- iii. Customer 33 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- iv. any senior management approval regarding Customer 33 failed to give appropriate consideration to the ML/TF risks posed by Customer 33 and the

provision of designated services to Customer 33 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

On 15 September 2021, following an ECDD screening, the Due Diligence Program Manager determined to maintain a business relationship with Customer 33 without appropriate regard to his higher ML/TF risks.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 33's source of wealth (r 15.10(2)(a) of the Rules), having regard to their status as a foreign PEP; and
- b. Customer 33's source of funds (r15.10(2)(b) of the Rules), having regard to their status as a foreign PEP: see *Customer 33's risk profile* above.

Contravention of s36 of the Act in respect of Customer 33

1402. By reason of the matters pleaded from paragraphs 1390 to 1401, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 33 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1403. By reason of the matters pleaded at paragraph 1402, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 33.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 34

1404. Customer 34 was a customer of Star Sydney during the relevant period. Between 2016 and 2018, Star Sydney recorded turnover exceeding \$61 million for Customer 34.

Particulars

Customer 34 was a customer of Star Sydney from at least 2 February 2014.

1405. Star Sydney provided Customer 34 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period as a junket operator. Between 2016 and 2018, Star Sydney recorded that junkets operated by Customer 34 had a turnover exceeding \$1.9 billion.

Particulars

On 20 December 2016, Star Sydney opened an FMA and SKA for Customer 34, which remain open (item 11, table 3, s6 of the Act).

Between December 2016 and January 2020, Star Sydney approved CCFs for Customer 34 on multiple occasions ranging from facility limits of \$1,250,000 to \$25,000,000, including on some occasions an additional limit for that trip only up to \$12,500,000 (item 6, table 1, s6 of the Act).

While a customer of Star Sydney, Customer 34 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Customer 9 channels, which it made available to Customer 34 (items 31 and 32, table 1, s6 of the Act).

See Customer 34's risk profile below.

1406. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 34.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 34's risk profile

1407. On and from 30 November 2016, Customer 34, and the provision of designated services to Customer 34 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 34's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 34 had transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 9 October 2013 and 15 December 2015, Star Sydney gave the AUSTRAC CEO 55 TTRs in respect of Customer 24 totalling \$2,995,310, including:

- a. three incoming TTRs totalling \$31,000;
- b. 52 outgoing TTRs totalling \$3,964,310;
- c. 34 TTRs totalling \$2,643,715 detailing account deposits and withdrawals; and

- d. 21 TTRs totalling \$1,351,595 detailing chip and cash exchanges.

Customer 34's risk profile from 30 November 2016

- b. Customer 34 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2016 and 2018, Customer 34 operated at least 61 junkets at Star Sydney, including junkets conducted in HKD;

Particulars

In the 2017 calendar year, Customer 34 operated the second highest number of junket programs at Star Sydney. Those programs had the fifth highest turnover at Star Sydney.

In the 2018 calendar year, Customer 34 operated the fifth highest number of junket programs at Star Sydney.

- ii. between December 2016 and 2018, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 34 was \$1,981,280,348 with losses of \$43,888,346;

Particulars

Between December 2016 and 2017, junkets operated by Customer 34 had turnover of \$1,519,053,792 with losses of \$34,756,177.

In 2018, junkets operated by Customer 34 had turnover of \$462,226,556 with losses of \$9,132,169.

- iii. although Customer 34 was a junket player on some of his own junkets, between December 2016 and 2018, Star Sydney recorded a cumulative turnover of \$102,922,812 for Customer 34 as a junket player on their own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1407.d below.

- iv. between 2016 and 2018, total benefits of \$19,177,394 were payable to Customer 34 by Star Sydney in their capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs, and complimentary services;

Particulars

Customer 34 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in the 2016 calendar year, total benefits of \$559,797 were payable to Customer 34;
- b. in the 2017 calendar year, total benefits of \$14,862,262 were payable to Customer 34; and

- c. in the 2018 calendar year, total benefits of \$3,755,335 were payable to Customer 34.
- v. between December 2016 and January 2020, Star Sydney provided Customer 34 and his junket programs with significant amounts of credit upon request, up to facility limits of \$25,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 19 December 2016 and 29 January 2017, Star senior management including the Chief Executive Officer and the Chief Financial Officer, approved permanently active CCFs, with facility limits of up to \$25,000,000. On at least two occasions, Star senior management approved additional trip only limits of between \$2,500,000 and \$12,500,000.

- vi. Customer 34 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;

Particulars

Customer 34 operated junkets in non-exclusive private gaming rooms, including Pit 80, the Sovereign room and the Oasis room.

On 21 December 2016, Star Sydney and Customer 34 entered into an agreement, which included granting Customer 34's junkets exclusive access to Salon 99, subject to a minimum turnover threshold.

In addition, Customer 34 operated junkets in exclusive private gaming rooms, including Salons 78, 82, 86, 88, 90, 91, 92, 93, 97 and 98.

- vii. Customer 34 had at least five junket representatives at Star Sydney including Customer 58; and
- viii. Customer 34 and their junket representatives facilitated the provision of high value designated services to at least 120 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 34 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. in 2017, Customer 34 funded one junket at Star Sydney, other than his own junkets;

Particulars

At Star Sydney, Customer 34 funded one junket totalling \$3,000,000 for Company 6's junket.

Customer 34 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. Star Sydney recorded that the total cumulative turnover of the junket funded by Customer 34 in 2017 was \$15,475,304 with losses of \$415,865;
- iii. the junket funded by Customer 34 was operated by a corporate junket operator;

Particulars

See paragraph 650.e above.

- iv. the junket funded by Customer 34 had one junket representative, Person 11; and
- v. the junkets funded by Customer 34 facilitated the provision of high value designated services to at least two junket players;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- d. Customer 34 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 2016 and 2018, Customer 34 was recorded to be a player on at least 13 junkets operated by Customer 34 himself and two junkets operated by Company 6 at Star Sydney; and
 - ii. between 2016 and 2018, Star Sydney recorded high and escalating turnover totalling \$59,989,591 for Customer 34's gaming activity on junket programs;

Particulars

Between 1 December 2016 and 31 December 2016, Customer 34's turnover on junket programs operated by Company 6 was \$2,331,028 with losses of \$55,507.

In 2017, Customer 34's turnover on junket programs operated by Customer 34 himself was \$50,033,263 with losses of \$1,040,037.

In 2018, Customer 34's turnover on junket programs operated by Customer 34 himself was \$7,625,300 with wins of \$160,639.

- e. designated services provided to Customer 34 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- f. Customer 34 was connected to other customers at Star Sydney, including Company 6's junket and junket representatives who posed higher ML/TF risks such as Customer 58;

Particulars

See particulars to paragraphs 1407.c and 1407.j.

On 6 December 2017, the SEG Board were informed in a presentation by the Chief Executive Officer, the Chief Financial Officer and the President of International Marketing that Customer 34

was a business partner of Person 68, who funded Company 6's junket. The presentation noted that Customer 34 serviced former customers of Company 6's junket.

- g. Customer 34 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2018, Star Sydney recorded turnover totalling \$2,906,597 for Customer 34;
 - i. between 2017 and 2018, Star Sydney recorded individual rated turnover totalling \$16,597 for Customer 34; and

Particulars

See paragraph 752 above.

In 2017, Customer 34's individual rated turnover was \$6,150.

In 2018, Customer 34's individual rated turnover was \$10,447.

- ii. in 2018, Star Sydney recorded high turnover on individual rebate programs totalling \$2,890,000 for Customer 34;

Particulars

See paragraph 623 above.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 34 by remitting large amounts of money into the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 19 January 2018 and 10 January 2019, deposits through the Customer 9 channels totalling AU\$2,497,075 and HKD12,323,046 were made available by Star Sydney to Customer 34's account.

Other remittances involving third parties

See paragraph 278 above.

In 2017, Star Sydney gave the AUSTRAC CEO six incoming IFTIs totalling \$888,667 where third parties were named as the ordering customer and Customer 34 was named as the beneficiary customer. The funds were deposited into Customer 34's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

On 30 December 2016, Star Sydney gave the AUSTRAC CEO two incoming IFTIs totalling \$2,999,999 where Customer 34 was named

as the ordering and beneficiary customer. The funds were made available to Customer 34's Star Sydney account

In 2017, Star Sydney gave the AUSTRAC CEO 20 incoming IFTIs totalling \$8,346,577 where Customer 34 was named as the ordering and beneficiary customer. The funds were made available to Customer 34's Star Sydney account .

In 2018, Star Sydney gave the AUSTRAC CEO three incoming IFTIs totalling \$1,704,952 where Customer 34 was named as the ordering and beneficiary customer. The funds were made available to Customer 34's Star Sydney account .

Each of the above transactions was conducted through the Star Patron account channel.

- i. Customer 34's junket representatives had engaged in large and unusual transactions, which had no apparent economic or visible lawful purpose, using cash and chips originating from Customer 34's FMA at Star Qld;

Particulars

On 6 November 2018, Customer 34's junket representative, Person 11, withdrew \$210,000 in junket program chips from Customer 34's FMA at Star Sydney. Person 11 gave the junket chips to another Star Sydney customer, Person 65. Staff at Star Sydney advised Person 11 that Person 65 could not use the junket chips for gaming because they were a local player and not on a junket. Shortly after, Star Sydney observed Person 11 giving the chips to a second junket operator, Person 42. Person 42 deposited the chips into their junket program.

On 7 November 2018, Person 65 exchanged \$200,000 in cash for chips. The cash was presented in a yellow bag and was comprised entirely of \$100 notes with straps issued by Star. Star Sydney observed that Person 65 had not had any cash-outs that would justify them being in possession of that amount of cash. Person 65 had been on a junket operated by Person 42. Person 65 recorded a turnover of \$4,012,665 and a win of \$80,710 for Person 42's junket.

Star Sydney noted that this amount of cash appeared excessive given the win recorded for the junket. Star Sydney suggested that it appeared that Person 42 had paid Person 65 cash for the chips that Person 11 had initially attempted to give to Person 65: SMR dated 8 November 2018.

- j. persons associated with Customer 34's junket, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands, plastic bags and parcel bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

ITRs

Between 23 December 2016 and 9 December 2018, Star Sydney gave the AUSTRAC CEO 290 TTRs in respect of Customer 34 totalling \$19,322,274, including:

- a. 64 incoming TTRs totalling \$5,131,228;
- b. 226 outgoing TTRs totalling \$14,191,047;
- c. 226 TTRs totalling \$16,904,697 detailing account deposits and withdrawals; and
- d. 64 TTRs totalling \$2,417,577 detailing chip and cash exchanges.

Large and suspicious cash transactions involving Customer 34's junket representative, Customer 58

Between December 2016 and August 2017, Customer 34's junket representative, Customer 58, transacted with cash totalling at least \$7,247,558 on 39 occasions.

- a. On 21 December 2016, Customer 58 exchanged cash and chips worth \$100,000 on behalf of Customer 34 at Star Sydney.
- b. On 22 December 2016, Customer 58 withdrew \$200,000 in cash from Customer 34's FMA at Star Sydney.
- c. On 27 January 2017, Customer 58 exchanged cash and chips worth \$100,000 on behalf of Customer 34 at Star Sydney.
- d. On 5 February 2017, Customer 58 withdrew \$455,636 in cash from Customer 34's FMA at Star Sydney: SMR dated 6 February 2017.
- e. On 6 March 2017, Customer 58 deposited \$400,000 in cash into Customer 34's SKA at Star Sydney. The cash was comprised of \$50 notes and presented in plastic bags with no straps inside a green bag: SMR dated 7 March 2017.
- f. On 14 March 2017, Customer 58 deposited \$120,000 in cash, which was comprised of \$100,000 in \$100 notes and \$20,000 in \$50 notes into Customer 34's SKA at Star Sydney.
- g. On 23 March 2017, Customer 58 withdrew \$151,000 in cash from Customer 34's FMA at Star Sydney.
- h. On 1 April 2017, Customer 58 withdrew \$325,458 in cash from Customer 34's FMA at Star Sydney. After the cash was paid out, Customer 58 presented \$83,000 in cash and said they wanted to deposit the funds into another patron's account. Star Sydney advised Customer 58 that this was not possible without the other patron being present. Customer 58 then said they wanted to deposit the funds into their account and subsequently to send the funds to the other patron by telegraphic transfer. Star Sydney advised Customer 58 that it

did not permit telegraphic transfers to third parties. Customer 58 then deposited the \$83,000 into their own account. Star Sydney observed Customer 58 making many phone calls and pacing around the room. Customer 58 then deposited \$350,000 into their SKA, advised they would transfer the funds to their own account on Monday and also asked whether the bank would call the casino and ask questions about the source of the money: SMR dated 3 April 2017.

- i. On 6 April 2017, Customer 58 withdrew \$110,400 in cash from Customer 34's FMA at Star Sydney.
- j. On 17 April 2017, Customer 58 withdrew \$220,000 in cash from Customer 34's FMA at Star Sydney.
- k. On 19 April 2017, Customer 58 withdrew \$100,000 in cash from Customer 34's FMA at Star Sydney.
- l. On 22 April 2017, Customer 58 withdrew \$174,610 in cash from Customer 34's FMA at Star Sydney.
- m. On 24 April 2017, Customer 58 withdrew \$312,150 in cash from Customer 34's FMA at Star Sydney: SMR dated 26 April 2017.
- n. On 29 April 2017, Customer 58 withdrew \$200,000 in cash from Customer 34's FMA at Star Sydney.
- o. On 1 May 2017, Customer 58 withdrew \$101,500 in cash from Customer 34's FMA at Star Sydney.
- p. On 14 May 2017, Customer 58 withdrew \$100,000 in cash from Customer 34's FMA at Star Sydney.
- q. On 15 May 2017, Customer 58 withdrew \$300,000 in cash from Customer 34's SKA at Star Sydney: SMR dated 16 May 2017.
- r. On 28 May 2017 and 29 May 2017, Customer 58 made chip and cash exchanges totalling \$200,000 at Star Sydney.
- s. On 9 June 2017, Customer 58 withdrew \$200,000 in cash from Customer 34's SKA at Star Sydney.
- t. On 4 July 2017, Customer 58 withdrew \$100,000 in cash from Customer 34's SKA at Star Sydney.
- u. On 8 July 2017, Customer 58 made chip and cash exchanges totalling \$200,000 at Star Sydney.
- v. On 9 July 2017, Customer 58 withdrew \$110,000 in cash from Customer 34's FMA at Star Sydney.
- w. On 11 July 2017, Customer 58 withdrew \$100,000 in cash from Customer 34's FMA at Star Sydney.

- x. On 20 July 2017, Customer 58 withdrew \$220,000 in cash from Customer 34's SKA at Star Sydney.
- y. On 22 July 2017, Customer 58 withdrew \$200,000 in cash from Customer 34's FMA at Star Sydney. Customer 58 mentioned during the course of a conversation with Star Sydney staff that the funds were for one of the players on the junket to use as a deposit to purchase a property. Customer 58 refused to give any more detail regarding the identity of that player: SMR dated 24 July 2017.
- z. On 25 July 2017, Customer 58 withdrew \$223,804 in cash from Customer 34's FMA at Star Sydney.
- aa. On 1 August 2017, Customer 58 deposited \$320,000 in cash into Customer 34's FMA at Star Sydney. The cash comprised \$21,900 in \$100 notes, \$280,500 in \$50 notes, \$16,220 in \$20 notes, \$1,250 in \$10 notes and \$130 in \$5 notes. This was regarded as unusual by Star Sydney staff because most of the large cash transactions involving Customer 34's FMA involved withdrawals. The cash deposited was exchanged for cash chips, rather than the non-negotiable chips used by junkets: SMR dated 2 August 2017.
- bb. On 12 August 2017, Customer 58 withdrew \$500,000 in cash from Customer 34's FMA at Star Sydney. The cash was placed in a black bag and given to a player on the junket. The player then left the premises with the cash in a hire car. The player had recorded a win for the junket of \$594,050: SMR dated 14 August 2017.
- cc. On 16 August 2017, Customer 58 deposited \$200,000 in cash into Customer 34's FMA at Star Sydney.
- dd. On 23 August 2017, Customer 58 withdrew \$100,000 in cash from Customer 34's SKA at Star Sydney.
- ee. On 26 August 2017, Customer 58 withdrew \$100,000 in cash from Customer 34's SKA at Star Sydney.
- ff. On 2 September 2017, Customer 58 withdrew \$130,000 in cash from Customer 34's SKA at Star Sydney.
- gg. On 17 September 2017, Customer 58 exchanged \$100,000 in chips for cash, then provided the cash to a junket player on Customer 34's junket. The junket player exchanged the cash for chips, then engaged in non-junket gaming activity and lost the full amount.
- hh. On 30 September 2017, Customer 58 withdrew in cash \$100,000 from Customer 34's FMA and gave the cash to a player on Customer 34's junket.
- ii. On 2 October 2017, Customer 58 conducted a chip and cash exchange for \$100,000 on behalf of Customer 34.

- jj. On 6 October 2017, Customer 58 deposited \$150,000 in cash into Customer 34's FMA, comprised of \$20,000 in \$100 notes and \$130,000 in \$50 notes, wrapped in rubber bands and presented in a black shopping bag.
- kk. On 11 October 2017, Customer 58 withdrew \$100,000 in cash from Customer 34's FMA and conducted a chip and cash exchange for \$8,000 at Star Sydney.
- ll. On 14 October 2017 and 15 October 2017, Customer 58 conducted a chip and cash exchange totalling \$200,000 on behalf of Customer 34.
- mm. On 16 October 2017, Customer 58 withdrew \$123,000 in cash from Customer 34's SKA.

See particulars to paragraph 1407.l.

Large and suspicious cash transactions involving Customer 34's junket representative, Person 11

Between November 2017 and November 2018, Customer 34's junket representative, Person 11, transacted with cash totalling at least \$1,754,613 on 13 occasions, including:

- a. on 7 November 2017, Person 11 exchanged HKD1,000,000 in cash for AUD165,239 at Star Sydney. The cash was comprised entirely of HKD1,000 notes bundled with elastic bands in a clear bag with foreign writing on it. The funds were deposited into Customer 34's FMA: SMR dated 8 November 2017;
- b. on 13 November 2017, Person 11 withdrew \$100,000 in cash from Customer 34's SKA;
- c. on 20 November 2017, a Star Sydney customer withdrew \$100,000 in cash from their FMA. After the transaction was completed, the customer placed the cash in a red backpack strapped to their front. Person 11 then withdrew a total of \$250,000 in cash from Customer 34's FMA in two withdrawals of \$180,000 and \$70,000. After receiving the money, Person 11 immediately placed the \$250,000 into the Star Sydney customer's bag. Star Sydney noted that the customer was a player on Customer 34's junket and had recorded a turnover of \$2,845,860 and a loss of \$31,490 for the program. Star Sydney considered that the cash appeared excessive given this loss: SMR dated 21 November 2017;
- d. on 22 November 2017, Person 11 conducted a chip and cash exchange of \$100,000 on behalf of Customer 34;
- e. on 15 February 2017, Person 11 withdrew \$300,000 in cash from Customer 34's SKA;

- f. between 1 May 2018 and 2 May 2018, Person 11 completed two deposits on behalf of Customer 34:
 - i. Person 11 first deposited \$450,000 in cash into Customer 34's FMA. The cash was comprised of \$50 notes bundled in \$50,000 lots with elastic bands and wrapped in thin plastic labelled bags. The cash was presented in a small blue bag. The junket representative, Person 11, said that the cash came from the Suncity junket operated by Customer 3; and
 - ii. Person 11 then deposited \$437,374 in cash into Customer 34's account. The cash comprised \$430,000 in \$50 notes and \$7,374 in loose notes. The cash was presented in the same style of bag as the first deposit. The funds were withdrawn to redeem Customer 34's outstanding cheque cashing facility: SMR dated 2 May 2018;
- g. on 14 May 2018, Person 11 deposited \$250,000 in cash into Customer 34's FMA at Star Sydney. The cash comprised \$200,000 in \$100 notes and \$50,000 in \$50 notes. Person 11 mentioned the cash came from the Suncity junket operated by Customer 3: SMR dated 15 May 2018;
- h. on 9 June 2018, Person 11 deposited \$80,000 in cash, which was comprised of in \$50 notes, into Customer 34's SKA. Person 11 then deposited \$38,900 in cash, which was comprised of \$100 notes wrapped in rubber bands, into his own account. The cash was contained in a paper bag;
- i. on 2 October 2018, Person 11 withdrew a total of \$250,000 in cash from Customer 34's SKA and then requested to purchase \$250,000 in chips. No gaming was recorded, but Customer 34's junket representative, Person 11, subsequently deposited a total of \$500,000 in chips into his own account at Star Sydney;
- j. on 19 October 2018, Person 11 withdrew a total of \$172,000 in cash from Customer 34's SKA;
- k. on 28 October 2018, Person 11 deposited \$100,000 in cash into Customer 34's FMA at Star Sydney. The cash was comprised entirely of \$50 notes bundled in \$10,000 lots with elastic bands in a parcel bag: SMR dated 29 October 2018; and
- l. on 30 October 2018, Person 11 deposited \$100,000 in cash into Customer 34's FMA at Star Sydney. The cash was comprised entirely of \$50 notes bundled in \$10,000 lots with elastic bands in a large sealed envelope: SMR dated 31 October 2018.
- k. at various times, Customer 34 had significant parked or dormant funds in their SKA;

Particulars

From 21 December 2017 until at least 5 August 2022, Customer 34 had \$36,635 parked in their SKA.

See paragraph 284 above.

- I. persons associated with Customer 34's junket engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including quick turnover of money (without betting) at Star Sydney; and

Particulars

See paragraph 25 above.

2017

On 12 August 2017, Customer 58 deposited \$200,000 in cash into Customer 34's FMA at Star Sydney. Later that day, Customer 58 returned to deposit a further \$200,000 in cash into the same FMA.

The cash was comprised entirely of \$100 notes initially issued by Star. On 13 August 2017, Customer 58 returned and made two cash withdrawals from Customer 34's FMA totalling \$490,000. These withdrawals comprised the \$400,000 in deposits and an additional withdrawal of \$90,000. Star Sydney considered that it did not make sense that Customer 58 was depositing and withdrawing cash for no apparent reason: SMR dated 14 August 2017.

On 15 August 2017, Customer 58 deposited \$290,000 in cash into Customer 34's FMA at Star Sydney. The cash was comprised of \$280,000 in \$50 notes and \$10,000 in \$20 notes. The cash was bundled in elastic bands and presented in a colourful plastic bag. On 16 August 2017, Customer 58 returned to withdraw \$212,528 in cash from the same FMA: SMR dated 16 August 2017.

On 15 September 2017, Customer 58 withdrew \$400,000 in cash from Customer 34's FMA at Star Sydney. Star Sydney observed Customer 58 handing the cash to a Star Sydney customer, Person 54. Person 54 then left Star Sydney. Later that evening, Person 54 and another Star Sydney customer returned and deposited \$200,000 of the cash into each of their accounts. Person 54 and the other customer then left Star Sydney: SMR dated 18 September 2017.

2018

On 2 October 2018, Customer 34's junket representative, Person 11, made three cash withdrawals from Customer 34's FMAs totalling \$250,000. Person 11 exchanged the cash for chips. Person 11 then deposited a total of \$500,000 in chips into their account later that evening without recording any play. These chips were comprised of the chips which had been previously exchanged by Person 11 and a further \$250,000 in chips: SMR dated 3 October 2018.

- m. Star Sydney did not have adequate reason to believe that Customer 34's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 34 at Star Sydney.

Particulars

See paragraph 808 above.

On 20 December 2016, Customer 34 advised Star Sydney that he was a director of a hotel, with an income of around \$10,000,000 per year.

By 21 September 2022, Star Sydney recorded Customer 34's occupation as a president of an unknown company.

At no time did Star Sydney take appropriate steps to investigate and verify Customer 34's source of wealth and source of funds, in circumstances where:

- a. turnover recorded on junkets operated by Customer 34 exceeded \$1.9 billion between 2016 and 2018;
- b. Customer 34's junket representatives, including Customer 58 and Person 11 transacted with over \$10 million in cash transactions into and out of Customer 34's FMA and SKA, including cash that appeared suspicious; and
- c. Customer 34 utilised high risk international remittance channels, including the Customer 9 channels.

Star Sydney's determination of the ML/TF risks posed by Customer 34

1408. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 34 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 34.
- a. On and from December 2016, Customer 34 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 34's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 34 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 23 December 2016, Customer 34 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 21 January 2021, Customer 34 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 34's transactions

1409. At no time did Star Sydney apply appropriate transaction monitoring to Customer 34's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 34, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 34's junket as turnover was recorded against Customer 34 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 34 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Customer 9 channels;

Particulars

See paragraph 441 above.

- e. Star Sydney provided designated services to Customer 34 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 34.

Particulars

Star senior management were not specifically informed of the multiple large and suspicious cash incidents involving Customer 34 between 21 December 2016 and 6 November 2018: see *Customer 34's risk profile*.

The review, update and verification of Customer 34's KYC information

- 1410. Star Sydney did not review, update and verify Customer 34's KYC information, having regard to the high ML/TF risks posed, because:
 - a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 34's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 34's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 34's source of wealth and source of funds were not legitimate: see *Customer 34's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 34's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 34.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 34's high ML/TF risks

1411. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 34 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 34; and
 - c. reviewing and updating Customer 34's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 34 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 34*.

ECDD triggers in respect of Customer 34

1412. Star Sydney was required to apply the ECDD Programs to Customer 34 following any ECDD triggers in respect of Customer 34.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1413. Customer 34 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 6 February 2017 and 8 November 2018, Star Sydney gave the AUSTRAC CEO 20 SMRs with respect to Customer 34.

1414. The matter pleaded in paragraph 1413 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1415. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 34 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 34 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 34, the provision of designated services to Customer 34 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 23 December 2016 and 21 January 2021, Star Sydney conducted ECDD in respect of Customer 34.

The ECDD screening in respect of Customer 34 included open source and risk intelligence searches but concluded that there were no adverse findings against Customer 34.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 34's higher ML/TF risks, including that:

- a. turnover recorded on junkets operated by Customer 34 exceeded \$1.9 billion between 2016 and 2018;
- b. Customer 34's junket representatives, including Customer 58 and transacted with over \$10 million in cash transactions into and out of Customer 34's FMA and SKA, including cash that appeared suspicious; and
- c. Customer 34 utilised high risk international remittance channels, including the Customer 9 channels: see *Customer 34's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 34's source of funds or source of wealth, in circumstances where Star Sydney had not conducted appropriate enquiries to verify Customer 34's occupation.

By reason of the matters set out above, there were real risks that Customer 34's source of wealth and source of funds were not legitimate: see *Customer 34's risk profile*.

- b. Customer 34 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 34 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 34, the provision of designated services to Customer 34 by Star Sydney, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between 15 November 2018 and 20 December 2018, the activities of Customer 34's junket representatives were discussed at JRAM meetings.

The minutes of the meetings noted that Customer 34's junket representative had been involved in swapping chips between junkets. The minutes recorded that the junket representative's ECDD profile was to be provided to the Chief Risk Officer for consideration as to

whether to issue a WOL and that the representative's risk rating was to be raised to critical. No specific consideration was given to Customer 34 during the meeting.

Contravention of s36 of the Act in respect of Customer 34

1416. By reason of the matters pleaded from paragraphs 1404 to 1415 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 34 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1417. By reason of the matters pleaded at paragraph 1416, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 34.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 35

1418. Customer 35 was a customer of Star Sydney during the relevant period.

Particulars

Customer 35 was a customer of Star Sydney from at least 1996.

1419. Star Sydney provided Customer 35 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 6 February 2011, 4 November 2013 and 2 March 2015, Star Sydney opened an FMA and SKA for Customer 35 which remain open (item 11, table 3, s6 of the Act).

Between 1 May 2007 and 26 December 2019, Star Sydney approved CCFs for Customer 35 on 15 occasions ranging from \$300,000 to \$2,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, the Bank 1 (Macau) cash channel and the Customer 9 channels, which it made available to Customer 35 (items 31 and 32, table 1, s6 of the Act).

See Customer 35's risk profile below.

1420. Customer 35 was a customer of Star Qld during the relevant period. Between 2016 and 2017, Star Qld recorded turnover exceeding \$2 million for Customer 35.

Particulars

Customer 35 was a customer of Star Qld from at least 1996.

1421. Star Qld provided Customer 35 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. In 2017, Star Qld recorded that junkets operated by Customer 35 had a turnover exceeding \$6 million.

Particulars

On 18 October 2001, Star Qld opened an FMA for Customer 35 which remains open (item 11, table 3, s6 of the Act).

On 1 April 2016, Star Qld opened an SKA for Customer 35 which remains open (item 11, table 3, s6 of the Act).

Between 1 May 2007 and 23 February 2018, Star Qld approved CCFs for Customer 35 on four occasions ranging from \$1,000,000 to \$2,000,000 (item 6, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the Customer 9 channels, which it made available to Customer 35 (items 31 and 32, table 1, s6 of the Act).

See Customer 35's risk profile below.

1422. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 35.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 35's risk profile

1423. On and from 30 November 2016, Customer 35, and the provision of designated services to Customer 35 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 35's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 35 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 35;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 51 occasions between 6 November 2012 and 23 November 2015.

The SMRs reported that Customer 35, and persons associated with his junket, transacted using large amounts of cash at Star Sydney: see paragraphs 1423.a.v and 1423.a.vi below.

- ii. Customer 35 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Customer 35 was approved to be a junket operator at Star Sydney on 14 December 2008.

Between 30 June 2015 and 12 February 2016, Customer 35 operated eight junkets at Star Sydney.

Between 30 June 2015 and 12 February 2016, junkets operated by Customer 35 had turnover of \$166,288,356 with wins of \$11,403,415. Customer 35 provided \$4,479,625 in funding towards the junkets.

Between 1 May 2007 and 19 April 2016, Star Sydney provided Customer 35 and his junket programs with significant amounts of credit upon request, up to limits of \$2,000,000.

Customer 58 was a junket representative on several of the junkets. Customer 35 facilitated the provision of designated services to at least one foreign PEP, Person 40.

- iii. Customer 35 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

Customer 35 was approved to be a junket operator at Star Qld on 28 October 2013.

In 2016, Customer 35 was one of the top ten junket operators by turnover at Star Qld.

Between 22 July 2016 and 8 November 2016, Customer 35 operated two junkets at Star Qld.

Between 22 July 2016 and 8 November 2016, junkets operated by Customer 35 had turnover of \$8,850,829 with losses of \$767,015.

Between 1 May 2007 and 26 October 2016, Star Qld provided Customer 35 and his junket programs with significant amounts of credit upon request, up to limits of \$2,000,000.

- iv. between 12 February 2016 and 3 June 2016, Customer 35 referred five players to Star Qld;

Particulars

See paragraph 625 above.

Customer 35 arranged for referred players to attend Star Qld on a rebate program without Customer 35 or his junket representative being present.

Customer 35 received a commission on amounts wagered by the referred players, who Star Qld dealt with directly.

- v. Customer 35, and persons associated with his junket, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 9 February 2011 and 23 November 2015, Star Sydney gave the AUSTRAC CEO 288 TTRs in respect of Customer 35 totalling \$20,645,350, which were comprised of:

- a. 263 outgoing TTRs totalling \$18,960,957;
- b. 25 incoming TTRs totalling \$1,684,393;
- c. \$3,477,837 in chip or cash exchanges; and
- d. \$17,167,514 in account deposits or withdrawals.

Between 5 November 2012 and 20 November 2015, Customer 35 and persons associated with his junket conducted large and suspicious cash transactions involving Customer 35's account which totalled \$9,527,054. This included:

- a. \$1,642,521 in cash withdrawals, in addition to a further nine large cash withdrawals of unknown amounts, from Customer 35's account by Customer 35 himself: SMRs dated 6 November 2012; 4 September 2013; 12 March 2013; 4 February 2014; 18 March 2014; 19 March 2014; 29 May 2014; 3 September 2014; 20 November 2014; 16 December 2014; 8 September 2015;
- b. \$917,000 in cash withdrawals, in addition to a further five large cash withdrawals of unknown amounts, from Customer 35's account by Customer 58, \$370,000 of which Customer 58 placed into a safe deposit box: SMRs dated 22 September 2014; 12 November 2014; 29 December 2014; 5 May 2015; 12 June 2015; 4 August 2015; 31 August 2015; 1 September 2015; 25 September 2015;
- c. \$4,194,562 in cash withdrawals, in addition to a further three large cash withdrawals of unknown amounts, from Customer 35's junket account by Customer 35's other junket representatives, \$1,240,440 of which was placed by the junket representatives into a safe deposit box and some of which was not used for gaming purposes: SMRs dated 16 July 2013; 28 August 2013; 29 August 2013, 21 November 2013; 17 April 2014; 1 July 2014; 3 July 2014; 8 July 2014; 19 August 2014; 21 August 2014; 26 August 2014; 2 September 2014; 9 September 2014; 24 February 2015; 17 April 2015; 23 November 2015;
- d. \$200,000 in cash withdrawals by Customer 35's junket representative, Person 11, from Customer 35's safe deposit

- box, which Customer 58 deposited into the account of a third party: SMR dated 30 July 2015;
- e. \$230,000 in cash deposits into Customer 35's account by Customer 35 himself: SMR dated 29 October 2013;
 - f. \$309,000 in cash deposits into Customer 35's account by Customer 35's junket representative SMR dated 5 February 2014;
 - g. \$300,000 in cash deposits by junket players on Customer 35's junket, which sum was subsequently transferred to Customer 35's account: SMR dated 29 August 2014;
 - h. \$176,071 in currency exchanges: SMR dated 19 November 2014;
 - i. \$100,000 in chip exchanges by Customer 35 himself: SMR dated 3 March 2015;
 - j. \$100,000 in chip exchanges by Customer 58: SMR dated 29 January 2015;
 - k. \$757,900 in chip exchanges by Customer 35's junket representatives including Person 11: SMRs dated 9 October 2013; 7 July 2014; 17 April 2015; 30 April 2015; 20 November 2015;
 - l. \$600,000 transferred to Customer 58 from Customer 35's account, which was then withdrawn in cash by Customer 58: SMR dated 29 December 2014; and
 - m. \$100,000 transferred from Customer 35's account to a junket player who withdrew the funds as cash for a buy-in: SMR dated 12 March 2014.
- vi. Star Sydney was aware that Customer 35, and persons associated with his junket, had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 16 July 2013, Customer 35's junket representative requested that \$1,500,000 be transferred to a junket player. Star Sydney advised that the player would need to open an FMA to have the funds transferred to them. After the account was opened, the player decided that they did not want the transfer to be processed under their name. The junket representative then advised Star Sydney that a second junket player would open an FMA for the transfer. The FMA was opened and the \$1,500,000 was transferred and then withdrawn by the second player: SMR dated 17 July 2013.

On 14 September 2014, Customer 35's junket representative attended Star Sydney with a customer. The customer had two large envelopes containing a total of \$200,000 in cash. The junket

representative informed Star Sydney that the customer was a player on the junket and requested that the amount be transferred to them by telegraphic transfer. Star Sydney noted that there was no record of the customer being a player on Customer 35's junket. The junket representative then stated that the customer was not in fact a junket player. Nonetheless, the junket representative requested that Star Sydney transfer the funds as a bank had refused to count and process that amount of cash. Star Sydney refused the request. The funds were returned to the customer. Star Sydney noted that they believed the funds were likely intended to be sent overseas: SMR dated 16 September 2014.

- vii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 35 by remitting large amounts of money into, out of, and within the casino environment via his accounts; and

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 6 February 2013 and 12 June 2014, Star Sydney gave the AUSTRAC CEO five incoming IFTIs totalling \$6,506,684 where Customer 35 was named as the ordering customer and the beneficiary.

On 25 September 2015, Star Sydney received a telegraphic transfer of \$112,000, which it made available to Customer 35's SKA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 9 July 2013, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$568,124 where Customer 35 was named as the ordering customer and the beneficiary.

On 31 July 2015 and 28 May 2016, Star Sydney sent two telegraphic transfers totalling \$1,657,900 from Customer 35's FMA to Australian bank accounts.

On 20 October 2015, Star Sydney sent a telegraphic transfer of \$88,034 to another Australian casino.

On 20 April 2016, Star Sydney sent a telegraphic transfer of \$23,597 from Customer 35's SKA to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 1 June 2016, Star Sydney sent a transfer of \$124,000 from Customer 35's account to Star Qld.

- viii. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 35 by remitting large amounts of money into and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Bank 1 (Macau) cash channel

See paragraphs 372 and 382 to 384 above.

On 9 September 2016, unknown persons deposited a total of \$503,575 in cash at Bank 1 which Star Qld made available to Customer 35 through the Bank 1 (Macau) cash channel.

Remittances into the casino environment

See paragraph 327 above.

Between 9 April 2013 and 10 October 2016, Star Qld gave the AUSTRAC CEO five incoming IFTIs totalling \$699,953 where Customer 35 was named as the ordering customer and the beneficiary.

On 31 May 2016, Star Qld received a telegraphic transfer of \$124,000, which it made available to Customer 35's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 29 March 2016 and 27 May 2016, Star Qld received two transfers totalling \$1,246,004 from Star Sydney, both of which were made available to Customer 35's FMA at Star Gold Coast.

Customer 35's risk profile from 30 November 2016

- b. Customer 35 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
- i. between 5 February 2017 and 24 February 2017, Customer 35 operated two junkets at Star Qld;

Particulars

In 2017, Customer 35 was one of the top ten junket operators by turnover at Star Qld.

Customer 35 provided \$3,000,000 in funding towards the junkets.

- ii. between 5 February 2017 and 24 February 2017, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 35 was \$6,008,106 with wins of \$11,838;

- iii. in 2017, total benefits of \$36,047 were payable to Customer 35 by Star Qld in his capacity as a junket operator for rebates earned, complimentary services and additional program agreement benefits;
- iv. on 23 February 2018, Star Qld provided Customer 35 and his junket programs with a significant amount of credit upon request, up to limits of \$1,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 23 February 2018, Star Qld approved a single trip CCF limit of \$1,000,000 for Customer 35.

- v. Customer 35 operated junkets in private gaming rooms that were exclusive to the junket;

Particulars

Customer 35 operated junkets in exclusive private gaming rooms, including Pit 6, Pit 7 and Salon 21.

- vi. Customer 35 had one junket representative at Star Qld, being Customer 58; and
- vii. Customer 35 and his junket representative facilitated the provision of high value designated services to junket players at Star Qld;

Particulars

See paragraphs 643 to 649 above.

- c. designated services provided to Customer 35 lacked transparency as the services were provided through the junket channel at Star Qld;

Particulars

See paragraph 650 above.

- d. Customer 35 referred players to Star Sydney;

Particulars

See paragraph 625 above.

Customer 35 received a commission on amounts wagered by referred players, who Star Sydney dealt with directly.

- e. on 24 February 2018, Customer 35 referred a player to Star Qld;

Particulars

See paragraph 625 above.

Customer 35 arranged for the referred player to attend Star Qld on a rebate program without Customer 35 or his junket representative being present.

Customer 35 received a commission on amounts wagered by the referred player, who Star Qld dealt with directly.

- f. Customer 35 was connected to other customers at Star Sydney and Star Qld, including a corporate junket operator and a third party that posed higher ML/TF risks;

Particulars

By 30 November 2016, Star understood that Customer 35 was connected to a corporate junket operator, Company 6.

On 29 October 2013, Star entered into a win/loss rebate agreement with Customer 35 and a corporate junket operator, Company 6.

By 30 November 2016, Star understood that Customer 35 was connected to Person 68, who posed higher ML/TF risks. Star understood that Customer 35 was Person 68's assistant.

In December 2016, Person 68 was the subject of an arrest warrant for attempted bribery of government officials in a foreign jurisdiction.

- g. Customer 35 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2017, Star Qld recorded high individual rated turnover totalling \$2,012,100 for Customer 35;

Particulars

See paragraph 752 above.

In 2016, Customer 35's individual rated turnover was \$1,100,000.

In 2017, Customer 35's individual rated turnover was \$912,100.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 35 by remitting large amounts of money into and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

On 3 October 2019, a third party company acting on behalf of Customer 35 deposited a total of \$179,446 into the EEIS Patron accounts, which Star Sydney made available to Customer 35 through the EEIS remittance channel.

Between 28 October 2019 and 15 November 2019, Customer 35 deposited a total of \$324,977 into the EEIS Patron accounts, which Star Sydney made available to Customer 35 through the EEIS remittance channel.

Remittances through the Bank 1 (Macau) cash channel

See paragraphs 372 and 382 to 384 above.

Between 25 September 2017 and 26 September 2017, unknown persons deposited a total of \$256,447 in cash at Bank 1 which Star Sydney made available to Customer 35 through the Bank 1 (Macau) cash channel:

- a. on 25 September 2017, an unknown person deposited \$111,955 in cash at Bank 1, which Star Sydney made available to Customer 35.
- b. on 26 September 2017, an unknown person deposited \$144,492 in cash at Bank 1, which Star Sydney made available to Customer 35.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 25 January 2018 and 23 July 2019, deposits through the Customer 9 channels totalling AU\$1,594,993 and HKD5,201,254 were made available by Star Sydney to Customer 35's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 7 December 2016 and 9 February 2018, Star Sydney gave the AUSTRAC CEO six incoming IFTIs totalling \$594,641 where Customer 35 was named as the ordering customer and the beneficiary.

In addition, between 3 July 2018 and 31 October 2019, Star Sydney received five telegraphic transfers totalling \$831,354, each of which it made available to Customer 35's SKA. At least \$85,500 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 3 July 2018, Star Sydney sent a transfer of \$295,757 from Customer 35's account to Star Qld.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 35 by remitting large amounts of money into and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

For example, on 3 July 2018, Star Qld received a telegraphic transfer of \$295,757, which it made available to Customer 35's FMA at Star Gold Coast.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 23 February 2018, Star Qld facilitated a transfer of \$500,000 from Star Gold Coast to Treasury Brisbane, which it made available to Customer 35's FMA at Treasury Brisbane.

On 25 February 2018, Star Qld facilitated a transfer of \$38,883 from Treasury Brisbane to Star Gold Coast, which it made available to Customer 35's FMA at Star Gold Coast.

- j. Star Sydney and Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 35 by remitting large amounts of money into and within the casino environment via his accounts, including through the Customer 9 channels;

Particulars

See paragraphs 398, 421, 439, 440 and 441 above.

On 29 June 2018, deposits totalling \$300,854.40 through the Customer 9 channels were made available by Star Sydney and Star Qld to Customer 35's accounts.

- k. persons associated with Customer 35's junket transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash contained in shopping bags at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 5 February 2017, Customer 58, Customer 35's junket representative, arrived at Star Qld with \$100,000 in cash contained in a green shopping bag. Customer 58 deposited the funds into Customer 35's account, which were used for commission play: SMR dated 7 February 2017.

On 12 February 2017, Customer 58, Customer 35's junket representative, withdrew \$200,000 from Customer 35's account. Star Qld considered this to be a large amount for a customer to carry on their person: SMR dated 13 February 2017.

On 3 August 2017, Customer 58 and another of Customer 35's junket representatives were involved in a series of large and suspicious transactions involving Customer 54: SMR dated 4 August 2017.

In February 2018, a Star Qld customer, who was playing under an individual rebate program funded by Customer 35, lost \$479,770. This was the first time the customer had visited Star Qld. Star Qld was not aware of the customer's source of funds or how the customer would repay Customer 35: SMR dated 23 March 2018.

- l. between 1 December 2017 and 26 December 2019, Star Sydney provided Customer 35 with significant amounts of credit upon request, up to limits of \$1,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 1 December 2017 and 26 December 2019, Star Sydney approved single trip CCF limits for Customer 35 on 13 occasions ranging from \$300,000 to \$1,000,000.

- m. Customer 35 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 35 had access to private gaming rooms at Star Sydney, including Springs Salon, Lakes Salon, Oasis, the Sovereign Room, Harbours Salons and Rivers Salons.

- n. Customer 35 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 35 had access to private gaming rooms at Star Qld, including Salon 21, Pit 10, Pit 9, Pit 8 and the Club Conrad.

- o. Star Sydney and Star Qld did not have adequate reason to believe that Customer 35's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 35 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 35's occupation was as a junket operator and credit controller.

Customer 35 transacted through various high risk international remittance channels including the Bank 1 (Macau) cash channel, the Customer 9 channels and the EEIS remittance channel.

Customer 35 was also known to be closely associated with a person who was the subject of an arrest warrant for attempted bribery of government officials in a foreign jurisdiction.

Despite this, Star Sydney and Star Qld took inadequate steps to verify that Customer 35's source of wealth and source of funds was sufficient to explain the high value financial and gaming services provided to him.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 35

1424. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 35 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 35.

- a. On and from 30 November 2016, Customer 35 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 35's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 35 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 11 August 2016, Customer 35 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 24 November 2016, Customer 35 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 13 April 2022, Customer 35 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 35's transactions

1425. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 35's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 35, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 35 through:
- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. international remittance channels, specifically the EEIS remittance channel, the Bank 1 (Macau) cash channel and the Customer 9 channels;

Particulars

See paragraphs 383, 441 and 493 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 35 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Customer 9 channels;

Particulars

See paragraph 441 above.

- e. Star Sydney and Star Qld provided designated services to Customer 35 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 35.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 35 on 5 February 2017, 12 February 2017 and 3 August 2017: See *Customer 35's risk profile*.

The review, update and verification of Customer 35's KYC information

- 1426. Star Sydney and Star Qld did not review, update and verify Customer 35's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 35's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 35's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 35's source of wealth or source of funds: see *Customer 35's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 35's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 35.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 35's high ML/TF risks

1427. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 35 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 35; and
 - c. reviewing and updating Customer 35's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 35 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1428. Had Star Sydney rated Customer 35 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Program to Customer 35.

Particulars

Rule 15.9 of the Rules.

1429. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 35 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 35; and
 - c. reviewing and updating Customer 35's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 35 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 35*.

ECDD triggers in respect of Customer 35

1430. Star Qld was required to apply the ECDD Programs to Customer 35 following any ECDD triggers in respect of Customer 35.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1431. Customer 35 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period;

Particulars

Between 7 February 2017 and 23 March 2018, Star Qld gave the AUSTRAC CEO four SMRs with respect to Customer 35.

1432. The matter pleaded in paragraph 1431 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1433. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 35 following an ECDD trigger because:

- a. at no time did Star Qld apply the ECDD Programs to Customer 35; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 35's source of wealth or source of funds: see *Customer 35's risk profile*.

Despite this, at no time did Star Qld apply the ECDD Programs to Customer 35.

Rules 15.10(2) and (5) of the Rules.

- b. Customer 35 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 35

- 1434. By reason of the matters pleaded from paragraphs 1418 to 1433 above, on and from 30 November 2016, Star Sydney and Star Qld:
 - a. did not monitor Customer 35 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

- 1435. By reason of the matters pleaded at paragraphs 1434, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 35.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 36

- 1436. Customer 36 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$72 million for Customer 36.

Particulars

Customer 36 was a customer of Star Sydney from at least 11 February 2002.

- 1437. Star Sydney provided Customer 36 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2019, Star Sydney recorded that junkets operated by Customer 36 had a turnover exceeding \$150 million.

Particulars

By 2008, Star Sydney had opened an FMA and SKA for Customer 36 which remain open (item 11, table 3, s6 of the Act).

Between April 2011 and December 2019, Star Sydney approved CCFs for Customer 36 on four occasions ranging from \$300,000 to \$5,000,000 (item 6, table 1, s6 of the Act).

See Customer 36's risk profile.

1438. Customer 36 was a customer of Star Qld during the relevant period. Between 2017 and 2019, Star Qld recorded turnover exceeding \$14 million for Customer 36.

Particulars

Customer 36 was a customer of Star Qld from at least September 2011.

1439. Star Qld provided Customer 36 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player and junket operator. Between 2017 and 2019, Star Qld recorded that junkets operated by Customer 36 had a turnover exceeding \$36 million.

Particulars

On 23 February 2017, Star Qld opened an FMA for Customer 36 which remains open (item 11, table 3, s6 of the Act).

On 30 August 2019, Star Qld opened an SKA for Customer 36 which remains open (item 11, table 3, s6 of the Act).

Between September 2011 and October 2019, Star Qld approved CCFs for Customer 36 on four occasions ranging from \$300,000 to \$5,000,000 (item 6, table 1, s6 of the Act).

See Customer 36's risk profile.

1440. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 36.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 36's risk profile

1441. On and from 30 November 2016, Customer 36, and the provision of designated services to Customer 36 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 36's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 36 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 36;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on six occasions between 27 October 2008 and 28 September 2012.

The SMRs reported that Customer 36 engaged in large and suspicious cash transactions: see paragraph 1441.a.viii below.

- ii. Customer 36 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

On 29 December 2015, Star Sydney approved Customer 36 to be a junket operator.

Between 29 December 2015 and 30 December 2015, Customer 36 operated a junket at Star Sydney.

The junket operated by Customer 36 had a turnover of \$2,459,730 with losses of \$135,705.

- iii. Customer 36 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 29 December 2015 and 30 December 2015, Customer 36 was a junket player on a junket operated by Customer 36 himself.

Customer 36's turnover on the junket was \$2,329,340 with losses of \$93,195.

- iv. Customer 36 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. On 23 November 2016, Star Sydney recorded high turnover on individual rebate programs totalling \$15,578,290 for Customer 36;

Particulars

See paragraph 623 above.

- v. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 36 by remitting large amounts of money into the casino environment via his accounts;

Particulars

Remittances involving third parties

See paragraph 278 above.

On 20 March 2013, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$100,000 from an overseas company where Customer 36 was named as the beneficiary. The funds were deposited into Customer 36's Star Sydney FMA.

The above transaction was conducted through the Star Patron account channel.

Remittances into the casino environment

See paragraph 327 above.

Between 24 January 2013 and 25 June 2014, Star Sydney gave the AUSTRAC CEO five incoming IFTIs totalling \$868,626 from Customer 36's overseas bank account. Of those funds, \$160,650

was used to repay a CCF, and the remainder was deposited into Customer 36's Star Sydney FMA.

Each of the above transactions was conducted through the Star Patron account channel.

- vi. between 14 April 2011 and 30 November 2016, Star Sydney provided Customer 36 with significant amounts of credit upon request, up to limits of \$5,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 14 April 2011, Star Sydney approved a single trip CCF limit of \$1,000,000 for Customer 36.

On 14 May 2014, Star Sydney senior management, including the Chief Financial Officer and the Chief Executive Officer approved a permanently active CCF limit of \$5,000,000 which was deactivated on 11 February 2019.

- vii. on 13 September 2011, Star Qld provided Customer 36 with a significant amount of credit upon request, up to a limit of \$1,000,000; and

Particulars

See paragraph 516 to 518 and 552 above.

On 13 September 2011, Star Qld approved a single trip CCF limit of \$1,000,000.

- viii. Customer 36 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 23 April 2010 and 30 December 2015, Star Sydney gave the AUSTRAC CEO 24 TTRs in respect of Customer 36 totalling \$2,371,599, which were comprised of:

- a. 15 outgoing TTRs totalling \$1,100,120;
- b. nine incoming TTRs totalling \$1,271,480;
- c. \$96,060 in chip or cash exchanges; and
- d. \$2,275,539 in account deposits or withdrawals.

Between April 2010 and September 2012 at Star Sydney, Customer 36 was involved in large and suspicious cash transactions:

- a. on 27 April 2010, Customer 36 received \$225,719 in cash from a premium program settlement: SMR dated 28 April 2010;
- b. on 1 October 2010, Customer 36 deposited \$500,000 in cash into his FMA at Star Sydney: SMR dated 6 October 2010;

- c. on 29 January 2012, Customer 36 withdrew \$241,000 in cash from his FMA at Star Sydney while in a private gaming room: SMR dated 31 January 2012; and
- d. on 27 September 2012, Customer 36 deposited \$75,000 in cash into his FMA at Star Sydney: SMR dated 27 September 2012.

Customer 36's risk profile from 30 November 2016

- b. Customer 36 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 28 March 2017 and 18 December 2019, Customer 36 operated eight junkets at Star Sydney;
 - ii. between 28 March 2017 and 18 December 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 36 was \$158,623,103 with losses of \$2,648,765;

Particulars

In 2017, junkets operated by Customer 36 had turnover of \$50,240,946 with losses of \$1,860,620.

In 2018, junkets operated by Customer 36 had turnover of \$31,644,990 with losses of \$880,745.

In 2019, junkets operated by Customer 36 had turnover of \$76,737,167 with wins of \$92,600.

- iii. although Customer 26 was a junket player on some of his own junkets, between 13 April 2018 and 18 April 2018, Star Sydney recorded a cumulative turnover of \$257,465 for Customer 36 as a junket player on his own junket despite not being a junket player on that particular junket;

Particulars

See paragraph 670 above.

See paragraph 1441.d below.

- iv. between 23 February 2017 and 31 August 2019, total benefits exceeding \$1,100,000 were payable to Customer 36 by Star Sydney in his capacity as a junket operator for rebates earned and complimentary services;
- v. between 30 November 2016 and 10 December 2019, Star Sydney provided Customer 36 and his junket programs with significant amounts of credit upon request, up to limits of \$5,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 14 May 2014, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer approved a permanently active CCF limit of \$5,000,000 for Customer 36 which was deactivated on 11 February 2019.

On 23 August 2019, Star Sydney approved a single trip CCF limit of \$5,000,000 for Customer 36.

On 28 October 2019, Star Sydney approved a single trip CCF limit of \$300,000 for Customer 36.

On 10 December 2019, Star Sydney approved a single trip CCF limit of \$5,000,000 for Customer 36.

- vi. in the relevant period, Customer 36 had one junket representative at Star Sydney, Person 45; and
- vii. Customer 36 and his junket representative facilitated the provision of high value designated services to over 20 junket players at Star Sydney, including Customer 36 himself;

Particulars

See paragraphs 643 to 649 above.

See paragraphs 1441.d and 1441.l below.

- c. Customer 36 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 23 February 2017 and 31 August 2019, Customer 36 operated three junkets at Star Qld;
 - ii. between 23 February 2017 and 31 August 2019, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 36 was \$36,729,316 with wins of \$336,695;

Particulars

In 2017, junkets operated by Customer 36 had turnover of \$2,155,192 with losses of \$247,145.

In 2018, junkets operated by Customer 36 had turnover of \$3,323,840 with wins of \$74,755.

In 2019, junkets operated by Customer 36 had turnover of \$31,250,284 with wins of \$509,085.

- iii. between 23 February 2017 and 31 August 2019, total benefits exceeding \$200,000 were payable to Customer 36 by Star Qld in his capacity as a junket operator for rebates earned and complimentary services.
- iv. between 23 February 2017 and 28 October 2019, Star Qld provided Customer 36 and his junket programs with significant amounts of credit upon request, up to limits of \$5,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 23 February 2017, Star Qld senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanently active CCF limit of \$5,000,000 for Customer 36 which was deactivated on 11 February 2019.

On 23 August 2019, Star Qld approved a single trip CCF limit of \$5,000,000 for Customer 36.

On 28 October 2019, Star Qld approved a single trip CCF limit of \$300,000 for Customer 36.

- v. Customer 36 had one junket representative at Star Qld; and
- vi. Customer 36 and his junket representatives facilitated the provision of high value designated services to seven junket players at Star Qld, including Customer 36 himself;

Particulars

See paragraphs 643 to 649 above.

See paragraph 1441.e below.

- d. Customer 36 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 28 March 2017 and 18 December 2019, Customer 36 was a player on seven junkets at Star Sydney operated by Customer 36 himself; and
 - ii. between 28 March 2017 and 18 December 2019, Star Sydney recorded high turnover totalling \$62,789,990 with losses of \$709,845 for Customer 36's gaming activity on junket programs;

Particulars

In 2017, Customer 36's turnover on junket programs was \$32,420,170 with losses of \$1,203,645.

In 2018, Customer 36's turnover on junket programs was \$12,902,643 with losses of \$136,965.

In 2019, Customer 36's turnover on junket programs was \$17,467,177 with wins of \$630,765.

- e. Customer 36 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 5 March 2017 and 31 August 2019, Customer 36 was a player on four junkets at Star Qld operated by Customer 12 and Customer 36 himself; and
 - ii. between 5 March 2017 and 31 August 2019, Star Qld recorded high and escalating turnover totalling \$13,815,815 with wins of \$54,565 for Customer 36's gaming activity on junket programs;

Particulars

In 2017, Customer 36's turnover on junket programs was \$3,801,642 with losses of \$128,910.

In 2018, Customer 36's turnover on junket programs was \$3,222,180 with losses of \$42,575.

In 2019, Customer 36's turnover on junket programs was \$6,791,993 with wins of \$226,050.

- f. designated services provided to Customer 36 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 36 was referred to Star Qld by a player referrer at Star Qld;

Particulars

See paragraph 625 above.

Between 23 February 2017 and 28 August 2019, on three occasions, another player referred Customer 36 to Star Gold Coast.

On each occasion, the other player received a commission on the amounts wagered by Customer 36, who Star Qld dealt with directly.

- h. Customer 36 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2017, Star Sydney recorded high turnover on individual rebate programs totalling \$9,580,350 for Customer 36;

Particulars

See paragraph 623 above.

In 2016, Customer 36's turnover on individual rebate programs was \$4,165,850 with wins of \$94,475.

In 2017, Customer 36's turnover on individual rebate programs was \$5,414,500.

- i. Customer 36 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2017, Star Qld recorded high individual rated turnover of \$394,413 for Customer 36;

Particulars

See paragraph 752 above.

- j. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 36 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 5 June 2018, Star Sydney received a telegraphic transfer of \$100,000 from an Australian casino, which it made available to Customer 36's FMA.

Between 21 April 2017 and 12 June 2018, Star Sydney received 17 telegraphic transfers totalling \$1,159,890, each of which was made available to Customer 36's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 1 December 2016 and 12 February 2019, Star Sydney sent four telegraphic transfers totalling \$369,902 from Customer 36's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 30 August 2019, Star Sydney received a transfer of \$667,818 from Star Qld, which it made available to Customer 36's account.

- k. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 36 by remitting large amounts of money out of and within the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327 above.

For example, on 28 February 2017, Star Qld facilitated a telegraphic transfer of \$111,693 from Customer 36's FMA at Star Gold Coast to an Australian bank account.

This transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 30 August 2019, Star Qld facilitated a transfer of \$667,818 from Customer 36's FMA at Star Gold Coast to Star Sydney.

- l. Customer 36, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 31 March 2017 and 5 September 2019, Star Sydney gave the AUSTRAC CEO nine TTRs in respect of Customer 36 totalling \$1,172,824, which were comprised of:

- a. seven outgoing TTRs totalling \$1,137,824;

- b. two incoming TTRs totalling \$35,000;
- c. \$53,425 in chip or cash exchanges; and
- d. \$1,119,399 in account deposits or withdrawals.

Large and suspicious cash transactions in 2017

On 20 September 2017, a Star Sydney customer who had no record of gaming at the casino deposited \$200,000 in cash to his account.

The cash was presented in a green shopping bag and was comprised of \$150,000 in \$50 notes and \$50,000 in \$100 notes. The Star Sydney customer then requested that the funds be transferred to Customer 36. The funds remained in Customer 36's account as of 22 September 2017. Star Sydney was unaware of any link between Customer 36 and the other Star Sydney customer: SMR dated 22 September 2017.

On 3 October 2017, the same Star Sydney customer arrived at Star Sydney with an unknown person who handed him a white cloth bag containing \$100,000 to be deposited into the first customer's account. The cash comprised \$90,000 in \$50 notes and \$10,000 in \$100 notes. The Star Sydney customer then requested that the funds be transferred to Customer 36, and he subsequently left the casino. Star Sydney noted that this was the second request by the customer to transfer funds to Customer 36. Star Sydney was unaware of any link between Customer 36 and the Star Sydney customer: SMR dated 4 October 2017.

Large and suspicious cash transaction in 2019

On 4 September 2019, Customer 36 was operating a junket at Star Sydney. At settlement, he requested an account withdrawal totalling \$1,025,909 in cash at Star Sydney. The cash was placed into a bag and Customer 36 was escorted to the exit by security. During the junket program, Customer 36 had recorded a turnover of \$9,004 with a win of \$376,170. Star Sydney considered that the transaction was suspicious: SMR dated 4 September 2019.

- m. Customer 36 requested that Star Sydney prepare a letter purportedly confirming his winnings;

Particulars

See paragraph 337 and 338 above.

On 4 September 2019, Star Sydney issued a letter of comfort purportedly confirming Customer 36's winnings of \$426,170.

- n. Customer 36 requested that Star Qld prepare a letter purportedly confirming his winnings;

Particulars

See paragraph 337 and 338 above.

On 31 August 2019, Star Qld issued a letter of comfort purportedly confirming Customer 36's winnings of \$509,085 under a program.

- o. Customer 36 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 36 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Lakes Salons and Springs Salons.

- p. Customer 36 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 36 had access to private gaming rooms at Star Qld, including the Club Conrad, Pit 8, Salon 21, Salon 22, Salon 96, the Sovereign Room and the Club.

- q. in 2017, Star Sydney provided a law enforcement agency with Customer 36's gaming records; and

Particulars

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database.

Star Qld had access to the investigations database: see paragraph 49 above.

- r. Star Sydney and Star Qld did not have adequate reason to believe that Customer 36's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 36 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Star understood that Customer 36 was the chairman of a high value company involved in the construction industry.

Customer 36, and persons associated with him, had access to a significant volume of cash and cash that appeared suspicious.

Star Sydney did not establish the source of funds that ultimately were transferred to Customer 36.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 36

- 1442. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 36 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 36.

- a. In and from 2017, Customer 36 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 36's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from 2018, Customer 36 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 36's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 36 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

From 12 April 2014, Customer 36 was rated medium risk, not being high risk for the purpose of the Act and Rules

On 19 January 2021, Customer 36 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 36's transactions

1443. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 36's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 36, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 36's junket as turnover was recorded against Customer 36 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 36 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 36 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 36 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- g. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 36.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 36 on 20 September 2017, 3 October 2017 or 4 September 2019: See *Customer 36's risk profile*.

The review, update and verification of Customer 36's KYC information

1444. Star Sydney and Star Qld did not review, update and verify Customer 36's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 36's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 36's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 36's source of wealth or source of funds: see *Customer 36's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 36's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 36.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 36's high ML/TF risks

1445. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 36 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 36; and
 - c. reviewing and updating Customer 36's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 36 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 36*.

1446. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 36 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 36; and
- c. reviewing and updating Customer 36's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 36 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1447. Had Star Qld rated Customer 36 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 36.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 36

1448. Star Sydney was required to apply the ECDD Programs to Customer 36 following any ECDD triggers in respect of Customer 36.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1449. Customer 36 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 22 September 2017 and 4 September 2019, Star Sydney gave the AUSTRAC CEO three SMRs with respect to Customer 36.

1450. The matter pleaded in paragraph 1449 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1451. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 36 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 36 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 36, the provision of designated services to Customer 36 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 20 January 2021, Star Sydney conducted ECDD in respect of Customer 36.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 36's higher ML/TF risks: see *Customer 36's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 36's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 36's source of wealth or source of funds: see *Customer 36's risk profile*.

- b. Customer 36 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 36

1452. By reason of the matters pleaded from paragraphs 1436 to 1451 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 36 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1453. By reason of the matters pleaded from paragraphs 1436 to 1451 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 36 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1454. By reason of the matters pleaded at paragraphs 1452 and 1453, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 36.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 37

1455. Customer 37 was a customer of Star Sydney during the relevant period. Between 2018 and 2019, Star Sydney recorded turnover exceeding \$2.5 million for Customer 37.

Particulars

Customer 37 was a customer of Star Sydney from at least 15 October 2018.

1456. Star Sydney provided Customer 37 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2018 and 2019, Star Sydney recorded that junkets operated by Customer 37 had a turnover exceeding \$120 million.

Particulars

On 15 October 2018, Star Sydney opened an FMA and SKA for Customer 37 which remain open (item 11, table 3, s6 of the Act).

Between 10 October 2018 and 30 May 2019, Star Sydney approved CCFs for Customer 37 on 11 occasions ranging from \$500,000 to \$2,200,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Customer 9 channels, which it made available to Customer 37 (items 31 and 32, table 1, s6 of the Act).

See Customer 37's risk profile below.

1457. At all times from 15 October 2018, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 37.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 37's risk profile

1458. On and from 15 October 2018, Customer 37, and the provision of designated services to Customer 37 by Star Sydney, posed higher ML/TF risks because of the following red flags:
- a. Customer 37 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2018 and 2019, Customer 37 operated 16 junkets at Star Sydney, one of which was funded by another junket funder;

Particulars

In 2019, Customer 37 was a top ten junket operator at Star Sydney, for the number of junket programs he operated per year.

- ii. between 2018 and 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 37 in the relevant period was \$124,093,489 with cumulative wins of \$1,256,255;

Particulars

In 2018, junkets operated by Customer 37 had turnover of \$10,099,600 with wins of \$709,300.

In 2019, junkets operated by Customer 37 had turnover of \$46,051,300 with wins of \$546,955.

- iii. although Customer 37 was a junket player on one of his own junkets, between 2018 and 2019, Star Sydney recorded a cumulative turnover of \$658,580 for Customer 37 on 14 of his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1458.b below.

