.

601. Each time that a customer or their agent required access to an allocated safe deposit box, they were required to:
- a. present themselves at the Cage with their key to the box; and
 - b. provide identification and KYC information.
602. The Star Sydney and Star Qld Cage employee was required to:
- a. complete a “record of access form”; and
 - b. verify the customer's or agent's signature on each occasion that the box was accessed.

Particulars

603. The minimum information to be recorded on the form was: a) box holder's name and box number, b) date and time of entry, c) signature of box holder or agent, and d) signature and licence number of Cage representative. Once the steps at paragraph 602 were completed, the Star Sydney and Star Qld Cage employee:
- a. took the customer's key; and
 - b. used both the Casino Cage access key and the customer's key to remove the customer's safe deposit box from a safe inside the Cage;
 - c. gave the customer or agent access to the safe deposit box via the front window of the Cage.
604. At Star Qld, safe deposit boxes in private gaming rooms could be operated on a single key system and could be accessed at any time by the customer.
605. When the customer or agent completed their transaction:
- a. the customer or agent returned the safe deposit box to the Cage;

- b. the safe deposit box was closed and locked away by the Cage employee; and
 - c. the customer's key was returned to the customer or agent.
606. When the customer had no further use for the safe deposit box, they signed the bottom of the record of access form verifying the withdrawal of the safe deposit box contents and returned the key to the Cage.
607. Safe deposit boxes were required to be emptied at the conclusion of a junket program.
608. The provision of item 47, table 1, s6 designated services involved the following ML/TF higher risks:
- a. Customers may exploit the privacy of safe deposit boxes to store the proceeds and instruments of crime.
 - b. Safe deposit boxes may be used to store large amounts of cash and chips.
 - c. Star Sydney and Star Qld had little visibility over the source of funds held in safe deposit boxes.
 - d. The provision of safe deposit boxes in private gaming rooms added vulnerabilities and ML/TF risks.
 - e. Once cash was accessed from a safe deposit box in a private gaming room, it could be passed to another person in the private gaming room.
 - f. There was a risk that funds held in safe deposit boxes could be moved between junkets.
 - g. There was a risk that third parties could access funds in a safe deposit box.
609. Star Sydney and Star Qld carried out ML/TF risk assessments with respect to item 47, table 1, s6 designated services.

Particulars

Risk assessments were conducted in 2016, 2017, 2019 and 2020/21.

The assessments conducted in 2016 and 2017 did not identify any specific risks. Controls were assessed as effective and residual risk rated low.

An assessment in 2019 identified many of the inherent ML/TF risks of safe deposit boxes. Controls were assessed partially effective and residual risk was rated moderate.

The 2020-21 risk assessment rated safe deposit boxes as low risk and noted that the likelihood of risk had been significantly minimised due to COVID and the cessation of junkets.

610. The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to item 47, table 1, s6 designated services because:
- a. There were no procedures or controls enabling Star Sydney and Star Qld to understand the purpose or expected use by the customer of the safe deposit box.

Particulars

Definition of KYC information in relation to a customer who is an individual in r1.2.1 of the Rules.

- b. There were no limits on the amount of cash or chips that could be stored in safe deposit boxes.
- c. There were no limits on the amount of cash that could be taken into private gaming rooms.
- d. There were no systems and controls in place for Star Sydney or Star Qld to understand the source of funds, including the origin of funds, being deposited into safe deposit boxes.

Particulars

Definition of KYC information in relation to a customer who is an individual in r1.2.1 of the Rules.

- e. Star Sydney and Star Qld did not maintain any records of the amount of cash or chips stored in safe deposit boxes; nor did they maintain records of the amount of cash or chips being deposited or removed from a safe deposit box each time it was accessed.
- f. Once cash had been withdrawn from a safe deposit box, cash or chips could be passed to third parties in the private gaming room.
- g. The risk that funds could be moved between junkets was not the subject of appropriate controls.
- h. The transaction monitoring program was not capable of monitoring a customer's use of a safe deposit box over time, for the purposes of determining whether there were unusual or suspicious patterns of activity.
- i. AML/CTF controls consisted of no more than customer identification.

Particulars

Case study – Customer 27

In July 2018, a junket operator, Customer 27, presented a cooler bag containing \$450,050 in cash made up of multiple denominations to the Sovereign Room Cage for deposit into a safe deposit box. Surveillance footage indicated Customer 27 had been given the cooler bag by a third party, who had accompanied Customer 27 to the Cage. Customer 27 requested the Cage to count the cash to ensure that there was \$450,050. Star Sydney contacted law enforcement and Customer 27 agreed to surrender the funds.

See Customer 27, including as to risk profile.

Case study: Customer 41

On 21 October 2017, a representative of Customer 41's junket presented \$180,000 in cash at Star Sydney. The cash was contained in a sealed white envelope which was in a shopping bag. It was comprised of \$179,000 in \$50 notes and \$1,000 in \$100 notes, in bundles of \$5,000 bound together with elastic bands. The representative requested that Star Sydney exchange the cash for \$100 notes. Star Sydney completed this transaction. The

representative then presented another \$90,000 in cash comprised of \$100 notes and requested that Star Sydney staff count the cash. Once this was completed, the junket representative placed the cash, totalling \$270,000, into the safe deposit box for Customer 41's junket program: SMR dated 23 October 2017.

On 22 October 2017, the same representative of Customer 41's junket presented \$130,000 in cash at Star Sydney. The cash was sealed within a white envelope and was comprised entirely of \$50 notes in bundles of \$5,000 bound together with red elastic bands. The representative requested that Star Sydney exchange the cash for \$100 notes and Star Sydney completed this transaction. The representative then placed the cash into the safe deposit box for Customer 41's junket program: SMR dated 23 October 2017.

See Customer 41, including as to risk profile.

Case study: Customer 50

On 30 August 2017, Person 46, a junket representative of Customer 31's junket removed \$175,000 in chips from Customer 31's safe deposit box. The junket representative exchanged the chips for cash and handed the cash to Customer 50. Customer 50 exchanged \$75,000 of the cash for chips and proceeded to record a turnover of \$600,450 with a loss of \$150,050. Customer 50 was not recorded as a player on junket and, at that time, Star Sydney failed to identify any links between Customer 50 and Customer 31's junket despite Customer 50 having played on Customer 31's junket in 2016 and 2017. Star Sydney considered this transaction to be highly unusual: SMR dated 31 August 2017.

Designated services provided in cash

611. From 30 November 2016, the Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services involving cash for the reasons pleaded at paragraphs 612 to 617 below.
612. Star Sydney and Star Qld are cash intensive businesses that are vulnerable to the ML/TF risks and typologies pleaded at paragraph 18 and 25.
613. Controls on large or unusual cash deposits and payouts at the Star Sydney and Star Qld Cage were not appropriately risk-based from 30 November 2016:
 - a. From 1 November 2019, Star Sydney and Star Qld customers were asked for source of funds information when the customer sought a designated service by providing cash of \$300,000 or more.
 - b. From 1 June 2020, Star Sydney and Star Qld customers were asked for source of funds information when the customer sought a designated service by providing cash of \$100,000 or more.
 - c. At all times, Star Sydney or Star Qld Cage staff, in their discretion, might have inquired after source of funds information if the customer presented a red flag, such cash being presented in an unusual condition or packaging.

- d. However, at no time were customers obliged to provide Star Sydney or Star Qld with source of funds information, if or when asked.
- e. If a customer refused to provide source of funds information or if there was an additional ML/TF red flag trigger, the Star Sydney or Star Qld Cage team might have notified the surveillance team or reported a UAR.
- f. There was no requirement in the Joint Part A Programs to refuse to process the transaction or to escalate the transaction to a more senior employee for approval to process the transaction, including, but not limited to, in circumstances pleaded at (e).

Particulars

Paragraph 616(e).

See paragraphs 661, 664 and 689.

By way of example:

On two occasions in December 2016, Customer 54 presented a total of a total of \$445,000 at Star Qld, some of which was wrapped in rubber bands, which he used to gamble with. Star Qld recorded that he lost all the funds.

On 21 February 2017, Customer 30 exchanged a large amount of cash in a foreign currency for \$339,840 and deposited the funds to his FMA. The foreign currency was presented loose, bundled with rubber bands, in a paper bag.

Between 31 March 2017 and 1 April 2017, Customer 58 was a junket representative for a corporate junket operator, Company 6. During this period, Customer 58 and another customer presented a total of \$500,000 to be deposited into the corporate junket operator's account, bundled in \$10,000 units. Some of the \$10,000 bundles were wet, stuck together and had an unpleasant odour.

On 1 May 2018, Customer 84 arrived at the Sovereign Room cashier at Star Gold Coast with a blue cooler bag containing \$100,000 in \$50 notes which had previously been wet and had to be "fanned" before counting.

On 23 August 2018, Customer 18's junket representative deposited \$350,000 in cash into Customer 18's account. The cash presented was \$5,100 in \$100 notes, \$325,100 in \$50 notes, \$19,620 in \$20 notes, \$210 in \$10 notes and \$20 in \$5 notes. The cash was bundled with elastic bands inside vacuum sealed plastic bags.

On 19 September 2018, Customer 20's junket representative, Person 53, presented \$100,000 in cash, which was contained in a cereal box which was possibly sealed with a hot glue gun. The cash was deposited to Customer 20's account at Star Sydney.

On 29 and 30 October 2018, Person 11 deposited a total of \$200,000 in cash into Customer 34's FMA at Star Sydney, which was comprised of \$50 notes bundled in \$10,000 lots with elastic bands in a parcel bag.

On 1 March 2019, a Star Sydney customer exchanged \$199,600 in cash for chips. The cash comprised \$26,800 in \$100 notes, \$164,400 in \$50 notes and \$8,400 in \$20 notes. The cash was contained in a grey laundry bag and bundled with either elastic bands or medical bandages. After completing the transaction, the customer was observed to give the chips to Customer 102.

On 30 May 2019, Customer 3's Suncity junket representative, Person 63, deposited \$200,000 in cash Customer 3's account. The cash comprised a mixture of old and new \$50 notes in good condition bundled in \$10,000 units with rubber bands. Each bundle had been wrapped in plastic with foreign language writing on the side. The cash appeared to have been stored for some period of time as the notes were stuck together and difficult to process. The bags containing the cash were carried by Person 63 in a green cooler bag.

On 31 December 2019, Customer 3's Suncity junket representative presented a large sum in a foreign currency to be exchanged to Australian dollars and deposited into Customer 3's account. The cash was bundled in \$10,000 and \$50,000 units with rubber bands. Some of the foreign currency was returned to the junket representative as it was in poor condition. The remaining funds were converted to \$5,405,103 and deposited into Customer 3's account.

On 1 March 2020, Customer 94 presented \$35,000 in cash at Star Sydney. The cash comprised wet \$50 notes. Customer 94 stated that the notes were wet because water had spilled on them in a suitcase.

On 25 March 2021, Customer 84 presented \$149,000 in cash comprised of multiple bundles of \$100 notes, strapped in unusual straps fastened by a heat seal with a computer encoded reference on each one, marked in the same place with an orange highlighter and dated 13 August 2019.

On 9 September 2022, Customer 108 exchanged \$20,000 in cash for chips at Star Qld. The cash comprised \$4,000 in \$100 notes, \$14,200 in \$50 notes and \$1,800 in lower denomination notes. Customer 108 recorded minimal gaming, with a loss of \$1,750, before returning 39 minutes later and exchanging \$22,625 in chips back to cash.

- g. Star Sydney and Star Qld obtained source of funds information in verbal form from the customer, or occasionally, in the form of a receipt from a financial services provider.
- h. At no time did the Joint Part A Programs include any requirement to verify source of funds for large cash transactions.
- i. There were no limits on cash transactions at the Cage – whether daily or transaction based.
- j. The controls with respect to large cash transactions conducted by junket operators, junket representatives, junket players or junket funders were inadequate.

Particulars

Paragraphs 658 to 661.

- k. No specific approvals were required before large cash transactions could be processed.
- l. The Joint Part A Programs did not include appropriate risk-based procedures for Star Sydney or Star Qld to determine whether they would accept cash that was presented in an unusual or suspicious condition or in unusual or suspicious packaging.

Particulars

Some parts of the Joint Part A Programs identified red flags that included the presentation of cash in an unusual condition (for example, sticky, smelly or dirty cash) or packaging (for example, in suitcases, shopping bags or cardboard boxes): see paragraph 721. However, there were no procedures, policies or guidance on when Star Sydney or Star Qld might refuse to accept cash in such condition.

Star Qld's Standard Operating Procedures from April 2016 to January 2020 set out procedures for banking mutilated notes, including notes that were heat damaged or blood stained. These documents did not include any guidance on when cash in such condition might not be accepted.

For example, see Customer 115, Customer 58 and Customer 84.

- m. Detective controls for large cash transactions were not applied by the Joint Part A Programs until April 2021.

Particulars

From April 2021, TrackVia has generated automated alerts for cash transactions of a customer for a cumulative value of \$50,000 or more in a 24-hour period. Prior to April 2021, Transwatch provided an automated alert to the AML team of cash transaction of \$100,000 or more. Alerts under Transwatch were not consistently or reliably reviewed.

- 614. From 30 November 2016, there were no appropriate risk-based controls relating to cash transactions on FMAs, SKAs, CCF accounts and CWAs:
 - a. There were no limits on cash deposits or withdrawals from an FMA or SKA account.
 - b. A third party could deposit or withdraw cash into or from a customer's FMA or SKA, with no limit, provided a third party authority form had been completed by the customer. This was not an appropriate risk-based control for large cash deposits by third parties.
 - c. There were no limits on cash deposits into CCF accounts, for the purposes of redeeming loans.
 - d. A third party could deposit cash into a customer's CCF account, with no limit, provided a third party authority form had been completed by the customer.
 - e. There were no limits on cash deposits into CWAs at the Cage.

Particulars

Paragraph 296(a).

- f. There were no appropriate risk-based controls to mitigate and manage the ML/TF risks pleaded at paragraph 613 with respect to large cash transactions through FMAs, SKAs and CCF accounts.

- 615. There were no appropriate risk-based controls to identify or limit cash deposits into Star Patron accounts, including by third parties.

Particulars

See paragraph 330.

- 616. At all times, controls on cash in private gaming rooms at Star Sydney and Star Qld were inadequate:

- a. There were no limits on the amount of cash that could be taken into a private gaming room.
- b. There were no appropriate controls on who could bring cash into private gaming rooms.
- c. Controls with respect to cash transactions that could be conducted in private gaming rooms by junket operators, junket representatives or junket players were inadequate.

Particulars

Paragraphs 662 to 664.

- d. Controls with respect to cash transactions in Salon 95, occupied by the Suncity junket, were inadequate.

Particulars

Paragraphs 679 to 680, 686 and 689.

- e. Star Sydney and Star Qld were aware of repeated suspicious or unusual activity involving large amounts of cash in private gaming rooms.

Particulars

See paragraphs 662 to 665.

For suspicious transactions in the Salon 95 private gaming room, see paragraph 679(d).

For suspicious transactions at Star Sydney's private gaming room cage, where Star suspected that the cash originated with the Suncity junket, see paragraph 685(g) and Customer 3's risk profile.

With respect to many of these logged incidents, Star Sydney was aware that there were CCTV blind spots in private gaming rooms which impacted its understanding of how cash had entered the room and to whom it was being distributed: see paragraph 679(d)(iii).

Similar incidents involving cash in private gaming rooms were identified by Star Sydney involving junkets other than Suncity. For example, in April 2019, a junket representative Customer 94 deposited \$300,000 in cash at a private gaming room Cage on behalf of a junket operator Customer 14. The cash was presented in a beige duffle bag, secured in rubber bands and in multiple denomination

notes. The duffle bag was brought on site by a third party, Person 3. Star Sydney staff observed that Person 3 gave the bag to Customer 94 in the private room.

For other incidents involving cash in private gaming rooms, see for example Customer 84's risk profile.

617. At all times, controls for mitigating and managing the ML/TF risks of cash transactions under \$10,000 were not appropriately risk-based:
- a. At Star Sydney, records of buy-in transactions at buy-in desks below \$10,000 were not kept in Synkros unless the customer elected to play carded (that is, against a membership account or a loyalty account for the Star Club).
 - b. At Star Sydney, records were not kept in Synkros regarding cash-out transactions below \$10,000 for any customer (that is, regardless of whether the customer elected to play carded or not).
 - c. At Star Qld, records of buy-in transactions at buy-in desks below \$10,000, and cash-out transactions below \$10,000, were not kept in Synkros for any customer except in relation to buy-in transactions of \$5,000 or more made at the time a membership card was supplied.
 - d. In the absence of records, Star Sydney and Star Qld did not have adequate visibility over designated services involving cash under \$10,000 and were unable to apply consistent AML/CTF controls.

Particulars

See paragraph 757.

618. At all times, there were inadequate controls in place for mitigating and managing the ML/TF risks of uncarded cash transactions.

Particulars

Transaction monitoring had limited application to uncarded transactions. Paragraph 568, 617 and 754 to 756.

Designated services provided through rebate and junket channels

Star Sydney's and Star Qld's rebate business

619. SEG's rebate business included:
- a. international junket programs: see paragraphs 628 and 629 below;
 - b. domestic junket programs: see paragraphs 620 and 621 below;
 - c. individual rebate programs: see paragraphs 622 to 624 below; and
 - d. player referral programs: see paragraph 625 below.

Domestic junkets

620. SEG's domestic rebate business included **domestic junket** programs.

Particulars

Domestic junket programs were offered by SEG to junket operators who arranged a junket, consisting of a group of domestic players or an individual domestic player, that met the minimum front money buy-in.

621. From at least May 2017 until at least March 2020, Star Sydney and Star Qld provided very high value table 1 and 3, s6 designated services through domestic junket programs.

Particulars

Between May 2017 and March 2020, Star Sydney and Star Qld recorded a combined turnover exceeding \$1.2 billion through domestic junket programs.

In the same period, Star Sydney and Star Qld recorded that domestic junket programs had combined losses exceeding \$26 million.

Individual rebate programs

622. Until at least April 2022, Star Sydney and Star Qld entered into agreements with customers for those customers to play on **individual rebate programs**.

Particulars

International or domestic individual rebate programs were available to customers based on the residency of the customer.

See paragraph 634 below.

The majority of individual rebate programs provided for a Rebate on Turnover.

A Rebate on Turnover was payable to the customer based on the turnover recorded for the customer.

623. Star Sydney and Star Qld did not have appropriate systems and controls in place to keep complete or reliable records of the provision of table 3, s6 designated services to customers through individual rebate programs.

Particulars

Star Sydney's and Star Qld's record-keeping methodology in respect of individual rebate programs was designed for the limited purpose of calculating rebates payable to the individual customer as a result of their play on an individual rebate program.

624. In the absence of appropriate records of the provision of table 3, s6 designated services to customers through individual rebate programs, Star Sydney and Star Qld were unable to adopt and maintain appropriate risk-based AML/CTF controls.

Player referrer agreements

625. Star Sydney and Star Qld entered into agreements with persons (**player referrers**) to refer to Star new or pre-existing international customers who had not otherwise visited the casino for an extended period (**referred player**).

Particulars

A player referrer could be, but was not necessarily, an approved junket operator.

For example, junket operators Customer 3, Customer 6, Customer 43, Customer 8, Customer 15, Customer 12, Customer 31, Customer 36, Customer 17 and Customer 9 each referred players to Star Sydney and/or Star Qld.

A player referrer could be, but was not necessarily, present at Star Sydney or Star Qld during the referred player's trip.

626. Player referral agreements had commonalities with junkets and the ML/TF risks posed by junkets. The ML/TF risks associated with the provision of designated services by Star Sydney and Star Qld to referred players overlapped significantly with the ML/TF risks associated with the provision of designated services to junket players pleaded at paragraph 650 below.
627. From March 2020, player referral agreements ceased temporarily due to the closure of SEG's casinos as a result of COVID-19 restrictions and due to the subsequent international border closures. It was not until May 2022 that the SEG Board determined to cease player referral agreements permanently.

INTERNATIONAL JUNKETS

What is a junket?

628. A junket is an arrangement between a casino and a **junket operator** to facilitate a period of gambling (**junket programs**) by one or more high wealth players (**junket players**) at the casino (**junket channel**).
629. From 30 November 2016 to October 2020, Star Sydney and Star Qld entered into agreements with junket operators.
- a. At all times, Star Sydney and Star Qld sought to attract business from international VIP customers.
 - b. Often, international VIP customers would seek credit from Star Sydney and Star Qld to fund the purchase of gaming chips.

Particulars

See paragraph 657 below.

- c. The inherent commercial risk to Star Sydney and Star Qld of non-repayment of gambling debts was amplified for international VIP customers who came from jurisdictions in which the enforcement of gambling debts was practically difficult.
- d. In these circumstances, Star Sydney and Star Qld would seek to direct these international VIP customers to participate in gambling through junket programs, including the Suncity junket.

Particulars

From 30 November 2016, Star Sydney and Star Qld entered into agreements with over 140 junket operators.

See paragraphs 671 and 672.

- e. Some junkets were at times funded by one or more **junket funders**.
- f. Some junket operators were at times represented by one or more **junket representatives**. Junket operators were not necessarily present during a junket program.
- g. Some junket funders were also junket players and/or junket representatives.
- h. Some junket operators were also junket players.
- i. Some junkets had only one junket player.
- j. Some junkets were operated by corporate junket operators.

Particulars

For example, from 30 November 2016, Star Qld provided designated services to a corporate junket operator, Company 6, through four junket programs.

See *Customer 58*.

630. Front money would be made available to junket players for gaming activity on junket programs at Star Sydney and Star Qld in a number of ways, including:
- a. funds drawn from a CCF;
 - b. cash in Australian or foreign currencies;
 - c. funds in a junket operator's FMA or drawn from a junket operator's SKA;
 - d. telegraphic transfer, including from third party companies;
 - e. transfers from another customer's FMA;
 - f. chips or other CVIs deposited into a customer's FMA; and/or
 - g. transfers via other channels, including the EEIS remittance channel and the Hotel Card channel.

Particulars

The most common method for making front money available to junket players was funds drawn from a CCF.

CCFs used to fund junket programs could be held by the junket operator or a junket funder.

On some occasions, junket funders also played on the junkets that they funded. For example, between May 2017 and December 2018, Customer 10 provided over \$210 million in funding for junket programs at Star Qld operated by Customer 15 and Customer 16. Customer 10 was a junket player on each program, and recorded a cumulative junket turnover exceeding \$4.4 billion with losses of over \$74 million.

For the Hotel Card channel, see paragraphs 356 to 367 above.

For the EEIS remittance channel, see paragraphs 461, 465 to 467, 491, 492 above.

For the Bank 1 (Macau) cash channel, see paragraphs 372, 382 to 384 above.

For the Company 9 channels, see paragraphs 398, 421, 439, 440 and 441 above.

631. Junket operators and junket funders would at times authorise junket representatives to act on their behalf at Star Sydney or Star Qld.

Particulars

Junket operators would at times authorise junket representatives to act on their behalf pursuant to a Junket Representative Authority (**JRA**), which allowed a junket representative to:

- a. execute junket agreements;
- b. transact on the junket operator's FMA, SKA or CCF up to a specified limit;
- c. conduct transactions or meet conditions specified in the JRA; and
- d. operate a safe deposit box.

Junket funders would at times authorise junket operators or junket representatives to act on their behalf pursuant to a third party authority, which allowed a junket operator or a junket representative to:

- a. transact on the junket funder's FMA, SKA or CCF up to a specified limit;
- b. conduct transactions or meet conditions specified in the TPA; and
- c. disburse rebates payable pursuant to the TPA as specified.

632. Star Sydney and Star Qld would at times authorise junket operators to hold more than one sub-account in order to facilitate the operation of more than one junket program at the same time.

Particulars

See paragraph 847 below.

Junkets were profitable to Star and the junket operator

633. For each junket program, Star Sydney or Star Qld and the junket operator (or authorised junket representative) entered into a Junket Program Agreement (**JPA**), which specified the types of rebates payable in respect of the junket program.

Particulars

See paragraph 671 to 700.

See paragraph 634.

634. In return for bringing junket players to the casino and facilitating their junket activity, Star Sydney and Star Qld paid junket operators and junket funders rebates and other benefits as set out in the applicable JPA.

Particulars

A rebate effectively operated as a hedge to reduce the variability of wins/losses by the junket program and Star Sydney or Star Qld.

A JPA could provide for one or more type of rebate, including:

- a. a **Rebate on Turnover**, which was calculated in accordance with a pre-determined rate (a percentage value) and multiplied by the total non-negotiable turnover recorded at the time of settlement. Non-negotiable turnover means the total value of non-negotiable CPVs purchased at the Cage, plus the total value of any non-negotiable chips issued in exchange for premium chips, less the total value of non-negotiable CPVs and/or non-negotiable chips returned to the Cage; and
- b. a **Table Play Rebate**, which was an agreed percentage of the amount payable by either the junket or Star to the other party and depended on whether the junket won or lost. A JPA which offered a Table Play Rebate was referred to as a **Revenue Sharing Agreement**.

The Table Play Rebate reduced the casino's overall credit risk exposure (**CRE**), including with respect to CCFs. See paragraphs 280, 507 and 657.

Where a net rebate was payable by Star Sydney or Star Qld to the junket operator, that rebate was used to offset any outstanding amounts on a CCF used to fund the junket program. The CCF used to fund the junket program could be in the name of the junket operator or a junket funder.

635. JPAs that provided for a Revenue Sharing Agreement were profitable to both Star Sydney and Star Qld, and the junket operator.

Particulars

Over time:

- a. an individual junket player was more likely than not to record a gross loss; so
- b. a junket program was more likely than not to record a gross table loss.

Under a Revenue Sharing Agreement, profits that would ordinarily, over time, accrue to Star Sydney or Star Qld would instead be, in part, rebated to the international junket operator.

Pursuant to arrangements between junket operators and junket players, to which Star Sydney or Star Qld would not be party, junket operators recovered losses under junket programs from individual junket players.

636. Rebate on Turnover and Revenue Sharing Agreements incentivised junket operators to:
- a. bring new high value international VIP customers to Star Sydney and Star Qld;
 - b. facilitate the provision by Star Sydney and Star Qld of high value financial and gaming services (tables 1 and 3, s6) to junket players; and
 - c. encourage junket players to engage in high value and high volume gaming activity using non-negotiable chips, including to convert premium chips won into non-negotiable chips, which would increase the value of any rebate payable.

Particulars

For gaming activity on junket programs, including the use of non-negotiable chips and premium chips, see paragraph 669 below.

637. At no time did the Joint Part A Program appropriately identify, mitigate and manage the ML/TF risks of providing designated services to junket funders, junket operators and junket players on junket programs pursuant to JPAs which provided for a Rebate on Turnover or pursuant to Revenue Sharing Agreements.

Particulars

See paragraph paragraphs 666 to 670 below.

Star Sydney's and Star Qld's junket business

Junket revenue

638. From 30 November 2016 until October 2020, revenue from designated services provided through junket channels represented a material source of Star Sydney's total revenue.

Particulars

Between July 2016 and October 2020, Star Sydney made over \$1.3 billion in junket-generated revenue.

In the 2017, 2018 and 2019 financial years, junket-generated revenue for Star Sydney was approximately \$450 million, \$510 million and \$280 million, respectively.

In the 2020 financial year, in which Star Sydney's revenue was reduced due to COVID-19-related travel restrictions and lockdowns, Star Sydney's junket-generated revenue was just over \$110 million.

Between July 2020 and October 2020, in which period Star Sydney's revenue remained reduced due to COVID-19-related travel restrictions and lockdowns, Star Sydney's junket-generated revenue was just over \$2 million.

639. From 30 November 2016 until at least October 2020, revenue from designated services provided through junket channels represented a material source of Star Qld's total revenue.

Particulars

Between July 2016 and October 2020, Star Qld made approximately \$300 million in junket-generated revenue.

In the 2017, 2018 and 2019 financial years, junket-generated revenue for Star Qld was approximately \$33 million, \$128 million and \$199 million, respectively.

Decision to cease junket activity

640. In October 2020, the SEG Board resolved that SEG would cease dealing with junkets.
641. Following the SEG Board's resolution, Star Sydney and Star Qld announced that they would cease dealing with junkets from October 2020. The last recorded junket program play (at Star Sydney or Star Qld) was in October 2020.

Designated services provided through junket channels

642. From 30 November 2016 to October 2020, Star Sydney and Star Qld provided very high value table 1 and table 3, s6 designated services to thousands of junket players on thousands of junket programs.

Particulars

Between 30 November 2016 and October 2020, Star Sydney and Star Qld recorded a combined turnover exceeding \$125 billion from junket channels. A substantial proportion of that amount comprised turnover by international customers.

In the same period, Star Sydney and Star Qld recorded that junket programs had combined losses exceeding \$1.5 billion.

From December 2016 to September 2020, the turnover recorded in respect of Suncity junkets alone was more than \$15.5 billion. In the same period, junket players on Suncity junkets recorded a total loss of more than \$150 million.

Financial services - Table 1, s6

Loans - Items 6 and 7, Table 1, s6

643. Star Sydney provided items 6 and 7, table 1, s6 designated services to customers through junket channels in Australian dollars and foreign currencies, including via:
- a. CCFs; and
 - b. 'temporary' CCFs.

Particulars

See paragraphs 494 to 550.

Between 1 July 2016 and 19 April 2022, the total value of drawdowns under CCFs was over AUD 11.4 billion and HKD 3.6 billion at Star Sydney. A substantial proportion of that amount comprised drawdowns under CCFs approved for junket funders and junket operators.

644. Star Qld provided items 6 and 7, table 1, s6 designated services to customers through junket channels in Australian dollars via CCFs.

Particulars

See paragraphs 494 to 550.

Between 1 July 2016 and 19 April 2022, the total value of drawdowns under CCFs was over \$2.8 billion at Star Gold Coast and \$140 million at Treasury Brisbane. A substantial proportion of that amount comprised drawdowns under CCFs approved for junket funders and junket operators.

Remittance - Items 31 and 32, Table 1, s6

645. Star Sydney provided items 31 and 32, table 1, s6 designated services to customers through junket channels in Australian dollars and foreign currencies.

Particulars

Customers who received designated services through junket channels included junket operators, junket representatives, junket funders and junket players.

See paragraphs 304 to 493 above.

646. Star Qld provided items 31 and 32, table 1, s6 designated services to customers through junket channels in Australian dollars.

Particulars

Customers who received designated services through junket channels included junket operators, junket representatives, junket funders and junket players.

See paragraphs 304 to 493 above.

Gaming services - Table 3, s6

647. Star Sydney provided table 3, s6 designated services to customers through junket channels in Australian dollars and foreign currencies.

Particulars

Between December 2016 and February 2020, Star Sydney recorded a cumulative turnover from junket programs in foreign currencies of over AUD 9.4 billion.

At least ten junket operators offered junket programs in a foreign currency at Star Sydney, including Customer 3, Customer 34, Customer 6, Customer 4, Customer 25 and Customer 16. Over 150 junket players participated in junket programs operated in a foreign currency, including Customer 21, Customer 5 and Customer 20.

648. Star Qld provided table 3 designated services to customers through junket channels in Australian dollars.
649. The only permitted gaming activities on junket programs were baccarat and roulette.

The ML/TF risks of junkets

650. The provision of designated services by Star Sydney and Star Qld through junket channels involved higher ML/TF risks.

- a. Junket operators, junket funders and junket representatives facilitated the provision of both gaming and financial designated services to junket players, often in high values.
- b. Junket programs involved the movement of large amounts of money across borders.

Particulars

For example, on 9 October 2020, Customer 3 transferred \$1.2 million from his account at Star Sydney to Customer 1 overseas.

See Customer 3's risk profile.

- c. Junket programs often involved the use of multiple bank accounts, including by third parties and companies, which could obscure the identities of the persons conducting the transactions through junket programs and the source and ownership of funds of junket customers.

Particulars

For example, between September 2018 and November 2018, a company account (Company 4) made eight deposits totalling more than \$17 million into an EEIS Patron account which were made available to Customer 10 and used to repay his CCF at Star Sydney.

See Customer 10's risk profile.

- d. Exposure to some higher ML/TF risk jurisdictions is inherent in the junket operations sector.
 - i. There is a particular vulnerability associated with jurisdictions with currency flight and gambling restrictions in place, as these measures create demand for covert money remittances, which can be exploited by criminal groups.
 - ii. Having a customer base composed of predominantly foreign residents can increase the junket operations sector's attractiveness and exposure to transnational serious and organised crime, simply due to its geographical reach.

Particulars

For example, between 2017 and 2018, Customer 79 was a player on two junkets at Star Sydney operated by Customer 28. Customer 79's turnover on those junkets exceeded \$210 million. By 2017, media articles reported that Customer 79 had established an underground bank overseas to launder money.

See Customer 79's risk profile.

- iii. Such a customer base can mean that the source and destination of funds, and information about customers' criminal and financial activity, are difficult to identify as they are located in foreign jurisdictions.
- iv. Some junket funders, junket operators and junket players at Star were foreign PEPs.

Particulars

For example:

- a. junket funders and junket operators, such as Customer 1, Customer 10, Customer 5, Customer 33, Customer 7 and Customer 40, were foreign PEPs; and
- b. junket players, such as Customer 10 and Customer 50, were foreign PEPs.

Customer 10 had significant interests in a foreign country and was affiliated with a foreign political party. Between March 2017 and December 2018, Star Qld recorded a cumulative turnover exceeding \$4.4 billion in respect of Customer 10's junket activity as a junket player.

Customer 50 was a member of a foreign political body. Between January 2016 and January 2020, Star Sydney and Star Qld recorded a cumulative turnover of nearly \$75 million in respect of Customer 50's junket activity.

See Customer 10's risk profile and Customer 50's risk profile.

- v. Star Sydney provided table 3 designated services to customers through junket channels in both Australian dollars and foreign currencies.

Particulars

Between December 2016 and February 2020, Star Sydney recorded a cumulative turnover from junket programs in foreign currencies of over AUD 9.4 billion.

At least ten junket operators offered junket programs in a foreign currency at Star Sydney, including Customer 3, Customer 34, Customer 6, Customer 4, Customer 25 and Customer 16. Over 150 junket players participated in junket programs operated in a foreign currency, including Customer 21, Customer 5 and Customer 20.

- e. There are increased vulnerabilities associated with corporate junket operators, including the opaque corporate structure, difficulties establishing beneficial ownership or control, and the diversification of corporate junket operator businesses, which increases opportunities for the co-mingling of funds.

Particulars

For example, in 2017, Star Qld provided designated services to Company 6, a corporate junket operator. Company 6 was:

- a. a subsidiary of the parent company of Company 6;
- b. incorporated in a foreign jurisdiction, with its two major corporate shareholders also incorporated in a foreign jurisdiction; and
- c. understood to be ultimately beneficially owned by an individual, Person 68.

See Customer 58.

- f. On a per-transaction and per-customer basis, the junket operations sector is exposed to the risks associated with high-value cash activity.

Particulars

For example, between 18 October 2019 and 12 December 2019, third parties associated with Customer 12's junket transported a total of just under \$3 million in cash from a foreign country to Australia and deposited the cash into Customer 12's account at Star Sydney. The cash included a significant volume of \$50 notes, some of which were bundled in elastic bands and contained in a black duffle bag.

Some of the funds were transferred to Star Qld the purpose of redeeming Customer 12's outstanding CCF.

See Customer 12's risk profile.

- g. Junket operators and junket funders used formal or informal systems to remit money to Star Sydney and Star Qld.

Particulars

For the Hotel Card channel, see paragraphs 356 to 367 above.

For the EEIS remittance channel, see paragraphs 461, 465 to 467, 491, 492 above.

For the Bank 1 (Macau) cash channel, see paragraph 372, 382 to 384 above.

For the Company 9 channels, see paragraphs 398, 421, 439, 440 and 441 above.

- h. Offsetting arrangements (as explained in paragraph 25 above) used by junket operators to facilitate the provision of funds for junket operations:
 - i. create risks of exploitation by criminal entities;
 - ii. can circumvent international funds transfer reporting requirements; and
 - iii. can facilitate the laundering of domestically-generated proceeds of crime.
- i. Junket players generally relied on junket funders and junket operators to make their funds available at the casinos, including through CCFs.
- j. There is a level of anonymity and lack of transparency created by the pooling of junket players' funds and transactions under the name of the junket operator.
- k. Junket funders, junket operators, junket representatives and junket players were often connected to other Star Sydney or Star Qld customers in respect of whom Star Sydney or Star Qld had formed suspicions.
- l. To participate in a junket program, junket players were not required to have an FMA at Star Sydney or Star Qld against which gaming and transactional data would be recorded.
- m. The financial arrangements between the junket operators, junket funders and junket players were not disclosed to Star Sydney or Star Qld.
- n. Junket operators provided cash to junket players in circumstances where Star Sydney and Star Qld were unaware of the source of funds and the purpose for which the cash was used.

- o. Star Sydney and Star Qld offered significant amounts of credit in the form of CCFs to junket operators and junket funders on request.

Particulars

Junket funders and junket operators received large amounts of credit on and from 30 November 2016, with limits ranging from \$3,500 (Customer 52) to \$266.7 million (Customer 1).

See Customer 1's risk profile and Customer 52's risk profile.

See paragraph 634 and 657 above.

- p. As the volume of gaming transactions during junket programs is very high, there is also a higher risk that junkets will be exploited for money laundering.

Particulars

FATF/APG Casino Typologies Report.

AUSTRAC Junket Assessment.

FATF RBA Guidance.

- q. Star Sydney and Star Qld recorded gaming activity on junket programs for the limited purpose of calculating rebates payable to junket operators.

Particulars

See paragraph 666 to 670 below.

- r. Junket programs were exposed to ML/TF vulnerabilities and typologies, including cuckoo smurfing and structuring.

Particulars

See paragraph 25 above.

- s. The only permitted gaming activities on junket programs were baccarat and roulette, which both allow even-money wagering whereby two customers could cover both sides of an even bet to give the appearance of legitimate gaming activity while minimising net losses.

Particulars

See FATF/APG Casino Typologies Report.

- t. Money deposited into a junket operator's account at casinos and then withdrawn with minimal gaming activity can give the funds the appearance of legitimacy.

- u. Gaming accounts used by junkets at casinos are highly vulnerable to the storage and movement of potentially illicit funds. The parking of illicit money in such accounts puts distance between the act or acts that generated the illicit funds and the ultimate recipients of those funds, making it harder to trace the flow of money.

- v. Junket operators, junket funders and junket representatives were authorised to access a safe deposit box in private gaming rooms at Star Sydney and Star Qld on behalf of customers participating in a junket program, in circumstances where Star Sydney and Star Qld had little visibility over the source of funds held in the safe deposit boxes.

Particulars

See paragraphs 595 to 610 above.

- w. Star Sydney and Star Qld entered into exclusive use agreements with some junket operators which provided for the use of private gaming rooms for junket programs.

Particulars

The Suncity junket operated a Suncity Service Desk in private gaming rooms, which were vulnerable to being used to facilitate large cash and chip transactions without casino oversight.

See paragraph 683.d below

- x. The due diligence conducted in respect of junket operators, junket funders, junket representatives and junket players did not appropriately identify, mitigate and manage the ML/TF risks with respect to designated services provided through the junket channel.

ML/TF risk assessments and controls in respect of junkets

- 651. Star Sydney and Star Qld did not carry out an appropriate ML/TF risk assessment of the higher ML/TF risks of providing designated services through the junket channel in the period from 30 November 2016 to October 2020.

Particulars

Risk assessments were conducted in 2016, 2017, 2019 and 2020.

The 2019 and 2020 risk assessments identified some of the ML/TF risks inherent to the provision of designated services through the junket channel, including:

- a. that SEG may be used by organised crime or foreign PEPs for cross-border movement of funds through junket channels, in circumstances where the source of wealth and source of funds of the transacting parties is unknown;
- b. that SEG may be doing business with entities or individuals who pose higher ML/TF risks through unknown beneficial ownership structures;
- c. a lack of transparency in respect of the funding of junket programs, including the pooling of funds from numerous junket players, in circumstances where SEG was not privy to the funding and credit arrangements between the junket operator and junket players;
- d. that SEG staff may become desensitised to large value cash and other transactions;
- e. that third parties, including organised crime figures, could assist in obscuring the source of wealth and source of funds associated with junket channels;

f. that junket players may not be known to SEG, but SEG may nonetheless facilitate the movement of funds on their behalf; and

g. loan sharking and other money lending activity.

The February 2020 risk assessment, which was specific to junkets, concluded that the ML/TF risks of providing designated services through the junket channel was moderate.

For the reasons pleaded at paragraph 650 above, the ML/TF risks of providing designated services through the junket channel were not moderate for the purpose of the Act and Rules.

652. Consequently, from 30 November 2016 to October 2020, the Joint Part A Program did not include appropriate risk-based controls to identify, mitigate and manage the ML/TF risks of the provision of designated services through the junket channel for the reasons pleaded at paragraphs 654 to 665 above.

653. Despite the known higher ML/TF risks of the provision of designated services through the junket channel, as pleaded at paragraph 650 above, the controls in the Joint Part A Program that applied to the provision of designated services through the junket channel were generally no different to the controls applied to other customers.

Customer risk

654. At no time did the Joint Part A Program include appropriate systems and controls to identify, mitigate and manage the ML/TF risks posed by customers receiving designated services through junket channels.

a. The ML/TF risks posed by customers receiving designated services through junket channels included those pleaded at paragraph 650 above.

b. At no time prior to October 2020 did the Joint Part A Program provide for appropriate ML/TF risk ratings in respect of customers receiving designated services through junket programs.

i. Until February 2020, customers receiving designated services through junket programs were considered low risk by default.

Particulars

See paragraphs 112 and 113 above

Customers receiving designated services through junket programs were not low risk, including for the reasons pleaded at paragraph 650 above.

ii. From February 2020, customers receiving designated services through junket programs were considered 'medium' risk by default.

Particulars

See paragraph 113 above.

Clauses 14 and 15 of the Joint Part A Programs prior to November 2019.

Customers receiving designated services through junket programs were not medium risk for the purpose of the Act and Rules, including for the reasons pleaded at paragraph 650 above.

- c. The risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to the provision of designated services involving foreign jurisdictions, including the jurisdictional risks associated with customers receiving designated services through the junket channel.

Particulars

See paragraph 181 above.

- d. At no time did the Joint Part A Programs include appropriate risk-based procedures to obtain and analyse source of wealth or source of funds information for customers receiving designated services through junket channels.

Particulars

See paragraphs 146 to 156.

- e. The Joint Part A Programs did not include appropriate risk-based controls requiring Star Sydney and Star Qld to collect or verify appropriate KYC information for customers receiving designated services through junket channels, such as the beneficial ownership of funds used in connection with the junket channel or the beneficiaries of transactions being facilitated by junkets, including the destination of funds.

Particulars

Rules 9.1.5, 15.2 and 15.3, and paragraphs (l) and (m) of the definition of *KYC information* in r1.2.1 of the Rules.

See paragraph 146 to 156 above.

- f. Star Sydney and Star Qld provided designated services to junket players in circumstances where they did not have a direct relationship with the customer but instead relied on the junket operator as an intermediary or agent. As a consequence, Star Sydney and Star Qld did not always know who they were each providing designated services to when providing those services via junket channels.

Particulars

Junket operators, junket funders and junket representatives pooled front money for use by, and winnings for distribution to, junket players. This limited the transparency of the source of funds used by junket players on junket programs and obscured the beneficiaries of remittances arising from winnings on junket programs.

Star Sydney and Star Qld provided table 3, s6 designated services to junket players. Junket operators, junket funders and junket representatives acted as agents for junket players in respect of the remittance of funds into and out of the casino environment, being table 1, s6 designated services. Star Sydney and Star Qld did not appropriately collect, verify, review, update and analyse KYC

information for junket players, in circumstances where they had limited insight into the source and destination of funds.

Rules 1.2.1, 15.2, 15.10(1), (2) and (3) of the Rules.

- g. At no time did Star Sydney or Star Qld appropriately identify, mitigate and manage the ML/TF risks of providing designated services to junket players through junket funders, junket operators and representatives as agents.

Particulars

Star Sydney and Star Qld permitted junket operators to pay out winnings to junket players, without first assessing the risk of such transactions.

Star Sydney and Star Qld permitted junket operators to exchange cash for chips or vice versa for junket players, without first appropriately assessing the risk of such transactions.

See paragraphs 269 to 279 and 280 to 282.

Complex transaction chains

655. Star Sydney and Star Qld provided a range of table 1 and table 3, s6 designated services to customers through junket channels, involving complex transaction chains, but at no time identified, mitigated or managed the associated ML/TF risks.

Particulars

Rule 9.1.3 of the Rules.

656. The Joint Part A Programs did not include or incorporate a methodology to appropriately assess the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to complex designated service chains involving the junket channel, having regard to the nature, size and complexity of their business.

Particulars

See paragraph 87 above.

CCFs

657. At no time did the Joint Part A Programs appropriately identify, mitigate and manage the ML/TF risks of Star Sydney and Star Qld providing CCFs to junket funders or junket operators (items 6 and 7, table 1, s6).
- a. Star Sydney and Star Qld approved CCFs with significantly higher facility limits for junket operators and junket funders where a junket program was operated under a Revenue Sharing Agreement, because the Table Play Rebate reduced the casino's overall **CRE**.

Particulars

For example, on 16 February 2018, Star Sydney and Star Qld senior management approved a permanently active CCF limit of \$266.7 million for Customer 1 with a maximum CRE of \$80 million.

Where Customer 1 funded a junket program that was not operated under the Revenue Sharing Agreement, the maximum funds that

could be drawn down on Customer 1's CCF to fund the junket program was \$80 million.

Where Customer 1 funded a junket program that was operated under a Revenue Sharing Agreement on a 70/30 basis, the maximum funds that could be drawn down on Customer 1's CCF to fund the junket was \$266.7 million. Under the Revenue Sharing Agreement, whichever of Star or the junket recorded a gross win would pay a Table Play Rebate to the other which comprised 70% of that gross win.

See Customer 1.

See paragraphs 507 and 634 above.

- b. When a junket funder or junket operator applied for a CCF:
- i. Star Sydney and Star Qld conducted a risk assessment focussed on credit risk, not ML/TF risk; and
 - ii. Star Sydney and Star Qld conducted a risk assessment focussed on CRE, not the facility limit.

Particulars

For example, in approving Customer 1's permanently active CCF limit of \$266.7 million with a maximum CRE of \$80 million, the Board Paper presented to Star Sydney and Star Qld senior management referred only to the \$80 million CRE and not to the \$266.7 million facility limit.

- c. There was no framework in place in the Joint Part A Programs for Star Sydney or Star Qld to determine whether decisions with respect to the approval of credit facilities or CCFs, including the credit limit, for junket funders and junket operators were within each reporting entity's ML/TF risk appetite.

Particulars

See paragraph 507 above.

- d. CCFs held by junket funders or junket operators could be operated by third parties.

Particulars

A junket funder might authorise a junket operator, junket representative or any existing customer to operate their CCF pursuant to a TPA.

A junket operator might authorise a junket representative or any existing customer to operate their CCF pursuant to a JRA.

- e. Star Sydney and Star Qld would apply rebates payable to junket operators to offset amounts outstanding under CCFs.

Particulars

See paragraph 280.a, 543 and 634.

- f. Star Sydney and Star Qld did not have any processes in place to identify how any CPVs, gaming chips or cash equivalents purchased by junket operators or junket representatives were subsequently distributed among the junket players by the junket operator or junket representative.
- g. Star Sydney and Star Qld permitted funds drawn on a CCF to be accessed in cash, including where the funded customer was using EGMs at Star Sydney.

Particulars

On and from 2016, Star had a cash out policy which was approved by the Chief Financial Officer. The cash out policy applied to premium players or junket operators who were allocated a rating determined by the VIP Credit and Collections Team: see paragraph 552(g) above.

Large cash transactions

- 658. Designated services provided through junket channels often involved large cash deposits and payouts.
- 659. On and from 30 November 2016, controls on large cash deposits and payouts at the Cage at Star Sydney and Star Qld were not appropriately risk-based.

Particulars

See paragraphs 613 and 614.

- 660. Other than SEG's cash out policy, there were no daily or transaction limits in respect of cash.

Particulars

See paragraphs 552(g) and 614.

- 661. The Joint Part A Programs did not include any other controls to appropriately identify, mitigate and manage the ML/TF risks of large cash transactions through junket channels.

Particulars

See paragraph 611 to 618 above.

For controls on cash in private gaming rooms, see paragraph 616 above.

For safe deposit boxes, see paragraph 610 above.

For controls on Salon 95 and the Suncity Service Desk, see paragraph 689 below.

Private gaming rooms

- 662. From 30 November 2016, Star Sydney and Star Qld entered into agreements with junket operators for exclusive use of private gaming rooms.

Particulars

Suncity had exclusive use of two private gaming rooms at Star Sydney, including Salon 95 and Salon 82: see paragraphs 679 and 680 below.

Other junket operators had exclusive use of private gaming rooms on a program by program basis.

663. At no time did Star Sydney and Star Qld conduct an appropriate assessment of the ML/TF risks of providing designated services through the junket channel in private gaming rooms.

- a. In April 2018, the AMLCO purported to conduct an ML/TF risk assessment of the Suncity Service Desk.

Particulars

See paragraph 686 below.

- b. Otherwise, no specific ML/TF risk assessments were conducted with respect to private gaming rooms.

Particulars

For Suncity, see paragraph 684 below.

664. At no time did Star Sydney and Star Qld identify, mitigate and manage the ML/TF risks of providing designated services through the junket channel in private gaming rooms, including but not limited to the risks of cash in private gaming rooms.

Particulars

For controls on cash in private gaming rooms, see paragraph 616 above.

For safe deposit boxes, see paragraph 610 above.

For controls on Salon 95 and the Suncity Service Desk, see paragraph 689 below.

Remittance services

665. At no time did Star Sydney or Star Qld identify, mitigate and manage the ML/TF risks of providing remittance services (items 31 and 32, table 1, s6) through junket channels.

- a. Star Sydney and Star Qld permitted junket funders and junket operators (or junket representatives authorised to act on their behalf) to transfer money between:
 - i. FMAs and SKAs in their names at either Star Sydney or Star Qld; and
 - ii. FMAs and SKAs in the names of junket funders, junket operators, junket representatives, junket players and other third parties at the same Star casino, or another Star casino.
- b. Star Sydney and Star Qld also permitted:
 - i. telegraphic transfers, which it made available to FMAs or SKAs held by junket funders, junket operators and junket representatives, including from junket players and from other persons who were not junket players under the relevant junket program (item 13, table 3, s6 and items 31 and 32, table 1, s6); and
 - ii. telegraphic transfers sourced from FMAs or SKAs held by junket funders, junket operators and junket representatives, including to junket players and other persons who were not junket players under the relevant junket program (item 13, table 3, s6 and items 31 and 32, table 1, s6).

- c. At no time did Star Sydney or Star Qld identify and assess the ML/TF risks of transactions on FMA and SKA accounts held by junket funders, junket operators, junket representatives or junket players.

Particulars

See paragraphs 327, 328, 340, and 347 above.

- d. At no time did Star Sydney or Star Qld keep appropriate records of transactions into, out of and between FMAs and SKAs held by junket funders, junket operators, junket representatives and junket players.

Particulars

See particulars to paragraphs 253, 760 and 774.

- e. The Joint Part A Programs did not include appropriate controls to mitigate and manage the ML/TF risks of transactions into, out of and between FMAs and SKAs held by junket funders, junket operators, junket representatives or junket players, and third parties, at any time prior to October 2020.

Particulars

See paragraphs 330, 342 and 349 above.

- f. Star Sydney and Star Qld facilitated the payment of a junket player's winnings by transferring funds from a junket operator's FMA or SKA (item 13, table 3, s6) by telegraphic transfer to either the junket player or another third party (items 31 and 32, table 1, s6).
- g. At no time did Star Sydney or Star Qld assess the ML/TF risks of providing item 31 and item 32, table 1, s6 designated services to junket funders, junket operators, junket representatives or junket through international remittance channels which posed higher ML/TF risks.

Particulars

For the Hotel Card channel, see paragraphs 356 to 367 above.

For the EEIS remittance channel, see paragraphs 461, 465 to 467, 491, 492 above.

For the Bank 1 (Macau) cash channel, see paragraphs 372, 382 to 384 above.

For the Company 9 channels, see paragraphs 398, 421, 439, 440 and 441 above.

Record keeping in respect of junkets

- 666. Star Sydney and Star Qld did not have appropriate systems and controls in place to keep complete and reliable records of the provision of table 3, s6 designated services to junket operators, junket representatives and junket players through junket programs.
- 667. Information analysed by algorithms used to calculate or estimate customer turnover, winnings and losses was drawn from staff observations.
 - a. There was a risk of human error in that transactions may go unrecorded or be recorded incorrectly.

- b. This risk was particularly pronounced during junket programs, where the volume and frequency of bets is significant.
668. In the absence of appropriate records of the provision of table 3, s6 designated services to junket operators, junket representatives and junket players through junket programs, Star Sydney and Star Qld were unable to adopt and maintain appropriate risk-based AML/CTF controls.
- a. Star Sydney and Star Qld recorded the provision of table 3, s6 designated services to junket operators, junket representatives and junket players through junket programs for the primary purpose of calculating the rebate payable to the junket operator for and on behalf of the junket players.
 - b. Star Sydney and Star Qld did not collect and record the provision of table 3, s6 designated services to junket operators, junket representatives and junket players through junket programs in order to adopt and maintain appropriate risk-based AML/CTF controls.
669. At no time did Star Sydney or Star Qld:
- a. require junket players to open an FMA or SKA to participate on a junket program; or
 - b. record the subsequent allocation by junket operators or authorised junket representatives of non-negotiable chips to junket players, in circumstances where Star Sydney and Star Qld did not require junket players to have an FMA or SKA where this information could be recorded.

Particulars

Non-negotiable chips were a type of gaming chips issued to players participating in junket programs and other premium programs.

670. The table 3, s6 designated services provided to each junket player were not consistently recorded in connection with that junket player.
- a. In some instances, turnover attributable to a junket player would instead be recorded against the junket operator or junket representative at Star Sydney and Star Qld on some or all of SEG's information management systems.
 - b. Where accurate records were not kept of the designated services provided to a junket player on some or all of SEG's information management systems, Star Sydney and Star Qld were unable to view a complete picture of the customer's gaming activity which formed a part of their ML/TF risk profile.

Particulars

For example, between 4 August 2019 and 27 November 2019, Customer 45 was a junket player on three of Customer 3's junkets, in circumstances where Customer 45 recorded wins or losses but no turnover in respect of the program.

The turnover attributable to Customer 45's activity on junket programs, which exceeded \$10 million, was instead recorded against Customer 3's profile. Customer 45's wins and losses, which totalled a nearly \$5 million net win, were recorded against Customer 45's profile. This presented an inaccurate picture of both Customer 3's

and Customer 45's gaming activity and, consequently, ML/TF risk profiles.

See *Customer 3* and *Customer 45*.

- c. Where records were kept of designated services provided to a junket player, dispersed data sources and multiple customer account numbers impacted Star Sydney's and Star Qld's capacity to view a complete picture of the customer's gaming activity which formed a part of their ML/TF risk profile.

Particulars

See paragraph 285.i above and 854.g below.

See paragraphs 843 to 852.

- d. It was not until November 2020 that Star Sydney introduced electronic record keeping via the Angel Eye surveillance system at Smart Tables.

Particulars

Angel Eye was introduced after Star Sydney and Star Qld ceased the provision of table 3, s6 designated services to junket programs.

Junket channel case study: the Suncity junket

671. At all times until November 2020, Star Sydney and Star Qld provided table 1 and table 3, s6 designated services to customers through the Suncity junket.
672. From 30 November 2016 to November 2020:
- a. Star Sydney facilitated approximately 350 junket programs for the Suncity junket, in respect of which:
- i. total turnover exceeded \$11.8 billion; and
 - ii. rebates and other benefits payable to the Suncity junket funder (Customer 1) and junket operators (Customer 3, Customer 4) exceeded \$82 million.
- b. Star Qld facilitated over 120 junket programs for the Suncity junket, in respect of which:
- i. total turnover exceeded \$2.9 billion; and
 - ii. rebates and other benefits payable to the Suncity junket funder (Customer 1) and junket operators (Customer 3, Customer 4) exceeded \$42 million.

Star Sydney and Star Qld's business relationship with Suncity

Parties

673. From 30 November 2016, Customer 1 was the junket funder for the Suncity junket at Star Sydney and Star Qld.
674. The junket operators for the Suncity junket were:
- a. between 2016 and 2017, Customer 4; and
 - b. between 2015 and 2020, Customer 3.
675. From 30 November 2016, at least 27 individuals at Star Qld and at least 37 individuals at Star Sydney were authorised as junket representatives for the Suncity junket.

676. Despite the fact that Customer 4 and Customer 3 were junket operators of the Suncity junket, Star Sydney and Star Qld understood that Customer 1 and Customer 2 were the ultimate beneficial owners of the Suncity junket.

Particulars

In November 2021:

- a. Customer 1 was arrested by authorities in a foreign country in connection with allegations relating to an illegal gambling syndicate and money laundering; and
- b. authorities in a second foreign country issued an arrest warrant for Customer 1, in connection with alleged illicit cross-border and online gambling operations.

See Customer 1's risk profile.

677. At all times prior to September 2020, Star Sydney and Star Qld had a JPA in place with either Customer 3 or Customer 4, each of whom operated a junket branded as the 'Suncity' junket (the **Suncity junket**).

Particulars

From December 2016 to June 2017, Star had a junket agreement with Customer 4 (**December 2016 JPA**). The Managing Director and Chief Executive Officer and the Chief Financial Officer had oversight and responsibility for approving the December 2016 JPA.

On 30 June 2017 to 20 June 2018 (the **June 2017 JPA**) and from 21 June 2018 to the junket cessation date (the **June 2018 JPA**), Star had a junket agreement with Customer 3. The Managing Director and Chief Executive Officer and the Chief Financial Officer of SEG had oversight and responsibility for approving the JPAs.

From 21 June 2018, Star's JPA with Customer 3 included a requirement that Customer 3's junket representatives conduct activities, including at the Suncity Service Desk, in accordance with Star Sydney's processes.

See paragraphs 681 to 682.

678. At all times, Star Sydney and Star Qld approved CCFs for Customer 1, who funded the Suncity junket.

Particulars

Between 30 November 2016 and 20 August 2020, Star Sydney and Star Qld approved CCFs for Customer 1 on multiple occasions up to facility limits of \$266.7 million, including on a permanently active basis from 6 February 2014 (item 6, table 1, s6 of the Act).

Private gaming rooms

Star Sydney

679. At all times, Star Sydney made private gaming rooms available to the Suncity junket.

- a. At all times, Suncity had use of 27 private gaming rooms on a non-exclusive basis at Star Sydney.
- b. From December 2016 to September 2019, Star Sydney granted the Suncity junket exclusive use of a private gaming room, Salon 95, in which 48 junket programs were facilitated.
- c. From September 2019, Star Sydney granted the Suncity junket exclusive use of a private gaming room, Salon 82, in which 50 junket programs were facilitated.
- d. At all times, Star Sydney provided table 3, s6 designated services to customers associated with the Suncity junket in private gaming rooms.

Star Qld

- 680. At all times, Star Qld made private gaming rooms available to the Suncity junket on a non-exclusive basis.

Particulars

Star Qld provided the Suncity junket with access to 22 private gaming rooms on a non-exclusive basis.

Suncity service desk

- 681. From April 2018 to August 2019, Star Sydney allowed the Suncity junket to operate a **Suncity Service Desk** in Salon 95.

Particulars

Between June 2017 and January 2018, renovations were undertaken to accommodate Suncity's exclusive use of Salon 95. The renovations included the construction of a service desk and cage.

- 682. The Suncity Service Desk was a channel through which Star Sydney provided designated services to customers.

Particulars

The Suncity Service Desk was used by the Suncity junket to provide services to Suncity junket participants, including:

- a. the provision of gaming chips to customers for play;
- b. the provision of cash at the settlement (or partial settlement) of the junket; and
- c. additional services, including the booking and organisation of travel, accommodation, dining and entertainment experiences.

See paragraph 683(d).

The ML/TF risks posed by the Suncity junket

- 683. From 30 November 2016, the Suncity junket, and the provision of designated services by Star Sydney and Star Qld to and through the Suncity junket, posed higher ML/TF risks, because of the following red flags:

- a. Designated services provided by Star Sydney and Star Qld through the Suncity junket involved the ML/TF risks as pleaded at paragraph 650 above.

Parties

- b. The involvement of Customer 1, who Star Sydney and Star Qld understood to be the ultimate beneficial owner and funder of the Suncity junket, in circumstances where at all times on and from 30 November 2016:
 - i. Star Sydney and Star Qld were aware of allegations that Customer 1 was a former member of overseas organised crime syndicates and was associated with individuals linked to organised crime;
 - ii. publicly available information identified Customer 1 as a foreign PEP; and
 - iii. Star Sydney and Star Qld were aware of allegations that Customer 1 had indirectly received funds stolen from a central bank.

Particulars

See Customer 1.

- c. The involvement of Customer 2, who Star Sydney and Star Qld understood to be Customer 1's business partner, in circumstances where:
 - i. at all times Customer 1 and Customer 2 were co-directors of many overseas companies associated with the Suncity junket business; and
 - ii. Star Sydney and Star Qld were aware that Customer 1 and Customer 2 were connected to overseas organised crime syndicates.

Particulars

See Customer 2.

Salon 95 and the Suncity Service Desk

- d. Between April 2018 and September 2019, Star Sydney continued to allow the Suncity junket exclusive access to Salon 95 despite the following:
 - i. Large cash transactions and transactions involving cash that appeared suspicious were facilitated through the Suncity Service Desk in Salon 95 at Star Sydney.

Particulars

Between 17 April 2018 and 17 May 2018, at least 13 suspicious cash transactions took place in Salon 95 involving Suncity staff and unknown persons.

Star has no records of the total amount of cash involved in these suspicious transactions.

The transactions involved:

- a. Suncity staff members using the money counter at the Suncity Service Desk to count money retrieved from suitcases, backpacks, sports bags, plastic bags and esky bags;

- b. unknown third parties entering Salon 95 with large bundles of cash, the provenance of which was unknown; and
- c. unknown third parties leaving Salon 95 with large bundles of cash that had been provided to them by Suncity staff, often in circumstances where the third parties were not known to have played on any Suncity junket.

A subsequent investigation (**Operation Moneybags**) reviewed some of the transactions that took place between April 2018 and May 2018 and determined that Star was unable to identify the names of the persons who conducted the transactions or the dollar value of the transactions. The investigation also determined that Star could not identify what amounts were attributed to junket players.

- ii. By 12 May 2018, Star Sydney was aware that the Suncity Service Desk was being used to facilitate cash transactions unrelated to the ordinary gaming and transactional activities of junket or casino operations, including by offering customers a line of credit.

Particulars

In May 2018, Star staff observed a Star Sydney customer receive \$45,000 in cash at the Suncity Service Desk, despite not being a junket player on the Suncity junket at any time. When questioned by Star Sydney’s internal investigators, the customer advised that he needed to access \$45,000 urgently for a private business matter and an associate had given him instructions on how to contact Suncity.

Star Sydney identified that it appeared that Suncity operated a membership club whereby their customers had access to a line of credit: SMR dated 17 May 2018.

- iii. Between April 2018 and September 2019, blind spots in the Salon 95 CCTV system were exploited by customers and Suncity staff members, giving Star Sydney limited visibility over activity in Salon 95, including cash transactions at the Suncity Service Desk.

Particulars

Between April 2018 and May 2018, the Star Sydney surveillance team members reviewed CCTV vision of Salon 95 transactions as part of Operation Moneybags: see particulars to paragraph 683(d)(i) below.

The Star Sydney surveillance team was unable to track the cash transactions in Salon 95 during this period back to an owner, nor was it able to identify the origin of a number of bags that were used to carry cash to and from Salon 95.

During this period, Star Sydney was aware that CCTV blind spots were being exploited, meaning that it had limited visibility over the cash transactions in Salon 95.

For example, on 15 June 2018, a Star Sydney customer, Person 9, was invited onto the Salon 95 balcony by Suncity staff. Star Sydney considered this to be an attempt to find a spot not covered by Star Sydney's CCTV. The customer exited the blind spot holding a paper bag which Star Sydney understood contained \$35,000 in chips withdrawn from Customer 3's account.

- iv. Although Star Sydney did not record evidence of cash transactions at the Suncity Service Desk between June 2018 and April 2019, by May 2019, Star Sydney had become aware of efforts to conceal suspicious cash transactions in a computer cupboard behind the Suncity Service Desk in Salon 95.

Particulars

On 9 May 2019, 20 May 2019, 22 May 2019, 30 May 2019 and 31 May 2019, Star Sydney recorded CCTV vision of a number of suspicious cash transactions occurring in Salon 95, including incidents involving:

- a. money being placed into envelopes;
- b. money being taken from a drawer and covertly transported by Suncity staff members to a hire car;
- c. money being counted at the Suncity Service Desk and then being deposited at a cage in a private gaming room;
- d. Suncity staff members entering the computer cupboard with black bags; and
- e. money being stored in the computer cupboard.

Star Sydney suspected that Suncity staff were attempting to conceal their activities from CCTV by repacking cash into different bags, operating in the closet room out of view of CCTV or shrouding their actions with a blanket.

- v. By July 2019, SEG was advised that NSW exclusion orders were issued for six individuals associated with Suncity, including Suncity staff who worked in Salon 95.
- vi. In August 2019, Salon 95 was shut down following media reporting of allegations in respect of Suncity that were aired in July 2019.

Particulars

On 13 August 2019, the President of International VIP Sales wrote in an email to the Chief Casino Officer that Suncity would exit Salon 95 but that Star's business with Suncity would carry on as usual as for junkets operated at other part of the casinos.

Salon 82

- e. From September 2019 to March 2020, Star Sydney continued to allow the Suncity junket exclusive access to a private gaming room, Salon 82, despite the known ML/TF risks posed by the Suncity junket in respect of its activity in Salon 95.

Particulars

From September 2019 to March 2020, the Suncity junket operated junkets in Salon 82: see paragraph 679 above.

During this period, the Suncity logo was to be displayed from TV monitors in Salon 82 and on branded amenities, including ashtrays and lighters, which were used in the room.

Suspicious formed for the purpose of s41 of the Act

- f. Between 30 November 2016 and 2 November 2020, Star Sydney gave the AUSTRAC CEO 33 SMRs relating to designated services provided through the Suncity junket, including to junket operators Customer 3 and Customer 4.

Particulars

See *Customer 3* and *Customer 4*.

- g. Between May 2018 and June 2018, Star Sydney formed suspicions that cash presented by customers at the Cage originated from the Suncity junket.

Particulars

On at least eight occasions between 1 May 2018 and 18 June 2018, customers presented large amounts of cash sealed in plastic wrap or clear plastic bags, totalling approximately \$4.7 million, to be deposited into their accounts, in circumstances where Star Sydney suspected that it originated from the Suncity junket.

Star Sydney considered that it was possible that the Suncity junket was trying to hide the fact that the funds had originated from Suncity: SMR dated 6 June 2018.

See *Customer 3*.

- h. Between 30 November 2016 and 22 January 2020, Star Qld gave the AUSTRAC CEO 13 SMRs relating to designated services provided through the Suncity junket, including to junket operators Customer 3 and Customer 4.

Particulars

See *Customer 3* and *Customer 4*.

Items 31 and 32, Table 1, s6 designated services

- i. At all times, the Suncity junket received designated services through high risk channels, including the EEIS remittance channel and the Customer 9 channels:

Particulars

Between 5 September 2019 and 20 April 2020, \$13,710,031 was deposited through the EEIS remittance channel which Star Sydney or Star Qld made available to Customer 1.

Between 12 August 2019 and 23 August 2019, \$1,897,463 was remitted through the Customer 9 channels which Star Sydney or Star Qld made available to Customer 1.

On 19 August 2019, \$2,009,392 was remitted through the Customer 9 channels which Star Sydney made available to Customer 3.

See Customer 1 and Customer 3.

ML/TF typologies and vulnerabilities

- j. At all times, the Suncity junket funder (Customer 1), Suncity junket operators (Customer 3 and Customer 4), Suncity junket representatives and junket players engaged in transactions indicative of ML/TF typologies and vulnerabilities at Star Sydney and Star Qld.

Particulars

See Customer 1, Customer 3 and Customer 4.

Associations with overseas organised criminal syndicates

- k. In July 2019 and August 2019, Star became aware of media reports that alleged that:
- i. the Suncity junket was implicated in operating gambling platforms and facilitating underground banking and illegal gambling in a foreign country; and
 - ii. Australian casinos did business with Customer 1, the funder of the Suncity junket, who was connected to overseas organised crime syndicates.

Particulars to i and ii

See Customer 1.

ML/TF risk assessments with respect to the Suncity junket

684. Despite the ML/TF risks pleaded at paragraph 683 above, at no time did Star Sydney carry out an appropriate assessment of the ML/TF risks it reasonably faced with respect to the designated services it provided through the Suncity junket channel.

Particulars

At no time did Star Sydney carry out a specific ML/TF risk assessment in relation to the Suncity junket's use of Salon 82.

At no time did Star Sydney carry out a specific ML/TF risk assessment in relation to the Suncity junket's use of Salon 95.

Following media allegations raised in July 2019 and August 2019, SEG determined that it would conduct a risk assessment of the Suncity junket by no later than December 2019.

There is no record of any such risk assessment being conducted by December 2019.

On 13 February 2020, the Due Diligence Program Manager prepared a detailed chronology of the Star's engagement with Suncity.

On 8 May 2020, the Due Diligence Program Manager prepared a Suncity ECDD report in respect of Customer 1 and other Suncity associates, including Customer 3, Customer 4 and Customer 2. The Suncity ECDD report identified adverse media in respect of Customer

1 and noted the suspicious cash incidents that occurred in Salon 95. The Suncity ECDD report was provided by email to the Chief Legal and Risk Officer and copied to the General Corporate Counsel and the AML/CTF Compliance Officer.

The Suncity ECDD report was revised on 1 October 2020 and finalised by 7 January 2021 by the Due Diligence Program Manager. The final report was provided by email to the Group General Counsel and copied to the AML/CTF Compliance Officer. It concluded that:

- a. it was 'possible' that Customer 1's subordinates may maintain business relationships with overseas organised criminal syndicates and their affiliates;
- b. there was 'no clear evidence' that Customer 1 had personal involvement with or facilitated any type of criminality, including money laundering activity allegedly facilitated at Australian casinos, but rather he was a successful and astute businessman; and
- c. Customer 1 would not hold the positions in foreign political bodies that he did had the relevant authorities suspected him of involvement in criminal activity.

Recommendation to continue to do business with the Suncity junket in 2021

In January 2021, a recommendation was made that Star could continue to do business with the Suncity junket, including Customer 1, subject to certain compliance measures being adopted.

No steps were subsequently taken by Star to adopt any compliance measures.

685. At no time did Star Qld carry out an appropriate assessment of the ML/TF risks it reasonably faced with respect to the designated services it provided through the Suncity junket channel.

Salon 95 and the Suncity Service Desk

686. At no time did Star Sydney conduct an appropriate risk assessment in relation to the Suncity Service Desk.

Particulars

Star Sydney did not carry out an ML/TF risk assessment in relation to the Suncity Service Desk prior to the introduction of this facility at Star Sydney.

By 11 April 2018, the Compliance Manager had prepared a draft risk assessment of the ML/TF risks associated with the Suncity Service Desk, particularly Suncity's acceptance of cash by players for participation in a junket, the provision of chips for play by Suncity and the provision of cash by Suncity at settlement of a junket at the Suncity Service Desk. The draft risk assessment identified the following risks:

- a. the accidental provision of a designated service by Suncity;
- b. that the operations of the casino could be, or be perceived to be, conducted by a person other than the casino operator;
and
- c. the operation of a 'super junket', where unrelated parties are added to an overarching junket agreement rather than each group being treated as an individual junket.

The risk assessment set out proposed controls and concluded that it would be possible for the Suncity Service Desk 'to operate in a compliant fashion without significant compromise to the customer experience'.

The draft risk assessment did not appropriately identify or assess all of the ML/TF risks of the Suncity Service Desk pleaded at paragraph 683(d).

By mid-April 2018, Salon 95 and the Suncity Service Desk were operational.

By at least 18 April 2018, the first CCTV recording was made of a cash transaction in Salon 95: see paragraph 683(d) above.

On 27 April 2018, the Suncity Service Desk risk assessment was finalised and approved by the Chief Risk Officer. There were no changes to the risks identified in the draft risk assessment of 11 April 2018.

ML/TF controls with respect to the Suncity junket

687. The Joint Part A Programs did not include appropriate risk-based systems and controls to identify, mitigate and manage the ML/TF risks of designated services provided through the Suncity junket.

Parties related to Suncity

688. At no time did Star Sydney or Star Qld carry out appropriate due diligence having regard to the ML/TF risks of designated services provided through the Suncity junket, including in respect of:

- a. the Suncity junket funder, Customer 1;

Particulars

See *Customer 1*.

See paragraph 792 to 852 below.

- b. Customer 2, Customer 1's business partner; and

Particulars

See *Customer 2*.

See paragraph 792 to 852 below.

- c. Customer 3 or Customer 4, the Suncity junket operators.

Particulars

See *Customer 3* and *Customer 4*.

See paragraph 792 to 852 below.

Salon 95 and the Suncity Service Desk

689. At no time did the Joint Part A Program include or incorporate appropriate risk-based controls to identify, mitigate and monitor the ML/TF risks of cash in private gaming rooms, including cash transactions through the Suncity Service Desk in Salon 95.

- a. Controls on cash in private gaming rooms at Star Sydney and Star Qld were inadequate.

Particulars

See paragraph 616 above.

- b. CCTV surveillance inside Salon 95 was not an appropriate AML/CTF control on its own.
- c. At all times, controls on cash transactions at the Suncity Service Desk were inadequate, because:
 - i. despite receiving internal legal advice that Suncity could not conduct cash transactions at a Suncity Service Desk, in April 2018 Star Sydney and SEG senior management advised Suncity that it could conduct cash transactions at the Suncity Service Desk in specific circumstances if it adopted a number of controls;

Particulars

In April 2018, Star Sydney advised Suncity:

- a. cash received at the Suncity Service Desk be deposited to the Star Sydney cage at least on a daily basis;
- b. customers not to receive cash in exchange for chips in the same transaction; and
- c. cash received at the Suncity Service Desk would not be used to settle with customers.

See paragraph 690.

The controls conveyed to Suncity did not align with the controls set out in the ML/TF risk assessment finalised on 27 April 2018. See paragraph 684.

- ii. by no later than May 2018, Star Sydney and SEG senior management formed suspicions that Suncity was operating a pseudo cage through the Suncity Service Desk in Salon 95;

Particulars

On 14 May 2018, in relation to a \$45,000 transaction in Salon 95, a Senior Investigator sent an email to the General Counsel, Star Sydney and the Group Investigations Manager stating that Suncity's

activities that day were strange and that he was going to 'call it out early' that Suncity was 'operating a business model which is problematic for the SEG with regards to AML/CTF Laws'.

- iii. on 14 May 2018, Suncity was issued with a warning letter dated 10 May 2018, reminding Suncity of the restrictions on cash transactions previously communicated in April 2018;

Particulars

The letter stated that:

- a. the Suncity Service Desk must not operate a cash float;
- b. cash received at the Suncity Service Desk must be deposited at the Star Sydney cage;
- c. cash payments made to customers must be drawn down from the Star Sydney cage;
- d. exchanges of cash for chips and of chips for cash must not take place at the Suncity Service Desk;
- e. individuals who are not Suncity junket players should not seek services from the Suncity Service Desk.

The letter was signed by the Managing Director, Star Sydney.

At no time was Suncity informed of the proposed controls in the 27 April 2018 risk assessment: see paragraph 684 above.

- iv. on 23 May 2018, Star Sydney provided Suncity with standard operating procedures for the Suncity Service Desk in Salon 95 (Suncity Service Desk SOP), which included a list of 'key principles' and nine standard operating procedures for cash transactions at the Suncity Service Desk;

Particulars

On 23 May 2018, the Suncity Service Desk SOP was provided to the Suncity junket representatives by the General Manager VIP International.

The Suncity Service Desk SOP included the following requirements:

- a. Only approved junket representatives, participants and SEG staff could access Salon 95.
- b. SEG staff were required to conduct identity checks of junket players who accessed Salon 95.
- c. Junket participants could only receive gaming-related services at the Suncity Service Desk if they had recorded gaming activity in Synkros within the preceding 48 hours.
- d. Cash presented at the Suncity Service Desk to be deposited into the Suncity FMA should be counted by Suncity staff in view of CCTV, receipted, secured in the 'Buy-in Drawer', and deposited at the Star Sydney cage within two hours of receipt.

All transactions were to be documented in a book available on request to SEG representatives for audit purposes.

- e. If a junket player wanted to settle, then the chips were to be collected, counted, documented and secured by Suncity staff, then transported to the Star Sydney cage to be deposited. Any cash out was to be conducted at the Star Sydney cage in accordance with SEG's cash out policy, then the cash was to be transported back to Salon 95 to be disbursed to the junket player within two hours of being collected from the Star Sydney cage. All transactions were to be documented in a book available on request to SEG representatives for audit purposes.
 - f. Only limited chip exchanges could be conducted at the Suncity Service Desk, including exchanging chips of larger values for smaller values, or rollover of premium chips for non-negotiable chips.
 - g. Cash in the expenses drawer was limited to \$25,000 and was to be used for non-gaming related activity. All transactions were to be documented in a book available on request to SEG representatives for audit purposes.
 - h. If an excess of chips had been drawn down on the Suncity FMA, then the Suncity junket representative could issue non-negotiable chips to the junket participant but not in exchange for cash chips, cash or cash equivalents. The excess chips were to be sent to the Star Sydney cage to be credited to the Suncity FMA within two hours of receipt.
 - i. Suncity junket representatives were prohibited from receiving cash from players or providing cash to players outside settlement, partial settlement or cash out.
 - j. Electronic funds transfers could only occur at the Star Sydney cage.
- v. Star Sydney could not ensure that the procedures in the Suncity Service Desk SOP were being consistently applied;

Particulars

There were no mechanisms for enforcement of the Suncity Service Desk SOP, which depended on voluntary compliance by Suncity staff members who were not Star employees.

- vi. a further warning letter was issued to Customer 3, Suncity's junket operator, on 8 June 2018 as a result of non-compliance with the Suncity Service Desk SOP at Salon 95;

Particulars

The letter stated that:

- a. the Suncity Service Desk SOP was provided by Star Sydney to the Suncity junket representatives on 23 May 2018;
- b. Star Sydney was aware that processes in the Suncity Service Desk SOP were not followed;
- c. any further breach of the processes in the Suncity Service Desk SOP would result in the termination of access to the Suncity Service Desk and might lead to a review of Suncity's exclusive access to Salon 95; and
- d. it was Customer 3's responsibility to ensure that the Suncity junket representatives were aware of the obligations under the Suncity Service Desk SOP.

The letter was signed by the Managing Director, Star Sydney.

- vii. although Star Sydney did not record evidence of cash transactions at the Suncity Service Desk between June 2018 and April 2019, by May 2019, Star Sydney had become aware of efforts to conceal suspicious cash transactions in Salon 95; and

Particulars

On 9 May 2019, 20 May 2019, 22 May 2019, 30 May 2019 and 31 May 2019, Star Sydney recorded CCTV vision of a number of suspicious cash transactions occurring in Salon 95: see particulars to paragraph 683(d)(iv) above.

On 31 May 2019, a Star investigator:

- a. observed on CCTV two Suncity employees enter the closet room in Salon 95 before re-emerging with a bag of cash; and
- b. inspected the closet room behind the Suncity Service Desk, where he observed environmental shopping bags, similar to the kind of bag used to hold the cash observed in the CCTV vision, stuffed around a large computer server.

On 4 June 2019, the Investigations Manager, Financial Crime and Investigations showed CCTV vision of the 31 May 2019 transaction to the General Counsel, Star Sydney and the NSW Regulatory Affairs Manager.

By 5 June 2019, the Star investigator had prepared a report that recorded suspicions that:

- a. the cash seen in the vision from 31 May 2019 originated from the closet room behind the Suncity Service Desk;
- b. Suncity staff were attempting to conceal their activities from CCTV by repacking cash into different bags, operating in the closet room out of view of CCTV or shrouding their actions with a blanket; and
- c. turnover of Suncity staff meant that behaviours involving large cash transactions noticed and addressed by previous

staff members went unnoticed by new staff members and subsequently remerged.

- viii. by 23 May 2019, a purported review of Suncity's compliance with the Suncity Service Desk SOP failed to identify three cash incidents at the Suncity Service Desk that occurred during the period of review.

Particulars

Following a review between March 2019 and May 2019, on 23 May 2019, the Group Compliance Manager sent a report to the General Counsel, Star Sydney in respect of compliance with the Suncity Service Desk SOP. The report found that:

- a. the overall control environment was satisfactory and representative of good practice;
- b. the agreed upon procedures required changes as the Suncity Service Desk SOP did not reflect the actual operational model agreed with Suncity in May 2018;
- c. there was no evidence of the practices that raised concerns around the operation of Salon 95 in 2018; and
- d. there was an effective level of oversight of the operation of Salon 95.

The Group Compliance Manager also recorded that transaction logs required to be kept under the Suncity Service Desk SOP were not kept because Suncity was not performing the relevant transactions at the Suncity Service Desk.

There was no mention in the report by the Group Compliance Manager of the three cash incidents on 9 May 2019, 20 May 2019 or 22 May 2019 (see paragraph 683(d)(iv) above).

The Group Compliance Manager concluded that there was no evidence of cash transactions occurring in Salon 95 and that Star had effective oversight of Salon 95.

Record keeping

- d. Star Sydney did not make or keep appropriate records in relation to cash transactions at the Suncity Service Desk in Salon 95.

Particulars

See paragraph 683(d) above.

Star Sydney was dependent on records kept by the Suncity junket representatives in respect of any cash presented at the Suncity Service Desk, any cash provided to junket players following settlement and any cash provided to customers for non-gaming activities.

- e. In the absence of appropriate records of the designated services Star Sydney provided through Salon 95 and through the Suncity Service Desk, Star Sydney was unable to adopt and maintain appropriate risk-based AML/CTF controls.

Particulars

See paragraph 689(a) to 689(c) above.

- f. Vision from CCTV and table cameras did not constitute appropriate records of designated services provided in Salon 95.

Transaction monitoring

- g. At no time did the Joint Part A Programs apply appropriate risk-based transaction monitoring in private gaming rooms, including Salon 95 and Salon 82 which were occupied by Suncity.

Particulars

See paragraph 787.

Governance – Suncity Service Desk

- 690. From April 2018, senior management advised Suncity that it could conduct cash transactions at the Suncity Service Desk in specific circumstances, despite receiving internal legal advice indicating that, if Star Sydney permitted cash transactions at the Suncity Service Desk, Star Sydney would be exposed to the risk of the Suncity Service Desk being used to facilitate large cash and chip transactions without casino oversight.

Particulars

On August 2017, the General Manager, Commercial Finance International Marketing emailed Star staff members regarding the construction of a cage and a service desk in Salon 95.

Between 12 March 2018 and 13 March 2018, the Assistant Vice-President, VIP International Operations; the Cashier Services Manager, Star Sydney; the General Corporate Counsel; the General Counsel, Star Sydney and the NSW Regulatory Affairs Manager exchanged a number of emails which, amongst other things, queried the amount of cash that a customer could deposit into the 'Suncity Cage without any AML requirement'.

In response, the General Corporate Counsel advised that:

- a. he had not previously been consulted about the proposal for Suncity to operate a cage and handle cash transactions;
- b. it would be necessary to reinforce to the business that Salon 95 could only operate a service desk and not a cage;
- c. he thought that Suncity should not be handling cash payments, but if they were to they would need to be 'AML/CTF compliant';
- d. Suncity did not have authority to operate a cage;

- e. cash transactions could only occur at Star Sydney's cage in accordance with its applicable policies and standard operating procedures; and
- f. Suncity could nevertheless use the service desk to handle junket operator and junket representative transactions involving chips only.

By 13 April 2018, the General Manager Compliance and Responsible Gambling, Star Sydney; the General Counsel, Star Sydney; the NSW Regulatory Affairs Manager; the Compliance Manager; the General Manager VIP International and the General Manager, Commercial Finance International Marketing were aware of the advice of the General Corporate Counsel.

On 28 March 2018, the General Manager, VIP International queried whether Suncity could be permitted to handle cash in Salon 95 if its representatives collected KYC information, deposited the cash at the Star Sydney cage every 24 hours and obtained extra documentation for transactions over \$100,000.

On 31 March 2018, the General Corporate Counsel confirmed that Suncity could not handle cash at the Suncity Service Desk until the General Manager Compliance and Responsible Gambling, Star Sydney had given clearance .

On 6 April 2018, the General Manager Compliance and Responsible Gambling, Star Sydney advised the President of International VIP Sales that his team would perform an 'AML risk assessment' on the Suncity Service Desk and requested information about Star's arrangement with Suncity and the activity of the Suncity junket.

The President of International VIP Sales:

- a. requested the questions for the AML risk assessment in advance;
- b. noted that there was urgency to getting Salon 95 running.

The General Manager Compliance and Responsible Gambling, Star Sydney said that the AML risk assessment did not need to slow down the implementation of the service desk arrangement. The President of International VIP Sales was also later told that the ML/TF risk assessment was to be conducted with controls to provide a 'suitable solution'.

On 6 April 2018, the General Manager, Commercial Finance International Marketing told the Managing Director, Star Sydney that a concern had been raised around cash collection at the Suncity Service Desk, but that, assuming that the ML/TF risk assessment could be done concurrently, there was no reason why implementation of the service desk could not occur immediately.

On 12 April 2018, the General Manager VIP International; the General Manager Compliance and Responsible Gambling, Star

Sydney; the Chief Risk Officer; the General Manager, Commercial Finance International Marketing; the Managing Director, Star Sydney and the President of International VIP Sales received a copy of the draft ML/TF risk assessment: see paragraph 686 above.

By mid-April 2018, Suncity commenced operating junket programs and conducting cash transactions at the Suncity Service Desk: see paragraph 683(d) above.

691. By May 2018, Star senior management were aware that Suncity was conducting suspicious cash transactions in Salon 95, including with third parties, in a manner inconsistent with the restrictions on cash transactions imposed on it.

Particulars

See particulars to paragraph 683(d) and 689 above.

On or around 11 May 2018, the suspicious cash transactions conducted in Salon 95 (see paragraph 689 above) were discussed at a meeting attended by Star senior management, including the General Counsel, Star Sydney; the Managing Director, Star Sydney; the Chief Risk Officer and the General Manager Compliance and Responsible Gambling, Star Sydney.

On 14 May 2018, a Star Investigator advised the General Counsel, Star Sydney and the Group Investigations Manager that Suncity's activities that day were strange and that he was going to 'call it out early' that Suncity was 'operating a business model which is problematic for the SEG with regards to AML/CTF Laws'.

On 14 May 2018, Star Sydney issued its first warning letter signed by the Managing Director, Star Sydney to the Suncity junket regarding its compliance with restrictions on cash transactions in Salon 95: see particulars to paragraph 689(c)(iv) above.

On 8 June 2018, Star Sydney issued its second warning letter signed by the Managing Director, Star Sydney to the Suncity junket regarding its compliance with restrictions on cash transactions in Salon 95: see particulars to paragraph 689(c)(vii) above.

692. At no time were the higher ML/TF risks faced by Star Sydney in respect of the Suncity Service Desk and Suncity's use of Salon 95 (pleaded at paragraph 683(d) above) appropriately reported by senior management to the SEG Board.

Particulars

On 26 July 2018, a SEG Board meeting was held. One of the papers taken as read at the meeting was 'The Star Entertainment Group Limited – Managing Director & CEO Report – May 2018'.

Page 22 of the paper stated that concerns had emerged around the activities undertaken at the Suncity Service Desk, that the functions at the Suncity Service Desk were limited pending the development of detailed processes for the junket representatives and that training for Suncity staff would be completed by 8 June 2018 with compliance monitoring to follow.

The board paper did not contain:

- a. details of the internal legal advice provided in March 2018 outlining the risks to which Star Sydney would be exposed should it permit cash transactions at the Suncity Service Desk: see paragraph 690 above;
- b. details of suspicious cash transactions in Salon 95, including with third parties, observed in April 2018 and May 2018: see paragraph 683(d) below;
- c. details of the ML/TF risks identified in the Suncity Service Desk ML/TF risk assessment completed on 27 April 2018: see paragraph 686 above; and
- d. details of steps taken to permit Suncity to conduct cash transactions at the Suncity Service Desk subject to restrictions and Suncity's subsequent non-compliance with those restrictions: see paragraph 691 above.

Decision to cease business with the Suncity junket

693. It was not until April 2022 that Star senior management made a decision to cease doing business with the Suncity junket.

Particulars

See paragraphs 694 to 700 below.

694. In August 2021, Star senior management accepted a recommendation that Star could safely maintain a customer relationship with Customer 1 and Customer 3 subject to specific risk mitigation measures.

Particulars

See *Customer 1* and *Customer 3*.

695. Following media reports of Customer 1's arrest for alleged money laundering and illegal cross-border gambling operations, Star senior management accepted a recommendation that no further action needed to be taken in respect of Star Sydney and Star Qld's ongoing business relationship with Customer 1.

Particulars

See *Customer 1*.

696. It was not until 14 December 2021 that Star Sydney and Star Qld decided to cease the business relationship with Customer 1 and issued a WOL in respect of him.

Particulars

See *Customer 1*.

697. It was not until 24 January 2022 that Star Sydney and Star Qld decided to cease the business relationship with Customer 2 and issued a WOL in respect of him.

Particulars

See *Customer 2*.

698. It was not until 6 April 2022 that Star Sydney and Star Qld decided to cease the business relationship with Customer 3 and issued a WOL in respect of him.

Particulars

See Customer 3.

699. At no time has either Star Sydney or Star Qld made a decision to cease the business relationship with Customer 4.

Particulars

See Customer 4.

700. At all times Star Sydney and Star Qld failed to take appropriate steps to identify, mitigate and manage the ML/TF risks of doing business with the Suncity junket, including through Customer 1, Customer 2, Customer 3 and Customer 4.

The ongoing relationship with persons associated with junkets

Decision to continue to do business with persons associated with junkets

701. Despite ceasing junket operations in October 2020, Star Sydney and Star Qld determined to continue to conduct business with persons associated with junkets.
- a. Star Sydney and Star Qld have held money in FMAs for or on behalf of junket operators and junket funders on and from October 2020.
 - b. Star Sydney and Star Qld continued to provide designated services (items 31 and 32, table 1, s6) for and on behalf of junket operators and junket funders by remitting money into and out of the casino environment on and from October 2020.

Particulars

On 12 December 2021, Star Sydney received a deposit of approximately \$2.8 million from Customer 20's personal bank account, despite the fact that Star had ceased junket operations in October 2020.

See Customer 20.

- c. Star Sydney and Star Qld senior management determined to maintain a business relationship with persons associated with junket activities, including those in respect of whom Star Sydney and Star Qld had formed suspicions, despite the higher ML/TF risks associated with the junket activity of those persons.

Particulars

For example, in August 2021, despite the higher ML/TF risks associated with their junket activity, Star senior management determined to maintain a business relationship with a number of customers including Customer 1, Customer 3, Customer 28, Customer 46, Customer 20 and Customer 29.

Each of these customers was subsequently issued with a WOL by Star Sydney and Star Qld as follows:

- a. Customer 1, on 14 December 2021;

- b. Customer 20, on 1 March 2022;
- c. Customer 3, on 6 April 2022;
- d. Customer 28 and Customer 29, on 24 May 2022; and
- e. Customer 46, on 31 May 2022.

See *Customer 1, Customer 3, Customer 28, Customer 46, Customer 20, Customer 29.*

Designated services provided through international individual rebate programs

- 702. Star Sydney and Star Qld provided designated services to international VIP customers via individual rebate programs beyond October 2020 at Star Sydney and Star Qld.
- 703. Many of the ML/TF risks pleaded at paragraph 650 above were applicable to international VIP customers. Customers who, prior to the cessation of junket operations in October 2020, had been junket players could, following the cessation of junket operations, instead play on international individual rebate programs.

Particulars

For example, on 3 December 2021, Customer 53 recorded a turnover exceeding \$4 million at Star Sydney on an international individual rebate program.

Between 3 August 2015 and 21 July 2020, Customer 53 had been a junket player on more than ten junkets operated by Customer 11, Customer 15 and Customer 3. Customer 53's turnover as a junket player in that period exceeded \$210 million. Customer 53 was a close associate of Customer 10, who funded Customer 11's and Customer 15's junkets.

By 2018, Customer 53 had been the subject of law enforcement enquiries at both Star Sydney and Star Qld.

See *Customer 53.*

- 704. Between October 2020 and April 2022, Star Sydney and Star Qld recorded that the turnover of international individual rebate programs exceeded \$116 million. Rebates in excess of \$460,000 over the same period were payable by Star Sydney and Star Qld to the international VIP customers on international rebate programs.
- 705. From 30 November 2016 until at least December 2021, revenue from designated services provided through international individual rebate programs, other than junket programs, represented a material source of Star Sydney's total revenue.

Particulars

Between July 2015 and December 2021, Star Sydney made over \$540 million in international rebate revenue, other than junket-generated revenue.

In the 2016, 2017, 2018 and 2019 financial years, international rebate revenue, other than junket-generated revenue, for Star Sydney was approximately \$149 million, \$94 million, \$60 million and \$84 million respectively.

In the 2020 financial year, in which Star Sydney's revenue was reduced due to COVID-19-related travel restrictions and lockdowns, Star Sydney's international rebate revenue, other than junket-generated revenue, stood at just over \$149 million.

Between July 2020 and December 2022, in which period Star Sydney's revenue remained reduced due to COVID-19-related travel restrictions and lockdowns, Star Sydney's international rebate revenue, other than junket-generated revenue, stood at just over \$7 million.

706. From 30 November 2016 until at least July 2021, revenue from designated services provided through international individual rebate programs, other than junket programs, represented a material source of Star Qld's total revenue.

Particulars

Between July 2015 and July 2021, Star Qld made over \$191 million in international rebate revenue, other than junket-generated revenue.

In the 2016, 2017, 2018 and 2019 financial years, international rebate revenue, other than junket-generated revenue for Star Qld was approximately \$12.6 million, \$57.9 million, \$11.2 million and \$21.9 million respectively.

In the 2020 financial year, in which Star Qld's revenue was reduced due to COVID-19-related travel restrictions and lockdowns, Star Qld's international rebate revenue, other than junket-generated revenue, stood at just over \$84 million.

707. On 9 May 2022, SEG advised the Australian Securities Exchange that it was suspending international individual rebate programs.

The transaction monitoring program

708. At all times from 30 November 2016, Star Sydney and Star Qld were required by the Act and Rules to include a transaction monitoring program in their Joint Part A Programs that:
- a. included appropriate risk-based systems and controls to monitor the transactions of customers;
 - b. had the purpose of identifying, having regard to ML/TF risk, any transaction that appears to be suspicious within the terms of s 41 of the Act; and
 - c. had regard to unusual patterns of transactions, which have no apparent economic or visible lawful purpose.

Particulars

Section 85(2)(c) of the Act, rules 9.1.3, 9.1.4 and rules 15.4 to 15.7 of the Rules.

709. At all times, the Joint Part A Programs included a transaction monitoring program.

Particulars

The transaction monitoring program comprised:

A. The Joint Part A Programs (September 2016 to February 2019 versions, Part A, clause 14 and Annexure G; November 2019 to August 2022 versions, Part A, clause 7).

B. Transaction Monitoring and AUSTRAC Reporting Standard – clause 5.1, Appendix A (versions dated November 2019, March 2021 and May 2021) (**TMP Standard**).

C. The Star AML/CTF Transaction Monitoring Process Version 1.04 and The Star AML/CTF Transaction Monitoring Program Version 1.05.

(the **transaction monitoring programs**)

710. The transaction monitoring programs contained in the Joint Part A Programs provided for the following referrals, reports and alerts:
- a. manual referrals raised by Star Sydney or Star Qld employees based on observation;
 - b. manual reporting, reviewed by AML Administrators;
 - c. automated alerts raised by Transwatch prior to April 2021; and
 - d. automated alerts raised by TrackVia from April 2021.
711. From 30 November 2016, the transaction monitoring programs in the Joint Part A Programs did not comply with the requirements of rr9.1.3, 9.1.4, 15.4 to 15.7 of the Rules, by reason of the matters pleaded in paragraphs 713 to 791.
712. By reason of the matters pleaded in paragraph 711, the transaction monitoring programs did not comply with s85(2)(c) of the Act during the period from 30 November 2016.

Particulars

On 16 May 2018, KPMG advised SEG in its report that customers may be facilitating ML/TF through Star Sydney and Star Qld without being adequately detected and reported to law enforcement and AUSTRAC. KPMG rated this risk as high.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

The transaction monitoring programs were not aligned to an appropriate ML/TF risk assessment

713. At no time from 30 November 2016 were the transaction monitoring programs in the Joint Part A Programs aligned and proportionate to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services, having regard to the nature, size and complexity of their businesses and the ML/TF risks reasonably faced.

Particulars

Star Sydney and Star Qld did not appropriately identify and assess the inherent and dynamic ML/TF risks of its designated services.

Rules 9.1.3 and 9.1.4 of the Rules.

Paragraphs 93 to 191.

714. The ML/TF typologies and vulnerabilities pleaded at paragraph 25 included some indicia of transactions relating to designated services provided by Star Sydney and Star Qld that may have appeared to:
- a. be suspicious for the purposes of s 41 of the Act; and/or
 - b. involve unusual patterns of transactions, which had no apparent economic or visible lawful purpose.
715. In the absence of an appropriate assessment of their ML/TF risks, Star Sydney and Star Qld were unable to design transaction monitoring systems to appropriately detect transactions that may have been indicative of the ML/TF typologies and vulnerabilities pleaded at paragraph 25.
716. By reason of the matters pleaded at paragraphs 713 to 715, the transaction monitoring programs in the Joint Part A Programs did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 85(2)(c) of the Act and rule 15.5 of the Rules.

Manual referrals

717. At all times, any Star Sydney or Star Qld employee could raise a manual referral if the employee observed a customer or transaction that raised ML/TF risks (**manual referrals**).

Particulars

Manual referrals could be based upon an employee's own observations or on the review of surveillance data.

718. Manual referrals were escalated for review to the AML Administrators at Star Sydney and Star Qld by email, handwritten note or by telephone.
719. Escalation processes for manual referrals were ad hoc and were not capable of consistently or reliably escalating unusual or suspicious behaviour observed by Star Sydney or Star Qld employees
720. Star Sydney and Star Qld employees raised manual alerts at their discretion.
721. The Joint Part A Programs did not include appropriate guidance or criteria to assist Star Sydney or Star Qld employees in the exercise of their discretion to raise manual referrals.

Particulars

Prior to November 2019, Appendix F of the Joint Part A Programs included a list of red flags that might signal ML/TF. Appendix F did not comprehensively identify all the ML/TF typologies Star Sydney and Star Qld reasonably faced with respect to the full suite of

designated services it provided under both table 1 and table 3 of s6 of the Act. Nor did they appropriately address the ML/TF risks of designated services posed through the factors of customer, channel, and jurisdiction. Nor were many of these red flags capable of detection by observation.

From February 2019, the Joint Part A Programs included more detail on the red flags that might signal ML/TF. Similarly, from November 2019, Appendix B of the TMP Standards included more detail on the red flags that might signal ML/TF. However, many of these red flags were not capable of consistent detection by observation, and did not appropriately cover all ML/TF risks.

The Cage Standard Operating Procedures identified some matters that were to be considered suspicious and escalated to the AML Administrators, including where a customer refuses or does not provide KYC information in relation to a TTR; where Cage supervisor or above identifies a potential suspicion relating to an offence, tax evasion, or the proceeds of crime; where the casino suspects the customer or their agent is not the person they claim to be; or if a guest refuses to provide source of funds information details for 'large cash transactions' or if there is an additional red flag trigger.

Similarly, the Table Games Standard Operating Procedures provided that the Assistant Manager was required to submit a SMR in certain circumstances, including where a customer removed notes from a \$10,000 buy-in to bring the transactions under the TTR threshold; a customer was observed to be splitting \$10,000 buy-in between tables; a customer was observed to make multiple buy-ins without play or minimal play; notes are in poor condition or are presented in an unusual manner (wrapped in newspaper, carried in a cardboard box); or a customer provides cash to a friend or associate to perform transactions on their behalf.

Neither of these Standard Operating Procedures addressed the full scope of the ML/TF typologies or vulnerabilities with respect to the designated services facilitated through the Cage or at tables.

722. Star Sydney and Star Qld employees were unable to appropriately monitor the transactions of customers for the purposes of the transaction monitoring programs because they did not receive adequate ML/TF risk awareness training.

Particulars

Frontline staff were staff with customer facing roles relating to table games, gaming machines, surveillance, security, Cage functions and VIP.

In December 2018, AUSTRAC recommended to Star Sydney that it provide additional in-depth AML/CTF training for Table Game Supervisors and Managers, noting that Star Sydney places a significant responsibility on Table Games Supervisors and Managers to identify suspicious activity, and to also assist staff to identify such activity. AUSTRAC advised that the inclusion of both additional and

more in-depth scenarios, of potential money laundering or terrorism financing through table games in the Supervisors and Managers training guides may increase the likelihood of this activity being detected in all areas of the casino, including the international rebate play (junkets) area.

The AML Administrators did not receive appropriate risk awareness training.

Star Sydney's and Star Qld's training has not improved over time.

723. Manual referrals were not capable of detecting suspicious or unusual patterns of transactions or behaviours across complex transaction chains involving multiple designated services.

Particulars

See paragraphs 19 and 20.

Observational transaction monitoring processes were focussed on individual transactions, and were not capable of identifying the complex transaction chains within of which they were part.

Complex transaction chains involved both gaming (table 3, s6) and financial (table 1, s6) services, some of which were provided through non-face-to-face channels.

For example, see paragraphs 180, 285, 327, 340, 552, 556 and 655.

724. Manual referrals were not capable of detecting suspicious or unusual transactions through non-face-to-face channels.

Particulars

Designated services provided by Star Sydney and Star Qld included financial services under table 1, s6, some of which were provided through non-face-to-face channels.

Some gaming services under table 3, s6 were also provided through non-face-to-face channels, including through EGMs, ETGs and cashless wagering accounts.

725. Manual referrals were not capable of detecting suspicious transactions through EGMs and ETGs.

Particulars

Transactions on EGMs and ETGs were non-face-to-face channels. There was limited opportunity and scope for employee observation to detect unusual or suspicious transactional behaviour.

The ML/TF typologies and vulnerabilities of EGMs and ETGs were not capable of being consistently detected by observation.

726. Manual referrals were not capable of consistently monitoring for transactions that were indicative of the ML/TF typologies and vulnerabilities (as identified at paragraph 25 above).

Particulars

For example, ML/TF typologies such as offsetting and cuckoo smurfing were difficult to detect by observation.

727. The escalation and review of surveillance and security data at Star Sydney and Star Qld was ad hoc and not subject to appropriate guidance related to ML/TF risks.

Particulars

Surveillance and security failed to consistently detect and escalate highly suspicious cash transactions in private gaming rooms.

Paragraphs 616, 663 to 664 and 689.

728. By reason of the matters pleaded at paragraphs 717 to 727, the manual referrals were not capable of consistently identifying:

- a. transactions that may have had indicia of the ML/TF typologies and vulnerabilities (as identified at paragraph 25 above)
- b. transactions that may be suspicious for the purposes of s41 of the Act; and
- c. unusually large or unusual patterns of transactions, which had no apparent economic or visible lawful purpose.

Particulars

Rules 15.6 and 15.7 of the Rules.

729. Transaction monitoring reliant upon employee observation and manual referrals was not appropriate for businesses of the size, nature and complexity of Star Sydney and Star Qld.

Particulars

Rule 9.1.3 of the Rules.

Manual reports

730. Prior to November 2019, clause 14 of the Joint Programs in the transaction monitoring programs provided for the following manual reports:

- a. Cash transactions, or the daily drop report on gaming tables, to be generated by the AML Administrators.
- b. Cheques issued to customers, to be generated by the Cage;
- c. Account opening to detect customers who opened an FMA on the previous day, to be generated by the Cage;
- d. Foreign currency transactions, to be generated by the Cage;
- e. International funds transfer instructions, to be generated by the AML Administrators.

731. In addition to the reports pleaded at paragraph 730, AML Administrators ran a daily AUSTRAC Threshold Transaction Report.

Particulars

This report included all threshold transactions for a calendar day.

732. These reports referred to at paragraphs 730 and 731:

- a. were not produced for transaction monitoring purposes and therefore not intended to report on unusual transactions, behaviour or activity;
 - b. did not form part of a systematic transaction monitoring program.
733. By at least late 2018, the AML Administrators at Star Sydney and Star Qld received reports of cash transactions of \$100,000 or more.
734. From November 2019, the Star Sydney and Star Qld AML Administrators received, reviewed and circulated the following reports prior to attending the PAMM meeting:
- a. top 100 EGM players for the month;
 - b. top table games players for the month;
 - c. top players by win/loss (domestic); and
 - d. top players by win/loss (international).

Particulars

For a description of the PAMMs and JRAMs, see paragraph 818.

735. The Joint Part A Programs did not include any criteria or guidance against which the reports identified at paragraphs 730, 731, 733 and 734 were to be reviewed, for the purposes of identifying transactions that might be unusual.

Particulars

Rule 15.7 of the Rules.

736. The manual reports identified at paragraphs 730, 731, 733 and 734 did not apply to the full suite of designated services provided by Star Sydney and Star Qld.

Particulars

For example, there were no manual reports to monitor deposits into FMAs or SKAs via the Star Patron accounts or the international remittance channels.

737. The manual reports identified at paragraphs 730, 731, 733 and 734 were not capable of consistently monitoring for transactions that were indicative of the ML/TF typologies and vulnerabilities (as identified at paragraph 25 above).

Particulars

For example, no manual report was designed to detect structuring, cash-outs with minimal gaming, or third-party transfers through FMAs or Star Patron accounts.

738. The manual reports identified at paragraphs 730, 731, 733 and 734 were not capable of detecting suspicious or unusual patterns of transactions or behaviours across complex transaction chains involving multiple designated services.

Particulars

See paragraphs 19 and 20.

See for example, paragraphs 180, 285, 327, 340, 552, 556, and 655.

739. Manual monitoring processes in the Joint Part A Programs were inconsistently applied across Star Sydney and Star Qld.

Particulars

On 16 May 2018, KPMG advised SEG in its report that the manual transaction monitoring process was being inconsistently applied between the two reporting entities. This finding was rated high risk by KPMG.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

740. By reason of the matters pleaded at paragraphs 728 to 739, the manual reports identified at paragraphs 730, 731 and 734 were not capable of consistently identifying:
- a. transactions that may have had indicia of the ML/TF typologies and vulnerabilities (as identified at paragraph 25 above);
 - b. transactions that may be suspicious for the purposes of s41 of the Act; and
 - c. unusually large or unusual patterns of transactions, which had no apparent economic or visible lawful purpose.

Particulars

Rules 15.6 and 15.7 of the Rules.

741. Transaction monitoring reliant upon the manual reports identified at paragraphs 730, 731 and 734 was not appropriate for businesses of the size, nature and complexity of Star Sydney and Star Qld.

Particulars

Rule 9.1.3 of the Rules.

Automated transaction monitoring

742. Prior to the introduction of TrackVia in April 2021, Star Sydney's and Star Qld's transaction monitoring program was reliant upon the manual alerts and manual referrals.

Particulars

Paragraphs 717 to 740.

The 2013 recommendations from AUSTRAC

In 2013, AUSTRAC recommended that Star Sydney consider the feasibility of implementing automated red-flag indicators for reports that are analysed to enhance its transaction monitoring program.

AUSTRAC also recommended in relation to transaction monitoring of electronic gaming machines that Star Sydney consider increasing the

ratio of gaming machine attendants and supervisors to electronic gaming machines.

The 2018 recommendations from AUSTRAC

In 2018, AUSTRAC conducted a compliance assessment of Star Sydney's transaction monitoring and ECDD programs.

AUSTRAC concluded that Star Sydney had not implemented and applied a transaction monitoring program and an ECDD program in its AML/CTF program to meet the ongoing customer due diligence obligations, contrary to the Act and Rules.

AUSTRAC recommended to Star Sydney that they consider automated monitoring and reduce the dependency on manual monitoring. AUSTRAC advised Star Sydney that given nature, size and complexity of Star Sydney's business, the reliance on manual monitoring was not sustainable. AUSTRAC also advised there was scope to improve and expand on Star Sydney's recently introduced automated systems.

AUSTRAC recommended that Star Sydney move towards more fully automated programs including, but not limited to, implementing and developing automated processes to capture all customers (including un-carded and rebate players) in its transaction monitoring program.

In its 2018 recommendations, AUSTRAC identified the need to enhance Star Sydney's automated monitoring of EGM activity. AUSTRAC recommended that Star Sydney introduce additional automated monitoring rules to identify all customers inserting funds into EGMs and ETGs and immediately claiming those funds without any, or minimal, play.

AUSTRAC also advised that Star Sydney may benefit from expanding their TMP to look at cash transactions under \$9,000 to better detect structuring.

AUSTRAC acknowledged that the AML Administrator is alerted when a transaction involves \$100,000 or more in cash, and analysis is carried out on the customer and their activities. However, AUSTRAC advised that the transaction monitoring program would benefit from the alerting and review of other significant cash transactions, between the current amounts of \$10,000 and \$100,000.

743. From November 2016 to 31 December 2020, Star Sydney and Star Qld had an automated transaction monitoring system known as Transwatch.

Particulars

Transwatch was also used to conduct screening.

744. Transaction monitoring through Transwatch was not effective and was not maintained by Star Sydney or Star Qld through the Joint Part A Programs.

Particulars

Section 81 of the Act.

As at May 2018, Transwatch included 5 rules, being:

- A. Reporting avoidance, table game-only transactions between \$8,500 and \$9,999;
- B. Large cash deposits \$300,000 and above;
- C. Large cash withdrawals \$300,000 and above;
- D. High risk nationality; and
- E. Politically exposed persons (PEPs).

The rules at D and E consisted of no more than screening. There was no guidance as to what constituted a high risk nationality.

The rule intended to detect reporting avoidance on table game-only transactions between \$8,500 and \$9,999 was ineffective and was switched off.

The Transwatch rules were limited as they only applied to customers rated medium and above, who were included on the customer risk register.

The Transwatch rules did not pick up transactional activities (such as a cash deposit of \$300,000) by a low risk or unknown customer.

For customers rated medium and above, the system only picked up transactional activities if they related to table game transactions between of \$8,500 and \$9,999, or cash deposits or withdrawals of \$300,000 or above.

Customers who were Foreign PEPs who conducted non-cash transactions over \$300,000, or cash transactions under \$300,000 would not be picked up.

Transwatch was ineffective because it generated a significant number of false positives. This meant that the AML team deprioritised reviewing alerts and relied on manual referrals and manual reports.

Once a Transwatch alert was actioned, the alert disappeared and could not be retrospectively located. Assurance and audit of the Transwatch system was therefore not possible.

On 16 May 2018, KPMG advised SEG that the effectiveness of Transwatch was limited. This finding was rated high risk by KPMG.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

After the KPMG Report, SEG introduced an additional Transwatch rule targeting Cashless Wagering Accounts and no play in EGMs and

ETGs. This rule alerted when there was a full money withdrawal that is 25% of the original amount that was deposited into an electronic gaming machine.

SEG's automated transaction monitoring framework did not go live until April 2021. The uplift is ongoing.

745. From April 2021, the introduction of TrackVia gave Star Sydney and Star Qld the capability to develop automated transaction monitoring.

Particulars

The implementation of automated monitoring at Star Sydney and Star Qld is still ongoing.

746. On and from April 2021, automated transaction monitoring rules were developed by Star Sydney and Star Qld through TrackVia to monitor for unusual activity including with respect to the following:

- a. Minimal gaming with chip purchase, from April 2021;
- b. Dormant accounts, from April 2021;
- c. TITO ownership, from April 2021;
- d. Large cash transactions, from April 2021;
- e. Refining, from April 2021;
- f. Structuring, from April 2021;
- g. Out of pattern activity at the Cage with gaming or with accounts, from December 2021;
- h. Very high risk customers, including PEPs, from December 2021;
- i. Chip buy-ins, from December 2021; and
- j. Source of wealth, from December 2021.

Particulars

Automated rules are not yet functioning appropriately and require tuning and optimisation for outputs to be accurate. There is a significant backlog of alerts due to inadequate resourcing.

See also paragraph 756.

747. The automated alerts in the transaction monitoring programs were not capable of consistently monitoring for transactions of customers indicative of the following possible ML/TF typologies and vulnerabilities across the full suite of designated services provided by Star Sydney and Star Qld:

- a. structuring on FMAs and SKAs, including via the Star Patron account channels;
- b. cuckoo smurfing on FMAs and SKAs, including via the Star Patron account channels;
- c. smurfing through third party deposits on FMAs and SKAs, including via the Star Patron account channels;
- d. offsetting on FMAs and SKAs, including through the provision of credit via CCFs;

- e. other transactions on FMAs and SKAs involving third parties who are not the account holder;
- f. transaction patterns showing deposits and withdrawals on FMAs and SKAs within a short time frame;
- g. large holding balances or parked funds on FMAs and SKAs;
- h. even money betting and chip dumping;
- i. chip or CVI cashing with minimal or no gaming activity;
- j. gaming by a customer over time involving high turnover or high losses;
- k. bill stuffing with minimal gaming;
- l. chip walking/unknown source of chips;
- m. jackpot purchases; and
- n. loan sharking.

Training

748. Star Sydney and Star Qld employees were unable to appropriately monitor the transactions of customers for the purposes of the transaction monitoring program because they did not receive adequate ML/TF risk awareness training.

Particulars

Frontline staff were staff with customer facing roles relating to table games, gaming machines, surveillance, security, Cage functions and VIP.

The observational procedures in the transaction monitoring programs relied on frontline staff.

In December 2018, AUSTRAC recommended to Star Sydney that it provide additional in-depth AML/CTF training for Table Game Supervisors and Managers, noting that Star Sydney places a significant responsibility on Table Games Supervisors and Managers to identify suspicious activity, and to also assist staff to identify such activity. AUSTRAC advised that the inclusion of both additional and more in-depth scenarios, of potential money laundering or terrorism financing through table games in Supervisors and Managers training guides may increase the likelihood of this activity being detected in all areas of the casino, including the international rebate play (junkets) area.

Star Sydney's and Star Qld's training has not improved over time.

749. The Joint Part A Programs did not provide for appropriate ML/TF risk awareness training for Star Sydney and Star Qld employees for the following reasons:
- a. As Star Sydney and Star Qld did not carry out appropriate ML/TF risk assessments, their risk awareness training did not adequately cover the ML/TF risks reasonably faced with respect to designated services.

Particulars

Part 9.2 of the Rules.

- b. The training modules did not cover all of the ML/TF typologies and vulnerabilities pleaded at paragraph 25 above.

Particulars

Part 9.2 of the Rules.

AML/CTF risk awareness training was not tailored to the ML/TF risks relevant to different employee roles and functions.

The AML Administrators did not receive appropriate risk awareness training.

AML/CTF risk awareness did not cover key risks and risk factors. Key ML/TF risks and typologies were missing from training modules or were not meaningfully addressed.

- c. The AML/CTF risk awareness training provided to Star Sydney and Star Qld employees was the same or very similar regardless of the different roles and functions of employees.

Particulars

Part 9.2 of the Rules.

The AMLCO, AML Administrators, and frontline staff did not receive training appropriate to their roles and functions.

Resourcing

750. The resourcing of the AML functions did not support the consistent generation, review and actioning of systems-generated or exception-based reports as required by the transaction monitoring program.

Particulars

As at 2019, the AML team comprised of 3 FTE. As at August 2022, there are 31 FTE in the AML team.

In 2013, AUSTRAC compliance assessment recommendations to Star Sydney noted that a large portion of the responsibility for ensuring ongoing compliance with Star's obligations under the Act rested with one person, the AML/CTF Administrator, whose duties included transaction monitoring and submission of reports under Part 3 of the Act. AUSTRAC expressed the view that this AML/CTF resourcing was disproportionate to the size, nature and complexity of Star Sydney's business operations. AUSTRAC recommended that Star Sydney give consideration to providing more personnel and electronic resources to assist the AML/CTF Administrator with their responsibilities.

In 2018 AUSTRAC again recommended that Star Sydney increase resourcing for its AML/CTF function. AUSTRAC noted that despite the high volume and value of transactions conducted at Star Sydney, there is only one full-time staff member that had

day-to-day responsibility for overseeing transaction monitoring and reporting obligations.

The transaction monitoring programs were not supported by appropriate information management systems

751. From 30 November 2016 Protecht and TrackVia were used by Star Sydney and Star Qld to facilitate transaction monitoring with respect to designated services.

Particulars

The AML Administrator would manually check the Protecht system, TrackVia and Synkros systems when new risk information became available any time that a trigger arises, for example during transaction monitoring.

752. For the reasons pleaded at paragraphs 753 to 765, Synkros did not contain complete or reliable records of transactions relating to designated services provided under table 1 and 3, s6 of the Act.

Table games, EGMs and ETGs

753. Synkros did not contain complete or reliable transactional data from table games, EGMs and ETGs for the reasons pleaded at paragraphs 566 to 569.

754. The transaction monitoring programs were unable to attribute uncarded transactions involving table 3, s6 designated services to individual customers.

Particulars

This limited Star Sydney's and Star Qld's ability to identify unusual or suspicious matters, for example, buy-ins with little or no corresponding gaming activity.

755. From 30 November 2016 to December 2020, Game Connect data was used to trigger the 'Reporting avoidance, table game-only transactions between \$8,500 and \$9,999 automated alert' in Transwatch. This did not apply to uncarded transactions that were not recorded in Game Connect.
756. From April 2021 Game Connect data was used to trigger the following transaction monitoring automated alerts in TrackVia (this did not apply to uncarded transactions that were not recorded in Game Connect):
- a. Large Cash Transactions;
 - b. Chip cash out with no play;
 - c. Structuring for Multiple transactions;
 - d. Structuring Near Threshold Transactions;
 - e. Minimal gaming;
 - f. Very high Risk/PEP;
 - g. Out of pattern transactions (Gaming);
 - h. Out of pattern Cage transactions;
 - i. Chip buy in with no chip purchase;

- j. Front Money transfer of value;
- k. Passport from specified countries.

Particulars

A June 2022 assessment reported that no automated transaction monitoring controls exist for non-carded players.

Transactions under \$10,000

757. At all times, Synkros contained limited records of transactions under \$10,000 conducted by customers at Star Sydney and Star Qld:
- a. At Star Sydney:
 - i. Records of buy-in transactions at buy-in desks below \$10,000 were not kept in Synkros unless the customer elected to play carded (that is, against a membership account or a loyalty account for the Star Club).
 - ii. Records were not kept in Synkros of cash-out transactions below \$10,000 for any customer (that is, regardless of whether the customer elected to play carded or not).
 - b. At Star Qld:
 - i. Records of buy-in transactions at buy-in desks below \$10,000, and cash-out transactions below \$10,000, were not kept in Synkros for any customer who elected to play uncarded.
 - ii. Records were not kept in Synkros of cash-out transactions below \$10,000 for any customer (that is, regardless of whether the customer elected to play carded or not).
 - iii. Records of buy-in transactions of \$5,000 or more were made if a membership card is supplied.
758. By reason of the matters pleaded at paragraph 757:
- a. the automated alerts did not appropriately cover transactions under \$10,000; and
 - b. monitoring of table 3 designated services under \$10,000 was limited to the manual alerts based on observations of Star Sydney and Star Qld staff.
759. By reason of the matters pleaded at paragraph 758, the transaction monitoring program was unable to appropriately monitor:
- a. for transactions that were structured to avoid reporting of cash transactions of \$10,000 or above; and
 - b. a customer's turnover that exceeded \$10,000 in any one session of play, where buy-in or cash-out transactions were under \$10,000.

FMA's and SKA's

760. Star Sydney and Star Qld did not record certain transactional details on Synkros in relation to transfers into or from FMA's and SKA's via the Star Patron accounts or in relation to transfers between FMA's.

Particulars

Star Sydney and Star Qld did not record in Synkros the details of the person who deposited or withdrew the funds or to whom the funds were transferred. Records of the person who deposited or withdrew the funds were kept separately in hard copy.

Records of transactions related to junkets

761. Records of transactions related to designated services provided through junket channels were not reliable or complete for the reasons pleaded at paragraphs 666 to 670 and 689(d).

Not all designated services recorded on Synkros

762. Synkros did not contain a complete or reliable record of transactions relating to all designated services provided by Star Sydney and Star Qld:
- a. Synkros did not capture transactional data from poker tournaments.

Particulars

Paragraphs 57 and 571.

- b. Transactions under \$1,000 involving the exchange of one currency for another were not recorded in Synkros.
- c. The redemption of vouchers for cash at cash redemption terminals was not recorded in Synkros against a customer account.

Transactional and risk records for customers not centralised

763. At all times, records relating to customers (including KYC information, risk profile information and transaction data) were dispersed across multiple IT systems and hard copy records.

Particulars

Transaction and customer data retrieval and reporting was siloed and did not address basic AML/CTF compliance monitoring and reporting needs. Data was available, but it was inconsistently entered and maintained. Data quality issues existed within the AML/CTF function and there was limited or ad hoc data quality monitoring for AML/CTF purposes.

Synkros records for FMA and SKA transactions did not include the transferor/transferee information.

Gaming activity for junkets was recorded separately in Synkros and IRBMS for different purposes.

Customer risk information was split across four databases, being OnBase, iBase, Protecht and Trackvia.

764. Star Sydney and Star Qld were unable to automatically collate transaction data where a customer had multiple accounts.

Particulars

From 2016, Star Sydney and Star Qld began to merge multiple accounts held by customers in certain circumstances.

Transactional data from two or more accounts could not be merged. Data such as cheque history or deposits/withdrawals to FMAs would be retained in Synkros for one of the merged accounts only. This data would not be retained on Synkros for the other accounts that had been merged.

See paragraph 848.

Also see Customer 45.

765. By reason of the matters pleaded at paragraphs 751 to 764, the transaction monitoring processes did not have a full view of a customer's transactions as against a complete customer risk profile.
766. A reporting entity cannot consistently identify transactions that may be:
- a. suspicious for the purposes of s41 of the Act; or
 - b. unusually large or involve unusual patterns with no apparent economic or visible lawful purpose,
- in the absence of appropriate KYC information relating to the customer conducting the transaction.
767. By reason of the matters pleaded at paragraphs 751 to 766, from 30 November 2016, the transaction monitoring programs in the Joint Part A Programs were not aligned to the nature, size and complexity of Star Sydney's and Star Qld's business, having regard to the ML/TF risks they reasonably faced.

Particulars

Rule 9.1.3 of the Rules.

768. By reason of the matters pleaded at paragraphs 751 to 767, from 30 November 2016, the transaction monitoring programs in the Joint Part A Programs did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Rules 9.1.3, 9.1.4, 15.5, 15.6 and 15.7 of the Rules.

The transaction monitoring program was not capable of appropriately monitoring financial services or gaming account transactions

769. From 30 November 2016, the transaction monitoring program in the Joint Part A Programs did not include appropriate risk-based systems and controls to monitor the transactions of customers in relation to:
- a. items 6 and 7, table 1, s6 designated services with respect to loans or credit;
 - b. item 13, table 3, s6 designated services with respect to gaming accounts; and
 - c. items 31 and 32, table 1, s6 designated services with respect to remittance
- by reason of the matters pleaded at paragraphs 770 to 782.

Particulars

Rules 9.1.3, 15.5, 15.6 and 15.7 of the Rules.

Loans or credit

770. From 30 November 2016, the transaction monitoring programs in the Joint Part A Programs did not include any risk-based systems and controls to monitor the transactions of customers with respect to designated services under items 6 and 7 of table 1, s6 of the Act.

Particulars

The transaction monitoring programs did not include any processes that were expressed to apply to items 6 and 7, table 1, s6 designated services, namely the provision and repayment of credit via CCFs.

The transaction monitoring programs did not include any processes that were expressed to apply to CCF accounts.

The transaction monitoring program did not include or incorporate any processes that were capable of monitoring items 6 and 7, table 1, s6 designated services, having regard to the ML/TF risks pleaded at paragraph 552.

The Credit and Collections team, who facilitated CCFs, did not monitor for transactions that may be suspicious or unusual, having regard to ML/TF risks.

See paragraphs 713 to 768.

FMA, SKAs and CWAs

771. From 30 November 2016, the transaction monitoring programs in the Joint Part A Programs did not include appropriate risk-based systems and controls to monitor the transactions of customers with respect to designated services under items 11 and 13 table 3, s6 of the Act, by reason of the matters pleaded at paragraphs 772 to 776 below.

Particulars

Items 11 and 13, table 3, s6 designated services were provided with respect to FMAs, SKAs and CWAs.

See paragraphs 713 to 768.

772. The transaction monitoring programs did not include appropriate risk-based systems and controls to consistently monitor the provision of items 11 and 13, table 3, s6, designated services to customers for the purposes of identifying any transactions that may be suspicious or unusual, having regard to:
- a. The ML/TF risks pleaded at paragraph 285 with respect to FMAs and SKAs; and
 - b. The ML/TF risks pleaded at paragraph 303 with respect to CWAs.
773. The transaction monitoring programs did not include appropriate risk-based procedures to consistently monitor FMAs and SKAs for item 13, table 3, s6 transactions potentially indicative of the ML/TF typologies pleaded at paragraph 25 (a), (b), (f), (g), (v), (w) and (x).
774. Transaction monitoring was limited because Star Sydney and Star Qld did not record key transactional details on Synkros in relation to transfers into or from FMAs and SKAs, including transactions via the Star Patron accounts or in relation to transfers between FMAs.

Particulars

Star Sydney and Star Qld did not record in Synkros the details of the person who deposited or withdrew the funds or to whom the funds were transferred. Consequently, third party transactions were not capable of being monitored over time.

Synkros was limited in its ability to record the form of withdrawal in relation to SKAs. The form of withdrawal recorded in Synkros had to be the same as the form of the previous deposit made into the SKA.

775. Star Patron account bank statements were not subject to automated transaction monitoring. Any monitoring of the statements needed to occur manually by Cage staff, at the time of accounting for the deposits in the FMAs.
776. The transaction monitoring programs in the Joint Part A Programs did not:
- a. refer to CWAs until February 2019; and
 - b. apply appropriate risk-based transaction monitoring to CWAs at any time.

Particulars

The TrackVia automated monitoring alerts did not include any alerts targeting the CWA account type.

The lack of automation and real time monitoring, reliance on manual processes, under-resourcing of the AML team, and a lack of staff training also resulted in inadequate review of CWA transactions, including a backlog of TrackVia alerts.

Items 31 and 32, table 1, s6 remittance services

777. From 30 November 2016, the transaction monitoring programs in the Joint Part A Programs did not include appropriate risk-based systems and controls to monitor the transactions of customers with respect to designated services under items 31 and 32 table 1, s6 of the Act, by reason of the matters pleaded at paragraphs 778 to 782 below.

Particulars

See paragraphs 713 to 768.

778. The transaction monitoring programs did not include appropriate risk-based systems and controls to consistently monitor the provision of items 31 and 32, table 1, s6 designated services to customers for the purposes of identifying any transactions that may be suspicious or unusual, having regard to the ML/TF risks pleaded at paragraphs 327, 328 and 340.
779. The transaction monitoring program did not provide for appropriately risk-based automated processes to monitor the provision of items 31 and 32, table 1, s6 designated services to customers, including through the Star Patron account channel.

Particulars

Paragraphs 746, 774 and 775; and paragraphs 327, 328 and 340

780. The transaction monitoring programs did not include appropriate risk-based systems and controls to consistently monitor the provision of items 31 and 32, table 1, s6 designated services to customers through the Customer 9 channels.

Particulars

See from paragraph 391.

781. The transaction monitoring programs did not include appropriate risk-based systems and controls to consistently monitor the provision of items 31 and 32, table 1, s6 designated services to customers through third party remitters.
782. The manual and observational monitoring processes in the transaction monitoring programs were not capable of consistently monitoring items 31 and 32, table 1, s6 designated services for the purposes of identifying suspicious or unusual transactions.

Transactions facilitated through junkets

783. From 30 November 2016, the transaction monitoring program in the Joint Part A Programs did not include appropriate risk-based systems and controls to monitor the transactions of customers receiving designated services through junket and rebate channels, for the reasons pleaded at paragraphs 784 to 789.

Particulars

Rules 9.1.3, 15.5, 15.6 and 15.7 of the Rules.

See paragraphs 713 to 768.

784. The transaction monitoring programs did not include appropriate risk-based systems and controls to consistently monitor the provision of designated services to customers through junket and rebate channels for the purposes of identifying any transactions that may be suspicious or unusual, having regard to the ML/TF risks pleaded at paragraph 650.

Particulars

Customers who received designated services through junket and rebate channels were subject to the same standard monitoring applied to all other customers.

785. The transaction monitoring programs did not include appropriate risk-based systems and controls to monitor transactions relating to table 1, s6 designated services (loans and remittance) provided through junket channels.

Particulars

Any review of junket transactions by VIP Services and/or the Credit Collections team was not for the purpose of identifying, mitigating or managing ML/TF risks.

See paragraphs 770 and 777 to 782.

786. The transaction monitoring programs did not include appropriate risk-based systems and controls to monitor deposits to FMAs and SKAs through Star Patron accounts on behalf of junket operators, representatives or players.

Particulars

See paragraphs 774 and 281.

787. The transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers relating to designated services facilitated through junket and rebate channels in private gaming rooms.

Particulars

Monitoring of transactions within private gaming rooms was largely limited to staff observation and surveillance.

CCTV or surveillance could not be used, on its own, to effectively monitor the transactions of customers in private gaming rooms for known ML/TF risks.

Paragraph 616, 663 to 665 and 689(a).

788. The transaction monitoring programs were not able to fully monitor designated services provided through junket and rebate channels because Star Sydney and Star Qld did not make or keep appropriate records of transactions conducted by key players.

Particulars

Paragraphs 666 to 670. See also paragraph 650.

789. The manual processes in the transaction monitoring program were not appropriate risk-based controls for monitoring transactions relating to designated services provided through the junket channel.

The transaction monitoring program did not include appropriate risk-based systems and controls to monitor transactions through the Hotel Card channel

790. From 30 November 2016 to February 2022, the transaction monitoring program in the Joint Part A Programs did not include appropriate risk-based systems and controls to monitor the transactions of customers who received designated services through the Hotel Card channel:
- a. Star Sydney and Star Qld did not keep central records of Hotel Card transactions.
 - b. Hotel Card funds became commingled with other funds and transactional activity at the point it was credited into the customer's FMA.
 - c. No monitoring was conducted specifically on the origin of the Hotel Card funds.
 - d. As a result, Star Sydney and Star Qld were unable to identify, mitigate and manage unusual or suspicious activity connected to the Hotel Card channel.

Particulars

Rules 9.1.3, 15.5, 15.6 and 15.7 of the Rules.

The transaction monitoring programs did not include appropriate assurance processes

791. The transaction monitoring programs in the Joint Part A Programs did not include or incorporate appropriate risk-based systems and controls for assurance.
- a. There were no quality assurance processes at the operational level, such a 'four eye check' or peer review, to confirm that processes in the transaction monitoring program (such as review of manual reports) were being applied correctly.
 - b. There were no controls for reviewing whether transaction monitoring criteria or reporting were capturing behaviours of concern, including new or changed behaviours.
 - c. There were no controls to ensure that updates to ML/TF risk assessments or material changes to ML/TF risk profile were recognised in the transaction monitoring programs.
 - d. There was no periodic review of the overall transaction monitoring framework to ensure that escalation and decision-making processes were effective and being consistently

applied, and that the transaction monitoring programs were properly aligned to other AML/CTF systems and controls.

Particulars

Sections 85(2)(a) and (c) of the Act and rules 9.1.3 and 15.5 of the Rules.

The Joint Part A Programs - Enhanced customer due diligence program

792. At all times from 30 November 2016, Star Sydney and Star Qld were required by the Act and Rules to:
- a. include an enhanced customer due diligence (**ECDD**) program in their Part A Program that complies with the requirements of the Rules;
 - b. apply the ECDD program when:
 - i. Star Sydney and Star Qld determines under its risk-based systems and controls that the ML/TF risk is high;
 - ii. a designated service is being provided to a customer who is or who has a beneficial owner who is, a foreign PEP; or
 - iii. a suspicion has arisen for the purposes of s41 of the Act; and
(the **ECDD triggers**).
 - c. include appropriate risk-based systems and controls in their ECDD program so that, in cases where one or more of the circumstances identified in paragraph b above arises, Star Sydney and Star Qld were required to undertake measures appropriate to the circumstances, including the range of measures in rule 15.10 of the Rules (**ECDD measures**), including but not limited to:
 - i. clarify or update KYC information already collected from the customer;
 - ii. clarify or update beneficial owner information already collected from the customer;
 - iii. obtain any further KYC information or beneficial owner information, including, where appropriate, taking reasonable measures to identify the customer's source of wealth and funds and the beneficial owner's source of wealth and funds;
 - iv. undertake a more detailed analysis of the customer's source of wealth and funds and the beneficial owner's source of wealth and funds;
 - v. undertake more detailed analysis and monitoring of the customer's transactions;
 - vi. seek senior management approval for continuing a business relationship with the customer and whether a designated service should continue to be provided to a customer; and
 - vii. consider whether a transaction or particular transactions should be processed.

Particulars

Section 85(2)(c) of the Act and rules 1.2.1 (definition of KYC information), 9.1.3 and 9.1.4, 15.8 to 15.11 of the Rules.

793. An ECDD program must include appropriate systems and controls to apply ECDD measures to customers falling within rules 15.9(1) and (2) from time to time, on a risk-basis.

Particulars

Sections 36, 85(2)(a) and (c) of the Act and rules 9.1.3, 9.1.4, 9.1.5, 15.9 and 15.10 of the Rules.

794. At all times, the Star Sydney and Star Qld Joint Part A Programs included an enhanced customer due diligence program (**the ECDD Programs**).

Particulars

Prior to November 2019, the ECDD Program was set out in clause 16 or 17 of the Joint Part A Programs.

From November 2019, the ECDD Program was set out in:

A. Clause 7 of the Joint Programs;

B. The ECDD Standard; and

C. The AML/CTF Standard Operating Procedures.

795. By reason of the matters pleaded in paragraph 797 to 852, the ECDD Programs in the Joint Part A Programs did not comply with rules 15.8 to 15.11 of the Rules from 30 November 2016.
796. By reason of the matters pleaded in paragraph 795, the Joint Part A Programs did not comply with s 85(2)(c) of the Act from 30 November 2016.

Systems and controls to determine when a customer should be referred for ECDD

797. From 30 November 2016, the ECDD Programs did not include appropriate systems, controls and procedures for Star Sydney and Star Qld to apply ECDD to customers, as and when appropriate on a risk-basis, who were:
- a. determined to pose high ML/TF risk;
 - b. foreign PEPs or had a beneficial owner who was a foreign PEP; or
 - c. the subject of a suspicion that had arisen for the purposes of s41 of the Act
- for the reasons set out at paragraphs 798 to 801 below.

Customers who were presenting high ML/TF risks

798. From 30 November 2016, the ECDD Programs did not include appropriate risk-based systems, controls and procedures for Star Sydney and Star Qld to identify customers who were required to have an automatic high risk or very high risk rating under the Joint Part A Programs, or who were presenting high ML/TF risks, and to escalate them for ECDD as and when appropriate on a risk basis:
- a. Screening through World Check or Dow Jones was relied upon to identify customers who were high risk or very high risk.

Particulars

Paragraph 114.

- b. Screening processes were not capable of consistently identifying customers who were high risk or very high risk.

Particulars

Paragraphs 127 to 133.

- c. The Joint Part A Programs did not include an appropriate methodology for identifying high customer risk, for the reasons pleaded at paragraph 88.
- d. Other processes for referring customers to the AML Administrator for consideration of their risk rating were predominantly reliant on observational processes and were not capable of consistently identifying customers who were high risk or very high risk.

Particulars

Paragraphs 136 to 143.

- e. As the Joint Part B Programs provided for safe-harbour ACIP only, customers who should have been rated high or very high risk were not capable of being consistently identified and referred for ECDD.

Particulars

Paragraph 867.

- f. There were no appropriate risk-based processes to determine in what circumstances further KYC information should be collected, and what type of KYC information should be collected, in respect of a customer to enable the review and update of KYC information for ongoing customer due diligence purposes.

Particulars

Rule 15.2 of the Rules.

Paragraphs 146 to 156.

- g. There were no appropriate risk-based processes for keeping, updating and reviewing documents, data or information collected under an ACIP, particularly in relation to high risk customers.

Particulars

Rule 15.3 of the Rules.

Paragraphs 146 to 156.

- h. The transaction monitoring programs were not capable of consistently identifying and escalating customers engaging in unusual or suspicious transactions, in particular:
 - i. The transaction monitoring programs were not capable of identifying and escalating customers who moved money through complex transaction chains involving both table 1 (financial) and table 3 (gaming) s6 designated services.
 - ii. The transaction monitoring programs were not capable of identifying and escalating customers whose transactions involved third parties or agents.
 - iii. The transaction monitoring programs had limited application to customers who were transacting under \$10,000 and who had not been the subject of ACIP. It had limited capacity to identify customers engaging in structuring.

- iv. The transaction monitoring programs had limited application to customers who were transacting uncarded.
- v. Dispersed data sources for customer information limited Star Sydney's and Star Qld's ability to understand a customer's transactional activity and to determine whether any particular activity was unusual.

Particulars

Paragraph 763

- vi. There were no procedures in the transaction monitoring program requiring escalation of customers where transactions indicating high risk had been detected.
- i. Reliance on observational processes by staff to refer potentially higher risk customers to the AML Administrators were not capable of consistently identifying high risk or very high risk customers requiring ECDD.
 - i. These processes were reliant upon the AML training received by staff, which was not adequate.
 - ii. The process for referrals was ad hoc and occurred via email, written notes or UARs.

Particulars

Paragraph 718.

- j. There were no processes in place for the Credit and Collections or VIP Services teams to consistently refer customers to the AML Administrator for ECDD when, during the course of a credit risk assessment, matters relevant to the customer's risk were identified.
- k. In addition, the AML team did not have access to OnBase, the database maintained by the Credit and Collections team, and on which records related to screening and creditworthy checks were held.
- l. There were no processes to consistently refer customers presenting higher ML/TF risks to the JRAM/PAMM.

Particulars

Rule 15.9(1) of the Rules.

Customers who had been rated high risk or very high risk

799. From 30 November 2016 to 1 December 2021, the ECDD Programs did not include appropriate systems, controls and procedures for Star Sydney and Star Qld to escalate customers who had been rated high risk or very high risk for ECDD as and when appropriate on a risk basis, for the following reasons:
- a. At all times prior to November 2019, the AMLCO maintained an ECDD list for the purposes of the ECDD Program.

Particulars

Clauses 16 and 17 of the Joint Programs prior to February 2018.

- b. Prior to November 2019, the Joint Part A Programs required the AMLCO to review the customer risk register annually to add customers to the ECDD list who were rated high risk.
- c. This process for adding high risk customers to the ECDD list was too infrequent and did not involve a referral of the customer for full ECDD.
- d. From April 2021, if updated information relating to a high or very high risk customer was entered into the customer risk register, a referral to the ECDD team was to be completed in TrackVia, who escalated the customer to the AMLCO.
- e. However, at no time did the Joint Part A Programs contain appropriate risk-based procedures to ensure that information material to a customer's risk profile was consistently and reliably added to the customer risk register.

Particulars

Paragraphs 157 and 851.

- f. From July 2021, customers with a very high risk rating were subject to a full ECDD process annually.

Particulars

The AML SOPs.

- g. From 1 December 2021 an automated transaction monitoring rule was deployed to alert the AML team on a daily basis to customers who have been assigned a very high risk rating. The AML Team reviews the alerts to assess the transaction monitoring case and to decide whether to refer the customer to the Due Diligence team (within the AML team) for ECDD.

Particulars

Rule 15.9(1) of the Rules.

See paragraph 115 for the class of customers who might be considered very high risk.

See paragraph 793.

See paragraphs 798c to k.

Foreign PEPs

- 800. From 30 November 2016, the ECDD Programs did not include appropriate systems, controls and procedures for Star Sydney and Star Qld to consistently identify and escalate customers who were foreign PEPs for ECDD as and when required on a risk basis, for the following reasons:
 - a. Foreign PEPs were required to be rated high or very high.
 - b. Screening was relied upon to detect customers who were foreign PEPs.
 - c. Screening processes were limited by reason of the matters pleaded at paragraph 127 to 133.
 - d. There were no processes in place for the Credit and Collections or VIP Services teams to consistently refer customers to the AML/Financial Crime teams for ECDD when,

during the course of a credit risk assessment for a CCF, the customer was identified as a foreign PEP.

- e. In addition, the AML team did not have access to OnBase, the database maintained by the Credit and Collection team, and on which records related to screening and credit worthy checks were held.
- f. In most instances, foreign PEPs could only be identified if they:
 - i. used a Star Club membership card. Uncarded play by foreign PEPs could not be reliably or consistently detected; or
 - ii. transacted AUD 10,000 or more, or AUD1,000 or more in foreign currency, and were subject to ACIP.
- g. Observational processes by Gaming and Surveillance and the AML team were not capable of consistently identifying foreign PEPs.
- h. From 1 December 2021 an automated transaction monitoring rule was deployed to alert the AML team on a daily basis to customers who had already been assigned a foreign PEP rating. The AML team reviews the alerts to assess the transaction monitoring case and to decide whether to refer the customer to the Due Diligence team for ECDD.

Particulars

For example, Customer 1 funded junkets at Star Sydney and Star Qld between 2016 and 2020 and was a foreign PEP during this time. SEG did not detect that Customer 1 was a foreign PEP until March 2020. Junkets funded by Customer 1 recorded a turnover exceeding \$12.6 billion at Star Sydney and exceeding \$2.9 billion at Star Qld.

Rules 8.1.3, 15.9(2) and 15.11 of the Rules.

See paragraphs 798c to f.

Customers in respect of whom a s41 suspicion had arisen

- 801. From 30 November 2016 to April 2021, the ECDD Programs did not include appropriate systems, controls and procedures for Star Sydney and Star Qld to escalate customers for appropriate ECDD when a s41 suspicion arose.
 - a. Since April 2021, upon submission of an SMR TrackVia will automatically generate a referral for an ECDD to be completed by the Due Diligence team. The results of the ECDD are then recorded in TrackVia.
 - b. Prior to the introduction of TrackVia in April 2021, UAR workflows were not clearly mapped to ECDD and did not require UARs to be actioned and finalised.
 - c. Prior to April 2021, the AML Administrators were expected to initiate ECDD at the same time that an SMR was reported. However:
 - i. in the absence of appropriate guidance, criteria and resources, there was little to no review of the customer beyond that involved in submitting the SMR; and
 - ii. in substance, there was no process to conduct appropriate risk-based ECDD when a s41 suspicion arose.

Particulars

Rule 15.9(3) of the Rules.

Systems and controls to determine what ECDD measures would be undertaken

802. From 30 November 2016, the ECDD Programs did not include systems and controls to carry out appropriate risk-based ECDD measures once a customer had been referred for ECDD, for the reasons pleaded at paragraphs 803 to 807.

Resources and accountabilities

803. Under the Joint Part A Programs, the following staff at Star Sydney and Star Qld were responsible for ECDD on and from 30 November 2016:
- a. The AML Administrators, who were primarily responsible for the conduct of ECDD prior to July/August 2022;
 - b. The AMLCO, who would review ECDD results only, rather than conduct it;
 - c. The JRAM;
 - d. ECDD analysts within the Due Diligence and Intelligence, AML team from July/August 2022; and
 - e. Group Manager Due Diligence and Intelligence from 2021.

Particulars

From 1 November 2019, the ECDD Standard (Appendix 2) provided that the AML Administrators were responsible for carrying out ECDD.

From 2021, the Group Manager Due Diligence was responsible for managing the ECDD process and reviewing any escalations which may arise from ECDD screening and if appropriate, could escalate a customer to the AMLCO or recommend to the AMLCO that a WOL be issued with respect to all SEG casino properties.

From August 2022, the ECDD Standard (Appendix 2) provided that the ECDD analysts were responsible for carrying out ECDD.

The accountabilities and role of the JRAM with respect to ECDD were not clearly set out in the Joint Part A Programs or supporting procedures.

The JRAM was a management committee that did not have an expert driven approach to AML.

804. The roles and responsibilities established by the Joint Part A Programs did not provide for appropriate resourcing for the conduct of ECDD, having regard to the nature, size and complexity of Star Sydney and Star Qld and the ML/TF risks they reasonably faced.

No procedures requiring ECDD to be undertaken when an ECDD trigger occurred

805. From 30 November 2016 to 1 November 2019, the Joint Part A Programs did not require appropriate ECDD to be undertaken in each case where a customer met the criteria in r15.9(1), (2) or (3) of the Rules.

- a. Prior to February 2019, the Joint Part A Programs provided that for each customer on the ECDD list, the AMLCO would consider whether any useful purpose would be served by taking some of the ECDD measures specified in r15.10 of the Rules and, if so, would nominate a delegate (the AML Administrator) to undertake the steps.

Particulars

Clause 16 or 17 of the Joint Part A Programs.

In December 2018 AUSTRAC noted this procedure and required Star to amend its ECDD Program to make it clear that, when a circumstance described in Part 15.9 of the AML/CTF Rules arises, Star must apply its ECDD program.

- b. Prior to November 2019, the Joint Part A Programs provided that consultation with the relevant managers, or more broadly within SEG, was required in order to carry out ECDD measures and to make determinations and seek approvals in relation to a customer, including whether to continue a business relationship:
 - i. The AML Administrator did not have appropriate independence or authority to undertake ECDD measures and deference was given to business units whose focus was not on AML/CTF.
 - ii. This process inhibited the independent and consistent assessment of customer risk.

Particulars

Clause 17 of the Joint Part A Programs.

- c. Prior to 1 November 2019, the Joint Part A Programs provided that the AML Administrator was obliged only to endeavour to:
 - i. obtain or clarify further KYC information;
 - ii. clarify the nature of the customer's business relationship;
 - iii. identify or analyse the customer's source of wealth or source of funds (see paragraph 808 below);
 - iv. obtain further clarifying information through occupation details, WorldCheck and other searches.

Particulars

Clause 17 of the Joint Part A Programs.

ECDD measures for foreign PEPs

- 806. Whilst the ECDD Programs stated that certain ECDD measures would be undertaken with respect to foreign PEPs, there were no processes requiring Star Sydney and Star Qld to appropriately and consistently:
 - a. undertake more detailed analysis of the foreign PEP's KYC information, including where appropriate, taking reasonable measures to identify the customer's source of funds and wealth prior to 1 November 2019; and

Particulars

In May 2018, KPMG advised that for foreign PEPs, other than a World-Check or Google search, no investigation into the customer's source of wealth or funds was being conducted.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

- b. ensure senior management approval would be sought for a continuing business relationship with the foreign PEP and whether a designated service should continue to be provided to the foreign PEP.

Particulars

Rules 15.9(2) and 15.11.

At all times, the Joint Part A Programs required foreign PEPs to be escalated to senior management for approval for a continuing business relationship.

Prior to November 2019, the Joint Part A Programs did not identify who within senior management foreign PEPs were to be escalated to.

Prior to November 2019, the Joint Part A Programs provided that moderate to significant exposure to ML/TF risks (including foreign PEPs), generally, required discussion at JRAM, as well as AMLCO sign off: see Appendix C, clause 1.4 of versions 4-6; Appendix B, Part 2 of versions 7-8 and paragraph 123.

From November 2019, foreign PEPs were to be escalated to the AMLCO for consideration of whether to continue a business relationship or if additional KYC information should be obtained.

The JRAM processes for determining whether to continue an ongoing business relationship with a customer were not appropriately risk-based.

Prior to August 2021, there is little evidence of foreign PEPs being identified and escalated through JRAM, through the AMLCO, or otherwise, for consideration as to whether Star Sydney or Star Qld should continue an ongoing business relationship.

Inadequate procedures or guidance appropriately addressing the suite of ECDD measures specified by the Rules

- 807. From 30 November 2016, the ECDD Programs did not include or incorporate appropriate procedures or guidance on the suite of risk-based ECDD measures to be applied by Star Sydney and Star Qld for the following reasons:
 - a. The ECDD Programs listed some ECDD measures, but did not include processes or guidance as to:

- i. which steps to apply in response to the specific ML/TF risks posed by customers;
 - ii. how those measures addressed the ML/TF risks posed by customer activity;
 - iii. how to assess the customers' risk following application of those ECDD measures; or
 - iv. the customer risks that were acceptable and those that were not.
- b. In the absence of appropriate guidance, the Joint Part A Programs did not provide for a consistent approach to ECDD across higher risk customers types over time.

Particulars

On 16 May 2018, KPMG reported that there were no procedural documents that set out in practice how and what ECDD was performed. KPMG understood that ECDD was conducted by the AML Administrators and comprised WorldCheck searches, review of the customer's transactional history (if available) and (in Qld) Google searches. KPMG advised SEG that there was no procedural document that set out how and what ECDD must be conducted and recorded, therefore this was open to interpretation and an inconsistent approach by the AML Administrators.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

In December 2018, AUSTRAC advised Star Sydney that its ECDD Program was not compliant with the Act and Rules. AUSTRAC wrote to Star Sydney requiring it to re-write its ECDD program to better set out its risk-based system and controls as required by Part 15.10 of the Rules. This included how they are applied to its customer types (for example critical-risk, high-risk, non-members, junket representatives and players) and the measures that will be applied to complete ECDD appropriate to the circumstances of the customer.

- c. In the absence of appropriate guidance, appropriate ECDD measures commensurate to the risks, could not be consistently applied.

Particulars

In May 2018, KPMG reported that appropriate ECDD was not always conducted. For a number of customers, the ECDD record appeared to be limited to a World-Check and did not include the type of information that would be expected, such as the reason why ECDD was conducted, details of the customer's transaction or gaming history, a general Google search.

KPMG found that due diligence on junket participants was limited, particularly at Star Qld. Across all SEG casinos, KPMG found that no

enquiries are made on the junket participants' source of wealth or funds.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

- d. The staff exercising discretion under the ECDD Program did not receive adequate training.

Particulars

See paragraph 748.

- e. The ECDD Programs did not provide guidance on the appropriate ECDD measures that were aligned to the nature, size and complexity of Star Sydney's and Star Qld's business, and the ML/TF risks posed by customers.
- f. In particular, the ECDD Program did not include appropriate procedures to ensure:
 - i. analysis of the full suite of designated services received by customers across multiple transaction chains and channels, including designated services provided under table 1, s6;
 - ii. analysis of third party transactions;
 - iii. that KYC information would be clarified and verified, beyond re-performing standard KYC checks; or

Particulars

Synkros was used to record KYC information collected about customers. Until 2019, there was no ECDD procedure requiring the AML team to search Synkros to verify that KYC information had been obtained in relation to the customer.

- iv. source of wealth or source of funds would be appropriately assessed (see paragraph 808 below).
- v. review of information relevant to investigations recorded on iBase.

Particulars

Rule 15.10 of the Rules.

Source of wealth and source of funds

- 808. From 30 November 2016, the ECDD Programs did not include appropriate systems and controls for Star Sydney and Star Qld to obtain, analyse, escalate and record source of wealth and source of funds information with respect to customers for the purposes of carrying out ECDD for the following reasons.

- a. At no time were customers obliged to provide Star Sydney or Star Qld with source of wealth information (including occupation) before a designated service was provided (with the exception of CCF applications as pleaded at paragraph 154).
- b. At no time were customers obliged to provide Star Sydney or Star Qld with source of funds information before a transaction was processed.

Particulars

Paragraph 613.

- c. At no time did the Joint Part A Programs require appropriate risk-based inquiries into source of wealth or source of funds:
 - i. when the customer was triggered for a risk assessment or
 - ii. for the purposes of the ongoing obligation to review or update KYC information.

Particulars

Paragraph 145.

- d. Accordingly, source of wealth or source of funds information included on a customer's risk profile was limited. This limited the AML Administrator's ability to recognise activity inconsistent with source of wealth or source of funds for the purposes of ECDD.

Particulars

The source of wealth information entered in Protecht or Trackvia was inconsistent or limited. The source of wealth or source of funds information entered for junket operators was often recorded as "junket operator".

- e. Prior to February 2019, the ECDD Programs stated that the AMLCO will consider whether any useful purpose would be served by endeavouring to obtain source of wealth information, and to undertake a more detailed analysis of the source of the customer's wealth and funds. This was not an appropriate risk-based procedure for the purposes of ECDD.

Particulars

Clause 17 of the Joint Part A Programs prior to February 2019.

- f. Prior to 1 November 2019, source of wealth or source of funds investigations were facilitated through PAMMs and JRAMs, where gaming activity was identified that was outside of expectations. Senior management would be directed to obtain this information by JRAM/PAMM.
- g. Source of wealth investigations through the PAMM and JRAM process were not appropriately risk based for the reasons pleaded at paragraphs 818 to 832.
- h. From November 2019, the ECDD Standards required the AML Administrators to take reasonable measures to establish the source of wealth and source of funds when conducting ECDD, but only with respect to very high risk customers, including PEPs.
 - i. Reasonable measures could include reviewing KYC information already obtained, reviewing public source information or asking the customer.

Particulars

These measures were limited for the reasons pleaded at a, b and d.

- ii. If source of wealth remained a concern, the AML Administrators could consider requesting proof of wealth in the form of bank statements or proof of employment.
- i. The ECDD Programs did not include appropriate guidance as to the circumstances in which source of wealth might require closer investigation for the purposes of determining what reasonable measures should be undertaken to establish the source of wealth and source of funds, or for the purposes of determining whether source of wealth remained a concern.
- j. From November 2019, where further investigations as to source of wealth or source of funds were considered necessary, they continued to be facilitated through PAMMs and JRAMs.

Particulars

Clause 5.3(c) of the ECDD Standard.

- k. The PAMM and JRAM processes were not appropriately risk based for the reasons pleaded at paragraphs 818 to 832 below.
- l. From November 2019, the ECDD Standard provided that the AML Administrator must escalate a customer to the AMLCO where concerns had been identified about the legitimacy of the customer's source of wealth or source of funds. The AMLCO was to give directions to senior management as to whether Star Sydney or Star Qld should cease an ongoing relationship with the customer.

Particulars

Measure 7 and clause 6 of the ECDD Standard.

- m. From November 2019, customers continued to be referred to PAMM and/or JRAM where concerns as to source of wealth or source of funds arose for the purposes of considering the customer's ongoing business relationship with Star Sydney or Star Qld.
- n. The PAMM and JRAM processes were not appropriately risk based for the reasons pleaded at paragraphs 818 to 832 below.
- o. Prior to November 2019, the Joint Part A Programs did not include any such escalation procedure.
- p. Star Sydney and Star Qld sought source of wealth and source of funds information from junket or international VIP customers where it was extending credit, but did not include procedures in its ECDD Program to assess this information from an AML/CTF perspective. Rather, this information was used to assess credit risk only.

Particulars

Paragraph 507.

- q. There were no processes to ensure that source of wealth and source of funds information obtained by Credit and Collections or VIP Services for the purposes of credit risk assessments were consistently referred, on a risk basis, to the AML team for the purposes of ECDD.

- r. The AML Administrator and AML team did not have access to OnBase, the database maintained by the Credit and Collection team, and on which records related to screening and creditworthy checks were held.
- s. From December 2021, TrackVia created automated transaction monitoring alerts if customer's tier level or level of play was not consistent with stated occupation. However, at no time did the Joint Part A Program procedures oblige customers to provide occupation information.
- t. There was some reluctance to obtain and make a record of source of wealth or source of funds information on the customer's account due to privacy reasons and due to concerns customers would be aggravated.

Particulars

Customer 84.

809. In the absence of appropriate information and guidance about source of wealth and source of funds, Star Sydney and Star Qld were unable to carry out appropriate risk-based ECDD measures. For example, Star Sydney and Star Qld were not in a position to understand the purpose of customer transactions, or the ML/TF risks they posed. Nor were they in a position to determine the ML/TF risk posed by the customer and the ongoing business relationship.

Particulars

Rules 15.10(1)(c), (2) and (5) of the Rules.

Senior management approval

810. From 30 November 2016, the ECDD Programs did not include appropriate systems and controls to seek senior management approval:
- a. for continuing business relationships with customers, having regard to the ML/TF risks reasonably faced;
 - b. on whether a designated service should be provided to a customer;
 - c. on whether a transaction or particular transactions should be processed for the reasons pleaded at paragraphs 811 to 842 below.

Particulars

Rules 15.10(6), (7) and 15.11 of the Rules.

811. The Joint Part A Programs did not set out appropriate criteria for the ML/TF risks that would and would not be accepted by Star Sydney and Star Qld with respect to customers (**ML/TF risk appetite for customers**).
812. In the absence of a ML/TF risk appetite for customers, there was no criteria or guidance in the Joint Part A Programs against which senior management could appropriately and consistently determine whether to approve:
- a. a continued business relationship with a customer;
 - b. the provision of a designated service (such as a loan or remittance service) to a customer;
 - c. a transaction or particular transactions.

Particulars

Rules 15.10(6), (7) and rule 15.11 of the Rules.

With respect to paragraph 811c, see also paragraph 613 and 613.m for example.

813. Prior to November 2019, Joint Part A Programs provided that moderate to significant exposure to ML/TF risks, required discussion at JRAM, as well as AMLCO sign off.

Particulars

Appendix C, clause 1.4 of versions 4-6; Appendix B, Part 2 of versions 7-8 of the Joint Part A Programs and paragraph 123.

Also see paragraphs 805(a) and (b).

814. The requirement pleaded at paragraph 813 applied to decisions on whether to continue a relationship with a high or very high risk customer.
815. At all times, decisions on whether Star Sydney or Star Qld would continue a business relationship with a customer were made either:
- a. through the JRAM process; or
 - b. by ad hoc emails.
816. From November 2019, the Joint Part A Programs also required very high risk rated customers to be escalated to the AMLCO for consideration of whether to continue a business relationship.

Particulars

The AMLCO generally attended the JRAM for this purpose.

However, the JRAM was authorised to determine ongoing relationships with customers without the input or advice of the AMLCO.

817. The ECDD Programs did not include appropriate risk-based processes to escalate high and very high risk customers to the AMLCO or JRAM to make decisions with respect to the matters pleaded at paragraph 810 for the reasons pleaded at paragraphs 818 to 842.

PAMM and JRAM

818. At all times, the Patron Activity Monitoring Meetings (**PAMM**) and Joint Risk Assessment Meetings (**JRAM**) considered customers who had come to Star Sydney's or Star Qld's attention as involving higher ML/TF risks.

Particulars

Rules 15.10(6), (7) and 15.11 of the Rules.

819. At all times, the PAMMs were to be held monthly and separately at each of Star Sydney and Star Qld.
820. Each of the Star Sydney and Star Qld PAMMs were generally attended by the AMLCO, Investigations Manager or Group Investigations Manager, the AML Administrator, gaming operations roles and other senior management.

Particulars

Senior management who attended PAMM from time to time included the Chief Operating Officer, Chief Risk Officer, Chief Financial Crime Officer, the Head of AML Operations, Director of Surveillance and the General Managers for AML/CTF Compliance and Financial Crime & Investigations. Gaming operations roles who attended PAMM from time to time included General Managers of Cash operations, Premium Guest, Table Games.

821. The AML Administrators, the AML team or the Investigations Manager could escalate a customer, at their discretion, to the PAMM as follows:
- a. The Star Sydney Investigations Manager may seek to add customers for consideration at PAMM or JRAM who have come to their attention through law enforcement interest.
 - b. Customers identified by the AML Administrator as having been charged or convicted of a criminal offence and who were rated higher than medium could be referred to PAMM.
 - c. Where law enforcement provided confirmation of a match for an AML referral, the confirmation was sent to the AML team and generally escalated through PAMM and/or JRAM.
 - d. In accordance with the ECDD Standards from 1 November 2019, the AML team could escalate a customer to PAMM for further information and assessment for the purposes of ECDD.
 - e. From June 2020, a customer could be referred to PAMM for further review of source of wealth information where the customer was identified as a PEP and/or rated critical/very high.
 - f. From June 2020, a customer could be referred to PAMM for further due diligence if the customer was the subject of 5 or more SMRs in the previous 12 months.

Particulars

Since April 2021, customers with two or more SMRs are automatically added to a 'Watchlist' and could subsequently be escalated from the Watchlist to PAMM or JRAM.

822. The intended purpose of the PAMMs was for Star Sydney or Star Qld to:
- a. identify the further information that should be gathered or analysed with respect to customers to allow further consideration of ML/TF risks, including in relation to source of wealth;
 - b. identify and discuss substantial trends or variances in a customers' gambling history and patterns of unusual behaviour;
 - c. consider whether information should be added to the customer risk register;
 - d. consider whether there was a rational basis to give the AUSTRAC CEO an SMR;
 - e. consider whether the customer should be added to the ECDD list;
 - f. implement restrictions for the customer to reduce ML/TF risks;
 - g. refer a customer to the JRAM to determine if:

- i. the customer should have their risk rating altered, or
- ii. Star Sydney or Star Qld should continue a business relationship with the customer or if the customer should be issued with a WOL.

Particulars

Paragraphs 123 and 833.

823. At all times, the JRAM met monthly after the state-based PAMMs had been conducted.
824. The JRAMs were generally attended by the AMLCO, AML Administrator, the Investigations Manager or Group Investigations Manager, the AMLCTF Financial Crime Program manager, Group Manager AMLCTF and Financial Crime and other senior management.

Particulars

Senior management who attended JRAM from time to time included the Chief Financial Crime Officer, General Manager Financial Crime & Investigations, Chief Risk Officer and the Chief Legal Officer.

825. At all times, customers raised in the PAMMs could be discussed at the JRAM or referred to the JRAM in serious cases.

Particulars

The basis on which PAMM escalated a customer was if the attendees determined that the activity the subject of a PAMM was serious enough to warrant escalation. The type of escalation from PAMM was on a case-by-case basis.

Generally, if PAMM considered that a customer's risk rating should be altered was automatically referred to JRAM for discussion.

826. The purpose of the JRAM was to consider:
- a. the risk rating of individual customers based on their ML/TF risk as a required by the Joint Part A Program;
 - b. whether any law enforcement agencies were required to be contacted;
 - c. whether to refer a customer to VIP Hosts for source of wealth checks;
 - d. SMR information in respect of the customer;
 - e. whether the SEG casinos should continue to deal with the customer, based on their ML/TF risks;
 - f. whether to recommend a customer be issued with a WOL (in accordance with the process described in paragraph 833).
827. The participants of JRAM who were the AMLCO or senior management were responsible for escalating any issues to the appropriate business unit. This process was not documented.
828. From April 2021, the TrackVia database recorded the minutes of each PAMM and JRAM at which a customer was considered, as well as any ECDD and OCDD conducted on that customer.
829. The records of the PAMM and JRAM meetings were sometimes incomplete prior to the implementation of TrackVia in April 2021.

830. At no time did the Joint Part A Programs include or incorporate any written procedures or guidance setting out the circumstances, having regard to ML/TF risks, in which a customer should be referred to the PAMM or to the JRAM.

Particulars

In the absence of written guidance or criteria, customers could not be consistently or reliably referred to PAMM or JRAM, as intended in the circumstances pleaded in paragraph 821 and 825.

For example, Customer 84 was the subject of a NSW exclusion order issued in July 2007. Customer 84 remained a customer of the Star Qld casinos after the issue of the exclusion order. Customer 84 was discussed at JRAM in July 2016. He was not escalated to JRAM again until October 2021. He was not issued with a WOL until December 2021.

On each occasion that Customer 84 attended Star Qld from 30 November 2016, Star Qld staff reactivated Customer 84's membership card to allow Customer 84 to receive gaming services. At the end of Customer 84 trip, Star Qld staff would change Customer 84 account status back to 'Excluded NSW'.

Customer 84 Synkros profile stated: 'Patron is excluded in CID NSW #..., account status "Excluded NSW". Account to be returned to Excluded NSW once cage transactions have been completed':

Customer 83 was the subject of a NSW exclusion order in June 2015. Customer 83 remained a customer of the Star Qld casinos and was discussed at JRAM in January 2019, was scheduled to be discussed at the March 2019 JRAM (but was removed from the agenda) and was not included on JRAM agenda again until November 2020. He was not issued with a WOL until 6 January 2021.

831. The Joint Part A Programs did not include or incorporate any procedures or guidance establishing the role and purpose of the PAMM and JRAM, having regard to ML/TF risks.

Particulars

In the absence of written procedures or guidance, the intended purpose of the PAMM and JRAM as pleaded at paragraphs 822 and 826 could not be reliably or consistently achieved. Nor could their decisions have appropriate regard to ML/TF risks.

832. The Joint Part A Programs did not include or incorporate any written guidance or criteria to enable PAMM and JRAM to appropriately or consistently consider, having regard to ML/TF risk, whether an ongoing business relationship was appropriate and consistent with ML/TF risk appetite for customers.

Particulars

See also paragraphs 811 and 812.

In the absence of criteria, guidance or ML/TF risk appetite for customers, senior management decisions through the PAMM and

JRAM processes on ongoing customer relationships were not appropriately based on ML/TF risk.

For example, see Customer 1, Customer 5, Customer 74, Customer 83, Customer 84, Customer 87 and Customer 45.

The withdrawal of licence process

833. At all times, the Exclusions policies required Star Sydney and Star Qld to consider issuing a customer with a withdrawal of the common law licence to enter specified casino premises (**WOL**) where the customer had engaged in illegal or undesirable behaviour which may compromise the reputation of SEG.

Particulars

The Exclusions Policies set out the procedures for issuing WOLs.

834. From 1 November 2019, the ECDD Standards referred to the issue of a WOL as being one possible outcome of ECDD.

Particulars

From 1 November 2019, clause 5.3 of the ECDD Standards.

Prior to 1 November 2019, the Joint Part A Programs referred to a prohibition of entry as one of the possible actions the AMLCO could take in relation to an escalated high risk customer.

835. At all times, the AMLCO, PAMM or JRAM could recommend or determine that a WOL should be issued to a customer, but authority to issue the WOL resided with other senior officers of SEG, Star Sydney or Star Qld.

Particulars

The authorised officers included the Chief Executive Officer, State Chief Casino Officer; Chief Legal and Risk Officer; General Counsel; Patron Liaison Manager; Director of Security; Security Operations Manager; and Investigations Manager.

From 2021, the Group Manager Due Diligence could also escalate a customer to the AMLCO or recommend to the AMLCO that a WOL be issued with respect to all SEG casino properties.

836. A WOL could be issued for a prescribed period that expired on a nominated date, or could remain in force until revoked.
837. The issue of a WOL could be, but was not necessarily, accompanied by a decision to place a “stop code” on a customer’s FMA to prevent further transactions.
838. The Joint Part A Programs did not include appropriate risk-based procedures to consistently identify and escalate customers to be considered for a WOL.

Particulars

Paragraph 830.

839. The Exclusions policies did not include guidance or criteria to enable Star Sydney or Star Qld to appropriately or consistently consider, having regard to ML/TF risk or ML/TF risk appetite for customers, whether a WOL should be issued.

Particulars

Paragraphs 811 and 812.

840. From 1 November 2019, the ECDD Standards provided that if the ECDD process identifies information suggesting a customer has:
- a. engaged in ML/TF;
 - b. committed any serious indictable offences;
 - c. any adverse finding and is considered very high MLTF risk;
- the AMLCO is to consider appropriate action including WOL.

Particulars

Clause 5.3 of the ECDD Standards.

841. In the absence of the Joint Part A Programs setting the ML/TF risk appetite to be accepted with respect to customers, appropriate risk-based decisions, having regard to ML/TF risks, were not capable of being made by Star Sydney and Star Qld with respect to the issue of WOLs.

Particulars

Paragraph 811 and 812.

842. To the extent that senior management within the VIP Services or Credit and Collections teams considered whether to provide designated services to a customer (such as a loan) or whether to continue an ongoing business relationship, decisions were made from the perspective of credit risk, not ML/TF risk.

Particulars

Paragraph 507.

The processes for senior management to approve loans and credit limits (items 6 and 7, table 1, s6 designated services) had regard to credit risk, not ML/TF risk.

Information management and records

843. From 30 November 2016, the ECDD Programs were not supported by appropriate information management and record keeping for the reasons pleaded at paragraphs 844 to 852.
844. The application of the ECDD Program relied upon information contained in Synkros, Protecht, Trackvia, iBase and CID.
845. By reason of the deficiencies in information management and record keeping pleaded at paragraphs:
- a. Star Sydney and Star Qld did not have a full view of customers' transactions for ECDD purposes; and accordingly
 - b. the ECDD process was not capable by design of operating as intended.

Particulars

Paragraph 752.

846. The Joint Part A Programs did not include appropriate processes to ensure complete customer information was consistently entered on to the customer risk register in Protecht and TrackVia.

Particulars

Paragraph 157.

847. Synkros generated patron account numbers for each customer, which were also used to search for customer records in Protecht and Trackvia.
- a. Some customers had multiple patron account numbers across the different SEG casino sites.
 - b. Star Sydney and Star Qld had no means of automatically collating transaction data across sub-accounts, secondary accounts or multiple accounts.
 - c. By allowing customers to have multiple patron accounts numbers, Star Sydney and Star Qld may not have had a complete view of a customer's KYC, ECDD or transaction records when searching Synkros, Protecht or Trackvia using the account number.

Particulars

In 2016, Star Sydney and Star Qld undertook a project to merge the accounts of customers who had two or more accounts across Star Sydney, Treasury Brisbane and Star Gold Coast casinos.

There were some instances where customers with multiple accounts did not have their accounts merged as part of this process. The merging of the accounts for these customers is ongoing.

Customers with active CCF accounts were excluded from the merger project. These accounts have since been progressively merged, but this has been on a case-by-case basis and has not been a systematic process.

Customers with inconsistencies in their personal details across different accounts did not have their accounts merged as part of the merger project. Where Star Sydney and Star Qld identify such customers, those accounts are merged.

Some customers with multiple accounts did not have their accounts merged as part of the merger project because of inconsistencies in their exclusion status as between accounts. Customers who were excluded in NSW were still permitted to play at Star Gold Coast and Treasury Brisbane casinos. Accordingly, their Star Gold Coast or Star Qld accounts were not merged with their Star Sydney accounts.

Transactional data from two or more accounts could not be merged. Data such as cheque history or deposits/withdrawals to FMAs would be retained in Synkros for one of the merged accounts only. This data would not be retained on Synkros for the other accounts that had been merged.

848. Junket operators and junket representatives could have multiple sub-accounts (and therefore multiple patron account numbers) allocated to them in Synkros.

Particulars

Junket operators could be allocated sub-accounts for the purposes of:

- (i) facilitating the operation of financial accounts and junket programs in multiple currencies;
- (ii) facilitating the operation of multiple junket groups by the same junket operator in a manner that permits separate records to be kept in relation to each junket group;
- (iii) facilitating the operation of multiple but separate CCFs and FMAs for a junket operator to use for different junket groups;
- (iv) allowing a junket representative who is a loyalty member to also earn points if playing with cash chips on a rebate program linked table; and
- (v) to facilitating the participation on a game table and slots rebate program at the same time.

- a. Star Sydney and Star Qld had no means of automatically collating transaction data across sub-accounts.
- b. By allowing customers to have multiple sub-accounts, Star Sydney and Star Qld did not have a full view of customers' transactions for ECDD or transaction monitoring purposes.

849. Information regarding customers under Investigation by the Investigations team was recorded in iBase.

- a. The AML team did not have access to iBase.
- b. There was no requirement for the Investigations team to share with the AML team information from iBase relevant to ECDD.
- c. In relation to information provided by law enforcement regarding customers of concern, this feedback would be entered into iBase, but not necessarily referred to the AML team or entered in TrackVia.
- d. Trackvia contains a "restricted documents" field which lists documents relating to a customer which are considered sensitive or confidential, and which AML team members need to request access to in order view.
- e. Only in January 2022 was a banner added to TrackVia in relation to customers under investigation, which stated that the 'patron was of interest to investigations' and advises the user to contact the Investigations team for more information.

850. The AML team did not have access to OnBase, the database maintained by the Credit and Collections team, and on which records related to screening and creditworthy checks were held.

851. The ECDD Programs did not include appropriate procedures requiring Star Sydney and Star Qld to maintain complete and accurate records with respect to the ECDD measures that were undertaken or of the outcomes of ECDD measures:

- a. The ECDD measures that were undertaken with respect to a customer were recorded on Protecht prior to April 2021 and on TrackVia from April 2021.

- b. Prior to November 2019, these records were incomplete, including for the following reasons:
 - i. Protecht contained limited to no records as to the reasons why ECDD conducted; the matters considered as part of ECDD; or the conclusions or outcomes of ECDD.

Particulars

In December 2018, AUSTRAC wrote to Star Sydney raising concerns that if a decision is made not to undertake any ECDD measures with respect to a customer that had been escalated, the reasons for this decision will not be recorded.

- ii. Protecht did not make appropriate records of the customer's transaction history or when the customer last visited the casino.
 - iii. World check and open source searches were not recorded consistently on Protecht until February 2019.
 - iv. When documents supporting or evidencing ECDD, such as screening results or open source searches, were attached to the ECDD record on Protecht, the copies were often unreadable (blurry) and undated.
 - v. External due diligence reports were not recorded on the Protecht record.
 - vi. Investigations or reports prepared by other parts of the business, for example by the Investigations team, were not recorded on the Protecht record.
 - vii. The discussion or outcomes of JRAM/PAMM were not consistently recorded on Protecht.
 - viii. If, following ECDD, the AML Administrator determined the matter was suspicious, this decision and the supporting ECDD documentation was recorded in Protecht. However, if a matter was determined not to be suspicious, ECDD results were not always recorded.
 - ix. Prior to February 2019, records were not made of any ECDD that was conducted following the lodgement of an SMR.
- c. From November 2019 to April 2021, Star Sydney and Star Qld began to systematise its ECDD processes and records. However, ECDD records did not:
 - i. contain any substantive information about matters considered or reasons why certain ECDD measures were taken; or
 - ii. record any risk score relating to the assessment of the customer's risk.
- d. From April 2021, records of ECDD improved, but did not record:
 - i. investigations or reports prepared by other parts of the business, for example by the Investigations team; or
 - ii. external due diligence reports.

852. For the reasons set out at paragraphs 844 to 851, Star Sydney and Star Qld's information and record keeping systems were not capable by design of providing a complete or accurate view of customers' transaction and ML/TF risk profiles for ECDD purposes.

The Joint Part A Programs - Appropriate systems and controls to ensure SMR, TTR and IFTI reporting

853. At all times, Part A of an AML/CTF program was required to include systems and controls designed to ensure compliance with the obligation to report:
- a. suspicious matter reports, or **SMRs**, under s41 of the Act;
 - b. threshold transaction reports, or **TTRs**, under s43 of the Act;
 - c. international funds transfer instructions, or **IFTIs**, under s45 of the Act.

Particulars

Rule 9.9.1(2) of the Rules, made for the purposes of section 85(2)(c) of the Act.

SMR reporting

854. From 30 November 2016, the Joint Part A Programs did not include appropriate systems and controls designed to ensure compliance with the obligation to report SMRs under s41 of the Act.
- a. Escalation processes for unusual or suspicious activity were not capable of consistently identifying and escalating suspicious matters:
 - i. Workflows were manual and relied on observations by frontline casino staff.
 - ii. Frontline staff escalated unusual or suspicious matters to the AML team by raising 'internal SMRs' or UARs, by emailing the AML team or providing the AML team with handwritten notes.
 - iii. Prior to the introduction of TrackVia in 2021, these processes were manual and not capable of being consistently applied.
 - iv. Frontline staff did not receive adequate AML/CTF risk awareness training.
 - v. Star Sydney's and Star Qld's systems and processes for surveillance did not appropriately identify and escalate suspicious or unusual matters to the AML team.
 - vi. Observational and manual processes were not capable of identifying and escalating unusual or suspicious activity arising from customer activity across complex transaction chains, including non-face-to-face channels.

Particulars

See paragraph 748.

- b. Resourcing of the systems and controls for SMR reporting were inadequate, and were therefore incapable by design of operating as intended.

Particulars

The AML Administrators were responsible for determining whether an SMR should be given to the AUSTRAC CEO.

Until October 2018, there was one AML Administrator for the Star Sydney casino and one for the Star Qld casinos. A third AML

Administrator was appointed from October 2018 to August 2022. As at late 2022, there were 18 persons in this role.

The AML team assisted with the investigation and assessment of potentially suspicious matters raised by frontline staff.

- c. The policies and guidance relating to suspicious matter reporting were inadequate because they:
 - i. were not based on or aligned to an appropriate ML/TF risk assessment of all of the ML/TF risks reasonably faced by Star Sydney and Star Qld; and
 - ii. did not cover all designated services provided by Star Sydney and Star Qld.

Particulars

The policies and guidance on SMR reporting did no more than list red flags, with no criteria against which to assess unusual or suspicious behaviour as against the designated services being provided.

On 16 May 2018, KPMG advised SEG in its report that the Part A Program and the SMR obligation was only partially described in ML/TF Risk Awareness training material and that employees had to refer to the inconsistent SOPs for guidance on the DBG's SMR obligations.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

- d. The deficiencies in the transaction monitoring programs meant that Star Sydney and Star Qld were unable to consistently identify suspicious activity within the meaning of s41 of the Act, having regard to unusual patterns of transactions, which had no apparent economic or visible lawful purpose.

Particulars

Rules 15.4 to 15.8 of the Rules.

- e. The lack of appropriate risk-based processes to understand a customer's source of wealth and source of funds limited Star Sydney's and Star Qld's ability to understand a customer's transactional activity and to determine whether any particular activity was unusual.
- f. Dispersed data sources for customer information limited Star Sydney's and Star Qld's ability to understand a customer's transactional activity and to determine whether any particular activity was unusual.

Particulars

See paragraphs 764 and 847.

- g. Dispersed data sources and multiple customer accounts numbers also impacted on Star Sydney's and Star Qld's ability to include accurate customer information in SMRs (for example, as to win/loss/turnover on an aggregate basis).

Particulars

For example, see customer 45.

- h. Information regarding customers under Investigation by the Investigations team was recorded in iBase. The AML team did not have access to iBase.
- i. VIP Services and Credit and Collections, who dealt with higher risk customers, were not given appropriate AML/CTF training to enable them to identify potential suspicious activity.
- j. SMRs relating to suspicious activity on junket programs were likely to be reported under the junket operator's name (with the junket representative as agent) with limited information about:
 - i. the junket player/s on whose behalf the transaction was conducted, and
 - ii. the junket funder providing the source of funds.
- k. This made it difficult for AUSTRAC and its law enforcement partners to understand the role of different parties to the suspicious activity, including what transactions took place, the source of the funds, who instructed the movement of funds, the recipient of the funds and further details of the transaction.
- l. Prior to 2019, there were no quality review or assurance processes regarding SMR obligations.

Particulars

Prior to 2019, Star Sydney and Star Qld did not undertake any testing or quality assurance with respect to its systems and controls for SMR reporting.

The 16 May 2018 KPMG report observed that, because the AML Administrators determined SMRs without any consultation with each other, there could be inconsistency across the two reporting entities as to what is considered suspicious. Additionally, because there was no consultation with the AML/CTF Compliance Officer or other senior management, KPMG considered there was no effective quality review of these decisions; and quality no assurance conducted on SMRs.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23, 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

From January of 2019 to November 2019, SEG introduced quality assurance by way of the SEG Group Compliance and Responsible Gaming Team. This team undertook testing by way of collecting

samples of SMRs submitted to AUSTRAC by the AML Team to conduct quality assurance to ensure the appropriate information was included in SMRs, and that systems were being implemented correctly.

From December 2019, the conduct of testing and quality assurance was undertaken by the SEG Group Compliance team.

With the introduction of TrackVia workflows in April 2021, each SMR is now reviewed by an AML Manager as a form of quality assurance prior to submission to AUSTRAC.

- m. There was inadequate documentation of the SMR reporting process.

Particulars

In December 2018 AUSTRAC recommended that Star Sydney improve records of their reasons for decision not to submit an SMR following an alert. AUSTRAC also advised that better and more complete records of all investigation outcomes would enable Star Sydney to provide evidence of each investigation and its findings to auditors. It may also assist in creating profiles for rules in an automated transaction monitoring system.

TTR reporting

- 855. From 30 November 2016, the Joint Part A Programs did not include appropriate systems and controls designed to ensure compliance with the obligation to report TTRs under s43 of the Act.
 - a. There were no written procedures, testing or assurance in respect of TTR reporting.
 - b. Prior to October 2019, Star Sydney and Star Qld did not have systems and controls in place to ensure reporting of threshold transactions through CWAs.

Particulars

Paragraph 303.

- c. TTRs relating to transactions conducted through junket programs were likely to be reported under the junket operator's name (with the junket representative as agent) rather than under the name of the junket player who conducted the transaction.
- d. This made it difficult for AUSTRAC and its law enforcement partners to understand the role of different parties to the threshold transaction, including what transactions took place, the source of the funds, who instructed the movement of funds, the recipient of the funds and further details of the transaction.
- e. There was inadequate documentation for and monitoring over the TTR reporting process.

IFTI reporting

- 856. From 30 November 2016, the Joint Part A Programs did not include appropriate systems and controls designed to ensure compliance with the obligation to report IFTIs under s45 of the Act.

- a. IFTI reporting processes were inconsistent across the Star Sydney and Star Qld casinos.
- b. There were no procedures for assurance or quality assessment with respect to IFTI processes.
- c. Star Sydney and Star Qld did not perform any testing or assurance to ensure the appropriate design, effectiveness and/or implementation of its systems and controls.
- d. Prior to July 2022, Star Sydney and Star Qld did not monitor its Bank 2 accounts that receive funds for gaming to ensure they are complying with their IFTI obligations.
- e. IFTIs relating to junket programs were likely to be reported under the junket operator's name (with the junket representative as agent) rather than under the name of the junket player who conducted the transaction.
- f. This made it difficult for AUSTRAC and its law enforcement partners to understand the role of different parties to the IFTI, including what transactions took place, the source of the funds, who instructed the movement of funds, the recipient of the funds and further details of the transaction.

857. By reason of the matters pleaded in paragraphs 853 to 856, the Joint Part A Programs did not comply with rule 9.9.1(2) of the Rules from 30 November 2016.

858. By reason of the matters pleaded in paragraph 857, the Joint Part A Programs did not comply with s 85(2)(c) of the Act from 30 November 2016.

The Joint Part B Programs – the applicable customer identification procedures

859. From 30 November 2016, Star Sydney and Star Qld's Joint AML/CTF Program included a Part B Program (the **Joint Part B Programs**), set out in:

- a. Clause 9 and the Know Your Customer Standard (**KYC Standard**) (versions 1 to 3) in relation to versions 9 to 11.1 of the Joint AML/CTF Program.
- b. Clauses 20 to 24 of versions 4 to 8 of the Joint AML/CTF Program.

Particulars

Chapters 4 and 10 and rule 14.4 of the Rules

860. From 30 November 2016, the Joint Part B Programs were not:

- a. programs the sole or primary purpose of which was to set out the applicable customer identification procedures (**ACIPs**) for the purposes of the application of the Act to customers of the reporting entity; and
- b. programs that complied with the requirements of the Rules.

Particulars

Section 85(3)(a) and (b) of the Act and Chapter 4 of the Rules.

Also see Chapter 10 and rule 14.4 of the Rules, made under s39 of the Act, which provide for certain exceptions to the application of Part 2 with respect to some designated services provided by Star Sydney and Star Qld.

Also see rule 9.1.6 of the Rules.

861. From 30 November 2016, the Joint Part B Programs did not include appropriate risk-based systems and controls that were designed to enable Star Sydney and Star Qld to be reasonably satisfied, where the customer was an individual, that the customer was the individual he or she claimed to be, for the reasons pleaded at paragraphs 862 to 859.

Particulars

Rule 4.2.2 of the Rules.

862. At no time did the Joint Part B Programs include any risk-based systems and controls to identify customers who were not low risk at the time the ACIP was being carried out:

- a. Customers were considered low risk by default, with limited exceptions.

Particulars

Paragraphs 114 and 115.

- b. There were no systems, controls or procedures to consistently identify customers who were not low risk prior to carrying out ACIP.

Particulars

See paragraph 127 to 134.

- c. There were no procedures in the Joint Part B Programs to consistently trigger a review of the default risk rating at the time ACIP was being carried out and were unlikely to be consistently identified at the time ACIP was being conducted.

- d. The Joint Part B Programs were accordingly not risk based.

Particulars

Clause 15 of the Joint Part A Programs (versions 4 to 8); Joint Part A Programs (versions 9 to 10) with the AML/CTF Framework.

Rules 4.2.2 and 4.1.3 of the Rules.

863. The Joint Part B Programs did not appropriately consider the ML/TF risk posed by a customer's sources of wealth and funds:

- a. With the exception of an application for credit under a CCF, at no time was a Star Sydney or Star Qld customer required to provide source of wealth information, including at the time that the ACIP was carried out.

Particulars

Paragraphs 150 to 155.

- b. For the reason pleaded at paragraph a, whilst the Joint Part B Programs provided that in some circumstances reasonable measures would be undertaken to obtain source of wealth or source of funds information in some circumstances, these procedures were discretionary and not appropriately risk-based.

Particulars

Rules 4.2.2 and 4.1.3(2) of the Rules.

The complexity and volume of designated services provided to customers, combined with the absence of source of funds and source

of wealth information, significantly limited Star Sydney and Star Qld's ability fully to understand who they were dealing with as a customer.

The failure to require appropriate source of wealth/funds information at the time of the ACIP, on a risk-basis, affected the operation of processes in the Joint Part A Programs. For example, this failure impacted Star Sydney and Star Qld's ability to identify unusual or suspicious transactions, such as unusually high turnover or losses.

- c. The Joint Part B Programs provided that reasonable measures would be taken to establish a foreign PEP's source of wealth and source of funds but did not include appropriate guidance as to what those reasonable measures were.

Particulars

The KPMG review of the Part B AML/CTF Program concluded that other than conducting a World Check on a customer who had been identified as a foreign PEP customer, generally no further enquiries were made as to their source of funds or wealth.

The KPMG Review of the Part B AML/CTF Program recommended that SEG provide specific guidance regarding what would be considered 'reasonable measures' to establish a PEP's source of wealth and funds under Rules 4.13.3.

SEG senior management, members of the Risk & Compliance Committee, Audit Committee, and the SEG Board were briefed on the findings of the KPMG report on 23 and 24 May 2018. This included the Chief Executive Officer & Managing Director, Group Chief Financial Officer, Managing Director of Star Sydney, Managing Director of Star Qld and the Chief Risk Officer. Members of the AML team and the General Counsel were provided with a copy of the report on 30 May 2018.

From November 2019, the KYC Standard stated that 'bank statements or other records to confirm source of wealth' may be requested as part of additional KYC requirements. However, there was no risk-based requirement requiring source of wealth or source of funds information to be collected or verified.

The Part B Programs and the KYC Standards did not otherwise include appropriate guidance regarding establishing a PEP's source of wealth and source of funds.

Clause 24 of the Joint Part B Programs prior to November 2019 and clause 5.3 of the KYC Standard.

- d. From 1 November 2019, the Joint Part B Programs and KYC Standard included a limited number of circumstances in which Star Sydney and Star Qld would attempt to collect information about a customer's occupation, or if directed by the AMLCO, about source of funds.

Particulars

Star Sydney and Star Qld were required to attempt to collect information about occupation, or source of funds if directed, with respect to customers who were:

- A. member of the loyalty club with access to private gaming areas, although the KYC Standards did not explain how this formed part of an ACIP at the time it was required to be carried out for the purposes of Part B of the Joint Program and s32 of the Act.
- B. participating in an international rebate program and who may have reasonably been considered to be providing significant financial contributions to the program. There was no guidance as to what a significant financial contribution meant, or how this formed part of an ACIP at the time it was required to be carried out for the purposes of Part B of the Joint Program and s32 of the Act.
- C. conducting very large cash transactions (of greater than \$100,000) or presented currency in an unusual manner or condition (for example, carried in shopping bags, loose notes, smelly or mouldy notes).

There was no obligation for a customer to provide source of wealth or source of funds information in any of these circumstances (other than for credit risk purposes with respect to a CCF approval). There was no requirement for Star Sydney or Star Qld to collect source of wealth or source of funds information from other sources.

Screening was inadequate for the reasons pleaded at 127 to 134.

Clauses 5.3 of the KYC Standard.

864. At no time did the Joint Part B Programs appropriately consider the ML/TF risk posed by the nature and purpose of Star Sydney's and Star Qld's business relationships with their customers, including as appropriate, the collection of information relevant to that consideration.
- a. The Joint Part B Programs did not appropriately consider the nature and purpose of the business relationship with customers who were junket funders, operators, junket representatives, junket players or playing on other rebate programs.

Particulars

Rules 4.2.2, 4.1.3(3) and 4.13.3 of the Rules

Until July 2019, the Joint Part A and Part B Programs assumed that the nature and purpose of the business relationship of the casino and customer was about the provision and consumption of entertainment in the form of casino gaming.

From July 2019, the Joint Part A and Part B Programs assumed in relation to junket operators, that the nature and purpose of the business relationship of the casino and customer (a junket operator company) would be that the junket operator would be providing support services to an associate of the customer (a junket participant), who would consume entertainment in the form of casino gaming.

These assumptions did not involve any appropriate consideration of customers' risk profiles.

865. The Joint Part B Programs did not consider the ML/TF risk posed by the types of designated services that Star Sydney and Star Qld provided, together with the methods or channels by which designated services were delivered.
- a. At no time did the Joint Part B Programs appropriately consider the ML/TF risks of designated services provided under table 1, s6 (such as items 6 and 7, table 1, s6 loans and overseas/domestic remittance services under items 31 and 32, table 1, s6).

Particulars

From 2018 to November 2019, the Joint Part B Programs purported to apply to customers who remitted money through the initial Customer 9 channel. The procedure required no more than sighting the customer's ID which was not an appropriately risk-based procedure with respect to these designated services, further noting that the customer would have been subject to ACIP at the time of opening their FMA.

- b. At no time did the Joint Part B Programs consider the ML/TF risks involved in providing table 1, s6 designated services (remittance services) and item 13, table 3, s6 (FMAs) designated services through non-face-to-face channels, including through the Star Patron account channels.
- c. At no time did the Joint Part B Programs consider the ML/TF risks of providing table 1 and table 3, s6 designated services to customers through junket or other rebate channels.

Particulars

Rules 4.2.2, 4.1.3(5) and (6) of the Rules.

866. At no time did the Joint Part B Programs consider the ML/TF risk posed by the foreign jurisdictions with which Star Sydney and Star Qld dealt.
- a. There were no risk-based procedures within the Joint Part B Programs to identify customers from higher risk jurisdictions at the time Star Sydney and Star Qld were conducting the applicable ACIP.
- b. While from November 2019, the Joint Part A Programs provided for customer risk ratings to be assessed by reference to jurisdictional risk, this was not included in the Joint Part B Programs as part of the ACIP and a customer risk rating review was not triggered by conducting ACIP.

Particulars

Paragraph 181.

867. At no time did the Joint Part B Programs include appropriate risk-based systems and controls for Star Sydney and Star Qld to determine whether additional KYC information would be collected about a customer and/or verified:
- a. The Joint Part A Programs provided that additional ID would be required in certain circumstances, such as a credit card or Medicare card, including in circumstances where there was doubt about the validity or condition of the ID document presented by the

customer. This was not a procedure that required additional KYC information to be collected and or verified on a risk-basis, although it was presented as such.

Particulars

Clause 20 of the Joint Part B Programs prior to November 2019 and cl 5.3 of the KYC Standards from November 2019.

- b. At all times, the Joint Part B Programs did not include appropriate risk-based systems and controls to determine whether source of wealth or source of funds information would be collected for the reasons pleaded at paragraph 863.
- c. There were no risk-based procedures in the Joint Part B Programs to determine whether to collect or verify additional KYC information relating to the beneficial ownership of funds used by the customer with respect to designated services or the beneficiaries of transactions being facilitated by the reporting entity on behalf of the customer including the destination of funds.
- d. The Joint Part B Programs applied the same safe-harbour ACIP to all customers, regardless of risk.

Particulars

Rules 4.2.2, 4.2.5 and 4.2.8 of the Rules; and the definition of KYC information in rule 1.2.1 of the Rules.

868. At no time did the Joint Part B Programs include ACIPs to be applied to all customers who Star Sydney and Star Qld were required to identify for the purposes of Part 2 of the Act.
- a. For designated services involving cash payments of \$10,000 or more, Star Sydney and Star Qld would issue a crossed cheque without completing any ACIP if the customer was unable to, or did not, provide suitable ID that could be reliably or independently verified.

Particulars

Cage Operating Procedures and Appendix A of the KYC Standards.

- b. There were no procedures in the Joint Part B Programs to determine whether the exemptions in rules 10.1.3 and 10.1.4 did not apply to a customer or prospective customer by reason of rule 10.1.5.
- c. There were no procedures in the Joint Part B Programs that required identification of customers who exchanged foreign currency by way of foreign drafts or travellers' cheques below \$1,000 – noting that the exemption in rule 14.4(2)(b) applies to physical currency only.
- d. There were no procedures in the Joint Part B Programs to determine whether the exemption in rule 14.4(b) did not apply to a customer or prospective customers.

Particulars

Rule 14.5 of the Rules.

- e. There were no appropriate risk-based procedures in the Joint Part B Programs to apply ACIPs to prospective customers who were to receive items 6, 7, 31 or 32, table 1, s 6 designated services.

Particulars

Section 85(3)(a) of the Act.

See also sections 32 and 39 of the Act; and Part 10 and rule 14.4 of the Rules.

- f. Prior to 1 June 2020, the Joint Part B Programs did not include appropriate risk-based procedures to apply ACIPs to prospective customers who were to receive designated services under table 3, s11 on the opening of a CWA.
869. At no time did the Joint Part B Programs include appropriate procedures to collect information and documents about an agent of a customer (who was an individual) or to determine whether to verify (and to what extent) the identity of the agent.
- a. In particular, the Joint Part B Programs did not contain appropriate ACIPs for identifying junket operators or junket representatives acting as agents for junket players.

Particulars

Until November 2019, the Joint Part B Programs did not have any procedures relating to agents who were authorised to act for or on behalf of a customer or prospective customer.

From November 2019, the definition of 'customer' in the Joint Part B Programs included 'agents' as well as 'participants on junket programs, junket promoters, representatives and funders.' However, to the extent Star Sydney and Star Qld knew they were dealing with an agent, the same ACIPs as applied to customers in general applied to agents of customers, junket promoters, representatives and funders.

- b. There were no procedures in the Joint Part B Programs to collect information and documentation of a customer's authorisation for an agent to act on the customer's behalf as required by rule 4.11.2(2).

Particulars

Part 4.11 of the Rules.

870. At no time did the Joint Part B Programs include appropriate risk-management systems that would enable Star Sydney and Star Qld consistently to determine whether a customer was a PEP, either before the provision of a designated service to the customer or as soon as practical after the designated service was provided:
- a. The Joint Part A Programs indicated that PEPs may be identified by screening, but the processes in the Joint Part A Programs for screening for PEPs were inadequate.

Particulars

Part 4.13 of the Rules.

Clause 24 of the Joint Part B Programs prior to November 2019 and clause 5.5 of the KYC Standards.

- b. The screening processes that occurred under Joint Part A Programs, the purpose of which included identifying whether a customer was a PEP, were inadequate for the reasons pleaded at paragraph 119.

871. At no time did the Joint Part B Programs include appropriate risk-management systems and procedures for Star Sydney and Star Qld to:
- a. comply with identification requirements in rules 4.2.3 to 4.2.9 of the Rules in respect of a customer who was:
 - i. a domestic PEP or international organisation PEP who had been assessed as posing a high ML/TF risk; or
 - ii. a foreign PEP;
 - b. obtain senior management approval before establishing or continuing a business relationship with the customer;
 - c. take reasonable measures to establish a customer's source of wealth and source of funds; and
 - d. comply with Chapter 15 of the Rules, including rule 15.11 with respect to a foreign PEP.

Particulars

Rules 4.13.2 and 4.13.3 of the Rules.

872. By reason of the matters pleaded in paragraphs 860 to 871, the Joint Part B Programs did not:
- a. set out the ACIPs for the purposes of the application of the Act to all customers of Star Sydney and Star Qld; and
 - b. comply with Chapter 4 of the Rules from 30 November 2016.
873. By reason of the matters pleaded in paragraph 872, the Joint Part B Programs did not comply with s85(3)(a) and (b) of the Act.

Ongoing customer due diligence – section 36 of the act

874. At all times from 30 November 2016, Star Sydney and Star Qld were each required by s36(1) of the Act to:
- a. monitor their customers in relation to the provision of designated services at or through a permanent establishment of Star Sydney or Star Qld (respectively) in Australia, with a view to identifying, mitigating and managing the risk that they may reasonably face that the provision of a designated service at or through a permanent establishment in Australia might (whether inadvertently or otherwise) involve or facilitate money laundering; and
 - b. do so in accordance with the Rules.

(ongoing customer due diligence)

875. At all times from 30 November 2016, Star Sydney and Star Qld were each required by the Rules made under s36(1)(b) of the Act, among other things, to:
- a. have regard to the nature, size and complexity of its business and the type of ML/TF risk it might reasonably face, including the risk posed by customer types;
 - b. include appropriate risk-based systems and controls in its Part A program to enable Star Sydney and Star Qld to determine in what circumstances further KYC information

- should be collected or verified to enable the review and update of KYC information for ongoing due diligence purposes;
- c. include a transaction monitoring program in its Part A program that, among other things:
 - i. includes appropriate risk-based systems and controls to monitor the transactions of customers;
 - ii. has the purpose of identifying, having regard to ML/TF risk (as defined in the Rules), any transaction that appears to be suspicious within the terms of s41 of the Act;
 - iii. has regard to unusual patterns of transactions, which have no apparent economic or visible lawful purpose;
 - d. include an enhanced customer due diligence program in its Part A program that complies with the requirements of the Rules; and
 - e. apply the enhanced customer due diligence program when:
 - i. Star Sydney and Star Qld determine under its risk-based systems and controls that the ML/TF risk (as defined in the Rules) is high;
 - ii. a designated service is being provided to a customer who is or who has a beneficial owner who is, a foreign PEP; or
 - iii. a suspicion has arisen for the purposes of s41 of the Act.
 - f. undertake the measures specified in rules 15.10(2) and 15.10(6) in the case of a customer who is a foreign PEP.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

JUNKET OPERATORS AND JUNKET FUNDERS

Customer 1

876. Customer 1 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$860,000 for Customer 1.

Particulars

Customer 1 was a customer of Star Sydney from at least 11 July 2011.

On 14 December 2021, Star Sydney issued a WOL in respect of Customer 1 at the direction of the Star AML team.

877. Star Sydney provided Customer 1 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder for the Suncity junket operators, and a junket player. Between 2016 and 2020, Star Sydney recorded that junkets funded by Customer 1 had a turnover exceeding \$12.6 billion.

Particulars

On 11 July 2011, Star Sydney opened an FMA and SKA for Customer 1 which were closed on 6 December 2021 (item 11, table 3, s6 of the Act).

Between 15 July 2011 and 20 August 2020, Star Sydney approved CCFs for Customer 1 on multiple occasions up to facility limits of \$266,670,000, including on a permanently active basis from 6 February 2014 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel and the Customer 9 channels, which it made available to Customer 1 (items 31 and 32, table 1, s6 of the Act).

See Customer 1's risk profile below.

878. Customer 1 was a customer of Star Qld during the relevant period.

Particulars

Customer 1 was a customer of Star Qld from at least 6 July 2011.

On 14 December 2021, Star Qld issued a WOL in respect of Customer 1 at the direction of the Star AML team.

879. Star Qld provided Customer 1 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder for the Suncity junket operators. Between 2016 and 2020, Star Qld recorded that junkets funded by Customer 1 had a turnover exceeding \$2.9 billion.

Particulars

On 6 July 2011, Star Qld opened an FMA and SKA for Customer 1 which were closed on 6 December 2021 (item 11, table 3, s6 of the Act).

Between 7 October 2011 and 20 August 2020, Star Qld approved CCFs for Customer 1 on multiple occasions up to facility limits of \$266,670,000, including on a permanently active basis from 6 February 2014 (item 6, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the EEIS remittance channel and the Customer 9 channels, which it made available to Customer 1 (items 31 and 32, table 1, s6 of the Act).

See Customer 1's risk profile below.

880. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 1.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 1's risk profile

881. On and from 30 November 2016, Customer 1, and the provision of designated services to Customer 1 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 1's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 1 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 1;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on five occasions between 12 January 2012 and 11 November 2012.

The SMRs reported large cash deposits into and withdrawals from Customer 1's FMA by third parties.

- ii. Customer 1 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with the Suncity junkets at Star Sydney;

Particulars

Between 2015 and 2016, Customer 1 funded at Star Sydney:

- a. 22 junkets totalling \$30,250,000 for Suncity junkets operated by Customer 3; and
- b. 47 junkets totalling \$70,200,000 for Suncity junkets operated by Customer 4.

Customer 1 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 1 between 2015 and 2016 was \$1,468,907,442, including:

- a. \$455,849,409 with losses of \$9,465,590 for junkets operated by Suncity junket operator Customer 3; and
- b. \$1,013,058,033 with losses of \$23,953,650 for junkets operated by Suncity junket operator Customer 4.

Suncity junkets funded by Customer 1 had six junket representatives at Star Sydney.

- iii. Customer 1 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with the Suncity junkets at Star Qld;

Particulars

Between 2015 and 2016, Customer 1 funded at Star Qld:

- a. six junkets totalling \$5,500,000 for Suncity junkets operated by Customer 3; and
- b. four junkets totalling \$6,500,000 at Star Gold Coast and two junkets totalling \$6,020,000 for Suncity junkets operated by Customer 4.

Customer 1 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

Star Qld recorded that the total cumulative turnover of Suncity junkets funded by Customer 1 between 2015 and 2016 was \$235,640,698, including:

- a. \$84,912,620 with losses of \$2,953,551 for junkets operated by Suncity junket operator Customer 3; and
- b. \$150,728,078 with losses of \$7,800,322 for junkets operated by Suncity junket operator Customer 4.

Suncity junkets funded by Customer 1 had 6 junket representatives at Star Qld.

- iv. from 15 July 2011, Star Sydney provided Customer 1 with CCFs between \$20,000,000 and \$30,000,000, on a permanently active basis, to fund junkets operated by the Suncity junket operators, Customer 3 and Customer 4;

Particulars

On 15 July 2011, Star Sydney approved a CCF of \$20,000,000.

From 5 February 2014, Star Sydney increased Customer 1's CCF to a \$30,000,000.

- v. from 15 July 2011, Star Qld provided Customer 1 with CCFs with facility limits up to \$100,000,000, on a permanently active basis, to fund junkets operated by the Suncity junket operators, Customer 3 and Customer 4;

Particulars

On 15 July 2011, Star Sydney approved a permanently active CCF with a facility limit of \$3,330,000 for Customer 1.

From 5 February 2014, Star Sydney increased the facility limit of Customer 1's permanently active CCF to \$100,000,000.

- vi. in 2012, Star senior management took steps to modify the application of a Star Sydney SOP governing the use of CCFs and company cheques to facilitate the use of Customer 1's CCF for the operation of the Suncity junkets at Star Sydney;

Particulars

In December 2012, Suncity requested that a Suncity company cheque be accepted in lieu of a personal cheque to allow Customer 1 to draw down on his CCF for the Suncity junket at Star Sydney. The bank refused to provide a letter confirming that a single signatory was permitted on company cheques. The Chief Financial Officer approved the variation of the SOP on the basis that Star Sydney had minimised the risk associated with the recovery of any outstanding debts from Customer 1 and Suncity.

- vii. third parties deposited large amounts of cash and cash that appeared suspicious into Customer 1's FMA and SKA at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 7 August 2012 and 14 February 2016, Star Sydney gave the AUSTRAC CEO 31 TTRs totalling \$4,104,864, including:

- a. three TTRs detailing account deposits made by Customer 1 totalling \$1,370,000;
- b. 24 TTRs detailing account withdrawals made by Customer 1 totalling \$2,574,650;
- c. three TTRs detailing chip and cash exchanges made by Customer 1 totalling \$123,000; and
- d. one TTR detailing other monetary value out made by Customer 1 totalling \$37,214.

Large and suspicious cash transactions in 2012

Between 12 January 2012 and 11 November 2012, persons associated with Customer 1 made several large cash deposits into Customer 1's Star Sydney account totalling \$2,116,800, including:

- a. on 12 January 2012, two third parties attempted to deposit \$298,000 and \$77,000 respectively into Customer 1's Star Sydney account, but were reluctant to provide identification. Star Sydney required each person to open an FMA, deposit the cash into the FMAs, and then transfer the funds to Customer 1's FMA: SMR dated 13 January 2012;
 - b. on 13 January 2012, a Star Sydney customer deposited \$403,000 in cash into his front money account and then transferred the funds to Customer 1. The customer left the gaming room immediately and met with two individuals. The customer handed a black sports bag to one individual, who was identified as the person who transferred \$298,000 to Customer 1 on 12 January 2012: SMR 17 January 2012;
 - c. on 6 August 2012, a Star Sydney customer presented \$750,000 in cash to be deposited into Customer 1's SKA. The funds were withdrawn later that day to redeem Customer 1's CCF: SMR dated 8 August 2012; and
 - d. on 11 November 2012, a Star Sydney customer deposited \$588,800 in cash into Customer 1's account: SMR dated 12 November 2012.
- viii. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 1 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 8 April 2016, Star Qld gave the AUSTRAC CEO an incoming IFTI totalling \$787,385 where Customer 1 was named as the ordering customer and beneficiary. The funds were used to repay a CCF.

Between 9 February 2016 and 18 November 2016, Star Qld received eight telegraphic transfers totalling \$8,858,937, each of which was made available to Customer 1's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 15 August 2014, Star Qld gave the AUSTRAC CEO an outgoing IFTI totalling \$608,467 where Customer 1 was named as the ordering customer and beneficiary.

This transaction was conducted through the Star Patron account channel.

- ix. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 1 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 30 July 2015 and 15 November 2016, Star Sydney received 12 telegraphic transfers totalling \$16,188,604, each of which was made available to Customer 1's account. At least \$1,860,707 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Between 23 November 2011 and 5 September 2016, Star Sydney gave the AUSTRAC CEO 47 incoming IFTIs totalling \$40,769,922 where Customer 1 was named as the beneficiary, including:

- a. eight incoming IFTIs totalling \$6,114,216 where a third party company or individual was named as the ordering customer; and
- b. 39 incoming IFTIs totalling \$34,655,705 where Customer 1 was named as the ordering customer. Funds were used to redeem CCFs or deposited as front money for gaming programs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 16 July 2015 and 9 July 2016, Star Sydney sent three telegraphic transfers, totalling \$3,095,427 from Customer 1's SKA to an overseas bank account.

On 10 May 2016, Star Sydney sent a telegraphic transfer of \$90,599 from Customer 1's SKA to an Australian bank account.

Between 31 January 2012 and 3 September 2014, Star Sydney gave the AUSTRAC CEO 20 outgoing IFTIs totalling \$7,335,625 where Customer 1 was named as the ordering customer, including one IFTI totalling \$206,268 where the beneficiary was Customer 3, and 19 IFTIs naming Customer 1 the beneficiary.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 24 October 2015 and 17 June 2016, Star Sydney sent two telegraphic transfers totalling \$341,825 from Customer 1's account to Star Qld.

- x. media reports named Customer 1 as a person linked to overseas organised criminal syndicates; and

Particulars

From 30 April 2013, international media articles reported on the connection between Customer 1's Suncity junket operations and overseas organised criminal syndicates.

On 15 September 2014, an Australian broadcast program reported that an Australian casino had dealt with Customer 1's Suncity junket, who had links to overseas organised criminal syndicates.

On 14 March 2016, Customer 1 allegedly made millions of dollars in illegal campaign donations to a candidate for a foreign political position.

By April 2016, media articles alleged that Customer 1's account at an overseas casino was used to receive part of USD81,000,000 allegedly stolen from a central bank.

Star Sydney's and Star Qld's due diligence records did not contain records of these reports. Star did not become aware of the matters detailed in the 2016 media reports until receipt of an external due diligence report in June 2016: see paragraph 881.a.xi below.

- xi. Star Sydney and Star Qld did not identify Customer 1 as a foreign PEP, despite being in receipt of reports prepared by external due diligence providers that identified Customer 1 as a PEP;

Particulars

Between 2010 and 2016, Star Sydney and Star Qld received three reports prepared by external due diligence providers in respect of Customer 1. By 2013, the external due diligence reports identified that:

- a. in January 2013, Customer 1 had been appointed as a member of a foreign political body;
- b. Customer 1's prior roles in casinos would have necessitated associations with overseas organised crime syndicates;
- c. during this period, Customer 1 was arrested overseas on a number of occasions during police investigations into loan sharking, criminal intimidation, blackmail and unlawful detention but released without charge on each occasion and did not have a criminal record;
- d. Customer 1 was chairman of two listed companies in a foreign country and held directorships and shareholdings in at least

- 36 other companies which had interests in gaming promotion among other things, together with Customer 2; and
- e. Customer 1's Suncity business also operated online gambling websites.

In June 2016, the external due diligence report identified that:

- a. the Suncity Group, of which Customer 1 was chairman, allegedly made illegal campaign contributions to a candidate for a foreign political position; and
- b. USD81,000,000 in funds stolen from a central bank were deposited into accounts held by Suncity at an overseas casino.

Customer 1's risk profile as at 30 November 2016

- b. Customer 1 was a foreign PEP;

Particulars

See paragraph 115 above.

Between 2013 and 2018, Customer 1 was a member of a foreign political body.

Star Sydney and Star Qld did not identify Customer 1 as a foreign PEP until 16 March 2020.

- c. Customer 1 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
- i. between 2016 and 2020, Customer 1 funded at least 360 junkets operated by the Suncity junket operators Customer 3 and Customer 4 at Star Sydney totalling \$1,176,616,123;

Particulars

At Star Sydney, Customer 1 funded:

- a. 244 junkets totalling \$966,792,721 for a Suncity junket operator, Customer 3; and
- b. 116 junkets totalling \$209,823,401 for a second Suncity junket operator, Customer 4.

Customer 1 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. Star Sydney recorded that the total cumulative turnover of Suncity junkets funded by Customer 1 between 2016 and 2020 was \$12,637,210,936;

Particulars

Junkets funded in 2016

Between 1 December 2016 and 31 December 2016, junket programs funded by Customer 1 for Suncity junket operator Customer 4 had turnover of \$45,389,864 with wins of \$847,600.

In the 2016 calendar year, Customer 4 operated the highest number of junket programs at Star Sydney.

Junkets funded in 2017

In 2017:

- a. junket programs funded by Customer 1 for Suncity junket operator Customer 3 had turnover of \$120,692,962 with losses of \$5,833,090; and
- b. junket programs funded by Customer 1 for Suncity junket operator Customer 4 had turnover of \$1,810,462,190 with losses of \$35,190,747.

In the 2017 calendar year, Customer 4 operated the highest number of junket programs at Star Sydney.

In the 2017 calendar year, the turnover of junkets operated by Customer 4 was the fourth highest of all junkets operated at Star Sydney.

Junkets funded in 2018 – 2020

In 2018, junket programs funded by Customer 1 for a Suncity junket operator Customer 3 had a turnover of \$4,806,346,196 with losses of \$37,600,470.

In 2019, junket programs funded by Customer 1 for a Suncity junket operator Customer 3 had turnover of \$5,358,574,735 with losses of \$30,805,125.

In 2020, junket programs funded by Customer 1 for a Suncity junket operator Customer 3 had turnover of \$495,744,990 with losses of \$4,517,475.

Between 2018 and 2020, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs per year, and one of the top ten junket operators whose junket operations in total involved the highest total turnover per year, at Star Sydney.

- iii. between 2016 and 2020, Star Sydney provided Customer 1 with significant amounts of credit upon request, up to facility limits of \$266,670,000 on programs operated subject to a Revenue Sharing Agreement and Rebate on Turnover, which were approved by the SEG board;

Particulars

See paragraphs 516 to 518 and 552 above.

SEG's board approved and oversaw the CCF held by Customer 1 during the relevant period.

On 24 March 2017, Star senior management including the Chief Executive Officer, approved a permanently active CCF with a facility limit of \$166,670,000 on programs operated subject to a Revenue Sharing Agreement and Rebate on Turnover.

On 15 February 2018, the President, International Marketing submitted a board paper that sought approval to increase Customer 1's CCF to a facility limit of \$266,670,000 on programs operated subject to a Revenue Sharing Agreement and Rebate on Turnover.

The board paper noted that since 2015, Star had collected \$136,500,000 from the Suncity junket (reflecting losing programs) and recommended the increase in order to attract high value key players.

The board paper was circulated for approval on 15 April 2018.

By 16 February 2018, the Chief Legal and Risk Officer confirmed that the circulating resolution had been approved by the board.

- iv. Suncity junkets funded by Customer 1 had 41 junket representatives at Star Sydney; and
- v. the junkets funded by Customer 1 facilitated the provision of high value designated services to junket operators, junket representatives and at least 700 junket players including foreign PEPs and players in respect of whom Star Sydney had formed suspicions such as Customer 9, Customer 82, Customer 53, Customer 45, Customer 106, Customer 59, Customer 58, Customer 61 and Customer 20;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- d. Customer 1 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 2016 and 2017, Customer 1 funded 121 junkets operated by the Suncity junket operators Customer 3 and Customer 4 at Star Qld totalling \$223,225,598;

Particulars

At Star Qld, Customer 1 funded:

- a. 78 junkets totalling \$151,737,000 at Star Gold Coast and 19 junkets totalling \$35,500,000 for a Suncity junket operator, Customer 3; and
- b. 20 junkets totalling \$28,508,598 at Star Gold Coast and four junkets totalling \$7,480,000 for a second Suncity junket operator, Customer 4.

Customer 1 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

- ii. Star Qld recorded that the total cumulative turnover of junkets funded by Customer 1 between 2016 and 2020 was \$2,984,743,964;

Particulars

Between 1 December 2016 and 31 December 2016, junket programs funded by Customer 1 for Suncity junket operator Customer 4 had turnover of \$3,896,219 with wins of \$847,600.

In the 2016 calendar year, Customer 4 operated the second highest number of junket programs at Star Gold Coast and the highest number of junket programs at Treasury Brisbane.

In the 2016 calendar year, Customer 4 operated the highest number of junket programs at Star Gold Coast and Treasury Brisbane.

In the 2016 calendar year, the turnover of junkets operated by Customer 4 was the fifth highest of all junkets at Star Gold Coast, and the highest at Treasury Brisbane.

In 2017:

- a. junket programs funded by Customer 1 for Suncity junket operator Customer 3 had turnover of \$47,247,667 with losses of \$1,973,395; and
- b. junket programs funded by Customer 1 for Suncity junket operator Customer 4 had turnover of \$369,392,550 with losses of \$9,467,150.

In the 2017 calendar year, the turnover of junkets operated by Customer 4 was the ninth highest of all junkets at Star Gold Coast, and the highest at Treasury Brisbane.

In 2018, junket programs funded by Customer 1 for Suncity junket operator Customer 3 had turnover of \$443,885,119 with losses of \$11,982,730.

In 2019, junket programs funded by Customer 1 for Suncity junket operator Customer 3 had turnover of \$1,018,574,812 with losses of \$12,374,700.

In 2020, junket programs funded by Customer 1 for Suncity junket operator Customer 3 had turnover of \$1,091,561,156 with losses of \$9,498,255.

Between 2017 and 2020, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs at Star Gold Coast.

Between 2018 and 2020, Customer 3 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Gold Coast.

In 2017 and 2019, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs, and whose junket operations in total involved the highest total turnover, at Treasury Brisbane.

- iii. between 30 November 2016 and 2020, Star Qld provided Customer 1 with significant amounts of credit upon request, up to facility limits of \$266,670,000;

Particulars

See paragraphs 516 to 518 and 552 above.

- iv. Suncity junkets funded by Customer 1 had 30 junket representatives at Star Qld; and
- v. the junkets funded by Customer 1 facilitated the provision of high value designated services to at least 150 junket players, including foreign PEPs and players in respect of whom Star Qld had formed suspicions such as Customer 45 and Customer 61;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

2019

On 11 February 2019, a Star Qld customer was the sole junket player on a Suncity junket program operated by Customer 3 and funded by Customer 1. The program was established with front money of \$20,000,000, but the customer recorded losses of \$19,817,000.

Subsequently, the junket player engaged in gameplay on the main gaming floor, buying in using \$10,000 in cash, and winning \$149,000 which he exchanged for cash. Following these transactions, Star Qld identified that the junket player was a foreign PEP, being a member of a foreign political body and businessman: SMR dated 14 February 2019.

On 6 December 2019, a Star Qld customer presented to the cage with a shoebox of cash totalling \$280,000 (\$220,800 in \$100 notes, \$58,900 in \$50 notes and \$300 in \$20 notes). The cash was used to buy-in to gameplay, with the customer losing all of the funds.

Customer 1's CCF was then used to fund the customer's gameplay on a commission-based program, with a buy-in of \$500,000. The customer recorded losses of \$703,000 under the program: SMR dated 9 December 2019.

- e. Customer 1 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 6 September 2017 and 13 September 2017, Customer 1 was a player on one junket at Star Sydney operated by Suncity junket operator Customer 4;
 - ii. the junket was funded by Customer 1 himself;
 - iii. between 6 September 2017 and 13 September 2017, Star Sydney recorded high turnover totalling \$867,480 with losses of \$79,250 for Customer 1's gaming activity on junket programs; and
 - iv. during the period referred above, Star Sydney provided non-gaming benefits to Customer 1 as a junket player;

Particulars

Between 6 September 2017 and 13 September 2017, Customer 1 received:

- a. accommodation at Star Sydney between 5 September 2017 and 10 September 2017;
 - b. personal use of Star Sydney's yacht on 7 September 2017;
 - c. restaurant bookings on 7 September 2017;
 - d. golf bookings;
 - e. valet car parking;
 - f. a trip event sponsorship deal where Suncity received \$90,000 to use on hotel expenses based on trip turnover;
 - g. a welcome dinner to a maximum cost of \$50,000;
 - h. a farewell dinner onboard The Star Sydney's yacht with buffet and beverage package; and
 - i. use of Star Sydney's yacht for four days (each day for six hours).
- f. designated services provided to Customer 1 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 1 was connected to other customers at Star Sydney, including junket operators in respect of whom Star Sydney had formed suspicions (such as Customer 4, Customer 3 and Customer 9), and players whom Star considered had acted suspiciously, such as Customer 2;

Particulars

Together, Customer 1 and Customer 2 were the co-owners of Suncity.

Between 6 September 2017 and 13 September 2017, Customer 1 played on a junket with two other junket operators, Customer 4 and Customer 9.

Customer 3 and Customer 4 operated Suncity junkets at Star Sydney, all of which were funded by Customer 1.

See Customer 2's risk profile Customer 3's risk profile and Customer 4's risk profile.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 1 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

On 23 August 2019, deposits through the Customer 9 channels totalling \$1,334,376 were made available by Star Sydney to Customer 1's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 16 December 2016 and 11 June 2021 Star Sydney received 24 telegraphic transfers totalling \$92,831,757, each of which was made available to Customer 1's account. At least \$40,695,528 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Between 7 March 2017 and 18 October 2017, Star Sydney gave the AUSTRAC CEO seven incoming IFTIs totalling \$12,931,109 where Customer 1 was named as the beneficiary and the ordering customer.

Between 30 January 2018 and 13 June 2018, Star Sydney received two telegraphic transfers totalling HKD8,655,119 into its foreign currency bank account, each of which was made available to Customer 1's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 31 March 2017 and 2 November 2020, Star Sydney sent two telegraphic transfers totalling \$3,192,738 from Customer 1's SKA to Australian bank accounts.

On 10 March 2018 and 6 March 2019, Star Sydney sent two telegraphic transfers totalling \$10,850,000 from Customer 1's SKA to another Australian casino.

On 9 October 2020, on instructions from a Suncity junket operator, Customer 3, Star Sydney transferred \$1,233,600 from Customer 3's SKA to Customer 1's overseas personal bank account. On 27 October 2020, Star Sydney was informed by the overseas bank that the funds were rejected on the basis that it did not accept transfers from casinos. Star Sydney gave the AUSTRAC CEO an incoming IFTI in respect of the transaction on 2 November 2020.

On 28 October 2020, following the rejection of funds by the overseas bank, Customer 3 requested that the funds be transferred to Customer 1's SKA at Star Sydney, then transferred to another Australian casino, despite the fact that the casino was closed due to

the COVID-19 pandemic lockdowns and had not confirmed an opening date. The funds were rejected and returned to Customer 1's SKA at Star Sydney on 7 December 2020.

On 28 May 2021, Star Sydney attempted to transfer the \$1,233,600 in funds from Customer 1's SKA to Customer 1's overseas personal bank account. The funds were rejected and returned to Customer 1's SKA at Star Sydney on 11 June 2021.

As at 12 August 2022, Star Sydney still held \$1,233,600 in Customer 1's SKA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 5 April 2017 and 22 October 2019, Star Sydney received at least four transfers totalling \$2,726,143 from Star Qld, which it made available to Customer 1's account.

Between 16 June 2017 and 19 March 2020, Star Sydney sent seven transfers totalling \$3,343,810 from Customer 1's account to Star Qld.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 1 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

On 12 August 2019, deposits through the Customer 9 channels totalling \$563,087 were made available by Star Qld to Customer 1's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 13 December 2016 and 15 April 2019, Star Qld received ten telegraphic transfers totalling \$23,037,799, each of which were made available to Customer 1's FMA at Star Gold Coast. The funds were transferred for the purpose of redeeming outstanding CCFs held by Customer 1.

On 24 November 2017, Star Qld received a telegraphic transfer of \$2,909,905, which it made available to Customer 1's FMA at Treasury Brisbane.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 10 January 2017, Star Qld facilitated a telegraphic transfer of \$484,347 from Customer 1's FMA at Treasury Brisbane to an overseas bank account.

On 13 June 2018, Star Qld facilitated a telegraphic transfer of \$582,807 from Customer 1's FMA at Star Gold Coast to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 18 May 2017 and 9 August 2019, Star Qld facilitated seven transfers totalling \$2,998,066 from Star Gold Coast to Treasury Brisbane, each of which was made available to Customer 1's FMA. Some of the funds were sourced from Customer 3's SKA at Star Gold Coast. Some of the funds were transferred for the purpose of redeeming outstanding CCFs held by Customer 1.

Between 14 June 2017 and 22 April 2020, Star Qld received six transfers totalling \$3,936,071 from Star Sydney, each of which was made available to Customer 1's FMA at Star Gold Coast. Some of the funds were transferred for the purpose of redeeming outstanding CCFs.

On 18 September 2017, Star Qld facilitated a transfer of \$618,773 from Customer 1's account at Star Gold Coast to Star Sydney.

On 8 January 2018 and 18 July 2018, Star Qld facilitated two transfers totalling \$1,175,449 from Treasury Brisbane to Star Gold Coast, both of which were made available to Customer 1's FMA at Star Gold Coast.

On 22 October 2019, Star Qld received a transfer of \$753,534 from Star Sydney, which it made available to Customer 1's FMA at Treasury Brisbane.

On 11 December 2019, Star Qld facilitated a transfer of \$20,156 from Customer 1's FMA at Treasury Brisbane to Customer 3's FMA at Star Sydney.

- j. Star Sydney and Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 1 by remitting large amounts of money into the casino environment via his accounts, including through the EEIS remittance channel;

Particulars

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 14 October 2019 and 20 April 2020, third party companies acting on behalf of Customer 1 deposited a total of \$10,667,257 into the EEIS Patron accounts, which Star Sydney made available to Customer 1 through the EEIS remittance channel.

On 5 September 2019, a third party company acting on behalf of Customer 1 deposited a total of \$3,042,774 into the EEIS Patron account, which Star Sydney and Star Qld made available to Customer 1 through the EEIS remittance channel.

- k. Customer 1 and his junket representative transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 11 September 2017 and 27 March 2018, Star Sydney gave the AUSTRAC CEO 14 TTRs totalling \$116,215:

- a. nine TTRs detailing account deposits involving Customer 1 totalling \$781,078; and
- b. five TTRs detailing account deposits involving Customer 1 totalling \$383,137.

Large and suspicious cash transactions in 2017

On 4 September 2017, Customer 1's junket representative opened an account at Star Sydney. Customer 1 requested \$250,000 to be transferred from his account to the junket representative's account. The junket representative immediately withdrew the funds as cash: SMR dated 5 September 2017.

On 8 September 2017, a Star Sydney customer deposited \$150,900 in cash, comprising \$50 notes and \$100 notes. The cash was deposited to Customer 1's SKA and then transferred to a second SKA held by Customer 1, to redeem a CCF.

On 10 September 2017, Customer 1's junket representative presented \$100,223 in cash, in mixed denominations including \$100, \$50, \$20, \$10 and \$5 notes, which was deposited into Customer 1's account.

On 22 December 2017, Customer 1's junket representative deposited \$100,000 in cash in \$100 notes, in straps issued by the Star, for deposit into Customer 1's account.

On 25 January 2018, Customer 1's junket representative deposited \$100,000 in cash in \$50 notes bundled in rubber bands into Customer 1's SKA.

Large and suspicious cash transactions in 2018

On 24 March 2018, Customer 1's junket representative deposited \$100,000 in \$50 notes in a plastic bag into Customer 1's account.

- I. Customer 1 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

For example, on 26 April 2018, Star Qld gave the AUSTRAC CEO one TTR detailing an account deposit made by Customer 1 totalling \$40,035 and on 14 May 2018, Star Qld gave the AUSTRAC CEO one TTR detailing an account withdrawal made by Customer 1 totalling \$40,035.

- m. in 2017, Customer 1 was the subject of law enforcement enquiries on one occasion at Star;

Particulars

On 26 July 2017, Star Sydney received a request from a law enforcement agency, in respect of Customer 1.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- n. between April 2018 and August 2019, Star Sydney permitted the Suncity junket funded by Customer 1 to operate the Suncity Service Desk in Salon 95, at which multiple suspicious transactions involving cash were observed;

Particulars

See paragraph 683.d above.

- o. in 2019, a law enforcement agency issued exclusion notices in respect of individuals associated with Suncity junkets at Star Sydney;

Particulars

On 16 July 2019, a law enforcement agency issued an exclusion notice in respect of 12 persons, several of whom were Suncity junket representatives or staff members.

See *Customer 3's risk profile*.

- p. from 2017, publicly accessible media reports named Customer 1 and his company Suncity as engaged in proxy betting, online gambling, and underground banking, with links to overseas organised crime syndicates;

Particulars

On 8 May 2017, a media article reported that Customer 1's company, Suncity, was engaged in proxy betting, to the extent that 80% of its business came from proxy betting with 20% of the business related to table games.

Star Sydney's and Star Qld's due diligence records did not contain records of this report.

On 9 July 2019, a media article reported that Customer 1, being the junket funder of the Suncity junket operated by Customer 3, was implicated in operating gaming platforms and facilitating underground banking and illegal gaming in a foreign country and had met with gaming officials in a foreign country in respect of those allegations. The reports were denied by Customer 1 in his role as Chief Executive of the Suncity Group.

Star Sydney and Star Qld were aware of these reports from July 2019.

- q. from June 2019, Star senior management held copies of a report prepared by the Hong Kong Jockey Club (**HKJC**), which alleged that the Suncity Group, Customer 1 and Customer 2 were connected to overseas organised crime syndicates;

Particulars

The HKJC report alleged that:

- a. The Suncity Group was involved in a diverse range of business activities, including some criminal enterprises;
- b. Customer 1 was connected to overseas organised crime syndicate figures; and
- c. Customer 2, Customer 1's business partner, was allegedly a member of overseas organised crime syndicates and involved in illegal bookmaking, drug trafficking and large scale money laundering activities.

On 12 June 2019, a copy of the HKJC report was provided to the Group General Counsel and Company Secretary, Star Entertainment, General Counsel Corporate and the Group Investigations Manager, Star Entertainment by the Due Diligence Program Manager, Star Entertainment.

- r. by 15 August 2019, Star was aware of media allegations in respect of Customer 1, including his connections to overseas organised crime syndicates;

Particulars

On 27 July 2019, a media article reported that an Australian casino dealt with junket operators such as Customer 1, who were backed by overseas organised crime syndicates.

Between 1 and 5 August 2019, media articles reported that Customer 1 had been banned from entering Australia, allegedly on the basis of his links to organised crime.

On 9 August 2019, a media article reported that in 2012 two individuals suspected of money laundering had deposited \$403,000 in

cash into an account at Star Sydney, which was transferred into Customer 1's Star Sydney account.

On 15 August 2019, the allegations against Customer 1 reported in media articles were summarised by the Chief Casino Officer and Chief Legal and Risk Officer in a SEG Board Paper.

- s. it was not until March 2020 that Star Sydney and Star Qld recorded media allegations which reported that Customer 1 was linked to overseas organised crime syndicates in its due diligence records for Customer 1;

Particulars

On 23 February 2020, Australian media articles were published with respect to an Australian casino's dealings with Customer 2 and Customer 1, and noted that Customer 1 had allegedly been banned from Australia due to his links to overseas organised crime syndicates.

It was not until mid-March 2020 that Star Sydney and Star Qld recorded these allegations in its due diligence records.

On 3 September 2020, a media article reported that an Australian casino had received due diligence reports suggesting that Customer 1 was involved in overseas organised crime syndicates.

On 20 October 2020, a media article reported that an Australian casino had received information to suggest that Customer 1 was a foreign PEP with a criminal history.

Star Sydney's and Star Qld's due diligence records did not contain records of these reports.

It was not until at least November 2020 that Star Sydney and Star Qld conducted media database searches and recorded the following allegations in its due diligence systems:

- a. Customer 1 was a foreign PEP since 2013;
- b. another Australian casino had been subject to scrutiny over its relationship with Customer 1;
- c. Customer 1's Suncity company operated online gaming and proxy betting through offshore online casinos; and
- d. \$403,000 in cash was deposited into Customer 1's account at Star Sydney by individuals who were subsequently prosecuted and convicted of money laundering.

It was not until January 2021 that Star Sydney and Star Qld conducted foreign language media database searches on Customer 1, which identified reports that alleged:

- a. Customer 1 was a foreign PEP; and

- b. facilitating cross-border capital transfer through underground banks; and
 - c. enabling cross-border online gambling activities.
- v. Star Sydney and Star Qld did not have adequate reason to believe that Customer 1's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 1 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

In August 2019, Star Sydney and Star Qld recorded Customer 1's occupation as founder and chairman of the Suncity Group and subsidiaries.

On 23 March 2020, the AML/CTF & Financial Crime Administrator requested access to source of wealth records held by the Star VIP Credit and Collections team with respect to Customer 1, which comprised credit checks and property searches.

Star Sydney and Star Qld did not take appropriate steps to verify their assumptions regarding Customer 1's source of wealth or source of funds in circumstances where:

- a. between 2016 and March 2020 (prior to the COVID-19 pandemic), turnover on junkets funded by Customer 1 exceeded \$1.3 billion;
- b. between May 2018 and August 2019, Star Sydney allowed the Suncity junket funded by Customer 1 to operate a service desk in Salon 95, and was aware of that Suncity staff were attempting to conceal large and suspicious cash transactions from Star: see paragraph 683.d above;
- c. from 2017, publicly accessible articles alleged that Customer 1 was connected to overseas organised criminal syndicates and underground banking, and that his companies engaged in illegal proxy and online betting: see paragraphs 881.o and 881.s; and
- d. by November 2021, Customer 1 had been arrested on charges of alleged criminal association, illegal gambling, money laundering and running an illegal online gambling operation in a foreign country: see paragraph 881.u.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 1

882. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 1 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 1.

- a. On and from 30 November 2016, Customer 1 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 1's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 16 March 2020 that Customer 1 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 13 April 2014, Customer 1 was rated medium, not being high for the purpose of the Act and Rules.

On 21 August 2019, Customer 1 was rated high, not being high for the purpose of the Act and Rules.

On 16 March 2020, Customer 1 was rated critical, being high for the purpose of the Act and Rules.

On 15 July 2020, Customer 1 was rated very high, being high for the purpose of the Act and Rules.

Monitoring of Customer 1's transactions

883. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 1's transactions.

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 1, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders or players.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 1 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel and the Customer 9 channels;

Particulars

See paragraphs 441 and 493 above.

- d. Star Sydney and Star Qld provided designated services to Customer 1 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 1's KYC information

- 884. Star Sydney and Star Qld did not review, update and verify Customer 1's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 1's business with each of Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 1's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out at paragraph 881 above, there were real risks that Customer 1's source of wealth and source of funds were not legitimate: see *Customer 1's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 1's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 1.

Particulars

See paragraph 155 above.

Section 36(1)(a), (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Between 30 November 2016 and February 2019, Star Sydney's and Star Qld's due diligence records did not contain details of any ongoing customer due diligence in respect of Customer 1 despite that:

- a. between May 2018 and August 2019, Star Sydney allowed the Suncity junket funded by Customer 1 to operate a service desk in Salon 95, and was aware of that Suncity staff were attempting to conceal large and suspicious cash transactions from Star: see paragraph 683.d above; and
- b. from 2017, publicly accessible articles alleged that Customer 1 was connected to overseas organised criminal syndicates and underground banking, and that his companies engaged in illegal proxy and online betting: see paragraphs 881.o and 881.s.

See paragraph 890.a.

However, it was not until 14 December 2021 that WOLs were issued by Star Sydney and Star Qld in respect of Customer 1.

Failure to apply appropriate due diligence suited to Customer 1's high ML/TF risks

885. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 1 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 1; and
 - c. reviewing and updating Customer 1's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 1 all times because Customer 1 was a foreign PEP: see *ECDD triggers in respect of Customer 1*.

ECDD triggers in respect of Customer 1

886. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 1 following any ECDD triggers in respect of Customer 1. In particular, because Customer 1 was a foreign PEP, Star Sydney and Star Qld were required to:

- a. undertake detailed analysis of Customer 1's KYC information including taking reasonable measures to identify the source of Customer 1's wealth and the source of Customer 1's funds; and
- b. seek senior management approval for continuing a business relationship with Customer 1 and whether Star Sydney and Star Qld should continue to provide a designated service to Customer 1.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), , 15.9(3), 15.10 and 15.11 of the Rules.

887. Customer 1:

- a. at all times from 30 November 2016 was a foreign PEP;

Particulars

See Customer 1's risk profile above.

It was not until 16 March 2020 that Star Sydney and Star Qld became aware that Customer 1 was a foreign PEP.

- b. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 5 September 2017 and 20 November 2020, Star Sydney gave the AUSTRAC CEO two SMRs with respect to Customer 1.

- c. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period;

Particulars

Between 14 February 2019 and 23 January 2020, Star Qld gave the AUSTRAC CEO three SMRs with respect to Customer 1.

- d. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 16 March 2020, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 1 was critical, being high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 1* above.

888. Each matter pleaded in paragraph 887 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

889. It was not until 16 March 2020 that Star Sydney and Star Qld identified that Customer 1 was a foreign PEP.

890. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 1 following the ECDD triggers:
- a. on each occasion prior to 14 December 2021 that Star Sydney and Star Qld conducted ECDD in respect of Customer 1 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 1 and the provision of designated services to Customer 1 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney or Star Qld's ML/TF risk appetite. In particular, Star Sydney and Star Qld failed to monitor Customer 1 as a foreign PEP because:
 - i. Star Sydney's and Star Qld's analysis of Customer 1's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 1;
 - ii. Star Sydney's and Star Qld's analysis of Customer 1's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 1;

Particulars to (i) and (ii)

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 817 above.

ECDD

On various dates between September 2019 and November 2021, Star Sydney and Star Qld conducted ECDD in respect of Customer 1.

On 8 September 2019, Star Sydney and Star Qld obtained an external due diligence report in respect of Customer 1 that identified that:

- a. Customer 1 had held multiple foreign political positions and was a foreign PEP;
- b. allegations in foreign media that Customer 1 and his Suncity Group company were involved in the provision of proxy betting and online gambling services to residents of a foreign country where gambling is illegal; and
- c. allegations in Australian media that Customer 1's Suncity Group company was connected to overseas organised crime syndicates and that Customer 1 had been banned from entering Australia.

On 16 March 2020, Star Sydney and Star Qld conducted searches which indicated that Customer 1 was a foreign PEP. Following this, Star Sydney and Star Qld increased Customer 1's risk rating to critical, which was high for the purpose of the Act and Rules, and conducted ECDD which identified that:

- a. Customer 1 held approximately 78 accounts, including accounts denominated in HKD;

- b. despite the fact that Customer 1 had allegedly been banned from entering Australia, his company, Suncity, had continued to operate Suncity-branded junkets at Australian casinos, including at Star Sydney;
- c. six SMRs had been given to the AUSTRAC CEO; and
- d. one law enforcement request had been issued to Star Sydney in respect of an IFTI.

In September 2020, Star Sydney obtained an external due diligence report in respect of Customer 1 which identified that:

- a. Customer 1 had been involved with overseas organised criminal syndicates, but this was historical;
- b. it was not possible to avoid interaction with overseas organised criminal syndicates in the junket industry;
- c. that assumed that Customer 1 would have taken steps to avoid having a criminal record, given his broader aims to expand his company;
- d. proxy betting occurred in gaming rooms operated by Suncity in an overseas jurisdiction; and
- e. companies associated with Suncity were involving in online gambling.

On 30 December 2020, a screening conducted by Star in respect of Customer 1 identified that:

- a. Customer 1 was a former member of an overseas organised crime syndicate in charge of loan-sharking and gambling; and
- b. another Australian casino had been informed that Customer 1 was a PEP with a substantial criminal history.

On 28 January 2021, an ECDD profile of Customer 1 was prepared by the Due Diligence Program Manager and the International Compliance Officer (Hong Kong), which outlined Customer 1's business interests, Customer 1's alleged connections to overseas organised crime syndicates, Customer 1's foreign political positions, issues related to the Suncity junket's operations in Salon 95, and Australian media allegations and inquiry into another Australian casino's dealings with Customer 1 and the Suncity junket.

On 1 November 2021, following reports that Customer 1 had been arrested, the Group Manager Due Diligence & Intelligence reviewed media articles in relation to the matter, and identified that Customer 1 was suspected of:

- a. operating a cross-border criminal gambling syndicate;

- b. facilitating cross-border capital transfer through underground banks; and
- c. enabling cross-border online gambling activities.

The summary also noted that Customer 1 had resigned as the chairman and executive director of the Suncity Group and the Suncity Group had closed its VIP rooms.

- iii. Customer 1 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's risk appetite.

Particulars to (iii)

See paragraph 817 above.

- iv. on any occasion prior to December 2021 that Customer 1 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 1 and the provision of designated services to Customer 1 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars to (iv)

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810.

At no time prior to August 2019 did senior management give appropriate consideration to the ML/TF risks posed by Customer 1.

Between August 2019 and December 2021, senior management considered the relationship with Customer 1 on multiple occasions and in different forums.

JRAM and PAMMs

Between August 2019 and November 2021, Customer 1 was retained for monitoring by the JRAM and PAMM for over two years. The minutes of the meetings recorded that:

- a. in August 2019, Customer 1 was allegedly linked to organised crime and that the HKJC had been briefed by law enforcement about Customer 1's involvement in money laundering;
- b. by September 2019, Customer 1's risk rating was uplifted to high (which was not high for the purpose of the Act and Rules) with the AML/CTF Compliance Officer to await the outcomes of the adverse media coverage;
- c. between November 2019 and December 2019, Star senior management advised retaining Customer 1 on the JRAM/PAMM list until Star had completed its risk assessment of the Suncity junket;

- d. between January 2020 and October 2020, Star senior management agreed to retain Customer 1 on the JRAM/PAMM until the ILGA inquiry was completed and that a Star staff member would conduct ECDD on junkets referred to in the inquiry, including the Suncity junket;
- e. in March 2020, Star senior management were informed that Customer 1 had been identified as a foreign PEP;
- f. in November 2020, Star senior management were expecting to receive further due diligence reports on Customer 1 and that Star would review future relationships on strict conditions;
- g. between December 2020 and January 2021, Star senior management would action any decisions regarding whether to continue doing business with Customer 1 once ILGA inquiry had announced its findings;
- h. by 18 February 2021, the AML/CTF Compliance Officer planned to discuss the findings of the ILGA inquiry with the Chief Legal Officer and Group General Counsel and announce decision whether to continue doing business with Customer 1 at the next meeting;
 - i. between March 2021 and April 2021, the AML/CTF Compliance Officer advised the JRAM that no decisions about whether to continue doing business with Customer 1 had been made;
- j. in June 2021, the JRAM were advised that no decision about whether to continue doing business with Customer 1 would be made until an independent review had been completed, which was due on 30 June 2021;
- k. on or around 21 August 2021, an out of session JRAM was convened to consider appropriate risk mitigation strategies for patrons such as Customer 1;
- l. by 26 August 2021, the JRAM was still awaiting a senior management decision with respect to continuing to do business with Customer 1;
- m. by 23 September 2021, no further updates were recorded in respect of whether to continue to do business with Customer 1 on the basis that Star Sydney was closed due to COVID-19 pandemic restrictions; and
- n. between 28 October 2021 and 18 November 2021, the JRAM was informed that Customer 1 would remain on the JRAM list until the Chief Legal and Risk Officer had made decisions following the findings of Project Congo.

Internal reports provided to senior management

From February 2020, senior management were provided with internal reports that outlined the high ML/TF risks posed by Customer 1.

On 13 February 2020, the Due Diligence Program Manager prepared a detailed chronology of the Star's engagement with Suncity.

On 8 May 2020, the Due Diligence Program Manager prepared a Suncity ECDD report in respect of Customer 1 and other Suncity associates, including Customer 3, Customer 4 and Customer 2. The report was provided to the Chief Legal and Risk Officer, and copied to General Counsel Corporate and the AML/CTF Compliance Officer, and identified:

- a. media articles which alleged that Customer 1 was involved in money laundering, proxy betting and online gambling services and reported on his links to overseas organised crime syndicates;
- b. Customer 1 was a foreign PEP; and
- c. that a HKJC report alleged that Customer 1's business partner, Customer 2, not Customer 1, orchestrated money laundering activities.

On 1 October 2020, a revised draft copy of the above report was prepared by the Due Diligence Program Manager and provided to the Group General Counsel and copied to the General Counsel Corporate and the AML/CTF Compliance Officer. The purpose of the report was to assist Star senior management to provide advice to the Board in respect of Customer 1 and Suncity, who had been referred to during the Bergin ILGA inquiry. The report noted that:

- a. in respect of public allegations against Customer 1 from 2014 onwards, Star should have done more, including ECDD on Customer 1;
- b. records in Customer 1's Protecht did not include details of public allegations or risk assessment or mitigation measures taken by Star;
- c. it was 'highly likely' that Customer 1 and his subordinates retained business relationships with overseas organised criminal syndicates;
- d. Customer 1 would 'most likely' have been 'conversant' with money laundering activities at Australian casinos, including Star; and
- e. Star should undertake a holistic review regarding the appropriateness of maintaining a business relationship with Customer 1, which may pose a reputational risk.

By 7 January 2021, the abovementioned report was revised and finalised by the Due Diligence Program Manager and provided to the Group General Counsel and copied to the AML/CTF Compliance Officer. The final version of the report identified:

- a. it was 'possible' that Customer 1's subordinates may maintain business relationships with overseas organised criminal syndicates and their affiliates;
- b. there was 'no clear evidence' that Customer 1 had personal involvement or facilitates any type of criminality but rather he was a successful and astute businessman;
- c. Customer 1 would 'most probably' have been 'conversant' with money laundering activity purportedly facilitated at Australian casinos but there was no evidence to suggest he was aware or directed this; and
- d. Customer 1 would not have been appointed to positions in foreign political bodies had authorities suspected his involvement in criminal activity.

January 2021 recommendation to continue doing business with Customer 1 and Suncity

In January 2021, the Group Manager Due Diligence & Intelligence recommended that Star continue to do business with Customer 1, despite preparing a report that identified there was a basis to terminate the relationship with Customer 1 because of:

- a. public allegations that Customer 1 and the Suncity junket are engaged in money laundering at Australian casinos;
- b. the risk that the public and regulators may think that this also occurs at Star;
- c. continuing a relationship would give an impression that Star was comfortable to engage with a company with links to overseas organised crime syndicates and that facilitates money laundering;
- d. legitimate concerns regarding Suncity's ability to operate compliance junket programs following the investigation into Salon 95; and
- e. that Customer 2, who was subject to law enforcement interest in Australia, was Customer 1's business partner.

The recommendation to continue to do business with Customer 1 and Suncity was to be subject to conditions including:

- a. stringent compliance measures;
- b. Star to request Customer 2 step down from his position as Customer 1's business partner in Suncity; and

- c. Star can 'reasonably argue' that evidence in the ILGA inquiry did not substantiate Customer 1's involvement in overseas organised criminal syndicates and there was no 'irrefutable' evidence that would prevent the Star from continuing to engage, because instances of non-compliance at Salon 95 can be attributed to Suncity's poor management rather than criminal intent.

Despite this recommendation, which was based on the understanding that conditions were required for any ongoing business relationship, no formal decision was made to continue to do business with Customer 1 or Suncity. In addition, no steps were taken to adopt the conditions recommended in the report.

February Bergin ILGA report

In February 2021, the Bergin ILGA inquiry published its findings, including that:

- a. there were links between Customer 1, the Suncity junket and overseas organised criminal syndicates; and
- b. it was more probably than not that the large amounts of suspicious cash transacted at the Suncity cash administration desk was money to be laundered.

August 2021 Project Congo review

On 16 August 2021, the Project Congo – High Risk Customer Review was provided to the Group General Counsel and copied to the AML/CTF Compliance Officer and AML/CTF & Financial Crime Program Manager. The report was also provided to the Chief Legal and Risk Officer. The purpose of Project Congo was to examine individuals who had been the subject of adverse mention in the Bergin ILGA inquiry.

The report summarised the options in the January 2021 report, and recommended that Star could safely continue a business relationship with Customer 1 subject to patron-specific risk mitigation processes.

However, the ECDD methodology applied by Project Congo screening did not take into account any transaction monitoring, and did not have appropriate regard to the higher ML/TF risks posed by Customer 1: see *Customer 1's risk profile*.

On 18 August 2021, the Due Diligence Program Manager reviewed the ECDD performed on Customer 1 and recommended that subject to patron specific risk mitigation measures being put in place, Star Sydney could safely maintain a customer relationship with Customer 1. The AML/Compliance Officer reviewed the recommendation and noted that he agreed with it, despite not being aware of the proposed risk mitigation measures, which were due to be discussed at an out of session JRAM on 21 August 2021.

August 2021 decision to continue a business relationship with
Customer 1

On or about 21 August 2021, an out of session JRAM was held to discuss risk mitigation strategies for customers like Customer 1, attended by the Due Diligence Program Manager, the AML/CTF Compliance Officer and AML/CTF & Financial Crime Program Manager.

Following the meeting, the Group General Counsel and the AML/CTF Compliance Officer decided that Star could continue doing business with Customer 1 'on an individual customer basis', subject to:

- a. attestation of source and origin of funds in respect of cash transactions;
- b. commissioning reliable external due diligence providers to provide updated background reports;
- c. requiring annual declaration of non-criminal status;
- d. attendance for an interview with AML/CTF Compliance Officer;
- e. ECDD on a regular basis, not annually; and
- f. an independent report to be provided to the AML/CTF Compliance Officer and Chief Legal and Risk Officer.

WOL

On 3 December 2021, the Group Manager Due Diligence & Intelligence reviewed the ECDD performed on Customer 1 following media reports of his arrest, noted that senior management approval of proposed risk mitigation measures for Customer 1 was outstanding but recommended that no further action should be taken in respect of Customer 1. He further noted the possibility that the media might report negatively on Star and its business relationship with Suncity.

The AML/CTF Compliance Officer reviewed the recommendation and noted that he agreed with the recommendation on the basis that Star continue to monitor Customer 1 based on the outcomes of Project Congo and the court matters referred. He also noted that Customer 1's CCF and FMA were to be closed.

On 14 December 2021, the Group Manager Due Diligence & Intelligence reviewed the further ECDD performed on Customer 1 following media reports of his arrest, and recommended that due to the nature of Customer 1's alleged offending (money laundering through underground banking) and the possible lengthy custodial sentence if convicted, that consideration be given to issuing a groupwide WOL.

On 14 December 2021, the AML/CTF Compliance Officer reviewed the recommendation and, making specific reference to the nature of

the charges Customer 1 was facing, agreed that Star should cease the customer relationship and issue a groupwide WOL on the same day.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 1: see *Customer 1's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed Customer 1's source of funds or source of wealth: see paragraph 881.v.

By reason of the matters set out above, there were real risks that Customer 1's source of wealth and source of funds were not legitimate: see *Customer 1's risk profile* above.

Contravention of s36 of the Act in respect of Customer 1

891. By reason of the matters pleaded from paragraphs 876 to 890 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 1 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rules 15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

892. By reason of the matters pleaded at paragraph 891, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 14 December 2021 with respect to Customer 1.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 2

893. Customer 2 was a customer of Star Sydney during the relevant period. Between 2017 and 2018, Star Sydney recorded turnover exceeding \$29 million for Customer 2.

Particulars

Customer 2 was a customer of Star Sydney from at least 22 November 2012.

On 24 January 2022, Star Sydney issued a WOL in respect of Customer 2.

894. Star Sydney provided Customer 2 with designated services within the meaning of table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 22 November 2012, Star Sydney opened an FMA and SKA for Customer 2 which were closed on 4 February 2022 (item 11, table 3, s6 of the Act).

See *Customer 2's risk profile* below.

895. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 2.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 2's risk profile

896. On and from 30 November 2016, Customer 2, and the provision of designated services to Customer 2 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 2's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 2 had the following risk history:
- i. on 27 March 2014, Star Sydney provided Customer 2 with significant amounts of credit upon request, up to limits of \$5,000,000; and

Particulars

See paragraphs 516 to 518 and 552 above.

On 27 March 2014, Star Sydney senior management, including the General Manager, Credit and Collections, the Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit for Customer 2 of \$5,000,000.

- ii. from at least 2014, Star Sydney was aware that Customer 2 was a Suncity 'boss';

Customer 2's risk profile from 30 November 2016

- b. Customer 2 was a junket player who received high value gambling services (table 3, s6) at Star Sydney through junket programs;
- i. between 30 March 2017 and 30 March 2018, Customer 2 was a player on two Suncity junkets at Star Sydney operated by Customer 4 and Customer 3;
 - ii. each of the junkets were funded by a person other than the junket operator, being Customer 1; and
 - iii. between 30 March 2017 and 30 March 2018, Star Sydney recorded high turnover totalling \$29,041,610 with losses of \$1,029,835 for Customer 2's gaming activity on junket programs;

Particulars

In 2017, Customer 2's turnover on junket programs was \$25,910,040 with losses of \$77,835.

In 2018, Customer 2's turnover on junket programs was \$3,131,570 with losses of \$952,000. Customer 2 was funded with \$1,000,000.

- c. designated services provided to Customer 2 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 2 was connected to other customers at Star Sydney, including junket funders, foreign PEPs, players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 1 and Customer 5:

Particulars

From at least 2010, Star Sydney was aware that Customer 2 was a major shareholder, together with Customer 1, in the Suncity group. By 2010, Star Sydney was aware that Customer 1 was known to a number of law enforcement agencies for his extremely close ties to a number of high profile and senior members of an organised crime syndicate.

From at least 2013, Star Sydney was aware that Customer 2 was a co-director, together with Customer 1, of many overseas companies.

Customer 1's and Customer 2's business relationship is ongoing.

In November 2021, Customer 1 was arrested in a foreign country and charged with illegal gaming, criminal association, fraud and money laundering.

See Customer 1.

In July 2019, SEG obtained an external due diligence report in respect of a number of customers. The report described Customer 2 as the 'boss' of the Suncity group and noted his association with Customer 5.

Customer 5 was a foreign PEP.

By October 2014, Star Sydney was aware that Customer 5 had reportedly been detained in a foreign country for alleged involvement in money laundering.

By November 2019, Star Sydney suspected that Customer 5 may use other junket licenses and associations to launder money through casinos.

See Customer 5.

- e. in 2018, Customer 2 was the subject of a law enforcement enquiry at Star Sydney;

Particulars

On 21 March 2018, Star Sydney received a request from a law enforcement agency for details relating to Customer 2 and Suncity.

- f. Customer 2 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 2 had access to private gaming rooms at Star Sydney, including Harbours Salons.

- g. by April 2018, a confidential report published by a foreign gaming organisation stated that Customer 2 was believed to be a member of an organised crime syndicate;

Particulars

The confidential report

In April 2018, a foreign gaming organisation published a report in respect of the Suncity group which alleged that Customer 2:

- a. was a major business partner of, and had had eleven common directorships with, Customer 1;
- b. was believed to be a member of an organised crime syndicate;
- c. was reported to be involved in illegal bookmaking, drug trafficking and large scale money laundering activities; and
- d. was of interest to Australian law enforcement agencies due to money laundering and drug trafficking activities which he reportedly orchestrated from a foreign country.

The report concluded that the Suncity Group's controlling entities, being Customer 2 and Customer 1, posed tangible criminal and reputational risks to the foreign gaming organisation and to the relevant gaming industry in a foreign country.

Star's knowledge of the confidential report

The Due Diligence Program Manager was a participating author of the confidential report, having previously worked for the foreign gaming organisation which published it.

The Due Diligence Program Manager commenced employment at Star in May 2019.

In June 2019, he sent the confidential report to the Group General Counsel, the Group General Counsel (Corporate) and the AML/CTF Compliance Officer. The AML Compliance Manager was also provided with a copy of the confidential report.

- h. in and from February 2020, publicly accessible media articles reported that Customer 2 had allegedly been added to a list of transnational, serious and organised crime targets; and

Particulars

In February 2020, publicly accessible media articles reported that Customer 2:

- a. co-owned Suncity together with Customer 1, a business that brought high-roller gamblers from a foreign country into Australian casinos;
- b. was added to a list of transnational, serious and organised crime targets in or about 2017;
- c. was the subject of interest from law enforcement agencies; and
- d. was alleged to have links to an organised crime syndicate.

In December 2021, publicly accessible media articles reported that Customer 2:

- a. had invested in many of Customer 1's and Suncity's corporate subsidiaries using offshore companies;
 - b. was a powerful figure in an organised crime syndicate; and
 - c. was allegedly involved in large-scale money-laundering activities and the sourcing and distribution of illegal drugs overseas.
- i. Star Sydney did not have adequate reason to believe that Customer 2's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 2 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 2 had significant business interests in a foreign country, particularly as they related to Suncity entities.

By 2010, Star Sydney was aware that Customer 1, being the co-owner together with Customer 2 of Suncity, was known to a number of law enforcement agencies for his extremely close ties to a number of high profile and senior members of an organised crime syndicate.

Despite this, between 2017 and 2018 Customer 2 recorded a turnover on Suncity junket programs exceeding \$29 million. There were real risks associated with Customer 2's source of wealth and source of funds, being Suncity entities overseas.

Star Sydney's determination of the ML/TF risks posed by Customer 2

897. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 2 appropriately because the risk-based

procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 2.

- a. On and from 30 November 2016, Customer 2 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 2's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 12 January 2022 that Customer 2 was rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

Until 20 March 2020, Customer 2 did not have a risk rating at Star Sydney.

On 20 March 2020, Customer 2 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 12 January 2022, Customer 2 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 2's transactions

898. At no time did Star Sydney apply appropriate transaction monitoring to Customer 2's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 2, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 2 through the junket channel; and

Particulars

See paragraph 783 above.

- d. Star Sydney provided designated services to Customer 2 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 2's KYC information

- 899. Star Sydney did not review, update and verify Customer 2's KYC information, having regard to the high ML/TF risks posed, because:
 - a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 2's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 2's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

In and from September 2010, Star obtained external, or prepared internal, due diligence reports in respect of Customer 1. The reports identified that Customer 2 was the business partner of Customer 1 and owned 50% of the Suncity group.

By reason of the matters set out above, there were real risks that Customer 2's source of wealth and source of funds were not legitimate: see *Customer 2's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 2's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 2.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act and rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

Due diligence conducted in 2020

In March 2020, Star conducted due diligence on Customer 2. Star identified that Customer 2:

- a. co-owned Suncity, which brought high-roller gamblers from a foreign country into Australian casinos;
- b. had various business interests, including in racing and hospitality;
- c. had never been charged with or convicted of an offence but continued to be a target of money laundering investigations by Australian law enforcement agencies;
- d. exercised control, together with Customer 1, over various private and listed Suncity businesses using companies located in offshore tax havens; and
- e. a 2018 report described Suncity as having deep links to organised crime.

In April 2020, Star conducted due diligence in respect of Customer 2. Star identified that Customer 2:

- a. was the co-owner of Suncity, together with Customer 1;
- b. was allegedly involved in money laundering;
- c. was a person of interest to law enforcement agencies; and
- d. was suspected to be involved in an organised crime syndicate.

In May 2020, Star conducted an ECDD review of Suncity entities and associated VIP junket participants. The review in respect of Customer 2 included that:

- a. Customer 2 was the chairman and executive director of a Suncity entity; and
- b. open source media articles reported that Customer 2 used a Suncity associated account to transfer approximately \$500,000,000 to and from Australia.

As a result of the May 2020 ECDD screening, the Due Diligence Program Manager recommended in May 2020 that consideration be given to raising Customer 2's risk rating.

In September 2020, Star obtained an external due diligence report in respect of Customer 2 (as well as Customer 1 and Customer 3) which stated that:

- a. despite media allegations, no public information or evidence was available to confirm that Customer 2 was involved in any criminal activity;

- b. in his youth Customer 2 was involved, at a low level, in an organised crime syndicate but was not believed to have any current associations with that syndicate;
- c. Customer 2's source of wealth was believed to be derived from the Suncity VIP rooms, which expanded into other businesses;
- d. information provided by a foreign gaming club suggested that Customer 2 was a member of an organised crime syndicate in a foreign country and was closely associated with senior figures in that syndicate. Customer 2 was believed to be the criminal mastermind behind a large illegal bookmaking syndicate in a foreign country which was highly profitable and an ongoing source of capital; and
- e. between 2013 and 2015, Customer 2 stayed at Star Qld on a number of occasions with foreign associates. The trips were facilitated by Customer 23. Customer 2 was known to be visiting Queensland to attend horse sales and meet with Australian based criminal associates.

In October 2020, Star produced an updated assessment in respect of Customer 1, which repeated much of the material outlined in the May 2020 and September 2020 reviews in respect of Customer 2.

In November 2020, Star conducted due diligence in respect of Customer 2. The review set out the matters identified in the May and September 2020 screenings as well as that:

- a. Customer 2 was the chairman and executive director of a number of companies;
- b. Customer 2 was the business partner of Customer 1 and owned 50% of the Suncity group which operated VIP junket rooms overseas and in Australia; and
- c. Customer 2 was the subject of an external due diligence report obtained in September 2020, and the information included in that report.

In November 2020, Star produced a draft updated assessment in respect of Customer 1 which also referred to Customer 2. In addition to the material contained in previous screenings in respect of Customer 2, that assessment noted that:

- a. Star had 'recently' received confirmation that Customer 2 and Customer 1 each owned 50% of Suncity Group Ltd. However, by 30 November 2016, Star was aware that Customer 2 and Customer 1 were co-owners of Suncity;
- b. while Customer 2 did not have a criminal record, many successful criminals do not have criminal convictions by virtue of

the fact they are proficient at concealing their criminal activities from law enforcement;

- c. Customer 1's partnership with Customer 2 was of real concern due to Customer 2's alleged involvement in money laundering activities and purported interest to Australian law enforcement agencies;
- d. Customer 1 and Customer 2 would most probably have been 'conversant' with the money laundering activities of Suncity staff purportedly engaged in at their Australian based VIP rooms; and
- e. if the business relationship with Customer 1 were to continue, that consideration be given to requesting that Customer 1 ask Customer 2 to step down as his Suncity business partner.

Due diligence conducted in 2021

In January 2021, Star conducted due diligence in respect of Customer 1, which repeated much of the material contained in previous screenings in respect of Customer 2.

In January 2021, Star produced a draft updated due diligence profile in respect of Customer 1. In addition to the material contained in previous screenings in respect of Customer 2, that assessment included that a benefit of requesting that Customer 1 ask Customer 2 to step down as his Suncity business partner was to distance Customer 1 and Suncity from the adverse media reporting pertaining to Customer 2.

Star Sydney understood that Customer 2 had significant business interests in a foreign country, particularly as they related to Suncity entities.

The due diligence conducted by Star Sydney did not have appropriate regard to Customer 2's higher ML/TF risks: see *Customer 2's risk profile* above.

The due diligence conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 2's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 2's source of wealth and source of funds were not legitimate: see *Customer 2's risk profile* above.

Failure to apply appropriate due diligence suited to Customer 2's high ML/TF risks

900. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 2 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 2; and

- c. reviewing and updating Customer 2's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 2 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 2*.

ECDD triggers in respect of Customer 2

- 901. Star Sydney was required to apply the ECDD Programs to Customer 2 following any ECDD triggers in respect of Customer 2.

Particulars

Section 36(1)(a) and (b) of the Act.

- 902. Customer 2 was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney.

Particulars

On 12 January 2022, Star Sydney determined that the ML/TF risks posed by Customer 2 was high risk for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 2* above.

- 903. The matter pleaded in paragraph 902 was an ECDD trigger.

Particulars

Rules 15.9(1) and 15.10 of the Rules

See paragraphs 792, 798 and 799 above.

- 904. On 17 January 2022, the AML/CTF Compliance Officer determined that a WOL should be issued in respect of Customer 2.

Particulars

Rules 15.10(2) and (5) of the Rules.

In January 2022, Star conducted ECDD in respect of Customer 2. An ECDD analyst set out the information that previous reviews identified about Customer 2.