- iv. between 2018 and 2019, total benefits of \$812,462 were payable to Customer 37 by Star Sydney in his capacity as a junket operator for rebates earned and other benefits;

Particulars

Customer 37 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2018, total benefits of \$152,622 were payable to Customer 37; and
- b. in 2019, total benefits of \$659,840 were payable to Customer 37.

- v. between 10 October 2018 and 30 May 2019, Star Sydney provided Customer 37 and his junket programs with significant amounts of credit upon request, up to limits of \$2,200,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 10 October 2018 and 30 May 2019, Star Sydney provided Customer 37 with CCFs between \$500,000 and \$2,200,000 on 11 occasions.

- vi. Customer 37 operated junkets in private gaming rooms;

Particulars

Customer 37 operated junkets in non-exclusive private gaming rooms at Star Sydney, including Lakes Salons, Harbours Salons, the Sovereign Room and Oasis.

- vii. Customer 37 had four junket representatives at Star Sydney; and
- viii. Customer 37 and their junket representatives facilitated the provision of high value designated services to 35 junket players at Star Sydney including players in respect of whom Star Sydney had formed suspicions;

Particulars

See paragraphs 643 to 649 above.

For example, between September 2019 and November 2019, a Star Sydney customer received an FMA transfer of \$3,000,000 from Customer 37 and of \$1,000,000 from a second Star Sydney customer. The two customers were recorded as players on Customer 37's junket, but only the second customer recorded play on the junket, with a win of \$888,850.

On 21 November 2019, the first customer withdrew \$1,000,000 as a casino cheque from Star Sydney, in circumstances where Star Sydney had only recorded two FMA deposits and no gaming activity for the customer: SMR dated 22 November 2019.

- b. Customer 37 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2018, Customer 37 was a player on one junket at Star Sydney that he also operated and funded;
 - ii. in 2018 Star Sydney recorded high turnover totalling \$1,856,400 for Customer 37's gaming activity on junket programs;

Particulars

In 2018, Customer 37's turnover on junket programs was \$1,856,400 with wins of \$51,950.

- c. designated services provided to Customer 37 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 37 was connected to other customers at Star Sydney in respect of whom Star Sydney had formed suspicions such as Customer 60;

Particulars

See paragraphs 1458.h and 1461.c below.

See Customer 60's risk profile.

- e. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 37 by remitting large amounts of money into, out of and within of the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

On 9 August 2016, deposits through the Customer 9 channels totalling \$185,626 were made available by Star Sydney to Customer 37's account.

Other remittances into the casino environment

See paragraph 327 above.

Between 15 October 2018 and 2 May 2019, Star Sydney received six telegraphic transfers totalling \$1,739,316, each of which was made available to Customer 37's account.

In addition, on 21 April 2021, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$8,746 where Customer 37 was named as the ordering customer and beneficiary.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

For example, on 24 October 2018, Star Sydney sent a telegraphic transfer totalling \$1,000,000 from Customer 37's account to an overseas bank account.

This transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 18 October 2018, Star Sydney sent a transfer of \$500,000 from Customer 37's account to Star Qld.

On 19 October 2018, Star Sydney received a transfer of \$536,361 from Star Qld, which it made available to Customer 37's account.

On 27 September 2019, Customer 37 transferred \$3,000,000 into a Star Sydney customer's account, which had only just been opened: SMR dated 22 November 2019.

- f. Customer 37 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 17 October 2018 and 4 November 2019, Star Sydney gave the AUSTRAC CEO 21 TTRs in respect of Customer 37 totalling \$972,173, including:

- a. 11 TTRs detailing account withdrawals made by Customer 37 totalling \$383,437;
- b. six TTRs detailing chip and cash exchanges totalling \$234,000;
- c. three TTRs detailing other monetary value in or out totalling \$325,147; and
- d. one TTR detailing sales of foreign currency totalling \$29,529.

Large and suspicious cash transactions in 2018

On 17 October 2018, Customer 37 withdrew \$178,600 in cash from the Star Sydney cage, which was considered to be suspicious based on the size of the transaction.

On 21 October 2018, Customer 37 withdrew \$224,827 in cash from the Star Sydney cage, which was considered to be suspicious based on the size of the transaction. Customer 37 then took the cash to Star Sydney's hotel.

- g. Customer 37 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 37 had access to private gaming rooms at Star Sydney, including Lakes Salons, Sovereign (Cage) and Oasis (Cage).

- h. by at least May 2021, Star Sydney was aware of media articles which reported that a junket player from another Australian casino had brought proceedings against Customer 37 and Customer 60 alleging fraud; and

Particulars

In July 2019, media articles reported that a junket player had accused Customer 60 in court of misappropriating the junket player's \$6,300,000 in casino winnings at another Australian casino. The article stated that the junket player had gamed at the casino in May 2019 as part of Customer 37's junket, but that Customer 60 had allegedly used Customer 37's junket licence. The junket player alleged that when he attempted to collect his winnings from the casino, he was informed that the money had been paid to Customer 60.

In March 2021, media articles reported that the junket player had brought a lawsuit against Customer 60 and Customer 37 alleging fraud, and against the Australian casino for negligence and breach of trust. The lawsuit concerned the alleged misappropriation of the junket player's casino winnings.

Star Sydney's records suggest that it became aware of these media reports with respect to Customer 60 in September 2019, but that it

did not become aware of these media reports with respect to Customer 37 until May 2021.

- i. Star Sydney did not have adequate reason to believe that Customer 37's source of wealth or source of funds was sufficient to explain the financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 37 at Star Sydney.

Particulars

See paragraph 808 above.

By at least 7 February 2022, Star Sydney understood that Customer 37's occupation was as a 'trades worker and technician'.

Between 2018 and 2019, Customer 37's junket recorded turnover exceeding \$124 million. Star Sydney provided high value designated services to Customer 37, including facilitating very large telegraphic transfers at the request, or for the benefit, of Customer 37.

Customer 37's occupation was inconsistent with the high value financial and gaming activity on junket programs operated by Customer 37 at Star Sydney.

Star Sydney's determination of the ML/TF risks posed by Customer 37

1459. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 37 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 37.
 - a. On and from 15 October 2018, Customer 37 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 37's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 37 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 18 October 2018, Customer 37 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 22 November 2019, Customer 37 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 37's transactions

1460. At no time did Star Sydney apply appropriate transaction monitoring to Customer 37's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 37, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 37's junket as turnover was recorded against Customer 37 as the junket operator rather than the junket players; and

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 37 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Customer 9 channels.

Particulars

See paragraph 441 above.

The review, update and verification of Customer 37's KYC information

- 1461. Star Sydney did not review, update and verify Customer 37's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 37's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 37's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 37's source of wealth and source of funds were not legitimate: see *Customer 37's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 37's KYC information on and from 15 October 2018, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 37.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 37's high ML/TF risks

1462. Had Star Sydney conducted ongoing customer due diligence on and from 15 October 2018 by:
- a. identifying and assessing the ML/TF risks posed by Customer 37 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 37; and
 - c. reviewing and updating Customer 37's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 37 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 37*.

ECDD triggers in respect of Customer 37

1463. Star Sydney was required to apply the ECDD Programs to Customer 37 following any ECDD triggers in respect of Customer 37.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1464. Customer 37 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

On 22 November 2019, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 37.

1465. The matter pleaded in paragraph 1464 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1466. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 37 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 37 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 37 and the provision of designated services to Customer 37 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rule 15.10, 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809 above.

On 18 June 2019, 21 November 2019, 18 January 2021 and 19 May 2021, Star Sydney conducted ECDD in respect of Customer 37.

On 19 May 2021, the ECDD screening in respect of Customer 37 identified a media article dated March 2021 reporting that a junket player had sued Customer 60 and Customer 37, claiming that he played on Customer 37's junket in May 2019 at another Australian casino and won more than \$5,000,000, but that his winnings were remitted back to Customer 60 by the casino. The article reported that the fraud was alleged to have been organised by Customer 60, and that Customer 60 had used Customer 37's junket licence.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 37's higher ML/TF risks: see *Customer 37's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 37's source of funds or source of wealth, in circumstances where Star Sydney's recorded occupation for Customer 37, being 'trades worker and technician', was inconsistent with the high value financial and gaming activity on junket programs operated by Customer 37 at Star Sydney

By reason of the matters set out above, there were real risks that Customer 37's source of wealth and source of funds were not legitimate: see *Customer 37's risk profile*.

- b. Customer 37 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 37 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 37 and the provision of designated services to Customer 37 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Following the ECDD conducted on 19 May 2021, the Due Diligence Program Manager determined to maintain a business relationship with Customer 37.

The Due Diligence Manager noted that Customer 37 was not considered an accused person in the court case, and that a high risk rating remained appropriate.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- c. Customer 37's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high turnover;
- d. Customer 37's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 37's risk profile* above.

Contravention of s36 of the Act in respect of Customer 37

- 1467. By reason of the matters pleaded from paragraphs 1455 to 1466, on and from 15 October 2018, Star Sydney:
 - a. did not monitor Customer 37 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

- 1468. By reason of the matters pleaded at paragraph 1467, Star Sydney contravened s36(1) of the Act on and from 15 October 2018 with respect to Customer 37.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 38

1469. Customer 38 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$370 million for Customer 38.

Particulars

Customer 38 was a customer of Star Sydney from at least 25 February 2010.

On 4 November 2019, Star Sydney issued a WOL in respect of Customer 38. The WOL was issued for problem gambling and not as a result of any active consideration of the higher ML/TF risks posed by Customer 38.

1470. Star Sydney provided Customer 38 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket representative.

Particulars

On 25 February 2010, Star Sydney opened an FMA and SKA for Customer 38 which were closed on 5 November 2019 (item 11, table 3, s6 of the Act).

Between 27 February 2014 and 25 June 2019, Star Sydney approved CCFs for Customer 38 on 38 occasions ranging from \$10,000 to \$498,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 38 (items 31 and 32, table 1, s6 of the Act).

See Customer 38's risk profile below.

1471. Customer 38 was a customer of Star Qld during the relevant period. Between 2017 and 2019, Star Qld recorded turnover exceeding \$3 million for Customer 38.

Particulars

Customer 38 was a customer of Star Qld from at least 18 February 2013.

On 4 November 2019, Star Qld issued a WOL in respect of Customer 38. The WOL was issued for problem gambling and not as a result of any active consideration of the higher ML/TF risks posed by Customer 38.

1472. Star Qld provided Customer 38 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket representative and junket funder. In 2017, Star Qld recorded that junkets funded by Customer 38 had a turnover exceeding \$1.7 million.

Particulars

On 21 September 2015 and 12 January 2017, Star Qld opened FMAs for Customer 38 which were closed on 4 November 2019 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 38 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 38's risk profile* below.

1473. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 38.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 38's risk profile

1474. On and from 30 November 2016, Customer 38, and the provision of designated services to Customer 38 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 38's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 38 had the following risk history:
 - i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 38;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 8 March 2012.

The SMR reported that Customer 38 transacted using large amounts of cash at Star Sydney: see paragraph 1474.a.iv below.

- ii. Customer 38 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between January 2015 and 30 November 2016, Star Sydney recorded high and escalating turnover totalling \$84,803,588 for Customer 38;

Particulars

See paragraphs 611 to 618 above.

In 2015, Customer 38's individual rated turnover was \$7,179,382.

Between September 2015 and 30 November 2016, Customer 38's turnover on individual rebate programs was \$77,624,206 with losses of \$1,804,105.

- iii. designated services provided to Customer 38 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 15 June 2015 and 21 November 2016, Star Sydney gave the AUSTRAC CEO eight TTRs detailing EGM payouts to Customer 38 totalling \$92,041.

- iv. Customer 38 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 16 March 2010 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 75 TTRs detailing incoming payments to Customer 38 totalling \$1,501,850 which were comprised of:

- a. \$497,300 in account deposits;
- b. \$954,550 in chip exchanges; and
- c. \$50,000 in other monetary values in.

Between 18 March 2010 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 56 TTRs detailing outgoing payments from Customer 38 totalling \$1,343,735 (in addition to the eight EGM TTRs) which were comprised of:

- a. \$316,000 in account withdrawals;
- b. \$555,525 in chip exchanges; and
- c. \$472,210 in other monetary values out.

On 7 March 2012, Customer 38 deposited \$105,000 cash into his FMA at Star Sydney. Star Sydney considered the transaction to be suspicious due to the large amount of cash involved: SMR dated 8 March 2012.

- v. Customer 38 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 21 September 2015 and 30 September 2015, Star Qld gave the AUSTRAC CEO four TTRs in respect of Customer 38 totalling \$150,074.

- vi. between 1 July 2015 and 24 November 2016, Star Sydney provided Customer 38 with significant amounts of credit upon request, up to limits of \$200,000; and

Particulars

See paragraphs 516 to 518 and 552 above.

Between 1 July 2015 and 24 November 2016, Star Sydney provided Customer 38 with at least \$1,094,000 in CCFs, between \$10,000 to \$200,000 on 24 occasions.

On each occasion, the CCF was provided on a 'temporary' basis while funds obtained through the Hotel Card channel were cleared,

and was approved by senior management at Star, including the Chief Executive Officer and the General Manager VIP Credits & Collection.

- vii. Customer 38 received designated services through the high risk Hotel Card channel;

Particulars

Between 28 February 2014 and 24 November 2016, Customer 38 transacted \$2,903,000 through the Hotel Card channel and on multiple occasions was given a temporary CCF while waiting for the funds to clear.

See paragraph 1474.a.vi.

Customer 38's risk profile from 30 November 2016

- b. Customer 38 was a junket funder who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 9 August 2017 and 22 August 2017, Customer 38 funded a junket at Star Qld;

Particulars

Customer 38 provided the junket operator with \$1,200,000 in funding.

Customer 38 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

- ii. Star Qld recorded that the total cumulative turnover of the junket funded by Customer 38 between 9 August 2017 and 22 August 2017 was \$1,743,027 with losses of \$185,685;
 - iii. Customer 38 was the junket representative for the junket;
 - iv. Customer 38 was a junket player on the junket; and
 - v. the junket funded by Customer 38 facilitated the provision of high value designated services to two junket players, including Customer 38;
- c. Customer 38 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 9 August 2017 and 22 August 2017, Customer 38 was a player on a junket at Star Qld;
 - ii. the junket was funded by Customer 38; and
 - iii. between 9 August 2017 and 22 August 2017, Star Qld recorded high turnover totalling \$796,042 with losses of \$36,685 for Customer 38's gaming activity on that junket;
- d. designated services provided to Customer 38 lacked transparency as the services were provided through the junket channel at Star Qld;

Particulars

See paragraph 650 above.

- e. Customer 38 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded high and escalating individual rated turnover totalling \$372,870,714 for Customer 38;

Particulars

See paragraph 752 above.

In 2016, Customer 38's individual rated turnover was \$20,499,831.

In 2017, Customer 38's individual rated turnover escalated to \$138,990,457.

In 2018, Customer 38's individual rated turnover was \$123,073,510.

In 2019, Customer 38's individual rated turnover was \$90,306,917.

- f. Customer 38 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2019, Star Qld recorded high individual rated turnover totalling \$2,250,048 for Customer 38;

Particulars

See paragraph 752 above.

In 2017, Customer 38's individual rated turnover was \$2,091,432.

In 2019, Customer 38's individual rated turnover was \$158,616.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 38 by remitting large amounts of money within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraph 356 to 367 above.

Between 2 December 2016 and 25 June 2019, Customer 38 transacted \$1,577,000 through the Hotel Card channel and was given a temporary CCF while waiting for the funds to clear.

See paragraph 1474.i below.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 10 August 2017 and 22 May 2019, Star Sydney received two transfers totalling \$1,030,500 from Star Qld, both of which were made available to Customer 38's account.

See paragraph 1474.j below.

- h. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 38 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

On 9 August 2017, Star Qld received a transfer of \$1,000,000 from Star Sydney, which it made available to Customer 38's account.

On 22 May 2019, Star Qld facilitated a transfer of \$28,000 from Customer 38's FMA at Treasury Brisbane to Star Sydney.

- i. designated services provided to Customer 38 included substantial EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

Between 21 August 2017 and 29 July 2019, Star Sydney gave the AUSTRAC CEO five TTRs detailing EGM payouts to Customer 38 totalling \$61,013.

- j. Star Sydney was aware that:
- i. Customer 38 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. Customer 38 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash that was sticky, in small notes bundled with rubber bands and contained in plastic bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 30 January 2017 and 21 August 2019, Star Sydney gave the AUSTRAC CEO 44 TTRs detailing incoming payments to Customer 38 totalling \$1,501,380 which were comprised of:

- a. \$694,900 in account deposits; and
- b. \$806,480 in chip exchanges.

Between 24 July 2017 and 21 August 2019, Star Sydney gave the AUSTRAC CEO 49 TTRs detailing outgoing payments from Customer 38 totalling \$1,871,368 (in addition to the five EGM TTRs) which were comprised of:

- a. \$1,058,600 in account withdrawals;
- b. \$754,738 in chip exchanges;
- c. \$46,952 in other monetary values out; and
- d. \$11,078 in foreign currency exchanges.

Large and unusual transactions in 2017

On 30 April 2017, Customer 38 deposited \$81,900 in cash into his account. The following day, a junket representative of a junket operator withdrew \$690,000 in cash from the junket operator's account and deposited that amount into Customer 38's account. Customer 38 requested that a Star cheque be issued in his favour in the amount of \$770,000. Star Sydney noted that the cash and funds were not utilised for gaming purposes: SMR dated 2 May 2017.

On 21 August 2017, Customer 38 conducted a chip and cash exchange of \$107,000.

On 8 November 2017, in his capacity as a junket representative, Customer 38 made two transactions on a junket operator's account, being one transfer of \$980,000 to a junket player and one withdrawal of \$131,700 in cash. Customer 38 then gave the cash to the junket player. The junket player subsequently withdrew \$980,000 from his account in the form of a Star non-winning cheque in his favour. The junket player had recorded a turnover of \$26,162,375 and a loss of \$117,665 on the junket. Star Sydney noted that the turnover would have generated a large commission for the junket but significantly less than the amount transferred to the junket player: SMR dated 8 November 2017.

Large and unusual transactions in 2018

On 12 January 2018, Customer 38 deposited \$100,000 in cash into a junket operator's FMA. The cash was comprised of \$100 notes.

On 14 February 2018, Customer 38 withdrew \$100,000 in cash from a junket operator's account and exchanged \$60,000 in chips for cash. Customer 38 gave the cash to the junket operator, who then gave the cash to two junket players.

On 21 February 2018 and 27 July 2018, Customer 38 withdrew \$280,000 and \$100,000 in cash respectively from a junket operator's account.

On 14 May 2018, Customer 38 cashed out \$100,000 in chips on behalf of a junket operator.

Large and unusual transactions in 2019

On 11 January 2019, Customer 38 deposited \$50,000 in cash into his account. The cash comprised \$25,000 in \$50 notes, \$24,640 in \$20 notes and \$60 in \$10 notes. The cash was sticky and bundled in \$5,000 units with elastic bands and presented in a plastic shopping bag. Star Sydney considered the transaction to be suspicious due to the small mixed denomination notes and the condition of the notes: SMR dated 14 January 2019.

On 22 February 2019, Customer 38 deposited \$100,000 in cash into his account. The cash was comprised of \$4,700 in \$50 notes, \$83,000 in \$50 notes and \$12,000 in \$20 notes. Star Sydney

considered the transaction to be suspicious due to the mixed denomination notes: SMR dated 25 February 2019.

- k. Customer 38 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 30 January 2017 and 21 August 2019, Star Qld gave the AUSTRAC CEO four TTRs detailing incoming payments to Customer 38 totalling \$155,000 which were comprised of account deposits and chip exchanges.

Between 3 February 2017 and 14 August 2017, Star Qld gave the AUSTRAC CEO seven TTRs detailing outgoing payments from Customer 38 totalling \$102,127 which were comprised of:

- a. \$75,565 in chip exchanges; and
- b. \$26,562 in EGM payouts.

- l. between 1 December 2016 and 25 June 2019, Star Sydney provided Customer 38 with significant amounts of credit upon request, up to limits of \$498,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 1 December 2016 and 25 June 2019, Star Sydney provided Customer 38 with at least \$1,577,000 in CCFs, between \$10,000 and \$498,000 on 13 occasions.

On each occasion, the CCF was provided on a 'temporary' basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer and the General Manager VIP Credit & Collections.

- m. Customer 38 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraph 337 and 338 above.

On 13 July 2019 and 11 October 2019, Star Sydney issued a letter of comfort purportedly confirming Customer 38's winnings.

- n. in 2019, Star Sydney provided information to law enforcement in respect of Customer 38 on one occasion;

Particulars

In February 2019, Star Sydney provided information to a law enforcement agency in respect of Customer 38's financial transactions.

In September 2019 and October 2019, Star Sydney responded to requests for information from a law enforcement agency.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- o. Customer 38 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 38 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Oasis, Lakes Salons, Sovereign Harbourside, Vantage, Jade and Chairman's.

- p. Customer 38 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 38 had access to private gaming rooms at Star Qld, including The Suite, the Club, the Club Conrad and the Sovereign Room.

- q. Star Sydney and Star Qld did not have adequate reason to believe that Customer 38's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 38 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 38's occupation to be in retail.

In 2016, Customer 38's turnover at Star Sydney exceeded \$20 million. In 2017, Customer 38's turnover at Star Qld exceeded \$2 million. Customer 38 used the high risk Hotel Card channel to remit significant volumes of money into the casino environment.

At no time was Customer 38's stated source of wealth or source of funds commensurate with the high value financial and gaming services provided to him at Star Sydney and Star Qld.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 38

1475. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 38 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TFs risk reasonably faced by Star Sydney and Star Qld with respect to Customer 38.

- a. On and from 30 November 2016, Customer 38 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 38's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. In and from 2017, Customer 38 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 38's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. On 22 August 2017, despite being rated high risk for the purpose of the Act and Rules, Star Sydney and Star Qld decreased Customer 38's risk rating.

Particulars

See paragraph 110 above.

On 30 January 2015, Customer 38 was rated critical risk, being high risk for the purpose of the Act and Rules.

However, on 22 August 2017, Customer 38 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 38's transactions

1476. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 38's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 38, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 38 through:
 - i. the junket channel; and

Particulars

See paragraph 783 above.

- ii. an international remittance channel, specifically the Hotel Card channel;

Particulars

See paragraph 790 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 38 through the junket channel;

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 38 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 38.

Particulars

Star senior management were not specifically informed of the seven large and suspicious cash incidents involving Customer 38 between 30 April 2017 and 27 July 2018: See *Customer 38's risk profile*.

The review, update and verification of Customer 38's KYC information

1477. Star Sydney and Star Qld did not review, update and verify Customer 38's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 38's business with Star Sydney and Star Qld including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 38's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 38's source of wealth or source of funds: see *Customer 38's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 38's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 38.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 38's high ML/TF risks

1478. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 38 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 38; and
- c. reviewing and updating Customer 38's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to continue to apply the ECDD Programs to Customer 38 after 22 August 2017: see *ECDD triggers in respect of Customer 38*.

ECDD triggers in respect of Customer 38

1479. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 38 following any ECDD triggers in respect of Customer 38.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

1480. Customer 38:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 2 May 2017 and 25 February 2019, Star Sydney gave the AUSTRAC CEO four SMRs with respect to Customer 38.

- b. was determined to be high risk for the purpose of the Act and Rules prior to the relevant period by Star Sydney and Star Qld.

Particulars

Between 30 November 2016 and 22 August 2017, Customer 38 was rated high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 38* above.

1481. Each matter pleaded in paragraph 1480 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1482. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 38 following an ECDD trigger because:

- a. on each occasion prior to 4 November 2019 that Star Sydney and Star Qld conducted ECDD in respect of Customer 38 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 38 and the provision of designated services to Customer 38 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 25 February 2019, Star conducted ECDD in respect of Customer 38.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 38's higher ML/TF risks: see *Customer 38's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 38's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 38's source of wealth or source of funds: see *Customer 38's risk profile*.

It was not until 4 November 2019 that Star Sydney and Star Qld issued a WOL in respect of Customer 38. The WOL was issued for problem gambling and not as a result of an active consideration of the higher ML/TF risks posed by Customer 38.

- b. Customer 38 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 38

1483. By reason of the matters pleaded from paragraphs 1469 to 1482 above, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 38 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1484. By reason of the matters pleaded at paragraph 1483, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to until 4 November 2019 with respect to Customer 38.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 39

1485. Customer 39 was a customer of Star Sydney during the relevant period. Between 2018 and 2019, Star Sydney recorded turnover exceeding \$540 million for Customer 39.

Particulars

Customer 39 was a customer of Star Sydney from at least 27 June 2017.

1486. Star Sydney provided Customer 39 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2018 and 2019, Star Sydney recorded that junkets operated by Customer 39 had a turnover exceeding \$710 million.

Particulars

On 27 June 2017, Star Sydney opened an FMA and SKA for Customer 39 which remain open (item 11, table 3, s6 of the Act).

Between 18 May 2017 and 11 December 2019, Star Sydney approved CCFs for Customer 39 on 16 occasions ranging from \$1,000,000 to \$5,000,000 with an additional limit of that trip only of \$500,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 39 (items 31 and 32, table 1, s6 of the Act).

See *Customer 39's risk profile* below.

1487. At all times from 27 June 2017, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 39.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 39's risk profile

1488. On and from 27 June 2017, Customer 39, and the provision of designated services to Customer 39 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 39's risk profile from 27 June 2017

- a. Customer 39 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. Customer 39 was connected to other customers at Star Sydney, including former junket operators in respect of whom Star Sydney had formed suspicions (such as his brother;

Particulars

Customer 39 took over his brother's junket operations when his brother passed away.

- ii. between 25 December 2017 and 27 December 2019, Customer 39 operated 12 junkets at Star Sydney;

Particulars

Customer 39 was approved to be a junket operator at Star Sydney on 27 June 2017.

In 2018, Customer 39 was one of the top ten junket operators whose junket operations in total involved the highest total turnover.

- iii. Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 39 in the relevant period was \$710,853,008 with losses of \$5,805,010;

Particulars

In 2018, junkets operated by Customer 39 had turnover of \$687,105,232 with losses of \$6,852,480.

In 2019, junkets operated by Customer 39 had turnover of \$23,747,776 with wins of \$1,047,470.

- iv. although Customer 39 was a junket player on some of his own junkets, between 25 December 2017 and 27 December 2019, Star Sydney recorded a cumulative turnover of \$542,467,583 for Customer 39 as a junket player on his own junkets despite him not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1488.b below.

- v. between 2017 and 2019, total benefits of \$5,311,619 were payable to Customer 39 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and other benefits;

Particulars

Customer 39 was entitled to benefits from Star Sydney in his capacity as a junket operator:

- a. in 2017, total benefits of \$646,755 were payable to Customer 39;
 - b. in 2018, total benefits of \$4,455,718 were payable to Customer 39; and
 - c. in 2020, total benefits of \$209,146 were payable to Customer 39.
- vi. between 18 May 2017 and 11 December 2019, Star Sydney provided Customer 39 and his junket programs with significant amounts of credit upon request, up to limits of \$5,000,000 with an additional trip only limit of \$500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 18 May 2017 and 1 September 2017, Star Sydney senior management including the Chief Executive Officer, the Chief Financial Officer and the Chief Casino Officer approved a single trip CCF limit of \$2,000,000 with an additional limit for that trip only of \$1,000,000 for Customer 39.

On 24 December 2017, Star Sydney senior management approved a single trip CCF limit of \$1,000,000 for Customer 39.

On 13 January 2018 and 26 January 2018, Star Sydney approved a single trip CCF limit of \$1,500,000 for Customer 39.

On 15 February 2018, Star Sydney approved a single trip CCF limit of \$2,000,000 for Customer 39.

On 17 April 2018 and 31 May 2018, Star Sydney approved a single trip CCF limit of \$6,000,000 for Customer 39.

On 15 June 2018, Star Sydney approved a single trip CCF limit of \$5,000,000 with an additional trip only limit of \$500,000 for Customer 39.

On 18 August 2018, Star Sydney approved a single trip CCF limit of \$2,000,000 for Customer 39.

On 23 October 2018, Star Sydney approved a single trip CCF limit of \$1,000,000 for Customer 39.

On 10 November 2018, Star Sydney approved a single trip CCF limit of \$1,500,000 for Customer 39.

On 1 May 2019, Star Sydney approved a single trip CCF limit of \$2,000,000 for Customer 39.

On 13 May 2019, Star Sydney approved a single trip CCF limit of \$2,000,000 with an additional limit for that trip only of \$1,000,000 for Customer 39.

On 5 July 2019, Star Sydney approved a single trip CCF limit of \$2,000,000 for Customer 39.

On 11 December 2019, Star Sydney approved a single trip CCF limit of \$1,000,000 for Customer 39.

- vii. Customer 39 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the junket;

Particulars

Customer 39 operated junkets in non-exclusive private gaming rooms, including the Sovereign Room, Pit 80 and Oasis.

Customer 39 operated junkets in exclusive private gaming rooms, including Salon 75, Salon 76, Salon 77, Salon 85, Salon 88, Salon 89, Salon 97 and Salon 98.

- viii. Customer 39 had five junket representatives at Star Sydney; and
- ix. Customer 39 and his junket representatives facilitated the provision of high value designated services to 52 junket players at Star Sydney, including Customer 39 himself;

Particulars

See paragraphs 643 to 649 above.

See paragraphs 1488.b and 1488.e below.

- b. Customer 39 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 24 October 2018 and 16 November 2018, Customer 39 was a player on a junket at Star Sydney operated by Customer 39 himself; and
 - ii. between 24 October 2018 and 16 November 2018, Star Sydney recorded high turnover totalling \$28,792,101 with losses of \$5,000 for Customer 39's gaming activity on junket programs;
- c. designated services provided to Customer 39 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 39 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

On 20 August 2019, a third party acting on behalf of Customer 39 deposited a total of \$332,405 into the EEIS Patron accounts, which Star Sydney made available to Customer 39 through the EEIS remittance channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 9 March 2018 and 25 December 2018, Star Sydney received 21 telegraphic transfers totalling \$6,544,212, each of which was made available to Customer 39's FMA. The funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 8 February 2018 and 12 June 2019, Star Sydney sent two telegraphic transfers totalling \$982,000 to another Australian casino.

Between 26 January 2018 and 4 February 2020, Star Sydney sent four telegraphic transfers totalling \$1,865,002 from Customer 39's account to Australian bank accounts.

On 16 January 2018, Star Sydney sent a telegraphic transfer totalling \$700,000 from Customer 39's account to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

- e. Customer 39, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 4 January 2018 and 28 December 2019, Star Sydney gave the AUSTRAC CEO 56 TTRs in respect of Customer 39 totalling \$1,859,644 which comprised:

- a. \$383,165 in account deposits;
- b. \$511,743 in account withdrawals;
- c. \$895,560 in chip and other cash outs;
- d. \$33,175 in other monetary values in; and
- e. \$36,000 in other monetary values out.

On 15 February 2018, Customer 39's junket representative deposited \$100,000 in cash into Customer 39's account. The cash was comprised of \$100 notes, \$40,000 of which was noted to have been issued by Star. The balance was bundled with rubber bands.

On 14 May 2018, Customer 39's junket representative withdrew \$200,000 in cash from Customer 39's account.

- f. Customer 39 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 39 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Springs Salon, Lakes Salon, Oasis and Rivers Salons.

- g. Star Sydney did not have adequate reason to believe that Customer 39's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 39 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney's records contained no details concerning Customer 39's source of wealth or source of funds. Star Sydney understood that Customer 39 took over junket operations from his brother.

Between 2018 and 2019, Star Sydney recorded that junkets operated by Customer 39 had a turnover exceeding \$710 million. At no stage did Star Sydney have adequate reason to believe that Customer 39's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6) received by him.

Star Sydney's determination of the ML/TF risks posed by Customer 39

1489. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 39 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 39.

- a. On and from 2018, Customer 39 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 39's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 39 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

Until 15 May 2018, Customer 39 was rated low risk by default.

On 15 May 2018, Customer 39 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 17 December 2019, Customer 39 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 4 February 2022, Customer 39 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 39's transactions

1490. At no time did Star Sydney apply appropriate transaction monitoring to Customer 39's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 39, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 39's junket as turnover was recorded against Customer 39 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 39 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph above.

- iii. an international remittance channel, specifically the EEIS remittance channel;

Particulars

See paragraph 493 above.

- e. Star Sydney provided designated services to Customer 39 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 39.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 39 on 15 February 2018 and 14 May 2018: See *Customer 39's risk profile*.

The review, update and verification of Customer 39's KYC information

- 1491. Star Sydney did not review, update and verify Customer 39's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 39's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 39's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 39's source of wealth or source of funds: see *Customer 39's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 39's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 39.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 39's high ML/TF risks

1492. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 39 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 39; and
 - c. reviewing and updating Customer 39's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 39 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1493. Had Star Sydney rated Customer 39 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 39.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 39

1494. By reason of the matters pleaded from paragraphs 1485 to 1493 above, on and from 27 June 2017, Star Sydney:
- a. did not monitor Customer 39 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1495. By reason of the matters pleaded at paragraph 1494, Star Sydney contravened s36(1) of the Act on and from 27 June 2017 with respect to Customer 39.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 40

1496. Customer 40 was a customer of Star Sydney during the relevant period.

Particulars

Customer 40 was a customer of Star Sydney from at least 30 November 2007.

1497. Star Sydney provided Customer 40 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. Between 2017 and 2019, Star Sydney recorded that junkets operated by Customer 40 had a turnover exceeding \$120 million.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 40 which remain open (item 11, table 3, s6 of the Act).

Between 10 March 2011 and 11 April 2018, Star Sydney approved CCFs for Customer 40 on four occasions ranging from \$2,500,000 to \$25,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel and the Customer 9 channels, which it made available to Customer 40 (items 31 and 32, table 1, s6 of the Act).

See Customer 40's risk profile below.

1498. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 40.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 40's risk profile

1499. On and from 30 November 2016, Customer 40, and the provision of designated services to Customer 40 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 40's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 40 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 40;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on four occasions between 11 March 2012 and 11 April 2016.

The SMRs reported that Customer 40, and persons associated with him, transacted in large amounts of cash: see paragraph 1499.a.v below.

- ii. Customer 40 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

On 30 November 2007, Customer 40 was approved to be a junket operator at Star Sydney.

Between 29 December 2015 and 4 July 2016, Customer 40 operated three junkets at Star Sydney.

Between 29 December 2015 and 4 July 2016, junkets operated by Customer 40 had turnover of \$201,163,438 with wins of \$1,309,925.

- iii. Customer 40 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 29 December 2015 and 10 July 2016, Customer 40 was a junket player on two of his own junkets.

Star Sydney recorded that Customer 40's turnover on those junket programs was \$8,442,200 with wins of \$709,300.

- iv. between 10 March 2011 and 29 September 2014, Star Sydney provided Customer 40 and his junket programs with significant amounts of credit upon request, up to limits of \$25,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 10 March 2011, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a single trip CCF limit of \$2,500,000 for Customer 40.

On 29 September 2014, Star Sydney senior management including the Chief Executive Officer and the Chief Financial Officer, approved a permanently active CCF limit of \$25,000,000 for Customer 40 which was not deactivated.

- v. Customer 40, and persons associated with his junket, transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

Between 10 May 2011 and 4 July 2016, Star Sydney gave the AUSTRAC CEO 27 TTRs in respect of Customer 40 totalling \$1,979,036, which were comprised of:

- a. 25 outgoing TTRs totalling \$1,859,036;
- b. two incoming TTRs totalling \$120,000;
- c. \$1,256,335 in chip or cash exchanges; and
- d. \$722,701 in account deposits or withdrawals.

On 11 March 2012, Customer 40 exchanged \$100,000 in chips for cash. Star Sydney considered the transaction to be suspicious due to

the large amount of cash. Customer 40 then distributed the cash to several players in a junket group: SMR dated 13 March 2012.

On 22 June 2014, Customer 40 withdrew \$25,000 in cash from his FMA. An hour later, he exchanged \$200,000 in chips for cash. Star Sydney considered the transaction to be suspicious due to the large amount of cash involved: SMR dated 23 June 2014.

On 31 December 2015, Customer 40 exchanged \$117,000 in chips for cash. Star Sydney noted that Customer 40 had recorded a large amount of play and had winnings exceeding the amount of the cash out: SMR dated 4 January 2016.

On 9 April 2016, Customer 40 cashed out \$106,285 in chips.

On 11 April 2016, Customer 40 settled a junket program and took \$494,240 in cash: SMR dated 12 April 2016.

- vi. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 40 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 6 June 2011 and 17 December 2021, Star Sydney gave the AUSTRAC CEO 12 incoming IFTIs totalling \$8,082,821, in respect of transactions occurring between 4 June 2011 and 9 September 2016, where Customer 40 was named as the beneficiary, including:

- a. \$7,290,244, where Customer 40 was named as the ordering customer; and
- b. \$762,577, where three different third parties were named as the ordering customers.

On 14 September 2016, Star Sydney received a telegraphic transfer of \$199,950, which it made available to Customer 40. The funds were transferred for the purpose of redeeming an outstanding CCF.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

For example, on 5 March 2016, Star Sydney sent a telegraphic transfer of \$563,380 from Customer 40's SKA to an overseas bank account.

The above transaction was conducted through the Star Patron account channel.

Customer 40's risk profile from 30 November 2016

- b. Customer 40 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 40 was a member of a foreign political body.

- c. Customer 40 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
- i. between 2 March 2017 and 6 October 2019, Customer 40 operated five junkets at Star Sydney;
- ii. between 2 March 2017 and 6 October 2019, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 40 was \$122,296,980 with losses of \$5,563,125;

Particulars

In 2017, junkets operated by Customer 40 had turnover of \$23,790,650 with wins of \$1,199,085.

In 2018, junkets operated by Customer 40 had turnover of \$65,508,820 with losses of \$5,063,485.

In 2019, junkets operated by Customer 40 had turnover of \$32,997,510 with losses of \$1,698,725.

- iii. between 2 March 2017 and 6 October 2019, Star Sydney recorded a cumulative turnover of \$26,304,304 for Customer 40 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- iv. between 2 March 2017 and 6 October 2019, total benefits exceeding \$4,000,000 were payable to Customer 40 by Star Sydney in his capacity as a junket operator for rebates earned, percentages of earnings from revenue share programs and complimentary services;
- v. between 23 January 2017 and 2 July 2020, Star Sydney provided Customer 40 and his junket programs with significant amounts of credit upon request, up to limits of \$12,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 23 January 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanently active CCF limit of \$12,500,000 for Customer 40 which was deactivated on 2 July 2020.

On 11 April 2018, Star Sydney senior management, including the Chief Executive Officer, and the Chief Financial Officer, approved a single trip CCF limit of \$10,000,000 for Customer 40.

- vi. Customer 40 had two junket representatives at Star Sydney; and
- vii. Customer 40 and his junket representatives facilitated the provision of high value designated services to junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- d. designated services provided to Customer 40 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 40 by remitting large amounts of money into the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

On 1 October 2019, a third party company acting on behalf of Customer 40 deposited a total of \$94,760 into the EEIS Patron accounts, which Star Sydney made available to Customer 40 through the EEIS remittance channel.

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

Between 30 July 2019 and 19 February 2019, deposits through the Customer 9 channels totalling \$407,701 were made available by Star Sydney to Customer 40's account.

Other remittances into the casino environment

See paragraph 327 above.

On 8 September 2017, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$157,432 where Customer 40 was named as the ordering customer and the beneficiary. The funds were deposited into Customer 40's Star Sydney account.

In addition, between 21 February 2018 and 15 November 2019, Star Sydney received six telegraphic transfers totalling \$1,521,763, each of which was made available to Customer 40's account. The funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

- f. Customer 40, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 7 March 2017 and 8 October 2019, Star Sydney gave the AUSTRAC CEO 19 outgoing TTRs in respect of Customer 40 totalling \$1,303,360, which were comprised of:

- a. \$216,500 in chip or cash exchanges; and
- b. \$1,086,860 in account deposits or withdrawals.

On 4 March 2017, a representative of Customer 40's junket, withdrew \$360,000 in cash from Customer 40's account: SMR dated 7 March 2017.

On 5 February 2019, Customer 40's junket representative exchanged \$100,700 in chips for cash. The junket had recorded a win of \$150,950 at the time.

On 9 February 2019, Customer 40's junket representative withdrew \$100,000 in cash from Customer 40's account. The junket had recorded a win exceeding this amount.

On 4 October 2019 and 6 October 2019, Customer 40's junket representative withdrew \$150,000 in cash from Customer 40's account. The junket had recorded a buy-in of \$9,924,750, a loss of \$2,122,470 and a rebate accrued to it of \$1,273,482.

- g. by September 2018, media reports named Customer 40 as a person with ties to the junket industry in a foreign country; and

Particulars

In September 2018, media reports named Customer 40, who was a member of a foreign government, as the founder of a foreign gaming lobby group.

In September 2021, media reports named Customer 40 as a person with ties to the junket industry in a foreign country.

Star Sydney's due diligence records in respect of Customer 40 did not contain details of these reports.

- h. Star Sydney did not have adequate reason to believe that Customer 40's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 40 at Star Sydney.

Particulars

See paragraph 808 above.

By 30 November 2016, Star Sydney was aware that Customer 40 was a member of a foreign political body and the director of an international VIP gaming group, but that Customer 40 did not have any shareholdings in that gaming group. Despite this, Star Sydney recorded that Customer 40's occupation was as a junket operator.

Between 2017 and 2019, junkets operated by Customer 40 had a turnover exceeding \$120 million. At no point was Star Sydney's understanding of Customer 40's source of wealth or source of funds, particularly in the context of his status as a foreign PEP, sufficient to explain the high value financial and gaming services provided to him.

Star Sydney's determination of the ML/TF risks posed by Customer 40

1500. On and from 24 November 2015, Customer 40 was rated by Star Sydney as a high risk customer for the purpose of the Act and Rules.

Particulars

On 23 June 2014, Customer 40 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 24 November 2015, Customer 40 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 40 was rated very high risk, being high risk for the purpose of the Act and Rules.

1501. Nevertheless, for the reasons pleaded below, Star Sydney failed to monitor the high ML/TF risks posed by Customer 40 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by it with respect to Customer 40.

Monitoring of Customer 40's transactions

1502. At no time did Star Sydney apply appropriate transaction monitoring to Customer 40's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 40, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 40's junket as turnover was recorded against Customer 40 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 40 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the EEIS remittance channel and the Customer 9 channels; and

Particulars

See paragraphs 441 and 493 above.

- e. Star Sydney provided designated services to Customer 40 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 40's KYC information

- 1503. Star Sydney did not review, update and verify Customer 40's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 40's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney did not appropriately review, update and verify Customer 40's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 40's source of wealth or source of funds: see *Customer 40's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 40's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 40.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 40

1504. Star Sydney was required to apply the ECDD Programs to Customer 40 following any ECDD triggers in respect of Customer 40. In particular, because Customer 40 was a foreign PEP, Star Sydney was required to:

- a. undertake detailed analysis of Customer 40's KYC information including taking reasonable measures to identify the source of Customer 40's wealth and the source of Customer 40's funds; and
- b. seek senior management approval for continuing a business relationship with Customer 40 and whether Star Sydney should continue to provide a designated service to Customer 40.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3), 15.10(2), 15.10(6) and 15.11 of the Rules.

1505. Customer 40:

- a. at all times from 30 November 2016 was a foreign PEP.

Particulars

See *Customer 40's risk profile* above.

- b. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 7 March 2017, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 40.

- c. was determined to be high risk for the purpose of the Act and Rules by 30 November 2016 by Star Sydney.

Particulars

On 24 November 2015, Star Sydney determined that the ML/TF risks posed by Customer 40 was high risk for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 40* above.

1506. Each matter pleaded in paragraph 1505 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1507. By 30 November 2016, Star Sydney was aware that Customer 40 was a foreign PEP.

1508. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 40 following the ECDD triggers:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 40 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 40 and the provision of designated services to Customer 40 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite. In particular, Star Sydney failed to monitor Customer 40 as a foreign PEP because:
 - i. Star Sydney's analysis of Customer 40's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 40;
 - ii. Star Sydney's analysis of Customer 40's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 40;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 6 February 2019, 28 September 2019, 23 October 2019, 20 October 2020 and 27 January 2021, Star Sydney conducted ECDD in respect of Customer 40.

The ECDD screenings in respect of Customer 40 identified that he was a foreign PEP and did not find any adverse information in respect of him.

The ECDD conducted by Star Sydney did not have appropriate regard to their higher ML/TF risks: see *Customer 40's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks associated with Customer 40's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 40's source of wealth or source of funds: see *Customer 40's risk profile*.

- iii. Customer 40 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- iv. any senior management approval regarding Customer 40 failed to give appropriate consideration to the ML/TF risks posed by Customer 40 and the provision of designated services to Customer 40 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

On 6 August 2021, following an ECDD screening, the Due Diligence Program Manager determined to maintain a business relationship with Customer 40. The Due Diligence Program Manager noted that Customer 40 was an inactive foreign PEP and that no adverse information was found in respect of him.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 40's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover through junket channels; and
- b. Customer 40's source of funds (r15.10(2)(b) of the Rules), having regard to their status as a foreign PEP and the consequent high ML/TF risks as to their source of funds: see *Customer 40's risk profile* above.

Contravention of s36 of the Act in respect of Customer 40

1509. By reason of the matters pleaded from paragraphs 1496 to 1508, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 40 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1510. By reason of the matters pleaded at paragraph 1509, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 40.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 41

1511. Customer 41 was a customer of Star Sydney during the relevant period. Between 2016 and 2017, Star Sydney recorded turnover exceeding \$15 million for Customer 41.

Particulars

Customer 41 was a customer of Star Sydney from at least 4 May 2005.

1512. Star Sydney provided Customer 41 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period, including services provided to Customer 41 as a junket operator. Between 2017 and 2020, Star Sydney recorded that junkets operated by Customer 41 had a turnover exceeding \$57 million.

Particulars

By 30 November 2016, Star Sydney opened an FMA and SKA for Customer 41, which remain open (item 11, table 3, s6 of the Act).

Between 22 March 2017 and 26 December 2019, Star Sydney approved CCFs for Customer 41 on at least 11 occasions, with facility limits ranging from \$100,000 to \$5,000,000 and totalling at least \$32,100,000 (item 6, table 1, s6 of the Act).

While a customer of Star Sydney, Customer 41 remitted funds to and from her FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 41's risk profile below.

1513. Customer 41 was a customer of Star Qld during the relevant period. In 2018, Star Qld recorded turnover exceeding \$2.4 million for Customer 41.

Particulars

Customer 41 was a customer of Star Qld from at least 28 November 2000.

1514. Star Qld provided Customer 41 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period, including services as a junket operator. Between 2017 and 2018, Star Qld recorded that junkets operated by Customer 41 had a turnover exceeding \$22 million.

Particulars

On 28 November 2000, Star Qld opened an FMA for Customer 41 which remains open (item 11, table 3, s6 of the Act).

On 27 February 2017, Star Qld opened a SKA for Customer 41 which remains open (item 11, table 3, s6 of the Act).

Between 15 February 2017 and 23 July 2018, Star Qld approved CCFs for Customer 41 on at least three occasions, with facility limits ranging from \$3,000,000 to \$5,000,000 and totalling at least \$12,000,000 (item 6, table 1, s6 of the Act).

While a customer of Star Qld, Customer 41 remitted funds to and from her FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 41's risk profile* below.

1515. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 41.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 41's risk profile

1516. On and from 30 November 2016, Customer 41, and the provision of designated services to Customer 41 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 41's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 41 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 41;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on six occasions between 27 October 2008 and 6 November 2009.

The SMRs reported that, between 26 October 2008 and 6 November 2009, Customer 41 and persons associated with her junket transacted using large amounts of cash and cash that appeared suspicious at Star Sydney, including large volumes of cash in small denomination notes. These cash transactions totalled at least \$2,680,000.

- ii. Customer 41 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

In 2015 and 2016, Customer 41 operated two junkets at Star Sydney, all of which were funded by Customer 41.

Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 41 was \$6,208,995, with cumulative losses of \$324,180.

Although Customer 41 was a player on some of her own junkets, in 2015, Star Sydney recorded a cumulative turnover of \$555,815 for Customer 41 as a junket player on her own junkets, despite not being a player on those junkets.

Customer 41 had one junket representative at Star Sydney.

Customer 41 and her junket representative facilitated the provision of high-value designated services to five junket players at Star Sydney.

See paragraphs 643 to 649 above.

- iii. in 2016, Customer 41 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

In 2016, Customer 41's turnover on junket programs was \$3,885,180 with wins of \$290.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 41 by remitting large amounts of money into the casino environment via her accounts;

Particulars

See paragraph 327 above.

For example, on 15 October 2015, Star Sydney received a telegraphic transfer of \$88,353, which it made available to Customer 41. The funds were transferred for the purpose of redeeming an outstanding CCF.

This transaction was conducted through the Star Patron account channel.

- v. between 31 August 2015 and 3 November 2016, Star Sydney provided Customer 41 with significant amounts of credit upon request, up to limits of \$3,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 31 August 2015 and 3 November 2016, Star senior management, including the Chief Executive Officer, the Chief Financial Officer and the Star Sydney Managing Director, approved the provision of at least \$4,000,000 in single trip CCFs, between \$1,000,000 and \$3,000,000 to Customer 41 on at least two occasions.

- vi. Customer 41, and persons associated with her junket, transacted using large amounts of cash and cash that appeared suspicious, including notes in small denominations, at Star Sydney;

Particulars

TTRs

Between 14 June 2013 and 14 September 2015, Star Sydney gave the AUSTRAC CEO three TTRs totalling \$36,691 involving Customer 41, including:

- a. two TTRs, totalling \$26,050, detailing chip and cash exchanges; and

- b. one TTR totalling \$10,641.40 detailing other monetary values out.

Large and suspicious transactions in 2008 and 2009

On 26 October 2008, Customer 41 deposited \$150,000 in cash into her FMA at Star Sydney. The cash was comprised of \$50 notes. Star Sydney considered this transaction to be suspicious: SMR dated 27 October 2008.

On 5 February 2009, a representative for Customer 41's junket presented \$500,000 in cash at Star Sydney, including over \$470,000 in \$50 notes. The funds were subsequently used to fund a buy-in on Customer 41's junket: SMR dated 5 February 2009.

On 20 February 2009, Customer 41 deposited \$500,000 in cash into her FMA at Star Sydney. Star Sydney considered that this transaction was suspicious due to the large amount of cash involved: SMR dated 23 February 2009.

- vii. Customer 41 engaged in transactions at Star Sydney indicative of ML/TF typologies and vulnerabilities, including refining and quick turnover of money (without betting);

Particulars

On 5 November 2009, Customer 41 deposited \$500,000 in cash comprised of \$50 notes into her FMA at Star Sydney. Star Sydney considered that this transaction was suspicious as it involved a large amount of cash: SMR dated 6 November 2009.

On 6 November 2009, Customer 41 withdrew \$549,619.25 in cash as part of the settlement of a junket program at Star Sydney. Star Sydney initially offered Customer 41 the \$50 notes that she had used for her original buy-in. However, Customer 41 refused to accept this cash and instead requested \$100 notes. Star Sydney then paid Customer 41 in \$100 notes. Star Sydney considered that this transaction was highly suspicious as Customer 41 had recorded minimal turnover and a large amount of cash was used in the transaction: SMR dated 6 November 2009.

See particulars to paragraph 1516.a.viii.

- viii. designated services provided to Customer 41 included safe deposit boxes at Star Sydney; and

Particulars

On 23 February 2009, Customer 41 deposited a cheque for \$484,958 at a Star Sydney private gaming room and withdrew the funds in cash. Star Sydney considered that this transaction was suspicious due to the large amount of cash involved. Customer 41 then briefly played at a gaming table before leaving the private gaming room and placing most of the cash into a Star Sydney safe deposit box. Shortly

after this, Customer 41 withdrew the cash from the safe deposit box:
SMR dated 24 February 2009.

- ix. Customer 41, and persons associated with her junket, transacted using large amounts of cash at Star Qld;

Particulars

TTRs

Between 4 June 2010 and 20 August 2012, Star Qld gave the AUSTRAC CEO five TTRs, totalling \$219,437, detailing chip and cash exchanges involving Customer 41.

Customer 41's risk profile from 30 November 2016

- b. Customer 41 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2017 and 2020, Customer 41 operated ten junkets at Star Sydney;
 - ii. Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 41 in the relevant period was \$57,984,687, with cumulative losses of \$1,943,285;

Particulars

In 2017, junkets operated by Customer 41 at Star Sydney had turnover of \$33,626,012 with losses of \$1,080,105.

In 2018, junkets operated by Customer 41 at Star Sydney had turnover of \$12,216,051 with losses of \$314,965.

In 2019, junkets operated by Customer 41 at Star Sydney had turnover of \$12,142,624 with losses of \$548,215.

- iii. although Customer 41 was a junket player on some of her own junkets, between 2017 and 2020, Star Sydney recorded a cumulative turnover of \$33,860,990 for Customer 41 as a junket player on her own junkets, despite her not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1516.e below.

- iv. Customer 41 had seven junket representatives at Star Sydney; and
- v. Customer 41 and her junket representatives facilitated the provision of high-value designated services to 47 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 41 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

- i. in 2017, Customer 41 was recorded to be a player on three junkets she operated herself at Star Sydney; and
 - ii. in 2017, Star Sydney recorded turnover totalling \$15,433,535, with wins of \$257,935, for Customer 41's gaming activity on junket programs;
- d. Customer 41 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;
- i. between 2017 and 2018, Customer 41 operated three junkets at Star Qld;
 - ii. Star Qld recorded that the total cumulative turnover of junkets operated by Customer 41 in the relevant period was \$22,312,602 with losses of \$918,263;

Particulars

In 2017, junkets operated by Customer 41 had turnover of \$9,085,310 with wins of \$40,060 at Star Gold Coast.

In the 2017 calendar year, Customer 41 was among the top ten junket operators who operated the largest number of junket programs at Star Gold Coast.

In 2018, junkets operated by Customer 41 had turnover of \$13,227,292 with losses of \$958,323 at Star Gold Coast.

- iii. although Customer 41 was a junket player on some of her own junkets, between 2018, Star Qld recorded a cumulative turnover of \$6,155,292 for Customer 41 as a junket player on her own junket despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1516.e below.

- iv. between 2017 and 2018, total benefits of \$111,993 were payable to Customer 41, by Star Qld, in her capacity as a junket operator for rebates earned, complimentary services, additional program agreement benefits and non-gaming complimentary services, such as hotel rooms and airport transfers;

Particulars

Customer 41 was entitled to benefits from Star Qld in her capacity as a junket operator.

- a. In 2017, total benefits of \$19,105 were payable to Customer 41.
 - b. In 2018, total benefits of \$92,888 were payable to Customer 41.
- v. Customer 41 operated junkets in private gaming rooms, including private gaming rooms that were exclusive to the junket;

Particulars

Customer 41 operated junkets in non-exclusive private gaming rooms at Star Qld, including Pit 6, Pit 7 and Pit 11.

Customer 41 operated junkets in exclusive private gaming rooms at Star Qld, including Pit 10.

- vi. Customer 41 had two junket representatives at Star Qld; and
- vii. Customer 41 and her junket representatives facilitated the provision of high value designated services to 27 junket players at Star Qld;

Particulars

See paragraphs 643 to 649 above.

- e. Customer 41 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. in 2018, Customer 41 was recorded to be a player on one junket she operated herself at Star Qld; and
 - ii. in 2018, Star Qld recorded turnover totalling \$2,431,000, with wins of \$38,290, for Customer 41's gaming activity on junket programs;
- f. designated services provided to Customer 41 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- g. Customer 41 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney, other than through junket programs. Between 2016 and 2017, Star Sydney recorded individual rated turnover totalling \$54,837 for Customer 41;

Particulars

See paragraph 752 above.

In 2016, Customer 41's individual rated turnover was \$15,727.

In 2017, Customer 41's individual rated turnover was \$39,110.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 41 by remitting large amounts of money into the casino environment via her accounts;

Particulars

See paragraph 327.

Between 16 December 2016 and 29 January 2020, Star Sydney received eight telegraphic transfers totalling \$563,256, each of which was made available to Customer 41's SKA. At least \$558,596 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 41 by remitting large amounts of money into and out of the casino environment via her accounts;

Particulars

Remittances involving third parties

See paragraph 278 above.

For example, on 10 August 2018, a third party company in Australia transferred \$10,000 to Star Qld, which it made available to Customer 41. The transaction narrative did not specify the sender or recipient of the funds. Star Qld identified these details after it made enquiries with its bank, who then made enquiries with the sending bank, and it received an image from the phone of a customer who claimed the funds. Star Qld was not aware of any connection between Customer 41 and the third party company: SMR dated 21 August 2018.

This transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

On 6 September 2018, Star Qld received two telegraphic transfers, totalling \$479,486, both of which were made available to Customer 41's account at Star Gold Coast. The funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

For example, on 16 March 2017, Star Qld facilitated a telegraphic transfer of \$5,663 from Customer 41's FMA at Star Gold Coast to an Australian bank account.

This transaction was conducted through the Star Patron account channel.

- j. Customer 41, and persons associated with her junket, transacted using large amounts of cash, and cash that appeared suspicious, at Star Sydney, including large volumes of cash in small denominations, bundled with straps and elastic bands, and presented in envelopes and shopping bags;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 10 April 2017 and 9 May 2019, Star Sydney gave the AUSTRAC CEO 22 TTRs, totalling \$6,509,578, involving Customer 41, including:

- a. three incoming TTRs, totalling \$5,302,680;
- b. 19 outgoing TTRs, totalling \$1,205,898;

- c. 16 TTRs, totalling \$749,780, detailing chip and cash exchanges; and
- d. six TTRs, totalling \$5,759,798, detailing account deposits and withdrawals.

Large and suspicious transactions in 2017

On 22 May 2017, Customer 41's junket representative, Person 1, exchanged \$205,000 in chips for cash on Customer 41's behalf at Star Sydney.

On 18 October 2017, Person 1 deposited \$202,680 in cash into Customer 41's junket account at Star Sydney. The cash was presented in four large envelopes in bundles of \$5,000 bound together in elastic bands. The cash was comprised of \$72,400 in \$100 notes, \$130,200 in \$50 notes, \$60 in \$20 notes and \$20 in \$10 notes.

On 21 October 2017, Customer 41's junket representative presented \$180,000 in cash at Star Sydney. The cash was contained in a sealed white envelope with the logo of an Australian bank which was itself contained in a shopping bag. The cash was comprised of \$179,000 in \$50 notes and \$1,000 in \$100 notes, in bundles of \$5,000 bound together with elastic bands. The representative requested that Star Sydney exchange the cash for \$100 notes. Star Sydney completed this transaction. The representative then presented another \$90,000 in cash comprised of \$100 notes and requested that Star Sydney staff count the cash. Once this was completed, the junket representative placed the cash, totalling \$270,000, into the safe deposit box for Customer 41's junket program: SMR dated 23 October 2017.

On 22 October 2017, Customer 41's junket representative presented \$130,000 in cash at Star Sydney. The cash was sealed within a white envelope and was comprised entirely of \$50 notes in bundles of \$5,000, bound together with red elastic bands. The representative requested that Star Sydney exchange the cash for \$100 notes and Star Sydney completed this transaction. The representative then placed the cash into the safe deposit box for Customer 41's junket program: SMR dated 23 October 2017.

On 23 October 2017, Customer 41's junket representative withdrew \$202,680 in cash from Customer 41's SKA at Star Sydney on Customer 41's behalf.

On 27 October 2017, a Star Sydney patron opened an account at Star Sydney and presented \$212,225 in cash. The cash was contained in a white envelope with the logo of an Australian bank and was comprised of mostly \$100 and \$50 notes bound together with elastic bands. The patron then deposited this cash into his newly-opened account and requested that the funds be transferred to Customer 41: SMR dated 30 October 2017.

On 24 November 2017, a representative of Customer 41's junket presented \$100,000 in cash and a personal cheque at Star Sydney. The cash was comprised entirely of \$100 notes. It was presented in two white envelopes with the logo of another Australian casino. It was wrapped into two bricks of \$50,000 with rubber bands and strapped into 20 bundles of \$5,000. The straps were stamped and signed. The envelopes were also sealed and wrapped with large rubber bands. The representative requested that the funds be deposited into his personal account and then transferred to Customer 41's SKA for the purpose of redeeming an outstanding CCF. He presented an authority letter for this purpose. Star Sydney subsequently transferred the funds.

Large and suspicious transactions in 2018

On 20 August 2018, a representative of Customer 41's junket deposited \$100,000 in cash into Customer 41's junket account at Star Sydney. The cash was comprised entirely of \$50 notes in good condition and was bundled into lots of \$5,000 with rubber bands at each end.

Large and suspicious transactions in 2019

On 8 May 2019, a representative of Customer 41's junket, Person 8, requested \$154,438 in cash from Star Sydney for a junket program settlement. Star Sydney fulfilled the request. Star Sydney did not deem this activity unusual as the amount requested was not excessive for a junket.

- k. Customer 41 and persons associated with her junket engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Sydney, including:
 - i. structuring; and

Particulars

See paragraph 25 above.

For example, between 10 August 2018 and 12 August 2018, Customer 41 and her associates engaged in transactions indicative of the ML/TF typology of structuring at Star Sydney. This consisted of six transactions totalling \$20,500.

- ii. refining;

Particulars

See paragraph 25 above.

For example, on 21 October 2017 and 22 October 2017, Customer 41 and her associates engaged in transactions indicative of the ML/TF typology of refining at Star Sydney. This consisted of two transactions totalling \$309,000.

See particulars to paragraph 1516.j above.

- l. Customer 41 transacted using large amounts of cash at Star Qld;

Particulars

On 27 February 2017 and 28 February 2017, Star Qld gave the AUSTRAC CEO two TTRs, totalling \$54,705, involving Customer 41, detailing account withdrawals and other monetary value out.

- m. Customer 41 and persons associated with her junket engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring and cuckoo-smurfing at Star Qld; and

Particulars

See paragraph 25 above.

On 10 August 2018, a person deposited \$15,000 in cash at an ATM of an Australian bank in four separate transactions within minutes of each other and transferred the funds to Star Qld on each occasion.

The transactions consisted of two transactions of \$5,000 and two transactions of \$2,500. The transaction narrative for each deposit did not specify the sender or recipient of the funds. Customer 41 subsequently presented a copy of four ATM receipts at Star Qld and claimed the funds. She subsequently used these funds, along with another \$10,000 in cash that she received on the same day, to redeem a cheque. Star Qld considered that the transactions were structured to avoid reporting requirements. Star Qld did not identify the person who made the deposits: SMR dated 21 August 2018.

On 12 August 2018, a person deposited \$5,500 in cash at an ATM of an Australian bank in two separate transactions within the same minute and transferred the funds to Star Qld on each occasion. The transactions consisted of one transaction of \$5,000 and another of \$500. Customer 41 subsequently claimed the funds.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 41's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 41 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

On 23 July 2018, Customer 41 advised Treasury Brisbane that she was the director of a ship repairs business in a foreign jurisdiction.

In its due diligence records, Star Sydney and Star Qld recorded two different occupations for Customer 41, including junket operator and junket representative.

At no time did Star Sydney and Star Qld take appropriate steps to verify its understanding of Customer 41's source of wealth and source of funds, in circumstances where:

- a. Star Sydney and Star Qld made available to Customer 41 funds deposited via its bank accounts which were indicative of ML/TF typologies such as structuring or cuckoo smurfing;

- b. from 30 November 2016, turnover on junkets operated by Customer 41 exceeded \$57 million at Star Sydney and \$22 million at Star Qld; and
- c. Customer 41 and her junket representative transacted with large amounts of suspicious cash, including cash comprised of small denominations: see *Customer 41's risk profile*.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 41

1517. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 41 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 41.
- a. On and from 30 November 2016, Customer 41 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 41's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 41 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 23 May 2017, Customer 41 was rated medium risk, being medium for the purpose of the Act and Rules.

On 18 January 2021, Customer 41 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 41's transactions

1518. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 41's transactions:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 41, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 41's junket as turnover was recorded against Customer 41 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 41 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 41 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 41.

Particulars

Star senior management were not specifically informed of nine large and suspicious cash incidents involving Customer 41 between 22 May 2017 and 8 May 2019: see *Customer 41's risk profile*.

The review, update and verification of Customer 41's KYC information

- 1519. Star Sydney and Star Qld did not review, update and verify Customer 41's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of 'KYC information', in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 41's business with Star Sydney and Star Qld, including the nature, extent and purpose of her transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 41's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 41's source of wealth and source of funds were not legitimate: see *Customer 41's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 41's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 41.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of 'KYC information', in relation to a customer who is an individual, in r1.2.1 of the Rules.

Between 23 May 2017 and 17 December 2019, Star Sydney and Star Qld conducted searches of publicly available media in respect of Customer 41.

Failure to apply appropriate due diligence suited to Customer 41's high ML/TF risks

1520. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 41 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 41; and
 - c. reviewing and updating Customer 41's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 41 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 41*.

ECDD triggers in respect of Customer 41

1521. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 41 following any ECDD triggers in respect of Customer 41.

Particulars

Section 36(1)(a) and (b) of the Act.
Rules 15.9(3) and 15.10 of the Rules.