Following the January 2022 ECDD screening, the Due Diligence Program Manager escalated Customer 2 to the AML/CTF Compliance Officer. On 17 January 2022, the AML/CTF Compliance Officer supported issuing a WOL in respect of Customer 2 on the basis that:

- a. Customer 2 was suspected of money laundering, which supported allegations made by open source media in respect of Customer 2; and

- b. Customer 2 was associated with Customer 1.

- 905. On 24 January 2022, Star Sydney issued a WOL in respect of Customer 2.

Particulars

Rule 15.10 of the Rules.

On 24 January 2022, Star Sydney issued a WOL in respect of Customer 2 at the direction of the General Manager (Financial Crime and Investigations) for undesirable behaviour.

Contravention of s36 of the Act in respect of Customer 2

906. By reason of the matters pleaded from paragraphs 893 to 905 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 2 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rules 15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

907. By reason of the matters pleaded at paragraph 906, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 24 January 2022 with respect to Customer 2.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 3

908. Customer 3 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$2.8 billion for Customer 3.

Particulars

Customer 3 was a customer of Star Sydney from at least 23 August 2011.

On 6 April 2022, Star Sydney issued a WOL in respect of Customer 3.

909. Star Sydney provided Customer 3 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator of the Suncity junket. Between 2017 and 2020, Star Sydney recorded that junkets operated by Customer 3 had a turnover exceeding \$10 billion.

Particulars

On 23 August 2011, Star Sydney opened an FMA and SKA for Customer 3 in respect of his primary account, which remains open (item 11, table 3, s6 of the Act).

Between 3 February 2012 and 1 January 2020, Star Sydney opened a further 37 FMAs and SKAs for Customer 3 in respect of different accounts held in his name, each of which remains open (item 11, table 3, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Customer 9 channels, which it made available to Customer 3 (items 31 and 32, table 1, s6 of the Act).

See Customer 3's risk profile below.

910. Customer 3 was a customer of Star Qld during the relevant period. Between 2017 and 2020, Star Qld recorded turnover exceeding \$310 million for Customer 3.

Particulars

Customer 3 was a customer of Star Qld from at least 24 August 2011.

On 6 April 2022, Star Qld issued a WOL in respect of Customer 3.

911. Star Qld provided Customer 3 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator of the Suncity junket. Between 2017 and 2020, Star Qld recorded that junkets operated by Customer 3 had a turnover exceeding \$2.6 billion.

Particulars

On 24 August 2011, Star Qld opened an FMA for Customer 3 in respect of his primary account which remains open (item 11, table 3, s6 of the Act).

On 9 August 2019, Star Qld opened a second FMA for Customer 3 in respect of his primary account which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 3 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 3's risk profile below.

912. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 3.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 3's risk profile

913. On and from 30 November 2016, Customer 3, and the provision of designated services to Customer 3 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 3's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 3 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 3;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 28 occasions between 4 October 2011 and 21 July 2015.

The SMRs reported that Customer 3 and persons associated with the Suncity junket conducted large and suspicious cash and other transactions at Star Sydney totalling at least \$5,043,060: see paragraph 913.a.viii below.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 3;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 6 July 2015.

The SMRs reported that Suncity's junket representative had made a large cash withdrawal from Customer 3's account at Star Qld: see paragraph 913.a.ix below.

- iii. Customer 3 was a junket operator for the Suncity junket, funded by Customer 1, who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney and Star Qld;

Particulars

Suncity agreements with Star Sydney and Star Qld

On and from 30 June 2011, Star Sydney and Star Qld entered into various agreements with Customer 3, on behalf of Suncity, setting out the terms of the junket programs facilitated by Suncity at Star Sydney and Star Qld.

On 23 August 2011, Star Sydney approved Customer 3 to be a junket operator.

On 8 February 2012, Star Qld approved Customer 3 to be a junket operator.

Customer 3's agreements with Customer 1

On 18 January 2013, Customer 1 authorised Customer 3 to operate his Star CCF up to a limit of \$2,000,000 including signing cheques on his behalf or in his name as an authorised representative and to conduct all associated transactions on Customer 1's behalf.

Activity of Suncity junkets operated by Customer 3 at Star Sydney by
30 November 2016

In 2015, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs at Star Sydney.

Between 29 June 2015 and 5 January 2016, Customer 3 operated 22 junket programs at Star Sydney. On each occasion, the junket was funded by Customer 1.

Between 29 June 2015 and 5 January 2016, Customer 1 provided \$30,250,000 in funding to the Suncity junket operated by Customer 3 at Star Sydney.

Between 29 June 2015 and 5 January 2016, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 3 was \$455,849,409 with losses of \$9,465,590.

In 2015 and 2016, Customer 3 was entitled to benefits totalling \$4,486,069 from Star Sydney in his capacity as a junket operator.

Activity of Suncity junkets operated by Customer 3 at Star Qld by 30
November 2016

In 2015, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs, and whose junket operations in total involved the highest total turnover, at Star Gold Coast.

Between 3 July 2015 and 16 January 2016, Customer 3 operated six junket programs at Star Qld. On each occasion, the junket was funded by Customer 1.

Between 3 July 2015 and 16 January 2016, Customer 1 provided \$5,500,000 funding to the Suncity junket operated by Customer 3 at Star Qld.

Between 3 July 2015 and 16 January 2016, Star Qld recorded that the total cumulative turnover of Suncity junkets operated by Customer 3 was \$84,912,620 with losses of \$2,953,551.

In 2015 and 2016, Customer 3 was entitled to benefits totalling \$653,374 from Star Qld in his capacity as a Suncity junket operator.

- iv. Suncity junkets recorded a high turnover of \$2,256,600,000 by 30 November 2016;

Particulars

Between FY2014 and FY2016, the Suncity junket recorded a total:

- a. front money of \$179,100,000;
- b. turnover of \$2,256,600,000;
- c. settled loss of \$41,200,000; and

- d. rebate payable to the Suncity junket operators, which included Customer 4 and Customer 3, of \$18,800,000.
- v. between September 2012 and September 2016, Customer 3 referred players to Star Sydney on 97 occasions;

Particulars

See paragraph 625 above.

Between September 2012 and September 2016, Customer 3 referred players to Star Sydney on 97 occasions.

Customer 3 received a commission on amounts wagered by the referred customers, who Star Sydney dealt with directly.

- vi. between July 2015 and September 2015, Customer 3 referred three junket players to Star Qld;

Particulars

See paragraph 625 above.

Between July 2015 and September 2015, Customer 3 referred three junket players to Star Qld.

Customer 3 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- vii. Customer 3 received high value financial and gambling services (tables 1 and 3, s6) at Star Qld other than through junket programs. By 30 November 2016, Star Qld recorded high individual rated turnover totalling \$4,497,350 for Customer 3;
- viii. Star Sydney was aware that Customer 3 and persons associated with the Suncity junket had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose, including large and suspicious cash transactions;

Particulars

See paragraphs 611 to 618 above.

TTRs by 30 November 2016

Between 28 November 2011 and 21 February 2013, Star Sydney gave the AUSTRAC CEO six TTRs detailing incoming payments to Customer 3 totalling \$594,900 which comprised account deposits and the issue of a cheque.

Between 30 September 2011 and 26 December 2016, Star Sydney gave the AUSTRAC CEO 102 TTRs detailing outgoing payments from Customer 3 totalling \$7,767,327 which comprised:

- a. \$5,295,314 in account withdrawals;
- b. \$1,829,505 in chip exchanges;
- c. \$227,267 in other monetary value out;

- d. \$368,000 in premium player commissions or rebates; and
- e. \$47,241 in foreign currency exchanges.

Large and suspicious transactions by 30 November 2016

Between October 2011 and July 2015, Customer 3 and persons associated with the Suncity junket conducted large and suspicious cash and other transactions at Star Sydney totalling at least \$5,043,060, including:

- a. \$100,000 in chip exchanges by Customer 3;
- b. \$509,615 in chip exchanges by junket representatives of the Suncity junket operated by Customer 3;
- c. \$600,000 in telegraphic transfers to international third parties by the Suncity junket operated by Customer 3;
- d. \$1,520,000 cash withdrawals by Customer 3;
- e. \$1,923,545 cash withdrawals by junket representatives of the Suncity junket operated by Customer 3;
- f. \$279,900 cash deposits by Customer 3; and
- g. a \$110,000 cheque issued for Customer 3.

Large and unusual transactions in 2011

On 14 October 2011, Customer 3's Suncity junket representative requested that Star Sydney send a \$600,000 telegraphic transfer to a third party in a foreign country in the name of a junket player of the Suncity junket. The customer was playing in the foreign country and had requested that his winnings from the Suncity junket operated by Customer 3 be transferred there. The Suncity junket advised Star Sydney that they were unable to access the funds through their bank account for reasons unknown to Star Sydney. Star Sydney considered it suspicious that a transfer to a third party had been requested and noted that this was not usual practice for Star Sydney. Star Sydney nonetheless processed the transaction: SMR dated 4 November 2011.

On 18 December 2011, Customer 3 settled a Suncity junket program and took \$368,000 in cash at Star Sydney. On 19 December 2011, Customer 3 returned with \$110,000 in cash and requested that a Star cheque be issued in favour of a junket player. Star Sydney considered these transactions to be suspicious due to the large amounts of cash involved: SMR dated 20 December 2011.

Large and unusual transactions in 2015

On 13 March 2015, two Star Sydney customers, including Customer 19, were observed to split \$50,000 in cash between them to exchange for chips. Each customer advised Star Sydney that they

were exchanging the cash on behalf of Customer 45. Customer 19 returned a short time later to exchange a further \$20,000 in cash for chips. The cash was contained in a brown leather designer satchel and totalled approximately \$400,000 in cash. Later in the evening, Customer 3's Suncity junket representative withdrew \$200,000 from Customer 3's account. The junket representative was observed to hand the cash to Customer 19. \$100,000 of that cash was presented by Customer 19 to exchange for chips. Customer 19 was observed to hand the chips to Customer 45. Customer 19 later returned a purchased a further \$80,000 in chips. Customer 19 was observed to hand the chips and remaining cash to Customer 45: SMRs dated 16 March 2015, 17 March 2015.

- ix. Customer 3, and persons associated with the Suncity junket, transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

Between 3 March 2015 and 6 July 2015, Star Qld gave the AUSTRAC CEO three TTRs detailing outgoing payments from Customer 3 totalling \$2,320,000 in account withdrawals

On 4 July 2015, Customer 3's Suncity junket representative withdrew \$117,000 in cash from Customer 3's account at Star Qld. Star Qld considered this to be a large amount of cash to carry: SMR dated 6 July 2015.

- x. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 3 by remitting large amounts of money into and out of the casino environment via his account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 5 February 2013, Star Sydney gave the AUSTRAC CEO an incoming IFTI detailing a deposit into Customer 3's FMA totalling \$1,799,006 from his personal bank account overseas.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

See particulars to paragraph 913.a.viii above.

On 31 January 2012, Star Sydney gave the AUSTRAC CEO an outgoing IFTI detailing a transfer from Customer 1 totalling \$202,268 to Customer 3's bank account overseas.

On 22 August 2012 and 4 January 2013, Star Sydney gave the AUSTRAC CEO IFTIs detailing transfers from Customer 3 totalling \$96,604 to the Suncity company account overseas.

On 27 February 2013 and 24 July 2013, Star Sydney gave the AUSTRAC CEO IFTIs detailing transfers from Customer 3 totalling \$1,018,805 to his bank account overseas.

Each of the above transactions was conducted through the Star Patron account channel.

Customer 3's risk profile from 30 November 2016

- b. Customer 3 was a Suncity junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
- i. between 11 November 2017 and 1 September 2020, Customer 3 operated 244 Suncity junkets at Star Sydney, each of which was funded by Customer 1;

Particulars

Between 2018 and 2020, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs per year, and one of the top ten junket operators whose junket operations in total involved the highest total turnover per year, at Star Sydney.

Between 11 November 2017 and 1 June 2018, Customer 1 provided \$967,779,721 in funding to the Suncity junket operated by Customer 3.

- ii. between 11 November 2017 and 1 September 2020, Star Sydney recorded that the total cumulative turnover of Suncity junkets operated by Customer 3 was \$10,781,358,882 with losses of \$78,756,160;

Particulars

In 2017, Suncity junkets operated by Customer 3 had a turnover of \$120,692,962 with losses of \$5,833,090.

In 2018, Suncity junkets operated by Customer 3 had a turnover of \$4,806,346,196 with losses of \$37,600,470.

In 2019, Suncity junkets operated by Customer 3 had a turnover of \$5,358,574,735 with losses of \$30,805,125.

In 2020, Suncity junkets operated by Customer 3 had a turnover of \$495,744,990 with losses of \$4,517,475.

- iii. between 10 January 2018 and 16 June 2018, 12 of the Suncity junket programs operated by Customer 3 were conducted in a foreign currency;
- iv. between 16 November 2017 and 1 September 2020, Star Sydney recorded a cumulative turnover of \$2,809,171,838 for Customer 3 as a junket player on Suncity junkets despite not being a junket player at any time;

Particulars

See paragraph 670 above.

- v. between 2017 and 2020, total benefits of \$53,738,138 were payable to Customer 3 by Star Sydney in his capacity as a Suncity junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 3 was entitled to benefits from Star Sydney in his capacity as a Suncity junket operator:

- a. in 2017, total benefits of \$2,542,424 were payable to Customer 3;
 - b. in 2018, total benefits of \$30,977,464 were payable to Customer 3;
 - c. in 2019, total benefits of \$16,047,729 were payable to Customer 3; and
 - d. in 2020, total benefits of \$4,170,521 were payable to Customer 3.
- vi. Customer 3 operated Suncity junkets in private gaming rooms including private gaming rooms that were exclusive to the Suncity junket;

Particulars

Customer 3 operated Suncity junkets in non-exclusive private gaming rooms, including Oasis, Pit 80, the Sovereign Room, and Chairman's.

Customer 3 operated Suncity junkets in exclusive private gaming rooms, including Salon 73, Salon 75, Salon 76, Salon 77, Salon 82, Salon 88, Salon 90, Salon 93, Salon 95, Salon 96, Salon 97 and Salon 98.

- vii. on 30 June 2017 and 21 June 2018, the Chief Financial Officer, on behalf of Star Sydney, and Customer 3 entered into an agreement that provided the Suncity junket, operated by Customer 3, with exclusive access to Salon 95 and the Salon 95 service desk;

Particulars

See paragraph 677 above.

- viii. between March 2018 and August 2019, Star Sydney permitted the Suncity junket funded by Customer 1 and operated by Customer 3 to operate a service desk in Salon 95, at which multiple suspicious transactions involving cash were observed;

Particulars

Large and suspicious cash transactions involving Suncity staff

On 17 April 2018, CCTV recorded a cash transaction in which a Suncity staff member retrieved a red suitcase from behind the host desk, opened the bag, removed a substantial amount of cash and counted the cash in a money counter. The cash was then re-bundled and stored in a desk.

On 21 April 2018, CCTV recorded a man hand a Suncity staff member a yellow plastic shopping bag to staff at the Suncity Service Desk. The Suncity staff member opened a desk drawer in Salon 95 which showed a gaming chip float and conducted a chip float reconciliation. The Suncity staff then removed cash from the plastic bag and counted it using a money counter. The Suncity staff wrapped some of the cash in clear plastic bags and placed it into the desk drawer.

On 7 May 2018, Star recorded that a Suncity staff member had paid cash to a patron who had no history of junket play and no known links to Suncity.

On 8 May 2018, Star recorded the following transactions:

- a. a group finished playing at Salon 95, then took their chips to the Suncity Service Desk. The chips were accepted and exchanged for an unknown amount of cash;
- b. an individual appeared to have exchanged a \$100,000 plaque in exchange for \$100,000 in cash in Salon 95;
- c. an unknown man who picked up chips and plaques from a baccarat table and went to the enclosed room inside Salon 95. Persons inside the room then removed large bundles of cash wrapped in plastic from a desk drawer and placed the bundles on the desk. Persons inside the room handed the cash to people at the counter outside the room, which was placed in a brown paper bag and taken to another part of Salon 95; and
- d. an unknown man was escorted by a Suncity staff member to the Suncity Service Desk, directed to use a tablet affixed to the desk, then handed \$100,000 in a brown paper bag. The man was escorted to the lobby of The Darling, where he handed the bag to another waiting person. All three then returned to the Suncity Service Desk where the bag was handed back to the Suncity staff.

Large and suspicious cash transactions involving unknown third parties

On 18 April 2018, CCTV recorded cash transactions at the Suncity Service Desk including:

- a. an unknown man in a black suit who collected a black bag with a blue trim from the balcony of Salon 95. The bag was taken to the Suncity Service Desk, and cash comprised of \$50

notes was removed from the bag, counted using a money counter, and placed in a drawer underneath the desk; and

- b. an unknown man in a black suit who opened up a black backpack on the balcony outside Salon 95 and observed its contents. The man brought the backpack into the enclosed room in Salon 95, and at the same time was passed a different bag. The man then took bundles of cash out of the black backpack and put the cash on a chair in the enclosed room.

On 4 May 2018, Star recorded that an individual took a blue esky bag into Salon 95, which contained a substantial amount of cash in \$50 notes, bundled in elastic bands.

On an unknown date in May 2018, CCTV recorded an unknown man suspected to work for Suncity as a driver entering the Suncity Service Desk with a sports bag. The man took out a large bundle of cash from the bag, divided the bundle into three, then put the bundles back in the bag.

Attempts to avoid detection

On 14 May 2018, two individuals, being Person 9 and his associate, approached the Suncity Service Desk and spoke to a staff member.

The individuals were then escorted to an adjacent room while the Suncity staff members prepared a receipt on a clipboard, picked up a plastic bag, then opened a drawer. One of the Suncity staff members then stood in a position to obscure the view of the security camera while the other staff member put something in a plastic bag. The staff members took the plastic bag to the other room, picked up the individuals who were waiting and went down to the retail arcade. The staff member then gave the friend the cash, while Person 9 signed something on the clipboard.

On 15 June 2018, Person 9 was invited onto the Salon 95 balcony by Suncity staff. Star Sydney considered this to be an attempt to find a spot not covered by Star Sydney's CCTV. Person 9 exited the blind spot holding a paper bag which Star Sydney understood contained \$35,000 in chips withdrawn from Customer 3's account.

See paragraph 683.d above.

- ix. by May 2018, Star Sydney was aware that the Suncity Service Desk was being used to facilitate suspicious cash transactions and opened an investigation;

Particulars

On 14 May 2018, Star Sydney became aware that an individual who was not a Suncity junket customer obtained \$45,000 in cash (see paragraph 913.b.viii above).

Star Sydney's investigations team opened Operation Moneybags in order to investigate the incident and similar incidents involving cash in Salon 95.

The investigator recorded that he was unable to identify the names of the persons conducting the transactions or the dollar value of the transactions. The investigator also noted that the cash was transported to Salon 95 in suitcases, backpacks and other carriers and it was not possible to identify what amounts were attributable to junket players.

See paragraph 683.d above.

- x. in September 2019, the Suncity junket operated by Customer 3 commenced operations in Salon 82;

Particulars

On 13 August 2019, following a meeting with Customer 1, it was agreed that Suncity would cease operation of the Salon 95 private gaming room. Suncity vacated Salon 95 on 1 September 2019 and commenced operations in Salon 82.

- xi. Customer 3 had approximately 30 junket representatives at Star Sydney; and
- xii. Customer 3 and his junket representatives facilitated the provision of high value designated services to over 500 junket players at Star Sydney including foreign PEPs, players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 2, Customer 53, Customer 45, Customer 57, Customer 59 and Customer 58;

Particulars

See paragraphs 643 to 649 above.

On 25 March 2018, Customer 2 was a player on the Suncity junket operated by Customer 3. Customer 2 received \$1,000,000 in funding and lost \$952,000.

- c. Customer 3 was a Suncity junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 25 November 2017 and 13 March 2020, Customer 3 operated 97 Suncity junkets at Star Qld, each of which was funded by Customer 1;

Particulars

Between 2017 and 2020, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs at Star Gold Coast.

Between 2018 and 2020, Customer 3 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Gold Coast.

In 2017 and 2019, Customer 3 was one of the top ten junket operators who operated the highest number of junket programs, and whose junket operations involved the highest total turnover, at Treasury Brisbane.

Between 25 November 2017 and 13 March 2020, Customer 1 provided \$151,737,000 in funding to the Suncity junkets operated by Customer 3.

- ii. between 25 November 2017 and 13 March 2020, Star Qld recorded that the total cumulative turnover of Suncity junkets operated by Customer 3 was \$2,601,268,754 with losses of \$35,829,080;

Particulars

In 2017, Suncity junkets operated by Customer 3 had a turnover of \$47,247,667 with losses of \$1,973,395.

In 2018, Suncity junkets operated by Customer 3 had a turnover of \$443,885,119 with losses of \$11,982,730.

In 2019, Suncity junkets operated by Customer 3 had a turnover of \$1,018,574,812 with losses of \$12,374,700.

In 2020, Suncity junkets operated by Customer 3 had a turnover of \$1,091,561,156 with losses of \$9,498,255.

- iii. between 22 December 2017 and 13 March 2020, Star Qld recorded a cumulative turnover of \$314,947,630 for Customer 3 as a junket player on his own junkets despite not being a junket player at any time;

Particulars

See paragraph 670 above.

- iv. between 2017 and 2020, total benefits of \$44,248,097 were payable to Customer 3 by Star Qld in his capacity as a Suncity junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 3 was entitled to benefits from Star Qld in his capacity as a Suncity junket operator:

- a. in 2017, total benefits of \$371,341 were payable to Customer 3;
- b. in 2018, total benefits of \$12,441,120 were payable to Customer 3;
- c. in 2019, total benefits of \$21,057,610 were payable to Customer 3; and
- d. in 2020, total benefits of \$10,378,026 were payable to Customer 3.

- v. Customer 3 operated Suncity junkets in private gaming rooms including private gaming rooms that were exclusive to the Suncity junket;

Particulars

Customer 3 operated junkets in non-exclusive private gaming rooms, including Pit 6, Pit 7, Pit 11 and Pit 12.

Customer 3 operated junkets in exclusive private gaming rooms, including Salon 22, Salon 66, Salon 69, Salon 88, Salon 89, Salon 90, Salon 96, Salon 98 and Salon 99.

- vi. Customer 3 had approximately 20 junket representatives at Star Qld; and
- vii. Customer 3 and his junket representatives facilitated the provision of high value designated services to over 100 junket players at Star Qld including foreign PEPs, players who posed higher ML/TF risks and players who Star Qld considered had acted suspiciously such as Customer 13, Customer 45 and Customer 61;

Particulars

See paragraphs 643 to 649 above.

Between 7 February 2019 and 11 February 2019, a Star Qld customer was the sole junket player on a Suncity junket operated by Customer 3. The Suncity junket program had front money of \$20,000,000 provided by Customer 1. By 11 February 2019, the customer had a recorded loss of \$19,817,000. Star Qld was unaware of any arrangement between the customer and Customer 3 or Customer 1 as to repayment of the customer's loss. Further checks conducted by Star Qld identified the customer to be a foreign PEP, being a member of a foreign political body. Star Qld considered the substantial loss to be suspicious: SMR dated 14 February 2019.

In May 2019 and June 2019, a junket player on the Suncity junket operated by Customer 3 recorded a cumulative loss of \$822,675. Star Qld did not have records of any significant wins to account for the losses. Star Qld was not aware of any arrangement that the customer had to repay Customer 3 for the losses. Star Qld was unaware of the customer's source of funds or occupation: SMR dated 30 July 2019.

In September 2019, a junket player on the Suncity junket operated by Customer 3 recorded a loss of \$2,044,500. Star Qld did not have records of any other gaming activity in 2019. The customer was a director of an import/export business. Star Qld was not aware of any more information about the company. Star Qld was not aware of any arrangement between the customer and Customer 3 to repay the loss. Star Qld considered that the loss appeared to be large given that this was the only recorded play for the customer at Star Qld in 2019: SMR dated 4 October 2019; and

In December 2019, a junket player on the Suncity junket operated by Customer 3 recorded a loss of \$2,953,650. Star Qld did not have any record of recent significant wins to account for the substantial loss.

Star Qld was not aware of any arrangement for the customer to repay Customer 3. The customer's occupation was recorded as a stock trader: SMR dated 22 January 2020.

- d. designated services provided to Customer 3 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. between November 2017 and March 2018, Customer 3 referred players to Star Sydney on 15 occasions;

Particulars

See paragraph 625 above.

Between November 2017 and March 2018, Customer 3 referred players to Star Sydney on 15 occasions.

Customer 3 received a commission on amounts wagered by the referred customers, who Star Sydney dealt with directly.

- f. between December 2017 and February 2020, Customer 3 referred 26 junket players to Star Qld;

Particulars

See paragraph 625 above.

Between December 2017 and February 2020, Customer 3 referred 26 junket players to Star Qld.

Customer 3 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- g. Customer 3 was connected to other customers at Star Sydney and Star Qld, including junket funders, foreign PEPs, players who posed higher ML/TF risks and players who Star Sydney and Star Qld considered had acted suspiciously such as Customer 1 and Customer 2;

Particulars

Together, Customer 1 and Customer 2 were the co-owners of Suncity.

See Customer 1, Customer 2 above.

- h. Customer 3 received high value financial and gambling services (tables 1 and 3, s6) at Star Qld other than through Suncity junket programs;

Particulars

See paragraph 623 above.

For example, on 27 February 2018, Star Qld recorded high turnover on an individual rebate program totalling \$716,040 for Customer 3.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 3 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

On 19 August 2019, deposits through the Customer 9 channels totalling \$2,009,392 were made available by Star Sydney to Customer 3's account.

Other remittances involving third parties

See paragraphs 281 and 327 above.

On 9 October 2020, Customer 3 transferred \$1,233,600 from his Star Sydney account to Customer 1's overseas bank account. The funds represented a return of leftover junket funds following the junket cessation date. However, the bank rejected the funds as it did not accept funds from casinos.

On 28 October 2020, Customer 3 requested that the funds be transferred from his Star Sydney SKA to Customer 1's SKA, where it would be transferred to Customer 1's account at another Australian casino. Star Sydney noted that this transaction was not unusual except that the other Australian casino remained closed due to the COVID-19 pandemic with no opening date known. The transaction was processed on 2 November 2020: SMR dated 2 November 2020.

However, the transfer was again rejected and the funds were returned to Customer 1's SKA on 7 December 2020. As at 27 May 2022, Star continued to hold the \$1,233,600 in Customer 1's SKA.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 18 September 2018 and 27 October 2020, Star Sydney received 24 telegraphic transfers totalling \$23,280,436, each of which was made available to Customer 3's account. At least \$5,000,000 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances out of the casino environment

See paragraphs 281 and 327 above.

Between 15 August 2018 and 1 January 2020, Star Sydney sent 11 telegraphic transfers from Customer 3's account totalling \$9,939,705, including transfers of:

- a. at least \$800,000 to a third party's Australian bank account; and
- b. at least \$778,045 to Customer 61's Australian bank account, who was a junket player on Customer 3's junket.

Between 20 May 2022 and 3 June 2022, Star Sydney sent two telegraphic transfers totalling \$536,340.34 from Customer 3's account to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 19 February 2019, Customer 3 transferred \$150,000 to Customer 24.

On 19 February 2020, Star Sydney received seven transfers totalling \$1,498,603 from Star Qld, each of which was made available to Customer 3's account.

Between 19 September 2018 and 18 March 2020, Star Sydney sent 14 transfers totalling \$14,004,261 from Customer 3's account to Star Qld.

- j. Star Qld provided designated services (items 31 and 32, table 1, s6) to Customer 3 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 9 January 2019 and 10 March 2020, Star Qld received four telegraphic transfers totalling \$7,972,834, each of which was made available to Customer 3's FMA at Star Gold Coast. At least \$5,099,607 of these funds were transferred for the purpose of redeeming outstanding CCFs held by Customer 1.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

For example, between 6 August 2019 and 13 August 2019, Star Qld facilitated four telegraphic transfers totalling \$16,235,000 from

Customer 3's FMA at Star Gold Coast to Australian bank accounts held by Customer 45.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 19 September 2018 and 31 January 2020, Star Qld received five transfers totalling \$7,248,005 from Star Sydney, each of which was made available to Customer 3's FMA at Star Gold Coast. At least \$395,335 of these funds were transferred for the purpose of redeeming an outstanding CCF held by Customer 1.

Between 9 January 2019 and 11 October 2019, Star Qld facilitated six transfers totalling \$500,217 from Treasury Brisbane to Star Gold Coast, each of which was made available to Customer 3's FMA. At least \$229,473 of these funds were transferred for the purpose of redeeming an outstanding CCF held by Customer 1.

On 30 December 2019, Star Qld received a transfer of \$199,525 from another casino in the Star Group, which it made available to Customer 3's FMA at Star Gold Coast. These funds were transferred for the purpose of redeeming an outstanding CCF held by Customer 1.

On 19 February 2020, Star Qld facilitated seven transfers totalling \$1,498,603 from Customer 3's FMA at Star Gold Coast to Star Sydney.

- k. Star Sydney was aware that Customer 3 and persons associated with the Suncity junket operated by Customer 3:
- i. had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;
 - ii. transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes, notes bundled in rubber bands or wrapped in plastic film, notes that were sticky and cash presented in various carry bags; and
 - iii. engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including refining and quick turnover of money (without betting);

Particulars

See paragraphs 25, 611 to 618 above.

Large cash transactions reported in TTRs

Between 28 December 2017 and 5 November 2019, Star Sydney gave the AUSTRAC CEO 69 TTRs detailing incoming payments to Customer 3 totalling \$4,955,938 which comprised account deposits and cash exchanges.

Between 17 November 2017 and 22 July 2020, Star Sydney gave the AUSTRAC CEO 290 TTRs detailing outgoing payments from Customer 3 totalling \$15,280,566 which comprised:

- a. \$8,620,500 in account withdrawals;
- b. \$6,373,510 in chip exchanges; and
- c. \$286,556 in other monetary value out.

Summary of large and suspicious cash transactions reported in SMRs

Between May 2018 and November 2020, Star Sydney gave the AUSTRAC CEO SMRs which identified that Customer 3 and persons associated with him and the Suncity junket were involved in cash transactions totalling over \$14,300,000 at Star Sydney, including:

- a. over \$5,700,000 in cash deposits by junket representatives of the Suncity junket operated by Customer 3, each of which involved cash comprised significantly or entirely of \$50 notes bundled in \$10,000 or \$50,000 units with rubber bands and presented in various carry bags;
- b. \$730,000 in cash deposits by Star Sydney customers connected to the Suncity junket operated by Customer 3, each of which involved cash comprised significantly or entirely of \$50 notes bundled in \$10,000 or \$50,000 units with rubber bands and presented in various carry bags;
- c. over \$470,000 in other cash transactions by Star Sydney customers connected to the Suncity junket operated by Customer 3, \$346,300 of which involved cash comprised significantly or entirely of \$50 notes bundled in \$10,000 or \$50,000 units with rubber bands and presented in various carry bags;
- d. over \$480,000 in chip deposits by Customer 3's Suncity junket representatives;
- e. over \$1,232,000 in cash withdrawals by junket representatives of the Suncity junket operated by Customer 3; and
- f. over AUD 5,400,000 in currency conversion.

Large cash transactions commensurate with a junket player's wins

Between 12 February 2018 and 19 February 2020, on at least nine occasions, Customer 3's Suncity junket representatives withdrew cash or cashed out chips totalling at least \$1,426,400 from Customer 3's account at Star Sydney and gave the cash to junket players who had recorded winnings exceeding the amount of cash that they were given.

Large and suspicious cash transactions in similar packaging

By 6 June 2018, Star Sydney was aware of a series of deposits by third parties in which the funds were in \$50 notes packaged consistently with the cash previously supplied by Suncity. Star Sydney surveillance had identified that the funds had originated from Suncity. Star Sydney considered that it was possible that the Suncity junket operated by Customer 3 was trying to hide the fact that the funds had originated from Suncity: SMR dated 6 June 2018.

- a. On 1 May 2018 and 2 May 2018, Customer 34's junket representative, Person 11, made two large and suspicious cash deposits at Star Sydney. The first deposit totalled \$450,000 which comprised \$50 notes bundled in \$50,000 units with rubber bands and wrapped in thin plastic label bags. The cash was contained in a small duffle bag. The junket representative said that the cash had come from the Suncity junket operated by Customer 3. The second deposit was for \$437,374 which comprised \$430,000 in \$50 notes and the balance in loose notes. The cash was presented in the same manner as the first deposit and used to redeem Customer 34's outstanding CCF: SMR dated 2 May 2018.
- b. On 5 May 2018, a Star Sydney customer, Person 9, deposited \$100,000 in cash into his account. The cash comprised \$50 notes bundled in \$10,000 units with rubber bands and sealed in plastic wrap. Person 9 said that the funds had come from the Suncity junket operated by Customer 3. Star Sydney was unaware of any known links between Person 9 and Customer 3 or the Suncity junket: SMR dated 8 May 2018.
- c. On 13 May 2018, Customer 3's Suncity junket representative presented \$300,000 in cash to be deposited into Customer 3's account at Star Sydney. The cash comprised \$50 notes bundled in \$50,000 units with rubber bands and wrapped in thin plastic bags. Several hours later, Customer 3's Suncity junket representatives withdrew the \$300,000 in cash from Customer 3's account. Star Sydney noted that the cash was deposited and withdrawn for no apparent reason and was not utilised for gaming purposes at any time: SMR dated 14 May 2018. This transaction was indicative of the ML/TF typology of quick turnover of money (without betting).
- d. On 14 May 2018, Customer 34's junket representative, Person 11, deposited \$250,000 in cash into Customer 34's account at Star Sydney. Person 11 said that the cash had come from the Suncity junket operated by Customer 3. The cash comprised \$200,000 in \$100 notes and \$50,000 in \$50 notes contained in a small black Star bag. Star Sydney noted that the cash was packaged similarly to other SMRs lodged in

relation to Customer 3 and Customer 34. Star Sydney was unaware of any link between Customer 3 and Customer 34: SMR dated 15 May 2018.

- e. On 29 May 2018, in the early morning, a local Star Sydney player presented \$60,000 cash to be deposited into his account. The cash comprised \$50 notes in \$5,000 units with rubber bands and presented in a black square paper back and sealed in a thick clear bag. Customer 3's Suncity junket representative requested that the funds be transferred to the Customer 3's account. When the junket representative was asked which junket player the funds should be allocated to, he 'finally came up with' Person 9's name. Star Sydney processed the transaction and the junket representative withdrew the funds as chips. Star Sydney noted that the customer was a local player and so ineligible to play on junkets and had no known links to Suncity or Person 9. Star Sydney considered it unusual that the customer would be providing cash to the Suncity junket. Star Sydney noted that the only people present at the time were gaming staff and Suncity representatives as the transaction was completed very early in the morning. Star Sydney noted that no gaming activity had taken place. Star Sydney suspected that the funds originated from the Suncity junket operated by Customer 3: SMR dated 29 May 2018.
- f. On 3 June 2018, junket representatives of the Suncity junket operated by Customer 3, including Person 63, deposited \$300,000 in cash to Customer 3's account at Star Sydney. The cash comprised \$240,000 in \$100 notes and \$60,000 in \$50 notes bundled in \$10,000 units with rubber bands and wrapped in plastic in \$50,000 units: SMR dated 4 June 2018.
- g. On 4 June 2018, a Star Sydney junket operator presented \$2,600,000 in cash which comprised \$50 notes in a large suitcase bundled with elastic bands in clear plastic bags. The bags were similar to bags that were used by junket representatives associated with Customer 3's Suncity junkets. Star Sydney noted that the bags were consistent with those related to multiple SMRs submitted in respect of the Suncity junket operated by Customer 3. The junket operator requested that \$2,570,000 be deposited into his account and the remaining \$30,000 to be paid to him as cash. After the deposit, the junket operator requested the \$2,570,000 be transferred to Customer 3's account. A Suncity junket representative, Person 63, was present to authorise the deposit to Customer 3. Given that the cash presented had similar wrapping as other cash received from Suncity, Star Sydney suspected that the cash originated from Suncity and

that the junket operator had been asked to deposit the cash to avoid Customer 3 or Suncity being associated with any TTR submitted in respect of the transaction. Star Sydney suspected that the \$30,000 cash could be a fee for completing the cash transaction. Star Sydney was unaware of any link between the junket operator and Suncity: SMR dated 4 June 2018.

- h. On 4 June 2018, Customer 3's Suncity junket representative, Person 63, presented \$300,000 in cash to be deposited into Customer 3's account at Star Sydney. The cash comprised \$50 notes bundled with elastic bands in clear plastic bags: SMR dated 4 June 2018.
- i. On 5 June 2018, a Star Sydney customer presented \$400,000 in cash to be deposited into his account. The cash comprised \$50 notes bundled in \$10,000 units with elastic bands and in \$50,000 units wrapped in plastic bags. Star Sydney noted that the bags were similar to bags that were used by junket representatives associated with Customer 3's Suncity junkets. When questioned as to the origin of the funds, the customer gave a number of different, inconsistent explanations, all of which suggested the cash came from payouts made by Star Sydney. Star Sydney noted that any payouts would be in \$100 notes with Star straps. The customer then said that the cash was money owed to him by Customer 3 for funding a Suncity junket program. The customer requested to withdraw \$500,000 from his account and transfer the funds to his personal bank account. Star Sydney noted that the customer's story was inconsistent and appeared to be an attempt to hide the fact that the funds had originated with Suncity: SMR dated 6 June 2018.

Other large and suspicious cash transactions in 2017

On 27 December 2017, Customer 3's Suncity junket representative deposited \$110,000 in cash into Customer 3's SKA. The cash comprised \$50 notes bundled in rubber bands.

Other large and suspicious cash transactions in 2018

On 2 February 2018, Customer 3's Suncity junket representative withdrew \$200,000 from Customer 3's account at Star Sydney.

On 23 February 2018 and 3 April 2018, Customer 3's Suncity junket representatives withdrew \$200,000 and \$100,000 respectively from Customer 3's account at Star Sydney.

On 3 April 2018, Customer 3's Suncity junket representative withdrew \$150,000 from Customer 3's FMA.

On 26 May 2018, Customer 3's Suncity junket representative deposited \$240,000 into Customer 3's account at Star Sydney. The cash comprised \$50 notes bundled in rubber bands in units of \$10,000. The cash was contained in a blue cooler bag.

On 27 May 2018, a Star Sydney customer, Person 11, deposited \$100,000 in cash, which comprised \$50 notes bundled in rubber bands in units of \$10,000, and \$60,000 in cash chips into his FMA. Person 11 transferred the funds to Customer 3's SKA. Customer 3's Suncity junket representative was present during the transaction. Person 11 said that the funds were for a junket player who had not arrived yet.

On 10 June 2018, a Star Sydney customer withdrew \$150,000 from Customer 3's SKA and placed the cash into a black Star bag.

On 18 June 2018, a Star Sydney customer, Person 9, deposited \$170,000 into his account. The cash comprised \$50 notes bundled in \$10,000 units with rubber bands and contained in a paper bag. Person 9 was observed to receive the bag from a Suncity junket representative. Person 9 made enquiries about using the funds to buy-in to a Suncity junket program and mentioned that 'she' would use the money. When asked who 'she' was, Person 9 told Star Sydney staff not to worry and left the cashier. The funds remained in Person 9's account: SMR dated 19 June 2018.

On 22 June 2018, Customer 3's Suncity junket representative withdrew \$150,000 from Customer 3's SKA at Star Sydney and handed the cash to guests.

On 29 June 2018, Customer 3's Suncity junket representative withdrew \$100,000 from Customer 3's SKA at Star Sydney.

On 5 August 2018, Customer 3's Suncity junket representative deposited \$280,000 into Customer 3's SKA at Star Sydney. The cash comprised \$100 notes with Star straps.

On 11 August 2018, Customer 3's Suncity junket representative cashed out \$100,000 at Star Sydney.

On 19 August 2018, Customer 3's Suncity junket representative withdrew \$500,000 in cash from Customer 3's account. Several hours earlier, \$500,000 had been transferred from the account of a Star Sydney customer to Customer 3's account. Star Sydney was unaware of any connection between Customer 3 and the customer: SMR dated 18 August 2018.

On 21 August 2018, Customer 3's Suncity junket representative cashed out \$100,000 of chips at Star Sydney.

On 11 September 2018, Customer 3's Suncity junket representative cashed out \$167,000 of chips.

On 15 September 2018, Customer 3's Suncity junket representative cashed out \$100,000 of chips and gave the chips to a junket player who had a recorded turnover of \$13,563,545.

On 6 October 2018, Customer 3's Suncity junket representative cashed out \$120,000 of chips at Star Sydney. At the time, the junket had a recorded turnover of \$25,075,000.

On 14 October 2018, Customer 3's Suncity junket representative cashed out \$103,500 of chips.

On 20 October 2018, Customer 3's Suncity junket representative, Person 63, cashed out \$100,000 of chips and gave the chips to a junket player who had a recorded turnover of \$40,546,000.

Other large and suspicious cash transactions in 2019

On 27 January 2019, Customer 3's Suncity junket representative deposited \$200,000 in cash into Customer 3's account. The cash comprised \$50 notes and was bundled in \$50,000 units with rubber bands and presented in a light brown shopping bag. The junket representative advised that the cash had originated from a customer who was going to join the Suncity junket: SMR dated 29 January 2019.

On 27 January 2019, Customer 3's Suncity junket representative deposited \$150,000 in cash into Customer 3's account. The cash comprised \$50 notes bundled in units of \$10,000 with rubber bands and presented in a brown shopping bag. The junket representative conducted the deposit on behalf of a junket player. The junket player had a recorded turnover of \$1,438,100 with a loss of \$161,250 on the junket program: SMR dated 30 January 2019.

On 23 February 2019, Customer 3's Suncity junket representative exchanged small notes to \$100 notes totalling \$56,300. The notes were presented in a bag and were primarily \$20 notes. The cash was in good condition and bundled in rubber bands in units of \$10,000. Star Sydney considered it suspicious that mixed denominations were exchanged to \$100 notes: SMR dated 25 February 2019. This transaction was indicative of the ML/TF typology of refining.

On 9 March 2019, Customer 3's Suncity junket representative, Person 37, deposited \$100,000 into Customer 3's FMA. The cash comprised \$100 notes bundled in \$5,000 units with rubber bands and carried in a paper bag.

On 24 March 2019, a Star Sydney customer exchanged \$100,000 of chips for cash despite recording a loss of \$21,920 the previous day.

The customer delivered the cash to Customer 3's Suncity junket representative. The junket representative deposited the cash into Customer 3's FMA, which was used as a buy-in for the customer.

On 13 April 2019, Customer 3's Suncity junket representative, Person 37, exchanged \$80,000 of small denomination notes, including \$130 in \$5 notes, \$73,480 in \$20 notes and \$5,300 in \$50 notes, to \$100 notes at Star Sydney. The customer returned to the Suncity desk once the transaction was complete: SMR dated 15 April 2019. This transaction was indicative of the ML/TF typology of refining.

On 28 April 2019, Customer 3's Suncity junket representative deposited \$100,000 in cash into Customer 3's account at Star Sydney. The cash comprised \$100 notes bundled in \$10,000 units with rubber bands. The junket representative identified that the cash was the same as had been paid out on the previous day.

Between 2 May 2019 and 4 May 2019, Customer 3's Suncity junket representatives including Person 37 and Person 63 cashed out over \$520,000 of chips at Star Sydney.

On 20 May 2019, Customer 3's Suncity junket representative deposited \$100,000 into Customer 3's account. The cash comprised \$50 notes bundled in \$10,000 units with rubber bands contained in a black shopping bag. The cash was provided by a junket player for a buy-in.

On 24 May 2019, Customer 3's Suncity junket representative, Person 37, deposited \$200,000 into Customer 3's account. The cash comprised \$50 notes bundled in \$10,000 units with rubber bands and presented in a black paper bag similar to bags provided by Star Sydney: SMR dated 27 May 2019.

On 25 May 2019, Customer 3's Suncity junket representative deposited \$100,000 in cash into Customer 3's account. The cash comprised old \$50 notes bundled in \$10,000 units with rubber bands and presented in a paper bag: SMR dated 27 May 2019.

On 25 May 2019, Customer 3's Suncity junket representative, Person 37, cashed out \$115,000 in chips at Star Sydney.

On 30 May 2019, Customer 3's Suncity junket representative, Person 63, deposited \$200,000 in cash into Customer 3's account. The cash comprised a mixture of old and new \$50 notes in good condition bundled in \$10,000 units with rubber bands. Each bundle had been wrapped in plastic with foreign language writing on the side. The cash appeared to have been stored for some period of time as the notes were stuck together and difficult to process. The bags containing the cash were carried by Person 63 in a green cooler bag. Person 63 advised that the cash was from a junket player on the Suncity junket operated by Customer 3: SMR dated 31 May 2019.

On 31 May 2019, Customer 3's Suncity junket representative, Person 63, deposited \$200,000 in cash into Customer 3's account for use by a junket player. The cash comprised a mixture of old and new \$50 notes in good condition bundled in \$10,000 units with rubber bands

and presented in a black shopping bag. Some of the notes were stuck together and difficult to process. Person 63 was accompanied by a staff member of Suncity: SMR dated 3 June 2019.

On 1 July 2019, Customer 3's Suncity junket representative deposited \$100,000 in cash into Customer 3's FMA at Star Sydney. The cash comprised \$100 notes with Star straps.

On 26 August 2019, Customer 3's Suncity junket representative deposited \$480,750 of chips into Customer 3's account and withdrew the funds as cash. The cash was placed in a large bag. The transaction was conducted in favour of a junket player on the Suncity junket, Customer 57. Between 25 August 2019 and 26 August 2019, Customer 57 had recorded a turnover of \$1,200,000 with a win of \$480,750 however Star Sydney considered that the amount of cash requested was excessive. Star Sydney was unaware of what happened to the cash: SMR dated 20 September 2019.

On 1 October 2019, Customer 3's Suncity junket representative withdrew \$100,000 from Customer 3's account. The junket had settled several hours after the withdrawal with a recorded win of \$300,000.

On 16 October 2019 and 25 October 2019, Customer 3's Suncity junket representative withdrew \$104,000 and \$141,600 respectively from Customer 3's account.

On 6 November 2019, Customer 3's Suncity junket representative withdrew \$129,600 in cash from Customer 3's account. The junket representative gave the cash to a junket player who was showing a win of \$168,350. After the cash was given to the junket player, he met with another Star Sydney customer and split the cash with her. Star Sydney was unaware of any relationship between the customer and the junket player or the Suncity junket: SMR dated 8 November 2019.

On 24 November 2019, Customer 3's Suncity junket representative withdrew \$200,000 from Customer 3's account. The junket representative handed the cash to a junket player. The junket player had a recorded turnover of \$413,830 with a loss of \$14,385. Star Sydney noted that the transaction was unusual given the loss recorded for the junket player: SMR dated 25 November 2019.

On 31 December 2019, Customer 3's Suncity junket representative presented a large sum in a foreign currency to be exchanged to Australian dollars and deposited into Customer 3's account. The cash was bundled in \$10,000 and \$50,000 units with rubber bands. Some of the foreign currency was returned to the junket representative as it was in poor condition. The remaining funds were converted to AUD 5,405,103 and deposited into Customer 3's account. When asked the source of the funds, he advised that a junket player, Customer 44, had provided it in as a buy-in for a junket program at

another Australian casino. The junket representative said that the cash had been declared on arrival to Australia and Customer 44 had gone on to lose the majority of the funds. The funds were delivered to Star Sydney to redeem Customer 3's outstanding CCF. The junket representative transferred \$5,128,687 to Customer 3's account. The balance of the funds was left in the junket representative's account: SMR dated 2 January 2020.

Other large and suspicious cash transactions in 2020

On 6 February 2020, Customer 3's Suncity junket representative withdrew \$135,000 from Customer 3's account and gave the money to Customer 3 who continued to play on his own program for a further 30 minutes. The junket program had a turnover of \$3,320,000 with a win of \$1,831,050.

On 8 February 2020, a Star Sydney customer deposited \$100,000 in cash into his account. Another Star Sydney customer accompanied him and presented the cash which comprised \$50 notes bundled in \$10,000 units with rubber bands and was contained in a paper bag. When asked where the funds were from, the customer said that he had withdrawn the cash from the bank. The funds were then transferred to Customer 3's account: SMR dated 10 February 2020.

On 10 February 2020, a Star Sydney customer deposited \$190,000 in cash into his account. The cash comprised \$50 notes presented in a black canvas bag inside of a shopping bag. When asked about the source of the cash, the customer advised that it was from winnings from his last trip to Star Sydney. Star Sydney noted that its payouts were usually in \$100 notes unless specifically asked otherwise. Star Sydney noted that the customer's last large cash transaction was in February 2016, where he was paid out in \$100 notes which he returned the following day. After the deposit, the customer requested that the funds be transferred to Customer 3's account. Star Sydney noted that, while the customer had been a Suncity junket player previously, he was not at that time a junket player: SMR dated 11 February 2020.

On 17 February 2020, Customer 3's Suncity junket representative cashed out \$219,000 in chips on behalf of a junket player.

On 21 February 2020, Customer 3's Suncity junket representative deposited \$100,000 in cash, which comprised \$100 notes bundled in \$10,000 units, into his FMA. The customer then transferred the funds to Customer 3's SKA. The junket player had recorded a turnover of \$309,200 with a loss of \$125,150.

Large and suspicious remittances within the casino environment

On 19 February 2019, Customer 3 transferred \$150,000 to Customer 24. Star Sydney was not aware of any connection between Customer 3 and the customer. Between 20 February 2019 and 19 March 2019,

Customer 24 sent further funds to and from her personal bank account. The funds were not accessed or utilised for any gaming activity at any time. Star Sydney considered it suspicious that Customer 24 would receive a transfer from Customer 3 and from her own bank account but never use the funds for gaming activity: SMR dated 19 March 2019.

On 30 May 2019, a Star Sydney customer opened an FMA at Star Sydney. The customer was previously a staff member of Star Sydney.

On 8 June 2019, Customer 3's Suncity junket representative requested that \$60,000 be transferred from Customer 3's account to the customer. On 12 June 2019, Customer 3's Suncity junket representative requested that \$20,000 be transferred from Customer 3's account to the customer. On 13 June 2019, the customer requested that the funds be withdrawn from his account and sent to his personal Australian bank account. Star Sydney declined to process the transaction and returned the funds to Customer 3's account. Star Sydney noted that the customer had no recorded gaming activity. Star Sydney was not aware of any link between the customer and the Suncity junket: SMR dated 14 June 2019. In a note dated 13 February 2020, the Due Diligence Program Manager described this incident as an 'apparent money laundering attempt'.

- I. Star Qld was aware that Customer 3 and persons associated with the Suncity junket operated by Customer 3:
 - i. had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes;

Particulars

See paragraphs 611 to 618 above.

Large cash transactions reported in TTRs

On 20 August 2018, Star Qld gave the AUSTRAC CEO a TTR detailing an incoming payment to Customer 3 totalling \$250,000 which comprised an account deposit.

Between 27 December 2017 and 13 March 2020, Star Qld gave the AUSTRAC CEO 28 TTRs detailing outgoing payments from Customer 3 totalling \$2,207,784 which comprised account withdrawals and other monetary values out.

Large and suspicious cash transactions in 2018

On 21 August 2018, Customer 3's Suncity junket representative withdrew \$300,000 in cash from Customer 3's junket account. The junket had front money of \$2,000,000 and two recorded junket players. Star Qld had recorded junket winnings for the two players

totalling \$931,000. Star Qld considered the amount of cash withdrawn to be suspicious: SMR dated 22 August 2018.

On 25 August 2018, a Star Qld customer began playing on a Suncity junket program operated by Customer 3. On 28 August 2018, the customer arrived with \$800,000 in cash which he said was for his own play, not for a junket program. The cash comprised \$410,000 in \$50 notes and \$390,000 in \$100 notes. The cash had straps with dates on it and was wrapped in plastic. Star Qld considered it possible that the straps were from Star Sydney. Star Qld noted that the cash was packaged in a way that was similar to how the Suncity junket packaged cash at Star Sydney. Star Qld considered the deposit to be a significant increase in the funds supplied and prepared to be gambled by the customer. Star Qld considered it unusual that the funds contained so many \$50 notes: SMR dated 29 August 2018.

Large and suspicious cash transactions in 2019

On 20 September 2019, Customer 3's Suncity junket representative withdrew \$103,200 in cash from Customer 3's account. The cash was given to a junket player. Customer 3 had provided front money of \$1,000,000 for the junket program and the junket player had a recorded win of just over \$200,000. Star Qld considered it suspicious that the cash was reported under one person and given to another: SMR dated 20 September 2019.

- m. by June 2018, Star Sydney was aware that junket representatives of the Suncity junket operated by Customer 3 were interested in preventing accurate reporting of threshold transactions in respect of the Suncity junket;

Particulars

On 6 June 2018, two Suncity junket representatives questioned Star Sydney staff about reporting obligations.

The junket representatives requested that, when they brought cash to deposit into Customer 3's accounts, Star Sydney report the transaction in respect of the junket player's names if they presented the player's identification. Star Sydney refused.

The junket representatives then asked what reporting would be done if the deposit was processed through the junket player's account and then transferred to Customer 3's account. Star Sydney advised that the TTR would be processed under the player's names, but the player would need to attend the cashier.

Star Sydney noted that based on this line of questioning, together with recent SMRs lodged in respect of large cash deposits into junket player's accounts and then those funds being transferred to Customer 3's junket, it appeared that the Suncity junket operated by Customer 3 was attempting to avoid any reporting obligations: SMR dated 6 June 2018.

- n. in August 2019, a person who Star Sydney was aware had been excluded from the casino presented \$200,000 in cash to be deposited by Suncity staff members;

Particulars

On 9 August 2019, an unknown person twice brought \$100,000 in cash, which comprised \$50 notes, into Star Sydney and handed it to Suncity staff members who deposited it into a customer's account. The Suncity staff members were not junket representatives. The cash was deposited into Customer 3's account: SMR dated 12 August 2019.

By 14 August 2019, Star Sydney was aware that the individual who brought the cash into the casino was a person who Star Sydney had previously formed suspicions in respect of and had been excluded pursuant to s 81 of the Casino Control Act. Star Sydney alerted a law enforcement agency.

On 15 August 2019, the excluded customer returned to Star Sydney and attempted to deliver a further \$100,000 to a junket player on the Suncity junket operated by Customer 3. A law enforcement agency arrested the excluded customer.

- o. at various times, Customer 3 had significant parked or dormant funds in his SKA;

Particulars

Between 28 October 2020 and 19 May 2022, Customer 3 had \$527,696 parked in his SKA.

See paragraph 284 above.

- p. in 2018 and 2019, Customer 3 was the subject of law enforcement enquiries at Star;

Particulars

On 27 March 2019, Star Sydney received an enquiry from a law enforcement agency in respect of a transaction relating to Customer 3.

On 26 November 2019, Star Sydney received an enquiry from a law enforcement agency in respect of Customer 3.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- q. Customer 3 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 3 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Salon 65, Salon 73, Salon 76, Salon 77, Salon 78, Salon 80, Salon 82, Salon 85 and Salon 95.

- r. Customer 3 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 3 had access to private gaming rooms at Star Qld, including the Salon 89, Salon 99, Salon 98, Salon 96, Salon 95, Salon 90, Salon 88, Salon 69, Salon 66, Salon 22, Pit 10, Pit 9, Pit 8, the Sovereign Room, the Club, the Club Conrad and the Suite.

- s. Customer 3 was closely associated with the Suncity junket which posed higher ML/TF risks;

Particulars

In June 2019, Star senior management held copies of a report prepared by the HKJC report, which alleged that the Suncity Group, Customer 1 and Customer 2 were connected to overseas organised crime syndicates.

In July 2019, Star became aware of open source media articles which reported that Customer 1, being the Suncity junket funder, was implicated in operating gaming platforms and facilitating underground banking and illegal gaming in a foreign country and had met with gaming officials in a foreign country in respect of those allegations.

From August 2019, Star was aware of allegations in Australian media articles against Customer 1, the funder of Customer 3's Suncity junkets, and his Suncity junket operations at another Australian casino.

By February 2021, Star were aware that the Bergin ILGA report had raised concerns regarding another Australian casino's relationship with Customer 1, the funder of Customer 3's Suncity junkets, in circumstances where it allowed Customer 1's Suncity junket business to operate a Suncity cash administration desk in a private gaming room.

By 1 December 2021, Star Sydney and Star Qld became aware that Customer 1, the funder of Customer 3's Suncity junket, had been arrested in an overseas country.

See Customer 1's risk profile.

- t. Star Sydney and Star Qld did not have adequate reason to believe that Customer 3's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6) received by Customer 3 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

On and from 23 August 2011, Star understood Customer 3 to be a manager, supervisor and hotline operator of Suncity.

By at least 2020, Star Sydney understood Customer 3's source of wealth and source of funds to be as a deputy director of Suncity.

By 29 September 2020, Star Sydney accessed information that suggested that Customer 3 had no significant personal wealth and was at a relatively low level in the Suncity hierarchy.

Star understood Customer 3 to be a director of a company with relatively low revenue.

Between 2017 and 2020, Customer 3's cumulative turnover at Star Sydney and Star Qld exceeded \$3 billion. In the same period, junkets operated by Customer 3 recorded a cumulative turnover exceeding \$12 billion. At no time was Star's understanding of Customer 3's source of wealth or source of funds commensurate with the extremely high value financial and gambling services that he received at Star Sydney and Star Qld. Star Sydney and Star Qld failed adequately to review, update and verify Customer 3's source of funds and source of wealth.

Instead, in considering Suncity's source of funds and source of wealth, Star Sydney and Star Qld focussed on Customer 1, being the junket funder, of the Suncity junket.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 3

914. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 3 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney or Star Qld with respect to Customer 3.
- a. On and from 30 November 2016, Customer 3 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 3's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 3 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 6 April 2014, Customer 3 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 26 September 2014, Customer 3 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 17 February 2020, Customer 3 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 3's transactions

915. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 3's transactions because:

- a. where Star Sydney or Star Qld conducted any transaction monitoring of transactions involving Customer 3, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713.

- b. Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Suncity junkets operated by Customer 3 as turnover was recorded against Customer 3 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 3 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the Customer 9 channels;

Particulars

See paragraph 441 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 3 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 3 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- g. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 3.

Particulars

Star senior management were not specifically informed of 64 large and suspicious cash incidents totalling \$19,867,778 involving Customer 3 between 27 December 2017 and 21 February 2020: See *Customer 3's risk profile*.

The review, update and verification of Customer 3's KYC information

- 916. Star Sydney and Star Qld did not review, update and verify Customer 3's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 3's business with Star Sydney and Star Qld, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 3's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 3's source of wealth and source of funds were not legitimate: see *Customer 3's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 3's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 3.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act and rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

In October 2017, Star obtained an external due diligence report in respect of Customer 3 which did not identify any adverse information in respect of Customer 3.

Failure to apply appropriate due diligence suited to Customer 3's high ML/TF risks

917. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 3 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 3; and
 - c. reviewing and updating Customer 3's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 3 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 3*.

ECDD triggers in respect of Customer 3

918. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 3 following any ECDD triggers in respect of Customer 3.

Particulars

Section 36(1)(a) and (b) of the Act.

919. Customer 3:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 2 May 2018 and 2 November 2020, Star Sydney gave the AUSTRAC CEO 31 SMRs with respect to Customer 3.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 22 August 2018 and 22 January 2020, Star Qld gave the AUSTRAC CEO seven SMRs with respect to Customer 3.

920. Each matter pleaded in paragraph 919 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

921. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 3 following an ECDD trigger because:

- a. on each occasion prior to 6 April 2022 that Star Sydney or Star Qld conducted ECDD in respect of Customer 3 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 3 and the provision of designated services to Customer 3 by Star Sydney and Star Qld, and to whether the ML/TF risks posed by Customer 3 were within Star Sydney's or Star Qld's ML/TF risk appetite;

Particulars

Rule 15.10 of the Rules.

See paragraph 810 above.

Between May 2018 and February 2019, Star Sydney's and Star Qld's due diligence records did not contain details of any ECDD in respect of Customer 3 despite that:

- a. in the same period, Suncity junkets operated by Customer 3 recorded a cumulative turnover of over \$5.1 billion; and
- b. from May 2018, Star Sydney allowed the Suncity junket operated by Customer 3 to operate a service desk in Salon 95, and was aware that Suncity staff were attempting to conceal large and suspicious cash transactions from Star Sydney: see paragraph 683.d above.

On various dates between 15 February 2019 and 25 March 2021, Star Sydney and Star Qld conducted ECDD in respect of Customer 3.

In September 2020, Star obtained an external due diligence report which found that:

- a. Customer 3 had no significant personal wealth and operated within Suncity at a 'low level';
- b. Customer 3 was the director of an Australian company together with an individual described in a previous enquiry as a director of Suncity operations in Australia; and
- c. there was no adverse information in respect of Customer 3.

After incidents that the Due Diligence Program Manager described as apparent money laundering activity at the Salon 95 Service Desk in 2018 (see paragraph 683.d above), no additional ECDD was conducted in respect of Customer 3 or any of his junket representatives. Other than giving SMRs to the AUSTRAC CEO, the AML/CTF team at Star took no other risk mitigation measures.

On 8 May 2020, the Due Diligence Program Manager finalised an ECDD review in respect of Suncity entities and associated VIP junket participants, including Customer 3. The report found that:

- a. Customer 3 was ultimately responsible for overseeing the internal probity of Suncity's Australian junkets;
- b. Customer 3 appeared to take little, if any, action to prevent suspicious AML/CTF related activity occurring at Salon 95 during 2018 and 2019; and
- c. that very little was known about Customer 3's antecedents.

In November 2020 and 7 January 2021, Star produced an updated ECDD profile in respect of Customer 3.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 3's higher ML/TF risks: see *Customer 3's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 3's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 3's source of wealth and source of funds were not legitimate: see *Customer 3's risk profile*.

However, it was not until 6 April 2022 that Star Sydney and Star Qld issued a WOL in respect of Customer 3.

- b. Customer 3 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion prior to 6 April 2022 that Customer 3 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 3 and the provision of designated services to Customer 3 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810.

Between December 2019 and February 2020, the Suncity junket operated by Customer 3 was discussed at JRAMM and PAMMs.

The minutes of the meetings noted that:

- a. a customer had presented a large volume of foreign currency to deposit into Customer 3's account: see *Customer 3's risk profile* above;
- b. 'extensive' actions and due diligence had been completed, including by collecting a deed from the customer identifying where the funds originated;
- c. it was only after the source of funds was determined that they were accepted by Star; and
- d. Customer 3's risk rating would be raised to high.

On 7 August 2021, the Due Diligence Program Manager escalated Customer 3 to the AML/CTF Compliance Officer. The Due Diligence Program Manager conducted a holistic ECDD screening process of high-risk customers who were referenced during a recent inquiry and a July 2019 media broadcast. Despite the Bergin ILGA report findings, the Due Diligence Program Manager recommended that, with appropriate risk mitigation procedures, a business relationship with Customer 3 could be continued, noting that:

- a. Star had been engaged in a business relationship with Customer 3 since 2011 when he became Suncity's designated junket operator;
- b. in January 2013, Suncity's CEO, Customer 1, advised Star that Customer 3 was authorised to operate Customer 1's approved CCF;
- c. in May 2018, Star approved Suncity's VIP room at Star Sydney, Salon 95, which included the Suncity Service Desk. Strict risk mitigation and control measures were agreed

between Star and Suncity in respect of the operation of the service desk: see paragraph 689 above;

- d. shortly after the service desk commenced operation, an internal investigation was instigated when it became evident that Suncity staff were committing a 'myriad of transgressions' in contravention of the agreed Salon 95 service desk protocol;
- e. Customer 3 received two warning letters in May 2018 and June 2018 and was instructed to ensure that all junket representatives were aware of and complied with their obligations under the Salon 95 service desk protocol;
- f. Customer 3's management of Salon 95 was 'weak and somewhat ineffective', possibly due to his reliance on Sydney based junket representatives to oversee operations while he was in a foreign country;
- g. in July 2018, a money laundering investigation was conducted after it was suspected that Suncity staff in Salon 95 had engaged in money laundering related activities. No punitive action was taken against Customer 3;
- h. between 2012 and 2021, 41 SMRs were submitted in respect of Customer 3;
- i. the agreement between Customer 3 and Star expired on 30 June 2019;
- j. the Star had commissioned three external information reports in respect of Customer 3 in August 2013, October 2017 and September 2020. None of the reports identified adverse information in respect of Customer 3; and
- k. further ECDD screening process did not uncover any adverse information in respect of Customer 3.

On 11 August 2021, having considered the information provided by the Due Diligence Program Manager, the AML/CTF Compliance Officer determined to continue a business relationship with Customer 3.

In determining that a business relationship could be continued, the Due Diligence Manager and AML/CTF Compliance Officer did not have regard to:

- a. Customer 3's source of wealth (rule 15.10(2)(a) of the Rules);
and
- b. Customer 3's source of funds (rule 15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to their source of funds, being Customer 1: see *Customer 3's risk profile* above.

On 19 August 2021, Customer 3 was discussed at a JRAMM and a number of risk mitigation strategies were drafted. On 17 December 2021, the Chief Legal and Risk Officer and Group General Counsel agreed with the recommended strategies, being that:

- a. Customer 3 was required to attest to the source of funds, including evidence of the origin of funds, in respect of cash transactions;
- b. Star was to commission reliable external providers to provide updated background reports in respect of Customer 3 and his close associates;
- c. Customer 3 was required to provide an annual declaration of non-criminal or commercial status;
- d. Customer 3 was required to attend an interview with the AML/CTF Compliance Officer or delegated representative;
- e. Customer 3 was to be subject to ECDD on a more regular basis than once a year, at the discretion of the AML/CTF Compliance Officer; and
- f. an independent report was to be delivered to the AML/CTF Compliance Officer and the Chief Legal and Risk Officer for deliberation.

On 30 March 2022, the Group Manager, Due Diligence and Intelligence escalated Customer 3 to the AML/CTF Compliance Officer. The ECDD screening was substantially similar to the August 2021 screening and noted the additional strategies implemented in respect of Customer 3 as a result of the August 2021 JRAM meeting.

In addition, the screening noted that:

- a. in August 2021, Customer 1 was arrested in a foreign country;
- b. Customer 1 was suspected of operating a cross-border criminal gambling syndicate which arranged for foreign nationals to gamble at overseas casinos, facilitating cross-border capital transfer through the use of underground banks and arranging for foreign citizens to take part in cross-border online gambling activities contrary to law;
- c. Customer 1 had been issued with a WOL on 14 December 2021; and
- d. Customer 3 operated the Suncity junket at Salon 95 on behalf of Customer 1.

The Group Manager, Due Diligence and Intelligence recommended that Customer 3 be issued with a WOL.

On 6 April 2022, the AML/CTF Compliance Officer decided to cease Star's business relationship with Customer 3 and issue him with a

group-wide WOL. The AML/CTF Compliance Officer took cognisance of:

- a. the lack of adverse media available in respect of Customer 3;
- b. Customer 3's association with Customer 1;
- c. that Customer 3 posed a reputational risk to Star and the relationship had become unmanageable; and
- d. that he had been made aware on 5 April 2022 that the Executive Chair had decided immediately to cease to deal with Customer 3.

Contravention of s36 of the Act in respect of Customer 3

922. By reason of the matters pleaded from paragraphs 908 to 921 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 3 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rules 15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

923. By reason of the matters pleaded at paragraph 922, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 6 April 2022 with respect to Customer 3.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 4

924. Customer 4 was a customer of Star Sydney during the relevant period. Between 2016 and 2017, Star Sydney recorded turnover exceeding \$9 million for Customer 4.

Particulars

Customer 4 was a customer of Star Sydney from at least 21 January 2016.

925. Star Sydney provided Customer 4 with designated services within the meaning of tables 1 and 3, s6 of the Act during the relevant period including services as a junket player and junket operator of the Suncity junket. Between 2016 and 2017, Star Sydney recorded that junkets operated by Customer 4 had a turnover exceeding \$1.8 billion.

Particulars

On 21 January 2016, Star Sydney opened an FMA and SKA for Customer 4, both of which remain open (item 11, table 3, s6 of the Act).

See Customer 4's risk profile below.

926. Customer 4 was a customer of Star Qld during the relevant period. Between 2016 and 2017, Star Qld recorded turnover exceeding \$286 million for Customer 4.

Particulars

Customer 4 was a customer of Star Qld from at least 21 January 2016.

927. Star Qld provided Customer 4 with designated services within the meaning of tables 1 and 3, s6 of the Act during the relevant period including services as a junket player and junket operator of the Suncity junket. Between 2016 and 2017, Star Qld recorded that junkets operated by Customer 4 had a turnover exceeding \$370 million.

Particulars

By 22 January 2016, Star Qld opened an FMA and SKA for Customer 4, both of which remain open (item 11, table 3, s6 of the Act).

See Customer 4's risk profile below.

928. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 4.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 4's risk profile

929. On and from 30 November 2016, Customer 4, and the provision of designated services to Customer 4 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 4's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 4 had the following risk history:
- i. in 2016, Customer 4 was a junket operator for the Suncity junket, funded by Customer 1, who facilitated the provision of high value gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Suncity agreements with Star Sydney

On 1 April 2016, Star Sydney entered into an agreement with Customer 1 as junket funder and Customer 4 as the junket operator. The agreement was signed by the Group CFO.

On 1 October 2016, Star Sydney entered into a further agreement with Customer 1 as junket funder and Customer 4 as the junket operator. The agreement was signed by the Group CFO.

Customer 4's junket activity at Star Sydney by 30 November 2016

In 2016, Customer 4 operated 44 junkets at Star Sydney, all of which were funded by Customer 1:

- a. the total cumulative turnover of junkets operated by Customer 4 was \$1,013,058,033 with losses of \$23,953,650;
 - b. Customer 4 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;
 - c. Customer 4 had five junket representatives at Star Sydney; and
 - d. Customer 4 facilitated the provision of high value designated services to 97 junket players at Star Sydney, including foreign PEPs and players in respect of who Star Sydney had formed suspicions, such as Customer 42 and Customer 20.
- ii. in 2016, Customer 4 was a junket operator for the Suncity junket, funded by Customer 1, who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

In 2016, Customer 4 operated six junkets at Star Qld, all of which were funded by Customer 1:

- a. the total cumulative turnover of junkets operated by Customer 4 was \$150,728,078 with losses of \$7,800,322;
 - b. Customer 4 had two junket representatives at Star Qld; and
 - c. Customer 4 facilitated the provision of high value designated services to 5 junket players at Star Qld, including foreign PEPs and players in respect of who Star Qld had formed suspicions, such as Customer 20.
- iii. between 28 March 2016 and 17 November 2016, Customer 4 referred players to Star Sydney on 21 occasions;

Particulars

Between 28 March 2016 and 17 November 2016, Customer 4 referred players to Star Sydney on 21 occasions.

Customer 4 received a commission on amounts wagered by the referred customers, who Star Sydney dealt with directly.

- iv. between 14 February 2016 and 30 November 2016, Customer 4 referred players, including Customer 45, to Star Qld on 12 occasions; and

Particulars

Between 14 February 2016 and 30 November 2016, Customer 4 referred players, including Customer 45, to Star Qld on 12 occasions.

On each occasion, Customer 4 arranged for the referred player to attend Star Qld on a rebate program without Customer 4 or his junket representative being present.

Customer 4 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- v. Customer 4, and persons associated with his junket, transacted using large and suspicious amounts of cash at Star Sydney;

Particulars

TTRs

Between 15 February 2016 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 31 TTRs totalling \$1,273,450:

- a. 26 TTRs detailing account withdrawals involving Customer 4 totalling \$1,070,450;
- b. one TTR detailing an account deposit involving Customer 4 totalling \$20,000; and
- c. four TTRs detailing chip and cash exchanges involving Customer 4 totalling \$183,000.

2016

On 7 November 2016, Customer 4's junket representative exchanged \$100,000 in chips for cash at Star Sydney. Star Sydney did not consider this to be unusual for a junket.

Customer 4's risk profile from 30 November 2016

- b. Customer 4 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. in 2016 and 2017, Customer 4 operated 109 Suncity junkets at Star Sydney, all of which were funded by Customer 1;

Particulars

Suncity agreements with Star Sydney

On 1 December 2016, Star Sydney entered into a further rebate and exclusive access agreement with Customer 1 as junket funder and Customer 4 as the junket operator, which gave Suncity special rebates for junket programs, exclusive access to Salon 96 and allowances for expenses. The agreement was signed by the Group CFO and was conditional on the Suncity junket achieving a minimum monthly turnover of \$50,000,000.

Junket activity

In the 2016 calendar year, Customer 4 operated the highest number of junket programs at Star Sydney.

In the 2017 calendar year, Customer 4 operated the highest number of junket programs at Star Sydney.

- ii. between 2016 and 2017, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 4 was \$1,855,852,054 with losses of \$35,516,047;

Particulars

Between 1 December 2016 and 31 December 2016, junkets operated by Customer 4 had turnover of \$45,389,864 with wins of \$847,600.

In 2017, junkets operated by Customer 4 had turnover of \$1,810,462,190 with losses of \$35,190,747.

In the 2017 calendar year, the turnover of junkets operated by Customer 4 was the fourth highest of all junkets operated at Star Sydney.

- iii. between 2016 and 2017, Star Sydney recorded a cumulative turnover of \$124,276,728 for Customer 4 as a junket player on their own Suncity junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2017, total benefits of \$29,197,716 were payable to Customer 4 by Star Sydney in his capacity as a junket operator for the Suncity junket for rebates earned, percentages of earnings from revenue share programs and complimentary services;

Particulars

Customer 4 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2016, total benefits of \$10,731,223 were payable to Customer 4; and
- b. in 2017, total benefits of \$18,466,492 were payable to Customer 4.

- v. Customer 4 operated Suncity junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 4 operated junkets in non-exclusive private gaming rooms, including Pit 80, the Jade room and the Sovereign room.

Customer 4 operated junkets in exclusive private gaming rooms, including Salons 67, 73, 75, 77 83, 85, 86, 88, 89, 92, 95, 96, 97, 98 and 99.

- vi. Customer 4 had seven junket representatives at Star Sydney; and
- vii. Customer 4 and his junket representatives facilitated the provision of high value designated services to 141 junket players at Star Sydney including foreign PEPs and players in respect of whom Star Sydney had formed suspicions such as Customer 1, Customer 2, Customer 9, Customer 20, Customer 45, Customer 57;

Particulars

See paragraphs 643 to 649 above.

Between 2 January 2017 and 3 January 2017, Customer 57 attended one Suncity junket program operated by Customer 4 at Star Sydney.

Between 11 March 2017 and 26 March 2017, Customer 45 attended 11 Suncity junket programs operated by Customer 4 at Star Sydney.

Between 30 March 2017 and 4 April 2017, Customer 2 was recorded as a junket player on Suncity junket programs operated by Customer 4 at Star Sydney.

Between 26 January 2017 and 19 October 2017, Customer 20 attended four Suncity junket programs operated by Customer 4 at Star Sydney.

Between 6 September 2017 and 7 September 2017, Customer 1 and Customer 9 received designated services (table 3, s6) at Star Sydney as participants on Customer 4's Suncity junket program.

During this period, Star Sydney also provided Customer 1 with Star hotel accommodation, personal use of the Star Sydney yacht, dinners at restaurants in Sydney, golf bookings, with the Customer 4 Suncity junket also receiving benefits that could be used for hotel expenses based on trip turnover.

See particulars to paragraph 929.k.

- c. Customer 4 was a junket operator for the Suncity junket who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 2016 and 2017, Customer 4 operated 26 Suncity junket programs at Star Qld, all of which were funded by Customer 1;

Particulars

In the 2016 calendar year, Customer 4 operated the second highest number of junket programs at Star Gold Coast and the highest number of junket programs at Treasury Brisbane.

In the 2017 calendar year, Customer 4 operated the highest number of junket programs at Star Gold Coast and Treasury Brisbane.

- ii. between 2016 and 2017, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 4 was \$373,288,768 with losses of \$9,009,650;

Particulars

2016

Between 1 December 2016 and 31 December 2016, junkets operated by Customer 4 had turnover of \$3,896,219 with wins of \$457,500.

In the 2016 calendar year, the turnover of junkets operated by Customer 4 was the fifth highest of all junkets at Star Gold Coast, and the highest at Treasury Brisbane.

2017

In 2017, junkets operated by Customer 4 had recorded turnover of \$369,392,550 with losses of \$9,467,150.

In the 2017 calendar year, the turnover of junkets operated by Customer 4 was the ninth highest of all junkets at Star Gold Coast, and the highest at Treasury Brisbane.

- iii. between 2016 and 2017, Star Qld recorded a cumulative turnover of \$13,157,102 for Customer 4 as a junket player on their own Suncity junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2017, total benefits of \$2,886,353 were payable to Customer 4 by Star Qld in their capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and complimentary services;

Particulars

Customer 4 was entitled to benefits from Star Qld in his capacity as a junket operator:

- a. between 1 December 2016 and 31 December 2016, total benefits of \$31,020 were payable to Customer 4 at Treasury Brisbane and \$208,587 at Star Gold Coast; and
 - b. in 2017, total benefits of \$1,273,820 were payable to Customer 4 at Treasury Brisbane and \$1,372,923 at Star Gold Coast.
- v. Customer 4 had seven junket representatives at Star Qld; and
- vi. Customer 4 and his junket representatives facilitated the provision of high value designated services to 22 junket players at Star Qld including foreign PEPs and players in respect of whom Star Qld had formed suspicions;

Particulars

See paragraphs 643 to 649 above.

For example, in October 2017, Star Qld reviewed the play of a junket player on Customer 4 junket. Star Qld noted that the player had recorded losses of \$6,673,675 in October 2017 but had recorded no play in the previous two months. Star Qld considered the large losses and the unknown of source of funds to be suspicious: SMR dated 17 November 2017.

See particulars to paragraph 929.i.

- d. Customer 4 was recorded to be a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 2016 and 2017, Customer 4 was recorded to be a player on 11 junkets that they also operated;
 - ii. all of the junket programs were funded by Customer 1; and
 - iii. between 2016 and 2017, Star Sydney recorded turnover totalling \$9,507,862 with wins of \$125,385 for Customer 4's gaming activity on junket programs;
- e. Customer 4 was recorded to be a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 2016 and 2017, Customer 4 was recorded to be a player on 13 junkets that they also operated;
 - ii. all of the junket programs were funded by Customer 1; and
 - iii. between 2016 and 2017, Star Qld recorded turnover totalling \$286,471,040 with losses of \$1,054,895 for Customer 4's gaming activity on junket programs;
- f. designated services provided to Customer 4 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. between 2 January 2017 and 22 October 2017, Customer 4 referred players to Star Sydney on 22 occasions;

Particulars

Customer 4 received a commission on amounts wagered by the referred customers, who Star Sydney dealt with directly.

- h. between 11 March 2017 and 26 August 2017, Customer 4 referred players to Star Qld on 9 occasions;

Particulars

Customer 4 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- i. Customer 4 received financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2018, Star Sydney recorded individual rated turnover totalling \$10,353 for Customer 4.

Particulars

See paragraph 752 above.

In 2016, Customer 4's individual rated turnover was \$202.

In 2017, Customer 4's individual rated turnover was \$10,151.

- j. Customer 4 received financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2017, Star Qld recorded individual rated turnover totalling \$1,252 for Customer 4;

Particulars

See paragraph 752 above.

- k. Customer 4, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious amounts at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 29 December 2016 and 10 October 2017, Star Sydney gave the AUSTRAC CEO 53 TTRs in respect of Customer 4 totalling \$2,386,164:

- a. 40 TTRs detailing account withdrawals totalling \$1,925,810;
- b. one TTR detailing an account deposit totalling \$10,000;
- c. six TTRs detailing account withdrawals totalling \$180,950; and
- d. six TTRs detailing foreign currency exchanges totalling \$269,404.

Large and suspicious cash transactions in 2016

On 27 December 2016, Customer 4's junket representative withdrew \$116,000 in cash from Customer 4's FMA, on behalf of Customer 4, at Star Sydney.

Large and suspicious cash transactions in 2017

On 1 February 2017, Customer 4's junket representative withdrew \$100,000 in cash from Customer 4's FMA, on behalf of Customer 4, at Star Sydney.

On 15 March 2017, Customer 4's junket representative withdrew \$230,000 cash from Customer 4's FMA at Star Sydney. Twenty minutes later, the junket representative returned and deposited the cash into his own account. The junket representative then requested to withdraw the cash as chips. The junket representative did not record any gaming activity following the withdrawal: SMR dated 15 March 2017.

On 9 May 2017, Customer 4's junket representative withdrew \$200,000 in cash from Customer 4's FMA, on behalf of Customer 4, at Star Sydney.

On 6 July 2017, Customer 4's junket representative withdrew \$125,000 in cash from Customer 4's FMA at Star Sydney, placed the cash in a bag, then delivered it to a player on Customer 4's Suncity junket.

- I. Customer 4, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

TTRs

Between 3 January 2017 and 16 October 2017, Star Qld gave the AUSTRAC CEO 11 TTRs detailing account withdrawals made by Customer 4 totalling \$841,850.

Large and suspicious cash transactions in 2017

On 2 January 2017, Customer 4's junket representative arrived at Star Qld with a junket group. There were five players on the junket group. However, Star Qld records showed that only two recorded any gambling activity. In a period of one hour, the junket representative made two cash withdrawals of \$208,700 and \$368,500 from Customer 4's account. Star Qld was not aware of the destination of the cash: SMR dated 4 January 2017.

On 5 January 2017, a player on Customer 4's junket requested that Star Qld exchange \$600,000 cash from \$100 notes to \$50 notes. The funds were sourced from chip cash outs made in the course of the program. Customer 4 told Star Qld the reason for the request was Australia's apparent phasing out of \$100 notes. Star Qld made enquires about this and passed this information on to Customer 4. But, the customer was adamant he wanted \$50 notes: SMR dated 6 January 2017.

On 6 January 2017, a player on Customer 4's junket arrived at the casino with \$500,000 cash in \$100 notes, which Star Qld exchanged to \$50 notes at the request of the customer. The customer recorded winnings of \$447,950: SMR dated 6 January 2017.

- m. the Suncity junket operated by Customer 4 had access to Salon 95 and other private gaming rooms at Star Sydney;

Particulars

See paragraph 929.b.v above.

See paragraph 679 above.

- n. on and from July 2019, Star was aware of the media reports alleging that Customer 1 and the Suncity junket posed higher ML/TF risks; and

Particulars

In July 2019, Star became aware of open source media articles which reported that Customer 1, being the junket funder of the Suncity junkets operated by Customer 4, was implicated in operating gaming platforms and facilitating underground banking and illegal gaming in a foreign country and had met with gaming officials in a foreign country in respect of those allegations.

From August 2019, Star was aware of allegations in Australian media articles against Customer 1, the funder of Customer 4's Suncity junkets, and his Suncity junket operations at another Australian casino: see *Customer 1's risk profile*.

By February 2021, Star were aware that the Bergin ILGA report had raised concerns regarding another Australian casino's relationship with Customer 1, the funder of Customer 4's Suncity junkets, in circumstances where it allowed Customer 1's Suncity junket business to operate a Suncity cash administration desk in a private gaming room: see *Customer 1's risk profile*.

By 1 December 2021, Star Sydney and Star Qld became aware that Customer 1, the funder of Customer 4's Suncity junkets, had been arrested in an overseas country: see *Customer 1's risk profile*.

- o. Star Sydney and Star Qld did not have adequate reason to believe that Customer 4's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 4 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld recorded Customer 4's occupation as junket operator and junket representative.

At no time was Star's understanding of Customer 4's source of wealth or source of funds commensurate with the extremely high value financial and gambling services that he received at Star Sydney and Star Qld, including:

- a. Suncity junkets operated by Customer 4 had a turnover exceeding \$1.8 billion at Star Sydney between 2016 and 2017; and
- b. Suncity junkets operated by Customer 4 had a turnover exceeding \$370 million at Star Qld between 2016 and 2017.

During this period, front money for Suncity junket programs operated by Customer 4 at Star Sydney and Star Qld were drawn down from CCFs under Customer 1's name. From 2017, publicly accessible articles alleged that Customer 1 was connected to overseas

organised criminal syndicates and underground banking, and that his companies engaged in illegal proxy and online betting.

At no time did Star Sydney or Star Qld make appropriate enquiries with respect to Customer 4's source of wealth and source of funds in his personal capacity.

Instead, in circumstances where it did make any source of wealth or source of funds enquiries in connection with the Suncity junkets operated by Customer 4, Star Sydney and Star Qld focused on Customer 1, the junket funder of the Suncity junket: see *Customer 1's risk profile*.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 4

930. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 4 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 4.
- a. On and from 30 November 2016, Customer 4 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 4's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 4 rated high risk for the purpose of the Act and Rules by Star Sydney or Star Qld.

Particulars

See paragraph 110 above.

On 1 February 2016, Customer 4 was rated low, not being high risk for the purpose of the Act and Rules.

On 2 February 2017, Customer 4 was rated medium, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 4's transactions

931. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 4's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 4, Star Sydney's and Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 4 through the junket channel; and

Particulars

See paragraph 783 above.

- d. Star Sydney and Star Qld provided designated services to Customer 4 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 4's KYC information

- 932. Star Sydney and Star Qld did not review, update and verify Customer 4's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 4's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 4's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 4's source of wealth and source of funds were not legitimate: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 4*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 4's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 4.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act and rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 4's high ML/TF risks

- 933. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 4 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 4; and
 - c. reviewing and updating Customer 4's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 4 at a time before the date of the ECDD triggers below: see *ECDD triggers in respect of Customer 4*.

ECDD triggers in respect of Customer 4

- 934. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 4 following an ECDD trigger.

Particulars

Section 36(1)(a) and (b) of the Act.

- 935. Customer 4:
 - a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 6 January 2017, Star Sydney gave the AUSTRAC CEO one SMR with respect to Customer 4.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 4 January 2017 and 17 November 2017, Star Qld gave the AUSTRAC CEO three SMRs with respect to Customer 4.

- 936. Each matter pleaded in paragraph 935 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

937. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 4 following an ECDD trigger because:
- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 4 in response to an ECDD trigger, they each failed to give appropriate consideration to the ML/TF risks posed by Customer 4 and the provision of designated services to Customer 4 by Star Sydney and Star Qld, and to whether the ML/TF risks posed by Customer 4 were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809 above.

From 30 November 2016 to 8 May 2020, Star Sydney and Star Qld did not conduct ECDD in respect of Customer 4 following an ECDD trigger.

It was not until 8 May 2020 that Star Sydney and Star Qld conducted ECDD in respect of Customer 4 as part of the Suncity ECDD review prompted by the Bergin ILGA inquiry, which considered individuals associated with the Suncity junket, including Customer 4. The report identified that Customer 4 was a 'junket representative' and had been rated low risk, and that no adverse information had been identified following a review of Star's due diligence holdings and media searches.

Star did not conduct any further ECDD on Customer 4 as part of subsequent ECDD conducted into Customer 1, the funder of the Suncity junkets, and other Suncity associates, including the due diligence report prepared by the Group Manager Due Diligence & Intelligence in January 2021, or the Project Congo – High Risk Customer Review, which considered Customer 1 along with other customers, against Star's new ECDD methodology.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 4's higher ML/TF risks, including in circumstances where:

- a. Customer 4 was directly involved in Suncity junket operations at Star Sydney and Star Qld;
- b. between 2016 and 2017, the Suncity junkets operated by Customer 4 were funded by a third party, Customer 1, with recorded turnover exceeding \$2 billion at Star Sydney and Star Qld; and

- c. Customer 4 was connected to Customer 1, who funded the Suncity junket programs operated by Customer 4. From 2017, publicly accessible articles alleged that Customer 1 was connected to overseas organised criminal syndicates and underground banking, and that his companies engaged in illegal proxy and online betting: see *Customer 4's risk profile*.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 4's source of funds or source of wealth. At all times, Star Sydney and Star Qld recorded Customer 4's occupation as junket operator or junket representative, and was aware that the front money funds utilised by the Suncity junket programs operated by Customer 4 came from a third party, Customer 1.

By reason of the matters set out above, there were real risks that Customer 4's source of wealth and source of funds were not legitimate: see *Customer 4's risk profile*.

- b. Customer 4 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion that Customer 4 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 4 were within Star Sydney or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

From 30 November 2016 to 8 May 2020, Star's due diligence records do not indicate that senior management specifically considered the ML/TF risks posed by Customer 4.

On 8 May 2020, the Suncity ECDD report prepared by the Due Diligence Program Manager was provided to the Chief Legal and Risk Officer, and copied to General Counsel Corporate and the AML/CTF Compliance Officer.

See particulars to paragraph 937.a above.

Contravention of s36 of the Act in respect of Customer 4

- 938. By reason of the matters pleaded from paragraphs 924 to 937, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 4 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

939. By reason of the matters pleaded at paragraph 938, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 4.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 5

940. Customer 5 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$3.5 billion for Customer 5.

Particulars

Customer 5 was a customer of Star Sydney from at least 12 November 2010.

On 14 April 2022, Star Sydney issued a WOL in respect of Customer 5.

941. Star Sydney provided Customer 5 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder and a junket player. Between 2017 and 2020, Star Sydney recorded that junkets funded by Customer 5 had a turnover exceeding \$11 billion.

Particulars

On 12 November 2010, Star Sydney opened an FMA and SKA for Customer 5 which remain open (item 11, table 3, s6 of the Act).

Between 31 January 2011 and 23 September 2019, Star Sydney approved CCFs for Customer 5 on nine occasions with a facility limit ranging from \$3,330,000 to \$166,670,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel and the Customer 9 channels, which it made available to Customer 5 (items 31 and 32, table 1, s6 of the Act).

See Customer 5's risk profile below.

942. Customer 5 was a customer of Star Qld during the relevant period. Between 2017 and 2020, Star Qld recorded turnover exceeding \$3 billion for Customer 5.

Particulars

Customer 5 was a customer of Star Qld from at least 15 July 2012.

On 14 April 2022, Star Qld issued a WOL in respect of Customer 5.

943. Star Qld provided Customer 5 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder and a junket player. Between 2017 and 2020, Star Qld recorded that junkets funded by Customer 5 had a turnover exceeding \$11.6 billion.

Particulars

On 15 July 2012, Star Qld opened an FMA for Customer 5 which remains open (item 11, table 3, s6 of the Act).

On 30 June 2018, Star Qld opened an SKA for Customer 5 which remains open (item 11, table 3, s6 of the Act).

Between 31 January 2011 and 23 September 2019, Star Qld approved CCFs for Customer 5 on nine occasions with a facility limit ranging from \$16,670,000 to \$166,670,000 (item 6, table 1, s6 of the Act).

See Customer 5's risk profile below.

944. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 5.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 5's risk profile

945. On and from 30 November 2016, Customer 5, and the provision of designated services to Customer 5 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 5's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 5 had the following risk history:
- i. Customer 5 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs. Between 7 July 2015 and 7 October 2015, Customer 5 was a player on four junkets at Star Sydney operated by three different operators, including Customer 28;

Particulars

By 30 November 2016, Customer 5's turnover on junket programs was \$1,448,655,000 with wins of \$18,005,000.

- ii. on 31 January 2011, Star Sydney provided Customer 5 with a significant amount of credit upon request, up to limits of \$16,670,000;

Particulars

See paragraphs 516 to 518 and 552 above.

- iii. on 30 September 2011, Star Qld provided Customer 5 with a significant amount of credit upon request, up to limits of \$3,330,000;

Particulars

See paragraphs 516 to 518 and 552 above.

- iv. by October 2014, Star Sydney was aware that Customer 5 was reportedly detained in a foreign country for alleged involvement in money laundering;

Particulars

On 20 October 2014, the AML/CTF Administrator sent the Due Diligence Program Manager a risk intelligence search relating to Customer 5.

The search identified that Customer 5 had reportedly been detained in a foreign country for alleged involvement in money laundering. The General Counsel Corporate understood that Customer 5 had been detained in November 2012 and released without charge in early 2013.

As a result, a Star employee determined that Customer 5's risk rating should be increased to high and that due diligence should be undertaken in respect of him. However, it was not until 1 November 2019 that Customer 5 was rated high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 5* below.

- v. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 5 by remitting large amounts of money into and out of the casino environment via his account; and

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 21 March 2011 and 22 October 2012, Star Sydney gave the AUSTRAC CEO 14 incoming IFTIs totalling \$25,577,562 where Customer 5 was named as the beneficiary. The funds were used to redeem Customer 5's CCF or were deposited into his FMA or SKA. More than \$11 million worth of the reported transactions listed third parties, including companies, as the ordering customer.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

On 3 March 2015, Customer 5 instructed Star Sydney to transfer \$750,000 to another Australian casino and \$1,684,815 to a foreign bank account from his SKA. The transfers were made on behalf of Customer 29, who was a junket player at Star Sydney and Star Gold Coast.

Between 6 July 2016 and 26 August 2016, Star Sydney sent three telegraphic transfers totalling \$8,096,257 from Customer 5's account to another Australian casino.

Each of the above transactions was conducted through the Star Patron account channel.

- vi. Customer 5 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

On 21 February 2014 and 12 October 2015, Star Sydney gave the AUSTRAC CEO two TTRs detailing incoming payments to Customer 5 totalling \$165,000.

Between 9 February 2011 and 13 October 2015, Star Sydney gave the AUSTRAC CEO 16 TTRs detailing outgoing payments from Customer 5 totalling \$1,623,800 which comprised:

- a. \$530,000 in account withdrawals; and
- b. \$1,093,800 in chip cash outs.

Customer 5's risk profile from 30 November 2016

- b. Customer 5 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 5 was a member of an international organisation.

- c. Customer 5 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. between 24 January 2017 and 9 March 2020, Customer 5 provided more than \$829 million in funding for 114 junkets at Star Sydney;

Particulars

At Star Sydney, Customer 5 funded 114 junkets totalling \$829,436,622 for Customer 6.

In 2017, 2018, 2019 and 2020, Customer 5 was one of the top ten junket funders by number of junkets funded, and amount of funding provided, at Star Sydney.

Customer 5 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 5 between 2017 and 2020 was \$11,813,851,614 with losses of \$124,629,437;

Particulars

In 2017, junket programs funded by Customer 5 had a turnover of \$3,697,495,881 with losses of \$19,200,216.

In 2018, junket programs funded by Customer 5 had a turnover of \$4,362,169,223 with losses of \$107,463,777.

In 2019, junket programs funded by Customer 5 had a turnover of \$1,303,100,362 with wins of \$12,567,856.

In 2020, when COVID-19 pandemic closures commenced, the turnover of junkets funded by Customer 5 remained high.

In 2020, junket programs funded by Customer 5 had a turnover of \$2,451,086,138 with losses of \$10,851,045.

- iii. between 9 December 2016 and 23 September 2019, Star Sydney provided Customer 5 with significant amounts of credit upon request, up to limits of \$166,666,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 9 December 2016, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a single trip CCF limit of \$50,000,000 for Customer 5.

In January 2017, when considering a further CCF for Customer 5, the General Manager, Credit and Collections advised the Chief Executive Officer and the Chief Financial Officer of 'pitfalls' in respect of Customer 5. The Chief Executive Officer and the Chief Financial Officer indicated that they were willing to proceed with their 'eyes open' and proceeded to approve a further single trip CCF limit of \$50,000,000 for Customer 5.

On 4 April 2017, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$50,000,000 for Customer 5 which was not deactivated. Star indicated that the reason that the CCF was a permanent active CCF rather than a single trip CCF was to ensure credit worthiness.

On 22 September 2017, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF with a facility limit of \$93,670,000 for Customer 5. This

CCF limit was increased in part to allow a major junket player, Customer 78, to gamble at Star Sydney.

On 26 September 2017, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF with a facility limit of \$94,330,000 for Customer 5.

On 16 November 2017, Star Sydney senior management including the Chief Executive Officer approved a permanent active CCF with a facility limit of \$166,666,000 for Customer 5, which was deactivated on 18 July 2019. On 17 November 2017, the CCF proposal was circulated to the Star directors. By 18 November 2017, each of the six directors had provided their approval of the permanent active CCF limit of \$166,666,000 for Customer 5.

On 22 July 2019, Star Sydney approved a single trip CCF with a facility limit \$166,666,000 for Customer 5, which was deactivated on 20 September 2019.

On 23 September 2019, Star Sydney approved a single trip CCF with a facility limit of \$166,666,000 for Customer 5, which was deactivated on 6 June 2020.

On 17 October 2019, Customer 5 was approved by EEIS for permanent access to EEIS' CCF, including for use at Star Sydney, with a facility limit of \$166,666,667: see paragraph 945.m below.

- iv. the junkets funded by Customer 5 had six junket representatives;
- v. in 2017, Customer 5 and Customer 6 entered into junket rebate agreements with Star Sydney and Star Qld for junket programs operated by Customer 6 and funded by Customer 5; and

Particulars

On 23 January 2017, Customer 5 and Star signed a 'Program Umbrella Agreement' term sheet which provided that:

- a. during the term of the agreement, being 12 months, Customer 6 would nominate one of two rebate program alternatives, being a rebate on the gross win/loss or a rebate on non-negotiable turnover, for each program;
- b. Star would provide to Customer 5 a CCF with a maximum exposure of \$15,000,000;
- c. where Customer 6 chose to operate a program on the basis of receiving a rebate on gross win/loss, Customer 5's CCF would have a maximum drawdown value of \$50,000,000 however Star's exposure would remain at \$15,000,000;
- d. cash out to a maximum of \$300,000 per trip would be provided to Customer 6; and

- e. a single return flight from a foreign country would be provided free of charge where non-negotiable turnover from a single trip exceeds \$100,000,000.
- vi. the junkets funded by Customer 5 facilitated the provision of high value designated services to junket representatives and at least 180 junket players including foreign PEPs and players in respect of whom Star Sydney had formed suspicions such as Customer 45, Customer 29, Customer 42 and Customer 5 himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

See *Customer 29's risk profile*, *Customer 42's risk profile* and *Customer 45's risk profile*.

See paragraph 945.e below.

- d. Customer 5 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 9 October 2017 and 1 March 2020, Customer 5 provided more than \$441 million in funding for 35 junkets at Star Qld;

Particulars

At Star Qld, Customer 5 funded 35 junkets totalling \$441,595,000 for Customer 6.

In 2018, 2019 and 2020, Customer 5 was one of the top ten junket funders by number of junkets funded at Star Gold Coast.

In 2017, 2018, 2019 and 2020, Customer 5 was one of the top ten junket funders by amount of funding provided at Star Gold Coast.

In 2019, Customer 5 was one of the top ten junket funders by number of junkets funded and amount of funding provided at Treasury Brisbane.

Customer 5 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

- ii. Star Qld recorded that the total cumulative turnover of junkets funded by Customer 5 between 2017 and 2020 was \$11,696,083,334 with losses of \$18,080,718;

Particulars

In 2017, junket programs funded by Customer 5 had a turnover of \$82,130,230 with losses of \$1,111,978.

In 2018, junket programs funded by Customer 5 had a turnover of \$1,454,448,294 with losses of \$42,513,465.

In 2019, junket programs funded by Customer 5 had a turnover of \$7,211,674,210 with losses of \$17,838,225.

In 2020, when COVID-19 pandemic closures commenced, the turnover of junkets funded by Customer 5 remained high.

In 2020, junket programs funded by Customer 5 had a turnover of \$2,947,830,600 with wins of \$43,382,950.

- iii. between 22 July 2019 and 23 September 2019, Star Qld provided Customer 5 with significant amounts of credit upon request, up to limits of \$166,666,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 22 July 2019, Star Qld approved a single trip CCF limit of \$166,666,000 for Customer 5, which was deactivated on 20 September 2019.

On 23 September 2019, Star Qld approved a single trip CCF limit of \$166,666,000 for Customer 5, which was deactivated on 6 June 2020.

On 17 October 2019, Customer 5 was approved by approved by EEIS for permanent access to EEIS' CCF, including for use at Star Qld, up to a limit of \$166,666,667: see paragraph 945.m below.

- iv. the junkets funded by Customer 5 had ten junket representatives, including Customer 29;
- v. on various occasions, Customer 5 and Customer 6 entered into junket rebate agreements with Star Sydney and Star Qld for junket programs operated by Customer 6 and funded by Customer 5; and

Particulars

See paragraph 945.c.v above.

- vi. the junkets funded by Customer 5 facilitated the provision of high value designated services to junket representatives and at least 65 junket players including foreign PEPs and players in respect of whom Star Sydney had formed suspicions such as Customer 29, Customer 42 and Customer 5 himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

For example, on 27 December 2017, Customer 5 provided \$10,000,000 in front money to a junket player, Person 28, on Customer 6's junket. Person 28 was identified by Star Qld to have served a sentence of imprisonment in a foreign country for corruption: SMR dated 29 December 2017.

See *Customer 29's risk profile* and *Customer 42's risk profile*.

See paragraph 945.f below.

- e. Customer 5 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

- i. between 13 April 2017 and 9 March 2020, Customer 5 was a player on 24 junkets at Star Sydney operated by Customer 6;
- ii. each of the junkets was funded by Customer 5; and
- iii. between 13 April 2017 and 9 March 2020, Star Sydney recorded high and escalating turnover totalling \$3,575,128,391 with wins of \$9,144,809 for Customer 5's gaming activity on junket programs;

Particulars

In 2017, Customer 5's turnover on junket programs was \$1,361,628,686 with wins of \$20,525,960.

In 2018, Customer 5's turnover on junket programs was \$961,236,355 with losses of \$19,770,151.

In 2019, Customer 5's turnover on junket programs was \$105,184,950 with wins of \$3,011,000.

In 2020, when COVID-19 pandemic closures commenced, Customer 5's junket turnover remained high.

In 2020, Customer 5's turnover on junket programs escalated to \$1,147,078,400 with wins of \$5,378,000.

- f. Customer 5 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 21 August 2018 and 5 February 2020, Customer 5 was a player on six junkets at Star Qld operated by Customer 6;

Particulars

In 2019 and 2020, Customer 5 was one of the top ten junket players by amount of turnover at Star Gold Coast.

- ii. each of the junkets was funded by Customer 5; and
- iii. between 21 August 2018 and 5 February 2020, Star Qld recorded high and escalating turnover totalling \$3,068,573,950 with wins of \$41,525,000 for Customer 5's gaming activity on junket programs;

Particulars

In 2018, Customer 5's turnover on junket programs was \$38,012,000 with losses of \$4,815,000.

In 2019, Customer 5's turnover on junket programs escalated to \$425,402,900 with losses of \$12,420,000.

In 2020, when COVID-19 pandemic closures commenced, Customer 5's junket turnover remained high.

In 2020, Customer 5's turnover on junket programs escalated to \$2,605,159,050 with wins of \$58,760,000.

- g. designated services provided to Customer 5 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- h. Customer 5 was connected to other customers at Star Sydney and Star Qld, including players who posed higher ML/TF risks and who Star Sydney and Star Qld considered had acted suspiciously such as Customer 100;

Particulars

In June 2020, Customer 100 provided a \$2,800,000 cheque drawn down from his business, Company 5, to Star for the purpose of repaying Customer 5's EEIS loan. The cheque was not cashed and in July 2020 Star received freezing orders in respect of Customer 100 and his company.

In July 2020, open sources reported proceedings in an Australian court that related to Customer 100 and his companies, which found that Customer 100 engaged in improper conduct and that the conduct of his companies had been dishonest and evasive.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 5 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

On 23 April 2019, a third party acting on behalf of Customer 5 deposited a total of \$419,515 into the EEIS Patron accounts, which Star Sydney made available to Customer 5 through the EEIS remittance channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 25 April 2018 and 25 October 2018, deposits through the Customer 9 channels totalling AU\$12,036,573 and HKD13,458,536 were made available by Star Sydney to Customer 5's account.

Other remittances involving third parties

See paragraphs 278 and 327 above.

See paragraph 455.

On or about late March 2018, Customer 5 used an overseas remittance service provider, Company 11, to repay an outstanding CCF of \$3,200,000.

Customer 5 did not want Star Sydney to bank a cheque against his personal bank account as this 'would have had serious ramifications to Customer 5 with his bankers as has done to him in the past'. On or around 29 March 2018, Star Sydney received \$3,268,080 which it made available to Customer 5's SKA.

Customer 5 subsequently engaged the overseas remittance service provider, Company 11, on or around 3 April 2018 for the deposit of approximately \$4,917,387. Funds were received by Star Sydney to Customer 5 in three transfers each of \$1,600,000, and made available to Customer 5's primary SKA.

Each of the above transactions was conducted through the Star Patron account channel.

These transfers were made by a third party company from an overseas bank.

The funds were applied by Star Sydney to redeem Customer 5's CCF.

Other remittances into the casino environment

See paragraph 327 above.

Between 25 January 2017 and 24 March 2020, Star Sydney received at least 21 telegraphic transfers totalling \$42,987,514, each of which was made available to Customer 5's account.

Between 13 April 2017 and 29 March 2018, Star Sydney gave the AUSTRAC CEO two incoming IFTIs totalling \$3,936,617 where Customer 5 was named as the ordering customer and beneficiary. The funds were deposited into Customer 5's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 27 February 2018 and 13 February 2020, Star Sydney sent six telegraphic transfers totalling \$10,223,263 from Customer 5's FMA to Australian bank accounts.

Between 9 August 2017 and 14 November 2017 Star Sydney sent two telegraphic transfers totalling \$8,834,879 from Customer 5's account to overseas bank accounts.

On 19 February 2019 and 5 March 2020, Star Sydney sent two telegraphic transfers totalling \$4,714,904 from Customer 5's FMA to another Australian casino.

Between 11 February 2020 and 19 February 2020, Star Sydney gave the AUSTRAC CEO three outgoing IFTIs totalling \$13,502,363 where Customer 5 was named as the ordering customer and beneficiary. Of

these funds, \$3,500,000 was a program settlement and the remaining was withdrawn from Customer 5's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 26 August 2019 and 2 March 2020, Star Sydney received four transfers totalling \$8,589,069 from Star Qld, each of which was made available to Customer 5's account.

Between 19 October 2017 and 15 July 2019, Star Sydney sent seven transfers totalling \$3,771,936 from Customer 5's account to Star Qld.

- j. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 5 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 9 November 2018, Star Qld received 14 telegraphic transfers totalling \$4,567,500 which it made available to Customer 5's account. The telegraphic transfers were facilitated by a foreign bank and sent by two third party company accounts overseas.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances into the casino environment

See paragraph 327 above.

For example, on 13 November 2018, Star Qld received a telegraphic transfer totalling \$1,000,000, which it made available to Customer 5's account at Star Gold Coast.

On 25 October 2019, Star Qld gave the AUSTRAC CEO an incoming IFTI totalling \$5,000,000 where Customer 5 was named as the ordering customer and the beneficiary. The funds were deposited into Customer 5's FMA, with Star Qld noting that it was 'yet to be advised who will be using' the funds.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

For example, on 28 February 2020, Star Qld gave the AUSTRAC CEO an outgoing IFTI totalling \$70,000,000 where Customer 5 was named as the customer.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 27 March 2018 and 16 July 2019, Star Qld received 12 transfers totalling \$29,566,234 from Star Sydney, each of which was made available to Customer 5's FMA and SKA at Star Gold Coast. At least \$2,510,264 of these funds were transferred for the purpose of redeeming outstanding CCFs.

Between 15 November 2018 and 2 March 2020, Star Qld facilitated five transfers totalling \$10,265,113, from Customer 5's FMA at Star Gold Coast to Star Sydney.

- k. Star Sydney was aware that:
- i. Customer 5 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;
 - ii. Customer 5, and persons associated with his junket activity, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above

Between 20 October 2017 and 13 February 2020, Star Sydney gave the AUSTRAC CEO 11 TTRs detailing incoming payments to Customer 5 totalling \$1,530,000 which comprised:

- a. \$550,000 in account deposits; and
- b. \$980,000 in chip exchanges.

Between 9 October 2017 and 4 March 2020, Star Sydney gave the AUSTRAC CEO 16 TTRs detailing outgoing payments from Customer 5 totalling \$2,161,851 which comprised:

- a. \$2,095,430 in account withdrawals;
- b. \$50,000 in chip cash outs; and
- c. \$16,421 in foreign currency exchanges.

On 17 October 2017, Customer 6's junket representative, Person 14, withdrew \$500,000 in cash from Customer 5's SKA at Star Sydney. On 19 October 2017, Person 14 deposited the same cash back into Customer 5's SKA.

On 22 February 2018, Customer 5 exchanged \$100,000 in cash for chips at Star Sydney. The cash comprised \$100 notes and had been withdrawn by Customer 6's junket representative, Person 14, shortly before the transaction. Person 14 had cashed out \$310,000 in total for Customer 6's junket over the previous days.

On 28 February 2018, Customer 5 purchased \$100,000 of chips at Star Sydney, which he used for gaming activities.

On 13 August 2018, Customer 6's junket representative, Person 14, withdrew \$100,000 from Customer 5's SKA for a program settlement.

Between 16 August 2018 and 19 August 2018, Customer 6's junket representative, Person 14, who had authority to transact on Customer 5's account, withdrew \$700,000 in cash from Customer 5's account.

The majority of those funds had been which had been received via telegraphic transfers from a money remitter, Company 1, into Customer 5's Star Sydney account. Person 14 withdrew a further \$200,000 from Customer 5's account on the same day: SMRs dated 20 August 2018.

In December 2019, Customer 5 played on Customer 6's junket at Star Sydney. Star Sydney recorded a turnover for Customer 5 of \$15,285,300 with a win of \$4,911,000. \$350,000 in cash was withdrawn from Customer 6's account and given to Customer 5, who was observed by Star Sydney to give the cash to another Star Sydney customer. That customer proceeded to purchase \$330,000 in chips and gave the chips to multiple other persons in order to 'settle poker debts with his friends'. Star Sydney was unaware of any link between Customer 5 and the customer or the customer and Customer 6's junket: SMR dated 30 December 2019.

In February 2020, Customer 6's junket representative, Person 14, made two cash withdrawals of \$200,000 and \$300,000 respectively from the Customer 6's account at Star Sydney and deposited the cash into Customer 5's account. On each occasion, Person 14 also withdrew \$150,000 and \$300,000 respectively in chips from Customer 6's account for Person 14's use. Star Sydney considered the large cash transactions to be suspicious: SMR dated 10 February 2020.

- I. Customer 5, and persons associated with his junket activity, transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 20 October 2017 and 13 February 2020, Star Qld gave the AUSTRAC CEO four TTRs detailing incoming payments to Customer 5 totalling \$159,800 which comprised:

- a. \$100,000 in account deposits;

- b. \$10,000 in cash exchanges; and
- c. \$49,800 in chip exchanges.

Between 25 January 2019 and 2 August 2019, Star Qld gave the AUSTRAC CEO three TTRs detailing outgoing payments from Customer 5 totalling \$225,820 which comprised:

- a. \$100,000 in account withdrawals; and
- b. \$125,820 in chip cash outs.

In August 2018, Customer 5 was the sole junket player on Customer 6's junket at Star Qld. Customer 5 had front money totalling \$5,000,000 and, by 22 August 2018, had lost \$4,800,000. Customer 6's junket representative cashed out \$100,000 in chips. Star Qld was unaware of whether the cash was paid to Customer 5 or retained by the junket representative: SMR dated 22 August 2018.

On 23 November 2018, Customer 6's junket representative, Person 14, presented at Star Sydney with a bank cheque dated 1 November 2018 for \$1,000,000. The funds were for the further credit of Customer 5 at Star Qld. The cheque was deposited at Star Sydney.

Star Qld believed that the funds would be used to redeem an outstanding cheque from a previous premium group. Star Qld was not aware of which group of players the funds related to: SMR dated 13 November 2018.

- m. Star Sydney and Star Qld made large amounts of money available to Customer 5 through EEIS loans (items 31 and 32, table 1, s6 of the Act);

Particulars

See paragraph 485 and 491.

Approval of the EEIS loan

On 8 October 2019, Customer 5 became a customer of EEIS.

On 17 October 2019, final approval was received for EEIS to offer the loan of \$166,666,667 to Customer 5. The loan was approved on a permanent active basis across all properties, meaning that a single loan approval allowed for multiple drawdown notices relating to junkets. Customer 5 could use four of his accounts to draw down on the EEIS loan.

Customer 5's utilisation of the EEIS loan

Between 22 December 2019 and 7 March 2020, Customer 5 drew down from his EEIS loan at Star Sydney on 23 occasions totalling \$122,333,333. On each occasion, the drawdown was in a foreign currency which was exchanged to Australian dollars. On 5 June 2020, an outstanding debt of \$11,299,665 became payable by Customer 5 in respect of two EEIS drawdowns. However, on 30 June 2021, Star Sydney approved the write-off of that balance.

Between 9 January 2020 and 26 February 2020, Customer 5 drew down from his EEIS loan at Star Qld on eight occasions totalling \$73,000,000. On each occasion, the drawdown was in a foreign currency which was exchanged to Australian dollars.

EEIS understood that Customer 5 and Customer 6 had a business relationship over many years. On each occasion, the drawdowns were used to fund Customer 6's junket:

- a. between 22 December 2019 and 7 March 2020, Customer 5 used drawdowns from his EEIS loan, which Star Sydney made available to his accounts, to fund 16 junkets at Star Sydney operated by Customer 6; and
- b. between 25 June 2019 and 26 February 2020, Customer 5 used drawdowns from his EEIS loan, which Star Qld made available to his accounts, to fund eight junkets at Star Gold Coast operated by Customer 6.

Customer 5's repayment of the EEIS loan

As at 13 April 2022, Customer 5 owed \$12,023,340 to EEIS.

Between February 2020 and July 2020, Customer 5 made repayments to EEIS totalling \$36,476,575:

- a. on 6 February 2020 for \$485,500;
 - b. on 13 February 2020 for \$1,287,210;
 - c. on 2 March 2020 for \$4,724,140;
 - d. on 9 June 2020 for \$1,771,373;
 - e. on 25 June 2020 for \$432,959; and
 - f. on 31 July 2020 for \$27,775,392.
- n. Customer 5 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraphs 337 and 338 above.

On 3 January 2020 and 10 February 2020, Star Sydney issued letters of comfort purportedly confirming Customer 5's winnings of \$4,911,000 and \$11,600,000 respectively.

- o. in 2018, 2019 and 2020, Customer 5 was the subject of law enforcement enquiries at Star;

Particulars

On July 2018, Star Qld received a request from a law enforcement agency.

On 2 August 2018, Star Qld received a request from a second law enforcement agency for assistance, which Star Qld provided.

On 25 January 2020, the Group Investigations Manager advised Star Sydney that he had been contacted by a law enforcement agency in respect of Customer 5.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- p. Customer 5 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 5 had access to private gaming rooms at Star Sydney, including Harbours Salons, Rivers Salons, Lakes Salons and Springs Salons.

- q. Customer 5 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 5 had access to private gaming rooms at Star Qld, including the Sovereign Room, Salon 99, Salon 96, Salon 90, Salon 89, Salon 88, Salon 66 and Pit 8.

- r. by at least February 2020, Star Sydney and Star Qld received information that Customer 5 and Customer 21, both funders of the Customer 6 junket, used junkets operated by Customer 6 to engage in money laundering at casinos;

Particulars

In February 2020, Star updated Customer 6's profile and noted that there was uncorroborated information suggesting that Customer 6's principal financiers, including Customer 5 and Customer 21, potentially utilised Customer 6's association with a well-known international junket group, Company 2, to launder money through casinos.

- s. in 2022, an independent auditor investigated information holdings of Star in respect of Customer 5 and found that:

- i. although adverse media linking Customer 5 to alleged money laundering operations was publicly available from 2012, Star nevertheless continued to do business with Customer 5, and to increase his CCF limit, years after this information became available;
- ii. Star was aware that Customer 5 used another patron to launder money through casinos; and

- iii. notwithstanding this information, as at May 2022 Customer 5 appeared able to gamble at Star; and

Particulars

The independent auditor identified that:

- a. Customer 5 had formerly been a major customer of another Australian casino before shifting his business to Star under Customer 6's junket;
- b. Customer 5's personal and junket funded programs had increased from a cash turnover of \$4,600,000,000 in FY2018 to \$5,300,000,000 in FY2019;
- c. Customer 5's occupation and source of wealth was from his directorship of a foreign company, Company 10;
- d. by 2012, Customer 5 was mentioned in open source media articles which alleged that he and others had been detained by overseas authorities in connection with money laundering operations;
- e. in December 2017, the Star board agreed to increase Customer 5's next CCF exposure to \$50,000,000;
- f. in September 2019, Customer 5 was named in a public report in connection with being detained in a foreign country;
- g. in October 2019, Customer 5 was approved for a loan of \$50,000,000;
- h. in November 2019, Star conducted ECDD in respect of Customer 5 which noted that he had been arrested in 2012 on allegations of money laundering and facilitating capital flight from a foreign jurisdiction and that he may use other junket licenses and associations to launder money through casinos;
and
- i. in November 2020, a public inquiry identified that Customer 5 had been approved by Star Sydney as recently as March 2020 despite having been detained in relation to underground banking in 2012.

The independent auditor found that:

- a. adverse media was publicly available linking Customer 5 to alleged money laundering operations in 2012;
- b. Star continued to do business with Customer 5, and to increase his CCF limit, years after this information was available;
- c. in 2019 and 2020, further information became available linking Customer 5 to underground banking operations;

- d. Star conducted ECDD in respect of Customer 5 and identified that he used another patron to launder money through casinos; and
 - e. Customer 5 appeared to remain able to gamble at Star.
- t. Star Sydney and Star Qld did not have adequate reason to believe that Customer 5's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 5 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By September 2019, Star understood that Customer 5 and his son had business interests in large overseas companies. However, financial information in support of Customer 5's business interests was not subject to review as a matter of course.

From 2012, publicly accessible media articles linked Customer 5 to alleged money laundering operation. From 2018, Customer 5 was the subject of multiple law enforcement enquiries at Star. In September 2019, Customer 5 was named in connection with being detained in a foreign country. In November 2019, Star suspected that that Customer 5 was using other junket licences and associations to launder money through casinos. In February 2020, Star understood that Customer 5 potentially utilised Customer 6's association with a well-known international junket group, Company 2, to launder money through casinos.

There were real risks that Customer 5's source of wealth and source of funds were not legitimate.

Despite this, Customer 5 received designated services through international remittance channels, which were high risk channels. Customer 5 provided hundreds of millions of dollars in funding to junket programs at Star Sydney and Star Qld. Those junkets had a cumulative turnover exceeding \$20 billion. Star provided to Customer 5 a CCF with limits of up to \$166 million.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 5

946. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 5 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 5.
- a. On and from 30 November 2016, Customer 5 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 5's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 1 February 2022 that Customer 5 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 1 November 2019, Customer 5 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 1 February 2022, Customer 5 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 5's transactions

- 947. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 5's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 5, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 5 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel and the Customer 9 channels;

Particulars

See paragraphs 441 and 493 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 5 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 5 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents relating to Customer 5.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents on 22 February 2018, 18 August 2018, 25 December 2019 or 7 February 2020: see *Customer 5's risk profile*.

The review, update and verification of Customer 5's KYC information

- 948. Star Sydney and Star Qld did not review, update and verify Customer 5's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 5's business with each of Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 5's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 5's source of wealth and source of funds were not legitimate: see *Customer 5's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 5's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 5.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act and rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 5's high ML/TF risks

949. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 5 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 5; and
 - c. reviewing and updating Customer 5's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 5 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 5*.

ECDD triggers in respect of Customer 5

950. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 5 following any ECDD triggers in respect of Customer 5. In particular, because Customer 5 was a foreign PEP, Star Sydney and Star Qld were required to:
- a. undertake detailed analysis of Customer 5's KYC information including taking reasonable measures to identify the source of Customer 5's wealth and the source of Customer 5's funds; and
 - b. seek senior management approval for continuing a business relationship with Customer 5 and whether Star Sydney and Star Qld should continue to provide a designated service to Customer 5.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3), 15.10 and 15.11 of the Rules.

951. Customer 5:

- a. at all times from 30 November 2016 was a foreign PEP;

Particulars

See Customer 5's risk profile above.

- b. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 20 August 2018 and 10 February 2020, Star Sydney gave the AUSTRAC CEO four SMRs with respect to Customer 5.

- c. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 29 December 2017 and 13 November 2018, Star Qld gave the AUSTRAC CEO three SMRs with respect to Customer 5

- d. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 1 February 2022, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 5 was very high risk, being high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 5* above.

952. Each matter pleaded in paragraph 951 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

953. It was not until 1 November 2019 that Star Sydney and Star Qld identified that Customer 5 was a foreign PEP, despite having received a positive risk intelligence search result on 20 June 2018.

954. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 5 following the ECDD triggers:

- a. on each occasion prior to 14 April 2022 that Star Sydney or Star Qld conducted ECDD in respect of Customer 5 in response to an ECDD trigger, they failed to give appropriate consideration to whether the ML/TF risks posed by Customer 5 and the provision of designated services to Customer 5 by Star Sydney and Star Qld, and to whether those

risks were within Star Sydney's or Star Qld's ML/TF risk appetite. In particular, Star Sydney and Star Qld failed to monitor Customer 5 as a foreign PEP because:

- i. Star Sydney's and Star Qld's analysis of Customer 5's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 5;
- ii. Star Sydney's and Star Qld's analysis of Customer 5's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 5; and

Particulars

Rule 15.10, 15.10(2), 15.10(5), 15.10(6) and 15.10(7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

ECDD conducted in respect of Customer 5

On 25 October 2019, November 2019, 20 December 2019, 25 December 2019, 12 January 2021, 25 January 2021, February 2021 and 1 February 2022, Star conducted ECDD in respect of Customer 5.

In February 2021, the ECDD screening in respect of Customer 5 identified that:

- a. Customer 5 was a junket funder;
- b. Customer 5's occupation was as a director/shareholder;
- c. external due diligence reports obtained in respect of Customer 5 identified his reported arrest in connection with suspicion of money laundering, underground banking and facilitating capital flight;
- d. Customer 5 had been referred to in a public inquiry;
- e. between August 2018 and February 2021, eight SMRs or IFTIs had been given to the AUSTRAC CEO in respect of Customer 5;
- f. in February 2020, a law enforcement agency advised Star that Customer 5 was a person of interest; and
- g. recent ECDD included open source, media, litigation and bankruptcy searches.

On 1 February 2022, the ECDD screening in respect of Customer 5 identified, in addition to the information contained in the February 2021 screening, that:

- a. two external due diligence reports had been received in respect of Customer 5 (see below);
- b. those reports contained adverse information, including that Customer 5 had been detained in a foreign country; and

- c. Customer 5 had been the subject of SMRs and law enforcement enquiries.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 5's higher ML/TF risks: see *Customer 5's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 5's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 5's source of wealth and source of funds were not legitimate: see *Customer 5's risk profile*.

External due diligence reports

In July 2019, a third party intelligence provider engaged by EEIS finalised a due diligence report in respect of Customer 5 which included that he was:

- a. described as a 'super' high roller who gambled in various countries;
- b. reported to have been arrested in 2012 in a foreign country. Customer 5 was released with no further charges after a period of time;
- c. reported to be the partner of a foreign junket, Company 2, together with two other individuals who were arrested for illegal underground banking activity. There was speculation that the charges related to money laundering on behalf of a foreign politician. The foreign junket was consistently linked with a group, Company 2, ultimately controlled by an overseas organised crime figure;
- d. alleged to have brought high-rollers to casinos and to have collected gambling debts in return for a commission; and
- e. related to a person who was once listed as one of the richest people in a foreign country but was sentenced in 2004 and 2008 for his involvement in share manipulation and misappropriation of public funds. That person had transferred assets to Customer 5 or his associates/family.

In July 2019, a second third party intelligence provider provided an interim due diligence report in respect of Customer 5 which included that he:

- a. had business interests in foreign companies;
- b. was not known to be a member of an organised crime network;

- c. was a regular known VIP customer of the Suncity Group and maintained a credit account with a substantial limit;
- d. was not a registered casino junket or sub-junket operator in a foreign jurisdiction;
- e. was an online gaming banker; and
- f. had formerly used an alias and had no criminal record in a foreign country.

In January 2020, a third party intelligence provider finalised a due diligence report in respect of Customer 5, which included that he:

- a. sourced his wealth from illegal money lending by casino chip stacking and loan-sharking, operating illegal online gambling and bookmaking websites, and maintaining a rolling account with the Suncity Group to fund his gambling activities;
- b. continued to be a 'hidden' investor and partner in a foreign group, Company 2, ultimately controlled by an organised crime figure;
- c. was a close friend and associate to an organised crime figure;
- d. used Customer 6's and other junket operators' licences to launder money through casinos in foreign jurisdictions;
- e. had changed his name after he allegedly cheated many wealthy foreign individuals in order to evade prosecution; and
- f. was not known to be a member of any organised crime networks but could not avoid being associated with members of organised crime through his illegal gambling activities.

By reason of the matters set out above, there were real risks that Customer 5's source of wealth and source of funds were not legitimate: see *Customer 5's risk profile*.

On 14 April 2022, Star issued a WOL in respect of Customer 5.

- iii. Customer 5 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's risk appetite;

Particulars

See paragraph 817.

- iv. any senior management approval regarding Customer 5 failed to give appropriate consideration to the ML/TF risks posed by Customer 5 and the provision of designated services to Customer 5 by Star Sydney and Star Qld, and whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 817.

On 1 February 2022, following an ECDD screening, the Group Manager, Due Diligence and Intelligence determined to escalate Customer 5 to the Chief Financial Crime Officer and recommended that his risk rating be raised to very high on the basis of, among other things:

- a. previous ECDD screenings;
- b. Customer 5's junket activity at Star Sydney and Star Qld in 2019 and 2020; and
- c. 11 suspect matters that had been raised in respect of Customer 5 between 13 November 2018 and February 2022, four of which had resulted in SMRs being given to the AUSTRAC CEO, due to suspicious transactions of amounts ranging between \$100,000 and \$1,000,000. These transactions were commonly cash to chips purchases and large cash withdrawals funded by remittance transfers by company accounts.

On 15 February 2022, the Chief Financial Crime Officer reviewed the Group Manager, Due Diligence and Intelligence comments and the 1 February 2022 ECDD screening and approved a continuing business relationship with Customer 5. The AML/CTF Compliance Officer noted that source of wealth information existed in respect of Customer 5.

In determining that a business relationship could be continued, the AML/CTF Compliance Officer did not have regard to:

- a. Customer 5's source of wealth (r 15.10(2)(a) of the Rules), having regard to the very high value designated services provided to him; and
- b. Customer 5's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting high ML/TF risks as to their source of funds: see *Customer 5's risk profile* above.

On 14 April 2022, Star issued a WOL in respect of Customer 5.

On 2 June 2022, a file note was added to Customer 5's customer management profile stating that:

- a. the AML/CTF Compliance Officer did not re-review the external report or read the documents escalated by the Group Manager, Due Diligence and Intelligence to them;
- b. the decision to retain the business relationship with Customer 5 was based on Customer 5 owing Star approximately \$60,000,000; Customer 5 not being able to attend Star due to his outstanding debt; the low risk that Customer 5 return to

Star; and active considerations in respect of recovering funds from another customer in circumstances where those funds may potentially be proceeds of crime; and

- c. the AML/CTF Compliance Officer had decided that Customer 5 was not an appropriate person to return to the Star and he should be excluded should he return to Star.

Contravention of s36 of the Act in respect of Customer 5

955. By reason of the matters pleaded from paragraphs 940 to 954 above, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 5 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

956. By reason of the matters pleaded at paragraph 955, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 14 April 2022 with respect to Customer 5.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 6

957. Customer 6 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$78,000 for Customer 6.

Particulars

Customer 6 was a customer of Star Sydney from at least 5 October 2012.

958. Star Sydney provided Customer 6 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2020, Star Sydney recorded that junkets operated by Customer 6 had a turnover exceeding \$11 billion.

Particulars

On 5 October 2012, Star Sydney opened an FMA and SKA for Customer 6 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 6 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 6's risk profile below.

959. Customer 6 was a customer of Star Qld during the relevant period. Between 2017 and 2020, Star Qld recorded turnover exceeding \$550,000 for Customer 6.

Particulars

Customer 6 was a customer of Star Qld from at least 24 October 2012.

960. Star Qld provided Customer 6 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2020, Star Qld recorded that junkets operated by Customer 6 had a turnover exceeding \$11 billion.

Particulars

On 24 October 2012, Star Qld opened an FMA for Customer 6 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 6 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 6's risk profile below.

961. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 6.

Particulars.

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 6's risk profile

962. On and from 30 November 2016, Customer 6, and the provision of designated services to Customer 6 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 6's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 6 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 6;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on eight occasions between 9 October 2012 and 19 February 2014.

The SMRs reported that between October 2012 and February 2014, Customer 6 and persons associated with him or his junket were involved in suspicious transactions at Star Sydney involving a large amount of cash: see particulars to paragraph 962.a.ii below.

- ii. by 30 November 2016, Star Sydney was aware that Customer 6 and persons associated with him or his junket had engaged in large and unusual transactions

and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Large and suspicious transactions in 2012

On 5 October 2012, Customer 6 exchanged \$400,000 in chips for cash at Star Sydney, then immediately exchanged a further \$18,800 in chips for cash. Star Sydney considered the large amount of cash involved to be suspicious: SMR dated 9 October 2012.

On 9 October 2012, Customer 6 exchanged \$200,000 in chips for cash at Star Sydney. Star Sydney considered the large amount of cash involved to be suspicious: SMR dated 10 October 2012.

On 27 October 2012, Customer 6 arrived at Star Sydney with a third party. Customer 6 handed an unknown number of chips to the person, who was in the company of another Star Sydney customer. Customer 6 advised the third party that he could gamble with chips or cash them in. The third party attended the cashier with the other Star Sydney customer to exchange \$75,500 of the chips for cash. When identification was requested, the other Star Sydney customer provided identification to the cashier to exchange the chips. Later that evening, the other Star Sydney customer and the third party returned to cash out a further \$32,500 in chips. Star Sydney considered these transactions to be suspicious because they were performed by a third party: SMR dated 1 November 2012.

On 28 October 2012, Customer 6 withdrew \$168,250 in cash from his Star Sydney FMA. Star Sydney considered the large cash withdrawal to be suspicious: SMR dated 30 October 2012.

On 5 November 2012, at the settlement of his junket program at Star Sydney, Customer 6 took \$100,000 in cash. Star Sydney considered the large amount of cash involved to be suspicious: SMR dated 6 November 2012.

Large and suspicious transactions in 2013

On 23 August 2013, Customer 6's junket representative, Person 14, withdrew \$200,000 in cash from Customer 6's FOD account at Star Sydney. Star Sydney considered this large cash withdrawal to be suspicious: SMR dated 27 August 2013.

On 9 September 2013, Customer 6's junket representative, Person 14, cashed out several large amounts of chips on behalf of the Customer 6 junket at Star Sydney. Star Sydney considered these large cash outs to be suspicious: SMR dated 10 September 2013.

Large and suspicious transactions in 2014

On 18 February 2014, Customer 6's junket representative, Person 14, withdrew \$300,000 on behalf of the Customer 6 junket at Star

Sydney. Star Sydney considered this large cash withdrawal to be suspicious: SMR dated 19 February 2014.