1522. Customer 41:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 23 October 2017 and 30 October 2017, Star Sydney gave the AUSTRAC CEO three SMRs with respect to Customer 41.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 21 August 2018, Star Qld gave the AUSTRAC CEO two SMRs with respect to Customer 41.

1523. Each matter pleaded in paragraph 1522 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1524. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 41 following an ECDD trigger because:

- a. on each occasion that Star Sydney or Star Qld conducted ECDD in respect of Customer 41 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 41, the provision of designated services to Customer 41 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney or Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809 above.

Between 9 May 2019 and 8 February 2021, Star Sydney and Star Qld conducted ECDD in respect of Customer 41.

The ECDD screenings in respect of Customer 41 consisted of risk intelligence searches.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 41's higher ML/TF risks, including:

- a. Star Sydney and Star Qld made available to Customer 41 funds deposited via its bank accounts which were indicative of ML/TF typologies such as structuring or cuckoo smurfing;
- b. from 30 November 2016, turnover on junkets operated by Customer 41 exceeded \$57 million at Star Sydney and \$22 million at Star Qld; and

- c. Customer 41 and her junket representative transacted with large amounts of suspicious cash, including cash comprised of small denominations: see Customer 41's risk profile above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 41's source of funds or source of wealth, in circumstances where Star recorded two different stated occupations for Customer 41 and did not take appropriate steps to verify this information.

By reason of the matters set out above, there were real risks that Customer 41's source of wealth and source of funds were not legitimate: see *Customer 41's risk profile*.

- b. Customer 41 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 41

- 1525. By reason of the matters pleaded from paragraphs 1511 to 1524, on and from 30 November 2016, Star Sydney and Star Qld:
 - a. did not monitor Customer 41 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

- 1526. By reason of the matters pleaded at paragraph 1525, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 41.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 42

- 1527. Customer 42 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$180 million for Customer 42.

Particulars

Customer 42 was a customer of Star Sydney from at least 1 May 2010.

1528. Star Sydney provided Customer 42 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator and a junket player. In 2017, Star Sydney recorded that junkets operated by Customer 42 had a turnover exceeding \$180 million.

Particulars

On 1 May 2014, Star Sydney opened an FMA and SKA for Customer 42 which remain open (item 11, table 3, s6 of the Act).

Between 4 April 2014 and 23 September 2017, Star Sydney approved CCFs for Customer 42 on 11 occasions ranging from \$2,500,000 to \$17,500,000 with an additional limit for that trip only of \$6,250,000 (item 6, table 1, s6 of the Act).

See Customer 42's risk profile below.

1529. Customer 42 was a customer of Star Qld during the relevant period.

Particulars

Customer 42 was a customer of Star Qld from at least 3 May 2015.

1530. Star Qld provided Customer 42 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

Between 17 January 2019 and 22 January 2019, Customer 42 was a player on a junket at Star Qld operated by Customer 6 (table 3, s6 of the Act).

Between 22 April 2015 and 13 May 2017, Star Qld approved CCFs for Customer 42 on four occasions ranging from \$2,000,000 with an additional limit for that trip only of \$500,000, to \$5,000,000 with an additional limit for that trip only of \$2,500,000 (item 6, table 1, s6 of the Act).

See Customer 42's risk profile below.

1531. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 42.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 42's risk profile

1532. On and from 30 November 2016, Customer 42, and the provision of designated services to Customer 42 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 42's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 42 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 42;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on three occasions between 9 October 2014 and 5 May 2015.

The SMRs reported that Customer 42, and persons associated with his junket, transacted using large amounts of cash at Star Sydney: see paragraph 1532.a.vi below.

- ii. Customer 42 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Star Sydney approved Customer 42 to be a junket operator on 1 May 2014.

Between 1 October 2015 and 27 November 2016, Customer 42 operated five junkets at Star Sydney.

By 30 November 2016, junkets operated by Customer 42 had a turnover of \$266,917,170 with losses of \$5,908,255.

Customer 42 had three junket representatives at Star Sydney. Customer 42 facilitated the provision of high value financial and gaming services to 52 junket players at Star Sydney.

- iii. Customer 42 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld;

Particulars

Customer 42 was approved to be a junket operator at Star Qld on 3 June 2015.

In 2015, Customer 42 was one of the top ten junket operators who operated the highest number of junket programs at Star Gold Coast.

Between 7 October 2015 and 20 October 2015, Customer 42 operated a junket at Star Qld.

Customer 42 provided \$1,975,000 in front money for the junket.

The junket operated by Customer 42 had a turnover of \$3,239,860 with losses of \$228,500.

Total benefits of \$23,996 were payable to Customer 42 by Star Qld in his capacity as a junket operator for rebates earned, complimentary services and additional program agreement benefits.

Customer 42 operated the junket in an exclusive private gaming room, Pit 7.

Customer 42 had one junket representative at Star Qld. Customer 42 facilitated the provision of high value financial and gaming services to two junket players at Star Qld.

- iv. Customer 42 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 1 October 2015 and 24 July 2016, Customer 42 was a junket player on four junkets operated by Customer 42 himself.

By 30 November 2016, Customer 42's turnover on junket programs was \$254,106,684 with losses of \$179,845.

- v. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 42 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

Between 2 July 2015 and 31 August 2016, Star Sydney received nine telegraphic transfers totalling \$6,348,078, each of which was made available to Customer 42's SKA. At least \$2,573,078 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

- vi. Customer 42, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 28 April 2010 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 80 TTRs in respect of Customer 42 totalling \$3,153,145, which were comprised of:

- a. 76 outgoing TTRs totalling \$3,077,665;
- b. four incoming TTRs totalling \$75,480;
- c. \$2,452,365 in chip or cash exchanges; and
- d. \$700,780 in account deposits or withdrawals.

On 6 October 2014, Customer 42's junket representative exchanged \$137,000 in chips for cash: SMR dated 9 October 2014.

On 7 October 2014, Customer 42 settled a junket program and took \$182,736 in cash: SMR dated 9 October 2014.

On 3 May 2015, Customer 42's junket representative exchanged \$300,000 in chips for cash: SMR dated 5 May 2015.

On 29 April 2016 and 19 July 2016, Customer 42's junket representative exchanged \$250,000 and \$111,450 in chips for cash.

- vii. Customer 42 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 12 May 2015, Star Qld gave the AUSTRAC CEO four TTRs in respect of Customer 42 totalling \$197,170, which were comprised of chip or cash exchanges.

- viii. between 4 April 2014 and 30 June 2016, Star Sydney provided Customer 42 and his junket programs with significant amounts of credit upon request, up to a limit of \$12,500,000 with an additional limit for that trip only of \$6,250,000; and

Particulars

See paragraph 516 to 518 and 552 above.

Between 4 April 2014 and 30 June 2016, Star Sydney senior management, including the Chief Executive Officer, the Chief Financial Officer and the Group General Counsel and Company Secretary, approved CCFs for Customer 42 ranging from \$2,500,000 to \$12,500,000 with an additional limit for that trip only of \$6,250,000.

- ix. between 22 April 2015 and 7 October 2015, Star Qld provided Customer 42 and his junket programs with significant amounts of credit upon request, up to a limit of \$3,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 22 April 2015, Star Qld senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a single trip CCF limit of \$2,000,000 with an additional limit for that trip only of \$500,000 for Customer 42.

On 7 October 2015, Star Qld senior management, including the Chief Executive Officer and the Chief Financial Officer approved a single trip CCF limit of \$3,500,000 for Customer 42.

Customer 42's risk profile from 30 November 2016

- b. Customer 42 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 31 March 2017 and 30 September 2017, Customer 42 operated six junkets at Star Sydney;
 - ii. between 31 March 2017 and 30 September 2017, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 42 was \$184,402,179 with losses of \$856,174;
 - iii. although Customer 42 was a player on some of his own junkets, between 23 June 2017 and 30 June 2017, Star Sydney recorded a cumulative turnover of \$4,426,630 for Customer 42 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 1532.c below.

- iv. between 13 May 2017 and 23 September 2017, Star Sydney provided Customer 42 and his junket programs with significant amounts of credit upon request, up to a limit of \$17,500,000 with an additional limit for that trip only of \$6,250,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 13 May 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanent active CCF limit of \$12,500,000 with an additional limit for that trip only of \$6,250,000 for Customer 42 which was deactivated on 21 November 2017.

On 23 September 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanent active CCF limit of \$17,500,000 with an additional limit for that trip only of \$6,250,000 for Customer 42 which was deactivated on 21 November 2017.

- v. Customer 42 had five junket representatives at Star Sydney; and
- vi. Customer 42 and his junket representatives facilitated the provision of high value designated services to 34 junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 42 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 1 September 2017 and 16 September 2019, Customer 42 was a player on five junkets at Star Sydney operated by three junket operators including Customer 34 and Customer 6;
 - ii. three of the junkets were funded by a person other than the junket operator, being Customer 5; and
 - iii. between 31 March 2017 and 16 September 2019, Star Sydney recorded high turnover totalling \$175,776,549 with losses of \$1,511,690 for Customer 42's gaming activity on junket programs;
- d. Customer 42 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 17 January 2019 and 22 January 2019, Customer 42 was a player on a junket at Star Qld operated by Customer 6;
 - ii. the junket was funded by a person other than the junket operator, being Customer 5; and
 - iii. at no time did Star Qld record Customer 42's individual gaming activity on junket programs he attended as a junket player;

- e. designated services provided to Customer 42 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. in 2016 and 2017, Customer 42 was one of the top five customer debtors to Star Sydney;

Particulars

In 2016, Customer 42 owed a debt of \$3,781,254 to Star Sydney.

In 2017, Customer 42 owed a debt of \$3,461,254 to Star Sydney.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 42 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

Between 27 July 2017 and 17 August 2018, Star Sydney received eight telegraphic transfers totalling \$485,595, each of which was made available to Customer 42's SKA. At least \$250,000 of the funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

- h. Star Sydney was aware that:
 - i. Customer 42 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;
 - ii. Customer 42, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 3 April 2017 and 29 September 2017, Star Sydney gave the AUSTRAC CEO 37 outgoing TTRs in respect of Customer 42 totalling \$2,853,457, which were comprised of:

- a. \$1,218,740 in chip or cash exchanges; and
- b. \$1,634,717 in account deposits or withdrawals.

On 3 April 2017, one of Customer 42's junket representatives settled a junket program by cashing out \$301,833: SMR dated 4 April 2017.

On 20 May 2017, one of Customer 42's junket representatives exchanged a large amount of chips for cash. The funds were for a junket player: SMR dated 22 May 2017.

On 23 May 2017, one of Customer 42's junket representatives settled a junket. The junket representative withdrew \$629,744 in cash on behalf of Customer 42: SMR dated 23 May 2017.

On 31 July 2017, one of Customer 42's junket representatives exchanged \$433,150 in chips for cash. Following the transaction, the junket representative was observed delivering the cash to a junket player. On 1 August 2017, the junket representative settled the program with a cash out of \$523,128. Star Sydney noted that the transaction was unusual given the large amount of cash taken over a short period: SMR dated 2 August 2017.

- i. between 5 April 2017 and 13 May 2017, Star Qld provided Customer 42 with significant amounts of credit upon request, up to limits of \$5,000,000 with an additional limit for that trip only of \$2,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 5 April 2017, Star Qld senior management including the Chief Executive Officer and the Chief Financial Officer approved a permanently active CCF limit of \$5,000,000 for Customer 42 which was not deactivated.

On 13 May 2017, Star Qld approved a permanently active CCF limit of \$5,000,000 with an additional trip only limit of \$2,500,000 for Customer 42 which was deactivated on 21 November 2017.

- j. Customer 42 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 42 had access to private gaming rooms at Star Sydney, including Rivers Salons, Harbours Salons, Springs Salons, Lakes Salons and the Sovereign Room.

- k. Customer 42 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 42 had access to private gaming rooms at Star Qld, including the Club, Salon 99, Pit 8 and the Club Conrad.

- l. Star Sydney and Star Qld did not have adequate reason to believe that Customer 42's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 42 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 42 had business interests in a foreign country.

In 2017 alone, Customer 42's junkets recorded a turnover in excess of \$180 million at Star Sydney. In 2016 and 2017, Customer 42 owed over \$3 million to Star Sydney. Despite the high value designated services provided to him, Star had no further information in respect of Customer 42's source of wealth or source of funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 42

1533. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 42 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 42.
- a. On and from 30 November 2016, Customer 42 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 42's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 42 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 9 October 2014, Customer 42 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 22 February 2021, Customer 42 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 42's transactions

1534. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 42's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 42, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 42's junket as turnover was recorded against Customer 42 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 42 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 42 through the junket channel;

Particulars

See paragraph 783 above.

- f. Star Sydney and Star Qld provided designated services to Customer 42 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 6509 above.

- g. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 42.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 42 on 3 April 2017, 20 May 2017, 23 May 2017 and 31 July 2017: See *Customer 42's risk profile*.

The review, update and verification of Customer 42's KYC information

- 1535. Star Sydney and Star Qld did not review, update and verify Customer 42's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 42's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 42's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 42's source of wealth or source of funds: see *Customer 42's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 42's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 42.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 42's high ML/TF risks

1536. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 42 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 42; and
 - c. reviewing and updating Customer 42's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 42 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 42*.

1537. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 42 appropriately;

- b. applying appropriate risk-based transaction monitoring to Customer 42; and
- c. reviewing and updating Customer 42's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 42 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1538. Had Star Qld rated Customer 42 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 42.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 42

1539. Star Sydney were required to apply the ECDD Programs to Customer 42 following any ECDD triggers in respect of Customer 42.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1540. Customer 42 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 4 April 2017 and 2 August 2017, Star Sydney gave the AUSTRAC CEO four SMRs with respect to Customer 42.

1541. The matter pleaded in paragraph 1540 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1542. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 42 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 42 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 42, the provision of designated services to Customer 42 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809 above.

On 22 February 2021, Star conducted ECDD in respect of Customer 42.

Star understood that Customer 42 had business interests in a foreign country. Despite the high value designated services provided to him, Star had no further information in respect of Customer 42's source of wealth or source of funds.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 42's higher ML/TF risks: see *Customer 42's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 42's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 42's source of wealth or source of funds: see *Customer 42's risk profile*.

- b. Customer 42 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 42

- 1543. By reason of the matters pleaded from paragraphs 1527 to 1542 above, on and from 30 November 2016, Star Sydney:
 - a. did not monitor Customer 42 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

- 1544. By reason of the matters pleaded from paragraphs 1527 to 1542 above, on and from 30 November 2016, Star Qld:
 - a. did not monitor Customer 42 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1545. By reason of the matters pleaded at paragraphs 1543 and 1544, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 42.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 43

1546. Customer 43 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$5 million for Customer 43.

Particulars

Customer 43 was a customer of Star Sydney from at least 18 April 2008.

1547. Star Sydney provided Customer 43 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket operator. In 2017, Star Sydney recorded that junkets operated by Customer 43 had a turnover exceeding \$5 million.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 43 which were closed on 9 September 2021 (item 11, table 3, s6 of the Act).

Between 11 June 1999 and 26 June 2017, Star Sydney approved CCFs for Customer 43 on seven occasions ranging from \$250,000 to \$25,000,000 (item 6, table 1, s6 of the Act).

See Customer 43's risk profile below.

1548. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 43.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 43's risk profile

1549. On and from 30 November 2016, Customer 43, and the provision of designated services to Customer 43 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 43's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 43 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 43;

Particulars

Star Sydney gave the AUSTRAC CEO SMRs on 19 September 2011 and 27 November 2013.

The SMRs reported that Customer 43 and his junket representative engaged in large cash transactions: see paragraph 1549.a.vii below.

- ii. Customer 43 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

On 18 April 2008, Customer 43 was approved to be a junket operator at Star Sydney.

Between 16 July 2015 and 5 September 2015, Customer 43 operated two junkets at Star Sydney.

In 2015, junkets operated by Customer 43 recorded a turnover of \$36,827,440 with losses of \$167,025.

- iii. Customer 43 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 31 August 2015 and 5 September 2015, Customer 43 was a player on his own junket.

Customer 43 recorded a turnover of \$19,757,400 with wins of \$435,500.

- iv. Customer 43 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$418,745 for Customer 43;

Particulars

See paragraph 752 above.

- v. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 43 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

For example, on 21 August 2015, Star Sydney received a telegraphic transfer of \$584,936, which it made available to Customer 43's FMA.

The funds were transferred for the purpose of redeeming an outstanding CCF.

This transaction was conducted through the Star Patron account channel.

- vi. between 11 June 1999 and 23 June 2016, Star Sydney provided Customer 43 with significant amounts of credit upon request, up to limits of \$10,000,000; and

Particulars

See paragraph 516 to 518 and 552 above.

On 11 June 1999, Star Sydney approved a single trip CCF limit of \$3,750,000 for Customer 43.

On 6 July 2015, 26 August 2015 and 23 March 2016, Star Sydney senior management, including the Chief Financial Officer and the Chief Executive Officer, approved a single trip CCF limit of \$12,500,000 with an additional limit for that trip only of \$6,250,000 for Customer 43.

On 18 September 2015, Star Sydney senior management, including the General Manager VIP Credits and Collections, approved a single trip CCF limit of \$250,000 for Customer 43.

On 23 June 2016, Star Sydney senior management, including the Chief Executive Officer and the General Manager VIP Credit and Collections, approved a single trip CCF limit of \$25,000,000 for Customer 43.

- vii. Customer 43, and persons associated with his junket, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

In September 2011 and November 2013, Customer 43 and his junket representative took a total of \$624,693 in cash for the settlement of a junket program. Star Sydney considered these transactions to be suspicious due to the large amount of cash involved: SMRs dated 19 September 2011 and 27 November 2013.

Customer 43's risk profile from 30 November 2016

- b. Customer 43 was a junket operator who facilitated the provision of high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 26 June 2017 and 30 June 2017, Customer 43 operated a junket at Star Sydney;
 - ii. between 26 June 2017 and 30 June 2017, Star Sydney recorded that the turnover of the junket operated by Customer 43 was \$5,915,065 with losses of \$326,950;
 - iii. in 2017, total benefits exceeding \$190,000 were payable to Customer 43 by Star Sydney in his capacity as a junket operator;
 - iv. on 26 June 2017, Star Sydney provided Customer 43 and his junket program with a significant amount of credit upon request, up to a limit of \$12,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 26 June 2017, Star Sydney senior management, including the Chief Executive Officer and the Star Sydney Managing Director, approved a single trip CCF limit of \$12,500,000 for Customer 43.

- v. Customer 43 had four junket representatives at Star Sydney; and
- vi. Customer 43 and his junket representatives facilitated the provision of high value designated services to two junket players at Star Sydney;

Particulars

See paragraphs 643 to 649 above.

- c. Customer 43 was recorded to be a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 26 June 2017 and 30 June 2017, Customer 43 was recorded to be a player on the junket at Star Sydney operated by Customer 43 himself; and
 - ii. between 26 June 2017 and 30 June 2017, Star Sydney recorded high turnover totalling \$1,238,926 with losses of \$1,830 for Customer 43's gaming activity on the junket program;
- d. designated services provided to Customer 43 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Customer 43 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 43 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Springs Salon and Lakes Salon.

- f. Star Sydney did not have adequate reason to believe that Customer 43's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 43 at Star Sydney.

Particulars

See paragraph 808 above.

Star understood that Customer 43 was a director and shareholder of several companies.

By 30 November 2016, Customer 43 and his junket representatives had transacted using large amounts of cash. In 2017 alone, Customer 43's junkets recorded a turnover exceeding \$5 million at Star Sydney.

Despite this, Star Sydney did not take steps to review, update and verify Customer 43's source of wealth or source of funds in light of the high value designated services provided to him.

Star Sydney's determination of the ML/TF risks posed by Customer 43

1550. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 43 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 43.

- a. On and from 30 November 2016, Customer 43 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 43's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 43 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

Until 14 April 2021, Customer 43 did not have a risk rating at Star Sydney.

On 14 April 2021, Customer 43 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 43's transactions

1551. At no time did Star Sydney apply appropriate transaction monitoring to Customer 43's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 43, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 43 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- d. Star Sydney provided designated services to Customer 43 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 43's KYC information

- 1552. Star Sydney did not review, update and verify Customer 43's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 43's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 43's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 43's source of wealth or source of funds: see *Customer 43's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 43's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 43.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 16 April 2021, Star Sydney conducted due diligence in respect of Customer 43, which did not identify any adverse information.

Star Sydney understood that Customer 43 was a director and shareholder of several companies. However, Star Sydney did not take steps to review, update and verify Customer 43's source of wealth or source of funds in light of the high value designated services provided to him.

The due diligence conducted by Star Sydney did not have appropriate regard to Customer 43's higher ML/TF risks: see *Customer 43's risk profile* above.

Failure to apply appropriate due diligence suited to Customer 43's high ML/TF risks

1553. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 43 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 43; and
 - c. reviewing and updating Customer 43's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 43 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1554. Had Star Sydney rated Customer 43 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 43.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 43

1555. By reason of the matters pleaded from paragraphs 1546 to 1554 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 43 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1556. By reason of the matters pleaded at paragraph 1555, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 43.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

INTERNATIONAL CUSTOMERS

Customer 44

1557. Customer 44 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$780 million for Customer 44.

Particulars

Customer 44 was a customer of Star Sydney from at least 26 August 2012.

1558. Star Sydney provided Customer 44 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period, including services as a junket player.

Particulars

On 29 May 2017, Star Sydney opened an FMA and SKA for Customer 44, which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 44 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 44's risk profile below.

1559. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 44.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 44's risk profile

1560. On and from 30 November 2016, Customer 44, and the provision of designated services to Customer 44 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 44's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 44 had the following risk history:
- i. Customer 44 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through a junket program;

Particulars

Customer 44 was a junket player on one program operated by one junket operator.

In 2016, Customer 44's turnover on junket programs was \$17,467,840 with wins of \$449,675.

- ii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 44 by remitting large amounts of money into the casino environment via her accounts; and

Particulars

See paragraph 327 above.

For example, on 3 November 2016, Star Sydney received a telegraphic transfer of \$532,100, which it made available to Customer 44's account.

This transaction was conducted through the Star Patron account channel.

- iii. Customer 44 transacted using large amounts of cash;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 28 August 2012 and 7 September 2012, Star Sydney gave the AUSTRAC CEO seven TTRs detailing chip and cash exchanges made by Customer 44 totalling \$247,070.

Between 28 February 2014 and 5 March 2014, Star Sydney gave the AUSTRAC CEO two TTRs detailing account withdrawals involving Customer 44 totalling \$200,000.

Customer 44's risk profile from 30 November 2016

- b. Customer 44 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2017, Customer 44 was a player on two junkets at Star Sydney operated by one junket operator; and
 - ii. in 2017, Star Sydney recorded high turnover of \$131,148,030 with wins of \$4,084,160 for Customer 44's gaming activity on junket programs;
- c. designated services provided to Customer 44 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. from 2020, Customer 44 was known to be connected to other junket operators, including junket operators who Star Sydney considered had acted suspiciously, such as Customer 3;

Particulars

See paragraph 1560.g.

- e. Customer 44 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2019, Star Sydney recorded high turnover totalling \$651,321,203 for Customer 44;

- i. in 2019, Star Sydney recorded individual rated turnover totalling \$1,716 for Customer 44; and

Particulars

See paragraph 752 above.

- ii. in 2019, Star Sydney recorded high turnover on individual rebate programs totalling \$651,319,487 for Customer 44 with losses of \$1,706,100;

Particulars

See paragraph 623 above.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 44 by remitting large amounts of money into the casino environment via her accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 31 May 2017 and 11 March 2019, Star Sydney received a telegraphic transfer of \$1,200,000, and two telegraphic transfers totalling HKD31,733,740 into its foreign currency account, each of which was made available to Customer 44's account.

On 12 March 2019, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$5,794,302 where Customer 44 was named as the ordering customer and the beneficiary. The funds were deposited into Customer 44's Star Sydney account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

On 17 November 2017, Star Sydney sent a telegraphic transfer of \$4,306,852 from Customer 44's account to an unknown recipient.

On 30 March 2019, Star Sydney sent two telegraphic transfers totalling \$2,274,966, and a telegraphic transfer totalling NZD\$6,000,000, from Customer 44's FMA to Australian bank accounts.

On 30 March 2019, Star Sydney sent a telegraphic transfer of HKD19,733,741 from Customer 44's account to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

- g. Customer 44, and persons associated with Customer 44, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 18 March 2019 and 29 March 2019, Star Sydney gave the AUSTRAC CEO six TTRs detailing chip and cash exchanges made by Customer 44 totalling \$381,075.

On 19 March 2019, Star Sydney gave the AUSTRAC CEO one TTR detailing account withdrawals made by Customer 44 totalling \$60,000.

Large and suspicious cash transactions in 2019

On 20 March 2019, Customer 44 cashed out \$128,825 in chips.

On 21 March 2019, Customer 44 deposited \$330,000 in cash into their Star Sydney FMA. The cash was presented in \$100 notes and bundled in straps issued by Star. Star Sydney considered it to be an unusually large amount of cash. Star Sydney had recorded that Customer 44 had also withdrawn cash exceeding this amount in the previous week: SMR dated 22 March 2019.

On 28 March 2019, Customer 44 withdrew \$300,000 in cash at the settlement of a junket program they had played on. Star Sydney considered the amount of this withdrawal to be excessive: SMR dated 20 March 2019.

On 31 December 2019, the following events occurred:

- a. a junket representative requested that Star Sydney exchange an amount in a foreign currency into Australian dollars. The cash was in bundles of and bound with elastic bands. Star Sydney returned some of the cash to the junket representative as the notes were in poor condition. The remaining foreign currency was exchanged into \$5,405,103;
- b. Star Sydney queried the source of the cash in foreign currency and was advised that it had been transported by Customer 44 to Australia, that Customer 44 had declared the currency when they arrived in Australia, that Customer 44 had used some of the cash to buy-in to a junket program operated by Customer 3 at another Australian casino, that Customer 44 had lost the funds used for the buy-in, and that Customer 44 was providing the remaining funds to Star Sydney for the purpose of redeeming Customer 3's outstanding CCF; and
- c. Star Sydney deposited \$5,405,103 into the junket representative's FMA, and transferred \$5,128,687 to Customer 3's FMA. The balance of \$276,416 remained in the junket representative's FMA. At the time that Star gave the AUSTRAC CEO the SMR reporting these events, the funds had not been used to redeem the CCF: SMR dated 2 January 2020.

- h. Customer 44 was the subject of law enforcement enquiries on one occasion at Star Sydney; and

Particulars

On 6 January 2020, Star Sydney received a request from a law enforcement agency for information regarding Customer 44.

- i. Star Sydney did not have adequate reason to believe that Customer 44's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 44 at Star Sydney.

Particulars

See paragraph 808 above.

Until January 2020, Star had recorded Customer 44's occupation as housewife.

By 24 January 2020, Star's AML team had recorded Customer 44's occupation as assistant to the chairman of an overseas company.

At all times, Customer 44's turnover was not consistent with her source of wealth.

See particulars to paragraphs 1560.e and 1560.f.

Star Sydney's determination of the ML/TF risks posed by Customer 44

1561. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 44 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 44.

- a. On and from 30 November 2016, Customer 44 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 44's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 44 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 21 March 2019, Customer 44 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 22 March 2019, Customer 44 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 17 February 2020, Customer 44 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 44's transactions

1562. At no time did Star Sydney apply appropriate transaction monitoring to Customer 44's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 44, Star Sydney's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 44 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 44's KYC information

1563. Star Sydney did not appropriately review, update and verify Customer 44's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 44's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 44's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

At all times, Customer 44's turnover was high. In 2019, her turnover escalated significantly and she frequently presented large amounts of cash and cash that appeared suspicious.

Up until January 2020, Star Sydney understood Customer 44 to be a housewife and did not identify any additional income or sources of wealth.

By reason of the matters set out above, there were real risks that Customer 44's source of wealth and source of funds were not legitimate: see *Customer 44's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 44's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 44.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 44's high ML/TF risks

- 1564. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 44 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 44; and
 - c. reviewing and updating Customer 44's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 44 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 44*.

ECDD triggers in respect of Customer 44

- 1565. Star Sydney was required to apply the ECDD Programs to Customer 44 following an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

1566. Customer 44 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 22 March 2019 and 2 January 2020, Star Sydney gave the AUSTRAC CEO three SMRs with respect to Customer 44.

1567. The matter pleaded in paragraph 1566 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1568. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 44 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 44 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 44 and the provision of designated services to Customer 44 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 810 above.

On 21 March 2019 and 31 December 2019, Star Sydney conducted ECDD in respect of Customer 44.

By January 2020, the Group Manager AML/CTF and Financial Crime informed the JRAM that extensive actions and due diligence had been conducted in respect of Customer 44. By this date, Star's ECDD screening in respect of Customer 44 involved:

- a. open source searches for Customer 44's name, which indicated their occupation to be assistant to the chairman of an overseas company; and
- b. risk intelligence searches on Customer 44's name.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 44's higher ML/TF risks: see *Customer 44's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 44's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 44's source of wealth and source of funds were not legitimate: see *Customer 44's risk profile*.

- b. Customer 44 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 44 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 44 and the provision of designated services to Customer 44 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between 16 January 2020 and 20 February 2020, Customer 44 was discussed at JRAMMs and PAMMs on the basis of the 31 December 2019 transaction: see *Customer 44's risk profile* above.

The minutes of JRAMM on 16 January 2020 noted that enquiries were to be made into Customer 44's occupation which was then recorded as 'housewife' in Star's Synkros system. It was also noted that Star had been provided with a document (which Star referred to as a deed) describing how the junket representative received the funds from Customer 44, and that the funds were only accepted by Star after the information in the document was verified. The JRAMM increased Customer 44's risk rating from medium risk to high risk;

The minutes of the PAMM on 13 February 2020 noted that Customer 44 was removed from the list of customers to be considered by the PAMM.

The minutes from the JRAMM on 20 February 2020 noted that in January 2020 Customer 44 had been added to the list of customers to be considered by JRAM. It was also noted that Customer 44 was to be removed from the JRAM agenda because there was substantial evidence, including the document that Star referred to as a deed, to support how the funds came into the possession of the junket representative, and because Customer 44 was a known high value player.

Contravention of s36 of the Act in respect of Customer 44

1569. By reason of the matters pleaded from paragraphs 1557 to 1568 above, on and from 30 November 2016, Star Sydney:
 - a. did not monitor Customer 44 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1570. By reason of the matters pleaded at paragraph 1569, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 44.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 45

1571. Customer 45 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$6.8 billion for Customer 45.

Particulars

Customer 45 was a customer of Star Sydney from at least 8 March 2015.

On 18 September 2020, Star Sydney issued a WOL in respect of Customer 45 at the direction of the General Manager, Compliance and Responsible Gambling for 'undesirable behaviour'.

1572. Star Sydney provided Customer 45 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 9 March 2015, Star Sydney opened an FMA and SKA for Customer 45 under his primary account number, which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 45 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Customer 9 channels, which it made available to Customer 45 (items 31 and 32, table 1, s6 of the Act).

See Customer 45's risk profile below.

1573. Customer 45 was a customer of Star Qld during the relevant period. Between 2016 and 2019, Star Qld recorded turnover exceeding \$902 million for Customer 45.

Particulars

Customer 45 was a customer of Star Qld from at least 1 May 2015.

On 22 August 2019, Star Qld issued a WOL in respect of Customer 45 for disorderly conduct, which expired on 22 February 2020. On 31 May 2021, Star Qld reactivated the WOL previously issued in respect of Customer 45.

1574. Star Qld provided Customer 45 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 9 March 2015, Star Qld opened an FMA and SKA for Customer 45 under his primary account number, which was closed on 31 May 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 45 remitted funds to and from his FMA and SKA (items 31 and 32, table 1, s6 of the Act).

See *Customer 45's risk profile* below.

1575. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 45.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 45's risk profile

1576. On and from 30 November 2016, Customer 45, and the provision of designated services to Customer 45 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 45's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 45 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 45;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 14 occasions between 10 March 2015 and 11 March 2016.

The SMRs reported that between 9 March 2015 and 9 May 2015, Customer 45 and persons associated with him were involved in multiple large cash transactions at Star Sydney totalling at least \$2,200,000.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 45;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 8 August 2016.

The SMR reported an escalation in the volume of front money presented by Customer 45 for gambling activity.

- iii. Customer 45 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high turnover totalling \$5,054,641 for Customer 45;

Particulars

See paragraph 752 above.

In 2015, Customer 45's individual rated turnover was \$294,301.

See paragraph 623 above.

In 2015, Customer 45's turnover on individual rebate programs was \$4,760,340 with losses of \$927,975.

- iv. in 2016, Customer 45 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs;

Particulars

See paragraph 623 above.

In May 2015, Customer 45 attended Star Qld with front money of \$50,000. In August 2016, Customer 45 played on an individual rebate program at Star Qld and provided \$165,000 in cash as front money.

By 7 August 2016, Customer 45 had played with all of the front money funds and lost \$160,000. Star Qld considered that there had been an escalation in front money funds: SMR dated 8 August 2016.

Between August 2016 and October 2016, Customer 45 played on at least 11 individual rebate programs, recording cumulative turnover of \$176,226,825 with losses of \$16,163,790.

- v. in 2015 and 2016, Customer 45 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs. Between 2015 and 2016, Star Sydney recorded turnover totalling \$2,509,701,636 with losses of \$36,154,060 for Customer 45's gaming activity on junket programs;

Particulars

Between 2015 and 2016, Customer 45 was a player on 19 junkets at Star Sydney operated by two junket operators, including Customer 19. Between 2015 and 2016, Star Sydney recorded turnover totalling \$2,509,701,636 with losses of \$36,154,060 for SU's gaming activity on junket programs.

In 2015, Customer 45's turnover on junket programs was \$41,839,720 with losses of \$2,192,660.

In 2016, Customer 45's turnover on junket programs was \$2,467,861,916 with losses of \$33,961,400.

- vi. in 2016, Customer 45 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs. In 2016, Star Qld recorded turnover totalling \$133,579,362 with losses of \$4,830,770 for Customer 45's gaming activity on junket programs;

Particulars

In 2016, Customer 45 was a player on one junket operated by a junket operator.

- vii. on 11 October 2016, Customer 45 was referred to Star Qld by Customer 4;
Particulars

See paragraph 625 above.

On 11 October 2016, Customer 45 was referred to Star Qld by Customer 4. Customer 4 arranged for Customer 45 to attend Star

Qld on a rebate program without Customer 4 or his junket representative being present.

Customer 4 received a commission on amounts wagered by Customer 45, whom Star Qld dealt with directly.

- viii. on 19 occasions, Star Sydney provided Customer 45 with significant amounts of credit upon request, up to limits of \$1,090,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 25 April 2015 and 9 March 2016, Star Sydney provided CCFs between \$50,000 and \$1,090,000 on 19 occasions.

On 17 occasions, the CCFs were provided to Customer 45 on a 'temporary' basis while funds obtained through the Hotel Card channel were cleared, and were approved by senior management at Star, including the Chief Executive Officer.

- ix. Star Qld provided designated services (items 31 and 32, table 1, s6) to Customer 45 by remitting large amounts of money into the casino environment via his accounts, including through the Bank 1 (Macau) cash channel which involved higher ML/TF risks;

Particulars

See paragraphs 372 and 382 to 384 above.

Between 9 September 2016 and 14 September 2016, unknown persons deposited a total of \$781,700 in cash at Bank 1 which Star Qld made available to Customer 45 through the Bank 1 (Macau) cash channel:

- a. on 9 September 2016, an unknown person deposited \$573,000 in cash at Bank 1, which Star Sydney made available to Customer 45.
- b. on 14 September 2016, an unknown person deposited \$208,700 in cash at Bank 1, which Star Sydney made available to Customer 45.
- x. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 45 by remitting large amounts of money into the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

Between 14 July 2015 and 9 March 2016, Customer 45 received a total of \$2,770,000 through the Hotel Card channel at Star Sydney.

Other remittances into the casino environment

See paragraph 327 above.

On 31 July 2015, Star Sydney received three telegraphic transfers totalling \$380,000, each of which was made available to Customer 87's FMA. The funds were transferred for the purpose of redeeming outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

- xi. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 45 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

On 10 September 2016, Star Qld received a telegraphic transfer of \$192,000 from Star Sydney, which it made available to Customer 45's FMA at Star Gold Coast.

Between 14 September 2016 and 14 October 2016, Star Qld gave the AUSTRAC CEO five incoming IFTIs totalling \$6,498,700 where Customer 45 was named as the ordering customer and beneficiary.

The funds were used for gambling on a commission program.

Each of the above transactions was conducted through the Star Patron account channel.

- xii. Customer 45 transacted using large amounts of cash at Star Sydney;

Particulars

TTRs

Between 10 March 2015 and 7 September 2016, Star Sydney gave the AUSTRAC CEO 82 TTRs totalling \$5,568,361, which comprised:

- a. 26 TTRs detailing chip and cash exchanges made by Customer 45 totalling \$667,450;
- b. 23 TTRs detailing account deposits made by Customer 45 totalling \$2,821,000;
- c. 21 TTRs detailing account withdrawals made by Customer 45 totalling \$1,583,080;
- d. one TTR detailing other monetary value in made by Customer 45 totalling \$52,669; and
- e. 11 TTRs detailing other monetary value out made by Customer 45 totalling \$444,162.

- xiii. Customer 45 transacted using large amounts of cash at Star Qld;

Particulars

Between 5 March 2015 and 11 October 2016, Star Qld gave the AUSTRAC CEO 12 TTRs totalling \$737,100 comprising:

- a. one TTR detailing a chip and cash exchange made by Customer 45 totalling \$10,000;
 - b. 9 TTRs detailing account deposits made by Customer 45 totalling \$555,000; and
 - c. 2 TTRs detailing account withdrawals made by Customer 45 totalling \$172,100.
- xiv. Customer 45 engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 14 May 2015, Customer 45 transferred \$4,000,000 and \$2,000,000 from his Star Sydney account to Customer 66's account, who was his wife, who withdrew the funds as two Star non-winnings cheques: SMR dated 15 May 2015.

On 9 March 2016, Customer 45 played on a junket operated by Customer 19. Star Sydney issued two Star cheques from the junket operator's FMA of \$2,700,000 and \$3,000,000 in favour of Customer 45's wife, Customer 66, despite the fact that she had not recorded any play on the junket.

- xv. in 2016, Customer 45 requested that Star Sydney prepare letters purportedly confirming his winnings, in circumstances where these letters did not on each occasion reflect Customer 45's overall wins and losses;

Particulars

For example, on 9 July 2016, Star Sydney issued one letter of comfort purportedly confirming Customer 45's winnings totalling \$3,235,000.

- xvi. in 2014 and 2015, Star Sydney and Star Qld were aware that Customer 45 was using a money remitter to access funds in Australia;

Particulars

In May 2014, Customer 45 came to the attention of the Star investigations team after making cash deposits involving old \$50 notes totalling \$700,000 in May. The Compliance Manager, Group Risk, Compliance and Assurance recorded that the Investigations team suspected that Customer 45 was using a money remitter to access funds in Australia.

- xvii. in 2014 and 2015, Star Sydney and Star Qld obtained inconsistent information regarding Customer 45's occupation but took no steps to resolve the inconsistencies;

Particulars

In 2014, the Compliance Manager, Group Risk, Compliance and Assurance obtained information that Customer 45 held shares in an overseas mine and had legitimate access to large amounts of money.

In 2015, the PAMM obtained information that Customer 45 was a 'trader'.

- xviii. in 2014, Star Sydney was aware that a law enforcement agency was considering questioning Customer 45 about his source of funds; and

Particulars

In 2014, the Investigations Analyst recorded that:

a. Star Sydney contacted police regarding Customer 45's transactions and that police had considered questioning Customer 45 about his source of funds; and

b. Star Sydney had urged police to be cautious about asking Customer 45 about his source of funds because Star Sydney believed Customer 45 was a legitimate businessman with access to legitimate funds.

- xix. between 2015 and 2016, Star Sydney was aware that Customer 45 frequently engaged in violent behaviour towards his associates and destroyed casino property while engaging in gaming activity;

Particulars

Between 29 April 2015 and 22 May 2015, Customer 45 engaged in violent behaviour on two occasions, including kicking over a drinks trolley, and assaulting his junket operator and associate Customer 19 in a lift. Following the assault, Star Sydney gave Customer 45 a warning.

On 1 October 2016, Customer 45 engaged in violent behaviour at Star Sydney, including throwing teacups at his personal assistant and punching his associate Customer 19. Following the incident, Star Sydney excluded Customer 45 for three months from the property.

Customer 45's risk profile from 30 November 2016

- b. Customer 45 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
- i. between 2017 and 2020, Customer 45 was a player on 97 junkets at Star Sydney operated by five junket operators, including the Suncity junket operators, Customer 4 and Customer 3, as well as Customer 19 and Customer 6;
- ii. between 2017 and 2020, Star Sydney recorded high and escalating turnover totalling \$3,146,398,437 with losses of \$83,285,200 for Customer 45's gaming activity on junket programs; and

Particulars

In 2017, Customer 45 played on 21 junket programs operated by 4 different junket operators:

- a. on eight junket programs operated by Customer 19, Customer 45's turnover was \$1,092,972,517 with losses of \$42,808,550;
- b. on 11 Suncity junket programs operated by Customer 4, Customer 45's turnover was \$306,460,700 with wins of \$450,700;
- c. on one junket program operated by Customer 6, Customer 45's turnover was \$249,358,720 with losses of \$9,999,950; and
- d. on one junket program operated by another junket operator, Customer 45's turnover was \$323,435,710 with losses of \$15,000,000.

In 2019, Customer 45's turnover on Suncity junket programs operated by Customer 3 was \$1,005,779,840 with losses of \$17,211,025.

In 2020, prior to COVID-19 pandemic border closures, Customer 45's turnover on 16 Suncity junket programs operated by Customer 3 was \$168,390,950 with wins of \$1,283,625.

- iii. several of the junkets were funded by a person other than the junket operator, including by Suncity junket funder, Customer 1, and Customer 5;
- c. Customer 45 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. in 2019, Star Qld recorded high and escalating turnover totalling \$90,212,200 with wins of \$13,995,000 for Customer 45's gaming activity on six Suncity junkets at Star Qld operated by a Suncity junket operator, Customer 3; and
 - ii. all of the junkets were funded by a person other than the junket operator, including Customer 1;
- d. designated services provided to Customer 45 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. Customer 45 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high turnover totalling \$3,674,022,456 for Customer 45;
 - i. between 2016 and 2021, Star Sydney recorded high individual rated turnover totalling \$37,753,500 for Customer 45; and

Particulars

See paragraph 752 above.

In 2016, Customer 45's individual rated turnover was \$8,087,799.

In 2017, Customer 45's individual rated turnover escalated to \$12,833,150.

In 2018, Customer 45's individual rated turnover was \$6,791,542.

In 2019, Customer 45's individual rated turnover was \$5,057,688.

In 2020, Customer 45's individual rated turnover was \$4,983,321.

- ii. between 2017 and 2020, Star Sydney recorded high turnover on individual rebate programs totalling \$3,674,022,456 for Customer 45, with losses of \$26,078,165;

Particulars

See paragraph 623 above.

Between 2017 and 2020, Customer 45 played on 187 individual rebate programs at Star Sydney.

In 2017, Customer 45's turnover on individual rebate programs was \$326,657,890 with losses of \$20,713,225.

In 2018, Customer 45's turnover on individual rebate programs escalated significant to \$1,925,233,556 with wins of \$5,279,700.

In 2019, Customer 45's turnover on individual rebate programs was \$886,769,130 with wins of \$444,115.

In 2020, Customer 45's turnover on individual rebate programs was \$508,361,880 with losses of \$11,088,755.

- f. Customer 45 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs; Between 2016 and 2019, Star Qld recorded high and escalating turnover totalling \$812,658,359 for Customer 45;
 - i. between 2016 and 2019, Star Qld recorded high and escalating individual rated turnover totalling \$5,941,546 for Customer 45; and

Particulars

See paragraph 752 above.

In 2016, Customer 45's individual rated turnover was \$18.

In 2018, Customer 45's individual rated turnover escalated to \$2,011,045.

In 2019, Customer 45's individual rated turnover further escalated to \$3,930,484.

- ii. between 2018 and 2019, Star Qld recorded high turnover on individual rebate programs totalling \$806,716,300 for Customer 45;

Particulars

See paragraph 623 above.

Between 2018 and 2019, Customer 45 played on 97 individual rebate programs at Star Qld.

In 2018, Customer 45's turnover on individual rebate programs was \$734,791,850 with losses of \$11,491,300.

In 2019, Customer 45's turnover on individual rebate programs was \$71,924,450 with wins of \$1,467,500.

- g. Customer 45 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose at Star Sydney and Star Qld;

Particulars

2018

By 2 March 2018, Star Qld was aware that:

- a. Customer 45 was at the time recorded to be winning \$16,000,000 at Star Gold Coast;
- b. Customer 45 had lost \$2,200,000 at Star Sydney, and had lost a total of \$90,000,000 since 1 March 2017;
- c. Customer 45 held 13 casino cheques issued by Star Gold Coast totalling \$18,240,000 and held cash of \$370,000;
- d. Customer 45's occupation was recorded as 'mining';
- e. Customer 45 mitigated his rated gaming by taking a cheque when winning; and
- f. on 18 February 2018, a junket operator Customer 19 transferred \$33,733,416 to Customer 45's SKA. Star noted that it was unclear where the funds came from as the rated gaming for the accounts did not support the volume of funds, but observed that Customer 19 had multiple accounts.

2019

Between 28 February 2019 and 3 March 2019, Customer 45 engaged in the following transactions:

- a. on 28 February 2019, Customer 45 arrived at Star Qld. Customer 45 transferred \$9,000,000 from his Star Sydney account to his Star Qld account to commence play on an individual rebate program. Star Qld could not determine the initial funds held by Customer 45 at Star Sydney to start with, because Customer 45 had a main account and 40 sub accounts, at least half of which he used each trip. Customer 45 was accompanied by an unknown third party to Star Qld;
- b. on 1 March 2019, Customer 45 played on the main gaming floor at Star Qld. Star Qld considered that this was unusual for Customer 45. Customer 45 played together with another customer, Person 12, who presented \$119,000 in chips to the cashiers on the main gaming floor. A Star Sydney staff member, who was with the customers, advised that the chips were Customer 45's. Person 12 then changed his mind and cashed out \$94,000. Person 12 then deposited \$100,000 in \$100 notes into one of Customer 45's accounts and he was issued with a chip purchase voucher for the same amount. He lost all of these funds;
- c. on 2 March 2019, Star Qld received \$2,600,000 into its bank account for the credit of Customer 45. Star Qld requested that the bank provide further information as to the source of funds. By 6 March 2019, Star Qld's bank advised that the funds had been transferred from a bank account;

- d. on 4 March 2019, Customer 45 requested a \$10,350,000 telegraphic transfer from his Star Qld account to his personal bank account. Star Qld prepared a letter of comfort for Customer 45 on 4 March 2019 stating that Customer 45 had won \$10,350,000 from gaming activities at Customer 45's request, in which he claimed he needed a letter with specific wording for his bank to accept the funds. On 5 March 2019, Star Qld retracted the letter and issued a second letter of comfort with different wording, describing the \$10,350,000 figure as the balance of Customer 45's SKA. Star Qld identified that similar letters were usually supplied to customers returning to certain jurisdictions where some banks require a letter from Star Qld that matches the amount of funds sent. However, Customer 45 transferred the funds to an Australian bank in Sydney; and
- e. between 28 February 2019 and 3 March 2019, Customer 45 attended 21 commission programs at Star Qld. He won on 12 programs, lost on eight programs and broke even on one program. His total winnings were \$1,015,000: SMR dated 5 March 2019.
- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 45 by remitting large amounts of money into, out of and within the casino environment his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Customer 9 channels

See paragraphs 398, 421, 439, 440 and 441 above.

On 6 March 2018, deposits through the Customer 9 channels totalling HKD17,857,150 were made available by Star Sydney to Customer 45's account.

Other remittances into the casino environment

See paragraph 327 above.

On 8 March 2018, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$2,917,215 where Customer 45 was named as the ordering customer and beneficiary. The funds were deposited into Customer 45's Star Sydney account.

Between 19 November 2018 and 10 January 2020, Star Sydney received 10 telegraphic transfers totalling \$18,000,000, each of which was made available to Customer 45's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 13 November 2018 and 23 May 2022, Star Sydney sent 25 telegraphic transfers totalling \$178,302,824 from Customer 45's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 20 February 2018 and 22 November 2018, Star Sydney sent seven telegraphic transfers totalling \$20,000,000 from Customer 45's account to Star Qld.

On 21 October 2018, Star Sydney received a telegraphic transfer of \$4,092,345 from Star Qld, which it made available to Customer 45's account.

For example, see particulars to paragraph 1576.g and 1576.u.

- i. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 45 by remitting large amounts of money out of and within the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327 above.

For example, see particulars to paragraph 1576.g.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 20 February 2018 and 28 February 2019, Star Qld received 17 telegraphic transfers totalling \$45,800,000 from Star Sydney, each of which was made available to Customer 45's FMA at Star Gold Coast.

Between 19 October 2018 and 21 November 2018, Star Qld received four telegraphic transfers totalling \$12,000,000 from Star Sydney, each of which was made available to Customer 45's FMA at Treasury Brisbane.

On 21 October 2018 and 23 November 2018, Star Qld facilitated two telegraphic transfers totalling \$4,109,876 from Customer 45's FMA and SKA at Treasury Brisbane to Star Sydney.

On 7 March 2019, Star Qld facilitated a telegraphic transfer of \$3,326,682 from Customer 45's FMA at Star Gold Coast to Star Sydney.

For example, see particulars to paragraph 1576.g.

- j. Customer 45 and persons associated with Customer 45 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 20 February 2018 and 12 August 2019, Star Qld gave the AUSTRAC CEO 55 TTRs involving Customer 45 totalling \$2,009,990, including:

- a. 40 TTRs detailing chip and cash exchanges totalling \$1,492,250;
 - b. five TTRs detailing account deposits totalling \$338,600;
 - c. eight TTRs detailing account withdrawals totalling \$139,140; and
 - d. two TTRs detailing other monetary value out totalling \$40,000.
- k. Customer 45 and persons associated with Customer 45 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 20 March 2017 and 21 August 2020, Star Sydney gave the AUSTRAC CEO 104 TTRs involving Customer 45 totalling \$6,301,445, including:

- a. 64 TTRs detailing chip and cash exchanges totalling \$2,117,550;
- b. 13 TTRs detailing account deposits totalling \$915,000;
- c. 26 TTRs detailing account withdrawals totalling \$2,796,700; and
- d. 1 TTR detailing other monetary value out totalling \$472,195.

Large and suspicious cash transactions in 2017

On 16 October 2017, Star Sydney recorded that \$200,000 in cash had been withdrawn from Customer 45's FMA.

Large and suspicious cash transactions in 2018

On 19 February 2018, Star Sydney recorded that \$100,000 in cash and \$50,000 in chips had been withdrawn from Customer 45's SKA.

On 22 February 2018, Star Sydney recorded that \$100,000 in cash had been withdrawn from Customer 45's FMA.

Around 27 June 2018, Customer 45 had been playing on a program and wanted cash at settlement but did not want to wait for the cash to be counted so had deposited it into his account. Customer 45 then returned and requested \$483,173 from his account be transferred to another Star Sydney customer, Person 12. On 27 June 2018, Person

12 withdrew \$200,000 and \$283,173 in cash from his Star Sydney account. Star Sydney suspected that Person 12 had withdrawn the cash from his account to deliver to Customer 45: SMR dated 28 June 2018.

On 29 June 2018, Person 12 withdrew \$800,000 in cash from his account. \$300,000 of the funds were from a program settlement and the balance of the funds were transferred from Customer 45: SMR dated 29 June 2018.

Around 30 June 2018, Customer 45 transferred \$508,365 to Person 12. On 30 June 2018, the customer withdrew \$208,365 in cash from his account. Star Sydney suspected that Person 12 had withdrawn the cash from his account to deliver to Customer 45 as he had done previously: SMR dated 2 July 2018.

On 27 July 2018, Star Sydney recorded that \$150,000 in cash had been withdrawn from Customer 45's FMA, which Star Sydney had traced to winnings from a program settlement.

On 3 August 2018, Star Sydney recorded that \$500,000 in cash had been withdrawn from Customer 45's FMA, which Star Sydney had traced to winnings from a program settlement.

Large and suspicious cash transactions in 2019

See particulars to paragraph 1576.g.

On 18 February 2019, Star Sydney recorded that \$100,000 in cash in straps issued by Star was presented then deposited into Customer 45's FMA, but was not regarded as suspicious due to Customer 45's play history.

On 21 February 2019, Star Sydney recorded that \$100,000 in cash in straps issued by Star was presented then deposited into Customer 45's FMA, but was not regarded as suspicious due to Customer 45's play history.

On 22 February 2019, Star Sydney recorded that a total of \$300,000 in cash in straps issued by Star was deposited into Customer 45's FMA by another customer acting on Customer 45's behalf.

On 26 February 2019, Star Sydney recorded that \$105,000 in cash in straps issued by Star was deposited into Customer 45's FMA by another customer acting on Customer 45's behalf.

Large and suspicious cash transactions in 2020

On 26 February 2020, Star Sydney recorded that Customer 45 exchanged \$65,000 in chips for cash and withdrew \$35,000 in cash from his FMA.

On 16 March 2020, Star Sydney recorded that Customer 45 had withdrawn \$200,000 in cash from his FMA in order to access funds before the casino closed due to the COVID-19 pandemic.

On 22 March 2020, Star Sydney recorded that Customer 45 had withdrawn \$200,000 in cash from his FMA in order to access funds before the casino closed due to the COVID-19 pandemic.

On 17 July 2020, Star Sydney recorded that Customer 45 withdrew \$100,000 in cash from his FMA which Star Sydney traced to a program settlement in March 2020.

On 4 August 2020, Star Sydney recorded that Customer 45 withdrew \$200,000 in cash, which was not regarded as suspicious due to Customer 45's play history.

On 20 August 2020, Star Sydney recorded that Customer 45 withdrew a total of \$200,000 in cash, which was not regarded as suspicious due to Customer 45's play history.

Large and suspicious cash transactions in 2021

See particulars to paragraph 1576.u below.

- l. designated services provided to Customer 45 included EGM activity at Star Sydney;

Particulars

For example, on 6 July 2020, Star Sydney gave the AUSTRAC CEO one TTR detailing EGM payouts to Customer 45 totalling \$19,800.

- m. designated services provided to Customer 45 included EGM activity at Star Qld;

Particulars

For example, between 11 May 2018 and 20 June 2018, Star Qld gave the AUSTRAC CEO two TTRs detailing EGM payouts to Customer 45 totalling \$80,400.

- n. designated services provided to Customer 45 involved the provision by Star Qld of cheques in circumstances where Customer 45 recorded a win on an individual rebate program;

Particulars

2017

In October 2017, an application was made by a junket operator, Customer 19, to increase his CCF to \$20,000,000. An email sent by the Senior Vice President International Marketing requested that the CCF limit be approved subject to a request from Customer 45 that Star split the \$20,000,000 CCF into ten \$2,000,000 programs, and that Star would issue a winning cheque for each program that he won, regardless of the total cumulative win/loss figures across the ten programs.¹ The Chief Executive Officer and Chief Financial Officer approved increasing the credit limit to \$15,000,000, with an additional limit of \$5,000,000 on a trip only basis.

2018

See particulars to paragraph 1576.g.

- o. Customer 45 requested that Star Qld prepare letters purportedly confirming his winnings, in circumstances where these letters did not on each occasion reflect Customer 45's overall wins or losses;

Particulars

See paragraph 337 and 338 above.

2018

On 20 October 2018, Star Qld issued a letter of comfort purportedly confirming Customer 45's winnings totalling \$2,000,000.

2019

On 1 March 2019 and 4 March 2019, Star Qld issued a letter purportedly confirming Customer 45's winnings under individual rebate programs recorded under various account numbers allocated to Customer 45. The 4 March 2019 letter stated that Customer 45 had won \$10,350,000 from rated gaming activities. On 5 March 2019, Star Qld retracted the letter it had prepared on 4 March 2019 and reissued it to describe the \$10,350,000 as the balance of his SKA: SMR dated 5 March 2019.

See particulars to paragraph 1576.g.

On 5 March 2019, Star Qld prepared a further 12 letters purportedly confirming Customer 45's winnings under individual rebate programs recorded under various account numbers allocated to Customer 45 totalling \$16,092,500. This letter was issued in circumstances where Customer 45 had attended 21 individual rebate programs, where he won on 12 programs, lost on eight programs and broke even on one program, recording an overall win of \$1,015,000: SMR dated 5 March 2019.

Between 6 August and 28 August 2019, Star Qld issued a letter on 4 occasions purportedly confirming Customer 45's winnings under individual rebate programs recorded under various account numbers allocated to Customer 45.

- p. Customer 45 requested that Star Sydney prepare letters purportedly confirming his winnings, in circumstances where these letters did not on each occasion reflect Customer 45's total cumulative wins or losses;

Particulars

See paragraph 337 and 338 above.

2019

Between 28 May 2019 and 29 December 2019, Star Sydney issued approximately 23 letters of comfort purportedly confirming Customer 45's winnings totalling \$77,148,575.

2020

Between 5 January 2020 and 21 July 2020, Star Sydney issued approximately 15 letters of comfort purportedly confirming Customer 45's winnings totalling \$48,780,500.

- q. in 2020 and 2021, Customer 45 was the subject of law enforcement enquiries on two occasions at Star Sydney;

Particulars

In February 2020, Star Sydney received a request from law enforcement with respect to Customer 45.

On 7 May 2021, Star Sydney received a request from law enforcement with respect to Customer 45.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- r. Customer 45 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616.

Customer 45 had access to private gaming rooms at Star Sydney, including Chairman's room, Springs Salon, Lakes Salon, Rivers Salon, and Harbours Salon.

- s. Customer 45 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616.

Customer 45 had access to private gaming rooms at Star Qld, including The Club, Level 17 (Cage), Pit 8, Pit 66, Salon 21, Salon 22, Salon 66, Salon 88, and Sovereign Room.

- t. Star Sydney and Star Qld were aware that Customer 45 frequently engaged in violent behaviour towards his associates and destroyed casino property in the relevant period;

Particulars

On 20 June 2018 and 25 November 2018, Customer 45 destroyed casino property at Star Sydney, including throwing cards, shoes and tables around the room, throwing an ashtray at a fish tank (causing cracks), and throwing remotes at two televisions causing them to shatter.

On 5 March 2019, Customer 45 engaged in violent behaviour at Star Sydney, throwing punches at his associate, Person 12.

On 9 August 2019, Customer 45 engaged in violent behaviour at Star Gold Coast, attempting to assault an associate using a glass. Following the incident, law enforcement issued Customer 45 with an

infringement notice and Star Gold Coast issued a ten day exclusion order.

On 23 August 2019, having regard to the incident on 9 August 2019, Star senior management, including the Chief Executive Officer and the Group General Counsel and Company Secretary, agreed to issue Customer 45 with a WOL for a period of three months to apply to both properties. This was later extended to a six month WOL at Star Qld.

On 16 January 2020, Customer 45 destroyed casino property at Star Sydney including throwing ornaments and a glass of water at a television.

On 17 September 2020, Customer 45 destroyed casino property at Star Sydney including throwing a teapot, a rack of gaming chips and then a drinks trolley at a window, which shattered. Chips and cash which had been scattered around the room during the incident were collected and deposited back into Customer 45's FMA.

On 18 September 2020, Star Sydney re-issued a WOL in respect of Customer 45 for behavioural reasons and not as a result of an active consideration of the higher ML/TF risks posed by Customer 45.¹

- u. despite issuing a WOL in respect of Customer 45 on 18 September 2020, Star Sydney provided the designated services to Customer 45 through his FMA in 2021; and

Particulars

Around February 2021, Customer 45 requested to transfer \$500,000 from his FMA to his wife, Customer 66's FMA. On 26 February 2021, the transaction was approved by the General Manager Commercial Finance International Marketing following internal discussions.

On 27 February 2021, Star Sydney transferred \$500,000 from Customer 45's Star Sydney FMA to his wife, Customer 66's Star Sydney FMA. Customer 66 then withdrew the \$500,000 in cash and left the casino: SMR dated 3 March 2021.

On 31 March 2021, Customer 45 transferred \$500,000 from his Star Sydney account to his wife, Customer 66's, Star Sydney account. Customer 66 then withdrew the \$500,000 in cash and left the casino: SMR dated 31 March 2021.

On 10 November 2021, despite having been issued a WOL on 18 September 2020, Customer 45 transferred \$500,000 from his Star Sydney account to his wife, Customer 66's, Star Sydney account. Customer 66 then withdrew the \$500,000 in cash and left the casino: SMR dated 17 November 2021

- v. Star Sydney and Star Qld did not take steps to verify their understanding of Customer 45's source of wealth or source of funds to confirm it was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) recorded by Customer 45 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld variously recorded Customer 45's stated occupation was as a 'trader', as being in mining, as a manager and as the former founder and shareholder of an overseas resources company.

By 30 November 2016, Star investigators were of the view that Customer 45 had legitimate access to large amounts of money through his occupation: see *Customer 45's risk profile*.

At no time did Star Sydney and Star Qld did take appropriate steps to verify their assumptions regarding Customer 45's source of wealth or source of funds in circumstances where:

- a. between 2016 and 2019, Customer 45's recorded turnover on junket programs exceeded \$3.1 billion at Star Sydney and \$90 million at Star Qld; and
- b. between 2016 and 2020, Customer 45's turnover other than on junket programs exceeded \$3.6 billion at Star Sydney and \$800 million at Star Qld: see *Customer 45's risk profile*.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 45

1577. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 45 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 45.
- a. On and from 30 November 2016, Customer 45 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 45's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 45 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

On 1 April 2015, Customer 45 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 24 April 2015, Customer 45 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 8 March 2021, Customer 45 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 45's transactions

1578. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 45's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 45, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 45 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. international remittance channels, specifically the Customer 9 channels;

Particulars

See paragraph 441 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 45 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- e. Star Sydney and Star Qld provided designated services to Customer 45 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 45's KYC information

1579. Star Sydney and Star Qld did not review, update and verify Customer 45's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Programs did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 45's business with it, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 45's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 45's source of wealth and source of funds were not legitimate: see *Customer 45's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 45's KYC information on and from 30 November 2016, Star Sydney and Star Qld failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 45.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 6 December 2017, Star prepared a due diligence report on Customer 45. The report identified that:

- a. Customer 45 was not a PEP, did not have a criminal record in three overseas jurisdictions;
- b. there was no derogatory information in respect of Customer 45 in open source and risk intelligence databases; and

- c. Customer 45 was the founder and shareholder of a resources company in an overseas country, but had resigned and transferred his shares to another person in 2014.

Failure to apply appropriate due diligence suited to Customer 45's high ML/TF risks

1580. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 45 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 45; and
 - c. reviewing and updating Customer 45's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 45 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 45*.

ECDD triggers in respect of Customer 45

1581. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 45 following an ECDD trigger.

Particulars

Rules 15.9(3) and 15.10 of the Rules.

1582. Customer 45:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 26 June 2018 and 17 November 2021, Star Sydney gave the AUSTRAC CEO seven SMRs with respect to Customer 45.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 5 May 2019, Star Qld gave the AUSTRAC CEO two SMRs with respect to Customer 45.

1583. Each matter pleaded in paragraph 1582 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1584. Star Sydney and Star Qld did not carry out appropriate risk-based ECDD measures with respect to Customer 45 following an ECDD trigger, because:
 - a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 45 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 45, the provision of designated

services to Customer 45 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 809 above.

On 20 February 2019, 5 March 2019, 27 February 2021, 31 March 2021, Star Sydney and Star Qld conducted ECDD in respect of Customer 45.

The ECDD screenings in respect of Customer 45 did not identify any adverse matters in respect of Customer 45.

On 8 May 2020, Star Sydney and Star Qld conducted ECDD in respect of Customer 45 in his capacity as a Suncity junket player as part of Suncity ECDD review but did not identify any adverse matters in respect of Customer 45.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to his higher ML/TF risks: see *Customer 45's risk profile*.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 45's source of funds or source of wealth, in circumstances where:

- a. between 2016 and 2019, Customer 45's recorded turnover on junket programs exceeded \$3.1 billion at Star Sydney and \$90 million at Star Qld;
- b. between 2016 and 2020, Customer 45's turnover other than on junket programs exceeded \$3.6 billion at Star Sydney and \$800 million at Star Qld: see *Customer 45's risk profile*.

By reason of the matters set out above, there were real risks that Customer 45's source of wealth and source of funds were not legitimate: see *Customer 45's risk profile*.

- b. Customer 45 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 18 September 2020 for Star Sydney, and 31 May 2021 for Star Qld, that Customer 45 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 45, the provision of designated services to Customer 45 by Star Sydney and Star Qld, and whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810.

See particulars to paragraph 1579.d above.

On 23 August 2019, Customer 45 was excluded from Star Sydney, on the basis of 'undesirable behaviour'.

Around 23 August 2019, senior management, including the Chief Executive Officer and the Group General Counsel and Company Secretary, issued a temporary three month WOL against Customer 45 for 'disorderly conduct' at Star Qld and Star Sydney.