Customer 6's risk profile from 30 November 2016

- b. Customer 6 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2020, Customer 6 operated 114 junkets at Star Sydney, including junket programs in foreign currencies, all of which were funded by Customer 5;

Particulars

Between 2017 and 2020, Customer 6 was in the top ten junket operators by numbers of junket programs operated at Star Sydney.

Customer 5 provided a total of \$829,436,622 in funding for Customer 6's junkets.

- ii. between 2017 and 2020, Star Sydney and Star Qld recorded the total cumulative turnover of junkets operated by Customer 6 was \$11,833,631,114 with losses of \$124,220,727;

Particulars

Gaming activity on Customer 6's junket programs

In 2017, junkets operated by Customer 6 had recorded turnover of \$2,811,704,214 with wins of \$628,846.

In 2018, junkets operated by Customer 6 had recorded turnover of \$5,267,740,400 with losses of \$126,566,384.

In 2019, Star Sydney recorded that junkets operated by Customer 6 had recorded turnover of \$1,303,873,862 with wins of \$12,567,856.

Between January and March 2020, before the COVID-19 pandemic related closures, junkets operated by Customer 6 had turnover of \$2,451,086,138 with losses of \$10,851,045.

Between 2017 and 2020, Customer 6 was a top three junket operator by turnover at Star Sydney:

- a. In 2017, Customer 6 was the third largest junket operator by turnover at Star Sydney;
- b. In 2018, Customer 6 was second largest junket operator by turnover at Star Sydney;
- c. In 2019, Customer 6 was the third largest junket operator by turnover at Star Sydney; and
- d. In 2020, Customer 6 was the largest junket operator by turnover at Star Sydney.

Between 2017 and 2020, Customer 6 was the junket operator for several top ten junket players by turnover at Star Sydney:

- a. In 2017, Customer 6 was the junket operator for two of the top ten junket players by turnover at Star Sydney, Customer 45 and Customer 5;
 - b. In 2018, Customer 6 was the junket operator for three of the top ten junket players by turnover at Star Sydney;
 - c. In 2019, Customer 6 was the junket operator for one of the top ten junket players by turnover at Star Sydney, being Customer 21; and
 - d. In 2020, Customer 6 was the junket operator two of the top ten junket players by turnover at Star Sydney, including Customer 5.
- iii. between 2017 and 2020, Star Sydney recorded a cumulative turnover of \$514,568,002 for Customer 6 as a junket player on his own junkets despite not being a junket player at any time;

Particulars

See paragraph 670 above.

- iv. between 2017 and 2020, total benefits of \$116,961,838 were payable to Customer 6 by Star Sydney in his capacity as a junket operator for rebates earned and complimentary services;

Particulars

Customer 6 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2017, total benefits of \$37,219,008 were payable to Customer 6;
 - b. in 2018, total benefits of \$57,399,025 were payable to Customer 6;
 - c. in 2019, total benefits of \$5,831,977 were payable to Customer 6; and
 - d. in 2020, total benefits of \$16,511,829 were payable to Customer 6.
- v. between 2017 and 2020, Star Sydney provided Customer 6's junket with significant amounts of credit upon request, up to facility limits of \$166,670,000, through a CCF held by Customer 5;

Particulars

On 22 September 2017, Star senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a CCF held by Customer 5 with a facility limit of \$93,670,000 for the Customer 6 junket. The Customer 6 junket previously had a CCF with a facility limit of \$15,000,000.

On 26 September 2017, Star senior management, including the Chief Executive Officer and the Chief Financial Officer, approved an increase to the facility limit of the CCF held by Customer 5 to \$94,330,000, due to the exchange rate with a foreign currency.

On 18 November 2017, the SEG Board of directors approved an increase to the facility limit of the CCF held by Customer 5 to \$166,666,000 for the Customer 6 junket, on a permanently active basis.

On 17 October 2019, Customer 5 was approved by EEIS for permanent access to loans from EEIS' CCF across all properties with a facility limit of \$166,666,667 for use on Customer 6's junket programs.

See Customer 5's risk profile.

- vi. Customer 6 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;

Particulars

Customer 6 operated junkets in non-exclusive private gaming rooms, including Pit 80 and the Sovereign room.

Customer 6 operated junkets in exclusive private gaming rooms, including Salon 67, Salon 69, Salon 73, Salon 75, Salon 76, Salon 77, Salon 78, Salon 82, Salon 85, Salon 86, Salon 88, Salon 89, Salon 90, Salon 91, Salon 92, Salon 93, Salon 96, Salon 97, Salon 98 and Salon 99.

- vii. Customer 6 had five junket representatives at Star Sydney; and
- viii. Customer 6 and his junket representatives facilitated the provision of high value designated services to approximately 150 junket players at Star Sydney including foreign PEPs and players who posed higher ML/TF risks such as Customer 5, Customer 29, Customer 42 and Customer 45; and

Particulars

See paragraphs 643 to 649 above.

See Customer 5's risk profile, Customer 29's risk profile, Customer 42's risk profile and Customer 45's risk profile.

In May 2019, Star Sydney identified that a junket player on the Customer 6 junket had lost \$3,288,500. Customer 6 had supplied the funds. The junket player's occupation was recorded as a director of marketing. Star Sydney noted that the loss appeared substantial:
SMR dated 26 June 2019.

On 25 December 2019, \$350,000 in cash was withdrawn from Customer 6's account at Star Sydney and given to Customer 5, a player on the junket. At this time, Star Sydney recorded that Customer 5 had a turnover of \$15,285,300 and a win of \$4,911,000.

Customer 5 was observed handing the cash to another Star Sydney customer who was not playing on the junket. The other Star Sydney customer proceeded to purchase \$330,000 worth of chips with the cash and then hand the chips to multiple people to 'settle poker debts with his friends'. Star Sydney noted that there were no known links between the customer and Customer 5 or the Customer 6 junket:
SMR dated 30 December 2019.

- ix. Star Sydney had formed suspicions about Customer 6's principal junket funder, Customer 5;

Particulars

See Customer 5's risk profile.

- c. Customer 6 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
- i. between 2017 and 2020, Customer 6 operated 36 junkets at Star Qld, 33 of which were funded by Customer 5 and one of which was funded by Customer 21;

Particulars

Between 2017 and 2020, Customer 6 was a top ten junket operator by number of junket programs operated per year at Star Gold Coast.

In 2019, Customer 6 was a top six junket operator by number of junket programs operated per year at Treasury Brisbane.

Customer 5 provided a total of \$429,595,000 at Star Gold Coast and \$12,000,000 at Treasury Brisbane in funding for Customer 6's junkets.

- ii. between 2017 and 2020, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 6 was \$11,696,083,334 with losses of \$18,080,718;

Particulars

Gaming activity on Customer 6's junket programs

In 2017, junkets operated by Customer 6 had a turnover of \$82,130,230 with losses of \$1,111,978.

In 2018, junkets operated by Customer 6 had a turnover of \$1,454,448,294 with losses of \$42,513,465.

In 2019, junkets operated by Customer 6 had a turnover of \$7,211,674,210 with losses of \$17,838,225.

Between January and March 2020, prior to the COVID-19 pandemic related closures, junkets operated by Customer 6 had a turnover of \$2,947,830,600 with wins of \$43,382,950.

Between 2017 and 2020, Customer 6 was a top four junket operator by turnover at Star Gold Coast:

- a. in 2017, Customer 6 was the fourth largest junket operator by turnover at Star Gold Coast;
- b. in 2018, Customer 6 was second largest junket operator by turnover at Star Gold Coast; and
- c. in 2019 and 2020, Customer 6 was the largest junket operator by turnover at Star Gold Coast.

Between 2017 and 2020, Customer 6 was the junket operator for several top ten junket players by turnover at Star Gold Coast:

- a. in 2017, Customer 6 was the junket operator for two of the top seven junket players by turnover at Star Gold Coast, including Person 28;
 - b. in 2018, Customer 6 was the junket operator for three of the top eight junket players by turnover at Star Gold Coast, including Customer 21;
 - c. in 2019, Customer 6 was the junket operator for five of the top ten junket players by turnover at Star Gold Coast, including Customer 5, Customer 21, Person 58 and Person 59; and
 - d. in 2020, Customer 6 was the junket operator three of the top ten junket players by turnover at Star Gold Coast, including Customer 5 and Person 59.
- iii. between 2017 and 2020, Star Qld recorded a cumulative turnover of \$422,980,243 for Customer 6 as a junket player on his own junkets despite not being a junket player at any time;

Particulars

See paragraph 670 above.

- iv. between 2017 and 2020, total benefits of \$88,476,513 were payable to Customer 6 by Star Qld in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 6 was entitled to benefits from Star Qld in his capacity as a junket operator:

- a. in 2017, total benefits of \$75,217 were payable to Customer 6;
- b. in 2018, total benefits of \$17,650,240 were payable to Customer 6;
- c. in 2019, total benefits of \$40,481,385 were payable to Customer 6; and
- d. in 2020, total benefits of \$30,269,671 were payable to Customer 6.

- v. between 2017 and 2020, Star Qld provided Customer 6's junket with significant amounts of credit upon request, up to facility limits of \$166,670,000, through a CCF held by Customer 5;

Particulars

See paragraph 962.b.v above.

See *Customer 5's risk profile*.

- vi. Customer 6 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;

Particulars

Customer 6 operated junkets in non-exclusive private gaming rooms, including Pit 11 and Pit 12.

Customer 6 operated junkets in exclusive private gaming rooms, including Salon 21, 22, 66, 69, 88, 89, 90, 98, and 99.

- vii. Customer 6 had nine junket representatives at Star Qld including Customer 29 and Person 14; and
- viii. Customer 6 and his junket representatives facilitated the provision of high value designated services to approximately 60 junket players at Star Qld including foreign PEPs and players in respect of whom Star Qld had formed suspicions such as Customer 5, Customer 42, Customer 21 and Customer 29;

Particulars

See paragraphs 643 to 649 above.

Between February 2018 and February 2020, on at least six occasions Star Qld reported large and suspicious losses for junket players on the Customer 6 junket.

2018

In February 2018, Star Qld identified that a junket player had lost \$3,047,600 in February whilst participating in the Customer 6 junket. No play had been recorded for the junket player during the previous two months. The junket player's source of income was recorded as being related to clothing: SMR dated 28 March 2018.

On 22 August 2018, Customer 6's junket representative cashed out \$100,000 in chips at Star Qld. The junket program only had one recorded junket player, Customer 5, and had front money of \$5,000,000. By 22 August 2018, Customer 5's recorded loss was \$4,800,000. Star Qld did not know whether the \$100,000 in cash was paid to Customer 5 or kept by the junket representative. Star Qld noted that the withdrawal was a large cash transaction, and considered it to be unusual due to Customer 5's losses: SMR dated 22 August 2018.

In October 2018, Star Qld identified that a junket player had lost \$9,401,750 that month. The junket player had participated on a Customer 6 junket between 1 October 2018 and 8 October 2018, during which he lost \$5,140,750. The junket player then played under another junket operator, Customer 18, from 9 to 10 October 2018, and lost \$4,261,000. Star Qld noted that it did not know how the junket player was going to repay Customer 6, and considered it to be a very large overall loss for one person: SMR dated 6 November 2018.

2019

In September 2019, Star Qld identified that a junket player, Person 59, had lost \$689,600 in June 2019 and \$646,900 in August 2019 while playing on Customer 6's junket. Star Qld recorded no play for Person 59 during July 2019, and no play on machines for the June to August period. Star Qld noted that it had no record of any recent significant win by Person 59 to account for the losses, and that Person 59's source of funds was not recorded on Star Qld's system. Star Qld did not know how the losses were going to be repaid: SMR dated 27 September 2019.

2020

In February 2020, Star Qld identified that Customer 21, a junket player on the Customer 6 junket had lost \$27,930,000 in February and \$3,785,000 in January. The junket player indicated to Star Qld that their occupation was in accounting. Star Qld noted that it did not know the player's arrangement with Customer 6 to repay the loss: SMR dated 13 March 2020.

During February 2020, Star Qld also identified that another junket player on the Customer 6 junket had lost \$4,885,000. The junket player had not provided information regarding his occupation or source of funds to Star Qld, and Star Qld noted that it did not know the player's arrangement with Customer 6 to repay the loss: SMR dated 13 March 2020.

- ix. Star Qld had formed suspicions about Customer 6's principal junket funder, Customer 5;

Particulars

See Customer 5's risk profile.

- d. designated services provided to Customer 6 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. on 19 July 2019, Customer 6 referred a player to Star Qld;

Particulars

See paragraph 625 above.

On 19 July 2019, Customer 6 referred a player to Star Qld. Customer 6 arranged for the referred player to attend Star Qld on a rebate program without Customer 6 or his junket representative being present.

Customer 6 received a commission on amounts wagered by the referred customer, who Star Qld dealt with directly.

- f. Customer 6 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2020, Star Sydney recorded individual rated turnover totalling \$78,307 for Customer 6;

Particulars

In 2017, Customer 6's individual rated turnover was \$70,339.

In 2018, Customer 6's individual rated turnover was \$7,218.

In 2020, Customer 6's individual rated gaming turnover was \$750.

- g. Customer 6 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2020, Star Gold Coast recorded individual rated turnover totalling \$46,104 for Customer 6;

Particulars

In 2017, Customer 6's individual rated turnover was \$10,756.

In 2018, Customer 6's individual rated turnover was \$755.

In 2019, Customer 6's individual rated turnover was \$33,898.

In 2020, Customer 6's individual rated turnover was \$675.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 6 by remitting large amounts of money within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 5 January 2018 and 25 January 2018, Star Sydney received two telegraphic transfers totalling \$4,343,263, both of which were made available to Customer 6's account.

On 14 October 2017 and 22 August 2018, Star Sydney received two telegraphic transfers totalling HKD58,468,276 from overseas bank accounts, both of which were made available to Customer 6's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 14 October 2017 and 22 August 2018, Star Sydney sent two telegraphic transfers totalling HKD47,828,323 from Customer 6's account to overseas bank accounts.

On 14 October 2017, Star Sydney sent a telegraphic transfer of \$212,000 from Customer 6's FMA to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 11 October 2017, Customer 6 transferred \$5,000,000 into the account of a Star Sydney customer.

Between 3 January 2018 and 6 August 2019, Star Sydney sent five transfers totalling \$22,701,845 from Customer 6's account to Star Qld. At least \$16,877,288 of the funds were transferred for the purpose of redeeming outstanding CCFs.

On 5 August 2019, Star Sydney received a transfer of \$10,430,107 from Star Qld, which it made available to Customer 6's FMA.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 6 by remitting large amounts of money into, out of and within the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraphs 281 and 327 above.

For example, on 14 August 2019, Star Qld, at its Star Gold Coast property, sent \$11,015,761 via telegraphic transfer from Customer 6's FMA to Customer 21's overseas bank account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 27 December 2017 and 28 December 2017, Star Qld facilitated two telegraphic transfers totalling \$462,600 from Customer 6's FMA to the FMA of a junket player, Person 28. Person 28 withdrew the funds in cash: SMR dated 29 December 2017.

Between 2 January 2018 and 6 August 2019, Star Qld received three transfers totalling \$2,331,056 from Star Sydney, each of which was made available to Customer 6's FMA at Star Gold Coast.

On 5 August 2019, Star Qld facilitated a telegraphic transfer of \$10,430,107 from Star Gold Coast, which was made available to Customer 6's FMA at Star Sydney. The funds were subsequently transferred to Customer 19's FMA at Star Sydney.

On 18 December 2019, Star Qld facilitated a telegraphic transfer of \$379,596 from Customer 6's FMA at Star Gold Coast, which it made available to another customer's FMA at Star Gold Coast, Person 59.

On 10 January 2020, Star Qld facilitated a telegraphic transfer of \$800,000 from Person 59's FMA at Star Gold Coast, which was made available to Customer 6's FMA at Star Sydney.

- j. Customer 6, and persons associated with their junket including Person 14, transacted using large amounts of cash at Star Sydney;

Particulars

TTRs

Between 31 January 2017 and 9 March 2020, Star Sydney gave the AUSTRAC CEO 122 TTRs in respect of Customer 6 totalling \$10,375,893, including:

- a. 52 TTRs detailing chip and cash exchanges totalling \$3,399,665;
- b. six TTRs detailing account deposits totalling \$485,000;
- c. 50 TTRs detailing account withdrawals totalling \$5,327,284;
- d. two TTRs detailing other monetary value out totalling \$122,084; and
- e. 12 TTRs detailing sale of foreign currency totalling \$1,042,860.

Large transactions in 2017

Between 8 November 2017 and 9 November 2017, Customer 6's junket representative, Person 14, withdrew \$840,000 in cash through chip cash outs and account withdrawals from Customer 6's account at Star Sydney. Star Sydney considered these large cash withdrawals over a short period of time to be suspicious: SMR dated 9 November 2017.

Large transactions in 2018

On 9 February 2018, Customer 6's junket representative, Person 14, withdrew \$326,333 in cash from Customer 6's account at Star Sydney. After the withdrawal, the junket representative was observed delivering the cash to a junket player on the Customer 6 junket program: SMR dated 12 February 2018.

Between 16 August 2018 and 19 August 2018, Customer 6's junket representative, Person 14, withdrew a total of \$700,000 in cash from Customer 5's account for the Customer 6 junket at Star Sydney. Star

Sydney noted that Customer 5 was the funder of the Customer 6 junket and Person 14 had authority to transact on both Customer 6 and Customer 5's accounts. The majority of the funds in Customer 5's account had been originally transferred to Star via a remitter, Company 1, in favour of Customer 5: SMR dated 20 August 2018.

Later on 19 August 2018, Person 14 made an additional cash withdrawal of \$200,000 from Customer 5's account: SMR dated 20 August 2018.

Large transactions in 2019

On 9 July 2019, Customer 6's junket representative, Person 14, conducted two FMA withdrawals on Customer 6's behalf at Star Sydney. Person 14 initially withdrew \$100,000 from Customer 6's FMA, and then returned approximately six hours later to withdraw a further \$133,500, which was given to a junket player.

On 29 September 2019, Customer 6's junket representative, Person 14, presented \$100,000 worth of chips to exchange into cash on behalf of Customer 6 at Star Sydney. Customer 6 had an active junket program open since 28 September, with one player who recorded a turnover of \$6,000,000 and a win of \$2,004,700 supporting the transaction.

On 2 October 2019, Customer 6's junket representative, Person 14, exchanged \$300,000 in chips for cash from Customer 6's account at Star Sydney. As at 3 October 2019, the Customer 6 junket was winning \$2,454,600. Star Sydney considered the large amount of cash involved to be suspicious: SMR dated 3 October 2019.

Large transactions in 2020

On 7 February 2020, Customer 6's junket representative, Person 14, withdrew \$200,000 in cash from Customer 6's account at Star Sydney. Person 14 deposited the funds into Customer 5's account. Person 14 then withdrew \$150,000 in chips for him to use on the poker tables. An hour later, Person 14 withdrew another \$300,000 in cash on behalf of the Customer 6 junket and deposited the money into Customer 5's account. Person 14 then withdrew \$300,000 in chips for him to use on the poker tables. Whilst a transaction of this nature was not unusual for a junket, Star Sydney considered the moving of a large amount of cash to be suspicious: SMR dated 10 February 2020.

On 13 February 2020, Customer 6's junket representative, Person 14, presented \$110,000 in premium chips to be exchanged for cash at Star Sydney. Person 14 placed the cash into a black Sovereign Room bag and handed it to Customer 6. Star Sydney noted that Customer 6 had a recorded turnover of \$41,700,000 with wins of \$1,650,000. Star Sydney did not consider the cash out to be suspicious at that stage, but noted that it would monitor future cash outs.

On 7 March 2020, Customer 6's junket representative, Person 14, cashed out \$100,000 in program chips, despite the program recording a loss of \$1,899,600.

- k. Customer 6 transacted using large amounts of cash at Star Qld;

Particulars

TTRs

Between 11 October 2017 and 3 February 2020, Star Qld gave the AUSTRAC CEO 44 TTRs totalling \$1,968,030, including:

- a. 22 TTRs detailing chip and cash exchanges made by Customer 6 totalling \$1,005,300;
 - b. two TTRs detailing account deposits made by Customer 6 totalling \$172,000; and
 - c. 20 TTRs detailing account withdrawals made by Customer 6 totalling \$740,730.
- l. Customer 6, and persons associated with Customer 6, engaged in large and unusual transactions, which had no apparent economic or visible lawful purpose at Star Sydney;

Particulars

For example, on 11 October 2017, Customer 6 transferred \$5,000,000 into the account of a Star Sydney customer. The customer was not a junket player in the Customer 6 junket. On 3 July 2018, the customer withdrew \$5,000,000 from their account as a casino cheque. On 31 July 2018, the customer withdrew a further \$201,674 in cash from their account. Star Sydney had recorded no gaming activity for the customer since 24 March 2016: SMR dated 1 August 2018.

- m. Customer 6, and persons associated with Customer 6, engaged in large and unusual transactions, which had no apparent economic or visible lawful purpose at Star Qld;

Particulars

In December 2017, Customer 6 operated a junket program at Star Qld with \$10,000,000 in front money. The funds were supplied by another junket operator, Customer 5. On 27 December 2017, a junket player, Person 28, on the Customer 6 junket opened an FMA. On the same day, the player received \$100,000 from Customer 6 into his account, which he then withdrew in cash. On 28 December 2017, the junket player received another \$362,600 into his account from Customer 6, which he also withdrew in cash. Star Qld considered this to be a large amount of cash to need. Star Qld conducted checks in respect of the junket player, which indicated that the player had served jail time overseas for corruption: SMR dated 29 December 2017.

On 10 January 2020, a Star Qld customer, Person 59, requested that \$800,000 be transferred from his Star Gold Coast FMA to Customer 6's FMA at Star Sydney. A review of Person 59's transactions at Star Gold Coast showed that he played at the casino from 16 December 2019 to 17 December 2019, funded by Customer 6, and won \$420,000. The front money for the commission program was \$1,000,000, but only \$500,000 of the funds were used. At the end of play, funds for commission and chips were deposited into Customer 6's account at Star Gold Coast. On 18 December 2019, Customer 6 transferred part of those funds, \$379,596, from his Star Gold Coast account into Person 59's account. On the same day, Person 59 deposited a bank cheque for \$500,000 into his Star Gold Coast account. The funds remained untouched until the transfer of funds to Customer 6 on 10 January 2020. Star Qld considered it unusual that Person 59 would deposit a bank cheque after play had finished and he had won: SMR dated 17 January 2020.

- n. Customer 6 received funds to facilitate his junket programs at Star Sydney and Star Qld that originated as a drawdown on an EEIS loan held by Customer 5;

Particulars

Between 22 December 2019 and 7 March 2020, Customer 5 drew down from his EEIS loan at Star Sydney on 23 occasions totalling \$122,333,333. On each occasion, the drawdown was in a foreign currency which was exchanged to Australian dollars. On 5 June 2020, an outstanding debt of \$11,299,665 became payable by Customer 5 in respect of two EEIS drawdowns. However, on 30 June 2021, Star Sydney approved the write-off of that balance.

Between 9 January 2020 and 26 February 2020, Customer 5 drew down from his EEIS loan at Star Qld on eight occasions totalling \$73,000,000. On each occasion, the drawdown was in a foreign currency which was exchanged to Australian dollars.

EEIS understood that Customer 5 and Customer 6 had a business relationship over many years. On each occasion, the drawdowns were used to fund Customer 6's junket:

- a. between 22 December 2019 and 7 March 2020, Customer 5 used drawdowns from his EEIS loan, which Star Qld made available to his accounts to fund 16 junkets at Star Sydney operated by Customer 6; and
- b. between 25 June 2019 and 26 February 2020, Customer 5 used drawdowns from his EEIS loan, which Star Qld made available to his accounts to fund eight junkets at Star Gold Coast operated by Customer 6.

See Customer 5's risk profile.

- o. Star Sydney provided non-winnings cheques to Customer 6's associates, involving funds originating from Customer 6, on at least one occasion;

Particulars

On 11 October 2017, Customer 6 transferred \$5,000,000 into the account of a Star Sydney customer. The customer withdrew the funds as a non-winning cheque from Star Sydney on 31 July 2018.

- p. Customer 6 and persons associated with his junket engaged in other transactions at Star Sydney indicative of ML/TF typologies and vulnerabilities, including cashing-in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

For example, between 6 and 7 November 2019, Customer 6's junket representative, Person 14, conducted multiple large cash transactions on behalf of Customer 6 over a period of five hours at Star Sydney, including:

- a. a \$300,000 withdrawal in cash;
- b. an exchange of \$300,000 in chips for cash; and
- c. a \$300,000 deposit of the same cash back into the account.

Star Sydney considered that these were large cash movements for no apparent reason and were quite suspicious: SMR dated 8 November 2017.

- q. persons associated with Customer 6's junket engaged in transactions at Star Qld indicative of ML/TF typologies and vulnerabilities, including avoiding reporting obligations;

Particulars

See paragraph 25 above.

On 2 November 2018, a Star Qld customer, Person 55, was playing under Customer 6's junket. The junket had front money of \$5,000,000 and three recorded players. Cashier services staff were called to the junket's private gaming room, where Person 55 and the junket representative were both present. Star Qld staff observed Person 55 giving the junket representative a \$100,000 chip. The chip was deposited into Customer 6's account and subsequently withdrawn as cash. The cash was then handed to Person 55, who then gave the cash to another junket player, Person 59, on Customer 6's junket. Star Qld did not know the relationship between any of the customers, or why the transaction occurred. However, Star Qld considered that the junket representative and Person 55 may have been structuring transactions to avoid reporting. Star Qld also noted that Person 55 was a foreign PEP, being a member of a foreign political body: SMR dated 6 November 2018.

- r. in 2019, Customer 6 was the subject of law enforcement enquiries on one occasion at Star;

Particulars

On 10 July 2019, Star Sydney provided information to a law enforcement agency in respect of Customer 6.

On 27 July 2019, Star Qld provided information to a law enforcement agency in respect of Customer 6.

Interactions and information shared between Star Sydney and Star Qld, and law enforcement agencies, were stored on Star's investigations database. Star Sydney and Star Qld had access to the investigations database: see paragraph 49 above.

- s. Customer 6 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 6 had access to private gaming rooms at Star Sydney, including the Springs Salons, Lakes Salons, Rivers Salons, Harbours Salons, Sovereign and Oasis.

- t. Customer 6 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 6 had access to private gaming rooms at Star Gold Coast, including the Club Conrad, Pit 8, Salon 21, Salon 22, Salon 66, Salon 69, Salon 88, Salon 89, Salon 90, Salon 96, Salon 98, Salon 99, Sovereign Room – Table Games and the Sovereign room.

- u. by at least February 2020, Star Sydney and Star Qld received information that Customer 5 and Customer 21, both funders of the Customer 6 junket, used junkets operated by Customer 6 to engage in money laundering at casinos; and

Particulars

On 7 February 2020, the Group Investigations Manager was informed by a law enforcement agency that the three individuals, including Customer 5 and Customer 21, were of interest due to their international associations.

In February 2020, Star updated Customer 6's profile and noted that there was uncorroborated information suggesting that Customer 6's principal financiers, including Customer 5 and Customer 21, potentially utilised Customer 6's association with a well-known international junket group, Company 2, to launder money through casinos.

- v. Star Sydney and Star Qld did not have adequate reason to believe that Customer 6's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 6 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By at least 1 August 2018, Star Sydney understood Customer 6's occupation to be a trader.

On 30 December 2019 and 10 February 2020, Star Sydney listed Customer 6's occupation in an SMR as a junket operator.

By at least 7 February 2022, SEG recorded Customer 6's occupation to be a 'trades worker and technician'.

Star Sydney and Star Qld did not take appropriate steps to verify Customer 6's source of wealth or source of funds in circumstances where:

- a. Customer 6 operated over 150 junket programs, most of which were funded by a third party, Customer 5, and had recorded turnover of over \$22 billion between 2017 and 2020;
- b. Customer 6 and his associates, including Person 14, engaged in numerous large and suspicious cash transactions at Star Sydney;
- c. according to a risk intelligence search and additional sources, in December 2012, Customer 5 was reportedly detained in a foreign country for alleged involvement in money laundering; and
- d. Star was aware of information suggesting that Customer 6's principal financiers, including Customer 5, Customer 21 and Person 58, potentially utilised Customer 6's association with that group, Company 2, to launder money through casinos.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 6

963. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 6 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 6.
- a. On and from 30 November 2016, Customer 6 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 6's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 6 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 6 April 2014, Customer 6 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 12 January 2016, Customer 6 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 6 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 6's transactions

964. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 6's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 6, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 6's junket as turnover was recorded against Customer 6 as the junket operator rather than the junket players;

Particulars

See paragraph 670.

- d. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 6 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 6 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 6's KYC information

- 965. Star Sydney and Star Qld did not review, update and verify Customer 6's KYC information having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney or Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney or Star Qld did not appropriately review the nature of Customer 6's business with Star Sydney or Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney or Star Qld did not appropriately review, update and verify Customer 6's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 6's source of wealth and source of funds were not legitimate: see *Customer 6's risk profile*.

- d. to the extent that Star Sydney or Star Qld reviewed Customer 6's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney or Star Qld to Customer 6.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act and rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 10 July 2019 and 30 September 2019, Star Sydney conducted ongoing customer due diligence in respect of Customer 6, but did not have appropriate regard to his higher ML/TF risks: see *Customer 6's risk profile*.

Failure to apply appropriate due diligence suited to Customer 6's high ML/TF risks

966. Had Star Sydney or Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 6 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 6; and
- c. reviewing and updating Customer 6's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney or Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 6 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 6*.

ECDD triggers in respect of Customer 6

967. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 6 following any ECDD triggers in respect of Customer 6.

Particulars

Section 36(1)(a) and (b) of the Act.

968. Customer 6:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 8 November 2017 and 10 February 2020, Star Sydney gave the AUSTRAC CEO nine SMRs with respect to Customer 6.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 29 December 2017 and 13 March 2020, Star Qld gave the AUSTRAC CEO ten SMRs with respect to Customer 6.

969. Each matter pleaded in paragraph 968 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

970. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 6 following an ECDD trigger because:
- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 6 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 6 and the provision of designated services to Customer 6 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

In November 2017, 2 and 15 October 2019, 25 December 2019, 30 December 2019, 10 February 2020 and 23 March 2021, Star Sydney conducted ECDD in respect of Customer 6.

On 15 October 2019, the ECDD screening in respect of Customer 6 identified that:

- a. since 2012, there had been 32 suspicious matters raised in relation to Customer 6. Out of that total, 13 SMRs were submitted with respect to Customer 6 and associated parties;
- b. the amounts of these reported transactions ranged from \$100,000 to \$840,000, and the most common type of transactions were chip cash-outs, chip purchases and account withdrawals; and
- c. common individuals involved in these suspicious matters and SMRs with Customer 6 were one of Customer 6's junket representatives, Person 14, and Customer 5, the funder of Customer 6's junkets. According to risk intelligence and additional sources, in December 2012, Customer 5 was reportedly detained in a foreign country for alleged involvement in money laundering. These individuals were associated with a group that was a partner of a casino junket operator in a foreign country, Company 2.

In December 2019, the ECDD screening in respect of Customer 6 identified that external information suggested Customer 6 and another person, believed to be the son of Customer 5, were fellow shareholders in two companies based overseas.

In February 2020, the ECDD screening in respect of Customer 6 identified that:

- a. Customer 6 was previously known by another name;
- b. external information suggested that Customer 6 was a relatively insignificant figure in an overseas casino and

gambling circle, and that he operated a 'sub-junket' for a group, Company 2; and

- c. there was uncorroborated information suggesting that Customer 6's principal financiers, including Customer 5 and Customer 21 and Person 58, potentially utilised Customer 6's association with that group, Company 2, to launder money through casinos.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 6's higher ML/TF risks: see *Customer 6's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 6's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 6's source of wealth and source of funds were not legitimate: see *Customer 6's risk profile*.

- b. Customer 6 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 817 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 6

971. By reason of the matters pleaded from paragraphs 957 to 970, on and from 30 November 2016, Star Sydney and Star Qld:
 - a. did not monitor Customer 6 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

972. By reason of the matters pleaded at paragraph 971, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 6.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 7

973. Customer 7 was a customer of Star Sydney during the relevant period. In 2018, Star Sydney recorded turnover exceeding \$570,000 for Customer 7.

Particulars

Customer 7 was a customer of Star Sydney from at least 12 October 2006.

974. Star Sydney provided Customer 7 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket funder. Between 2016 and 2020, Star Sydney recorded that junkets operated by Customer 7 had a turnover exceeding \$1.6 billion.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 7 which remain open (item 11, table 3, s6 of the Act).

Between 6 December 2010 and 8 June 2018, Star Sydney approved CCFs for Customer 7 on four occasions ranging from \$1,250,000 to \$25,000,000 with an additional trip only limit of \$12,500,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 7 (items 31 and 32, table 1, s6 of the Act).

See Customer 7's risk profile below.

975. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 7.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 7's risk profile

976. On and from 30 November 2016, Customer 7, and the provision of designated services to Customer 7 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 7's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 7 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 7;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 44 occasions between 28 May 2013 and 29 November 2016.

The SMRs reported that between May 2013 and July 2016, Customer 7 and persons associated with him or his junket were involved in large and suspicious cash, CVI and telegraphic transactions totalling at least \$8,002,744.

- ii. between 2015 and 2016, Customer 7 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

In 2015, Customer 7 was one of the top ten junket operators by number of junkets operated at Star Sydney.

In 2015 and 2016, Customer 7 operated 18 junkets at Star Sydney.

Two of the junkets were funded by a person other than Customer 7.

Customer 7's junkets had two junket representatives, including Customer 56.

In 2015 and 2016, junkets operated by Customer 7 had turnover of \$316,625,055 with losses of \$8,719,608.

In 2015 and 2016, Star Sydney recorded a cumulative turnover of \$32,817,903 for Customer 7 as a junket player on his own junkets, despite not being a junket player on those particular junkets: see paragraph 670 above.

In 2015, total benefits of \$2,196,563 were payable to Customer 7 Star Sydney in his capacity as a junket operator which included rebates earned, revenue sharing agreements and other complimentary services.

- iii. Customer 7 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;

Particulars

In 2015, Customer 7 was one of the top ten junket funders by number of junkets funded at Star Sydney.

Between 16 August 2015 and 23 August 2015, Customer 7, together with Customer 13, provided \$500,000 in funding to a junket operated by Customer 14 at Star Sydney.

Between 1 April 2016 and 1 November 2016, Customer 7 provided \$7,000,000 in funding for seven junkets operated by Customer 8 at Star Sydney.

- iv. Customer 7 was recorded to be a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

In 2016, Customer 7 was recorded to be a junket player on three of his own junkets.

In 2016, Customer 7's turnover on junket programs was recorded to be \$36,309,195, with wins of \$3,354,485.

- v. between 6 December 2010 and 27 January 2014, Star Sydney provided Customer 7 with significant amounts of credit upon request, up to limits of \$12,500,000 with additional trip only limits of \$5,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 6 December 2010, Star Sydney approved a single trip CCF limit of \$1,250,000 for Customer 7.

On 27 January 2014, senior management, including Chief Financial Officer, approved a permanent active CCF limit of \$12,500,000 for Customer 7 with an additional trip only limit of \$5,000,000 which was not deactivated.

- vi. Customer 7, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands at Star Sydney;

Particulars

Between 1 April 2010 and 11 October 2016, Star Sydney gave the AUSTRAC CEO 123 TTRs detailing incoming payments to Customer 7 totalling \$7,501,237 which comprised:

- a. \$6,395,637 in account deposits;
- b. \$420,000 in cash exchanges;
- c. \$390,600 in chip exchanges; and
- d. \$295,000 in other monetary values in.

Between 6 December 2010 and 29 November 2016, Star Sydney gave the AUSTRAC CEO 375 TTRs detailing outgoing payments from Customer 7 totalling \$21,743,172 which comprised:

- a. \$17,534,332 in account withdrawals;
- b. \$4,031,930 in chip cash outs; and
- c. \$176,910 in foreign currency exchanges.

On several occasions, the cash deposited comprised largely \$50 notes and was bundled in \$5,000 or \$10,000 units with rubber bands. On several occasions, cash withdrawals were given to other persons, some of whom were unknown to Star Sydney.

On 26 October 2016, one of Customer 7's junket representatives, Customer 49, withdrew:

- a. \$100,000 in cash from Customer 7's junket account at Star Sydney. Customer 49 was observed to place the cash in a bag and hand it to another Star Sydney customer who was not a player on Customer 7's junket and was a local customer: SMR dated 27 October 2016; and
 - b. \$150,000 in cash from Customer 7's junket account together with \$150,000 in cash from the junket account of another junket operator, Customer 8: SMR dated 29 November 2016.
- vii. Customer 7 and persons associated with his junket engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including the quick turnover of money (without betting) and refining; and

Particulars

See paragraph 25 above.

On 13 July 2016, Customer 7's junket representative Customer 94, withdrew \$500,000 in cash from Customer 7's account. Over the course of the next seven hours, Customer 94 incrementally deposited the same cash back into Customer 7's junket account: SMR dated 14 July 2016. This transaction was indicative of the ML/TF typology of quick turnover of money without betting.

On 19 February 2016, Customer 7's junket representative, Customer 49, withdrew \$420,000 comprised of \$50 notes from Customer 7's safe deposit box and requested that the funds be exchanged for \$100 notes: SMR dated 19 February 2016. This transaction was indicative of the ML/TF typology of refining.

- viii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 7 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 30 July 2015 and 30 November 2016, Star Sydney received 26 telegraphic transfers totalling \$13,977,684, each of which was made available to Customer 7's account.

On 2 May 2016, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$150,000 where Customer 7 was named as the beneficiary and the ordering customer.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

Between 10 February 2013 and 23 May 2013, Star Sydney gave the AUSTRAC CEO three outgoing IFTIs totalling \$702,229 where Customer 7 was the ordering customer, and the beneficiaries were third parties overseas.

Between 15 October 2015 and 9 November 2016, Star Sydney sent six telegraphic transfers totalling \$3,800,000 from Customer 7's account to another Australian casino.

Between 6 February 2016 and 8 November 2016, Star Sydney sent eight telegraphic transfers totalling \$5,311,448 from Customer 7's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Customer 7's risk profile from 30 November 2016

- b. Customer 7 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 30 November 2016 and 2020, Customer 7 operated at least 39 junkets at Star Sydney, 17 of which were funded by Customer 8 or Customer 95;

Particulars

In 2016, Customer 7 was one of the top ten junket operators by number of junkets operated at Star Sydney.

In 2019 and 2020, Customer 7 was one of the top ten junket operators by turnover at Star Sydney.

Funding for Customer 7's junkets comprised:

- a. \$89,063,610 funded by Customer 7;
 - b. \$50,578,800 funded by Customer 8; and
 - c. \$204,500 funded by Customer 95.
- ii. between 30 November 2016 and 2020, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 7 was \$1,637,941,655 with losses of \$36,447,930;

Particulars

Between 1 December 2016 and 31 December 2016, junkets operated by Customer 7 had turnover of \$14,283,230 with wins of \$228,500.

In 2017, junkets operated by Customer 7 had turnover of \$440,753,118 with losses of \$9,091,050.

In 2018, junkets operated by Customer 7 had turnover of \$350,295,100 with losses of \$14,460,555.

In 2019, junkets operated by Customer 7 had turnover of \$559,505,037 with losses of \$8,963,585.

Between January 2020 and March 2020, junkets operated by Customer 7 had turnover of \$273,105,170 with losses of \$4,161,240.

- iii. between 30 November 2016 and 2020, Star Sydney recorded a cumulative turnover of \$96,026,423 for Customer 7 as a junket player on his own junkets, despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2020, total benefits of \$23,030,718 were payable to Customer 7 by Star Sydney in his capacity as a junket operator for rebates earned, revenue sharing agreements and other complimentary services;

Particulars

Customer 7 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2016, total benefits of \$2,196,563 were payable to Customer 7;
 - b. in 2017, total benefits of \$4,273,694 were payable to Customer 7;
 - c. in 2018, total benefits of \$4,927,131 were payable to Customer 7;
 - d. in 2019, total benefits of \$8,897,135 were payable to Customer 7; and
 - e. In 2020, total benefits of \$4,932,757 were payable to Customer 7.
- v. between 7 February 2018 and 8 June 2018, Star Sydney provided Customer 7 and his junket programs with significant amounts of credit upon request, up to limits of \$25,000,000 with an additional trip only limit of \$12,500,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 7 February 2018, Star Sydney approved a permanent active CCF limit of \$25,000,000 for Customer 7 which was not deactivated.

On 8 June 2018, Star Sydney approved a permanent active CCF limit of \$25,000,000 for Customer 7 with an additional trip only limit of \$12,500,000 which was deactivated on 2 July 2020.

- vi. Customer 7 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 7 operated junkets in non-exclusive private gaming rooms, including the Sovereign Room, Pit 80 and Oasis.

Customer 7 operated junkets in exclusive private gaming rooms, including Salon 73, Salon 75, Salon 77, Salon 78, Salon 82, Salon 83, Salon 86, Salon 88, Salon 89, Salon 90, Salon 91 and Salon 92.

- vii. Customer 7 had six junket representatives at Star Sydney including Customer 49, Customer 8 and Customer 94; and
- viii. Customer 7 and his junket representatives facilitated the provision of high value designated services to 106 junket players at Star Sydney including players in respect of whom Star Sydney had formed suspicions and who Star Sydney considered had acted suspiciously, such as Customer 28 and Customer 46;

Particulars

See paragraphs 643 to 649 above.

See Customer 28's risk profile and Customer 46's risk profile.

- c. Customer 7 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. between 2016 and 2018, Customer 7 funded 25 of Customer 8's junkets and one of Customer 3's junkets at Star Sydney;

Particulars

In 2016, 2017 and 2018, Customer 7 was one of the top ten junket funders by number of junkets funded at Star Sydney.

In 2018, Customer 7 was one of the top ten junket funders by amount of funding provided at Star Sydney.

Customer 7 provided \$70,630,000 in funding to Customer 8's junkets.

Customer 7 provided \$500,000 in funding to Customer 3's junket.

Customer 7 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. between 7 February 2018 and 8 June 2018, Star Sydney provided Customer 7 and his junket programs with significant amounts of credit upon request, up to limits of \$25,000,000 with an additional trip only limit of \$12,500,000;

Particulars

See paragraphs 516 to 518 and 552 above.

See paragraph 976.b.v above.

- iii. the junkets funded by Customer 7 at Star Sydney had nine junket representatives including Customer 49 and Customer 94; and

- iv. the junkets funded by Customer 7 facilitated the provision of high value designated services to junket operators, junket representatives and at least 115 junket players including foreign PEPs and players in respect of whom Star Sydney had formed suspicions Customer 8, Customer 3, Customer 61, Customer 28 and Customer 49;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

See Customer 3's risk profile, Customer 8's risk profile, Customer 28's risk profile, Customer 49's risk profile and Customer 61's risk profile.

- d. Customer 7 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2018, Customer 7 was a player on two junkets at Star Sydney operated by Customer 8; and
 - ii. in 2018, Star Sydney recorded cumulative turnover of \$579,241 with wins of \$129,330 for Customer 7's gaming activity on junket programs;
- e. designated services provided to Customer 7 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- f. Customer 7 received financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs;

Particulars

See paragraph 752 above.

In 2018, Star Sydney recorded individual rated turnover totalling \$5,042 for Customer 7.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 7 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 12 June 2018 and 29 June 2018, Customer 8 acting on behalf of Customer 7 deposited a total of \$6,500,000 into the EEIS Patron accounts, which Star Sydney made available to Customer 7 through the EEIS remittance channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 11 August 2017 and 7 December 2018, Star Sydney received 16 telegraphic transfers totalling \$12,379,618, each of which was made available to Customer 7's SKA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 23 December 2016 and 6 March 2018, Star Sydney sent six telegraphic transfers totalling \$7,100,000 from Customer 7's account to Australian bank accounts.

Between 17 December 2016 and 7 March 2018, Star Sydney sent three telegraphic transfers totalling \$1,500,000 from Customer 7's SKA to another Australian casino.

On 16 October 2018, Star Sydney sent a telegraphic transfer of \$300,000 from Customer 7's SKA to an overseas casino.

On 9 April 2019 and 25 June 2019, Star Sydney sent two telegraphic transfers totalling \$382,410 from Customer 7's FMA to overseas bank accounts.

Between 23 February 2017 and 29 August 2017, Star Sydney gave the AUSTRAC CEO seven outgoing IFTIs totalling \$3,292,262 where Customer 7 was named as the beneficiary and the ordering customer.

On 23 June 2021, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$1,909,497 where Customer 7 was named as the beneficiary and the ordering customer.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 22 August 2017 and 1 September 2018, Star Sydney sent two transfers totalling \$65,730 from Customer 7's account to Star Qld. At least \$26,352 of the funds were intended for another customer.

See paragraph 976.h below.

- h. Star Sydney was aware that Customer 7 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 10 October 2018, a Star Sydney customer, accompanied by a junket representative, Person 35, of a junket operator, Person 18, and requested to exchange his chips for plaques. The chips were

deposited into the customer's account and three \$100,000 plaques were issued. The customer then gave the plaques to Person 35, who returned soon afterwards to deposit the plaques into the Customer 7's account. Star Sydney had no record of the customer being a junket player under Customer 7's junket or Person 18: SMR dated 10 October 2018.

On 23 June 2019, Customer 8 transferred \$256,000 from his account to another Star Sydney customer who was a junket player on Customer 8's junket with a recorded turnover of \$753,330 and a loss of \$214,735. The customer then requested that \$206,000 be transferred to a second Star Sydney customer. The second Star Sydney customer requested that the funds be withdrawn as a Star cheque. The second Star Sydney customer returned the cheque the following day and requested that it be deposited into her account. The second Star Sydney customer requested that the funds be transferred to the Customer 7's account as a subsequent buy-in allocated to the first Star Sydney customer. Star Sydney was unaware of any links between any of the customers. Star Sydney considered the movement of funds to be unusual: SMR dated 25 June 2019.

On 14 October 2019, Customer 8 and Customer 7 each transferred \$100,000 from their junket account to a junket player, Person 60. Several days later, Person 60 withdrew the funds as cash. Person 60 had recorded a turnover of \$1,109,930 with a loss of \$158,925 under Customer 8's junket program and a turnover of \$417,800 with a loss of \$55,780 under Customer 7's junket program. Star Sydney considered the transaction suspicious given the loss recorded for Person 60 under the junket programs: SMR dated 16 October 2019.

On 4 March 2020, a Star Sydney customer sent by telegraphic transfer \$1,052,853 to Star Sydney's bank account. The customer withdrew \$1,000,000 in cash chips while accompanied by another of Customer 7's junket representatives, Customer 49. Customer 49 returned a short time later to complete a sub buy-in for Customer 7 with the \$1,000,000 withdrawn by the customer. However, the customer was not a player on Customer 7's junket. The customer was the personal assistant of a player on Customer 7's junket with a rated loss of \$2,591,450.

- i. Customer 7, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

See paragraph 976.h.

Between 16 February 2017 and 20 November 2019, Star Sydney gave the AUSTRAC CEO seven TTRs detailing incoming payments to Customer 7 totalling \$314,000 which comprised:

- a. \$279,000 in account deposits; and
- b. \$35,000 in chip exchanges.

Between 19 December 2016 and 6 March 2020, Star Sydney gave the AUSTRAC CEO 100 TTRs detailing outgoing payments from Customer 7 totalling \$3,921,730 which comprised:

- a. \$1,915,250 in account withdrawals; and
- b. \$2,006,480 in chip cash outs.

Large and suspicious transactions in 2017

On 25 January 2017, Customer 7's junket representative, Customer 49, exchanged \$300,000 in plaques for cash on behalf of Customer 7 at Star Sydney: SMR dated 30 January 2017.

On 1 August 2017, Customer 7 cashed out \$102,680 in chips. Star Sydney considered this to be an unusually large transaction.

Large and suspicious transactions in 2018

On 15 January 2018 Customer 7's junket representative, Customer 49, conducted a chip cash out for \$201,500 and gave the cash to a junket player who had a recorded turnover of \$1,061,250 with a win of \$304,250 on Customer 7's junket.

On 20 March 2018, Customer 8's and Customer 7's junket representative, Person 10, withdrew \$50,000 in cash from each junket operator. Shortly afterwards, a junket player on Customer 7's junket deposited the cash into his Star Sydney account.

Large and suspicious transactions in 2019

On 10 February 2019, Customer 7's junket representative, Customer 49, deposited \$100,000 in non-negotiable chips into Customer 7's account. Customer 49 then withdrew the funds as cash and gave the funds to a junket player on Customer 7's junket with a recorded turnover of \$1,181,200 and a win of \$177,025.

On 30 March 2019, Customer 7's junket representative, Customer 49, withdrew \$120,510 from Customer 7's junket account. Customer 49 gave the cash to a Star Sydney customer who had no known association with Customer 7's junket. The customer was a player under a different junket operator which Customer 49 was also the junket representative for. Star Sydney considered it unusual that Customer 49 would withdraw funds from Customer 7's junket account and give the cash to a customer with no known association with Customer 7's junket: SMR dated 1 April 2019.

On 5 August 2019, Customer 7's junket representative, Customer 49, exchanged \$103,000 in chips to cash on behalf of Customer 7. At the time, Customer 7's junket program had a recorded turnover of

\$16,908,000 and one of its players, Person 60, had a recorded win of \$108,750.

On 15 September 2019, Customer 7's junket representative, Customer 49, deposited \$100,000 in cash. The cash comprised \$50 notes bundled in \$10,000 units with rubber bands and carried in a black backpack. The funds were for a junket player on Customer 7's junket with a recorded turnover of \$470,250 and a loss of \$200,000.

Large and suspicious transactions in 2020

On 22 February 2020, Customer 7's junket representative, Customer 49, withdrew \$200,000 from Customer 7's account to give to another Star Sydney customer.

- j. Customer 7 and persons associated with his junket engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including quick turnover of money (without betting) at Star Sydney;

Particulars

See paragraph 25 above.

On 20 November 2017, Customer 7's junket representative, Customer 49, deposited \$90,000 in chips into Customer 7's account at Star Sydney. Customer 49 then immediately withdrew the funds as cash.

Customer 49 requested that the cash be deposited into Customer 59's account but was advised that she would require an authority from Customer 59. Customer 49 returned later that day with Customer 59 and deposited a further \$310,000 in chips into Customer 7's account. Customer 49 then immediately withdrew the funds as cash and transferred it to Customer 59's account.

Customer 49 then presented the \$90,000 from earlier in the day and deposited it into Customer 59's account. Customer 59 requested that \$300,000 be sent to her personal bank account. Customer 59 was a junket player on the Customer 7 junket with a recorded turnover of \$1,663,900 and a win of \$494,275. However, settlement was not to take place until 29 November 2017: SMR dated 21 November 2017.

These transactions were indicative of the ML/TF typology of quick turnover of money (without betting).

- k. Customer 7 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 7 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Lakes Salons, Oasis, Harbours Salons, Rivers Salons and Springs Salons.

- I. in 2018, Customer 7 was the subject of a law enforcement enquiry at Star Sydney; and

Particulars

In March 2018, Star Sydney received a request from a law enforcement agency for details of Customer 7's profile and gaming activity.

- m. Star Sydney did not have adequate reason to believe that Customer 7's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 7 at Star Sydney.

Particulars

See paragraph 808 above.

By at least March 2018, Star Sydney understood Customer 7 to operate a property development company. By 30 November 2016, Customer 7, and persons associated with his junket, had transacted using large amounts of cash, cash that appeared suspicious and in circumstances indicative of the ML/TF typologies of the quick turnover of money (without betting) and refining. Star Sydney had given the AUSTRAC CEO 44 SMRs in respect of Customer 7, whose junkets had recorded a turnover exceeding \$310 million.

Between 2016 and 2020, junkets operated by Customer 7 recorded a turnover exceeding \$1.6 billion. Customer 7 and persons associated with his junket continued to transact using large amounts of cash including in circumstances indicative of the ML/TF typology of the quick turnover of money (without betting). Moreover, Customer 7 received designated services through high risk channels including the EEIS remittance channel.

At no time did Star Sydney have information regarding Customer 7's source of wealth or source of funds that was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 7 at Star Sydney.

Star Sydney's determination of the ML/TF risks posed by Customer 7

977. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 7 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 7.
- a. On and from 30 November 2016, Customer 7 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 7's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 7 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 6 April 2014, Customer 7 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 5 March 2021, Customer 7 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 7's transactions

978. At no time did Star Sydney apply appropriate transaction monitoring to Customer 7's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 7, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket funders, operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 7's junket as turnover was recorded against Customer 7 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 7 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel;

Particulars

See paragraph 493 above.

- e. Star Sydney provided designated services to Customer 7 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 7.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 7 on 1 August 2017, 20 March 2018 and 14 October 2019: see *Customer 7's risk profile*.

The review, update and verification of Customer 7's KYC information

- 979. Star Sydney did not review, update and verify Customer 7's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 7's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 7's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 7's source of wealth or source of funds: see *Customer 7's risk profile*.

Despite this, Star Sydney did not adequately review, update and verify Customer 7's source of wealth or source of funds to satisfy itself that it was sufficient to explain the high value financial and

gaming services (tables 1 and 3, s6 of the Act) received by Customer 7 at Star Sydney.

- d. to the extent that Star Sydney reviewed Customer 7's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 7.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 7's high ML/TF risks

980. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 7 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 7; and
 - c. reviewing and updating Customer 7's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 7 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 7*.

ECDD triggers in respect of Customer 7

981. Star Sydney was required to apply the ECDD Programs to Customer 7 following any ECDD triggers in respect of Customer 7.

Particulars

Section 36(1)(a) and (b) of the Act.

982. Customer 7 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 30 January 2017 and 16 October 2019, Star Sydney gave the AUSTRAC CEO six SMRs with respect to Customer 7.

983. The matter pleaded in paragraph 982 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

984. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 7 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 7 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 7 and the provision of designated services to Customer 7 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10 of the Rules.

See paragraphs 797 and 807 above.

On 12 February 2019, 30 March 2019, 6 August 2019, 16 September 2019, 14 October 2019, 24 March 2021 and 1 July 2021, Star Sydney conducted ECDD in respect of Customer 7.

The 1 July 2021 screening identified no adverse material in respect of Customer 7.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 7's higher ML/TF risks: see *Customer 7's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 7's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 7's source of wealth or source of funds: see *Customer 7's risk profile*.

Rules 15.10(2) and (5) of the Rules.

- b. Customer 7 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion that Customer 7 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 7 and the provision of designated services to Customer 7 by Star Sydney, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 1 July 2021, following an ECDD screening, the Due Diligence Program Manager determined to maintain a business relationship with Customer 7.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 7's source of wealth (r 15.10(2)(a) of the Rules);
- b. Customer 7's source of funds (r15.10(2)(b) of the Rules), having regard to the information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 7's risk profile* above.

Contravention of s36 of the Act in respect of Customer 7

985. By reason of the matters pleaded from paragraphs 973 to 984 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 7 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

986. By reason of the matters pleaded at paragraph 985, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 7.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 8

987. Customer 8 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$65 million for Customer 8.

Particulars

Customer 8 became a customer of Star Sydney on 31 January 2014.

988. Star Sydney provided Customer 8 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period, including services as a junket operator. Between 2016 and 2020, Star Sydney recorded that junkets operated by Customer 8 had a turnover exceeding \$1.4 billion.

Particulars

On 28 March 2016, Star Sydney opened an FMA and SKA for Customer 8 which remain open (item 11, table 3, s6 of the Act).

Between 23 August 2017 and 27 June 2019, Star Sydney approved CCFs for Customer 8 on four occasions ranging from \$1,000,000 to \$10,000,000 (item 6, table 1, s6 of the Act).

Between 27 June 2019 and 20 July 2020, Star Sydney approved a permanently active CCF of \$10,000,000 for Customer 8 (item 6, table 1, s6 of the Act).

See Customer 8's risk profile below.

989. Customer 8 was a customer of Star Qld during the relevant period. Between 2017 and 2019, Star Qld recorded turnover exceeding \$13 million for Customer 8.

Particulars

Customer 8 became a customer of Star Qld on 31 January 2014.

990. Star Qld provided Customer 8 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period, including services as a junket operator. Between 2018 and 2019, Star Qld recorded that junkets operated by Customer 8 had a turnover exceeding \$180 million.

Particulars

On 22 June 2017, Star Qld opened an FMA for Customer 8 which remains open (item 11, table 3, s6 of the Act).

On 30 November 2018, Star Qld opened an SKA for Customer 8 which remains open (item 11, table 3, s6 of the Act).

Between 26 November 2018 and 27 June 2019, Star Qld approved a permanently active CCF of \$10,000,000 for Customer 8 on two occasions, which was not deactivated until 20 July 2020 (item 6, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 8 (items 31 and 32, table 1, s6 of the Act).

See Customer 8's risk profile below.

991. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 8.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 8's risk profile

992. On and from 30 November 2016, Customer 8, and the provision of designated services to Customer 8 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 8's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 8 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 8;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on four occasions between 23 November 2016 and 29 November 2016.

The SMRs reported that Customer 8's junket representatives Customer 49 and Customer 94 had engaged in large cash transactions from Customer 8's SKA and exchanges of chips for cash.

- ii. Customer 8 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) to least 52 key players on their junket programs;

Particulars

In 2016:

- a. Customer 8 operated seven junket programs at Star Sydney, all of which were funded by another junket operator, Customer 7;
 - b. Star Sydney recorded that the junkets had cumulative turnover of \$223,682,940 with losses of \$5,660,950; and
 - c. the junket representatives for each of these programs were Customer 49 and Customer 94.
- iii. Customer 8, and persons associated with their junket, transacted using large amounts of cash at Star Sydney; and

Particulars

Between 3 February 2014 and 29 November 2016, Star Sydney gave the AUSTRAC CEO 71 TTRs in respect of Customer 8 totalling \$3,792,645:

- a. 40 TTRs detailed exchanges of cash for chips and chips for cash totalling \$1,471,370;
- b. 23 TTRs detailed account withdrawals totalling \$1,766,275; and
- c. eight TTRs detailed account deposits totalling \$555,000.

Large and suspicious cash transactions in 2016

Between 21 and 28 November 2016, Customer 8's junket representatives, including Customer 94 and Customer 49 transacted with cash totalling \$715,000 as follows:

- a. on 21 November 2016, Customer 94 withdrew \$300,000 in cash from Customer 8's SKA: SMR dated 23 November 2016;
- b. on 23 November 2016, Customer 49 exchanged \$115,000 in chips for cash, comprising a \$100,000 chip from another Star Sydney customer and \$15,000 in program chips from

Customer 8's junket. Star Sydney surveillance observed Customer 49 give \$100,000 of the cash to an unknown person: SMR dated 24 November 2016; and

- c. on 28 November 2016, Customer 49 requested to withdraw \$150,000 in cash from Customer 7's FMA at Star Sydney and a further \$150,000 from Customer 8's FMA: SMR dated 29 November 2016.

- iv. Star Sydney had referred transactions involving Customer 8 to law enforcement agencies on two occasions;

Particulars

In 2016, Star Sydney notified a law enforcement agency regarding large cash deposits to Customer 8's account on two occasions.

Customer 8's risk profile from 30 November 2016

- b. Customer 8 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2016 and 2020, Customer 8 operated 40 junkets at Star Sydney, 25 of which were funded by Customer 7;

Particulars

Funding for Customer 8's junkets comprised:

- a. \$42,315,800 funded by Customer 8; and
 - b. \$70,630,000 funded by Customer 7.
- ii. between 2016 and 2020, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 8 was \$1,381,053,845 with losses of \$32,221,732;

Particulars

In December 2016, junkets operated by Customer 8 had turnover of \$15,298,062 with losses of \$254,670.

In 2017, junkets operated by Customer 8 had turnover of \$518,798,682 with losses of \$12,199,346.

In 2018, junkets operated by Customer 8 had turnover of \$547,407,630 with losses of \$15,801,651.

In 2019, junkets operated by Customer 8 had turnover of \$198,973,144 with losses of \$4,071,130.

Between January and March 2020, junkets operated by Customer 8 had turnover of \$100,576,327 with wins of \$105,065.

- iii. between 2017 and 2020, Star Sydney recorded a cumulative turnover of \$65,005,835 for Customer 8 as a junket player on their own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2020, total benefits of \$11,900,803 were payable to Customer 8 by Star Sydney in their capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and complimentary services;

Particulars

Customer 8 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2016, total benefits of \$1,851,401 were payable to Customer 8;
 - b. in 2017, total benefits of \$3,993,339 were payable to Customer 8;
 - c. in 2018, total benefits of \$3,712,339 were payable to Customer 8;
 - d. in 2019, total benefits of \$1,930,280 were payable to Customer 8; and
 - e. between January and March 2020, total benefits of \$413,444 were payable to Customer 8.
- v. between 23 August 2017 and 2 July 2020, Star Sydney provided Customer 8 and their junket programs with significant amounts of credit upon request, up to limits of \$10,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 23 August 2017, Star senior management including the Chief Executive Officer, approved a single trip CCF limit of \$1,000,000 subject to a letter of guarantee from Customer 7.

Between 3 January 2018 and 27 June 2019, Star Sydney provided Customer 8 with a CCF with a limit of \$10,000,000, which was provided on a permanently active basis from 26 November 2018 until deactivated on 2 July 2020.

- vi. Customer 8 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;

Particulars

Customer 8 operated junkets in non-exclusive private gaming rooms, including the Sovereign room, Oasis room and Pit 80.

Customer 8 operated junkets in exclusive private gaming rooms, including Salon 88, Salon 75, Salon 69, Salon 76, Salon 92, and Salon 91.

- vii. Customer 8 had at least two junket representatives at Star Sydney including Customer 94 and Customer 49; and
- viii. Customer 8 and their junket representatives facilitated the provision of high value designated services to at least 147 junket players at Star Sydney including players who Star Sydney considered had acted suspiciously, such as Customer 49, Customer 7 and Customer 65;

Particulars

See paragraphs 643 to 649 above.

2018

On 23 March 2018, a Star Sydney customer presented \$100,000 in cash comprising \$100 notes with straps issued by the Star and dated 10 March 2018 to purchase casino chips while playing under a Customer 8 junket. Star Sydney suspected the cash came from the Customer 8 junket, where they had a turnover of \$1,410,650 with a win of \$13,355. The customer had no gaming or threshold transactions recorded with the Star prior to 20 March 2018: SMR dated 26 March 2018.

2019

On 14 October 2019, junket operators Customer 8 and Customer 7 separately transferred \$100,000 each from their respective accounts to another Star Sydney customer, Person 60. Several days later, Person 60 withdrew the \$200,000 as cash. Person 60 was a junket player under both junket operators.

- a. Under the Customer 8 junket program, the customer had recorded a turnover of \$1,109,930 and a loss of \$158,925.
- b. Under the Customer 7 junket program, the customer had recorded a turnover of \$417,800 and a loss of \$55,780.

Given these losses, Star Sydney considered it unusual that both operators would transfer such large amounts to the customer: SMR dated 16 October 2019.

- c. Customer 8 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 2018 and 2019, Customer 8 operated 24 junkets at Star Qld, at least six of which were funded by Customer 7;

Particulars

Funding for Customer 8's junkets comprised:

- a. \$36,044,550 funded by Customer 8; and
- b. \$8,998,015 funded by Customer 7.

- ii. between 2018 and 2019, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 8 in the relevant period was \$181,065,223 with losses of \$6,140,785;

Particulars

In 2018, junkets operated by Customer 8 had turnover of \$160,149,860 with losses of \$4,880,315.

In 2019, junkets operated by Customer 8 had turnover of \$20,915,363 with losses of \$1,260,470.

- iii. between 2018 and 2019, Star Qld recorded a cumulative turnover of \$13,602,981 for Customer 8 as a junket player on their own junkets despite not being a junket player at any time;

Particulars

See paragraph 670 above.

- iv. between 2018 and 2019, total benefits of \$2,086,506 were payable to Customer 8 by Star Qld in their capacity as a junket operator;

Particulars

Customer 8 was entitled to benefits from Star Qld in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers:

- a. in 2018, total benefits of \$1,765,038 were payable to Customer 8 by Star Qld, including \$1,760,658 at Star Gold Coast and \$4,380 at Treasury Brisbane; and
- b. in 2019, total benefits of \$321,468 were payable to Customer 8 by Star Qld.
- v. between 26 November 2018 and 2 July 2020, Star Qld provided Customer 8 and their junket programs with significant amounts of credit upon request, up to limits of \$10,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

From 26 November 2018, Star Qld provided Customer 8 with a permanently active CCF limit of \$10,000,000, which was deactivated on 2 July 2020.

- vi. Customer 8 operated junkets in private gaming rooms, including private gaming rooms that Star Qld made available exclusively to the junket;

Particulars

Customer 8 operated junkets in non-exclusive private gaming rooms, including Pit 11.

Customer 8 operated junkets in exclusive private gaming rooms, including Salon 21, 22, 69, 89, 90, 96 and 98.

- vii. Customer 8 had at least five junket representatives at Star Qld including Customer 49; and
- viii. Customer 8 and their junket representatives facilitated the provision of high value designated services to at least 59 junket players at Star Qld including foreign PEPs and players Star Qld considered had acted suspiciously such as Customer 49;

Particulars

See paragraphs 643 to 649 above.

For example, on 28 March 2018, Star Qld reviewed table play in respect of a player under a Customer 8 junket program, who was a foreign PEP. Star Qld records identified that the customer lost \$973,000 in February 2018 with no play being recorded in the previous two months: SMR dated 28 March 2018.

- d. designated services provided to Customer 8 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. Customer 8 was connected to other customers at Star Sydney and Star Qld, including junket operators and junket representatives who Star Sydney and Star Qld considered had acted suspiciously (such as Customer 7, Customer 49 and Customer 94);

Particulars

Customer 7 had funded 25 junket programs operated by Customer 8 at Star Sydney and at least 6 junket programs operated by Customer 8 at Star Qld.

On 23 August 2017, Customer 7 had acted as a guarantor of Customer 8's CCF at Star.

- f. between 23 January 2020 and 8 March 2020, Customer 8 referred three players on four occasions to Star Qld;

Particulars

See paragraph 625 above.

Between 23 January 2020 and 8 March 2020, Customer 8 referred three players on four occasions to Star Qld. On each occasion, Customer 8 arranged for the referred players to attend Star Qld on a rebate program without Customer 8 or his junket representative being present.

Customer 8 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- g. Customer 8 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2019, Star Qld recorded individual rated turnover totalling \$150,495 for Customer 8;

Particulars

See paragraph 752 above.

In 2017, Customer 8's individual rated turnover was \$7,245.

In 2018, Customer 8's individual rated turnover was \$8,250.

In 2019, Customer 8's individual rated turnover was \$135,000.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 8 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 13 December 2016 and 6 December 2018, Star Sydney received 14 telegraphic transfers totalling \$15,592,594, each of which was made available to Customer 8's SKA.

In 2017, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$1,023,681 where Customer 8 was named as the beneficiary and the ordering customer. The funds were deposited into Customer 8's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

Between 7 February 2017 and 11 May 2019, Star Sydney sent seven telegraphic transfers totalling \$4,100,000 from Customer 8's account to Australian bank accounts.

Between 5 July 2017 and 7 January 2020, Star Sydney sent four telegraphic transfers totalling \$3,500,000 from Customer 8's account to other Australian casinos.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, see particulars to paragraph 992.j.

Between 21 February 2018 and 17 March 2020, Star Sydney sent 15 telegraphic transfers totalling \$9,939,223 from Customer 8's account to Star Qld.

Between 9 July 2018 and 18 December 2019, Star Sydney received nine telegraphic transfers totalling \$6,307,451 from Star Qld, each of which was made available to Customer 8's SKA.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 8 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

On 7 October 2018, Customer 8 transacted \$20,000 through the Hotel Card channel at Star Qld.

On 23 August 2019, Customer 8 transacted \$100,000 through the Hotel Card channel at Star Qld.

Other remittances involving third parties

See paragraphs 278 and 327 above.

On 7 October 2018, Customer 8 received \$20,000 into their Star Qld account from a third party account: SMR dated 9 October 2018.

The above transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

On 31 May 2019, Star Qld received a telegraphic transfer of \$8,060, which it made available to Customer 8's FMA at Star Gold Coast.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

On 22 October 2018, Star Qld facilitated a telegraphic transfer of \$330,000 from Customer 8's FMA at Star Gold Coast to the Australian bank account of another Star customer.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 21 February 2018 and 2 March 2020, Star Qld received 16 transfers totalling \$16,797,226 from Star Sydney, each of which was made available to Customer 8's FMA at Star Gold Coast. The transfers included:

- a. \$3,000,000 from Customer 7's account at Star Sydney on 13 October 2018; and
- b. \$1,000,000 from Customer 7's account at Star Sydney on 30 November 2018.

On 17 March 2020, Star Qld received a transfer of \$35,460 from Star Sydney, which it made available to Customer 8's account at Treasury Brisbane.

Between 3 March 2018 and 18 December 2019, Star Qld facilitated 13 transfers totalling \$12,568,099 from Customer 8's accounts at Star Gold Coast to Star Sydney. Some of the funds were transferred for the purpose of redeeming outstanding CCFs.

On 28 May 2018, Star Qld facilitated a transfer of \$3,014,950 from Customer 8's FMA at Treasury Brisbane to Star Sydney.

- j. Star Sydney was aware that Customer 8 and persons associated with Customer 8 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

2016

Between 1 December 2016 and 1 February 2017, Customer 8 and their representatives engaged in the following transactions with a Star Sydney customer:

- a. Customer 8 transferred \$2,000,000 from their account to the Star Sydney customer's account on two occasions;
- b. Customer 8's junket representative, Customer 49, informed Star Sydney that additional telegraphic transfers, totalling \$2,378,079, would be deposited with Star Sydney that were to be credited to the customer's account; and
- c. by 1 February 2017, the customer's account balance was \$6,378,079, but there had been no withdrawals or gaming activity in connection with the account: SMR dated 1 February 2017.

2017

Between April 2017 and November 2017, Customer 71, a junket player on Customer 8's junket, transacted \$844,000 through the Hotel Card channel at Star Sydney over five transactions and was given a temporary CCF for use on Customer 8's junket program while waiting for the funds to clear.

2019

On 23 June 2019, Customer 8 transferred \$256,000 from their Star Sydney account to the Star Sydney account of a player on their junket program, who had a recorded turnover of \$753,330 and a loss of \$214,735. Following the transfer:

- a. the customer requested \$206,000 of the funds to be transferred to a second Star Sydney customer;
 - b. the second customer requested the funds to be withdrawn in the form of a Star cheque;
 - c. the following day, the second customer returned the Star cheque, requested that it be deposited into their account, and then requested that the funds be transferred to Customer 7's junket account as a buy-in allocated to the first customer; and
 - d. Star Sydney was unaware of any link between the customers or junket operators and considered the movement of funds to be unusual: SMR dated 25 June 2019.
- k. Customer 8, and persons associated with their junket, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and cash transported in plastic bags, gym bags and backpacks at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 19 December 2016 and 16 March 2020, Star Sydney gave the AUSTRAC CEO 497 TTRs totalling \$23,074,126, including:

- a. 100 TTRs detailing account deposits in cash involving Customer 8 totalling \$7,755,730;
- b. 252 TTRs detailing account withdrawals in cash involving Customer 8 totalling \$11,394,286; and
- c. 141 TTRs detailing chip and cash exchanges involving Customer 8 totalling \$3,834,110.

Large and suspicious transactions in 2017

In 2017, Customer 8 and their junket representatives, including Customer 94 and Customer 49, engaged in large and suspicious cash transactions totalling at least \$3,671,950:

- a. On 5 January 2017, Customer 8's junket representative Customer 49 withdrew \$200,000 in cash from Customer 8's SKA at Star Sydney;
- b. On 4 February 2017, Customer 8's junket representative Customer 94 asked Star Sydney to transfer \$193,000 by

telegraphic transfer to a junket player on Customer 8's junket, however Star Sydney declined to process the transaction as the beneficiary was identified as the junket player's daughter.

Customer 94 then withdrew \$193,000 in cash, and Star Sydney staff observed him handing the cash to the junket player's daughter in a black carry bag: SMR dated 6 February 2017;

- c. On 8 February 2017, Customer 8's junket representative Customer 94 withdrew \$300,000 in cash from Customer 8's Star Sydney account, which was given to a junket player. Later that evening, Customer 94 withdrew a further \$131,000 in cash in circumstances where Star Sydney was unaware who the funds were for: SMR dated 9 February 2017;
- d. On 24 February 2017, Customer 8's junket representative Customer 49 presented \$10,000 in chips and withdrew \$490,000 in cash from Customer 8's Star Sydney account. Star Sydney staff observed Customer 49 giving the cash to an unknown person: SMR dated 27 February 2017;
- e. On 22 March 2017, Customer 8's junket representative Customer 49 withdrew \$300,000 in cash from Customer 8's Star Sydney account, then left the premises: SMR dated 23 March 2017;
- f. On 13 April 2017, Customer 8's junket representative Customer 49 withdrew \$400,000 in cash from Customer 8's Star Sydney account: SMR dated 18 April 2017;
- g. On 19 April 2017, Customer 8 withdrew \$100,000 in cash at Star Sydney, then left the premises;
- h. On 13 July 2017, Customer 8's junket representative Customer 94 withdrew \$300,000 in cash from Customer 8's SKA, then handed the cash to a third party;
- i. On 29 July 2017, Customer 8 exchanged \$105,000 in cash for chips at Star Sydney;
- j. On 10 August 2017, Customer 8's junket representative Customer 49 deposited \$120,000 in cash in rubber bands for deposit into Customer 8's FMA;
- k. On 23 August 2017, Customer 8's junket representative Customer 49 deposited \$100,000 in cash in rubber bands for deposit into Customer 8's FMA;
- l. On 31 August 2017, Customer 8's junket representative exchanged \$100,950 in chips for cash at Star Sydney, then provided the cash to Customer 8, who then left the casino with the cash;

- m. On 2 November 2017, Customer 8's junket representative Customer 49 deposited \$220,000 in cash to Customer 8's Star Sydney account. The cash was in a brown shopping bag and comprised \$60,000 in \$100 notes and \$160,000 in \$50 notes bundled in rubber bands and straps showing cartoon characters: SMR dated 6 November 2017;
- n. On 14 November 2017, Customer 8's junket representative Customer 94 withdrew \$152,000 in cash from Customer 8's Star Sydney account. Star Sydney staff observed Customer 94 give the cash to Customer 70, who was not a player on the Customer 8 junket program, in circumstances where Star Sydney was unaware of any connection between Customer 70 and Customer 8: SMR dated 14 November 2017;
- o. On 11 December 2017, Customer 8's junket representative Customer 49 withdrew \$220,000 in cash from Customer 8's Star Sydney account. Star Sydney staff saw Customer 49 give the cash to an unknown person waiting in a taxi: SMR dated 12 December 2017;
- p. On 14 December 2017, Customer 8's junket representative Customer 49 deposited \$140,000 in cash in \$100 notes, some of which were in bank straps, with the remainder in rubber bands; and
- q. On 22 December 2017, Customer 8's junket representative Customer 49 deposited \$100,000 in cash into Customer 8's FMA.

Large and suspicious transactions in 2018

In 2018, Customer 8's junket representatives, including Customer 94 and Customer 49, engaged in large and suspicious cash transactions totalling at least \$3,980,330:

- a. on 25 January 2018, Customer 8's junket representative Customer 49 requested a chip and cash exchange totalling \$102,000;
- b. on 5 February 2018, Customer 8's junket representatives, including Customer 49 and Person 10, presented \$430,000 in cash comprising \$410,000 in \$50 notes and \$20,000 in \$100 notes bundled in rubber bands in a blue gym bag to be deposited into Customer 8's Star Sydney account. The representatives claimed that the funds had come from a Customer 8 junket player who had withdrawn it from a bank: SMR dated 6 February 2018;
- c. on 7 February 2018, Customer 8's junket representatives, including Customer 49 and Person 10, presented \$250,000 in cash comprising \$10,000 in \$100 notes and \$240,000 in \$50

notes in a black and red backpack to be deposited into Customer 8's Star Sydney account: SMR dated 8 February 2018;

- d. on 8 February 2018, Customer 8's junket representative Customer 49 presented \$250,000 in cash comprising \$20,000 in \$100 notes and \$230,000 in \$50 notes bundled in rubber bands in a large black Sovereign Room bag, to be deposited into Customer 8's Star Sydney account: SMR dated 9 February 2018;
- e. on 15 February 2017, Customer 8's junket representative Customer 49 deposited \$100,000 in cash into Customer 8's FMA at Star Sydney;
- f. on 23 February 2018, Customer 8's junket representative Customer 49 withdrew \$155,000 in cash from Customer 8's Star Sydney account, then gave the cash to a Star Sydney customer who was not a player on Customer 8's junket: SMR dated 27 February 2018;
- g. on 27 February 2018, Customer 8's junket representative, Person 10, deposited a total of \$999,480 in cash into Customer 8's Star Sydney account across three transactions, comprising \$300,000, \$299,850 and \$399,630 in small denominations including \$50 notes and \$20 notes: SMR dated 28 February 2018;
- h. on 1 March 2018, Customer 8's junket representative, Person 10, deposited \$299,950 in cash comprising \$50 notes in rubber bands in a blue backpack into Customer 8's Star Sydney account: SMR dated 2 March 2018;
- i. on 11 March 2018, Star Sydney staff observed a Star Sydney customer purchase \$100,000 in chips with cash, then give the chips to Customer 8's junket representative, Customer 49: SMR dated 12 March 2018. Three days later, on 14 March 2018, another of Customer 8's junket representatives, Person 10, withdrew \$100,000 in cash from Customer 8's Star Sydney account, then gave it to the same Star Sydney customer: SMR dated 16 March 2018;
- j. on 15 March 2018, Customer 8's junket representative, Person 10, engaged in a chip and cash exchange totalling \$120,000; the cash was placed in a bag and provided to a third party;
- k. on 20 March 2018, Customer 8's junket representative, Person 10, withdrew \$50,000 in cash from Customer 8's FMA at Star Sydney;

- l. on 21 March 2018, Customer 8's junket representative, Person 10, withdrew \$120,000 in cash from Customer 8's FMA, then provided the money to a third party who distributed the money to others;
- m. on 24 March 2018, Customer 8's junket representative, Customer 49, deposited \$250,000 in cash, which was wrapped in casino straps, into Customer 8's FMA at Star Sydney;
- n. on 28 March 2018, Customer 8's junket representative Customer 49 deposited \$150,000 in cash at Star Sydney into Customer 8's FMA to be used to buy-in;
- o. on 6 May 2018, Customer 8's junket representative Customer 49 withdrew \$200,600 in cash from Customer 8's FMA, then provided the cash to a third party who took it to the Star's hotel;
- p. on 10 May 2018, Customer 8's junket representative Customer 49 withdrew \$108,100 in cash from Customer 8's Star Sydney account, then gave part of the cash to another Star Sydney customer, in circumstances where Star Sydney was unaware of any connection with Customer 8: SMR dated 11 May 2018;
- q. on 4 August 2018, Customer 8's junket representative Customer 49 presented \$95,000 in cash in a paper bag to be stored in a safekeeping box on behalf of Customer 8 at Star Sydney;
- r. on 28 October 2018, Customer 8's junket representative Customer 49 withdrew \$100,000 in cash from Customer 8's FMA, then provided the cash to a third party who then departed Star Sydney; and
- s. on 23 November 2018, Customer 8's junket representative Customer 49 deposited \$100,000 in cash, partly wrapped in rubber bands and partly in straps, which was deposited into Customer 8's SKA at Star Sydney.

Large and suspicious transactions in 2018

In 2019, Customer 8's junket representatives, including Customer 49 transacted with cash totalling \$308,800 as follows:

- a. on 28 January 2019, Customer 8's junket representative Customer 49 deposited \$100,000 in cash, partly strapped, partly wrapped in rubber bands, into Customer 8's FMA at Star Sydney;
- b. on 10 May 2019, Customer 8's junket representative Customer 49 withdrew \$108,800 in cash from Customer 8's

FMA at Star Sydney, which was then provided to a junket player under Customer 8's junket; and

- c. on 21 September 2019, Customer 8's junket representative, Person 10, withdrew \$100,000 in cash from Customer 8's FMA at Star Sydney.

- I. Customer 8 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 26 February 2018 and 27 December 2019, Star Qld gave the AUSTRAC CEO 30 TTRs totalling \$1,760,930, including:

- a. ten TTRs detailing account deposits in cash made by Customer 8 totalling \$764,120; and
 - b. 17 TTRs detailing account withdrawals in cash made by Customer 8 totalling \$945,210.
- m. Customer 8 and their junket representatives transacted using bank cheques drawn in large amounts at Star Sydney;

Particulars

For example, on 28 February 2018, Customer 8's junket representative, Person 10, deposited \$2,950,000 in bank cheques into Customer 8's Star Sydney account: SMR dated 2 March 2018.

- n. at various times, Customer 8 had significant parked or dormant funds in his SKA at Star Sydney;

Particulars

Between 7 September 2020 and 4 May 2021, Customer 8 had \$1,929,497 parked in his SKA.

On 4 May 2021, \$20,000 was paid from Customer 8's SKA to Star Sydney to settle hotel expenses.

It was not until 16 June 2021 that the balance of \$1,909,497 was transferred out of Customer 8's SKA.

See paragraph 284 above.

- o. Customer 8 and persons associated with their junket engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including:
 - i. cashing-in large value chips with no evidence of play or evidence of only a small amount of play;

Particulars

See paragraph 25 above.

On the following occasions, Customer 8's junket representatives were involved in transactions indicative of the ML/TF typology of cashing-in large value chips with no or limited evidence of play:

- a. on 25 June 2018, a Star Sydney customer purchased \$50,000 of chips with cash twice within an hour. After minimal gaming activity, the customer exchanged the \$100,000 in chips for cash, then handed the cash to Customer 8's junket representative Customer 49, who deposited it into Customer 8's account: SMR dated 26 June 2018;
 - b. on 22 August 2019, a Star Sydney customer gave a second Star Sydney customer, Person 33, \$75,000 worth of plaques. Person 33 then attended the cage, accompanied by Customer 8's junket representative Customer 49, who requested the plaques be deposited into Customer 8's account, then transferred to Person 33's account: SMR dated 23 August 2019;
 - c. on 30 December 2019, Customer 8's junket representative Customer 49 requested to transfer \$236,953 to Person 33, in circumstances where Person 33 had not been a player on a Customer 8 junket program since August 2019. Person 33 had been linked to other large chip exchanges totalling \$200,000 in the previous two days, including providing \$100,000 in cash to another Star Sydney customer: SMR dated 30 December 2019; and
 - d. on 18 February 2020, Person 33 sent \$621,504 and \$414,507 via telegraphic transfer, which was deposited into her account. Person 33 then withdrew \$400,000 in chips, which Person 33 deposited into Customer 8's account, and a further \$600,000 in chips which Star Sydney was unable to account for: SMR dated 19 February 2020.
- ii. quick turnover of money (without betting);

Particulars

See paragraph 25 above.

For example, on 22 and 23 March 2018, Customer 8's junket representative, Person 10, withdrew \$600,000 from Customer 8's Star Sydney account. Several hours later, the representative returned to deposit the same \$600,000 in cash back into Customer 8's Star Sydney account: SMR dated 23 March 2018.

- p. Star Sydney had referred transactions involving Customer 8's account to law enforcement agencies on a number of occasions;

Particulars

Between December 2016 and February 2020, Star Sydney notified a law enforcement agency regarding large cash deposits to and from Customer 8's account, including transactions involving Customer 49, on a number of occasions.

- q. Customer 8 was the subject of law enforcement enquiries on seven occasions at Star;

Particulars

Between 5 March 2018 and 20 February 2020, Star Sydney received requests from a law enforcement agency regarding Customer 8, their junket, their associates including Customer 49 and transactions involving Customer 8.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- r. Customer 8 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 8 had access to private gaming rooms at Star Qld, including Pit 8, Salons 21, 22, 69, 89, 90, 96, 98, The Suite, the Sovereign Room and Chairman's Room.

- s. Customer 8 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 8 had access to private gaming rooms at Star Sydney, including the Sovereign room, the Jade room, Harbours Salons, Oasis and the Lakes Salon.

- t. Star Sydney and Star Qld did not have adequate reason to believe that Customer 8's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6) received by Customer 8 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

On 17 December 2018, Star Qld recorded Customer 8's occupation as a shareholder in the finance industry.

During the relevant period, Star Sydney and Star Qld recorded Customer 8's occupation as junket operator and project manager – construction.

At no time did Star Sydney or Star Qld take steps to verify Customer 8's occupation, source of wealth or source of funds in circumstances where:

- a. Star Sydney and Star Qld reported hundreds of TTRs worth over \$23 million involving Customer 8 and his associates;
- b. Customer 8 and his associates transacted using large amounts of cash and cash that appeared suspicious; and
- c. Star Sydney and Star Qld recorded turnover on junkets operated by Customer 8 exceeding \$1.3 billion between 2016 and 2020: see *Customer 8's risk profile* above.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 8

993. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 8 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 8.
- a. On and from 30 November 2016, Customer 8 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 8's risk profile* above.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 8 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

From 30 November 2016 until 15 October 2019, Customer 8 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 16 October 2019, Customer 8 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 January 2020, Customer 8 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 8's transactions

994. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 8's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 8, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 8 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel.

Particulars

See paragraph 783 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 8 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the Hotel Card channel.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 790 above.

- e. Star Sydney provided designated services to Customer 8 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 8's KYC information

995. Star Sydney and Star Qld did not review, update and verify Customer 8's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 8's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 8's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 8's source of wealth and source of funds were not legitimate: see *Customer 8's risk profile*.

- d. to the extent that Star Sydney or Star Qld reviewed Customer 8's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 8.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 8's high ML/TF risks

996. Had Star Sydney or Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 8 appropriately;

- b. applying appropriate risk-based transaction monitoring to Customer 8; and
- c. reviewing and updating Customer 8's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 8 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 8*.

ECDD triggers in respect of Customer 8

997. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 8 following any ECDD triggers in respect of Customer 8.

Particulars

Section 36(1)(a) and (b) of the Act.

998. Customer 8:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 1 February 2017 and 19 February 2020, Star Sydney gave the AUSTRAC CEO 26 SMRs with respect to Customer 8.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 28 March 2018 and 9 October 2018, Star Qld gave the AUSTRAC CEO two SMRs with respect to Customer 8.

999. Each matter pleaded in paragraph 998 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1000. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 8 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 8 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 8 and the provision of designated services to Customer 8 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney or Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 801, 808 and 809 above.

ECDD screenings

On 13 May 2019, 29 September 2019 and January 2021, Star Sydney conducted ECDD in respect of Customer 8.

In January 2021, the ECDD screening in respect of Customer 8 identified that an individual with the same name as Customer 8 had allegedly given bribes to a public official for help in a bidding process for a property development.

Nevertheless, at no time did Star Sydney or Star Qld take steps to verify Customer 8's occupation, source of wealth or source of funds in circumstances where:

- a. Star Sydney and Star Qld reported hundreds of TTRs worth over \$23 million involving Customer 8 and his associates;
- b. Customer 8 and his associates transacted using large amounts of cash and cash that appeared suspicious; and
- c. Star Sydney and Star Qld recorded turnover on junkets operated by Customer 8 exceeding \$1.3 billion between 2016 and 2020: see *Customer 8's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 8's higher ML/TF risks: see *Customer 8's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 8's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 8's source of wealth and source of funds were not legitimate: see *Customer 8's risk profile*.

- b. Customer 8 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 8

1001. By reason of the matters pleaded from paragraphs 987 to 1000 above, on and from 30 November 2016, Star Sydney and Star Qld:
 - a. did not monitor Customer 8 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1002. By reason of the matters pleaded at paragraph 1001, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 8.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 9

1003. Customer 9 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$280 million for Customer 9.

Particulars

Customer 9 was a customer of Star Sydney from at least 12 February 2015.

On 8 February 2016, Star Sydney issued a WOL in respect of Customer 9 after he acted violently towards another patron. The WOL was revoked on 1 December 2016.

1004. Star Sydney provided Customer 9 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and a junket player. Between 2017 and 2020, Star Sydney recorded that junkets operated by Customer 9 had a turnover exceeding \$350 million.

Particulars

On 12 February 2015, Star Sydney opened an FMA and SKA for Customer 9 which remain open (item 11, table 3, s6 of the Act).

Between 2 October 2013 and 20 January 2020, Star Sydney approved CCFs for Customer 9 on 15 occasions ranging from \$100,000 to \$30,000,000 (item 6, table 1, s6 of the Act).

Customer 9 operated a high risk international remittance channel.

See Customer 9's risk profile below.

1005. Customer 9 was a customer of Star Qld during the relevant period. Between 2017 and 2020, Star Qld recorded turnover exceeding \$610 million for Customer 9.

Particulars

Customer 9 was a customer of Star Qld from at least 19 June 2015.

1006. Star Qld provided Customer 9 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and a

junket player. Between 2017 and 2020, Star Qld recorded that junkets operated by Customer 9 had a turnover exceeding \$940 million.

Particulars

On 19 June 2015, Star Qld opened an FMA for Customer 9 which remains open (item 11, table 3, s6 of the Act).

On 16 February 2020, Star Qld opened an SKA for Customer 9 which remains open (item 11, table 3, s6 of the Act).

Between 17 June 2015 and 20 January 2020, Star Qld approved CCFs for Customer 9 on 15 occasions ranging from \$3,000,000 to \$30,000,000 (item 6, table 1, s6 of the Act).

Customer 9 operated a high risk remittance channel.

See Customer 9's risk profile below.

1007. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 9.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 9's risk profile

1008. On and from 30 November 2016, Customer 9, and the provision of designated services to Customer 9 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 9's risk history as at 30 November 2016

a. by 30 November 2016 Customer 9 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 9;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 23 June 2015.

The SMR reported that Customer 9 had made a large cash deposit:
see paragraph 1008.aviii below.

- ii. Customer 9 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

On 16 June 2015, Customer 9 was approved to be a junket operator at Star Sydney.

Between 22 September 2015 and 1 January 2016, Customer 9 operated two junkets at Star Sydney on which he was also a junket player.

By 30 November 2016, junkets operated by Customer 9 had a turnover of \$85,572,879 with wins of \$1,318,310.

- iii. Customer 9 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

Between 29 May 2016 and 11 June 2016, Customer 9 operated a junket at Star Qld.

By 30 November 2016, junkets operated by Customer 9 had a turnover of \$109,472,129 with losses of \$1,479,416.

- iv. Customer 9 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 22 September 2015 and 1 January 2016, Customer 9 was a junket player on two junkets operated by himself.

By 30 November 2016, Customer 9's turnover on junket programs was \$46,936,643 with wins of \$36,010.

- v. Customer 9 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;

Particulars

Between 29 May 2016 and 12 October 2016, Customer 9 was a junket player on three junkets operated by himself and another junket operator.

Customer 9 was the guarantor of the CCF approved by Star Qld for the junket operator.

By 30 November 2016, Customer 9's turnover on junket programs was \$46,936,643 with wins of \$36,010.

- vi. between 2 October 2013 and 23 December 2015, Star Sydney provided Customer 9 with significant amounts of credit upon request, up to limits of \$10,000,000 with an additional trip only limit of \$5,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 2 October 2013, Star Sydney approved a single trip CCF limit of \$5,000,000 with an additional trip only limit of \$2,500,000 for Customer 9.

On 14 September 2015, Star Sydney senior management, including the Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$8,000,000 for Customer 9.

On 12 November 2015, Star Sydney senior management, including the General Manager (Credits and Collections) approved a single trip CCF limit of \$100,000 for Customer 9.

On 23 December 2015, Star Sydney senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$10,000,000 with an additional trip only limit of \$5,000,000 for Customer 9. The CCF was to fund Customer 9's 'biggest customer'.

- vii. between 17 June 2015 and 30 May 2016, Star Qld provided Customer 9 with significant amounts of credit upon request, up to limits of \$10,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 17 June 2015, Star Gold Coast approved a single trip CCF limit of \$8,000,000 with an additional trip only limit of \$2,000,000 for Customer 9 in respect of both of his accounts.

On 13 May 2016, Star Gold Coast senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$7,000,000 for Customer 9 in respect of one of his accounts. Customer 9 also guaranteed another CCF of \$8,000,000.

On 30 May 2016, Star Gold Coast senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$10,000,000 for Customer 9 in respect of one of his accounts.

- viii. Customer 9 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 22 June 2015 and 2 January 2016, Star Sydney gave the AUSTRAC CEO nine TTRs detailing account withdrawals, account deposits, chip exchanges, EGM payouts and other monetary values out totalling \$517,023.

On 22 June 2015, Customer 9 deposited \$120,000 in cash into his Star Sydney account. The cash was all in \$100 notes. Customer 9 advised Star Sydney that the cash was from Star Gold Coast: SMR dated 23 June 2015.

- ix. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 9 by remitting large amounts of money into and out of the casino environment via his accounts; and

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 17 March 2015 and 9 September 2016, Star Sydney received four telegraphic transfers totalling \$4,180,566, which it made available to Customer 9's account.

On 20 July 2015, Star Sydney received a telegraphic transfer of \$745,000, which it made available to Customer 9's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 8 January 2016 and 2 July 2016, Star Sydney sent two telegraphic transfers totalling \$2,364,878 from Customer 9's account to Australian and overseas bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- x. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 9 by remitting large amounts of money into the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 7 October 2016, Star Qld received a telegraphic transfer of \$62,599 from another Australian casino, which it made available to Customer 9's FMA at Star Gold Coast.

On 1 July 2016, Star Qld received a telegraphic transfer of \$559,766, which it made available to Customer 9's account at Star Gold Coast and were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Customer 9's risk profile from 30 November 2016

- b. Customer 9 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 27 May 2017 and 16 March 2020, Customer 9 operated 13 junkets at Star Sydney;
 - ii. between 27 May 2017 and 16 March 2020, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 9 was \$357,859,996 with wins of \$1,927,740;

Particulars

In 2017, junkets operated by Customer 9 had a turnover of \$107,825,900 with losses of \$504,325.

In 2018, junkets operated by Customer 9 had a turnover of \$26,298,779 with wins of \$44,165.

In 2019, junkets operated by Customer 9 had a turnover of \$203,712,717 with wins of \$1,543,300.

In 2020, when closures due to the COVID-19 pandemic commenced, the turnover recorded in respect of junket programs operated by Customer 9 dropped but remained high.

In 2020, junkets operated by Customer 9 had a turnover of \$20,022,600 with wins of \$844,600.

- iii. between 19 July 2017 and 16 March 2020, Star Sydney recorded a cumulative turnover of \$8,262,748 for Customer 9 as a junket player on his own junkets despite him not being a junket player in respect of those junkets;

Particulars

See paragraph 670 above.

- iv. between 2017 and 2020, Star Sydney recorded that total benefits exceeding \$3,000,000 were payable to Customer 9 in his capacity as a junket operator;
- v. between 8 December 2016 and 20 January 2020, Star Sydney provided Customer 9 with significant amounts of credit upon request, up to limits of \$30,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 8 December 2016, Star Sydney senior management, including the Group Chief Financial Officer and the Chief Executive Officer approved a single trip CCF limit of \$20,000,000 for Customer 9.

On 2 May 2017, Star Sydney senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$25,000,000 for Customer 9.

On 11 July 2017, Star Sydney senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$5,000,000 for Customer 9.

On 31 July 2017, Star Sydney senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$20,000,000 for Customer 9.

On 30 August 2017, Star Sydney approved a permanent CCF limit of \$20,000,000 for Customer 9 which was not deactivated.

On 28 June 2019, Star Sydney approved a permanent CCF limit of \$10,000,000 for Customer 9 which was deactivated on 29 July 2019.

On 6 August 2019 and 3 September 2019, Star Sydney approved a single trip CCF limit of \$10,000,000 for Customer 9.

On 16 September 2019, Star Sydney approved a single trip CCF limit of \$20,000,000 for Customer 9.

On 9 December 2019, Star Sydney approved a single trip CCF limit of \$10,000,000 for Customer 9.

On 20 January 2020, Star Sydney approved a single trip CCF limit of \$30,000,000 for Customer 9.

- vi. Customer 9 had four junket representatives at Star Sydney; and
- vii. Customer 9 and his junket representatives facilitated the provision of high value designated services to over 40 junket players at Star Sydney including players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 9 himself;

Particulars

See paragraphs 643 to 649 above.

See paragraphs 1008.b.i to 1008.b.vi.

- c. Customer 9 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;

- i. between 26 January 2017 and 16 March 2020, Customer 9 operated 18 junkets at Star Qld;

Particulars

In 2017 and 2020, Customer 9 was one of the top ten junket operators who operated the highest number of junket programs per year at Star Gold Coast.

In 2016, 2017 and 2020, Customer 9 was one of the top ten junket operators whose junket operations in total involved the highest total turnover per year.

- ii. between 26 January 2017 and 16 March 2020, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 9 was \$944,062,606 with wins of \$5,550,445;

Particulars

In 2017, junkets operated by Customer 9 had a turnover of \$276,372,986 with losses of \$4,319,735.

In 2018, junkets operated by Customer 9 had a turnover of \$15,035,072 with losses of \$352,805.

In 2019, junkets operated by Customer 9 had a turnover of \$23,315,500 with wins of \$1,702,000.

In 2020, when closures due to the COVID-19 pandemic commenced, the turnover recorded in respect of junket programs operated by Customer 9 nonetheless escalated dramatically.

In 2020, junkets operated by Customer 9 had a turnover of \$629,339,048 with wins of \$8,520,985.

Between 2017 and 2020, Customer 9 provided \$158,820,000 in funding for his junket programs at Star Qld.

- iii. between 23 March 2017 and 2 March 2020, Star Qld recorded a cumulative turnover of \$211,785,184 for Customer 9 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2020, total benefits of \$8,136,639 were payable to Customer 9 by Star Qld in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 9 was entitled to benefits from Star Qld in his capacity as a junket operator:

- a. in 2016, total benefits of \$796,938 were payable to Customer 9;
 - b. in 2017, total benefits of \$2,031,804 were payable to Customer 9;
 - c. in 2018, total benefits of \$110,723 were payable to Customer 9.
 - d. in 2019, total benefits of \$160,670 were payable to Customer 9; and
 - e. in 2020, total benefits of \$5,036,503 were payable to Customer 9.
- v. between 5 October 2016 and 20 January 2020, Star Qld provided Customer 9 with significant amounts of credit upon request, up to limits of \$30,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 5 October 2016, Star Gold Coast senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$18,000,000 for Customer 9 in respect of one of his accounts.

On 13 January 2017, Star Gold Coast senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$20,000,000 for Customer 9 in respect of one of his accounts.

On 17 March 2017, Star Gold Coast senior management, including the Managing Director and the Chief Executive Officer, approved a single trip CCF limit of \$3,000,000 for Customer 9 in respect of one of his accounts.

On 27 March 2017, Star Gold Coast senior management, including the Managing Director and the Chief Executive Officer, approved a single trip CCF limit of \$5,000,000 for Customer 9 in respect of one of his accounts.

On 15 May 2017, Star Gold Coast senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$25,000,000 for Customer 9 in respect of one of his accounts.

On 30 August 2017, Star Gold Coast and Star Brisbane senior management, including the Group Chief Financial Officer and the Chief Executive Officer, approved a permanent active CCF limit of \$20,000,000 for Customer 9 in respect of one of his accounts which was not deactivated. In the approval process, the General Manager (VIP Credit and Collections) indicated that the permanent active CCF would be the subject of monthly checks to ensure junket credit worthiness. There is no indication that those checks considered Customer 9's high ML/TF risk.

On 28 June 2019, Star Gold Coast and Star Brisbane approved a permanent CCF limit of \$10,000,000 for Customer 9 which was deactivated on 29 July 2019.

On 6 August 2019 and 3 September 2019, Star Gold Coast and Star Brisbane approved a single trip CCF limit of \$10,000,000 for Customer 9 in respect of one of his accounts.

On 16 September 2019, Star Gold Coast and Star Brisbane approved a single trip CCF limit of \$20,000,000 for Customer 9.

On 9 December 2019, Star Gold Coast and Star Brisbane approved a single trip CCF limit of \$10,000,000 for Customer 9.

On 20 January 2020, Star Gold Coast and Star Brisbane approved a single trip CCF limit of \$30,000,000 for Customer 9.

- vi. Customer 9 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 9 operated junkets in non-exclusive private gaming rooms, including Pit 6, Pit 11 and Pit 12.

Customer 9 operated junkets in exclusive private gaming rooms, including Pit 8, Pit 9, Salon 21, Salon 22, Salon 69 and Salon 90.

- vii. Customer 9 had three junket representatives at Star Qld; and
- viii. Customer 9 and his junket representatives facilitated the provision of high value designated services to over 50 junket players at Star Qld including players who posed higher ML/TF risks and players who Star Qld considered had acted suspiciously such as Customer 9 himself;

Particulars

See paragraphs 643 to 649 above.

On 31 January 2020, a Star Qld customer who had been playing as a junket player under Customer 9's junket since 26 January 2020 presented to the cashier with a staff member from a private gaming room and handed over what he said was \$120,000 in cash. Most of the cash had Star straps but some of the cash had straps from another casino. When counted, the cash totalled \$119,000. The funds were paid into the customer's FMA. A review of TTRs relating to the customer over the previous 30 days found four incoming transactions totalling \$53,350 with a further \$60,000 coming from a source that Star Qld could not identify. The customer had recorded a loss of \$660,000 under Customer 9's junket program: SMR dated 4 February 2020.

On 5 February 2020, Customer 9 cashed out \$100,000 in chips and handed them to a junket player on Customer 9's junket. The junket player's activity supported the transaction but a TTR was reported in respect of Customer 9: SMR dated 7 February 2020.

On 26 February 2020, a junket player on Customer 9's junket was escorted from his room with \$330,000 in cash by three members of Star Qld staff. The junket player did not want to carry the funds with him and arrived at the cashier with the funds in a cardboard bag. When asked where the cash came from, the junket player advised that it was from chip cash outs under the Customer 9's junket. Star Qld noted that any chip cash outs of \$10,000 or more would have been reported under Customer 9's profile or under one of his junket representatives. The cash was counted and authenticated while the junket player returned to his room. The funds were deposited into the junket player's SKA. The junket player asked a Cage supervisor if the funds could be telegraphically transferred to a bank in a foreign country. The Cage supervisor indicated that this would require senior management approval. The funds remained in the junket player's account. As the funds had been cashed out by Customer 9's junket representative, Star Qld was unaware of where the funds would be sent or who's gaming activity the funds originated from: SMR dated 27 February 2020.

On 13 March 2020, Star Qld identified that:

- a. one junket player on Customer 9's junket had a recorded junket loss of \$486,700 in January 2020 and a loss of \$4,025,320 in February 2020. The patron's occupation was recorded as being in government, however Star Qld was unaware of any further details;
- b. a second junket player on Customer 9's junket had a recorded junket loss of \$583,000 in January 2020 and a loss of \$578,410 in February 2020. Star Qld was unaware of the patron's source of funds and occupation;
- c. a third junket player on Customer 9's junket had a recorded junket loss of \$113,400 in January 2020 and a loss of \$567,140 in February 2020. The patron's occupation was recorded as being a financial controller; and
- d. a fourth junket player on Customer 9's junket had a recorded junket win of \$58,500 in January 2020 and a loss of \$293,625 in February 2020. The junket player refused to provide Star Qld with her source of funds and occupation.

Star Qld was unaware of any arrangement for repayment to Customer 9 by any of the four junket players: SMRs dated 13 March 2020.

On 12 March 2020, a Star Qld customer presented \$170,100 to the cashiers. The cash comprised \$100 notes in Star straps with the month 'February' stamped on it. The customer advised that the cash had come from payouts of winnings from Customer 9's junket that commenced on 26 January 2020. Since that date, the customer had recorded winnings of \$8,700,000. After depositing the funds into his FMA, the customer transferred the entire amount into his SKA which already had a balance of \$330,000 from a cash deposit made on 26 February 2020. Star Qld noted that the \$170,100 in cash would have been the result of chip cash outs made by Customer 9's junket representative, some of which would have been over the reporting threshold. However, the TTRs were not recorded against the customer: SMR dated 18 March 2020.

- d. Customer 9 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 23 May 2017 and 16 March 2020, Customer 9 was a player on ten junkets at Star Sydney operated by two junket operators, being Customer 4 and himself
 - ii. the junket operated by Customer 4 was funded by a person other than the junket operator, being Customer 1; and

- iii. between 23 May 2017 and 16 March 2020, Star Sydney recorded high and escalating turnover totalling \$276,637,413 with wins of \$846,525 for Customer 9's gaming activity on junket programs;

Particulars

In 2017, Customer 9's turnover on junket programs was \$77,292,982 with wins of \$689,340.

In 2018, Customer 9's turnover on junket programs was \$14,637,714 with wins of \$107,445.

In 2020, Customer 9's turnover on junket programs significantly escalated to \$184,706,717 with wins of \$49,740.

- e. Customer 9 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 26 January 2017 and 16 March 2020, Customer 9 was a player on ten junkets at Star Qld operated by himself; and
 - ii. between 26 January 2017 and 16 March 2020, Star Qld recorded high and escalating turnover totalling \$401,813,360 with wins of \$1,679,075 for Customer 9's gaming activity on junket programs;

Particulars

In 2017, Customer 9's turnover on junket programs was \$55,416,634 with wins of \$700,290.

In 2018, Customer 9's turnover on junket programs was \$15,021,812 with wins of \$81,915.

In 2020, Customer 9's turnover on junket programs significantly escalated to \$331,374,914 with wins of \$896,870.

- f. designated services provided to Customer 9 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. on 26 February 2018, Customer 9 referred a player to Star Qld;

Particulars

See paragraph 625 above.

Customer 9 received a commission on amounts wagered by the referred customer, who Star Qld dealt with directly.

- h. on 24 May 2017 and 15 February 2018, Customer 9 was referred by a player referrer to Star Qld;

Particulars

See paragraph 625 above.

The referrer received a commission on amounts wagered by Customer 9, who Star Qld dealt with directly.

- i. Customer 9 was connected to other customers at Star Qld and Star Sydney, including junket funders and junket operators of the Suncity and other international junkets;

Particulars

Customer 9 was the provider of payment channels to repay CCFs, including in respect of:

- a. Customer 28, the junket operator of an international junket;
- b. Customer 25, the junket operator, funder and employee of a second international junket; and
- c. Customer 1, the funder of the Suncity junket.

Customer 9 was connected to customers through their use of the high risk Customer 9 channel, including Customer 1, Customer 2, Customer 5, Customer 19, Customer 20, Customer 21, Customer 22, Customer 24, Customer 25, Customer 28, Customer 34, Customer 35, Customer 37, Customer 40, and Customer 45.

- j. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 9 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 16 August 2017 and 24 October 2019, Star Sydney received 13 telegraphic transfers totalling \$12,304,586, each of which was made available to Customer 9's account.

Between 10 February 2018 and 13 September 2019, Star Sydney received 21 telegraphic transfers totalling HKD43,670,266 into its foreign currency accounts, each of which was made available to Customer 9's account.

Remittances out of the casino environment

See paragraph 327 above.

Between 8 September 2017 and 7 February 2020, Star Sydney sent four telegraphic transfers totalling \$2,114,643 from Customer 9's account to Australian bank accounts.

Between 9 September 2017 and 29 June 2019, Star Sydney sent three telegraphic transfers totalling \$1,062,950 from Customer 9's account to overseas bank accounts.

On 13 January 2020, Star Sydney sent a telegraphic transfer of \$273,118 from Customer 9's Star Sydney account to his personal bank account overseas.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 3 September 2018, a Star Sydney junket operator deposited \$450,000 in cash into his Star Sydney account: SMR dated 4 September 2018.

Between 26 February 2018 and 25 February 2020, Star Sydney sent three transfers totalling \$737,996 from Customer 9's account to Star Qld.

Between 20 August 2019 and 25 January 2021, Star Sydney received five transfers totalling \$3,252,002 from Star Qld, each of which was made available to Customer 9's account.

- k. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 9 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 3 March 2017 and 19 April 2017, Star Qld received transfers of \$2,302,413 and \$906,556 which it made available to Customer 9 to redeem an outstanding CCF.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 19 February 2020, Star Qld facilitated a telegraphic transfer of \$2,466,539 from Customer 9's FMA at Star Gold Coast to another Australian casino.

On 18 March 2020, Star Qld facilitated a telegraphic transfer of \$210,000 from Customer 9's FMA at Star Gold Coast to an Australian bank account for the benefit of a third party.

On 19 March 2020, Star Sydney facilitated a telegraphic transfer of \$7,014,050 from Customer 9's Star Qld account to his personal bank account overseas. The funds were said to be derived from gaming activities.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 18 April 2017 and 25 February 2020, Star Qld received six transfers totalling \$2,530,857 from Star Sydney, each of which was made available to Customer 9's FMA at Star Gold Coast. At least \$325,851 of these funds were transferred for the purpose of redeeming an outstanding CCF held by Customer 9.

Between 5 August 2018 and 6 June 2020, Star Qld facilitated three transfers totalling \$2,134,241 from Customer 9's FMA at Star Gold Coast to Star Sydney.

- I. Customer 9 operated a high risk overseas channel which facilitated the provision of high value designated services to customers by Star Sydney and Star Qld;

Particulars

See paragraphs 398, 421, 439, 440 and 441 above.

At least AUD 96 million and HKD 254 million was remitted to Star Sydney and Star Qld customers through the Customer 9 channels between 10 January 2018 and 2 September 2019 where the source of funds could not be known.

- m. Customer 9, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

For example, between 30 May 2017 and 27 January 2020, Star Sydney gave the AUSTRAC CEO TTRs detailing account deposits made by Customer 9 totalling \$129,050, account withdrawals totalling \$21,540, other monetary values out totalling \$12,005 and chip exchanges totalling \$622,550.

On 3 September 2018, a Star Sydney junket operator deposited \$450,000 in cash into his Star Sydney account. The cash was all in \$100 notes with straps issued by Star. The junket operator had recorded cash outs in the previous few weeks which justified the return of these funds. However, a few hours later, the junket operator requested that the \$450,000 deposited as well as an additional \$716,695 be transferred to Customer 9. Star Sydney was unaware of any link between Customer 9 and the other Star Sydney junket operator: SMR dated 4 September 2018.

- n. Customer 9, and persons associated with his junket, transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1008.c.viii above.

For example, between 2 February 2017 and 16 March 2020, Star Qld gave the AUSTRAC CEO TTRs detailing account deposits made by Customer 9 totalling \$301,690, account withdrawals totalling \$60,000 and chip exchanges totalling \$702,495.

- o. at various times, Customer 9 had significant parked or dormant funds in his SKA at Star Sydney;

Particulars

See paragraph 284 above.

Between 16 March 2020 and 25 January 2021, Customer 9 had \$57,237 parked in his SKA.

- p. at various times, Customer 9 had significant parked or dormant funds in his FMA at Star Qld;

Particulars

See paragraph 284 above.

Between 22 July 2020 and 15 January 2021, Customer 9 had \$1,838,610 parked in his FMA.

- q. Customer 9 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraphs 337 and 338 above.

On 6 May 2019 and 18 January 2020, Star Sydney issued a letter of comfort purportedly confirming Customer 9's winnings and rebate under a junket program.

- r. Customer 9 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 9 had access to private gaming rooms, including the Sovereign Room, Lakes Salons, Rivers Salons, Harbourside Salons and Oasis, at Star Sydney.

- s. Customer 9 had access to private gaming rooms at Star Gold Coast; and

Particulars

See paragraph 616 above.

Customer 9 had access to private gaming rooms, including Pit 8, Pit 10, Salon 21, Salon 22, Salon 69, Salon 90 and the Sovereign Room, at Star Gold Coast.

- t. Star Sydney and Star Qld did not have adequate reason to believe that Customer 9's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 9 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 9 was a business consultant and very wealthy.

Despite that Customer 9 operated the high risk Customer 9 channels, which facilitated the provision of high value designated services to customers by Star Sydney and Star Qld, Star Sydney and Star Qld did not appropriately review, update and verify Customer 9's source of wealth or source of funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 9

1009. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 9 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 9.
- a. On and from 30 November 2016, Customer 9 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 9's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 9 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

Until 18 June 2019, Customer 9 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 18 June 2019, Customer 9 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 9 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 9's transactions

1010. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 9's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 9, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 9's junket as turnover was recorded against Customer 9 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 9 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the high risk Customer 9 channels that he operated;

Particulars

See paragraph 441 above.

- e. Star Sydney and Star Qld provided designated services to Customer 9 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 9.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 9 on 3 September 2019 and 5 February 2020: See *Customer 9's risk profile*.

The review, update and verification of Customer 9's KYC information

1011. Star Sydney and Star Qld did not review, update and verify Customer 9's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 9's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 9's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 9's source of wealth or source of funds: see *Customer 9's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 9's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 9.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 16 November 2017, Star Sydney prepared a summary of information pertaining to Customer 9. The summary included that:

- a. Customer 9 was not a foreign PEP and was not affiliated with any criminality;
- b. Customer 9 had shareholdings in a foreign company; and
- c. no other adverse information was available in relation to Customer 9.

Despite that Customer 9 operated the high risk Customer 9 channels which facilitated the provision of high value designated services to customers by Star Sydney and Star Qld, Star Sydney and Star Qld did not appropriately review, update and verify Customer 9's source of wealth or source of funds.

Failure to apply appropriate due diligence suited to Customer 9's high ML/TF risks

1012. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 9 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 9; and
- c. reviewing and updating Customer 9's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 9 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 9*.

ECDD triggers in respect of Customer 9

1013. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 9 following any ECDD triggers in respect of Customer 9.

Particulars

Section 36(1)(a) and (b) of the Act.

1014. Customer 9:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 4 September 2018, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 9.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 4 February 2020 and 18 March 2020, Star Qld gave the AUSTRAC CEO eight SMRs with respect to Customer 9.

1015. Each matter pleaded in paragraph 1014 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1016. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 9 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 9 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 9 and the provision of designated services to Customer 9 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 18 June 2019 and 23 February 2021, Star Sydney and Star Qld conducted ECDD in respect of Customer 9. The ECDD screenings did not identify any adverse information in respect of Customer 9.

At least AUD 96 million and HKD 254 million was remitted to Star Sydney and Star Qld customers through the Customer 9 channels between 10 January 2018 and 2 September 2019 where the source of funds could not be known.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 9's higher ML/TF risks, including that Customer 9 operated the high risk Customer 9 channels which facilitated the provision of high value designated services to customers by Star Sydney and Star Qld: see *Customer 9's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 9's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 9's source of wealth or source of funds: see *Customer 9's risk profile*.

- b. Customer 9 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(6) and (7) of the Rules.

See paragraph 817 above.

Contravention of s36 of the Act in respect of Customer 9

1017. By reason of the matters pleaded from paragraphs 1003 to 1016 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 9 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1018. By reason of the matters pleaded at paragraph 1017, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 9.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 10

1019. Customer 10 was a customer of Star Sydney during the relevant period.

Particulars

Customer 10 was a customer of Star Sydney from at least 19 June 2010.

On 13 September 2019, Star Sydney issued a WOL in respect of Customer 10.

1020. Star Sydney provided Customer 10 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder. Between 2017 and 2018, Star Sydney recorded that junkets funded by Customer 10 had a turnover exceeding \$650 million.

Particulars

On 22 June 2010, Star Sydney opened an FMA and SKA for Customer 10 under one of his aliases which were closed on 24 September 2019 (item 11, table 3, s6 of the Act).

On 26 March 2012, Star Sydney opened an FMA and SKA for Customer 10 under a different alias which were closed on 11 December 2018 (item 11, table 3, s6 of the Act).

Between 27 November 2013 and 6 October 2018, Star Sydney approved CCFs for Customer 10 on multiple occasions ranging from \$2,000,000 to \$20,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 10 (items 31 and 32, table 1, s6 of the Act).

See *Customer 10's risk profile* below.

1021. Customer 10 was a customer of Star Qld during the relevant period. Between 2017 and 2018, Star Qld recorded turnover exceeding \$4.4 billion for Customer 10.

Particulars

Customer 10 was a customer of Star Qld from at least 17 November 2016.

On 13 September 2019, Star Qld issued a WOL in respect of Customer 10.

1022. Star Qld provided Customer 10 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder and a junket player. Between 2017 and 2018, Star Qld recorded that junkets funded by Customer 10 had a turnover exceeding \$4.4 billion.

Particulars

On 17 November 2016, Star Qld opened an FMA for Customer 10 under one of his aliases which was closed on 6 September 2021 (item 11, table 3, s6 of the Act).

On 27 April 2018, Star Qld opened an SKA for Customer 10 under a different alias which was closed on 9 September 2021 (item 11, table 3, s6 of the Act).

Between 23 May 2017 and 6 October 2018, Star Qld approved CCFs for Customer 10 on multiple occasions ranging from \$10,000 to \$20,000,000 (item 6, table 1, s6 of the Act).

See *Customer 10's risk profile* below.

1023. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 10.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 10's risk profile

1024. On and from 30 November 2016, Customer 10, and the provision of designated services to Customer 10 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 10's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 10 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 10;

Particulars

On 29 June 2010 and 28 November 2013, Star Sydney gave the AUSTRAC CEO an SMR.

The SMRs reported that Customer 10 transacted in large amounts of cash which Star Sydney considered to be suspicious and that Customer 10 had two different passports with two different aliases: see paragraphs 1024.a.v and 1024.a.viii below.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 10;

Particulars

On 18 November 2016, Star Qld gave the AUSTRAC CEO an SMR.

The SMRs reported that Customer 10 transacted in large amounts of cash at Star Qld, that Customer 10 had two different passports with two different aliases and received a third party deposit: see paragraphs 1024.a.viii and 1024.a.xi below.

- iii. Customer 10 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;

Particulars

In 2015, Customer 10 was one of the top ten junket funders by number of junkets funded and by funding provided at Star Sydney.

Between 30 June 2015 and 8 November 2016, Customer 10 funded 15 of Customer 11's junkets totalling \$125,787,750.

Customer 10 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 10 between 3 April 2015 and 8 November 2016 was \$2,813,921,184 with losses of \$40,457,470. Customer 10 accounted for nearly 90% of that turnover as a junket player on Customer 11's junket.

The Customer 11 junkets funded by Customer 10 were each represented by Customer 16.

The junkets funded by Customer 10 facilitated the provision of high value designated services to junket representatives and at least eight

junket players including foreign PEPs and players in respect of whom Star Sydney had formed suspicions such as Customer 53 and Customer 10 himself.

- iv. Customer 10 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 30 June 2015 and 10 October 2016, Customer 10 was a player on 14 junkets at Star Sydney operated by Customer 11.

Each of the junkets were funded by Customer 10.

Between 30 June 2015 and 8 November 2016, Star Sydney recorded high turnover totalling \$2,529,111,845 with losses of \$38,150,550 for Customer 10's gaming activity on junket programs.

- v. Customer 10 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

Between 23 June 2010 and 2 April 2013, Star Sydney gave the AUSTRAC CEO 14 TTRs detailing incoming payments to Customer 10 totalling \$320,841 which comprised:

- a. \$122,841 in account deposits; and
- b. \$198,000 in chip exchanges.

Between 21 June 2010 and 5 July 2016, Star Sydney gave the AUSTRAC CEO 125 TTRs detailing outgoing payments from Customer 10 totalling \$3,937,987 which comprised:

- a. \$1,970,796 in account withdrawals;
- b. \$1,595,525 in chip exchanges;
- c. \$10,234 in cash exchanges; and
- d. \$361,432 in other monetary values.

On 28 June 2010, Customer 10 cashed out \$139,195 at Star Sydney. Star Sydney considered this to be suspicious due to the large sum of cash involved: SMR dated 29 June 2010.

- vi. Customer 10 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. On 17 November 2016, Star Qld recorded high turnover on individual rebate programs totalling \$27,788,540 for Customer 10 with losses of \$2,900,000;
- vii. Customer 10 transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

On 17 November 2016, Customer 10 withdrew \$100,000 in cash from his FMA: SMR dated 18 November 2016.

- viii. by November 2013, Star Sydney was aware that Customer 10 had access to two different passports which had different names and dates of birth;

Particulars

On 11 October 2012, Customer 10 changed his name from the name known to Star Sydney to an alias. Star Sydney accepted as identification a copy of Customer 10's passport with the alias.

In November 2013, Customer 10 produced a passport with the original name known to Star Sydney and requested that Star Sydney change his name to the alias in its records. Both passports were current, but showed different birth years: SMR dated 28 November 2013.

- ix. by November 2016, Star Qld was aware that Customer 10 had access to two different passports which had different names and dates of birth;

Particulars

In November 2016, following a review of Customer 10's account, Star Qld became aware that Customer 10 used multiple aliases and passports which contained different dates of birth: SMR dated 18 November 2016.

- x. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 10 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 9 April 2013, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$1,000,724 where Customer 10 was named as the ordering customer and beneficiary.

On 5 July 2016 and 8 July 2016, Star Sydney received two telegraphic transfers totalling \$2,032,943, both of which were made available to Customer 10's SKA. Some of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 8 July 2015 and 28 January 2016, Star Sydney sent five telegraphic transfers, totalling \$25,668,843 from Customer 10's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- xi. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 10 by remitting large amounts of money into and out of the casino environment via his accounts; and

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

In November 2016, Star Qld received \$3,000,074 from two third party company accounts overseas and one unknown third party account overseas, which it made available to Customer 10's account.

Customer 10 had recorded a loss of \$2,393,000 at the time and withdrew \$100,000 of the funds in cash: SMR dated 18 November 2016.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 20 November 2016, Star Qld facilitated a transfer of \$222,660 from Customer 10's FMA at Star Gold Coast to an Australian bank account.

- xii. between 27 November 2013 and 11 April 2016, Star Sydney provided Customer 10 with significant amounts of credit upon request, up to limits of \$13,700,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 27 November 2013, Star Sydney approved a single trip CCF limit of \$2,000,000 for Customer 10.

On 20 May 2015, Star Sydney senior management, including the Chief Executive Officer and the Group Chief Financial Officer, approved a permanent active CCF limit of \$5,000,000 with an additional trip only limit of \$2,000,000 for Customer 10. Star Sydney senior management approved this CCF for the purpose of funding Customer 11's junket program and with the knowledge that the junket representative, Customer 16, intended to withdraw \$2,000,000 from the junket and transfer the same to Customer 60.

On 27 June 2015, Star Sydney senior management, including the General Manager (Credit & Collections) and the Group General

Counsel (Counsel & Company Secretary) approved a single trip CCF limit of \$13,700,000 for Customer 10.

On 11 January 2016, 4 February 2016 and 11 April 2016, Star Sydney senior management, including the Chief Executive Officer and the Group Chief Financial Officer approved a single trip CCF limit of \$10,000,000 for Customer 10.

On 26 May 2016, the Chief Executive Officer and the Group Chief Financial Officer approved a permanent active CCF limit of \$10,000,000 for Customer 10 which was deactivated on 21 November 2016.

Customer 10's risk profile from 30 November 2016

- b. Customer 10 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 10 was a foreign businessman with links to a foreign political party.

- c. Customer 10 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
- i. between 12 January 2017 and 30 October 2018, Customer 10 funded seven junkets at Star Sydney;

Particulars

In 2016, Customer 10 was one of the top ten junket funders by funding provided at Star Sydney.

At Star Sydney, Customer 10 funded:

- a. three junkets totalling \$30,000,000 for Customer 11's junket;
and
- b. four junkets for Customer 15's junket.

Customer 10 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 10 between 12 January 2017 and 30 October 2018 was \$655,238,591 with losses of \$41,606,085;

Particulars

In 2017, junket programs funded by Customer 10 had a turnover of \$489,800,753 with losses of \$31,704,620.

In 2018, junket programs funded by Customer 10 had a turnover of \$165,437,838 with losses of \$9,901,465.

- iii. between 12 January 2017 and 6 October 2018, Star Sydney provided Customer 10 with significant amounts of credit upon request, up to limits of \$20,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 12 January 2017 and 2 May 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$10,000,000 for Customer 10.

On 16 August 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$10,000,000 for Customer 10 which was deactivated on 6 February 2019 after media reports that Customer 10's passport and permanent residency had been cancelled by Australian officials.

On 6 October 2018, Star Sydney approved a single trip CCF limit of \$20,000,000 for Customer 10.

- iv. the junkets funded by Customer 10 were each represented by Customer 16; and
- v. the junkets funded by Customer 10 facilitated the provision of high value designated services to junket operators, junket representatives and junket players including foreign PEPs and players in respect of whom Star Sydney had formed suspicions such as Customer 53;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

See Customer 53's risk profile.

- d. Customer 10 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 26 May 2017 and 4 December 2018, Customer 10 funded 14 junkets at Star Qld;

Particulars

In 2017 and 2018, Customer 10 was one of the top ten junket funders by number of junkets funded and by funding provided at Star Gold Coast.

At Star Qld, Customer 10 funded:

- a. 14 junkets totalling \$203,100,000 for Customer 15's junket;
and
- b. one junket totalling \$10,000,000 for Customer 16's junket.

Customer 10 was a junket player on each junket that he funded at Star Gold Coast.

Customer 10 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

- ii. Star Qld recorded that the total cumulative turnover of junkets funded by Customer 10 between 11 November 2017 and 4 December 2018 was \$4,457,187,670 with losses of \$76,905,500;

Particulars

In 2017, junket programs funded by Customer 10 had a turnover of \$306,279,480 with losses of \$1,233,500.

In 2018, junket programs funded by Customer 10 had a turnover of \$4,150,908,190 with losses of \$75,672,000.

- iii. between 23 May 2017 and 6 October 2018, Star Qld provided Customer 10 with significant amounts of credit upon request, up to limits of \$20,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 23 May 2017, Star Qld senior management, including the Managing Director and CEO, and Group Chief Financial Officer approved a single trip CCF limit of \$10,000,000 for Customer 10.

On 16 August 2017, Star Gold Coast approved a permanent active CCF limit of \$10,000,000 for Customer 10 which was deactivated on 6 February 2019 after media reports that Customer 10's passport and permanent residency had been cancelled by Australian officials.

On 13 November 2017, Star Qld senior management, including the Managing Director and CEO, and Group Chief Financial Officer approved a single trip CCF limit of \$10,000,000 with an additional trip only limit of \$2,000,000 for Customer 10.

On 25 January 2018 and 19 March 2018, Star Gold Coast approved a single trip CCF limit of \$10,000,000 with an additional trip only limit of \$5,000,000 for Customer 10.

On 15 August 2018 and 6 October 2018, Star Gold Coast approved a single trip CCF limit of \$20,000,000 for Customer 10.

- iv. the junkets funded by Customer 10 were each represented by Customer 16; and
- v. the junkets funded by Customer 10 facilitated the provision of high value designated services to at least four junket players including foreign PEPs and players in respect of whom Star Qld had formed suspicions such as Customer 16, Customer 53 and Customer 10 himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

See *Customer 16's risk profile* and *Customer 53's risk profile*.

See paragraphs 1024.e, 1024.j and 1024.l.

- e. Customer 10 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 26 May 2017 and 4 December 2018, Customer 10 was a player on 15 junkets at Star Qld operated by Customer 15 and Customer 16 and funded by Customer 10; and
 - ii. between 26 May 2017 and 4 December 2018, Star Qld recorded high and escalating turnover totalling \$4,424,240,990 with losses of \$74,092,250 for Customer 10's gaming activity on junket programs;

Particulars

In 2017, Customer 10's turnover on junket programs was \$493,291,890 and a win of \$3,546,750.

In 2018, Customer 10's turnover on junket programs significantly escalated to \$3,930,949,100 and a loss of \$77,639,000.

Customer 10 was the only junket player on several Customer 15 junket programs at Star Qld: SMRs dated 20 March 2018; 4 April 2018.

- f. Customer 10 used his significant credit at Star Sydney and Star Qld to draw down funds and provide them to a junket operator as front money for his use during junket programs on which he was the sole or primary junket player;

Particulars

See paragraphs 1024.c and 1024.d above.

- g. designated services provided to Customer 10 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 10 by remitting large amounts of money into and within the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 8 August 2018 and 14 November 2018, Customer 10 deposited a total of \$11,738,687 into the EEIS Patron accounts, which Star Sydney made available to Customer 10 through the EEIS remittance channel.

Between 14 September 2018 and 14 November 2018, third party companies acting on behalf of Customer 10 deposited a total of \$18,821,884 into the EEIS Patron accounts, which Star Sydney made available to Customer 10 through the EEIS remittance channel.

Remittances into the casino environment

See paragraph 327 above.

Between 19 December 2016 and 30 December 2017, Star Sydney received four telegraphic transfers totalling \$4,408,181, each of which was made available to Customer 10's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 28 February 2018, Star Sydney sent a transfer of \$30,000 from Customer 10's account to Star Qld.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 10 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 2 February 2018 and 20 September 2018, Star Qld received nine telegraphic transfers totalling \$39,041,139, each of which was either made available to Customer 10's SKA at Star Gold Coast or transferred for the purpose of redeeming outstanding CCFs.

On 31 May 2018, Star Qld received seven telegraphic transfers totalling \$13,849,287, which it made available to Customer 10's account. The transfers appeared to come from multiple domestic and foreign sources. Customer 10 used the funds to redeem a cheque used to fund his previous trip in May 2018.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

In December 2017, Customer 10 requested that Star Qld transfer \$4,506,185 in junket winnings to his personal account: SMR dated 12 December 2017.

On 29 May 2017 and 3 March 2018, Star Qld facilitated two telegraphic transfers totalling \$15,495,813 from Customer 10's FMA at Star Gold Coast to Australian bank accounts.

On 4 June 2018, Customer 10 had recorded winnings at Star Qld of \$20,033,360. Customer 10 requested that Star Qld send his winnings by telegraphic transfer to his personal account: SMR dated 7 June 2018.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

On 28 February 2018, Star Qld received a transfer of \$30,000 from Star Sydney, which it made available to Customer 10's account at Star Gold Coast.

- j. Star Qld was aware that Customer 10 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Large and unusual transactions in 2017

On 10 December 2017, Customer 10 provided \$10,000,000 in front money for Customer 15's junket program at Star Qld on which he was a player. At settlement, Customer 15 took \$385,000 in cash, the front money was repurchased and Star Qld sent by telegraphic transfer the remaining \$4,506,185 to Customer 10's nominated personal account: SMR dated 12 December 2017.

Large and unusual transactions in 2018

On 24 January 2018, Customer 10 provided \$10,000,000 in front money by drawing down on his CCF for Customer 15's junket program at Star Qld on which he was a player. Customer 53 was also a player on Customer 15's junket. On 2 February 2018, Star Qld received a telegraphic transfer of \$10,000,000 for the credit of Customer 10 which was used to redeem his CCF. The cheque was immediately redrawn to \$10,000,000 and another \$5,000,000 was subsequently drawn down, raising the total front money of the junket program to \$25,000,000. By 7 February 2018, Customer 10 was experiencing a loss at Star Qld of \$18,800,000 on the junket program and Customer 53 had recorded winnings of \$348,000: SMR dated 7 February 2018.

On 4 June 2018, Customer 10 had recorded winnings at Star Qld of \$20,033,360. Customer 10 requested that the funds be transferred to an account under his other alias as he did not want funds going to an account in the name he preferred to use in his dealings with Star Qld. Star Qld also noted that Customer 10's date of birth different between the two accounts. Star Qld considered this request to be unusual: SMR dated 7 June 2018

- k. Customer 10 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

On 3 February 2019, Star Sydney gave the AUSTRAC CEO a TTR detailing an outgoing payment from Customer 10 totalling \$100,000.