On 18 September 2020, Star Sydney re-issued a WOL in respect of Customer 45 for behavioural reasons and not as a result of an active consideration of the higher ML/TF risks posed by Customer 45.

In February and March 2021, Customer 45 was permitted to transfer a total of \$1,500,000 from his Star Sydney FMA to his wife's Star Sydney FMA, which was then withdrawn by his wife, Customer 66, in cash.

It was not until 31 May 2021 that Star Qld reissued the WOL in respect of Customer 45 initially issued by it in August 2019.

Contravention of s36 of the Act in respect of Customer 45

1585. By reason of the matters pleaded from paragraphs 1571 to 1584, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 45 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1586. By reason of the matters pleaded at paragraph 1585, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 18 September 2020 with respect to Customer 45.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1587. By reason of the matters pleaded at paragraph 1585, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 31 May 2021 for Star Qld with respect to Customer 45.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 46

1588. Customer 46 was a customer of Star Qld during the relevant period. Between 2016 and 2017, Star Qld recorded turnover exceeding \$680 million for Customer 46.

Particulars

Customer 46 was a customer of Star Qld from at least 29 November 2016.

1589. Star Qld provided Customer 46 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 29 November 2016, Star Qld opened an FMA for Customer 46 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 46 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 46's risk profile below.

1590. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 46.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 46's risk profile

1591. On and from 30 November 2016, Customer 46, and the provision of designated services to Customer 46 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 46's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 46 had the following risk history:
- i. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 46 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

For example, on 8 September 2015, Star Sydney received a telegraphic transfer of \$686,555, which it made available to Customer 46's FMA.

This transaction was conducted through the Star Patron account channel.

- ii. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 46 by remitting large amounts of money into the casino environment from his accounts;

Particulars

See paragraph 327 above.

For example, on 5 December 2016 and 13 December 2016, Star Qld received two telegraphic transfers totalling \$1,050,000, both of which were made available to Customer 46's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

- iii. Customer 46 transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

On 29 November 2016, on his first visit to Star Qld, Customer 46 deposited \$118,000 in cash into his FMA. Star Qld noted that Customer 46 was on an individual rebate program. As it was his first visit with no prior transacting history, Star Qld considered the large amount of cash to be unusual: SMR dated 2 December 2016.

- iv. Customer 46 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. By 30 November 2016, Star Qld recorded high turnover on individual rebate programs totalling \$147,835,652 with losses of \$276,239 for Customer 46;

Customer 46's risk profile from 30 November 2016

- b. Customer 46 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 46 was a member of a foreign political body.

- c. Customer 46 was connected to the Suncity junket;

Particulars

By 9 February 2017, Star Qld was aware that Customer 46 was reportedly a patron at various foreign casinos as a customer of the Suncity junket.

- d. Customer 46 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2017, Star Qld recorded high and escalating turnover totalling \$680,702,925 for Customer 46;
 - i. between 2016 and 2017, Star Qld recorded high and escalating individual rated turnover totalling \$998,076 for Customer 46;

Particulars

See paragraph 752 above.

In 2016, Customer 46's individual rated turnover was \$305,503.

In 2017, Customer 46's individual rated turnover escalated to \$692,573.

- ii. in 2017, Star Qld recorded high turnover on individual rebate programs totalling \$679,704,849 for Customer 46, with losses of \$15,951,070;

Particulars

See paragraph 623 above.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 46 by remitting large amounts of money into, out of and within the casino environment via his accounts:

Particulars

Remittances out of the casino environment

See paragraph 327.

On 5 February 2018 and 21 February 2018, Star Qld facilitated two telegraphic transfers totalling \$40,000 from Customer 46's FMA at Star Gold Coast to an overseas bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances into the casino environment

See paragraph 327.

See paragraph 1591.f below.

These transactions were conducted through the Star Patron account channel.

Remittances within the casino environment

Particulars

See paragraphs 347 to 349 above.

See paragraph 1591.f below.

- f. Star Qld was aware that:
 - i. Customer 46 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. Customer 46, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including cash wrapped in newspaper, at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 2 December 2016 and 4 October 2022, Star Qld gave the AUSTRAC CEO 24 TTRs in respect of Customer 46 totalling \$6,080,479, which were comprised of:

- a. 20 outgoing TTRs totalling \$5,770,473;
- b. four incoming TTRs totalling \$310,006;

- c. \$418,413 in chip or cash exchanges; and
- d. \$5,662,067 in account deposits or withdrawals.

Large and unusual transactions in 2016

On 9 December 2016, Customer 46 deposited \$148,393 in cash into his FMA. The cash comprised \$100 notes and were used for an individual rebate program. Shortly afterwards, Customer 46 deposited \$101,612 in cash into his FMA. The cash comprised \$71,000 in \$100 notes and \$30,000 in \$50 notes and was wrapped in newspaper. Star Qld noted that Customer 46 had access to large amounts of cash. He had made seven reportable foreign currency exchanges since he started play on 29 November 2016 and had received a telegraphic transfer of \$550,000 on 5 December 2016 from his Australian bank account. Customer 46 had lost a total of \$596,000. Star Qld understood Customer 46's occupation to be in business and investment: SMR dated 12 December 2016.

On 12 December 2016, a Star Qld customer, Person 5, deposited \$160,000 in cash to his FMA. Person 5 immediately transferred the sum to Customer 46. Customer 46 withdrew the funds as chips, played for several hours and left with \$197,000. However, Star Qld had no record of the chips being cashed out. Star Qld noted that Customer 46 appeared to have easy access to large amounts of cash: SMR dated 13 December 2016.

On 12 December 2016, Customer 46 deposited \$250,006 in cash into his FMA at Star Qld.

On 13 December 2016, Star Qld received a telegraphic transfer of \$500,000 for a customer with instructions to provide the funds to Customer 46. Star Qld was advised that the customer was Customer 46's personal assistant. The funds were deposited into Customer 46's FMA. He used them to continue play on an individual rebate program: SMR dated 13 December 2016.

On 14 December 2016, Customer 46 partially settled his individual rebate program. The chips and rebate proceeds totalled \$872,954 and were deposited into his account. Customer 46 withdrew the funds in cash. The balance of the account was \$72,954. Star Qld noted that Customer 46 had been the recipient of large sums of cash via third parties. Star Qld considered the cash to be a large amount to carry on oneself: SMR dated 15 December 2016.

On 13 December 2016, Customer 46's personal assistant deposited \$500,000 in cash into Customer 46's account.

On 15 December 2016, a customer opened an account at Star Qld. Later that day, the customer deposited \$870,000 in cash into his FMA. He was accompanied by another person who Star Qld identified to be Customer 46's personal assistant. Star Qld noted that it was unusual for a walk-in customer to deposit such a large amount. Star Qld was later advised that the new customer was also Customer 46's

personal assistant. Star Qld noted that the cash had been presented by the new customer in the exact same manner as it had originally been handed to Customer 46. The cash was bundled in Star straps with staff signatures and the dates matched the cash provided on 14 December 2016. Star Qld noted that it was unusual that the funds would be deposited when Customer 46 was apparently offsite. Later that day, the new customer transferred the entire balance of \$870,000 to Customer 46 who used it to play: SMR dated 16 December 2016.

On 30 December 2016, Customer 46 deposited chips to his account and then withdrew \$1,500,000 in cash. Star Qld staff had been advised that Customer 46 would use the funds to purchase a house. Star Qld considered that the large amount of cash taken was unusual: SMR dated 4 January 2017.

Large and unusual transactions in 2017

On 4 January 2017, staff at Treasury Brisbane were advised that another player, Person 5, would fund Customer 46 with \$2,000,000 in front money. Star Qld was later informed that Person 5 had experienced issues with his bank, who would not issue the bank cheque. Instead, later that day, one of Customer 46's assistants arrived with two bank cheques worth \$1,000,000 each. The cheques were deposited into the assistant's FMA and then immediately transferred to Customer 46. Customer 46 used the funds to play on an individual rebate program. Later in the night, Customer 46 had another \$1,000,000 transferred from his account at Star Gold Coast to Treasury Brisbane which he used to play: SMR dated 5 January 2017.

On 6 January 2017, Customer 46 deposited an Australian bank cheque for \$2,000,000 into his FMA. Customer 46 transferred another \$1,700,000 from his account at Star Gold Coast to Treasury Brisbane. Customer 46's total front money on the individual rebate program was \$6,700,000. Star Qld noted that Customer 46 had taken two partial settlements totalling \$658,000, and used those funds to play with. By 10 January 2017, Customer 46 had recorded a loss of \$1,867,975. Star Qld noted that there had been a large increase in funds available to Customer 46: SMR dated 10 January 2017.

Between 4 January 2017 and 15 January 2017, Customer 46 had lost around \$3,000,000 of the available \$6,700,000 in his account. By 18 January 2017, Customer 46 had won back approximately \$1,900,000 such that his overall losses were approximately \$1,100,000.

On 18 January 2017, Customer 46 withdrew \$1,000,000 and \$700,000 in cash from his FMA. Customer 46 said that he would return with a new bank cheque in the afternoon. Later that day Customer 46 returned with a bank cheque of \$1,700,000. The cheque was drawn at a Melbourne bank's branch but appeared to have been issued in Brisbane. The funds were deposited into Customer 46's

account and he withdrew \$700,000 in chips: SMR dated 18 January 2017.

On 23 January 2017, Customer 46 withdrew \$161,654 in cash from his FMA at Star Qld.

On 8 February 2017, Customer 46 deposited a bank cheque from an Australian bank for \$3,960,000. Star Qld noted that Customer 46 had been playing at both Treasury Brisbane and Star Gold Coast since December 2016. The last trip had concluded on 24 January 2017 when Customer 46 had lost all of the front money he had provided, totalling \$9,000,000. Customer 46 had withdrawn three substantial amounts of cash from Star Qld which totalled \$3,200,000. Staff at Treasury Brisbane had overheard that on one occasion Customer 46 had taken \$1,700,000 in cash to a bank and deposited it into a safe deposit box. Customer 46 had requested that security staff escort him to the bank. Star Qld noted that Customer 46 had started playing with funds deposited on 8 February 2017. Star Qld noted that Customer 46 was still able to provide substantial amounts of funds despite his recent significant loss: SMR dated 9 February 2017.

On 9 February 2017, Customer 46 presented gaming staff with a cheque for \$3,960,000. He then informed gaming staff at Star Qld that he intended to settle in Australia and was going to purchase a block of land nearby. On 11 February 2017, Customer 46 exchanged \$100,000 in chips for cash. Star Qld noted that there had been very substantial cash transactions made by Customer 46 across both Star Qld casinos: SMR dated 13 February 2017.

On 21 February 2017, Star Qld identified that on 13 February 2017, Customer 46 had deposited another bank cheque for \$2,000,000. Between 1 January 2017 and 21 February 2017, Customer 46 had provided \$12,660,000 in front money and had lost \$6,885,358 at Treasury Brisbane. Between 29 November 2016 and 21 February 2017, Customer 46 had provided \$3,748,299 in funds and lost \$9,328,704 at Star Gold Coast. At the time of reporting, Customer 46 had \$4,435,625 remaining in his FMA at Treasury Brisbane and no funds remaining at Star Gold Coast. Star Qld noted that the difference between the losses and funds provided amounted to incentive and commission payments made, gambled and lost. Star Qld confirmed that Customer 46 was a foreign PEP: SMR dated 21 February 2017.

On 28 February 2017, Customer 46 withdrew the balance of funds in his FMA, totalling \$1,135,625, in cash and left the premises. Star Qld noted that he had not been seen for the past ten days. Star Qld further noted that Customer 46 had lost \$6,333,050 in the month of February alone: SMR dated 28 February 2017.

Large and unusual transactions in 2022

Between 24 September 2022 and 29 September 2022, Customer 46 and another customer, Person 5, were observed conducting the following transactions:

- a. Person 5 presented \$20,000 cash from a bag to purchase chips. Person 5 gave the chips to Customer 46. Star Qld asked for Customer 46's identification. Customer 46 and Person 5 became 'irate' before Customer 46 presented his foreign passport.
 - b. Person 5 made three chip purchases totalling \$85,000. When Person 5 was questioned on the source of funds for one of these transactions, he said the money was from a previous visit to the casino in 2016, but showed reluctance to sign a declaration form.
 - c. Person 5 made multiple chip purchases at multiple tables, in lots of \$2,500 and \$5,000, for a total of \$80,000 in cash. Person 5 then gave the chips to Customer 46 in larger amounts. When Person 5 was asked for identification at a buy-in, Star Qld reported that he acted worried and suspicious, before returning to Customer 46 for discussions and to pass him more chips. Star Qld suspected that Person 5 was attempting to avoid reporting by reducing buy-in amounts to below reporting thresholds.
 - d. Person 5 presented an estimated \$220,000 in cash between 24 and 26 September 2022, with the cash presented for larger buy-ins wrapped in straps with stamp 'soft count Dec 2016', which appeared to be from Star Gold Coast.
 - e. on 29 September 2022, Person 5 presented \$50,000 in cash to purchase chips. The cash was all in \$100 notes and wrapped in \$5,000 bundles, with straps stamped with a date in 2016. Person 5 claimed to have had won the money at Treasury Brisbane in 2016. Person 5 did not play with the chips, instead placing them on a table next to Customer 46, who picked them up and commenced play.
 - f. Star Qld noted that Star Gold Coast's records showed large payments to Customer 46 in 2016 and 2017, but not to the other customer.
 - g. Customer 46 and Person 5 were both issued with a formal warning by Star Qld in respect of these transactions.
- SMRs dated 27 September 2022 and 30 September 2022. Star Qld suspected that Customer 46 was attempting to avoid reporting by having the customer transact on his behalf.

- g. in December 2016, Star Qld provided information in respect of Customer 46 to a law enforcement agency;

Particulars

On 12 and 13 December 2016, Star Qld provided information to a law enforcement agency in respect of Customer 46.

- h. in January 2017, law enforcement advised Star Qld that it considered Customer 46 to be a foreign PEP with possible involvement in corruption;

Particulars

On 16 January 2017, Star Qld were advised that law enforcement considered Customer 46 to be a POI and a foreign PEP with possible involvement in corruption.

On 17 January 2017, Star Qld received a request for information from a law enforcement agency in respect of Customer 46.

- i. Customer 46 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 46 had access to private gaming rooms at Star Qld, including The Club Conrad, the Suite, the Sovereign Room, Pit 8, Pit 9 and Pit 10.

- j. media reports named Customer 46 as a person against whom another Australian casino had launched legal action in respect of an outstanding debt; and

Particulars

In 2014, media reports named Customer 46 as a person against whom another Australian casino had launched legal action in respect of a very large outstanding debt incurred by Customer 46 in a single day of gambling.

It was not until 29 August 2019 that Star Qld became aware of this report.

- k. Star Qld did not have adequate reason to believe that Customer 46's source of wealth or source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 46 at Star Qld.

Particulars

See paragraph 808 above.

Star Qld understood that Customer 46 had business interests in a foreign country and that he was a foreign PEP.

Between 29 November 2016 and 8 February 2017, Customer 46 recorded a very high turnover on individual rebate programs exceeding \$820 million. Customer 46 appeared to have access to significant volumes of Australian currency despite continued high losses. Star Qld was aware that Customer 46 was using funds passed through the casino to purchase property in Australia.

In September 2022, Customer 46 returned to Star Qld with an associate, Person 5. Person 5 appeared to conduct cash to chip transactions on behalf of Customer 46 in a manner which indicated the customers were attempting to avoid reporting thresholds, including by using cash which appeared to have been issued by Star Qld in 2016 and 2017.

While Star Qld understood that Customer 46 had foreign business interests, it did not take steps to verify the source of his funds, and in

particular the source of cash and telegraphic transfers which ultimately benefited him.

Star Qld's determination of the ML/TF risks posed by Customer 46

1592. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 46 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 46.

- a. On and from 30 November 2016, Customer 46 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 46's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 46 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

At no time did Star Qld allocate Customer 46 with a risk rating.

Monitoring of Customer 46's transactions

1593. At no time did Star Qld apply appropriate transaction monitoring to Customer 46's transactions because:

- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 46, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

From February 2017, the Star Qld investigations team conducted ongoing reviews of play history, wins and losses on a daily basis, despite Customer 46 not attending Star Qld after February 2017.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 46 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 46's KYC information

1594. Star Qld did not review, update and verify Customer 46's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 46's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 46's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 46's source of wealth and source of funds were not legitimate: see *Customer 46's risk profile*.

- d. to the extent that Star Qld reviewed Customer 46's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 46.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 46

1595. Star Qld was required to apply the ECDD Programs to Customer 46 following any ECDD triggers in respect of Customer 46. In particular, because Customer 46 was a foreign PEP, Star Qld was required to:

- a. undertake detailed analysis of Customer 46's KYC information including taking reasonable measures to identify the source of Customer 46's wealth and the source of Customer 46's funds; and
- b. seek senior management approval for continuing a business relationship with Customer 46 and whether Star Qld should continue to provide a designated service to Customer 46.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10(2), 15.10(6) and 15.11 of the Rules.

1596. Customer 46:

- a. at all times was a foreign PEP; and

Particulars

See *Customer 46's risk profile*.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 2 December 2016 and 30 September 2022, Star Qld gave the AUSTRAC CEO 16 SMRs with respect to Customer 46.

- 1597. Each matter pleaded in paragraph 1596 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

- 1598. It was not until 19 February 2017 that Star Qld identified that Customer 46 was a foreign PEP.

- 1599. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 46 following the ECDD triggers:

- a. on each occasion that Star Qld conducted ECDD in respect of Customer 46 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 46, the provision of designated services to Customer 46 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite. In particular, Star Qld failed to monitor Customer 46 as a foreign PEP because:
 - i. Star Qld's analysis of Customer 46's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 46;
 - ii. Star Qld's analysis of Customer 46's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 46;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 105, 797, 800, 807 and 810 above.

On 17 October 2019, 30 November 2020 and 20 August 2021, Star Qld conducted ECDD in respect of Customer 46, but did not have appropriate regard to his higher ML/TF risks: see *Customer 46's risk profile* above.

On 17 October 2019 and 30 November 2020, the ECDD screening in respect of Customer 46 confirmed that Customer 46 was a foreign PEP.

On 20 August 2021, the ECDD screening in respect of Customer 46 identified that:

- a. Customer 46 was an inactive foreign PEP;
- b. Customer 46 had substantial business holdings in a foreign country; and

- c. no other adverse information was available in respect of Customer 46.

Star Qld understood that Customer 46 had business interests in a foreign country and that he was a foreign PEP.

Between 29 November 2016 and 8 February 2017, Customer 46 recorded a very high turnover on individual rebate programs exceeding \$820 million. Customer 46 appeared to have access to significant volumes of Australian currency despite continued high losses. Star Qld was aware that Customer 46 was using funds passed through the casino to purchase property in Australia. While Star Qld understood that Customer 46 had foreign business interests, it did not take steps to verify the source of his funds, and in particular the source of cash and telegraphic transfers which ultimately benefited him.

The ECDD conducted by Star Qld did not have appropriate regard to their higher ML/TF risks: see *Customer 46's risk profile*.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 46's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 46's source of wealth and source of funds were not legitimate: see *Customer 46's risk profile*.

- iii. Customer 46 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- iv. any senior management approval regarding Customer 46 failed to give appropriate consideration to the ML/TF risks posed by Customer 46 and the provision of designated services to Customer 46 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

On 21 August 2021, following an ECDD screening, the Due Diligence Program Manager determined to maintain a business relationship with Customer 46.

The Due Diligence Program Manager noted that Customer 46 was an inactive foreign PEP in respect of whom a number of SMRs had been submitted.

In determining that a business relationship could be continued, the Due Diligence Program Manager did not have regard to:

- a. Customer 46's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high turnover and access to large amounts of cash;
- b. Customer 46's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting high ML/TF risks as to their source of funds as a result of their status as a foreign PEP: see *Customer 46's risk profile* above.

Contravention of s36 of the Act in respect of Customer 46

1600. By reason of the matters pleaded from paragraphs 1588 to 1599 above, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 46 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1601. By reason of the matters pleaded at paragraph 1600, Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 46.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 47

1602. Customer 47 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$6 million for Customer 47.

Particulars

Customer 47 was a customer of Star Sydney from at least 22 August 1998.

On 22 December 2021, Star Sydney issued a WOL in respect of Customer 47.

1603. Star Sydney provided Customer 47 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 11 November 2008, Star Sydney opened an FMA and SKA for Customer 47 which were closed on 14 November 2008 (item 11, table 3, s6 of the Act).

Between 2016 and 2021, Star Sydney recorded individual rated turnover exceeding \$6 million for Customer 47 (table 3, s6 service).

See *Customer 47's risk profile* below.

1604. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 47.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 47's risk profile

1605. On and from 30 November 2016, Customer 47, and the provision of designated services to Customer 47 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 47's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 47 had the following risk history:
- i. Customer 47 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 31 May 2013 and 27 July 2016, Star Sydney gave the AUSTRAC CEO nine TTRs totalling \$164,110 in chip exchanges.

On 22 March 2014, Customer 47 purchased \$9,900 in chips.

- ii. in October 2015, media reported named Customer 47 as a person wanted by an international law enforcement agency;

Particulars

In October 2015, media reported named Customer 47 as a person wanted by an international law enforcement agency for embezzling millions of dollars from an overseas company.

The media report identified that Customer 47 ran a café in Sydney.

- iii. Star Sydney was aware that, in June 2016, Star Qld had contacted a law enforcement agency to alert them to an upcoming flight that it had booked for Customer 47. Star Qld was informed that Customer 47 had been met by police, arrested and released on bail; and
- iv. by July 2016, Star Sydney was aware that Customer 47 was the subject of an active arrest warrant in Australia and from an international law enforcement agency;

Particulars

In July 2016, Customer 47 was discussed at a JRAMM. The minutes of the meeting noted that:

- a. Customer 47 had been identified as having active arrest warrants in Australia and overseas;
- b. Customer 47 had been arrested at an Australian airport on fraud charges;

- c. Customer 47 had returned to Star Qld following his release on bail; and
- d. Customer 47's risk rating would be raised to critical as a result.

Customer 47's risk profile from 30 November 2016

- b. Customer 47 received high value gaming services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2021, Star Sydney recorded high individual rated turnover totalling \$6,583,311 for Customer 47;

Particulars

See paragraph 752 above.

In 2016, Customer 47's individual rated turnover was \$2,180,205.

In 2017, Customer 47's individual rated turnover was \$2,065,755.

In 2018, Customer 47's individual rated turnover was \$438,674.

In 2019, Customer 47's individual rated turnover was \$23,239.

From 2020, when COVID-19 pandemic closures commenced, Customer 47's turnover remained high.

In 2020, Customer 47's individual rated turnover was \$106,642.

In 2021, Customer 47's individual rated turnover escalated to \$1,768,795.

- c. Customer 47 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

On 21 February 2017 and 7 March 2017, Star Sydney gave the AUSTRAC CEO a TTR reporting \$10,000 in chip exchanges.

- d. Customer 47 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 47 had access to private gaming rooms at Star Sydney, including Lakes Salons, Oasis, Chairman's and the Sovereign Room.

- e. by 2019, Star Sydney was aware that Customer 47 was wanted by an international law enforcement agency for alleged corruption;

Particulars

In October 2019, a risk intelligence search of Customer 47 returned that:

- a. in 1998, Customer 47 fled from a foreign country, possibly to Australia;

- b. in 2001, Customer 47 was reportedly investigated by a foreign country for alleged corruption and misappropriation of public funds; and
- c. in 2015, Customer 47 was wanted by an international law enforcement agency for alleged corruption.
- f. in March 2017, media reports named Customer 47 as a person targeted by a foreign country for corruption; and

Particulars

In March 2017, media reports named Customer 47 as a 'fugitive' living in Australia who was wanted by a foreign country on allegations of corruption.

Star Sydney was aware of these reports by at least September 2021.

- g. Star Sydney did not have adequate reason to believe that Customer 47's source of wealth or source of funds was sufficient to explain the high value gaming services (table 3, s6 of the Act) received by Customer 47 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 47 was a chef.

Between 2016 and 2021, Star Sydney recorded high and escalating individual rated turnover exceeding \$6.5 million for Customer 47. At no point was Customer 47's stated source of wealth commensurate with the high value designated services provided to him by Star Sydney.

By 30 November 2016, Star Sydney was aware that Customer 47 was wanted by an international law enforcement agency in connection with allegations of serious financial crime. This presented real ML/TF risks in respect of Customer 47's source of funds.

Star Sydney's determination of the ML/TF risks posed by Customer 47

- 1606. On and from 27 May 2016, Customer 47 was rated by Star Sydney as a high risk customer for the purpose of the Act and Rules.

Particulars

On 14 May 2015 and 27 May 2016, Customer 47 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 47 was rated very high risk, being high risk for the purpose of the Act and Rules.

- 1607. Nevertheless, for the reasons pleaded below, Star Sydney failed to monitor the high ML/TF risks posed by Customer 47 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by it with respect to Customer 47.

Monitoring of Customer 47's transactions

1608. At no time did Star Sydney apply appropriate transaction monitoring to Customer 47's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 47, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney provided designated services to Customer 47 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 47's KYC information

1609. Star Sydney did not review, update and verify Customer 47's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 47's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 47's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 47's source of wealth and source of funds were not legitimate: see *Customer 47's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 47's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 47.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 47

1610. Star Sydney was required to apply the ECDD Programs to Customer 47 following any ECDD triggers in respect of Customer 47.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and 15.10 of the Rules

1611. Customer 47 was determined to be high risk for the purpose of the Act and Rules by 30 November 2016 by Star Sydney.

Particulars

On 27 May 2016, Star Sydney determined that the ML/TF risks posed by Customer 47 was high risk for the purpose of the Act and Rules:
see Star Sydney's determination of the ML/TF risks posed by Customer 47 above.

1612. The matter pleaded in paragraph 1611 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

1613. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 47 following an ECDD trigger because:

- a. on each occasion prior to 22 December 2021 that Star Sydney conducted ECDD in respect of Customer 47 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 47 and the provision of designated services to Customer 47 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10, 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 to 810 above.

On 21 October 2019 and 28 September 2020, Star Sydney conducted ECDD in respect of Customer 47.

On 21 October 2019, the ECDD screening in respect of Customer 47 identified that there was adverse media in respect of Customer 47 and that he would be escalated to the AML/CTF Compliance Officer. There is no evidence that this escalation occurred.

On 28 September 2020, the ECDD screening in respect of Customer 47 identified that there was adverse media in respect of Customer 47 and that he had been removed from an international watchlist.

Star Sydney understood that Customer 47 was a chef. Between 2016 and 2021, Star Sydney recorded high and escalating individual rated turnover exceeding \$6.5 million for Customer 47. At no point was Customer 47's stated source of wealth commensurate with the high value designated services provided to him by Star Sydney.

By 30 November 2016, Star Sydney was aware that Customer 47 was wanted by an international law enforcement agency in connection with allegations of serious financial crime. This presented real ML/TF risks in respect of Customer 47's source of funds which Star Sydney did not address.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 47's higher ML/TF risks: see *Customer 47's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 47's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 47's source of wealth and source of funds were not legitimate: see *Customer 47's risk profile*.

However, it was not until 22 December 2021 that Star Sydney issued a WOL in respect of Customer 47.

- b. Customer 47 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to September 2021 that Customer 47 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 47 and the provision of designated services to Customer 47 by Star Sydney, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 17 September 2021, the Due Diligence Program Manager escalated Customer 47 to the AML/CTF Compliance Officer and recommended a WOL be issued in respect of him. The Due Diligence Program Manager:

- a. identified that Customer 47 had been the subject of an international arrest warrant in respect of charges of embezzlement in a foreign country; and

- b. took cognisance of the fact that Customer 47 was implicated in serious financial crime related matters.

On 25 October 2021, the AML/CTF Compliance Officer determined to cease the business relationship with Customer 47.

On 22 December 2021, Star Sydney issued a WOL in respect of Customer 47.

Contravention of s36 of the Act in respect of Customer 47

1614. By reason of the matters pleaded from paragraphs 1602 to 1613 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 47 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1615. By reason of the matters pleaded at paragraph 1614, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 22 December 2021 with respect to Customer 47.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 48

1616. Customer 48 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$1.1 billion for Customer 48.

Particulars

Customer 48 was a customer of Star Sydney from at least May 2005.

1617. Star Sydney provided Customer 48 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 48 which were closed on 17 February 2020 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 48 remitted funds from his FMA to his bank account (items 31 and 32, table 1, s6 of the Act).

See *Customer 48's risk profile* below.

1618. Customer 48 was a customer of Star Qld during the relevant period. In 2018, Star Qld recorded turnover exceeding \$350,000 for Customer 48.

Particulars

Customer 48 was a customer of Star Qld from at least 2013.

1619. Star Qld provided Customer 48 with designated services within the meaning of tables 1 and 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

In 2018, Star Qld provided Customer 48 with gaming services (table 3, s6 of the Act).

While a customer of Star Qld, Customer 48 remitted funds from his FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 48's risk profile below.

1620. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 48.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 48's risk profile

1621. On and from 30 November 2016, Customer 48, and the provision of designated services to Customer 48 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 48's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 48 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 48;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 8 November 2007.

The SMR reported that Customer 48 had engaged in a transaction indicative of the ML/TF typology of structuring: see paragraph 1621.a.vi below.

- ii. between 2015 and 2016, Customer 48 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 5 July 2015 and 10 October 2016, Customer 48 was a player on seven junkets at Star Sydney operated by one junket operator.

Between 5 July 2015 and 10 October 2016, Star Sydney recorded high turnover totalling \$778,971,960 with wins of \$18,243,475 for Customer 48's gaming activity on junket programs.

All of the junkets were funded by a person other than the junket operator.

- iii. Customer 48 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded individual rated turnover totalling \$737,444 for Customer 48;
- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 48 by remitting large amounts of money out of the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327 above.

For example, on 3 December 2015, Star Sydney sent a telegraphic transfer of \$1,540,784 from Customer 48's account to an Australian bank account.

This transaction was conducted through the Star Patron account channel.

- v. Customer 48 transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

Between 22 December 2008 and 6 July 2016, Star Sydney gave the AUSTRAC CEO 231 TTRs in respect of Customer 48 totalling \$12,984,869, which were comprised of:

- a. 220 outgoing TTRs totalling \$11,993,569;
 - b. 11 incoming TTRs totalling \$991,300;
 - c. \$9,679,531 in chip or cash exchanges;
 - d. \$3,189,653 in account deposits or withdrawals; and
 - e. \$26,041 in EGM payouts.
- vi. Customer 48 engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Sydney, including structuring;

Particulars

See paragraph 25 above.

On 8 November 2007, Customer 48 sought to exchange \$9,500 cash for gaming chips at Star Sydney. Star Sydney noted the transaction was suspicious as the transaction amount was just below the reporting threshold: SMR dated 9 November 2007.

Customer 48's risk profile from 30 November 2016

- b. Customer 48 was a foreign PEP;

Particulars

See paragraph 115 above.

During the relevant period, Customer 48 was an immediate relative of a member of a foreign national government.

On 20 October 2017, Star Sydney and Star Qld became aware that Customer 48 was a foreign PEP.

- c. Customer 48 was a junket player who received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
- i. between 2016 and 2020, Customer 48 was a player on 23 junkets at Star Sydney operated by two junket operators, including a corporate junket operator, Company 6; and

Particulars

In 2016, 2017 and 2020, Customer 48 was one of the top ten junket players who had the highest turnover at Star Sydney.

- ii. between 2016 and 2020, Star Sydney recorded high and escalating turnover totalling \$1,108,348,150 with losses of \$7,496,750 for Customer 48's gaming activity on junket programs;

Particulars

In 2016, Customer 48's turnover on junket programs was \$23,602,800 with losses of \$1,986,250.

In 2017, Customer 48's turnover on junket programs escalated to \$379,899,000 with losses of \$1,432,200.

In 2018, Customer 48's turnover on junket programs was \$125,147,880 with losses of \$5,188,450.

In 2019, Customer 48's turnover on junket programs was \$134,058,600 with wins of \$5,211,850.

Between January 2020 and March 2020, Customer 48's turnover on junket programs escalated to \$218,149,100 with losses of \$9,439,100.

- d. Customer 48 was a junket player who received high value gaming services (table 3, s6) at Star Qld through junket programs;
- i. in 2018, Customer 48 was a player on two junkets at Star Qld operated by one junket operator, Company 6; and
- ii. in 2018, Star Qld recorded high turnover totalling \$353,600 with losses of \$4,996,900 for Customer 48's gaming activity on junket programs;
- e. designated services provided to Customer 48 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 48 was connected to other customers at Star Sydney, including players who posed higher ML/TF risks such as Customer 79;

Particulars

See paragraph 1621.o.

- g. Customer 48 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded turnover totalling \$26,358 for Customer 48;

Particulars

See paragraph 752 above.

In 2016, Customer 48's individual rated turnover was \$5,974.

In 2018, Customer 48's individual rated turnover was \$7,496.

In 2019, Customer 48's individual rated turnover was \$12,888.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 48 by remitting large amounts of money out of the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327 above.

See paragraph 1621.i below.

Between 10 January 2017 and 9 January 2020, Star Sydney sent five telegraphic transfers totalling \$8,960,786 from Customer 48's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- i. Customer 48 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose at Star Sydney;

Particulars

On 27 December 2018, a bank cheque for \$3,000,000 was presented for deposit into a junket operator's FMA. The proceeds of the cheque were used to buy into a junket program and allocated to Customer 48, a player on the program, however, Star Sydney was not aware if the bank cheque had been issued to Customer 48 with funds from Customer 48's account. Customer 48 recorded a turnover of \$34,633,700 with a loss of \$1,744,000 on the program.

Following the conclusion of the junket program, a junket representative instructed Star Sydney to transfer \$3,000,000 from the junket operator's account to Customer 48's Australian bank account,

which Star Sydney did, despite Customer 48 recording a loss on the program of \$1,744,000: SMR dated 8 January 2019.

- j. Customer 48 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraph 337 and 338 above.

On 13 July 2019 and 11 October 2019, Star Sydney issued a letter of comfort purportedly confirming Customer 48's winnings totalling \$4,795,050.

- k. in 2016 and 2017, Customer 48 was the subject of law enforcement enquiries at Star;

Particulars

On 23 December 2016, Star Qld received a request from a law enforcement agency seeking details in respect of Customer 48, which Star Qld provided.

On 13 February 2017, Star Sydney received a request from a law enforcement agency seeking details in respect of Customer 48, which Star Sydney provided.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Sydney and Star Qld had access to the investigations database: see paragraph 49 above.

- l. Customer 48 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616.

Customer 48 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Rivers Salons, Lakes Salons, Springs Salons and Jade.

- m. Customer 48 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616.

Customer 48 had access to private gaming rooms at Star Qld, including Salon 98, Salon 69 and Pit 8.

- n. by 30 November 2016, Star was aware of media articles which reported of allegations that Customer 48 was involved in bribery;

Particulars

By 30 January 2015, Star was aware that publicly accessible media articles between March 2001 to August 2007 reported that Customer was alleged to be involved in multiple instances of bribery.

- o. between April 2010 and April 2017, media reports named Customer 48 as a high value individual whose source of wealth and source of funds was unknown; and

Particulars

In April 2010, publicly accessible media articles reported that Customer 48:

- a. was a businessperson in the resources industry;
- b. was an immediate relative of a member of a foreign political body; and
- c. had purchased a large and very high value property in Sydney.

In October 2010, publicly accessible media articles reported that:

- a. it was not possible to determine Customer 48's source of wealth or source of funds;
- b. Customer 48's wife had significant business interests; and
- c. both Customer 48 and his spouse were associated with Customer 79.

In June 2015, publicly accessible media articles reported that Customer 48:

- a. had used his influence to support Customer 79 in gaining development permits; and
- b. was connected to financial irregularities in a foreign country.

In February and April 2017, publicly accessible media articles reported that Customer 48:

- a. was involved in a controversial privatisation of a foreign state-owned business; and
- b. Customer 48, together with a business partner, had purchased the business for significantly less than its market valuation.

Star's due diligence records did not contain details of these reports.

- p. Star Sydney and Star Qld did not have adequate reason to believe that Customer 48's source of wealth and source of funds was sufficient to explain the high value financial and gaming services (tables 1 and 3, s6 of the Act) received by Customer 48 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

During the relevant period, Star Sydney and Star Qld recorded Customer 48's occupation to be as a junket representative.

From 30 November 2016, Customer 48's turnover was not consistent with Star's understanding of his source of wealth.

By 2017, Customer 48's turnover had escalated significantly at the same time that Star Sydney and Star Qld had identified that Customer 48 was a foreign PEP.

Between January and March 2020, Customer 48's turnover on junket programs escalated significantly.

Publicly accessible media reports since 2010 identified Customer 48 as a high value individual with connections to a member of a foreign political body, whose source of wealth and source of funds was unknown, but Star's due diligence records did not contain details of these reports.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 48

1622. On and from 30 January 2015, Customer 48 was recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

On 30 January 2015, Star Sydney and Star Qld determined that Customer 48's ML/TF risk was critical, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Star Sydney and Star Qld determined that Customer 48's ML/TF risk was very high, being high risk for the purpose of the Act and Rules.

1623. Nevertheless, for the reasons pleaded below, Star Sydney and Star Qld failed to monitor the high ML/TF risks posed by Customer 48 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by them with respect to Customer 48.

Monitoring of Customer 48's transactions

1624. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 48's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 48, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 48 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel;

Particulars

See paragraph 783 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 48 through the junket channel; and

Particulars

See paragraph 783 above.

- e. Star Qld provided designated services to Customer 48 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 48's KYC information

- 1625. Star Sydney and Star Qld did not review, update and verify Customer 48's KYC information, having regard to the high ML/TF risks posed by Customer 48, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney or Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rules 15.2 to 15.3 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 48's business with it, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;

- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 48's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 48's source of wealth and source of funds were not legitimate: see *Customer 48's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 48's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 48.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rules 15.2 to 15.3 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 48

1626. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 48 following any ECDD triggers in respect of Customer 48. In particular, because Customer 48 was a foreign PEP, Star Sydney and Star Qld were required to:
- a. undertake detailed analysis of Customer 48's KYC information including taking reasonable measures to identify the source of Customer 48's wealth and the source of Customer 48's funds; and
 - b. seek senior management approval for continuing a business relationship with Customer 48 and whether Star Sydney and Star Qld should continue to provide a designated service to Customer 48.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(2), 15.9(3), 15.10, 15.10(2), 15.10(6) and 15.11 of the Rules.

1627. Customer 48:

- a. at all times from 30 November 2016 was a foreign PEP;

Particulars

See *Customer 48's risk profile* above.

- b. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 8 January 2019, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 48.

- c. was determined to be high risk for the purpose of the Act and Rules prior to the relevant period by Star Sydney and Star Qld.

Particulars

On 30 January 2015, Star Sydney and Star Qld determined that Customer 48 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 48* above.

1628. Each matter pleaded in paragraph 1627 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1629. It was not until 20 October 2017 that Star Sydney and Star Qld identified that Customer 48 was a foreign PEP.

1630. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 48 following an ECDD trigger:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 48 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 48, the provision of designated services to Customer 48 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite because:
- i. Star Sydney's and Star Qld's analysis of Customer 48's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 48;
 - ii. Star Sydney's and Star Qld's analysis of Customer 48's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 48; and

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 1 July 2016, 28 September 2019, 11 November 2019 and 8 October 2020, Star Sydney and Star Qld conducted ECDD in respect of Customer 48, but did not have appropriate regard to his higher ML/TF risks: see *Customer 48's risk profile*.

Each of the ECDD screenings in respect of Customer 48 included information suggesting that he was a foreign PEP. Star Sydney and Star Qld did not record that Customer 48 was a foreign PEP until 20 October 2017.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to his higher ML/TF risks: see *Customer 48's risk profile*.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 48's source of funds or source of wealth.

- iii. Customer 48 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 817 above.

- iv. any senior management approval regarding Customer 48 failed to give appropriate consideration to the ML/TF risks posed by Customer 48, the provision of designated services to Customer 48 by Star Sydney and Star Qld, and whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

On 11 December 2018, the Chief Risk Officer and General Manager Risk were alerted to Customer 48's anticipated arrival with a junket program in mid-December 2018. Advice was sought from the Chief Risk Officer and General Manager Risk in respect of any actions to take in respect of Customer 48's arrival.

Between January 2019 and February 2019, Customer 48 was discussed at JRMM and PAMMs.

The minutes of the meetings noted that:

- a. Customer 48's occupation was unknown;
- b. Customer 48 was a foreign PEP; and
- c. Customer 48 had been raised for consideration due to unspecified 'historic issues'.

On 8 January 2019, the General Manager Compliance and Responsible Gambling and the Chief Risk Officer determined to continue a business relationship with Customer 48 having considered that:

- a. they had previously been advised that Star could continue a business relationship with Customer 48 in the absence of an arrest or charge in a foreign country; and
- b. current searches suggested that Star was still within the scope of that advice.

In determining that a business relationship could be continued, no regard was had to:

- a. Customer 48's source of wealth (r15.10(2)(a) of the Rules), having regard to his turnover; and
- b. Customer 48's source of funds, having regard to the publicly available information suggesting that there were higher

ML/TF risks as to his source of funds: see *Customer 48's risk profile*.

Contravention of s36 of the Act in respect of Customer 48

1631. By reason of the matters pleaded from paragraphs 1616 to 1630 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 48 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1632. By reason of the matters pleaded at paragraph 1631, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 48.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 49

1633. Customer 49 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$140 million for Customer 49.

Particulars

Customer 49 was a customer of Star Sydney from at least 6 June 2008.

On 11 November 2021, Star Sydney issued a WOL in respect of Customer 49.

1634. Star Sydney provided Customer 49 with designated services within the meaning of table 1 and 3, s6 of the Act during the relevant period, including services as a junket representative.

Particulars

On 12 May 2013, Star Sydney opened an FMA and SKA for Customer 49 which were closed on 4 February 2022 (item 11, table 3, s6 of the Act).

While a junket representative for Customer 8, Customer 49 instructed remittances of funds to be made from Customer 49's account and accepted funds remitted to Customer 49's account (items 31 and 32, table 1, s6 of the Act).

See *Customer 49's risk profile* below.

1635. Customer 49 was a customer of Star Qld during the relevant period. Between 2018 and 2019, Star Qld recorded turnover exceeding \$30,000 for Customer 49.

Particulars

Customer 49 was a customer of Star Qld from at least 11 December 2013.

1636. Star Qld provided Customer 49 with designated services within the meaning of table 3, s6 of the Act during the relevant period, including services as a junket representative.

Particulars

On 22 April 2013, 10 December 2013 and 11 August 2018 Star Qld opened FMAs for Customer 49, which were closed on 4 February 2022 (item 11, table 3, s6 of the Act).

See *Customer 49's risk profile* below.

1637. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 49.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 49's risk profile

1638. On and from 30 November 2016 Customer 49, and the provision of designated services to Customer 49 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 49's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 49 had the following risk history:
- i. Customer 49 was connected to other customers at Star Sydney, including junket operators in respect of whom Star Sydney had formed suspicions such as Customer 7 and Customer 8;

Particulars

Between 1 April 2016 and 30 November 2016, Customer 49 was a representative for eight junkets operated by Customer 8 at Star Sydney.

Between 22 July 2015 and 30 November 2016, Customer 49 was a representative for 12 junkets operated by Customer 7 at Star Sydney.

- ii. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 49;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 40 occasions between 28 May 2013 and 29 November 2016.

The SMRs reported that, by 30 November 2016, Customer 49 engaged in many large and suspicious cash transactions at Star Sydney, often in quick succession, and often on the same or

following days. These transactions amounted to at least 61 transactions with a total value exceeding \$10,400,000.

At Star Sydney, Customer 49 presented cash that was:

- a. mostly comprised of \$50 notes;
- b. bundled in elastic bands;
- c. contained in different types of bags, including plastic bags and shopping bags; and/or
- d. sourced from activity on junkets for which she was a representative, or from other Star Sydney customers.

The transactions where Customer 49 received cash or chips from Star Sydney included transactions where:

- a. Cash was subsequently placed into different types of bags, including paper bags and handbags;
- b. Customer 49 engaged in minimal or no gaming activity after the transaction;
- c. Star Sydney considered that the transactions were not supported by Customer 49's gaming activity, or the gaming activity of the junkets that she represented;
- d. Customer 49 subsequently handed the cash to a person who was unknown to Star Sydney, or to a person who was not a player on the junkets she represented; and/or
- e. Customer 49 departed Star Sydney in a range of different vehicles immediately after the transaction.

The SMRs reported a number of suspicious transactions.

- a. Between 24 May 2013 and 28 November 2016, Customer 49 withdrew a total of \$5,460,660 in cash from Customer 7's account at Star Sydney, on 26 separate occasions: SMRs dated 28 May 2013; 9 October 2013; 3 February 2014; 6 February 2014; 6 February 2014; 11 February 2014; 12 February 2014; 14 February 2014; 18 February 2014; 16 July 2014; 14 October 2014; 14 October 2014; 19 February 2015; 25 February 2015; 17 June 2015; 17 June 2015; 24 July 2015; 6 August 2015; 10 August 2015; 7 September 2015; 19 February 2016; 29 February 2016; 29 February 2016; 27 October 2016; 29 November 2016.
- b. Between 6 February 2014 and 10 October 2016, Customer 49 deposited a total of \$1,560,000 in cash into Customer 7's account at Star Sydney, on eight separate occasions: SMRs dated 7 February 2014, 14 October 2014, 1 June 2015, 24 July 2015, 28 July 2015, 21 September 2015, 8 February 2016.

- c. Between 6 February 2014 and 7 February 2016, Customer 49 exchanged a total of \$583,200 of chips for cash in her capacity as a representative for Customer 7's junket at Star Sydney, on four separate occasions: SMRs dated 7 February 2014, 11 February 2014, 29 May 2015, 8 February 2016.
 - d. On 22 February 2015, Customer 49 exchanged \$108,000 in cash for chips in her capacity as a representative for Customer 7's junket at Star Sydney: SMR dated 25 February 2015.
 - e. Between 25 November 2016 and 28 November 2016, Customer 49 withdrew a total of \$350,000 in cash from Customer 8's account at Star Sydney, on two separate occasions: SMRs dated 29 November 2016.
- iii. in 2015, Customer 49 received high value financial and gaming services (table 1 and 3, s6 of the Act) at Star Sydney. In 2015, Star Sydney recorded high individual rated turnover totalling \$10,248,930;

Particulars

See paragraph 752.

- iv. designated services provided to Customer 49 included EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

On 26 July 2013, Star Sydney gave the AUSTRAC CEO one TTR detailing EGM payouts to Customer 49 totalling \$10,281.

- v. Customer 49, and persons associated with the junkets for which she was a representative, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

TTRs

Between 18 June 2016 and 29 November 2016, Star Sydney gave the AUSTRAC CEO 271 TTRs involving Customer 49 totalling \$12,109,915, including:

- a. 208 TTRs detailing chip and cash exchanges, totalling \$6,582,490; and
- b. 62 TTRs detailing account deposits or account withdrawals, totalling \$5,527,425.

Large cash transactions in 2014

On 13 June 2014, Customer 49 withdrew \$100,000 in cash from her personal FMA at Star Sydney: SMR dated 17 June 2014.

On 8 September 2014, Customer 49 exchanged \$100,000 in chips for cash at Star Sydney. Customer 49 then handed the cash to another customer, who exchanged \$100,000 and \$60,000 in chips for cash in two transactions occurring within 15 minutes: SMR dated 9 September 2014.

Large cash transactions in 2015

On 14 August 2015, Customer 49 transferred \$100,000 from Customer 7's account to her personal FMA at Star Sydney. Customer 49 then withdrew these funds in cash from her account: SMR dated 17 August 2015.

Large cash transactions in 2016

Between 26 January 2016 and 13 September 2016, Customer 49 exchanged a total of \$1,000,000 of cash for chips at Star Sydney, on 10 separate occasions, and on each occasion exchanged \$100,000 of cash for chips: SMRs dated 28 January 2016; 20 July 2016; 21 July 2016; 25 July 2016; 10 August 2016; 16 August 2016; 1 September 2016; 2 September 2016; 12 September 2016; 14 September 2016.

On 19 February 2016, Customer 49 accessed Customer 7's safe deposit box at Star Sydney and withdrew \$420,000 in cash. The cash was comprised of \$50 notes. Customer 49 then requested that Star Sydney exchange the \$50 notes for \$100 notes: SMR dated 19 February 2016.

Between 24 May 2016 and 25 May 2016, Star Sydney's internal records noted that Customer 49 exchanged \$200,000 in cash for chips at Star Sydney, on two separate occasions, and on each occasion exchanged \$100,000 in cash for chips.

Between 15 September 2016 and 25 November 2016, Customer 49 exchanged \$300,000 in chips for cash at Star Sydney on three separate occasions, and on each occasion exchanged \$100,000 in chips for cash: SMR dated 16 September 2016; 17 November 2016; 29 November 2016.

On 14 October 2016, a Star Sydney customer transferred \$460,000 from a junket account to her own account at Star Sydney. The customer then withdrew \$460,000 in chips from her account and handed at least two gaming plaques worth \$100,000 each to Customer 49. Shortly after this transaction, Customer 49 exchanged these plaques for cash and placed the cash into a black bag: SMR dated 17 October 2016.

On 23 November 2016, Customer 49 exchanged \$115,000 in chips for cash at Star Sydney. Customer 49 obtained \$100,000 of the chips from another Star Sydney customer and the remaining \$15,000 in chips were from Customer 8's junket. After this transaction, Customer 49 was observed handing \$100,000 in cash to an unknown person: SMR dated 24 November 2016.

- vi. Customer 49, and persons associated with the junkets that she represented, engaged in transactions indicative of ML/TF typologies and vulnerabilities, including refining and cashing-in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

For example, on 19 February 2016, Customer 49 engaged in a transaction indicative of refining. Customer 49 withdrew \$420,000 in \$50 notes from the Customer 7 junket account at Star Sydney and requested that Star Sydney exchange these notes for \$100 notes: SMR dated 19 February 2016.

Between 19 July 2016 and 13 September 2016, Customer 49 exchanged chips for cash at Star Sydney in circumstances where Star Sydney noted that she had recorded no or only minimal play. These transactions consisted of eight transactions of \$100,000 each, totalling \$800,000: SMR dated 20 July 2016; 21 July 2016; 10 August 2016; 16 August 2016; 1 September 2016; 2 September 2016; 12 September 2016; 14 September 2016.

- vii. in 2016, Customer 49 was the subject of law enforcement queries on two occasions at Star Sydney; and

Particulars

On 27 May 2016, Star Sydney received a request from a law enforcement agency in respect of Customer 49.

On 29 July 2016, Star Sydney received a request from a law enforcement agency in respect of Customer 49.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- viii. in 2015, Star Sydney requested information from law enforcement agencies on one occasion in respect of Customer 49;

Particulars

On 7 September 2015, Star Sydney's investigations team requested information from law enforcement regarding Customer 49.

Customer 49's risk profile from 30 November 2016

- b. designated services provided to junket operators and junket players through Customer 49 in her capacity as a junket representative lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- c. Customer 49 was connected to other customers at Star Sydney and Star Qld, including junket operators in respect of whom Star Sydney and Star Qld had formed suspicions such as Customer 7 and Customer 8;

Particulars

Between 1 December 2016 and 20 March 2020, Customer 49 was a representative for 38 junkets operated by Customer 7 at Star Sydney.

Between 1 December 2016 and 17 August 2020, Customer 49 was a representative for 39 junkets operated by Customer 8 at Star Sydney.

Between 10 August 2018 and 20 January 2019, Customer 49 was a representative for two junkets operated by Customer 8 at Star Qld.

In her capacity as a junket representative for the Customer 7 junket, Customer 49 facilitated the transfer of funds to Customer 59 at Star Sydney, who was a player on junkets operated by Customer 7.

- d. Customer 49 received high value financial and gaming services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2021, Star Sydney recorded high individual rated turnover totalling \$145,719,807;

Particulars

See paragraph 752 above.

In 2016, Customer 49's individual rated turnover was \$23,975,611.

In 2017, Customer 49's individual rated gaming turnover escalated to \$43,195,685.

In 2018, Customer 49's individual rated gaming turnover was \$33,209,937.

In 2019, Customer 49's individual rated gaming turnover was \$26,084,192.

In 2020, Customer 49's individual rated gaming turnover was \$16,489,714.

In 2021, Customer 49's individual rated gaming turnover was \$2,764,667.

- e. Customer 49 received high value gaming services (table 3, s6 of the Act) at Star Qld other than through junket programs. Between 2018 and 2019, Star Qld recorded individual rated turnover totalling \$30,570 for Customer 49;

Particulars

In 2018, Customer 49's individual rated turnover was \$13,907.

In 2019, Customer 49's individual rated gaming turnover of \$16,663.

- f. in 2018, Star Sydney recorded a cumulative turnover of \$114,478 for Customer 49 as a junket player on junkets operated by Customer 8, despite Customer 49 not a junket player on those particular junkets;

Particulars

See paragraph 670 above.

- g. Customer 49, in her capacity as a junket representative for numerous junkets, including junkets operated by Customer 7 and Customer 8, engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 20 November 2017, Customer 49 presented \$90,000 in chips at a Star Sydney cashier and deposited the chips into Customer 7's account. Customer 49 then immediately withdrew the funds in cash and requested Star Sydney to deposit the cash into Customer 59's Star Sydney account. Customer 59 was a player on Customer 7's junket. She had recorded winnings of \$494,275 and turnover of \$1,663,900. However, Star Sydney noted that Customer 59 was not due to settle with the Customer 7 junket until 29 November 2017 and advised Customer 49 that it could not conduct this transaction without an authority. Customer 49 then departed the cashier.

Later in the afternoon, Customer 49 returned with Customer 59 to the Star Sydney cashier. Customer 49 requested that the \$90,000 in cash be deposited into Customer 59's Star Sydney account.

Customer 49 also deposited a further \$310,000 in chips into Customer 7's account, then withdrew these funds and immediately transferred the funds to Customer 59's Star Sydney account.

Immediately after this transaction, Customer 59 requested that \$300,000 be transferred to her personal bank account: SMR dated 21 November 2017.

On 22 August 2019, a Star Sydney customer, Person 33, presented \$75,000 in plaques at Star Sydney. Person 33 was accompanied by Customer 49 who requested the plaques to be deposited into the Customer 8 junket account. Star Sydney processed this transaction. Customer 49 then transferred the funds to Person 33's Star Sydney account. After this transaction, Star Sydney conducted a review which identified that:

- a. Person 33 was not recorded as a junket player on any junket program for which Customer 49 was a representative; and
- b. Star Sydney had observed Person 33 previously accompanying a Customer 8 junket player during his play, and receiving three plaques worth \$25,000 from this second customer.

Star Sydney considered that this activity was unusual. It noted that Person 33 was not recorded on any junket program and it was unusual for one customer to receive plaques from another customer and then attempt to deposit them into her own account: SMR dated 23 August 2019.

Customer 49 then requested to transfer \$236,953 from Customer 8's account to Person 33's account. Star Sydney noted that there was no apparent reason for this transfer as the last time that Person 33 had been a junket player on a Customer 8 junket was in August 2019: SMR dated 30 December 2019.

- h. designated services provided to Customer 49 included EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

Between 29 January 2018 and 9 February 2018, Star Sydney gave the AUSTRAC CEO two TTRs detailing EGM payouts to Customer 49 totalling \$24,000.

- i. Customer 49, and persons associated with the junkets she represented, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney, including large volumes of cash in small denominations, cash bundled in elastic bands, and cash presented in a range of different bags;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 9 December 2016 and 11 November 2021, Star Sydney gave the AUSTRAC CEO 404 TTRs totalling \$13,128,728 including:

- a. 298 TTRs detailing chip and cash exchanges involving Customer 49, totalling \$6,747,435; and
- b. 106 TTRs detailing account deposits and account withdrawals involving Customer 49, totalling \$6,381,293.

SMRs and Star Sydney's internal records

Between 5 January 2017 and 4 March 2020, Customer 49 engaged in many large and suspicious cash transactions at Star Sydney, often in quick succession, and often on the same or following days. These transactions amounted to 51 transactions with a total value of \$9,088,499.

The transactions where Customer 49 presented cash at Star Sydney included transactions where:

- a. Customer 49 presented cash that was mostly or entirely comprised of \$50 notes;
- b. Customer 49 presented cash that was bundled in elastic bands or straps that had not been issued by Star;
- c. Customer 49 presented cash that was contained in different types of bags, including shopping bags and backpacks;
- d. Customer 49 advised that she had received the cash from players on other junkets at Star Sydney; and/or

- e. Star Sydney repeatedly noted that the transactions involved excessive amounts of cash given the activity and losses that it had recorded for Customer 49 and the junkets she represented.

The transactions where Customer 49 received cash or chips from Star Sydney included transactions where:

- a. Customer 49 subsequently gave the cash to a Star Sydney customer, or a person unknown to Star Sydney, who was not associated with the junkets that Customer 49 represented;
- b. Customer 49 departed Star Sydney in a range of different vehicles immediately after the transaction; and/or
- c. Star Sydney considered that the transactions were unusual.

Transactions in a personal capacity

Between 9 June 2017 and 6 September 2017, Customer 49 exchanged a total of \$200,000 in chips for cash in a personal capacity at Star Sydney, on two separate occasions, and on each occasion exchanged \$100,000 of chips for cash: SMR dated 7 September 2017.

Transactions as a junket representative

Between 5 January 2017 and 28 January 2019, as a Customer 8's junket representative:

- a. Customer 49 withdrew a total of \$2,490,960 in cash from Customer 8's account at Star Sydney on 12 separate occasions: SMRs dated 27 February 2017; 23 March 2017; 18 April 2017; 11 December 2017; 27 February 2018; 11 May 2018;
- b. Customer 49 exchanged a total of \$173,625 of chips for cash on behalf of Customer 8 at Star Sydney on two separate occasions: SMR dated 27 February 2017; and
- c. Customer 49 deposited a total of \$2,605,000 in cash into Customer 8's account at Star Sydney on 16 separate occasions: SMR dated 6 November 2017; 6 February 2018; 8 February 2018; 9 February 2018.

Between 24 February 2017 and 22 February 2020, as Customer 7's junket representative:

- a. Customer 49 exchanged a total of \$706,500 of chips for cash on behalf of the Customer 7 junket at Star Sydney on four separate occasions: SMR dated 30 January 2017;
- b. Customer 49 withdrew a total of \$700,510 in cash from Customer 7's account at Star Sydney on five separate occasions: SMR dated 1 April 2019; and

- c. Customer 49 deposited a total of \$100,000 in chips into Customer 7's account at Star Sydney.

Other large and suspicious transactions

On 11 March 2018, a Star Sydney customer presented \$100,000 in cash at Star Sydney and requested that it be exchanged for chips. The cash presented was comprised of \$100 notes bound together with Star casino straps. Star Sydney noted that there was no record of Star having ever paid out this amount to the customer and that this transaction was the customer's largest single cash transaction in its records. Immediately after the transaction, the customer was observed giving the chips to Customer 49: SMR dated 12 March 2018. Star Sydney did not record whether the customer was a player on a junket which Customer 49 represented.

On 25 June 2018, a Star Sydney customer exchanged \$100,000 in cash for chips in two transactions within one hour of each other at Star Sydney. After minimal play, the customer then exchanged \$100,000 in chips for cash. Shortly after this transaction, Star Sydney observed the customer handing the cash to Customer 49. Customer 49 then deposited the cash into Customer 8's account at Star Sydney. Star Sydney noted that the customer was not a player on Customer 8's junket and that it was unaware of any link between the customer and Customer 8's junket: SMR dated 26 June 2018.

On 15 September 2019, Customer 49 presented \$100,000 in cash at a Star Sydney cashier and requested Star Sydney to deposit it into Customer 7's account. Customer 49 claimed that the funds were designated for a player on the Customer 7 junket. The cash was comprised of \$50 notes bundled in lots of \$10,000 with elastic bands and was contained in a black backpack. Star Sydney counted the cash twice and identified that one of the \$10,000 bundles contained one less \$50 note than Customer 49 expected. After this discovery, an associate of Customer 49 produced a single \$50 note and gave it to the Star Sydney cashier to bring the actual total of cash to \$100,000. Star Sydney subsequently deposited the cash into the Customer 7 junket account. Star Sydney did not consider that this transaction was suspicious as the player had recorded active play at Star Sydney and the amount of cash Customer 49 presented was not excessive for a junket.

On 27 January 2020, Customer 49 withdrew \$100,000 in cash from the junket account of another junket operator at Star Sydney during cultural holiday celebrations.

On 4 March 2020, a personal assistant to a player on Customer 7's junket transferred \$1,052,853 from an undisclosed account to Star Sydney. That afternoon, Customer 49 and the assistant attended a Star Sydney cashier. The assistant then withdrew \$1,000,000 in two plaques of \$500,000 each and departed the cashier with Customer 49. 16 minutes later, Customer 49 returned to the Star Sydney cashier with the same two plaques of \$500,000 each and completed

the junket player's buy-in to Customer 7's junket program. Star Sydney noted that the player had a recorded losses of \$2,591,450 from his contemporaneous play on Customer 7's junket.

- j. Customer 49 transacted using large amounts of cash at Star Qld;

Particulars

Between 29 November 2018 and 21 January 2019, Star Qld gave the AUSTRAC CEO three TTRs detailing chip and cash exchanges involving Customer 49 totalling \$50,270.

- k. between 2018 and 2021, Customer 49 was the subject of law enforcement enquiries at Star;

Particulars

In March 2018, a law enforcement agency requested information in respect of Customer 49.

On 16 November 2018, a law enforcement agency requested information in respect of Customer 49.

On 14 May 2019, Star Sydney responded to queries from a law enforcement agency in respect of Customer 49.

On 20 February 2020, Star Sydney responded to queries from a law enforcement agency in respect of Customer 49.

On 16 February 2021, a law enforcement agency sent a request for information to Star Sydney in respect of Customer 49. The request advised that Customer 49 was a person of interest in an investigation into a drug syndicate. Star Sydney responded to this request.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- l. Customer 49 had access to private gaming rooms at Star Sydney and Star Qld; and

Particulars

See paragraph 616 above.

Customer 49 had access to private gaming rooms at Star Sydney, including the Sovereign Room, the Chairman's Room, the Jade Room, the Oasis Room, the Lakes Salon, the Rivers Salon, the Harbours Salon, the Springs Salon, the Sovereign Room Cage, and the Springs Salon Cage.

Customer 49 had access to private gaming rooms at Star Qld, including Pit 8, Salon 22, Salon 90, Salon 96 and the Sovereign Room.

- m. Star Sydney and Star Qld did not have adequate reason to believe that Customer 49's source of wealth or source of funds was sufficient to explain the high value financial and

gaming services (tables 1 and 3, s6 of the Act) received by Customer 49 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

At times, Star Sydney's and Star Qld's due diligence recorded Customer 49's occupation as junket representative and as retired.

By September 2022, Star Sydney's and Star Qld's due diligence recorded Customer 49's source of wealth and source of funds as 'savings from junket rep / property investment'.

At no time did Star Sydney or Star Qld take appropriate steps to verify Customer 49's source of wealth or source of funds in circumstances where:

- a. in 2017, Customer 49's individual rated turnover escalated significantly;
- b. in addition, Customer 49 engaged in cash transactions worth millions of dollars both in her own capacity and in her role as junket representative for Customer 8 and Customer 7, that Star Sydney regarded as suspicious;
- c. during the relevant period, law enforcement agencies expressed interest in Customer 49's financial and gaming activities on multiple occasions; and
- d. by 2021, Star Sydney and Star Qld were advised that Customer 49 was a person of interest in an investigation into a drug syndicate.

See *Customer 49's risk profile* above.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 49

1639. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 49 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 49.

- a. On and from 30 November 2016, Customer 49 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 49's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 49 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

On 6 April 2014, Customer 49 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 49's transactions

1640. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 49's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 49, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket representatives; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 49 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 49's KYC information

1641. Star Sydney and Star Qld did not review, update and verify Customer 49's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 49's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 49's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 49's source of wealth and source of funds were not legitimate: see *Customer 49's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 49's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 49.

Particulars

See paragraph 155 above.

Between 13 June 2017 and 23 June 2021, Star Sydney and Star Qld conducted ongoing customer due diligence in respect of Customer 49: see *Customer 49's risk profile* above.

- a. Between 13 June 2017 and 23 June 2021, Star Sydney and Star Qld conducted periodic open source media searches in respect of Customer 49 that identified no adverse matches.
- b. On 5 August 2019, Star Sydney reviewed junket activity for the Customer 7 junket after Customer 49 exchanged \$103,000 in chips for cash on behalf of the junket. Star Sydney concluded that the transaction was supported by the winnings of a player on the junket, Person 60, at the time.
- c. On 23 August 2019, Star Sydney conducted a review of Customer 49's gaming activity, along with the activity of her associates. This was prompted by its observations that Customer 49 had assisted a Star Sydney customer, who was not a player on any junket that she represented, to deposit \$75,000 in plaques received from a Customer 8 junket player into her personal account: SMR dated 23 August 2019.
- d. On 27 January 2020, Star Sydney conducted a review of the activity of players on a Star Sydney junket after Customer 49 withdrew \$200,000 in cash from the junket operator's account at Star Sydney.
- e. On 22 February 2020, Star Sydney conducted a review of the activity on the Customer 7 junket after Customer 49 withdrew \$200,000 in cash from the Customer 7 junket account on behalf of the junket.