- l. Customer 10, and persons associated with his junket activity, transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

See paragraphs 611 to 618 above.

In April 2018, Customer 10 was the only junket player on Customer 15's junket program. Customer 16 was the junket representative. Customer 16 withdrew \$100,000 in cash from Customer 15's FMA and handed the cash to Customer 10. Star Qld suspected that Customer 15, Customer 16 and Customer 10 had been conducting transactions of this nature and value during recent trips: SMR dated 4 April 2018.

On 5 February 2018 and 2 October 2018, Star Qld gave the AUSTRAC CEO a TTR detailing outgoing payments from Customer 10 totalling \$43,210 which comprised chip exchanges.

- m. in 2019, despite the high ML/TF risks posed by the provision of designated services to Customer 10, Star Sydney actively sought to develop its business relationship with him;

Particulars

On 3 February 2019, Star Sydney made available to Customer 10 and his guests a private jet in a foreign country. After difficulties associated with his flight, Customer 10 asked that Star Sydney provide \$100,000 in cash to each guest as lucky money on arrival at Sydney airport. The funds were drawn from Customer 10's account despite Customer 10 not being in the Australia at the time. This transaction was approved by the President of International VIP Sales and the Chief Casino Officer and packaged for delivery by Star Sydney staff members at the airport.

This exchange took place immediately before Customer 10 was prevented from returning to Australia by Australian officials.

- n. in 2017, 2018 and 2019, Customer 10 was the subject of law enforcement enquiries at Star;

Particulars

In June 2017, Star Qld assisted a law enforcement agency in an investigation in respect of Customer 10. The details of the investigation were not shared with Star Qld.

In February 2018, Star Sydney received a request from a law enforcement agency. Star Sydney provided details associated with Customer 10.

Interactions and information shared between Star Sydney and Star Qld, and law enforcement agencies, were stored on Star's investigations database. Star Sydney and Star Qld had access to the investigations database: see paragraph 49 above.

On 12 September 2019, Star Sydney received a request from a law enforcement agency to make available to that agency any funds held on behalf of Customer 10. Customer 10 was issued with a WOL on the following day.

- o. Customer 10 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 10 had access to private gaming rooms at Star Sydney, including the Sovereign Room.

- p. Customer 10 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 10 had access to private gaming rooms at Star Qld, including the Sovereign Room, Salon 21, Salon 22, Salon 69, Salon 88, Salon 99, Pit 8 and the Club Conrad.

- q. by 2019, a decision of an Australian court named Customer 10 as a person with foreign business interests and involved in significant cross-border movement of funds;

Particulars

The Australian court found that:

- a. AUSTRAC records showed tens of millions of dollars were transferred by Customer 10 into and out of Australia between January 2016 and August 2019. Between December 2018 and August 2019, the amount transferred out of Australia exceeded the amount transferred in by over \$45,000,000; and
- b. Customer 10 had significant business interests in foreign countries and the structures and operations of his foreign companies allow Customer 10 easily to move assets between jurisdictions.

- r. in 2022, the ILGA Bell inquiry heard evidence in respect of Customer 10 concerning the business relationship between Star and Customer 10 prior to him being issued with a WOL; and

Particulars

In 2022, the ILGA Bell inquiry took evidence from the General Manager (Financial Crime and Investigations), including that, prior to being issued with a WOL, Customer 10:

- a. between 2010 and 2018 had a table games buy-in at Star Casino properties of \$1,781,000,000;
 - b. may have allowed other customers to use his buy-in for their own gambling purposes;
 - c. was Star's third top debtor in March 2017;
 - d. had presented different passports with different names and birthdays; and
 - e. had not been considered for exclusion in December 2017 or February 2019 because he had not been charged or convicted of a relevant crime and his gambling activity was consistent with a high-value customer.
- s. Star Sydney and Star Qld did not have adequate reason to believe that Customer 10's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 10 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 10 had significant business interests in Australia and overseas.

By 30 November 2016, Star Sydney and Star Qld were aware that Customer 10 was a foreign PEP who had access to multiple passports with different names and dates of birth.

In 2017, Customer 10's turnover escalated significantly at Star Sydney. In 2018, Customer 10's turnover escalated very significantly at Star Qld.

By 2018, each of Star Sydney and Star Qld had received law enforcement enquiries in respect of Customer 10.

However, it was not until Customer 10 was no longer able to enter Australia and following a further law enforcement enquiry that Star Sydney and Star Qld issued a WOL in respect of him.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 10

1025. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 10 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 10.

- a. On and from 30 November 2016, Customer 10 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 10's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 26 June 2017 that Customer 10 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 30 April 2015, Customer 10 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 26 June 2017, Customer 10 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 10 was rated very high, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 10's transactions

1026. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 10's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 10, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 10 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the EEIS remittance channel;

Particulars

See paragraphs 493 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 10 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 10 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 10.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 10 on 10 December 2017: see *Customer 10's risk profile*.

The review, update and verification of Customer 10's KYC information

- 1027. Star Sydney and Star Qld did not review, update and verify Customer 10's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 10's business with each of Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 10's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 10's source of wealth and source of funds were not legitimate: see *Customer 10 risk profile* above.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 10's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 10.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 10's high ML/TF risks

1028. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 10 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 10; and
- c. reviewing and updating Customer 10's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 10 at a time before the date of the ECDD triggers below: see *ECDD triggers in respect of Customer 10*.

ECDD triggers in respect of Customer 10

1029. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 10 following any ECDD triggers in respect of Customer 10. In particular, because Customer 10 was a foreign PEP, Star Sydney and Star Qld were required to:

- a. undertake detailed analysis of Customer 10's KYC information including taking reasonable measures to identify the source of Customer 10's wealth and the source of Customer 10's funds; and
- b. seek senior management approval for continuing a business relationship with Customer 10 and whether Star Sydney and Star Qld should continue to provide a designated service to Customer 10.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3), 15.10 and 15.11 of the Rules.

1030. Customer 10:

- a. at all times from 30 November 2016 was a foreign PEP.

Particulars

See Customer 10's risk profile above.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 12 December 2017 and 7 June 2018, Star Qld gave the AUSTRAC CEO six SMRs with respect to Customer 10.

- c. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 26 June 2017, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 10 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 10* above.

1031. Each matter pleaded in paragraph 1030 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1032. On and from 26 June 2017, Star Sydney and Star Qld were aware that that Customer 10 was a foreign PEP.

1033. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 10 following the ECDD triggers:

- a. on each occasion prior to 13 September 2019 that Star Sydney and Star Qld conducted ECDD in respect of Customer 10 in response to an ECDD trigger, they failed to give appropriate consideration to whether the ML/TF risks posed by Customer 10 and the provision of designated services to Customer 10 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite. In

particular, Star Sydney and Star Qld failed to monitor Customer 10 as a foreign PEP because:

- i. Star Sydney's and Star Qld's analysis of Customer 10's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 10;
- ii. Star Sydney's and Star Qld's analysis of Customer 10's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 10;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 817 above.

On 5 February 2019 and 4 September 2019, Star Sydney and Star Qld conducted ECDD in respect of Customer 10.

By 30 November 2016, Star Sydney and Star Qld were aware that Customer 10 was a foreign PEP who had access to multiple passports with different names and dates of birth.

In 2017, Customer 10's turnover escalated significantly at Star Sydney. In 2018, Customer 10's turnover escalated very significantly at Star Qld.

By 2018, each of Star Sydney and Star Qld had received law enforcement enquiries in respect of Customer 10.

However, it was not until Customer 10 was no longer able to enter Australia and following a further law enforcement enquiry that Star Sydney and Star Qld issued a WOL in respect of him.

The ECDD conducted by Star Sydney did not have appropriate regard to their higher ML/TF risks: see *Customer 10's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 10's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 10's source of wealth and source of funds were not legitimate: see *Customer 10's risk profile*.

- iii. Customer 10 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817.

- iv. any senior management approval regarding Customer 10 failed to give appropriate consideration to the ML/TF risks posed by Customer 10 and the provision of

designated services to Customer 10 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797, 807 and 810 above.

Senior management meeting concerning Customer 10

In March 2018, Star senior management had a meeting regarding Customer 10 which addressed a number of concerns regarding Customer 10, namely his:

- a. access to several, apparently current, passports. Star was aware that Customer 10 had three passports with two different names and two different dates of birth. Star accepted that this may have come about due to foreign translation of Customer 10's name, Customer 10 not being aware of his date of birth and Customer 10's high net worth. Star did not consider that this posed any additional risk;
- b. high level of media coverage. Star considered that the media coverage related to Customer 10's political activities and did not relate to its business relationship with him as Customer 10 did not have undue influence over Star or vice versa. Star did not consider that this posed any additional risk;
- c. being a foreign PEP. Star considered that Customer 10 was treated in the same manner as any other patron of high net worth and that he was not extended any additional privileges or benefits above what was provided by his tier status;
- d. potentially being engaged in illegal activity or money laundering. Star considered that Customer 10 was known to be a high net worth individual with significant assets in Australian and overseas. Star considered that Customer 10's source of wealth was transparent and there were no concerns about his ability to fund his gaming activity. Star noted that there was no open source information linking Customer 10 to criminal activity; and
- e. status as a New South Wales resident and his eligibility to play on rebate programs. Star noted that Customer 10 was deemed to be ineligible to play on rebate programs at Star Sydney but was eligible at Star Qld.

Star Sydney senior management considered that Customer 10's critical risk rating, together with appropriate monitoring, meant that Star could continue to deal with Customer 10. This was despite the fact that, by March 2018, both Star Sydney and

Star Qld had received requests from law enforcement agencies in respect of Customer 10.

In determining that a business relationship could be continued, Star senior management did not have regard to:

- a. Customer 10's source of wealth (r 15.10(2)(a)), having regard to his high and escalating turnover; and
- b. Customer 10's source of funds (r15.10(2)(b)), having regard to his status as a foreign PEP: see *Customer 10's risk profile*.

JRAMM and PAMMs

Between May 2017 and March 2019, Customer 10 was discussed at JRAMM and PAMMs.

The minutes of the meetings noted that:

- a. Customer 10 had multiple account numbers, aliases and passports. A Star staff member was to advise which of Customer 10's two accounts were to be closed (PAMM). However, no outcome was recorded in respect of that item;
- b. Customer 10 lived in a foreign country;
- c. Customer 10 worked in real estate and property development;
- d. there was external and media interest in Customer 10; and
- e. Customer 10 was a junket funder and junket player;

However, it was not until 13 September 2019, following a further law enforcement enquiry in respect of Customer 10, that Star Sydney and Star Qld issued a WOL in respect of Customer 10.

Contravention of s36 of the Act in respect of Customer 10

1034. By reason of the matters pleaded from paragraphs 1019 to 1033 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 10 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1035. By reason of the matters pleaded at paragraph 1034, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 13 September 2019 with respect to Customer 10.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 11

1036. Customer 11 was a customer of Star Sydney during the relevant period.

Particulars

Customer 11 was a customer of Star Sydney from at least 3 May 2015.

1037. Star Sydney provided Customer 11 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 12 January 2017 and 17 June 2017, Star Sydney recorded that junkets operated by Customer 11 had a turnover exceeding \$460 million.

Particulars

On 3 May 2015, Star Sydney opened an FMA and SKA for Customer 11 which were closed on 5 August 2021.

While a customer of Star Sydney, Customer 11 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 11's risk profile below.

1038. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 11.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 11's risk profile

1039. On and from 30 November 2016, Customer 11, and the provision of designated services to Customer 11 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 11's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 11 had the following risk history:
 - i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 11;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on nine occasions between August 2015 and 27 May 2016. The SMRs reported that Customer 11 and persons associated with his junket were involved in cash transactions at Star Sydney totalling at least \$1,000,000.

- a. On 9 August 2015, Customer 11 exchanged a large amount of casino chips for cash at Star Sydney: SMR dated 11 August 2015.
 - b. On 30 December 2015, Customer 11 withdrew \$100,000 cash from his account at Star Sydney: SMR dated 4 January 2016.
 - c. On 4 January 2016, Customer 11 withdrew \$100,000 cash from his account at Star Sydney. Customer 11 requested that the cash be paid to his junket representative, Customer 16: SMR dated 5 January 2016.
 - d. On 6, 9 and 11 February 2016, Customer 11's junket representative, Customer 16, withdrew a total of \$400,000 cash from Customer 11's junket account: SMR dated 8, 10 and 12 February 2016.
 - e. On 18 February 2016, Customer 11 withdrew \$100,000 cash from his account with Star Sydney. Customer 11 placed the cash in a Star branded bag and then played at the gaming tables at Star Sydney: SMR dated 19 February 2016.
 - f. On 22 February 2016, Customer 11's junket representative, Customer 16, withdrew \$200,000 cash from Customer 11's junket account. Star Sydney observed Customer 16 handing over the cash to another junket representative. The junket representative then deposited the cash into another junket operator's account: SMR dated 23 February 2016.
 - g. On 27 May 2016, Customer 11's junket representative, Customer 16, withdrew \$100,000 cash from Customer 11's account. Star Sydney observed Customer 16 handing over \$80,000 in cash to another Star Sydney customer who deposited the funds into his account: SMR dated 30 May 2016.
- ii. Customer 11 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Between 30 June 2015 and November 2016, Customer 11 operated 14 junkets at Star Sydney.

In 2015 and 2016, Customer 11 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Sydney.

Between 30 June 2015 and 8 November 2016, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 11 was \$2,813,921,184 with losses of \$40,457,470.

Customer 11's junkets received \$125,787,750 in funding from Customer 10.

Between 30 June 2015 and 8 November 2016, Star Sydney recorded a cumulative turnover of \$175,741,419 for Customer 11 as a junket player on his own junkets despite not being a junket player at any time.

In 2015, total benefits of \$5,751,307 were payable to Customer 11 by Star Sydney in his capacity as junket operator for rebates earned and percentages of earnings from revenue share programs.

Customer 11 operated junkets in private gaming rooms, such as Sovereign and Pit 80, and in private gaming rooms that were exclusive to the junket, such as Salon 77, Salon 90, Salon 91, Salon 92, Salon 93.

Customer 11 had one junket representative at Star Sydney, which was Customer 16.

Customer 11 and his junket representative facilitated the provision of high value designated services to eight junket players at Star Sydney including players who posed higher ML/TF risks such as Customer 10.

- iii. Customer 11 was connected to other customers at Star Sydney, including junket funders, junket operators, junket representatives and junket players, players who posed higher ML/TF risks such as Customer 10, Customer 16, Customer 53, and players who Star Sydney considered had acted suspiciously;

Particulars

Between 30 June 2015 and 8 November 2016, Customer 10 was a junket funder for 13 junkets operated by Customer 11 at Star Sydney.

One other junket was jointly funded by Customer 10 and Customer 16. During the same period, Customer 16 was a junket representative for all 14 junkets partly or fully funded by Customer 10.

Between 30 June 2015 and 10 October 2016, Customer 10 attended 14 junket programs operated by Customer 11 at Star Sydney.

Between 9 August 2015 and 18 August 2016, Customer 53 attended seven junkets operated by Customer 11 at Star Sydney.

See particulars to paragraphs 1039.a.i and 1039.a.ii.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 11 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 16 July 2015 and 22 September 2016, Star Sydney received 18 telegraphic transfers totalling \$34,153,835, each of which was made available to Customer 11's account.

In May 2016, Star Sydney gave the AUSTRAC CEO 13 incoming IFTIs totalling \$6,914,954 where Customer 11 was named as the beneficiary, including:

- a. three incoming IFTIs totalling \$1,425,551 where the ordering customer was a third party overseas; and
- b. ten incoming IFTIs totalling \$548,940 where Customer 11 was the ordering customer.

The funds made available to Customer 11's Star Sydney account.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

Between 10 July 2015 and 12 February 2016, Star Sydney sent six telegraphic transfers totalling \$9,142,976 from Customer 11's account to Australian bank accounts, including \$2,608,915 to an account held by Customer 10.

On 17 May 2016, Star Sydney sent a telegraphic transfer of \$40,000 from Customer 11's SKA to an overseas bank account.

On 21 October 2016, Star Sydney sent a telegraphic transfer of \$278,000 from Customer 11's SKA to another Australian casino.

- v. Customer 11, and persons associated with his junket, transacted using large amounts of cash at Star Sydney; and

Particulars

Between 8 July 2015 and 1 October 2016, Star Sydney gave the AUSTRAC CEO 47 TTRs detailing chip and cash exchanges, account deposits and account withdrawals totalling \$2,872,620.

See particulars to paragraph 1039.a.i.

- vi. On 20 May 2015, Star Sydney provided a junket funder, Customer 10, with a significant amount of credit upon request, for the purpose of funding a junket operated by Customer 11;

Particulars

On 20 May 2015, the Managing Director and CEO, and the Group Chief Financial Officer approved a permanent active CCF limit of \$5,000,000 with an additional trip only limit of \$2,000,000 for Customer 10. Star Sydney senior management approved this CCF for the purpose of funding a Customer 11 junket program and with knowledge that the junket representative, Customer 16, intended to transfer \$2,000,000 from the junket to Customer 60, who was not a player on the junket.

Customer 11's risk profile from 30 November 2016

- b. Customer 11 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
- i. between 12 January 2017 and 17 June 2017, Customer 11 operated three junkets at Star Sydney, all of which were funded by Customer 10;

Particulars

Funding for Customer 11's junkets included \$30,000,000 funded by Customer 10.

- ii. between 12 January 2017 and 17 June 2017, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 11 was \$466,907,363 with losses of \$30,266,570;

Particulars

In 2017, junkets operated by Customer 11 had a turnover of \$466,907,363 with losses of \$30,266,570.

- iii. between 12 January 2017 and 17 June 2017, Star Sydney recorded a cumulative turnover of \$67,164,110 for Customer 11 as a junket player on his own junkets despite not being a junket player at any time;

Particulars

See paragraph 670 above

- iv. between 2016 and 2017, total benefits of \$17,003,773 were payable to Customer 11 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and other benefits;

Particulars

Customer 11 was entitled to benefits from Star Sydney in his capacity as junket operator:

In 2016, total benefits of \$13,560,108 were payable to Customer 11.

In 2017, total benefits of \$3,443,665 were payable to Customer 11.

- v. in January 2017, Customer 11 operated a junket that was partially funded by credit provided by Star Sydney to Customer 10, a junket funder;

Particulars

See paragraphs 516 to 518 and 552 above.

On 12 January 2017, the Managing Director and CEO, and the Group Chief Financial Officer approved a single trip CCF limit of \$10,000,000 for Customer 10. This included an approval for \$1,000,000 in funding for two players playing under the Customer 11 junket.

- vi. Customer 11 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 11 operated junkets in non-exclusive private gaming rooms, including Sovereign and Pit 80.

Customer 11 operated junkets in exclusive private gaming rooms, including Salon 90, Salon 91 and Salon 93.

- vii. Customer 11 had one junket representative at Star Sydney, which was Customer 16; and
- viii. Customer 11 and his junket representative facilitated the provision of high value designated services to four junket players at Star Sydney including players who posed higher ML/TF risks such as Customer 53 and players who Star Sydney considered had acted suspiciously;

Particulars

See paragraphs 643 to 649 above.

See paragraph 1039.a.ii.

- c. designated services provided to Customer 11 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 11 was connected to other customers at Star Sydney, including junket funders, junket operators, junket representatives and junket players including foreign PEPs, players who posed higher ML/TF risks such as Customer 10, Customer 16 and Customer 53 and players who Star Sydney considered had acted suspiciously;

Particulars

For example, on 12 January 2017, Customer 53 attended a junket program operated by Customer 11 at Star Sydney.

See paragraphs 1039.b and 1039.f.

- e. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 11 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

Between 21 December 2016 and 22 July 2017, Star Sydney received 18 telegraphic transfers totalling \$22,691,456, each of which was made available to Customer 11's SKA.

On 1 May 2017, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$908,000 where Customer 11 was named as the

ordering customer and beneficiary. The funds were deposited into Customer 11's Star Sydney account.

In April and July 2020, Customer 11 transferred \$543,000 from bank accounts, including a company account, Company 4, to Star Sydney. The funds were for the benefit of Customer 16.

Remittances out of the casino environment

See paragraph 327 above.

On 19 January 2017 and 7 March 2017, Star Sydney sent two telegraphic transfers totalling \$85,000 from Customer 11's SKA to an Australian bank account.

On 29 July 2017, Star Sydney sent a telegraphic transfer totalling \$102,172 from Customer 11's SKA to an overseas bank account.

- f. Customer 11, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 12 January 2017 and 21 June 2017, Star Sydney gave the AUSTRAC CEO 12 TTRs in respect of Customer 11 detailing chip cash outs and account withdrawals totalling \$926,950.

On 22 January 2017, Customer 11's junket representative, Customer 16, withdrew \$400,000 cash from the Customer 11 junket FMA at Star Sydney: SMR dated 23 January 2017.

- g. in 2018, Customer 11 was the subject of law enforcement enquiries at Star Sydney;

Particulars

In February 2018, Star Sydney received a request from a law enforcement agency. The request related to customers linked to Customer 10, including Customer 11. The request was referred to the Star's Regulatory Affairs department and investigators supplied Customer 10's guest links in response.

- h. Customer 11 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 11 had access to private gaming rooms at Star Sydney including Sovereign, Lakes Salons, Harbours Salons, Rivers and Harbours Salons Cage, Lakes Salons Cage and the Springs Salon Cage, at Star Sydney.

- i. Star Sydney did not have adequate reason to believe that Customer 11's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 11 at Star Sydney.

Particulars

See paragraph 808 above.

By 7 February 2022, Star Sydney had recorded Customer 11's occupation as a junket representative but did not record any other information regarding Customer 11's source of wealth or source of funds.

This was despite the fact that in 2015 and 2016, Customer 11 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Sydney.

See paragraphs 1039.a, 1039.b and 1039.f.

Star Sydney's determination of the ML/TF risks posed by Customer 11

1040. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 11 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 11.
- a. On and from 30 November 2016, Customer 11 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 11's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 11 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 4 January 2016, Customer 11 was rated medium, being medium for the purpose of the Act and Rules.

Monitoring of Customer 11's transactions

1041. At no time did Star Sydney apply appropriate transaction monitoring to Customer 11's transactions because:
- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 11, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of the designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 11's junket as turnover was recorded against Customer 11 as the junket operator rather than the junket players; and

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 11 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 11's KYC information

1042. Star Sydney did not review, update and verify Customer 11's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 11's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 11's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 11's source of wealth and source of funds were not legitimate: see *Customer 11's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 11's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 11.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 11's high ML/TF risks

1043. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 11 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 11; and
- c. reviewing and updating Customer 11's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have likely been required by the Act and Rules to apply the ECDD Programs to Customer 11 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 11*.

ECDD triggers in respect of Customer 11

1044. Star Sydney was required to apply the ECDD Programs to Customer 11 following any ECDD triggers in respect of Customer 11.

Particulars

Section 36(1)(a) and (b) of the Act.

1045. Customer 11 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

On 23 January 2017, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 11.

1046. The matter pleaded in paragraph 1045 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1047. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 11 following an ECDD trigger because:

- a. at no time did Star Sydney apply the ECDD program to Customer 11; and

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

- b. Customer 11 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 817 above.

Contravention of s36 of the Act in respect of Customer 11

1048. By reason of the matters pleaded from paragraphs 1036 to 1047 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 11 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1049. By reason of the matters pleaded at paragraph 1048, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 11.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 12

1050. Customer 12 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$2 billion for Customer 12.

Particulars

Customer 12 was a customer of Star Sydney from at least 11 March 2005.

1051. Star Sydney provided Customer 12 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket player. Between 2016 and 2019, Star Sydney recorded that junkets operated by Customer 12 had a turnover exceeding \$2.1 billion.

Particulars

On 18 April 2009, Star Sydney opened an FMA and SKA for Customer 12 which remain open (item 11, table 3, s6 of the Act).

Between 5 July 2014 and 13 December 2019, Star Sydney approved CCFs for Customer 12 on six occasions ranging from \$200,000 to \$25,000,000 (item 6, table 1, s6 of the Act).

See *Customer 12's risk profile* below.

1052. Customer 12 was a customer of Star Qld during the relevant period. Between 2017 and 2018, Star Qld recorded turnover exceeding \$110 million for Customer 12.

Particulars

Customer 12 was a customer of Star Qld from at least August 2012.

1053. Star Qld provided Customer 12 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket player. Between 2017 and 2018, Star Qld recorded that junkets operated by Customer 12 had a turnover exceeding \$110 million.

Particulars

On 22 August 2016, Star Qld opened an FMA for Customer 12 which remains open (item 11, table 3, s6 of the Act).

On 31 July 2018, Star Qld opened an SKA for Customer 12 which remains open (item 11, table 3, s6 of the Act).

Between 21 January 2008 and 3 September 2019, Star Qld approved CCFs for Customer 12 on six occasions ranging from \$15,000,000 to \$25,000,000 (item 6, table 1, s6 of the Act).

See *Customer 12's risk profile* below.

1054. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 12.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 12's risk profile

1055. On and from 30 November 2016, Customer 12, and the provision of designated services to Customer 12 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 12's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 12 had the following risk history:
 - i. Star Sydney had formed suspicions for the purpose of s41 of the Act with respect to Customer 12;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 29 occasions between 22 January 2010 and 25 November 2016.

The SMRs reported that Customer 12, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney: see paragraph 1055.a.viii.

- ii. Customer 12 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) to 75 junket players at Star Sydney;

Particulars

On 10 January 2014, Customer 12 was approved to be a junket operator at Star Sydney.

Between 1 May 2015 and 19 September 2016, Customer 12 operated nine junkets at Star Sydney. On two occasions, Customer 63 was a junket player on Customer 12's junkets.

By 30 November 2016, junkets operated by Customer 12 had a buy-in of at least \$63,350,000, turnover of \$657,761,217 with losses of \$8,159,080.

- iii. Customer 12 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) to 15 junket players at Star Qld;

Particulars

On 15 September 2016, Customer 12 was approved to be a junket promoter at Star Qld.

Between 22 August 2016 and 7 September 2016, Customer 12 operated a junket at Star Qld.

The junket had a buy-in of at least \$15,000,000, turnover of \$103,429,326 with losses of \$288,546.

By 30 November 2016, total benefits of \$753,759 were payable to Customer 12 by Star Qld in his capacity as a junket operator which included rebates earned, complimentary services and additional program agreement benefits.

- iv. Customer 12 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 1 October 2015 and 1 August 2016, Customer 12 was a junket player on five junkets. He operated each junket himself.

Between 1 October 2015 and 1 August 2016, Star Sydney recorded high turnover totalling \$571,405,666 with losses of \$102,615 for Customer 12's gaming activity on his own junket programs.

- v. Customer 12 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;

Particulars

Between 22 August 2016 and 7 September 2016, Customer 12 was a junket player at Star Qld. He operated the junket himself.

Star Qld recorded high turnover totalling \$102,556,155 with losses of \$542,720 for Customer 12's gaming activity on his own junket program.

- vi. between 1 March 2005 and 5 July 2014, Star Sydney provided Customer 12 and his junket programs with significant amounts of credit upon request, up to limits of \$15,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 1 March 2005, Star Sydney approved a single trip CCF limit of \$200,000 for Customer 12.

On 5 July 2014, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officers approved a permanent active CCF limit of \$15,000,000 for Customer 12 which was not deactivated.

- vii. between 21 January 2008 and 12 August 2016, Star Qld provided Customer 12 and his junket programs with significant amounts of credit upon request, up to limits of \$15,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 21 January 2008, Star Qld approved a single trip CCF limit of \$200,000 for Customer 12.

On 12 August 2016, Star Qld senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$15,000,000 for Customer 12 which was not deactivated.

- viii. Customer 12, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

Between 3 July 2012 and 25 November 2016, Star Sydney gave the AUSTRAC CEO 18 TTRs detailing incoming payments to Customer 12 totalling \$5,407,431 which comprised:

- a. \$5,272,163 in account deposits; and

- b. \$135,268 in other monetary values in.

Between 3 July 2012 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 93 TTRs detailing outgoing payments from Customer 12 totalling \$18,592,099 which comprised:

- a. \$10,729,771 in account withdrawals;
- b. \$3,673,300 in chip exchanges;
- c. \$1,050,761 in other monetary values out; and
- d. \$3,138,266 in foreign currency exchanges.

On 21 January 2010, Customer 12 deposited \$150,000 cash into another Star Sydney customer's FMA: SMR dated 22 January 2010.

On 27 August 2014, another Star Sydney customer deposited a total of \$800,000 in cash into their FMA at Star Sydney. The cash comprised \$100 notes in units of \$50,000 which contained bundles of \$10,000 secured by elastic bands. Following the deposit, the other Star Sydney customer instructed the funds be transferred to Customer 12's FMA. The funds were used to redeem Customer 12's CCF: SMR dated 28 August 2014.

Between 3 October 2013 and 7 May 2015, Customer 12 deposited a total of \$549,400 in cash across four transactions into his FMA at Star Sydney, which included cash wrapped in Star straps: SMRs dated 3 October 2013, 10 January 2014, 11 March 2014, 7 May 2015.

Between 6 May 2014 and 23 October 2014, Customer 12 exchanged a total of \$400,000 in chips for cash at Star Sydney: SMRs dated 6 May 2014 and 24 October 2014.

Between 13 January 2014 and 5 May 2015, Customer 12 withdrew a total of \$7,590,000 in cash from his FMA. Star Sydney recorded in respect of the withdrawals that Customer 12:

- a. on 13 January 2014, handed \$120,000 to another Star Sydney customer: SMR dated 14 January 2014;
- b. on 4 June 2014 and 9 June 2014, deposited \$1,000,000 and \$500,000, respectively, into a safe deposit box: SMRs dated 5 June 2014 and 9 June 2014; and
- c. on 5 May 2015, withdrew \$2,600,000 from his FMA at Star Sydney and posed for photos with the cash. Prior to the withdrawal, Customer 12 requested to withdraw \$5,000,000 which was declined. He was offered a telegraphic transfer of the funds, which he did not accept. Customer 12 transported the cash to a limousine van and left the premises: SMR dated 5 May 2015.

On 10 June 2016, Customer 12 arrived with an entourage in two hire cars at Star Sydney. He deposited a large sum in a foreign currency

worth AUD3,520,273 into his FMA and then used the funds to redeem his outstanding CCF. He did not engage in any play after the transaction: SMR dated 10 June 2016.

On 23 November 2016, Customer 12 deposited \$600,000 in cash into his SKA at Star Sydney. The cash comprised \$100 notes, bundled in units of \$50,000 and tightly wrapped in a foreign newspaper and tape. The cash was carried by a third party in a white canvas bag: SMR dated 25 November 2016.

- ix. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 12 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 24 June 2008 and 21 August 2014, Star Sydney gave the AUSTRAC CEO 17 incoming IFTIs totalling \$4,906,525 where Customer 12 was named as the customer which comprised:

- a. 11 transactions totalling \$4,339,487 in which Customer 12 was the payer; and
- b. six transactions totalling \$567,038 in which company accounts or foreign remitters were the payer.

Remittances out of the casino environment

See paragraph 327 above.

Between 24 January 2014 and 15 May 2014, Star Sydney gave the AUSTRAC CEO three outgoing IFTIs totalling \$2,594,226 where Customer 12 was named as the customer which comprised:

- a. a transaction totalling \$1,273,947 in which Customer 12 was the beneficiary; and
- b. two transactions totalling \$1,320,278 in which third parties were the beneficiaries.

Customer 12's risk profile from 30 November 2016

- b. Customer 12 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 30 November 2016 and 24 December 2019, Customer 12 operated 15 junkets at Star Sydney;

Particulars

In 2018, Customer 12 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Sydney.

- ii. between 30 November 2016 and 24 December 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 12 in the relevant period was \$2,109,855,496 with losses of \$12,882,810;

Particulars

In 2016, junkets operated by Customer 12 had a buy-in of at least \$152,786,527, turnover of \$69,739,175 with losses of \$294,375.

In 2017, junkets operated by Customer 12 had a buy-in of at least \$560,330,693, turnover of \$253,543,300 with losses of \$4,311,005.

In 2018, junkets operated by Customer 12 had a turnover of \$972,739,677 with losses of \$9,260,460. Star Sydney did not record a buy-in for the 2018 junkets.

In 2019, junkets operated by Customer 12 had a turnover of \$422,661,550 with wins of \$983,030.

- iii. between 30 November 2016 and 24 December 2019, total benefits of \$19,948,724 were payable to Customer 12 by Star Sydney in his capacity as a junket operator which included rebates earned and complimentary services;

Particulars

In 2016, total benefits of \$5,361,518 were payable to Customer 12 by Star Sydney in his capacity as a junket operator.

In 2017, total benefits of \$4,174,677 were payable to Customer 12 by Star Sydney in his capacity as a junket operator.

In 2018, total benefits of \$6,863,803 were payable to Customer 12 by Star Sydney in his capacity as a junket operator.

In 2019, total benefits of \$3,548,726 were payable to Customer 12 by Star Sydney in his capacity as a junket operator.

- iv. between 11 October 2017 and 13 December 2019, Star Sydney provided Customer 12 and his junket programs with significant amounts of credit upon request, up to limits of \$25,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 11 October 2017, Star Sydney senior management including the Chief Executive Officer and the Group General Counsel and Company Secretary approved a single trip CCF limit of \$15,000,000 with an additional trip only limit of \$5,000,000 for Customer 12.

In 2018, Customer 12 was in debt to Star Sydney in the sum of \$5,000,000.

On 9 July 2019, Star Sydney approved a permanent active CCF limit of \$10,000,000 for Customer 12 which was deactivated on 26 August 2019.

On 27 August 2019, Star Sydney approved a single trip CCF limit of \$15,000,000 for Customer 12.

On 3 September 2019, Star Sydney approved a single trip CCF limit of \$25,000,000 for Customer 12.

On 13 December 2019, Star Sydney approved a single trip CCF limit of \$16,210,390 for Customer 12.

- v. Customer 12 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 12 operated junkets in non-exclusive private gaming rooms, including the Sovereign Room and Oasis.

Customer 12 operated junkets in exclusive private gaming rooms, including Salon 67, Salon 73, Salon 75, Salon 76, Salon 77, Salon 80, Salon 82, Salon 85 and Salon 89.

- vi. Customer 12 had three junket representatives at Star Sydney; and
- vii. Customer 12 and his junket representatives facilitated the provision of high value designated services to 117 junket players at Star Sydney including foreign PEPs, players who posed higher ML/TF risks such as Customer 63 and players who Star Sydney considered had acted suspiciously;

Particulars

See paragraphs 643 to 649 above.

For example, on 18 December 2019, Customer 12's junket representative presented \$190,000 in cash as a buy-in for a junket player. The junket player had won the cash from a baccarat tournament.

See Customer 63's risk profile.

See paragraph 1055.n.

- c. Customer 12 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 20 February 2017 and 31 July 2018, Customer 12 operated three junkets at Star Qld;

Particulars

In 2016, Customer 12 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Gold Coast.

In 2017, Customer 12 was one of the top ten junket operators who operated the highest number of junket programs at Star Gold Coast.

- ii. between 20 February 2017 and 31 July 2018, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 12 in the relevant period was \$111,748,429 with losses of \$745,165;

Particulars

In 2017, junkets operated by Customer 12 had a buy-in of at least \$23,000,000, turnover of \$79,946,529 with losses of \$329,455.

In 2018, junkets operated by Customer 12 had a buy-in of at least \$15,000,000, turnover of \$31,801,900 with losses of \$415,710.

- iii. between 20 February 2017 and 31 July 2018, total benefits of \$816,615 were payable to Customer 12 by Star Qld in his capacity as a junket operator which included rebates earned, complimentary services and additional program agreement benefits;

Particulars

In 2017, total benefits of \$598,115 were payable to Customer 12 by Star Qld in his capacity as a junket operator.

In 2018, total benefits of \$218,500 were payable to Customer 12 by Star Qld in his capacity as a junket operator.

- iv. between 9 July 2019 and 13 December 2019, Star Qld provided Customer 12 and his junket programs with significant amounts of credit upon request, up to limits of \$25,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 9 July 2019, Star Qld senior management approved a permanently active CCF limit of \$10,000,000 for Customer 12 which was deactivated on 29 July 2019.

On 27 August 2019, Star Qld senior management approved a single trip CCF limit of \$10,000,000 with an additional trip only limit of \$5,000,000 for Customer 12.

On 3 September 2019, Star Qld senior management approved a single trip CCF limit of \$25,000,000 for Customer 12.

On 13 December 2019, Star Qld senior management approved a single trip CCF limit of \$16,210,390 for Customer 12.

- v. Customer 12 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 12 operated junkets in non-exclusive private gaming rooms, including Pit 6 and Pit 7.

Customer 12 operated junkets in exclusive private gaming rooms, including Salon 21, Salon 22, Pit 21 and Pit 22.

- vi. Customer 12 had one junket representative at Star Qld; and
- vii. Customer 12 and his junket representative facilitated the provision of high value designated services to 38 junket players at Star Qld including foreign PEPs, players who posed higher ML/TF risks such as Customer 36 and players who Star Qld considered had acted suspiciously;

Particulars

See paragraphs 643 to 649 above.

For example, on 4 September 2019, a Star Qld customer arrived to play under Customer 12's junket. Customer 12 provided the customer with \$10,000,000 in front money which was used to play until 7 September 2019. The customer recorded a loss of \$11,008,200 and was a foreign PEP. Star Qld did not know if the customer intended to repay the funds to Customer 12: SMR dated 2 October 2019.

By September 2019, publicly accessible media articles identified that a close relative of the customer operated an illicit international gambling ring with an estimated turnover of \$1,750,000,000 and that the customer had strong ties to the governing party in a foreign country.

See Customer 36's risk profile.

- d. Customer 12 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 30 November 2016 and 24 December 2019, Customer 12 was a player on 15 junkets at Star Sydney, which he operated himself; and
 - ii. between 17 December 2019 and 31 December 2019, Star Sydney recorded high turnover totalling \$2,046,177,054 with losses of \$505,785 for Customer 12's gaming activity on the junket programs;
- e. Customer 12 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 20 February 2017 and 31 July 2018, Customer 12 was a player on three junkets at Star Qld, which he operated himself; and
 - ii. between 20 February 2017 and 31 July 2018, Star Sydney recorded high turnover totalling \$107,403,569 with losses of \$76,235 for Customer 12's gaming activity on the junket programs;
- f. designated services provided to Customer 12 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 12 referred players to Star Sydney;

Particulars

See paragraph 625 above.

Customer 12 received a commission on amounts wagered by referred players, who Star Sydney dealt with directly.

- h. between 21 November 2017 and 4 September 2019, Customer 12 referred six players to Star Qld on seven occasions;

Particulars

See paragraph 625 above.

Between 21 November 2017 and 4 September 2019, Customer 12 referred six players to Star Qld on seven occasions. On each occasion, Customer 12 arranged for the referred player to attend Star Qld on a rebate program without Customer 12 or his junket representative being present.

Customer 12 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- i. between 20 February 2017 and 27 July 2018, Customer 12 was referred by another Star Qld customer to Star Qld on three occasions;

Particulars

See paragraph 625 above.

Between 20 February 2017 and 27 July 2018, Customer 12 was referred by another Star Qld customer to Star Qld on three occasions.

The other Star Qld customer received a commission on amounts wagered by Customer 12, who Star Qld dealt with directly.

- j. Customer 12 received high value financial and gambling services (tables 1 and 3, s6) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded high and escalating individual rated turnover totalling \$547,890 for Customer 12;

Particulars

In 2016, Customer 12's individual rated turnover was \$45,652.

In 2017, Customer 12's individual rated turnover escalated to \$419,008.

In 2018, Customer 12's individual rated turnover was \$9,092.

In 2019, individual rated turnover was \$54,133.

- k. Customer 12 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2017, Star Qld recorded high and escalating individual rated turnover totalling \$211,965 for Customer 12;

Particulars

In 2016, Customer 12's individual rated gaming activity was a turnover of \$9,350.

In 2017, Customer 12's individual rated gaming activity escalated to a turnover of \$202,616.

- I. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 12 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 12 September 2017 and 30 December 2019, Star Sydney gave the AUSTRAC CEO seven incoming IFTIs totalling \$2,294,365 where Customer 12 was named as the ordering customer and the beneficiary.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

See paragraph 1055.n.

Remittances within the casino environment

See paragraphs 347 to 349 above.

See paragraph 1055.n.

- m. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 12 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

Between 5 October 2019 and 12 December 2019, Star Qld received 38 telegraphic transfers totalling \$3,843,361, each of which was made available to Customer 12's SKA at Star Gold Coast. At least six of the transfers totalling \$300,000 originated from third parties.

By 26 November 2019, the above transfers comprised:

- a. at least \$600,000 across 12 transactions from a third party company;
- b. at least \$150,000 across three transactions from an Australian bank;

- c. at least \$150,000 across three transactions where no payer information was provided;
- d. at least \$93,361 across two transactions from another third party company; and
- e. at least \$2,000,000 in one transaction from another Australian casino.

Star Qld was unaware of the link between each of the transfers and Customer 12. Customer 12 advised that some of the transactions were limited to \$50,000 per day due to banking regulations in a foreign country. Part of above funds were used by Customer 12 to redeem part of his outstanding CCF: SMR dated 26 November 2019.

On 6 December 2019, Star Qld received a telegraphic transfer equivalent to \$114,569 in a foreign currency from a foreign casino, which it made available to Customer 12's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 16 October 2019 and 2 January 2020, Star Qld received nine transfers totalling \$2,541,390 from Star Sydney. Some funds were made available to Customer 12's SKA at Star Gold Coast, whereas others were transferred for the purpose of redeeming outstanding CCFs.

On 7 November 2019, Star Qld facilitated a transfer of \$354,539 from Customer 12's FMA at Star Gold Coast to Star Sydney.

- n. Star Sydney was aware that Customer 12 and persons associated with his junket:
 - i. transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands; and
 - ii. engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

See paragraphs 611 to 618 above.

Between 5 April 2017 and 17 December 2019, Star Sydney gave the AUSTRAC CEO 24 TTRs detailing incoming payments to Customer 12 totalling \$6,412,800 which comprised account deposits.

Between 29 December 2016 and 30 December 2019, Star Sydney gave the AUSTRAC CEO 77 TTRs detailing outgoing payments from Customer 12 totalling \$7,927,786 which comprised:

- a. \$2,695,831.9 in account withdrawals;

- b. \$3,221,000 in chip exchanges; and
- c. \$2,010,955 in other monetary values out.

On 4 December 2016, Customer 12 settled a junket program and deposited \$1,117,090 into his FMA at Star Sydney. On 10 December 2016, Customer 12 requested these funds be transferred to another Star Sydney customer's FMA, despite that customer not being a player on the junket that settled on 4 December 2016. The last time the customer had played under Customer 12's junket was in May 2016. The customer did not use the funds for gaming. On 20 December 2016, the customer transferred the funds to his personal bank account: SMR dated 20 December 2016.

On 22 June 2017, Customer 12's junket representative, Person 45, deposited \$200,000 in cash into his FMA at Star Sydney. The cash comprised \$100 notes bundled in elastic bands and contained in a large bank envelope within a foreign shopping bag. On 23 June 2017, the funds were transferred to Customer 12's account and were withdrawn to redeem his outstanding CCF. Star Sydney considered this activity suspicious as the transaction was larger than any previous cash transaction recorded for Person 45: SMR dated 26 June 2017.

On 7 October 2017, Customer 12 deposited \$700,000 in cash into his FMA at Star Sydney. The cash comprised \$100 notes, bundled with elastic bands and contained in envelopes: SMR dated 7 October 2017.

On 9 November 2017, Customer 12's junket representative deposited \$800,000 in cash into Customer 12's account at Star Sydney. The cash comprised \$700,000 in \$100 notes and \$100,000 in \$50 notes bundled in elastic bands: SMR dated 10 November 2017.

On 21 April 2017,¹ two third parties opened FMAs at Star Sydney. Between 22 April 2017 and 4 June 2018, the two third parties, who each said that they were employed by the same third party company, made cash deposits totalling \$1,360,000. The cash comprised \$100, \$50 and \$20 notes bundled in \$10,000 units with elastic bands and contained in zip lock bags. Following each deposit, the third parties requested that the funds be transferred to Customer 12's FMA: SMRs dated 26 April 2017, 3 May 2017, 4 May 2017, 5 May 2017, 8 June 2018, 9 June 2017, 13 June 2017, 5 June 2018.

On 23 April 2018, a third party opened an FMA at Star Sydney and deposited \$800,000 in cash into it. The cash comprised \$270,000 in \$50 notes and \$530,000 in \$100 bundled with elastic bands and contained in a suitcase. The third party requested that the funds be transferred to Customer 12 who used the funds to redeem an outstanding CCF. Star Sydney was unaware of any link between the third party and Customer 12. The third party closed his FMA within

the day. Star Sydney destroyed the account opening forms in error. Star Sydney believed that the third party was an employee of another Australian casino: SMR dated 24 April 2018.

On 11 March 2018, Customer 12 deposited \$850,000 in cash into his FMA at Star Sydney. The cash comprised \$650,000 in \$100 notes and \$200,000 in \$50 notes, bundled with elastic bags and presented in a navy backpack and two black overnight bags. On 12 March 2018,

Customer 12 transferred \$500,000 of the funds to his FMA at an overseas casino. On 13 March 2018, he sent a further transaction of \$500,000 to the overseas casino. Customer 12 did not use the funds for gaming and advised Star Sydney that he received the cash from a money exchange service: SMR dated 13 March 2018.

On 6 May 2018, in his capacity as junket operator, Customer 12 won a prize of \$1,000,000 in a Baccarat tournament. Customer 12's son and junket representative requested that \$500,000 be deposited into Customer 12's FMA and the remaining \$500,000 be paid out in cash: SMR dated 7 May 2019.

On 17 May 2019, Customer 12's junket, Person 45, took \$1,000,000 in cash at settlement and withdrew an additional \$10,955 from Customer 12's FMA. Between 2 May and 17 May 2019, the junket had recorded a turnover of \$14,014,205 with a loss of \$252,970. Star Sydney considered this activity suspicious due to the excess amount of cash requested: SMR dated 17 May 2019.

- o. between 18 October 2019 and 12 December 2019, third parties associated with Customer 12 transported a total of \$2,960,000 in cash from a foreign country to Australia and deposited the cash at Star Sydney;

Particulars

On 18 October 2019, Customer 12 and another Star Sydney customer arrived at Sydney Airport with \$1,300,000 in cash. Customer 12 and the other customer advised Star Sydney that the funds had been declared. The other customer deposited the funds, which comprised \$1,000,000 in \$100 notes and \$300,000 in \$50 notes bundled with either elastic bands or Star Sydney straps, into Customer 12's account. Customer 12 advised Star Sydney that he intended to request a transfer of the funds to Star Gold Coast to redeem an outstanding cheque: SMR dated 18 October 2019.

On 25 November 2019, Customer 12's assistant deposited \$1,300,000 in cash into Customer 12's account at Star Sydney. The cash comprised \$1,150,000 in \$100 notes and \$150,000 in \$50 notes and was contained in a plastic suitcase. \$1,150,000 had been withdrawn and exchanged overseas and the remaining \$150,000 had been withdrawn by Customer 12 from Star Sydney on a previous occasion. Customer 12 advised Star Sydney that he intended to use the cash to redeem his outstanding CCF. Customer 12 provided the

receipts for the relevant money exchanges to Star Sydney: SMR dated 25 November 2019.

On 10 December 2019, Customer 12's junket representative, Person 45, deposited \$510,000 in cash into his FMA at Star Sydney. The cash comprised \$310,000 in \$50 notes and \$200,000 in \$100 notes bundled with elastic bands and contained in a black duffle bag. The funds had been withdrawn and exchanged overseas. Person 45 transferred the funds to Customer 12's Star Sydney account. The funds were used at the Star Gold Coast to redeem Customer 12's CCF: SMR dated 12 December 2019.

- p. Customer 12, and persons associated with his junket, transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 1 March 2017 and 2 August 2018, Star Qld gave the AUSTRAC CEO three TTRs detailing incoming payments to Customer 12 totalling \$163,100 which comprised account deposits.

On 27 February 2017 and 2 August 2018, Star Qld gave the AUSTRAC CEO a TTR detailing outgoing payments from Customer 12 totalling \$85,000 which comprised a chip exchange and an account withdrawal.

- q. in 2017 and 2019, Star Sydney and Star Qld provided information in respect of Customer 12 to law enforcement agencies at their own initiative;

Particulars

Between 26 April 2017 and 9 October 2017, Star Sydney provided information to a law enforcement agency at its own initiative on several occasions regarding suspicious cash transactions involving Customer 12.

On 23 June 2017, Star Qld provided information law enforcement agency in relation to a number of international customers funded by Customer 12.

On 26 November 2019 and 11 December 2019, Star Sydney provided information a law enforcement agency at its own initiative in relation to suspicious cash transactions involving Customer 12.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Sydney and Star Qld had access to the investigations database: see paragraph 49 above.

- r. in 2017 and 2019, Customer 12 was the subject of law enforcement enquiries at Star;

Particulars

On 31 October 2017 and 12 December 2019, a law enforcement agency requested Customer 12's player profile from Star Sydney.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- s. Customer 12 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 12 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Springs Salons, Lakes Salons and Oasis.

- t. Customer 12 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 12 had access to private gaming rooms at Star Qld, including Pit 22, the Sovereign Room, Salon 22, Salon 21, The Oasis, Pit 8 and Club Conrad.

- u. Star Sydney and Star Qld did not have adequate reason to believe that Customer 12's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 12 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 12 was the owner of a number of foreign companies.

In October 2019, the Group Manager (AML/CTF & Financial Crime) requested further proof of Customer 12's source of wealth and stated that Star required proof of the source of any cash deposits.

There is no evidence in Star's due diligence records that it appropriately reviewed, updated and verified this information.

However, between 18 October 2019 and 12 December 2019, third parties associated with Customer 12 transported a total of \$2,960,000 in cash from a foreign country to Australia and deposited the cash at Star Sydney.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 12

1056. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 12 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 12.
- a. On and from 30 November 2016, Customer 12 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 12's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 12 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 24 July 2014, Star Sydney and Star Qld determined that Customer 12's ML/TF risk was medium, not being high risk for the purpose of the Act and Rules, in respect of some of his account numbers.

However, it was not until 10 July 2018 that Star Sydney and Star Qld determined that Customer 12's ML/TF risk was medium in respect of another of his account numbers.

On 18 January 2021, Star Sydney and Star Qld determined that Customer 12's ML/TF risk was high, not being high risk for the purpose of the Act and Rules, in respect of some of his account numbers.

However, it was not until 24 August 2021 that Star Sydney and Star Qld determined that Customer 12's ML/TF risk was high, not being high risk for the purpose of the Act and Rules, in respect of another of his account numbers.

Monitoring of Customer 12's transactions

1057. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 12's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 12, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to players on junket programs;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 12 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel.

Particulars

See paragraph 783 above.

- d. Star Sydney and Star Qld provided designated services to Customer 12 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- e. Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 12.

Particulars

Star senior management were not specifically informed of 35 large and suspicious cash incidents totalling \$12,124,955 between 21 April 2017 and 16 December 2019: see *Customer 12's risk profile* above.

The review, update and verification of Customer 12's KYC information

- 1058. Star Sydney and Star Qld did not review, update and verify Customer 12's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 12's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 12's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 12's source of wealth and source of funds were not legitimate: see *Customer 12's risk profile*.

In October 2019, the Group Manager (AML/CTF & Financial Crime) requested further proof of Customer 12's source of wealth and stated that Star required proof of the source of any cash deposits.

There is no evidence in Star's due diligence records that it appropriately reviewed, updated and verified this information. Between 18 October 2019 and 12 December 2019, third parties associated with Customer 12 transported a total of \$2,960,000 in cash from a foreign country to Australia and deposited the cash at Star Sydney.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 12's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney or Star Qld to Customer 12.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 12's high ML/TF risks

1059. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 12 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 12; and
 - c. reviewing and updating Customer 12's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 12 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 12*.

ECDD triggers in respect of Customer 12

1060. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 12 following any ECDD triggers in respect of Customer 12.

Particulars

Section 36(1)(a) and (b) of the Act.

1061. Customer 12:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 20 December 2016 and 12 December 2019, Star Sydney gave the AUSTRAC CEO 20 SMRs with respect to Customer 12.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 2 October 2019 and 26 November 2019, Star Qld gave the AUSTRAC CEO two SMRs with respect to Customer 12.

1062. Each matter pleaded in paragraph 1061 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1063. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 12 following an ECDD trigger because:

- a. on each occasion that Star Sydney or Star Qld conducted ECDD in respect of Customer 12 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 12 and the provision of designated services to Customer 12 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite;

Particulars

See paragraphs 797 and 807 above.

Rules 15.10(2) and (5) of the Rules.

On 21 February 2019, 17 May 2019, 18 October 2019, 25 November 2019, 26 November 2019, 10 December 2019 and 18 January 2021, Star conducted ECDD in respect of Customer 12.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 12's higher ML/TF risks: see *Customer 12's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 12's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 12's source of wealth and source of funds were not legitimate: see *Customer 12's risk profile*.

- b. Customer 12 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion that Customer 12 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 12 and the provision of designated services to Customer 12 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 18 October 2019, the Group Manager (AML/CTF & Financial Crime) requested further proof of Customer 12's source of wealth and stated that Star required proof of the source of the cash that was being brought from a foreign country to repay his CCF.

Contravention of s36 of the Act in respect of Customer 12

- 1064. By reason of the matters pleaded from paragraphs 1050 to 1063 above, on and from 30 November 2016, Star Sydney and Star Qld:
 - a. did not monitor Customer 12 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

- 1065. By reason of the matters pleaded at paragraph 1064, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 12.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 13

1066. Customer 13 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$40 million for Customer 13.

Particulars

Customer 13 was a customer of Star Sydney from at least 4 October 2008.

On 22 August 2019, Star Sydney issued a WOL in respect of Customer 13.

1067. Star Sydney provided Customer 13 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder, junket player and junket representative. Between 2016 and 2020, Star Sydney recorded that junkets funded by Customer 13 had a turnover exceeding \$1 billion.

Particulars

Prior to 2008, Star Sydney opened an FMA and SKA for Customer 13 which were closed on 29 July 2019 (item 11, table 3, s6 of the Act).

Between 12 August 2015 and 12 July 2019, Star Sydney approved CCFs for Customer 13 on 16 occasions ranging from \$500,000 to \$2,200,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 13 (items 31 and 32, table 1, s6 of the Act).

See Customer 13's risk profile below.

1068. Customer 13 was a customer of Star Qld during the relevant period. Between 2016 and 2019, Star Qld recorded turnover exceeding \$5.9 million for Customer 13.

Particulars

Customer 13 was a customer of Star Qld from at least 2012.

On 22 August 2019, Star Qld issued a WOL in respect of Customer 13.

1069. Star Qld provided Customer 13 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 13 November 2018, Star Qld opened an FMA for Customer 13 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 13 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 13's risk profile* below.

1070. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 13.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 13's risk profile

1071. On and from 30 November 2016, Customer 13, and the provision of designated services to Customer 13 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 13's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 13 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 13;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on two occasions between 5 October 2008 and 24 August 2015.

The SMRs reported a large and suspicious cash transaction and attempts by Customer 13 to prevent casino funds being traced back to his name: see paragraph 1071.a.ix below.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 13;

Particulars

Star Qld gave the AUSTRAC CEO an SMR 31 July 2012.

The SMR reported a large cash withdrawal by Customer 13 of \$268,938 from his Star Qld FMA.

- iii. Customer 13 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$105,641 for Customer 13;
- iv. Customer 13 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld. In 2015, Star Qld recorded high individual rated and rebate turnover totalling \$71,300 for Customer 13;
- v. Customer 13 was a junket funder and junket representative who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;

Particulars

Between 16 August 2015 and 19 October 2016, Customer 13 provided \$17,000,000 in funding to 11 junkets operated by Customer 14 at Star Sydney.

Between 16 August 2015 and 19 October 2016, Customer 13 was a junket representative for eight junkets operated by Customer 14 and funded by Customer 13 at Star Sydney.

In FY2016, Star Sydney recorded that international rebate program junkets operated by Customer 14 and funded or represented by Customer 13 had a rolling turnover of \$51,800,000, a cash turnover of \$114,500,000 and an actual loss of \$500,000. Commissions of \$800,000 were payable to those junkets.

- vi. Customer 13 was a junket representative who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;

Particulars

Customer 13 was an authorised junket representative at Star Qld.

- vii. Customer 13 was a domestic junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

In FY2015, Star Sydney recorded that domestic rebate programs operated by Customer 13 together with Customer 14 had a cash turnover of \$2,900,000.

In FY2016, Star Sydney recorded that domestic rebate programs operated by Customer 13 together with Customer 14 had a cash turnover of \$31,300,000 with an actual win of \$200,000.

- viii. between 12 August 2015 and 9 October 2016, Star Sydney provided Customer 13 with significant amounts of credit upon request, up to limits of \$2,200,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 12 August 2015, Star Sydney senior management, including the Chief Executive Officer approved a single trip CCF limit of \$500,000 for Customer 13.

On 15 September 2015 and 14 November 2015, Star Sydney senior management, including Star Managing Director and the Chief Financial Officer approved a single trip CCF limit of \$1,000,000 for Customer 13.

On 16 November 2015, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer approved a

single trip CCF limit of \$1,000,000 with an additional trip only limit of \$500,000 for Customer 13.

On 26 December 2015, Star Sydney senior management, including Star Managing Director and the Chief Executive Officer approved a single trip CCF limit of \$2,000,000 for Customer 13.

On 9 July 2016, Star Sydney senior management, including Star Managing Director and the Chief Executive Officer approved a single trip CCF limit of \$2,010,000 for Customer 13. \$10,000 of those funds was provided on a 'temporary' basis while funds obtained through the Hotel Card channel were cleared.

On 15 July 2016, Star Sydney senior management, including Star Managing Director and the Chief Executive Officer approved a single trip CCF limit of \$2,000,000 for Customer 13.

On 4 September 2016, Star Sydney senior management, including Star Managing Director and the Chief Executive Officer approved a single trip CCF limit of \$2,075,000 for Customer 13. \$75,000 of those funds was provided on a 'temporary' basis while funds obtained through the Hotel Card channel were cleared.

On 5 September 2016, Star Sydney senior management, including Star Managing Director and the Chief Executive Officer approved a permanent active CCF limit of \$2,000,000 for Customer 13 which was not deactivated.

On 9 October 2016, Star Sydney senior management, including Star Managing Director and the Chief Executive Officer approved a single trip CCF limit of \$2,200,000 for Customer 13. \$200,000 of those funds was provided on a 'temporary' basis while funds obtained through the Hotel Card channel were cleared.

- ix. Customer 13 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 15 February 2016 and 8 September 2016, Star Sydney gave the AUSTRAC CEO three TTRs detailing incoming payments to Customer 13 totalling \$72,000 in chip exchanges and account deposits.

Between 21 February 2013 and 13 October 2016, Star Sydney gave the AUSTRAC CEO 27 TTRs detailing outgoing payments from Customer 13 totalling \$706,421 which comprised:

- a. \$311,715 in account withdrawals;
- b. \$309,225 in chip exchanges; and
- c. \$85,481 in other monetary values out.

On 4 October 2008, Customer 13 bought in at a gaming table for \$9,500. Star Sydney considered this transaction to be suspicious: SMR dated 5 October 2008.

On 5 September 2016, while acting as a junket representative for Customer 14's junket, Customer 13 withdrew \$170,900 in cash from Customer 14's Star Sydney account.

- x. Customer 13 transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 17 June 2009 and 25 February 2013, Star Qld gave the AUSTRAC CEO five TTRs detailing incoming payments to Customer 13 totalling \$90,000 in chip exchanges and account deposits.

Between 30 October 2009 and 24 September 2015, Star Qld gave the AUSTRAC CEO four TTRs detailing outgoing payments from Customer 13 totalling \$70,200 in chip exchanges.

See paragraph 1071.a.ii above.

- xi. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 13 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks; and

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

On 9 July 2016, Customer 13 transacted \$10,000 through the Hotel Card channel and was given a temporary CCF in the same amount.

On 18 July 2016, Customer 13 transacted \$200,000 through the Hotel Card channel.

On 4 September 2016 and 9 October 2016, Customer 13 transacted \$75,000 and \$200,000 respectively through the Hotel Card channel and was given a temporary CCF while waiting for the funds to clear.

See paragraph 1071.a.viii above.

Other remittances into the casino environment

See paragraph 327 above.

On 20 November 2015 and 16 December 2015, Star Sydney received two telegraphic transfers totalling \$495,873, both of which were made available to Customer 13's account.

Each of the above transactions was conducted through the Star Patron account channel.

- xii. by August 2015, Star Sydney was aware that Customer 13 had attempted to prevent casino funds being traced back to his name;

Particulars

On 23 August 2015, while acting as a junket representative for Customer 14's junket, Customer 13 requested that Star Sydney provide a casino cheque for \$500,000 made out to another Australian casino. Star Sydney refused this request.

Customer 13 identified that he did not want his name on the cheque for tax reasons. Customer 13 identified that he was a local resident in Melbourne and was concerned that the other Australian casino would not allow him to withdraw the funds if he put it into his account.

Customer 13 then requested the funds to be taken in cash but mentioned that if he did so the other Australian casino would report the large cash deposit to the police and so decided against it.

Instead, Star Sydney opened an account for another customer who was with Customer 13 and Customer 13 transferred the funds to her.

Star Sydney then issued a cheque for the funds in the other customer's name: SMR dated 23 August 2015.

Customer 13's risk profile from 30 November 2016

- b. Customer 13 was a junket funder and junket representative who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
- i. between 30 November 2016 and 29 July 2019, Customer 13 was the junket representative for at least 26 junkets operated by Customer 14 at Star Sydney;
- ii. between 30 November 2016 and 29 July 2019, Customer 13 funded 38 junkets operated by Customer 14 totalling \$34,740,370 at Star Sydney;

Particulars

In 2018, Customer 13 was one of the top ten junket funders by number of programs funded at Star Sydney, each of which related to junkets operated by Customer 14.

Customer 13 provided \$2,000,000 in funding to Customer 14's junket in December 2016.

In 2017, Customer 13 provided \$10,434,370 in funding to Customer 14's junkets.

In 2018, Customer 13 provided \$12,256,000 in funding to Customer 14's junkets.

In 2019, Customer 13 provided \$8,050,000 in funding to Customer 14's junkets.

- iii. between FY2017 and FY2020, Star Sydney recorded that international junket programs operated by Customer 14 and funded or represented by Customer 13

had a cumulative rolling turnover of \$438,300,000, a total cumulative cash turnover of \$968,600,000 and a total actual losses of \$22,000,000;

Particulars

In FY2017, international junkets operated by Customer 14 and funded or represented by Customer 13 had a rolling turnover of \$23,500,000, a cash turnover of \$52,000,000 and an actual loss of \$2,600,000. Commissions of \$400,000 were payable to the junket.

In FY2018, international junkets operated by Customer 14 and funded or represented by Customer 13 had a rolling turnover of \$80,100,000, a cash turnover of \$177,000,000 and an actual loss of \$4,900,000. Commissions of \$1,200,000 were payable to the junket.

In FY2019, international junkets operated by Customer 14 and funded or represented by Customer 13 had a rolling turnover of \$307,500,000, a cash turnover of \$679,500,000 and an actual loss of \$14,100,000. Commissions of \$4,300,000 were payable to the junket.

In FY2020, international junkets operated by Customer 14 and funded or represented by Customer 13 had a rolling turnover of \$27,200,000, a cash turnover of \$60,100,000 and an actual loss of \$400,000. Commissions of \$400,000 were payable to the junket.

- iv. between FY2017 and FY2020, Star Sydney recorded that domestic junkets operated by Customer 14 and funded or represented by Customer 13 at Star Sydney had a cumulative turnover of \$124,400,000 with losses of \$2,100,000;

Particulars

In FY2017, Star Sydney recorded that domestic rebate programs operated by Customer 14 and funded or represented by Customer 13 had a cash turnover of \$18,700,000 with an actual win of \$100,000.

In FY2018, Star Sydney recorded that domestic rebate programs operated by Customer 14 and funded or represented by Customer 13 had a cash turnover of \$99,600,000 with an actual loss of \$2,000,000.

In FY2019, Star Sydney recorded that domestic rebate programs operated by Customer 14 and funded or represented by Customer 13 had a cash turnover of \$6,100,000 with an actual loss of \$200,000.

- v. between 11 April 2017 and 12 July 2019, Star Sydney provided Customer 13 with significant amounts of credit upon request, up to limits of \$2,200,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 11 April 2017, Star Sydney senior management including the Chief Executive Officer approved a single trip CCF limit of \$500,000 for Customer 13.

On 12 June 2017, Star Sydney senior management including the Chief Financial Officer approved a single trip CCF limit of \$1,000,000 for Customer 13.

On 13 August 2017, Star Sydney senior management including Star Managing Director and the Chief Executive Officer approved a single trip CCF limit of \$1,000,000 with an additional trip only limit of \$500,000 for Customer 13.

On 6 September 2017, Star Sydney senior management including Star Managing Director and the Chief Executive Officer approved a permanent active CCF limit of \$1,000,000 with an additional trip only limit of \$500,000 for Customer 13 which was not deactivated.

On 6 October 2017, Star Sydney senior management including the Group General Counsel and Company Secretary and the Chief Executive Officer approved a permanent active CCF limit of \$1,500,000 for Customer 13 which was not deactivated.

On 12 July 2019, Star Sydney approved a permanent active CCF limit of \$1,500,000 for Customer 13 which was deactivated on 22 August 2019.

- vi. Customer 14's junkets funded by Customer 13 had four junket representatives at Star Sydney in addition to Customer 13, including Customer 94 and Customer 80; and
- vii. the junkets funded or represented by Customer 13 facilitated the provision of high value designated services to players in respect of whom Star Sydney had formed suspicions, such as Customer 62 and Customer 56;

Particulars

See paragraphs 643 to 649 above.

See Customer 56's risk profile and Customer 62's risk profile.

See paragraph 1071.i below.

- c. Customer 13 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through domestic junket programs;
 - i. between 13 August 2017 and 28 March 2019, Customer 13 was a player on ten domestic junkets at Star Sydney operated by Customer 14;
 - ii. each junket was funded by Customer 13; and
 - iii. between 13 August 2017 and 28 March 2019, Star Sydney recorded high turnover totalling \$33,097,192 with losses of \$997,135 for Customer 13's gaming activity on junket programs;

Particulars

In 2017, Customer 13's turnover on domestic junket programs was \$19,818,617 with losses of \$560,750.

In 2018, Customer 13's turnover on domestic junket programs was \$12,611,155 with losses of \$155,815.

In 2019, Customer 13's turnover on domestic junket programs was \$667,420 with losses of \$280,570.

- d. Customer 13 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through a Suncity junket program;
 - i. between 27 July 2018 and 30 July 2018, Customer 13 was a player on a Suncity junket at Star Gold Coast operated by Customer 3;
 - ii. this was despite that Customer 13 was domestic customer. Each form of identification that Star Qld had on file in respect of Customer 13 was either an Australian passport or an Australian driver's licence;
 - iii. the junket was funded by a person other than the junket operator, being Customer 1; and
 - iv. Star Qld recorded high turnover totalling \$5,947,276 with losses of \$319,890 for Customer 13's gaming activity on the Suncity junket program;
- e. designated services provided to Customer 13 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 13 was connected to other customers at Star Sydney and Star Qld, including foreign PEPs and players who posed higher ML/TF risks;

Particulars

In August 2016, JRAM meeting minutes identified that Customer 13 was associated with foreign PEPs known to Star as posing higher ML/TF risks, including Person 40 and Person 51.

- g. Customer 13 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded high and escalating individual rated turnover of \$7,141,813 for Customer 13;

Particulars

In 2016, Customer 13's individual rated turnover escalated to \$6,480,341.

In 2017, Customer 13's individual rated turnover was \$585,839.

In 2018, Customer 13's individual rated turnover was \$72,737.

In 2019, Customer 13's individual rated turnover was \$2,896.

- h. Customer 13 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2016 and 2019, Star Qld recorded high and escalating individual rated turnover of \$342,660 for Customer 13;

Particulars

In 2016, Customer 13's individual rated turnover was \$41,537.

In 2019, Customer 13's individual rated turnover escalated to \$301,123.

- i. Customer 13 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

On 6 March 2018 and 7 May 2018, Star Sydney gave the AUSTRAC CEO two TTRs detailing incoming payments to Customer 13 totalling \$500,000 which comprised chip exchanges and account deposits.

Between 10 December 2016 and 18 June 2018, Star Sydney gave the AUSTRAC CEO 19 TTRs detailing outgoing payments made by Customer 13 totalling \$760,833 which comprised:

- a. \$450,000 in account withdrawals;
- b. \$203,435 in chip exchanges; and
- c. \$107,398 in other monetary values out.

On 8 December 2016, while acting as a junket representative for Customer 14's junket, Customer 13 withdrew \$155,000 in cash from Customer 14's Star Sydney account. Customer 13 then handed the cash to another Star Sydney customer: SMR dated 9 December 2016.

On 3 March 2018, while acting as a junket representative for Customer 14's junket, Customer 13 withdrew \$107,398 in cash from Customer 14's Star Sydney account at the settlement of a junket. Shortly afterwards, Customer 13 returned \$100,000 of the cash to be deposited into Customer 14's account.

- j. Customer 13 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 13 had access to private gaming rooms at Star Sydney, including the Springs Salons, Lakes Salons, Oasis, the Sovereign Room, Chairman's and Jade.

- k. Customer 13 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 13 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room, the Club, Salon 22, Pit 8 and the Club Conrad.

- I. in 2017 and 2019, Customer 13 was the subject of law enforcement enquiries on five occasions at Star;

Particulars

On 3 March 2017, Star Sydney received a request from a law enforcement agency seeking details in respect of Customer 13. Star Sydney responded to the request. The enquiry did not identify the reason for or nature of the investigation.

On 31 October 2017, Star Qld received an enquiry from a law enforcement agency seeking details in respect of Customer 13. Star Qld provided Customer 13's profile in response to this request.

On 7 December 2017, Star Sydney received a notice from a law enforcement agency seeking details in respect of Customer 13. Star Sydney provided Customer 13's profile in response to this request.

On 7 December 2017, Star Qld received a notice from a law enforcement agency seeking details in respect of Customer 13.

On 22 January 2018, Star Sydney received a notice from a law enforcement agency seeking details in respect of Customer 13. Star Sydney provided Customer 13's updated profile in response to this request.

Interactions and information shared between Star Sydney, Star Qld, and law enforcement agencies, were stored on Star's investigations database. Star Sydney and Star Qld had access to the investigations database: see paragraph 49 above.

- m. open source media articles, court records and other material linked the brothel owned by Customer 13 to alleged serious organised crime, including human trafficking. It was not until August 2019 that Star became aware that Customer 13 owned a brothel;

Particulars

Open source information by 30 November 2016

From 2011, media reports linked the brothel owned by Customer 13 to alleged serious organised crime, including human trafficking and sex slavery.

From 2014, the brothel regulator had commenced tribunal proceedings against Customer 13, alleging that he was engaged in human trafficking.

From 2015, open court records reported that Customer 13's brothel had alleged links to organised crime and serious criminal activity, including money laundering, through the recruiting of women from a

foreign region to work in the brothel for the material benefit of managers and staff.

At no point did Star Sydney or Star Qld conduct sufficient enquiries regarding Customer 13's source of funds or source of wealth to reveal his ownership of the brothel and the publicly available information described above.

It was not until August 2019, following the publication of open source media articles which named Customer 13, that Star Sydney and Star Qld became aware that he owned a brothel.

Open source information after 30 November 2016

In July 2019, media reports connected Customer 13 to the brothel and to alleged organised crime and serious criminal activity, including money laundering and the recruitment of women from a foreign region to work in the brothel for the material benefit of Customer 13.

In October 2021, media reports alleged that Customer 13 and Star had a business relationship which involved Customer 13 sending high rollers to Star despite there being allegations that Customer 13 was a human trafficker and brothel owner.

- n. in 2022, an independent auditor investigated information holdings of Star in respect of Customer 13; and

Particulars

The independent auditor identified that:

- a. Customer 13 was a domestic junket operator and a junket representative for Customer 14's junket;
- b. Customer 13 owned a brothel that had repeatedly been raided by police and was the subject of sex trafficking investigations between 2008 and 2015;
- c. Customer 13 was a suspected senior member of an overseas organised crime syndicate and was allegedly connected to a wider international money laundering network;
- d. Customer 13 was a close associate of foreign PEPs, including Person 40 and Person 51;
- e. Customer 13 was excluded from Star following adverse media; and
- f. Star understood that Customer 13's occupation was in hospitality.

The independent auditor found that:

- a. adverse media in respect of Customer 13 and his business operations was publicly available from at least 2015; and

- b. Star did not take exclusion action in respect of Customer 13 until adverse media in 2019.
- o. Star Sydney and Star Qld did not have adequate reason to believe that Customer 13's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 13 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 13's occupation to be as a junket operator and as the director of three companies in Australia.

Customer 13 was closely associated with foreign PEPs known to Star as posing higher ML/TF risks, including Person 51. Customer 13 was allowed to participate in an international junket despite not being an international customer. From 30 November 2016, junkets funded by Customer 13 had a turnover approaching \$1 billion. Star's understanding of Customer 13's source of wealth and source of funds was not commensurate with the high value financial and gambling services received by him.

From 2011, media reports linked the brothel owned by Customer 13 to alleged serious organised crime, including human trafficking and sex slavery. However, Star took inadequate steps to review, update and verify Customer 13's KYC information and so it was not until August 2019 that Star became aware that Customer 13 owned a brothel. Moreover, Customer 13 was a suspected senior member of an overseas organised crime syndicate and was allegedly connected to a wider international money laundering network. This presented a real risk in respect of Customer 13's source of wealth and source of funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 13

1072. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 13 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 13.
- a. On and from 30 November 2016, Customer 13 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 13's risk profile* above.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 29 July 2019 that Customer 13 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 17 February 2016, Customer 13 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 6 March 2018, Customer 13 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 29 July 2019, Customer 13 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 13 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 13's transactions

1073. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 13's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 13, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 13 through the junket channel; and

Particulars

See paragraph 783 above.

- d. Star Sydney and Star Qld provided designated services to Customer 13 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 13's KYC information

1074. Star Sydney and Star Qld did not review, update and verify Customer 13's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 13's business with each of Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 13's source of funds, including the origin of funds, having regard to the high ML/TF risks;

Particulars

By reason of the matters set out above, there were real risks that Customer 13's source of wealth and source of funds were not legitimate: see *Customer 13's risk profile* above.

- d. until August 2019, Star Sydney and Star Qld did not consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 13; and

Particulars

See paragraph 155 above.

No ongoing customer due diligence measures were taken in respect of Customer 13 until August 2019, at which time he was issued with a WOL at Star Sydney and Star Qld.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

- e. Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 13.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 13 on 8 December 2016: See *Customer 13's risk profile* above.

Failure to apply appropriate due diligence suited to Customer 13's high ML/TF risks

1075. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 13 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 13; and
- c. reviewing and updating Customer 13's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 13 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 13*.

ECDD triggers in respect of Customer 13

1076. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 13 following any ECDD triggers in respect of Customer 13.

Particulars

Section 36(1)(a) and (b) of the Act.

1077. Customer 13:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 9 December 2016, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 13.

- b. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 29 July 2019, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 13 was critical, being high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 13* above.

1078. Each matter pleaded in paragraph 1077 was an ECDD trigger.

Particulars

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

See paragraphs 792, 798, 799 and 801 above.

1079. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 13 following an ECDD trigger because:

- a. until August 2019, Star Sydney or Star Qld did not conduct ECDD in respect of Customer 13 in response to an ECDD trigger, and so failed to give appropriate consideration to the ML/TF risks posed by Customer 13 and the provision of designated

services to Customer 13 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

Despite ECDD triggers occurring as early in the relevant period as December 2016, no ECDD measures were taken in respect of Customer 13 until August 2019, at which time he was issued with a WOL at Star Sydney and Star Qld.

- b. Customer 13 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. at no time prior to July 2019 did senior management consider the higher ML/TF risks posed by Customer 13 in response to an ECDD trigger or consider whether the ML/TF risks posed by Customer 13 were within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

At no time prior to July 2019 did senior management consider the ML/TF risks posed by Customer 13 and whether the ML/TF risks posed by Customer 13 were within Star Sydney's or Star Qld's ML/TF risk appetite.

Following open source media reports concerning Customer 13 in July 2019, Star senior management added Customer 13 to PAMM and JRAMMs for consideration.

On 15 August 2019, the Chief Casino Officer and the Chief Legal and Risk Officer circulated to Star senior management an update summarising allegations made in respect of another Australian casino in recent media. The update noted that Star had ceased trading with the junkets associated with Customer 13. The update identified Customer 13 as a domestic junket operator in his own right and a junket representative for Customer 14.

On 22 August 2019, Star Sydney issued a WOL in respect of Customer 13.

Contravention of s36 of the Act in respect of Customer 13

1080. By reason of the matters pleaded from paragraphs 1066 to 1079, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 13 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1081. By reason of the matters pleaded at paragraph 1080, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 22 August 2019 with respect to Customer 13.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 14

1082. Customer 14 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$60 million for Customer 14.

Particulars

Customer 14 was a customer of Star Sydney from at least 16 August 2015.

On 16 January 2020, Star Sydney issued a WOL in respect of Customer 14 following an exclusion order issued by a law enforcement agency.

1083. Star Sydney provided Customer 14 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket player. Between 2016 and 2019, Star Sydney recorded that junkets operated by Customer 14 had a turnover exceeding \$1 billion.

Particulars

On 16 August 2015, Star Sydney opened an FMA and SKA for Customer 14 which were closed on 29 July 2019 (item 11, table 3, s6 of the Act).

Between 5 January 2017 and 2 February 2017, Star Sydney approved CCFs for Customer 14 on four occasions ranging from \$100,000 to \$227,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 14 (items 31 and 32, table 1, s6 of the Act).

See Customer 14's risk profile below.

1084. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 14.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 14's risk profile

1085. On and from 30 November 2016, Customer 14, and the provision of designated services to Customer 14 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 14's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 14 had the following risk history:
 - i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 14;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on two occasions on 24 August 2015 and 17 February 2016.

The SMRs reported attempts by Customer 14's junket representative and funder, Customer 13, to avoid his name being associated with financial transactions, and a large cash transaction: see paragraph 1085.a.iii.

- ii. Customer 14 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

On 16 August 2015, Customer 14 was approved as a junket operator at Star Sydney. Between 16 August 2015 and 19 October 2016, Customer 14 operated 11 junkets at Star Sydney.

On each occasion, the junket was funded by Customer 13. On one occasion, the junket was additionally funded by Customer 7. Between 16 August 2015 and 19 October 2016, Customer 13 provided \$17,000,000 in funding to 11 junkets operated by Customer 14 at Star Sydney.

On five occasions, Customer 13 acted as a junket representative for the junket program. On three occasions, Customer 80 acted as a junket representative for the junket program.

Turnover on international junket programs

In FY2016, Star Sydney recorded that international junkets operated by Customer 14 and funded or represented by Customer 13 had a cash turnover of \$114,500,000 and an actual loss of \$500,000.

Commissions of \$800,000 were payable to those junkets.

Turnover on domestic junket programs

In FY2015, Star Sydney recorded that domestic junkets operated by Customer 14 together with Customer 13 had a cash turnover of \$2,900,000.

In FY2016, Star Sydney recorded that domestic junkets operated by Customer 14 together with Customer 13 had a cash turnover of \$31,300,000 with an actual win of \$200,000.

- iii. Customer 14 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 10 August 2016 and 6 September 2016, Star Sydney gave the AUSTRAC CEO three TTRs detailing incoming payments to Customer 14 totalling \$150,000 which comprised account deposits and chip exchanges.

Between 18 August 2015 and 13 October 2016, Star Sydney gave the AUSTRAC CEO 22 TTRs detailing outgoing payments from Customer 14 totalling \$863,755 which comprised:

- a. \$574,274 in account withdrawals;
- b. \$204,000 in chip exchanges; and
- c. \$85,481 in other monetary values out.

On 16 February 2016, Customer 14 exchanged \$114,000 in chips for cash at Star Sydney. Customer 14 was experiencing a loss of \$50,000 at the time: SMR dated 17 February 2016.

Particulars

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 14 by remitting large amounts of money into the casino environment via her accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

On 18 August 2016, Customer 80 remitted \$200,000 and \$250,000 through the Hotel Card channel and deposited the funds into Customer 14's account for a CCF redemption.

On 14 September 2016, Customer 80 remitted \$300,000 through the Hotel Card channel and deposited the funds into Customer 14's SKA at Star Sydney.

On 26 November 2016, Customer 80 remitted \$100,000 through the Hotel Card channel while Customer 14's junket representative and used the funds for a sub-buy-in for the junket at Star Sydney.

Remittances into the casino environment

See paragraph 327 above.

On 22 December 2015, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$390,000 where Customer 14 was named as an ordering customer and beneficiary.

Between 25 December 2015 and 10 May 2016, Star Sydney received three telegraphic transfers totalling \$363,152, each of which was made available to Customer 14's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Customer 14's risk profile from 30 November 2016

- b. Customer 14 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 30 November 2016 and 29 July 2019, Customer 14 operated 41 junkets at Star Sydney, 38 of which were funded by Customer 13 and 11 of which were domestic junkets;

Particulars

In 2018, Customer 14 was one of the top ten junket operators who operated the highest number of junket programs at Star Sydney.

In 2019, Customer 14 was one of the top ten junket operators whose junket operations in total involved the highest total turnover.

Between December 2016 and 2019, Customer 13 provided over \$32 million in funding to Customer 14's junket.

- ii. between 30 November 2016 and 29 July 2019, Star Sydney recorded that the total cumulative turnover of international junkets operated by Customer 14 and funded or represented by Customer 13 was \$941,698,514 with losses of \$20,965,103;

Particulars

In 2017, international junkets operated by Customer 14 had turnover of \$88,226,460 with losses of \$3,868,450.

In 2018, international junkets operated by Customer 14 had turnover of \$321,484,446 with losses of \$3,768,408.

In 2019, international junkets operated by Customer 14 had turnover of \$532,208,609 with losses of \$13,328,245.

- iii. between 13 August 2017 and 28 March 2019, Star Sydney recorded that the total cumulative turnover of domestic junkets operated by Customer 14 and funded or represented by Customer 13 was \$86,815,541 with losses of \$2,484,000;

Particulars

In 2017, domestic junkets operated by Customer 14 had turnover of \$52,387,056 with losses of \$990,865.

In 2018, domestic junkets operated by Customer 14 had turnover of \$28,658,838 with losses of \$947,735.

In 2019, domestic junkets operated by Customer 14 had turnover of \$5,769,647 with losses of \$545,400.

- iv. between 30 November 2016 and 29 July 2019, Star Sydney recorded a cumulative turnover of \$54,322,341 for Customer 14 as a junket player on her own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- v. between 2016 and 2019, total benefits of \$6,953,480 were payable to Customer 14 by Star Sydney in her capacity as a junket operator;
- vi. Customer 14 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 14 operated junkets in non-exclusive private gaming rooms, including Jade, the Sovereign Room, Oasis, Chairman's and Pit 80.

Customer 14 operated junkets in exclusive private gaming rooms, including Salon 62, Salon 66, Salon 67, Salon 69, Salon 73, Salon 78 and Salon 85.

- vii. Customer 14 had four junket representatives at Star including Customer 13, Customer 94 and Customer 80; and
- viii. Customer 14 and her junket representatives facilitated the provision of high value designated services to 140 junket players at Star Sydney including players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 62, Customer 56 and Customer 13;

Particulars

See paragraphs 643 to 649 above.

See Customer 13's risk profile, Customer 56's risk profile and Customer 62's risk profile.

See paragraph 1085.h below.

- c. Customer 14 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 5 December 2016 and 31 May 2018, Customer 14 was a player on three international junkets at Star Sydney operated by herself;
 - ii. each of the international junkets were funded by a person other than the junket operator, being Customer 13; and

- iii. between 5 December 2016 and 31 May 2018, Star Sydney recorded high and escalating turnover totalling \$6,220,045 with losses of \$665,845 for Customer 14's gaming activity on international junket programs;

Particulars

In 2016, Customer 14's turnover on junket programs was \$1,919,164 with losses of \$616,745.

In 2017, Customer 14's turnover on junket programs escalated to \$2,643,381 with losses of \$39,100.

In 2018, Customer 14's turnover on junket programs was \$1,657,500 with losses of \$10,000.

- d. designated services provided to Customer 14 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Customer 14 was connected to other customers at Star Sydney, including junket funders, players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 13;

Particulars

Customer 13 was the junket funder and primary junket representative for Customer 14's junket. Customer 13 was related to Customer 14.

Customer 13 was closely associated with foreign PEPs known to Star as posing higher ML/TF risks, including Person 51.

From 2011, media reports linked the brothel owned by Customer 13 to alleged serious organised crime, including human trafficking and sex slavery. However, Star took inadequate steps to review, update and verify Customer 13's KYC information and so it was not until August 2019 that Star became aware that Customer 13 owned a brothel. Moreover, Customer 13 was a suspected senior member of an overseas organised crime syndicate and was allegedly connected to a wider international money laundering network. This presented a real risk in respect of Customer 13's source of wealth and source of funds, which were used to fund Customer 14's junket.

See Customer 13.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 14 by remitting large amounts of money into and out of the casino environment via her accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

Customer 14

Between 6 January 2017 and 6 February 2017, Customer 14 transacted \$427,000 through the Hotel Card channel. On all but one occasion, Customer 14 was given a temporary CCF while waiting for the funds to clear.

Customer 14's junket representatives

Between 2 December 2016 and 8 January 2017, Customer 80 transacted a total of \$530,000 through the Hotel Card channel, which comprised:

- a. on 2 December 2016, \$160,000 and \$220,000 which he deposited into Customer 14's SKA towards an outstanding CCF at Star Sydney;
- b. on 3 January 2017, \$33,000 and three units of \$30,000 which he deposited into Customer 14's SKA to be used for an upcoming redemption at Star Sydney;
- c. on 5 January 2017, \$30,000 which he deposited into Customer 14's SKA at Star Sydney;
- d. on 7 January 2017, \$30,000 which he deposited into Customer 14's SKA at Star Sydney; and
- e. on 8 January 2017, \$57,000 which he deposited into Customer 14's SKA at Star Sydney.

Customer 14's junket players

On 6 October 2018, a Star Sydney customer drew down a total of \$500,000 through the Hotel Card channel which he transferred to Customer 14's junket account. Star Sydney suspected that the customer could be using the junket buy-in as a way to get money out of a foreign country: SMR dated 8 October 2018.

Other remittances into the casino environment

See paragraph 327 above.

Between 7 July 2017 and 20 March 2019, Star Sydney received 56 telegraphic transfers totalling \$3,659,660, each of which was made available to Customer 14's account.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

On 24 April 2019, Star Sydney sent two telegraphic transfers totalling \$72,360 from Customer 14's FMA to an Australian bank account. The funds were intended for a third party.

- g. between 5 January 2017 and 2 February 2017, Star Sydney provided Customer 14 with significant amounts of credit upon request, up to limits of \$227,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 5 January 2017, Star Sydney senior management including the General Manager (Credit and Collections) approved a single trip CCF limit of \$100,000.

On 6 January 2017, Star Sydney senior management including the Chief Executive Officer approved a single trip CCF limit increase to \$180,000.

On 8 January 2017, Star Sydney senior management including the Chief Executive Officer approved a single trip CCF limit increase to \$227,000.

On 2 February 2017, Star Sydney senior management including the General Manager (Credit and Collections) approved a single trip CCF limit of \$100,000.

On each occasion, the CCF was provided on a 'temporary' basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star Sydney, including the Chief Executive Officer and the General Manager (Credit and Collections).

- h. Customer 14, and persons associated with her junket including Customer 94, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes bundled in rubber bands and contained in shopping bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Large cash transactions the subject of TTRs

Between 14 December 2016 and 17 June 2019, Star Sydney gave the AUSTRAC CEO 72 TTRs detailing incoming payments to Customer 14 totalling \$5,476,500 which comprised:

- a. \$5,216,500 in account deposits;
- b. \$150,000 in chip exchanges; and
- c. \$110,000 in other monetary values in.

Between 8 December 2016 and 26 July 2019, Star Sydney gave the AUSTRAC CEO 100 TTRs detailing outgoing payments from Customer 14 totalling \$4,041,815 which comprised:

- a. \$2,620,067 in account withdrawals;
- b. \$1,314,350 in chip exchanges; and
- c. \$107,398 in other monetary values out.

Large and suspicious transactions the subject of SMRs

Between 8 December 2016 and 19 June 2019, Customer 14 and persons associated with her junket conducted large and suspicious cash transactions totalling \$4,736,000. This included:

- a. \$2,203,000 of cash deposits into Customer 14's junket account by Customer 14's junket representative, Customer 94;
- b. \$590,000 of cash deposits into Customer 14's junket account by persons other than Customer 94;
- c. \$1,030,000 of cash withdrawals from Customer 14's junket account by Customer 14's junket representative, Customer 94;
- d. \$155,000 of cash withdrawals from Customer 14's junket account by persons other than Customer 94;
- e. \$393,000 of chip exchanges by Customer 14's junket representative, Customer 94; and
- f. \$365,000 other large and suspicious cash transactions.

Between 23 January 2019 and 16 February 2019 alone, Customer 94 deposited \$1,578,000 into and withdrew \$530,000 from Customer 14's junket account.

Large and suspicious cash transactions in 2016

On 8 December 2016, Customer 14's junket representative, Customer 13, withdrew \$170,900 from Customer 14's account at Star Sydney.

On 8 December 2016, Customer 14's junket representative, Customer 13, withdrew \$155,000 from Customer 14's account at Star Sydney. Customer 13 then met another Star Sydney customer and handed the cash to him: SMR dated 9 December 2016.

Large and suspicious cash transactions in 2017

On 31 August 2017, Customer 14's junket representative deposited \$100,000 into Customer 14's account.

Large and suspicious cash transactions in 2018

On 20 February 2018, Customer 14's junket representative, Customer 94, accompanied two customers who presented \$200,000 in cash at Star Sydney for deposit into Customer 14's account. Star Sydney understood that the funds had been issued by Star Qld.

On 21 February 2018, Customer 14's junket representative, Customer 94, presented \$100,000 in cash at Star Sydney. The cash comprised \$4,700 in \$100 notes, \$94,300 in \$50 notes, \$900 in \$20 notes, \$80 in \$10 notes and \$20 in \$5 notes. The cash was bundled in rubber bands. Customer 94 requested that \$86,000 be deposited into Customer 14's account and to place the remaining \$14,000 in

Customer 95's junket safe deposit box: SMR dated 22 February 2018.

On 26 February 2018 and 27 February 2018, Customer 14's junket representative, Customer 94, deposited large amounts of cash into Customer 14's account. The cash comprised \$50 notes. The cash was bundled with rubber bands into \$10,000 units. Although Star Sydney acknowledged that large cash transactions were common for a junket operator, they considered that the cash all being in \$50 notes was unusual: SMR dated 28 February 2018.

On 27 February 2018, Customer 14's junket representative, Customer 94, withdrew \$400,000 in cash from Customer 14's account. The cash was for a junket player on Customer 14's junket who had recorded a turnover of \$1,964,215 with a loss of \$98,900. Star Sydney considered the transaction to be unusual given the loss recorded for the junket player: SMR dated 28 February 2018.

On 3 March 2018, Customer 14's junket settled for \$107,398. Shortly afterwards, Customer 14's junket representative, Customer 13, returned with \$100,000 to be deposited into Customer 14's account.

On 19 May 2018, Customer 14's junket representative, Customer 94, exchanged \$193,000 in chips for cash at Star Sydney on behalf of Customer 14. Customer 94 split the cash between two junket players on Customer 14's junket. One customer had recorded a turnover of \$828,115 with a win of \$31,015 and the other customer had recorded a turnover of \$1,276,675 with a win of \$785. Star Sydney considered the cash given to these customers to be excessive: SMR dated 21 May 2018.

On 25 May 2018, Customer 14's junket representative, Customer 94, presented \$130,000 in \$50 notes at Star Sydney in a bag and bundled in units of \$5,000 with rubber bands. \$115,000 was used as a buy-in for Customer 14's junket and the balance was deposited to another junket operator's, Customer 95's, account.

On 6 July 2018, Customer 14's junket representative, Customer 94, deposited \$100,000 into Customer 14's account at Star Sydney on behalf of a junket player. The cash comprised \$100 and \$50 notes bundled in \$10,000 units.

On 10 July 2018, Customer 14's junket representative, Customer 94, deposited a total of \$200,000 in cash into Customer 14's account at Star Sydney for a buy-in. The cash was presented in a shopping bag in multiple denominations. The cash was bundled in rubber bands. Customer 94 was given the cash by another Star Sydney customer who was not a player on Customer 14's junket program. Customer 94 deposited \$88,850 and then left Star Sydney in a vehicle. He returned later to deposit a further \$111,150: SMR dated 11 July 2018.

On 14 July 2018, Customer 14's junket representative, Customer 94, deposited \$204,000 in cash into Customer 14's account at Star Sydney. The cash had been given to Customer 94 by a third party in a cloth bag and comprised \$22,300 in \$100 notes, \$180,100 in \$50 notes, \$20 in \$1,560 notes and \$40 in \$10 notes. The third party was not a player on Customer 14's junket. The cash was used as a buy-in for a junket player: SMR dated 17 July 2018.

On 16 July 2018, Customer 14's junket representative, Customer 94, deposited \$90,000 into Customer 14's account at Star Sydney and purchased \$20,000 in chips with cash. The cash comprised \$100 and \$50 notes.

On 17 July 2018, Customer 14's junket representative, Customer 94, deposited \$120,000 into Customer 14's account at Star Sydney on behalf of a junket player. The cash comprised \$10,000 in \$100 notes and \$110,000 in \$50 notes bundled in \$10,000 units with rubber bands.

On 29 July 2018, Customer 14's and Customer 95's junket representative, Customer 94, withdrew \$150,000 in cash from Customer 95's account at Star Sydney. Customer 94 then gave the cash to a Star Sydney customer who deposited the cash into his account. The customer then withdrew the cash again and left Star Sydney in a vehicle. The customer was not a player under Customer 95's junket but was a player on Customer 14's junket. Star Sydney considered the transaction to be excessive given that the customer had recorded a turnover of \$1,708,000 with a win of \$39,325 under Customer 14's junket and was not a player in Customer 95's junket: SMR dated 31 July 2018.

On 15 August 2018, Customer 14's junket representative, Customer 94, withdrew \$630,000 in cash from a Customer 14's account. The cash was given to a player on Customer 14's junket, Person 36, who had a recorded turnover of \$8,770,100 with a win of \$845,320 and was the only key player on that junket program. Star Sydney considered the cash to be an excessive amount to take: SMR dated 17 August 2018.

On 3 October 2018, Customer 14's junket representative, Customer 94, withdrew \$109,750 from Customer 14's account at Star Sydney.

On 8 October 2018, a Star Sydney customer presented \$100,000 in cash to deposit into his account. The cash comprised \$100 notes in Star straps issued on 4 October 2018. The customer had no transactions that would support the cash originating from the Star. Later that evening, the customer requested to transfer \$60,000 to Customer 14's account, as the customer was a junket player on Customer 14's junket. Star Sydney suspected that the cash originated with Customer 14's junket program: SMR dated 9 October 2018.

On 12 October 2018, \$68,000 in cash was deposited into Customer 14's account at Star Sydney. The cash comprised \$100 notes with straps from the Star.

On 23 October 2018, Customer 14's and Customer 95's junket representative, Customer 94, withdrew \$100,000 in cash from Customer 95's account at Star Sydney. Customer 94 gave the cash to two other Star Sydney customers, including Person 41, neither of whom were junket players in Customer 95's junket. The first customer had minimal gaming activity recorded on Customer 14's junket and Person 41 had no gaming activity recorded and no history of junket activity. Star Sydney considered it suspicious that Customer 94 withdrew funds from a junket and gave the cash to customers not affiliated with that junket: SMR dated 24 October 2018.

On 10 November 2018, Customer 14's junket representative, Customer 94, cashed out \$100,200 from Customer 14's junket and gave the cash to a junket player at Star Sydney. At the time of the transaction, the customer had recorded a turnover of \$859,600 with a win of \$629,345 for the junket.

Large and suspicious cash transactions in 2019

On 3 January 2019, Customer 14's junket representative, Customer 94, deposited \$135,000 in cash into Customer 14's account at Star Sydney. The cash had been given to Customer 94 by another Star Sydney customer, Person 3, and an unknown person in a yellow paper bag with a logo on the side of it. The cash comprised \$120,000 in \$50 notes and \$15,000 in \$20 notes. The cash was bundled in elastic bands. Person 3 was a local player and not a junket player. The unknown person was not a Star customer or known to Star Sydney. Star Sydney considered it unusual that cash was being delivered from someone not associated with Customer 14's junket to be deposited into Customer 14's account: SMR dated 7 January 2019.

On 23 January 2019, Customer 14's junket representative, Customer 94, deposited \$150,000 in cash into Customer 14's account at Star Sydney. The cash was in \$50 notes. The cash was bundled into \$10,000 units with rubber bands and was noted by Star Sydney staff to be partially sticky. The funds were allocated to a junket player on Customer 14's junket program, Person 13: SMR dated 24 January 2019.

On 27 January 2019, Customer 14's junket representative, Customer 94, exchanged \$200,000 of chips to cash on behalf of a junket operator, Customer 95. Soon afterwards, a customer returned with \$150,000 of the same cash to open a Star Sydney account and deposit the funds. The customer transferred the \$150,000 to Customer 14's account to fund a junket player. The customer then deposited \$200,000 in cash comprised of \$100 notes issued by the

Star. Star Sydney was unable to determine the origin of the funds. Later that day, Customer 94 gave \$200,000 worth of chips to the customer which were deposited into the customer's account. Star Sydney was unaware of any link between the customer and any of Customer 94, Customer 14 or Customer 95. The customer lived locally and was ineligible to play on junket. The gaming activity recorded for the customer was minimal compared with the large transactions conducted: SMR dated 30 January 2019.

On 1 February 2019, Customer 14's junket representative, Customer 94, deposited \$138,000 in cash to Customer 14's account. The cash comprised \$50 and \$20 notes in a shopping bag. Star Sydney considered it unusual for such a large cash transaction to be completed using small denomination notes: SMR dated 4 February 2019.

On 7 February 2019, a Star Sydney customer together with Customer 14's junket representative, Customer 94, approached the Star Sydney cashiers and requested to deposit \$200,000 into the customer's account. The customer was a junket player on Customer 14's junket. The cash comprised \$50 notes bundled with rubber bands in units of \$10,000 in a shopping bag. The customer had recorded a turnover of \$760,590 with a win of \$65,105. Soon after the transaction, Customer 94 returned with a further \$100,000 in cash to be deposited into Customer 14's account. The cash comprised \$50 notes contained in a shopping bag: SMR dated 8 February 2019.

On 8 February 2019, a junket player on Customer 14's junket deposited \$200,000 in cash into his account with Customer 14's junket representative, Customer 94, present. The cash comprised \$50 notes bundled with rubber bands in \$10,000 units contained in white shopping bags. After the deposit, the customer transferred the funds to Customer 14's account. Star Sydney identified that this was the largest single cash transaction recorded for the customer. Star Sydney also noted that the transaction was consistent with other recent dealings with Customer 94 and the deposit of large amounts of cash comprising \$50 notes bundled and presented in the same way: SMR dated 11 February 2019.

On 9 February 2019, a junket player on Customer 14's junket deposited \$200,000 in cash into his account with Customer 14's junket representative, Customer 94, present. The cash comprised \$190,000 in \$50 notes and \$10,000 in \$100 notes bundled with rubber bands in \$10,000 units and contained in white shopping bags.

After the deposit, the customer withdrew \$20,000 in cash and transferred the remaining \$180,000 to Customer 14's account. Star Sydney identified that this was the largest single cash transaction recorded for the customer. Star Sydney also noted that the transaction was consistent with other recent dealings with Customer 94: SMR dated 11 February 2019.

On 10 February 2019, Customer 14's junket representative, Customer 94, presented \$220,000 in cash to be deposited into Customer 14's account. The cash comprised \$100 notes, some of which had Star straps but the majority of which was bundled with rubber bands in units of \$10,000. Star Sydney noted that Customer 94 had been involved in several large cash transactions in respect of Customer 14's junket in recent days. Star Sydney identified that it was out of the ordinary for such large amounts of cash to be deposited daily: SMR dated 12 February 2019.

On 13 February 2019, Customer 14's junket representative, Customer 94, deposited \$120,000 in cash into Customer 14's junket account. The cash comprised \$100,000 in \$50 notes bundled in rubber bands in units of \$5,000 and \$20,000 in \$100 notes bundled in Star straps. The cash had been withdrawn from another junket operator's, Customer 95's, safe deposit box. Customer 94 was a representative of both Customer 95's and Customer 14's junkets. Star Sydney considered it unusual that Customer 94 would be taking cash from one junket safe deposit box to another: SMR dated 13 February 2019.

On 14 February 2019, Customer 14's junket representative, Customer 94, deposited \$110,000 in cash to Customer 14's account. Shortly afterwards, Customer 94 deposited a further \$10,000 in cash into Customer 14's account. The cash comprised \$50 notes bundled with rubber bands in units of \$10,000. Star Sydney identified that Customer 94 had made similar deposits on numerous occasions: SMR dated 15 February 2019.

On 15 February 2019, Customer 14's junket representative, Customer 94, presented \$250,000 in cash to be deposited into Customer 14's junket account. The cash comprised \$249,200 in \$50 notes and \$800 in \$100 notes. Customer 94 initially provided \$200,000 and then left the room and returned with another \$40,000. Customer 94 realised that he was still 'short' and so left again to collect another \$10,000. Further surveillance revealed that Customer 94 was meeting with another junket representative who was supplying the cash: SMR dated 19 February 2019.

On 16 February 2019, Customer 14's junket representative, Customer 94, presented \$200,000 in cash bundled in rubber bands and contained in a shoe box. The cash comprised \$100 notes. Customer 94 requested that \$180,000 of the funds be deposited into Customer 14's account and the remaining \$20,000 be returned to him. Customer 94 purchased \$20,000 of chips with the cash later that evening but no play was recorded. Star Sydney identified that this was another deposit into Customer 14's account by Customer 94 involving a large amount of cash or cash received in suspicious packaging: SMR dated 19 February 2019.

On 5 April 2019, Customer 14's junket representative, Customer 94, presented \$300,000 in cash to be deposited into Customer 14's account. The cash comprised \$7,300 in \$100 notes, \$290,500 in \$50 notes and \$2,200 in \$20 notes. The cash was bundled with rubber bands and presented in a duffel bag. Customer 94 had been given the cash by another Star Sydney customer, Person 3, who had no known links to Customer 94 or Customer 14's junket: SMR dated 8 April 2019.

On 19 June 2019, a Star Sydney customer presented \$200,000 in chips from his program and exchanged them for eight \$25,000 plaques. A short time later, Customer 14's junket representative, Customer 94, deposited the same plaques into Customer 14's account. The customer was not a junket player on Customer 14's junket and Star Sydney was unaware of any link between the customer and Customer 94 or the customer and Customer 14: SMR dated 19 June 2019.

- i. designated services provided to Customer 14 involved the provision by Star Sydney of non-winnings cheques;

Particulars

On 14 December 2017, Customer 80 requested that \$150,000 be withdrawn from his account as a Star cheque in his favour. Customer 80 advised that the cash was his 'commission' from Customer 14's junket and that he was taking it to another Australian casino to use for gaming activities: SMR dated 15 December 2017.

On 6 October 2018, a Star Sydney customer used \$500,000 transacted through the Hotel Card channel as a buy-in under Customer 14's junket. Over the next few days, Star Sydney recorded that the customer had a turnover of \$3,092,000 with a loss of \$20,350. Customer 14's junket requested a cheque for \$500,000 to be issued to the customer from Customer 14's account. Star Sydney considered that the turnover and loss recorded by the customer was quite small compared with the initial transaction of \$500,000. Star Sydney suspected that the customer could be using the junket buy-in as a way to get money out of a foreign country: SMR dated 8 October 2018.

- j. at various times, Customer 14 had significant parked or dormant funds in her SKA at Star Sydney;

Particulars

See paragraph 284 above.

Between 29 July 2019 and at least 5 August 2022, Customer 14 had \$33,939 parked in her SKA.

- k. in January 2020, Customer 14 was issued an exclusion order by a law enforcement agency;

Particulars

In November 2018, on multiple occasions, a law enforcement agency requested details in respect of Customer 14 which Star Sydney provided.

On 16 January 2020, a law enforcement agency issued an exclusion order in respect of Customer 14. The exclusion order did not give details as to why Customer 14 was excluded or what the investigation related to.

- I. Customer 14 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 14 had access to private gaming rooms in the Sovereign Room, Chairman's, Jade, Springs Salon, Lakes Salon and Oasis at Star Sydney.

- m. Star Sydney did not have adequate reason to believe that Customer 14's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 14 at Star Sydney.

Particulars

See paragraph 808 above.

Star understood Customer 14's occupation to be as a junket representative and operator.

Junkets operated by Customer 14 recorded very significant turnover. Customer 14's junket representatives appeared to have access to significant volumes of cash, including cash in small notes and that was presented suspiciously. Customer 14's junket representatives included customers who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 13 and Customer 94. Moreover, Customer 14 and persons associated with her junket transacted through the high risk Hotel Card channel.

However, Star Sydney did not take steps to identify or verify Customer 14's source of wealth other than through her junket operations. Nor did Star Sydney take steps to verify the source of funds in respect of large and suspicious cash deposits carried out by Customer 14's junket representatives.

Star Sydney's determination of the ML/TF risks posed by Customer 14

1086. For the reasons pleaded at paragraph 110 above, Star Sydney was unable appropriately to identify or assess the ML/TF risks posed by Customer 14 because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 14.

- a. On and from 30 November 2016, Customer 14 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 14's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 15 July 2020 that Customer 14 was rated high risk for the purpose of the Act Rules by Star Sydney, after she was issued a WOL by Star Sydney.

Particulars

See paragraph 110 above.

On 17 February 2016, Customer 14 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 29 July 2019, Customer 14 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 16 January 2020, Star Sydney issued a WOL in respect of Customer 14 following an exclusion order issued by a law enforcement agency.

On 15 July 2020, Customer 14 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 14's transactions

1087. At no time did Star Sydney apply appropriate transaction monitoring to Customer 14's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 14, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 14's junket as turnover was recorded against Customer 14 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 14 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the Hotel Card channel;

Particulars

See paragraphs 790 above.

- e. Star Sydney provided designated services to Customer 14 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 14.

Particulars

Star senior management were not specifically informed of 40 large and suspicious cash incident involving Customer 14 between 8 December 2016 and 4 April 2019: see *Customer 14's risk profile*.

The review, update and verification of Customer 14's KYC information

1088. Star Sydney did not review, update and verify Customer 14's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 14's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 14's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 14's source of wealth or source of funds: see *Customer 14's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 14's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 14.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 14's high ML/TF risks

1089. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 14 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 14; and
 - c. reviewing and updating Customer 14's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 14 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 14*.

ECDD triggers in respect of Customer 14

1090. Star Sydney was required to apply the ECDD Programs to Customer 14 following any ECDD triggers in respect of Customer 14.

Particulars

Section 36(1)(a) and (b) of the Act.

1091. Customer 14 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 9 December 2016 and 19 June 2019, Star Sydney gave the AUSTRAC CEO 27 SMRs with respect to Customer 14.

1092. The matter pleaded in paragraph 1091 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1093. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 14 following an ECDD trigger because:

- a. on each occasion prior to 16 January 2020 that Star Sydney conducted ECDD in respect of Customer 14 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 14 and the provision of designated services to Customer 14 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 29 August 2019, 4 February 2019, 5 April 2019 and 18 June 2019 Star Sydney conducted ECDD in respect of Customer 14.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 14's higher ML/TF risks: see *Customer 14's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 14's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 14's source of wealth or source of funds: see *Customer 14's risk profile*.

However, it was not until 16 January 2020 that Star Sydney issued a WOL in respect of Customer 14 at the direction of a law enforcement agency.

- b. Customer 14 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion prior to 16 January 2020 that Customer 14 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 14 and the provision of designated services to Customer 14 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

From August 2019, Customer 14 was discussed at PAMMs.

The minutes of the PAMMs noted Customer 13's relationship with Customer 14. However, the discussions prior to 16 January 2020 did not consider the high ML/TF risks posed by Customer 14. Star senior management was not fully apprised of the nature of its business relationship with Customer 14. For example, in August 2019, a member of senior management was asked to confirm whether Customer 14's junket was an international junket or a domestic junket.

Between August 2019 and September 2019, Customer 14 was discussed at JRAM.

The minutes of the JRAMMs noted Customer 13's relationship with Customer 14. The meeting concerned adverse media related to Customer 14's brother, junket funder and junket representative, Customer 13.

In August 2019, the Chief Casino Officer and the Chief Legal and Risk officer prepared a summary in respect of certain customers who were the subject of allegations in media articles, including Customer 14 and her brother Customer 13. The summary noted that Customer 14 had no known links to organised crime.

However, it was not until 16 January 2020 that Star Sydney issued a WOL in respect of Customer 14 at the direction of a law enforcement agency.

In August 2021, Star conducted a review of persons of interest at, including Customer 14. The review recommended that Customer 14 remain permanently excluded.

Contravention of s36 of the Act in respect of Customer 14

1094. By reason of the matters pleaded from paragraphs 1082 to 1093, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 14 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1095. By reason of the matters pleaded at paragraph 1094, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 16 January 2020 with respect to Customer 14.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 15

1096. Customer 15 was a customer of Star Sydney during the relevant period.

Particulars

Customer 15 was a customer of Star Sydney from at least 26 July 2017.

1097. Star Sydney provided Customer 15 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2018, Star Sydney recorded that junkets operated by Customer 15 had a turnover exceeding \$180 million.

Particulars

On 26 July 2017, Star Sydney opened an FMA and SKA for Customer 15 which remain open (item 11, table 3, s6 of the Act).

See Customer 15's risk profile below.

1098. Customer 15 was a customer of Star Qld during the relevant period.

Particulars

Customer 15 was a customer of Star Qld from at least 24 July 2017.

1099. Star Qld provided Customer 15 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2018, Star Qld recorded that junkets operated by Customer 15 had a turnover exceeding \$4.4 billion.

Particulars

On 24 July 2017, Star Qld opened an FMA for Customer 15 which remains open (item 11, table 3, s6 of the Act).

See Customer 15's risk profile below.

1100. At all times from 24 July 2017 in respect of Star Qld and 26 July 2017 in respect of Star Sydney, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 15.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 15's risk profile

1101. On and from 24 July 2017 in respect of Star Qld and 26 July 2017 in respect of Star Sydney, Customer 15, and the provision of designated services to Customer 15 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

- a. Customer 15 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2018, Customer 15 operated four junkets at Star Sydney, all of which were funded by Customer 10;
 - ii. between 2017 and 2018, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 15 in the relevant period was \$188,331,228 with losses of \$11,339,515;

Particulars

In 2017, junkets operated by Customer 15 had turnover of \$24,555,310 with losses of \$1,438,050.

In 2018, junkets operated by Customer 15 had turnover of \$163,775,918 with losses of \$9,934,465.

- iii. between 2017 and 2018, Star Sydney recorded a cumulative turnover of \$25,354,115 for Customer 15 as a junket player on their own junkets despite not being a junket player at any time;

Particulars

See paragraph 670 above.

- iv. between 2017 and 2018, total benefits of \$1,389,490 were payable to Customer 15 by Star Sydney in her capacity as a junket operator;

Particulars

Customer 15 was entitled to benefits from Star Sydney including rebates earned and complimentary services in their capacity as a junket operator:

- a. in 2017, total benefits of \$178,547 were payable to Customer 15; and
 - b. in 2018, total benefits of \$1,210,943 were payable to Customer 15.
- v. Customer 15 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 15 operated junkets in non-exclusive private gaming rooms, including the Sovereign room and Pit 80.

Customer 15 operated junkets in exclusive private gaming rooms, including Salon 73, 88, 90 and 91.

- vi. Customer 15 had one junket representative at Star Sydney including Customer 16; and
- vii. Customer 15 and her junket representatives facilitated the provision of high value designated services to at least 20 junket players at Star Sydney including foreign PEPs and players in respect of whom Star Sydney had formed suspicions, such as Customer 10;

Particulars

See paragraphs 643 to 649 above.

See Customer 10's risk profile.

- b. Customer 15 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 2017 and 2018, Customer 15 operated fourteen junkets at Star Qld, all of which were funded by Customer 10;

Particulars

Funding for Customer 15's junkets comprised \$203,100,000 funded by Customer 10.

- ii. between 2017 and 2018, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 15 in the relevant period was \$4,457,187,670 with losses of \$76,905,500;

Particulars

In 2017, junkets operated by Customer 15 had turnover of \$306,279,480 with losses of \$1,233,500.

In 2018, junkets operated by Customer 15 had turnover of \$4,150,908,190 with losses of \$75,672,000.

- iii. between 2017 and 2018, Star Qld recorded a cumulative turnover of \$170,638,520 for Customer 15 as a junket player on their own junkets despite not being a junket player at any time;
- iv. between 2017 and 2018, total benefits of \$35,537,188 were payable to Customer 15 by Star Qld in her capacity as a junket operator;

Particulars

Customer 15 was entitled to benefits from Star Sydney including rebates earned and complimentary services in their capacity as a junket operator:

- a. in 2017, total benefits of \$2,287,392 were payable to Customer 15; and
- b. in 2018, total benefits of \$33,249,796 were payable to Customer 15.
- v. Customer 15 operated junkets in private gaming rooms, including private games rooms that were exclusive to the junket;

Particulars

Customer 15 operated junkets in non-exclusive private gaming rooms, including Pit 11.

Customer 15 operated junkets in exclusive private gaming rooms, including Salon 21, 22, 69, 88 and 99.

- vi. Customer 15 had one junket representative at Star Qld including Customer 16; and
- vii. Customer 15 and her junket representatives facilitated the provision of high value designated services to three junket players at Star Qld including foreign PEPs and players in respect of whom Star Qld had formed suspicions such as Customer 10, Customer 53 and Customer 16;

Particulars

See paragraphs 643 to 649 above.

See *Customer 10's risk profile*, *Customer 16's risk profile* and *Customer 53's risk profile*.

See paragraph 1101.h below.

- c. designated services provided to Customer 15 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- d. Customer 15 referred players to Star Sydney;

Particulars

See paragraph 625 above.

Customer 15 received a commission on amounts wagered by referred players, who Star Sydney dealt with directly.

- e. on 29 September 2018 and 9 July 2019, Customer 15 referred Customer 53 to Star Qld;

Particulars

See paragraph 625 above.

On 29 September 2018 and 9 July 2019, Customer 15 referred Customer 53 to Star Qld. On each occasion, Customer 15 arranged for Customer 53 to attend Star Qld on a rebate program without Customer 15 or her junket representative being present.

Customer 15 received a commission on amounts wagered by Customer 53, who Star Qld dealt with directly.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 15 by remitting large values into the casino environment via her accounts;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 15 August 2019, Star Sydney received a telegraphic transfer totalling \$126,000 from a third party which it made available to Customer 15's account.

The above transaction was conducted through the Star Patron account channel.

Remittances into the casino environment

See paragraph 327 above.

Between 11 September 2017 and 10 March 2020, Star Sydney received 23 telegraphic transfers totalling \$15,010,830, each of which was made available to Customer 15's account. At least \$126,000 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 20 December 2017 and 22 March 2019, Star Sydney sent two telegraphic transfers totalling \$104,000 from Customer 15's account to an Australian bank account.

For example, on 5 July 2018, Star Sydney sent a telegraphic transfer of \$181,895 from Customer 15's account to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 28 November 2017 and 22 August 2019, Star Sydney received three transfers totalling \$4,369,814 from Star Qld, each of which was made available to Customer 15's account.

On 28 February 2018, Star Sydney sent a transfer of \$17,310 from Customer 15's account to Star Qld.

- g. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 15 by remitting large values into and within the casino environment via her accounts;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 22 October 2018, Star Qld received a telegraphic transfer of \$1,240 into its bank account for credit of Customer 15. The sender was an unknown third party company. The funds were made available to Customer 15's account: SMR dated 25 October 2018.

The above transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 28 March 2018 and 15 November 2018, Star Qld received five telegraphic transfers totalling \$12,811,274, each of which was made available to Customer 15's FMA and SKA at Star Gold Coast. Some of the funds were transferred for the purpose of redeeming an outstanding CCF held by Customer 10.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 19 March 2018 and 6 December 2018, Star Qld facilitated six telegraphic transfers totalling \$29,294,928 from Customer 15's FMA at Star Gold Coast to Australian banks.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 28 November 2017 and 27 September 2018, Star Qld received three transfers totalling \$4,047,311 from Star Sydney, each of which was made available to Customer 15's FMA at Star Gold Coast.

Between 9 December 2017 and 22 August 2019, Star Qld facilitated four transfers totalling \$591,723 from Customer 15's FMA at Star Gold Coast to Star Sydney.

For transfers to other customers FMAs, including Customer 16, see particulars to paragraph 1101.h below.

- h. Star Qld was aware that Customer 15 and players on her junket program including Customer 10 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

In February 2018, Customer 15 operated a junket program at Star Qld with two junket players (Customer 10 and Customer 53). Star Qld recorded the following transactions:

- a. a total of \$25,000,000 in front money was transferred to Customer 15 from Customer 10 for the junket program. Customer 10 utilised his CCF to draw down the funds. Customer 10 had received a telegraphic transfer of \$10,000,000 to redeem part of his CCF;
 - b. as at 7 February 2018, Customer 10 was recording a loss on the junket program of \$18,800,000 and Customer 53 was recording a win on the junket program of \$348,000. Customer 53 received \$175,000 of those winnings in cash; and
 - c. on 7 February 2018, Customer 15 withdrew \$150,000 in cash from the junket program's account and gave it to Customer 53. Customer 15 then transferred \$900,000 to the FMA of her junket representative, Customer 16. Customer 16 then transferred the \$900,000 to his account at Star Sydney before transferring it to Customer 53's account: SMR dated 7 February 2018.
- i. Customer 15 and persons associated with her junket, including Customer 16, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 18 August 2017 and 2 November 2018, Star Sydney gave the AUSTRAC CEO seven TTRs in respect of Customer 15 totalling \$488,005:

- a. five TTRs detailing account withdrawals totalling \$401,300; and
- b. two TTRs detailing chip / cash exchanges totalling \$86,705.

Large and suspicious cash transactions in 2017

On two occasions in August 2017, Customer 15's junket representative Customer 16 accessed Customer 15's FMA to withdraw a total of \$300,000 in cash:

- a. on 17 August 2017, Customer 16 withdrew \$100,000 from Customer 15's FMA at Star Sydney; and
- b. on 20 August 2017, Customer 16 withdrew \$200,000 from Customer 15's FMA at Star Sydney.

Large and suspicious cash transactions in 2018

On 4 October 2018, Customer 16 withdrew \$95,000 from Customer 15's FMA at Star Sydney, then exchanged \$57,985 in premium chips and \$80,000 in cash chips for cash, totalling \$232,985. Customer 16 then divided the cash between three bags and gave them to the players on Customer 15's junket. Star Sydney recorded that Customer 15's junket was winning \$835,525 at that time.

- j. Customer 15 and persons associated with her junket, transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

Between 11 December 2017 and 5 December 2018, Star Qld gave the AUSTRAC CEO 24 TTRs totalling \$2,393,000, including:

- a. 20 TTRs detailing account withdrawals made by Customer 15 totalling \$1,136,500;
- b. one TTRs detailing account deposits made by Customer 15 totalling \$40,000; and
- c. three TTRs detailing chip / cash exchanges made by Customer 15 totalling \$172,000.

Large and suspicious cash transactions in 2017

On 10 December 2017, Customer 15 operated a junket at Star Qld. Customer 10 had supplied to Customer 15 a \$10,000,000 cheque as front money for the junket program. At the end of play and after the commission was calculated, Customer 15 took \$385,000 in cash. The \$10,000,000 front money cheque was repurchased and the remainder of the funds, being \$4,506,185, was sent by telegraphic transfer to Customer 10's personal bank account. The ground of suspicion was the amount of cash taken by Customer 15: SMR dated 12 December 2017.

Large and suspicious cash transactions in 2018

In April 2018, Customer 15 operated a junket at Star Qld. The junket had only one key player, Customer 10, together with Customer 15's junket representative, Customer 16. On 2 April 2018, Customer 16 withdrew \$100,000 in cash payment from Customer 15's FMA. The cash was handed to Customer 16 who then handed the cash to Customer 10. Star Qld understood that Customer 15, Customer 16 and Customer 10 regularly completed similar cash transactions on recent trips: SMR dated 4 April 2018.

- k. Star Sydney and Star Qld did not have adequate reason to believe that Customer 15's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 15 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld recorded Customer 15's occupation as junket representative and junket operator.

Star Sydney and Star Qld did not take appropriate steps to verify their assumptions regarding Customer 15's source of wealth or source of funds in circumstances where:

- a. In 2017 and 2018, junkets operated by Customer 15 were funded by a third party, Customer 10, with recorded turnover exceeding \$2.1 billion; and
- b. Customer 15's individual rated play was low compared to the large amounts of money that were deposited and withdrawn from her FMA: see paragraphs 1101.a, 1101.b, 1101.i and 1101.j.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 15

1102. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 15 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 15.
- a. On and from August 2017, Customer 15 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 15's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 15 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 12 December 2017, Customer 15 was rated low risk, not being high risk the purpose of the Act and Rules.

On 21 August 2017, Customer 15 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 15 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 15's transactions

1103. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 15's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 15, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 15 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- d. Star Sydney and Star Qld provided designated services to Customer 15 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 15's KYC information

- 1104. Star Sydney and Star Qld did not review, update and verify Customer 15's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 15's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 15's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 15's source of wealth or source of funds: see *Customer 15's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 15's KYC information on and from 24 July 2017 in respect of Star Qld and 26 July 2017 in respect of Star Sydney, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 15.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 15's high ML/TF risks

- 1105. Had Star Qld conducted ongoing customer due diligence on and from 24 July 2017 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 15 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 15; and
 - c. reviewing and updating Customer 15's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 15 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 15*.

- 1106. Had Star Sydney conducted ongoing customer due diligence on and from 26 July 2017 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 15 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 15; and
 - c. reviewing and updating Customer 15's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 15 as a high risk customer.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

- 1107. Had Star Sydney rated Customer 15 as a high risk customer, they would have been required by the Act and Rules to apply the ECDD Program to Customer 15.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 15

1108. Star Qld was required to apply the ECDD Programs to Customer 15 following any ECDD trigger in respect of Customer 15.

Particulars

Section 36(1)(a) and (b) of the Act.

1109. Customer 15 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 12 December 2017 and 25 October 2018, Star Qld gave the AUSTRAC CEO four SMRs with respect to Customer 15.

1110. The matter pleaded in paragraph 1109 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1111. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 15 following an ECDD trigger because:

- a. on each occasion that Star Qld conducted ECDD in respect of Customer 15 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 15 and the provision of designated services to Customer 15 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite; and

Particulars

See paragraphs 797 and 807 above.

Rules 15.10(2) and (5) of the Rules.

On 18 June 2019, Star Qld conducted ECDD in respect of Customer 15.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 15's higher ML/TF risks: see *Customer 15's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 15's source of funds or source of wealth.

By reason of the matters set out above, there were higher risks associated with Customer 15's source of wealth and source of funds: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 15* above.

- b. Customer 15 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite.

Particulars

See paragraph 817 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 15

1112. By reason of the matters pleaded from paragraphs 1096 to 1111, on and from 26 July 2017, Star Sydney:

- a. did not monitor Customer 15 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1113. By reason of the matters pleaded at paragraph 1112, Star Sydney contravened s36(1) of the Act on and from 26 July 2017 with respect to Customer 15.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1114. By reason of the matters pleaded from paragraphs 1096 to 1111, on and from 24 July 2017, Star Qld:

- a. did not monitor Customer 15 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1115. By reason of the matters pleaded at paragraph 1114, Star Qld contravened s36(1) of the Act on and from 24 July 2017 with respect to Customer 15.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 16

1116. Customer 16 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$290,000 for Customer 16.

Particulars

Customer 16 was a customer of Star Sydney from at least December 2012.

1117. Star Sydney provided Customer 16 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket representative.

Particulars

On 27 December 2012, Star Sydney opened an FMA and SKA for Customer 16 which remain open (item 11, table 3, s6 of the Act).

Between 1 March 2019 and 10 March 2020, Star Sydney approved CCFs for Customer 16 on eight occasions ranging from \$2,000,000 to \$3,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 16 (items 31 and 32, table 1, s6 of the Act).

See Customer 16's risk profile.

1118. Customer 16 was a customer of Star Qld during the relevant period. Between 2017 and 2018, Star Qld recorded turnover exceeding \$690,000 for Customer 16.

Particulars

Customer 16 was a customer of Star Qld from at least 30 July 2016.

1119. Star Qld provided Customer 16 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and a junket representative. In 2017, Star Qld recorded that junkets operated by Customer 16 had a turnover exceeding \$190 million.

Particulars

On 30 July 2016, Star Qld opened an FMA for Customer 16 which remains open (item 11, table 3, s6 of the Act).

On 8 July 2019, Star Qld approved a CCF for Customer 16 of \$2,000,000 with an additional trip only limit of \$1,000,000 (item 6, table 1, s6 of the Act).

See Customer 16's risk profile.

1120. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 16.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 16's risk profile

1121. On and from 30 November 2016, Customer 16, and the provision of designated services to Customer 16 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 16's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 16 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 16;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 11 occasions between 10 February 2015 and 30 May 2016.

The SMRs reported that Customer 16 was involved in large cash transactions totalling \$1,300,000: see paragraph 1121.a.iii below.

- ii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 16 by remitting large amounts of money into and out of the casino environment via her accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 6 October 2015 and 29 July 2016, Star Sydney received five telegraphic transfers totalling \$4,396,973, each of which was made available to Customer 16's account. At least \$1,216,973 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 20 July 2015 and 28 June 2016, Star Sydney sent seven telegraphic transfers totalling \$760,000 from Customer 16's account to Australian bank accounts.

Between 23 December 2015 and 8 April 2016, Star Sydney sent three telegraphic transfers totalling \$160,000 from Customer 16's account to overseas bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- iii. Customer 16 and persons associated with her transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 29 March 2013 and 21 May 2016, Star Sydney gave the AUSTRAC CEO 10 TTRs detailing incoming account deposits or other monetary values in by Customer 16 totalling \$332,205.

Between 30 January 2013 and 15 August 2016, Star Sydney gave the AUSTRAC CEO 154 TTRs detailing outgoing account withdrawals, other monetary values out or chip exchanges by Customer 16 totalling \$4,630,522.

Large cash transactions

Between 6 February 2015 and 4 June 2016, Customer 16 was involved in large cash transactions totalling \$1,430,000:

- a. between 6 February 2015 and 29 March 2015, Customer 16 withdrew four sums of \$100,000 each from her Star Sydney FMA: SMRs dated 10 February 2015, 18 February 2015, 31 March 2015;
- c. on 3 April 2015, Customer 16 deposited \$100,000 in cash into her Star Sydney FMA. The cash comprised \$100 notes and had Star straps. Customer 16 returned several hours later and withdrew the funds as cash: SMR dated 8 April 2015;
- d. on 4 January 2016, Customer 11 withdrew \$100,000 from his Star Sydney account. Customer 11 requested that the cash be paid to his junket representative, Customer 16: SMR dated 5 January 2016;
- e. between 6 February 2016 and 11 February 2016, Customer 16 acted as a junket representative for Customer 11's junket at Star Sydney. Customer 16 withdrew a total of \$400,000 in cash from Customer 11's account: SMRs dated 8 February 2016, 10 February 2016 and 12 February 2016;
- f. on 22 February 2016, Customer 16, acting as Customer 11's junket representative, withdrew \$200,000 from Customer 11's account at Star Sydney. Customer 16 was observed to hand the cash to another junket representative who then deposited the cash into another junket operator's account: SMR dated 23 February 2016;
- g. on 27 May 2016, Customer 16, acting as Customer 11's junket representative, withdrew \$100,000 from Customer 11's junket account at Star Sydney. Customer 16 then handed

\$80,000 to another Star Sydney customer who deposited the funds into his account: SMR dated 30 May 2016; and

- h. on 4 June 2016, Customer 16, acting as Customer 11's junket representative, withdrew \$120,000 from Customer 11's FMA at Star Sydney.
- iv. by 30 November 2016, Star Sydney responded to a request for records from an independent corruption commission in respect of Customer 16;

Customer 16's risk profile from 30 November 2016

- b. Customer 16 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 26 May 2017 and 8 June 2017, Customer 16 operated a junket at Star Qld, which was funded by Customer 10;

Particulars

Customer 16 was approved as a junket operator on 18 July 2017.

However, Customer 16 operated a junket between 26 May 2017 and 8 June 2017 at Star Qld. Customer 10 provided funding of \$10,000,000 towards the junket, on which he was also a player.

In 2017, Customer 16 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Gold Coast.

Customer 16's approval to be a junket operator was rescinded on 13 April 2021.

- ii. between 26 May 2017 and 8 June 2017, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 16 was \$190,119,670 with wins of \$5,246,380;
- iii. in 2017, total benefits of \$1,422,385 were payable to Customer 16 by Star Qld in her capacity as a junket operator which included rebates earned, complimentary services and additional program agreement benefits;
- iv. on 8 July 2019, Star Qld provided Customer 16 with significant amounts of credit upon request, up to limits of \$2,000,000 with an additional trip only limit of \$1,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 8 July 2019, Star Qld approved a single trip CCF limit of \$2,000,000 with an additional trip only limit of \$1,000,000.

- v. Customer 16 operated the junket in a private gaming room which was exclusive to the junket; and

Particulars

Customer 16 operated the junket in an exclusive private gaming room, Salon 21.

- vi. Customer 16 facilitated the provision of high value designated services to three junket players at Star Qld including foreign PEPs players who posed higher ML/TF and players who Star Qld considered had acted suspiciously such as Customer 10 and Customer 53;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 16 was the junket representative two different junket operators at Star Sydney, Customer 11 and Customer 15;

Particulars

Customer 11's junket

Customer 16 was the sole junket representative for junket programs operated by Customer 11.

Each of Customer 11's junket programs were funded by Customer 10.

Between 30 November 2016 and July 2017, Customer 11's junket, represented by Customer 16, had a cumulative turnover of \$466,907,363.

Customer 15's junket

Customer 16 was the sole junket representative for each of Customer 15's junket programs.

Each of Customer 15's junket programs were funded by Customer 10.

In 2017 and 2018, Customer 15's junket, represented by Customer 16, had a cumulative turnover of \$188,331,228.

- d. Customer 16 was the junket representative for Customer 15's junket at Star Qld;

Particulars

Customer 16 was the sole junket representative for each of Customer 15's junket programs.