The reviews did not have appropriate regard to Customer 49's high ML/TF risks: see *Customer 49's risk profile* above.

It was not until 11 November 2021 that Star Sydney issued a WOL in respect of Customer 49.

Failure to apply appropriate due diligence suited to Customer 49's high ML/TF risks

1642. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 49 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 49; and
- c. reviewing and updating Customer 49's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 49 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 49*.

1643. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 49 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 49; and
- c. reviewing and updating Customer 49's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 49 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1644. Had Star Qld rated Customer 49 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 49.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 49

1645. Star Sydney was required to apply the ECDD Programs to Customer 49 following any ECDD triggers in respect of Customer 49.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1646. Customer 49 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 30 January 2017 and 1 April 2019, Star Sydney gave the AUSTRAC CEO 13 SMRs with respect to Customer 49.

1647. The matter pleaded in paragraph 1646 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1648. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 49 following an ECDD trigger because:

- a. on each occasion prior to 11 November 2021 that Star Sydney conducted ECDD in respect of Customer 49 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 49 and the provision of designated services to Customer 49 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

Between 12 February 2019 and 16 September 2019, Star Sydney conducted ECDD in respect of Customer 49.

The ECDD screening during this period consisted of open source media searches in respect of Customer 49 that identified no adverse matches.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 49's higher ML/TF risks: see *Customer 49's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 49's source of funds or source of wealth, in circumstances where Star Sydney took no steps to verify her occupation, which was recorded as variously 'retired' or 'junket representative', and where Customer 49 conducted large and suspicious transactions involving cash both on her own behalf as well as on behalf of junket operators Customer 8 and Customer 7.

By reason of the matters set out above, there were real risks that Customer 49's source of wealth and source of funds were not legitimate: see *Customer 49's risk profile* above.

It was not until 11 November 2021 that Star Sydney issued a WOL in respect of Customer 49.

- b. Customer 49 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 49

1649. By reason of the matters pleaded from paragraphs 1633 to 1648, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 49 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1650. By reason of the matters pleaded at paragraph 1649, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 11 November 2021 with respect to Customer 49.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1651. By reason of the matters pleaded from paragraphs 1633 to 1648, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 49 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1652. By reason of the matters pleaded at paragraph 1651, Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 49.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 50

1653. Customer 50 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$48 million for Customer 50.

Particulars

Customer 50 was a customer of Star Sydney from at least 3 January 2016.

On 15 June 2022, Star Sydney issued a WOL in respect of Customer 50.

1654. Star Sydney provided Customer 50 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 12 January 2017, Star Sydney opened an FMA and SKA for Customer 50 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 50 remitted funds to and from their FMA and SKA (items 31 and 32, table 1, s6 of the Act).

See Customer 50's risk profile below.

1655. Customer 50 was a customer of Star Qld during the relevant period. In 2019, Star Qld recorded turnover exceeding \$19 million for Customer 50.

Particulars

Customer 50 was a customer of Star Qld from at least 17 January 2017.

On 15 June 2022, Star Qld issued a WOL in respect of Customer 50.

1656. Star Qld provided Customer 50 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 16 January 2017, Star Qld opened an FMA for Customer 50 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 50 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 50's risk profile below.

1657. At all times from 30 November 2016 in respect of Star Sydney and 17 January 2017 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 50.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 50's risk profile

1658. On and from 30 November 2016 in respect of Star Sydney and 17 January 2017 in respect of Star Qld, Customer 50, and the provision of designated services to Customer 50 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 50's risk history as at 30 November 2016

a. by 30 November 2016 Customer 50 had the following risk history at Star Sydney:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 50;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 5 January 2016.

The SMR reported that Customer 50 had engaged in a large cash transaction: see paragraph 1658.a.iii below.

- ii. Customer 50 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 4 January 2016 and 8 January 2016, Customer 50 was a junket player at Star Sydney on a junket operated by Customer 31.

Star Sydney recorded high turnover totalling \$45,207,760 with losses of \$574,745 for Customer 50's gaming activity on the junket program.

- iii. Customer 50 transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

Between 3 January 2016 and 8 January 2016, Star Sydney gave the AUSTRAC CEO four TTRs detailing incoming payments to Customer 50 totalling \$105,000 in chip exchanges.

Between 3 January 2016 and 8 January 2016, Star Sydney gave the AUSTRAC CEO 14 TTRs detailing outgoing payments from Customer 50 which comprised:

- a. \$385,050 in chip exchanges;
 - b. \$62,800 in EGM payouts; and
 - c. \$27,225 in sales of foreign currency.
- iv. designated services provided to Customer 50 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

See paragraph 1658.iii above.

Customer 50's risk profile from 30 November 2016

- b. Customer 50 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 50 was a member of a foreign political body and had been involved in foreign political activities since at least 2001.

- c. Customer 50 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
- i. between 7 January 2017 and 3 January 2020, Customer 50 was a player on ten junkets at Star Sydney operated by Customer 31; and
 - ii. between 7 January 2017 and 3 January 2020, Star Sydney recorded high and escalating turnover totalling \$24,892,335 with losses of \$1,726,510 for Customer 50's gaming activity on junket programs;

Particulars

In 2017, Customer 50's turnover on junket programs was \$2,245,360 with losses of \$613,500.

In 2018, Customer 50's turnover on junket programs significantly escalated to \$18,092,607 with wins of \$45,630.

In 2019, Customer 50's turnover on junket programs was \$1,391,858 with losses of \$575,540.

In 2020, despite the COVID-19 pandemic closures, Customer 50's turnover on junket programs was \$3,162,510 with losses of \$583,100.

- d. Customer 50 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
- i. between 21 January 2019 and 20 July 2019, Customer 50 was a player on two junkets at Star Gold Coast operated by Customer 31 and Customer 18;
 - ii. one of the junkets was funded by a person other than the junket operator; and
 - iii. between 21 January 2019 and 20 July 2019, Star Qld recorded high turnover totalling \$4,868,630 with losses of \$453,150 for Customer 50's gaming activity on junket programs;

Particulars

On 16 July 2019, Customer 50 arrived at Star Gold Coast to play under Customer 31's junket program. Customer 31 had supplied the front money by drawing down \$1,500,000 on his CCF.

Customer 50 made small exchanges of three different foreign currencies and proceeded to play. At settlement, Star Qld recorded a loss for Customer 50 of \$481,357. Star Qld was unaware of how

Customer 50, who was known to be a foreign PEP, would repay
Customer 31 for the loss incurred: SMR dated 23 July 2019.

- e. designated services provided to Customer 50 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 50 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded high and escalating individual rated turnover totalling \$23,777,580 for Customer 50;

Particulars

See paragraph 752 above.

In 2016, Customer 50's individual rated turnover was \$2,550,041.

In 2017, Customer 50's individual rated turnover significantly
escalated to \$4,502,277.

In 2018, Customer 50's individual rated turnover significantly
escalated again to \$15,548,049.

In 2019, Customer 50's individual rated turnover was \$1,177,213.

- g. Customer 50 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2019, Star Qld recorded high individual rated turnover totalling \$14,562,611 for Customer 50;

Particulars

See paragraph 752 above.

- h. designated services provided to Customer 50 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

On 29 January 2018 and 2 May 2018, Customer 50 received EGM
payouts totalling \$370,784.

- i. Customer 50 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 50 had access to private gaming rooms at Star Sydney,
including the Sovereign Room.

- j. Customer 50 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 50 had access to private gaming rooms at Star Qld, including the Sovereign Room, Salon 98 and Pit 8.

- k. Customer 50 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 10 January 2017 and 1 September 2018, Star Sydney gave the AUSTRAC CEO 15 TTRs detailing incoming payments to Customer 50 totalling \$294,000 in chip exchanges.

Between 26 August 2017 and 31 December 2019, Star Sydney gave the AUSTRAC CEO 34 TTRs detailing outgoing payments from Customer 50 totalling \$1,316,215 which were comprised of:

- a. \$454,715 in chip exchanges;
- b. \$418,063 in EGM payouts; and
- c. \$443,438 in sales of foreign currency.

On 30 August 2017, Customer 31's junket representative, Person 46, removed \$175,000 in chips from Customer 31's safe deposit box. Person 46 exchanged the chips for cash and handed the cash to Customer 50. Customer 50 exchanged \$75,000 of the cash for chips and proceeded to record a turnover of \$600,450 with a loss of \$150,050. Customer 50 was not recorded as a player on Customer 31's junket and, at that time, Star failed to identify any links between Customer 50 and Customer 31's junket despite Customer 50 having played on Customer 31's junket in 2016 and 2017. Star Sydney considered this transaction to be highly unusual: SMR dated 31 August 2017.

On 30 January 2018, Customer 50 cashed out \$100,090 in chips at Star Sydney. Customer 50 had recorded a turnover of \$1,657,650 with a win of \$797,435 that day.

- l. Customer 50 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 20 January 2019 and 23 January 2019, Star Qld gave the AUSTRAC CEO a TTR detailing outgoing payments from Customer 50 totalling \$39,135 which were comprised of:

- a. \$25,095 in chip exchanges; and
- b. \$14,040 in sales of foreign currency.

- m. by October 2020, Star Sydney and Star Qld were aware of media articles which reported that Customer 50 was implicated in a graft case involving the reported misuse of public funds, corruption commission investigations and allegations of voter intimidation; and

Particulars

Between 2005 and 2019, publicly accessible media articles reported that Customer 50:

- a. was called on by a corruption commission in a foreign country as a suspect in a graft case and later named as a witness in a graft case involving the misappropriation of funds;
- b. had been charged with voter intimidation and had refused to comply with a summons for questioning as a witness in a graft case; and
- c. had been reported to the relevant Ministry for numerous travels abroad not related to his duties.

It was not until October 2020 that Star Sydney and Star Qld became aware of these reports.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 50's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) recorded by Customer 50 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 50 to be a member of a foreign political body at all times and that he was an executive in respect of a mining operation.

However, by August 2021, the latter position had not been confirmed by Star.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 50

1659. On and from 30 November 2016 Customer 50 was rated by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules.

Particulars

On 5 January 2016, Customer 50 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 50 was rated very high risk, being high risk for the purpose of the Act and Rules.

1660. Nevertheless, for the reasons pleaded below, Star Sydney and Star Qld failed to monitor the high ML/TF risks posed by Customer 50 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by them with respect to Customer 50.

Monitoring of Customer 50's transactions

1661. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 50's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 50, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 50 through the junket channel;

Particulars

See paragraph 783 above.

- d. Star Sydney and Star Qld provided designated services to Customer 50 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- e. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 50.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 50 on 30 August 2017: see *Customer 50's risk profile*.

The review, update and reverification of KYC information

- 1662. Star Sydney and Star Qld did not review, update and verify Customer 50's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney or Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 50's business with them, including the nature, extent and purpose of Customer 50's transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update or verify Customer 50's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 50's source of wealth or source of funds: see *Customer 50's risk profile*.

On and from 2017, Customer 50's turnover was very high and escalated significantly. This turnover was not proportionate to his source of wealth.

Between 2005 and 2019, publicly accessible media articles identified that Customer 50 was a foreign PEP together with information suggesting there were real ML/TF risks as to Customer 50's source of funds.

- d. to the extent that Star Sydney or Star Qld reviewed Customer 50's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney or Star Qld to Customer 50.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 50

1663. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 50 following any ECDD triggers in respect of Customer 50. In particular, because Customer 50 was a foreign PEP, Star Sydney and Star Qld were required to:
- a. undertake detailed analysis of Customer 50's KYC information including taking reasonable measures to identify the source of Customer 50's wealth and the source of Customer 50's funds; and
 - b. seek senior management approval for continuing a business relationship with Customer 50 and whether Star Sydney and Star Qld should continue to provide a designated service to Customer 50.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3), 15.10 and 15.11 of the Rules.

1664. Customer 50:

- a. at all times from 30 November 2016 was a foreign PEP;

Particulars

See Customer 50's risk profile.

- b. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 31 August 2017, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 50.

- c. was determined to be high risk for the purpose of the Act and Rules by 30 November 2016 by Star Sydney and Star Qld.

Particulars

On 5 January 2016, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 50 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 50* above.

1665. Each matter pleaded in paragraph 1664 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1666. On 5 January 2016, Star Sydney and Star Qld identified that Customer 50 was a foreign PEP. On 24 June 2021, Star Sydney and Star Qld understood that Customer 50 became an inactive PEP.

1667. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 50 following the ECDD triggers:

- a. on each occasion prior to 15 June 2022 that Star Sydney or Star Qld conducted ECDD in respect of Customer 50 in response to an ECDD trigger, they failed to give appropriate consideration to whether the ML/TF risks posed by Customer 50 and the provision of designated services to Customer 50 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite. In particular, Star Sydney and Star Qld failed to monitor Customer 50 as a foreign PEP because:
 - i. Star Sydney's and Star Qld's analysis of Customer 50's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 50;
 - ii. Star Sydney's and Star Qld's analysis of Customer 50's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 50;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 4 March 2019, 17 July 2019, 4 September 2019 and 20 October 2020, Star conducted ECDD in respect of Customer 50, but did not have appropriate regard to his higher ML/TF risks: see *Customer 50's risk profile*.

The ECDD screenings did not identify adverse information, despite the matters set out above: see *Customer 50's risk profile*.

On and from 2017, Customer 50's turnover was very high and escalated significantly. This turnover was not proportionate to his source of wealth. Between 2005 and 2019, publicly accessible media articles identified that Customer 50 was a foreign PEP together with information suggesting there were real ML/TF risks as to Customer 50's source of funds.

On 15 June 2022, Star issued a WOL in respect of Customer 50.

- iii. Customer 50 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- iv. any senior management approval regarding Customer 50 failed to give appropriate consideration to the ML/TF risks posed by Customer 50 and the provision of designated services to Customer 50 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

There was no senior management consideration of Customer 50 until August 2021.

On or about 2 August 2021, the Due Diligence Program Manager determined that a business relationship with Customer 50 could be maintained by Star given:

- a. Customer 50 was an inactive foreign PEP; and
- b. no adverse information was found in respect of Customer 50.

In determining that a business relationship could be continued, the Due Diligence Program Manager did not have regard to:

- a. Customer 50's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover;

- b. Customer 50's source of funds (r 15.10(2)(b) of the Rules), having regard to the publicly available information suggesting high ML/TF risks as to their source of funds.

In determining that a business relationship could be continued, the Due Diligence Program Manager did not have appropriate regard to Customer 50's higher ML/TF risks: see *Customer 50's risk profile* above.

On 15 June 2022, Star issued a WOL in respect of Customer 50.

Contravention of s36 of the Act in respect of Customer 50

1668. By reason of the matters pleaded from paragraphs 1653 to 1667, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 50 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1669. By reason of the matters pleaded at paragraph 1668, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 15 June 2022 with respect to Customer 50.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1670. By reason of the matters pleaded from paragraphs 1653 to 1667, on and from 17 January 2017, Star Qld:

- a. did not monitor Customer 50 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1671. By reason of the matters pleaded at paragraph 1670, Star Qld contravened s36(1) of the Act on and from 17 January 2017 to 15 June 2022 with respect to Customer 50.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 51

1672. Customer 51 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$49 million for Customer 51.

Particulars

Customer 51 was a customer of Star Sydney from at least 8 August 2015.

On 15 February 2018, Star Sydney issued a WOL in respect of Customer 51.

1673. Star Sydney provided Customer 51 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 3 October 2012, Star Sydney opened an FMA and SKA for Customer 51 which were closed on 12 December 2018 (item 11, table 3, s6 of the Act).

Between 5 December 1996 and 9 May 2017, Star Sydney approved CCFs for Customer 51 on nine occasions ranging from \$9,000 to \$124,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 51 (items 31 and 32, table 1, s6 of the Act).

See Customer 51's risk profile below.

1674. Customer 51 was a customer of Star Qld during the relevant period. Between 2017 and 2018, Star Qld recorded turnover exceeding \$9 million for Customer 51.

Particulars

Customer 51 was a customer of Star Qld from at least 1996.

On 15 February 2018, Star Qld issued a WOL in respect of Customer 51.

1675. Star Qld provided Customer 51 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 20 February 2003, Star Qld opened an FMA for Customer 51 which remains open (item 11, table 3, s6 of the Act).

On 10 February 2017, Star Qld opened an FMA and SKA for Customer 51 which remain open (item 11, table 3, s6 of the Act).

See Customer 51's risk profile below.

1676. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 51.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 51's risk profile

1677. On and from 30 November 2016, Customer 51, and the provision of designated services to Customer 51 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 51's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 51 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 51;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on seven occasions between 26 February 2006 and 17 October 2012.

The SMRs reported that Customer 51 engaged in large cash transactions and disputes between Star and Customer 51 in respect of dishonoured cheques: see paragraphs 1677.a.iii and 1677.a.iv below.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 51;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 25 November 2008.

The SMR reported that Customer 51 engaged in transactions involving a cheque: see paragraph 1677.a.v below.

- iii. Customer 51 transacted using large amounts of cash and cheques at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

On 25 February 2006, Customer 51 cashed out \$1,000,000 at a private gaming room: SMR dated 26 February 2006.

On 13 March 2006, Customer 51 bought into a program using \$998,630 from his FMA. Customer 51 then deposited \$250,000 in chips into his account and requested a cash withdrawal of \$73,630, which was refused. Customer 51 ultimately took a casino cheque for \$1,229,405: SMR dated 14 March 2006.

On 6 September 2006, Customer 51 deposited a cheque for \$988,142 and requested to withdraw \$300,000 in cash: SMR dated 7 September 2006.

On 4 October 2012, Customer 51 exchanged \$190,000 in chips for cash and withdrew a further \$50,000 in cash from his FMA. Later that day, Customer 51 deposited \$200,000 in cash into his FMA. Star Sydney considered the transactions to be suspicious due to the large amount of cash involved: SMR dated 9 October 2012.

On 6 October 2012, Customer 51 exchanged \$115,000 in chips for cash. Star Sydney considered the transactions to be suspicious due to the large amount of cash involved: SMR dated 9 October 2012.

On 17 October 2012, Customer 51 deposited \$1,000,000 in cash into his FMA. The funds were used as a buy-in on a premium program.

Later that day, Customer 51 withdrew \$100,000 in cash from his account. Customer 51 had two partial cash settlements during the day and took the rebate earned from the program in cash. Star Sydney considered it highly suspicious that Customer 51 had four unusually large cash transactions in the same day: SMR dated 17 October 2012.

Between 13 March 2012 and 17 October 2012, Star Sydney gave the AUSTRAC CEO 15 TTRs in respect of Customer 51 totalling \$2,033,266, which comprised:

- a. ten outgoing TTRs totalling \$666,266;
 - b. five incoming TTRs totalling \$1,367,000;
 - c. \$347,000 in chip or cash exchanges; and
 - d. \$1,686,266 in account deposits or withdrawals.
- iv. in July 2007, Customer 51 presented two cheques in a foreign currency to Star Sydney which were dishonoured;

Particulars

On 2 July 2007, Customer 51 presented two cheques in a foreign currency to be deposited into his account at Star Sydney. Both cheques were dishonoured.

Star Sydney brought an action in an Australian court against Customer 51 and received judgment in its favour in June 2008: SMR dated 26 February 2009.

- v. Customer 51 engaged in a large and suspicious transaction which had no visible lawful purpose;

Particulars

On 18 November 2008, Customer 51 deposited \$280,000 into his account at Star Qld. Customer 51 claimed that the deposit was a telegraphic transfer, however, it was in fact a cheque. Star Qld informed Customer 51 that it would wait for the cheque to clear before depositing the funds in his account.

Customer 51 determined to stop payment on the cheque and advised Star Qld that he would bring a bank cheque instead. Customer 51 did

not arrive at Star Qld. Star Qld was aware that Customer 51 had attempted cheque fraud at other Australian casinos recently: SMR dated 25 November 2008.

- vi. Customer 51 was the subject of law enforcement enquiries at Star; and

Particulars

On 12 July 2013, 24 April 2015 and 29 April 2016, Star Sydney received requests from a law enforcement agency in respect of Customer 51.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- vii. in September 2016, Star became aware of open source media articles which reported that Customer 51 was suspected to be a money launderer;

Particulars

In September 2016, open source media articles reported that:

- a. Customer 51 was under investigation in a foreign country for his alleged involvement in large-scale money laundering at casinos in Australia and overseas;
- b. Customer 51 had turned over hundreds of millions of dollars at another Australian casino;
- c. Customer 51 had access to multiple Australian passports;
- d. law enforcement agencies alleged that properties linked to Customer 51 were the proceeds of crime; and
- e. an Australian judge had found that Customer 51's known source of income could not explain his very high stakes gambling.

Customer 51's risk profile from 30 November 2016

- b. Customer 51 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 7 April 2017 and 5 June 2017, Customer 51 was a player on two junkets at Star Sydney operated by Customer 34; and
 - ii. between 7 April 2017 and 5 June 2017, Star Sydney recorded high turnover totalling \$1,478,196 with losses of \$25,853 for Customer 51's gaming activity on junket programs;
- c. designated services provided to Customer 51 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 51 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2017, Star Sydney recorded high turnover totalling \$48,044,096 for Customer 51;
 - i. in 2017, Star Sydney recorded high individual rated turnover totalling \$43,733,712 for Customer 51; and

Particulars

See paragraph 752 above.

- ii. in 2017, Star Sydney recorded high turnover on individual rebate programs totalling \$4,310,384 for Customer 51, with losses of \$501,075;

Particulars

See paragraph 623 above.

- e. Customer 51 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2018, Star Qld recorded high turnover totalling \$9,933,986 for Customer 51;
 - i. in 2017, Star Qld recorded high individual rated turnover totalling \$9,610,000 for Customer 51; and

Particulars

See paragraph 752 above.

In 2017, Customer 51's individual rated turnover was \$6,176,922.

In 2018, Customer 51's individual rated turnover was \$3,433,078.

- ii. in 2017, Star Qld recorded high turnover on individual rebate programs totalling \$323,986;

Particulars

See paragraph 623 above.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 51 by remitting large amounts of money into the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 16 February 2017 and 9 May 2017, Customer 51 transacted \$258,000 through the Hotel Card channel in eight separate transactions and was provided a temporary CCF while waiting for the funds to clear.

See particulars to paragraph 1677.i below.

Other remittances into the casino environment

See paragraph 327 above.

On 2 March 2017, Star Sydney received a telegraphic transfer totalling \$40,000, which was made available to Customer 51's account.

The above transaction was conducted through the Star Patron account channel.

- g. Customer 51 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 8 February 2017 and 3 May 2017, Star Sydney gave the AUSTRAC CEO 18 TTRs in respect of Customer 51 totalling \$706,934, which comprised:

- a. four outgoing TTRs totalling \$82,034;
- b. 14 incoming TTRs totalling \$624,900;
- c. \$201,934 in chip or cash exchanges; and
- d. \$505,000 in account deposits or withdrawals.

On 22 April 2017, Customer 51 presented \$150,000 in cash to be deposited into his account at Star Sydney. The cash was comprised of \$100 notes issued by Star Sydney in the previous week. Star Sydney noted that Customer 51 had not recorded any large transactions that would justify having this amount of cash in the previous week, which indicated that the funds had come from an unknown third party: SMR dated 26 April 2017.

- h. Customer 51 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 17 November 2017 and 8 February 2018, Star Qld gave the AUSTRAC CEO 54 TTRs in respect of Customer 51 totalling \$1,270,340, which comprised:

- a. 24 outgoing TTRs totalling \$614,040;
- b. 30 incoming TTRs totalling \$656,300; and
- c. \$1,270,340 in chip or cash exchanges.

On 10 December 2017, a Star Qld customer, Person 43, deposited \$55,000 in cash into his FMA while playing on a domestic premium program. After settlement, Person 43 withdrew \$47,913 in cash and \$20,000 in chips from his FMA. On 17 December 2017, Customer 51 opened an FMA at the casino. Person 43 returned to the casino and deposited \$67,025 into his FMA before transferring the funds to Customer 51. Customer 51 then deposited \$50,000 in chips into his FMA: SMR dated 18 December 2017.

On 21 and 22 December 2017, Customer 51 presented \$158,000 in cash at Star Qld. Customer 51 gambled and recorded a loss of \$256,000. Star Qld was unaware of Customer 51's current occupation or source of funds: SMR dated 29 December 2017.

On 14 February 2018, Person 43 advised Star Qld that he had sent a \$100,000 telegraphic transfer to Customer 51. The transaction receipt indicated that the transaction originated from a cash deposit. Star Qld noted that this was not the first time Person 43 had given funds to Customer 51. On 15 February 2018, Star issued a WOL in respect of Customer 51. On 16 February 2018, Customer 51 asked about the telegraphic transfer. Person 43 visited Star Qld and had the funds released into his account. Person 43 took \$80,000 in cash and \$20,000 in chips. Person 43 then met Customer 51, and handed him the cash: SMR dated 16 February 2018.

- i. between 16 February 2017 and 9 May 2017, Star Sydney provided Customer 51 with significant amounts of credit upon request, up to limits of \$124,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 16 February 2017, Star Sydney senior management, including the General Manager VIP Credit & Collections and the Chief Executive Officer, approved a single trip CCF limit of \$100,000, which was then increased to \$124,000 for Customer 51.

Between 1 March 2017 and 9 May 2017, Star Sydney senior management, including the General Manager VIP Credit & Collections, approved single trip CCFs on six occasions with limits ranging from \$9,000 to \$53,000 for Customer 51.

On each occasion, the CCF was provided on a "temporary" basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star.

- j. Customer 51 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 51 had access to private gaming rooms at Star Sydney, including Rivers Salons, Lakes Salons, Oasis and the Sovereign Room.

- k. Customer 51 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 51 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room and the Club.

- l. by December 2017, Star Qld was aware that Customer 51 had convictions in a foreign country for obtaining benefit by deception and dealing in proceeds of crime, and had been excluded from other international and Australian casinos;

Particulars

Star Qld was also aware that Customer 51 was reported as being a money launderer and gambler, having had his assets frozen in a foreign country in respect of proceeds of crime charges: SMR dated 18 December 2017.

- m. in June 2017, Star Sydney and Star Qld determined to issue a WOL in respect of Customer 51. However, Customer 51 was not issued with a WOL until February 2018. Between June 2017 and January 2018, Customer 51 recorded significant turnover at Star Qld including losses exceeding \$500,000; and

Particulars

See ECDD triggers in respect of Customer 51 below.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 51's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 51 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Star Sydney and Star Qld were aware of open source media articles which alleged that Customer 51 was under investigation in a foreign country for his alleged involvement in large-scale money laundering at casinos in Australia and overseas and that an Australian judge had found that Customer 51's source of wealth could not explain his high value gaming activity.

By 30 November 2016, Star Sydney had questioned Customer 51 regarding his access to and use of large amounts of cash.

By 30 November 2016, Star did not know Customer 51's occupation. By January 2017, Star suspected that Customer 51 might be in an overseas jail. By February 2017, the General Counsel Corporate, the Chief Executive Officer and Chief Financial Officer were aware that Customer 51 was under investigation for money laundering offences and presented a serious reputational risk to Star. Despite this, in 2017, Customer 51 recorded a cumulative turnover at Star Sydney and Star Qld exceeding \$50 million.

In April 2017, Star understood Customer 51 to be a property developer. By June 2017, Star had determined to issue a WOL in respect of Customer 51. However, it was not until February 2018 that Customer 51 was issued with a WOL. Between June 2017 and February 2018, Customer 51 recorded a loss at Star Qld exceeding \$500,000.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 51

1678. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 51 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 51.

- a. On and from 30 November 2016, Customer 51 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 51's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 18 December 2017 that Customer 51 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 11 August 2016, Customer 51 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 18 January 2017, Customer 51 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 18 December 2017, Customer 51 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 51's transactions

1679. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 51's transactions because:

- a. where Star Sydney or Star Qld conducted any transaction monitoring of transactions involving Customer 51, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 51 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. an international remittance channel, specifically the Hotel Card channel;

Particulars

See paragraphs 777 and 790 above.

- d. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 51.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 51 on 17 December 2017, 22 December 2017, 16 February 2018: See *Customer 51's risk profile*.

The review, update and verification of Customer 51's KYC information

- 1680. Star Sydney and Star Qld did not review, update and verify Customer 51's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 51's business with Star Sydney and Star Qld including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 51's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 51's source of wealth and source of funds were not legitimate: see *Customer 51's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 51's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 51.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 51's high ML/TF risks

1681. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 51 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 51; and
 - c. reviewing and updating Customer 51's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 51 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 51*.

ECDD triggers in respect of Customer 51

1682. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 51 following any ECDD triggers in respect of Customer 51.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3), 15.10 of the Rules.

1683. Customer 51:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

On 16 April 2017, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 51.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 18 December 2017 and 16 February 2018, Star Qld gave the AUSTRAC CEO three SMRs with respect to Customer 51.

- c. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 18 December 2017, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 51 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 51* above.

1684. Each matter pleaded in paragraph 1683 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1685. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 51 following an ECDD trigger because:

a. at no time did Star Sydney and Star Qld apply the ECDD Programs to Customer 51;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

By reason of the matters set out above, there were real risks that Customer 51's source of wealth and source of funds were not legitimate: see *Customer 51's risk profile*.

However, at no time did Star Sydney or Star Qld conduct ECDD in respect of Customer 51.

It was not until 15 February 2018 that Star Sydney and Star Qld issued a WOL in respect of Customer 51.

b. Customer 51 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

c. on any occasion prior to June 2017 that Customer 51 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 51 and the provision of designated services to Customer 51 by Star Sydney and Star Qld, and whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite. Despite a senior management decision to issue Customer 51 with a WOL in June 2017, that decision was not implemented until February 2018.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between 15 October 2016 and February 2018, Customer 51 was discussed regularly at JRAMM and PAMMs and considered by Star senior management.

Consideration in 2016

In October and December 2016, the minutes of the meetings noted that:

- a. Customer 51's occupation was unknown; and
- b. Customer 51 was suspected of laundering hundreds of millions of dollars at another Australian casino.

Consideration in 2017

In January and February 2017, the minutes of the meetings noted that Customer 51 had not attended Star Sydney for some time and that he might be in an international jail.

On 7 February 2017, the General Counsel Corporate prepared a note regarding Customer 51 which identified that:

- a. Customer 51 intended to attend Star Sydney that day;
- b. Customer 51 had been the subject of media reports alleging that he was under investigation for money laundering offences;
- c. Customer 51 intended to buy-in using a \$100,000 Hotel Card transaction;
- d. the General Counsel Corporate had spoken to the Chief Executive Officer and highlighted the reputational risk regarding Customer 51 together with risks surrounding Hotel Card transactions;
- e. the Chief Executive Officer said that, for \$100,000, it was probably not worth the reputational risk, but since Customer 51 was already on his way to the casino it was not necessary to prevent his attendance;
- f. the General Counsel Corporate had spoken to the General Manager VIP Credit & Collections and alerted him to the proposed Hotel Card transaction swipe and possible risks. The General Manager VIP Credit & Collections noted that Customer 51 had been 'blacklisted' by 17 casinos for his abuse of casino credit in the past. However, the General Manager VIP Credit & Collections said that he had no concerns from a credit perspective if Customer 51 used the Hotel Card channel; and
- g. the General Counsel Corporate reverted to the Chief Executive Officer together with the Chief Financial Officer who noted the additional information but suggested that they 'keep this low profile'.

In March 2017, the minutes of the meeting noted that Customer 51 had recently banked a \$75,000 cheque.

In April 2017, the minutes of the meeting noted that Customer 51 was a property developer currently playing at Star Sydney and that

information would be prepared for the AML/CTF Compliance Officer to consider a possible exclusion in respect of Customer 51.

In June 2017, the minutes of the meeting noted that the Cage would contact the Star investigations team for any cash buy-ins by Customer 51 above \$100,000.

In June 2017, JRAMM notes identified that Customer 51 was formally to be excluded. However, it was not until 15 February 2018 that Star Sydney and Star Qld issued a WOL in respect of Customer 51.

Consideration in 2018

It was not until 15 February 2018 that Star Sydney and Star Qld issued a WOL in respect of Customer 51.

In February and March 2018, the minutes of the meeting noted that a decision had been made in June 2017 to exclude Customer 51 and that, since June 2017, Customer 51 had recorded losses at Treasury Brisbane of \$511,000.

Contravention of s36 of the Act in respect of Customer 51

1686. By reason of the matters pleaded from paragraphs 1672 to 1685 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 51 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1687. By reason of the matters pleaded at paragraph 1686, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 15 February 2018 with respect to Customer 51.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 52

1688. Customer 52 was a customer of Star Sydney during the relevant period. Between 2016 and 2022, Star Sydney recorded turnover exceeding \$350 million for Customer 52.

Particulars

Customer 52 was a customer of Star Sydney from at least 18 January 2009.

1689. Star Sydney provided Customer 52 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 4 September 2009, Star Sydney opened an FMA and SKA for Customer 52, both of which remain open (item 11, table 3, s6 of the Act).

Between 30 November 2016 and 2 March 2020, Star Sydney approved CCFs for Customer 52 on 225 occasions ranging from \$10,000 to \$500,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 52 (items 31 and 32, table 1, s6 of the Act).

See particulars to *Customer 52's risk profile* below.

1690. Customer 52 was a customer of Star Qld during the relevant period. Between 2018 and 2019, Star Qld recorded turnover exceeding \$1 million for Customer 52.

Particulars

Customer 52 was a customer of Star Qld from at least 20 July 2012.

1691. Star Qld provided Customer 52 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 17 December 2018, Star Qld opened an FMA for Customer 52 which remains open (item 11, table 3, s6 of the Act).

See particulars to *Customer 52's risk profile* below.

1692. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 52.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 52's risk profile

1693. On and from 30 November 2016, Customer 52, and the provision of designated services to Customer 52 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 52's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 52 had the following risk history:
 - i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 52;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 11 occasions between 27 August 2009 and 18 February 2016.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 52;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 25 July 2012.

- iii. Customer 52 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high turnover totalling \$9,633,014 for Customer 52;

Particulars

In 2015, Customer 52's individual rated turnover was \$3,652,333.

In 2015, Customer 52's turnover on individual rebate programs was \$5,980,679.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 52 by remitting large amounts of money into the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

See paragraphs 356 to 357 above.

Between 15 July 2015 and 30 November 2016, Customer 52 transacted \$1,675,500 through the Hotel Card channel in 42 separate transactions, and was given a temporary CCF while waiting for the funds to clear.

- v. between 15 July 2015 and 8 June 2016, Star Sydney provided Customer 52 with significant amounts of credit upon request, up to limits of \$205,000;

Particulars

Between 15 July 2015 and 8 June 2016, Star Sydney provided Customer 52 with at least \$2,851,000 in CCFs, the limits of which ranged between \$3,500 and \$205,000, on 40 occasions.

On each occasion, the CCF was provided on a "temporary" basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer, Star Sydney Managing Director, and Star General Manager VIP Credit and Collections.

- vi. between 1 November 2015 and 8 June 2016, Star Sydney was aware that Customer 52 had been using the Hotel Card channel inappropriately and was withdrawing large amounts of cash to play;

Particulars

On 1 November 2015, Star Sydney identified that Customer 52 was withdrawing Hotel Card channel funds in cash and recording no play despite being issued significant amounts of Hotel Card channel credit.

Star Sydney warned Customer 52 that he must ensure his membership card was inserted in the EGM machine when he played or otherwise risk being cut off from further Hotel Card channel transactions.

Despite this, Star Sydney continued to facilitate Customer 52 accessing significant amounts of funds via the Hotel Card channel and temporary CCFs.

Between 3 November 2015 and 8 June 2016, Star Sydney was aware that Customer 52 continued to use the Hotel Card channel to access large amounts of money.

- vii. designated services provided to Customer 52 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

TTRs

Between 12 March 2010 and 10 June 2016, Star Sydney gave the AUSTRAC CEO 864 TTRs detailing EGM payouts to Customer 52 totalling \$15,662,913.

Suspicious transactions involving EGMs

On 30 November 2016, Customer 52 cashed in an EGM ticket for \$112,000 at Star Sydney, taking \$100,000 in cash and \$12,000 in EGM tickets.

- viii. Customer 52 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 19 January 2009 and 8 November 2016, Star Sydney gave the AUSTRAC CEO 335 TTRs totalling \$8,288,099, including:

- a. 26 TTRs detailing account deposits made by Customer 52 totalling \$970,000;
- b. 51 TTRs detailing account withdrawals made by Customer 52 totalling \$2,220,634;
- c. one TTR detailing a cheque made by Customer 52 totalling \$10,025;
- d. 235 TTRs detailing chip and cash exchanges made by Customer 52 totalling \$4,608,226;

- e. one TTR detailing other monetary value in made by Customer 52 totalling \$72,000;
- f. 20 TTRs detailing other monetary value out made by Customer 52 totalling \$393,078; and
- g. one TTR detailing purchase of foreign currency made by Customer 52 totalling \$14,136.

Large transactions in 2015 and 2016

Between 26 February 2015 and 1 June 2016, Customer 52 withdrew a total of \$310,000 in cash from his FMA at Star Sydney, in a series of transactions ranging from \$100,000 to \$110,000.

On 30 November 2016, Customer 52 withdrew \$125,000 in cash from his FMA at Star Sydney.

- ix. Customer 52 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 30 August 2011 and 20 July 2012, Star Qld gave the AUSTRAC CEO seven TTRs totalling \$325,176, including:

- a. three TTRs detailing account deposits made by Customer 52 totalling \$190,000;
- b. two TTRs detailing account withdrawals made by Customer 52 totalling \$96,171; and
- c. two TTRs detailing chip and cash exchanges made by Customer 52 totalling \$39,005.

- x. Customer 52 and his associates engaged in transactions indicative of ML/TF typologies and vulnerabilities at Star Sydney, including refining;

Particulars

On 17 May 2012, Customer 52 and his associates exchanged large quantities of \$50 notes for \$100 notes at Star Sydney, totalling \$40,000.

On 1 February 2014, Customer 52 and his associates exchanged large quantities of \$50 notes for \$100 notes at Star Sydney, totalling \$8,800.

- xi. between 18 February 2016 and 8 June 2016, Star notified a law enforcement agency about suspicious transactions involving Customer 52 on three occasions; and

Particulars

Between 18 February 2016 and 8 June 2016, Star Sydney lodged suspicious transaction reports involving Customer 52 with a law enforcement agency on three occasions.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- xii. in 2011 and 2012, senior management at Star Sydney and Star Qld added Customer 52 to the PAMM for consideration as part of ongoing customer due diligence;

Particulars

In December 2011 and January 2012, Customer 52 was listed for consideration at Star Sydney's and Star Qld's monthly PAMMs.

Customer 52's risk profile from 30 November 2016

- b. Customer 52 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2022, Star Sydney recorded high and escalating turnover totalling \$352,545,199 for Customer 52;
 - i. between 2016 and 2022, Star Sydney recorded high and escalating individual rated turnover totalling \$192,613,204 for Customer 52; and

Particulars

See paragraph 752 above.

In 2016, Customer 52's individual rated turnover was \$14,225,005.

In 2017, Customer 52's individual rated turnover was \$28,243,197.

In 2018, Customer 52's individual rated turnover was \$95,248,724.

In 2019, Customer 52's individual rated turnover was \$24,809,646.

In 2020, Customer 52's individual rated turnover was \$18,396,600.

In 2021, Customer 52's individual rated turnover was \$11,492,317.

In 2022, Customer 52's individual rated turnover was \$17,716.

- ii. between 2016 and 20219 Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$159,931,995 for Customer 52;

Particulars

See paragraph 623 above.

In 2016, Customer 52's turnover on individual rebate programs was \$31,824,288.

In 2017, Customer 52's turnover on individual rebate programs was \$51,479,569.

In 2018, Customer 52's turnover on individual rebate programs was \$47,462,240.

In 2019, Customer 52's turnover on individual rebate programs was \$29,165,898.

- c. Customer 52 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2018 and 2019, Star Qld recorded individual rated turnover totalling \$1,136,610 for Customer 52;

Particulars

See paragraph 752 above.

In 2018, Customer 52's individual rated turnover was \$1,000,478.

In 2019, Customer 52's individual rated turnover was \$136,132.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 52 by remitting large amounts of money into and within the casino environment via his accounts:

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 3 December 2016 and 1 March 2020, Customer 52 transacted \$13,600,450 through the Hotel Card channel in 226 separate transactions and on each occasion was given a temporary CCF while waiting for the funds to clear. *Other remittances into the casino environment*

See paragraph 327 above.

Between 28 September 2020 and 11 March 2021, Star Sydney received five telegraphic transfers totalling \$84,000, each of which was made available to Customer 52's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 16 December 2018 and 8 October 2019, Star Sydney sent two transfers totalling \$24,000 from Customer 52's account to Star Qld.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 52 by remitting large amounts of money within the casino environment via his accounts:

Particulars

See paragraphs 347 to 349 above.

On 16 December 2018, Star Qld received a transfer of \$15,000 from Star Sydney, which it made available to Customer 52's account at Star Gold Coast.

On 8 October 2019, Star Qld received a transfer of \$9,000 from Star Sydney, which it made available to Customer 52's account at Treasury Brisbane.

- f. Star Sydney was aware that Customer 52 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

For example, on 23 September 2017, Customer 52 attended the cashier at Star Sydney with another patron, Person 44. Customer 52 presented a bank cheque for \$20,000 and requested to use the funds. When questioned about the origins of the cheque, Customer 52 advised that the cheque belonged to Person 44 and Person 44 presented a receipt as support. The Star Sydney cashier declined Customer 52's request and advised that Person 44 would have to open an account himself. Person 44 refused to open an account, advised that he did not want one, and claimed that, by law, the Star could not force him to open one. The Star Sydney cashier advised that it did not have to accept the cheque and returned it to Person 44: SMR dated 25 September 2017.

- g. designated services provided to Customer 52 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

TTRs

Between 1 December 2016 and 7 February 2022, Star Sydney gave the AUSTRAC CEO 1,995 TTRs detailing EGM payouts to Customer 52 totalling \$48,389,345.

Suspicious transactions involving EGMs

Between 15 December 2016 and 5 December 2021, Customer 52 recorded a turnover of \$51,878,566 and an overall loss of \$389,205 in EGM play at Star Sydney.

On 31 January 2017, Customer 52 withdrew \$100,000 in cash to play at EGMs and later exchanged an EGM voucher of \$120,050 for cash.

- h. Customer 52 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and shopping bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 1 December 2016 and 7 February 2022, Star Sydney gave the AUSTRAC CEO 1,098 TTRs made by Customer 52 totalling \$35,446,442, including:

- a. 29 TTRs detailing account deposits totalling \$3,244,010;
- b. 528 TTRs detailing account withdrawals totalling \$18,073,125;
- c. one TTR detailing a cheque cashing transaction totalling \$145,000;
- d. 242 TTRs detailing chip and cash exchanges totalling \$6,180,216;
- e. 241 other incoming TTRs totalling \$6,388,640; and
- f. 57 other outgoing TTRs totalling \$1,415,451.

Large and suspicious cash transactions in 2016

On 4 December 2016, Customer 52 deposited \$125,000 in cash into his FMA at Star Sydney. The cash had been paid out by Star the previous day.

On 11 December 2016, Customer 52 deposited \$144,000 in cash into his FMA at Star Sydney. The cash was comprised entirely of \$100 notes with straps issued by Star.

Large and suspicious cash transactions in 2017

On 17 January 2017, Customer 52 presented \$500,000 in \$100 notes at Star Sydney and deposited it into his Star Sydney account. Star Sydney observed that Customer 52 had withdrawn the cash from Star Sydney over the previous days. He then withdrew \$400,000 in cash from his Star Sydney account and proceeded to play at EGMs: SMR dated 18 January 2017.

On 25 January 2017, Customer 52 deposited \$200,000 in cash into his FMA at Star Sydney and then withdrew \$100,000 in cash to play at EGMs.

On 31 January 2017, Customer 52 deposited \$200,000 in cash into his Star Sydney account. The cash was entirely comprised of \$100 notes issued by Star. Customer 52 then withdrew \$100,000 in cash to play at EGMs.

Large and suspicious cash transactions in 2018

On 24 January 2018, Customer 52 withdrew \$150,000 in cash from his account at Star Sydney. The next day, a Star Sydney patron, Person 44, handed \$125,000 in cash to a second patron. Shortly afterwards, the second patron deposited the cash into his Star Sydney account. 15 minutes later, the second patron withdrew \$110,000 in cash from his account and placed it in a Sovereign Room bag issued by Star. The second patron then handed the bag to Customer 52. Star Sydney considered that the cash withdrawn by Customer 52 was the same cash being exchanged between the players. It suspected that Customer 52 provided the cash to the second patron so that the patron could buy-in on a program and take advantage of its benefits, even though the patron did not have any actual play recorded: SMR dated 25 January 2018.

On 7 February 2018, Customer 52 withdrew \$197,000 in cash from his Star Sydney account. Prior to this, Customer 52 had transferred the funds into his account. Following the withdrawal, Customer 52 recorded a turnover of \$48,800 and a loss of \$8,600 on the gaming tables: SMR dated 7 February 2018.

On 1 March 2018, a Star Sydney patron transferred \$100,000 to Customer 52's Star Sydney FMA. Customer 52 then withdrew the funds as \$90,000 in cash and \$10,000 in TITO receipts.

Between 7 May 2018 and 13 May 2018, Star Sydney gave the AUSTRAC CEO eight TTRs detailing transactions made by Customer 52 totalling \$302,494.

On 11 May 2018, Customer 52 deposited \$350,000 in cash into his FMA at Star Sydney. The cash was bundled in straps issued by Star. Star Sydney then issued Customer 52 with a cheque for that amount.

On 1 November 2018, Customer 52 deposited \$100,000 into his Star Sydney FMA for a slot rebate buy-in. The cash was comprised of \$100 notes issued by Star.

On 10 November 2018, Customer 52 cashed in a Star casino cheque worth \$145,000 at Star Sydney.

On 17 December 2018, a Star Sydney patron presented a bank cheque for \$170,000 to deposit into her account and then withdrew the funds as chips. A short time later, Customer 52 presented the same \$170,000 in chips plus an extra \$30,000 in cash to open a rebate program. Star Sydney noted that there were no known links between the patron and Customer 52, and it did not know why the patron would have given the funds to Customer 52: SMR dated 18 December 2018.

Large and suspicious cash transactions in 2019

On 2 January 2019, Customer 52 deposited \$200,000 in cash into his FMA at Star Sydney. The cash was comprised of \$185,000 in \$100 notes and \$15,000 in \$50 notes. Most of the \$100 notes had straps issued by Star. Customer 52 then immediately withdrew the cash.

Star Sydney noted that Customer 52 recorded EGM payouts exceeding this amount, and had a recorded turnover of \$199,000 and a loss of \$42,000 for the day.

Between 10 May 2019 and 31 May 2019, Customer 52 withdrew a total of \$300,000 in cash from his FMA at Star Sydney in three separate transactions.

On 18 June 2019, Star Sydney observed that a Star Sydney patron handed a cooler bag containing \$200,000 in cash to Customer 52. The cash was comprised of \$150,000 in \$100 notes and \$50,000 in \$50 notes, and bundled in \$10,000 units tied together with two elastic bands. Customer 52 then deposited the \$200,000 in cash into his Star Sydney account. Customer 52 then withdrew \$200,000 in cash

from his Star Sydney account, requesting all \$100 notes. An hour later, the patron attended the Star Sydney cashier with the same \$200,000 in \$100 notes that Customer 52 had withdrawn and deposited the funds into his account. The cash was presented in a shopping bag. After the transaction, the patron recorded a turnover of \$259,000 and a win of \$3,200 on the gaming tables. Customer 52 recorded a turnover of \$13,500 and a win of \$45,500 on the gaming tables, and a turnover of \$249,478 and a win of \$9,679 on the EGMs. Star Sydney noted that it was not aware of any links between the patron and Customer 52: SMR dated 19 June 2019.

Large and suspicious cash transactions in 2020

Between 6 January 2020 and 1 March 2020, Customer 52 withdrew a total of \$480,000 in cash from his FMA at Star Sydney in three separate transactions.

On 5 December 2021, Star Sydney recorded that Customer 52 had withdrawn \$70,062 from his FMA at Star Sydney but considered that Customer 52's play supported the funds withdrawn.

- i. between December 2016 and March 2020, Star Sydney provided Customer 52 with significant amounts of credit upon request, up to limits of \$500,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 2 December 2016 and 2 March 2020, Star Sydney approved CCFs up to limits of \$500,000 on 225 occasions, including on a temporary basis while Hotel Card channel transactions were processed.

Between 2 December 2016 and 13 March 2017, the CCFs were approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer, Star Sydney Managing Director, and the General Manager VIP Credit and Collections.

- j. Customer 52 and his associates engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including:

- i. refining;

Particulars

See paragraph 25 above.

On 2 January 2019, Customer 52 deposited \$200,000 in cash, including \$15,000 in \$50 notes, into his FMA at Star Sydney, then immediately withdrew the cash in \$100 notes.

On 18 June 2019, Customer 52 deposited \$200,000 in cash, including \$50,000 in \$50 notes, into his Star Sydney account, then immediately withdrew the cash in \$100 notes.

- ii. cashing in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

On 17 December 2018, Customer 52 received \$170,000 worth of chips from a Star Sydney patron, then immediately cashed the chips in to open a rebate program with no evidence of play.

On 9 July 2019, Customer 52 deposited \$75,000 in cash into his Star Sydney account. The cash was comprised of \$100 notes which had been previously issued by Star. Customer 52 then withdrew the same \$75,000 deposited from his Star Sydney account, in addition to a further \$225,000, totalling \$300,000 in cash. Star Sydney considered that this amount was an excessive amount but that Customer 52's turnover and wins for the period supported the withdrawal. Customer 52 had recorded a turnover of \$668,230 and a win of \$185,840 in the period, with bets ranging from \$200 to \$5,000, which indicated to Star Sydney that he was actively playing: SMR dated 10 July 2019.

- k. between 30 November 2016 and June 2019, Star communicated with a law enforcement agency regarding Customer 52; and

Particulars

Between 30 November 2016 and July 2019, Star Sydney reported transactions involving Customer 52 to a law enforcement agency on a number of occasions.

In November 2018, Star Sydney received a request for information in respect of Customer 52 from a law enforcement agency.

In June 2019, Star Sydney received a request for further information in respect of suspicious transactions concerning Customer 52 and another Star Sydney customer from a law enforcement agency.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- l. Star Sydney and Star Qld did not have adequate reason to believe that Customer 52's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 52 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By December 2021, Star Sydney and Star Qld recorded that Customer 52 was employed as a sales representative.

By May 2022, Star Sydney and Star Qld recorded that Customer 52 was employed as a Managing Director and CEO. There are no records to indicate that Star Sydney or Star Qld were aware of the income Customer 52 derived from his stated occupation.

By 2022, Star Sydney and Star Qld recorded turnover exceeding \$351 million for Customer 52.

At no point was Star Sydney's and Star Qld's understanding of Customer 52's source of wealth or source of funds commensurate with his high recorded turnover.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 52

1694. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 52 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 52.
- a. On and from 30 November 2016, Customer 52 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 52's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 52 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 6 April 2014, Customer 52 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 9 June 2016, Customer 52 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 52's transactions

1695. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 52's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 52, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 52 through:
- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. an international remittance channel, specifically the Hotel Card channel.

Particulars

See paragraphs 777 and 790 above.

The review, update and verification of Customer 52's KYC information

1696. Star Sydney and Star Qld did not review, update and verify Customer 52's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 52's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 52's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 52's source of wealth and source of funds were not legitimate: see *Customer 52's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 52's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 52.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Between 2018 and 2020, Star Sydney reviewed five large cash transactions conducted by Customer 52 totalling over \$600,000 and identified that Customer 52 was known to be a regular EGM player with a significant amount of recorded play who withdrew large amounts of cash to play.

Failure to apply appropriate due diligence suited to Customer 52's high ML/TF risks

1697. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 52 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 52; and
- c. reviewing and updating Customer 52's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 52 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 52*.

1698. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 52 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 52; and
- c. reviewing and updating Customer 52's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 52 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1699. Had Star Qld rated Customer 52 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 52.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 52

1700. Star Sydney was required to apply the ECDD Programs to Customer 52 following any ECDD triggers in respect of Customer 52.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10 of the Rules.

1701. Customer 52 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 18 January 2017 and 10 July 2019, Star Sydney gave the AUSTRAC CEO seven SMRs with respect to Customer 52.

1702. The matter pleaded in paragraph 1701 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1703. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 52 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 52 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 52 and the provision of designated services to Customer 52 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

Between 20 July 2018 and 7 January 2020, Star Sydney conducted periodic watchlist screenings in respect of Customer 52 which identified no adverse matches.

On 17 December 2018, 19 June 2019 and 10 July 2019, Star Sydney conducted ECDD screenings in respect of Customer 52. These screenings consisted of reviews of:

- a. Customer 52's play records;
- b. Customer 52's connections with other Star Sydney customers with whom he conducted suspicious transactions, which concluded that Star Sydney was not aware of any known links between Customer 52 and the customers, and it could not determine why Customer 52 and one of the customers were exchanging chips;
- c. shopping bags that Customer 52 and the customer presented; and
- d. open source media and watchlist searches in respect of Customer 52, which identified no adverse matches.

The ECDD conducted by Star Sydney did not have appropriate regard to their higher ML/TF risks: see *Customer 52's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 52's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 52's source of wealth and source of funds were not legitimate: see *Customer 52's risk profile*.

As at 13 September 2022, Star Sydney had not issued a WOL in respect of Customer 52.

- b. Customer 52 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 52 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 52 and the provision of designated services to Customer 52 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 52

1704. By reason of the matters pleaded from paragraphs 1688 to 1703, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 52 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1705. By reason of the matters pleaded at paragraph 1704, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 52.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1706. By reason of the matters pleaded from paragraphs 1688 to 1703, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 52 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1707. By reason of the matters pleaded at paragraph 1706, Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 52.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 53

1708. Customer 53 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$680 million for Customer 53.

Particulars

Customer 53 was a customer of Star Sydney from at least 5 September 2007.

1709. Star Sydney provided Customer 53 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 25 April 2008, Star Sydney opened an FMA and SKA for Customer 53 which remain open (item 11, table 3, s6 of the Act).

See Customer 53's risk profile below.

1710. Customer 53 was a customer of Star Qld during the relevant period. Between 2017 and 2019, Star Qld recorded turnover exceeding \$120 million for Customer 53.

Particulars

Customer 53 was a customer of Star Qld from at least 26 May 2017.

1711. Star Qld provided Customer 53 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 22 September 2018, Star Qld opened an FMA for Customer 53 which remains open (item 11, table 3, s6 of the Act).

See Customer 53's risk profile below.

1712. At all times from 30 November 2016 in respect of Star Sydney and 26 May 2017 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 53.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 53's risk profile

1713. On and from 30 November 2016 in respect of Star Sydney and 26 May 2017 in respect of Star Qld, Customer 53, and the provision of designated services to Customer 53 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 53's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 53 had the following risk history at Star Sydney:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 53;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on three occasions between 22 June 2010 and 20 June 2014. The SMRs reported that Customer 53 was involved in large and suspicious cash and chip transactions totalling \$246,000.

- a. On 19 June 2010, Customer 53 conducted a cash to chip exchange with Star Sydney totalling \$33,000, and presented \$25,000 in \$50 notes: SMR dated 22 June 2010.
 - b. On 31 March 2014, Customer 53 withdrew \$100,000 in cash from his FMA at Star Sydney: SMR dated 1 April 2014.
 - c. On 19 June 2014, Customer 53 deposited \$100,000 in cash in to his FMA at Star Sydney: SMR dated 20 June 2014.
- ii. Customer 53 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 9 August 2015 and 18 August 2016, Customer 53 was a player on seven junkets at Star Sydney operated by Customer 11.

Each of these junkets was funded by Customer 10.

Between August 2015 and August 2016, Star Sydney recorded high turnover totalling \$58,547,320 with losses of \$1,479,950 for Customer 53's gaming activity on junket programs.

- iii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 53 by remitting large amounts of money into and out of the casino environment via his accounts; and

Particulars

Remittances out of the casino environment

See paragraph 327 above.

Between 23 February 2016 and 5 October 2016, Star Sydney sent three telegraphic transfers totalling \$2,735,025 from Customer 53's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Parton account channel.

Remittances into the casino environment

See paragraph 327 above.

On 3 February 2016, Star Sydney received a telegraphic transfer of \$117,595 which it made available to Customer 53's SKA.

The above transaction was conducted through the Star Parton account channel.

- iv. Customer 53 transacted using large amounts of cash at Star Sydney;

Particulars

Between 26 April 2008 and 14 October 2016, Star Sydney gave the AUSTRAC CEO 221 TTRs detailing transactions made by Customer 53 totalling \$5,459,620:

- a. 50 detailed account deposits and withdrawals totalling \$2,169,442;
- b. 129 detailed cash and chip exchanges with Star Sydney totalling \$2,916,105;
- c. 13 detailed other transactions with Star Sydney totalling \$374,073;
- d. one detailed an account deposit with no value;
- e. 13 detailed buy-ins with no value;
- f. 14 detailed cash-outs with no value; and
- g. one detailed another transaction with Star Sydney with no value.

Customer 53's risk profile from 30 November 2016

- b. between 2017 and 2020, Customer 53 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 12 January 2017 and 21 July 2020, Customer 53 was a player on three junkets at Star Sydney operated by three junket operators including Customer 11, Customer 15 and Customer 3;
 - ii. each of these junkets was funded by a person other than the junket operator, including Customer 10 and Customer 1; and
 - iii. between 2017 and 2020, Star Sydney recorded high turnover totalling at least \$96,914,283 with losses of \$11,466,120 for Customer 53's gaming activity on the junket programs operated by Customer 11 and Customer 15;

Particulars

In 2017, Customer 53's turnover on junket programs operated by Customer 11 was recorded as \$86,113,313 with losses of \$11,026,170.

In 2018, Customer 53's turnover on junket programs operated by Customer 15 was recorded as \$5,650,970 with wins of \$65,050.

In 2020, Customer 53's turnover on Suncity junket program operated by Customer 3 was recorded as at least \$5,150,000 with losses of at least \$505,000: SMR dated 10 July 2020.

- c. between 2017 and 2018, Customer 53 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 26 May 2017 and 27 June 2018, Customer 53 was a player on four junkets at Star Gold Coast operated by two junket operators, Customer 16 and Customer 15;
 - ii. each of these junkets was funded by Customer 10; and
 - iii. between 2017 and 2018, Star Qld recorded high and escalating turnover totalling \$63,877,840 with wins of \$2,429,950 for Customer 53's gaming activity on junket programs;

Particulars

In 2017, Customer 53's turnover on junket programs was
\$11,801,400 with wins of \$462,950.

In 2018, Customer 53's turnover on junket programs escalated to
\$52,076,440 with wins of \$1,967,000.

- d. designated services provided to Customer 53 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. on 23 September 2018 and 9 July 2019, Customer 53 was referred to Star Qld by Customer 15;

Particulars

See paragraph 625 above.

On 23 September 2018 and 9 July 2019, Customer 53 was referred to Star Qld by Customer 15. On each occasion, Customer 53 attended Star Qld on a rebate program without Customer 15 or her junket representative being present.

Customer 15 received a commission on amounts wagered by Customer 53, who Star Qld dealt with directly.

- f. Customer 53 was connected to customers at Star Sydney and Star Qld, including junket funders, junket operators and junket representatives who posed higher ML/TF risks, customers who Star Sydney and Star Qld considered had acted suspiciously, and customers who were foreign PEPs, such as Customer 10, Customer 11, Customer 15, Customer 16 and Customer 3;

Particulars

See paragraphs 1713.b and 1713.c.

Suspicious CCF connections

On 12 January 2017, the Chief Executive Officer and the Chief Financial Officer approved a CCF of \$10,000,000 for Customer 10. At the time, Star senior management were aware that Customer 10

intended to use this CCF to fund Customer 53's play for \$1,000,000 on a junket operated by Customer 11 but that Customer 10 did not intend to play on this junket.

In January and February 2018, Star Qld recorded that Customer 53 and Customer 10 were the only players on a junket operated by Customer 15. Customer 10 funded the junket and Customer 16 was the junket representative for the junket. On 24 January 2018, Customer 10 provided front money of \$10 million for the junket program through a CCF. These funds were subsequently transferred to Customer 15's junket operator account at Star Qld. Over the coming days, Customer 10 provided another \$15 million in front money to the junket program, taking the total front money to \$25 million. Customer 10 recorded a loss of over \$18 million on the program. Customer 53 recorded a win of \$348,000 on the program and received \$175,000 of these winnings in cash: SMR dated 7 February 2018.

On 15 April 2019 and 7 June 2019, the General Manager VIP Credit and Collections approved a \$2,000,000 CCF for Customer 16. Star was aware that the CCF was proposed to fund Customer 53's play.

Suspicious remittance connections

On 7 February 2018, a Star Sydney customer remitted \$900,000 to Customer 16's account at Star Qld. Customer 16 then remitted the funds to his Star Sydney account, and then again to Customer 53's Star Sydney account. Star Qld was advised that Customer 53 was travelling to Star Sydney to play, but considered it was unusual for Customer 16 to transfer the funds to Customer 53 when he had recorded winnings on the junket and had already taken \$175,000 of those winnings in cash: SMR dated 7 February 2018.

On 9 July 2020, Customer 16 remitted \$500,000 to Customer 53's Star Sydney account for Customer 53 to play on a junket operated by Customer 3. Customer 53 then utilised these funds on the junket, recording a turnover of \$5,150,000 and a loss of \$505,000. Customer 53 subsequently withdrew \$100,000 in cash from his Star Sydney account. Star Sydney considered that this transaction was suspicious due to the large amount of cash, and given that Customer 16 had transferred the funds for the purpose of funding Customer 53's junket play and Customer 53 had recorded a loss of \$505,000: SMR dated 10 July 2020.

- g. Customer 53 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2021, Star Sydney recorded high and escalating turnover totalling \$589,891,425 for Customer 53;
 - i. between 2016 and 2021, Star Sydney recorded high individual rated turnover totalling \$10,767,776 for Customer 53; and

Particulars

See paragraph 752 above.

In 2016, Customer 53's individual rated turnover at Star Sydney was \$3,447,933.

In 2017, Customer 53's individual rated turnover at Star Sydney was \$2,418,328.

In 2018, Customer 53's individual rated turnover at Star Sydney was \$282,096.

In 2019, Customer 53's individual rated turnover at Star Sydney escalated to \$4,009,207.

From 2020, when closures due to the COVID-19 pandemic commenced, Customer 53 continued to record individual rated turnover at Star Sydney.

In 2020, Customer 53's individual rated turnover at Star Sydney was \$556,923.

In 2021, Customer 53's individual rated turnover at Star Sydney was \$53,289.

- ii. between 2016 and 2021, Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$579,123,649 for Customer 53, with losses of \$9,773,245;

Particulars

See paragraph 623 above.

In 2016, Customer 53's turnover on individual rebate programs at Star Sydney was \$37,157,835 with wins of \$440,230.

In 2017, Customer 53's turnover on individual rebate programs at Star Sydney was \$25,641,304 with wins of \$118,290.

In 2018, Customer 53's turnover on individual rebate programs at Star Sydney was \$15,900,950 with losses of \$709,525.

In 2019, Customer 53's turnover on individual rebate programs at Star Sydney had escalated to \$221,119,340 with losses of \$4,239,940.

From 2020, when COVID-19 closures commenced, Customer 53 continued to record high and escalating turnover on individual rebate programs at Star Sydney.

In 2020, Customer 53's turnover on individual rebate programs at Star Sydney had further escalated to \$275,222,350 with losses of \$4,819,830.

In 2021, Customer 53's turnover on individual rebate programs at Star Sydney was \$4,081,870 with losses of \$562,470.

- h. Customer 53 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2019, Star Qld recorded high and escalating turnover totalling \$63,682,970 for Customer 53;
 - i. between 2017 and 2018, Star Qld recorded high individual rated turnover totalling \$57,070 for Customer 53; and

Particulars

See paragraph 752 above.

In 2017, Customer 53's individual rated turnover at Star Gold Coast was \$30,450.

In 2018, Customer 53's individual rated turnover at Star Gold Coast was \$26,620.

- ii. between 2018 and 2019, Star Qld recorded high and escalating turnover on individual rebate programs totalling \$63,625,900 for Customer 53, with wins of \$1,603,100;

Particulars

See paragraph 623 above.

In 2018, Customer 53's turnover on individual rebate programs was \$10,594,740 with losses of \$312,000.

In 2019, Customer 53's turnover on individual rebate programs was \$53,031,160 with wins of \$1,915,100.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 53 by remitting large amounts of money into, out of and within the casino environment via his accounts:

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 20 July 2017, Star Sydney received a telegraphic transfer of \$300,000 from Customer 53's personal bank account: SMR dated 7 February 2018.

On 2 December 2021, Star Sydney received a telegraphic transfer totalling \$600,000, which it made available to Customer 53's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 13 February 2019 and 21 March 2019, Star Sydney sent three telegraphic transfers totalling \$3,198,620 from Customer 53's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349.

On 7 February 2018, Star Sydney facilitated a transfer of \$900,000 from Customer 16's account to Customer 53's account. Customer 16 had himself received the funds from the account of another Star Sydney customer: see paragraph 1713.f.

On 22 September 2018 and 8 July 2019, Star Sydney sent two transfers totalling \$1,400,000 from Customer 53's FMA to Star Qld.

On 9 July 2020, Star Sydney facilitated a transfer of \$500,000 from Customer 16's account to Customer 53's account: see paragraph 1713.f.

On 14 July 2019, Star Sydney received a transfer of \$2,315,342 from Star Qld, which it made available to Customer 53. The funds were transferred for the purpose of redeeming an outstanding CCF.

- j. Star Qld provided designated services (items 31 and 32, table 1, s6) to Customer 53 by remitting large amounts of money out of and within the casino environment via his accounts:

Particulars

Remittances out of the casino environment

See paragraph 327 above.

For example, on 15 July 2019, Star Qld facilitated a transfer of \$825,790 from Customer 53's FMA at Star Gold Coast to an Australian bank account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

On 22 September 2018 and 8 July 2019, Star Qld received two transfers totalling \$1,400,000 from Star Sydney, both of which were made available to Customer 53's FMA at Star Gold Coast.

On 14 July 2019, Star Qld facilitated a transfer of \$2,315,342 from Customer 53's FMA at Star Gold Coast to Star Sydney.

- k. Customer 53 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1713.f above.

Between 2 February 2017 and 10 December 2021, Star Sydney gave the AUSTRAC CEO 42 TTRs detailing transactions made by Customer 53 totalling \$1,397,621:

- a. nine detailed account deposits and withdrawals totalling \$373,445;
- b. 30 detailed cash and chip exchanges with Star Sydney totalling \$985,500; and
- c. three detailed other transactions with Star Sydney totalling \$38,675.

On 26 November 2017, Customer 53 deposited \$95,000 in cash chips into his Star Sydney account. This cash was sourced from play where Customer 53 had supplied a \$76,950 in cash: SMR dated 7 February 2018.

- I. Customer 53 transacted using large amounts of cash and cash that appeared suspicious at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1713.f above.

Between 29 May 2017 and 27 September 2018, Star Qld gave the AUSTRAC CEO four TTRs detailing transactions made by Customer 53 at Star Gold Coast totalling \$161,641:

- a. one detailed an account deposit totalling \$40,000; and
- b. three detailed cash and chip exchanges with Star Gold Coast totalling \$121,641.

On 7 February 2018, Customer 53 withdrew \$150,000 in cash from Customer 15's FMA at Star Gold Coast: SMR dated 7 February 2018.

- m. between 2017 and 2020, Customer 53 was the subject of law enforcement enquiries at Star; and

Particulars

In June 2017, Star Qld became aware that a government agency was investigating Customer 53.

In September 2018, Star Sydney received a request from a law enforcement agency in respect of Customer 53.

On 10 July 2020, Star Sydney provided information about Customer 53 to a law enforcement agency.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Sydney and Star Qld had access to the investigations database: see paragraph 49 above.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 53's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 53 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

It was not until October 2019 that Star first recorded information about Customer 53's source of wealth and source of funds and identified that he was an import and export agent.

By October 2019, Customer 53's turnover at Star Sydney and Star Qld exceeded \$230 million, and Star was aware that Customer 53 was connected to, and had conducted suspicious transactions with, other customers who posed higher ML/TF risks, and customers who were foreign PEPs, such as Customer 10, Customer 11, Customer 15 and Customer 16.

After December 2021, Star recorded that Customer 53 was a business owner but Customer 53's gaming activity was still not commensurate with Star's understanding of his source of wealth.

By 2021, Customer 53's turnover at Star Sydney and Star Qld exceeded \$800 million. At no time did Star Sydney or Star Qld have adequate reason to believe that Customer 53's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6) provided to him.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 53

1714. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 53 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 53.
- a. On and from 30 November 2016, Customer 53 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 53's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from 26 May 2017, Customer 53 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 53's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 53 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 24 July 2014, Customer 53 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 6 August 2014, Customer 53 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 53 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 53's transactions

1715. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 53's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 53 Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 53 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 53's KYC information

1716. Star Sydney and Star Qld did not review, update and verify Customer 53's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC

information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 53's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 53's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 53's source of wealth or source of funds.

By November 2017, Star was aware that Customer 53 was a close associate of customers who posed higher ML/TF risks, including Customer 11, Customer 16 and Customer 15, and Customer 10, whom Star had identified as a foreign PEP. By July 2020, Star was also aware that Customer 53 was a close associate of Customer 3.

Between 2017 and 2020, Customer 53 was the subject of law enforcement enquiries on at least three occasions at Star.

During the relevant period, Customer 53's turnover at Star Sydney and Star Qld was over \$810 million.

See *Customer 53's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 53's KYC information on and from 30 November 2016 in respect of Star Sydney, and 26 May 2017 in respect of Star Qld, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 53.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 53's high ML/TF risks

1717. Had Star Sydney and Star Qld conducted ongoing customer due diligence, on and from 30 November 2016 in respect of Star Sydney, and 26 May 2017 in respect of Star Qld, by:
- a. identifying and assessing the ML/TF risks posed by Customer 53 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 53; and

- c. reviewing and updating Customer 53's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 53 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 53*.

ECDD triggers in respect of Customer 53

1718. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 53 following any ECDD triggers in respect of Customer 53.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1719. Customer 53:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 10 July 2020, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 53.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 7 February 2018, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 53.

1720. Each matter pleaded in paragraph 1719 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1721. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 53 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 53 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 53 and the provision of designated services to Customer 53 by Star Sydney and Star Qld, and whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

In February 2018, Star Sydney and Star Qld reviewed Customer 53's transactions and gaming activity, including in connection with a junket group. This review identified that:

- a. Between July 2017 and February 2018, he received high value remittances at Star Sydney, including a remittance of \$900,000 from another customer that Star Qld considered to be suspicious: see paragraphs 1713.f and 1713.i above;
- b. Between April 2017 and October 2017, he recorded a win of \$574,000 at Star Sydney; and
- c. Between October 2017 and November 2017, he recorded a loss of \$480,000 at Star Sydney: SMR dated 7 February 2018.

Between September 2018 and July 2020, Star conducted open source watchlist searches in respect of Customer 53 which identified no adverse matches.

In July 2020, Star conducted ECDD screening in respect of Customer 53.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 53's higher ML/TF risks: see Customer 53's risk profile above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 53's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 53's source of wealth or source of funds: see *Customer 53's risk profile*.

However, as of 13 September 2022, Star Sydney and Star Qld had not issued a WOL in respect of Customer 53.

- b. Customer 53 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 53 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 53 and the provision of designated services to Customer 53 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

As of 13 September 2022, Star Sydney and Star Qld had not issued a WOL in respect of Customer 53.

Contravention of s36 of the Act in respect of Customer 53

1722. By reason of the matters pleaded from paragraphs 1708 to 1721 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 53 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1723. By reason of the matters pleaded at paragraph 1722, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 53.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1724. By reason of the matters pleaded from paragraphs 1708 to 1721 above, on and from 26 May 2017, Star Qld:

- a. did not monitor Customer 53 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1725. By reason of the matters pleaded at paragraph 1724, Star Qld contravened s36(1) of the Act on and from 26 May 2017 with respect to Customer 53.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 54

1726. Customer 54 was a customer of Star Sydney during the relevant period. Between 2017 and 2018, Star Sydney recorded turnover exceeding \$50 million for Customer 54.

Particulars

Customer 54 was a customer of Star Sydney from at least 24 August 2009.

On 23 August 2022, Star Sydney issued a WOL in respect of Customer 54.

1727. Star Sydney provided Customer 54 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 8 May 2018, Star Sydney opened an FMA and SKA for Customer 54 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 54 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 54's risk profile.

1728. Customer 54 was a customer of Star Qld during the relevant period. Between 2016 and 2020, Star Qld recorded turnover exceeding \$1.2 billion for Customer 54.

Particulars

Customer 54 was a customer of Star Qld from at least 15 August 2009.

On 23 August 2022, Star Qld issued a WOL in respect of Customer 54.

1729. Star Qld provided Customer 54 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 15 August 2009, Star Qld opened an FMA and SKA for Customer 54 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 54 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 54's risk profile.

1730. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 54.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 54's risk profile

1731. On and from 30 November 2016, Customer 54, and the provision of designated services to Customer 54 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 54's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 54 had the following risk history:
 - i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 54;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 63 occasions between 23 March 2010 and 30 August 2016.

The SMRs reported that Customer 54 engaged in large cash deposits, exchanged large amounts of chips for cash, provided large bank cheques to Star Qld, withdrew large amounts in the form of casino cheques and engaged in high levels of gameplay at the casino.

- ii. Customer 54 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney, other than through junket programs. In 2015, Customer 54 recorded individual rated turnover totalling \$247,800;

Particulars

See paragraph 752 above.

- iii. Customer 54 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld, other than through junket programs. In 2015, Customer 54 recorded individual rated turnover totalling \$138,006,720;

Particulars

See paragraph 752 above.

- iv. Customer 54 engaged in large and unusual transactions, which had no apparent economic or visible lawful purpose at Star Qld;

Particulars

2016

In April 2016, Customer 54 conducted a series of large and unusual transactions at Star Qld:

- a. on 5 April 2016, Customer 54 redeemed the \$2,000,000 balance in his FMA for a casino cheque;
- b. on 6 April 2016, Customer 54 exchanged \$80,000 cash for chips at Star Qld;
- c. on 10 April 2016, Customer 54 exchanged \$120,000 cash for chips at Star Qld. He commenced gameplay and won approximately \$600,000. Star Qld believed that he kept any remaining chips on him;
- d. on 12 April 2016, a third party, whom Star Qld understood was a business associate of Customer 54, attempted to withdraw a chip purchase voucher of \$185,000 from his account, to give to Customer 54. This was refused, but the third party then withdrew \$185,000 in chips, and gave them directly to Customer 54; and
- e. two days later, on 14 April 2016, Customer 54 commenced gameplay with \$400,000 in chips which Star Qld could not account for, but which Star Qld suspected had been provided by the third party in private.

On 13 July 2016:

- a. Customer 54 presented \$2,000,000 in cash, comprised of \$50 and \$100 notes bundled in rubber bands, which Star Qld deposited into Customer 54's FMA;
 - b. Customer 54 then engaged in gameplay for a short period of time, recording a win, then requested a casino cheque for \$4,000,000; and
 - c. at the time of the transaction, Star Qld was aware that enquiries had been made as to whether the Cage would accept a third party depositing a similar amount of cash into Customer 54's FMA without Customer 54 being present for the transaction.
- v. Customer 54 transacted using bank cheques drawn in large amounts;

Particulars

2014

On 3 July 2014, Customer 54 presented a \$200,000 bank cheque and \$100,000 in cash, which was used to buy-in to gameplay.

2015

On 4 May 2015, Customer 54 deposited a \$400,000 bank cheque at Star Qld, and obtained chips. Following gameplay in which he won \$515,000, Customer 54 deposited \$685,000 in chips into his FMA, exchanged \$100,000 in chips for cash, then provided the remaining \$203,000 chips to another patron, Customer 23. Customer 23 then deposited those chips into his account.

On 7 May 2015, a third party attempted to deposit a \$500,000 bank cheque suspected to belong to Customer 54 into the third party's account, which Star Qld refused to process. The bank cheque was then deposited to Customer 54's account, with the proceeds being used to purchase chips for gambling. Star Qld recorded that Customer 54 lost \$480,000.

On 6 October 2015, Customer 54 presented a bank cheque of \$300,000, purchased chips, then lost the entire amount during the course of gameplay.

On 28 November 2016, Customer 54 presented a bank cheque of \$1,000,000, which was used to purchase chips at Star Qld. Customer 54 then won \$428,000, repurchased the bank cheque, then deposited \$300,000 in winnings into his FMA and exchanged \$70,000 in chips for cash. Star Qld observed that it was unable to account for \$50,000 in chips.

- vi. Customer 54 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in \$50 notes and \$100 notes at Star Qld;

Particulars

TTRs

Between 17 August 2009 and 28 November 2016, Star Qld gave the AUSTRAC CEO:

- a. 315 TTRs detailing chip and cash exchanges made by Customer 54 totalling \$16,786,402;
- b. 42 TTRs detailing account deposits made by Customer 54 totalling \$7,025,329;
- c. 8 TTRs detailing account withdrawals made by Customer 54 totalling \$1,025,550; and
- d. 2 TTRs detailing purchases of foreign currency made by Customer 54 totalling \$23,312.

2014

Between 8 April 2014 and 17 October 2014, Customer 54:

- a. exchanged a total of \$2,336,945 in chips for cash, across eight transactions;
- b. deposited \$500,000 in chips into his FMA across three transactions; and
- c. presented \$900,000 in cash which was used to purchase chips across six transactions.

Between 6 July 2014 and 24 July 2014, Customer 54:

- a. presented \$550,000 in cash which was used to purchase chips across five transactions; and
- b. exchanged a total of \$403,085 in chips for cash across three transactions.

On 31 July 2014, Customer 54 exchanged \$400,000 in chips for cash, then placed the cash into three bags, and gave one of those bags to Customer 23.

2015

Between 22 April 2015 and 21 November 2015, Customer 54:

- a. presented at least \$1,015,000 in cash which was used to purchase chips across nine transactions; and
- b. exchanged at least \$642,684 in chips for cash across three transactions.

2016

Between 17 February 2016 and 15 October 2016, Customer 54:

- a. presented at least \$2,821,000 in cash which was used to purchase chips across 12 transactions;
- b. deposited at least \$1,400,000 in chips into his FMA in a single transaction; and

- c. exchanged at least \$100,000 in chips for cash in a single transaction.
- vii. Customer 54 transacted using large amounts of cash at Star Sydney;

Particulars

TTRs

Between 25 August 2009 and 15 September 2015, Star Sydney gave the AUSTRAC CEO four TTRs detailing chip and cash exchanges made by Customer 54 totalling at least \$25,000.

- viii. Customer 54 engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Qld, including structuring, the involvement of third parties in transactions and cashing in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

Involvement of third parties in transactions

Between 2010 and 2016, persons that Star Qld suspected were acting on behalf of Customer 54 engaged in transactions indicative of the ML/TF vulnerability of involving third parties in transactions.

- a. On 22 December 2010, Star Qld observed Customer 54 hand two third parties cash which was used to buy chips, which were then collected by Customer 54 and used to play. Star Qld reported that a third party suspected to be acting on behalf of Customer 54 then cashed out \$5,000 in chips for cash on two occasions in quick succession.
- b. On 14 April 2014, Star Qld observed a third party exchanging \$117,000 chips belonging to Customer 54 for cash.
- c. On 6 May 2015, Star Qld observed a third party exchanging a total of \$94,000 in chips belonging to Customer 54 for cash, as well as purchasing \$70,000 in chips at the Cage on behalf of Customer 54.
- d. On two occasions in February 2016, Star Qld observed a third party exchanging a total of \$350,000 in cash for chips and then cashing out a total of \$52,850, in circumstances where Star Qld observed the third party and Customer 54 passing chips and cash to each other.
- e. On 22 February 2016, a third party presented a total of \$13,500 in chips to exchange for cash using Customer 54's rewards card in circumstances where Star Qld suspected that the chips belonged to Customer 54. Star Qld refused to process the transaction unless Customer 54 collected the cash. Customer 54 then attended the Cage but left before the transaction was completed, with the third party taking the cash.

- f. On 21 August 2016, Star Qld observed that a third party withdrew \$200,000 from his FMA in chips, which were then provided to Customer 54 who was seated at a gaming table. The third party had recently deposited two bank cheques totalling \$305,000 and \$100,000 in cash into his FMA.

Cashing-in large value chips with no evidence of play

On 15 August 2015, Star Qld recorded that Customer 54 and Customer 23 engaging in transactions indicative of the ML/TF typology of cashing-in large value chips with no evidence of play, when Customer 54 exchanged \$200,000 in chips for cash at the Star Qld cage. Star Qld suspected that at least \$100,000 in chips had been provided to Customer 54 by Customer 23 as it was aware that Customer 23 had sent a telegraphic transfer of \$100,000 to Star Qld and requested it be transferred to Customer 54. After Star Qld declined to process the transaction, Customer 23 then came to the casino to withdraw the funds in chips, which Star Qld observed were then provided to Customer 54.

- ix. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 54 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraph 347 to 349 above.

For example, between 22 April 2015 and 7 May 2015, Customer 54 received a total of \$1,200,000 into his Star Qld account from Customer 23's Star Qld account, across six transactions.

- x. designated services provided to Customer 54 involved the provision by Star Qld of casino cheques on at least four occasions;

Particulars

2014

On 13 April 2014, Customer 54 bought into a commission program using \$100,000 in his FMA at Star Qld, and won \$620,000. Customer 54 obtained a casino cheque for \$600,000 and a further \$100,000 in cash.

On 14 June 2014, Customer 54 obtained a \$1,000,000 casino cheque and \$211,000 from Star Qld after playing on a commission program. The following day, Customer 54 deposited \$100,000 in his FMA.

On 23 July 2014, Customer 54 exchanged \$700,000 in chips for a \$600,000 casino cheque and \$100,000 in cash while in the company of Customer 23, who was insisting that Customer 54 take the full amount in cash.

- xi. by April 2016, Star Qld senior management were aware that Customer 54 and his associates were displaying indicators of money-lending;

Particulars

On 14 April 2016, Customer 54 was added to the agenda of the PAMM, after Star Qld noticed that Customer 54 was playing with large amounts of cash and that there were indicators of money-lending between Customer 54 and a third party.

- xii. in 2016, Customer 54 was the subject of law enforcement enquiries on multiple occasions at Star;

Particulars

On at least five occasions between 28 January 2016 and 23 August 2016, Star Qld received requests in respect of Customer 54 from a law enforcement agency.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- xiii. in late 2016, Star provided information regarding his activities to law enforcement agencies on its own initiative; and

Particulars

In October and November 2016, Star Qld provided information in respect of Customer 54 to a law enforcement agency on two occasions, and noted that he was connected to Customer 23.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- xiv. by October 2016, Star senior management considered that Customer 54's risk rating should be raised from medium to high, which was not high for the purpose of the Act and Rules;

Particulars

On 13 October 2016, Customer 54 was added by Star Qld to the agenda of the PAMM and JRAM. On 14 October 2016, a JRAM meeting noted that Star Qld had provided information regarding Customer 54 to law enforcement on request and on its own initiative, and that he had recently conducted a transaction involving \$700,000 in old, damp notes.

Following the meeting, Star Sydney and Star Qld raised Customer 54's ML/TF risk rating to high, which was not high for the purpose of the Act and Rules at the time: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 54*.

Customer 54's risk profile from 30 November 2016

- b. Customer 54 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

- i. Customer 54 was a player on two junkets at Star Sydney operated by two junket operators including Customer 34; and
 - ii. in 2017, Star Sydney recorded a high turnover of \$19,278,272 for Customer 54's gaming activity on junket programs;
- c. designated services provided to Customer 54 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 54 was connected to other customers at Star Sydney and Star Qld, including junket operators such as Customer 35 and Customer 34 and other customers who posed high ML/TF risks, including Customer 23 and Customer 73;

Particulars

See particulars to paragraphs 1731.a.ix, 1731.a.x and 1731.h.

- e. Customer 54 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2017 and 2018, Star Sydney recorded high and escalating individual rated turnover totalling \$31,587,529 for Customer 54;

Particulars

In 2016, Customer 54's individual rated turnover was \$6,755,000.

In 2017, Customer 54's individual rated gaming turnover was \$24,832,529.

- f. Customer 54 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2020, Star Qld recorded high and escalating individual rated turnover totalling \$1,194,569,684 for Customer 54;

Particulars

In 2016, Customer 54's individual turnover was \$667,458,978.

In 2017, Customer 54's individual rated turnover was \$350,674,492.

In 2018, Customer 54's individual rated gaming turnover was \$175,120,682.

In 2019, Customer 54's individual rated turnover was \$1,208,254.

In 2020, Customer 54's individual rated turnover was \$107,278.

- g. Star Sydney and Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 54 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraph 347 to 349 above.

For example, on 2 May 2018, Customer 54 received \$1,231,690 into his Star Qld FMA from another customer's FMA at Star Qld.

Customer 54 then used the funds to purchase \$200,000 in chips:
SMR dated 3 May 2018.

By 8 May 2018, Customer 54 transferred \$1,700,000 from his FMA
at Star Gold Coast to his FMA at Star Sydney.

See particulars to paragraph 1731.h.

h. Star Qld was aware that Customer 54 and his associates had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose, including:

i. between 25 January 2017 and 29 January 2017, Star Qld suspected that Customer 54 was passing chips to another player, Customer 73;

Particulars

On 25 January 2017, Customer 54 presented a bank cheque of \$200,000 in exchange for chips. Customer 54 then provided \$100,000 in chips to Customer 73 before engaging in gameplay. Shortly afterwards, Customer 54 deposited \$600,000 in chips to his FMA and repurchased the \$200,000 cheque.

Between 25 January 2017 and 30 January 2017, Customer 73 engaged in gameplay, buying in with \$145,000 in chips, which Star Qld suspected came from Customer 54. During this period Customer 73 exchanged a total of \$705,000 in chips for cash across at least four transactions: SMR dated 31 January 2017.

ii. over the course of three days in March 2017, Star Qld recorded that Customer 54 was funding his gameplay using bank cheques and suspicious cash and recording large wins and losses;

Particulars

On 13 March 2017, Customer 54 exchanged a \$100,000 bank cheque and \$10,000 cash for chips at Star Qld. He recorded a loss of \$109,000: SMR dated 17 March 2017;

On 14 March 2017, Customer 54 presented a bank cheque for \$100,000 at a private gaming room at Star Qld and recorded a loss of \$88,200: SMR dated 17 March 2017;

On 16 March 2017, Customer 54 presented \$300,000 in bank cheques and \$250,000 in cash, comprised of two bundles of \$100,000 in \$100 notes in black plastic bags and \$50,000 in \$100 notes in rubber bands, at Star Qld. He recorded a win of \$990,500 and used the funds to repurchase the \$300,000 in bank cheques, cash-out \$200,000, and obtained a \$500,000 casino cheque: SMR dated 17 March 2017.

iii. in August 2017, Customer 54 gamed with funds which had originally been deposited as cash by a third party at Star Sydney;

Particulars

On 2 August 2017, a third party, Person 11, exchanged \$430,000 in mixed denominations for \$100 notes at Star Sydney, leaving the premises with the cash in a shopping bag.

In the early hours of 3 August 2017, a second third party deposited \$433,900 cash, consisting of \$100 notes and presented in a shopping bag, into her FMA at Star Sydney. She then requested the funds be transferred to her FMA at Star Qld.

The second third party then transferred the full amount of \$433,820 to Customer 54's Star Gold Coast FMA. Customer 54 used these funds for gameplay and recorded a loss of \$504,700.

Star Qld was aware that the third parties were representatives for a junket operator, Customer 35: SMR dated 4 August 2017.

- iv. by 5 October 2018, Star Qld was aware that Customer 54 was part of a group of customers who were moving funds between each other with no visible lawful purpose;

Particulars

On 3 and 4 October 2018, Star Qld recorded the following series of transactions:

- a. Customer 23 deposited \$200,000 into his FMA by telegraphic transfer;
- b. Customer 23 and Customer 54 attended the Star Qld cage and Customer 23 purchased \$120,000 in chips, which he provided to Customer 54;
- c. Customer 54 exchanged \$33,250 chips for cash and handed \$120,000 chips to Customer 23 who deposited them back into his FMA;
- d. Customer 23 then transferred \$100,000 to the FMA of a third party, Person 56, who used them to purchase \$100,000 in chips;
- e. Person 56 then deposited a \$150,000 bank cheque into his FMA, accompanied by Customer 23, and provided the chips to Customer 73 who used them to engage in gameplay;
- f. Customer 23 then withdrew \$120,000 from his FMA and used it to purchase chips, which he provided to Person 56, who then provided them to Customer 73 who used them to engage in gameplay;
- g. Following gameplay, Customer 73 provided Customer 23 with any unidentified number of chips and exchanged \$30,000 in chips for cash; and
- h. Customer 23 deposited \$140,000 in chips into his FMA: SMR dated 12 October 2018.

By 5 October 2018, Star Qld staff contacted the General Manager, Risk and Chief Risk Officer advising of possible money lending

between Customer 54's associates, including Customer 73 and Person 56.

- v. by 17 July 2019, Star Qld was aware that a third party was purchasing chips for Customer 54, in circumstances where the third party did not intend to play with the chips and where Customer 54 subsequently recorded large losses;

Particulars

On 16 July 2019, a third party exchanged a \$200,000 bank cheque for chips at Star Qld. Shortly after this transaction, Customer 54 arrived at a gaming table with \$200,000 chips despite having no record of purchase. Star Qld suspected that the chips came from the third party. Customer 54 lost the entire amount, as well as an additional \$9000.

On 17 July 2019, exchanged a \$490,000 bank cheque for chips, advising Star Qld that the entire amount would be given to Customer 54. Customer 54 recorded a loss of \$485,300: SMR dated 17 July 2019.

- i. designated services provided to Customer 54 included EGM activity at Star Qld;

Particulars

On 8 October 2017 and 27 July 2018, Star Qld gave the AUSTRAC CEO two TTRs detailing EGM payouts to Customer 54 totalling \$28,100.

- j. Customer 54 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

For example, on 8 May 2018, Customer 54 presented \$100,000 in cash in \$100 notes for chips at Star Sydney.

- k. Customer 54 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands, plastic bags and butchers' paper at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 28 December 2016 and 28 February 2020, Star Qld gave the AUSTRAC CEO 90 TTRs totalling \$11,540,050:

- a. 68 TTRs detailing chip and cash exchanges made by Customer 54 totalling \$4,225,075;
- b. 4 TTRs detailing account withdrawals made by Customer 54 totalling \$1,270,725; and
- c. 18 TTRs detailing account deposits made by Customer 54 totalling \$6,044,250.

Large and suspicious cash transactions in 2016

On two occasions in December 2016, Customer 54 presented a total of a total of \$445,000 at Star Qld, some of which was wrapped in rubber bands, which he used to gamble. Star Qld recorded that he lost all the funds: SMR dated 29 December 2016.

Large and suspicious cash transactions in 2017

In February 2017, Customer 54 engaged in the following cash transactions at Star Qld:

- a. On 2 February 2017, Customer 54 deposited \$150,000, consisting of \$100,000 in straps and \$50,000 in rubber bands, into his FMA at Star Qld: SMR dated 3 February 2017;
- b. On 5 February 2017, Customer 54 exchanged \$700,000 chips for \$300,000 cash. Customer 54 also repurchased two bank cheques worth a total of \$200,000 at Star Qld: SMR dated 7 February 2017;
- c. On 6 February 2017, Customer 54 arrived at Star Qld with a third party who presented \$150,000 cash in a black bag with Star Qld straps dated 31 January 2017, in circumstances where Star Qld had no record of Customer 54 cashing out that amount: SMR dated 7 February 2017; and
- d. On 10 February 2017, Customer 54 presented \$200,000 cash in a carry bag with Star Qld straps dated 31 January 2017: SMR dated 13 February 2017.

On 28 July 2017, Customer 54 presented a bank cheque for \$100,000 at Star Qld and lost the full amount. He then exchanged \$240,000 cash presented in a black shopping bag for chips. The cash was wrapped in butchers' paper, pressed tightly together, was dirty to touch, creaked slightly when touched, and consisted of \$100 notes banded in \$5000, \$10,000, \$40,000, and \$50,000 bundles. The \$5000 bundles had various casinos' straps: SMR dated 31 July 2017.

In August 2017, Customer 54 presented a total of \$1,495,000 at Star Qld.

- a. On 2 August 2017, Customer 54 exchanged \$100,000 cash consisting of \$50 notes held with rubber bands in \$5000 bundles for chips at Star Qld. He engaged in gameplay and won \$690,000 however Star did not have any record of Customer 54 cashing out or depositing the chips: SMR dated 3 August 2017.
- b. On 8 August 2017, Customer 54 presented \$400,000 cash, consisting of \$100 notes bundled with rubber bands, in a blue plastic bag which was inside a brown paper bag at Star Qld. Customer 54 lost \$488,500 in chips this day. Star Qld was unable to ascertain the source of the other funds lost: SMR dated 11 August 2017.

- c. On 9 August 2017, Customer 54 exchanged \$300,000 cash consisting of \$200,000 in black plastic bags and \$100,000 wrapped in white butchers' paper in a green bag, for chips at Star Qld. He lost the full amount: SMR dated 11 August 2017.
- d. On 10 August 2017, Customer 54 presented \$695,000, consisting of all \$50 notes bundled using rubber bands and presented in black plastic bags inside of a box, at Star Qld. Customer 54 used the entire amount for gameplay and recorded a win of \$1,857,750. Star Qld had no record of Customer 54 depositing or exchanging his winnings on this night: SMR dated 11 August 2017.

Large and suspicious cash transactions in 2018

See particulars to paragraph 1731.h.

On 22 February 2018, Star Qld staff observed that a third party gave Customer 54 cardboard boxes containing \$1,000,000 cash, bundled in lots of \$5,000, in the carpark of the Star Qld. Customer 54 took the boxes to a private gaming room and exchanged the cash for chips. Following gameplay, Star Qld recorded that Customer 54 had won \$888,500: SMRs dated 23 and 27 February 2018.

On 12 March 2018, Customer 54 presented \$189,900 cash, \$45,000 comprised loose notes in rubber bands and the balance of \$135,000 was in Star Qld straps dated 12 and 13 February 2022. Star Qld's records did not support a payout of that amount. Customer 54 exchanged the cash for chips and lost the entire sum during gameplay: SMR dated 13 March 2018.

On 21 March 2018, Customer 54 presented \$45,000 in cash in exchange for chips. Star Qld reviewed Customer 54's prior transactions, including exchanges of cash and chips over the course of the previous days with two third parties, in order to trace where the cash may have come from, but was unable to account for part of the cash held by Customer 54: SMR dated 21 March 2018.

On 2 August 2018, Customer 54 arrived at Star Qld with \$100,000 cash in \$100 notes, half of which was loose in bands the other half of which was in Star Qld straps dated April, May, and July 2018: SMR dated 3 August 2018.

- I. Customer 54 transacted using bank cheques drawn in large amounts at Star Qld;

Particulars

2017

See particulars to paragraphs 1731.h and 1731.k.

2018

By 14 May 2018, Customer 54 presented a bank cheque for \$200,000 in exchange for chips at Star Qld. Following gameplay, Star Qld recorded that Customer 54 had lost \$134,350 and

exchanged \$53,000 in chips for cash. Star Qld observed that it appeared Customer 54 had changed to presenting bank cheques, instead of cash, to facilitate gameplay at Star Qld: SMR dated 17 May 2018.

By July 2018, Star Qld formed suspicions that Customer 54 and a third party were using bank cheques to shift large amounts of funds between one another. On 19 July 2018, Star Qld recorded that the third party had presented a \$200,000 bank cheque for deposit into his FMA, purchased \$50,000 in chips, which he later deposited back into his FMA. The following day, on 20 July 2018, Star Qld recorded that Customer 54 bought into a game using \$200,000 in chips, which it suspected came from the third party, who had withdrawn \$200,000 in chips from his FMA shortly before. Two days later, on 23 July 2022, Customer 54 exchanged another \$200,000 bank cheque for chips, and lost all the funds: SMR dated 26 July 2018.

On 31 July 2018, Customer 54, accompanied by a third party, exchanged an \$800,000 bank cheque for chips, which he lost in two minutes of play: SMR dated 3 August 2018.

m. Customer 54 engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Qld, including:

i. the involvement of third parties in transactions;

Particulars

See paragraph 25 above.

On 25 January 2017, a third party attended the cage within a private gaming room at Star Qld and presented \$200,000 in cash to exchange for chips. After the chips were placed on the counter, Customer 54 attended the cage and took possession of the chips: SMR dated 2 February 2017.

On 1 January 2018, Customer 54 arrived at a private gaming room at Star Qld with two associates. The associates exchanged \$20,000 in cash for chips presenting Customer 54's membership card, but the cage refused to redeem the chips unless Customer 54 was present. The following day, Customer 54's associates exchanged a further \$25,500 using Customer 54's membership card but on this occasion, he left the chips for the associates to pick up. Star Qld did not record any gameplay by the associates, only Customer 54: SMR dated 4 January 2018.

ii. offsetting; and

Particulars

See paragraph 25 above.

For example, on 27 February 2018, Customer 54 and an individual he referred to as "the boss" presented a suitcase of \$1,199,750 in cash wrapped in deteriorating rubber bands. Approximately \$30,000

of the cash was in \$100 notes, with the remainder in \$50 notes.
Customer 54 exchanged the cash for chips.

A senior manager at Star Qld approached Customer 54 after gameplay. Customer 54 greeted them and commented that “the boss came and I lost”. The manager queried the source of funds for the cash, noting that Customer 54 usually used bank cheques. Customer 54 advised the senior manager that he exchanged money with a friend which meant he used a money exchange to get cash in Australia: SMR dated 10 March 2018.

- iii. cashing-in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

For example, on 12 May 2018, Customer 54 and a third party, known to Star Qld as Customer 54’s driver and personal assistant attended the cage and presented \$37,500 in chips for cash. When the cash was presented, Customer 54 took the cash and as he was walking away from the counter, gave the cash to the third party: SMR dated 17 May 2018.

- n. Customer 54 had access to private gaming rooms at Star Sydney and Star Qld;

Particulars

See paragraph 616 above.

Customer 54 had access to private gaming rooms at Star Sydney and Star Qld, including the Sovereign Room, Lakes Salons, Rivers Salons and Springs Salons.

- o. on 18 March 2017, Star Qld was aware that risk intelligence screening raised a possible match with Customer 54’s name;

Particulars

On 18 March 2017, Star Qld became aware that Customer 54’s name matched with a risk intelligence screening result to an individual involved in a fraud ring in a foreign country. Star Qld asked a law enforcement agency if it was able to confirm that the person was Customer 54.

By 6 December 2018, Star Qld was unable to confirm if the match was in fact related to Customer 54.

- p. throughout 2017 and 2019, Star provided information to law enforcement regarding Customer 54’s activities at Star Qld;

Particulars

On multiple occasions between January 2017 and December 2017, a law enforcement agency requested information about the activities of Customer 54 and his associates. Star Qld responded to these requests.

In May 2018, Star Qld provided information to law enforcement pursuant to a warrant.

On 29 June 2018, Star Qld was advised that Customer 54 was being investigated in connection with money laundering.

Between July 2018 and November 2018, Star Qld responded to several requests for information in respect of Customer 54 from a law enforcement agency.

On 3 July 2019, Star Qld was advised that:

- a. reports alleged that Customer 54 was involved in fraud, organised crime and money laundering between 2016 and 2019;
- b. Customer 54 was currently under investigation by an Australian government agency; and
- c. it was open to Star to cease doing business with Customer 54.

Despite this information, it was not until 23 August 2022 that Star Sydney and Star Qld issued a WOL in respect of Customer 54.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- q. in 2018, Customer 54 was the subject of law enforcement enquiries at Star; and

Particulars

On 16 November 2018, Star Sydney received a request from a law enforcement agency in respect of Customer 54.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database.

Star Qld had access to the investigations database: see paragraph 49 above.

- r. Star Sydney and Star Qld did not have adequate reason to believe that Customer 54's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 54 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld recorded that Customer 54's occupation was a property developer.

From 2016 and escalating in 2017, Customer 54 presented large amounts of cash, and cash that appeared suspicious at Star Qld, with Star Qld giving the AUSTRAC CEO 90 TTRs with respect to threshold cash transactions exceeding \$11 million. Customer 54's cash transactions were indicative of ML/TF typologies and vulnerabilities.

Between 2016 and 2020, Customer 54's individual rated turnover was significant, exceeding \$1.1 billion at Star Qld and \$31 million at Star Sydney.

Between 2016 and 2019, Star Qld was contacted by law enforcement agencies for information in respect of Customer 54's activity at the casinos.

By February 2018, Star Qld was aware that Customer 54's source of funds was suspicious, after Customer 54 disclosed that he used informal money-changing services in Australia in order to access large amounts of cash.

By June 2018, Star Qld was aware that Customer 54 was being investigated for money laundering.

Despite the matters outlined above, at no time did Star Sydney or Star Qld take appropriate steps to verify its assumptions regarding Customer 54's source of wealth or source of funds.

It was not until March 2020, when Customer 54 sought to return to Star Qld to gamble, that the Star Qld AML/CTF administrator identified that further questions should be asked of Customer 54's source of funds, including his use of bank cheques to fund his gambling activity: see *ECDD triggers in respect of Customer 54*.

It was not until 23 August 2022 that Star Sydney and Star Qld issued a WOL in respect of Customer 54.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 54

1732. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 54 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 54.
1733. At no time was Customer 54 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 15 April 2016, Customer 54 was rated high risk, not being high risk for the purpose of the Act and Rules, which was recorded against Customer 54's first account number.

On 9 November 2016, Customer 54 was rated high, not being high risk for the purpose of the Act and Rules, recorded against his second account number.

Monitoring of Customer 54's transactions

1734. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 54's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 54, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 54 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 54's KYC information

1735. Star Sydney and Star Qld did not review, update and verify Customer 54's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 54's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 54's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 54's source of wealth and source of funds were not legitimate: see *Customer 54's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 54's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 54.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See *ECDD triggers in respect of Customer 54*.

Failure to apply appropriate due diligence suited to Customer 54's high ML/TF risks

1736. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 54 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 54; and
 - c. reviewing and updating Customer 54's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 54 as a high risk customer for the purpose of the Act and Rules at a time before Customer 54 was issued with a WOL at Star Sydney.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1737. Had Star Sydney rated Customer 54 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 54 at a time before Customer 54 was issued with a WOL at Star Sydney.

Particulars

Rule 15.9 of the Rules.

1738. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 54 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 54; and
 - c. reviewing and updating Customer 54's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 54 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 54*.

ECDD triggers in respect of Customer 54

1739. Star Qld was required to apply the ECDD Programs to Customer 54 following any ECDD triggers in respect of Customer 54.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1740. Customer 54 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 29 December 2016 and 29 January 2020, Star Qld gave the AUSTRAC CEO 35 SMRs with respect to Customer 54.

1741. The matter pleaded in paragraph 1740 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1742. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 54 following an ECDD trigger because:

- a. on each occasion prior to 23 August 2022 that Star Qld conducted ECDD in respect of Customer 54 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 54 and the provision of designated services to Customer 54 by Star Qld, and whether those risks were within Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

On 18 March 2017, Star Qld performed a risk intelligence screening, which reported that Customer 54's name matched to an individual involved in a fraud ring in a foreign country.

Star Qld asked a law enforcement agency if it was able to confirm that the person was Customer 54. By 6 December 2018, Star Qld was still unable to confirm that the match related to Customer 54.

In March 2018, Star's investigations team noted in a monthly report that in respect of Customer 54:

- a. it was receiving ongoing requests for information in respect of Customer 54 from different law enforcement agencies; and
- b. Customer 54 had been placed on the PAMM minutes for ongoing customer due diligence.

On 17 July 2019, Star Qld conducted ECDD in respect of Customer 54.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 54's higher ML/TF risks including:

- a. from 2016 and escalating in 2017, Customer 54 presented large amounts of cash, and cash that appeared suspicious at Star Qld,

with Star Qld giving the AUSTRAC CEO 90 TTRs with respect to threshold cash transactions exceeding \$11 million. Some of these cash transactions were also indicative of ML/TF typologies and vulnerabilities;

- b. between 2016 and 2020, Customer 54's individual rated turnover was significant, exceeding \$1.1 billion at Star Qld and \$31 million at Star Sydney; and
- c. between 2016 and 2019, Star Qld was aware that law enforcement agencies suspected that Customer 54 and his associates were involved in money laundering and had commenced investigations into his financial and gaming activities.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 54's source of funds or source of wealth, including that by February 2018, Star Qld was aware that Customer 54's source of funds was suspicious, after Customer 54 disclosed that he used informal money-changing services in Australia in order to access large amounts of cash.

By reason of the matters set out in *Customer 54's risk profile*, there were real risks that Customer 54's source of wealth and source of funds were not legitimate.

On 23 August 2022, Star issued a WOL in respect of Customer 54.

- b. Customer 54 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 23 August 2022 that Customer 54 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 54 and the provision of designated services to Customer 54 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

2017

In February 2017, Customer 54 was added to the agenda of the JRAM. The minutes of the meeting recorded that Customer 54:

- a. was on a watch list; and
- b. had been identified as a big winner, potentially engaging in advantage play.

Star Qld's due diligence records did not contain any details of decisions made following the JRAM.

2018

On 21 March 2018, Customer 54 was added to the agenda of the JRAM. The minutes of the meeting recorded that:

- a. had been monitored since 2010; and
- b. was the subject of approximately 100 SMRs.

The minutes record that the JRAM determined to "Retain/Monitor" Customer 54.

In determining to retain and monitor Customer 54, the JRAM did not have regard to the higher ML/TF risks associated with Customer 54's source of wealth and source of funds, in circumstances where it was on notice of:

- a. law enforcement agencies were investigating Customer 54 for money laundering;
- b. Star's own suspicions regarding Customer 54's source of wealth; and
- c. Customer 54's large value financial and gaming activities at Star Sydney and Star Qld.

2020

On 2 March 2020, Customer 54 indicated that he wished to return to Star Qld to gamble. The General Manager, Gaming Operations asked Star Qld's AML/CTF administrator whether there were any concerns with Customer 54.

On 3 March 2020, Star Qld's AML/CTF administrator indicated that there were AML concerns with respect to Customer 54 in 2019, particularly around his source of funds and the use of bank cheques to fund his gambling activity. She indicated that Star Qld should ask the patron to provide details on the source of funds used for gambling prior to arrival, advise the patron that he will be questioned about the source of funds if he presents large amounts of cash or if third parties are involved in giving Customer 54 bank cheques or funds without evidence or little evidence of play.

There are no records in Star's due diligence records that Customer 54 was advised of these matters.

On 23 August 2022, Star issued a WOL in respect of Customer 54.

Contravention of s36 of the Act in respect of Customer 54

1743. By reason of the matters pleaded from paragraphs 1726 to 1742, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 54 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and

- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1744. By reason of the matters pleaded from paragraphs 1726 to 1742, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 54 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1745. By reason of the matters pleaded at paragraphs 1743 and 1744, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 23 August 2022 with respect to Customer 54.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 55

1746. Customer 55 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$96 million for Customer 55.

Particulars

Customer 55 was a customer of Star Sydney from at least 14 April 2016.

On 23 May 2021, Star Sydney issued a WOL in respect of Customer 55.

1747. Star Sydney provided Customer 55 with designated services within the meaning of tables 1 and 3, s6 of the Act during the relevant period.

Particulars

On 23 July 2018, Star Sydney opened an FMA and SKA for Customer 55, which were closed on 4 February 2022.

While a customer of Star Sydney, Customer 55 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 55's risk profile* below.

1748. Customer 55 was a customer of Star Qld during the relevant period. Between 2018 and 2021, Star Qld recorded turnover exceeding \$1.1 million for Customer 55.

Particulars

Customer 55 was a customer of Star Qld from at least 21 July 2018.

On 24 May 2021, Star Qld issued a WOL in respect of Customer 55.

1749. Star Qld provided Customer 55 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 21 July 2018, Star Qld opened an FMA for Customer 55 which was closed on 4 February 2022.

See Customer 55's risk profile below.

1750. At all times from 30 November 2016 and 21 July 2018 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 55.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 55's risk profile

1751. On and from 30 November 2016 in respect of Star Sydney, and 21 July 2018 in respect of Star Qld, Customer 55, and the provision of designated services to Customer 55 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 55's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 55 had the following risk history at Star Sydney:
- i. designated services provided to Customer 55 included substantial EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

On 21 April 2016, Star Sydney gave the AUSTRAC CEO a TTR detailing an EGM payout to Customer 55 totalling \$23,770.

- ii. Customer 55 transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

Between 3 May 2013 and 29 November 2016, Star Sydney gave the AUSTRAC CEO 15 TTRs detailing cash and chip exchange transactions made by Customer 55 totalling \$329,825.

- iii. By October 2016, Star Sydney was aware of reports that Customer 55 was involved in international goods smuggling and illegal transmission of funds;

Particulars

On 30 October 2016, Star identified an exact name match for Customer 55 after conducting a risk intelligence search.

On 4 November 2016, Star's AML team reviewed this record and identified that it related to a media article published in 2010 which reported that:

- a. Customer 55 was an airline employee in Australia;
- b. Customer 55 was involved in an international smuggling network that, between August 2002 and May 2010, smuggled electronic consumer goods and illegally remitted funds between Australia and a foreign jurisdiction, and paid employees in a foreign airport to smuggle goods past customs officials;
- c. employees of the airline had been arrested in Australia for illegally transporting electronic consumer goods to the foreign jurisdiction; and
- d. these employees were suspected to be involved in an electronic consumer goods smuggling ring in Australia.

The AML team forwarded this article to Star's Investigations team to confirm these reports but Star's records do not record any response.

Customer 55's risk profile from 30 November 2016

- b. Customer 55 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$96,473,442 for Customer 55;

Particulars

See paragraph 752 above.

In 2016, Customer 55's individual rated turnover at Star Sydney was \$5,688,665.

In 2017, Customer 55's individual rated turnover at Star Sydney was \$9,108,468.

In 2018, Customer 55's individual rated turnover at Star Sydney escalated to \$26,227,345.

In 2019, Customer 55's individual rated turnover at Star Sydney was \$7,416,124.

From 2020, when closures due to the COVID-19 pandemic, Customer 55's rated turnover remained high.

In 2020, Customer 55's individual rated turnover at Star Sydney escalated to \$31,466,345.

In 2021, Customer 55's individual rated turnover at Star Sydney was \$16,566,496.

- c. Customer 55 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. Between 2018 and 2021, Star Qld recorded high turnover totalling \$1,138,859 for Customer 55;
- i. between 2018 and 2021, Star Qld recorded high individual rated turnover totalling \$1,039,851 for Customer 55; and

Particulars

See paragraph 752 above.

In 2018, Customer 55's individual rated turnover at Star Qld was \$104,714.

In 2019, Customer 55's individual rated turnover at Star Qld was \$296,593.

In 2021, Customer 55's individual rated turnover at Star Qld was \$638,544.

- ii. in 2018, Star Qld recorded turnover on individual rebate programs totalling \$99,008 for Customer 55, with wins of \$2,200;

Particulars

See paragraph 623 above.

In 2018, Customer 55's turnover on individual rebate programs at Star Qld was \$99,008 with wins of \$2,200.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 55 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327 above.

On 25 March 2021, Star Sydney sent a telegraphic transfer of \$70,000 from Customer 55's account to an Australian bank account.

The above transaction was conducted through the Star Parton account channel.

Remittances into the casino environment

See paragraph 327 above.

Between 5 December 2020 and 5 May 2021, Star Sydney received 16 telegraphic transfers totalling \$270,800, each of which was made available to Customer 55's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

- e. designated services provided to Customer 55 included EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

On 3 June 2020, Star Sydney gave the AUSTRAC CEO a TTR detailing an EGM payout to Customer 55 totalling \$70,000.

- f. Star Sydney was aware that:
- i. Customer 55 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small denomination notes and in rubber bands; and
 - ii. Customer 55 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring and purchasing large value chips with little or no evidence of play;

Particulars

See paragraphs 25, and 611 to 618 above.

TTRs

Between 8 June 2017 and 6 May 2021, Star Sydney gave the AUSTRAC CEO 202 TTRs detailing transactions made by Customer 55 totalling \$4,603,800 including:

- a. three TTRs detailing account deposits and withdrawals totalling \$90,000;
- b. 183 TTs detailing cash and chip exchange transactions totalling \$4,493,800; and
- c. One TTR detailing a cheque deposit totalling \$20,000.

Transactions indicative of structuring

Between 21 March 2018 and 30 June 2020, Customer 55 conducted at least 81 transactions indicative of the ML/TF typology of structuring at Star Sydney, totalling at least \$660,000: SMRs dated 29 March 2018, 30 April 2018, 27 July 2018, 3 September 2018, 14 November 2018, 16 November 2018, 3 June 2019, 14 August 2019, 29 October 2019, 20 January 2020, 16 March 2020, 22 June 2020 and 1 July 2020.

On several occasions, the cash was presented in \$50 notes bundled in units of \$10,000 with elastic bands.

During this period, Star Sydney repeatedly recorded its suspicions that Customer 55's transactions were indicative of an attempt to avoid the threshold reporting obligation.

Transactions indicative of purchasing large value chips with little or no evidence of play

On 13 March 2020, Customer 55 conducted a transaction indicative of the ML/TF typology of purchasing large value chips with little or no evidence of play at Star Sydney, totalling \$100,000.

- g. Star Qld was aware that Customer 55 transacted using large amounts of cash and cash that appeared suspicious;

Particulars

Between 23 July 2018 and 5 August 2019, Star Qld gave the AUSTRAC CEO six TTRs detailing transactions made by Customer 55 at Star Gold Coast totalling \$109,526, including:

- a. one TTR detailing an account deposit of \$25,000;
- b. four TTRs detailing cash and chip exchange transactions totalling \$56,923; and
- c. one TTR detailing another cash transaction totalling \$27,603.

On 21 July 2018, Customer 55 deposited \$25,000 in cash into his FMA at Treasury Brisbane and withdrew the same value in chips. After playing for 30 minutes and recording a win of approximately \$2,700, Customer 55 withdrew \$27,603 in cash as the program settlement. Around this time, Customer 55 purchased another \$6,700 in chips with cash, engaged in play in which he recorded a win of approximately \$10,000, and cashed out for this amount: SMR dated 23 July 2018.

- h. between 2018 and 2020, Customer 55 was the subject of enquiries and correspondence between law enforcement and Star;

Particulars

On 29 March 2018, Star Sydney informed a law enforcement agency that it had identified a possible match between Customer 55 and a person who was related to an electronic smuggling ring in Australia operating between 2002 and 2010 and enquired whether the agency could confirm these details.

Star Sydney had first identified these reports in October 2016: see paragraph 1751.a.iii.

The law enforcement agency did not confirm these reports but Star Sydney became aware during this time that Customer 55 had been charged by another law enforcement agency for failing to declare cash on entry to Australia.

On 1 May 2018, Star Sydney received a request for information in respect of Customer 55 from a law enforcement agency.

On 20 July 2018, Star Sydney received a request from a law enforcement agency requesting further information in respect of Customer 55 including his gaming history. Star Sydney provided information to the agency in response to this request.

On 3 July 2020, Star Sydney informed a law enforcement agency that Customer 55 had conducted transactions just below the reporting threshold and that it had previously identified reports possibly showing a connection between Customer 55 and the supply of drugs in a foreign jurisdiction. It enquired as to whether the agency had any further information in respect of these reports.

On 14 July 2020, Star Sydney received a request from the agency seeking further information with respect to Customer 55.

On 18 August 2020, Star Sydney received a request from the agency seeking updated documents with respect to Customer 55.

On 19 August 2020, Star Sydney received a request from the agency seeking patron documents with respect to Customer 55. Star provided information to the agency in response to this request.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database.

Star Qld had access to the investigations database: see paragraph 49 above.

- i. by March 2018, Star was aware that Customer 55 was linked to money laundering, smuggling and had been the subject of criminal charges, prosecutions and arrest warrants;

Particulars

In March 2018, Star's AML team conducted a risk intelligence search in respect of Customer 55 which returned results indicating that:

- a. Customer 55 was linked to drug supply, money laundering and the distribution of stolen property;
- b. Customer 55 had laundered money through smuggling Australian cash to a foreign jurisdiction via an airline;
- c. Customer 55 had been charged by a law enforcement agency for travelling into Australia with more than \$10,000 in cash and not declaring it: SMR dated 29 March 2018;
- d. in July 2010, Customer 55 was involved in the smuggling of electronic goods and cash from Australia to a foreign jurisdiction;
and
- e. in March 2011, Customer 55 had been prosecuted on a charge of smuggling in a foreign jurisdiction: SMR dated 29 March 2018.

By July 2018, Star Qld reported to the AUSTRAC CEO that it and Star Sydney had confirmed this information: SMR dated 23 July 2018.

By July 2020, Star's AML team was also aware of risk intelligence reports indicating that a foreign law enforcement agency had issued a warrant for Customer 55's arrest in connection with alleged smuggling between August 2002 and May 2010.

- j. in May 2021, Star Sydney asked Customer 55 to leave one of the facilities adjoining its casino due to his conduct towards staff; and

Particulars

On 16 May 2021, Star Sydney recorded that Customer 55 had been asked to leave from one of the facilities adjoining its casino premises due to his conduct towards staff.

- k. Star Sydney and Star Qld did not have adequate reason to believe that Customer 55's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 55 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By November 2016, Star was aware of reports that Customer 55 was involved in international goods smuggling and illegal transmission of funds: see paragraph 1751.a.iii.

By July 2020, Star acknowledged that it did not have any source of wealth or occupation details in respect of Customer 55. Between 30 November 2016 and July 2020, Customer 55's individual rated gaming activity at Star Sydney and Star Qld was over \$48 million.

Between 3 July 2020 and 12 February 2021, Star and Customer 55 engaged in correspondence in which Star attempted to verify Customer 55's source of wealth. On multiple occasions, Customer 55 identified that he was the director of various companies and provided an Australian Business Number. On each occasion, Star identified that the Australian Business Number had been deregistered or could not find a connection between Customer 55 and the company.

During that time, Star Sydney and Star Qld continued to provide designated services to Customer 55. Between 2020 and 2021, Customer 55's turnover at Star Sydney and Star Qld was over \$48 million.

At no time was Star Sydney or Star Qld's understanding of Customer 55's source of wealth or source of funds commensurate with his gaming activity.

On 14 April 2021, Star recorded that Customer 55 had provided a screenshot of bank details from the recent sale of his house and it had verified this sale from a land title search. Star noted that Customer 55's source of wealth was satisfied. However, while the sale of a property could be sufficient to explain Customer 55's recent source of funds, it was not sufficient to explain the high value financial and gambling services provided to him by April 2021, which included turnover of over \$79 million.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 55

1752. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 55 appropriately because the risk-

based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 55.

- a. On and from 30 November 2016, Customer 55 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see Customer 55's risk profile.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 16 November 2018 that Customer 55 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 4 November 2016, Customer 55 was rated low risk, being low risk for the purpose of the Act and Rules.

On 29 March 2018, Customer 55 was rated medium risk, being medium risk for the purpose of the Act and Rules.

On 16 November 2018, Customer 55 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 55 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 55's transactions

1753. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 55's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 55, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 55 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 55's KYC information

1754. Star Sydney and Star Qld did not review, update and verify Customer 55's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 55's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 55's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 55's source of wealth and source of funds were not legitimate.

During the relevant period:

- a. from at least March 2018, Star was aware that Customer 55 was linked to money laundering, smuggling and had been the subject of criminal charges, prosecutions and arrest warrants: see paragraph;
- b. Customer 55's individual rated turnover at Star Sydney and Star Qld was over \$97 million;
- c. Customer 55 conducted at least 81 transactions indicative of the ML/TF typology of structuring at Star Sydney, totalling at least \$660,000;
- d. Customer 55 was the subject of law enforcement enquiries and correspondence on at least six occasions; and
- e. Star Sydney and Star Qld did not have adequate reason to believe that the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 55 at Star Sydney and Star Qld was commensurate with Customer 55's source of wealth or source of funds.

See Customer 55's risk profile.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 55's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 55.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 55's high ML/TF risks

1755. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 55 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 55; and
 - c. reviewing and updating Customer 55's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 55 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 55*.

ECDD triggers in respect of Customer 55

1756. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 55 following any ECDD triggers in respect of Customer 55.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and (3) and 15.10 of the Rules.

1757. Customer 55:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 29 March 2018 and 1 July 2020, Star Sydney gave the AUSTRAC CEO 14 SMRs with respect to Customer 55.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

On 23 July 2018, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 55.

- c. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 16 November 2018, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 55 were high risk for the purpose

of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 55* above.

1758. Each matter pleaded in paragraph 1757 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1759. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 55 following an ECDD trigger because:

- a. on each occasion prior to May 2021 that Star Sydney and Star Qld conducted ECDD in respect of Customer 55 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 55 and the provision of designated services to Customer 55 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

By 2016, Star's AML team had identified reports that Customer 55 was involved in international goods smuggling and illegal transmission of funds from 2002 to 2010. These reports had been publicly available since 2010: see paragraph 1751.a.iii.

By March 2018, Star had also conducted a risk intelligence search in respect of Customer 55 which returned results indicating that he was linked to smuggling, the supply of drugs, money laundering and the distribution of stolen property, and had been charged and prosecuted for at least two offences: see paragraph 1751.i.

Between 2019 and 2020, Star conducted ECDD in respect of Customer 55.

In August 2019, the ECDD screening identified that:

- a. adverse media reported that Customer 55 was a high-risk individual;
- b. between May 2019 and August 2019, Customer 55 recorded individual rated turnover of over \$4.8 million with losses of over \$360,000; and
- c. Star had submitted multiple SMRs concerning Customer 55's avoidance of reporting obligations.

By July 2020, Star's AML team was also aware of risk intelligence reports indicating that a foreign law enforcement agency had issued a warrant for Customer 55's arrest in connection with alleged smuggling between August 2002 and May 2010.

In December 2020, the ECDD screening identified that:

- a. adverse media reported that Customer 55 was a high-risk individual; and
- b. between December 2019 and December 2020, Customer 55 recorded individual rated turnover of over \$4.2 million and an overall loss of \$13,295. Star's AML team concluded that this gaming activity did not raise concerns.

The ECDD conducted by Star did not have appropriate regard to Customer 55's higher ML/TF risks: see *Customer 55's risk profile* above.

Between 2016 and 2021:

- a. Star was aware that Customer 55 was linked to money laundering, smuggling and had been the subject of criminal charges, prosecutions and arrest warrants, at least from March 2018 onwards;
- b. Customer 55's individual rated turnover at Star Sydney and Star Qld was over \$97 million;
- c. Customer 55 conducted at least 81 transactions indicative of the ML/TF typology of structuring at Star Sydney, totalling at least \$660,000;
- d. Customer 55 was the subject of law enforcement enquiries and correspondence on at least six occasions;
- e. Star Sydney and Star Qld did not have adequate reason to believe that the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 55 at Star Sydney and Star Qld was commensurate with Customer 55's source of wealth or source of funds; and
- f. by reason of the matters set out above, there were real risks that Customer 55's source of wealth and source of funds were not legitimate: see *Customer 55's risk profile*.

The ECDD conducted by Star did not have appropriate regard to the higher ML/TF risks posed by Customer 55's source of funds or source of wealth: see *Customer 55's risk profile* above.

However, it was not until May 2021 that Star Sydney and Star Qld issued a WOL in respect of Customer 55. Customer 55 was issued with a WOL following the discovery of an illicit substance in a room where Customer 55 was the registered guest.

- b. Customer 55 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to May 2021 that Customer 55 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 55 and the provision of designated services to Customer 55 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

In January 2020, Star's AML team conducted ECDD screening in respect of Customer 55 and escalated him to the Group Investigations Manager to follow up on further adverse media identified.

Star's records do not indicate whether the Group Investigations Manager responded to this escalation. Star continued to provide designated services to Customer 55.

On 1 July 2020, Star's AML team again escalated Customer 55 for consideration by the Group Investigations Manager. This escalation noted that:

- a. Customer 55 was rated critical risk, being high risk for the purpose of the Act and Rules;
- b. reports from April 2011 indicated that a foreign law enforcement agency had issued a warrant for Customer 55's arrest in connection with alleged smuggling between 2002 and 2010;
 - c. in June 2020:
 - i. Customer 55 recorded 15 buy-ins between \$9,000 and \$9,999;
 - ii. these transactions had resulted in Star Sydney submitting two SMRs to the AUSTRAC CEO for structuring;
 - iii. Customer 55 recorded individual rated turnover of over \$1.6 million with wins of over \$150,000; and
 - iv. Customer 55 conducted chip to cash exchanges with Star Sydney totalling over \$540,000;
- d. a law enforcement agency advised that Customer 55 had been charged for failing to declare cash on entry to Australia;
- e. Customer 55 was suspicious because he appeared to be avoiding reporting obligations; and
- f. Star did not have any source of wealth or occupation details in respect of Customer 55.

The AML/CTF Administrator proposed that Star seek further information about Customer 55's occupation and source of wealth

details, refer Customer 55 to a law enforcement agency again, and revisit Customer 55's AML rating depending on the result.

On 3 July 2020, the Group Investigations Manager approved this approach.

In July 2020, Customer 55 was listed for discussion at PAMM and JRAMMs.

By July 2020, Customer 55 conducted at least 81 transactions indicative of the ML/TF typology of structuring at Star Sydney, totalling at least \$660,000: see *Customer 55's risk profile*.

Between July 2020 and April 2021, Customer 55 was discussed at PAMM and JRAMMs.

The minutes of the meetings noted that:

- a. between July 2020 and March 2021 on multiple occasions, in response to Star's enquiries, Customer 55 identified that he was the director of various companies and provided an Australian Business Number. On each occasion, Star identified that the Australian Business Number had been deregistered or could not find a connection between Customer 55 and the company;
- b. by March 2021, Star intended to remove Customer 55's private gaming room access if he did not provide evidence of his source of wealth by April 2021; and
- c. by April 2021, Customer 55's source of wealth was satisfied as he had provided copies of the recent sale of his property and Star had confirmed this sale through a relevant title search.

At no point did the PAMM and JRAMMs have regard to:

- a. Customer 55's source of wealth (r15.10(2)(a) of the Rules), having regard to his high and escalating turnover; and
- b. Customer 55's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to his source of funds and the fact that while the sale of his property could be sufficient to explain Customer 55's recent source of funds, it was not sufficient to explain the high value financial and gambling services provided to him by April 2021, which included turnover of over \$79 million: see *Customer 55's risk profile* above.

It was not until 23 May 2021 that Star Sydney issued a WOL in respect of Customer 55, and it was not until 24 May 2021 that Star Qld issued a WOL in respect of Customer 55. Customer 55 was issued with a WOL following the discovery of an illicit substance in a room where Customer 55 was the registered guest.

Contravention of s36 of the Act in respect of Customer 55

1760. By reason of the matters pleaded from paragraphs 1746 to 1759 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 55 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1761. By reason of the matters pleaded at paragraph 1760, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 23 May 2021 with respect to Customer 55.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1762. By reason of the matters pleaded from paragraphs 1746 to 1759 above, on and from 21 July 2018, Star Qld:

- a. did not monitor Customer 55 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1763. By reason of the matters pleaded at paragraph 1762, Star Qld contravened s36(1) of the Act on and from 21 July 2018 to 24 May 2021 with respect to Customer 55.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 56

1764. Customer 56 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$150 million for Customer 56.

Particulars

Customer 56 was a customer of Star Sydney from at least 4 June 2009.

On 4 December 2020, Star Sydney issued a WOL in respect of Customer 56 at the direction of the General Manager Financial Crime and Investigations for undesirable behaviour.

1765. Star Sydney provided Customer 56 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 2 March 2016, Star Sydney opened an FMA and SKA for Customer 56 both of which were closed on 7 December 2020 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 56 remitted funds from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 56's risk profile below.

1766. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 56.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 56's risk profile

1767. On and from 30 November 2016, Customer 56, and the provision of designated services to Customer 56 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 56's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 56 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 56;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 56 on 28 January 2016. The SMR reported that Customer 56 exchanged \$121,245 worth of chips for cash at Star Sydney. Star Sydney noted that Customer 56 had a large amount of play the day prior, nevertheless it still considered this large cash out to be excessive: SMR dated 28 January 2016.

- ii. Customer 56 had received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded individual rated turnover totalling \$9,318,548 for Customer 56;

Particulars

See paragraph 752 above.

- iii. Customer 56 had transacted using large amounts of cash at Star Sydney; and

Particulars

Paragraphs 611 to 618 above.

Between 12 April 2011 and 28 October 2016, Star Sydney gave the AUSTRAC CEO 166 TTRs totalling \$3,189,713, including:

- a. three TTRs detailing account deposits made by Customer 56 totalling \$150,000;
 - b. one TTR detailing account withdrawals made by Customer 56 totalling \$25,000; and
 - c. 162 TTRs detailing chip and cash exchanges made by Customer 56 totalling \$2,974,458.
- iv. designated services provided to Customer 56 included EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

Between 30 August 2016 and 10 October 2016, Star Sydney gave the AUSTRAC CEO four TTRs detailing EGM payouts to Customer 56 totalling \$40,255.

Customer 56's risk profile from 30 November 2016

- b. Customer 56 was an international junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
- i. between 2018 and 2019, Customer 56 was a player on five junkets at Star Sydney operated by three junket operators including Customer 14 and Customer 27;
 - ii. at least two of the junkets were funded by a person other than the junket operator, including Customer 13; and
 - iii. between 13 July 2018 and 15 March 2019, Star Sydney recorded high turnover totalling \$16,127,033 with losses of \$671,340 for Customer 56's gaming activity on junket programs;

Particulars

In 2018, Customer 56's turnover on junket programs was \$15,016,061 with losses of \$638,285.