Each of Customer 15's junket programs were funded by Customer 10.

In 2017 and 2018, Customer 15's junket, represented by Customer 16, had a cumulative turnover of \$4,645,518,898.

- e. designated services provided to Customer 16 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 16 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2020, Star Sydney recorded high individual rated turnover totalling \$297,465 for Customer 16;

Particulars

In 2017, Customer 16's individual rated turnover was \$246,713.

In 2017, Customer 16's individual rated turnover was \$50,301.

In 2020, Customer 16's individual rated turnover was \$450.

- g. Customer 16 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2018, Star Qld recorded high and escalating individual rated turnover totalling \$699,020 for Customer 16;

Particulars

In 2017, Customer 16's individual rated turnover was \$38,441.

In 2018, Customer 16's individual rated turnover escalated to \$660,578.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 16 by remitting large amounts of money into, out of, and within the casino environment via her accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

On 20 May 2019, Customer 10 acting on behalf of Customer 16 deposited a total of \$58,560 into the EEIS Patron accounts, which Star Sydney made available to Customer 16 through the EEIS remittance channel.

Between 21 May 2019 and 9 March 2020, Customer 16 deposited a total of \$1,908,304 into the EEIS Patron accounts, which Star Sydney made available to Customer 16 through the EEIS remittance channel.

Between 23 May 2019 and 9 March 2020, third party companies acting on behalf of Customer 16 deposited a total of \$2,368,413 into the EEIS Patron accounts, which Star Sydney made available to Customer 16 through the EEIS remittance channel.

On 28 May 2019, a third party acting on behalf of Customer 16 deposited a total of \$210,388 into the EEIS Patron accounts, which Star Sydney made available to Customer 16 through the EEIS remittance channel.

Other remittances involving third parties

See paragraphs 278 and 327 above.

On 30 January 2018, Star Sydney received a transfer from a company account of \$6,660, which it made available to Customer 16's Star Sydney account.

On 18 November 2018, Star Sydney received a transfer from a second company account of \$585,215, which it made available to Customer 16's Star Sydney account.

On 9 April 2020 and 16 April 2020, Star Sydney received two transfers from Customer 11 totalling \$43,000, which it made available to Customer 16's Star Sydney account.

On 3 July 2020, Star Sydney received a transfer from a third company account, Company 4, of \$500,000 in which Customer 11's name was included in the narrative. Star Sydney made the funds available to Customer 16's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 13 May 2017 and 8 July 2020, Star Sydney received 34 telegraphic transfers totalling \$14,591,253, each of which was made available to Customer 16's account. At least \$636,215 of the funds were transferred for the purpose of redeeming outstanding CCFs.

On 4 July 2020 and 7 July 2020, Star Sydney received two telegraphic transfers totalling USD\$130,000 into its foreign currency account, both of which were made available to Customer 16's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 7 March 2017 and 28 February 2018, Star Sydney sent five telegraphic transfers totalling \$200,000 from Customer 16's account to Australian bank accounts.

Between 6 June 2017 and 5 July 2018, Star Sydney sent four telegraphic transfers totalling \$425,609 from Customer 16's account to overseas bank accounts.

For example, on 18 June 2021, Star Sydney gave the AUSTRAC CEO two outgoing IFTIs totalling \$185,725, in respect of two transactions on 21 July 2020 where Customer 16 was named as the ordering customer and the beneficiary.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, between 28 November 2017 and 5 May 2018, Star Sydney received four transfers totalling \$1,500,996 from Star Qld, each of which was made available to Customer 16's FMA.

On 9 July 2020, Customer 16 transferred \$500,000 from her Star Sydney account to Customer 53. Customer 53 used the funds on junket program in which he had a recorded turnover of \$5,150,000 with a loss of \$505,000. After the transfer, Customer 53 requested to withdraw \$100,000 as cash. This appeared to Star Sydney to be unusual given the loss recorded by Customer 53 and the funds transferred to fund his gaming activity: SMR dated 10 July 2020.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 16 by remitting large amounts of money within the casino environment via her accounts;

Particulars

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 29 May 2017 and 5 May 2018, Star Qld facilitated three transfers totalling \$362,360 from Customer 16's FMA at Star Gold Coast to Star Sydney.

On 28 November 2017, Star Qld received a transfer from Star Sydney, which it made available to Customer 16's FMA at Star Gold Coast.

See paragraph 1121.j.

- j. Star Qld was aware that Customer 16 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

In February 2018, Customer 15 operated a junket program at Star Qld with two junket players (Customer 10 and Customer 53) for which Customer 16 was the junket representative. Customer 10 transferred a total of \$25,000,000 in front money to Customer 15. Customer 10 utilised his CCF to drawdown the funds and had received a telegraphic transfer of \$10,000,000 to redeem part of his CCF. On 7 February 2018, Customer 15 received a telegraphic transfer of \$150,000 which was withdrawn in cash and given to Customer 53. Customer 15 then transferred \$900,000 to Customer 16. Customer 16 transferred the \$900,000 to her account at Star Sydney before transferring it to Customer 53's account. Star Qld understood that

Customer 53 was travelling to Sydney to play. Star Qld identified that it was unusual that a sum of \$900,000 was transferred when Customer 53 had shown a win of \$348,000 and had taken \$175,000 in cash: SMR dated 7 February 2018.

On 19 March 2018, Customer 16, acting as a junket representative, completed a buy-in for a junket program with only one junket player, Customer 10. Customer 16 asked Star Qld to send \$100,000 from Customer 16's account to a third party. Star Qld declined to process this transaction as it only sent transactions to players participating in the group and because the funds were part of a previous group's trip. During these discussions, Star Qld did not ascertain who Customer 16 wanted to send the funds to. Customer 16 increased the requested transaction sum to \$150,000. Star Qld conducted a review of Customer 10, being the only junket player on the previous trip. Star Qld transferred \$150,000 back into Customer 16's account at Star Sydney. Later that day, another request was made by Customer 16 to send another \$50,000 to a bank account in Sydney in the name of a third party. The transfer was processed on 19 March 2018. Star Qld considered it suspicious that a request was made to send funds to a third party who was not involved in gaming activity at Star Qld: SMR dated 20 March 2018.

In April 2018, Customer 15 operated a junket at Star Qld. The junket had only one key player, Customer 10, together with Customer 15's junket representative, Customer 16. On 2 April 2018, Customer 16 withdrew \$100,000 in cash from Customer 15's account which was drawn from the front money for the junket program. The cash was handed to Customer 16 who then handed the cash to Customer 10. Star Qld understood that Customer 15, Customer 16 and Customer 10 regularly completed similar cash transactions on recent trips: SMR dated 4 April 2018.

- k. Customer 16 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 23 January 2017 and 26 May 2019, Star Sydney gave the AUSTRAC CEO 27 TTRs detailing outgoing account withdrawals by Customer 16 totalling \$2,216,891.

On 22 January 2017, Customer 16 withdrew \$400,000 in cash from Customer 11's account at Star Sydney: SMR dated 23 January 2017.

On 17 August 2017 and 20 August 2017, Customer 16 withdrew a total of \$300,000 from Customer 15's account at Star Sydney.

On 4 October 2018, while a junket representative for Customer 15's junket, Customer 16 withdrew \$232,985 from Customer 15's account at Star Sydney comprising \$57,985 in premium chips, \$80,000 in

cash chips \$95,000 in cash. Customer 16 divided the cash between the junket players. The junket was showing a win of \$835,635 at the time.

- I. Customer 16 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 29 May 2017 and 5 December 2018, Star Qld gave the AUSTRAC CEO eight TTRs detailing chip exchanges and account deposits by Customer 16 totalling \$241,400.

- m. between 1 March 2019 and 10 March 2020, Star Sydney provided Customer 16 with significant amounts of credit upon request, up to limits of \$3,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 1 March 2019, 15 April 2019, 16 April 2019 and 7 July 2019, Star Sydney approved a single trip CCF limit of \$2,000,000.

On 8 July 2019, Star Sydney approved a single trip CCF limit of \$2,000,000 with an additional trip only limit of \$1,000,000.

On 7 October 2019, 20 January 2020 and 10 March 2020, Star Sydney approved a single trip CCF limit of \$3,000,000.

- n. between 2017 and 2019, Customer 16 was the subject of law enforcement enquiries at Star;

Particulars

On 14 June 2017, Star Qld responded to a request for information from a law enforcement agency.

On 6 February 2018, Star Sydney received a notice to produce from a law enforcement agency, which it responded to.

On 26 November 2018, Star Sydney received a request for information from a law enforcement agency, which it responded to.

On 6 August 2019, Star Sydney received a request for information from an agency, to which it responded.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Qld and Star Sydney had access to the investigations database: see paragraph 49 above.

- o. Customer 16 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 16 had access to private gaming rooms at Star Sydney, including Rivers and Harbour Salons, Springs Salon, Lakes Salon, Oasis and the Sovereign Room.

- p. Customer 16 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 16 had access to private gaming rooms at Star Qld, including the Sovereign Room, Salon 99, Salon 21, Oasis, the Suite and Pit 8.

- q. in 2019, Star was aware of media articles which reported that Customer 16 was associated with Customer 10 and involved in significant junket activity and large cash withdrawals.

Particulars

Star Sydney was aware of publicly accessible media articles published on 31 July 2019 which alleged that:

- a. Customer 16 was formerly an employee of another Australian casino and had been hired by Customer 10 as his personal advisor; and
- b. Customer 16 had been assigned to facilitate Customer 10's gambling and traveling to the other Australian casino.

Star Sydney was aware of publicly accessible media articles published in December 2019 which alleged that:

- a. Customer 16 was a business manager at Customer 10's Australian company;
- b. Customer 16 and Customer 10 were players on a junket in April 2015 which Customer 16 may have operated;
- c. Customer 10 had provided a cheque for \$5,000,000 as the buy-in for the junket; and
- d. Customer 16 requested a cash withdrawal of \$100,000 on the first day of the junket.

- r. by October 2019, an independent corruption commission heard evidence that Customer 16 was associated with Customer 10; and

Particulars

In November 2018, an independent corruption commission issued Star with a notice to produce related to Customer 16 and Customer 10, among other people.

In October 2019, an independent corruption commission heard evidence that:

- a. Customer 16 was one of Customer 10's assistants; and
 - b. Customer 16 managed Customer 10's relationship with casinos and arranged trips or accommodation for Customer 10 and his guests.
- s. Star Sydney and Star Qld did not have adequate reason to believe that Customer 16's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 16 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 16 to be Customer 10's assistant and a business manager at Customer 10's company in Australia.

However, Star took no steps to review, update and verify Customer 16's source of wealth or source of funds. Star's understanding of Customer 16's source of wealth or source of funds were not commensurate with the high value financial and gambling services received by her at Star Sydney and Star Qld.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 16

1122. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 16 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 16.
- a. On and from 30 November 2016, Customer 16 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 16's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 16 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On and from 30 November 2016, Customer 16 was rated medium risk in respect of several of accounts, not being high risk for the purpose of the Act and Rules.

On 19 January 2021, Customer 16 was rated high risk in respect of several of accounts, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 16's transactions

1123. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 16's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 16, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and junket representatives;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 16 through;

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the EEIS remittance channel;

Particulars

See paragraph 493 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 16 through;

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 16 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 16's KYC information

- 1124. Star Sydney and Star Qld did not review, update and verify Customer 16's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 16's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 16's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 16's source of wealth and source of funds were not legitimate: see *Customer 16's risk profile* above.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 16's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 16.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 16's high ML/TF risks

1125. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 16 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 16; and
- c. reviewing and updating Customer 16's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 16 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 16*.

ECDD triggers in respect of Customer 16

1126. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 16 following any ECDD triggers in respect of Customer 16.

Particulars

Section 36(1)(a) and (b) of the Act.

1127. Customer 16:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 23 January 2017 and 4 April 2018, Star Qld gave the AUSTRAC CEO three SMRs with respect to Customer 16.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 7 February 2018 and 10 July 2020, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 16.

1128. Each matter pleaded in paragraph 1127 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1129. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 16 following an ECDD trigger because:

- a. each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 16 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 16 and the provision of designated services to Customer 16 by Star Sydney and Star Qld, and to whether the ML/TF risks posed by Customer 16 were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 9 July 2020, 24 February 2021 and 30 June 2021, Star conducted ECDD in respect of Customer 16.

On 24 February 2021, the ECDD screening in respect of Customer 16 identified that there were numerous adverse media articles which involved Customer 16 and her relationship with Customer 10.

On 30 June 2021, the ECDD screening noted that there had been no further adverse information identified since the February 2021 screening.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 16's higher ML/TF risks: see *Customer 16's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 16's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 16's source of wealth and source of funds were not legitimate: see *Customer 16's risk profile* above.

- b. Customer 16 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion that Customer 16 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 16 and the provision of designated services to Customer 16 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 30 June 2021, following an ECDD screening, the Due Diligence Program Manger determined to maintain a customer relationship with Customer 16.

In determining that a business relationship could be continued, the Due Diligence Program Manager did not have regard to:

- a. Customer 16's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high; and
- b. Customer 16's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information and law enforcement enquiries suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 16's risk profile* above.

Contravention of s36 of the Act in respect of Customer 16

1130. By reason of the matters pleaded from paragraphs 1116 to 1129 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 16 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1131. By reason of the matters pleaded at paragraph 1130, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 16.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 17

1132. Customer 17 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$2.5 billion for Customer 17.

Particulars

Customer 17 was a customer of Star Sydney from at least 20 April 2017.

1133. Star Sydney provided Customer 17 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket funder. Between 2017 and 2019, Star Sydney recorded that junkets operated or funded by Customer 17 had a turnover exceeding \$5.1 billion.

Particulars

On 26 June 2017, Star Sydney opened an FMA and SKA for Customer 17 which remain open (item 11, table 3, s6 of the Act).

Between 20 April 2017 and 23 June 2020, Star Sydney approved CCFs for Customer 17 on seven occasions ranging from \$25,000,000 to \$100,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 17 (items 31 and 32, table 1, s6 of the Act).

See *Customer 17's risk profile* below.

1134. Customer 17 was a customer of Star Qld during the relevant period. Between 2017 and 2018, Star Qld recorded turnover exceeding \$800 million for Customer 17.

Particulars

Customer 17 was a customer of Star Qld from at least 27 June 2017.

1135. Star Qld provided Customer 17 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2018, Star Qld recorded that junkets operated by Customer 17 had a turnover exceeding \$860 million.

Particulars

On 29 June 2017, Star Qld opened an FMA for Customer 17 which remains open (item 11, table 3, s6 of the Act).

On 24 August 2018, Star Qld opened an SKA for Customer 17 which remains open (item 11, table 3, s6 of the Act).

Between 17 July 2017 and 23 June 2020, Star Qld approved CCFs for Customer 17 on eight occasions ranging from \$25,000,000, with an additional trip only limit of \$12,500,000, to \$100,000,000 (item 6, table 1, s6 of the Act).

See *Customer 17's risk profile* below.

1136. At all times from 20 April 2017 in respect of Star Sydney and 27 June 2017 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 17.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 17's risk profile

1137. On and from 20 April 2017 in respect of Star Sydney and 27 June 2017 in respect of Star Qld, Customer 17, and the provision of designated services to Customer 17 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:
- a. Customer 17 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. in 2017, Customer 17 operated 20 junkets at Star Sydney;

Particulars

On 26 June 2017, Star Sydney approved Customer 17 to be a junket operator.

In 2017, 2018 and 2019, Customer 17 was one of the top ten junket operators whose junket operations in total involved the highest turnover at Star Sydney.

On eight occasions, Customer 17 was a junket player on his own junket.

- ii. Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 17 in the relevant period was \$2,662,637,504 with losses of \$13,393,075;

Particulars

In 2017, junkets operated by Customer 17 had a turnover of \$813,341,548 with wins of \$468,425.

In 2018, junkets operated by Customer 17 had a turnover of \$541,898,188 with losses of \$5,485,620.

In 2019, junkets operated by Customer 17 had a turnover of \$1,307,397,767 with losses of \$8,375,880.

- iii. between 2017 and 2019, Star Sydney recorded a cumulative turnover of \$543,938,902 for Customer 17 on twelve of their own junkets in circumstances where he was not recorded as a junket player in respect of those programs;

Particulars

See paragraph 670 above.

- iv. total benefits of \$20,733,876 were payable to Customer 17 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and other benefits;

Particulars

Customer 17 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. In 2017, total benefits of \$6,207,476 were payable to Customer 17 by Star Sydney;
 - b. In 2018, total benefits of \$4,560,631 were payable to Customer 17 by Star Sydney; and
 - c. In 2019, total benefits of \$9,965,769 were payable to Customer 17 by Star Sydney.
- v. between 2017 and 2019, Star Sydney provided Customer 17 and his junket programs with significant amounts of credit upon request, up to limits of \$100,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 20 April 2017 and 21 June 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$25,000,000 for Customer 17.

On 17 July 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$25,000,000 with an additional trip only limit of \$12,500,000 for Customer 17 which was not deactivated.

On 12 August 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$37,500,000 with an additional trip only limit of \$12,500,000 for Customer 17 which was deactivated on 19 September 2017.

On 20 September 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$50,000,000 with an additional trip only limit of \$25,000,000 for Customer 17 which was not deactivated.

On 4 July 2019, Star Sydney approved a permanent active CCF limit of \$50,000,000 with an additional trip only limit of \$25,000,000 for Customer 17 which was deactivated on 23 June 2020.

On 19 August 2019, Star Sydney approved a single trip CCF limit of \$100,000,000 for Customer 17.

- vi. Customer 17 operated junkets in private gaming rooms at Star Sydney including private gaming rooms that were exclusive to the junket;

Particulars

Customer 17 operated junkets in non-exclusive private gaming rooms, including Oasis, the Sovereign Room and Pit 80.

Customer 17 operated junkets in exclusive private gaming rooms, including Salon 73, Salon 75, Salon 77, Salon 78, Salon 82, Salon 83 and Salon 89.

- vii. Customer 17 had three junket representatives at Star Sydney; and
- viii. Customer 17 and his junket representatives facilitated the provision of high value designated services to 74 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

See paragraph 1137.j below.

- b. Customer 17 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;

- i. between 21 July 2017 and 28 August 2019, Customer 17 operated five junkets at Star Qld;

Particulars

On 22 August 2017, Star Qld approved Customer 17 to be a junket operator.

In 2017 and 2018, Customer 17 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Gold Coast.

Customer 17 provided a total of \$62,000,000 in funding for his junket programs at Star Qld.

On three occasions, Customer 17 was a junket player on his own junket.

- ii. Star Qld recorded that the total cumulative turnover of junkets operated by Customer 17 in the relevant period was \$868,963,934 with losses of \$3,073,830;

Particulars

In 2017, junkets operated by Customer 17 had a turnover of \$122,327,920 with losses of \$4,167,300.

In 2018, junkets operated by Customer 17 had a turnover of \$745,271,449 with wins of \$1,024,570.

In 2019, junkets operated by Customer 17 had a turnover of \$1,364,564 with wins of \$68,900.

- iii. between 21 July 2017 and 28 August 2019, Star Qld recorded a cumulative turnover of \$426,444,804 for Customer 17 as a junket player on his own junkets in circumstances where he was not recorded as a junket player in respect of those programs;

Particulars

See paragraph 670 above.

- iv. in the relevant period, total benefits of \$4,812,916 were payable to Customer 17 by Star Qld in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services and additional program agreement benefits;

Particulars

Customer 17 was entitled to benefits from Star Qld in his capacity as a junket operator.

- a. In 2017, total benefits of \$916,188 were payable to Customer 17 by Star Qld.
- b. In 2018, total benefits of \$3,887,466 were payable to Customer 17 by Star Qld.

- c. In 2019, total benefits of \$9,261 were payable to Customer 17 by Star Qld.
- v. between 17 July 2017 and 19 August 2019, Star Qld provided Customer 17 and his junket programs with significant amounts of credit upon request, up to limits of \$100,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 17 July 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$25,000,000 with an additional trip only limit of \$12,500,000 for Customer 17 which was not deactivated.

On 12 August 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$37,500,000 with an additional trip only limit of \$12,500,000 for Customer 17 which was deactivated on 19 September 2017.

On 20 September 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$50,000,000 with an additional trip only limit of \$25,000,000 for Customer 17 which was not deactivated.

On 23 March 2018, Star Qld approved a single trip CCF limit of \$20,000,000 for Customer 17.

On 4 July 2019, Star Qld approved a permanent active CCF limit of \$20,000,000 with an additional trip only limit of \$10,000,000 for Customer 17 at Treasury Brisbane, and a permanent active CCF limit of \$50,000,000 with an additional trip only limit of \$25,000,000 for use at Star Gold Coast, both of which were deactivated on 23 June 2020.

On 19 August 2019, Star Qld approved a single trip CCF limit of \$40,000,000 for use at Treasury Brisbane, and a single trip CCF limit of \$100,000,000 for use at Star Gold Coast, for Customer 17.

- vi. Customer 17 operated junkets in private gaming rooms at Star Qld including private gaming rooms that were exclusive to the junket;

Particulars

Customer 17 operated junkets in non-exclusive private gaming rooms, including Pit 11 and Pit 12.

Customer 17 operated junkets in exclusive private gaming rooms, including Salon 21, Salon 88, Salon 89 and Salon 90.

- vii. Customer 17 had two junket representatives at Star Qld; and
- viii. Customer 17 and his junket representatives facilitated the provision of high value designated services to 62 junket players at Star Qld including players who posed higher ML/TF risks and players who Star Qld considered had acted suspiciously;

Particulars

See paragraphs 643 to 649 above.

See particulars to paragraph 1137.k below.

On 17 August 2018, Star Qld identified that:

- a. one junket player on Customer 17's junket had attended with front money of \$3,000,000. Star Qld noted a loss of \$975,000 for the junket player in July 2018 despite having no recorded play in the previous two months. Star Qld was unaware of the junket player's source of funds and occupation. Star Qld considered the loss to be large: SMR dated 17 August 2018;
 - b. a second junket player on Customer 17's junket had attended with front money of \$3,000,000. Star Qld noted a loss of \$2,631,650 for the junket player in July 2018 despite having no recorded play in the previous two months. Star Qld understood the junket player's occupation to be in sales but was not aware of any further details. Star Qld considered the loss to be large: SMR dated 17 August 2018; and
 - c. a third junket player on Customer 17's junket had attended with front money of \$10,000,000. Star Qld noted a loss of \$833,540 for the junket player in July 2018 since he had joined earlier that month. Star Qld was unaware of the junket player's source of funds and occupation. Star Qld considered the loss to be large: SMR dated 17 August 2018.
- c. Customer 17 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
- i. in December 2017, Customer 17 funded a junket at Star Sydney;

Particulars

At Star Sydney, Customer 17, together with Customer 23, provided \$15,000,000 in funding for Customer 18's junket.

Customer 17 funded a junket operator in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. Star Sydney recorded that the total cumulative turnover of the junket funded by Customer 17 between 9 December 2017 and 13 December 2017 was \$2,488,935,150 with losses of \$31,674,440;
- iii. the junket funded by Customer 17 had one junket representative; and
- iv. the junket funded by Customer 17 facilitated the provision of high value designated services to at least six junket players;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- d. Customer 17 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2017 and 2019, Customer 17 was a player on eight junkets at Star Sydney operated by himself; and
 - ii. in 2017 and 2019, Star Sydney recorded high and escalating turnover totalling \$1,975,335,902 with losses of \$1,312,200 for Customer 17's gaming activity on junket programs;

Particulars

In 2017, Customer 17's turnover on junket programs was \$327,364,758 with losses of \$772,250.

In 2018, Customer 17's turnover on junket programs escalated to \$501,647,458 with losses of \$100,700.

In 2019, Customer 17's turnover on junket programs escalated to \$1,146,323,685 with losses of \$439,250.

- e. Customer 17 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. in 2017 and 2018, Customer 17 was a player on three junkets at Star Qld operated by himself; and
 - ii. in 2017 and 2018, Star Qld recorded high and escalating turnover totalling \$379,492,139 with wins of \$2,276,775 for Customer 17's gaming activity on junket programs;

Particulars

In 2017, Customer 17's turnover on junket programs was \$122,327,920 with wins of \$2,489,425.

In 2018, Customer 17's turnover on junket programs escalated to \$257,164,219 with losses of \$212,650.

- f. designated services provided to Customer 17 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 17 referred players to Star Qld;

Particulars

See paragraph 625 above.

On 16 February 2018 and 1 April 2018, Customer 17 referred three players to Star Gold Coast.

On each occasion, Customer 17 received a commission on the amounts wagered by the referred player, who Star Qld dealt with directly.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 17 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 8 January 2020 and 4 March 2020, third parties acting on behalf of Customer 17 deposited a total of \$5,689,546 into the EEIS Patron accounts, which Star Sydney made available to Customer 17 through the EEIS remittance channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 8 August 2017 and 10 February 2020, Star Sydney received 10 telegraphic transfers totalling \$16,247,753, each of which was made available to Customer 17's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 30 October 2017 and 22 May 2019, Star Sydney sent two telegraphic transfers, totalling \$2,716,542 from Customer 17's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 31 August 2017 and 19 August 2019, Star Sydney sent six transfers totalling \$7,431,099 from Customer 17's account to Star Qld.

Between 16 September 2017 and 28 August 2019, Star Sydney received four transfers totalling \$5,562,379 from Star Qld, each of which was made available to Customer 17's account.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 17 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 14 September 2017 and 20 August 2019, Star Qld received three telegraphic transfers totalling \$2,719,988, each of which was made available to Customer 17's FMA and SKA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 23 November 2018, Star Qld facilitated a telegraphic transfer of \$4,889,500 from Customer 17's account to an overseas bank account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 2 September 2017 and 17 December 2018, Star Qld received four transfers totalling \$3,435,185 from Star Sydney, each of which was made available to Customer 17's FMA at Star Gold Coast. At least \$1,077,569 of these funds were transferred for the purpose of redeeming an outstanding CCF.

On 14 May 2018, Star Qld facilitated two transfers totalling \$60,912 from Customer 17's FMA at Treasury Brisbane to Star Sydney.

Between 28 August 2019 and 16 September 2022, Star Qld facilitated three transfers totalling \$4,562,379 from Customer 17's FMA at Star Gold Coast to Star Sydney.

- j. Customer 17, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 20 July 2017 and 17 December 2019, Star Sydney gave the AUSTRAC CEO 16 TTRs detailing incoming payments to Customer 17 totalling \$649,400 which comprised:

- a. \$629,400 in account deposits; and
- b. \$20,000 in chip exchanges.

Between 19 July 2017 and 30 December 2019, Star Sydney gave the AUSTRAC CEO 41 TTRs detailing outgoing payments from Customer 17 totalling \$2,250,850 which comprised:

- a. \$2,032,500 in account withdrawals;
- b. \$208,350 in chip exchanges; and
- c. \$10,000 in other monetary values in.

Between 26 August 2017 and 3 May 2018, Customer 17 withdrew a total of \$460,000 from his FMA or SKA.

On 3 May 2019, Customer 17's junket representative withdrew \$300,000 from Customer 17's account. The source of the funds was from multiple tournament winnings that had accumulated. The transaction was supported by play however Star Sydney considered that the large cash withdrawal was unusual: SMR dated 6 May 2019.

On 18 August 2019, Customer 17 withdrew \$130,000 from his FMA and handed the cash in increments to multiple patrons. At the time, Customer 17 was operating a junket with a recorded turnover of \$40,594,500 and a loss of \$105,450. The junket had over 30 players and Star Sydney considered that this could explain the cash transactions.

On 17 December 2019, Customer 17's junket representative presented \$140,000 in cash to be deposited into Customer 17's account. The cash comprised \$100 notes with straps issued by the Star. The junket representative advised that the cash originated from withdrawals from Customer 17's account and that \$50,000 came from a junket player who had received a prize in a gaming tournament.

- k. Customer 17, and persons associated with his junket, transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 28 July 2017 and 20 November 2018, Star Qld gave the AUSTRAC CEO three TTRs detailing incoming payments to Customer 17 totalling \$446,300 which comprised account deposits.

Between 26 July 2017 and 20 November 2018, Star Qld gave the AUSTRAC CEO ten TTRs detailing outgoing payments from Customer 17 totalling \$1,086,055 which comprised:

- a. \$963,500 in account withdrawals; and
- b. \$122,555 in chip exchanges.

On 29 July 2018, Customer 17's junket representative made a large cash deposit of \$200,000 shortly after another Star Qld customer

been paid the same amount in winnings from a baccarat tournament:
SMR dated 30 July 2018.

- I. at various times, Customer 17 had significant parked or dormant funds in his SKA at Star Sydney;

Particulars

See paragraph 284 above.

From 22 June 2020 until at least 5 August 2022, Customer 17 had
\$107,084 parked in his SKA.

- m. Customer 17 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraphs 337 and 338 above.

On 1 May 2019, Star Sydney issued a letter of comfort purportedly
confirming Customer 17's winnings of \$1,000,000 under a
competition.

- n. Customer 17 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 17 had access to private gaming rooms at Star Sydney,
including the Lakes Salons, Springs Salons, Oasis and the Sovereign
Room.

- o. Customer 17 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 17 had access to private gaming rooms at Star Qld,
including the Sovereign Room, Salon 90, Salon 89, Salon 88, Salon
21, Pit 8 and the Club Conrad.

- p. Star Sydney and Star Qld did not have adequate reason to believe that Customer 17's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 17 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 17 to be an accountant.

In 2017 alone, Star Sydney and Star Qld recorded that junkets
operated by Customer 17 or funded by Customer 17 had a turnover
exceeding \$3 billion.

Between 2017 and 2019, Star Sydney and Star Qld recorded that turnover attributable to Customer 17 as a junket player exceeded \$2 billion.

Customer 17 also received numerous overseas third party deposits through the high risk EEIS remittance channel.

Despite this, Star Sydney and Star Qld did not take appropriate steps to review, update and verify Customer 17's source of wealth or source of funds in the context of the high value financial and gambling services provided to him.

At no time was Customer 17's stated source of wealth or source of funds commensurate with those high value financial and gambling services.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 17

1138. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 17 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 17.
- a. On and from April 2017, Customer 17 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 17's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 17 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 2 August 2017, Customer 17 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 26 January 2021, Customer 17 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 17's transactions

1139. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 17's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 17, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 17's junket as turnover was recorded against Customer 17 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 17 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the EEIS remittance channel.

Particulars

See paragraph 493 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 17 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel.

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 17 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- g. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 17.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 17 on 25 August 2017, 10 November 2017, 3 May 2018, 29 July 2018 and 18 August 2019: see *Customer 17's risk profile*.

The review, update and verification of Customer 17's KYC information

1140. Star Sydney and Star Qld did not review, update and verify Customer 17's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 17's business with each of Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 17's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 17's source of wealth or source of funds: see *Customer 17's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 17's KYC information on and from 20 April 2017 in respect of Star Sydney and 27 June 2017 in respect of Star Qld, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 17.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 17's high ML/TF risks

1141. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 20 April 2017 in respect of Star Sydney and 27 June 2017 in respect of Star Qld by:
- a. identifying and assessing the ML/TF risks posed by Customer 17 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 17; and
 - c. reviewing and updating Customer 17's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 17 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 17*.

ECDD triggers in respect of Customer 17

1142. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 17 following any ECDD triggers in respect of Customer 17.

Particulars

Section 36(1)(a) and (b) of the Act.

1143. Customer 17:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 6 May 2019, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 17.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 29 July 2018 and 17 August 2018, Star Qld gave the AUSTRAC CEO four SMRs with respect to Customer 17.

1144. Each matter pleaded in paragraph 1143 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1145. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 17 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 17 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 17 and the provision of designated services to Customer 17 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 26 January 2021, Star conducted ECDD in respect of Customer 17.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 17's higher ML/TF risks: see *Customer 17's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 17's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 17's source of wealth or source of funds: see *Customer 17's risk profile*.

- b. Customer 17 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 817 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 17

1146. By reason of the matters pleaded from paragraphs 1132 to 1145, on and from 20 April 2017, Star Sydney:

- a. did not monitor Customer 17 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1147. By reason of the matters pleaded at paragraph 1146, Star Sydney contravened s36(1) of the Act on and from 20 April 2017 with respect to Customer 17.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

1148. By reason of the matters pleaded from paragraphs 1132 to 1145, on and from 27 June 2017, Star Qld:

- a. did not monitor Customer 17 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1149. By reason of the matters pleaded at paragraph 1148, Star Qld contravened s36(1) of the Act on and from 27 June 2017 with respect to Customer 17.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 18

1150. Customer 18 was a customer of Star Sydney during the relevant period. Between 27 March 2017 and 17 December 2019, Star Sydney recorded turnover exceeding \$6.4 billion for Customer 18.

Particulars

Customer 18 was a customer of Star Sydney from at least 11 August 2008.

1151. Star Sydney provided Customer 18 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 27 March 2017 and 17 December 2019, Star Sydney recorded that junkets operated by Customer 18 had a turnover exceeding \$6.4 billion.

Particulars

By 2008, Star Sydney had opened an FMA and SKA for Customer 18, which remains open (item 11, table 3, s6 of the Act).

Between 13 April 2011 and 12 August 2019, Star Sydney approved CCFs for Customer 18 on multiple occasions up to facility limits of \$66,670,000 with an additional facility limit for that trip only of \$33,300,000 (item 6, table 1, s6 of the Act).

See *Customer 18's risk profile* below.

1152. Customer 18 was a customer of Star Qld during the relevant period. Between 10 December 2016 and 19 January 2019, Star Qld recorded turnover exceeding \$1.8 billion for Customer 18.

Particulars

Customer 18 was a customer of Star Qld from at least 19 August 2012.

1153. Star Qld provided Customer 18 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 10 December 2016 and 19 January 2019, Star Qld recorded that junkets operated by Customer 18 had a turnover exceeding \$1.8 billion.

Particulars

On 27 July 2015, Star Gold Coast opened an FMA for Customer 18 which remains open (item 11, table 3, s6 of the Act).

On 11 August 2008, Star Gold Coast opened an SKA for which remains open.

Between 23 July 2015 and August 2019, Star Qld approved CCFs for Customer 18 on four occasions up to facility limits of \$66,670,000 with an additional trip only limit of \$33,300,000, including on a permanently active basis from 23 July 2015 (item 6, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the EEIS remittance channel and the Bank 1 (Macau) cash channel, which it made available to Customer 18 (items 31 and 32, table 1, s6 of the Act).

See *Customer 18's risk profile* below.

1154. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 18.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 18's risk profile

1155. On and from 30 November 2016, Customer 18, and the provision of designated services to Customer 18 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 18's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 18 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 18;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 31 occasions between 6 May 2014 and 12 October 2015.

The SMRs reported that between 3 May 2014 and 9 October 2015, Customer 18 and persons associated with his junket were involved in multiple large cash transactions at Star Sydney totalling at least \$11,777,940 many of which were carried out by junket representatives and other persons, including several deposits in mainly \$50 notes, two transactions involving large sums of foreign currency, and a deposit using cash in bank straps without bank stamps.

- ii. Customer 18 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Between 31 July 2015 and 7 December 2016, Customer 18 operated 13 junkets at Star Sydney, five of which were funded by Customer 31, and the remainder of which were funded by Customer 18.

Between 31 July 2015 and 7 December 2016, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 18 was \$1,910,656,329, with cumulative losses of \$25,103,355.

In 2015 and 2016, Customer 31 was one of the top ten junket operators whose junket operations involved the highest total turnover at Star Sydney.

In 2015 and 2016, Customer 18 was also one of the top ten junket funders by amount of funding provided to junket programmes at Star Sydney.

Customer 18 had six junket representatives at Star Sydney.

- iii. Customer 18 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

Between 3 January 2015 and 16 January 2016, Customer 18 operated one junket at Star Qld, with a turnover of \$621,010 with wins of \$104,985.

Customer 18 had one junket representative at Star Qld.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 18 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

Between 24 May 2011 and 14 August 2014, Star Sydney gave the AUSTRAC CEO three incoming IFTIs totalling \$2,208,800 where Customer 18 was named as the ordering customer and the beneficiary. Of these funds, \$61,000 was used to repay a CCF, and the remainder was deposited into Customer 18's FMA.

Between 24 May 2011 and 9 July 2014, Star Sydney gave the AUSTRAC CEO 12 incoming IFTIs totalling \$3,159,573 where Customer 18 was named as the beneficiary, and the ordering customer was a third party company or individual overseas. Of these funds, \$848,525 was used to repay CCFs and the remainder was deposited into Customer 18's FMA.

Between 18 July 2015 and 22 November 2016, Star Sydney received 21 telegraphic transfers totalling \$26,688,060, each of which was made available to Customer 18's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 19 October 2011 and 4 June 2014, Star Sydney gave the AUSTRAC CEO three outgoing IFTIs totalling \$1,165,740 where Customer 18 was named as the ordering customer and beneficiary. Of these funds \$85,000 was a program settlement and the remaining funds were withdrawn from Customer 18's Star Sydney FMA.

On 23 April 2016, Star Sydney sent a telegraphic transfer of \$3,100,000 from Customer 18's SKA to an Australian bank account.

Between 5 August 2015 and 4 May 2016, Star Sydney sent six telegraphic transfers totalling \$3,833,775 from Customer 18's account to overseas bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- v. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 18 by remitting large amounts of money out of the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327.

On 24 January 2016, Star Qld facilitated two telegraphic transfers totalling \$80,473 from Customer 18's FMA at Star Gold Coast to two overseas bank accounts.

- vi. from 13 April 2011, Star Sydney provided Customer 18 with CCFs with limits of between \$3,300,000 to \$66,670,000, including some on a permanently active basis;

Particulars

On 13 April 2011, Star Sydney approved a CCF with a facility limit of \$3,300,000 for Customer 18.

On 10 May 2014, Star Sydney senior management, including the Chief Financial Officer, the Chief Executive Officer, and Group General Counsel and Company Secretary, approved a permanently active CCF with a facility limit of \$3,300,000.

On 23 July 2015, Star Sydney senior management, including the Chief Executive Officer, approved an increase to Customer 18's permanently active CCF facility limit to \$66,670,000.

- vii. from 23 July 2015, Star Qld provided Customer 18 with CCFs between \$33,300,000 to \$66,670,000, including on a permanently active basis;

Particulars

On 23 July 2015, Star Qld, including the Chief Executive Officer, approved a permanently active CCF with a facility limit of \$66,670,000 for Customer 18.

- viii. between 3 May 2014 and 9 October 2015, Customer 18 and persons associated with his junket engaged in frequent and large transactions involving cash at Star Sydney; and

Particulars

Transactions recorded by Star Sydney

Between 3 May 2014 and 9 October 2015, Star Sydney recorded that Customer 18 and persons associated with his junket engaged in transactions totalling \$17,491,635, including:

- a. ten deposits into Customer 18's account totalling \$3,969,610:
 - i. three of which were conducted by Customer 18's junket representatives;
 - ii. one of which was conducted by a junket player; and
 - iii. one of which was conducted by another person;
- b. ten withdrawals totalling \$2,317,900, six of which were conducted by Customer 18's junket representatives;
- c. 11 chip cash outs totalling \$2,901,850, six of which were conducted by Customer 18's junket representatives; and

- d. three foreign currency exchange transactions totalling \$7,695,437, two of which were conducted by another person on behalf of Customer 18's junket.

On four occasions, cash deposited comprised largely \$50 notes.

- ix. between 10 February 2015 and 2 April 2016, Customer 18 requested that Star Sydney prepare letters purportedly confirming his winnings on five occasions;

Particulars

Between 10 February 2015 and 2 April 2016, Star Sydney issued a letter of comfort purportedly confirming Customer 18's winnings on five occasions.

Customer 18's risk profile from 30 November 2016

- b. Customer 18 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 27 March 2017 and 17 December 2019, Customer 18 operated 40 junkets at Star Sydney, six of which were partly or fully funded by other junket funders;

Particulars

In 2017, Customer 18 was one of the top ten junket operators by volume of junket programs operated per year at Star Sydney.

Between 2016 and 2019, Customer 18 was one of the top ten junket funders at Star Sydney by amount of funding provided to junket programs. In 2017, Customer 18 was one of the top ten junket funders at Star Sydney by number of programs funded.

On 20 occasions, Customer 18 was a player on his own junkets.

Funding for six of Customer 18's junkets comprised funding from other junket funders:

- a. one junket was partly funded by Customer 17, and another junket funder,
 - b. one junket was fully funded by another junket funder; and
 - c. four junkets were partly funded by other junket funders.
- ii. between 27 March 2017 and 17 December 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 18 was \$6,417,736,698 with losses of \$19,316,700;

Particulars

Between 2016 and 2018, Customer 31 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Sydney.

In 2017, junkets operated by Customer 31 had a turnover of \$5,663,242,996 with losses of \$29,661,210.

In 2018, junkets operated by Customer 31 had a turnover of \$334,289,573 with losses of \$1,415,625.

In 2019, junkets operated by Customer 31 had a turnover of \$420,204,129 with wins of \$11,760,135.

- iii. between 27 March 2017 and 17 December 2019 Star Sydney recorded a cumulative turnover of \$196,967,896 for Customer 18 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2019, total benefits of \$37,302,341 were payable to Customer 18 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and other benefits;

Particulars

Customer 18 was entitled to benefits from Star Sydney in his capacity as a junket operator.

- a. in 2016, total benefits of \$8,566,678 were payable to Customer 18;
 - b. in 2017, total benefits of \$31,051,636 were payable to Customer 18; and
 - c. in 2018, total benefits of \$3,112,613 were payable to Customer 18.
- v. between 17 May 2017 and 12 August 2019, Star Sydney provided Customer 18 with significant amounts of credit upon request, up to facility limits of \$66,670,000, with an additional trip only limit of \$33,330,000, on programs operated subject to a 70/30 Revenue Sharing JPA;

Particulars

See paragraphs 516 to 518 and 552 above.

On 17 May 2017, Star Sydney senior management, including Chief Financial Officer, approved a permanently active CCF with a facility limit of \$66,670,000, with an additional trip only limit of \$33,330,000 for Customer 18.

On 9 July 2019, Star Sydney approved a permanently active CCF of \$10,000,000 for Customer 18.

On 12 August 2019, Star Sydney approved a permanently active CCF with a facility limit of \$50,000,000 for Customer 18, which was deactivated on 2 July 2020.

- vi. Customer 18 had 11 junket representatives at Star Sydney;
- vii. Customer 18 operated junkets in private gaming rooms at Star Qld including private gaming rooms that were exclusive to the junket; and

Particulars

Customer 18 operated junkets in non-exclusive private gaming rooms, including Sovereign, Pit 80 and Oasis,

Customer 18 operated junkets in exclusive private gaming rooms, Salon 69, Salon 75, Salon 76, Salon 78, Salon 82, Salon 83, Salon 85, Salon 88, Salon 89.

- viii. Customer 18 and his junket representatives facilitated the provision of high value designated services to 196 junket players at Star Sydney including a foreign PEP, and players who posed higher ML/TF risks;

Particulars

See paragraphs 643 to 649 above.

See particulars to paragraph 1155.j below.

For example, in November 2018, a Star customer identified to be a foreign PEP was a player on Customer 18's junket.

- c. Customer 18 was a junket operator who facilitated the provision of high value financial gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
- i. between 10 December 2016 and 19 January 2019, Customer 18 operated 11 junkets at Star Qld;

Particulars

Customer 18 was a top ten junket operator between 2016 and 2017 by volume of junket programs operated per year at Star Gold Coast.

In 2017, Customer 18 was one of the top ten junket funders at Star Sydney by number of programs funded.

- ii. between 10 December 2016 and 19 January 2019, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 18 was \$1,835,913,594 with losses of \$18,300,840;

Particulars

Between 2016 and 2018, Customer 18 was one of the top ten junket operators whose junket operations in total involved the highest total turnover at Star Gold Coast.

Between 10 December 2016 and 23 December 2016, junkets operated by Customer 31 had a turnover of \$201,286,800 with wins of \$1,790,250.

In 2017, junkets operated by Customer 31 had a turnover of \$1,387,473,322 with losses of \$16,306,805.

In 2018, junkets operated by Customer 31 had a turnover of \$222,560,592 with losses of \$7,001,135.

In 2019, junkets operated by Customer 31 had a turnover of \$24,592,880 with wins of \$3,216,850.

- iii. between 10 December 2016 and 19 January 2019, Star Qld recorded a cumulative turnover of \$204,844,569 for Customer 18 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2019, total benefits of \$12,871,085 were payable to Customer 18 by Star Qld in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services;

Particulars

Customer 18 was entitled to benefits from Star Qld in his capacity as a junket operator:

- a. in 2016, total benefits of \$1,471,796 were payable to Customer 18;
 - b. in 2017, total benefits of \$8,242,536 were payable to Customer 18;
 - c. in 2018 total benefits of \$2,954,028 were payable to Customer 18; and
 - d. in 2019, total benefits of \$202,724 were payable to Customer 18.
- v. between 23 July 2015 and 12 August 2019, Star Qld provided Customer 18 with significant amounts of credit upon request, up to a facility limit of \$66,670,000, with an additional trip only limit of \$33,330,000, on programs operated subject to a 70/30 Revenue Sharing JPA;

Particulars

See paragraphs 516 to 518 and 552 above.

On 17 May 2017, Star Qld senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanently active CCF with a facility limit of \$66,670,000, with an additional trip only limit of \$33,330,000 for Customer 18.

On 9 July 2019, Star Qld senior management approved a permanently active CCF with a facility limit of \$33,330,000 for Customer 18.

On 12 August 2019, Star Qld senior management approved a permanently active CCF with a facility limit of \$50,000,000 for Customer 18.

- vi. Customer 18 operated junkets in private gaming rooms at Star Qld including private gaming rooms that were exclusive to the junket;

Particulars

Customer 18 operated junkets in non-exclusive private gaming rooms, including Pit 6 and Pit 7,

Customer 18 operated junkets in exclusive private gaming rooms, including Pit 8, Pit 9, Salon 21, Salon 22, Salon 69, Salon 88 and Salon 90.

- vii. Customer 18 had three junket representatives, including Person 7, at Star Qld; and
- viii. Customer 18 and his junket representatives facilitated the provision of high value designated services to 79 junket players at Star Qld including players who posed higher ML/TF risks and in respect of whom Star Qld had formed suspicions, such as Customer 50;

Particulars

See paragraphs 643 to 649 above.

See paragraphs 1155.k and 1155.m.

See Customer 50's risk profile.

Customer 50 was a player on a junket operated by Customer 18 at Star Gold Coast from 21 January 2019 to 22 January 2019.

- d. designated services provided to Customer 18 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. Customer 18 was connected to other customers at Star Sydney and Star Qld, including junket funders, junket operators, junket representatives and junket players, foreign PEPs, players who posed higher ML/TF risks such as Customer 17, Customer 50 and players who Star Sydney and Star Qld considered had acted suspiciously;

Particulars

See paragraphs 1155.b, 1155.c, 1155.j and 1155.k.

- f. Customer 18 referred players to Star Sydney;

Particulars

See paragraph 625 above.

Customer 18 received a commission on amounts wagered by referred players, who Star Sydney dealt with directly.

- g. between 9 April 2017 and 9 May 2019, Customer 18 referred four players to Star Qld;

Particulars

See paragraph 625 above.

Between 9 April 2017 and 9 May 2019, Customer 18 referred four players to Star Qld. On each occasion, Customer 18 arranged for the

referred player to attend Star Qld on a rebate program without Customer 18 or his junket representative being present.

Customer 18 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 18 by remitting large values into and out of the casino environment from via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 21 August 2018, Star Sydney received a transfer of \$270,793 from an unknown third party account overseas, which it made available to Customer 18's Star Sydney account. The funds were used to fund a junket player on a junket operated by Customer 18: SMR dated 29 October 2018.

The above transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 16 June 2017 and 21 May 2019, Star Sydney received 11 telegraphic transfers totalling \$2,386,276, each of which was made available to Customer 18's account.

Between 1 August 2017 and 15 June 2018, Star Sydney gave the AUSTRAC CEO five incoming IFTIs totalling \$5,182,685 where Customer 18 was named as the ordering customer and beneficiary. The funds were deposited into Customer 18's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 22 June 2017 and 3 September 2019, Star Sydney sent five telegraphic transfers totalling \$11,195,300 from Customer 18's account to Australian bank accounts.

Between 27 March 2018 and 28 November 2019, Star Sydney sent four telegraphic transfers totalling \$1,809,771 from Customer 18's FMA to other Australian casinos.

Between 8 April 2017 and 7 March 2019, Star Sydney sent three telegraphic transfers totalling \$3,566,841 from Customer 18's account to overseas bank accounts.

On 21 July 2022, Star Sydney gave the AUSTRAC CEO an outgoing IFTI detailing a transfer of \$382,774 to Customer 18's overseas bank account. The funds were withdrawn from Customer 18's Star Sydney SKA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 23 December 2016 and 1 January 2017, Star Sydney received three transfers totalling \$1,577,180 from Star Qld, each of which was made available to Customer 18's account.

Between 31 July 2017 and 31 May 2019, Star Sydney sent six transfers totalling \$13,954,024 from Customer 18's account to Star Qld.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 18 by remitting large values into, out of and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

On 17 May 2019, a third party acting on behalf of Customer 18 deposited a total of \$44,532 into the EEIS Patron accounts, which Star Qld made available to Customer 18 through the EEIS remittance channel.

Remittances through the Bank 1 (Macau) cash channel

See paragraphs 372 and 382 to 384 above.

On 8 August 2017, unknown persons deposited \$1,680,192 in cash at Bank 1 which Star Qld made available to Customer 18 through the Bank 1 (Macau) cash channel.

Other remittances involving third parties

See paragraphs 278 and 327 above.

On 3 August 2017, Star Qld gave the AUSTRAC CEO an incoming IFTI totalling \$184,740 where Customer 18 was named as the beneficiary, and the ordering customer was an overseas third party. The funds were used to repay a CCF under Customer 31's account.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 8 August 2017 and 15 November 2018, Star Qld received three telegraphic transfers totalling \$13,429,399 which it made available to Customer 18's FMA at Star Gold Coast.

Between 3 August 2017 and 11 August 2017, Star Qld gave the AUSTRAC CEO four incoming IFTIs totalling \$3,215,111 where Customer 18 was named as the ordering customer and beneficiary. The funds were used to repay CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 23 December 2016, Star Qld facilitated a telegraphic transfer of \$1,957,200 from Customer 18's FMA at Star Gold Coast to an Australian bank account.

Between 12 October 2018 and 6 March 2019, Star Qld facilitated three telegraphic transfers totalling \$2,614,152 from Customer 18's FMA at Star Gold Coast to two overseas bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 10 December 2016, Customer 18's junket representative, Person 7, arrived at Star Qld with \$483,760 in cash, and placed the funds into an FMA. The funds were transferred to Star Sydney under Person 7's name, and then transferred to Customer 18's FMA. The ground of suspicion was the large amount of cash carried by Person 7: SMR dated 12 December 2016.

Between 15 April 2017 and 31 May 2019, Star Qld received seven transfers totalling \$4,884,500 from Star Sydney, each of which was made available to Customer 18's FMA at Star Gold Coast. At least \$1,192,096 of these funds were transferred for the purpose of redeeming an outstanding CCF.

On 24 January 2018, Star Qld facilitated a transfer of \$222,480 from Customer 18's FMA at Star Gold Coast to Star Sydney.

- j. Customer 18 and persons associated with his junket transacted using large amounts of cash and cash that appeared suspicious, including, on one occasion, cash bundled with elastic bands inside vacuum sealed plastic bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Transactions recorded by Star Sydney

Between 2 December 2016 and 18 December 2019, Star Sydney gave the AUSTRAC CEO 150 TTRs detailing chip and cash exchanges, account deposits, account withdrawals and other transactions made by Customer 18 and his agents and junket representatives totalling \$6,664,077.

Large and suspicious cash transactions in 2018

On 23 August 2018, Customer 18's junket representative deposited \$350,000 in cash into Customer 18's account. The cash presented was \$5,100 in \$100 notes, \$325,100 in \$50 notes, \$19,620 in \$20 notes, \$210 in \$10 notes and \$20 in \$5 notes. The cash was bundled with elastic bands inside vacuum sealed plastic bags. The cash and wrapping were held aside by Star Sydney for inspection by law enforcement: SMR dated 24 August 2018.

Further to the above transaction, the cash was subsequently seized by law enforcement, and there were raids on the hotel rooms of two individuals associated with the cash, which also resulted in chips being seized. One of the individuals was not listed as a player on the junket.

Star Sydney also subsequently discovered a telegraphic transfer of \$270,793 on 21 August 2018 to Customer 18 from a third party to fund a junket player on the Customer 18 junket. The funds were deposited and withdrawn as chips by a junket representative. The junket player lost \$100,000 playing on the junket: SMR dated 29 October 2018.

- k. Customer 18, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

Between 1 January 2017 and 21 January 2019, Star Qld gave the AUSTRAC CEO 13 TTRs detailing chip and cash exchanges, account deposits, account withdrawals and other transactions made by Customer 18 and his agents and junket representatives totalling \$2,170,129.

Large and suspicious cash transactions in 2016

See particulars to paragraph 1155.i.

Large and suspicious cash transactions in 2017

Between 3 January 2017 and 12 December 2017, Star Qld gave the AUSTRAC CEO six TTRS detailing chip and cash exchanges, account deposits and account withdrawals made by Customer 18 totalling \$1,660,279.

See particulars to paragraph 1155.m.

Large and suspicious cash transactions in 2018

Between 26 July 2018 and 13 October 2018, Star Qld gave the AUSTRAC CEO six TTRS detailing transactions made by Customer 18 totalling \$439,850.

In July 2018, Customer 18 operated a junket programme with front money of \$15,000,000. A junket player, Person 61, on the Customer 18 junket lost \$1,119,200 that month. Person 61 recorded some minor play on gaming machines for June and July 2018. Person 61's source of funds was recorded as being an investor: SMR dated 17 August 2018.

In October 2018, a junket player, Person 61, had lost \$9,401,750 that month. Person 61 was a player on Customer 6's junket between 1 and 8 October 2018 and lost \$5,140,750. Person 61 then participated in Customer 18's junket from 9 to 10 October 2018, and lost another \$4,261,000: SMR dated 6 November 2018.

- I. at various times, Customer 18 had significant parked or dormant funds in his FMA at Star Sydney;

Particulars

Between 17 December 2019 and 16 June 2022, Customer 18 had \$382,774 parked in his FMA.

See paragraph 284 above.

- m. Customer 18's junket representatives engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including cashing-in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

In May 2017, Customer 18's junket representative and junket players were involved in transactions indicative of the ML/TF typology of cashing-in large value chips with no evidence of play.

- a. During this period, Customer 18 operated a junket program at Star Qld with a front money of \$10 million, and 30 nominated players.
- b. On 25 May 2017, Customer 18's junket representative, Person 7, made two chip cash-out transactions, for \$50,000 and

\$130,000 respectively. Star Qld's review of play for the group indicated that at that time, only one junket player had any recorded play.

- c. After obtaining the \$50,000 in cash, Person 7 was observed on surveillance footage giving \$5,000 cash to a junket player in the gaming room, and placing the remaining cash into a bag on a chair.
 - d. After obtaining the \$130,000 in cash, Person 7 was observed on surveillance footage giving \$70,000 to an unidentified man in the gaming room, who left shortly after. The remaining \$60,000 in cash was placed into a bag on a chair in the gaming room. The unidentified man did not appear to be one of the recorded junket players: SMR dated 26 May 2017.
- n. persons associated with Customer 18's junket requested that Star Qld prepare letters purportedly confirming winnings;

Particulars

See paragraphs 337 and 338 above.

On 5 March 2019, Star Gold Coast prepared a letter at the request of a player on the Customer 18 junket purportedly confirming his winnings of \$3,670,000 on a junket operated by Customer 18 on 19 January 2019 to 22 January 2019 at Star Gold Coast.

- o. In 2018, junket representatives and other persons associated with Customer 18's junket were the subject of law enforcement enquiries on one occasion at Star;

Particulars

On 24 August 2018, Star Sydney received a request from a law enforcement agency in relation to the suspicious cash transaction at Star Sydney on 23 August 2018 involving Customer 18's junket representative: see particulars to paragraph 1155.j. Two people were charged with dealing with money suspected of being the proceeds of crime: SMR dated 29 October 2018.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- p. Customer 18 had access to private gaming rooms at Star Sydney and Star Qld; and

Particulars

See paragraph 616 above.

Customer 18 had access to private gaming rooms at Star Sydney, including the Sovereign, Oasis, Lakes Salons, Rivers Salons, Springs Salon.

Customer 18 had access to private gaming rooms at Star Qld, including the Club Conrad, Pit 8, Pit 9, Salon 21, Salon 22, Salon 69, Salon 88, Salon 90, Salon 95, Salon 98, Sovereign Room TG, The Club, The Sovereign, Pit 21.

- q. Star Sydney and Star Qld did not have adequate reason to believe that Customer 18's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 18 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld recorded Customer 18's occupation as junket promoter/operator, junket representative and junket player.

Star Sydney and Star Qld did not take appropriate steps to verify Customer 6's source of wealth or source of funds in circumstances where:

- a. Customer 18 was one of the top ten junket funders at Star Sydney by amount of funding provided to junket programs;
- b. Star Sydney recorded turnover exceeding \$6.4 billion for junkets operated by Customer 18 at Star Sydney between 2017 and 2019; and
- c. Star Qld recorded turnover exceeding \$1.8 million for junkets operated by Customer 18 between 2016 and 2019.

See paragraphs 1155.b, 1155.c, 1155.j and 1155.k.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 18

1156. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 18 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 18.

- a. On and from 30 November 2016, Customer 18 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 18's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 18 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 26 January 2021, Customer 18 was rated high, not being high for the purpose of the Act and Rules, in relation to his primary account and his second, third, fourth, fifth and sixth sub-accounts.

At no time was Customer 18 rated high risk for the purpose of the Act and Rules in relation to his first sub-account. Customer 18 was rated medium, not being high risk for the purpose of the Act and Rules, in respect of his first sub-account on 6 August 2019.

Monitoring of Customer 18's transactions

1157. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 18's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 18, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 18 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 18 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel and the Bank 1 (Macau) cash channel;

Particulars

See paragraphs 383 and 493 above.

- e. Star Sydney and Star Qld provided designated services to Customer 18 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 18.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 18 on 10 December 2016: see *Customer 18's risk profile*.

The review, update and verification of Customer 18's KYC information

- 1158. Star Sydney and Star Qld did not review, update and verify Customer 18's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 18's business with each of Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 18's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 18's source of wealth and source of funds were not legitimate: see *Customer 18's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 18's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 18.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 18's high ML/TF risks

1159. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 18 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 18; and
- c. reviewing and updating Customer 18's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 18 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 18*.

ECDD triggers in respect of Customer 18

1160. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 18 following any ECDD triggers in respect of Customer 18.

Particulars

Section 36(1)(a) and (b) of the Act.

1161. Customer 18:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 24 August 2018 and 29 October 2018, Star Sydney gave the AUSTRAC CEO two SMRs with respect to Customer 18.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 12 December 2016 and 6 November 2018, Star Qld gave the AUSTRAC CEO four SMRs with respect to Customer 18.

1162. Each matter pleaded in paragraph 1161 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1163. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 18 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 18 in response to an ECDD trigger, it failed to give appropriate consideration to ML/TF risks posed by Customer 18 and the provision of designated services to Customer 18 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 13 February 2019, Star Sydney and Star Qld conducted ECDD in respect of Customer 18.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 18's higher ML/TF risks: see *Customer 18's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 18's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 18's source of wealth and source of funds were not legitimate: see *Customer 18's risk profile*.

- b. Customer 18 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 817 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 18

1164. By reason of the matters pleaded from paragraphs 1150 to 1163 above, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 18 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1165. By reason of the matters pleaded at paragraph 1164, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 18.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 19

1166. Customer 19 was a customer of Star Sydney during the relevant period. Between 2016 and 2018, Star Sydney recorded turnover exceeding \$23 million for Customer 19.

Particulars

Customer 19 was a customer of Star Sydney from at least 6 March 2015.

1167. Star Sydney provided Customer 19 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket player. Between 2017 and 2018, Star Sydney recorded that junkets operated by Customer 19 had a turnover exceeding \$1.2 billion.

Particulars

On 12 May 2015, Star Sydney opened an FMA and SKA for Customer 19 both of which remain open (item 11, table 3, s6 of the Act).

Between 26 July 2015 and 14 May 2019, Star Sydney approved CCFs for Customer 19 on 35 occasions ranging from \$40,000 to \$21,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Customer 9 channels and the Hotel Card channel, which it made available to Customer 19 (items 31 and 32, table 1, s6 of the Act).

See Customer 19's risk profile below.

1168. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 19.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 19's risk profile

1169. On and from 30 November 2016, Customer 19, and the provision of designated services to Customer 19 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 19's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 19 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 19;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 10 occasions between 16 March 2015 and 23 June 2016.

The SMRs reported that Customer 19 transacted using large amounts of cash and cash that appeared suspicious: see particulars to paragraph 1169.a.v below.

- ii. by 30 November 2016, Customer 19 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Between 31 May 2015 and 7 October 2016, Customer 19 operated 14 junkets at Star Sydney, one of which was funded by Customer 45.

Between 2015 and 2016, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 19 was \$1,180,315,916 with losses of \$45,372,378.

Between 2015 and 2016, Star Sydney recorded a cumulative turnover of \$21,347,495 for Customer 19 as a junket player on their own junkets, despite not being a junket player on those particular junkets.

In 2015, Customer 19 was a top ten junket operator at Star Sydney by number of junket programs he operated that year.

In 2016, Customer 19 was a top ten junket operator by turnover at Star Sydney.

In 2016, Customer 19 was the junket operator for the top junket player by turnover for the year at Star Sydney, Customer 45.

Between 2015 and 2016, total benefits of \$8,546,887 were payable to Customer 19 in their capacity as a junket operator for rebates earned and other benefits.

Customer 19 had three junket representatives at Star Sydney, including Customer 66 and Person 12.

Customer 19 and his junket representatives facilitated the provision of high value designated services to 22 junket players at Star Sydney, including players in respect of whom Star Sydney had formed suspicions such as Customer 45, Customer 66 and Person 12.

- iii. by 30 November 2016, Customer 19 received financial and gambling services (tables 1 and 3, s6) at Star Sydney other than through junket programs. In 2015, Customer 19's individual rated turnover was \$3,573;

Particulars

See paragraph 752 above.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 19 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

Between 26 July 2015 and 19 October 2016, Customer 19 transacted \$3,725,000 through the Hotel Card channel and was given temporary CCFs while waiting for the funds to clear.

On at least 22 occasions, the CCFs were directly approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer, the Group General Counsel and the Star Sydney Managing Director.

Other remittances into the casino environment

See paragraph 327 above.

Between 1 July 2016 and 29 November 2016, Star Sydney gave the AUSTRAC CEO nine incoming IFTIs totalling \$14,537,700 where Customer 19 was named as the ordering customer and beneficiary.

On 17 December 2021, Star Sydney gave the AUSTRAC CEO three incoming IFTIs totalling \$3,090,574 in respect of transactions between 26 August 2016 and 12 September 2016 where Customer 19 was named as the ordering customer sender and beneficiary.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 13 September 2016, Star Sydney sent a telegraphic transfer of \$192,000 from Customer 19's FMA to an Australian bank account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 25 February 2016, Customer 19 transferred \$1,000,000 from his Star Sydney account to Customer 66's Star Sydney account. Customer 66 withdrew these funds as a non-winnings cheque: SMR dated 26 February 2016.

- v. Customer 19 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and bags; and

Particulars

TTRs

Between 9 March 2015 and 10 October 2016, Star Sydney gave the AUSTRAC CEO 57 TTRs totalling \$3,116,068, including:

- a. 18 TTRs detailing chip and cash exchanges involving Customer 19 totalling \$595,050;
- b. seven TTRs detailing account deposits involving Customer 19 totalling \$661,000;
- c. 22 TTRs detailing account withdrawals involving Customer 19 totalling \$1,389,000;
- d. one TTR detailing other monetary value in involving Customer 19 totalling \$52,669,19; and
- e. nine TTRs detailing other monetary value out involving Customer 19 totalling \$418,349.

Large and suspicious cash transactions in 2015

On 13 March 2015, Customer 19 and another customer split \$50,000 in cash between them to exchange for chips at Star Sydney. Customer 19 and the other customer both advised Star that they were exchanging the cash on Customer 45's behalf. Customer 19 returned shortly after to exchange a further \$20,000 in cash for chips. The cash was contained in a brown leather satchel which appeared to contain approximately \$400,000 in cash: SMR dated 16 March 2015.

On 13 March 2015, Customer 3's Suncity junket representative \$200,000 from Customer 3's account at Star Sydney. The junket representative handed the cash to Customer 19, who then purchased \$100,000 worth of chips with the cash and delivered these chips to Customer 45. Customer 19 subsequently purchased a further

\$80,000 worth of chips with cash and was observed giving the chips, and the remaining cash, to Customer 45: SMR dated 17 March 2015.

On 9 May 2015, Customer 19 deposited \$280,000 in cash, made up of \$280,000 in \$50 notes and \$20,000 in \$100 notes, into Customer 45's Star Sydney account. The cash was presented in rubber bands.

The SMR described Customer 19 as Customer 45's 'personal assistant': SMR dated 12 May 2015.

On 18 June 2015, Customer 19 deposited \$200,000 in cash into his Star Sydney account. The cash comprised of \$50 notes bundled in elastic bands: SMR dated 19 June 2015.

Large and suspicious cash transactions in 2016

On 18 February 2016, Customer 19 withdrew \$100,000 in cash from his Star Sydney account: SMR dated 19 February 2016.

On 24 February 2016, Customer 19 withdrew two large amounts of cash from his Star Sydney account within a 20-minute period. He returned within an hour and deposited the cash back to his account: SMR dated 25 February 2016.

On 25 February 2016, Customer 19 withdrew \$510,000 in cash from his Star Sydney account. Two hours later, he returned with Customer 66 and deposited the cash to her Star Sydney account. Customer 66 then withdrew the funds as a Star non-winning cheque. Customer 19 also transferred \$1,000,000 from his Star Sydney account to Customer 66's Star Sydney account, which she withdrew as a non-winning cheque: SMR dated 26 February 2016.

On 9 March 2016, Star Sydney issued two cheques for \$2,700,000 and \$3,000,000 from Customer 19's junket account in favour of Customer 66. Star Sydney noted that Customer 66 was listed as a player on the junket, but had not recorded any play. Star Sydney was advised that Customer 66 had a bank account in Australia but her husband, Customer 45, who played on the junket, did not have an account in Australia: SMR dated 11 March 2016.

On 22 June 2016, Customer 19 deposited \$200,000 in cash into his Star Sydney account. The cash comprised of \$100,000 in \$100 notes and \$100,000 in \$50 notes: SMR dated 23 June 2016.

Customer 19's risk profile from 30 November 2016

- b. Customer 19 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2018, Customer 19 operated 11 junkets at Star Sydney;
 - ii. between 2017 and 2018, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 19 was \$1,229,140,120 with losses of \$40,048,425;

Particulars

In 2017, junkets operated by Customer 19 had turnover of \$1,210,308,710 with losses of \$42,637,550.

In 2018, junkets operated by Customer 19 had turnover of \$18,831,410 with wins of \$2,589,125.

In 2017, Customer 19 was a top ten junket operator by turnover at Star Sydney.

In 2017, Customer 19 was one of the junket operators for a top ten junket player by turnover for the year at Star Sydney, Customer 45.

- iii. between 2017 and 2018, Star Sydney recorded a cumulative turnover of \$87,940,983 for Customer 19 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2017 and 2018, total benefits of \$9,348,100 were payable to Customer 19 by Star Sydney in his capacity as a junket operator for rebates earned and other benefits;

Particulars

Customer 19 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2017, total benefits of \$9,211,764 were payable to Customer 19; and
- b. in 2018, total benefits of \$136,336 were payable to Customer 19.
- v. between 2017 and 2019, Star Sydney provided Customer 19 and his junket programs with significant amounts of credit upon request, up to limits of \$21,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 10 March 2017 and 14 May 2019, Star Sydney provided Customer 19 with CCFs between \$10,000,000 and \$21,000,000 on six occasions. On at least two of these occasions, the CCFs were directly approved by the Chief Executive Officer and the Chief Financial Officer.

- vi. Customer 19 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 19 operated junkets in non-exclusive private gaming rooms, including the Lakes Salons, Sovereign (Cage) and the Lakes Salon (Cage).

Customer 19 operated junkets in exclusive private gaming rooms, including Salons 67, 68, 69, 75, 80, 83 and 85.

- vii. Customer 19 had two junket representatives at Star Sydney including Person 12; and
- viii. Customer 19 and his junket representatives facilitated the provision of high value designated services to three junket players at Star Sydney including players who posed higher ML/TF risks such as Customer 45 and Person 12;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 19 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. in 2017, Customer 19 was a player on at least three junkets at Star Sydney that he also operated and funded; and
 - ii. in 2017, Star Sydney recorded high turnover totalling \$23,664,680 with wins of \$171,000 for Customer 19's gaming activity on junket programs;
- d. designated services provided to Customer 19 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Customer 19 was connected to other customers at Star Sydney including junket players in respect of whom Star Sydney had formed suspicions such as Customer 45 and Customer 66;

Particulars

See paragraph 1169.b above.

Customer 19 transferred funds from his Star Sydney account to Customer 45 and Customer 66's Star Sydney accounts: see particulars to paragraph 1169.g below.

- f. Customer 19 received financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2018, Star Sydney recorded individual rated turnover totalling \$57,168 for Customer 19;

Particulars

See paragraph 752 above.

In 2016, Customer 19's individual rated turnover was \$55,672.

In 2018, Customer 19's individual rated turnover was \$1,496.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 19 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

On 12 October 2017 and 13 October 2017, Customer 19 transacted \$10,000 and \$20,000 respectively through the Hotel Card channel and was given temporary CCFs while waiting for the funds to clear.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 25 October 2018 and 8 June 2018, deposits through the Customer 9 channels totalling AU\$7,161,399 and HKD12,231,693 were made available by Star Sydney to Customer 19's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 13 June 2018 and 18 March 2020, Star Sydney received 44 telegraphic transfers totalling \$106,369,394, each of which it made available to Customer 19's account.

Between 16 August 2017 and 12 September 2017, Star Sydney received 21 transfers from an unknown account overseas, which it made available to Customer 19's account, which had a balance of over \$26,000,000. Star Sydney noted that Customer 19 was due to arrive at the casino on 8 October 2017 to utilise the funds for a junket buy-in. Star Sydney considered the large amount of telegraphic transfers, and the balance of Customer 19's account, to be excessive: SMR dated 4 October 2017.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 9 March 2019, Star Sydney sent a telegraphic transfer of \$2,907,560 from Customer 19's SKA to an Australian bank account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

2017

On 20 February 2017, Customer 19 transferred \$148,001 from his Star Sydney account to Customer 66's Star Sydney account.

Customer 66 then withdrew the funds as cash. Star Sydney noted that the funds had been sent to Customer 19 via telegraphic transfer, and were not used for gaming purposes at any time by Customer 19 or Customer 66: SMR dated 21 February 2017.

On 15 August 2017, Customer 19 transferred \$300,000 from his Star Sydney account to Customer 66's Star Sydney account. Customer 66 then withdrew the funds as cash. Star Sydney noted that the funds had been sent to Customer 19 via telegraphic transfer, and were not used for gaming purposes at any time by Customer 19 or Customer 66: SMR dated 16 August 2017.

On 10 October 2017, Customer 19 transferred \$600,000 from his Star Sydney account to Customer 66's Star Sydney account. Customer 66 then withdrew the funds as cash. Star Sydney noted that the funds had been sent to Customer 19 via telegraphic transfer, and were not used for gaming purposes at any time by Customer 19 or Customer 66: SMR dated 10 October 2017.

On 13 October 2017, Customer 19 transferred \$571,180 from his Star Sydney account to Customer 66's Star Sydney account. The source of these funds was telegraphic transfers Customer 19 had received from an unknown account. Customer 66 withdrew \$500,000 as a Star cheque in her favour, and withdrew the remaining \$71,180 as cash. Star Sydney noted that Customer 66 did not use the funds for gaming, and had not recorded any play since 2017: SMR dated 13 October 2017.

2018

On 18 February 2018, Customer 19 made 10 deposits totalling \$33,733,461 into Customer 45's Star Sydney SKA. Eight of these transfers were from Customer 19's Star Sydney SKA to Customer 45's Star Sydney SKA. Star Sydney noted that it was unclear where the funds came from as the rated gaming for the accounts did not support the volume of funds, but observed that Customer 19 had multiple accounts.

On 6 May 2018, a customer opened an account at Star Sydney. Customer 19 then transferred \$150,000 from his Star Sydney account to the other customer's Star Sydney account. The customer then withdrew the funds as cash. Star Sydney noted that the last time the customer had played on Customer 19's junket and recorded play was June 2016. Star Sydney considered the transfer for no apparent reason to be unusual: SMR dated 8 May 2018.

Between 10 May 2018 and 18 June 2018, Star Sydney sent four transfers totalling \$8,000,000 from Customer 19's FMA to Star Qld. Star Qld subsequently facilitated the transfer of at least \$2,000,000 of the funds to Customer 45.

On or around 19 August 2018, Customer 19 transferred \$150,000 from his Star Sydney account to the Star Sydney account of one of his junket representatives, Person 12. Person 12 then withdrew the funds from his own account. Star Sydney considered the transfer to be unusual, as Person 12 could have withdrawn the funds directly from Customer 19's account as an authorised junket representative: SMR dated 20 August 2019.

On 15 October 2018, Customer 19 transferred \$500,000 from his Star Sydney account to Person 12's Star Sydney account. Shortly afterwards, Person 12 withdrew \$100,000 in cash and then left the premises. Star Sydney noted that Person 12 was known to have played on Customer 19's junkets, and last played on his junket in June 2018: SMR dated 16 October 2018.

- h. Customer 19, and people associated with his junket, transacted using large amounts of cash;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 13 March 2017 and 18 June 2018, Star Sydney gave the AUSTRAC CEO eight TTRs totalling \$583,750, including:

- a. one TTR detailing chip and cash exchanges made by Customer 19 totalling \$10,750;
- b. six TTRs detailing account withdrawals made by Customer 19 totalling \$473,000; and
- c. one TTR detailing an account deposit made by Customer 19 totalling \$100,000.

Large transactions in 2017

On 16 March 2017, Customer 19's junket representative withdrew \$300,000 in cash from Customer 19's junket operator account.

Following the withdrawal, Star Sydney observed the junket representative went to a jewellery store in the Star arcade: SMR dated 17 March 2017.

On 20 March 2017, Customer 19's junket representative deposited \$100,000 in cash, in Star straps, into Customer 19's account. The funds were used to purchase chips, which were provided to Customer 45 for gaming.

- i. Customer 19 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 19 had access to private gaming rooms at Star Sydney, including the Sovereign, Springs Salons, Lakes Salons, Sovereign (Cage), Oasis (Cage), Lakes Salon (Cage) and the Springs Salon (Cage).

- j. Star Sydney did not have adequate reason to believe that Customer 19's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 19 at Star Sydney.

Particulars

See paragraph 808 above.

In Customer 19's CCF application form dated 29 June 2016, Customer 19 listed his occupation as a manager in manufacturing at an overseas company. Customer 19 stated in the application that his annual income was \$500,000. Star Sydney was aware by this time that this overseas company was owned by Customer 45.

In other due diligence records held by Star Sydney, Customer 19's occupation was variously recorded as 'trades workers and technicians' 'junket operator' and 'trader'.

Between 2017 and 2018, the financial transactions facilitated by Star Sydney for Customer 19 were of a size inconsistent with his stated source of wealth and source of funds. Transactions conducted for Customer 19 by Star Sydney included:

- a. in 2017, making available to Customer 19's accounts funds exceeding \$80 million received by way of telegraphic transfer; and
- b. in 2018, transferring of funds exceeding \$33 million from Customer 19's SKA to Customer 45's SKA.

At no time did Star Sydney taken appropriate steps to verify Customer 19's source of wealth or source of funds, including where it understood that many of the transactions were being conducted on behalf of other customers, including Customer 45.

Star Sydney's determination of the ML/TF risks posed by Customer 19

1170. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 19 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 19.
- a. On and from 30 November 2016, Customer 19 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 19's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 19 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 12 May 2015, Customer 19 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 19 June 2015, Customer 19 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 28 January 2021, Customer 19 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 19's transactions

1171. At no time did Star Sydney apply appropriate transaction monitoring to Customer 19's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 19, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 19's junket as turnover was recorded against Customer 19 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 19 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Customer 9 channels and the Hotel Card channel; and

Particulars

See paragraphs 441 and 790 above.

- e. Star Sydney provided designated services to Customer 19 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 19's KYC information

- 1172. Star Sydney did not review, update and verify Customer 19's KYC information, having regard to the high ML/TF risks posed:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 19's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 19's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 19's source of wealth and source of funds were not legitimate: see *Customer 19's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 19's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 19.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 19's high ML/TF risks

1173. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 19 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 19; and
- c. reviewing and updating Customer 19's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 19 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 19*.

ECDD triggers in respect of Customer 19

1174. Star Sydney was required to apply the ECDD Programs to Customer 19 following any ECDD triggers in respect of Customer 19.

Particulars

Section 36(1)(a) and (b) of the Act.

1175. Customer 19 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 21 February 2017 and 20 August 2019, Star Sydney gave the AUSTRAC CEO nine SMRs with respect to Customer 19.

1176. The matter pleaded in paragraph 1175 was an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

See paragraphs 792 and 801 above.

1177. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 19 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 19 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 19 and the provision of designated services to Customer 19, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 20 August 2019, 19 February 2021 and 17 December 2021, Star Sydney conducted ECDD in respect of Customer 19.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 19's higher ML/TF risks: see *Customer 19's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 19's source of funds or source of wealth, in circumstances Customer 19 conducted a number of transactions on behalf of another customer, Customer 45, and where the size of the transactions facilitated were inconsistent with Customer 19's stated occupation at the time (being manufacturing manager) including:

- a. in 2017, Star Sydney made available to Customer 19's accounts funds exceeding \$80 million received by way of telegraphic transfer; and
- b. in 2018, Star Sydney facilitated the transfer of at least \$33 million from Customer 19's SKA to Customer 45's SKA.

By reason of the matters set out above, there were real risks that Customer 19's source of wealth and source of funds were not legitimate: see *Customer 19's risk profile*.

- b. Customer 19 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion that Customer 19 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 19 and the provision of designated services to Customer 19 by Star Sydney, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 18 December 2021, the Group Manager, Due Diligence and Intelligence reviewed comments from an ECDD analyst identifying that 14 SMRs had been given to the AUSTRAC CEO and that no adverse findings had been made from media searches on Customer

19, and determined to maintain a customer relationship with Customer 19.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 19's source of wealth (r15.10(2)(a) of the Rules), having regard to the high and escalating turnover on junkets operated by Customer 19; and
- b. Customer 19's source of funds (r15.10(2)(b) of the Rules), having regard to information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 19's risk profile* above.

Contravention of s36 of the Act in respect of Customer 19

1178. By reason of the matters pleaded from paragraphs 1166 to 1177 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 19 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1179. By reason of the matters pleaded at paragraph 1178, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 19.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 20

1180. Customer 20 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$100 million for Customer 20.

Particulars

Customer 20 was a customer of Star Sydney from at least 11 July 2016.

On 1 March 2022 Star Sydney issued a WOL in respect of Customer 20, at the direction of the Star AML team.

1181. Star Sydney provided Customer 20 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2016 and 2020, Star Sydney recorded that junkets operated by Customer 20 had a turnover exceeding \$1.9 billion.

Particulars

On 29 August 2016 Star Sydney opened an FMA and SKA for Customer 20, which remains open (item 11, table 3, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Customer 9 channels, which it made available to Customer 20 (items 31 and 32, table 1, s6 of the Act).

While a customer of Star Sydney, Customer 20 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 20's risk profile below.

1182. Customer 20 was a customer of Star Qld during the relevant period.

Particulars

Customer 20 was a customer of Star Qld from at least 31 August 2016.

On 1 March 2022 Star Qld issued a WOL in respect of Customer 20, at the direction of the Star AML team.

1183. Star Qld provided Customer 20 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as junket operator. Between 2017 and 2020, Star Qld recorded that junkets operated by Customer 20 had a turnover exceeding \$89 million.

Particulars

On 29 August 2016 Star Qld opened an FMA for Customer 20, which was closed on 1 March 2022 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 20 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 20's risk profile below.

1184. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 20.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 20's risk profile

1185. On and from 30 November 2016, Customer 20, and the provision of designated services to Customer 20 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 20's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 20 had the following risk history:

- i. in 2016, Customer 20 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

On 27 August 2016, Customer 20 was approved as a junket operator at Star Sydney.

Between 27 August 2016 and 30 November 2016, Customer 20 operated three junket programs at Star Sydney, with cumulative turnover of \$559,651,560 with losses of \$5,882,065.

Each of the programs was funded by another junket funder, Person 66, totalling \$9,000,000.

- ii. in 2016, Customer 20 was recorded to be a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney on their own junkets;

Particulars

By 30 November 2016, Customer 20 was recorded as a player on three junkets, with turnover of \$34,733,465 with wins of \$5,003,275.

- iii. Customer 20 and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

TTRs

Between 8 July 2016 and 30 November 2016, Star Sydney gave the AUSTRAC CEO 47 TTRs totalling \$1,831,255, including:

- a. 30 TTRs detailing account withdrawals involving Customer 20 totalling \$1,414,785; and
- b. 17 TTRs detailing chip and cash exchanges involving Customer 20 totalling \$416,470.

Large transactions in 2016

On or about 8 October 2016, Customer 20's junket representative, Person 53, withdrew \$120,000 in cash from Customer 20's junket account at Star Sydney.

On or about 13 October 2016, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's junket account at Star Sydney.

On or about 22 November 2016, Customer 20's junket representative withdrew \$118,000 in cash from Customer 20's junket account at Star Sydney. Star Sydney noted that this was not usual for a junket.

On 23 November 2016, Customer 20 settled a junket program with Star Sydney and withdrew \$315,000 in cash at settlement. The cash

was provided to Customer 20's junket representative, Person 53:
SMR dated 1 December 2016.

- iv. Customer 20 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld; and

Particulars

On 25 September 2016, Customer 20 was approved as a junket operator at Star Qld.

By 30 November 2016, Customer 20 had operated a junket at Star Qld, with cumulative turnover of \$5,801,250 with losses of \$304,106.

The program was funded by another junket funder, Person 66, totalling \$2,900,000.

By 30 November 2016, total benefits of \$42,920 were payable by Star Qld to Customer 20 in their capacity as a junket operator.

- v. in 2016, Customer 20 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld on their own junket;

Particulars

By 30 November 2016, Customer 20 was recorded as a player on one junket, with turnover of \$2,720,510 with losses of \$100,000.

Customer 20's risk profile from 30 November 2016

- b. Customer 20 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2016 and 2020, Customer 20 operated 46 junkets at Star Sydney, 45 of which were funded by another junket funder, Person 66;

Particulars

Funding for Customer 20's junkets comprised \$178,313,000 provided by Person 66 via a CCF.

By 30 November 2016, media reports alleged that Person 66:

- a. had been convicted and imprisoned for illegal gambling activity in a foreign country in 2003; and
 - b. funds from an account held by Person 66 at another casino used to purchase a luxury car were the subject of proceeds of crime proceedings in an Australian court in 2016, which related to allegations of suspected money laundering or and tax avoidance.
- ii. between 2016 and 2020, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 20 in the relevant period was \$1,977,499,050 with losses of \$33,052,567;

Particulars

In 2019 and 2020, Customer 20 was a top ten junket operator by number of junket programs at Star Sydney.

In 2020, Customer 20 was a top ten junket operator by volume of turnover.

Gaming activity on Customer 20's junkets

Between 1 and 31 December 2016, junkets operated by Customer 20 had turnover of \$149,617,145 with losses of \$5,778,265.

In 2017, junkets operated by Customer 20 had turnover of \$708,865,511 with losses of \$10,753,705.

In 2018, junkets operated by Customer 20 had turnover of \$533,722,404 with losses of \$10,675,635.

In 2019, junkets operated by Customer 20 had turnover of \$480,720,471 with losses of \$10,757,847.

In 2020, prior to the COVID-19 pandemic related closures, junkets operated by Customer 20 had turnover of \$104,519,519 with wins of \$98,240.

- iii. between 2016 and 2020, Star Sydney recorded a cumulative turnover of \$94,632,034 for Customer 20 as a junket player on their own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2020, total benefits of \$15,757,049 were payable to Customer 20 by Star Sydney in his capacity as a junket operator for rebates earned and other benefits;

Particulars

Customer 20 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2016, total benefits of \$5,515,415 were payable to Customer 20;
- b. in 2017, total benefits of \$5,766,582 were payable to Customer 20;
- c. in 2018, total benefits of \$3,784,279 were payable to Customer 20;
- d. in 2019, total benefits of \$3,383,487 were payable to Customer 20; and
- e. in 2020, total benefits of \$690,773 were payable to Customer 20.

- v. Customer 20 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;

Particulars

Customer 20 operated junkets in non-exclusive private gaming rooms, including the Oasis room, the Sovereign room and Pit 80.

Customer 20 operated junkets in exclusive private gaming rooms, including Salons 62, 67, 73, 76, 77, 78, 82, 83, 85, 86, 88, 89, 90, 93, 99.

- vi. Customer 20 had three junket representatives at Star Sydney including Person 53; and
- vii. Customer 20 and his junket representatives facilitated the provision of high value designated services to at least 150 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 20 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 2017 and 2020, Customer 20 operated nine junkets at Star Qld, one of which was self-funded and eight of which were funded by another junket funder, Person 66;

Particulars

Funding for Customer 20's junkets comprised \$23,043,900 provided by Person 66.

By 30 November 2016, media reports alleged that Person 66:

- a. had been convicted and imprisoned for illegal gambling activity in a foreign country in 2003; and
 - b. funds from an account held by Person 66 at another casino used to purchase a luxury car were the subject of proceeds of crime proceedings in an Australian court in 2016, which related to allegations of suspected money laundering or and tax avoidance.
- ii. funds due under outstanding CCFs held by Person 66 and utilised by Customer 20's junket were repaid through the EEIS remittance channel, which was a high risk channel, by three different third party remitters, totalling \$6,847,025;

Particulars

See paragraphs 461, 465 to 467, 491 and 492 above.

- iii. between 2017 and 2020, Star Qld recorded the total cumulative turnover of junkets operated by Customer 20 was \$89,003,717 with losses of \$1,815,980;

Particulars

In 2019, Customer 20 was one of the top ten junket operators who operated the highest number of junket programs at Star Qld.

In 2019, Customer 20 was one of the top ten junket operators whose junket operations in total involved the highest total turnover.

Gaming activity on Customer 20's junkets

In 2017, the junket operated by Customer 20 had turnover of \$178,126 with wins of \$25,250.

In 2018, junkets operated by Customer 20 had turnover of \$20,905,440 with losses of \$2,345,045.

In 2019, junkets operated by Customer 20 had turnover of \$46,109,661 with wins of \$835,815.

In 2020, prior to the COVID-19 pandemic related closures, junkets operated by Customer 20 had turnover of \$21,810,490 with losses of \$332,000.

- iv. between 2017 and 2020, Star Qld recorded a cumulative turnover of \$6,731,439 for Customer 20 as a junket player on their own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- v. between 2017 and 2020, total benefits of \$626,881 were payable to Customer 20 by Star Qld in his capacity as a junket operator for rebates earned, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 20 was entitled to benefits from Star Qld in his capacity as a junket operator:

- a. in 2017, total benefits of \$1,979 were payable to Customer 20;
 - b. in 2018, total benefits of \$154,090 were payable to Customer 20;
 - c. in 2019, total benefits of \$319,051 were payable to Customer 20; and
 - d. in 2020, total benefits of \$151,749 were payable to Customer 20.
- vi. Customer 20 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;

Particulars

Customer 20 operated junkets in non-exclusive private gaming rooms including Pit 11 and Pit 12.

Customer 20 operated junkets in exclusive private gaming rooms, including Salons 8, 9, 21, 96 and 98.

- vii. Customer 20 had one junket representative at Star Qld, Person 53; and
- viii. Customer 20 and his junket representative facilitated the provision of high value designated services to 18 junket players at Star Qld;

Particulars

See paragraphs 643 to 649 above.

- d. Customer 20 was recorded to be a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 2016 and 2019, Customer 20 was recorded to be a player on 15 junkets at Star Sydney, of which all were junkets that he operated.
 - ii. each of the junkets were funded by a person other than the junket operator, Person 66;
 - iii. between 2016 and 2019, Star Sydney recorded high turnover totalling \$100,289,579 for Customer 20's gaming activity on junket programs

Particulars

Between 1 and 31 December 2016, Customer 20's turnover on junket programs was \$16,310,021.

In 2017, Customer 20's turnover on junket programs was \$37,282,258.

In 2018, Customer 20's turnover on junket programs was \$15,120,820.

In 2019, Customer 20's turnover on junket programs was \$31,576,480.

- e. designated services provided to Customer 20 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 20 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than on junket programs. Between 2016 and 2020, Star Sydney recorded individual rated turnover totalling \$153,719 for Customer 20;

Particulars

In 2016, Customer 20's individual rated turnover was \$114,407.

In 2017, Customer 20's individual rated turnover of \$24,004.

In 2018, Customer 20's individual rated turnover of \$1,698.

In 2019, Customer 20's individual rated turnover of \$13,143.

In 2020, Customer 20's individual rated turnover of \$467.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 20 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 20 March 2018 and 29 March 2019, deposits through the Customer 9 channels totalling AU\$5,396,040 and HKD11,099,746 were made available by Star Sydney to Customer 20's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 30 March 2017 and 3 March 2020, Star Sydney received 174 telegraphic transfers totalling \$59,101,109, each of which was made available to Customer 20's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 12 August 2017 and 6 July 2019, Star Sydney sent two telegraphic transfers totalling \$894,254 from Customer 20's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 2 January 2020 and 5 January 2020, Star Sydney sent four transfers totalling \$3,430,932 from Customer 20's SKA to Star Qld. At least \$2,879,616 of the funds were transferred for the purpose of redeeming outstanding CCFs.

On 7 January 2018 and 25 August 2019, Star Sydney received two transfers totalling \$1,160,936 from Star Qld, both of which were made available to Customer 20's SKA.

- h. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 20 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

Between 16 June 2018 and 15 January 2019, Star Qld received three transfers totalling \$3,079,616 from Star Sydney, each of which was made available to Customer 20's FMA at Star Gold Coast. At least \$700,000 of the funds were transferred for the purpose of partially redeeming an outstanding CCF held by a third party, Person 66, who funded Customer 20's junkets.

On 15 January 2019 and 19 January 2019, Star Qld facilitated two transfers totalling \$305,076 from Customer 20's FMA at Star Gold Coast to Star Sydney.

On 2 January 2020, Star Qld received a transfer of \$340,105 from Star Sydney, which it made available to Customer 20's FMA at Treasury Brisbane.

- i. on 12 December 2021, Star Sydney received a deposit of \$2,759,723 from Customer 20's personal bank account, despite that Star had ceased junket operations in October 2020;

Particulars

On 12 December 2021, Star Sydney received \$2,759,723 from Customer 20's personal bank account from a foreign country.

- j. on 16 December 2019, Customer 20 referred a player to Star Qld;

Particulars

See paragraph 625 above.

On 16 December 2019, Customer 20 referred a player to Star Qld. Customer 20 arranged for the referred player to attend Star Qld on a rebate program without Customer 20 or his junket representative being present.

Customer 20 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- k. designated services provided to Customer 20 included EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 7 June 2018 and 28 November 2019, Star Sydney gave the AUSTRAC CEO two TTRs detailing EGM payouts to Customer 20 totalling \$62,000.

- l. Customer 20 and persons associated with his junket transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in mixed denominations, including cash bundled with elastic bands and or presented in plastic bags, backpacks and paper bags, at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 1 December 2016 and 7 December 2020, Star Sydney gave the AUSTRAC CEO 466 TTRs totalling \$21,913,482, including:

- a. 57 TTRs detailing account deposits involving Customer 20 totalling \$4,805,500;
- b. 258 TTRs detailing account withdrawals involving Customer 20 totalling \$12,343,908;
- c. 140 TTRs detailing chip and cash exchanges involving Customer 20 totalling \$4,173,455;
- d. 7 TTRs detailing other monetary value in involving Customer 20 totalling \$133,000;
- e. 3 TTRs detailing other monetary value out involving Customer 20 totalling \$419,620; and
- f. 1 TTR involving a betting account and Customer 20 totalling \$38,000.

Large and suspicious cash transactions in 2016

In 2016, Customer 20 and persons associated with his junket transacted with at least \$645,000 in cash including:

- a. on 6 December 2016, Customer 20's junket representative, Person 53, withdrew \$200,000 in cash from Customer 20's account at Star Sydney. Person 53 left the private gaming areas and met with another Star Sydney customer before returning to the cashier and depositing the cash into his own account: SMR dated 7 December 2016;
- b. on or about 13 December 2016, Customer 20's junket representative, Person 53, withdrew \$200,000 in cash from Customer 20's account at Star Sydney; and
- c. on or about 29 December 2016, Customer 20's junket representative withdrew \$245,000 in cash from Customer 20's account at Star Sydney and placed the cash in Customer 20's safe deposit box.

Large and suspicious cash transactions in 2017

In 2017 Customer 20 and persons associated with his junket transacted with at least \$2,746,000 in cash including cash that appeared suspicious:

- a. on or about 26 April 2017, Customer 20's junket representative, Person 53, deposited \$120,000 in cash into Customer 20's account at Star Sydney. The cash comprised \$30,000 in \$50 notes and \$90,000 in \$100 notes and was

- strapped in smaller straps that were not Star Sydney's. The \$50 bundles were secured by elastic bands;
- b. on or about 6 May 2017, Customer 20's junket representative, Person 53, purchased \$100,000 worth of chips at Star Sydney on behalf of Customer 20. The cash used to purchase the chips was comprised of \$100 notes;
 - c. on or about 7 May 2017, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's SKA at Star Sydney;
 - d. on or about 12 May 2017, Customer 20's junket representative, Person 53, withdrew \$302,000 in cash from Customer 20's account at Star Sydney;
 - e. on 8 June 2017, Customer 20 deposited \$220,000 in cash into his account at Star Sydney. The cash comprised mostly \$100 notes bound together by elastic bands and presented in a paper bag. Customer 20 then departed Star Sydney without gaming. The \$220,000 was later used for a buy-in: SMR dated 9 June 2017;
 - f. on or about 13 July 2017, Customer 20's junket representative, Person 53, withdrew \$140,000 in cash from Customer 20's SKA at Star Sydney and handed the cash to another junket representative;
 - g. on or about 3 October 2017, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash on behalf of Customer 20;
 - h. on 19 November 2017, Customer 20's junket representative, Person 53, deposited \$195,000 in cash into Customer 20's account at Star Sydney. The cash comprised \$50 notes bundled with elastic bands and was presented in a backpack. Star Sydney considered this to be an unusually large amount of \$50 notes: SMR dated 20 November 2017;
 - i. on or about 21 November 2017, Customer 20's junket representative, Person 53, together with another Star Sydney customer presented \$110,000 in cash to Star Sydney for a buy-in for Customer 20's junket. The cash comprised \$3,200 in \$100 notes and \$106,800 in \$50 notes which were banded in \$10,000 bundles. The cash was removed from the other customer's backpack but was presented to Star Sydney in a plastic bag;
 - j. on 23 November 2017, Customer 20's junket representative, Person 53, deposited \$200,000 in cash into Customer 20's account at Star Sydney. The cash comprised \$50 notes bundled with elastic bands and was presented in a bag: SMR dated 24 November 2017;

- k. on or about 24 November 2017, Customer 20's junket representative, Person 53, deposited \$200,000 in cash into Customer 20's account at Star Sydney. The cash comprised \$106,000 in \$50 notes and \$94,000 in \$100 notes and which were bundled together in elastic bands;
- l. on or about 29 November 2017, Customer 20's junket representative, Person 53, deposited \$100,000 in cash into Customer 20's account at Star Sydney. The cash comprised \$100 notes issued by Star;
- m. on or about 3 December 2017, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's SKA;
- n. on or about 17 December 2017, Customer 20's junket representative, Person 53, withdrew \$204,000 and \$100,000 in cash from Customer 20's SKA and FMA (respectively);
- o. on or about 19 December 2017, Customer 20's junket representative, Person 53, withdrew \$200,000 and \$150,000 in cash from Customer 20's FMA; and
- p. on or about 31 December 2017, Customer 20's junket representative, Person 53, withdrew \$105,000 in cash from Customer 20's FMA.

Large and suspicious cash transactions in 2018

In 2018 Customer 20 and persons associated with his junket transacted with at least \$2,422,865 in cash, including cash that appeared suspicious:

- a. on or about 1 January 2018, Customer 20's junket representative, Person 53, withdrew \$170,000 in cash from Customer 20's FMA;
- b. on 10 February 2018, Customer 20's junket representative, Person 53:
 - i. withdrew \$115,000 in cash from Customer 20's account at Star Sydney. Person 53 gave the cash to another Star Sydney customer. Star Sydney identified that the customer who received the cash had been linked to Customer 20 on junkets in the past but was not a player on a current Customer 20 junket; and
 - ii. deposited \$100,000 in cash to Customer 20's FMA at Star Sydney. The cash comprised \$80,000 in \$100 notes and \$20,000 in \$50 notes which Star Sydney record as being issued by it: SMR dated 12 February 2018;
- c. on 14 February 2018, a junket player on the Customer 20 junket, Person 25, deposited \$400,000 in cash to his account

at Star Sydney. The cash comprised \$100 notes and was bound together with straps issued by Star Sydney. Person 25 was accompanied by Customer 20's junket representative. When Person 25 was questioned as to where the cash came from he advised it was from winnings. Person 25's turnover for the junket was recorded as \$707,300 with a loss of \$268,290. There was no play recorded for Person 25 outside of the junket: SMR dated 15 February 2018;

d. on or about 2 March 2018, Customer 20's junket representative, Person 53, presented \$100,000 in cash and requested that \$90,000 be deposited into Customer 20's SKA with the remaining \$10,000 be issued as a TITO. Person 53 indicated that the \$90,000 may be used for gaming outside the junket program. The funds were later transferred to Customer 20's account and cash chips were issued;

e. on or about 20 March 2018, Customer 20's junket representative, Person 53, withdrew \$200,000 in cash from Customer 20's FMA;

f. on or about 1 May 2018, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's FMA and handed the cash to another a player on Customer 20's junket. Star Sydney recorded that the junket player had a turnover of \$595,720 and a win of \$82,620;

g. on or about 6 May 2018, Customer 20's junket representative, Person 53, withdrew \$200,000 in cash from Customer 20's FMA;

h. on or about 3 August 2018, Customer 20's junket representative, Person 53, deposited \$200,00 in cash into Customer 20's FMA. The cash comprised \$53,500 in \$100 notes and \$146,500 in \$50 notes. The funds were for a program sub buy-in;

i. on or about 1 September 2018, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's FMA;

j. on or about 6 September 2018, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's FMA;

k. on or about 6 September 2018, a Star Sydney customer purchased \$90,000 in chips with cash at Star Sydney. The cash comprised \$20,000 in \$100 notes and \$70,000 in \$50 notes. The cash was presented in a blue shopping bag. Star Sydney observed that the customer had not had recorded any gaming recorded since the chip purchase. The customer then withdrew \$100,000 in cash from Customer 20's account. Star Sydney considered it unusual that the customer would

purchase chips with cash then withdraw a similar amount from Customer 20's account when he did not have any gaming recorded since the chip purchase. On the following day, the customer returned to Star Sydney and exchanged \$70,000 worth of chips for cash: SMR dated 10 September 2018;

- i. on 19 September 2018, Customer 20's junket representative, Person 53, presented \$100,000 in cash to be deposited to Customer 20's account. The cash comprised \$20,000 in \$50 notes and \$80,000 in \$100 notes. The cash was presented in a paper bag which held a yellow plastic bag and a cereal box which was possibly sealed with a hot glue gun. Person 53 opened the box to retrieve the money stored inside. Person 53 had been given the bag by another Star Sydney customer who was last recorded as being on a junket for Customer 20 in 2016. Star Sydney considered that while a transaction this large was not unusual for the Customer 20 junket, the way the cash was presented was highly unusual: SMR dated 20 September 2018;
- m. on 15 October 2019, \$100,000 in cash was withdrawn from Customer 20's FM account at Star Sydney; and
- n. on 29 October 2018, Customer 20's junket representative, Person 53, withdrew \$250,000 in cash from Customer 20's account at Star Sydney. Person 53 met with another Star Sydney Customer and handed him an unknown amount of cash. The other customer had not been a player in any of Customer 20's junkets in 2018 and considered it unusual for cash to be withdrawn from the Customer 20 junket program and given to him: SMR dated 29 October 2018; and
- o. on or about 27 October 2018, Customer 20's junket representative, Person 53, withdrew \$127,000 in cash from Customer 20's FMA at Star Sydney.

Large and suspicious cash transactions in 2019

In 2019, Customer 20 and persons associated with his junket transacted with at least \$3,828,500 in cash, including cash that appeared suspicious:

- a. on or about 25 January 2019, Customer 20's junket representative, Person 53, withdrew \$200,000 in cash from Customer 20's SKA at Star Sydney. Star Sydney recorded that the junket had recorded winnings of \$347,980;
- b. on 28 January 2019, Customer 20's junket representative, Person 53, exchanged \$200,000 chips for cash. Person 53 handed the cash to Customer 20 after he left the buy-in room;
- c. on 30 January 2019, Customer 20's junket representative, Person 53, withdrew \$200,000 in cash from Customer 20's

FMA at Star Sydney. Star Sydney identified that the current junket program had winnings recorded of \$1,063,750 and that the last play was recorded on 29 January 2019. Star Sydney considered that although the recorded winnings supported the cash-outs it was unusual for these large cash-outs when there had not been any gaming recorded for the last 36 hours: SMR dated 31 January 2019;

- d. on 30 January 2019, a Star Sydney customer, Person 32, presented \$240,000 worth of chips at Star Sydney and requested that it be exchanged for cash. Star Sydney asked for identification and Person 32 produced his passport. Star Sydney asked where the chips had come from and Person 32 advised that he was cashing the chips for a friend but initially refused to provide their name. Person 32 then advised Star Sydney that he was cashing chips for Customer 20's junket representative, Person 53, and that Person 53 did not want to be seen cashing out the chips. Star Sydney identified that Customer 20's junket was issued cash chips earlier in the day, but that cash chips could not be used for junket play. Star Sydney considered it suspicious that Person 53 did not want the transaction to be recorded under the junket's name, especially given the large transactions that the junket regularly engaged in: SMR dated 30 January 2019;
- e. on 13 March 2019, Customer 20's junket representative, Person 53, conducted an account deposit on behalf of Customer 20 totalling \$320,000 at Star Sydney. The deposit comprised \$310,000 in cash and \$10,000 in chips. The cash comprised \$290,000 in \$100 notes and \$20,000 in \$50 notes. The cash was presented in a black bag. Star Sydney considered that the large cash amount and mixed denominations was unusual: SMR dated 14 March 2019;
- f. on or about 1 April 2019, Customer 20's junket representative, Person 53, deposited \$200,000 in cash to Customer 20's FMA at Star Sydney. The deposit comprised \$150,000 in \$100 notes and \$50,000 in \$50 notes and was bundled with elastic bands in \$10,000 bundles;
- g. on 2 April 2019, Customer 20's junket representative, Person 53, deposited \$160,000 in cash to Customer 20's account at Star Sydney. \$110,000 of the deposited cash comprised \$100 notes bundled in \$10,000 with elastic bands. Person 53 had been given the balance of \$50,000 cash by another Star Sydney customer: SMR dated 3 April 2019;
- h. on or about 3 April 2019, Customer 20's junket representative, Person 53, deposited \$100,000 in cash to Customer 20's FMA at Star Sydney. The deposit comprised \$100 notes which were issued by Star Sydney. Star Sydney recorded that the

junket had cash-outs supporting this deposit but that the junket was completing a lot of deposits and that not a lot of play had been recorded;

- i. on or about 23 April 2019, Customer 20's junket representative, Person 53, withdrew \$40,000 in cash from Customer 20's FMA at Star Sydney and at the same time cashed \$100,000 worth of chips on behalf of Customer 20;
- j. on or about 24 April 2019, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's FMA at Star Sydney;
- k. on or about 25 April 2019, Customer 20's junket representative, Person 53, withdrew \$100,000 in cash from Customer 20's FMA at Star Sydney;
- l. on or about 28 April 2019, Customer 20's junket representative, Person 53, deposited \$260,000 in cash to Customer 20's FMA at Star Sydney. The deposit comprised \$190,000 in \$100 notes and \$70,000 in \$50 notes. The \$100 notes were strapped with Star straps dated 20 April 2019 and the \$50 notes were bundled with elastic bands in \$10,000 bundles. The cash was presented in a green shopping bag;
- m. on 25 May 2019, Customer 20's junket representative, Person 53, withdrew \$896,500 from Customer 20's FMA. Star Sydney identified that the current Customer 20 junket had recorded a turnover of \$4,100,000 to date with a win of \$1,141,500 which supported the transaction. Star Sydney considered the excessive amount requested in cash to be unusual: SMR dated 27 May 2019;
- n. on 25 June 2019, Customer 20's junket representative, Person 53, deposited \$160,000 in cash into Customer 20's junket account at Star Sydney. The cash primarily comprised of \$50 notes. The cash was presented in a white plastic bag and was bundled in \$10,000 bundles with elastic bands. Star Sydney considered the transaction suspicious due to the large amount of \$50 notes involved: SMR dated 26 June 2019;
- o. on 23 August 2019, Customer 20 presented \$100,000 in cash at Star Sydney which he requested be deposited into his account. The cash comprised \$50 notes and was bundled in elastic bands. The cash was presented in a plastic bag. Star Sydney reviewed the transaction and Customer 20 was identified as receiving the cash from an unknown person earlier that day. Star Sydney considered the cash comprising smaller denominations and having Customer 20 been supplied with the cash by an unknown individual, as being suspicious: SMR dated 26 August 2019;

- p. on or about 5 September 2019, Customer 20's junket representative, Person 53, deposited \$110,000 in cash to Customer 20's SKA at Star Sydney. The deposit comprised of \$100 notes with \$50,000 bundled with elastic bands in \$10,000 bundles and \$60,000 bundled in Star straps in \$5,000 bundles;
- q. on 25 September 2019, Customer 20's junket representative, Person 53, presented \$100,000 in cash at Star Sydney, to deposit into Customer 20's account for the purposes of a buy-in into a program, which was subsequently settled. The cash comprised \$47,800 of \$100 notes and \$52,200 of \$50 notes. The cash was bundled in mixed denominations and some separated in the same denomination. The cash was presented in a shopping bag. Star Sydney considered the presentation of the cash in a mixture of small and large denominations to be suspicious: SMR dated 26 September 2019;
- r. on 5 October 2019, Customer 20's junket representative, Person 53, presented \$100,000 cash at Star Sydney to deposit into Customer 20's account. The cash was comprised of \$50 notes and was bundled in \$10,000 bundles with elastic bands. Person 53 received the cash from another Star Sydney customer and who was present at the time of the deposit. The other Star Sydney customer had never been a junket player on Customer 20's junkets. Star Sydney considered it quite unusual he would be supplying funds for a buy-in: SMR dated 9 October 2019; and
- s. on or about 7 December 2019, Customer 20's junket representative, Person 53, withdrew \$102,000 in cash at Star Sydney from Customer 20's FMA.

Large and suspicious cash transactions in 2020

In 2020, Customer 20 and persons associated with his junket transacted with at least \$300,030 in cash, including cash that appeared suspicious:

- a. on 8 January 2020, Customer 20's junket representative, Person 53, withdrew \$192,030 cash from Customer 20's account at Star Sydney. Star Sydney identified that the cash was for another Star Sydney customer, Person 13, who was a player on the junket. Person 13 had recorded a turnover of \$463,000 with a win of \$58,000. After receiving the cash, Person 13 left the premises in a vehicle. Star Sydney considered that the transaction was unusual given the small turnover and win that Person 13 had recorded for the junket that they would be receiving this large amount of cash: SMR dated 9 January 2020; and

b. on or about 25 January 2020, Customer 20's junket representative, Person 53, withdrew \$108,000 in cash at Star Sydney from Customer 20's FMA.

m. Customer 20 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 14 August 2017 and 2 January 2020, Star Qld gave the AUSTRAC CEO 14 TTRs totalling \$521,950, including:

- a. one TTR detailing an account deposit involving Customer 20 totalling \$43,900;
- b. 10 TTRs detailing account withdrawals involving Customer 20 totalling \$301,950; and
- c. three TTRs detailing chip and cash exchanges involving Customer 20 totalling \$176,100.

n. persons associated with Customer 20's junket engaged in transactions indicative of ML/TF typologies and vulnerabilities, including cashing-in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

For example, on or about 30 January 2019 an associate, Person 32, of Customer 20's junket representative, Person 53, presented \$240,000 worth of chips at Star Sydney and requested it be exchanged for cash. Star Sydney was advised by Person 32 that he was cashing the chips for Person 53. Star Sydney identified that Customer 20's junket was issued cash chips earlier in the day, but that the cash chips could not be used for junket play.

o. Customer 20 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 20 had access to private gaming rooms at Star Qld including Sovereign, Sovereign (Cage), Springs Salons, Springs Salon (Cage), Lakes Salon, Lakes Salons (Cage), Rivers Salons, Habours Salons, Rivers & Harbours Salons (Cage), and Oasis (Cage).

p. Customer 20 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 20 had access to private gaming rooms at Star Qld including Sovereign, Sovereign Cage, Springs Salons, Springs Salons (Cage) Lakes Salons, Lakes Salon (Cage), Rivers Salons, Harbours Salons, Oasis (Cage), The Suite – Tables, Cage, Pits 8 and 9, Salons 21, 96 and 98, Sovereign Room TG, and The Club (Cage).

- q. between 2017 and 2019, Star Sydney provided information to law enforcement agencies in respect of Customer 20 on at least seven occasions;

Particulars

On 3 May 2017, 8 May 2017, 24 November 2017, 3 April 2019, 26 August 2019, 26 September 2019, 8 October 2019, Star Sydney provided information regarding Customer 20 to a law enforcement agency.

- r. in 2017, Customer 20 was the subject of law enforcement enquiries on at least three occasions at Star; and

Particulars

On 27 November 2017, 30 November 2017, 2 January 2018, Star Sydney received enquiries from a law enforcement agency with respect to Customer 20.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- s. Star Sydney and Star Qld did not have adequate reason to believe that Customer 20's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 20 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

During the relevant period, Star Sydney recorded Customer 20's occupation as being 'Trades Workers and Technicians', 'Trader', and 'Junket Operator'.

At no time did Star Sydney or Star Qld take appropriate steps to verify Customer 20's source of wealth and source of funds in circumstances where:

- a. Customer 20 was a junket operator, whose junket programs at Star Sydney and Star Qld were funded by a third party, Person 66;
- b. designated services provided to Customer 20 lacked transparency as the services were provided through the junket channel;

- c. outstanding amounts drawn down on CCFs held by Customer 11 and utilised by Customer 20's junket were repaid through high risk channels such as EEIS;
- d. junkets operated by Customer 20 turned over at least \$1.9 billion at Star Sydney and \$89 million at Star Qld between 2016 and 2020; and
- e. Customer 20 and his associates transacted with millions of dollars in cash at Star Sydney and Star Qld, including cash that appeared suspicious: see *Customer 20's risk profile*.

On 5 January 2022, Star Sydney identified that it required Customer 20's occupation information to be updated or confirmed during its next interaction with the person.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 20

1186. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 20 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 20.
- a. On and from 30 November 2016, Customer 20 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 20's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 7 February 2022 that Customer 20 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

On 31 August 2016, Customer 20 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 14 October 2016, Customer 20 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 20 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 20 was rated very high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 20's transactions

1187. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 20's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 20, Star Sydney's and Star Qld's transaction monitoring programs

did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders, operators or players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 20's junket as turnover was recorded against Customer 20 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 20 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. the Customer 9 channels;

Particulars

See paragraphs 441 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 20 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 20 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 20's KYC information

1188. Star Sydney and Star Qld did not review, update and verify Customer 20's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 20's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 20's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 20's source of wealth and source of funds were not legitimate: see *Customer 20's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 20's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 20.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 20's high ML/TF risks

1189. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 20 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 20; and
- c. reviewing and updating Customer 20's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 20 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 20*.

ECDD triggers in respect of Customer 20

1190. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 20 following any ECDD triggers in respect of Customer 20.

Particulars

Section 36(1)(a) and (b) of the Act.

1191. Customer 20:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 1 December 2016 and 9 January 2020, Star Sydney gave the AUSTRAC CEO 20 SMRs with respect to Customer 20.

- b. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 7 February 2022, Customer 20 was rated high risk, being high for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 20* above.

1192. Each matter pleaded in paragraph 1191 was an ECDD trigger.

Particulars

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

See paragraphs 792, 798, 799 and 801 above.

1193. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 20 following an ECDD trigger because:

- a. on each occasion prior to late 2021 that Star Sydney conducted ECDD in respect of Customer 20 in response to an ECDD trigger, it failed give appropriate consideration to the ML/TF risks posed by Customer 20 and the provision of designated services to Customer 20 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

Star Sydney conducted ECDD in respect of Customer 20 on 14 March 2019 and 6 September 2019 as well in August 2021, December 2021 and January 2022.

On 6 September 2019, the ECDD screening in respect of Customer 20 reviewed a risk intelligence screening and conducted open source searched, but no adverse material on Customer 20 was identified.

On 10 August 2021, further ECDD screening in respect of Customer 20 was conducted as part of the Project Congo review. The ECDD analyst:

- a. conducted open source and risk intelligence searches in respect of Customer 20 but concluded that no adverse matches were identified;
- b. reviewed the SMRs submitted in respect of Customer 20;
- c. noted that Star Sydney held a copy of a historical police check from a foreign jurisdiction in respect of Customer 20 from 2016, which confirmed that Customer 20 did not hold a criminal record at that time; and
- d. did not identify connections between Customer 20 and Person 66.

On 22 December 2021, following receipt of \$2,759,723 into Star's bank accounts from Customer 20, further ECDD screening in respect of Customer 20 was conducted. The ECDD analyst reviewed the matters identified in August 2021, and did not identify any new material.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 20's higher ML/TF risks, including that:

- a. Customer 20's junkets at Star Sydney were funded by a third party, Person 66;
- b. outstanding amounts drawn down on CCFs held by Customer 11 and utilised by Customer 20's junket were repaid through high risk channels such as EEIS; and
- c. junkets operated by Customer 20 turned over at least \$1.9 billion at Star Sydney between 2016 and 2020;
- d. Customer 20 and his associates transacted with millions of dollars in cash at Star Sydney, including cash that appeared suspicious: see *Customer 20's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 20's source of funds or source of wealth, particularly in circumstances where junkets operated by Customer 20 were funded by a third party, Person 66.

It was not until January 2022 that Star Sydney obtained a due diligence report prepared by an external provider, which identified that:

- a. Customer 20 and his brother allegedly colluded with corrupt government officials to illegally obtain land for property development;
- b. Customer 20's profits from his property development business were used to establish underground casino operations protected by corrupt government officials;
- c. Customer 20 operated illegal underground banks to move funds derived from their illegitimate businesses;
- d. Customer 20 assisted corrupt government officials to launder funds, including through casinos;
- e. Customer 20 invested in casinos in partnership with Customer 1;
- f. Customer 20's companies were used to launder funds;
- g. Customer 20's source of wealth is derived from his gambling-related business activities, which also include off course betting and online gaming platforms; and
- h. Customer 20 is a current person of interest in a foreign country.

By reason of the matters set out above, there were real risks that Customer 20's source of wealth and source of funds were not legitimate: see *Customer 20's risk profile*.

On 1 March 2022, Star Sydney issued a WOL in respect of Customer 20.

- b. Customer 20 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- c. on any occasion prior to late 2021 that Customer 20 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 20 and the provision of designated services to Customer 20, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 10 August 2021, the ECDD conducted in respect of Customer 20 for the Project Congo was escalated by the Due Diligence Program Manager to the AML/CTF Compliance Officer. The Due Diligence Program Manager concluded that:

- a. Customer 20's link to Person 66 was undetermined;
- b. no adverse material had been noted during the review; and
- c. that Star could safely maintain a customer relationship with Customer 20 subject to appropriate risk mitigation procedures.

On 17 August 2021, Customer 20 was the subject of discussion at a JRAM out-of-cycle meeting. Customer 20 was referred to the Group General Counsel and the AML/CTF Compliance Officer.

On 18 August 2021, AML/CTF Compliance Officer reviewed the recommendation by the Due Diligence Program Manager and determined to maintain the customer relationship with Customer 20.

On 5 January 2022, the ECDD conducted in respect of Customer 20 following receipt of the \$2,759,723 into Star's bank accounts from Customer 20 was escalated by the Group Manager, Due Diligence and Intelligence to the AML/CTF Compliance Officer, with the following recommendations:

- a. Star could safely maintain a relationship with Customer 20 subject to risk mitigation strategies agreed with the Chief Legal and Risk Officer and the Group General Counsel in December 2021, which had not yet been applied due to border restrictions, including:
 - i. patrons to attest to source of funds in respect of cash transactions;
 - ii. Star to obtain external providers to prepare due diligence reports on persons of interest and their associates;
 - iii. patrons to provide an annual declaration of non-criminal or commercial status;
 - iv. patrons to attend an interview with AML/CTF Compliance Officer or delegated representative;

- v. regular ECDD at the discretion of the AML/CTF Compliance Officer; and
 - vi. an independent report to be delivered to the AML/CTF Compliance Officer and Chief Legal and Risk Officer for deliberation;
- b. Star should obtain updated information about Customer 20's occupation, which was recorded as 'trades workers and technicians' and 'trader', during its next interaction with Customer 20; and
 - c. Star could obtain a third party intelligence report with respect to Customer 20 to ascertain his source of wealth.

On 18 January 2022, AML/CTF Compliance Officer requested further information be obtained regarding source of wealth and source of funds for Customer 20, and determined that:

- a. the funds received would be held until this information was obtained; and
- b. to maintain the customer relationship with Customer 20.

In determining that a business relationship could be continued, the AML/CTF Compliance Officers did not have regard to:

- a. Customer 20's source of wealth (r 15.10(2)(a) of the Rules), having regard to the high and escalating turnover under Customer 20's junkets; and
- b. Customer 20's source of funds (r15.10(2)(b) of the Rules), having regard to the information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 20's risk profile* above.

On 1 February 2022, Customer 20 was again escalated by the Group Manager, Due Diligence and Intelligence to the AML/CTF Compliance Officer following receipt of an external due diligence report which identified a number of adverse matters in respect of Customer 20, including his involvement in underground casino operations, underground banking, laundering of funds for corrupt government officials, including through casinos, and connections to other patrons posing higher ML/TF risks, including Customer 1.

In his recommendation to the AML/CTF Compliance Officer, the Due Diligence Program Manager stated that:

- a. he had raised Customer 20's risk to very high, to ensure he is subject to annual due diligence screening which he believed to be appropriate; and

- b. consideration should be given to issuing a Group Wide WOL in light of the adverse information contained in the external due diligence report.

On 28 February 2022, the AML/CTF Compliance Officer approved the recommendation of the Due Diligence Program Manager.

On 1 March 2022, Star Sydney issued a WOL in respect of Customer 20.

1194. On 1 March 2022, Star Qld issued a WOL in respect of Customer 20.

Particulars

On 28 February 2022, the AML/CTF Compliance Officer approved the recommendation of the Due Diligence Program Manager to issue a WOL in respect of Customer 20, following receipt of a report which identified adverse matters in respect of Customer 20.

On 1 March 2022, a WOL was formally issued by Star Qld in respect of Customer 20.

Contravention of s36 of the Act in respect of Customer 20

1195. By reason of the matters pleaded from paragraphs 1180 to 1193 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 20 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1196. By reason of the matters pleaded from paragraphs 1180 to 1193 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 20 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1197. By reason of the matters pleaded at paragraphs 1195 and 1196, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 1 March 2022 with respect to Customer 20.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 21

1198. Customer 21 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$7.7 billion for Customer 21.

Particulars

Customer 21 was a customer of Star Sydney from at least 19 May 2000.

On 21 April 2022, Star Sydney issued a WOL in respect of Customer 21.

1199. Star Sydney provided Customer 21 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player and junket funder. Between 2016 and 2018, Star Sydney recorded that junkets funded by Customer 21 had a turnover exceeding \$8.6 billion.

Particulars

On 19 May 2000, Star Sydney opened multiple FMAs and SKAs for Customer 21 under ten different sub-accounts which remain open. On 15 August 2012, Star Sydney opened an FMA and SKA for Customer 21 under his primary account number, which remain open. On 9 October 2017, Star Sydney opened an FMA and SKA under another of Customer 21's sub-accounts, which were closed on 17 February 2020. (item 11, table 3, s6 of the Act).

Between 1 October 2016 and 16 January 2020, Star Sydney approved CCFs for Customer 21 on 14 occasions ranging from \$10,000,000 to \$40,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel and the Customer 9 channels, which it made available to Customer 21 (items 31 and 32, table 1, s6 of the Act).

See Customer 21's risk profile below.

1200. Customer 21 was a customer of Star Qld during the relevant period. Between 2018 and 2020, Star Qld recorded turnover exceeding \$5.4 billion for Customer 21.

Particulars

Customer 21 was a customer of Star Qld from at least 27 December 1996.

On 21 April 2022, Star Qld issued a WOL in respect of Customer 21.

1201. Star Qld provided Customer 21 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player and junket funder. Between 2017 and 2019, Star Qld recorded that junkets funded by Customer 21 had a turnover exceeding \$1.8 billion.

Particulars

On 18 August 2001, Star Qld opened an FMA for Customer 21 under one of his sub-accounts which remains open. On 10 February 2015, Star Qld opened an FMA for Customer 21 under his primary account which remains open. In April 2016, Star Qld opened an SKA for Customer 21 which remains open (item 11, table 3, s6 of the Act).

Between 22 July 2019 and 16 January 2020, Star Qld approved CCFs for Customer 21 on four occasions, each time for \$30,000,000 (item 6, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the Bank 1 (Macau) cash channel, which it made available to Customer 21 (items 31 and 32, table 1, s6 of the Act).

See *Customer 21's risk profile* below.

1202. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 21.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 21's risk profile

1203. On and from 30 November 2016, Customer 21, and the provision of designated services to Customer 21 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 21's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 21 had the following risk history:
- i. Customer 21 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;

Particulars

Between 19 December 2015 and 12 October 2016, Customer 21 funded seven junkets at Star Sydney totalling \$90,100,000.

Customer 21 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

Customer 21 attended two of the junkets he funded as a player.

Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 21 between 2015 and 2016 was \$3,666,107,120 with losses of \$62,868,675.

The junkets funded by Customer 21 had one junket representative at Star Sydney.

The junkets funded by Customer 21 facilitated the provision of high value designated services to a junket operator and at least 13 junket players.

- ii. Customer 21 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 24 April 2016 and 26 May 2016 Customer 21 was a player on two junkets at Star Sydney operated by one junket operator.

Both junkets were funded by Customer 21.

Between 24 April 2016 and 26 May 2016 Star Sydney recorded high turnover totalling \$1,281,579,000 with losses of \$42,300,000 for Customer 21's gaming activity on junket programs.

- iii. from 1 October 2016, Star Sydney provided Customer 21 with significant amounts of credit upon request, up to limits of \$15,000,000;

Particulars

On 1 October 2016, Star Sydney senior management including the Chief Executive Officer approved a CCF of \$10,000,000 for Customer 21.

On 7 October 2016, Star Sydney senior management including the Chief Financial Officer approved a CCF of \$15,000,000 for Customer 21.

- iv. Customer 21 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2008 and 2015, Star Sydney recorded high and escalating turnover totalling \$84,220,435 for Customer 21;

Particulars

See paragraph 752 above.

In 2008, Customer 21's individual rated turnover was \$6,337,400.

In 2010, Customer 21's individual rated turnover was \$5,800,000.

In 2011, Customer 21's individual rated turnover was \$8,250.

In 2012, Customer 21's individual rated turnover was \$72,072,784.

In 2013, Customer 21's individual rated turnover was \$166.

In 2015, Customer 21's individual rated turnover was \$1,835.

- v. Customer 21 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high turnover totalling \$135,470,116 for Customer 21;

Particulars

See paragraph 752 above.

In 2015, Customer 21's individual rated turnover at Star Gold Coast was \$135,470,116.

- vi. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 21 by remitting large amounts of money into and out of the casino environment via his account;

Particulars

Other remittances into the casino environment

See paragraph 327 above.

Between 2012 and 2016, Star Sydney gave the AUSTRAC CEO twelve incoming IFTIs totalling \$24,159,064 where Customer 21 was named as the beneficiary including:

- a. four incoming IFTIs totalling \$9,287,820 where overseas company accounts were named as the ordering customer. The funds were transferred for the purpose of redeeming outstanding CCFs; and
- b. eight incoming IFTIs totalling \$14,871,244 where Customer 21 was named as the ordering customer, and the funds were deposited into his Star Sydney FMA.

In addition, between 8 July 2015 and 14 November 2016, Star Sydney received at least 11 telegraphic transfers totalling at least \$23,160,140, each of which was made available to Customer 21's account.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances out of the casino environment

See paragraph 327 above.

In 2012, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$7,780,300 where Customer 21 was named as the ordering customer and beneficiary.

The above transaction was conducted through the Star Patron account channel.

- vii. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 21 by remitting large amounts of money out of the casino environment via Customer 21's account;

Particulars

See paragraph 327 above.

For example, in 2013, Star Qld gave the AUSTRAC CEO an outgoing IFTI totalling \$3,570,110 where Customer 21 was named as the ordering customer and beneficiary.

This transaction was conducted through the Star Patron account channel.

- viii. Customer 21 transacted using large amounts of cash at Star Sydney; and

Particulars

Between 24 December 2010 and 12 July 2016, Star Sydney gave the AUSTRAC CEO 17 TTRs detailing chip cash outs and account withdrawals made by Customer 21 totalling \$1,208,450.

- ix. Customer 21 transacted using large amounts of cash at Star Qld;

Particulars

On 9 June 2015, Star Qld gave the AUSTRAC CEO a TTR detailing a chip cash out made by Customer 21 totalling \$50,000.

Customer 21's risk profile from 30 November 2016

- b. Customer 21 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
- i. between 30 January 2017 and 27 August 2018 Customer 21 funded 23 junkets operated by Customer 6 and another junket operator totalling \$337,351,278 at Star Sydney;

Particulars

In 2017, Customer 21 was one of the top ten junket funders by number of programs, and one of the top ten junket funders by the amount of funding, at Star Sydney.

At Star Sydney:

- a. between 30 January 2017 and 2 January 2018, Customer 21 provided \$298,956,863 in funding to 21 junkets operated by the same junket operator; and
- b. between 15 August and 27 August 2018, Customer 21 provided \$38,394,415 in funding two of Customer 6's junkets.

Customer 21 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

Customer 21 attended five of the junket programs he funded as a player, including two junkets operated by Customer 6.

- ii. Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 21 between 2016 and 2018 was \$8,694,840,708 with losses of \$139,598,468;

Particulars

In 2016, junket programs funded by Customer 21 had a turnover of \$3,666,107,120 with losses of \$62,868,675.

In 2017, junket programs funded by Customer 21 had a turnover of \$2,149,703,351 with wins of \$1,619,441.

In 2018, junket programs funded by Customer 21 had a turnover of \$2,879,030,237 with losses of \$78,349,234.

- iii. between 26 January 2017 and 16 January 2020, Star Sydney provided Customer 21 with significant amounts of credit upon request, up to limits of \$40,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 26 January 2017 and 16 January 2020, Star Sydney provided Customer 21 with CCFs between \$30,000,000 and \$40,000,000 on 12 occasions, totalling at least \$400,000,000.

On 26 January 2017, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a CCF limit of \$30,000,000 for Customer 21.

On 2 March 2017, Star Sydney senior management including the Chief Financial Officer approved a CCF of \$30,000,000 for Customer 21.

On 8 May 2017, Star Sydney senior management including the Chief Executive Officer approved a CCF of \$30,000,000 for Customer 21.

On 31 July 2017, Star Sydney senior management including the Chief Executive Officer approved a CCF of \$30,000,000 for Customer 21.

On 29 September 2017, Star Sydney senior management including the Chief Executive Officer and Group General Counsel and Company Secretary approved a CCF of \$30,000,000 for Customer 21.

- iv. the junkets funded by Customer 21 had five junket representatives; and
- v. the junkets funded by Customer 21 facilitated the provision of high value designated services to junket operators, junket representatives and junket players;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- c. Customer 21 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 8 February 2017 and 2 August 2019 Customer 21 funded eight junkets at Star Qld operated by Customer 6 and another junket operator, totalling \$37,000,000;

Particulars

Between 8 February and 22 February 2017, Customer 21 provided \$7,000,000 in funding to seven junkets operated by the same junket operator.

Between 24 July and 2 August 2019, Customer 21 and Customer 5 together provided \$30,000,000 in funding for one of Customer 6's junkets.

Customer 21 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

Customer 21 attended a program he funded as a player.

- ii. Star Qld recorded that the total cumulative turnover of junkets funded by Customer 21 between 2017 and 2019 was \$1,841,083,595 with wins of \$24,449,480;

Particulars

In 2017, junket programs funded by Customer 21 had a turnover of \$50,762,595 with wins of \$2,084,480.

In 2019, junket programs funded by Customer 21 had a turnover of \$1,790,321,000 with wins of \$22,365,000.

- iii. between 22 July 2019 and 16 January 2020 Star Qld provided Customer 21 with significant amounts of credit upon request, up to limits of \$30,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 22 July 2019 and 16 January 2020, Star Qld provided Customer 21 with CCFs in the amount of \$30,000,000 on four occasions, totalling \$120,000,000.

- iv. the junkets funded by Customer 21 had two junket representatives; and
- v. the junkets funded by Customer 21 facilitated the provision of high value designated services to two junket operators, two junket representatives and at least seven junket players;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- d. Customer 21 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 6 October 2017 and 27 August 2018, Customer 21 was a player on seven junkets at Star Sydney, operated by two junket operators including Customer 6;
 - ii. each of the junkets was funded by Customer 21; and
 - iii. between 6 October 2017 and 27 August 2018, Star Sydney recorded high turnover totalling \$4,570,960,041 with losses of \$122,021,703 for Customer 21's gaming activity on junket programs;
- e. Customer 21 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;

- i. between 21 August 2018 and 1 August 2019, Customer 21 was a player on two junkets at Star Qld operated by Customer 6; and
- ii. between 21 August 2018 and 1 August 2019, Star Qld recorded high and escalating turnover totalling \$2,080,715,000 with wins of \$7,455,000 for Customer 21's gaming activity on junket programs;

Particulars

In 2017 and 2018, Customer 21 was one of the top ten junket players at Treasury Brisbane by amount of turnover.

In 2018, Customer 21 was one of the top ten junket players at Star Gold Coast by amount of turnover.

In 2018, Customer 21's turnover on junket programs was \$330,174,000 with losses of \$14,910,000.

In 2019, Customer 21's turnover on junket programs escalated to \$1,750,541,000 with wins of \$22,365,000.