In 2019, Customer 56's turnover on junket programs was \$1,110,912 with losses of \$33,055.

- c. designated services provided to Customer 56 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 56 was connected to other customers at Star Sydney, including junket operators, junket representatives, and junket players in respect of whom Star Sydney had formed suspicions such as Customer 94;

Particulars

For example, in 2019, Customer 94 was a junket player and junket representative on two junket programs that Customer 56 played on at Star Sydney.

- e. Customer 56 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high and escalating turnover totalling \$136,867,103 for Customer 56;
 - i. between 2016 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$135,459,214 for Customer 56; and

Particulars

See paragraph 752 above.

In 2016, Customer 56's individual rated turnover was \$46,749,657.

In 2017, Customer 56's individual rated turnover was \$4,452,021.

In 2018, Customer 56's individual rated turnover was \$16,409,033.

In 2019, Customer 56's individual rated turnover was \$15,230,000.

In 2020, despite the COVID-19 pandemic closures, Customer 56's individual rated turnover was \$52,618,502.

- ii. in 2016, Star Sydney recorded turnover on individual rebate programs totalling \$1,407,889 for Customer 56;

Particulars

See paragraph 623 above.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 56 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

On 1 January 2020, Star Sydney sent a transfer of \$95,002 from Customer 56's account to Star Qld.

On 3 January 2020, Star Sydney received a transfer of \$60,057 from Star Qld, which it made available to Customer 56's FMA.

- g. designated services provided to Customer 56 included EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

Between 27 July 2017 and 7 August 2019, Star Sydney gave the AUSTRAC CEO six TTRs detailing EGM payouts to Customer 56 totalling \$64,746.

- h. Customer 56 and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in mixed denominations in rubber bands and backpacks, and cash supplied by third parties, at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 16 January 2017 and 27 November 2020, Star Sydney gave the AUSTRAC CEO 217 TTRs totalling \$4,082,468, including:

- a. 18 TTRs detailing account deposits made by Customer 56 totalling \$741,345;
- b. seven TTRs detailing account withdrawals made by Customer 56 totalling \$226,258;
- c. 189 TTRs detailing chip and cash exchanges made by Customer 56 totalling \$2,078,045;
- d. two TTRs detailing other monetary value in made by Customer 56 totalling \$20,000; and
- e. one TTR detailing other monetary value out made by Customer 56 totalling \$16,820.

Large and suspicious cash transactions in 2018

On 25 April 2018, Customer 56 deposited \$100,000 in cash into his account at Star Sydney. The cash was comprised of \$100 notes bound together with straps issued by Star Sydney in April 2018. Star Sydney noted that Customer 56 had not had any prior transactions with Star Sydney that explained him having this amount of cash. Star Sydney suspected that the cash had come from an unknown third party: SMR dated 26 April 2018.

Large and suspicious cash transactions in 2019

On 8 July 2019, Customer 56 presented \$195,000 in cash at Star Sydney to be deposited into his account. The cash was comprised of \$8,500 in \$100 notes, \$171,150 in \$50 notes, \$15,340 in \$20 notes and one \$10 note. The notes were bundled with elastic bands and carried by Customer 56 in a black backpack. Prior to the transaction, Star Sydney identified that the cash had been couriered on-site in a vehicle and carried into Star Sydney by an unknown individual, who then met Customer 56 at the lobby. Star Sydney considered that the amount of cash in mixed denominations, supplied by a third party, was suspicious: SMR dated 9 July 2019.

On 13 December 2019, Customer 56 presented \$100,000 in cash to the cashier at Star Sydney. The notes were bundled with elastic bands and carried in a designer bag. The cash was comprised of \$79,600 in \$100 notes and \$20,400 in \$50 notes. Customer 56 was

accompanied by another Star Sydney customer, and the cash was used as a buy-in on a program for the other customer. Star Sydney considered that this transaction was unusual as it did not know of any relationship between Customer 56 and the other Star Sydney customer. Following the deposit, the other customer recorded a turnover of \$227,490 with a win of \$23,175: SMR dated 17 December 2019.

Large and suspicious cash transactions in 2020

On 18 March 2020, Customer 56 deposited \$100,000 in cash into his account at Star Sydney, for a VIP program. The cash was comprised of \$93,900 in \$50 notes and \$6,100 in \$100 notes, and it was bundled in lots of \$10,000 with rubber bands. Following the transaction, Customer 56 recorded a turnover of \$417,326 with a loss of \$1,640.

On 3 July 2020, a Star Sydney customer exchanged \$99,000 in cash for chips. The cash was comprised of \$25,000 in \$100 notes and \$74,000 in \$50 notes. The cash was contained in a green paper bag with the Star logo and was bundled in \$5,000 and \$10,000 units with elastic bands and individually wrapped in black plastic bags. Star Sydney later reviewed the transaction and identified that Customer 56 had been involved in handing the cash to the other customer. Customer 56 had received the bag from an unknown person in a vehicle. Customer 56 had then handed the bag to another Star Sydney customer who then handed the bag to the customer who conducted the exchange transaction. Following the exchange transaction, the customer recorded a turnover of \$1,036,425 with a loss of \$197,595. Star Sydney considered the number of people who had handled the cash to be unusual and suspicious: SMR dated 6 July 2020.

On 18 July 2020, Customer 56 exchanged \$20,000 in cash for chips at Star Sydney. The cash was comprised of \$20 notes. Around the same time, another Star Sydney customer presented \$10,000 in cash. The cash was also comprised of \$20 notes and was bundled with elastic bands. When Star Sydney asked for the customer's identification, the customer advised that the money was not his. A second customer approached the cashier counter as the first customer walked away, and advised that the cash was hers. The second customer stated that she had asked the first customer to exchange the cash whilst she went to the bathroom. The second customer initially stated that the \$20 notes came from an ATM, before changing her mind and stating that the cash came from the bank. Star Sydney subsequently reviewed the two customers' movements, which indicated that Customer 56 had arrived at the casino and had handed the cash to the second customer. Star Sydney considered it quite unusual for a customer to present \$30,000 in \$20 notes in a short period: SMR dated 20 July 2020.

- i. Customer 56 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring, at Star Sydney;

Particulars

See paragraph 25 above.

Between 9 September 2020 and 20 November 2020, Star Sydney gave SMRs to the AUSTRAC CEO on six occasions due to its suspicions that Customer 56 was involved in transactions indicative of the ML/TF typology of structuring.

- a. Between 11 August 2020 and 9 September 2020, Customer 56 exchanged cash for chips on six occasions at Star Sydney, with each transaction being between \$9,000 and \$9,999. In the same period, Star Sydney recorded Customer 56's turnover to be \$1,202,705 with a loss of \$129,575: SMR dated 9 September 2020.
 - b. Between 19 September 2020 and 5 October 2020, Customer 56 exchanged cash for chips on seven occasions at Star Sydney, with each transaction being between \$9,000 and \$9,999. In one exchange for \$9,500, the cash was comprised of \$5,300 in \$50 notes, \$4,140 in \$20 notes and \$60 in \$10 notes: SMR dated 6 October 2020.
 - c. On 22 October 2020, Customer 56 exchanged \$9,900 in cash for chips at Star Sydney. The cash was comprised of \$20 notes, and was presented in good condition in two bundles bound with rubber bands. Star Sydney considered the large amount of \$20 notes to be unusual: SMR dated 23 October 2020.
 - d. Between 12 October 2020 and 24 October 2020, Customer 56 exchanged cash for chips on five occasions at Star Sydney, with each transaction being between \$9,000 and \$9,999: SMR dated 26 October 2020.
 - e. Between 4 November 2020 and 12 November 2020, Customer 56 exchanged cash for chips on five occasions at Star Sydney, with each transaction being between \$9,000 and \$9,999. Star Sydney noted that Customer 56 also had a transaction in the amount of \$10,000 during this period: SMR dated 16 November 2020.
 - f. Between 16 November 2020 and 20 November 2020, Customer 56 exchanged cash for chips on four occasions at Star Sydney, with each transaction being between \$9,000 and \$9,999: SMR dated 20 November 2020.
- j. between 2019 and 2020, Customer 56 was the subject of law enforcement enquiries at Star Sydney;

Particulars

In July 2019, Star Sydney received a request from a law enforcement agency in respect of Customer 56.

On 17 December 2019, Star Sydney received a request from a law enforcement agency in respect of Customer 56.

In July 2020, Star Sydney received two requests from a law enforcement agency in respect of Customer 56.

Between October 2020 and November 2020, Star Sydney received multiple requests from a law enforcement agency regarding Customer 56's involvement in suspicious cash transactions.

- k. on 23 November 2020, a law enforcement agency informed Star Sydney that it would issue a NSW exclusion order formally excluding Customer 56 from Star Sydney;

Particulars

On 23 November 2020, a law enforcement agency advised Star Sydney that it would shortly issue a NSW exclusion order excluding Customer 56 from its casino, and sought that Star Sydney exclude Customer 56 in the interim.

- l. Customer 56 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 56 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Chairman's, Oasis, Vantage, Sovereign Harbourside, Lakes Salons, Sovereign (Cage), Chairman's (Cage), Oasis (Cage) and the Springs Salon (Cage).

- m. Star Sydney did not have adequate reason to believe that Customer 56's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 56 at Star Sydney.

Particulars

See paragraph 808 above.

At no time before July 2019 did Star Sydney make enquiries regarding Customer 56's source of wealth or source of funds.

By July 2019, Star Sydney had:

- a. recorded turnover exceeding \$66 million for Customer 56 at Star Sydney; and
- b. given the AUSTRAC CEO 67 TTRs totalling \$1,475,535 in respect of threshold cash transactions involving Customer 56.

By at least 9 July 2019, Star Sydney gave the AUSTRAC CEO an SMR that reported Customer 56's occupation to be technician – production. Star Sydney did not have an adequate basis to consider that Customer 56's occupation explained the high value financial and

gambling services received by Customer 56. No further action was taken by Star Sydney to verify Customer 56's source of wealth or source of funds.

From July 2019 onwards, Star Sydney:

- a. formed suspicions that Customer 56 was involved in transactions indicative of the ML/TF typology of structuring on multiple occasions; and
- b. recorded that Customer 56 was presenting for deposit large amounts of cash in mixed denominations, totalling at least \$495,000.

On 4 December 2020, Star Sydney issued a WOL in respect of Customer 56 following a NSW exclusion order. By that time, Customer 56's gaming activity had escalated from turnover exceeding \$15 million in 2019 to turnover exceeding \$52 million in 2020.

It was not until after the WOL was issued that a Star Sydney staff member made enquiries of Customer 56 regarding his source of wealth and source of funds. In response, Customer 56 claimed that:

- a. he owned a restaurant in Sydney;
- b. he owned two investment properties in Sydney;
- c. he earned income from logistics arrangements and exports to a foreign jurisdiction;
- d. he had a manufacturing and exports business in a foreign jurisdiction; and
- e. the sub-\$10,000 transactions at Star related to cash flow from his Australian businesses.

Star Sydney's determination of the ML/TF risks posed by Customer 56

1768. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 56 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 56.

- a. On and from 30 November 2016, Customer 56 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons above: see *Customer 56's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 56 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 2 December 2016, Customer 56 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 28 January 2016, Customer 56 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 4 December 2020, Star Sydney issued a WOL in respect of Customer 56 following a NSW exclusion order.

On 7 February 2022, after Star Sydney issued a WOL in respect of Customer 56, Customer 56 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 56's transactions

1769. At no time did Star Sydney apply appropriate transaction monitoring to Customer 56's transactions, because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 56, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 56 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 56's KYC information

1770. Star Sydney did not review, update and verify Customer 56's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 56's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 56's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 56's source of wealth and source of funds were not legitimate: see *Customer 56's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 56's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 56 until 4 December 2020.

Particulars

See paragraph 155 above.

Section 36(1)(a), (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 4 December 2020, Star Sydney issued a WOL in respect of Customer 56 following a NSW exclusion order.

Failure to apply appropriate due diligence suited to Customer 56's high ML/TF risks

1771. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 56 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 56; and
- c. reviewing and updating Customer 56's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 56 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 56*.

ECDD triggers in respect of Customer 56

1772. Star Sydney was required to apply the ECDD Programs to Customer 56 following any ECDD triggers in respect of Customer 56.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1773. Customer 56 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 26 April 2018 and 20 November 2020, Star Sydney gave the AUSTRAC CEO 11 SMRs with respect to Customer 56.

1774. The matter pleaded in paragraph 1773 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1775. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 56 following an ECDD trigger because:

- a. on each occasion prior to 4 December 2020 that Star Sydney conducted ECDD in respect of Customer 56 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 56 and the provision of designated services to Customer 56 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, and 807 to 809 above.

On 8 July 2019, 18 December 2019, 3 July 2020, 21 July 2020, 9 September 2020, 7 October 2020, 23 October 2020, 3 November 2020, 18 November 2020 and 23 November 2020, Star Sydney conducted ECDD in respect of Customer 56.

The ECDD screenings did not disclose any material adverse to Customer 56.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 56's higher ML/TF risks, including the large amounts of cash in mixed denominations presented by Customer 56, the transactions made by Customer 56 that were indicative of ML/TF typologies such as structuring, and the fact that Customer 56's turnover from gaming activity other than on junket programs exceeded \$136 million between 2016 and 2020: see *Customer 56's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 56's source of funds or source of wealth.

It was not until after Star Sydney issued a WOL in respect of Customer 56 that it made enquiries with Customer 56 regarding his source of wealth and source of funds, which he claimed originated from businesses in Australia and overseas, and income from investment properties.

By reason of the matters set out above, there were real risks that Customer 56's source of wealth and source of funds were not legitimate: see Customer 56's *risk profile*.

- b. Customer 56 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 23 November 2020, Star Sydney was informed by a law enforcement agency that it would seek a formal exclusion order in respect of Customer 56.

On 4 December 2020, Star Sydney issued a WOL in respect of Customer 56 at the direction of the General Manager Financial Crime and Investigations for undesirable behaviour.

Contravention of s36 of the Act in respect of Customer 56

1776. By reason of the matters pleaded from paragraphs 1764 to 1775 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 56 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1777. By reason of the matters pleaded at paragraph 1776, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 4 December 2020 with respect to Customer 56.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 57

1778. Customer 57 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$270 million for Customer 57.

Particulars

Customer 57 was a customer of Star Sydney from at least 26 June 2016.

1779. Star Sydney provided Customer 57 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 26 June 2016, Star Sydney opened an FMA and SKA for Customer 57 which remain open (item 11, table 3, s6 of the Act).

Between 26 June 2016 and 2 September 2019, Star Sydney approved CCFs for Customer 57 on 16 occasions ranging from \$80,000 to \$1,300,000 (items 31 and 32, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 57 (items 31 and 32, table 1, s6 of the Act).

See Customer 57's risk profile below.

1780. Customer 57 was a customer of Star Qld during the relevant period. Between 2017 and 2019, Star Qld recorded turnover exceeding \$150 million for Customer 57.

Particulars

Customer 57 was a customer of Star Qld from at least 18 November 2016.

1781. Star Qld provided Customer 57 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 19 November 2016, Star Qld opened an FMA for Customer 57 which remains open (item 11, table 3, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 57 (items 31 and 32, table 1, s6 of the Act).

See Customer 57's risk profile below.

1782. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 57.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 57's risk profile

1783. On and from 30 November 2016, Customer 57, and the provision of designated services to Customer 57 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 57's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 57 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 57;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 29 June 2016.

The SMR reported that Customer 57 transacted in large amounts of cash: see paragraph 1783.a.vi below.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 57;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 22 November 2016.

The SMR reported that Customer 57 transacted in large amounts of cash: see paragraph 1783.a.vii below.

- iii. Customer 57 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. By 30 November 2016, Star Sydney recorded high turnover on individual rebate programs totalling \$6,363,250 for Customer 57, with wins of \$350,100;

Particulars

See paragraph 623 above.

- iv. Customer 57 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. By 30 November 2016, Star Qld recorded high turnover on individual rebate programs totalling \$6,568,120 for Customer 57, with wins of \$109,600;

Particulars

See paragraph 623 above.

- v. on 26 June 2016, Star Sydney provided Customer 57 with a significant amount of credit upon request, up to a limit of \$500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 26 June 2016, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$500,000 for Customer 57.

The CCF was provided on a “temporary” basis while funds obtained through the Hotel Card channel were cleared.

- vi. Customer 57 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

For example, on 28 June 2016, Customer 57 took \$920,884 in cash on settlement of an individual rebate program. Later that night, Customer 57 returned \$100,000 of the cash to be deposited into his account for a new program. On settlement of that new program, Customer 57 took \$216,495 in cash: SMR dated 29 June 2016.

- vii. Customer 57 transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

On 19 November 2016, Customer 57 played at Star Qld for the first time. Customer 57 presented \$200,000 in cash at Star Qld which he deposited into his FMA and used on a premium program. While playing, Customer 57 exchanged \$217,000 in chips for cash. At settlement, Customer 57 withdrew \$102,136 in cash from his FMA. Star Qld considered these sums to be unusually large amounts of cash: SMR dated 22 November 2016.

- viii. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 57 by remitting large amounts of money into the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

See paragraphs 356 to 357 above.

On 26 June 2016, Customer 57 transacted \$500,000 through the Hotel Card channel and was given a temporary CCF while waiting for the funds to clear.

See paragraph 1783.a.v above.

Customer 57's risk profile from 30 November 2016

- b. Customer 57 was a junket player who received high value financial and gambling services (table 3, s6 of the Act) at Star Sydney through a Suncity junket program;
- i. between 1 August 2019 and 4 September 2019, Customer 57 was a player on a Suncity junket at Star Sydney operated by Customer 3;
 - ii. the Suncity junket was funded by a person other than the junket operator, Customer 1; and
 - iii. between 1 August 2019 and 4 September 2019, Star Sydney recorded high turnover totalling \$14,747,330 with losses of \$719,250 for Customer 57's gaming activity on the Suncity junket program;
- c. designated services provided to Customer 57 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 57 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2019, Star Sydney recorded high and escalating turnover totalling \$197,899,527 for Customer 57;
- i. between 2017 and 2019, Star Sydney recorded high and escalating individual rated turnover totalling \$3,454,003 for Customer 57; and

Particulars

See paragraph 752 above.

In 2016, Customer 57's individual rated turnover was \$577,699.

In 2017, Customer 57's individual rated turnover escalated to \$1,429,996.

In 2019, Customer 57's individual rated turnover was \$1,446,307.

- ii. between 2017 and 2019, Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$194,445,524 for Customer 57 with losses of \$6,780,955;

Particulars

See paragraph 623 above.

In 2017, Customer 57's turnover on individual rebate programs was \$34,383,180 with losses of \$398,425.

In 2018, Customer 57's turnover on individual rebate programs was \$11,688,800 with wins of \$844,150.

In 2019, Customer 57's turnover on individual rebate programs escalated to \$148,393,544 with losses of \$7,226,680.

- e. Customer 57 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2019, Star Qld recorded high and escalating turnover totalling \$150,223,075 for Customer 57;
 - i. in 2019, Star Qld recorded high individual rated turnover totalling \$1,103,800 for Customer 57; and

Particulars

See paragraph 752 above.

- ii. between 2017 and 2019, Star Qld recorded high and escalating turnover on individual rebate programs totalling \$149,119,275 for Customer 57, with losses of \$1,951,755;

Particulars

See paragraph 623 above.

In 2017, Customer 57's turnover on individual rebate programs was \$5,923,021 with losses of \$446,400.

In 2019, Customer 57's turnover on individual rebate programs escalated to \$143,196,254 with losses of \$1,505,355.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 57 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 30 May 2017 and 30 August 2019, Customer 57 transacted \$6,525,000 through the Hotel Card channel and was given a temporary CCF while waiting for the funds to clear at Star Sydney.

Between 1 January 2019 and 8 March 2020, Customer 57 was one of the top ten customers by transaction volume through the Hotel Card channel at Star Sydney.

See paragraph 1783.j below.

Remittances out of the casino environment

See paragraph 327 above.

On 31 July 2019, Star Sydney sent two telegraphic transfers totalling \$3,910,000 from Customer 57's account to an Australian bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 7 July 2019 and 4 September 2019, Star Sydney sent two transfers totalling \$800,000 from Customer 57's SKA to Star Qld.

On 25 July 2019, Star Sydney received a transfer of \$3,700,000 from Star Qld, which it made available to Customer 57's account.

- g. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 57 by remitting large amounts of money into, out of, and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 11 August 2017 and 30 November 2019, Customer 57 transacted \$4,788,000 through the Hotel Card channel in 58 separate transactions at Star Gold Coast.

On 27 August 2019, a representative of an Australian bank made enquiries with Star Qld in respect of a number of Hotel Card channel transactions which had been flagged as suspicious, including transactions involving Customer 57. On 28 August 2019, the Star Qld Senior Treasury Manager informed the bank that the funds had been used to purchase hotel accommodation. However, in an SMR dated 11 July 2019, Star Qld identified that the funds were used to play on a commission program.

Remittances out of the casino environment

See paragraph 327 above.

On 22 September 2019, Star Qld facilitated a telegraphic transfer of \$1,524,108 from Customer 57's FMA at Star Gold Coast to an Australian bank account.

On 9 December 2019, Customer 57 transferred \$2,200,000 from his Star Qld account to his personal bank account in Australia: SMR dated 12 December 2019.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

On 8 July 2019 and 4 September 2019, Star Qld received two transfers totalling \$800,000 from Star Sydney, both of which were made available to Customer 57's FMA at Star Gold Coast.

On 26 July 2019, Star Qld facilitated a transfer of \$3,700,000 from Customer 57's FMA at Star Gold Coast account to Star Sydney.

See paragraph 1783.i below.

- h. Customer 57 transacted using large amounts of cash, including cash with suspicious provenance at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 6 January 2017 and 4 September 2019, Star Sydney gave the AUSTRAC CEO 17 TTRs detailing incoming payments to Customer 57 totalling \$815,000 which comprised chip exchanges and account deposits.

Between 4 January 2017 and 5 September 2019, Star Sydney gave the AUSTRAC CEO 28 TTRs detailing outgoing payments from Customer 57 totalling \$3,956,868 which comprised account withdrawals, chip exchanges and other monetary values out.

Large and suspicious cash transactions in 2017

On 3 January 2017, Customer 57 withdrew \$810,000 in cash from his account at Star Sydney. Customer 57 was accompanied by another Star Sydney customer who stated that Customer 57 intended to use the cash to buy a property: SMR dated 4 January 2017.

On 4 June 2017, Customer 57 settled a program and took \$100,000 together with a chip cash out of \$150,700. Customer 57 had recorded a turnover of \$2,941,000 with a win of \$41,000.

On 18 July 2017, Customer 57 settled a program for \$150,000 having recorded a turnover of \$7,530,000 with a loss of \$812,850.

On 5 August 2017, Customer 57 settled a program for \$100,000.

On 11 September 2017, Customer 57 and another Star Sydney customer attended a cashier desk at Star Sydney. The other customer exchanged \$582,000 in chips for cash. Customer 57 exchanged \$365,500 in chips for cash. Customer 57 and the other customer advised Star Sydney staff that they would use the cash to 'conduct some business'. They stated that they would likely return the cash later in the day. In the week prior to these transactions, Customer 57 had recorded a turnover of \$1,075,550 with winnings of \$75,200 and the other customer had recorded a turnover of \$1,478,250 with winnings of \$82,000. Star Sydney considered that the transactions were excessive when compared to Customer 57's and the other customer's gaming activity and recorded winnings:
SMR dated 11 September 2017.

On 11 December 2017, Customer 57 settled a program for \$245,500.

Large and suspicious cash transactions in 2018

On 9 March 2018, Customer 57 conducted a chip cash-out of \$111,300.

On 30 November 2018 and 1 December 2018, Customer 57 conducted two very large cash transactions at Star Sydney. The transactions related to Customer 57's rebate program. Customer 57 had recorded a turnover of \$4,413,750 with winnings of \$546,750:
SMR dated 3 December 2018.

Large and suspicious cash transactions in 2019

In August 2019, Customer 57 was a player on a junket program at Star Sydney. On 14 August 2019, Customer 57 presented \$320,000 in chips to be exchanged for cash in two transactions. Earlier that day, Customer 57 had met with another Star Sydney customer, Person 21, and the pair had then met with two unidentified persons. The unidentified persons were observed using their phones to scan codes on Person 21's and Customer 57's mobile phones before leaving the casino. Shortly afterwards, Customer 57 met with a third unidentified person who also scanned a code on Customer 57's mobile phone. Person 21 was nearby at the time, carrying a black backpack containing cash. Person 21 and Customer 57 then left the casino. Shortly afterwards, Customer 57 returned to the casino and exchanged \$115,000 in chips for cash. Star Sydney noted that, between 11 August 2019 and 14 August 2019, Customer 57 had recorded a turnover of \$12,327,500 with losses of \$1,878,000. Star Sydney considered that Customer 57's gaming activity did not support the chip exchange transactions that he conducted:
SMR dated 15 August 2019.

On 21 August 2019, Customer 57 presented \$100,000 in cash at Star Sydney to be deposited into his account. Customer 57 was accompanied by another Star Sydney customer. The other customer had brought the \$100,000 in cash into the casino in a bag while accompanied by a third Star Sydney customer, Person 21. The cash

comprised \$100 notes bound together with Star straps in units of \$5,000. Star Sydney was unaware of the relationship between the three customers. Star Sydney considered it unusual that the first customer was in possession of a bag containing the \$100,000 in cash: SMR dated 21 August 2019.

On 26 August 2019, Customer 57 was a player on the Suncity junket operated by Customer 3. A junket representative for that junket presented \$480,750 in chips for deposit into Customer 3's account. The junket representative then withdrew the funds in cash for the benefit of Customer 57, who had recorded a turnover of \$1,200,000 with winning of \$480,750. The cash was transported in a large coloured bag to a nearby hotel. Star Sydney considered the cash transaction to be excessive: SMR dated 26 August 2019.

On 28 August 2019, Customer 57 presented \$200,000 in cash at Star Sydney to be deposited into his account. The cash was contained in a multi-coloured shopping bag and comprised \$100,000 in \$50 notes and \$100,000 in \$100 notes. The \$50 notes were bound together with elastic bands and the \$100 notes were bound together with Star straps. Star Sydney considered the large amount of cash and the mixed denominations to be suspicious: SMR dated 28 August 2019.

On 29 August 2019, Customer 57 presented \$200,000 in cash at Star Sydney to be deposited into his account. Customer 57 received the cash from another Star Sydney customer who was Customer 57's guest. The cash comprised \$150,000 in \$100 notes and \$50,000 in \$50 notes. The \$50 notes were bound together with elastic bands and the \$100 notes were bound together with Star straps. Star Sydney was unaware of the relationship between Customer 57 and the other customer. Star Sydney considered it suspicious that Customer 57 was given cash by the customer to deposit into Customer 57's own account: SMR dated 30 August 2019.

- i. Star Qld was aware that:
 - i. Customer 57 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;
 - ii. Customer 57 and persons associated with him transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 11 August 2017 and 7 December 2019, Star Qld gave the AUSTRAC CEO six TTRs detailing incoming payments to Customer 57 totalling \$875,000 which comprised chip exchanges and account deposits.

Between 23 July 2019 and 6 December 2019, Star Qld gave the AUSTRAC CEO ten TTRs detailing outgoing payments from

Customer 57 totalling \$649,200 which comprised account withdrawals and chip exchanges.

On 10 July 2019, Customer 57 transferred a total of \$400,000 to Star Qld in four transactions of \$100,000 each through the Hotel Card channel. Customer 57 also transferred \$300,000 to Star Qld from his Star Sydney account. Customer 57 used the funds on a commission program and by 10 July 2019 had recorded winnings of \$268,000. After settlement, Customer 57 presented \$160,000 in cash at Star Qld which comprised \$100 notes contained in a hotel laundry bag. Customer 57 used the funds for gambling. Star Qld considered the \$160,000 cash transaction to be unusual: SMR dated 11 July 2019.

On 4 September 2019 and 5 September 2019, over the course of nine hours, Customer 57 recorded a loss of \$1,157,600 at Star Qld. Star Qld understood that Customer 57's losses at Star Sydney was significantly higher than his losses at Star Qld. On 5 September 2019, another Star Qld customer, Person 21, presented \$300,000 in cash at a private gaming room to be deposited into Customer 57's account.

The cash comprised \$100 notes and was bound with straps from another casino. The straps were dated July 2019. Star Qld records showed that Person 21 had not played at its properties between June 2019 and September 2019. Star Qld was unaware of the source of the cash or the relationship between Customer 57 and Person 21.

However, Star Qld recorded that Person 21's source of funds was from his work as a construction manager and Customer 57's source of funds was from his directorship of an import/export company: SMR dated 6 September 2019.

On 13 September 2019, Customer 57 cashed out \$375,000 in chips. At the time, he was recording a win of \$929,000.

On 16 September 2019, Customer 57 withdrew \$102,500 in cash from his FMA. At the time, he was recording a win of \$185,000.

On 18 November 2019, Customer 57 arrived at Star Gold Coast with eight other Star Qld customers. Customer 57 advised Star Gold Coast that the customers had played with him at another casino prior to arriving. The customers were also booked to stay at a nearby hotel under Customer 57's name. Customer 57 advised Star Gold Coast that he would be transferring funds through the Hotel Card channel.

Star Gold Coast was aware that Customer 57 could only access \$100,000 per day from the Hotel Card channel and that only \$50,000 could be transferred per transaction. However, on 19 November 2019, Customer 57 received a total of \$200,000 into his FMA. The funds had been transferred by two of the customers who had arrived at Star Gold Coast with Customer 57. The customers each transacted \$100,000 through the Hotel Card channel to their FMAs and then transferred the funds to Customer 57's FMA. Neither customer recorded any play on 18 November 2019. The customers verbally intimated that the funds were given to them by Customer 57 and that the transaction was arranged so that Customer 57 could avoid the

Hotel Card channel limits. The customers advised Star Gold Coast that they were involved in real estate and property development. On 20 November 2019, Customer 57 presented \$255,000 in cash at Star Gold Coast to be exchanged for chips. The cash was bound with straps not sourced from Star Gold Coast. Recent Star Sydney records did not support the cash coming from that property. Star Gold Coast noted that the straps were not dated. Customer 57 used the chips for gaming at Star Gold Coast. The other customers recorded minimal or no play. Star Gold Coast noted that since the beginning of 2019, Customer 57 had recorded losses of \$1,098,235 at Star Gold Coast: SMR dated 20 November 2019.

On 20 November 2019, a Star Qld customer presented \$100,000 in cash to be exchanged for chips. Star Qld understood that the customer was Customer 57's guest. The cash comprised \$100 notes and was contained in a glossy red bag. When asked, the customer stated that the cash was sourced from another Australian casino. The customer used the chips for gaming. By 21 November 2019, the customer had recorded winnings of \$320,000: SMR dated 21 November 2019.

On 22 November 2019, Customer 57 presented \$100,000 in cash to be exchanged for chips. The cash comprised \$100 notes bound with casino straps. When asked, Customer 57 stated that the cash was sourced from another Australian casino. Between 22 November 2019 and 25 November 2019, Customer 57 recorded a loss of \$736,500: SMR dated 25 November 2019.

On 28 November 2019, Customer 57 and another Star Qld customer, Person 21, transferred funds through the Hotel Card channel to their FMAs. These funds were then distributed to other Star Qld customers between 21 November 2019 and 27 November 2019:

- a. Person 21 transferred \$300,000 in six units of \$50,000 through the Hotel Card channel to his FMA. Of this, approximately \$100,000 was transferred to Customer 57 and \$100,000 was transferred to a second customer. Star Qld could not determine where the balance was transferred. Person 21 did not record any play over this period.
- b. Customer 57 transferred \$200,000 in four units of \$50,000 through the Hotel Card channel to his FMA. Of this, Customer 57 gamed with \$100,000 and transferred \$100,000 to a second Star Qld customer. Customer 57 recorded losses of \$788,400. Customer 57 then transferred a further \$100,000 to the second customer.
- c. The second customer did not make transactions through the Hotel Card channel. The second customer recorded a loss of \$242,600 during this period.
- d. Another Star Qld customer transferred \$200,000 in four units of \$50,000 through the Hotel Card channel to his FMA. The

customer was believed to be related to Customer 57. Of these funds, \$100,000 was transferred to Customer 57. Star Qld could not determine where the balance was transferred. The customer did not record any play over this period.

On 28 November 2019, Star Qld received information that Customer 57 had purchased real estate during his time on the Gold Coast. Star Qld noted that Customer 57 was due to leave the property on 30 November 2019 and that he appeared eager to travel to another Australian casino: SMR dated 28 November 2019.

On 10 December 2019, a Star Qld customer presented \$100,000 cash at Star Qld. The cash comprised \$100 notes bound in Star Qld straps. When asked, the customer stated that the cash was sourced from Customer 57. The customer used the cash for gaming. Since 18 November 2019, the customer had recorded losses of \$300,000. Star Qld knew that Customer 57 and the customer were at Star Qld together. However, Star Qld was unaware of the nature of their relationship or the reason why Customer 57 had given the customer the cash: SMR dated 12 December 2019.

- j. between 30 May 2017 and 2 September 2019, Star Sydney provided Customer 57 with significant amounts of credit upon request, up to limits of \$1,300,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 30 May 2017 and 2 September 2019, Star Sydney provided Customer 57 with at least \$7,885,000 in CCFs, the limits of which ranged between \$80,000 and \$1,300,000, on 15 occasions.

On each occasion, the CCF was provided on a “temporary” basis while funds obtained through the Hotel Card channel were cleared, and on several occasions was approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer and the General Manager VIP Credit and Collections.

- k. Customer 57 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 57 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Springs Salons, Lakes Salons, Rivers Salons and Jade.

- l. Customer 57 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 57 had access to private gaming rooms at Star Qld, including the Club, the Sovereign Room, Salon 98, Salon 96, Salon 89, Salon 69, Salon 66, Pit 9, Pit 8 and the Club Conrad.

- m. in 2019, Customer 57 was the subject of law enforcement enquiries at Star; and

Particulars

On 23 September 2019 and 4 December 2019, Star Sydney received a request from a law enforcement agency for information concerning Customer 57.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 57's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 57 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 57 was a company director.

Between 2017 and 2019, Star Sydney and Star Qld recorded high and escalating turnover for Customer 57. Customer 57 transacted significant volumes of money through the high risk Hotel Card channel. Customer 57, and persons associated with him, took active steps to circumvent transaction limits in respect of the high risk Hotel Card channel.

On several occasions, Customer 57 and persons associated with him indicated that the funds transacted through the high risk Hotel Card channel, and through the casino environment, were to be used for reasons other than gaming, including purchasing property and conducting business.

Customer 57, and persons associated with him, appeared to have access to large volumes of cash.

At no time was Customer 57's source of funds or source of wealth commensurate with the high value financial and gambling services provided to him by Star Sydney and Star Qld.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 57

1784. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 57 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 57.
- a. On and from 30 November 2016, Customer 57 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 57's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 57 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 29 June 2016, Customer 57 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 57 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 57's transactions

- 1785. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 57's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 57 Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 57 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. an international remittance channel, specifically the Hotel Card channel;

Particulars

See paragraphs 777 and 790 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 57 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. an international remittance channel, specifically the Hotel Card channel; and

Particulars

See paragraphs 777 and 790 above.

- e. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 57.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 57 on 10 July 2019, 26 August 2019, 5 September 2019, 20 November 2019, 22 November 2019 and 10 December 2019: See *Customer 57's risk profile*.

The review, update and verification of Customer 57's KYC information

1786. Star Sydney and Star Qld did not review, update and verify Customer 57's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 57's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 57's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 57's source of wealth or source of funds: see *Customer 57's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 57's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 57.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 57's high ML/TF risks

1787. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 57 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 57; and
 - c. reviewing and updating Customer 57's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 57 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 57*.

ECDD triggers in respect of Customer 57

1788. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 57 following any ECDD triggers in respect of Customer 57.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

1789. Customer 57:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

Between 4 January 2017 and 30 August 2019, Star Sydney gave the AUSTRAC CEO eight SMRs with respect to Customer 57.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 11 July 2019 and 12 December 2019, Star Qld gave the AUSTRAC CEO eight SMRs with respect to Customer 57.

- c. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 7 February 2022, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 57 were high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 57* above.

1790. Each matter pleaded in paragraph 1789 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1791. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 57 following an ECDD trigger because:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 57 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 57 and the provision of designated services to Customer 57 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 11 July 2019, 12 August 2019, 14 August 2019, 20 August 2019, 26 August 2019, 29 August 2019, 20 November 2019, 25 November 2019 and 28 November 2019, Star Sydney and Star Qld conducted ECDD in respect of Customer 57.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 57's higher ML/TF risks: see *Customer 57's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 57's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 57's source of wealth or source of funds: see *Customer 57's risk profile*.

- b. Customer 57 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 57 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 57 and the provision of designated services to Customer 57 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 57

1792. By reason of the matters pleaded from paragraphs 1778 to 1791, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 57 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1793. By reason of the matters pleaded at paragraph 1792, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 57.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 58

1794. Customer 58 was a customer of Star Sydney during the relevant period. Between 2016 and 2018, Star Sydney recorded turnover exceeding \$7.3 million for Customer 58.

Particulars

Customer 58 was a customer of Star Sydney from at least 20 October 2014.

1795. Star Sydney provided Customer 58 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket representative and junket player.

Particulars

On 20 October 2014, Star Sydney opened an FMA and SKA for Customer 58 which were closed on 9 September 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 58 remitted funds to and from her FMA and SKA (items 31 and 32, table 1, s6 of the Act).

See Customer 58's risk profile.

1796. Customer 58 was a customer of Star Qld during the relevant period.

Particulars

Customer 58 was a customer of Star Qld from at least 4 March 2015.

1797. Star Qld provided Customer 58 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket representative.

Particulars

On 24 February 2015, Star Qld opened an FMA for Customer 58 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 58 remitted funds to and from her FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 58's risk profile.

1798. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 58.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 58's risk profile

1799. On and from 30 November 2016, Customer 58, and the provision of designated services to Customer 58 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 58's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 58 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 58;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on two occasions between 22 October 2014 and 21 October 2016.

The SMRs reported that Customer 58 and persons associated with her were involved in cash transactions at Star Sydney totalling at least \$3,760,000: see paragraph 1799.a.iii below.

- ii. Customer 58 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 1 February 2016 and 2 March 2016, Customer 58 was a junket player on a junket operated by a corporate junket operator, Company 6.

Star Sydney recorded that Customer 58's turnover on the junket program was \$6,851,000.

- iii. Customer 58, and persons associated with her, transacted using large amounts of cash and cash that appeared suspicious at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 17 December 2014 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 18 TTRs detailing incoming payments to Customer 58 totalling \$2,011,748 which were comprised of:

- a. \$1,899,366 in account deposits;
- b. \$95,140 in chip exchanges; and
- c. \$17,242 in foreign currency exchanges.

Between 27 November 2014 and 10 November 2016, Star Sydney gave the AUSTRAC CEO 117 TTRs detailing outgoing payments from Customer 58 totalling \$9,891,641 which were comprised of:

- a. \$6,408,246 in account withdrawals;
- b. \$2,227,395 in chip exchanges; and
- c. \$1,256,000 in other monetary values out.

Large and suspicious cash transactions

Between 20 October 2014 and 20 October 2016, Customer 58 was a junket representative. Customer 58 and persons associated with her were involved in cash transactions at Star Sydney totalling at least \$7,571,046, \$3,760,000 of which was reported in SMRs:

- a. between 20 October 2014 and 30 September 2015, Customer 58 withdrew large amounts of cash totalling at least \$2,091,671 from a junket operator's account on ten occasions: SMRs dated 22 October 2014, 12 November 2014, 29 December 2014, 5 May 2015, 12 June 2015, 4 August 2015, 31 August 2015, 25 September 2015 and 1 October 2015;
- b. on 23 December 2014, Customer 58 transferred \$600,000 from a junket operator's account to her own account. Customer 58 then withdrew the \$600,000 in cash from her account: SMR dated 29 December 2014;
- c. on 29 January 2015, Customer 58 exchanged \$100,000 in chips for cash on behalf of a junket operator: SMR dated 29 January 2015;
- d. on 4 May 2015, Customer 58 placed a large amount of cash withdrawn from a junket operator's account into the junket operator's safe deposit box: SMR dated 5 May 2015;
- e. on 30 July 2015, a junket representative, Person 11, took \$200,000 from a safe deposit box. The safe deposit box belonged to a junket operator. Shortly after, Customer 58, who was also a junket representative, deposited \$200,000 into an

account in the name of a junket funder: SMR dated 30 July 2015;

- f. between 24 November 2015 and 29 September 2016, Customer 58 withdrew large amounts of cash totalling at least \$1,678,325 from a corporate junket operator's account, Company 6, on six occasions: see for example SMRs dated 25 November 2015, 21 December 2015, 5 May 2016;
 - g. on 8 December 2015, a junket representative for a corporate junket operator, Company 6, withdrew \$200,000 from the junket operator's account. Later that day, Customer 58 exchanged \$200,000 in chips for cash on behalf of the same junket operator: SMR dated 9 December 2015;
 - h. on 9 December 2015, Customer 58 exchanged \$100,000 in chips for cash on behalf of a corporate junket operator, Company 6.: SMR dated 10 December 2015;
 - i. between 1 December 2015 and 20 October 2016, Customer 58 deposited large amounts of cash totalling at least \$1,993,050 into a corporate junket operator's account, Company 6, on five occasions. Some of the cash was presented suspiciously, in small notes, contained in envelopes or with straps from another Australian casino: SMRs dated 6 October 2016, 10 October 2016, 21 October 2016.
 - j. on 16 April 2016 and 17 April 2016, Customer 58 made several large cash transactions totalling \$465,000 on behalf of a corporate junket operator, Company 6: SMR dated 18 April 2016; and
 - k. on 19 July 2016, another customer opened an account with Star Sydney. The customer transferred \$150,000 to the newly opened account. The customer withdrew \$150,000 cash from that account and gave it to Customer 58. Shortly after, Customer 58 placed the cash in a safe deposit box belonging to a corporate junket operator, Company 6: SMR dated 20 July 2016.
- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 58 by remitting large amounts of money within the casino environment via her accounts;

Particulars

See paragraph 347 to 349 above.

For example, on 23 December 2014, Customer 58 transferred \$600,000 from a junket operator's Star Sydney account to her Star Sydney account: see paragraph 1799.a.ii above.

Customer 58's risk profile from 30 November 2016

- b. Customer 58 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 2 January 2019 and 1 March 2019, Customer 58 was a player on two Suncity junkets at Star Sydney operated by Customer 3;
 - ii. each junket was funded by a person other than the junket operator, being Customer 1; and
 - iii. Star Sydney recorded high turnover totalling \$6,851,000 for Customer 58's gaming activity on Suncity junket programs;
- c. Customer 58 was a junket representative for:
 - i. three junket operators at Star Sydney, including Customer 34; and
 - ii. a junket operator at Star Qld;
- d. designated services provided to Customer 58 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. Customer 58 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2018, Star Sydney recorded high and escalating individual rated turnover totalling \$508,139 for Customer 58;

Particulars

See paragraph 752 above.

In 2016, Customer 58's individual rated turnover was \$22,289.

In 2017, Customer 58's individual rated turnover escalated to \$432,544.

In 2018, Customer 58's individual rated turnover was \$53,307.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 58 by remitting large amounts of money within the casino environment via her accounts;

Particulars

See paragraph 347 to 349 above.

For example, on 4 April 2017, Star Sydney transferred from \$350,000 from Customer 58's Star Sydney account which it made available to another Star Sydney customer's account. Customer 58 and the customer then left together. However, the customer returned shortly afterwards and requested that \$230,000 be transferred to his personal bank account by telegraphic transfer. The funds were not used for gaming purposes: SMR dated 4 April 2017.

- g. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 58 by remitting large amounts of money within the casino environment via her accounts;

Particulars

See paragraph 347 to 349 above.

On 3 August 2017, Star Qld transferred \$433,820 from Customer 58's Star Qld account which it made available to Customer 54's Star Qld account: see paragraph 1799.i below.

- h. Customer 58, and persons associated with her, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes, cash contained in shopping bags, and cash that was sticky and wet at Star Sydney:
- i. in her capacity as Customer 34's junket representative;

Particulars

See paragraphs 611 to 618 above.

See paragraph 1799.j below.

Between 21 December 2016 and 15 October 2017, Customer 58 exchanged chips for cash on nine occasions on behalf of Customer 34 totalling \$1,213,000. On one occasion, Customer 58 was observed placing the cash into a black bag and handing the bag to a junket player on Customer 34's junket. The junket player used the funds for gaming activity not related to the junket program: SMR dated 19 September 2017.

Between 22 December 2016 and 18 October 2017, Customer 58 withdrew cash on 26 occasions on behalf of Customer 34 totalling \$4,857,824. On one occasion, Customer 58 told Star Sydney staff that the funds were to be used by a junket player to purchase a property. On another occasion, Customer 58 placed the cash in a black bag and handed it to another Star Sydney customer playing on the junket: see for example SMRs dated 6 February 2017, 26 April 2017, 15 May 2017, 24 July 2017, 14 August 2017, 16 August 2017.

Between 6 March 2017 and 6 October 2017, Customer 58 deposited cash on five occasions on behalf of Customer 34 totalling \$1,280,000.

A significant amount of the cash was in small notes. Some of the cash was contained in travel or shopping bags and bundled together with elastic bands: see for example SMRs dated 7 March 2017, 2 August 2017, 16 August 2017.

- ii. in her capacity as Company 6's junket representative; and

Particulars

See paragraphs 611 to 618 above.

Between 31 March 2017 and 1 April 2017, Customer 58 was a junket representative for a corporate junket operator, Company 6. Customer

58 made several high value transactions within a 24-hour period. The transactions did not appear to be linked to the junket program:

- a. Customer 58 and another Star Sydney customer presented \$200,000 to be deposited into the corporate junket operator's account. The cash comprised \$100 and \$50 notes, bundled with elastic bands in \$10,000 units and contained in a white plastic bag. One bundle of \$10,000 was wet, stuck together and had an unpleasant odour;
 - b. several hours later, Customer 58 presented a further \$200,000 to be deposited into the corporate junket operator's account. The cash comprised mostly \$50 notes;
 - c. several hours later, another junket representative, Person 11, presented \$100,000 cash to be deposited into the corporate junket operator's account. The cash comprised mostly \$50 notes bundled with elastic bands in \$10,000 units. The notes were in good condition. However, the notes were damp and emitted a musty odour. One bundle of \$10,000 was wet; and
 - d. later, Person 11 withdrew \$231,000 in cash from the corporate junket operator's account: SMR dated 3 April 2017.
- iii. in her own right;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 12 December 2016 and 9 July 2018, Star Sydney gave the AUSTRAC CEO 23 TTRs detailing incoming payments to Customer 58 totalling \$2,354,228 which were comprised of:

- a. \$2,121,728 in account deposits; and
- b. \$232,500 in chip exchanges.

Between 12 December 2016 and 7 July 2018, Star Sydney gave the AUSTRAC CEO 73 TTRs detailing outgoing payments from Customer 58 totalling \$6,143,181 which were comprised of:

- a. \$4,498,751 in account withdrawals;
- b. \$1,634,430 in chip exchanges; and
- c. \$10,000 in other monetary values out.

Large and suspicious cash transactions

On 10 March 2017, Customer 58 presented \$175,000 in cash to be deposited into her account. The cash comprised \$100 and \$50 notes. After the deposit, Customer 58 withdrew \$175,000 in chips. However, Customer 58 did not record any play after the chips were purchased: SMR dated 13 March 2017.

On 2 August 2017, another Star Sydney customer, Person 11, presented \$430,000 in cash which comprised \$50 notes. The cash was bundled with elastic bands and contained in a shopping bag. Person 11 requested that the cash be exchanged from \$50 notes to \$100 notes. After the exchange, Person 11 left the property. The following morning, Customer 58 presented \$430,000 in cash to be deposited into her account at Star Sydney. The cash was contained in a shopping bag and comprised \$100 notes bound with Star straps. Customer 58 also deposited a further \$1,400 cash. After the deposit, Customer 58 requested that those funds be transferred to his account at Star Gold Coast: SMR dated 3 August 2017.

- i. Customer 58, and persons associated with her, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes and cash contained in shopping bags at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 6 February 2017, Customer 58 presented \$100,000 in cash at Star Qld to be deposited into her account. The cash was presented in a green shopping bag. At this time, Customer 58 was a junket representative for a junket operator. Several other Star Qld customers were with Customer 58 when she presented the cash: SMR dated 6 February 2017.

On 12 February 2017, Customer 58 withdrew \$200,000 cash from a junket operator's account. Star Qld considered this to be a large amount of cash to have been carried by Customer 58: SMR dated 13 February 2017.

On 3 August 2017, Customer 58 was a junket representative for a junket operator. Customer 58 presented \$431,400 in cash contained in a shopping bag at Star Sydney to be deposited into her account.

Customer 58 then transferred \$431,388 from her Star Sydney account to her Star Gold Coast account. Later that day, Customer 58 presented another \$2,500 in cash to be deposited into her account at Star Sydney. Customer 58 then transferred \$2,432 to her Star Gold Coast account. Shortly after, Customer 58 transferred \$433,820 to a Star Qld customer, Customer 54, from her Star Gold Coast account. Prior to the above transactions, another junket representative, Person 11, presented \$429,400 cash at Star Sydney. The cash was all in \$50 notes. Person 11 requested that the cash be exchanged to \$100 notes. Person 11 took these funds and another \$600 (totalling \$430,000) in a shopping bag: SMR dated 4 August 2017.

- j. Star Sydney was aware that Customer 58, and persons associated with her, had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

See paragraph 1799.h above.

On 1 April 2017, while a junket representative for Customer 34's junket, Customer 58 withdrew \$325,458 in cash from Customer 34's account. After this transaction was completed, Customer 58 presented another \$83,000 in cash to be deposited into another Star Sydney customer's account. Star Sydney declined this request. Customer 58 then requested that the \$83,000 in cash be deposited into her account and then transferred to the customer via telegraphic transfer. Star Sydney advised Customer 58 that it did not send telegraphic transfers to third parties. Customer 58 then requested that the \$83,000 in cash be deposited into her account. Customer 58 was observed making several telephone calls and pacing. Shortly afterwards, Customer 58 deposited another \$350,000 into her own account. This included the amount withdrawn from Customer 34's account. Customer 58 advised Star Sydney staff that she would send the money to her own bank account in the coming days. Customer 58 asked Star Sydney staff whether the bank would call the casino to ask about the source of the funds: SMR dated 3 April 2017.

On 12 August 2017, Customer 58 presented \$200,000 in cash at Star Sydney to be deposited into Customer 34's account. Later that evening, Customer 58 deposited another \$200,000 into Customer 34's account. The cash comprised \$100 notes which had been issued by Star. Early the following morning, Customer 58 withdrew \$400,000 and \$90,000 in cash from Customer 34's account. Star Sydney was aware that the junket often conducted large cash transactions. However, Star Sydney considered it unusual that Customer 58 would deposit and withdraw cash in this way, without any apparent reason: SMR dated 14 August 2017.

On 15 September 2017, Customer 58 withdrew \$400,000 in cash from Customer 34's account. Customer 58 handed the cash to a second Star Sydney customer, Person 54. Person 54 left the venue in a vehicle. Later in the evening, Person 54 returned with a third customer. The customers deposited \$200,000 each into their respective accounts at Star Sydney. Person 54 and the third customer then left Star Sydney in separate vehicles: SMR dated 18 September 2017.

- k. Customer 58 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 58 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Rivers Salons, Harbour Salons, Springs Salons, Lakes Salons, Vantage, Oasis and Chairman's.

- l. Customer 58 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 58 had access to private gaming rooms at Star Qld, including the Club Conrad.

- m. Star Sydney and Star Qld did not have adequate reason to believe that Customer 58's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 58 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 58's occupation was as a junket representative.

Customer 58 transacted in high volumes of cash and cash that appeared suspicious. On several occasions, cash transactions conducted by Customer 58 or persons associated with her were not for the purpose of junket activity.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 58

- 1800. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 58 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 58.
 - a. On and from 30 November 2016, Customer 58 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 58's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from February 2017, Customer 58 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 58's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 58 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 30 December 2014, Customer 58 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 58's transactions

- 1801. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 58's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 58, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep appropriate records of designated services provided to junket players and junket representatives;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 58 through the junket channel;

Particulars

See paragraph 783 above.

- d. Star Sydney and Star Qld provided designated services to Customer 58 through multiple accounts and were not able to collate information from those accounts; and

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- e. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 58.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 58 on 48 occasions between 21 December 2016 and 16 October 2017: See *Customer 58's risk profile*.

The review, update and verification of Customer 58's KYC information

1802. Star Sydney and Star Qld did not review, update and verify Customer 58's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 58's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 58's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 58's source of wealth or source of funds: see *Customer 58's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 58's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 58.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 58's high ML/TF risks

1803. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 58 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 58; and
 - c. reviewing and updating Customer 58's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 58 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 58*.

ECDD triggers in respect of Customer 58

1804. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 58 following any ECDD triggers in respect of Customer 58.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1805. Customer 58:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 6 February 2017 and 19 September 2017, Star Sydney gave the AUSTRAC CEO 16 SMRs with respect to Customer 58.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 6 February 2017 and 4 August 2017, Star Qld gave the AUSTRAC CEO three SMRs with respect to Customer 58.

1806. Each matter pleaded in paragraph 1805 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1807. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 58 following an ECDD trigger because:

- a. at no time did Star Sydney and Star Qld apply the ECDD Programs to Customer 58;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

- b. Customer 58 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 58 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 58 and the provision of designated services to Customer 58 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 58

1808. By reason of the matters pleaded from paragraphs 1794 to 1807 above, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 58 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1809. By reason of the matters pleaded at paragraph 1808, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 58.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 59

1810. Customer 59 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$53 million for Customer 59.

Particulars

Customer 59 was a customer of Star Sydney from at least 19 June 2016.

1811. Star Sydney provided Customer 59 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 10 October 2017, Star Sydney opened an FMA and SKA for Customer 59 which remain open (item 11, table 3, s6 of the Act).

Between 10 November 2017 and 14 February 2018, Star Sydney approved CCFs for Customer 59 on 10 occasions ranging from \$50,000 to \$400,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 59.

See Customer 59's risk profile below.

1812. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 59.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 59's risk profile

1813. On and from 30 November 2016, Customer 59, and the provision of designated services to Customer 59 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 59's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 59 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 59;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on two occasions between 8 November 2016 and 15 November 2016.

Both SMRs reported two transactions where Customer 59 had exchanged chips for cash in circumstances where she did not have any recorded turnover. The first transaction was an exchange of \$100,000 in chips for cash. The second transaction was an exchange of two \$500,000 cash plaques, which allegedly belonged to Customer 70, for \$1,000,000 in cash at Star Sydney. Due to the large amount of cash requested, Customer 59 was offered a cheque or a telegraphic transfer. However, Customer 70 was present and insisted on cash. Customer 70 stated that he intended to purchase property that day.

- ii. Customer 59 was connected to other customers at Star Sydney, including Customer 70, who was a player Star Sydney considered had acted suspiciously; and

Particulars

See particulars to paragraph 1813.a.i above.

- iii. Customer 59 transacted using large amounts of cash at Star Sydney.

Particulars

See paragraphs 611 to 618 above.

See particulars to paragraph 1813.a.i.

Transactions recorded by Star Sydney in 2016

Between 16 June 2016 and 15 November 2016, Star Sydney gave the AUSTRAC CEO 15 TTRs in respect of Customer 59 detailing transactions totalling \$1,604,639, including:

- a. 11 chip cash outs totalling \$1,490,015;
- b. three chip purchases totalling \$80,900; and
- c. one EGM payout of \$33,724.

Customer 59's risk profile from 30 November 2016

- b. Customer 59 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

- i. between 21 January 2017 and 31 May 2018, Customer 59 was a player on twelve junkets at Star Sydney operated by three junket operators, Customer 7, Customer 8 and Customer 3;
- ii. ten of the junkets were partly or fully funded by a person other than the junket operator, including Customer 1 and Customer 7; and
- iii. between 21 January 2017 and 31 May 2018, Star Sydney recorded high turnover totalling \$51,851,186 with losses of \$949,780 for Customer 59's gaming activity on junket programs;

Particulars

In 2017, Customer 59's turnover on junket programs was
\$26,409,003 with wins of \$409,225.

In 2018, Customer 59's turnover on junket programs was
\$25,442,183 with losses of \$1,359,005.

- c. designated services provided to Customer 59 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 59 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded high individual rated turnover totalling \$1,178,437 for Customer 59;

Particulars

See paragraph 752 above.

In 2016, Customer 59's individual rated turnover was \$829,389.

In 2017, Customer 59's individual rated turnover was \$335,503.

In 2018, Customer 59's individual rated turnover was \$6,187.

In 2019, Customer 59's individual rated turnover was \$7,356.

- e. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 59 by remitting large amounts of money into, out of, and within the casino environment via her accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 10 November 2017 and 14 February 2018, Customer 59 transacted \$2,029,000 through the Hotel Card channel at Star Sydney and was given a temporary CCF while waiting for the funds to clear.

Remittances out of the casino environment

See paragraph 327 above.

On 20 November 2017, Customer 59 transferred \$300,000 from her Star Sydney account to her personal bank account in Australia: SMR dated 21 November 2017.

On 22 November 2017, Star Sydney sent a telegraphic transfer of \$300,000 from Customer 59's SKA to an Australian bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

On 20 November 2017, Customer 59 received \$300,000 from Customer 7's junket account into her Star Sydney account: SMR dated 21 November 2017.

- f. designated services provided to Customer 59 included substantial EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

Between 29 December 2016 and 22 January 2018, Star Sydney gave the AUSTRAC CEO 11 TTRs detailing EGM payouts to Customer 59 totalling \$209,992.10.

- g. Customer 59 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 29 December 2016 and 22 January 2018, Star Sydney gave the AUSTRAC CEO 50 TTRs detailing transactions involving Customer 56 totalling \$2,099,241, including:

- a. 26 chip cash outs totalling \$1,504,249;
- b. 10 chip purchases totalling \$205,000;
- c. one cash deposit of \$90,000;
- d. one cash withdrawal of \$90,000; and
- e. 11 EGM payouts totalling \$209,992.

Large and suspicious cash transactions

On 11 November 2017, a junket representative Customer 56 withdrew \$100,000 in cash on behalf of junket operator Customer 8. The cash was then given to Customer 59.

On 15 January 2018, a junket representative Customer 49 made a chip cash out of \$201,500 on behalf of junket operator Customer 7.

Customer 49 gave the cash to Customer 59. Customer 59 was a player on the Customer 7 junket and had recorded a turnover of \$1,061,250 and a win of \$304,250 for the junket.

See particulars to paragraph 1813.i.

- h. Star Sydney provided Customer 59 with significant amounts of credit upon request, up to limits of \$400,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 10 November 2017 and 14 February 2018, Star Sydney provided Customer 59 with at least \$2,272,000 in CCFs, the limits of which ranged between \$50,000 and \$400,000, on ten occasions.

On each occasion, the CCF was provided on a “temporary” basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Financial Officer.

- i. Customer 59 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including cashing-in large value chips with no evidence of play, and quick turnover of money (without betting);

Particulars

See paragraph 25 above.

On the following occasions, Customer 59 was involved in transactions indicative of the ML/TF typology of cashing-in large value chips with no evidence of play:

- a. on 6 February 2017, Customer 59 exchanged \$100,000 in chips for cash. However, Star Sydney noted that she had no recorded play in the previous week. Customer 59 delivered the cash to Customer 70 who had recorded winnings of \$199,300 that day: SMR dated 7 February 2017.
- b. on 9 February 2017, Customer 59 requested to exchange \$200,000 in plaques for cash. When asked where she got the plaques, Customer 59 advised Star Sydney that they belonged to her partner, Customer 70. Customer 59 returned to the cashier with Customer 70 to complete the transaction. Star Sydney noted that Customer 70’s recorded play showed a win of \$300,000 in the days prior: SMR dated 10 February 2017.
- c. on 23 February 2017, Customer 59 exchanged \$100,000 in plaques for cash. Star Sydney noted that Customer 59 had no recorded play in the month prior to explain the plaques. Soon after the transaction, another Star Sydney customer presented the same cash to purchase chips at a different cashier: SMR dated 23 February 2017.

- d. on 9 March 2017, Customer 59 exchanged a \$100,000 plaque for cash. Following the transaction, Customer 59 moved from the Sovereign Room to the Oasis Cage and exchanged another \$50,000 in chips for cash. When Customer 59 then returned to the Sovereign Room, she met with Customer 70. Customer 70 then exchanged \$200,000 in plaques for cash. Star Sydney noted that Customer 59 had no play recorded in the last week but that Customer 70 had a large amount of play and winnings in recent days: SMR dated 10 March 2017.
- e. on 25 July 2017, Customer 59 exchanged \$100,070 in chips for cash. Customer 59 placed the cash in a bag before meeting with Customer 70. However, Customer 59 was not observed giving the cash to Customer 70. Star Sydney noted that Customer 59 did not have any play recorded to support the large transaction, but that Customer 70 had recorded a large amount of play and that such a transaction would not be unusual for him. Star Sydney noted that it seemed likely Customer 59 had completed the transaction on Customer 70's behalf: SMR dated 25 July 2017.
- f. on 17 October 2017, Customer 59 exchanged \$300,000 in chips for cash. Star Sydney noted that Customer 59 had no recorded play in the days prior to the transaction. After collecting the cash, Customer 59 met another Star Sydney customer. The two left the property together. The other customer had no play recorded at Star Sydney in the 12 months prior: SMR dated 18 October 2017.

On 20 November 2017, Customer 59 was involved in transactions indicative of the ML/TF typology of quick turnover of money (without betting). Customer 49 deposited \$90,000 in chips into Customer 7's junket account. Customer 49 immediately withdrew the funds for cash and then requested to deposit the \$90,000 in cash into Customer 59's account. Customer 49 was advised that the transfer could not occur without an authority. Later, Customer 49 returned with Customer 59 and deposited a further \$310,000 in chips into Customer 7's junket account. Customer 49 then withdrew the \$310,000 from Customer 7's account and transferred it to Customer 59. In addition, Customer 49 deposited the original \$90,000 into Customer 7's account and also transferred that sum to Customer 59. Customer 59 then requested that \$300,000 be transferred to her personal bank account. Star Sydney noted that Customer 59 was a player on Customer 7's junket and had recorded a turnover of \$1,663,900 and a win of \$495,275: SMR dated 21 November 2017.

- j. in 2017 and 2018, Customer 59 was the subject of law enforcement enquiries on three occasions at Star Sydney;

Particulars

On 7 February 2017, Star Sydney contacted a law enforcement agency in relation to Customer 59.

On 21 March 2018, Star Sydney received a request from a law enforcement agency for information regarding Customer 59.

On 16 November 2018, Star Sydney received a request from a law enforcement agency for information regarding Customer 59.

- k. Customer 59 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 59 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Oasis, Vantage, Lakes Salons, Sovereign Cage, Lakes Salon Cage and Springs Salon Cage.

- l. Star Sydney did not have adequate reason to believe that Customer 59's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 59 at Star Sydney.

Particulars

See paragraph 808 above.

Between 2016 and 2019, Customer 59 had a cumulative turnover of \$53 million, and engaged in cash transactions totalling more than \$2,099,241.

Customer 59 was connected to other customers whom Star Sydney considered had acted suspiciously, including Customer 7, Customer 49, Customer 8, Customer 56 and Customer 70.

Customer 59 frequently exchanged in high value chip and cash exchanges in circumstances where Customer 59 had recorded no gaming activity or winnings.

From February 2017 until 21 September 2022, Star Sydney understood Customer 59's occupation to be "Manager".

Star Sydney did not request any further information in relation to Customer 59's source of wealth or source of funds; nor did Star Sydney have any evidence to suggest that Customer 59's turnover was commensurate with her source of wealth or source of funds.

See particulars to paragraphs 1813.g and 1813.i.

Star Sydney's determination of the ML/TF risks posed by Customer 59

1814. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 59 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 59.

- a. On and from early 2017, Customer 59 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 59's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 59 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 2 December 2016, Customer 59 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 59's transactions

- 1815. At no time did Star Sydney apply appropriate transaction monitoring to Customer 59's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 59, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep appropriate records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 59 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. an international remittance channel, specifically the Hotel Card channel; and

Particulars

See paragraphs 777 and 790 above.

- d. Star senior management were not specifically informed of a large and suspicious cash incident involving Customer 59.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 59 on 20 November 2017: See *Customer 59's risk profile*.

The review, update and verification of Customer 59's KYC information

- 1816. Star Sydney did not review, update and verify Customer 59's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 59's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 59's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 59's source of wealth and source of funds were not legitimate: see *Customer 59's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 59's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 59.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 59's high ML/TF risks

- 1817. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 59 appropriately;

- b. applying appropriate risk-based transaction monitoring to Customer 59; and
- c. reviewing and updating Customer 59's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 59 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 59*.

ECDD triggers in respect of Customer 59

1818. Star Sydney was required to apply the ECDD Programs to Customer 59 following any ECDD triggers in respect of Customer 59.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1819. Customer 59 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 7 February 2017 and 21 November 2017, Star Sydney gave the AUSTRAC CEO seven SMRs with respect to Customer 59.