- f. designated services provided to Customer 21 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 21 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high and escalating turnover totalling \$3,188,126,984 for Customer 21;
 - i. between 2016 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$1,312,561,503 for Customer 21; and

Particulars

See paragraph 752 above.

In 2016, Customer 21's individual rated turnover was \$2,813.

In 2017, Customer 21's individual rated turnover was \$412,811,506.

In 2018, Customer 21's individual rated turnover was \$380,310,482.40.

In 2020, prior to the COVID-19 pandemic closures, Customer 21's individual rated turnover was \$519,436,702.

- ii. between 23 January 2020 and 7 February 2020, Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$1,875,565,480 for Customer 21;

Particulars

See paragraph 623 above.

- h. Customer 21 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2018 and 2020, Star Qld recorded high turnover totalling \$3,348,750,847 for Customer 21;
- i. between 2018 and 2020, Star Qld recorded high individual rated turnover totalling \$1,721,306,847 for Customer 21;

Particulars

See paragraph 752 above.

In 2018, Customer 21's individual rated turnover was \$241,711,456.

In 2019, Customer 21's individual rated turnover was \$886,898,897.

In 2020, prior to the COVID-19 pandemic closures, Customer 21's individual rated turnover was \$592,696,492.

- ii. between 26 January 2020 and 17 February 2020, Star Qld recorded high turnover on individual rebate programs totalling \$1,627,444,000 for Customer 21;

Particulars

See paragraph 623 above.

Between 26 January 2020 and 17 February 2020, Customer 21's turnover on individual rebate programs was \$1,627,444,000.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 21 by remitting large amounts of money into and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 30 March 2017 and 15 January 2019, third party companies acting on behalf of Customer 21 deposited a total of AU\$5,332,412 and HKD11,037,512 into the EEIS Patron accounts, which Star Sydney made available to Customer 21 through the EEIS remittance channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 30 November 2018 and 4 June 2019, deposits through the Customer 9 channels totalling \$10,490,339 were made available by Star Sydney to Customer 21's account.

Other remittances into the casino environment

See paragraph 327 above.

In 2017, Star Sydney gave the AUSTRAC CEO five incoming IFTIs totalling \$11,933,237 where Customer 21 was named as the ordering

customer and beneficiary. The funds were deposited into Customer 21's Star Sydney account.

In addition, between 30 March 2017 and 28 March 2019, Star Sydney received at least four telegraphic transfers totalling \$11,985,008, each of which was made available to Customer 21's SKA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 13 February 2020 and 17 February 2020, Star Sydney sent two transfers totalling \$19,515,529 from Customer 21's FMA to Star Qld.

On 13 February 2020, Star Sydney received two transfers totalling \$10,869,999 from Star Qld, both of which were made available to Customer 21's FMA.

- j. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 21 by remitting large amounts of money into and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Bank 1 (Macau) cash channel

See paragraphs 372 and 382 to 384 above.

On 3 March 2017, unknown persons deposited \$217,223 in cash at Bank 1 which Star Qld made available to Customer 21 through the Bank 1 (Macau) cash channel.

Other remittances into the casino environment

See paragraph 327 above.

In 2017, Star Qld gave the AUSTRAC CEO an incoming IFTI totalling \$217,223 where Customer 21 was named as the customer. The funds were used to repay a CCF.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 9 August 2019, Star Qld facilitated a telegraphic transfer of \$17,818,181 from Customer 21's FMA at Star Gold Coast to an overseas bank account. The funds were originally withdrawn from Customer 6's FMA at Star Gold Coast. The transfer was approved by the Chief Financial Officer.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 7 February 2020 and 13 February 2020, Star Qld facilitated three transfers totalling \$30,000,000 from Customer 21's FMA at Star Gold Coast to Star Sydney.

On 13 February 2020 and 17 February 2020, Star Qld received two transfers totalling \$19,515,259 from Star Sydney, both of which were made available to Customer 21's FMA at Star Gold Coast.

- k. Star Sydney and Star Qld made large amounts of money available to Customer 21 through EEIS loans (items 31 and 32, table 1, s6 of the Act) ;

Particulars

See paragraph 485 and 491.

Customer 21's utilisation of the EEIS loan

On 23 January 2020, Customer 21 drew down \$30,000,000 from his EEIS loan , which was made available to Customer 21's account at Star Sydney.

On 26 January 2020, Customer 21 drew down \$30,000,000 from his EEIS loan, which was made available by Star Qld to Customer 21's account at Star Gold Coast.

On each occasion, the drawdown was in a foreign currency which was exchanged to Australian dollars.

Customer 21's repayment of the EEIS loan

In respect of the drawdown of \$30,000,000 on 23 January 2020, Customer 21 repaid \$30,000,000 on 26 January 2020.

In respect of the drawdown of \$30,000,000 on 26 January 2020, Customer 21 repaid \$2,224,607 on 21 February 2020.

- l. Customer 21 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

On 23 January 2020, Customer 21 exchanged \$183,453 in chips for cash.

Between 24 January 2020 and 11 February 2020, Star gave the AUSTRAC CEO five TTRs detailing chip cash outs and account withdrawals made by Customer 21 totalling \$431,975.

- m. Customer 21 requested that Star Qld prepare letters purportedly confirming his winnings;

Particulars

See paragraphs 337 and 338 above.

On 2 August 2019, Star Qld issued two letters purportedly confirming Customer 21's winnings under the same account and on the same program. One of the letters purported to confirm winnings of \$7,818,181, while the other purported to confirm winnings of \$4,261,818 with a recorded commission of \$16,607,050.

- n. in 2019 and 2020, Customer 21 was the subject of law enforcement enquiries on three occasions at Star;

Particulars

On 28 July 2019, Star Qld received a request from a law enforcement agency for information concerning Customer 21.

On 24 January 2020, Star Sydney was contacted by a law enforcement agency in relation to their interest in Customer 21.

On 28 January 2020, Star Sydney received a request from a law enforcement agency for information concerning Customer 21.

- o. Customer 21 had access to private gaming rooms at Star Sydney and Star Qld;

Particulars

See paragraph 616 above.

Customer 21 had access to private gaming rooms at Star Sydney including Springs Salons, Lakes Salons, Rivers Salons, Harbours Salons, Sovereign Cage, Oasis Cage, Springs Salon Cage, and Rivers & Harbour Salons Cage.

Customer 21 had access to private gaming rooms at Star Qld, including Pit 8, Salon 66, Salon 88, Salon 89, Salon 90, Salon 99 and Sovereign Cage.

- p. by July 2019, Star Sydney was aware of adverse information which suggested that Customer 21 may be involved in money laundering; and

Particulars

In July 2019, Star Sydney received a report it had commissioned from a third party which set out information suggesting that Customer 21 was involved in money laundering and other illegal activities.

See particulars to paragraph 1213.a. below.

- q. Star Sydney and Star Qld did not have adequate reason to believe that Customer 21's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 21 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above

Star understood Customer 21's occupation was 'accounting analyst' and 'junket operator'.

On 13 March 2020, Star Qld reported that Customer 21 had recorded losses of \$3,785,000 in January 2020 and \$27,930,000 in February 2020, and that it believed Customer 21's occupation was 'in accounting': SMR dated 13 March 2020.

At no time did Star take steps to verify Customer 21's occupation, source of wealth or source of funds, in circumstances where:

- a. Between 2016 and 2020, Customer 21 recorded turnover exceeding \$7.7 billion at Star Sydney and \$5.4 billion at Star Qld;
- b. In 2017, Star Sydney gave the AUSTRAC CEO incoming IFTIs exceeding \$11 million where Customer 21 was named as the customer;
- c. In 2017, Customer 21 was one of the top ten junket funders by number of programs and amount of funding at Star Sydney, and one of the top ten junket players at Treasury Brisbane by amount of turnover;
- d. In 2018, Customer 21 was one of the top ten junket players at Star Gold Coast by amount of turnover;
- e. Customer 21 was associated with customers in respect of whom Star Sydney or Star Qld had formed suspicions such as Customer 6 and Customer 5; and
- f. By July 2019, Star Sydney was aware of information suggesting that Customer 21 was involved in money laundering and possible associations with organised crime.

See *Customer 21's risk profile* above.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 21

1204. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 21 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 21.

- a. On and from 30 November 2016, Customer 21 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 21's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 21 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 19 January 2021, Customer 21 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 21's transactions

1205. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 21's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 21, Star Sydney's and Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 21 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel and the Customer 9 channels;

Particulars

See paragraphs 441 and 493 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 21 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Bank 1 (Macau) cash channel; and

Particulars

See paragraph 383 above.

- e. Star Sydney and Star Qld provided designated services to Customer 21 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 21's KYC information

- 1206. Star Sydney and Star Qld did not review, update and verify Customer 21's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 21's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 21's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 21's source of wealth and source of funds were not legitimate: see *Customer 21's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 21's KYC information on and from 30 November 2016, Star Sydney and Star Qld failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 21.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 21's high ML/TF risks

1207. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 21 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 21; and
- c. reviewing and updating Customer 21's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 21 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 21*.

1208. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 21 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 21; and
- c. reviewing and updating Customer 21's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 21 as a high risk customer for the purpose of the Act and Rules at a time before Customer 21 was issued with a WOL at Star Sydney.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1209. Had Star Sydney rated Customer 21 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Program to Customer 21 at a time before Customer 21 was issued with a WOL at Star Sydney.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 21

1210. Star Qld was required to apply the ECDD Programs to Customer 21 following any ECDD triggers in respect of Customer 21.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1211. Customer 21 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 13 March 2020, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 21.

1212. The matter pleaded in paragraph 1211 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1213. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 21 following an ECDD trigger because:

- a. on each occasion prior to 21 April 2022 that Star Qld conducted ECDD in respect of Customer 21 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 21 and the provision of designated services to Customer 21 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 810 above.

ECDD profile in respect of Customer 21 including information provided to Star by third party intelligence providers

Sometime after January 2020, the Due Diligence Program Manager prepared a report to the Group General Counsel and Company Secretary, the Compliance Manager and Group Investigations Manager, which included an ECDD profile in respect of Customer 21.

The ECDD profile noted the following:

- a. by October 2017, Star received information from a third party intelligence provider suggesting that Customer 21 was a silent partner of a foreign group, Company 2, which was ultimately controlled by an organised crime figure;
- b. by July 2020, Star received information from a third party intelligence provider suggesting that:
 - i. Customer 21 was a long term VIP customer of the Suncity Group and maintained a credit account with a substantial limit;
 - ii. members of Customer 21's family in a foreign country were engaged in money laundering and underground banking activities; and
 - iii. Customer 21 was suspected to be facilitating large scale capital flight on behalf of foreign corrupt officials, companies and criminal syndicates; and
- c. by January 2020, Star received information from a third party intelligence provider suggesting that:
 - i. Customer 21's principal sources of wealth were orchestrating illegal gambling/betting activities, illegal

money lending including casino chip-stacking and loan sharking and operating an underground bank in a foreign country;

- ii. Customer 21 previously operated an illegal bookmaking business. The owner of the business – Customer 21's former business partner – was arrested, and following this Customer 21 relocated his businesses from one foreign country to two others to avoid being arrested;
- iii. Customer 21 rented and used the Suncity Group server to operate his illegal online gambling and bookmaking activities; and
- iv. Customer 21 used Customer 6's junket license to launder money through various casinos.

On 17 May 2021, a due diligence report was also provided to Star's Compliance Officer, summarising the above information.

Other ECDD in respect of Customer 21

On 24 February 2021, Star Sydney conducted ECDD in respect of Customer 21.

The ECDD screening in respect of Customer 21 identified that:

- a. Customer 21 was named as the plaintiff/creditor in two foreign legal cases both filed in 2001 against the same defendant/debtor for recovery of funds.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 21's higher ML/TF risks: see *Customer 21's risk profile*.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 21's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 21's source of wealth and source of funds were not legitimate: see *Customer 21's risk profile* above.

Rules 15.10(2) and (5) of the Rules.

On 21 April 2022 Star Qld issued a WOL in respect of Customer 21.

- b. Customer 21 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 21 April 2022 that Customer 21 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer

21 and the provision of designated services to Customer 21 by Star Qld, and whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

See particulars to paragraph 1213.a.

On 23 July 2019, the Star Sydney Managing Director prepared an information paper to the Star Group Board in relation to an upcoming trip to Star Gold Coast for Customer 21, Customer 5 and another patron, Person 58, considered to be one of the top five players globally. In the paper, the Star Sydney Managing Director noted that Customer 21 was heavily influential in a foreign country and the wider VIP gaming industry and could 'connect the Star to high end patrons globally'. The paper noted that Star would approve a CCF of \$30 million for Customer 21.

In January 2020, a report prepared for the PAMM identified Customer 21 as the top international player by loss in January 2020, with losses of \$7,921,393.

In February 2020, a report prepared for the PAMM identified Customer 21 as the top international player by win in February 2020, with wins of \$34,767,686.

On 1 February 2022, following an ECDD screening, the Due Diligence Program Manager determined to escalate Customer 21 to the AML/CTF Compliance Officer. The Due Diligence Program Manager's report:

- a. noted Customer 21's play on junket programs, an SMR submitted in March 2020, law enforcement interest in Customer 21 and the information provided by external providers (see particulars to paragraph 1213.a above);
- b. recommended that Customer 21's risk rating be raised from high to very high; and
- c. noted that information provided to Star by a third party intelligence provider in respect of Customer 21 (see particulars to paragraph 1213.a) was 'uncorroborated' and that there had been 'no update to the findings'. On 14 February 2022, Star's AML/CTF compliance officer approved maintaining the customer relationship, noting that Star held information in relation to Customer 21's source of wealth.

On 19 April 2022, the Due Diligence Program Manager again determined to escalate Customer 21 to the AML/CTF Compliance Officer, noting that international borders would be re-opening, and recommending that consideration be given to issuing a WOL to Customer 21.

On 21 April 2022, Star Sydney and Star Qld issued a WOL in respect of Customer 21.

Contravention of s36 of the Act in respect of Customer 21

1214. By reason of the matters pleaded from paragraphs 1198 to 1213 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 21 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1215. By reason of the matters pleaded at paragraph 1214, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 21 April 2022 with respect to Customer 21.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1216. By reason of the matters pleaded from paragraphs 1198 to 1213 above, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 21 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1217. By reason of the matters pleaded at paragraph 1216, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 21 April 2022 with respect to Customer 21.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 22

1218. Customer 22 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$340 million for Customer 22.

Particulars

Customer 22 was a customer of Star Sydney from at least 9 February 2016.

On 3 August 2020, Star Sydney issued a WOL in respect of Customer 22.

1219. Star Sydney provided Customer 22 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player, junket operator and junket funder. Between 2017 and 2019, Star Sydney recorded that junkets operated or funded by Customer 22 had a turnover exceeding \$1.1 billion.

Particulars

On 9 February 2016, Star Sydney opened an FMA and SKA for Customer 22 which remain open (item 11, table 3, s6 of the Act).

Between 29 September 2017 and 3 April 2018, Star Sydney opened further FMAs and SKAs for Customer 22 which remain open (item 11, table 3, s6 of the Act).

Between 19 September 2017 and 23 May 2019, Star Sydney approved CCFs for Customer 22 on 15 occasions ranging from \$2,000,000 to \$27,500,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, the Customer 9 channels and the Hotel Card channels, which it made available to Customer 22 (items 31 and 32, table 1, s6 of the Act).

See Customer 22's risk profile below.

1220. Customer 22 was a customer of Star Qld during the relevant period. Between 2018 and 2019, Star Qld recorded turnover exceeding \$49 million for Customer 22.

Particulars

Customer 22 was a customer of Star Qld from at least 27 July 2018.

On 5 August 2020, Star Qld issued a WOL in respect of Customer 22.

1221. Star Qld provided Customer 22 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player and junket funder. Between 2018 and 2019, Star Qld recorded that junkets funded by Customer 22 had a turnover exceeding \$910 million.

Particulars

On 27 July 2018, Star Qld opened an FMA and SKA for Customer 22 which remain open (item 11, table 3, s6 of the Act).

Between 1 December 2018 and 13 June 2019, Star Qld opened further FMAs and SKAs for Customer 22 which remain open (item 11, table 3, s6 of the Act).

Between 23 July 2018 and 23 May 2019, Star Qld approved CCFs for Customer 22 on eight occasions ranging from \$5,000,000 to \$20,000,000 (item 6, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the Customer 9 channels, which it made available to Customer 22 (items 31 and 32, table 1, s6 of the Act).

See *Customer 22's risk profile* below.

1222. At all times from 30 November 2016 in respect of Star Sydney, and 27 July 2018 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 22.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 22's risk profile

1223. On and from 30 November 2016 in respect of Star Sydney and 27 July 2018 in respect of Star Qld, Customer 22, and the provision of designated services to Customer 22 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 22's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 22 had the following risk history:
- i. Customer 22 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In February 2016, Star Sydney recorded high turnover on individual rebate programs totalling \$4,231,266 for Customer 22, with losses of \$85,320; and

Particulars

See paragraph 623 above.

- ii. Customer 22 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 11 February 2016 and 12 February 2016, Star Sydney gave the AUSTRAC CEO three TTRs in respect of Customer 22 totalling \$89,000, which comprised \$74,000 in chip or cash exchanges and \$15,000 in account deposits or withdrawals.

Customer 22's risk profile from 30 November 2016

- b. Customer 22 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
- i. between 6 February 2019 and 4 April 2019, Customer 22 operated four junkets at Star Sydney, one of which was funded by a person other than Customer 22, Person 66;

Particulars

On 5 January 2018, Customer 22 was approved to be a junket operator at Star Sydney.

- ii. between 6 February 2019 and 4 April 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 22 was \$320,447,569 with losses of \$6,986,355;

- iii. between 6 February 2019 and 25 February 2019, Star Sydney recorded a cumulative turnover of \$84,046,300 for Customer 22 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. in 2019, total benefits of \$4,149,859 were payable to Customer 22 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;
- v. between 19 September 2017 and 23 May 2019, Star Sydney provided Customer 22 and his junket programs with significant amounts of credit upon request, up to limits of \$27,500,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 19 September 2017 and 23 May 2019, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved CCFs for Customer 22 on 15 occasions ranging from \$2,000,000 to \$27,500,000.

- vi. Customer 22 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 22 operated junkets in non-exclusive private gaming rooms, including the Sovereign Room and Pit 80.

Customer 22 operated junkets in exclusive private gaming rooms, including Salon 88 and Salon 91.

- vii. Customer 22 had one junket representative at Star Sydney; and
- viii. Customer 22 and his junket representative facilitated the provision of high value designated services to junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 22 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. between 4 November 2017 and 16 July 2019, Customer 22 funded ten junkets at Star Sydney;

Particulars

In 2018, Customer 22 was one of the top ten junket funders by amount of funding provided, and number of programs funded, at Star Sydney.

Customer 22 provided:

- a. \$33,562,057 in funding in 2017;
- b. \$107,357,605 in funding in 2018; and
- c. \$38,981,174 in funding in 2019.

Customer 22 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

Customer 22 was a junket player on each of the junkets that he funded and the junket representative for three of the junkets that he funded.

- ii. Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 22 between 4 November 2017 and 16 July 2019 was \$787,876,105 with losses of \$8,318,875; and

Particulars

In 2017, junket programs funded by Customer 22 had a turnover of \$14,983,358 with losses of \$367,130.

In 2018, junket programs funded by Customer 22 had a turnover of \$704,811,045 with losses of \$4,074,965.

In 2019, junket programs funded by Customer 22 had a turnover of \$68,081,702 with losses of \$3,876,780.

- iii. the junkets funded by Customer 22 facilitated the provision of high value designated services to junket operators, junket representatives and junket players, including himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- d. Customer 22 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 27 July 2018 and 25 May 2019, Customer 22 funded 14 junkets at Star Qld;

Particulars

In 2018 and 2019, Customer 22 was one of the top ten junket funders by amount of funding provided, and number of programs funded, at Star Gold Coast.

Customer 22 provided:

- a. \$24,500,000 in funding in 2018; and
- b. \$29,000,000 in funding in 2019.

Customer 22 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

Customer 22 was a junket player and junket representative on six of the junkets that he funded.

- ii. Star Qld recorded that the total cumulative turnover of junkets funded by Customer 22 between 27 July 2018 and 25 May 2019 was \$910,138,609 with losses of \$21,599,750;

Particulars

In 2018, junket programs funded by Customer 22 had a turnover of \$783,532,350 with losses of \$13,788,300.

In 2019, junket programs funded by Customer 22 had a turnover of \$126,606,259 with losses of \$7,811,450.

- iii. between 23 July 2018 and 23 May 2019, Star Qld provided Customer 22 with significant amounts of credit upon request, up to limits of \$20,000,000; and

Particulars

See paragraphs 516 to 518 and 552 above.

Between 23 July 2018 and 23 May 2019, Star Qld approved CCFs for Customer 22 on eight occasions ranging from \$5,000,000 to \$20,000,000.

- iv. the junkets funded by Customer 22 facilitated the provision of high value designated services to junket operators, junket representatives and junket players, including himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- e. Customer 22 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 4 November 2017 and 14 July 2019, Customer 22 was a player on 15 junkets at Star Sydney operated by three junket operators including himself; and
 - ii. between 4 November 2017 and 14 July 2019, Star Sydney recorded high and escalating turnover totalling \$260,673,810 with losses of \$1,815,180 for Customer 22's gaming activity on junket programs;

Particulars

In 2017, Customer 22's turnover on junket programs was \$2,123,368 with wins of \$228,485.

In 2018, Customer 22's turnover on junket programs escalated to \$172,738,131 with wins of \$1,000,195.

In 2019, Customer 22's turnover on junket programs was \$85,812,311 with losses of \$3,043,860.

- f. Customer 22 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 28 July 2018 and 23 May 2019, Customer 22 was a player on six junkets at Star Qld operated by two junket operators; and

- ii. between 28 July 2018 and 23 May 2019, Star Qld recorded high turnover totalling \$18,721,242 with wins of \$792,105 for Customer 22's gaming activity on junket programs;

Particulars

In 2018, Customer 22's turnover on junket programs was
\$14,808,437 with wins of \$321,005.

In 2019, Customer 22's turnover on junket programs was \$3,912,805
with wins of \$471,100.

- g. designated services provided to Customer 22 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- h. Customer 22 was connected to other customers at Star Sydney and Star Qld, including junket funders who posed higher ML/TF risks and persons who had been convicted and imprisoned for illegal gambling activity;

Particulars

By 30 November 2016, media reports alleged that Customer 22's
junket funder, Person 66:

- a. had been convicted and imprisoned for illegal gambling activity in a foreign country in 2003; and
 - b. funds from an account held by Person 66 at another casino used to purchase a luxury car were the subject of proceeds of crime proceedings in an Australian court in 2016, which related to allegations of suspected money laundering and/or tax avoidance.
- i. on 13 June 2019, Customer 22 was referred to Star Qld by a player referrer, who was also a junket operator;

Particulars

The player referrer arranged for Customer 22 to attend Star Qld on a rebate program without the referrer or his junket representative being present.

The player referrer received a commission on amounts wagered by Customer 22, who Star Qld dealt with directly.

- j. Customer 22 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In December 2019, Star Sydney recorded high turnover on individual rebate programs totalling \$2,018,614 for Customer 22, with losses of \$112,325;

Particulars

See paragraph 623 above.

- k. Customer 22 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2018 and 2019, Star Qld recorded high turnover totalling \$30,412,030 for Customer 22;
- i. between 2018 and 2019, Star Qld recorded high individual rated turnover totalling \$27,051,725 for Customer 22; and

Particulars

See paragraph 752 above.

In 2018, Customer 22's individual rated turnover was \$18,481,175.

In 2019, Customer 22's individual rated turnover was \$8,570,550.

- ii. in 2019, Star Qld recorded high turnover on individual rebate programs totalling \$3,360,305 for Customer 22, with losses of \$598,900;

Particulars

See paragraph 623 above.

- l. between 2019 and 2022, Customer 22 was one of the top five customer debtors to Star Qld;

Particulars

In 2019, Customer 22 owed a debt of \$4,861,695 to Star Qld.

Between 2020 and 2022, Customer 22 owed a debt of \$2,116,196 to Star Qld.

- m. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 22 by remitting large amounts of money into, out of, and within the casino environment via his account, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

Between 9 August 2019 and 11 February 2020, Customer 22 transacted \$1,720,000 through the Hotel Card channel at Star Sydney and, on three occasions, was given a temporary CCF while waiting for the funds to clear.

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 22 May 2018 and 18 October 2019, third party companies acting on behalf of Customer 22 deposited a total of \$3,136,926 into the EEIS Patron accounts, which Star Sydney made available to Customer 22 through the EEIS remittance channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 25 August 2018 and 15 May 2019, deposits through the Customer 9 channels totalling AU\$13,583,628 and HKD28,382,100 were made available by Star Sydney to Customer 22's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 25 October 2017 and 22 March 2018, Star Sydney gave the AUSTRAC CEO five incoming IFTIs totalling \$11,949,014 where Customer 22 was named as the ordering customer and beneficiary.

In addition, between 24 April 2018 and 18 March 2020, Star Sydney received at least 12 transfers totalling \$15,998,154, each of which was made available to Customer 22's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 15 June 2019, Star Sydney sent a telegraphic transfer of \$4,054,750 from Customer 22's account to an Australian bank account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 6 February 2019 and 18 March 2020, Star Sydney sent five transfers totalling \$6,040,253 from Customer 22's account to Star Qld.

- n. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 22 by remitting large amounts of money into and within the casino environment via his accounts including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

On 4 February 2019, deposits through the Customer 9 channels totalling \$1,399,947 were made available by Star Qld to Customer 22's account.

Other remittances into the casino environment

See paragraph 327 above.

For example, on 28 September 2018 and 6 February 2019, Star Qld received two telegraphic transfers totalling \$2,943,358, both of which were made available to Customer 22's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances within the casino environment

See paragraphs 347 to 349 above.

Between 31 December 2018 and 18 March 2020, Star Qld received four transfers totalling \$2,966,002 from other Star casinos, including Star Sydney, each of which was made available to Customer 22's FMA at Star Gold Coast.

- o. Customer 22, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes contained in shopping bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 23 February 2018 and 3 July 2019, Star Sydney gave the AUSTRAC CEO 15 outgoing TTRs in respect of Customer 22 totalling \$557,640, which comprised:

- a. \$310,540 in chip or cash exchanges; and
- b. \$247,100 in account deposits or withdrawals.

Large and suspicious cash transactions in 2018

On 29 June 2018, a Star Sydney customer deposited \$120,000 in cash on behalf of Customer 22. The customer then requested that \$300,000 be sent by telegraphic transfer to another Australian casino for Customer 22's benefit.

Large and suspicious cash transactions in 2019

On 2 January 2019, a junket operator deposited \$95,000 cash into his account at Star Sydney. The junket operator was accompanied by Customer 22, who was a junket player at that time. Star Sydney noted that the deposited funds were not related to the junket and remained in the junket operator's account: SMR dated 7 January 2019.

On 11 February 2019, Customer 22 withdrew \$100,000 in cash from his account while operating a junket. At the time, the junket had only recorded a win of \$50,000.

Large and suspicious cash transactions in 2020

On 14 February 2020, a customer exchanged \$150,000 in cash for chips. The cash was comprised of \$2,300 in \$100 notes and \$147,700 in \$50 notes. The customer claimed that the money had been given to him by a friend who owed him money. However, Star Sydney reviewed surveillance footage which identified that Customer 22 had given the customer the money on the main gaming floor: SMR dated 17 February 2020.

On 22 June 2020, three customers sought to purchase chips from Star Sydney with a combined value of \$120,000. The cash comprised \$50 notes. Star Sydney reviewed the three customers' movements and identified that each customer had received the cash from Customer 22. Customer 22 had stored the money in a green shopping bag. The first customer recorded a turnover of \$101,790 and a win of \$2,110. The second customer only recorded the chip purchase with no recorded gaming. The third customer recorded a turnover of \$239,000 and a win of \$5,000. Customer 22 recorded a turnover of \$289,000 and a win of \$35,000. Star Sydney noted it was unusual for funds to be split amongst different customers to purchase chips on behalf of Customer 22: SMR dated 24 June 2020.

On 28 July 2020, a customer presented \$288,500 to Star Sydney in a grey shopping bag. The cash was comprised of \$50 notes. The customer requested that \$3,500 be returned and the remaining amount of \$285,000 be deposited to his account. When asked where the funds originated from, the customer gave three answers. First, the customer stated the funds had been given to him by a friend that owed him money. Second, the customer stated the funds had come from a different casino. Finally, the customer stated that part of the money came from his personal bank and the rest from another casino. Nonetheless, Star Sydney deposited the funds into the customer's account. Star Sydney reviewed the customer's movements and determined that the customer had actually received the funds from Customer 22. The customer then withdrew the \$285,000 as chips. The customer recorded a turnover of \$666,350 and a loss of \$100,680. Star Sydney was not aware of any connection between the customer and Customer 22: SMR dated 29 July 2020.

- p. Customer 22, and persons associated with him, transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 2 December 2018, a junket operator exchanged \$110,000 in chips for cash. The junket operator was then seen handing the cash to two customers who were playing at Star Sydney, including Customer 22. Star Sydney noted it seemed that the customer split the money in half: SMR dated 3 December 2018.

On 6 March 2019 and 21 May 2019, Star Qld gave the AUSTRAC CEO a TTR in respect of Customer 22 detailing chip or cash exchanges totalling \$93,800.

- q. in May 2019, Star Sydney received a request from Customer 22's lawyer to provide proof of a payment trail to Customer 22;

Particulars

In May 2019, Customer 22's lawyer contacted Star Sydney to advise that Customer 22 was seeking to apply for a visa. His lawyer requested that Star Sydney transfer \$4,054,750 to Customer 22's bank account to demonstrate a payment trail for the period of 1 January 2018 to 23 May 2019. Star Sydney informed Customer 22's lawyer that there were no outstanding payments and that all applicable rebates had been paid to Customer 22.

In June 2019, Star Sydney received three payments from an overseas remittance company, Company 9, with a total value of \$4,299,964. The funds were deposited into Customer 22's SKA at Star Sydney. Later that day, Star Sydney received instructions from Customer 22 to transfer \$4,054,750 from his Star account to his personal bank account.

Star Sydney noted that it was suspicious that Customer 22 requested the same amount as in May 2019. Star Sydney further noted that it seemed that Customer 22 had transferred the funds through Star to make it appear that they had been paid under the rebate program to support his visa application: SMR dated 30 November 2021.

- r. between 2019 and 2020, Star Sydney corresponded with law enforcement agencies in relation to Customer 22;

Particulars

Between 2 January 2019 and 29 July 2020, Star Sydney and a law enforcement agency corresponded in respect of Customer 22.

On 29 July 2020, Star Sydney received correspondence from a law enforcement agency linking Customer 22 to a money laundering investigation.

On 3 August 2020, Star Sydney issued a WOL in respect of Customer 22.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- s. Customer 22 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 22 had access to private gaming rooms at Star Sydney, including Harbours Salons, Rivers Salons, Lakes Salons, Oasis, Chairman's and the Sovereign Room.

- t. Customer 22 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 22 had access to private gaming rooms at Star Qld, including the Sovereign Room, Salon 96, Salon 88, Salon 66 and Pit 8.

- u. Star had brought an action against Customer 22 to recover a \$12 million debt and the debt was discussed at Star Credit Committee meetings; and

Particulars

In May 2022, open source media articles alleged that:

- a. in July 2019, Customer 22 had withdrawn foreign currency valued at \$13.2 million from his CCF;
- b. the cheque provided to secure his CCF was not honoured;
and
- c. Star was seeking to enforce the debt against Customer 22.

Customer 22's debt was regularly discussed at Star Credit Committee meetings.

- v. Star Sydney and Star Qld did not have adequate reason to believe that Customer 22's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 22 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 22's occupation to be as a junket operator and director.

In 2018, the amount of funding provided by Customer 22 to junket programs, together with Customer 22's turnover on junket programs, escalated significantly. In that year alone, junket programs funded by Customer 22 at Star Sydney and Star Qld had a cumulative turnover exceeding \$1.4 billion and the cumulative turnover attributable to Customer 22 as a junket player at Star Sydney and Star Qld exceeded \$185 million. Customer 22 provide over \$131 million in funding to junkets in the same year.

In and from October 2017, Customer 22 used a variety of non-transparent and high risk international remittance channels, including the EEIS remittance channel, the Customer 9 channels and the Hotel Card channel, to remit money into the casino environment.

In and from 2018, Customer 22 engaged in large and suspicious cash transactions in circumstances where Star Sydney or Star Qld did not verify the source of funds.

Despite this, Star Sydney and Star Qld did not take steps to review, update and verify Customer 22's source of funds or source of wealth to explain the very high value financial and gaming services provided to him.

On 3 August 2020, Star Sydney issued a WOL in respect of Customer 22.

On 5 August 2020, Star Qld issued a WOL in respect of Customer 22.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 22

1224. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 22 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 22.
- a. On and from December 2017, Customer 22 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 22's risk profile* above.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 22 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 9 February 2016, Customer 22 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 23 July 2019, Customer 22 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 22 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 22's transactions

1225. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 22's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 22, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders, operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 22's junket as turnover was recorded against Customer 22 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 22 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783.

- iii. international remittance channels, specifically the EEIS remittance channel, the Customer 9 channels and the Hotel Card channel;

Particulars

See paragraphs 441, 493 and 790.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 22 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Customer 9 channels;

Particulars

See paragraph 441 above.

- f. Star Sydney and Star Qld provided designated services to Customer 22 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- g. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 22.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 22 on 29 June 2018, 2 December 2018, 2 January 2019 and 11 February 2019: See *Customer 22's risk profile*.

The review, update and verification of Customer 22's KYC information

- 1226. Star Sydney and Star Qld did not review, update and verify Customer 22's KYC information, having regard to the high ML/TF risks posed, because:
 - a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 22's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 22's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 22's source of wealth or source of funds: see *Customer 22's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 22's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 22.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 22's high ML/TF risks

1227. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 22 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 22; and
 - c. reviewing and updating Customer 22's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 22 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 22*.

ECDD triggers in respect of Customer 22

1228. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 22 following any ECDD triggers in respect of Customer 22.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1229. Customer 22:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 7 January 2019 and 30 November 2021, Star Sydney gave the AUSTRAC CEO five SMRs with respect to Customer 22.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 3 December 2018, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 22.

1230. Each matter pleaded in paragraph 1229 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1231. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 22 following an ECDD trigger because:

- a. on each occasion prior to 3 August 2020 that Star Sydney and Star Qld conducted ECDD in respect of Customer 22 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 22 and the provision of designated services to Customer 22 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 12 February 2019, 14 February 2020, 22 June 2020 and 28 July 2020, Star Sydney and Star Qld conducted ECDD in respect of Customer 22.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 22's higher ML/TF risks: see *Customer 22's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 22's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 22's source of wealth and source of funds were not legitimate: see *Customer 22's risk profile*.

Rules 15.10(2) and (5) of the Rules.

In August 2020, Star Sydney and Star Qld issued a WOL in respect of Customer 22.

- b. Customer 22 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 3 August 2020 that Customer 22 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 22 and the provision of designated services to Customer 22 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

There is no record in Star's due diligence records of senior management consideration of Customer 22 before July 2020.

On 31 July 2020, the Investigations Manager formed the view that Customer 22, together with two other customers, ought to be excluded because of suspected money laundering incidents:

- a. the Investigations Manager spoke to a law enforcement agency about a series of cash buy-ins which occurred in February, June and July 2020 involving \$50 notes;

- b. Customer 22 and two other customers had a pattern of bringing bags of \$50 notes bundled with elastic bags into the casino, passing the cash to other people who purchased chips with it and then collecting the chips;
- c. when asked about the transactions, the group were elusive and gave different answers;
- d. the Investigations Manager formed the view that the group were close associates of each other who were co-ordinating their activity to place, integrate and layer the 'tainted' money, in excess of \$500,000, within the casino environment; and
- e. the Investigations Manager formed the view that it was reasonable to suspect that the cash originated from the proceeds of crime.

The WOLs were issued and authorised by a Star Investigations Manager in August 2020.

Contravention of s36 of the Act in respect of Customer 22

1232. By reason of the matters pleaded from paragraphs 1218 to 1231 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 22 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1233. By reason of the matters pleaded at paragraph 1232 Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 3 August 2020 with respect to Customer 22.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1234. By reason of the matters pleaded from paragraphs 1218 to 1231 above, on and from 27 July 2018, Star Qld:
- a. did not monitor Customer 22 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1235. By reason of the matters pleaded at paragraph 1234, Star Qld contravened s36(1) of the Act on and from 27 July 2018 to 5 August 2020 with respect to Customer 22.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 23

1236. Customer 23 was a customer of Star Qld during the relevant period. Between 2016 and 2020, Star Qld recorded turnover exceeding \$22 million for Customer 23.

Particulars

Customer 23 was a customer of Star Qld from at least 1996.

On 17 January 2020, Star Qld issued a WOL in respect of Customer 23.

1237. Star Qld provided Customer 23 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder and junket player. In 2019, Star Qld recorded that junkets funded by Customer 23 had a turnover exceeding \$160 million.

Particulars

On 9 August 2005, Star Qld opened an FMA for Customer 23 which was closed on 17 January 2020 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 23 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 23's risk profile below.

1238. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 23.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 23's risk profile

1239. On and from 30 November 2016, Customer 23, and the provision of designated services to Customer 23 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 23's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 23 had the following risk history:
- i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 23;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 22 occasions between 18 February 2010 and 5 July 2016.

The SMRs reported that Customer 23 and persons associated with him had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose: see paragraph 1239.a.iii below.

- ii. Customer 23 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high individual rated turnover totalling \$2,420,885 for Customer 23;
- iii. Star Qld was aware that Customer 23 and persons associated with him had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Large and unusual transactions in 2010

On 8 February 2010, Customer 23 received a telegraphic transfer of \$150,000 into his FMA from two third parties. On 11 February 2010, Customer 23 withdrew \$140,000 of the funds and transferred them to another customer to fund that customer's play on a premium program. Customer 23 used \$5,000 of the remaining funds for gambling activities. Later that day, Customer 23 deposited a further \$60,000 in cash into his FMA and exchanged a chip purchase voucher for chips. No play was recorded with the chips. However, the other customer was recorded to have \$60,000 in chips. After some play, the other customer cashed out \$70,000: SMR dated 18 February 2010.

On 31 October 2010, Customer 23 was observed giving funds to another customer. The other customer then exchanged \$30,000 in cash from \$50 notes to \$100 notes. This transaction was indicative of the ML/TF typology of refining. The customer was observed returning the funds to Customer 23. Customer 23 was later seen giving the customer further funds, after which the customer bought into a game with \$5,000 in cash which comprised \$50 notes: SMR dated 9 November 2010.

On 27 December 2010, another Star Qld customer exchanged \$25,000 in \$50 notes for \$100 notes. This transaction was indicative of the ML/TF typology of refining. The customer did not have the play to support the transaction. Surveillance footage revealed that Customer 23 had supplied the other customer with the funds. After the cash was exchanged, the other customer gave the funds back to Customer 23: SMR dated 11 January 2011.

Large and unusual transactions in 2011

On 20 January 2011, Star Qld received a telegraphic transfer for \$50,000 in favour of Customer 23 which he withdrew in chips. No play was recorded for Customer 23 on that day. Surveillance footage indicated that Customer 23 had given the chips to another customer by putting them in her handbag: SMR dated 21 January 2011.

On 4 April 2011, Customer 23 arrived at a private gaming room with \$9,000 in chips. When asked for identification, Customer 23 refused. Instead, Customer 23 handed over a photo reward card belonging to another customer: SMR dated 4 April 2011.

On 25 April 2011, another Star Qld customer deposited \$250,000 in cash into his FMA. Star Qld noted that there were records to suggest that some of the funds were then dispersed to other customers. Star Qld noted that it appeared \$10,000 had been transferred to Customer 23: SMR dated 27 April 2011.

On 22 July 2011, Star Qld received a telegraphic transfer of \$90,000 for Customer 23 from a third party. Star Qld noted that it was unusual that the deposit was made by a third-party: SMR dated 12 August 2011.

Large and unusual transactions in 2013

On 21 May 2013, Customer 23 deposited \$50,000 in cash into his FMA. The funds were transferred to his account at Star Treasury and used to fund another customer on a commission program. After the program settled, the funds were deposited into the other player's account and then transferred to Customer 23. Customer 23 requested that Star Qld deposit \$47,746 to an Australian bank account in a name which was a known alias for Customer 23: SMR dated 24 May 2013.

Large and unusual transactions in 2014 and 2015

Between 31 July 2014 and 19 August 2015, Customer 23 was involved in eight large and suspicious transactions involving Customer 54 totalling \$1,400,000: SMRs dated 31 July 2014, 24 April 2015, 28 April 2015, 30 April 2015, 4 May 2015, 5 May 2015, 7 May 2015 and 19 August 2015.

On 22 March 2015, Customer 23 arrived at Star Qld with another customer. That customer engaged in a series of suspicious transactions involving the passing around of chips involving two other customers. Later in the evening, the customer was observed talking to Customer 23. Star Qld noted that the customer was believed to be a Star employee: SMR dated 23 March 2015.

On 2 October 2015, Customer 23 transferred \$50,000 by telegraphic transfer to his FMA. Customer 23 withdrew \$5,000 in cash and recorded a small amount of play. The remaining \$45,000 was later withdrawn as chips. However, no play was recorded. Star Qld noted it was unusual to withdraw that amount and not play: SMR dated 6 October 2015.

Large and unusual transactions in 2016

On 28 April 2016, a junket player arrived at Star Qld. Records indicated that Customer 23 had funded the player with \$50,000. The junket player was on a commission program and won \$75,000. The

junket player had four TTRs recorded for chip cash outs which totalled \$75,000. At the end of the program, the junket player transferred \$90,000 to Customer 23's account. Star Qld noted that this was \$40,000 more than Customer 23 had provided and was unaware of where the funds originated: SMR dated 10 May 2016.

Between 3 July 2016 and 4 July 2016, another Star Qld customer made two cash buy-ins of \$9,000 each. Star Qld noted that it was possible that the customer was attempting to avoid the reporting threshold or structuring to appear to be winning by only having TTRs for chip cash outs. On 4 July 2016, Star Qld noted that there was evidence that the customer had added funds to the original \$9,000 buy-in. However, the source of the funds was unclear. Star Qld noted that the customer had been referred to it by Customer 23 and was playing on an unaccompanied program: SMR dated 5 July 2016.

- iv. Customer 23, and persons associated with him, transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1239.a.iii above.

Between 4 May 2010 and 30 September 2016, Star Qld gave the AUSTRAC CEO 28 TTRs detailing incoming payments to Customer 23 totalling \$636,647 which were comprised of:

- a. \$405,672 in account deposits;
- b. \$20,000 in cash exchanges;
- c. \$175,684 in chip exchanges; and
- d. \$35,290 in other monetary values in.

Between 15 March 2010 and 30 November 2016, Star Qld gave the AUSTRAC CEO 67 TTRs detailing outgoing payments from Customer 23 totalling \$1,465,758 which comprised:

- a. \$1,120,363 in account withdrawals;
- b. \$315,395 in chip exchanges; and
- c. \$30,000 in other monetary values out.

- v. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 23 by remitting large amounts of money into and out of the casino environment via his account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 3 February 2016 and 29 November 2016, Star Qld received 111 telegraphic transfers totalling \$680,000, each of which was made available to Customer 23's FMA at Star Gold Coast.

See paragraph 1239.a.iii above.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 26 April 2016 and 23 September 2016, Star Qld facilitated six telegraphic transfers totalling \$332,462 from Customer 23's FMA at Star Gold Coast to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- vi. between 6 February 2016 and 30 November 2016, across 17 occasions, Customer 23 referred six different players to Star Qld;

Particulars

See paragraph 625 above.

Between 6 February 2016 and 30 November 2016, across 17 occasions, Customer 23 referred six different players to Star Qld.

Customer 23 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

Three of the referred customers were persons engaged in large and unusual transactions and patterns of transactions, together with Customer 23, which had no apparent economic or visible lawful purpose: see paragraph 1239.a.iii above.

- vii. in 2016, Customer 23 was the subject of law enforcement enquiries at Star Qld; and

Particulars

On 28 January 2016, Star Qld received a request from a law enforcement agency for information in respect of an associate of Customer 23's. Star Qld provided that information.

In November 2016, Star Qld received a request for information from a law enforcement agency in respect of Customer 23 as well as Customer 54.

- viii. persons associated with Customer 23 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring and refining;

Particulars

See paragraph 25 above.

On 31 October 2010 and 27 December 2010, Customer 23 was observed giving funds to another customer. The other customer then

exchanged \$30,000 and \$25,000 respectively in cash from \$50 notes to \$100 notes. The customer was observed returning the funds to Customer 23: SMRs dated 9 November 2010 and 11 January 2011. These transactions were indicative of the ML/TF typology of refining.

Between 3 July 2016 and 4 July 2016, another Star Qld customer, who was playing on an unaccompanied program for Customer 23, made two cash buy-ins of \$9,000 each. On 4 July 2016, Star Qld noted that there was evidence that the customer had added funds to the original \$9,000 buy-in. This transaction was indicative of the ML/TF typology of structuring: SMR dated 5 July 2016.

Customer 23's risk profile from 30 November 2016

- b. Customer 23 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 15 May 2019 and 16 October 2019, Customer 23 funded four junkets at Star Qld;

Particulars

At Star Qld, Customer 23 funded four junkets totalling \$5,700,000.

Customer 23 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

- ii. Star Qld recorded that the total cumulative turnover of junkets funded by Customer 23 between 15 May 2019 and 16 October 2019 was \$168,450,510 with losses of at least \$1,319,305;
- iii. Customer 23 was also a junket representative for the junkets; and
- iv. the junkets funded by Customer 23 facilitated the provision of high value designated services to junket operators, junket representatives and junket players including players in respect of whom Star Qld had formed suspicions such as Customer 73 and Customer 23 himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

See Customer 73's risk profile.

See paragraphs 1239.c, 1239.j and 1239.k below.

- c. Customer 23 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs despite not being eligible to play on junket programs;
 - i. between 15 May 2019 and 16 October 2019, Customer 23 was a player on two junkets at Star Qld operated by one junket operator;
 - ii. each of the junkets was funded by Customer 23;
 - iii. Customer 23 was a Queensland resident at the time of the junket programs. As a result, Customer 23 was not permitted to play with junket chips on a rebate

program in Queensland. Nonetheless, Customer 23 recorded a win on two junkets at Star Qld; and

- iv. between 15 May 2019 and 16 October 2019, Star Qld recorded wins of \$3,175 for Customer 23's gaming activity on junket programs;
- d. designated services provided to Customer 23 lacked transparency as the services were provided through the junket channel at Star Qld;

Particulars

See paragraph 650 above.

- e. Customer 23 was connected to other customers at Star Qld, including players who posed higher ML/TF risks and players who Star Qld considered had acted suspiciously (such as Customer 2);

Particulars

Star Qld understood that Customer 23 had facilitated Customer 2's stay at a Star Qld hotel while a domestic junket operator.

Customer 2 was the business partner of Customer 1 and owned a 50% stake in Suncity.

See Customer 2's risk profile.

- f. between 30 January 2017 and 18 February 2019, across 20 occasions, Customer 23 referred six different players to Star Qld;

Particulars

See paragraph 625 above.

Between 30 January 2017 and 18 February 2019, across 20 occasions, Customer 23 referred six different players to Star Qld, being the same six players referred by Customer 23 between 6 February 2016 and 30 November 2016.

Customer 23 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

Three of the referred customers, including Person 57, were persons engaged in large and unusual transactions and patterns of transactions, together with Customer 23, which had no apparent economic or visible lawful purpose: see paragraphs 1239.a.iii above and 1239.j below.

- g. Customer 23 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2020, Star Qld recorded high and escalating individual rated turnover totalling \$22,157,972 for Customer 23;

Particulars

In 2016, Customer 23's individual rated turnover escalated to \$5,788,143.

In 2017, Customer 23's individual rated turnover was \$4,069,365.

In 2018, Customer 23's individual rated turnover was \$4,366,330.

In 2019, Customer 23's individual rated gaming turnover escalated to \$7,862,407.

In 2020, Customer 23's individual rated gaming turnover was \$71,727.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 23 by remitting large amounts of money within the casino environment via his account;

Particulars

See paragraphs 347 to 349 above.

For example, on 5 September 2019, Star Sydney received a transfer of \$100,000 from Star Qld, which it made available to Customer 23's account.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 23 by remitting large amounts of money into, out of, and within the casino environment via his account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 11 January 2017 and 9 January 2020, Star Qld received 40 telegraphic transfers totalling \$6,316,000, each of which was made available to Customer 23's FMA at Star Gold Coast. At least \$150,000 of these funds originated from a cash deposit.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 29 May 2017 and 2 January 2020, Star Qld facilitated at least 23 telegraphic transfers totalling \$6,393,582 from Customer 23's FMA at Star Gold Coast to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 5 September 2019, Star Qld facilitated a transfer of \$100,000 from Customer 23's FMA at Star Gold Coast to Star Sydney.

See paragraph 1239.j below.

- j. Star Qld was aware that Customer 23 and persons associated with him had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Large and unusual transactions in 2017

On 22 September 2017, another Star Qld customer transferred \$75,000 to Customer 23. Star Qld noted that it was unusual for the customer to transfer the funds to Customer 23 when it did not appear that Customer 23 had initially given the customer the funds: SMR dated 29 September 2017.

Large and unusual transactions in 2018

Between 7 April 2018 and 10 April 2018, Customer 23 transferred a total of \$300,000 in four transactions from his Star account to another Star Qld customer's account to facilitate the customer's buy-in on premium programs. On 17 April 2018, at the conclusion of the program, both Customer 23 and the other customer approached the cashier requesting a casino cheque for \$259,500 to be issued to the customer. Star Qld considered this suspicious as there was a known third party agreement which required all funds be returned to Customer 23's account. Star Qld noted that it was unusual for funds not to be returned to the funder. Star Qld understood that the other customer had won the amount: SMR dated 19 April 2018.

On 23 September 2018, Customer 73 arrived at Star Qld to play on a premium group program as an international guest of Customer 23 with front money of \$130,000. Customer 73 presented his passport and his Queensland drivers licence became visible. Customer 23 quickly advised that Customer 73 lived in a foreign country and that the licence was not current as Queensland residents were not eligible to play on commission programs at Star Qld. Star Qld noted that Customer 23 ordinarily supplied funds for the players to gamble from his FMA. However, on this occasion another customer, who arrived with Customer 73, provided \$150,000 by way of bank cheque. The customer then transferred \$130,000 to Customer 73 and withdrew \$20,000 in chips. Star Qld was aware that Customer 73 was linked to another customer, Customer 54: SMR dated 24 September 2018.

On 3 October 2018, Customer 23 sent a telegraphic transfer of \$200,000 to his Star Qld FMA. Over the course of 3 October 2018 and 4 October 2018, Customer 23 and customers associated with him, including Customer 54 and Customer 73, conducted a series of suspicious transactions including chip and cash exchanges, large chip and cash deposits and handing cash and chips to one another.

Large and unusual transactions in 2019

Between 25 January 2019 and 5 February 2019, Customer 23 was linked to the following transactions:

- a. on 25 January 2019, Customer 23 transferred \$10,000 to six different customers;
- b. on 25 January 2019 and 30 January 2019, Customer 23 received \$500,000 and \$300,000 respectively into his account by telegraphic transfer;
- c. on 1 February 2019, Customer 23 received \$390,000 into his account from Customer 73's account. Star Qld noted that Customer 23 had previously transferred \$300,000 to Customer 73;
- d. On 2 February 2019, Customer 23 attempted to withdraw \$107,000 in cash from Customer 73's account. Customer 73 was not present and the request was declined. Instead, Customer 23 withdrew \$107,000 from his own account.
- e. on 4 February 2019, Customer 23 deposited two bank cheques totalling \$140,000 into his account; and
- f. between 26 January 2019 and 4 January 2019, Customer 73 received \$1,300,000 into his account. Customer 23 accounted for six of these transactions totalling \$800,000.

Star Qld was unaware of the connection between any of the customers: SMR dated 5 February 2019.

In addition to the six customers to whom Customer 23 transferred funds on 25 January 2019, on 5 February 2019, Customer 23 transferred \$50,000 to a seventh customer. Later that day, Customer 23 received a telegraphic transfer of \$150,000 into his FMA. Customer 23 then transferred \$50,000 to an eighth customer, Person 57, and \$200,000 to Customer 73. Customer 23 withdrew \$20,000 in cash and the remaining \$4,000 in cash the next day. Star Qld was unaware of the connection between any of the customers. However, all lived in the same city overseas. Star Qld noted that Customer 23, Customer 73, the seventh customer and Customer 54 had all been linked in the past: SMR dated 8 February 2019.

On 17 February 2019, a Star Qld customer who had been funded by Customer 23 with \$50,000, transferred \$763,157 from his FMA to Customer 23's FMA. Records for the other customer indicated that he had won \$628,975 since 5 February 2019. Star Qld was unaware why the other customer had transferred the entire amount of his winnings to Customer 23 given the customer had only been funded with \$50,000. Customer 23 also withdrew \$150,000 in cash on 18 February 2019 and \$10,000 in cash on 19 February 2019. Star Qld noted that these large cash withdrawals were unusual given Customer 23's funds were the proceeds of bank cheques and telegraphic transfers: SMR dated 19 February 2019.

On 20 February 2019, Customer 73 commenced play at Star Qld. By 21 February 2019, Customer 73 had recorded losses of \$2,419,645. Between 26 January 2019 and 20 February 2019, Customer 73

received ten deposits from Customer 23 totalling \$2,040,000. Star Qld did not know why Customer 23 was depositing funds into Customer 73's account or whether Customer 73 would repay the losses to Customer 23: SMR dated 21 February 2019.

Between 22 February 2019 and 24 February 2019, Customer 73 used Customer 23's membership card to play on EGMs. By 26 February 2019, Customer 73's losses in 2019 were \$3,335,595. Payouts recorded on Customer 23's membership card totalling approximately \$140,000 were paid to Customer 73. \$30,000 was transferred to Customer 73 from Customer 23's account. Customer 73 also received a separate deposit of \$150,000. Between 20 February 2019 and 25 February 2019, Customer 23 received telegraphic transfers into his account at Star Qld totalling \$1,000,000. During the same period, Customer 23 transferred \$1,000,000 to Customer 73. On 26 February 2019, Customer 73 transferred \$400,260 to Customer 23. Star Qld considered that this was a large amount of money to be transferred between Customer 23 and Customer 73: SMR dated 26 February 2019.

On 15 May 2019, Customer 23 deposited \$1,050,000 into his FMA. Customer 23 transferred \$1,000,000 to a junket operator to fund three junket players. Each of the three players were given an additional \$10,000 by Customer 23 to use on cash play. On 28 May 2019, settlement proceeds were paid into the junket operator's FMA. \$522,046 was transferred to Customer 23's FMA. Soon after, Customer 23 withdrew \$30,000 in chips. On 29 May 2019, Customer 23 sent a telegraphic transfer of \$490,000 to his personal account at an Australian bank. He withdrew the remaining balance in cash and chips: SMRs dated 15 May 2019 and 31 May 2019.

Between 5 September 2019 and 18 September 2019, Star Qld received six large telegraphic transfers for Customer 23 totalling \$2,400,000. \$2,350,000 was used by Customer 23 to fund a junket operator. However, on 17 September 2019, Customer 23 withdrew \$50,000 in cash across two transactions. At the time, Customer 23 had recorded a loss of \$194,000 for his own play which was a spike compared to previous months: SMR dated 19 September 2019.

Customer 23 informed Star Qld that he did not conduct the telegraphic transfers himself but instead would telephone his 'banker' at any time to conduct the transfers on his behalf.

On 30 September 2019 and 3 October 2019, Star Qld received telegraphic transfers in favour of Customer 23 totalling \$1,500,000.

Customer 23 funded a junket operator and acted as the junket representative. Customer 23 recorded significant play on EGMs over the period. In the same period, Customer 23's play record showed a loss of \$72,000. On 7 October 2019 and 10 October 2019, Customer 23 requested telegraphic transfer totalling \$1,142,158 be sent to his personal account at an Australian bank. Star Qld noted that Customer 23's play did not support the telegraphic transfers. However, since 30

September 2019, there were four players under the junket program, including Customer 73, whose gaming activity matched the telegraphic transfers sent by Customer 23. Despite this, Star Qld could not account for the cash transactions made by Customer 23 at EGMs, noting that it is possible Customer 23 did not use his membership card. Further, Star Qld noted that it did not know where the funds originally came from or where they went after they had been transferred to Customer 23's personal bank account: SMR dated 11 October 2019.

In November 2019, Customer 73 was a junket player on a junket funded by Customer 23 with payments made via telegraphic transfers and bank deposits. Star Qld was unaware of the reason why Customer 23 was not acting as the junket operator on this occasion: SMR dated 29 November 2019. This was despite Customer 23 never acting as a junket operator at Star Qld.

On 9 December 2019, Customer 23 transferred \$50,000 to his FMA at Star Qld. On 11 December 2019, Customer 23 withdrew \$30,000 in cash to play on the gaming machines. However, Star Qld only recorded \$1,000 of play. Star Qld was unaware whether Customer 23 had given the cash to anyone else. Customer 23 did not have any registered groups of players at the time: SMR dated 13 December 2019.

On 24 December 2019, Star Qld received a telegraphic transfer of \$40,000 for the benefit of Customer 23. Customer 23 withdrew \$20,000 in cash on 26 December 2019. On 31 December 2019, Star Qld received a telegraphic transfer of \$500,000 for the benefit of Customer 23. The source of the funds was unknown. The funds were placed in Customer 23's FMA. On 1 January 2020, Customer 23 withdrew \$5,000 in cash. On 2 January 2020, Customer 23 requested a telegraphic transfer of \$500,000 to an account at an Australian bank. Star Qld noted that the transaction was very unusual as the funds had not been used for gambling and were of a substantial value. On 3 January 2020, Customer 23 deposited \$20,000 in chips which had originated from Star Sydney into his FMA. However, review of Customer 23's play at Star Sydney indicated that he had no play recorded since 16 September 2017: SMR dated 3 January 2020.

- k. by September 2019, Star Qld was aware that Customer 23's activity at the casino was escalating and that other players were using Customer 23's identification card while playing on EGMs;

Particulars

On 19 September 2019, Star Qld noted that the value of Customer 23's transactions had increased and that this corresponded with Customer 23 becoming more aggressive and demanding to staff.

Star Qld noted an internal policy that large amounts of cash should only be withdrawn by customers for the purpose of play. Until September 2019, Customer 23 had used smaller funds to gamble

himself. However, in September 2019 Customer 23 had started requesting cash of around 25% of the transferred funds and refused to inform Star Qld of the purpose for the withdrawals.

Star Qld made enquiries with Customer 23's bank who advised that although Customer 23's funds showed as cash, they were not actual cash deposits. Instead, the funds appeared to have been marked as cash so that they could avoid being subject to banking system clearance.

Star Qld also had difficulty tracking transactions between the junket and premium player groups associated with Customer 23. As well as funding a particular junket operator, Customer 23 was a junket representative for that junket operator. The junket players had been using EGMs. Machine records indicated that the junket players were swapping tickets between Customer 23 and the junket operator. Star Qld noted that because the machines could only have one card inserted at a time, the junket group might have been using Customer 23's card to gain more complimentary points: SMR dated 19 September 2019.

In October 2019, Star Qld noted that the telegraphic transfers received for the benefit of Customer 23 had substantially increased in value: SMR dated 11 October 2019.

In November 2019, Star Qld noted that the amount of funds that Customer 23 provided to fund junket players had greatly increased. Star Qld also noted that Customer 23's behaviour towards staff had deteriorated. He had become short and demanding, and this seemed to correlate to the increased funds: SMR dated 11 October 2019

- I. designated services provided to Customer 23 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See paragraph 1239.j above.

Between 13 September 2019 and 8 October 2019, Star Qld gave the AUSTRAC CEO 23 TTRs detailing EGM payouts totalling \$562,305.

- m. Customer 23, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1239.j above.

Between 19 February 2018 and 24 September 2019, Star Qld gave the AUSTRAC CEO six TTRs detailing incoming payments to Customer 23 totalling \$215,350 which were comprised of account deposits and chip exchanges.

In addition to the 23 TTRs detailing EGM payouts (see paragraph 1239.I above), between 28 December 2016 and 27 December 2019, Star Qld gave the AUSTRAC CEO 64 TTRs detailing outgoing payments from Customer 23 totalling \$1,249,345 which were comprised of:

- a. \$700,000 in account withdrawals; and
- b. \$549,345 in chip exchanges.

On 22 August 2019, Customer 23 cashed out \$125,000 in chips. At the time, Customer 23 was a representative of a premium group which was showing a win of \$561,000.

- n. on 6 January 2020, Star Qld received information alleging that a person believed to be Customer 23 was a loan shark who preyed on financially vulnerable patrons. The conduct that Customer 23 was accused of was indicative of ML/TF typologies and vulnerabilities, including loan sharking;

Particulars

On 6 January 2020, Star received an email which alleged that:

- a. Customer 23 was a loan shark who preyed on financially vulnerable patrons in VIP rooms;
- b. Customer 23 had lent the complainant money at excessively high interest rates resulting in severe financial hardship;
- c. Customer 23 had asked female gamblers to provide him with sexual services as partial payment of the interest on loans he had provided; and
- d. the above conduct had occurred on Star premises.

On 17 January 2020, Star Qld issued a WOL in respect of Customer 23.

- o. in 2020, Customer 23 was the subject of law enforcement enquiries at Star Qld;

Particulars

On 8 January 2020, Star Qld and a law enforcement agency exchanged information in respect of Customer 23.

On 17 October 2020, Star Qld informed a law enforcement agency that Customer 23 had been issued with a WOL in January 2020.

- p. Customer 23 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616.

Customer 23 had access to private gaming rooms at Star Qld, including the Sovereign Room, the Club, Salon 66, the Suite, Pit 8, the Sapphire Room and the Club Conrad.

- q. Star Qld did not have adequate reason to believe that Customer 23's source of wealth and source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 23 at Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 23 was retired.

Despite this, Customer 23 provided millions of dollars of funding to junkets at Star Qld and engaged in very large and unusual cash transactions and patterns of transactions, which had no apparent economic or visible lawful purpose.

In 2019, despite not being eligible to play on junket programs, Customer 23 played on two junkets that he had also funded and of which he was the representative.

Customer 23 recorded a high turnover not commensurate with his source of wealth and source of funds and consistently sent or received large telegraphic transfers to and from the casino.

From September 2019, Customer 23's suspicious behaviour continued to escalate. However, Star Qld did not take steps to review, update and verify Customer 23's stated source of wealth and source of funds, being that he was retired.

Star Qld's determination of the ML/TF risks posed by Customer 23

1240. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 23 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 23.
- a. On and from 30 November 2016, Customer 23 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 23's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 23 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 4 April 2014, Customer 23 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 17 February 2020, Customer 23 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 23's transactions

1241. At no time did Star Qld apply appropriate transaction monitoring to Customer 23's transactions because:

- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 23, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not make and keep complete and reliable records of designated services provided to junket funders, players and representatives;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

Customer 23 was a Queensland resident at the time of the junket programs. As a result, Customer 23 was not permitted to play with junket chips on a rebate program in Queensland. Nonetheless, Customer 23 recorded a win on two junkets at Star Qld

- c. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 23 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- d. Star Qld provided designated services to Customer 23 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- e. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 23 or persons associated with him.

Particulars

Star senior management were not specifically informed of 20 large and suspicious cash incidents involving Customer 23 or persons associated with him totalling \$2,554,797 between September 2017 and September 2019: see *Customer 23's risk profile*.

The review, update and verification of Customer 23's KYC information

1242. Star Qld did not review, update and verify Customer 23's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 23's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 23's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 23's source of wealth and source of funds were not legitimate: see *Customer 23's risk profile*.

- d. to the extent that Star Qld reviewed Customer 23's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 23.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 23's high ML/TF risks

1243. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 23 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 23; and
- c. reviewing and updating Customer 23's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 23 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 23*.

ECDD triggers in respect of Customer 23

1244. Star Qld was required to apply the ECDD Programs to Customer 23 following any ECDD triggers in respect of Customer 23.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10 of the Rules.

1245. Customer 23 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period;

Particulars

Between 29 September 2017 and 3 January 2020, Star Qld gave the AUSTRAC CEO 15 SMRs with respect to Customer 23.

1246. The matter pleaded in paragraph 1245 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1247. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 23 following an ECDD trigger because:

- a. on each occasion prior to 17 January 2020 that Star Qld conducted ECDD in respect of Customer 23 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 23 and the provision of designated services to Customer 23 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809. above.

Despite the higher ML/TF risks posed by Customer 23 by and from 30 November 2016, Star Qld did not conduct ECDD in respect of him until 2019: see *Customer 23's risk profile* above.

On 19 February 2019, 15 May 2019 and 2 July 2019, Star Qld conducted ECDD in respect of Customer 23.

On 2 July 2019, the ECDD screening in respect of Customer 23 identified that he may be bringing international customers to the casino despite living locally.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 23's higher ML/TF risks: see *Customer 23's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 23's source of funds or source of wealth. Star understood that Customer 23 was retired. Despite this, Customer 23 provided millions of dollars of funding to junkets at Star Qld and engaged in very large and unusual cash transactions and patterns of transactions, which had no apparent economic or visible lawful purpose. Customer 23 recorded a high turnover not commensurate with his source of wealth and source of funds and consistently sent or received large telegraphic transfers to and from the casino.

By reason of the matters set out above, there were real risks that Customer 23's source of wealth and source of funds were not legitimate: see *Customer 23's risk profile*.

- b. Customer 23 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 17 January 2020 that Customer 23 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 23 and the provision of designated services to Customer 23 by Star Qld, and whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Despite the numerous SMRs given by Star Qld to the AUSTRAC CEO detailing regular large and suspicious cash transactions and telegraphic transfers conducted by Customer 23, Star Qld senior management did not consider the higher ML/TF risks posed by him until 2020: see *Customer 23's risk profile* above.

On 10 January 2020, following the receipt by Star Qld of an accusation that Customer 23 was a loan shark who charged excessively high interest rates and had asked some female gamblers to provide services as partial payment of the interest on loans he had provided on Star premises, an Investigations Officer prepared an information note in respect of the allegation. The note included that:

- a. further allegations had been received that Customer 23 collected other individual's identification cards in order to use their membership points at Star Qld;
- b. Star had obtained law enforcement intelligence in respect of Customer 23, including that:

- i. a person thought to be Customer 23 had previously been investigated in respect of loan sharking and bookmaking, including at Star Qld; and
- ii. Customer 23 and another individual had formed a partnership to assist each other in laundering large sums of criminal wealth on behalf of unknown persons from Australian and overseas. The funds were believed to be the proceeds of illicit drug trafficking;
- c. between February 2004 and December 2011, AUSTRAC records showed that 280 TTRs had been generated in respect of Customer 23 totalling \$6,309,650;
- d. Customer 23 was involved in the racing industry and linked to bookmaking and gambling activities overseas;
- e. Customer 23 made unusually large volume cash deposits into personal accounts at various Australian bank branches;
- f. Customer 23 was accused of loaning large sums of cash to gamblers at casinos at very high interest rates; and
- g. on 10 January 2020, Star investigators had agreed with Star surveillance managers that they would commence a surveillance operation in respect of Customer 23 when he attended Star Qld to determine whether the allegations in the email could be substantiated.

Between January 2020 and February 2020, Customer 23 was discussed at JRAMM and PAMMs, which noted that:

- a. Customer 23 had been accused of money lending activities and asking female gamblers to provide 'other' services in repayment;
- b. further work was to be completed in respect of the allegations; and
- c. Customer 23's occupation was 'retired'.

On 16 January 2020, Star investigators had formed the opinion that Customer 23 was involved in an operation where he would act for and remit money to patrons at a profit.

On 17 January 2020, Star Qld issued a WOL in respect of Customer 23.

The minutes of the February 2020 JRAMM noted that Customer 23 had been excluded.

Contravention of s36 of the Act in respect of Customer 23

1248. By reason of the matters pleaded from paragraphs 1236 to 1247, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 23 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1249. By reason of the matters pleaded at paragraph 1248, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 17 January 2020 with respect to Customer 23.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 24

1250. Customer 24 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$2.5 million for Customer 24.

Particulars

Customer 24 was a customer of Star Sydney from at least 14 November 2007.

1251. Star Sydney provided Customer 24 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player, junket representative and junket funder. Between 2017 and 2019, Star Sydney recorded that junkets funded by Customer 24 had a turnover exceeding \$310 million.

Particulars

On 27 August 2013, Star Sydney opened an FMA and SKA for Customer 24 which remain open (item 11, table 3, s6 of the Act).

Between 26 August 2013 and 19 August 2019, Star Sydney approved CCFs for Customer 24 on 21 occasions ranging from \$1,000,000 to \$3,668,352 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Bank 1 (Macau) cash channel and the Customer 9 channels, which it made available to Customer 24 (items 31 and 32, table 1, s6 of the Act).

See Customer 24's risk profile below.

1252. Customer 24 was a customer of Star Qld during the relevant period. Between 2016 and 2019, Star Qld recorded turnover exceeding \$2 million for Customer 24.

Particulars

Customer 24 was a customer of Star Qld from at least 19 November 2016.

1253. Star Qld provided Customer 24 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player, junket representative and junket funder. Between 2016 and 2019, Star Qld recorded that junkets funded by Customer 24 had a turnover exceeding \$400 million.

Particulars

On 15 July 2017, Star Qld opened an FMA and SKA for Customer 24 which remain open (item 11, table 3, s6 of the Act).

Between 16 November 2016 and 29 May 2019, Star Qld approved CCFs for Customer 24 on 13 occasions ranging from \$1,000,000 to \$3,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Bank 1 (Macau) cash channel and the Customer 9 channels, which it made available to Customer 24 (items 31 and 32, table 1, s6 of the Act).

See Customer 24's risk profile below.

1254. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 24.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 24's risk profile

1255. On and from 30 November 2016, Customer 24, and the provision of designated services to Customer 24 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 24's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 24 had the following risk history:
- i. by November 2016, Star Qld was aware that Customer 24 had access to two different passports which had different names and dates of birth, and had engaged in large and unusual transactions;

Particulars

On 19 November 2016, Customer 24 requested to commence a junket group at Star Gold Coast. To set up the junket group, Star Qld required Customer 24 to provide photo identification. Customer 24 had a current foreign passport on record. Customer 24 provided Star Qld with an Australian passport under a name different to that in Star Qld's systems. Customer 24 could not provide Star Qld with any other photo identification or change of name documentation.

Customer 24 provided a personal cheque drawn from an overseas bank. As Customer 24 did not provide Star Qld with any other photo identification, Customer 24's facility at Star Sydney was instead used to draw down and deposit \$1,049,000 to fund a junket at Star Qld.

Customer 24 acted as the first junket operator of the junket group Customer 24 set up, and provided funds to a junket player. A second junket operator monitored that player. Star Qld was advised that the second junket operator was Customer 24's sister.

The second junket operator had a guest. Star Qld noted that the guest was believed to be Customer 24's husband. Star Qld declined the guest's attempt to cash out premium chips, as the guest was not a junket player.

On 21 November 2016, the guest exchanged \$20,000 in cash for chips.

Star Qld was asked to deposit all remaining funds into the second junket operator's account. The funds were then transferred to Star Sydney for Customer 24 to redeem: SMR dated 22 November 2016.

- ii. between 26 August 2013 and 25 November 2016, Star Sydney provided Customer 24 with significant amounts of credit upon request, up to limits of \$3,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 26 August 2013 and 25 November 2016, Star senior management, including the Chief Financial Officer and the Chief Casino Operator, approved CCFs for Customer 24 on three occasions totalling \$7,300,000, ranging between \$2,000,000 and \$3,000,000.

- iii. on 16 November 2016, Star Qld provided Customer 24 with significant amounts of credit upon request, up to limits of \$2,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 16 November 2016, Star Qld senior management, including the Chief Executive Officer and the Star Qld Managing Director, approved a single trip CCF limit of \$2,000,000 for Customer 24.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 24 by remitting large amounts of money into the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Bank 1 (Macau) cash channel

For example, on 22 August 2016, unknown persons deposited a total of \$28,198 in cash at Bank 1 which Star Sydney made available to Customer 24 through the Bank 1 (Macau) cash channel.

- v. Customer 24 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 27 August 2013 and 20 July 2016, Star Sydney gave the AUSTRAC CEO 16 TTRs detailing outgoing payments from Customer 24 totalling \$857,407 which were comprised of:

- a. \$613,432 in account withdrawals; and
- b. \$243,975 in chip exchanges.

Customer 24's risk profile from 30 November 2016

- b. Customer 24 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. between 26 August 2017 and 22 September 2019, Customer 24 funded 16 junkets at Star Sydney;

Particulars

At Star Sydney, Customer 24 funded four junket operators, including her husband.

In 2016, Customer 24 provided \$2,000,000 in funding to junkets at Star Sydney.

In 2017, Customer 24 provided \$6,700,000 in funding to junkets at Star Sydney.

In 2018, Customer 24 provided \$14,040,000 in funding to junkets at Star Sydney.

In 2019, Customer 24 provided \$9,670,000 in funding to junkets at Star Sydney.

Customer 24 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

On seven occasions, Customer 24 was a junket player on a program that she funded.

- ii. Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 24 between 26 August 2017 and 22 September 2019 was \$315,833,919 with losses of \$12,338,810;

Particulars

In 2017, junket programs funded by Customer 24 had a turnover of \$136,233,019 with losses of \$7,887,840.

In 2018, junket programs funded by Customer 24 had a turnover of \$168,604,215 with losses of \$3,828,315.

In 2019, junket programs funded by Customer 24 had a turnover of \$11,046,685 with losses of \$622,655.

- iii. between 30 June 2017 and 19 August 2019, Star Sydney provided Customer 24 with significant amounts of credit upon request, up to limits of \$3,668,352;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 30 June 2017 and 19 August 2019, Star Sydney provided Customer 24 with at least \$32,398,352 in CCFs, between \$1,000,000 and \$3,668,352 on 18 occasions. The CCFs were approved by Star Sydney senior management, including the Chief Financial Officer and the Chief Casino Officer.

- iv. the junkets funded by Customer 24 had four junket representatives including Customer 24 herself; and
- v. the junkets funded by Customer 24 facilitated the provision of high value designated services to junket operators, junket representatives and junket players including players in respect of whom Star Sydney had formed suspicions such as Customer 24 herself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- c. Customer 24 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 30 November 2016 and 11 September 2019, Customer 24 funded 15 junkets at Star Qld;

Particulars

In 2019, Customer 24 was one of the top ten junket funders by number of junkets funded, and amount of funding provided, at Star Gold Coast.

At Star Qld, Customer 24 funded four junket operators, including her husband.

In 2016, Customer 24 provided \$1,649,000 in funding to junkets at Star Qld.

In 2017, Customer 24 provided \$4,075,632 in funding to junkets at Star Qld.

In 2018, Customer 24 provided \$9,000,000 in funding to junkets at Star Qld.

In 2019, Customer 24 provided \$23,000,000 in funding to junkets at Star Qld.

Customer 24 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

On 11 occasions, Customer 24 was a junket player on a program that she funded.

- ii. Star Qld recorded that the total cumulative turnover of junkets funded by Customer 24 between 30 November 2016 and 11 September 2019 was \$402,465,973;

Particulars

In 2016, junket programs funded by Customer 24 had a turnover of \$27,724,100.

In 2017, junket programs funded by Customer 24 had a turnover of \$47,560,968 with losses of \$2,032,820.

In 2018, junket programs funded by Customer 24 had a turnover of \$61,709,830 with losses of \$1,171,310.

In 2019, the turnover of junket programs funded by Customer 24 significantly escalated to \$265,471,075.

- iii. between 14 July 2017 and 29 May 2019, Star Qld provided Customer 24 with significant amounts of credit upon request, up to limits of \$3,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 14 July 2017 and 29 May 2019, Star Qld provided Customer 24 with at least \$18,500,000 in CCFs, between \$1,000,000 and \$3,000,000 on 12 occasions. The CCFs were approved by Star Qld senior management, including the Chief Financial Officer and the Chief Executive Officer.

- iv. the junkets funded by Customer 24 had four junket representatives including herself; and
- v. the junkets funded by Customer 24 facilitated the provision of high value designated services to junket operators, junket representatives and junket players including players in respect of whom Star Qld had formed suspicions such as Customer 24 herself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

On 21 July 2017, Customer 24 arrived at Star Qld with a Victorian driver's licence and a bank card under the same name as used on her account. Star Qld noted that Customer 24 had previously provided an Australian passport under a different name to that used on her account, and that Customer 24 had failed to supply documentation of any name change.

Customer 24 provided \$3,000,000 in front money. Customer 24 provided funds to an unknown customer at Star Qld to engage in gaming activities.

Star Qld noted that it was unusual that Customer 24 held an Australian passport in a different name to her other identification documents. Further, Star Qld noted that Customer 24 appeared to be unwilling to provide any supporting documentation for the name change: SMR dated 21 July 2017.

- d. Customer 24 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 3 July 2017 and 11 September 2019, Customer 24 was a player on seven junkets at Star Sydney operated by three junket operators;
 - ii. each of the junkets was funded by Customer 24; and
 - iii. between 3 July 2017 and 11 September 2019, Star Sydney recorded high and escalating turnover totalling \$1,558,600 with losses of \$56,355 for Customer 24's gaming activity on junket programs;

Particulars

In 2017, Customer 24's turnover on junket programs was \$468,800 with losses of \$44,460.

In 2018, Customer 24's turnover on junket programs was \$404,800 with losses of \$18,190.

In 2019, Customer 24's turnover on junket programs escalated to \$685,000 with wins of \$6,295.

- e. Customer 24 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 15 July 2017 and 11 September 2019, Customer 24 was a player on 11 junkets at Star Qld operated by two junket operators;
 - ii. each of the junkets was funded by Customer 24; and
 - iii. between 15 July 2017 and 11 September 2019, Star Qld recorded high and escalating turnover totalling at least \$163,900 for Customer 24's gaming activity on junket programs;

Particulars

In 2017, Customer 24's turnover on junket programs was at least \$42,000.

In 2019, Customer 24's turnover on junket programs escalated to at least \$121,900.

- f. designated services provided to Customer 24 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 24 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2021,

Star Sydney recorded high and escalating individual rated turnover totalling \$1,066,393 for Customer 24;

Particulars

See paragraph 752 above.

In 2016, Customer 24's individual turnover was \$209,613.

In 2018, Customer 24's individual rated turnover was \$29,303.

In 2019, Customer 24's individual rated turnover escalated to \$705,783.

In 2020, despite the COVID-19 pandemic closures, Customer 24's individual rated turnover was \$97,234.

In 2021, Customer 24's individual rated turnover was \$24,460.

- h. Customer 24 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2019, Star Qld recorded high and escalating individual rated turnover totalling \$1,837,645 for Customer 24;

Particulars

See paragraph 752 above.

In 2016, Customer 24's individual rated turnover was \$775,200.

In 2017, Customer 24's individual rated turnover was \$66,080.

In 2018, Customer 24's individual rated turnover escalated to \$235,990.

In 2019, Customer 24's individual rated turnover further escalated to \$760,375.

In 2019, Customer 24 was one of Star Qld's largest debtors, owing the casino \$237,470.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 24 by remitting large amounts of money into and out of the casino environment through her accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Bank 1 (Macau) cash channel

See paragraphs 372 and 382 to 384 above.

Between 29 December 2016 and 9 October 2017, unknown persons deposited a total of \$2,192,999 in cash at Bank 1 which Star Sydney made available to Customer 24 through the Bank 1 (Macau) cash channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 8 February 2018 and 23 November 2018, deposits through the Customer 9 channels totalling AU\$1,725,261 and HKD807,860 were made available by Star Sydney to Customer 24's account.

Other remittances into the casino environment

See paragraph 327 above.

See paragraph 1255.k below.

For example, between 29 December 2016 and 9 February 2018, Star Sydney gave the AUSTRAC CEO six incoming IFTIs totalling \$2,285,562 where Customer 24 was named as the customer. On each occasion, the funds were deposited into Customer 24's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

See paragraph 1255.k below.

- j. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 24 by remitting large amounts of money into the casino environment through her accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Bank 1 (Macau) cash channel

See paragraphs 372 and 382 to 384 above.

On 26 August 2017, unknown persons deposited \$224,372 in cash at Bank 1 which Star Qld made available to Customer 24 through the Bank 1 (Macau) cash channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 2 July 2019 and 12 July 2019, deposits through the Customer 9 channels totalling \$1,090,709 were made available by Star Qld to Customer 24's account.

Other remittances involving third parties

See paragraph 278 above.

See paragraph 1255.l below.

Other remittances into the casino environment

See paragraph 327 above.

For example, on 5 September 2017, Star Qld gave the AUSTRAC CEO an incoming IFTI totalling \$225,062 where Customer 24 was named as the customer. The funds were used to redeem a cheque.

This transaction was conducted through the Star Patron account channel.

- k. Star Sydney was aware that Customer 24 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 19 February 2019, Customer 24 received an electronic funds transfer from Customer 3. Star Sydney noted that the transaction was unusual as Customer 24 had never been a player on Customer 3's Suncity junket.

On 20 February 2019, Star Sydney received a telegraphic transfer from Customer 24 for \$130,000.

On 28 February 2019, Customer 24 requested that \$210,000 be transferred to Customer 24's personal Australian bank account. Customer 24 then requested that a further \$70,000 be transferred to the same bank account.

Star Sydney noted that it was suspicious that Customer 24 transferred funds to her own bank account where prior to the transfer those funds had remained in Customer 24's Star Sydney account without being accessed or utilised for any gaming activity: SMR dated 19 March 2019.

- l. Star Qld was aware that Customer 24 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 27 November 2019, Star Qld received a telegraphic transfer of \$200,000 on behalf of Customer 24 from an Australian bank account held by a third party who was not a patron at Star Qld. Star Qld was expecting the funds for Customer 24 as part payment for a returned cheque. Star Qld noted that \$37,000 remained outstanding on this returned cheque.

Star Qld noted that in August 2019 Customer 24 had provided a junket operator with funding of \$3,000,000 and that there was only one main customer in the junket group who had incurred a loss of \$507,000.

Star Qld was unaware of the connection between Customer 24, the junket player and the third party: SMR dated 28 November 2019.

- m. Customer 24 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 21 January 2019 and 25 November 2020, Star Sydney gave the AUSTRAC CEO four TTRs detailing incoming payments to Customer 24 totalling \$110,000 which were comprised of:

- a. \$70,000 in account withdrawals; and
- b. \$40,000 in chip exchanges.

Between 17 January 2019 and 30 November 2020, Star Sydney gave the AUSTRAC CEO five TTRs detailing outgoing payments from Customer 24 totalling \$120,693 which were comprised of account withdrawals and chip exchanges.

- n. Customer 24 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 27 May 2019, Star Qld gave the AUSTRAC CEO a TTR detailing an incoming payment to Customer 24 totalling \$10,000 in chip exchanges.

On 14 June 2018 and 26 August 2019, Star Qld gave the AUSTRAC CEO two TTRs detailing outgoing payments from Customer 24 totalling \$61,500 which comprised account withdrawals and chip exchanges.

- o. Customer 24 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 24 had access to private gaming rooms at Star Sydney, including Springs Salon, Lakes Salon, Oasis, the Sovereign Room, Harbours Salons and Lakes Salons.

- p. Customer 24 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 24 had access to private gaming rooms at Star Qld, including the Sovereign Room, Salon 66, Salon 22, Salon 21 and Pit 8.

- q. Star Sydney and Star Qld did not have adequate reason to believe that Customer 24's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 24 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 24 was a 'director/owner'. Star did not take steps to verify whether Customer 24's source of wealth was sufficient to explain the high value financial and gaming services received by Customer 24 at Star Sydney and Star Qld. This included escalating amounts of funding provided by Customer 24 to junket operators.

Customer 24 received designated services through high risk channels at Star Sydney and Star Qld, including junket channels, the Bank 1 (Macau) cash channel and the Customer 9 channels.

Customer 24's use of these channels, and Star Sydney's and Star Qld's provision of designated services to Customer 24 through those channels, served to obfuscate the source of funds used by Customer 24. Star did not take steps to verify the source of funds used in connection with the high value financial and gaming services received by Customer 24 at Star Sydney and Star Qld.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 24

1256. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 24 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 24.
- a. On and from 30 November 2016, Customer 24 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 24's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 24 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 21 July 2017, Customer 24 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 22 February 2021, Customer 24 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 24's transactions

1257. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 24's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 24, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders, representatives or players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 24 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Bank 1 (Macau) cash channel and the Customer 9 channels;

Particulars

See paragraphs 383 and 441 above.

- d. Star Sydney and Star Qld provided designated services to Customer 24 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 24's KYC information

- 1258. Star Sydney and Star Qld did not review, update and verify Customer 24's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 24's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 24's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 24's source of wealth or source of funds: see *Customer 24's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 24's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 24.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 24's high ML/TF risks

1259. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 24 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 24; and
 - c. reviewing and updating Customer 24's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 24 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 24*.

ECDD triggers in respect of Customer 24

1260. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 24 following any ECDD triggers in respect of Customer 24.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1261. Customer 24:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 19 March 2019, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 24.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 21 July 2017 and 28 November 2019, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 24.

1262. Each matter pleaded in paragraph 1261 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1263. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 24 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 24 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 24 and the provision of designated services to Customer 24 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

Rule 15.10, 15.10(2) and 15.10(5) of the Rules.

See paragraphs 797 and 807 to 809 above.

On 18 March 2019, 28 November 2019, 6 January 2020 and 22 February 2021, Star conducted ECDD in respect of Customer 24.

The ECDD screening found no adverse information in respect of Customer 24.

However, Star understood that Customer 24 was a 'director/owner'.

Star did not take steps to verify whether Customer 24's source of wealth was sufficient to explain the high value financial and gaming services received by Customer 24 at Star Sydney and Star Qld.

Customer 24 received designated services through high risk channels at Star Sydney and Star Qld, including junket channels, the Bank 1 (Macau) cash channel, the Customer 9 channels. Customer 24's use of these channels, and Star Sydney's and Star Qld's provision of designated services to Customer 24 through those channels, served to obfuscate the source of funds used by Customer 24. Star did not take steps to verify the source of funds used in connection with the high value financial and gaming services received by Customer 24 at Star Sydney and Star Qld.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 24's higher ML/TF risks: see *Customer 24's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 24's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 24's source of wealth and source of funds: see *Customer 24's risk profile*.

- b. Customer 24 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 24

- 1264. By reason of the matters pleaded from paragraphs 1250 to 1263 above, on and from 30 November 2016, Star Sydney and Star Qld:
 - a. did not monitor Customer 24 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

- 1265. By reason of the matters pleaded at paragraph 1264, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 24.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 25

- 1266. Customer 25 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$150 million for Customer 25.

Particulars

Customer 25 was a customer of Star Sydney from at least 2 January 2016.

- 1267. Star Sydney provided Customer 25 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket funder. Between 2017 and 2020, Star Sydney recorded that junkets operated and funded by Customer 25 had a turnover exceeding \$2.2 billion.

Particulars

On 3 January 2016, Star Sydney opened an FMA and SKA for Customer 25 which remain open (item 11, table 3, s6 of the Act).

Between 21 October 2015 and 20 August 2020, Star Sydney approved CCFs for Customer 25 on seven occasions ranging from \$26,670,000 to \$133,330,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel and the Customer 9 channels, which it made available to Customer 25 (items 31 and 32, table 1, s6 of the Act).

See *Customer 25's risk profile* below.

1268. Customer 25 was a customer of Star Qld during the relevant period. Between 2017 and 2019, Star Qld recorded turnover exceeding \$48 million for Customer 25.

Particulars

Customer 25 was a customer of Star Qld from at least 21 October 2015.

1269. Star Qld provided Customer 25 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2019, Star Qld recorded that junkets operated by Customer 25 had a turnover exceeding \$280 million.

Particulars

On 5 November 2015, Star Qld opened an FMA for Customer 25 which remains open (item 11, table 3, s6 of the Act).

Between 5 November 2015 and 20 August 2020, Star Qld approved CCFs for Customer 25 on six occasions ranging from \$26,670,000 to \$133,330,000 (item 6, table 1, s6 of the Act).

See *Customer 25's risk profile* below.

1270. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 25.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 25's risk profile

1271. On and from 30 November 2016, Customer 25, and the provision of designated services to Customer 25 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 25's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 25 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 25;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on four occasions between 18 January 2016 and 19 February 2016.

The SMRs reported that Customer 25, and persons associated with her junket, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney: see paragraph 1271.a.vi below.

- ii. Customer 25 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

By 30 November 2016, Customer 25 had operated 27 junkets at Star Sydney.

By 30 November 2016, the total cumulative turnover of junkets operated by Customer 25 at Star Sydney was \$564,568,812 with losses of \$4,786,545.

Customer 25 provided \$53,622,420 in funding towards the junkets.

By 30 November 2016, Customer 25 had four junket representatives at Star Sydney.

- iii. Customer 25 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

By 30 November 2016, Customer 25 had operated one junket at Star Qld.

By 30 November 2016, the total cumulative turnover of the junket operated by Customer 25 at Star Qld was \$7,735,000 with wins of \$700,000.

By 30 November 2016, Customer 25 had one junket representative at Star Qld.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 25 by remitting large amounts of money into and within the casino environment via her accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 12 February 2016 and 24 May 2016, Star Sydney gave the AUSTRAC CEO two incoming IFTIs totalling \$4,382,847 where Customer 25 was named as the ordering customer and beneficiary. The funds were transferred to Customer 25's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 30 March 2016, Star Sydney sent a transfer of \$3,052,406 from Customer 25's account to Star Qld.

- v. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 25 by remitting large amounts of money into and out of the casino environment via her accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

For example, on 29 March 2016, Star Qld received a telegraphic transfer of \$3,052,406, which it made available to Customer 25's FMA at Star Gold Coast.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

For example, on 23 November 2016, Star Qld facilitated a telegraphic transfer of \$865,574 from Customer 25's FMA at Star Gold Coast to an overseas bank account.

The above transaction was conducted through the Star Patron account channel.

- vi. Star Sydney was aware that Customer 25, and persons associated with her junket, transacted using large amounts of cash and cash that appeared suspicious;

Particulars

See paragraphs 611 to 618 above.

Between 16 January 2016 and 7 May 2016, Star Sydney gave the AUSTRAC CEO 12 TTRs detailing chip and cash exchanges made by Customer 25 totalling \$468,445.

Between 14 January 2016 and 20 June 2016, Star Sydney gave to the AUSTRAC CEO 35 TTRs detailing account deposits and withdrawals made by Customer 25 totalling \$1,904,701.

Between 15 January 2016 and 14 March 2016, Customer 25 withdrew large amounts of cash from her FMA at Star Sydney. This amounted to \$400,000 of cash withdrawn on three occasions.

Between 14 February 2016 and 2 May 2016, representatives of Customer 25's junkets withdrew large amounts of cash from her FMA at Star Sydney. This amounted to \$573,700 of cash withdrawn on four occasions.

Between 16 February 2016 and 7 May 2016, representatives of Customer 25's junkets exchanged large amounts of chips for cash at

Star Sydney. This amounted to \$303,615 of chips exchanged for cash on two occasions.

- vii. between 21 October 2015 and 12 January 2016, Star Sydney provided Customer 25 and her junket with significant amounts of credit upon request, up to limits of \$53,330,000 with an additional trip only limit of \$21,330,000; and

Particulars

See paragraphs 516 to 518 and 552 above.

Between 21 October 2015 and 12 January 2016, Star Sydney senior management including the Chief Executive Officer and Chief Financial Officer approved permanently active or single trip CCFs on two occasions for Customer 25 up to limits of \$53,330,000 with an additional trip only limit of \$21,330,000.

- viii. on 5 November 2015, Star Qld provided Customer 25 and her junket with significant amounts of credit upon request, up to a limit of \$53,330,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 5 November 2015, Star Qld senior management including the Chief Executive Officer and Chief Financial Officer approved a permanent active CCF limit of \$53,330,000 for Customer 25.

Customer 25's risk profile from 30 November 2016

- b. Customer 25 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 12 March 2017 and 2 September 2020, Customer 25 operated 90 junkets at Star Sydney;

Particulars

In 2017, 2018, 2019 and 2020, Customer 25 was one of the top ten junket operators by number of junkets operated or by turnover at Star Sydney.

Customer 25 provided \$359,417,142 in funding towards the junkets.

- ii. between 12 March 2017 and 2 September 2020, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 25 was \$2,205,593,726 with losses of \$21,479,188;

Particulars

In 2017, junkets operated by Customer 25 had a turnover of \$473,519,393 with wins of \$1,816,461.

In 2018, junkets operated by Customer 25 had a turnover of \$870,803,895 with losses of \$7,258,359.

In 2019, junkets operated by Customer 25 had a turnover of \$693,474,861 with losses of \$10,985,715.

In 2020, junkets operated by Customer 25 had a turnover of \$167,795,576 with losses of \$5,051,575.

- iii. between 12 March 2017 and 2 September 2020, Star Sydney recorded a cumulative turnover of \$156,208,573 for Customer 25 as a junket player on her own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2016 and 2020, total benefits of \$19,806,483 were payable to Customer 25 by Star Sydney in her capacity as a junket operator for rebates earned, revenue sharing agreements and other benefits;

Particulars

Customer 25 was entitled to benefits from Star Sydney in her capacity as a junket operator:

- a. in 2016, total benefits of \$4,789,885 were payable to Customer 25;
 - b. in 2017, total benefits of \$3,901,503 were payable to Customer 25;
 - c. in 2018, total benefits of \$1,608,240 were payable to Customer 25;
 - d. in 2019, total benefits of \$7,361,345 were payable to Customer 25; and
 - e. in 2020, total benefits of \$2,145,509 were payable to Customer 25.
- v. between 24 February 2017 and 20 August 2020, Star Sydney provided Customer 25 and her junket with significant amounts of credit upon request, up to limits of \$133,330,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 24 February 2017 and 20 August 2020, Star Sydney senior management including the Chief Executive Officer and Chief Financial Officer approved permanently active CCFs for Customer 25 on five occasions with limits between \$26,670,000 and \$133,330,000.

- vi. Customer 25 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 25 operated junkets in non-exclusive private gaming rooms, including the Sovereign Room, Chairman's and Pit 80.

Customer 25 operated junkets in exclusive private gaming rooms, including Salon 75, Salon 76, Salon 78, Salon 82, Salon 86, Salon 91, Salon 93, Salon 95, Salon 96, Salon 97, Salon 98 and Salon 99.

- vii. in the relevant period, Customer 25 had 23 junket representatives at Star Sydney; and
- viii. Customer 25 and her junket representatives facilitated the provision of high value designated services to junket players at Star Sydney including players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 78;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 25 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 9 June 2017 and 1 October 2019, Customer 25 operated 18 junkets at Star Qld;

Particulars

In 2017, 2018 and 2019, Customer 25 was one of the top ten junket operators by number of junkets operated or by turnover at Star Qld.

Customer 25 provided \$66,000,000 in funding towards the junkets.

- ii. between 9 June 2017 and 1 October 2019, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 25 was \$281,115,647 with losses of \$2,171,290;

Particulars

In 2017, junkets operated by Customer 25 had a turnover of \$65,908,830 with losses of \$3,162,425.

In 2018, junkets operated by Customer 25 had a turnover of \$183,165,795 with wins of \$806,020.

In 2019, junkets operated by Customer 25 had a turnover of \$32,041,022 with wins of \$185,115.

- iii. although Customer 25 was a junket player on some of her own junkets, between 9 June 2017 and 1 October 2019, Star Qld recorded a cumulative turnover of \$19,619,828 for Customer 25 as a junket player on her own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraphs 670 above.

- iv. between 2017 and 2019, total benefits of \$966,351 were payable to Customer 25 by Star Qld in her capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 25 was entitled to benefits from Star Qld in her capacity as a junket operator:

- a. in 2017, total benefits of \$130,384 were payable to Customer 25;
 - b. in 2018, total benefits of \$561,787 were payable to Customer 25; and
 - c. in 2019, total benefits of \$274,180 were payable to Customer 25.
- v. between 24 February 2017 and 20 August 2020, Star Qld provided Customer 25 and her junket with significant amounts of credit upon request, up to limits of \$133,330,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 24 February 2017 and 20 August 2020, Star Qld senior management including the Chief Executive Officer and Chief Financial Officer approved permanently active CCFs on five occasions for Customer 25 ranging between limits of \$26,670,000 and \$133,330,000.

- vi. Customer 25 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 25 operated junkets in non-exclusive private gaming rooms, including the Pit 11.

Customer 25 operated junkets in exclusive private gaming rooms, including Salon 8, Salon 10, Salon 22, Salon 21, Salon 89, Salon 90, Salon 96, Salon 99 and Pit 9.

- vii. in the relevant period, Customer 25 had eight junket representatives at Star Qld; and
- viii. Customer 25 and her junket representatives facilitated the provision of high value designated services to more than 30 junket players at Star Qld;

Particulars

See paragraphs 643 to 649 above.

- d. Customer 25 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. between 10 June 2017 and 13 June 2017, Customer 25 funded a junket at Star Sydney;
 - ii. Star Sydney recorded that the total cumulative turnover of the junket funded by Customer 25 between 10 June 2017 and 13 June 2017 was \$5,496,712 with losses of \$17,455; and
 - iii. this junket funded by Customer 25 facilitated the provision of high value designated services to three junket players;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- e. Customer 25 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 9 June 2017 and 18 October 2017, Customer 25 was a player on three junkets at Star Qld operated by herself; and
 - ii. between 9 June 2017 and 18 October 2017, Star Qld recorded high turnover totalling \$29,017,963 with losses of \$1,428,960 for Customer 25's gaming activity on junket programs;
- f. designated services provided to Customer 25 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 25 was connected to other customers at Star Sydney and Star Qld, including junket funders, junket operators, foreign PEPs, players who posed higher ML/TF risks and players who Star Sydney and Star Qld considered had acted suspiciously such as Customer 1;

Particulars

Star understood that Customer 25 was the junket operator, junket funder and a very senior employee of an international junket operator.

Star further understood that the international junket operated was a subsidiary of the international Suncity junket operated by Customer 3 and Customer 4, and funded by Customer 1.

In August 2020, Star Sydney issued a WOL in respect of two of Customer 25's junket representatives. The reason for the exclusion was a series of large and suspicious cash transactions involving a significant volume of \$50 notes being delivered into the casino and deposited into Customer 25's account: see paragraph 1271.1 below.

Star investigators formed the view that the junket representatives were close associates and were co-ordinating their activities to place, integrate and layer tainted funds in excess of \$400,000 into the casino. Star investigators suspected that the funds were the proceeds of crime.

- h. between 27 June 2017 and 9 August 2019, across nine occasions, Customer 25 referred eight different players to Star Qld;

Particulars

See paragraph 625 above.

Between 27 June 2017 and 9 August 2019, across nine occasions, Customer 25 referred eight different players to Star Qld. On each occasion, Customer 25 arranged for the referred player(s) to attend Star Qld on a rebate program without Customer 25 or her junket representative being present.

Customer 25 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 25 by remitting large amounts of money into, out of, and within the casino environment via her account, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

On 19 September 2019, a third party company acting on behalf of Customer 25 deposited a total of \$557,711 into the EEIS Patron accounts, which Star Sydney made available to Customer 25 through the EEIS remittance channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

On 29 July 2019, deposits through the Customer 9 channels totalling \$849,623 were made available by Star Sydney to Customer 25's account.

Remittances involving third parties

See paragraph 278 above.

On 27 July 2017, Star Sydney gave the AUSTRAC CEO three incoming IFTIs totalling \$1,614,639 where Customer 25 was named as the beneficiary, and the ordering customers were three different third party accounts overseas. The funds were made available to Customer 25's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 12 January 2017 and 9 November 2017, Star Sydney gave the AUSTRAC CEO eight incoming IFTIs totalling \$6,081,974 where Customer 25 was named as the ordering customer and beneficiary. The funds were deposited to her Star Sydney account.

In addition, between 23 September 2017 and 13 March 2020, Star Sydney received 12 telegraphic transfers totalling \$12,510,768, each of which was made available to Customer 25's FMA. At least \$5,036,748.20 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 5 July 2017 and 12 March 2019, Star Sydney sent four telegraphic transfers totalling \$7,710,326 from Customer 25's account to other Australian casinos.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 14 July 2017 and 19 September 2019, Star Sydney sent five transfers totalling \$1,152,391 from Customer 25's account to Star Qld.

Between 15 August 2019 and 15 October 2019, Star Sydney received five transfers totalling \$231,935 from Star Qld, each of which was made available to Customer 25's FMA. At least \$138,617 of the funds were transferred for the purpose of redeeming outstanding CCFs.

- j. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 25 by remitting large amounts of money into and within the casino environment via her account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 11 September 2017, Star Qld received a telegraphic transfer of \$98,850, which it made available to Customer 25's FMA at Star Gold Coast.

On 12 September 2017, Star Qld received a telegraphic transfer of \$115,021 from another Australian casino, which it made available to Customer 25's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 27 June 2017 and 30 September 2019, Star Qld facilitated three transfers totalling \$3,341,971 from Star Gold Coast to Treasury Brisbane, each of which was made available to Customer 25's FMA at Treasury Brisbane.

On 28 June 2017 and 1 October 2019, Star Qld facilitated two transfers totalling \$3,463,600 from Treasury Brisbane to Star Gold Coast, both of which were made available to Customer 25's FMA at Star Gold Coast.

Between 28 June 2017 and 28 January 2020, Star Qld received seven transfers totalling \$1,906,432 from Star Sydney, each of which was made available to Customer 25's FMA at Star Gold Coast.

Between 22 January 2019 and 15 October 2019, Star Qld facilitated twelve transfers totalling \$1,341,390 from Customer 25's FMA at Star Gold Coast to Star Sydney. At least \$138,617 of these funds were transferred for the purpose of redeeming an outstanding CCF.

k. Star Qld was aware that:

- i. Customer 25, and persons associated with her junkets, had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
- ii. Customer 25, and persons associated with her junket, transacted using large amounts of cash;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 11 June 2017 and 12 February 2018, Star Qld gave to the AUSTRAC CEO seven TTRs detailing chip and cash exchanges made by Customer 25 totalling \$462,150.

Between 31 July 2017 and 12 December 2019, Star Qld gave to the AUSTRAC CEO seven TTRs detailing account deposits and withdrawals made by Customer 25 totalling \$481,750.

Large and unusual transactions

In October 2017, Customer 25's junket at Star Qld had only one junket player. Customer 25 funded this program by drawing down on her CCF for \$1,000,000. Prior to 6 October 2017, a Star Sydney patron deposited \$300,000 into his Star Sydney account and then transferred these funds to another patron's Star Qld account. These funds were then transferred to the junket player on Customer 25's junket.

On 6 October 2017, the junket player attended Star Qld and received \$405,000 in chips from Customer 25's junket representative. The representative then entered a private gaming room. Star Qld's play records indicated that the player bought in with the chips.

Shortly afterwards, the junket player attended the Star Qld cashier and withdrew \$300,000 in cash from his Star Qld account. Star Qld noted that it was unusual for the junket player not to withdraw these funds as chips. Star Qld also observed that the junket player did not subsequently use the cash to purchase any chips.

Shortly afterwards, Star Qld observed that Customer 25's junket representative inserted the \$300,000 in cash which was divided into six \$50,000 units into a yellow envelope.

Star Qld then observed that a Star Qld patron, who was later identified as a close associate of the junket player, delivered the envelope to the junket player in a private gaming room. The junket player removed \$100,000 of the cash and handed the envelope to his associate. The associate then left the envelope on a gaming table. Soon afterwards, the player's associate departed the premises with \$100,000 withdrawn by the junket player. Star Qld observed the junket player taking a paper bag filled with the remaining \$200,000 in cash and entering a penthouse on Star Qld premises.

Star Qld considered that it was very unusual for a person to deposit \$300,000 in cash at Star Sydney, transfer these funds to a person at Star Qld, and then for that person to again transfer the funds to another customer at Star Qld. It also considered that it was very unusual for this ultimate recipient not to use the funds to gamble, but instead withdraw them as cash, give \$100,000 of the funds to a further person who was not registered as a player, and keep the remaining \$200,000 for themselves: SMR dated 9 October 2017.

- I. Customer 25, and persons associated with her junket, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney, including large volumes of cash in small notes in rubber bands and shopping bags;

Particulars

See paragraphs 611 to 618 above.

Between 8 May 2017 and 6 February 2020, Star Sydney gave the AUSTRAC CEO 23 TTRs detailing chip and cash exchanges, and other exchanges made by Customer 25 totalling \$1,217,734.

Between 1 March 2017 and 29 July 2020, Star Sydney gave the AUSTRAC CEO 90 TTRs detailing account deposits and withdrawals made by Customer 25 totalling \$6,591,889.

On 1 March 2017, Customer 25 withdrew \$200,000 from her FMA at Star Sydney.

Between 7 August 2017 and 26 July 2020, Customer 25's junket representatives deposited \$1,387,000 in cash into her FMA at Star Sydney, including cash in \$100 denominations bundled in straps issued by Star, cash in small notes bundled with elastic bands and cash withdrawn from shopping bags: SMRs dated 7 January 2019 and 27 July 2020.

Between 8 May 2017 and 13 July 2020, junket representatives of Customer 25's junkets withdrew \$2,365,250 in cash from her FMA at Star Sydney, including cash that the junket representatives handed to junket players who were experiencing a loss at that time: SMRs dated 4 January 2019 and 15 July 2020.

Between 8 May 2017 and 24 October 2018 representatives of Customer 25's junkets exchanged \$706,000 in chips for cash at Star Sydney.

On 22 July 2020, Customer 25's junket representative attended the Star Sydney cashier with a backpack. The representative withdrew an orange plastic shopping bag and a recyclable shopping bag from the backpack and produced \$417,000 in cash to deposit into Customer 25's account. The cash comprised \$250,000 in \$100 notes bundled in straps issued by Star and \$250,000 in \$50 notes bundled in elastic bands. When Star Sydney asked the representative where the cash was sourced from, the representative advised that he did not know, that his 'company' had told him to deposit the cash and that he thought the cash originated at the casino. Star Sydney identified that the \$100 notes were issued by Star and sourced from a withdrawal made on 13 July 2020, but that the \$50 notes were not issued by Star. After processing the deposit, another of Customer 25's junket representative attended the Star Sydney cashier. The junket representative requested that Star Sydney return the backpack and presented \$135,000 in cash and \$25,000 in cash chips to deposit into Customer 25's account. The cash was comprised of \$4,400 in \$100 notes, \$125,600 in \$50 notes and \$5,000 in \$20 notes. The junket representative advised that the funds were sourced from a player on Customer 25's junket. The junket representative then withdrew \$160,000 in chips from Customer 25's account and handed the chips to a customer who was not a player on Customer 25's junket: SMR dated 24 July 2020.

- m. at various times, Customer 25 had significant parked or dormant funds in her SKA;

Particulars

On and from 4 September 2020, Customer 25 had \$947,679 parked in her SKA.

See paragraph 284 above.

- n. in 2020, Customer 25 was the subject of law enforcement enquiries at Star; and

Particulars

On 13 January 2020, Star Sydney received a request for information from a law enforcement agency in respect of Customer 25.

In August 2020, Star Sydney received multiple requests from a law enforcement agency seeking details about Customer 25.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- o. Star Sydney and Star Qld did not have adequate reason to believe that Customer 25's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 25 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 25 was the junket operator, junket funder and an employee of an international junket operator. Star further understood that the international junket was a subsidiary of the international Suncity junket operated by Customer 3 and Customer 4, and funded by Customer 1.

In 2017, Customer 25 recorded a very high junket turnover in respect of junkets that she operated. Moreover, persons associated with Customer 25's junket engaged in large and suspicious cash transactions. In 2020, Customer 25 was the subject of multiple law enforcement enquires. Star did not take steps to verify the source of funds used in connection with Customer 25's junkets.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 25

1272. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 25 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 25.
- a. On and from 30 November 2016, Customer 25 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 25's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from 2017, Customer 25 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 25's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 25 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 12 January 2016, Customer 25 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 19 February 2016, Customer 25 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 25 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 25's transactions

1273. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 25's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 25, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept by Star Sydney and Star Qld of designated services provided to junket players on Customer 25's junket as turnover was recorded against Customer 25 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 25 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel and the Customer 9 channels;

Particulars

See paragraphs 441 and 493 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 25 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 25 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- g. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 25.

Particulars

Star senior management were not specifically informed of 23 large and suspicious cash incidents involving Customer 25 between 1 March 2017 and 26 July 2020: See *Customer 25's risk profile*.

The review, update and verification of Customer 25's KYC information

- 1274. Star Sydney and Star Qld did not review, update and verify Customer 25's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 25's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 25's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 25's source of wealth or source of funds: see *Customer 25's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 25's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 25.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 25's high ML/TF risks

1275. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 25 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 25; and
 - c. reviewing and updating Customer 25's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 25 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 25*.

ECDD triggers in respect of Customer 25

1276. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 25 following any ECDD triggers in respect of Customer 25.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1277. Customer 25:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 4 January 2019 and 27 July 2020, Star Sydney gave the AUSTRAC CEO five SMRs with respect to Customer 25.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 9 October 2017, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 25.

1278. Each matter pleaded in paragraph 1277 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1279. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 25 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 25 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 25 and the provision of designated services to Customer 25 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809 above.

Between 2 January 2019 and 19 February 2021, Star Sydney conducted ECDD in respect of Customer 25. The ECDD screenings did not identify any adverse material in respect of Customer 25.

Star understood that Customer 25 was the junket operator, junket funder and an employee of an international junket operator. Star further understood that the international junket was a subsidiary of the international Suncity junket operated by Customer 3 and Customer 4 and funded by Customer 1.

In 2017, Customer 25 recorded a very high junket turnover in respect of junkets that she operated. Moreover, persons associated with Customer 25's junket engaged in large and suspicious cash transactions. In 2020, Customer 25 was the subject of multiple law enforcement enquires. Star did not take steps to verify the source of funds used in connection with Customer 25's junkets.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 25's higher ML/TF risks: see *Customer 25's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 25's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 25's source of wealth or source of funds: see *Customer 25's risk profile*.

- b. Customer 25 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 25

1280. By reason of the matters pleaded from paragraphs 1266 to 1279, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 25 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1281. By reason of the matters pleaded at paragraph 1280, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 25.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 26

1282. Customer 26 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$250 million for Customer 26.

Particulars

Customer 26 was a customer of Star Sydney from at least 26 April 2016.

1283. Star Sydney provided Customer 26 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2019, Star Sydney recorded that junkets operated by Customer 26 had a turnover exceeding \$510 million.

Particulars

On 26 April 2016, Star Sydney opened an FMA and SKA for Customer 26 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 26 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 26's risk profile below.

1284. Customer 26 was a customer of Star Qld during the relevant period. Between 2017 and 2020, Star Qld recorded turnover exceeding \$450 million for Customer 26.

Particulars

Customer 26 was a customer of Star Qld from at least 2 February 2017.

1285. Star Qld provided Customer 26 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2020, Star Qld recorded that junkets operated by Customer 26 had a turnover exceeding \$1.3 billion.

Particulars

On 2 February 2017, Star Qld opened an FMA for Customer 26 which remains open (item 11, table 3, s6 of the Act).

On 4 April 2017, Star Qld opened an SKA for Customer 26 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 26 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 26's risk profile below.

1286. At all times from 30 November 2016 in respect of Star Sydney, and 2 February 2017 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 26.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 26's risk profile

1287. On and from 30 November 2016, Customer 26, and the provision of designated services to Customer 26 by Star Sydney and Star Qld posed higher ML/TF risks because of the following red flags:

Customer 26's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 26 had the following risk history:
- i. Customer 26 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

On 22 April 2016, Customer 26 was approved to be a junket operator at Star Sydney.

Between 26 April 2016 and 15 November 2016, Customer 26 operated two junkets at Star Sydney, each of which was funded by a person other than Customer 26, Person 30.

By 30 November 2016, \$9,000,000 in funding had been provided to Customer 26's junkets.

By 30 November 2016, junkets operated by Customer 26 had a turnover of \$18,583,890 with wins of \$294,665.

- ii. Customer 26, and persons associated with his junket, transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

For example, between 29 April 2016 and 2 May 2016, a junket representative of Customer 26's junket cashed out chips on three

occasions totalling \$616,000. Cash totalling \$500,000 was then placed in a safe deposit box.

- iii. Customer 26 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraphs 337 and 338 above.

On 3 May 2016, Star Sydney issued a letter of comfort purportedly confirming Customer 26's winnings totalling \$701,825.

Customer 26's risk profile from 30 November 2016

- b. Customer 26 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 27 December 2016 and 17 December 2019, Customer 26 operated 57 junkets at Star Sydney, each of which was funded by a person other than Customer 26, Person 30;

Particulars

In 2017, 2018 and 2019, Customer 26 was one of the top ten junket operators who operated the highest number of junkets at Star Sydney.

Between 27 December 2016 and 17 December 2019, \$193,008,000 in funding was provided to Customer 26's Star Sydney junkets by Person 30.

- ii. between 27 December 2016 and 17 December 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 26 was \$514,258,911 with wins of \$5,452,296;

Particulars

In 2017, junkets operated by Customer 26 had a turnover of \$194,020,983 with losses of \$125,039.

In 2018, junkets operated by Customer 26 had a turnover of \$190,140,830 with wins of \$6,918,995.

In 2019, junkets operated by Customer 26 had a turnover of \$130,097,097 with losses of \$1,341,660.

- iii. although Customer 26 was a player on a number of their own junkets, between 27 December 2016 and 17 December 2019, Star Sydney recorded a cumulative turnover of \$216,849,565 for Customer 26 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1287.d below.

- iv. between 2017 and 2019, total benefits of \$3,342,166 were payable to Customer 26 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;
- v. Customer 26 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 26 operated junkets in non-exclusive private gaming rooms, including the Sovereign Room and Pit 80.

Customer 26 operated junkets in exclusive private gaming rooms, including Salon 67, Salon 69, Salon 73, Salon 75, Salon 76, Salon 77, Salon 78, Salon 83, Salon 85, Salon 86, Salon 88, Salon 89, Salon 91, Salon 92 and Salon 98.

- vi. Customer 26 had ten junket representatives at Star Sydney; and
- vii. Customer 26 and his junket representatives facilitated the provision of high value designated services to 96 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 26 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 4 February 2017 and 16 March 2020, Customer 26 operated 27 junkets at Star Qld, 22 of which were funded by persons other than Customer 26 including Customer 31;

Particulars

On 8 March 2017, Customer 26 was approved to be a junket operator at Star Qld.

In 2017, 2018, 2019 and 2020, Customer 26 was one of the top ten junket operators who operated the highest number of junket programs at Star Gold Coast.

In 2017, 2019 and 2020, Customer 26 was one of the top ten junket operators whose junket operations involved the highest total turnover at Star Gold Coast.

In 2019, Customer 26 was one of the top ten junket operators who operated the highest number of junket programs, and whose junket operations involved the highest total turnover, at Treasury Brisbane.

Between 4 February 2017 and 16 March 2020, \$85,821,410 in funding was provided to Customer 26's junkets by other Star Qld customers, including Customer 31.

- ii. between 4 February 2017 and 16 March 2020, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 26 was \$1,352,686,745 with losses of \$28,513,865;

Particulars

In 2017, junkets operated by Customer 26 had a turnover of \$243,918,363 with losses of \$871,350.

In 2018, junkets operated by Customer 26 had a turnover of \$51,726,597 with losses of \$620,510.

In 2019, junkets operated by Customer 26 had a turnover of \$1,049,880,832 with losses of \$26,492,615.

In 2020, junkets operated by Customer 26 had a turnover of \$7,160,953 with losses of \$529,390.

- iii. although Customer 26 was a player on a number of their own junkets, between 2 June 2017 and 16 March 2020, Star Qld recorded a cumulative turnover of \$233,340,751 for Customer 26 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1287.e below.

- iv. between 2017 and 2020, total benefits of \$11,448,810 were payable to Customer 26 by Star Qld in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 26 was entitled to benefits from Star Qld in his capacity as a junket operator:

f. in 2017, total benefits of \$1,736,815 were payable to Customer 26;

g. in 2018, total benefits of \$1,488,875 were payable to Customer 26;

h. in 2019, total benefits of \$8,139,725 were payable to Customer 26; and

i. in 2020, total benefits of \$83,394 were payable to Customer 26.

- v. Customer 26 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 26 operated junkets in non-exclusive private gaming rooms, including Pit 6, Pit 7, Pit 11 and Pit 12.

Customer 26 operated junkets in exclusive private gaming rooms, including Pit 10, Salon 9, Salon 21, Salon 22, Salon 66, Salon 88, Salon 90, Salon 96, Salon 98 and Salon 99.

- vi. Customer 26 had five junket representatives at Star Qld; and
- vii. Customer 26 and his junket representatives facilitated the provision of high value designated services to 58 junket players at Star Qld, including foreign PEPs;

Particulars

See paragraphs 643 to 649 above.

- d. Customer 26 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 20 February 2017 and 27 July 2017, Customer 26 was recorded to be a player on nine junkets at Star Sydney operated by himself;
 - ii. each of the junkets was funded by a person other than Customer 26; and
 - iii. between 20 February 2017 and 27 July 2017, Star Sydney recorded high turnover totalling \$42,157,960 with losses of \$115,315 for Customer 26's gaming activity on junket programs;
- e. Customer 26 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 4 February 2017 and 14 February 2019, Customer 26 was a player on five junkets at Star Qld operated by himself;
 - ii. each of the junkets was funded by a person other than Customer 26; and
 - iii. between 4 February 2017 and 14 February 2019, Star Qld recorded high turnover totalling \$219,947,598 with wins of \$1,041,960 for Customer 26's gaming activity on junket programs;
- f. designated services provided to Customer 26 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 26 referred players to Star Sydney;

Particulars

See paragraph 625 above.

Customer 26 received a commission on amounts wagered by referred players, who Star Sydney dealt with directly.

- h. between 26 December 2017 and 7 July 2019, across three occasions, Customer 26 referred two different players to Star Qld;

Particulars

See paragraph 625 above.

Between 26 December 2017 and 7 July 2019, across three occasions, Customer 26 referred two different players to Star Gold Coast.

On each occasion, the Customer 26 received a commission on the amounts wagered by the other players, who Star Qld dealt with directly.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 26 by remitting large amounts of money into, out of, and within the casino environment via his account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 26 January 2017 and 28 October 2019, Star Sydney received nine telegraphic transfers totalling \$3,757,673, each of which was made available to Customer 26's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 27 May 2017 and 24 August 2018, Star Sydney sent six telegraphic transfers totalling \$4,834,528 from Customer 26's account to overseas bank accounts.

On 7 May 2019, Star Sydney sent a telegraphic transfer of \$170,000 to a third party's overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 7 February 2017 and 27 September 2019, Star Sydney received six transfers totalling \$1,517,213 from Star Qld, each of which was made available to Customer 26's account.

Between 4 April 2017 and 16 March 2020, Star Sydney sent eleven transfers totalling \$2,362,650 from Customer 26's account to Star Qld.

In addition:

- a. on 18 July 2018, Star Sydney facilitated a transfer of \$110,000 from Customer 26's FMA at Star Sydney to the FMA of a junket player; and

- b. on 24 January 2019, Star Sydney facilitated a transfer of \$5,000,000 from Customer 31's account at Star Sydney to Customer 26's account at Star Qld.
- j. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 26 by remitting large amounts of money into, out of, and within the casino environment via his account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 14 July 2017, Star Qld received a telegraphic transfer of \$92,000, which it made available to Customer 26's FMA at Star Gold Coast.

The funds were transferred for the purpose of redeeming an outstanding CCF.

On 18 March 2019, Star Qld received a telegraphic transfer of \$457,575, which it made available to Customer 26's FMA at Star Gold Coast. The funds were transferred for the purpose of being provided to another junket operator at Star Qld, Person 30.

On 23 January 2019, Star Qld received a telegraphic transfer of \$2,000,000 from a bank account held by Customer 31, which it made available to Customer 26's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 327 above.

For example, on 22 January 2019, Star Qld facilitated a telegraphic transfer of \$49,548 from Customer 26's FMA at Star Gold Coast to another Australian casino. The funds were intended for a third party, Person 30.

This transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 24 January 2019 and 6 August 2019, Star Qld facilitated nine transfers totalling \$6,947,444 from Customer 26's FMA at Star Gold Coast to Star Sydney.

On 10 February 2019, Star Qld facilitated a transfer of \$3,000,000 from Star Gold Coast to Treasury Brisbane, which it made available to Customer 26's FMA at Treasury Brisbane.

On 14 February 2019 and 2 March 2019, Star Qld facilitated two transfers totalling \$3,126,739 from Treasury Brisbane to Star Gold

Coast, both of which were made available to Customer 26's FMA at Star Gold Coast.

Between 11 July 2018 and 25 October 2019, Star Qld received six transfers totalling \$1,241,467 from Star Sydney, each of which was made available to Customer 26's SKA. The funds were transferred for the purpose of redeeming an outstanding CCF.

In addition:

- a. on 21 January 2019, Customer 26 received \$3,000,000 into his Star Qld account from Customer 31's Star Qld account;
 - b. on 24 January 2019, Customer 31 transferred \$5,000,000 from his account at Star Sydney to Customer 26's account at Star Qld; and
 - c. between 22 January 2019 and 8 February 2019, a junket player transferred a total of \$4,149,669 from his Star Sydney FMA to Customer 26's Star Gold Coast account.
- k. Star Sydney was aware that Customer 26 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Large and unusual transactions in 2017

On 17 December 2017, Customer 26's junket representative withdrew \$160,000 in cash from Customer 26's account. The junket representative gave the majority of the cash to a third party who requested to deposit the funds into another junket operator's account, Customer 32. Star Sydney declined the request. The third party opened an FMA to complete the transaction: SMR dated 18 December 2017.

Large and unusual transactions in 2018

On 18 July 2018, Customer 26 and the junket funder transferred a total of \$310,000 to a junket player's FMA. The junket player had recorded a win of \$226,000 at the time. Star Sydney considered these transfers to be disproportionate to the gaming activity recorded by the junket player: SMR dated 18 July 2018.

Large and unusual transactions in 2019

On 24 January 2019, Customer 31 funded Customer 26's junket at Star Qld by transferring \$5,000,000 from his Customer 31's at Star Sydney. At settlement, Customer 26 requested Star Qld transfer \$1,349,960 to Customer 26's Star Sydney account. Subsequently, Customer 26's junket representative withdrew \$540,000 in cash from Customer 26's account and then met with Customer 26: SMR dated 25 January 2019.

On 11 June 2019, Customer 26's junket had recorded a win of \$85,570. Customer 26's junket representative exchanged \$150,000 in chips for cash on behalf of Customer 26. Several hours later, the junket representative deposited \$359,276 in cash into another junket operator's account, Person 30. Half of the cash appeared to be the same cash paid out on behalf of Customer 26's junket and the remainder had Star Gold Coast straps. The funds were withdrawn to redeem the other junket operator's CCF. Star Sydney considered these transactions to be suspicious due to the large volumes of cash being moved between two junket operators by one junket representative: SMR dated 12 June 2019.

- I. Star Qld was aware that Customer 26 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Large and unusual transactions in 2017

On 4 April 2017, a junket player on Customer 26's junket telegraphically transferred \$152,410 to Star Qld which was deposited into his FMA. On 15 April 2017, the junket player transferred \$150,000 to Customer 26. Another junket operator provided an additional \$1,000,000 in front money to Customer 26's junket. The junket player lost approximately \$8,000. At the end of play, Customer 26 cashed out \$100,000 in chips and gave the cash to the junket player. On 22 April 2017, the junket player deposited the funds into his FMA. On 26 April 2017, the junket player transferred \$102,410 from his FMA to his personal bank account overseas. Star Qld was unable to account for the balance of the original funds and noted that there were no records of the other two players on the junket cashing out chips of \$10,000 or more: SMR dated 26 April 2017.

Large and unusual transactions in 2018

On 9 April 2018, Customer 26 operated a junket with two junket players and \$3,000,000 in front money. Customer 26's junket representative withdrew \$300,000 in cash from Customer 26's account and handed the cash to one of the junket players. However, the junket player had recorded a loss of \$400,000 at the time. Star Qld considered this an unusual transaction given the loss recorded and large volume of cash involved: SMR dated 10 April 2018.

On 30 July 2018, at the end of junket play, Customer 26's junket was showing a win of approximately \$1,000,000. Customer 26's junket representative withdrew \$700,000 in cash from Customer 26's account. At the time, Star Qld did not have any other records of cash payouts for any comparable amount and was not aware of whether the cash was dispersed amongst the players on the junket: SMR dated 31 July 2018.

Large and unusual transactions in 2019

On 20 January 2019, a junket player on Customer 26's junket presented \$100,000 in cash to purchase chips at Star Qld. The cash appeared to be from Star Sydney. The junket player recorded a loss of \$287,800 on the junket. Star Qld was unaware of any funding provided to the junket player by Customer 26: SMR dated 22 January 2019.

On 21 January 2019, Customer 31 transferred \$3,000,000 from his Star Sydney account to his Star Gold Coast account and then further transferred the funds to Customer 26's Star Gold Coast account. Customer 26 used the funds for a junket program: SMR dated 22 January 2019.

On 5 February 2019, a group of ten junket players under Customer 26's junket arrived at Star Qld. Only one junket player engaged in significant gaming activity. Between 22 January 2019 to 8 February 2019, that junket player had received eight telegraphic transfers totalling \$4,149,669 into his Star Sydney account. Star was unaware of the source of those funds. Between 6 February 2019 and 8 February 2019, the junket player transferred \$4,150,000 from his FMA to Customer 26's FMA. A total of \$10,500,000 had been used by Customer 26 as front money from the junket, including funds transferred from the junket player, funds transferred from Customer 26's SKA and funds transferred from a junket funder: SMR dated 8 February 2019.

By 8 February 2019, the junket player recorded a loss of \$8,000,000. Star Qld was not aware of why the telegraphic transfers were initially sent to Star Sydney and not Star Qld: SMR dated 8 February 2019.

On 4 July 2019, a junket player on Customer 26's junket, who was a foreign PEP, became a customer at Star Qld. On 7 July 2019, Customer 26 provided \$500,000 in funding to the junket player. On 8 July 2019, Customer 26 drew down another \$200,000 to add to the player's front money. The junket player recorded a loss of \$253,000. At settlement, the junket player took a total of \$172,940 in cash. The funds comprised \$22,940, being half of the commission paid on the junket, and \$150,000 from the \$200,000 funded by Customer 26. Star Qld was not aware of any relationship between the junket player and Customer 26 other than in connection with the junket program. Star Qld considered it suspicious that Customer 26 facilitated the cash payment to the junket player given that player's loss on the program: SMR dated 9 July 2019.

- m. Customer 26, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1287.k above.

Large and suspicious cash transactions in 2017

On 9 June 2017, Customer 26's junket representative, Person 34, withdrew \$100,000 from Customer 26's FMA at Star Sydney.

Large and suspicious cash transactions in 2018

On 4 May 2018, Customer 26's junket representative, Person 34, withdrew \$100,000 in cash from Customer 26's FMA at Star Sydney.

On 7 May 2018, Customer 26's junket representative, Person 34, deposited \$171,400 in cash into Customer 26's FMA.

On 8 May 2018, Customer 26's junket representative, Person 34, withdrew \$1,294,051 in cash from Customer 26's account. The cash had been deposited from an earlier junket settlement. Following the transaction, Person 34 placed the cash in a Star bag and proceeded to a hotel tower: SMR dated 9 May 2018.

On 14 September 2018, Customer 26's junket representative withdrew \$350,050 in cash from Customer 26's account. The junket representative distributed the cash between two customers. One customer was a junket player on Customer 26's junket but the other customer had no known links to Customer 26 or his junket: SMR dated 17 September 2018.

On 17 September 2018, Customer 26's junket representative withdrew \$735,294 in cash from Customer 26's account. The junket representative placed the cash into paper bags and returned to a private gaming room at Star Sydney: SMR dated 19 September 2018.

On 4 December 2018, Customer 26's junket representative, Person 34, withdrew \$100,000 in cash from Customer 26's FMA. The junket representative gave \$50,000 in cash to a junket player on Customer 26's junket. The junket player had recorded a win of \$1,372,000 for the junket.

Large and suspicious cash transactions in 2019

On 18 January 2019, Customer 26's junket representative exchanged \$110,000 in chips for cash on behalf of Customer 26. The junket had recorded a win of \$226,430.

On 25 January 2019, Customer 26's junket representative withdrew \$430,119 in cash from Customer 26's account. Several hours after the withdrawal, the junket representative gave \$810,000 in cash to another customer. The cash comprised \$470,000 in \$100 notes and \$340,000 in \$50 notes. Star Sydney was not aware of whether it was the same cash withdrawn by the junket representative. However, Star Sydney understood that the \$430,119 in cash had been placed in a safe deposit box which had not subsequently been accessed. The other customer had no known links to Customer 26 or the junket representative: SMR dated 29 January 2019.

On 7 May 2019, Customer 26's junket representative withdrew \$140,000 in cash from Customer 26's SKA.

On 7 August 2019, Customer 26's junket representative withdrew \$203,277 in cash from Customer 26's SKA. The transaction was funded by a recently settled program which had recorded a win of \$195,935.

On 28 November 2019, Customer 26's junket representative withdrew \$100,000 in cash from Customer 26's SKA. The junket had recorded a loss of \$988,200 but was ongoing.

- n. Customer 26, and persons associated with his junket, transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1287.l above.

On 17 March 2020, Customer 26's junket representative withdrew \$110,000 in cash from Customer 26's SKA.

- o. Customer 26 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraphs 337 and 338 above.

Between 7 May 2019 and 7 August 2019, Star Sydney issued a letter of comfort on three occasions purportedly confirming Customer 26's winnings totalling \$679,265 under various account numbers allocated to Customer 26.

- p. Customer 26 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 26 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Springs Salons, Lakes Salons, Oasis, Harbours Salons and Rivers Salons.

- q. Customer 26 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 26 had access to private gaming rooms at Star Qld, including the Sovereign Room, Pit 8, Pit 9, Pit 10, The Club, Salon 99, Salon 98, Salon 96, Salon 90, Salon 88, Salon 66, Salon 22, Salon 21 and the Club Conrad.

- r. in 2019, Customer 26 was the subject of a law enforcement enquiry at Star; and

Particulars

On 29 January 2019, Star Sydney received a request from a law enforcement agency for details in respect of Customer 26 and his junket representative.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- s. Star Sydney and Star Qld did not have adequate reason to believe that Customer 26's source of wealth and source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 26 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 26's occupation to be as a junket operator.

In 2017, the turnover of junkets operated by Customer 26 escalated very significantly. In 2017 alone, Star Sydney and Star Qld recorded turnover exceeding \$430 million in respect of junkets operated by Customer 26 which included tens of millions in turnover attributed to Customer 26 as a junket player. Between 2016 and 2019, other Star Sydney and Star Qld customers, including Customer 31, provided over \$270 million in funding towards junkets operated by Customer 26.

However, at no stage did Star Sydney or Star Qld obtain further source of wealth or source of funds information in respect of Customer 26 or the persons who funded his junkets which would explain the high value financial and gaming services received by him.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 26

1288. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 26 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 26.
 - a. On and from 30 November 2016, Customer 26 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 26's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from 2017, Customer 26 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 26's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 26 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 5 May 2016, Customer 26 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 26 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 26's transactions

1289. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 26's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 26, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 26's junket as turnover was recorded against Customer 26 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 26 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 26 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 26.

Particulars

Star senior management were not specifically informed of the 18 large and suspicious cash incidents involving Customer 26 between 9 June 2017 and 28 November 2019: See *Customer 26's risk profile*.

The review, update and verification of Customer 26's KYC information

- 1290. Star Sydney and Star Qld did not review, update and verify Customer 26's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 26's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 26's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 26's source of wealth or source of funds: see *Customer 26's risk profile*.

Star understood Customer 26's occupation to be as a junket operator.

In 2017, the turnover of junkets operated by Customer 26 escalated very significantly. In 2017 alone, Star Sydney and Star Qld recorded turnover exceeding \$430 million in respect of junkets operated by

Customer 26 which included tens of millions in turnover attributed to Customer 26 as a junket player. Between 2016 and 2019, other Star Sydney and Star Qld customers, including Customer 31, provided over \$270 million in funding towards junkets operated by Customer 26.

However, at no stage did Star Sydney or Star Qld obtain further source of wealth or source of funds information in respect of Customer 26 or the persons who funded his junkets which would explain the high value financial and gaming services received by him.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 26's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 26.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 26's high ML/TF risks

1291. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- identifying and assessing the ML/TF risks posed by Customer 26 appropriately;
 - applying appropriate risk-based transaction monitoring to Customer 26; and
 - reviewing and updating Customer 26's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 26 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 26*.

ECDD triggers in respect of Customer 26

1292. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 26 following any ECDD triggers in respect of Customer 26.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1293. Customer 26:

- was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 18 December 2017 and 12 June 2019, Star Sydney gave the AUSTRAC CEO eight SMRs with respect to Customer 26.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 26 April 2017 and 9 June 2019, Star Qld gave the AUSTRAC CEO seven SMRs with respect to Customer 26.

1294. Each matter pleaded in paragraph 1293 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1295. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 26 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 26 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 26 and the provision of designated services to Customer 26 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 7 May 2019, 11 June 2019, 8 August 2019 and 27 January 2021, Star conducted ECDD in respect of Customer 26.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 26's higher ML/TF risks: see *Customer 26's risk profile* above.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 26's source of wealth or source of funds: see *Customer 26's risk profile*.

Rules 15.10(2) and (5) of the Rules.

- b. Customer 26 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 26

1296. By reason of the matters pleaded from paragraphs 1282 to 1295, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 26 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1297. By reason of the matters pleaded at paragraph 1296, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 26.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1298. By reason of the matters pleaded from paragraphs 1282 to 1295, on and from 2 February 2017, Star Qld:

- a. did not monitor Customer 26 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1299. By reason of the matters pleaded at paragraph 1298, Star Qld contravened s36(1) of the Act on and from 2 February 2017 with respect to Customer 26.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 27

1300. Customer 27 was a customer of Star Sydney during the relevant period. Between 2017 and 2018, Star Sydney recorded turnover exceeding \$280 million for Customer 27.

Particulars

Customer 27 was a customer of Star Sydney from at least 6 December 2017.

On 14 January 2019, Star Sydney issued a WOL in respect of Customer 27 at the direction of the Investigations Manager.

1301. Star Sydney provided Customer 27 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2018, Star Sydney recorded that junkets operated by Customer 27 had a turnover exceeding \$740 million.

Particulars

On 6 December 2017, Star Sydney opened an FMA and SKA for Customer 27, which were closed on 12 November 2019 (item 11, table 3, s6 of the Act).

Between 13 April 2018 and 20 August 2018, Star Sydney approved CCFs for Customer 27 on 23 occasions ranging from \$20,000 to \$760,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 27 (items 31 and 32, table 1, s6 of the Act).

See Customer 27's risk profile below.

1302. At all times from 6 December 2017, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 27.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 27's risk profile

1303. On and from 6 December 2017, Customer 27, and the provision of designated services to Customer 27 by Star Sydney, posed higher ML/TF risks because of the following red flags:
- a. Customer 27 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2018, Customer 27 operated 11 junkets at Star Sydney;

Particulars

Customer 27 was approved by Star Sydney as a junket operator on 11 December 2017.

- ii. between 2017 and 2018, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 27 was \$748,625,757 with losses of \$17,106,715;
- iii. although Customer 27 was a junket player on some of his own junkets, in 2018, Star Sydney recorded a cumulative turnover of \$27,941,251 for Customer 27 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2017 and 2018, total benefits of \$4,879,973 were payable to Customer 27 by Star Sydney in his capacity as a junket operator for rebates earned and other benefits;

Particulars

Customer 27 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2017, total benefits of \$188,104 were payable to Customer 27; and
 - b. in 2018, total benefits of \$4,691,869 were payable to Customer 27.
- v. Customer 27 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket; and

Particulars

Customer 27 operated junkets in non-exclusive private gaming rooms, including the Oasis Room, the Sovereign Room and Pit 80.

Customer 27 operated junkets in exclusive private gaming rooms, including Salon 69, Salon 73, Salon 75, Salon 76 and Salon 77.

- vi. Customer 27 and his junket representative facilitated the provision of high value designated services to 59 junket players at Star Sydney including players in respect of whom Star Sydney had formed suspicions such as Customer 56 and Customer 62;

Particulars

See paragraphs 643 to 649 above.

- b. Customer 27 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
- i. between 2017 and 2018, Customer 27 was recorded to be a player on nine junkets operated by himself; and
 - ii. between 2017 and 2018, Star Sydney recorded high turnover totalling \$280,690,341 with losses of \$3,254,180 for Customer 27's gaming activity on junket programs;
- c. designated services provided to Customer 27 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 27 was connected to other customers at Star Sydney including junket players in respect of whom Star Sydney had formed suspicions (such as Customer 60, Customer 56, and Customer 62);

Particulars

Star Sydney understood that Customer 27 was related to Customer 60.

Star Sydney suspected that Customer 60 had been funding the junkets operated by Customer 27 while Customer 60 was subject to a WOL issued by Star Sydney, despite not being recorded as a junket financier for Customer 27.

On 22 May 2018 a staff member at Star Sydney held discussions with Customer 60 and Customer 27 shortly after Customer 60's WOL was revoked. After these discussions, the staff member considered that Customer 60 was an undeclared funder of junkets operated by his relative Customer 27.

- e. Customer 27 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2018, Star Sydney recorded turnover totalling \$385,581 for Customer 27;
 - i. in 2018, Star Sydney recorded individual rated turnover totalling \$319,120 for Customer 27; and

Particulars

See paragraph 752 above.

- ii. between 2017 and 2018, Star Sydney recorded turnover on individual rebate programs totalling \$66,461 for Customer 27;

Particulars

See paragraph 623 above.

In 2017, Customer 27's turnover on individual rebate programs was \$26,000.

In 2018, Customer 27's turnover on individual rebate programs was \$40,461.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 27 by remitting large amounts of money within and out of the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

Between 12 December 2017 and 10 September 2018, Customer 27 transacted \$4,948,000 through the Hotel Card channel in 24 separate transactions and on all but one occasion was given a temporary CCF while waiting for the funds to clear.

Other remittances into the casino environment

See paragraph 327 above.

Between 3 March 2018 and 2 August 2018, Star Sydney received 14 telegraphic transfers totalling \$9,661,538, each of which was made available to Customer 27's account.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances out of the casino environment

See paragraph 327 above.

Between 14 March 2018 and 11 August 2018, Star Sydney sent five telegraphic transfers totalling \$3,041,429 from Customer 27's account to Australian bank accounts.

On 10 April 2019, following the WOL issued on 14 January 2019, Star Sydney reactivated Customer 27's FMA to transfer \$19,136 to Customer 27's bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 16 August 2018, Star Sydney sent a transfer of \$500,000 from Customer 27's account to Star Qld for the benefit of another customer, Person 18.

On 18 August 2018, Star Sydney received a transfer of \$500,000 from Star Qld, which it made available to Customer 27's account.

On 28 August 2018, Customer 27 transferred \$154,000 from his Star Sydney FMA to another customer's Australian bank account.

- g. designated services provided to Customer 27 included EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

On 24 April 2018 Star Sydney gave the AUSTRAC CEO one TTR detailing an EGM payout to Customer 27 totalling \$23,140.

- h. Customer 27, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and duffle bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 8 January 2018 and 12 October 2018, Star Sydney gave the AUSTRAC CEO 138 TTRs totalling \$5,321,502, including:

- a. 28 TTRs detailing account deposits made by Customer 27 totalling \$1,042,420;
- b. 67 TTRs detailing account withdrawals made by Customer 27 totalling \$1,881,472; and
- c. 43 TTRs detailing chip and cash exchanges made by Customer 27 totalling \$2,397,610.

Large and suspicious cash transactions in 2018

On 22 April 2018, Customer 27 attended Star Sydney and presented \$443,000 in chips to exchange for cash. He also withdrew \$13,750 in

cash. Customer 27 was accompanied by two assistants. After the cash was paid out, Customer 27 handed the cash to his assistants:
SMR dated 23 April 2018.

On 8 May 2018, Customer 27 attended Star Sydney and exchanged \$148,490 in chips for cash. After the transaction, Star Sydney observed Customer 27 hand all of the cash to two unknown persons, in equal portions. Star Sydney considered that the exchange of chips for cash was not unusual for a junket operator: SMR dated 9 May 2018.

On 15 May 2018, a Star Sydney customer, who was a guest of Customer 27 but not a member of the private gaming room, arrived at Star Sydney on foot carrying a duffle bag containing \$98,000 in \$100 notes and \$2,000 in \$50 notes, totalling \$100,000 in cash. The guest presented the duffle bag to the cashier and requested chips. Star Sydney noted that the guest stood awkwardly to the side of the cashier's window as the cash was being counted and asked nervously whether there were reporting limits on how much cash he could exchange. After the cash was counted, the guest presented another \$100,000 in \$100 notes bundled together in \$10,000 units with elastic bands. Star Sydney noted that the guest was constantly nervous and continued to question reporting limits. After the cash was counted, the guest began playing in the private gaming areas as Customer 27's guest. Within 30 minutes of play, the guest had lost \$127,000: SMR dated 16 May 2018.

- i. Customer 27 and persons associated with his junket engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including cashing-in large value chips with no evidence of play.

Particulars

See paragraph 25 above.

See paragraph 1303.h above.

- j. designated services provided to Customer 27 included storing cash in safe deposit boxes on at least one occasion;

Particulars

On 26 July 2018, a third party arrived at Star Sydney via car and retrieved a cooler bag from the car. The third party then met up with Customer 27 and they both attended the Star Sydney cage. The third party presented the cash, which comprised \$6,100 in \$100 notes, \$431,650 in \$50 notes and \$12,300 in \$20 notes, totalling \$450,050. The cash was bundled together with rubber bands in \$10,000 units and presented in a large, orange supermarket cooler bag. Customer 27 asked the cashier to count the cash and he did not appear to know how much cash there was. At Customer 27's request, the money was stored in a safe deposit box. Star Sydney considered that this activity was suspicious as Customer 27 did not have any large cash-outs to explain the amount of cash he presented, the cash was presented in

small denominations and he had not previously requested a safe deposit box: SMR dated 26 July 2018.

Following this, Star Sydney contacted law enforcement. Customer 27 was interviewed and he said he had been given the funds to hold for the time being. Customer 27 then agreed to surrender the funds contained in the safe deposit box to law enforcement, however Customer 27 was allowed to remain on site.

- k. by June 2018, Star Sydney had formed suspicions that Customer 27 was involved in proxy betting together with Customer 60;

Particulars

Between January 2018 and June 2018, Customer 27 was warned by Star Sydney staff members regarding involvement in proxy betting with Customer 60.

- l. by July 2018, Star Sydney had formed suspicions that Customer 27 was involved in money laundering at Star Sydney;

Particulars

By July 2018, Star Sydney's investigations team had commenced an investigation into Customer 27 for money laundering, following reports that Customer 27 had deposited \$450,050 in cash in a safe deposit box. The cash was ultimately surrendered to law enforcement following enquiries.

By 30 July 2018, Customer 27 was rated critical risk by Star Sydney: see *Star Sydney's determination of the ML/TF risks posed by Customer 27*.

- m. by September 2018, Star Sydney was aware of allegations that Customer 27 and Customer 60 were involved in loan-sharking and money-lending activities within the casino and used another junket operator as a proxy for their activities;

Particulars

On 6 September 2018, Star Sydney staff members were called to an incident in which a player alleged that Customer 27 and another individual had lent him money to gamble at Star Sydney, had forced him to sign a document confirming the value of funds lent, and were holding him against his will in a Star Sydney hotel room and were threatening him to repay the funds. Law enforcement was contacted and Customer 27 denied involvement. Charges were not laid and Star Sydney issued a 24-hour WOL in respect of Customer 27 and his associate.

In January 2019, Star Sydney was informed by law enforcement of a further complaint alleging that Customer 27, Customer 60 and their associate were involved in loan-sharking and proxy betting at Star Sydney, in which large debts incurred from gambling were required to be repaid at an inflated interest rate, or debtors were forced to transfer ownership of properties and other assets.

On 14 January 2019, Star Sydney investigators met with Customer 27, who denied the allegations. Star Sydney issued a WOL with respect to Customer 27 and his associate on the same day.

- n. in 2018 and 2019, Customer 27 was the subject of law enforcement enquiries at Star Sydney;

Particulars

On 2 May 2018, Star Sydney received a notice to produce from a law enforcement agency in respect of Customer 27.

In July 2018, Star Sydney received queries from a law enforcement agency in respect of Customer 27.

On 4 January 2019, Star Sydney was contacted by law enforcement in respect of Customer 27.

- o. Customer 27 had access to private gaming rooms at Star Sydney; and

Particulars

Customer 27 had access to private gaming rooms at Star Sydney including Sovereign, Chairman's, Oasis and Lakes Salons.

- p. Star Sydney did not have adequate reason to believe that Customer 27's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 27 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney recorded Customer 27's occupation as being 'Trades Workers and Technicians' and 'Junket Operator'.

By 22 May 2018, Star Sydney suspected that junkets operated by Customer 27 were secretly funded by Customer 60, who had been excluded from Star Sydney in 2016.

Despite forming these suspicions regarding Customer 27's source of wealth and source of funds, Star Sydney did not take appropriate steps to verify Customer 27's source of wealth or source of funds.

In 2018, junkets operated by Customer 27 had a recorded turnover of \$748 million at Star Sydney: see *Customer 27's risk profile* above.

On 14 January 2019 Customer 27 was issued a permanent WOL at Star Sydney following an investigation by Star Sydney investigators into Customer 27's involvement with Customer 60 and another individual in loan-sharking at the casino.

Star Sydney's determination of the ML/TF risks posed by Customer 27

1304. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 27 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 27.

1305. On 30 July 2018, Star Sydney rated Customer 27 as high risk for the purpose of the Act and Rules.

Particulars

See paragraph 110 above.

On 26 March 2018, Customer 27 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 3 April 2018, Customer 27 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 July 2018, Customer 27 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 30 July 2018, Customer 27 was rated critical risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 27's transactions

1306. At no time did Star Sydney apply appropriate transaction monitoring to Customer 27's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 27, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 27's junket as turnover was recorded against Customer 27 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 27 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Hotel Card channel; and

Particulars

See paragraph 790 above.

- e. Star Sydney provided designated services to Customer 27 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 27's KYC information

- 1307. Star Sydney did not review, update and verify Customer 27's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 27's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 27's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 27's source of wealth and source of funds were not legitimate: see *Customer 27's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 27's KYC information on and from 6 December 2017, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 27.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 14 January 2019, Star Sydney issued a WOL in respect of Customer 27.

ECDD triggers in respect of Customer 27

1308. Star Sydney was required to apply the ECDD Programs to Customer 27 following any ECDD triggers in respect of Customer 27.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

1309. Customer 27:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 22 April 2018 and 28 August 2018, Star Sydney gave the AUSTRAC CEO five SMRs with respect to Customer 27.

- b. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney.

Particulars

On 30 July 2018, Star Sydney determined that the ML/TF risks posed by Customer 27 was high risk for the purpose of the Act and Rules:
see *Star Sydney's determination of the ML/TF risks posed by Customer 27* above.

1310. Each matter pleaded in paragraph 1309 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1311. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 27 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 27 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 27 and the provision of designated services to Customer 27 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 22 May 2018, 6 June 2018, 18, 20 and 25 July 2018, and 20 August 2018, Star Sydney conducted ECDD in respect of Customer 27.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 27's higher ML/TF risks, in circumstances where Customer 27 and his associates engaged in large cash transactions using cash that appeared suspicious and where Customer 27 operated junket programs where turnover exceeded \$740 million in a single year: see *Customer 27's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 27's source of funds or source of wealth, in circumstances where Star Sydney suspected that a third party, Customer 60, was involved in supplying funds for his junket.

On 14 January 2019, Customer 27 was issued a permanent WOL at Star Sydney as a result of Customer 27's involvement with Customer 60 and another individual in loan-sharking at Star Sydney.

- b. Customer 27 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 27 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 27 and the provision of designated services to Customer 27 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between 10 May 2018 and 8 November 2018, Customer 27 was discussed at 11 JRAMM and PAMMs.

On 14 January 2019, Star Sydney issued a WOL in respect of Customer 27.

Contravention of s36 of the Act in respect of Customer 27

1312. By reason of the matters pleaded from paragraphs 1300 to 1311, on and from 6 December 2017, Star Sydney:
- a. did not monitor Customer 27 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1313. By reason of the matters pleaded at paragraph 1312, Star Sydney contravened s36(1) of the Act on and from 6 December 2017 to 14 January 2019 with respect to Customer 27.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 28

1314. Customer 28 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$200,000 for Customer 28.

Particulars

Customer 28 was a customer of Star Sydney from at least 13 February 2008.

On 24 May 2022, Star Sydney issued a WOL in respect of Customer 28 at the direction of the Star AML team.

1315. Star Sydney provided Customer 28 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket funder. Between 2017 and 2018, Star Sydney recorded that junkets operated by Customer 28 had a turnover exceeding \$820 million.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 28 which remain open (item 11, table 3, s6 of the Act).

Between 18 January 2010 and 17 February 2020, CCFs for Customer 28 were approved on five occasions, including a standing \$62,500,000 CCF limit from 22 March 2014 approved by the Board (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel and the Customer 9 channels, which it made available to Customer 28 (items 31 and 32, table 1, s6 of the Act).

See *Customer 28's risk profile* below.

1316. Customer 28 was a customer of Star Qld during the relevant period.

Particulars

Customer 28 was a customer of Star Qld from at least 23 September 2013.

On 24 May 2022, Star Qld issued a WOL in respect of Customer 28 at the direction of the Star AML team.

1317. Star Qld provided Customer 28 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket funder. In 2017, Star Qld recorded that junkets operated by Customer 28 had a turnover exceeding \$44 million.

Particulars

By 30 November 2016, Star Qld opened an FMA for Customer 28 which remains open (item 11, table 3, s6 of the Act).

Between 10 August 2010 and 7 June 2018, Star Qld approved CCFs for Customer 28 on two occasions ranging from \$2,000,000 to \$50,000,000 (item 6, table 1, s6 of the Act).

While a customer of Star Qld, Customer 28 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 28's risk profile below.

1318. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 28.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 28's risk profile

1319. On and from 30 November 2016, Customer 28, and the provision of designated services to Customer 28 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 28's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 28 had the following risk history:
 - i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 28;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 19 occasions between 9 June 2008 and 29 January 2016.

The SMRs reported transactions involving Customer 28 and his junket representatives, including large cash deposits, withdrawals and exchanges of chips for cash, large FMA to FMA transfers, and transactions involving safe deposit boxes.

- ii. between 2015 and 2016, Customer 28 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Between 2015 and 2016, Customer 28 operated 17 junkets at Star Sydney, one of which was funded by a junket funder.

- a. Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 28 was \$2,425,832,136 with losses of \$7,182,680.
 - b. although Customer 28 was a junket player on some of his own junkets, Star Sydney recorded a cumulative turnover of \$57,506,410 for Customer 28 as a junket player on his own junkets, despite not being a junket player on those particular junkets: see paragraph 670 above.
 - c. Customer 28 had nine junket representatives at Star Sydney.
 - d. Customer 28 and his junket representatives facilitated the provision of high value designated services to 26 junket players at Star Sydney, including players in respect of whom Star Sydney had formed suspicions, such as Customer 5.
 - e. on 22 March 2014, the Board approved a permanently active CCF with a facility limit of \$62,500,000 for Customer 28.
- iii. in 2016, Customer 28 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;

Particulars

In 2016, Customer 28's turnover on two junket programs that he operated was \$3,768,050 with losses of \$145,700.

- iv. in 2016, Customer 28 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

In 2016, Customer 28 operated one junket at Star Qld.

Star Qld recorded that the total cumulative turnover of the junket program operated by Customer 28 was \$25,411,464 with losses of \$163,950.

- v. Star Sydney had provided designated services to Customer 28 through safe deposit boxes;

Particulars

For example, on 22 November 2012, Customer 28's junket representative, cashed out \$745,000 in a private buy-in room at Star Sydney. The junket representative left the money in a safe deposit box, then returned and collected the cash from the safe deposit box. He then proceeded to level 9 of Star Sydney's hotel with the cash.

On 2 October 2014, Customer 28 retrieved \$250,000 in cash and \$72,200 in cash from his safe deposit box, which he then deposited into his front money account at Star Sydney.

- vi. Customer 28, and persons associated with his junket, transacted using large amounts of cash at Star Sydney; and

Particulars

Between 19 March 2010 and 27 October 2016, Star Sydney gave the AUSTRAC CEO 106 TTRs totalling \$6,898,346 involving Customer 28, which included:

- a. 55 TTRs detailing chip and cash exchanges totalling \$2,533,775;
- b. 14 TTRs detailing account deposits totalling \$918,330; and
- c. 37 TTRs detailing account totalling \$3,446,241.

Large and suspicious cash transactions in 2012

On 1 February 2012, Customer 28 exchanged \$100,000 in chips for cash at Star Sydney.

Large and suspicious cash transactions in 2013

Between 18 and 20 August 2013, Customer 28's junket representative, engaged in cash transactions totalling \$551,000.

On 5 December 2013, Customer 28's junket representative deposited \$100,000 in chips to Customer 28's junket account at Star Sydney.

Large and suspicious cash transactions in 2014

Between February 2014 and September 2014, Star Sydney recorded five cash transactions totalling \$727,000 conducted by Customer 28 or his junket representatives.

Large and suspicious cash transactions in 2015

Between 6 and 8 July 2015, Customer 28's junket representative:

- a. withdrew \$200,000 in cash from Customer 28's junket account at Star Sydney; and
- b. exchanged \$100,000 chips for cash on behalf of Customer 28's junket at Star Sydney.

Large and suspicious cash transactions in 2016

In January 2016, Star Sydney recorded the following cash transactions:

- a. on 26 January 2016, Customer 28 exchanged \$100,000 in chips for cash at Star Sydney;
- b. on 27 January 2016, Customer 28's junket representative, Person 14, withdrew \$111,350 from Customer 28's junket account at Star Sydney; and
- c. on 29 January 2016, Customer 28's junket representative, Person 14, exchanged \$360,000 chips for cash on behalf of Customer 28's junket at Star Sydney.

In June and October 2016, further transactions by Person 14 were recorded, including:

- a. on 27 June 2016, Person 14 exchanged \$100,000 in chips for cash on behalf of Customer 28's junket at Star Sydney;
 - b. on 22 July 2016, Person 14 withdrew \$100,000 in cash from Customer 28's junket account at Star Sydney; and
 - c. On 14 October 2016, Person 14 exchanged \$266,000 in chips for cash on behalf of Customer 28's junket at Star Sydney.
- vii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 28 by remitting large amounts of money into, out of and within the casino environment via his account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 14 October 2008 and 9 February 2016, Star Sydney gave the AUSTRAC CEO 26 incoming IFTIs totalling \$76,123,653 where Customer 28 was named as the beneficiary, including:

- a. 17 incoming IFTIs totalling \$57,269,604 from ten different third party company accounts overseas. Of these funds, \$26,620,742 was used to repay CCFs, and the remainder was deposited into Customer 28's SKA and FMA; and
- b. nine incoming IFTIs totalling \$18,854,049 where Customer 28 was named as the ordering customer and the beneficiary. Of these funds, \$1,832,231 was used to repay a CCF. The remainder was deposited into Customer 28's Star Sydney account or FMA.

In addition, on 12 November 2015 and 10 January 2016, Star Sydney received two telegraphic transfers totalling \$4,081,317, both of which were made available to Customer 28's SKA. The funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 3 July 2008 and 29 October 2014 Star Sydney gave the AUSTRAC CEO nine outgoing IFTIs totalling \$18,843,067 where Customer 28 was the ordering customer, including:

- a. seven outgoing IFTIs totalling \$17,182,668 where Customer 28 was named as the beneficiary; and
- b. two outgoing IFTIs totalling \$1,660,399 where the beneficiaries were different third party companies overseas.

Of these funds, \$16,290,136 were program settlements, and the remainder was withdrawn from Customer 28's Star Sydney FMA or SKA.

In addition, on 11 July 2015 and 12 September 2015, Star Sydney sent two telegraphic transfers totalling \$7,861,063 from Customer 28's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 26 April 2014, Customer 28 requested \$2,081,000 be transferred from his account to another Star Sydney customer's account at Star Sydney.

On 13 September 2016, Star Sydney sent a transfer of \$19,275 from Customer 28's account to Star Qld.

Customer 28's risk profile from 30 November 2016

- b. Customer 28 was a junket operator and junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2018, Customer 28 funded and operated nine junkets at Star Sydney;
 - ii. between 2017 and 2018, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 28 was \$821,552,038 with losses of \$45,949,397;

Particulars

In 2017, junkets operated by Customer 28 had turnover of \$368,873,318 with losses of \$12,916,147.

In 2018, junkets operated by Customer 28 had turnover of \$452,678,720 with losses of \$32,933,250.

- iii. although Customer 28 was a junket player on some of his own junkets, between 2017 and 2018, Star Sydney recorded a cumulative turnover of \$45,475,170 for Customer 28 as a junket player on his own junkets, despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1319.c below.

- iv. between 2016 and 2018, total benefits of \$18,634,286 were payable to Customer 28 by Star Sydney in his capacity as a junket operator for rebates earned and non-gaming complimentary services;

Particulars

Customer 28 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- j. in 2016, total benefits of \$4,522,086 were payable to Customer 28;
 - k. in 2017, total benefits of \$4,801,262 were payable to Customer 28; and
 - l. in 2018, total benefits of \$9,310,938 were payable to Customer 28.
- v. between 2017 and 2018, Star Sydney provided Customer 28 and his junket programs with significant amounts of credit upon request, up to facility limits of \$62,500,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 17 February 2018 and 7 June 2018, the SEG board approved a permanently active CCF, with a facility limit of \$62,500,000, which was deactivated on 17 February 2020.

- vi. Customer 28 had eight junket representatives at Star Sydney; and
- vii. Customer 28 and his junket representatives facilitated the provision of high value designated services to 20 junket players at Star Sydney including foreign PEPs and players in respect of whom Star Sydney had formed suspicions such as Customer 79;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 28 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2017, Customer 28 was a player on at least one junket at Star Sydney that he also operated; and
 - ii. in 2017, Star Sydney recorded turnover of \$221,000 with losses of \$200 for Customer 28's gaming activity on junket programs;
- d. Customer 28 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. in 2017, Customer 28 funded and operated one junket at Star Qld;
 - ii. in 2017, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 28 was \$44,008,285 with losses of \$907,300;
 - iii. in 2017, Star Qld provided Customer 28 and his junket with significant amounts of credit upon request, up to facility limits of \$50,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 17 February 2018 and 7 June 2018, Star approved a permanently active CCF, with a facility limit of \$50,000,000, which was deactivated on 17 February 2020.

- iv. Customer 28 had one junket representative at Star Qld; and
- v. Customer 28 and his junket representatives facilitated the provision of high value designated services to three junket players at Star Qld;

Particulars

See paragraphs 643 to 649 above.

- e. designated services provided to Customer 28 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 28 was connected to individuals affiliated with an international junket, including Customer 5 and Person 4;

Particulars

On 6 November 2020, Customer 28 was named in the Bergin ILGA inquiry as associated with an international junket, which was connected to individuals who were ultimate beneficial owners of the junket with interests in its operations: Person 4. On 1 February 2021, the Bergin Report also named Customer 28 as connected to the international junket.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 28 by remitting large amounts of money into and out of the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 10 May 2018 and 31 May 2018, third party companies acting on behalf of Customer 28 deposited a total of AU\$6,120,726 and HKD42,200,000 into the EEIS Patron accounts, which Star Sydney made available to Customer 28 through the EEIS remittance channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 10 January 2018 and 1 June 2018, deposits through the Customer 9 channels totalling AU\$1,004,907 and HKD45,603,739 were made available by Star Sydney to Customer 28's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 7 December 2016 and 9 February 2018, Star Sydney gave the AUSTRAC CEO four incoming IFTIs totalling \$8,553,896 where Customer 28 was named as the beneficiary and ordering customer. The funds were deposited into Customer 28's Star Sydney account.

In addition, between 22 November 2017 and 5 June 2018, Star Sydney received four telegraphic transfers totalling \$10,946,222, each of which was made available to Customer 28's FMA.

On 22 May 2018, Star Sydney received a telegraphic transfer of HKD42,200,000 into its foreign currency bank account, which it made available to Customer 28. The funds were transferred for the purpose of redeeming an outstanding CCF.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 26 March 2019, Star Sydney sent a telegraphic transfer of \$293,918 from Customer 28's SKA to an Australian bank account.

On 2 November 2017 and 25 July 2020, Star Sydney sent two telegraphic transfers totalling \$2,213,743 from Customer 28's SKA to an overseas bank account.

On 23 June 2021, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$513,743 which took place on 23 July 2020, where Customer 28 was named as the beneficiary and ordering customer. The funds were withdrawn from Customer 28's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

- h. Customer 28, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 23 January 2017 and 24 July 2020, Star Sydney gave the AUSTRAC CEO 13 TTRs totalling \$982,916:

- a. eight TTRs detailing account withdrawals made by Customer 28 totalling \$546,216;
- b. four TTRs detailing chip and cash exchanges made by Customer 28 totalling \$336,700; and
- c. one TTR detailing an account deposit made by Customer 28 totalling \$100,000.

Large and suspicious cash transactions in 2017

On 30 October 2017, Customer 28's junket representative exchanged \$244,500 in chips for cash on behalf of Customer 28's junket at Star Sydney.

On 31 October 2017, Customer 28's junket representative withdrew \$100,000 in cash from Customer 28's FMA at Star Sydney.

Large and suspicious cash transactions in 2018

On 13 February 2018, Customer 28's junket representative withdrew \$120,000 in cash from Customer 28's FMA at Star Sydney.

On 17 February 2018, Customer 28's junket representative withdrew \$100,000 in cash from Customer 28's FMA at Star Sydney.

On 18 February 2018, Customer 28's junket representative deposited \$100,000 in cash into Customer 28's FMA at Star Sydney.

- i. by 26 July 2021, Star Sydney and Star Qld were aware of media articles which reported that Customer 28 was engaged in commercial dealings with a company connected to an international junket; and

Particulars

In 2019, media articles reported that a company connected to an international junket was planning to purchase assets indirectly owned by Customer 28 in a foreign country.

It was not until 26 July 2021 that Star Sydney and Star Qld became aware of this report.

- j. Star Sydney and Star Qld did not have adequate reason to believe that Customer 28's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 28 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld recorded Customer 28's occupation as company director.

By 2021, Star's Due Diligence Program Manager formed the view that Customer 28 was a 'successful' businessman on the basis that he was a director of companies incorporated in offshore jurisdictions.

Star Sydney and Star Qld did not take appropriate steps to verify their assumptions regarding Customer 28's source of wealth and source of funds, in circumstances where:

- a. between 2016 and 2017, turnover on junkets exceeded \$370 million; and

- b. Star Sydney and Star Qld approved CCFs for Customer 28's junkets with limits of up to \$62,500,000.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 28

1320. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 28 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 28.
- a. On and from 30 November 2016, Customer 28 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 28's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 28 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 6 April 2014, Customer 28 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 April 2014, Customer 28 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 24 July 2014, Customer 28 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 27 January 2021, Customer 28 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 28's transactions

1321. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 28's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 28, Star Sydney's and Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 28's junkets as turnover was recorded against Customer 28 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 28 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel and the Customer 9 channels;

Particulars

See paragraphs 441 and 493 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 28 through the junket channel; and

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 28 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 28's KYC information

- 1322. Star Sydney and Star Qld did not review, update and verify Customer 28's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Programs did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC

information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 28's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 28's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 28's source of wealth and source of funds were not legitimate: see *Customer 28's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 28's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 28.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Due diligence conducted in respect of Customer 28

On 1 July 2021, Star Sydney and Star Qld conducted due diligence in respect of Customer 28, which did not identify any adverse information.

Later in July 2021, Star Sydney's and Star Qld's due diligence screening in respect of Customer 28 identified that:

- a. Customer 28 was a 'company director', including of companies incorporated in offshore jurisdictions;
- b. there were cash transactions recorded in Star's due diligence records;
- c. media articles indicated that Customer 28 was engaged in commercial dealings with companies linked to an international junket (which was affiliated with Person 4); and
- d. Customer 28 had been mentioned in the context of the Bergin inquiry in November 2020.

The due diligence conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 28's higher ML/TF risks: see *Customer 28's risk profile* above.

The due diligence conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 28's source of funds or source of wealth.

By reason of the matters above, there were real risks that Customer 28's source of wealth and source of funds were not legitimate: see *Customer 28's risk profile*.

It was not until 24 May 2022 that Star Sydney and Star Qld issued a WOL in respect of Customer 28 at the direction of the Star AML team.

Senior management consideration of Customer 28

On 1 July 2021, the Due Diligence Manager reviewed the due diligence screening and determined to maintain a customer relationship with Customer 28.

On 29 July 2021, the Due Diligence Manager reviewed the due diligence screening conducted on 26 July 2021, and concluded that Customer 28 was a 'successful' businessman and noted that there was no other adverse information aside from his 'purported' association with a third party, Person 4. On the basis that there was no adverse information specifically in respect of Customer 28, he recommended that Star could safely maintain a customer relationship with Customer 28 with appropriate risk mitigation procedures.

On 16 August 2021, Star senior management considered Customer 28 along with other customers against Star's new ECDD methodology. The report from the review was provided to the Group General Counsel and copied to the AML/CTF Compliance Officer and an AML/CTF and Financial Crime Officer. The report was also provided to the Chief Legal and Risk Officer. The report recommended that Star could safely maintain a customer relationship with Customer 28 with specified risk mitigation procedures. However, the due diligence methodology applied by Project Congo screening did not take into account any transaction monitoring, and did not have appropriate regard to the higher ML/TF risks posed by Customer 28: see *Customer 28's risk profile*.

On 18 August 2021, the AML/CTF Compliance Officer agreed with the recommendation and determined to maintain a customer relationship with Customer 28.

In determining that a business relationship could be continued, the Due Diligence Manager and AML/CTF Compliance Officer did not have regard to:

- a. Customer 28's source of wealth (r 15.10(2)(a) of the Rules), having regard to the high and escalating turnover recorded for Customer 28's junket programs;

- b. Customer 28's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 28's risk profile*.

It was not until 24 May 2022 that Star Sydney and Star Qld issued a WOL in respect of Customer 28 at the direction of the Star AML team.

Failure to apply appropriate due diligence suited to Customer 28's high ML/TF risks

1323. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 28 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 28; and
 - c. reviewing and updating Customer 28's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would likely have rated Customer 28 as a high risk customer for the purpose of the Act and Rules at a time before Customer 28 was issued with a WOL at Star Sydney and Star Qld.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1324. Had Star Sydney and Star Qld rated Customer 28 as a high risk customer for the purpose of the Act and Rules, they would have been required by the Act and Rules to apply the ECDD Program to Customer 28 at a time before Customer 28 was issued with a WOL at Star Sydney and Star Qld.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 28

1325. By reason of the matters pleaded from paragraphs 1314 to 1324, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 28 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1326. By reason of the matters pleaded at paragraph 1325, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 28.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 29

1327. Customer 29 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$88 million for Customer 29.

Particulars

Customer 29 was a customer of Star Sydney from at least 19 May 2011.

On 24 May 2022, Star Sydney issued a WOL in respect of Customer 29.

1328. Star Sydney provided Customer 29 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and a junket player. Between 2017 and 2019, Star Sydney recorded that junkets operated by Customer 29 had a turnover exceeding \$250 million.

Particulars

On 19 May 2011, Star Sydney opened an FMA and SKA for Customer 29, both of which remain open (item 11, table 3, s6 of the Act).

On 20 October 2015, Star Sydney opened a second FMA and SKA for Customer 29, both of which remain open (item 11, table 3, s6 of the Act).

Between 25 February 2011 and 7 January 2020, Star Sydney approved CCFs for Customer 29 on 13 occasions ranging from \$3,000,000 to \$20,000,000 (item 6, table 1, s6 of the Act).

See Customer 29's risk profile below.

1329. Customer 29 was a customer of Star Qld during the relevant period. In 2020, Star Qld recorded turnover exceeding \$13 million for Customer 29.

Particulars

Customer 29 was a customer of Star Qld from at least 11 April 2014.

On 24 May 2022, Star Qld issued a WOL in respect of Customer 29.

1330. Star Qld provided Customer 29 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 11 April 2014, Star Qld opened an FMA for Customer 29, which remains open (item 11, table 3, s6 of the Act).

Between 12 October 2011 and 18 June 2019, Star Qld approved CCFs for Customer 29 on four occasions ranging from \$10,000,000 to \$20,000,000 (item 6, table 1, s6 of the Act).

See Customer 29's risk profile below.

1331. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 29.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 29's risk profile.

1332. On and from 30 November 2016, Customer 29, and the provision of designated services to Customer 29 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 29's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 29 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 29;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 12 occasions between 31 October 2012 and 7 September 2016.

The SMRs reported that Customer 29 and persons associated with his junket transacted using large amounts of cash and cash that appeared suspicious: see paragraph 1332.a.vii below.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 29;

Particulars

Star Qld gave the AUSTRAC CEO two SMRs on 18 January 2016 and 21 January 2016.

The SMRs reported that Customer 29 and persons associated with his junket transacted using large amounts of cash and cash that appeared suspicious: see paragraph 1332.a.viii below.

- iii. Customer 29 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Customer 29 was approved to be a junket operator at Star Sydney on 30 October 2012.

Between 27 July 2015 and 21 October 2016, Customer 29 operated six junkets at Star Sydney.

By 30 November 2016, junkets operated by Customer 29 had a turnover of \$472,607,837 with losses of \$10,384,765.

By December 2014, Star senior management, including the Chief Executive Officer and Chief Financial Officer, were aware that

Customer 29 was a junket operator for a company associated with international junkets.

- iv. Customer 29 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

In 2016, Customer 29 was one of the top ten junket operators whose junket operations had the highest turnover at Star Gold Coast.

Between 17 January 2016 and 30 January 2016, Customer 29 operated a junket at Star Qld. Customer 29 operated the junket in an exclusive private gaming room, Salon 22.

By 30 November 2016, junkets operated by Customer 29 had a turnover of \$85,725,900 with wins of \$30,050.

By 30 November 2016, total benefits of \$622,140 were payable by Star Gold Coast to Customer 29 in his capacity as a junket operator which included rebates earned, complimentary services and additional program agreement benefits.

- v. between 25 February 2011 and 13 October 2016, Star Sydney provided Customer 29 and his junket with significant amounts of credit upon request, up to limits of \$15,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 25 February 2011 and 13 October 2016 Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved CCFs for Customer 29 on nine occasions, including single trip and permanent active CCFs, ranging between \$10,000,000 and \$15,000,000.

- vi. between 12 October 2011 and 25 January 2016, Star Qld provided Customer 29 and his junket with significant amounts of credit upon request, up to limits of \$10,000,000 with an additional single trip limit of \$5,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 12 October 2011 and 14 January 2016, Star Qld senior management including the Chief Executive Officer, the Chief Financial Officer and the Chief Financial Officer (Queensland) approved a single trip CCF limit of \$10,000,000 for Customer 29.

On 25 January 2016, Star Qld senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$10,000,000 with an additional limit for that trip only of \$5,000,000 for Customer 29.

- vii. Customer 29 and persons associated with his junket transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 19 August 2011 and 19 October 2016, Star Sydney gave the AUSTRAC CEO five TTRs detailing incoming payments to Customer 29 totalling \$1,116,000 in account deposits.

Between 19 August 2011 and 19 October 2016, Star Sydney gave the AUSTRAC CEO 43 TTRs detailing outgoing payments from Customer 29 totalling \$3,136,780 which comprised:

- a. \$2,401,700 in account withdrawals; and
- b. \$735,080 in chip exchanges.

Large and suspicious cash transactions in 2012

On 30 October 2012, Customer 29 withdrew \$100,000 in cash from his FMA at Star Sydney: SMR dated 31 October 2012.

Large and suspicious cash transactions in 2014

On 23 September 2014, Customer 29's junket representative, Person 49, cashed out \$100,000 in chips at Star Sydney: SMR dated 24 September 2014.

On 24 September 2014, Customer 29's junket representative, Person 49, withdrew \$500,000 in cash from Customer 29's account at Star Sydney: SMR dated 25 September 2014.

On 4 December 2014, Customer 29 cashed out \$100,200 in chips at Star Sydney: SMR dated 10 December 2014.

Large and suspicious cash transactions in 2015

On 27 March 2015, Customer 29 cashed out \$100,000 in chips at Star Sydney: SMR dated 31 March 2015.

Large and suspicious cash transactions in 2016

On 8 January 2016, Customer 29 withdrew \$100,000 in cash from his FMA at Star Sydney: SMR dated 11 January 2016.

On 14 January 2016, Customer 29's junket representative, Person 49, took \$500,000 in cash from two safe deposit boxes held by the junket representative and requested that the cash be deposited into Customer 29's account at Star Sydney. The cash had initially been issued to another Star Sydney customer and was comprised of \$100 notes: SMR dated 15 January 2016.

On 3 February 2016, Customer 29's junket representative, Person 49, withdrew \$200,000 in cash from Customer 29's account at Star Sydney. The junket representative placed \$160,000 of the cash in Customer 29's safe deposit box and handed the remaining \$40,000 in cash to another Star Sydney customer: SMR dated 4 February 2016.

On 7 February 2016 and 8 February 2016, Customer 29's junket representative, Person 49, made two large cash withdrawals of \$100,000 and \$200,000 respectively from Customer 29's account at Star Sydney: SMR dated 8 February 2016.

On 19 February 2016, Customer 29 deposited \$186,000 in cash into his account at Star Sydney. The cash comprised \$100 notes and was contained in a grey plastic shopping bag. The cash appeared to have been issued by the Star: SMR dated 19 February 2016.

On 11 May 2016, Customer 29's junket representative, Person 49, withdrew \$106,000 in cash from Customer 29's account at Star Sydney. The junket representative gave the cash to another Star Sydney customer: SMR dated 12 May 2016.

On 6 September 2016, Customer 29's junket representative, Person 49, accessed Customer 29's safe deposit box and took \$350,000 in cash that had initially been issued by the Star: SMR dated 7 September 2016.

On 16 October 2016, Customer 29's junket representative, Person 49, withdrew \$100,000 from Customer 29's account.

On 18 October 2016, Customer 29's junket representative, Person 49, withdrew \$250,000 from Customer 29's account.

- viii. Customer 29 and persons associated with his junket transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1332.a.ix below.

On 21 January 2016, Star Qld gave the AUSTRAC CEO two TTRs detailing incoming payments to Customer 29 totalling \$635,000 which were comprised of account deposits.

On 19 January 2016 and 14 April 2016, Star Qld gave the AUSTRAC CEO two TTRs detailing outgoing payments from Customer 29 totalling \$640,000 which were comprised of account withdrawals.

- ix. Star Qld was aware that Customer 29 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 17 January 2016, Customer 29's junket representative, Person 49, drew down \$590,000 from Customer 29's CCF and withdrew the funds in cash. Person 49 advised Star Qld that it would receive a telegraphic transfer from another Australian casino to redeem Customer 29's CCF. Person 49 placed the funds in a safe deposit box. On the same day, Star Qld received the telegraphic transfer from the other Australian casino.

On 21 January 2016, Person 49 took the funds from the safe deposit box, together with an additional \$45,000 in cash, and deposited it into Customer 102's account. The deposited funds, together with settlement funds for Customer 102's junket totalling \$1,260,680 were sent by telegraphic transfer to Customer 102's personal bank account in a foreign country: SMRs dated 18 January 2016 and 21 January 2016.

- x. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 29 by remitting large amounts of money into, out of and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 27 May 2011 and 14 March 2016, Star Sydney gave the AUSTRAC CEO 16 incoming IFTIs totalling \$18,425,382 where Customer 29 was named as the beneficiary, which comprised:

- a. ten IFTIs totalling \$10,924,213 where Customer 29 was the ordering customer; and
- b. six IFTIs totalling \$7,501,169 where company accounts or foreign banks were the ordering customer.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 24 May 2011 and 30 November 2013, Star Sydney gave the AUSTRAC CEO six outgoing IFTIs totalling \$9,554,987 where Customer 29 was named as the ordering customer, which comprised:

- a. five IFTIs totalling \$9,364,357 in which Customer 29 was the beneficiary; and
- b. one IFTI totalling \$190,630 in which a third party was the beneficiary.

On 16 January 2016, Star Sydney sent a telegraphic transfer of \$500,000 from Customer 29's FMA to another Australian casino.

- xi. Star Qld provided designated services (items 31 and 32, table 1, s6 above) to Customer 29 by remitting large values into and out of the casino environment via his accounts; and

Particulars

Remittances out of the casino environment

See paragraph 327 above.

See paragraph 1332.a.ix above.

- xii. by January 2016, Star management was aware that Customer 29 appeared to have 'money issues' with another individual;

Particulars

On 27 January 2016, the General Manager VIP Credit and Collections sent an email to Star senior management, including the Chief Executive Officer and the Chief Financial Officer, requesting approval of a CCF with a limit of \$10,000,000 and an additional limit for that trip only of \$5,000,000. That email stated that Customer 29 'might be involved with some money issues' in respect of another individual.

By January 2016, publicly accessible media articles alleged that the other individual was a former 'boss' of a foreign organised crime syndicate. Despite his financial ties to Customer 29, there is no evidence that Star conducted searches in respect of the other individual. There is no evidence that Star was aware of the publicly accessible media articles.

On 27 January 2016, both the Chief Executive Officer and the Chief Financial Officer approved the CCF.

Customer 29's risk profile from 30 November 2016

- b. Customer 29 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 20 May 2017 and 14 February 2019, Customer 29 operated two junkets at Star Sydney;
 - ii. between 20 May 2017 and 14 February 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 29 was \$251,839,445 with wins of \$3,230,250;

Particulars

In 2017, junkets operated by Customer 29 had a turnover of \$222,564,680 with wins of \$2,819,650.

In 2019, junkets operated by Customer 29 had a turnover of \$29,274,765 with wins of \$410,600.

- iii. although Customer 29 was a junket player on a number of their own junkets, in 2019, Star Sydney recorded a cumulative turnover of \$834,275 for Customer 29 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1332.c below.

- iv. between 3 May 2017 and 7 February 2020, Star Sydney provided Customer 29 and his junket with significant amounts of credit upon request, up to limits of \$20,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 3 May 2017, Star Sydney senior management including the Chief Executive Officer, the Chief Financial Officer approved a single trip CCF limit of \$10,000,000 for Customer 29.

On 16 May 2017, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$20,000,000 for Customer 29.

On 8 February 2018, Star Sydney approved a permanently active CCF limit of \$20,000,000 for Customer 29 which was deactivated on 18 June 2019.

On 7 January 2020, Star approved a single trip CCF limit of \$3,000,000 for Customer 29.

- v. in the relevant period, Customer 29 had two junket representatives at Star Sydney; and
- vi. Customer 29, and his junket representatives facilitated the provision of high value designated services to five junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 29 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 14 May 2017 and 2 March 2020, Customer 29 was a player on three junkets at Star Sydney operated by Customer 6 and himself;
 - ii. each of the Customer 6 junkets were funded by a person other than the junket operator, being Customer 5; and

Particulars

On 3 March 2020, while Customer 29 was a junket player at Star Sydney on a junket funded by Customer 5, Customer 5 requested that Star Sydney transfer \$1,684,815 from Customer 5's Star Sydney SKA to Customer 29's personal bank account overseas.

- iii. between 14 May 2017 and 2 March 2020, Star Sydney recorded a high turnover of \$87,533,680 with a win of \$921,815 for Customer 29's gaming activity on the Customer 6 junket programs;

Particulars

In 2017, Customer 29's turnover on Customer 6's junket programs was \$37,808,680 with wins of \$576,565.

In 2020, Customer 29's turnover on Customer 6's junket programs was \$49,725,000 with wins of \$345,250.

- d. Customer 29 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between February 2020 and March 2020, Customer 29 was a player on a junket at Star Gold Coast operated by Customer 6.
 - ii. the junket was funded by a person other than the junket operator, being Customer 5; and
 - iii. between February 2020 and March 2020, Star Qld recorded a high turnover of \$13,260,000 with a win of \$30,000 for Customer 29's gaming activity on the Customer 6 junket programs;
- e. designated services provided to Customer 29 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 29 by remitting large amounts of money out of the casino environment via his accounts;

Particulars

See paragraph 327 above.

Between 25 January 2017 and 13 November 2019, Star Sydney sent four telegraphic transfers totalling \$6,686,183 from Customer 29's account to overseas bank accounts.

On 3 March 2020, while Customer 29 was a junket player at Star Sydney on a junket funded by Customer 5, Customer 5 requested that Star Sydney transfer HKD3,657,810 from Customer 5's Star Qld SKA to another Australian casino for the benefit of Customer 29.

On 9 March 2020, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$1,719,910, detailing Customer 29 sending a telegraphic transfer from his Star Sydney account to his personal bank account overseas.

Each of the above transactions was conducted through the Star Patron account channel.

- g. Customer 29 and persons associated with his junket transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

On 25 May 2017 and 20 February 2019, Star Sydney gave the AUSTRAC CEO two TTRs detailing incoming payments to Customer 29 totalling \$190,626 which comprised other monetary values in.

Between 23 May 2017 and 14 February 2019, Star Sydney gave the AUSTRAC CEO four TTRs detailing outgoing payments from Customer 29 totalling \$460,600 which comprised:

- a. \$262,900 in account withdrawals; and
- b. \$197,700 in chip exchanges.

On 13 February 2019, Customer 29's junket representative withdrew \$240,000 in cash from Customer 29's account and gave the cash to a junket player.

- h. Customer 29 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 29 had access to private gaming rooms at Star Sydney, including Springs Salon, the Sovereign Room, Harbours Salons, Rivers Salons and Lakes Salons.

- i. Customer 29 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 29 had access to private gaming rooms at Star Qld, including The Club, Salon 66, Salon 22 and Pit 8.

- j. Star Sydney and Star Qld did not have adequate reason to believe that Customer 29's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 29 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld understood Customer 29's occupation to be a junket operator with major shareholdings in a company associated with international junkets together with operating online gaming sites.

However, Star did not take steps to verify whether the funds used in connection with the high value financial and gaming services received by Customer 29 at Star Sydney and Star Qld, including by providing significant funding to junket players on his junket, were legitimate.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 29

- 1333. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 29 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 29.

- a. On and from 30 November 2016, Customer 29 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 29's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 14 January 2021 that Customer 29 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

By 30 November 2016, Customer 29 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 14 January 2021, Customer 29 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 29's transactions

- 1334. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 29's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 29, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 29's junket as turnover was recorded against Customer 29 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 29 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 29 through the junket channel;

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 29 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- g. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 29.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 29 on 21 May 2017, 23 May 2017 and 13 February 2019: See *Customer 29's risk profile*.

The review, update and verification of Customer 29's KYC information

- 1335. Star Sydney and Star Qld did not review, update and verify Customer 29's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 29's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 29's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 29's source of wealth or source of funds: see *Customer 29's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 29's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 29.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 15 February 2019, Star conducted due diligence in respect of Customer 29.

ECDD triggers in respect of Customer 29

1336. Star Sydney and Star Qld was required to apply the ECDD Programs to Customer 29 following any ECDD triggers in respect of Customer 29.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and 15.10 of the Rules.

1337. Customer 29 was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 14 January 2021, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 29 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 29* above.

1338. The matter pleaded in paragraph 1337 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

1339. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 29 following an ECDD trigger because:

- a. on each occasion prior to 24 May 2022 that Star Sydney and Star Qld conducted ECDD in respect of Customer 29 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 29 and the provision of

designated services to Customer 29 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 14 January 2021 and 7 August 2021, Star conducted ECDD in respect of Customer 29.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 29's higher ML/TF risks: see *Customer 29's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 29's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 29's source of wealth or source of funds: see *Customer 29's risk profile*.

On 24 May 2022, Star issued a WOL in respect of Customer 29.

- b. Customer 29 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 24 May 2022 that Customer 29 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 29 and the provision of designated services to Customer 29 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 7 August 2021, the Due Diligence Program Manager finalised a review of Customer 29. Customer 29 was identified as a person of interest who had not been excluded. The Due Diligence Program Manager recommended that with appropriate risk mitigation measures implemented, Star was positioned safely to maintain a customer relationship with Customer 29 and noted that:

- a. Customer 29 was a foreign resident;
- b. Customer 29 had been a junket operator at Star since 2012;

- c. Customer 29 had a risk rating of high risk for the purpose of the Act and Rules;
- d. Customer 29 had, since 2011, been a junket operator at another Australian casino associated with the international junkets, until the business relationship was suspended between Customer 29 and that other Australian casino in August 2020;
- e. Customer 29 was a major shareholder of a company involved in international junkets
- f. 11 SMRs had been given to the AUSTRAC CEO in respect of Customer 29; and
- g. no other adverse information had been identified in respect of Customer 29.

On 11 August 2021, the AML/CTF Compliance Officer considered the information provided by the Due Diligence Program Manager and determined to continue the business relationship with Customer 29.

On 19 August 2021, Customer 29 was discussed at a JRAMM and a number of risk mitigation strategies were drafted. On 17 December 2021, the Chief Legal and Risk Officer and the Group General Counsel agreed with the recommended strategies, being that:

- a. Customer 29 was required to attest to the source of funds, including evidence of the origin of funds, in respect of cash transactions;
- b. Star was to commission reliable external providers to provide updated background reports in respect of Customer 29 and his close associates;
- c. Customer 29 was required to provide an annual declaration of non-criminal or commercial status; and
- d. an independent report was to be delivered to the AML/CTF Compliance Officer and the Chief Legal and Risk Officer for deliberation.

In determining that a business relationship could be continued, the Due Diligence Program Manager did not have regard to:

- a. Customer 29's source of wealth (r 15.10(2)(a)), having regard to his high turnover; and
- b. Customer 29's source of funds (r15.10(2)(b)), having regard to the risks associated with his source of funds: see *Customer 29's risk profile* above.

On 24 May 2022, Star issued a WOL in respect of Customer 29.

Contravention of s36 of the Act in respect of Customer 29

1340. By reason of the matters pleaded from paragraphs 1327 to 1339, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 29 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1341. By reason of the matters pleaded at paragraph 1340, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 24 May 2022 with respect to Customer 29.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 30

1342. Customer 30 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$35 million for Customer 30.

Particulars

Customer 30 was a customer of Star Sydney from at least January 1996.

On 30 June 2022, Star Sydney issued a WOL in respect of Customer 30.

1343. Star Sydney provided Customer 30 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 30 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 30 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 30's risk profile below.

1344. Customer 30 was a customer of Star Qld during the relevant period. Between 2016 and 2020, Star Qld recorded turnover exceeding \$240 million for Customer 30.

Particulars

Customer 30 was a customer of Star Qld from at least January 1996.

On 30 June 2022, Star Qld issued a WOL in respect of Customer 30.

1345. Star Qld provided Customer 30 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player and junket funder. In 2020, Star Qld recorded that junkets funded by Customer 30 had a turnover exceeding \$13 million.

Particulars

On 5 December 2016, Star Qld opened an FMA for Customer 30 which remains open (item 11, table 3, s6 of the Act).

On 13 January 2020, Star Qld opened an SKA for Customer 30 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 30 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 30's risk profile* below.

1346. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 30.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 30's risk profile

1347. On and from 30 November 2016, Customer 30, and the provision of designated services to Customer 30 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 30's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 30 had the following risk history:
 - i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 30;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 28 occasions between 3 March 2009 and 9 August 2016.

The SMRs reported that Customer 30 engaged in large and suspicious cash transactions: see paragraph 1347.a.v below.

- ii. Customer 30 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover and turnover on individual rebate programs totalling \$8,796,981 for Customer 30;

Particulars

See paragraph 752 and 623 above.

In 2015, Customer 30's individual rated turnover was \$1,423,891.

By 30 November 2016, Customer 30's turnover on individual rebate programs was \$7,373,090 with losses of \$305,695.

- iii. Customer 30 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high individual rated turnover and turnover on individual rebate programs totalling \$18,910,453 for Customer 30;

Particulars

See paragraph 752 and 623 above.

In 2015, Customer 30's individual rated turnover was \$4,146,558.

By 30 November 2016, Customer 30's turnover on individual rebate programs was \$14,763,895 with losses of \$273,482.

- iv. between 13 November 2015 and 27 January 2016, Customer 30 was referred by another player to Star Qld on four occasions;

Particulars

See paragraph 625 above.

Between November 2015 and 27 January 2016, Customer 30 was referred to Star Qld on four occasions.

The player referrer, Person 26, received a commission on amounts wagered by Customer 30, who Star Qld dealt with directly.

- v. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 30 by remitting large amounts of money into and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 1 December 2015, Star Sydney received a telegraphic transfer of \$200,000, which it made available to Customer 30's FMA.

This transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 3 December 2015 and 22 December 2015, Star Sydney sent two transfers totalling \$654,663 from Customer 30's FMA to Star Qld.

On 30 October 2016, Star Sydney received a transfer of \$307,367 from Star Qld, which it made available to Customer 30's account.

- vi. Customer 30 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in a foreign currency at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 25 February 2009 and 30 November 2016, Customer 30 engaged in at least 30 large and suspicious cash transactions totalling over \$9,000,000. This included:

- a. 10 cash deposits in a foreign currency to Customer 30's FMA totalling over AUD3,500,000: SMRs dated 3 March 2009, 10 January 2011, 15 March 2011, 11 July 2011, 30 December 2011, 1 May 2012, 17 December 2013, 7 April 2016 and 27 May 2016;
- b. four cash deposits in Australian currency to Customer 30's FMA totalling \$980,000: SMRs dated 16 August 2010, 5 January 2012, 6 January 2014 and 7 January 2014;
- c. three cash exchanges in a foreign currency totalling AUD1,439,102: SMRs dated 15 December 2015, 6 July 2016 and 9 August 2016; and
- d. 13 cash withdrawals from Customer 30's FMA totalling \$2,943,119: SMRs dated 19 August 2010, 17 January 2011, 21 March 2011, 16 January 2012, 4 May 2012, 13 January 2014, 14 January 2014, 16 November 2015, 15 December 2015, 8 February 2016, 27 May 2016, 14 June 2016, 6 July 2016 and 9 August 2016.

In December 2012, a Star Qld customer, Person 26, made several large foreign currency exchanges while playing with Customer 30: SMR dated 16 January 2013.

In November 2015, a Star Qld customer and junket operator, Person 26, in the presence of Customer 30, made a large cash deposit and received a large telegraphic transfer at Star Qld. The junket operator informed Star Sydney that Customer 30 was going to play on a junket program with front money of \$500,000: SMR dated 13 November 2015.

- vii. on several occasions, Star Qld identified concerns in respect of the source of Customer 30's foreign currency; and

Particulars

SMRs dated 27 May 2016, 6 July 2016, 9 August 2016.

- viii. in 2016, Customer 30 was the subject of law enforcement enquiries at Star;

Particulars

On 16 April 2016 and 9 August 2016, Star Qld contacted a law enforcement agency in respect of large cash transactions conducted by Customer 30.

In August 2016, the law enforcement agency informed Star Qld that a large sum of foreign currency exchanged by Customer 30 at Star Qld had not been declared on entry to Australia.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database. Star Sydney had access to the investigations database: see paragraph 49 above.

Customer 30's risk profile from 30 November 2016

- b. Customer 30 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 21 February 2020 and 16 March 2020, Customer 30 funded a junket at Star Qld;

Particulars

Customer 30 funded the junket operator in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

Customer 30 was a junket player on the junket.

- ii. Star Qld recorded that the total cumulative turnover of the junket funded by Customer 30 between 21 February 2020 and 16 March 2020 was \$13,674,430 with losses of \$277,125; and
- iii. the junket funded by Customer 30 facilitated the provision of high value designated services to the junket operator, junket representatives and at least 12 junket players including Customer 30 himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- c. Customer 30 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 21 February 2020 and 16 March 2020, Customer 30 was a player on a junket at Star Qld;
 - ii. the junket was funded by Customer 30; and
 - iii. between 21 February 2020 and 16 March 2020, Star Qld recorded high turnover totalling \$3,641,417 with wins of \$219,925 for Customer 30's gaming activity on the junket program;
- d. designated services provided to Customer 30 lacked transparency as the services were provided through the junket channel at Star Qld;

Particulars

See paragraph 650 above.

- e. on 26 December 2019, Customer 30 was referred to Star Qld by another player;

Particulars

See paragraph 625 above.

On 26 December 2019, Customer 30 was referred to Star Qld.

The player referrer, Person 26, received a commission on amounts wagered by Customer 30, who Star Qld dealt with directly.

- f. Customer 30 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs:
- i. between 2016 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$22,739,010 for Customer 30; and

Particulars

See paragraph 752 above.

In 2016, Customer 30's individual rated turnover was \$77,179.

In 2017, Customer 30's individual rated turnover escalated to \$11,202,034.

In 2018, Customer 30's individual rated turnover was \$11,028,188.

In 2019, Customer 30's individual rated turnover was \$231,409.

From 2020, when COVID-19 pandemic closures commenced, Customer 30's turnover remained high.

In 2020, Customer 30's individual rated turnover was \$200,199.

- ii. between 2016 and 2020, Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$12,276,257 for Customer 30, with losses of \$327,810;

Particulars

See paragraph 623 above.

In 2016, Customer 30's turnover on individual rebate programs was \$978,000 with wins of \$73,010.

In 2017, Customer 30's turnover on individual rebate programs escalated to \$4,725,472 with losses of \$207,155.

In 2019, Customer 30's turnover on individual rebate programs was \$3,935,700 with losses of \$123,565.

From 2020, when COVID-19 pandemic closures commenced, Customer 30's turnover remained high.

In 2020, Customer 30's turnover on individual rebate programs was \$2,737,085 with losses of \$70,100.

- g. Customer 30 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs:
- i. between 2016 and 2020, Star Qld recorded high and escalating individual rated turnover totalling \$237,023,679 for Customer 30; and

Particulars

See paragraph 752 above.

In 2016, Customer 30's individual rated turnover escalated significantly to \$80,676,812.

In 2017, Customer 30's individual rated turnover was \$47,393,900.

In 2018, Customer 30's individual rated turnover escalated to \$77,382,315.

In 2019, Customer 30's individual rated turnover was \$29,506,432.

From 2020, when COVID-19 pandemic closures commenced, Customer 30's turnover remained high.

In 2020, Customer 30's individual rated turnover was \$2,064,221.

- ii. in 2019, Star Qld recorded high turnover on individual rebate programs totalling \$5,675,059 for Customer 30, with losses of \$144,275;

Particulars

See paragraph 623 above.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 30 by remitting large amounts of money into and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

For example, on 4 May 2018, Star Sydney received a telegraphic transfer of \$300,000, which it made available to Customer 30's FMA.

This transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 25 December 2016 and 13 January 2020, Star Sydney sent 13 transfers totalling \$3,276,255 from Customer 30's account to Star Qld.

Between 24 December 2016 and 10 January 2020, Star Sydney received 10 transfers totalling \$2,970,000 from Star Qld, each of which was made available to Customer 30's account.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 30 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

For example, on 8 February 2019, Star Qld received a telegraphic transfer of \$356,895 from another Australian casino, which it made available to Customer 30's FMA at Star Gold Coast.

This transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

For example, on 4 May 2022, Customer 30 transferred \$500,000 from his personal bank account to his Star Qld account: SMR dated 10 May 2022.

This transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 15 April 2017 and 13 January 2020, Star Qld received 17 transfers totalling \$4,010,407 from Star Sydney, each of which was made available to Customer 30's FMA at Star Gold Coast.

Between 23 April 2017 and 10 January 2020, Star Qld facilitated 13 transfers totalling \$3,939,227 from Customer 30's FMA at Star Gold Coast to Star Sydney.

- j. Customer 30 transacted using large amounts of cash, including large volumes of foreign currency at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 13 April 2017 and 13 January 2020, Star Sydney gave the AUSTRAC CEO 16 TTRs in respect of Customer 30 totalling \$645,533, which comprised:

- a. 15 outgoing TTRs totalling \$615,533;
- b. one incoming TTR totalling \$30,000;
- c. \$482,620 in chip or cash exchanges;
- d. \$120,000 in account deposits or withdrawals; and
- e. \$42,913 in EGM payouts.

On 12 April 2017, Customer 30 exchanged a large sum in a foreign currency for AUD and deposited the funds into his account: SMR dated 13 April 2017.

On 26 August 2017, a Star Sydney customer exchanged a large sum in a foreign currency for AUD. The customer opened an account and deposited the funds into that account. The customer then requested that the funds be transferred to Customer 30 to fund a program. Customer 30 concluded the program. When the program concluded on 28 August 2017, Customer 30 transferred the funds back to the customer: SMR dated 28 August 2017.

- k. Star Qld was aware that:
- i. Customer 30 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;
 - ii. Customer 30 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of foreign currency in rubber bands and contained in paper bags at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 12 December 2016 and 24 February 2020, Star Qld gave the AUSTRAC CEO 112 TTRs in respect of Customer 30 totalling \$6,617,804, which comprised:

- a. 103 outgoing TTRs totalling \$5,900,359;
- b. nine incoming TTRs totalling \$717,445;
- c. \$4,567,285 in chip or cash exchanges;
- d. \$1,919,105 in account deposits or withdrawals; and
- e. \$131,414 in EGM payouts.

Large and suspicious cash transactions in 2016

On 15 December 2016, Customer 30 deposited a large amount of foreign currency, equivalent to \$340,350, into his FMA. Customer 30 used \$50,000 of the funds to gamble. Star Qld noted that Customer 30 had access to unusually large amounts of cash in a foreign currency. Star Qld considered this to be a large amount to carry on oneself: SMR dated 16 December 2016

Large and suspicious cash transactions in 2017

On 21 February 2017, Customer 30 exchanged a large amount of cash in a foreign currency for \$339,840 and deposited the funds to his FMA. The foreign currency was presented loose, bundled with rubber bands, in a paper bag. Customer 30 used \$60,000 of the funds to gamble: SMR dated 22 February 2017.

On 3 April 2017, Customer 30 exchanged a large amount of cash in a foreign currency for \$138,924. The foreign currency was presented without straps. Customer 30 deposited the funds into his FMA. Prior to the deposit, Customer 30 had approximately \$100,000 remaining in his FMA from the 21 February 2017 exchange. Between 3 April 2017 and 6 April 2017, Customer 30 gambled approximately \$30,000 per day. Star Qld noted that it was unusual that Customer 30 continued to present foreign currency as they did not sell any foreign currency back to him: SMR dated 6 April 2017.

Large and suspicious cash transactions in 2018

On 12 August 2018, a Star Qld customer exchanged a large sum in a foreign currency for \$121,460 and deposited the funds into their FMA.

The customer then transferred \$71,460 to Customer 30's account and \$25,000 to another Star Qld customer's account, Person 26. Star Qld had been advised that the customer was Customer 30's personal assistant. However, the relationship with Person 26 was unknown. Star Qld noted that it was unusual that Customer 30 did not bring in the large sum in a foreign currency and exchange it himself. It was unclear whether the pair were attempting to avoid reporting obligations: SMR dated 13 August 2018.

On 13 December 2018, a Star Qld customer presented a casino cheque drawn from an overseas casino in a foreign currency to be exchanged for \$689,655. The customer deposited the funds to his FMA. The funds remained unused until the cheque was cleared. On 21 December 2018, the customer transferred \$689,655 from their FMA to Customer 30. Customer 30 then used the funds to gamble and lost \$261,160. Star Qld did not know why the customer had given the funds to Customer 30: SMR dated 8 January 2019.

Large and suspicious cash transactions in 2019

On 12 January 2019, Customer 30 exchanged two large sums in a foreign currency for \$338,966. Both amounts were deposited into his FMA. On the same day, another Star Qld customer received a telegraphic transfer of \$30,000. After the funds were deposited in the customer's account, he transferred the entire amount to Customer 30. Customer 30 requested a casino cheque for the entire amount of the foreign currency exchange. He informed Star Qld that he was going to another Australian casino. The request was declined. Customer 30 advised that he could take the foreign cash to the other casino but that he did not want to travel with that much cash. Star Qld informed Customer 30 that he could take the balance of his FMA prior to the recent foreign exchanges as a casino cheque. Customer 30 accepted the offer and took a casino cheque for \$500,000. The majority of these funds originated from a prior transfer of \$689,000 from another Star Qld customer. Star Qld noted that Customer 30 exchanged a large and consistent amount of foreign currency between two and four times a year. Star Qld was not aware if the funds were brought into Australia from his business in the foreign currency or if it came from business in Australia: SMR dated 14 January 2019.

In December 2019, a junket operator commenced a program. Customer 30 and his wife were players on the program. The funding of the junket included:

- a. \$641,020 from Customer 30;
- b. \$50,000 from Customer 30's wife; and
- c. \$2,309,076 from another customer, Person 26.

During the junket program:

- a. one of the junket players presented a large sum in a foreign currency in the same unusual wrapping that Customer 30 had presented previously;
- b. Customer 30 exchanged a large sum in a foreign currency, presented in unknown straps some of which were dated to 2013, for \$637,931 and deposited the funds into his FMA. Customer 30 advised that the cash originated from his restaurant business in a foreign currency;
- c. Customer 30 transferred \$50,000 to his wife's FMA despite her recorded play not supporting this level of transfer; and
- d. Customer 30 advised that he planned to take \$87,931 to another Australian casino. Star Qld was only willing to provide him with \$87,000, but within several minutes of being advised of this, Customer 30 completed two cash withdrawals totalling \$152,000.

Star Qld was not aware why Customer 30 was so interested in taking the cash with him to another casino.

The junket operator had employed two former Star Qld employees as informal junket representatives. Star Qld did not know the connection between each of the players on the group. Star Qld noted that the volume, presentation and division of foreign currency between the players was unusual. Star Qld further noted that another junket player who was playing the most, and losing the most, had not supplied any of the funds: SMRs dated 27 December 2019, 30 December 2019, 1 January 2020.

Large and suspicious transactions in 2020

On 18 January 2020, Customer 30 requested a casino cheque from Star Qld for \$500,000. Star Qld refused the request, as Customer 30's gaming activity did not support the transaction. Customer 30 advised Star Qld that he was going to another Australian casino and did not want to carry foreign currency but that he may return to Star Qld to buy back any foreign currency he had deposited. Star Qld senior management authorised the issue of a casino cheque for \$500,000. Star Qld noted that Customer 30 seemed comfortable to carry large sums of cash on international flights but not on domestic flights. Star Qld noted that Customer 30 may be structuring funds at different casinos to appear as possible winnings from Star Qld: SMR dated 22 January 2020.

Large and suspicious transactions in 2022

In May 2022, Customer 30 indicated that he was going to bring a large amount of foreign currency and \$300,000 from an Australian bank to the casino for an upcoming trip. Star Qld requested that Customer 30 provide receipts for cash. Customer 30 did not bring the cash, making an electronic transfer only. Star Qld noted that it was unusual for Customer 30 not to bring cash, and that the request for

receipts for Customer 30's source of funds may be the reason: SMR dated 10 May 2022.

- I. in 2017, Star Qld contacted law enforcement regarding Customer 30;

Particulars

On 27 February 2017 and 4 April 2017, Star Qld contacted a law enforcement agency in respect of large cash transactions conducted by Customer 30.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- m. Customer 30 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 30 had access to private gaming rooms at Star Sydney, including Springs Salon, Lakes Salon, Oasis, Sovereign Room, Vantage and Jade.

- n. Customer 30 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 30 had access to private gaming rooms at Star Qld, including the Sovereign Room, The Club, Chairman's, Oasis, The Suite, Pit 9, Pit 8, the Sapphire Room and Club Conrad.

- o. Star Sydney and Star Qld did not have adequate reason to believe that Customer 30's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 30 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 30 was a restaurant owner in a foreign country. Between 2016 and 2020, Customer 30 recorded a cumulative turnover at Star Sydney and Star Qld that exceeded \$270 million. Star's understanding of Customer 30's source of wealth was not sufficient to explain the high value financial and gaming services received by him.

By 30 November 2016, Star Qld had identified concerns in respect of Customer 30's source of funds. On multiple occasions, Star Qld considered it necessary to alert law enforcement regarding Customer 30's continuous source of foreign cash.

In 2017, Customer 30 engaged in large and suspicious foreign currency transactions at both Star Sydney and Star Qld. Star did not take steps to verify Customer 30's source of funds, in particular the source of the significant volume of foreign currency he brought into the casinos.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 30

1348. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 30 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 30.
- a. On and from 30 November 2016, Customer 30 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 30's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from 2017, Customer 30 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 30's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 30 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 22 February 2017, Customer 30 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 30 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 30's transactions

1349. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 30's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 30, Star Sydney and Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 30 through the Star Patron account channel;

Particulars

See paragraph 774 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 30 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 30 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 30.

Particulars

Star senior management were not specifically informed of eight large and suspicious cash incidents involving Customer 30 between 15 December 2016 and 27 December 2019: See *Customer 30's risk profile*.

The review, update and verification of Customer 30's KYC information

- 1350. Star Sydney and Star Qld did not review, update and verify Customer 30's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 30's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 30's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 30's source of wealth or source of funds: see *Customer 30's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 30's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 30.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 30's high ML/TF risks

- 1351. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 30 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 30; and
 - c. reviewing and updating Customer 30's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 30 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 30*.

ECDD triggers in respect of Customer 30

- 1352. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 30 following any ECDD triggers in respect of Customer 30.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1353. Customer 30:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 13 April 2017 and 28 August 2017, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 30.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 16 December 2016 and 10 May 2022, Star Qld gave the AUSTRAC CEO 11 SMRs with respect to Customer 30.

1354. Each matter pleaded in paragraph 1353 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1355. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 30 following an ECDD trigger because:

- a. at no time did Star Sydney or Star Qld apply the ECDD Programs to Customer 30; and

Particulars

Rule 15.10, 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 30's source of wealth or source of funds: see *Customer 30's risk profile*.

- b. Customer 30 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 30 June 2022, Star issued a WOL in respect of Customer 30.

Contravention of s36 of the Act in respect of Customer 30

1356. By reason of the matters pleaded from paragraphs 1342 to 1355 above, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 30 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1357. By reason of the matters pleaded at paragraph 1356, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 30 June 2022 with respect to Customer 30.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 31

1358. Customer 31 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$76 million for Customer 31.

Particulars

Customer 31 was a customer of Star Sydney from at least 24 February 2007.

On 16 September 2022, Star Sydney issued a WOL in respect of Customer 31.

1359. Star Sydney provided Customer 31 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket funder. Between 2017 and 2020, Star Sydney recorded that junkets operated by Customer 31 had a turnover exceeding \$690 million.

Particulars

By 2008, Star Sydney had opened an FMA and SKA for Customer 31, which remain open (item 11, table 3, s6 of the Act).

Between 13 February 2015 and 3 June 2019, Star Sydney approved permanently active CCFs for Customer 31 on three occasions, ranging from \$5,000,000 to \$10,000,000 (item 6, table 1, s6 of the Act).

While a customer of Star Sydney, Customer 31 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 31 (items 31 and 32, table 1, s6 of the Act).

See Customer 31's risk profile below.

1360. Customer 31 was a customer of Star Qld during the relevant period. In 2018, Star Qld recorded turnover exceeding \$8 million for Customer 31.

Particulars

Customer 31 was a customer of Star Qld from at least 1 December 2015.

On 16 September 2022, Star Qld issued a WOL in respect of Customer 31.

1361. Star Qld provided Customer 31 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket funder. Between 2017 and 2020, Star Qld recorded that junkets operated by Customer 31 had a turnover exceeding \$66 million.

Particulars

On 30 November 2015, Star Qld opened an FMA for Customer 31 which remains open. On 29 July 2018, Star Qld opened an SKA for Customer 31 which remains open (item 11, table 3, s6 of the Act).

Between 13 February 2015 and 3 June 2019, Star Qld approved permanently active CCFs for Customer 31 on three occasions, ranging from \$5,000,000 to \$10,000,000 (item 6, table 1, s6 of the Act).

While a customer of Star Qld, Customer 31 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 31 (items 31 and 32, table 1, s6 of the Act).

See Customer 31's risk profile below.

1362. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 31.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 31's risk profile

1363. On and from 30 November 2016, on multiple occasions, the provision of designated services to Customer 31 by Star Sydney and Star Qld raised red flags reflective of higher ML/TF risks because of the following factors:

Customer 31's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 31 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 31;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on four occasions between 7 November 2014 and 3 July 2015.

The SMRs reported large cash deposits involving Customer 31 and persons associated with his junket totalling at least \$1,006,221.

- ii. between 2015 and 2016, Customer 31 was a junket operator and junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

In 2015, Customer 31 operated two junket programs at Star Sydney.

In 2016, Customer 31 operated three junket programs at Star Sydney.

Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 31 in 2015 and 2016 was \$102,299,132 with losses of \$1,722,065.

Although Customer 31 was a junket player on some of his own junkets, between 2015 and 2016, Star Sydney recorded a cumulative turnover of \$4,256,902 for Customer 31 as a junket player on his junkets despite not being a junket player on those particular junkets: see paragraph 670 above.

Customer 31 had three junket representatives at Star Sydney including Person 17 and Person 46.

In 2016, total benefits of \$879,005 were payable to Customer 31 for rebates, percentages of earnings from revenue share programs and complimentary services in his capacity as a junket operator.

On 13 February 2015, Star senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanently active CCF limit of \$5,000,000, with an additional limit for that trip only of \$2,500,000.

On 22 August 2016, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanently active CCF limit of \$10,000,000.

Customer 31 facilitated the provision of high value designated services to 29 junket players at Star Sydney, including foreign PEPs and players who Star Sydney considered had acted suspiciously, including Customer 50.

- iii. in 2016, Customer 31 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

In 2016, Customer 31 was recorded to be a player on one junket at Star Sydney that they also operated.

Customer 31's turnover on this junket program was \$40,667,315 with wins of \$29,445.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 31 by remitting large amounts of money into, out of, and within the casino environment via his account;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 10 July 2015 and 22 November 2016, Star Sydney received ten telegraphic transfers totalling \$1,598,000, each of which was made available to Customer 31's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 10 July 2015 to 7 June 2016, Star Sydney sent four telegraphic transfers totalling \$1,382,045 from Customer 31's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 12 January 2016, Star Sydney sent a transfer of \$280,500 from Customer 31's account to Star Qld.

- v. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 31 by remitting large amounts of money into the casino environment via his account; and

Particulars

See paragraph 327 above.

For example, on 11 January 2016, Star Qld received a telegraphic transfer of \$280,000, which it made available to Customer 31's FMA at Star Gold Coast. The funds were transferred for the purpose of redeeming an outstanding CCF.

This transaction was conducted through the Star Patron account channel.

- vi. Customer 31, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 7 November 2014 and 3 July 2016, Star Sydney gave the AUSTRAC CEO 30 TTRs totalling \$2,672,891 involving Customer 31, comprising:

- a. 21 TTRs detailing chip and cash exchanges totalling \$474,275;
- b. five TTRs detailing account withdrawals totalling \$1,104,558; and
- c. four TTRs detailing account deposits totalling \$1,094,058.

2014

On 6 November 2014, Customer 31's junket representative exchanged a suspicious amount of chips for \$100,000 cash: SMR dated 7 November 2014.

2015

On 22 June 2015, Customer 31's junket representative, Person 17, deposited \$425,221 in cash comprised mostly of \$50 notes together with \$221 in loose cash. The cash was bundled with rubber bands: SMR dated 23 June 2015.

On 2 July 2015, Customer 31 deposited \$50,000 in \$100 notes and \$231,000 in \$50 notes, together with some other small notes, into his account. The cash was bundled with rubber bands: SMR dated 2 July 2015.

On 2 July 2015, Customer 31's junket representative, Person 17, deposited \$300,000 in \$50 notes into Customer 31's account: SMR dated 3 July 2015.

Customer 31's risk profile from 30 November 2016

- b. Customer 31 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2020, Customer 31 operated and funded 35 junkets at Star Sydney;
 - ii. between 2017 and 2020, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 31 in the relevant period was \$699,442,458 with losses of \$10,611,548;

Particulars

In 2017, junkets operated by Customer 31 had turnover of \$201,146,244 with losses of \$7,398,995.

In 2018, junkets operated by Customer 31 had turnover of \$152,375,743 with wins of \$363,447.

In 2019, junkets operated by Customer 31 had turnover of \$242,752,754 with wins of \$512,230.

Between January and March 2020, junkets operated by Customer 31 had turnover of \$103,167,717 with losses of \$4,088,230.

In the 2020 calendar year, Customer 31 was a top ten junket operator by turnover on programs at Star Sydney.

- iii. although Customer 31 was a junket player on some of his own junkets, between 2017 and 2020, Star Sydney recorded a cumulative turnover of \$261,173,380 for Customer 31 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1363.c below.

- iv. between 2017 and 2020, total benefits of \$4,911,071 were payable to Customer 31 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and complimentary services;

Particulars

Customer 31 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2017, total benefits of \$1,381,248 were payable to Customer 31;
 - b. in 2018, total benefits of \$1,093,930 were payable to Customer 31;
 - c. in 2019, total benefits of \$2,243,023 were payable to Customer 31; and
 - d. in 2020, before the COVID-19 pandemic, total benefits of \$192,870 were payable to Customer 31.
- v. from 30 November 2016 to 3 June 2019, Star Sydney approved permanently active CCFs for Customer 31 and his junket programs on two occasions, up to \$10,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

- vi. Customer 31 operated junkets in private gaming rooms including private gaming rooms that were exclusive to his junket;

Particulars

Customer 31 operated junkets in non-exclusive private gaming rooms, including the Sovereign room, Oasis room, Jade room and Pit 80.

Customer 31 operated junkets in exclusive private gaming rooms, including Salon 67, Salon 68, Salon 69, Salon 75, Salon 76, Salon 77, Salon 82, Salon 85, Salon 89.

- vii. Customer 31 had nine junket representatives at Star Sydney; and
- viii. Customer 31 and his junket representatives facilitated the provision of high value designated services to at least 238 junket players at Star Sydney including foreign PEPs and players who Star Sydney considered had acted suspiciously, including Customer 50;

Particulars

See paragraphs 643 to 649 above.

See paragraph 1363.m.

- c. Customer 31 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2017, Customer 31 was recorded to be a player on four junkets that he was the junket operator of at Star Sydney; and
 - ii. in 2017, Star Sydney recorded cumulative turnover totalling \$76,276,382 with losses of \$1,454,310 for Customer 31;
- d. Customer 31 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. in 2018 and 2019, Customer 31 operated and funded six junkets at Star Qld;
 - ii. between 2018 and 2019, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 31 at Star Qld in the relevant period was \$66,358,344 with losses of \$1,345,394;

Particulars

In 2018, junkets operated by Customer 31 had turnover of
\$48,600,331 with losses of \$53,400.

In 2019, junkets operated by Customer 31 had turnover of
\$17,758,013 with losses of \$1,291,994.

- iii. although Customer 31 was a junket player on some of his own junkets, in 2018 and 2019, Star Qld recorded a cumulative turnover of \$22,829,742 for Customer 31 as a junket player on his own junkets, despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1363.e below.

- iv. between 2018 and 2019, total benefits of \$467,078 were payable to Customer 31 by Star Qld in his capacity as a junket operator for rebates earned, complimentary services, and additional program agreement benefits;

Particulars

Customer 31 was entitled to benefits from Star Qld in his capacity as
a junket operator:

- a. in 2018, total benefits of \$339,768.50 were payable to Customer 31.
- b. in 2019, total benefits of \$127,309.50 were payable to Customer 31 by Star Qld.
- v. from 30 November 2016 to 3 June 2019, Star Qld approved permanently active CCFs for Customer 31 on three occasions, ranging from \$5,000,000 to \$10,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

- vi. Customer 31 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to his junket;

Particulars

Customer 31 operated junkets in non-exclusive private gaming rooms, including Pit 11 and Pit 12.

Customer 31 operated junkets in exclusive private gaming rooms, including Salon 89.

- vii. Customer 31 had three junket representatives at Star Qld including Person 17; and
- viii. Customer 31 and his junket representatives facilitated the provision of high value designated services to 30 junket players at Star Qld, including foreign PEPs and players who Star Qld considered had acted suspiciously, including Customer 50 and Person 17;

Particulars

See paragraphs 643 to 649 above.

On 16 July 2019, Customer 50 played on a junket operated by Customer 31. Customer 31 supplied \$1,500,000 in front money for the program from his CCF, which had a limit of \$2,000,000. Customer 50 was known to be a foreign PEP and conducted several foreign currency exchanges. Customer 50 was noted as losing \$481,357 on the program, which was considered to be significant by Star Qld: SMR dated 23 July 2019.

- e. Customer 31 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. in 2018, Customer 31 was recorded to be a player on one junket that he was the junket operator of at Star Qld; and
 - ii. in 2018, Star Sydney recorded cumulative turnover totalling \$8,683,311 with losses of \$97,925 for Customer 31;
- f. designated services provided to Customer 31 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 31 was connected to other customers at Star Sydney and Star Qld who Star Sydney and Star Qld considered had acted suspiciously, including a junket operator, Customer 26;

Particulars

See paragraph 1363.k.

- h. Customer 31 referred players to Star Sydney;

Particulars

See paragraph 625 above.

Customer 31 received a commission on amounts wagered by referred players, who Star Sydney dealt with directly.

- i. between 12 June 2018 and 27 December 2019, across nine occasions, Customer 31 referred eight different players to Star Qld;

Particulars

See paragraph 625 above.

Between 12 June 2018 and 27 December 2019, across nine occasions, Customer 31 referred eight different players to Star Qld. On each occasion, Customer 31 arranged for the referred player(s) to attend Star Qld on a rebate program without him or his junket representative being present.

Customer 31 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- j. Customer 31 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2020, Star Sydney recorded individual rated turnover totalling \$7,800 for Customer 31;

Particulars

See paragraph 752 above.

In 2017, Customer 31's individual rated turnover was \$288.

In 2018, Customer 31's individual rated turnover was \$7,500.

In 2020, Customer 31's individual rated turnover was \$13.

- k. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 31 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 11 December 2018 and 19 March 2020, third parties acting on behalf of Customer 31 deposited a total of \$5,552,337 into the EEIS Patron accounts, which Star Sydney made available to Customer 31 through the EEIS remittance channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 6 January 2017 and 3 March 2021, Star Sydney received 48 telegraphic transfers totalling \$18,356,366, each of which was made available to Customer 31's account. Part of the funds were transferred for the purpose of redeeming outstanding CCFs.

In addition, on 2 February 2020, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$241,970 where Customer 31 was named as the ordering customer and beneficiary. The funds were deposited into Customer 31's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 21 April 2017 and 11 March 2020, Star Sydney sent nine telegraphic transfers totalling \$872,500 from Customer 31's account to Australian bank accounts.

Between 6 January 2018 and 16 November 2019, Star Sydney sent three telegraphic transfers totalling \$1,938,000 from Customer 31's FMA to other Australian casinos.

In addition, on 21 July 2022, Star Sydney gave the AUSTRAC CEO an outgoing IFTI detailing a transfer of \$2,329,378 to Customer 31's overseas bank account. The funds were withdrawn from Customer 31's Star Sydney FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 31 July 2018 and 2 October 2020, Star Sydney sent at least six transfers totalling at least \$1,817,014 from Customer 31's account to Star Qld.

On 12 May 2018 and 1 January 2020, Star Sydney received two transfers totalling \$538,589 from Star Qld, both of which were made available to Customer 31's FMA.

In addition:

- a. on 21 January 2019, Customer 31 transferred \$3,000,000 from his Star Sydney account to the Star Qld account of a

junket operator, Customer 26. Customer 26 took the funds as a chip purchase voucher: SMR dated 22 January 2019; and

- b. on 24 January 2019, Customer 31 transferred \$5,000,000 from his Star Sydney account to the Star Qld account of a junket operator, Customer 26. When the junket settled, Customer 26 requested that Star Qld transfer \$1,349,960 to his account at Star Sydney: SMR dated 25 January 2019. Once the funds were received, Customer 31's junket representative withdrew \$540,000 in cash and was observed meeting with Customer 26.

Each of the above transactions was conducted through the Star Patron account channel.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 31 by remitting large amounts of money into and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 4 February 2019 and 14 February 2019, a third party acting on behalf of Customer 31 deposited a total of \$5,825,650 into the EEIS Patron accounts, which Star Qld made available to Customer 31 through the EEIS remittance channel.

Other remittances into the casino environment

See paragraph 327 above.

For example, on 20 December 2016, Star Qld received a telegraphic transfer of \$5,000 which it made available to Customer 31's FMA at Star Gold Coast.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 31 July 2018 and 22 July 2019, Star Qld received six transfers totalling \$5,999,887 from Star Sydney, each of which was made available to Customer 31's FMA at Star Gold Coast. The funds were transferred for the purpose of redeeming an outstanding CCF.

Between 12 May 2018 and 1 January 2020, Star Qld facilitated four transfers totalling \$754,843 from Customer 31's FMA at Star Gold Coast to Star Sydney.

On 3 January 2020, Star Qld received two transfers totalling \$81,055 from another Star Group entity, both of which were made available to

Customer 31's FMA at Star Gold Coast. The funds were transferred for the purpose of redeeming an outstanding CCF.

- m. Customer 31, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and plastic bags, and counterfeit cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 29 December 2016 and 9 March 2020, Star Sydney gave the AUSTRAC CEO 160 TTRs totalling \$7,386,411 involving Customer 31, including:

- a. 138 TTRs detailing chip and cash exchanges totalling \$4,323,930;
- b. nine TTRs detailing account deposits totalling \$1,490,691; and
- c. 13 TTRs detailing account withdrawals totalling \$1,571,790.

Large and suspicious cash transactions in 2017

On 31 May 2017, Customer 31's junket representative, Person 46, deposited \$310,000 in \$100 notes and \$187,100 in \$50 notes into Customer 31's account. \$146,920 was used to redeem a CCF for Customer 31, with the balance remaining in Customer 31's FMA. Three of the \$50 notes were identified to be counterfeit: SMR dated 1 June 2017.

On 31 July 2017, Customer 31's junket representative, Person 46, deposited \$150,000 in \$50 notes, wrapped in elastic bands, into Customer 31's FMA at Star Sydney. Star Sydney considered this was not unusual for a junket.

On 9 August 2017, Customer 31's junket representative, Person 46, deposited \$15,600 in \$100 notes, \$372,750 in \$50 notes, \$11,680 in \$20 notes, \$310 in \$10 notes and \$10 in \$5 notes, totalling \$400,350 into Customer 31's account at Star Sydney. The cash was bundled in rubber bands and presented in a blue sports bag: SMR dated 10 August 2017.

On 30 August 2017, Customer 31's junket representative, Person 46, withdrew \$175,000 in chips from Customer 31's safe deposit box and exchanged the chips for cash. Person 46 then handed the cash to Customer 50. Customer 50 exchanged \$75,000 of the cash for chips and subsequently recorded a turnover of \$600,450 with a loss of \$150,050. At that time, Star Sydney was unaware of any connection between Customer 50 and the Customer 31 junket: SMR dated 31 August 2017.

Large and suspicious cash transactions in 2018

On 18 January 2018, Customer 31's junket representative, Person 46, withdrew \$190,000 in cash from Customer 31's FMA at Star Sydney.

On 29 January 2018, Customer 31's junket representative, Person 17, exchanged \$100,000 in chips for cash at Star Sydney.

On 30 January 2018, Customer 31's junket representative, Person 17, exchanged \$300,000 in cash, which had been issued in \$100 notes by Star Sydney, for chips. After the transaction, the junket representative left the premises with the chips: SMR dated 31 January 2018.

On 8 February 2018, Customer 31's junket representative, Person 17, deposited \$197,000 in cash comprised of \$50 notes contained in a grey plastic bag into Customer 31's FMA at Star Sydney.

On 6 May 2018, Customer 31's junket representative, Person 46, exchanged \$100,000 in chips for cash at Star Sydney.

Large and suspicious cash transactions in 2019

On 5 May 2019, Customer 31's junket representative exchanged \$100,000 in chips for cash at Star Sydney, which was not considered to be unusual because Customer 31's junket had multiple programs open.

On 7 June 2019, Customer 31's junket representative exchanged \$100,000 in chips for cash at Star Sydney, which was not considered to be unusual by Star Sydney.

On 22 August 2019, Customer 31's junket representative, Person 17, cashed out \$600,000 of chips on behalf of Customer 31 at Star Sydney. The cash was given to a junket player on Customer 31's junket.

On 23 August 2019, Customer 31's junket representative, Person 17, exchanged \$600,000 in chips for cash on behalf of Customer 31. The cash was given to a junket player on Customer 31's junket who had a recorded turnover during the program of \$4,340,565 with a win of \$698,065: SMR dated 23 August 2019.

On 5 September 2019, Customer 31's junket representative exchanged \$100,000 in chips for cash at Star Sydney, then proceeded to the poker buy-in window and exchanged the \$100,000 in cash for chips.

On 15 September 2019, Customer 31's junket representative exchanged \$100,000 in chips for cash at Star Sydney.

Large and suspicious cash transactions in 2020

On 7 January 2020, Customer 31's junket representative presented at the cage with another Star Sydney customer. The junket representative had only become a representative for the Customer 31 junket the previous week. The customer presented a brown paper

bag containing \$83,700 in \$100 notes and \$31,300 in \$50 notes bundled in rubber bands and with 100 notes per bundle. When asked about the origin of the funds, the customer said that he had saved the money. The customer advised that he worked as a sales representative and enjoyed gambling. The money remained in Customer 31's account as the customer was not yet a member. Star Sydney considered it unusual that a person who was not a member would present such a large amount of cash together with a junket representative without being a junket player: SMR dated 7 January 2020.

- n. Customer 31, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 14 May 2018 and 17 July 2019, Star Qld gave the AUSTRAC CEO:

- a. three TTRs detailing account deposits made by Customer 31 totalling \$232,250;
- b. seven TTRs detailing chip and cash exchanges made by Customer 31 totalling \$98,255; and
- c. two TTRs detailing account withdrawals made by Customer 31 totalling \$230,000.

Large and suspicious cash transactions in 2018

On 29 July 2018, Customer 31's junket representative was operating a premium group at Star Qld. The junket representative presented to the cashier with \$200,000 in \$100 notes. The junket representative wished to place the cash into Customer 31's SKA as he was unsure whether Customer 31 wanted the funds in his FMA, which would increase the value of the premium group. The junket representative advised that the cash was winnings paid for a baccarat tournament of \$1,000,000. At least \$50,000 of the cash had straps on it that had been paid to the winner of the tournament. Star Qld considered it suspicious that the possible source of the cash was at least one third party: SMR dated 30 July 2018.

- o. at various times, Customer 31 had significant parked or dormant funds in his FMA and SKA at Star Sydney;

Particulars

See paragraph 284 above.

Between 23 April 2020 and 3 June 2022, Customer 31 had \$1,414,121 parked in his SKA.

Between 10 July 2020 and 3 March 2021, Customer 31 had \$400,000 parked in his SKA.

- p. Star senior management provided Customer 31 with significant amounts of credit upon request, up to limits of \$10,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

See paragraphs 1363.b and 1363.c.

- q. in 2017, Star Sydney provided law enforcement agencies with information relating to persons involved in Customer 31's junket; and

Particulars

On 1 June 2017, Star Sydney's AML team referred a suspicious cash transaction involving the deposit of \$310,000 in \$100 notes and \$187,500 in \$50 notes produced in vacuum packed plastic bags, some of which were damp, to a law enforcement agency for investigation.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- r. Star Sydney and Star Qld did not have adequate reason to believe that Customer 31's source of wealth and source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 31 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

During the relevant period, Star Sydney and Star Qld recorded Customer 31's occupation as junket operator and junket representative.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 31

1364. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable appropriately to identify or assess the ML/TF risks posed by Customer 31 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 31.

- a. On and from 30 November 2016, Customer 31 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 31's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 31 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 20 November 2014, Customer 31 was rated low, not being high risk for the purpose of the Act and Rules.

On 23 June 2015, Customer 31 was rated medium, not being high risk for the purpose of the Act and Rules.

On 2 February 2021, Customer 31 was rated high, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 31's transactions

1365. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 31's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 31, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 31 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, including the EEIS remittance channel; and

Particulars

See paragraph 493 above.

- d. Star Sydney and Star Qld provided designated services to Customer 31 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 31's KYC information

- 1366. Star Sydney and Star Qld did not review, update and verify Customer 31's KYC information having regard to the high ML/TF risks posed by Customer 31, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney or Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rules 15.2 to 15.3 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 31's business with it, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 31's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out at above, there were real risks that Customer 31's source of wealth and source of funds were not legitimate: see *Customer 31's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 31's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 31.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rules 15.2 to 15.3 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 31's high ML/TF risks

1367. Had Star Sydney or Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 31 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 31; and
- c. reviewing and updating Customer 31's KYC information, having regard to ML/TF risk appropriately;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 31 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 31*.

Particulars

Section 36(1)(a) and (b) of the Act, rules 15.2 to 15.10 of the Rules.

ECDD triggers in respect of Customer 31

1368. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 31 following an ECDD trigger in respect of Customer 31.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1369. Customer 31:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 1 June 2017 and 7 January 2020, Star Sydney gave the AUSTRAC CEO seven SMRs with respect to Customer 31.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 30 July 2018 and 23 July 2019, Star Qld gave the AUSTRAC CEO four SMRs with respect to Customer 31.

1370. Each matter pleaded in paragraph 1369 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1371. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 31 following an ECDD trigger because:

- a. on each occasion prior to 16 September 2022 that Star Sydney and Star Qld conducted ECDD in respect of Customer 31 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 31 and the provision of

designated services to Customer 31 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

See paragraphs 797 and 807 above.

Rules 15.10(2) and (5) of the Rules.

On 7 May 2019, 22 August 2019, 23 August 2019, 6 September 2019 and 7 January 2020, Star Sydney and Star Qld conducted ECDD in respect of Customer 31.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to his higher ML/TF risks: see *Customer 31's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 31's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 31's source of wealth and source of funds were not legitimate: see *Customer 31's risk profile*.

On 16 September 2022, Star Sydney and Star Qld issued a WOL in respect of Customer 31.

- b. Customer 31 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

On 16 September 2022, Star Sydney and Star Qld issued a WOL in respect of Customer 31.

Contravention of s36 of the Act in respect of Customer 31

1372. By reason of the matters pleaded from paragraphs 1358 to 1371 above, on and from 30 November 2016, Star Sydney and Star Qld:
 - a. did not monitor Customer 31 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1373. By reason of the matters pleaded at paragraph 1372, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 16 September 2022 with respect to Customer 31.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 32

1374. Customer 32 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$31 million for Customer 32.

Particulars

Customer 32 was a customer of Star Sydney from at least 25 February 2016.

1375. Star Sydney provided Customer 32 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2019, Star Sydney recorded that junkets operated by Customer 32 had a turnover exceeding \$800 million.

Particulars

On 25 February 2016, Star Sydney opened an FMA and SKA for Customer 32 in respect of his primary account, which remain open (item 11, table 3, s6 of the Act).

Between 22 February 2016 and 2 July 2019, Star Sydney approved CCFs for Customer 32 on 21 occasions ranging from \$1,000,000 to \$11,000,000 (item 6, table 1, s6 of the Act).

While a customer of Star Sydney, Customer 32 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 32 (items 31 and 32, table 1, s6 of the Act).

See Customer 32's risk profile below.

1376. Customer 32 was a customer of Star Qld during the relevant period. In 2017, Star Qld recorded turnover exceeding \$6 million for Customer 32.

Particulars

Customer 32 was a customer of Star Qld from at least 26 August 2016.

1377. Star Qld provided Customer 32 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period, including services as a junket operator. Between 2017 and 2019, Star Qld recorded that junkets operated by Customer 32 had a turnover exceeding \$63 million.

Particulars

On 24 August 2016, Star Qld opened an FMA for Customer 32 in respect of his primary account, which remains open (item 11, table 3, s6 of the Act).

On 18 January 2019, Star Qld opened an SKA for Customer 32 in respect of his primary account, which remains open (item 11, table 3, s6 of the Act).

Between 22 August 2016 and 26 June 2019, Star Qld approved CCFs for Customer 32 on eight occasions, with limits ranging from \$1,500,000 to \$8,000,000 (item 6, table 1, s6 of the Act).

While a customer of Star Qld, Customer 32 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 32's risk profile below.

1378. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 32.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 32's risk profile

1379. On and from 30 November 2016, Customer 32, and the provision of designated services to Customer 32 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 32's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 32 had the following risk history:
- i. Customer 32 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

In 2016, Customer 32 operated four junket programs at Star Sydney.

The total cumulative turnover of the junkets operated by Customer 32 in 2016 was \$86,262,267 with losses of \$679,855.

Between 22 February 2016 and 22 August 2016, Star Sydney provided Customer 32 and his junket with significant amounts of credit upon request, up to limits of \$1,500,000. On each occasion, the CCFs were approved by the Chief Executive Officer and the Chief Financial Officer.

In 2016, Customer 32 facilitated the provision of high value designated services to at least 19 junket players at Star Sydney.

- ii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 32 by remitting large amounts of money into, out of, and within the casino environment via his account;

Particulars

Remittances out of the casino environment

See paragraph 327 above.

On 2 September 2016, Star Sydney sent a telegraphic transfer of \$200,000 from Customer 32's FMA to another Australian casino.

On 5 October 2016, Star Sydney sent a telegraphic transfer of \$300,000 from Customer 32's SKA to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances into the casino environment

See paragraph 327 above.

Between 25 February 2016 and 22 November 2016, Star Sydney received four telegraphic transfers, totalling \$480,714, each of which was made available to Customer 32's SKA.

In addition, on 18 March 2016, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$142,575, in which Customer 32 was named as the ordering customer and beneficiary. The funds were deposited into Customer 32's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On around 26 August 2016, Star Sydney sent a transfer of \$150,000 from Customer 32's FMA to Star Qld.

On 13 September 2016, Star Sydney received a transfer of \$155,155 from Star Qld, which it made available to Customer 32's account.

- iii. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 32 by remitting large amounts of money within the casino environment via his account; and

Particulars

See paragraphs 347 to 349 above.

For example, on or around 26 August 2016, Star Qld received a transfer of \$150,000 from Star Sydney, which it made available to Customer 32's FMA at Star Gold Coast.

- iv. Customer 32 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 31 August 2016 and 2 November 2016, Star Sydney gave the AUSTRAC CEO six TTRs totalling \$146,160, detailing chip and cash exchanges and account withdrawals made by Customer 32.

Customer 32's risk profile from 30 November 2016

- b. Customer 32 was a junket operator who facilitated the provision of high-value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2019, Customer 32 operated 21 junkets at Star Sydney. Two of the junkets were partly funded by junket funders;
 - ii. between 2017 and 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 32 was \$804,531,439, with losses of \$7,111,885;

Particulars

In 2017, junkets operated by Customer 32 had turnover of \$63,240,034 with losses of \$1,078,110.

In 2018, junkets operated by Customer 32 had turnover of \$178,318,436 with wins of \$706,185.

In 2019, junkets operated by Customer 32 had turnover of \$562,972,969 with losses of \$6,739,960.

- iii. although Customer 32 was a junket player on some of his own junkets, between 2017 and 2019, Star Sydney recorded a cumulative turnover of \$731,634,810 for Customer 32 as a junket player on his own junkets despite him not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1379.d below.

- iv. between 2017 and 2019, total benefits of \$3,995,706 were payable to Customer 32 by Star Sydney in his capacity as a junket operator;

Particulars

Customer 32 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2017, total benefits of \$912,167 were payable to Customer 32;
- b. in 2018, Customer 32 was liable to pay rebates of \$425,831 to Star Sydney; and
- c. in 2019, total benefits of \$3,509,371 were payable to Customer 32.

- v. between 21 March 2017 and 2 July 2019, Star Sydney provided Customer 32 and his junket with significant amounts of credit upon request, up to limits of \$27,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 21 March 2017 and 2 July 2019, Star Sydney provided Customer 32 with CCFs up to facility limits between \$5,000,000 and \$27,500,000, on 19 occasions. At least seven CCFs were directly approved by Star Sydney senior management, including the Chief Executive Officer, the Chief Financial Officer and the Star Sydney Managing Director.

- vi. Customer 32 had seven junket representatives at Star Sydney; and
- vii. Customer 32 facilitated the provision of high value designated services to approximately 78 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 32 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 2017 and 2019, Customer 32 operated eight junkets at Star Qld;

Particulars

In 2017 and 2019, Customer 32 was a top ten junket operator by number of junket programs at Star Gold Coast.

- ii. between 2017 and 2019, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 32 was \$63,164,452, with losses of \$3,178,810;

Particulars

In 2017, junkets operated by Customer 32 had turnover of \$6,901,443 with wins of \$188,300.

In 2018, junkets operated by Customer 32 had turnover of \$19,367,722 with losses of \$523,065.

In 2019, junkets operated by Customer 32 had turnover of \$36,895,287 with losses of \$2,844,045.

- iii. although Customer 32 was a junket player on some of his own junkets, between 2017 and 2019, Star Qld recorded a cumulative turnover of \$53,776,759 for Customer 32 as a junket player on his own junkets despite him not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1379.e below.

- iv. between 2017 and 2019, total benefits of \$724,652 were payable by Star Qld to Customer 32 in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, complimentary services, additional program agreement benefits and non-gaming complimentary services such as hotel rooms and airport transfers;

Particulars

Customer 32 was entitled to benefits from Star Qld in his capacity as a junket operator:

- a. in 2017, total benefits of \$52,725 were payable to Customer 32;
 - b. in 2018, total benefits of \$321,020 were payable to Customer 32; and
 - c. in 2019, total benefits of \$206,663 were payable to Customer 32.
- v. between 18 February 2017 and 26 June 2019, Star Qld provided Customer 32 and his junket with significant amounts of credit upon request, up to facility limits of \$20,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 18 February 2017 and 26 June 2019, Star Gold Coast provided Customer 32 with CCFs with facility limits between \$5,000,000 and \$20,000,000 on six occasions. At least two CCFs were directly approved by the Chief Executive Officer and the Star Qld Managing Director.

On 26 June 2019, Treasury Brisbane approved a permanently active CCF with a facility limit of \$20,000,000 for Customer 32, which was deactivated on 2 July 2020.

- vi. Customer 32 had five junket representatives at Star Qld; and
- vii. Customer 32 facilitated the provision of high value designated services to at least 49 junket players at Star Qld;

Particulars

See paragraphs 643 to 649 above.

- d. Customer 32 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney on junket programs;
 - i. in 2017, Customer 32 was a player on two of his own junkets at Star Sydney; and
 - ii. in 2017, Star Sydney recorded a high turnover, totalling \$31,320,783, for Customer 32's gaming activity on junket programs, with wins of \$23,645;
- e. Customer 32 was a junket player who received high-value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld on junket programs;
 - i. in 2017, Customer 32 was a player on two of his own junkets at Star Qld; and

- ii. in 2017, Star Qld recorded a high turnover totalling \$6,901,443, for Customer 32's gaming activity on junket programs, with wins of \$87,350;
- f. designated services provided to Customer 32 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 32 referred players to Star Sydney;

Particulars

See paragraph 625 above.

Customer 32 received a commission on amounts wagered by referred players, who Star Sydney dealt with directly.

- h. between 27 December 2018 and 15 August 2019, across two occasions, Customer 32 referred five different players to Star Qld;

Particulars

See paragraph 625 above.

Between 27 December 2018 and 15 August 2019, across two occasions, Customer 32 referred five different players to Star Qld. On each occasion, Customer 32 arranged for the referred player(s) to attend Star Qld on a rebate program without Customer 32 or his junket representative being present.

Customer 32 received a commission on amounts wagered by the referred customers, who Star Qld dealt with directly.

- i. Customer 32 received financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2019, Star Sydney recorded turnover totalling \$3,258 for Customer 32;

Particulars

See paragraph 752.

In 2017, Customer 32's individual rated turnover was \$92.

In 2018, Customer 32's individual rated turnover was \$950.

In 2019, Customer 32's individual rated turnover was \$2,217.

- j. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 32 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 6 August 2019 and 8 August 2019, third party companies acting on behalf of Customer 32 deposited a total of \$2,041,680 into the EEIS Patron accounts, which Star Sydney made available to Customer 32 through the EEIS remittance channel.

Between 16 July 2019 and 4 March 2020, a third party acting on behalf of Customer 32 deposited a total of \$419,251 into the EEIS Patron accounts, which Star Sydney made available to Customer 32 through the EEIS remittance channel.

Other remittances involving third parties

See paragraph 278 above.

On 29 January 2018, Star Sydney received \$40,000 from a third party, which it made available to Customer 32's FMA.

On 14 February 2019, Star Sydney received \$100,000 from a third party, which it made available to Customer 32's FMA.

On 20 March 2020, Star Sydney received \$129,956 from a third party located overseas who jointly funded one of Customer 32's junkets, which it made available to Customer 32's FMA. The third party's listed occupation was a junket representative.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 17 August 2018 and 25 March 2020, Star Sydney received six telegraphic transfers, totalling \$1,141,100, each of which was made available to Customer 32's SKA. At least \$125,000 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 21 January 2017 and 1 March 2021, Star Sydney sent 11 telegraphic transfers, totalling \$4,761,613, from Customer 32's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

See paragraph 1379.k below.

Between 24 November 2017 and 18 September 2019, Star Sydney sent three transfers totalling \$134,793 from Customer 32's account to Star Qld.

On 18 August 2019, Star Sydney received a telegraphic transfer of \$1,343,079 from Star Qld, which it made available to Customer 32's SKA.

- k. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 32 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances involving third parties

See paragraph 278 above.

For example, on 17 August 2018, Star Qld received \$249,963 into its bank account from a third party. The transfer details showed that the funds were for the credit of Customer 32. Star Qld was unaware of the connection between Customer 32 and the third party. Star Qld considered the transfer to Customer 32 to be unusual, due to it being from an unknown third party: SMR dated 20 August 2018.

Remittances out of the casino environment

See paragraph 327 above.

On 6 March 2017 and 26 June 2017, Star Qld facilitated two telegraphic transfers, totalling \$165,000, from Customer 32's FMA at Star Gold Coast to Australian bank accounts.

Between 13 April 2017 and 6 January 2020, Star Qld facilitated four telegraphic transfers, totalling \$305,050, from Customer 32's FMA at Star Gold Coast to another Australian casino.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 25 November 2017 and 20 August 2019, Star Qld received two transfers, totalling \$87,126, from Star Sydney, both of which were made available to Customer 32's FMA at Star Gold Coast. Some of these funds were transferred for the purpose of redeeming an outstanding CCF.

On 18 September 2019, Star Qld received a transfer of \$47,666 from Star Sydney, which it made available to Customer 32's FMA at Treasury Brisbane.

- l. Customer 32, and other customers associated with him, had engaged in large and unusual transactions, which had no apparent economic or visible lawful purpose at Star Qld;

Particulars

On 18 July 2019, a Star Qld customer received \$80,000 into his FMA from a second customer, who was his daughter. The first customer then requested that \$1,239,968 be transferred from his FMA at Star Sydney to Treasury Brisbane.

The first customer used these funds to gamble at Treasury Brisbane. At the end of play, the first customer had a balance of \$1,423,079. The first customer requested that Star Qld transfer from his Treasury Brisbane account \$1,343,079 to Customer 32's Star Sydney FMA and \$80,000 to a third customer's FMA. Star Qld staff at Treasury Brisbane declined both requests, however Star Qld did facilitate a transfer from the first customer's account to FMAs held by Customer 32 and the third customer's FMAs at Treasury Brisbane. Star Qld staff at Treasury Brisbane advised that it would be up to Customer 32 and the third customer to organise any further transfers.

On 18 July 2019, Star Qld facilitated a telegraphic transfer of \$1,343,079 from Customer 32's FMA at Treasury Brisbane to Star Sydney.

Star Qld was unable to find any links between the first customer and Customer 32. Star Qld was advised by its staff from a foreign country that both Customer 32 and the third customer were business associates of the first customer from that country. Star Qld considered the transfers to be unusual: SMR dated 19 July 2019.

- m. Customer 32, and third parties acting on behalf of Customer 32, transacted using large amounts of cash at Star Sydney;

Particulars

TTRs

Between 24 May 2017 and 16 December 2019, Star Sydney gave the AUSTRAC CEO 40 TTRs totalling \$1,429,315.

Large cash transactions in 2017

On 17 December 2017, a junket representative withdrew \$160,000 from Customer 26's junket operator account at Star Sydney. Most of this cash was given to another Star Sydney customer, who requested Star Sydney deposit the cash into Customer 32's FMA. Star Sydney declined the request. The customer was told that he needed to open his own account to deposit the funds and could then transfer the funds to Customer 32. The customer did so, then transferred the funds to Customer 32's FMA: SMR dated 18 December 2017.

Large cash transactions in 2019

On 30 May 2019, a junket representative exchanged \$137,050 in chips for cash on behalf of Customer 32 at Star Sydney. The chips had been given to Customer 32.

On 3 June 2019, a junket representative exchanged \$115,100 in chips for cash at Star Sydney on behalf of Customer 32.

On 27 June 2019, a junket representative exchanged \$101,050 in chips for cash at Star Sydney on behalf of Customer 32. After conducting the transaction, the junket representative handed the money to junket players.

On 8 September 2019, a junket representative exchanged \$61,090 in chips for cash at Star Sydney on behalf of Customer 32. The cash appeared to be a payout for one of the junket players on the Customer 32 junket.

- n. Customer 32 transacted using large amounts of cash at Star Qld;

Particulars

Between 29 May 2017 and 8 October 2019, Star Qld give the AUSTRAC CEO six TTRs totalling \$115,000.

- o. Customer 32 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 32 had access to private gaming rooms, including the Sovereign, Lakes Salons, Rivers Salons, Harbours Salons, Sovereign (Cage), Oasis (Cage), Lakes Salon (Cage), Springs Salon (Cage) and the Rivers and Harbour Salons (Cage), at Star Sydney.

Several of Customer 32's junkets had access to private gaming rooms, including the Sovereign (Cage) and the Oasis (Cage), at Star Sydney.

- p. Customer 32 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 32 had access to private gaming rooms, including Club Conrad, Pit 8, Pit 9, Salon 21, Salon 89 and the Sovereign (Cage), at Star Gold Coast.

Several of Customer 32's junkets had access to private gaming rooms, including Salon 21, Sovereign Room – Table Games and the Sovereign (Cage), at Star Gold Coast.

One of Customer 32's junkets had access to private gaming rooms, including the Cage, at Treasury Brisbane.

- q. Star Sydney and Star Qld did not have adequate reason to believe that Customer 32's source of wealth or source of funds was sufficient to explain the financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 32 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Star Qld and Star Sydney understood that Customer 32 was a director/shareholder of 17 companies.

By 21 September 2022, Star's internal due diligence records included open source searches indicating that Customer 32 was involved in business and charity work, but recorded Customer 32's occupation as 'unknown'.

At no time did Star Sydney or Star Qld take appropriate steps to verify Customer 32's source of wealth or source of funds, in circumstances where:

- a. turnover on Customer 32's junkets exceeded \$800 million at Star Sydney and \$63 million at Star Qld; and
- b. at least \$2.4 million was transferred to Customer 32 at Star Sydney via the EEIS remittance channel: see *Customer 32's risk profile* above.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 32

1380. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 32 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 32.
- a. On and from 30 November 2016, Customer 32 should have been recognised by Star Sydney and Star Qld as a high-risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 32's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 32 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

On 18 December 2017, Customer 32 was rated low risk, not being high risk for the purpose of the Act and Rules.

20 August 2018, Customer 32 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 9 February 2021, Customer 32 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 32's transactions

1381. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 32's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 32, Star Sydney's and Star Qld's transaction monitoring programs

did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 32's junket as turnover was recorded against Customer 32 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 32 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. an international remittance channel, specifically the EEIS remittance channel;

Particulars

See paragraphs 493 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 32 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- f. Star Qld provided designated services to Customer 32 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 32's KYC information

1382. Star Sydney and Star Qld did not review, update and verify Customer 32's KYC information having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 32's business with Star Sydney and Star Qld, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 32's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 32's source of wealth and source of funds were not legitimate: see *Customer 32's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 32's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 32.

Particulars

See paragraph 155 above.

On 31 May 2019, 28 June 2019 and 9 September 2019, Star Sydney conducted ongoing customer due diligence in respect of Customer 32: see *Customer 32's risk profile*.

On 9 September 2019, the ongoing customer due diligence screening in respect of Customer 32 identified that there was no adverse information or media relating to Customer 32.

Failure to apply appropriate due diligence suited to Customer 32's high ML/TF risks

1383. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 32 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 32; and
 - c. reviewing and updating Customer 32's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 32 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 32*.

ECDD triggers in respect of Customer 32

1384. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 32 following any ECDD triggers in respect of Customer 32.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1385. Customer 32:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 18 December 2017, Star Sydney gave the AUSTRAC CEO one SMR relating to Customer 32.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 20 August 2018 and 19 July 2019, Star Qld gave the AUSTRAC CEO two SMRs relating to Customer 32.

1386. Each matter pleaded in paragraph 1385 is an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1387. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 32 following an ECDD trigger because:

- a. on each occasion that Star Sydney or Star Qld conducted ECDD in respect of Customer 32 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 32 and the provision of designated services to Customer 32 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809 above.

On 9 February 2021, Star conducted ECDD in respect of Customer 32, but did not have appropriate regard to his higher ML/TF risks: see *Customer 32's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 32's higher ML/TF risks, including where:

- a. turnover on Customer 32's junkets exceeded \$800 million at Star Sydney and \$63 million at Star Qld; and
- b. at least \$2.4 million was transferred to Customer 32 at Star Sydney via the EEIS remittance channel: see *Customer 32's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 32's source of funds or source of wealth, in circumstances where Star Qld and Star Sydney understood that Customer 32 was a director/shareholder of 17 companies but did not take steps to verify this.

By reason of the matters set out above, there were real risks that Customer 32's source of wealth and source of funds were not legitimate: see *Customer 32's risk profile*.

- b. Customer 32 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 32

1388. By reason of the matters pleaded from paragraphs 1374 to 1387, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 32 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1389. By reason of the matters pleaded at paragraph 1388, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 32.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 33

1390. Customer 33 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$260 million for Customer 33.

Particulars

Customer 33 was a customer of Star Sydney from at least 8 January 2007.

1391. Star Sydney provided Customer 33 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and junket player. Between 2016 and 2019, Star Sydney recorded that junkets operated by Customer 33 had a turnover exceeding \$390 million.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 33 which remain open (item 11, table 3, s6 of the Act).

Between 2 December 2016 and 2 July 2020, Star Sydney provided Customer 33 and his junket programs with significant amounts of credit upon request, up to limits of \$5,000,000 with an additional limit for that trip only of \$2,500,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel and the Bank 1 (Macau) cash channel, which it made available to Customer 33 (items 31 and 32, table 1, s6 of the Act).

See Customer 33's risk profile.

1392. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 33.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 33's risk profile

1393. On and from 30 November 2016, Customer 33, and the provision of designated services to Customer 33 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 33's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 33 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 33;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 11 October 2011.

The SMR reported that Customer 33 had engaged in a large cash transaction: see paragraph 1393.a.vi below.

- ii. Customer 33 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

On 8 January 2007, Customer 33 was approved to be a junket operator at Star Sydney.

Between 16 August 2015 and 27 October 2016, Customer 33 operated seven junkets at Star Sydney with 27 junket players.

Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 33 was \$369,363,267 with wins of \$3,282,050.

- iii. Customer 33 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 16 August 2015 and 27 October 2016, Customer 33 was a player on seven junkets at Star Sydney operated by Customer 33 himself.

By 30 November 2016, Star Sydney recorded high turnover totalling \$301,016,807 with losses of \$1,181,530 for Customer 33's gaming activity on his own junket programs.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 33 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 5 January 2007 and 13 March 2016, Star Sydney gave the AUSTRAC CEO five incoming IFTIs totalling \$6,015,344 where Customer 33 was named as the beneficiary and the ordering customer. Of these funds, \$589,312 were used to repay a CCF. The remainder was deposited into Customer 33's Star Sydney account or FMA.

On 11 March 2016, Star Sydney received a telegraphic transfer of \$1,218,348, which it made available to Customer 33's FMA. The

funds were transferred for the purpose of redeeming an outstanding CCF.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 8 October 2015 and 4 November 2016, Star Sydney sent two telegraphic transfers totalling \$7,174,000 from Customer 33's account to an overseas bank account.

The above transactions were conducted through the Star Patron account channel.

- v. between 10 August 2015 and 26 September 2016, Star Sydney provided Customer 33 with significant amounts of credit upon request, up to limits of \$5,000,000 with an additional trip only limit of \$2,500,000; and

Particulars

See paragraph 516 to 518 and 552 above.

On 10 August 2015, 29 September 2015, 18 November 2015 and 13 January 2016, Star Sydney senior management including the Chief Executive Officer, the Star Sydney Managing Director and the Chief Financial Officer approved a single trip CCF limit of \$5,000,000 for Customer 33.

On 10 February 2016, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$6,500,000 for Customer 33.

On 27 April 2016 and 26 September 2016, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$5,000,000 with an additional trip only limit of \$2,500,000 for Customer 33.

- vi. Customer 33 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 11 October 2011 and 24 October 2016, Star Sydney gave the AUSTRAC CEO 41 TTRs in respect of Customer 33 totalling \$1,395,679, which comprised:

- a. 39 outgoing TTRs totalling \$1,235,679;
- b. two incoming TTRs totalling \$160,000;
- c. \$1,165,125 in chip or cash exchanges; and
- d. \$230,554 in account deposits or withdrawals.

On 6 October 2011, Customer 33 deposited \$100,000 in cash into his FMA at Star Sydney. Customer 33 then transferred the funds to Star Gold Coast: SMR dated 11 October 2011.

On 20 October 2016 and 23 October 2016, Customer 33 exchanged \$130,685 and \$132,500 in chips for cash respectively at Star Sydney.

Customer 33's risk profile from 30 November 2016

- b. Customer 33 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 33 was a member of a foreign political body.

- c. Customer 33 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
- i. between 12 December 2016 and 20 May 2019, Customer 33 operated five junkets at Star Sydney;
 - ii. between 12 December 2016 and 20 May 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 33 in the relevant period was \$397,228,273 with losses of \$9,002,060;

Particulars

In 2016, junkets operated by Customer 33 had turnover of \$165,225,125 with losses of \$5,464,690.

In 2017, junkets operated by Customer 33 had turnover of \$117,902,174 with wins of \$1,890,525.

In 2018, junkets operated by Customer 33 had turnover of \$17,934,371 with losses of \$2,491,540.

In 2019, junkets operated by Customer 33 had turnover of \$96,166,603 with losses of \$2,936,355.

- iii. although Customer 33 was a junket player on some of his own junkets, between 1 March 2019 and 16 March 2019, Star Sydney recorded a cumulative turnover of \$29,017,300 for Customer 33 as a junket player on his own junket despite not being a junket player on that particular junket;

Particulars

See paragraph 670 above.

See paragraph 1393.d below.

- iv. between 12 December 2016 and 20 May 2019, total benefits of \$2,859,021 were payable to Customer 33 by Star Sydney in his capacity as a junket operator for rebates earned, complimentary services and non-gaming complimentary services;
- v. between 2 December 2016 and 2 July 2020, Star Sydney provided Customer 33 and his junket programs with significant amounts of credit upon request, up to limits of \$5,000,000 with an additional limit for that trip only of \$2,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 2 December 2016, 31 March 2017, 6 June 2017 and 19 September 2017, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$5,000,000 with an additional trip only limit of \$2,500,00 for Customer 33.

On 21 October 2017, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanent active CCF limit of \$5,000,000 with an additional trip only limit of \$2,500,00 for Customer 33 which was not deactivated.

On 3 July 2019, Star Sydney approved a permanent active CCF limit of \$5,000,000 with an additional trip only limit of \$2,500,00 for Customer 33 which was deactivated on 2 July 2020.

- vi. Customer 33 had one junket representative at Star Sydney; and
- vii. Customer 33 and his junket representative facilitated the provision of high value designated services to 17 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- d. Customer 33 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 11 December 2016 and 20 May 2019, Customer 33 was a player on four junkets at Star Sydney operated by Customer 33 himself; and
 - ii. between 11 December 2016 and 20 May 2019, Star Sydney recorded high turnover totalling \$236,205,463 with losses of \$1,322,070 for Customer 33's gaming activity on junket programs operated by Customer 33 himself;

Particulars

In 2016, Customer 33's turnover on junket programs was \$118,848,275 with losses of \$5,845.

In 2017, Customer 33's turnover on junket programs was \$68,760,614 with losses of \$1,328,225.

In 2018, Customer 33's turnover on junket programs was \$14,254,721 with wins of \$6,000.

In 2019, Customer 33's turnover on junket programs was \$34,341,853 with wins of \$6,000.

- e. designated services provided to Customer 33 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 33 by remitting large amounts of money into and out of the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 25 January 2017 and 19 June 2019, Customer 33 deposited a total of \$6,680,588 into the EEIS Patron accounts, which Star Sydney made available to Customer 33 through the EEIS remittance channel.

Remittances through the Bank 1 (Macau) cash channel

See paragraphs 372 and 382 to 384 above.

On 24 January 2017, unknown persons deposited a total of \$3,004,500 in cash at Bank 1 which Star Sydney made available to Customer 33 through the Bank 1 (Macau) cash channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 21 December 2016 and 21 June 2019, Star Sydney received four telegraphic transfers totalling \$7,980,643, each of which was made available to Customer 33's FMA. At least \$3,676,143 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 9 May 2017, Star Sydney sent two telegraphic transfers totalling \$2,663,721 from Customer 33's account to overseas bank accounts, including the account of a third party.

Each of the above transactions was conducted through the Star Patron account channel.

- g. Customer 33 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 14 December 2016 and 21 May 2019, Star Sydney gave the AUSTRAC CEO 11 TTRs in respect of Customer 33 totalling \$419,225, which comprised:

- a. ten outgoing TTRs totalling \$369,225;

- b. one incoming TTR totalling \$50,000;
 - c. \$254,725 in chip or cash exchanges;
 - d. \$150,000 in account deposits or withdrawals; and
 - e. \$14,500 in EGM payouts.
- h. Customer 33 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 33 had access to private gaming rooms at Star Sydney, including Springs Salons, Lakes Salons and Rivers Salons.

- i. Star Sydney did not have adequate reason to believe that Customer 33's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 33 at Star Sydney.

Particulars

See paragraph 808 above.

By 30 November 2016, Star Sydney understood that Customer 33's family owned a foreign gaming promotion company.

By 2017, Star Sydney was aware that Customer 33 was a non-executive director of that company, a position for which he was not remunerated.

On 4 February 2020, an ECDD screening conducted in respect of Customer 33 identified that Star Sydney had no information about Customer 33's source of wealth or source of funds.

Star Sydney's understanding of Customer 33's source of wealth was not commensurate to the high value financial and gaming services received by him at Star Sydney.

Star Sydney's determination of the ML/TF risks posed by Customer 33

1394. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 33 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 33.

- a. On and from 30 November 2016, Customer 33 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 33's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 5 February 2020 that Customer 33 was rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

Until 18 June 2019, Customer 33 was rated low risk by default.

On 18 June 2019, Customer 33 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 5 February 2020, Customer 33 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 33 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 33's transactions

1395. At no time did Star Sydney apply appropriate transaction monitoring to Customer 33's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 33, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 33's junket as turnover was recorded against Customer 33 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 33 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. an international remittance channel, specifically the EEIS remittance channel and the Bank 1 (Macau) cash channel; and

Particulars

See paragraphs 383 and 493 above.

- e. Star Sydney provided designated services to Customer 33 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 33's KYC information

- 1396. Star Sydney did not review, update and verify Customer 33's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 33's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 33's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 33's source of wealth or source of funds: see *Customer 33's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 33's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 33.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 33

1397. Star Sydney was required to apply the ECDD Programs to Customer 33 following any ECDD triggers in respect of Customer 33. In particular, because Customer 33 was a foreign PEP, Star Sydney was required to:

- a. undertake detailed analysis of Customer 33's KYC information including taking reasonable measures to identify the source of Customer 33's wealth and the source of Customer 33's funds; and
- b. seek senior management approval for continuing a business relationship with Customer 33 and whether Star Sydney should continue to provide a designated service to Customer 33.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.10(2), 15.10(6) and 15.11 of the Rules.

1398. Customer 33:

- a. at all times from 30 November 2016 was a foreign PEP; and

Particulars

See Customer 33's risk profile above.

- b. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney.

Particulars

On 5 February 2020, Star Sydney determined that the ML/TF risks posed by Customer 33 was high risk for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 33 above.*

1399. Each matter pleaded in paragraph 1398 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

1400. It was not until 5 September 2020 that Star Sydney identified that Customer 33 was a foreign PEP.

1401. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 33 following the ECDD triggers:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 33 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 33 and the provision of designated services to Customer 33 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite. In particular, Star Sydney failed to monitor Customer 33 as a foreign PEP because:
 - i. Star Sydney's analysis of Customer 33's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 33;

- ii. Star Sydney's analysis of Customer 33's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 33;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 18 June 2019, 4 February 2020, 25 September 2020, 27 January 2021 and 15 September 2021, Star Sydney conducted ECDD in respect of Customer 33.

On 4 February 2020, the ECDD screening in respect of Customer 33 identified that:

- a. Customer 33 was a member of a foreign political body and therefore a foreign PEP;
- b. Customer 33 had business interests in a foreign country; and
- c. no source of funds or source of wealth information was available in respect of Customer 33.

On 25 September 2020, the ECDD screening in respect of Customer 33 identified, in addition to the matters set out in previous screenings, that there was no adverse information available.

On 27 January 2021, the ECDD screening in respect of Customer 33 identified, in addition to the matters set out in previous screenings, that Customer 33 had various foreign business interests.

On 15 September 2021, the ECDD screening in respect of Customer 33 identified, in addition to the matters set out in previous screenings, that there was no adverse information available.

The ECDD conducted by Star Sydney did not have appropriate regard to their higher ML/TF risks: see *Customer 33's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 33's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 33's source of wealth or source of funds: see *Customer 33's risk profile*.