1820. The matter pleaded in paragraph 1819 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1821. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 59 following an ECDD trigger because:

- a. at no time did Star Sydney apply the ECDD Programs to Customer 59; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

- b. Customer 59 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite.

Particulars

See paragraph 810 above.

Rules 15.10(6) and (7) of the Rules.

Contravention of s36 of the Act in respect of Customer 59

1822. By reason of the matters pleaded from paragraphs 1810 to 1821 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 59 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1823. By reason of the matters pleaded at paragraph 1822, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 59.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 60

1824. Customer 60 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$100 million for Customer 60.

Particulars

Customer 60 was a customer of Star Sydney from at least 7 March 2011.

On 29 September 2016, Star Sydney issued a WOL in respect of Customer 60. On 13 April 2018, the General Corporate Counsel revoked the WOL.

On 14 January 2019, Star Sydney issued a second WOL in respect of Customer 60.

1825. Star Sydney provided Customer 60 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

Between 2016 and 2019, Star Sydney recorded turnover totalling \$102,331,502 for Customer 60 (table 3, s6 of the Act).

See *Customer 60's risk profile* below.

1826. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 60.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 60's risk profile

1827. On and from 30 November 2016, Customer 60, and the provision of designated services to Customer 60 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 60's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 60 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 60;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 33 occasions between 17 January 2013 and 28 April 2016.

The SMRs reported that Customer 60 and persons associated with him transacted using large amounts of cash and cash that appeared suspicious at Star Sydney: see paragraph 1827.a.v below.

- ii. Customer 60 was a junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Between 25 June 2015 and 22 September 2016, Customer 60 operated eight junkets at Star Sydney. Customer 60 was one of the top ten junket operators by turnover in 2015.

On four occasions, Customer 60 was the only player on the junket. Customer 60 played on each of the eight junkets.

By 30 November 2016, the total cumulative turnover of junkets operated by Customer 60 at Star Sydney was \$1,120,616,468 with losses of \$13,186,355.

- iii. Customer 60 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 25 June 2015 and 22 September 2016, Customer 60 was a player on eight junkets at Star Sydney operated by himself. On four junkets, Customer 60 was the only player.

By 30 November 2016, Customer 60's turnover on junket programs was \$1,040,689,055 with losses of \$12,432,200.

- iv. Customer 60 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$3,070,962 for Customer 60;

Particulars

See paragraph 752 above.

- v. Customer 60 and his associates transacted using large amounts of cash and chips and cash that appeared suspicious, including large volumes of cash in paper bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 8 March 2011 and 1 June 2016, Star Sydney gave the AUSTRAC CEO 234 TTRs in respect of Customer 60 totalling \$12,596,952, which were comprised of:

- a. 179 outgoing TTRs totalling \$10,177,872;
- b. 55 incoming TTRs totalling \$2,419,080;
- c. \$4,053,840 in chip or cash exchanges;
- d. \$8,522,992 in account deposits or withdrawals; and
- e. \$20,120 in EGM payouts.

Between January 2013 and 28 April 2016, Customer 60 engaged in large and suspicious cash transactions including:

- a. at least four exchanges of chips to cash totalling at least \$432,500 that were not consistent with recorded wins;
- b. at least two cash deposits into his FMA totalling at least \$450,000; and
- c. at least 27 cash withdrawals from his FMA, Star Sydney account, and junket program settlements, totalling at least \$2,587,726, including cash withdrawn and placed in paper bags.

On 8 April 2015, Customer 60 withdrew \$500,000 in cash from his account at Star Sydney. Customer 60 handed the cash to a third party in a vehicle before departing the casino. Later that day, a Star Sydney customer approached the cashier with Customer 60 and exchanged \$500,000 in cash for chips. The cash was bundled in straps issued by Star Sydney. The patron then exchanged \$500,000 in chips for a Star non-winnings cheque after a minimal amount of play: SMRs dated 8 April 2015 and 9 April 2015.

On 16 September 2015, Customer 60 withdrew \$136,000 in cash from his account at Star Sydney and placed the cash in a black paper bag. Customer 60 then handed the bag to a Star Sydney customer and left the gaming area with the customer: SMR dated 17 September 2015.

On 22 February 2016, a junket player, Person 62, was issued a Star non-winnings cheque for \$1,096,982. Person 62 returned to Star Sydney with Customer 60. Customer 60 advised Star Sydney that Person 62 wanted to exchange the cheque for chips. Person 62 then opened an account at Star Sydney, deposited the cheque, and withdrew the funds as chips. After receiving the chips, Person 62 gave \$96,982 in chips to Customer 60: SMR dated 23 February 2016.

On 26 April 2016, a junket player won \$1,715,000 and transferred the amount to his account. The following day, the junket player withdrew the funds as chips and immediately handed the chips to Customer 60. Customer 60 then deposited \$1,600,000 in chips into his account: SMR dated 29 April 2016.

On 28 April 2016, a Star Sydney customer exchanged \$100,000 in chips for cash. Star Sydney considered that this transaction was not supported by the customer's play in the month prior to the transaction. After the transaction, the customer handed the cash to Customer 60 in the lobby. Customer 60 then departed Star Sydney with the cash in a private vehicle: SMR dated 29 April 2016.

- vi. between 30 July 2013 and 8 October 2015, Star Sydney provided Customer 60 and his junket programs with significant amounts of credit upon request, up to limits of \$5,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 30 July 2013 and 8 October 2015, Star Sydney approved CCFs for Customer 60 and his junket programs ranging from \$1,000,000 to \$5,000,000.

- vii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 60 by remitting large amounts of money into and out of the casino environment via his accounts; and

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

On 5 December 2015, Star Sydney received a telegraphic transfer of \$500,000 from an Australian bank account, which it made available to Customer 60's SKA.

Between 25 January 2013 and 15 March 2016, Star Sydney gave the AUSTRAC CEO 11 incoming IFTIs detailing deposits to Customer 60's account totalling \$5,976,276 which comprised:

- a. between 24 January 2013 and 26 February 2013, six incoming deposits from five third party companies totalling \$3,131,546; and
- b. between 26 February 2013 and 14 March 2016, five incoming deposits from Customer 60 totalling \$2,844,730.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 9 April 2016 and 23 September 2016, Star Sydney sent three telegraphic transfers totalling \$2,080,157 from Customer 60's FMA to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- viii. Customer 60 was the subject of law enforcement enquiries at Star Sydney;

Particulars

In June 2016, Star Sydney received requests from a law enforcement agency for information about Customer 60 in relation to a stabbing incident.

Customer 60's risk profile from 30 November 2016

- b. on 26 September 2016, Star Sydney issued a WOL in respect of Customer 60. On 13 April 2018, the General Counsel revoked the WOL;
- c. Customer 60 was connected to other customers at Star Sydney, including junket funders, junket operators, junket representatives and players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 11, Customer 10, Customer 16 and Customer 27;

Particulars

In August 2014, Customer 60 and Customer 10 arrived at Star Sydney together. Star suspected that Customer 60 arrived with funds from Customer 10.

In May 2015, Customer 10 used his CCF to fund a Customer 11 junket represented by Customer 16. In applying to renew his CCF, Customer 10 indicated that his junket representative, Customer 16, intended to buy-in to the junket with \$5,000,000 and then withdraw \$2,000,000 to transfer to Customer 60. Customer 60 was not a junket player on Customer 11's junket. This arrangement was approved by the Chief Executive Officer and the Chief Financial Officer.

After Star Sydney issued a WOL in respect of Customer 60 on 29 September 2016, Customer 27 commenced operating junkets at Star Sydney.

After Star Sydney revoked Customer 60's WOL on 13 April 2018, it conducted a review of Customer 60's conduct and held discussions with him. Star Sydney suspected that Customer 60 had been funding Customer 27's junkets while Customer 60's WOL was in effect despite not being recorded as a junket financier for Customer 27. Between 22 December 2017 and 8 September 2018, Customer 27 operated eleven junkets at Star Sydney with a cumulative turnover of \$748,625,575. Junket players on Customer 27's junkets included Customer 62 and Customer 56.

- d. Customer 60 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded high and escalating individual rated turnover totalling \$102,331,502 for Customer 60;

Particulars

See paragraph 752 above.

In 2016, prior to being issued with a WOL on 29 September 2016, Customer 60's individual rated turnover escalated to \$22,723,175.

In 2018, after having his WOL revoked on 13 April 2018, Customer 60's individual rated turnover escalated significantly to \$75,643,680.

In 2019, prior to being issued with a WOL on 14 January 2019, Customer 60's individual rated turnover was \$3,964,647.

- e. Star Sydney was aware that:
- i. Customer 60 and persons associated with him had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. Customer 60 and persons associated with him transacted using large amounts of cash in suspicious circumstances at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 4 June 2018 and 3 December 2018, Star Sydney gave the AUSTRAC CEO seven outgoing TTRs in respect of Customer 60 totalling \$90,120, which comprised chip or cash exchanges.

On 26 September 2018, Customer 60 gave \$200,000 in plaques to a Star Sydney customer, Person 35. Person 35 then exchanged the plaques for cash. Star Sydney considered that this transaction was excessive given that Person 35 only recorded a turnover of \$633,350 and a win of \$36,850 in the days leading up to the transaction. After the transaction, Person 35 met with Customer 60, who was accompanied by two other individuals. Person 35 handed the cash to one of the individuals, who placed the cash into a bag. The individuals accompanying Customer 60 then departed Star Sydney with the cash: SMR dated 27 September 2018.

On 11 January 2019, Customer 60 attended Star Sydney early in the morning and sat at a gaming table next to a Star Sydney patron. Around this time, a second Star Sydney patron redeemed two chip purchase vouchers for Person 18's junket at the table for \$200,000 and \$300,000 respectively. The chips were passed from the dealer to the first patron seated next to Customer 60 but Customer 60 intercepted them and kept them in front of himself. Over the next three hours, Customer 60 gave out the chips in \$50,000 lots to the first patron when his stack began to run low, to a total of \$250,000 in chips. During this period, Customer 60 made numerous phone calls and walked outside to a balcony area before returning to the gaming table. Star Sydney identified that the second patron who redeemed the chip purchase voucher was one of Customer 60's associates and that Customer 60 was the de facto controller of Person 18's junket.

- f. by January 2019, Star Sydney suspect that Customer 60 was the leader of a group of customers engaging in loan sharking behaviour;

Particulars

Between 4 January 2019 and 14 January 2019, Star Sydney identified that:

- a. Customer 60 was the leader of a group of patrons conducting loan sharking;
- b. Customer 60 funded and effectively controlled two junkets, including Customer 27's junket, despite not being recorded as a financier for these junkets;
- c. Customer 60 recruited patrons to play on these junkets; and
- d. on 11 January 2019, Customer 60 engaged in proxy betting by providing chips to these patrons and directing their bets.

On 14 January 2019, Star Sydney issued a WOL in respect of Customer 60.

- g. between 2016 and 2021, Customer 60 was the subject of law enforcement enquiries at Star Sydney;

Particulars

Between 21 March 2017 and 27 April 2017, while Customer 60's first WOL was in place, Star Sydney received requests from a law enforcement agency for information about Customer 60's movements.

On 8 February 2018, Star Sydney received a request from a law enforcement agency in connection with Customer 60. Customer 60 was still subject to the first WOL at this time.

On 27 July 2018, Star Sydney received a request from a law enforcement agency for information about Customer 60 and his associates.

On 4 January 2019, Star Sydney contacted a law enforcement agency about alleged loan sharking in its casino.

- h. Customer 60 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 60 had access to private gaming rooms at Star Sydney, including the Sovereign, Chairman, Jade and Oasis Rooms.

- i. Star Sydney did not have adequate reason to believe that Customer 60's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 60 at Star Sydney.

Particulars

See paragraph 808 above.

On 18 May 2015, Star Sydney recorded that Customer 60 had been a partner of a company since 2010. From 9 August 2018, Star Sydney recorded that Customer 60 was employed as a public servant.

In 2018 alone, Customer 60's turnover exceeded \$75 million. Customer 60's stated source of wealth was not commensurate with the high value designated services provided to him by Star Sydney.

Star Sydney's determination of the ML/TF risks posed by Customer 60

1828. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 60 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 60.
- a. On and from 30 November 2016, Customer 60 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 60's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 25 February 2019, after he had been issued with a WOL for the second time, that Customer 60 was rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 7 April 2014, Customer 60 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 5 August 2014, Customer 60 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 16 August 2018, Customer 60 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 14 January 2019, Star Sydney issued a WOL in respect of Customer 60.

On 25 February 2019, Customer 60 was rated critical risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 60's transactions

1829. At no time did Star Sydney apply appropriate transaction monitoring to Customer 60's transactions because:
- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 60 Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney provided designated services to Customer 60 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- c. Star senior management were not specifically informed of a large and suspicious cash incident involving Customer 60.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 60 on 26 September 2018: See *Customer 60's risk profile*.

The review, update and verification of Customer 60's KYC information

- 1830. Star Sydney did not review, update and verify Customer 60's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 60's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 60's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 60's source of wealth or source of funds: see *Customer 60's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 60's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 60.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Between 27 January 2015 and 22 May 2018, Star Sydney conducted ongoing customer due diligence in respect of Customer 60.

On 22 May 2018, a staff member at Star Sydney held discussions with Customer 60 and Customer 27 shortly after Customer 60's first WOL was revoked. After these discussions, the staff member formed suspicions that Customer 60 was an undeclared funder of junkets operated by Customer 27 and that Customer 60 was the target of an unsuccessful murder attempt for failing to pay money owed to another junket.

Failure to apply appropriate due diligence suited to Customer 60's high ML/TF risks

1831. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- identifying and assessing the ML/TF risks posed by Customer 60 appropriately;
 - applying appropriate risk-based transaction monitoring to Customer 60; and
 - reviewing and updating Customer 60's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 60 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 60*.

ECDD triggers in respect of Customer 60

1832. Star Sydney was required to apply the ECDD Programs to Customer 60 following any ECDD triggers in respect of Customer 60.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10 of the Rules.

1833. Customer 60 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

On 27 September 2018, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 60.

1834. The matter pleaded in paragraph 1833 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1835. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 60 following an ECDD trigger because:

- a. on each occasion prior to January 2019 that Star Sydney conducted ECDD in respect of Customer 60 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 60 and the provision of designated services to Customer 60 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 22 October 2018, Star Sydney conducted ECDD in respect of Customer 60.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 60's higher ML/TF risks: see *Customer 60's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 60's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 60's source of wealth or source of funds: see *Customer 60's risk profile*.

It was not until 14 January 2019 that Star Sydney issued a WOL in respect of Customer 60.

- b. Customer 60 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to January 2019 that Customer 60 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 60 and the provision of designated services to Customer 60 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between 9 August 2018 and 8 November 2018, Star Sydney listed Customer 60 for consideration at PAMMs. Star Sydney did not take

any action in relation to Customer 60 at these meetings, noting only that Customer 60 had applied for bankruptcy on 12 October 2018.

Between 16 August 2018 and 17 January 2019, Star Sydney listed Customer 60 for consideration at JRAM meetings:

- a. at the 16 August 2018 meeting, Star Sydney determined to maintain Customer 60's risk rating at medium for the purpose of the Act and Rules;
- b. at the 20 September 2018 meeting, Star Sydney determined to remove Customer 60 from consideration; and
- c. at the 22 October 2018 JRAM meeting, Star Sydney resolved to conduct ECDD in respect of Customer 60.

On 14 January 2019, Star Sydney issued a WOL in respect of Customer 60.

At the 17 January 2019 JRAM meeting, Star Sydney noted that it had issued a WOL to Customer 60 for his involvement in loan sharking at Star Sydney. Star Sydney also resolved to elevate Customer 60's risk rating to high for the purpose of the Act and Rules.

Contravention of s36 of the Act in respect of Customer 60

1836. By reason of the matters pleaded from paragraphs 1824 to 1835 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 60 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1837. By reason of the matters pleaded at paragraph 1836, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 14 January 2019 with respect to Customer 60.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 61

1838. Customer 61 was a customer of Star Qld during the relevant period. Between 2016 and 2020, Star Qld recorded turnover exceeding \$4 million for Customer 61.

Particulars

Customer 61 was a customer of Star Qld from at least August 2012.

1839. Star Qld provided Customer 61 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 21 January 2004, Star Qld opened an FMA for Customer 61, which remains open (item 6, table 1, s6 of the Act).

While a customer of Star Qld, Customer 61 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 61's risk profile below.

1840. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 61.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 61's risk profile

1841. On and from 30 November 2016, Customer 61, and the provision of designated services to Customer 61 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 61's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 61 had the following risk history:
 - i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 61;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 13 July 2010 and 1 February 2014.

The SMRs reported that Customer 61 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose: see paragraph 1841.a.ii below.

- ii. Star Qld was aware that Customer 61 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 13 July 2010, Customer 61 exchanged \$5,000 in cash for chips at a gaming table at Star Qld. Immediately after, Customer 61 exchanged another \$5,000 in cash for chips. Customer 61 advised Star Qld staff that the chips were for his children. Customer 61 stated that he did not want his children to be asked for identification every time they transacted. Customer 61 did not give the chips to his children or another person following the transaction. Star Qld considered that Customer 61 was trying to avoid threshold transaction reporting and lodged a TTR: SMR dated 13 July 2010.

On 1 February 2014, Customer 61 and his wife approached the Star Qld cashier with a large amount of foreign currency. Customer 61 handed half of the foreign currency to his wife. Customer 61 and his wife separately presented half of the foreign currency each to be exchanged into Australian dollars. Customer 61's wife then handed Customer 61 the Australian dollars she had exchanged. Star Qld staff considered that Customer 61 was attempting to avoid reporting obligations: SMR dated 1 February 2014.

- iii. Customer 61 and his wife engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring; and

Particulars

See paragraph 25 above.

See paragraph 1841.a.ii above.

- iv. Customer 61 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 26 April 2010 and 26 September 2016, Star Qld gave the AUSTRAC CEO 14 TTRs detailing incoming payments to Customer 61 totalling \$140,814 in chip exchanges.

Between 21 April 2010 and 23 September 2016, Star Qld gave the AUSTRAC CEO 27 TTRs detailing outgoing payments from Customer 61 totalling \$351,962 which were comprised of:

- a. \$326,683 in chip exchanges;
- b. \$10,000 in account withdrawals; and
- c. \$15,279 in foreign currency exchanges.

Customer 61's risk profile from 30 November 2016

- b. Customer 61 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 61 was a member of a foreign political body.

- c. Customer 61 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 7 December 2017 and 9 December 2017, Customer 61 was a player on a Suncity junket at Star Qld operated by Customer 3;
 - ii. the Suncity junket was funded by a person other than the junket operator, being Customer 1; and
 - iii. at no time did Star Qld record Customer 61's individual gaming activity on junket programs he attended as a junket player;

- d. Customer 61 was referred to Star Qld by Customer 3;

Particulars

See paragraph 625 above.

On 11 February 2018, Customer 61 was referred to Star Gold Coast by Customer 3.

Customer 3 received a commission on the amounts wagered by Customer 61, who Star Qld dealt with directly.

- e. designated services provided to Customer 61 lacked transparency as the services were provided through the junket channel at Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 61 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2020, Star Qld recorded high and escalating turnover totalling \$4,011,235 for Customer 61;

- i. between 2016 and 2020, Star Qld recorded high and escalating individual rated turnover totalling \$3,483,708 for Customer 61; and

Particulars

In 2016, Customer 61's individual rated turnover was \$477,879.

In 2017, Customer 61's individual rated turnover escalated to \$741,332.

In 2018, Customer 61's individual rated turnover significantly escalated to \$1,859,142.

In 2019, Customer 61's individual rated turnover was \$391,077.

In 2020, Customer 61's individual rated turnover was \$14,278.

- ii. on 11 February 2018, Star Qld recorded high turnover on individual rebate programs totalling \$527,527 for Customer 61;

- g. Customer 61 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 3 April 2018 and 27 February 2020, Star Qld gave the AUSTRAC CEO 12 TTRs detailing incoming payments to Customer 61 totalling \$143,000 which comprised:

- a. \$120,000 in chip exchanges; and
b. \$23,000 in account deposits.

Between 12 February 2018 and 27 February 2020, Star Qld gave the AUSTRAC CEO 18 TTRs detailing outgoing payments from Customer 61 totalling \$273,485 which comprise:

- a. \$260,685 in chip exchanges; and

- b. \$12,800 in account withdrawals.

On 18 August 2017, Customer 61 presented \$10,000 in cash at the Star Qld cashier to be exchanged for chips. The cash comprised \$100 notes. Customer 61 removed \$300 of the cash before making the exchange so that the total amount exchanged was \$9,700. Star Qld records show that Customer 61 had performed similar transactions in the past: SMR dated 21 August 2017

Between 6 October 2017 and 10 October 2017, Customer 61 conducted three cash transactions at Star Gold Coast and one transaction at Treasury Brisbane. The transactions appeared to involve structuring to avoid reporting obligations: SMR dated 18 October 2017.

- h. Customer 61 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring;

Particulars

See paragraph 25 above.

See paragraph 1841.g above.

- i. Customer 61 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 61 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room and the Club Conrad.

- j. Star Qld did not have adequate reason to believe that Customer 61's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 61 at Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Star Qld understood that Customer 61 had significant business interests in a foreign country.

Customer 61 was a foreign PEP who recorded high and escalating junket turnover and had engaged in transactions indicative of the ML/TF typology of structuring at Star Qld. Despite this, Star Qld did not take steps to verify the Customer 61's source of funds.

Star Qld's determination of the ML/TF risks posed by Customer 61

- 1842. On and from 15 July 2016, Customer 61 was rated by Star Qld as a high risk customer for the purpose of the Act and Rules.

Particulars

On 15 July 2016, Customer 61 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 61 was rated very high risk, being high risk for the purpose of the Act and Rules.

1843. Nevertheless, for the reasons pleaded below, Star Qld failed to monitor the high ML/TF risks posed by Customer 61 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by it with respect to Customer 61.

Monitoring of Customer 61's transactions

1844. At no time did Star Qld apply appropriate transaction monitoring to Customer 61's transactions because:
- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 61, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 61 through the junket channel; and

Particulars

See paragraph 783 above.

- d. Star Qld provided designated services to Customer 61 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 61's KYC information

1845. Star Qld did not review, update and verify Customer 61's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 61's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 61's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 61's source of wealth or source of funds: see *Customer 61's risk profile*.

- d. to the extent that Star Qld reviewed Customer 61's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 61.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 61

1846. Star Qld was required to apply the ECDD Programs to Customer 61 following any ECDD triggers in respect of Customer 61. In particular, because Customer 61 was a foreign PEP, Star Qld was required to:
- a. undertake detailed analysis of Customer 61's KYC information including taking reasonable measures to identify the source of Customer 61's wealth and the source of Customer 61's funds; and
 - b. seek senior management approval for continuing a business relationship with Customer 61 and whether Star Qld should continue to provide a designated service to Customer 61.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15(3), 15.10(2), 15.10(6) and 15.11 of the Rules.

1847. Customer 61:

- a. at all times 30 November 2016 was a foreign PEP;

Particulars

See *Customer 61's risk profile* above.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

On 21 August 2017 and 18 October 2017, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 61.

- c. was determined to be high risk for the purpose of the Act and Rules by 30 November 2016 by Star Qld.

Particulars

On 15 July 2016, Star Qld determined that the ML/TF risks posed by Customer 61 was high risk for the purpose of the Act and Rules: see *Star Qld's determination of the ML/TF risks posed by Customer 61* above.

1848. Each matter pleaded in paragraph 1847 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1849. At all times, Star Qld was aware that Customer 61 was a foreign PEP.

1850. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 61 following the ECDD triggers:

- a. on each occasion that Star Qld conducted ECDD in respect of Customer 61 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 61 and the provision of designated services to Customer 61 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite. In particular, Star Qld failed to monitor Customer 61 as a foreign PEP because:
- i. Star Qld's analysis of Customer 61's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 61;
- ii. Star Qld's analysis of Customer 61's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 61;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 23 October 2019 and March 2020, Star Qld conducted ECDD in respect of Customer 61.

In March 2020, the ECDD screening in respect of Customer 61 identified that:

- a. Customer 61 had been the subject of four SMRs between 21 August 2017 and 7 October 2019;
- b. Customer 61 was a foreign PEP; and
- c. no other adverse information was available in respect of Customer 61.

On 8 May 2020, Customer 61 was included in a list of VIP Suncity junket participants. The March 2020 ECDD screening conducted in respect of Customer 61 was included in an ECDD screening of the Suncity junket.

The ECDD conducted by Star Qld did not have appropriate regard to their higher ML/TF risks: see *Customer 61's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 61's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 61's source of wealth or source of funds: see *Customer 61's risk profile*.

- iii. Customer 61 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- iv. any senior management approval regarding Customer 61 failed to give appropriate consideration to the ML/TF risks posed by Customer 61 and the provision of designated services to Customer 61 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

Contravention of s36 of the Act in respect of Customer 61

1851. By reason of the matters pleaded from paragraphs 1838 to 1850 above, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 61 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1852. By reason of the matters pleaded at paragraph 1851, Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 61.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 62

1853. Customer 62 was a customer of Star Sydney during the relevant period. Between 2017 and 2021, Star Sydney recorded turnover exceeding \$26 million for Customer 62.

Particulars

Customer 62 was a customer of Star Sydney from at least 27 September 2015.

1854. Star Sydney provided Customer 62 with designated services within the meaning of table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 17 September 2015, Star Sydney opened an FMA and SKA for Customer 62 which were closed on 29 July 2021 (item 11, table 3, s6 of the Act).

See Customer 62's risk profile below.

1855. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 62.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 62's risk profile

1856. On and from 30 November 2016, Customer 62, and the provision of designated services to Customer 62 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 62's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 62 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 62;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 8 October 2015.

This SMR reported that, on 7 October 2015, Customer 62 conducted a chip to cash exchange with Star Sydney totalling \$200,000. Star Sydney noted that this was a large transaction, and that Customer 62 was a representative for a junket, but he did not complete the transaction on the junket's behalf: SMR dated 8 October 2015.

- ii. Customer 62 was a junket representative for two junket operators at Star Sydney;
- iii. Customer 62 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2015 and 2016, Star Sydney recorded escalating individual rated turnover totalling \$400,809 for Customer 62; and

Particulars

In 2015, Customer 62's individual rated turnover at Star Sydney was \$42,906.

In 2016, Customer 62's individual rated turnover at Star Sydney was \$357,902.

- iv. in 2015, Star Sydney was aware that Customer 62 was subject to an AML complaint;

Particulars

On 11 May 2015, Star Sydney recorded that Customer 62 was subject to an AML complaint, with no further details.

Customer 62's risk profile from 30 November 2016

- b. Customer 62 was a junket player who received high value gambling services (table 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2018, Customer 62 was a player on eight junkets at Star Sydney operated by two junket operators, including Customer 14 and Customer 27;
 - ii. each of Customer 14's junkets on which Customer 72 was a player were funded by Customer 13; and
 - iii. in 2018, Star Sydney recorded high turnover totalling \$4,761,279 with losses of \$45,380 for Customer 62's gaming activity on junket programs;
- c. designated services provided to Customer 62 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 62 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$21,914,604 for Customer 62;

Particulars

See paragraph 752 above.

In 2017, Customer 62's individual rated turnover at Star Sydney was \$283,715.

In 2018, Customer 62's individual rated turnover at Star Sydney escalated to \$2,192,768.

In 2019, Customer 62's individual rated turnover at Star Sydney further escalated to \$6,958,598.

From 2020, when closures due to the COVID-19 pandemic, Customer 62's rated turnover remained high.

In 2020, Customer 62's individual rated turnover at Star Sydney was \$5,529,600.

In 2021, Customer 62's individual rated turnover at Star Sydney was \$6,949,923.

- e. Customer 62 was connected to other customers at Star Sydney, including junket operators and junket funders, including players who posed higher ML/TF risks Customer 13, Customer 14 and Customer 27;

Particulars

Customer 62 was a player on junkets that were operated by Customer 27.

Customer 62 was a player on junkets that were operated by Customer 14 and funded by Customer 13.

See paragraph 1856.b.

- f. Star Sydney was aware that Customer 62 had engaged in large and unusual transactions, and patterns of transactions involving large amounts of cash and cash that appeared suspicious, including large volumes of cash in small denomination notes and in plastic bags, and transactions conducted in concert with Person 2;

Particulars

Large and suspicious cash transactions in 2020

On 4 November 2020, Customer 62 exchanged \$18,400 in cash, which was contained in a black plastic bag, for chips in three separate transactions, each of which was below the reporting threshold. Customer 62 was observed handing the chips to another Star Sydney customer, Person 2. However, Star Sydney recorded Person 2 had a turnover of \$317,992 with a win of \$20,150 for the day. Star Sydney considered that this activity was suspicious due to the large volume of small cash denominations presented and because this was the second time in a week that Person 2 had been observed organising another person to purchase chips on his behalf: SMR dated 5 November 2020.

On 5 November 2020, Customer 62 conducted two cash to chip exchanges with Star Sydney totalling \$14,960, presenting \$5,560 and \$9,400 in cash. The cash was mainly comprised of \$20 notes and Customer 62 removed the cash from a black plastic bag. Star Sydney considered that these transactions were suspicious as Customer 62 appeared to be attempting to avoid reporting obligations. Star Sydney asked Customer 62 to identify the source of the funds. Customer 62 initially did not answer but then later stated that the funds were from his home. Customer 62 then handed the chips to Person 2: SMR dated 6 November 2020.

On 9 November 2020, Star Sydney observed that Person 2 handed \$9,700 in cash to Customer 62. Customer 62 then presented the cash at a cashier and exchanged it for chips. The cash was comprised of \$200 in \$100 notes, \$9,250 in \$50 notes, \$240 in \$20 notes and \$10 in \$10 notes. After the transaction, Star Sydney observed that Customer 62 did not play, and 20 minutes later returned to a cashier

with the same chips and \$300 in \$50 notes and exchanged these for \$10,000 in cash. Customer 62 then departed Star Sydney. Star Sydney considered that this activity was suspicious as Customer 62 had received the cash from Person 2 and did not record play before cashing out: SMR dated 10 November 2020.

On 29 December 2020, Customer 62 completed three cash to chip exchanges below the reporting threshold with Star Sydney totalling \$12,850. The cash was comprised of \$1,900 in \$100 notes, \$7,650 in \$50 notes, \$3,000 in \$20 notes, \$140 in \$10 notes and \$160 in \$5 notes, and was bundled with rubber bands. The supervisor observed that Customer 62 counted the three bundles of cash before handing them over and considered that this was why Customer 62 recorded multiple transactions. When Star Sydney asked where the funds came from, Customer 62 stated that the cash came from his shop. He subsequently played at Star Sydney and recorded a turnover of \$69,820 and a loss of \$20,709.

Large and suspicious cash transactions in 2021

Between 26 December 2020 and 26 January 2021, Customer 62 conducted five cash to chip exchanges with Star Sydney between the value of \$9,000 and \$9,999 at Star Sydney. Star Sydney considered that this activity gave the appearance of structuring transactions to avoid reporting obligations: SMR dated 29 January 2021.

On 21 November 2021, Customer 62 conducted a cash to chip exchange with Star Sydney totalling \$11,000. The cash was comprised of \$4,000 in \$50 notes and \$7,000 in \$20 notes. Customer 62 advised that the cash was sourced from his home. Star Sydney noted that the cash mainly consisted of low denomination notes.

Large and suspicious cash transactions in 2022

Between 23 March 2022 and 31 March 2022, Customer 62 conducted three cash to chip exchanges below the reporting threshold with Star Sydney totalling \$28,400. The cash was comprised of \$14,500 in \$100 notes and \$13,900 in \$50 notes.

On 8 April 2022, Customer 62 conducted five cash to chip exchanges with Star Sydney within 12 minutes totalling \$30,000. The cash was produced from a black plastic bag and consisted of \$5,900 in \$100 notes, \$20,100 in \$50 notes and \$4,000 in \$20 notes. When Star Sydney asked whether Customer 62 wished to complete the exchanges in a single transaction, Customer 62 insisted that there be separate transactions one after another: SMR dated 14 April 2022.

By mid-April Star Sydney was concerned that Customer 62 was producing a large amount of cash in small denominations for his transactions. It noted that his behaviour indicated red flags, including avoiding reporting obligations and unusual use and exchanges of cash: SMR dated 14 April 2022.

g. in 2020, law enforcement and Star communicated regarding Customer 62;

Particulars

On 15 September 2020, Star Sydney received two requests from a law enforcement agency seeking information about Customer 62's account balances and patron records at Star Sydney. Star Sydney subsequently provided information in response to this request.

On 12 October 2020, Star Sydney received a notification from a law enforcement agency that Customer 62 was under review by the agency as a candidate for an exclusion order.

Between 6 November 2020 and 9 November 2020, Star Sydney sent three notifications to a law enforcement agency regarding Customer 62. Star Sydney also provided Customer 62's gaming records to the agency after further correspondence.

On 10 November 2020, Star Sydney received a request for information from a law enforcement agency. Star Sydney subsequently provided records in respect of Customer 62 as part of its response.

- h. Customer 62 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 62 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Chairman's Room, Oasis Room, Vantage Room and the Sovereign Harbourside Room.

- i. Star Sydney did not have adequate reason to believe that Customer 62's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 62 at Star Sydney.

Particulars

See paragraph 808 above.

Prior to November 2020, Star Sydney took no steps to obtain source of wealth or source of funds information from Customer 62. By November 2020, Star Sydney recorded turnover exceeding \$17 million for Customer 62.

In November 2020, Star Sydney recorded Customer 62's occupation as 'unknown' and that he was a property investor.

It was not until November 2021 that Star Sydney requested further information about Customer 62's source of wealth.

Between November 2020 and November 2021, Star Sydney recorded turnover exceeding \$6 million for Customer 62. During this period, Star Sydney frequently asked Customer 62 about the origin of the large amounts of cash he was presenting and he advised that it was sourced from his home or shop: see paragraph 1856.f above.

In April 2022, Customer 62 advised he was a self-employed tour guide who sub-contracted for travel companies, and he received income from overseas funds and property investments.

On and from November 2021, Star Sydney gave the AUSTRAC CEO 30 TTRs detailing transactions made by Customer 62 totalling over \$550,000.

At no time was Star Sydney's understanding of Customer 62's source of wealth or source of funds commensurate with the high and escalating gaming activity that he recorded.

Star Sydney's determination of the ML/TF risks posed by Customer 62

1857. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 62 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 62.

- a. On and from 2018, Customer 62 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 62's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 62 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 15 October 2015, Customer 62 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 1 February 2022, Customer 62 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 62's transactions

1858. At no time did Star Sydney apply appropriate transaction monitoring to Customer 62's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 62, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 62 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 62's KYC information

1859. Star Sydney did not review, update and verify Customer 62's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 62's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 62's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

It was not until November 2021 that Star Sydney requested information about Customer 62's source of wealth. In April 2022, Customer 62 advised he was a tour guide and also held investment properties.

However, at no point did Star Sydney take appropriate steps to verify Customer 62's stated source of wealth.

By reason of the matters set out above, there were real risks that Customer 62's source of wealth and source of funds were not legitimate: see *Customer 62's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 62's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 62.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 62's high ML/TF risks

1860. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 62 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 62; and
- c. reviewing and updating Customer 62's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 62 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 62*.

ECDD triggers in respect of Customer 62

1861. Star Sydney was required to apply the ECDD Programs to Customer 62 following any ECDD triggers in respect of Customer 62.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1862. Customer 62 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 5 November 2020 and 14 April 2022, Star Sydney gave the AUSTRAC CEO five SMRs with respect to Customer 62.

1863. The matter pleaded in paragraph 1862 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1864. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 62 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 62 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 62 and the provision of designated services to Customer 62 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

In January 2021 and February 2021, Star Sydney conducted ECDD screening in respect of Customer 62 which consisted of open source media and watchlist searches that identified no adverse matches.

Between April 2022 and June 2022, Star Sydney's Investigations team conducted enquiries into Customer 62 relating to his involvement in a number of SMRs and transactions performed on behalf of others.

The enquiries identified that:

- a. Customer 62 had repeatedly conducted unusual cash and chip transactions with Star Sydney between November 2020 and April 2022, including transactions on behalf of others and transactions below the reporting threshold; and
- b. a law enforcement agency had indicated in late 2020 that it was considering an exclusion order in respect of Customer 62, but that Customer 62 was not of interest as of June 2022.

Between 2017 and 2021, Star Sydney recorded turnover exceeding \$26 million for Customer 62. Between November 2020 and April 2022, Customer 62 repeatedly engaged in large and suspicious cash transactions indicative of ML/TF typologies totalling over \$140,000, including transactions involving large volumes of cash in small denomination notes and in plastic bags: see *Customer 62's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 62's higher ML/TF risks: see *Customer 62's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 62's source of funds or source of wealth: see paragraph 1856.i above.

By reason of the matters set out above, there were real risks that Customer 62's source of wealth and source of funds were not legitimate: see *Customer 62's risk profile*.

As of 13 September 2022, Star Sydney had not issued a WOL in respect of Customer 62.

- b. Customer 62 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 62 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 62 and the provision of

designated services to Customer 62 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

As of 13 September 2022, Star Sydney had not issued a WOL in respect of Customer 62.

Contravention of s36 of the Act in respect of Customer 62

1865. By reason of the matters pleaded from paragraphs 1853 to 1864 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 62 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1866. By reason of the matters pleaded at paragraph 1865, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 62.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 63

1867. Customer 63 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$45 million for Customer 63.

Particulars

Customer 63 was a customer of Star Sydney from 26 April 2006.

1868. Star Sydney provided Customer 63 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 26 April 2006, Star Sydney opened an FMA and SKA for Customer 63, which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 63 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 63's risk profile* below.

1869. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 63.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 63's risk profile

1870. On and from 30 November 2016, Customer 63, and the provision of designated services to Customer 63 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 63's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 63 had the following risk history:
- i. Customer 63 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 1 March 2016 and 5 May 2016, Customer 63 was a junket player on two junket programs operated by Customer 12.

- ii. Star Sydney did not record Customer 63's turnover on the junket programs. Customer 63's turnover was recorded against the junket operator, Customer 12.
- iii. Star Sydney provided Customer 63 with designated services (items 31 and 32, table 1, s6 of the Act) to Customer 63 by remitting large amounts of money into and out of the casino environment via his accounts; and

Particulars

Remittances into the casino environment

See paragraph 327 above.

In December 2007, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$5,000,000 where Customer 63 was named as the customer. The funds were deposited into his Star Sydney FMA.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

In December 2007, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$4,101,813 where Customer 63 was named as the customer, and the beneficiary was a third party overseas. The funds were withdrawn from Customer 63's Star Sydney FMA.

The above transaction was conducted through the Star Patron account channel.

- iv. between at least 2005 and 30 November 2016, media reports named Customer 63 as a person associated with persons connected to drug trafficking and money laundering;

Particulars

Publicly accessible media articles published between 2005 and 30 November 2016 identified:

- a. details of Customer 63's significant international business interests;
- b. reports that persons and monuments were relocated to give Customer 63 development rights;
- c. allegations that Customer 63's political connections with the leader of a foreign country were instrumental to his business success;
- d. allegations that Customer 63 was involved in organised crime and corruption; and
- e. allegations that over \$3.5 million had been embezzled from a casino in a foreign country owned by Customer 63's brother.

In March 2012, open source media reported that a person associated closely with Customer 63 had been targeted by law enforcement agencies in connection with a heroin trafficking and money laundering syndicate. Customer 63 was described as the richest man in a foreign country.

Customer 63's risk profile from 30 November 2016

- a. Customer 63 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 63 was a member of a foreign political body since at least 2011.

- b. Customer 63 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 31 August 2017 and 17 May 2019, Customer 63 was a player on four junkets at Star Sydney operated by Customer 12; and
 - ii. Star Sydney only recorded Customer 63's turnover in respect of one junket program. Between 10 August 2018 and 7 September 2018, Customer 63 recorded a turnover of \$8,840,000 with losses of \$1,154,500. The balance of Customer 63's turnover was recorded against the junket operator, Customer 12;
- c. designated services provided to Customer 63 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 63 received high value financial and gambling services (tables 1 and 3, s6) at Star Sydney other than through junket programs. In 2018, Star Sydney recorded high turnover on individual rebate programs totalling \$36,849,540 for Customer 63, with wins of \$1,390,750;

Particulars

See paragraph 623 above.

- e. Customer 63 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

For example, on 24 November 2018, while a player on a program at Star Sydney, Customer 63 recorded a turnover of \$2,000,000 with a win of \$300,250. Customer 63 deposited his winnings as chips and then took \$300,250 as cash at settlement: SMR dated 27 November 2018.

- f. in 2017, Customer 63 was the subject of law enforcement enquiries at Star;

Particulars

On 23 June 2017, Star Qld sent correspondence to a law enforcement agency in respect of Customer 63.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- g. Customer 63 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 63 had access to private gaming rooms at Star Sydney, including Lakes Salon.

- h. between 2019 and 2021, a number of widely accessible media reports were published in respect of Customer 63; and

Particulars

Publicly accessible media articles published between 2019 and 2021 reported that:

- a. Customer 63's brother had been arrested in respect of drug-related charges.
- b. Customer 63 was possibly the wealthiest person in a foreign country;
- c. Customer 63 was the chairman and chief executive of the largest business conglomerate of a foreign country; and

- d. Customer 63 had significant political connections in a foreign country.

Star Sydney was aware of the arrest of Customer 63's brother, and reports regarding Customer 63's business and political interests in a foreign country from at least 20 October 2020.

- i. Star Sydney did not have adequate reason to believe that Customer 63's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 63 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 63 had significant business interests in a foreign country and was a foreign PEP.

Open source media articles alleged that Customer 63 was closely connected to a leader of a foreign country, was involved in organised crime and corruption and had a family member who operated a casino in a foreign country from which millions of dollars had been embezzled. While Customer 63's source of wealth was substantial, Star Sydney did not take steps to verify his source of funds given the real ML/TF risks associated with that source of funds.

Star Sydney's determination of the ML/TF risks posed by Customer 63

1871. On and from 23 September 2015, Customer 63 was rated by Star Sydney to be a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

On 23 September 2015, Star Sydney determined that Customer 63's ML/TF risk was critical, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Star Sydney determined that Customer 63's ML/TF risk was very high, being high risk for the purpose of the Act and Rules.

1872. Nevertheless, for the reasons pleaded below, Star Sydney failed to monitor the high ML/TF risks posed by Customer 63 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by it with respect to Customer 63.

Monitoring of Customer 63's transactions

1873. At no time did Star Sydney apply appropriate transaction monitoring to Customer 63's transactions because:
 - a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 63, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 63 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 63's KYC information

- 1874. Star Sydney did not review, update and verify Customer 63's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 63's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 63's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 63's source of wealth and source of funds were not legitimate: see *Customer 63's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 63's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 63.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 63

1875. Star Sydney was required to apply the ECDD Programs to Customer 63 following any ECDD triggers in respect of Customer 63. In particular, because Customer 63 was a foreign PEP, Star Sydney was required to:

- a. undertake detailed analysis of Customer 63's KYC information including taking reasonable measures to identify the source of Customer 63's wealth and the source of Customer 63's funds; and
- b. seek senior management approval for continuing a business relationship with Customer 63 and whether Star Sydney should continue to provide a designated service to Customer 63.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3), 15.10(2), 15.10(6) and 15.11 of the Rules.

1876. Customer 63:

- a. at all times from 30 November 2016 was a foreign PEP;

Particulars

See *Customer 63's risk profile* above.

- b. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 27 November 2018, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 63.

- c. determined to be high risk for the purpose of the Act and Rules by 30 November 2016 by Star Sydney.

Particulars

On 23 September 2015, Customer 63 was determined to be high risk for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 63* above.

1877. Each matter pleaded in paragraph 1876 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

1878. On and from 30 November 2016, Star Sydney was aware that Customer 63 was a foreign PEP.

1879. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 63 following the ECDD triggers:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 63 in response to an ECDD trigger, it failed to give appropriate consideration to whether the ML/TF risks posed by Customer 63 and the provision of designated services to Customer 63 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite. In particular, Star Sydney failed to monitor Customer 63 as a foreign PEP because:
 - i. Star Sydney's analysis of Customer 63's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 63;
 - ii. Star Sydney's analysis of Customer 63's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 63; and

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 2 October 2019, 20 October 2020 and August 2021, Star Sydney conducted ECDD in respect of Customer 63.

In August 2021, ECDD conducted in respect of Customer 63 identified:

- a. adverse information in connection with Customer 63's brother:
see *Customer 63's risk profile* above;
- b. Customer 63's business interests;
- c. that Customer 63 was an inactive foreign PEP (despite open source media articles which identified that Customer 63 continued to be a member of a foreign political body); and
- d. that Customer 63's identification document at Star Sydney was an expired passport.

Star Sydney understood that Customer 63 had significant business interests in a foreign country and was a foreign PEP.

Open source media articles dating back to 2005 alleged that Customer 63 was closely connected to a leader of a foreign country, was involved in organised crime and corruption and had a family member who operated a casino in a foreign country from which millions of dollars had been embezzled. While Customer 63's source of wealth was substantial, Star Sydney did not take steps to verify his source of funds given the real ML/TF risks associated with that source of funds.

The ECDD conducted by Star Sydney did not have appropriate regard to their higher ML/TF risks: see *Customer 63's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 63's source of funds.

By reason of the matters set out above, there were real risks that Customer 63's source of wealth and source of funds were not legitimate: see *Customer 63's risk profile*.

- iii. Customer 63 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- iv. any senior management approval regarding Customer 63 failed to give appropriate consideration to the ML/TF risks posed by Customer 63 and the provision of designated services to Customer 63 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

On 28 August 2021, the Due Diligence Program Manager considered the ECDD conducted in respect of Customer 63 and determined to maintain a business relationship with Customer 63.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to Customer 63's source of funds (r15.10(2)(b)), having regard to the publicly available information suggesting there were high ML/TF risks as to their source of funds: see *Customer 63's risk profile* above.

Contravention of s36 of the Act in respect of Customer 63

1880. By reason of the matters pleaded from paragraphs 1867 to 1879, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 63 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1881. By reason of the matters pleaded at paragraph 1880, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 63.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 64

1882. Customer 64 was a customer of Star Sydney during the relevant period. Between 2019 and 2020, Star Sydney recorded turnover exceeding \$18 million for Customer 64.

Particulars

Customer 64 was a customer of Star Sydney from at least 17 February 2006.

1883. Star Sydney provided Customer 64 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 11 November 2008, Star Sydney opened an FMA and SKA for Customer 64 which remain open (item 11, table 3, s6 of the Act).

On 1 July 2019, Star Sydney approved a CCF limit for Customer 64 on one occasion of \$200,000 (item 6, table 1, s6 of the Act). See *Customer 64's risk profile* below.

1884. Customer 64 was a customer of Star Qld during the relevant period. In 2019, Star Qld recorded turnover exceeding \$1.9 million for Customer 64.

Particulars

Customer 64 was a customer of Star Qld from at least 10 August 2019.

1885. Star Qld provided Customer 64 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 10 August 2019, Star Qld opened an FMA for Customer 64 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 64 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

While a customer of Star Qld, Customer 64 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 64's risk profile* below.

1886. At all times from 30 November 2016 in respect of Star Sydney and 10 August 2019 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 64.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 64's risk profile

1887. On and from 30 November 2016 in respect of Star Sydney and 10 August 2019 in respect of Star Qld, Customer 64, and the provision of designated services to Customer 64 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 64's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 64 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 64; and

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on two occasions between 4 June 2015 and 5 June 2015.

The SMRs reported that:

- a. on 3 June 2015, Customer 64 presented \$130,000 cash at Star Sydney and deposited it into his account. The cash comprised \$100 notes bound with straps from another Australian casino: SMR dated 4 June 2015; and
- b. on 5 June 2015, Customer 64 withdrew \$474,823 in cash from his Star Sydney account. SMR dated 5 June 2015.
- ii. in 2016, Customer 64 was the subject of law enforcement enquiries on at least one occasion at Star;

Particulars

On 15 January 2016, Star Sydney received a request from a law enforcement agency for information in respect of Customer 64.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

Customer 64's risk profile from 30 November 2016

- b. Customer 64 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2019 and 2020, Star Sydney recorded high and escalating turnover totalling \$18,889,835 for Customer 64;
- i. between 2019 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$1,900,681 for Customer 64; and

Particulars

See paragraph 752 above.

In 2019, Customer 64's individual rated turnover was \$651,744.

In 2020, when closures due to COVID-19 commenced, Customer 64's turnover nonetheless escalated.

In 2020, Customer 64's individual rated turnover escalated to \$1,248,938.

- ii. in 2019, Star Sydney recorded high turnover on individual rebate programs totalling \$16,989,154 for Customer 64, with wins of \$32,385;

Particulars

See paragraph 623 above.

- c. Customer 64 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2019, Star Qld recorded high turnover totalling \$1,407,648 for Customer 64;

- i. in 2019, Star Qld recorded high individual rated turnover totalling \$255,089 for Customer 64; and

Particulars

See paragraph 752 above.

- ii. in 2019, Star Qld recorded high turnover on individual rebate programs totalling \$1,152,559 for Customer 64, with losses of \$16,120;

Particulars

See paragraph 623 above.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 64 by remitting large amounts of money into and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 28 June 2019 and 6 March 2020, Star Sydney received two telegraphic transfers totalling \$300,000, both of which were made available to Customer 64's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

On 5 August 2019, Star Sydney sent a transfer of \$26,544 from Customer 64's FMA to Star Qld.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 64 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

For example, on 5 August 2019, Star Qld received a telegraphic transfer of \$26,544, which it made available to Customer 64's FMA at Star Gold Coast.

The above transaction was conducted through the Star Patron account channel.

- f. Customer 64 transacted using large amounts of cash and cash that appeared suspicious including large volumes of cash in shopping bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 29 May 2019 and 11 November 2019, Star Sydney gave the AUSTRAC CEO 10 TTRs in respect of Customer 64 totalling \$1,272,140, which were comprised of:

- a. six outgoing TTRs totalling \$834,140;
- b. four incoming TTRs totalling \$438,000;
- c. \$230,560 in chip or cash exchanges; and
- d. \$1,041,580 in account deposits or withdrawals.

On 28 May 2019, Customer 64 presented at Star Sydney with a bag containing \$200,000 in cash. The cash comprised \$100 notes bundled with straps issued by Star Qld. Customer 64 used the funds for a program buy-in and recorded a turnover of \$972,000. Star Sydney considered that this transaction was not suspicious as the funds presented were not unusual for a junket and Customer 64 was actively playing. However, in fact, Customer 64 did not have any prior activity on premium programs. Star Sydney concluded that further monitoring of Customer 64 was required.

On 29 May 2019, Customer 64 settled a premium program with Star Sydney and withdrew \$626,580 in cash. Customer 64 recorded a win of \$475,000 for the program. Star Sydney considered the amount of cash Customer 64 withdrew to be excessive: SMR dated 30 May 2019.

On 3 July 2019, Customer 64 presented a shopping bag containing \$150,000 in cash at Star Sydney. The cash was comprised of notes in good condition that were bundled with straps issued by Star dated 26 June 2019 and 29 June 2019. Customer 64 subsequently deposited the funds into his FMA and used the funds on a premium program. Star Sydney considered that Customer 64 appeared to be recycling the funds that he had been provided, which did not raise suspicions.

- g. Customer 64 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 12 August 2019 and 14 August 2019, Star Qld gave the AUSTRAC CEO three TTRs in respect of Customer 64 totalling \$33,970, which were comprised of chip or cash exchanges.

- h. on 1 July 2019, Star Sydney provided Customer 64 with significant amounts of credit upon request, up to limits of \$200,000; and

Particulars

See paragraph 516 to 518 and 552 above.

On 1 July 2019, Star Sydney approved a single trip CCF limit of \$200,000 for Customer 64.

- i. Star Sydney and Star Qld did not have adequate reason to believe that Customer 64's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 64 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By 7 February 2022, Star Sydney and Star Qld understood that Customer 64's wealth was sourced from his employment as a sales representative. In 2019 alone, Star Sydney and Star Qld recorded a cumulative turnover exceeding \$17 million. At no time was Customer 64's source of wealth commensurate with the high value designated services provided to him by Star Sydney and Star Qld.

Moreover, on multiple occasions, Customer 64 presented a significant volume of cash at Star Sydney. Star Sydney did not verify the source of funds in respect of that cash.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 64

- 1888. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 64 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 64.
 - a. On and from 2019, Customer 64 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act or Rules for the reasons pleaded above: see *Customer 64's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 64 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 4 June 2015, Customer 64 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 5 June 2015, Customer 64 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 64 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 64's transactions

1889. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 64's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 64, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 64 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 64's KYC information

1890. Star Sydney and Star Qld did not review, update and verify Customer 64's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 64's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 64's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 64's source of wealth or source of funds: see *Customer 64's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 64's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 64.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 64's high ML/TF risks

1891. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 64 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 64; and
 - c. reviewing and updating Customer 64's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 64 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 64*.

1892. Had Star Qld conducted ongoing customer due diligence on and from 10 August 2019 by:
- a. identifying and assessing the ML/TF risks posed by Customer 64 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 64; and
 - c. reviewing and updating Customer 64's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 64 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1893. Had Star Qld rated Customer 64 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 64.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 64

1894. Star Sydney was required to apply the ECDD Programs to Customer 64 following any ECDD triggers in respect of Customer 64.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1895. Customer 64 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

On 30 May 2019, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 64.

1896. The matter pleaded in paragraph 1895 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1897. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 64 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 64 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 64 and the provision of designated services to Customer 64 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 29 May 2019 and 3 July 2019, Star conducted ECDD in respect of Customer 64.

On 29 May 2019, the ECDD screening in respect of Customer 64 identified that the cash presented by Customer 64 in connection with the premium programs on which he played was excessive and that no adverse media was identified.

On 3 July 2019, the ECDD screening did not identify any adverse media in respect of Customer 64.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 64's higher ML/TF risks: see *Customer 64's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 64's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 64's source of wealth or source of funds: see *Customer 64's risk profile*.

- b. Customer 64 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 64 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 64 and the provision of designated services to Customer 64 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 64

1898. By reason of the matters pleaded from paragraphs 1882 to 1897, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 64 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1899. By reason of the matters pleaded at paragraph 1898, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 64.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

1900. By reason of the matters pleaded from paragraphs 1882 to 1897, on and from 10 August 2019, Star Qld:

- a. did not monitor Customer 64 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1901. By reason of the matters pleaded at paragraph 1900, Star Qld contravened s36(1) of the Act on and from 10 August 2019 with respect to Customer 64.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 65

1902. Customer 65 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$6.2 million for Customer 65.

Particulars

Customer 65 was a customer of Star Sydney from at least 11 October 2015.

1903. Star Sydney provided Customer 65 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a domestic and international junket operator and as an international and domestic junket player. Between 2017 and 2019, Star Sydney recorded that junkets operated by Customer 65 had a turnover exceeding \$6.2 million.

Particulars

On 11 October 2015, Star Sydney opened an FMA and SKA for Customer 65 which remain open (item 11, table 3, s6 of the Act).

Between 1 November 2016 and 16 May 2019, Star Sydney approved CCFs for Customer 65 on 20 occasions ranging from \$20,000 to \$690,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 65 (items 31 and 32, table 1, s6 of the Act).

See Customer 65's risk profile below.

1904. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 65.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 65's risk profile

1905. On and from 30 November 2016, Customer 65, and the provision of designated services to Customer 65 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 65's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 65 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 65;

Particulars

Between 12 October 2015 and 2 December 2015, Star Sydney gave the AUSTRAC CEO an SMR on two occasions, which reported that on 11 October 2015 and 1 December 2015, Customer 65 deposited \$500,000 and \$200,000 respectively in cash into his Star Sydney account. Star Sydney noted that the cash comprised \$100 notes that were in good condition, and appeared to be from another Australian casino: SMRs dated 12 October 2015, 2 December 2015.

- ii. Customer 65 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high turnover on individual rebate programs totalling \$7,038,343 for Customer 65, with losses of \$519,415;

Particulars

See paragraph 623 above.

- iii. by 30 November 2016, Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 65 by remitting large amounts of money into the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks; and

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

On 1 November 2016, Customer 65 transacted \$57,000 through the Hotel Card channel and was given a temporary CCF while waiting for the funds to clear.

- iv. Customer 65 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 12 October 2015 and 4 December 2015, Star Sydney gave the AUSTRAC CEO four TTRs in respect of Customer 65 totalling \$734,900 which were comprised of chip or cash exchanges.

Customer 65's risk profile from 30 November 2016

- b. Customer 65 was a domestic junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 21 November 2017 and 23 May 2019, Customer 65 operated three domestic junkets at Star Sydney, one of which was partly funded by another customer;

- ii. between 21 November 2017 and 23 May 2019, Star Sydney recorded that the total cumulative turnover of domestic junkets operated by Customer 65 was \$6,249,935 with losses of \$154,716;

Particulars

In 2018, junkets operated by Customer 65 had a turnover of \$3,271,739 with losses of \$97,235.

In 2019, junkets operated by Customer 65 had a turnover of \$2,978,195 with losses of \$57,481.

- iii. between 21 November 2017 and 11 January 2018, Star Sydney recorded a cumulative turnover of \$552,500 for Customer 65 as a junket player on his own junkets despite not being a junket player on those particular junkets; and

Particulars

See paragraph 670 above.

- iv. Customer 65 facilitated the provision of high value designated services to five domestic junket players at Star Sydney;

Particulars

See paragraph 643 to 649 above.

- c. Customer 65 was an international and domestic junket player who received high value financial and gambling services (table 3, s6 of the Act) at Star Sydney through junket programs;

- i. between 30 November 2016 and 23 May 2019, Customer 65 was a player on 12 international and domestic junkets at Star Sydney operated by Customer 8 or himself;
- ii. eight of Customer 8's junkets were funded by a person other than the junket operator, being Customer 7. One of his own junkets was partly funded by another customer;
- iii. between 30 November 2016 and 23 May 2019, Star Sydney recorded high and escalating turnover totalling \$5,689,479 with losses of \$256,920 for Customer 65's gaming activity on junket programs; and

Particulars

In 2016, Customer 65's turnover on junket programs was \$218,790 with losses of \$5,980.

In 2017, Customer 65's turnover on junket programs escalated to \$2,458,459 with losses of \$51,840.

In 2018, Customer 65's turnover on junket programs was \$1,685,180 with losses of \$82,170.

In 2019, Customer 65's turnover on junket programs escalated to \$1,327,050 with losses of \$116,930.

- iv. between 14 December 2016 and 16 May 2019, Star Sydney provided Customer 65 with significant amounts of credit upon request, up to limits of \$690,000, to be used as front money to play on Customer 8's junket programs;

Particulars

See paragraph 516 to 518 and 552 above.

Between 14 December 2016 and 16 May 2019, Star Sydney provided Customer 65 with CCFs between \$20,000 and \$690,000 on 19 occasions as front money to play on Customer 8's junket programs.

On each occasion, the CCF was provided on a "temporary" basis while funds obtained through the Hotel Card channel were cleared.

On at least four occasions, the CCFs were directly approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer and the Star Sydney Managing Director.

- d. designated services provided to Customer 65 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Customer 65 was connected to other customers at Star Sydney, including junket funders, junket operators, junket representatives and junket players in respect of whom Star Sydney had formed suspicions such as Customer 49, Customer 8, Customer 7 and Customer 20;

Particulars

See paragraphs 1905.c and 1905.g.

Customer 49 was the junket representative for several of the junket programs that Customer 65 played on at Star Sydney.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 65 by remitting large amounts of money into and out of the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 14 December 2016 and 15 May 2019, Customer 65 transacted \$2,028,000 through the Hotel Card channel in 19 separate transactions and was given a temporary CCF while waiting for the funds to clear.

See paragraph 1905.c above.

Remittances out of the casino environment

See paragraph 327 above.

For example, on 24 March 2017, Star Sydney sent a telegraphic transfer of \$140,000 from Customer 65's account to an Australian bank account.

The above transaction was conducted through the Star Patron account channel.

- g. Customer 65 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney, including large volumes of cash in small notes in rubber bands and contained in backpacks;

Particulars

See paragraphs 611 to 618 above.

Between 19 April 2017 and 24 May 2019, Star Sydney gave the AUSTRAC CEO 14 TTRs in respect of Customer 65 totalling \$775,199, which were comprised of:

- a. ten outgoing TTRs totalling \$500,199;
- b. four incoming TTRs totalling \$275,000;
- c. \$130,000 in chip or cash exchanges; and
- d. \$645,199 in account deposits or withdrawals.

On 18 April 2017, Customer 65 withdrew \$150,000 from his FMA at Star Sydney.

On 10 May 2017, Customer 65 withdrew \$123,674 from his FMA.

On 21 November 2017, Customer 65 and a junket representative for Customer 20's junket presented \$110,000 in cash for a buy-in to the junket at Star Sydney. The cash comprised \$3,200 in \$100 notes and \$106,800 in \$50 notes, and was bundled in \$10,000 units in a plastic bag. The cash was removed from Customer 65's backpack but was presented by the junket representative.

On 7 May 2019, Customer 65 deposited \$130,000 in cash into his Star Sydney account. The cash comprised of \$53,900 worth of \$100 notes and \$76,000 worth of \$50 notes, bundled with elastic bands in lots of \$5,000 and carried in a shopping bag: SMR dated 8 May 2019.

On 13 May 2019, Customer 65 exchanged \$100,000 in chips for cash.

- h. Customer 65 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 65 had access to private gaming rooms at Star Sydney, including the Sovereign room, Chairman's, Jade, Springs Salons, Lakes Salons, Oasis and the Springs Salon.

- i. in 2017, Customer 65 was the subject of law enforcement enquiries at Star; and

Particulars

On 30 November 2017, Star Sydney received a request from a law enforcement agency for details concerning Customer 71 together with a number of other customers.

- j. Star Sydney did not have adequate reason to believe that Customer 65's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 65 at Star Sydney.

Particulars

See paragraph 808 above.

By 30 November 2016, Star understood Customer 65's occupation to be a trader.

In 2017, Customer 65's turnover as a junket player, and the turnover recorded in respect of junkets that he operated, escalated. This coincided with a number of large and suspicious cash transactions at Star Sydney.

Customer 65's use of high risk international remittance channels, including the Hotel Card channel also escalated; in 2017 alone, Customer 65 transacted \$1,252,000 through the Hotel Card channel.

Despite this, Star Sydney did not take adequate steps to review, update and verify Customer 65's source of wealth or source of funds given the higher ML/TF risks associated with the provision to him of designated services.

Star Sydney's determination of the ML/TF risks posed by Customer 65

- 1906. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 65 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 65.
 - a. On and from 30 November 2016, Customer 65 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 65's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 65 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 2 December 2015, Customer 65 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 65's transactions

1907. At no time did Star Sydney apply appropriate transaction monitoring to Customer 65's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 65, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket operators and junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 65's junket as turnover was recorded against Customer 65 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 65 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. an international remittance channel, specifically the Hotel Card channel;

Particulars

See paragraphs 777 and 790 above.

- e. Star Sydney provided designated services to Customer 65 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- f. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 65.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 65 on 18 April 2017, 21 November 2017, 10 May 2017, 7 May 2019 and 13 May 2019: See *Customer 65's risk profile*.

The review, update and verification of Customer 65's KYC information

- 1908. Star Sydney did not review, update and verify Customer 65's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 65's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 65's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 65's source of wealth or source of funds: see *Customer 65's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 65's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 65.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 65's high ML/TF risks

1909. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 65 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 65; and
- c. reviewing and updating Customer 65's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 65 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 65*.

ECDD triggers in respect of Customer 65

1910. Star Sydney was required to apply the ECDD Programs to Customer 65 following any ECDD triggers in respect of Customer 65.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1911. Customer 65 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

On 8 May 2019, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 65.

1912. The matter pleaded in paragraph 1911 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1913. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 65 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 65 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 65 and the provision of designated services to Customer 65 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 7 May 2019, Star Sydney conducted ECDD in respect of Customer 65.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 65's higher ML/TF risks: see *Customer 65's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 65's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 65's source of wealth and source of funds were not legitimate: see *Customer 65's risk profile*.

- b. Customer 65 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 65 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 65 and the provision of designated services to Customer 65 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810.

Contravention of s36 of the Act in respect of Customer 65

1914. By reason of the matters pleaded from paragraphs 1902 to 1913, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 65 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1915. By reason of the matters pleaded at paragraph 1914, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 65.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 66

1916. Customer 66 was a customer of Star Sydney during the relevant period.

Particulars

Customer 66 was a customer of Star Sydney from at least 28 April 2015.

1917. Star Sydney provided Customer 66 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket representative for junkets operated by Customer 20.

Particulars

On 28 April 2015, Star Sydney opened an FMA and SKA for Customer 66 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 66 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 66's risk profile below.

1918. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 66.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 66's risk profile

1919. On and from 30 November 2016, Customer 66, and the provision of designated services to Customer 66 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 66's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 66 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 66;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on three occasions between 15 May 2015 and 11 March 2016.

The SMRs reported that:

- a. on one occasion Customer 45 transferred large amounts to Customer 66, which Customer 66 withdrew from her FMA as non-winning cheques; and
- b. Customer 20 deposited, transferred or issued cheques for large amounts to Customer 66. On one of those occasions Customer 66 then withdrew the funds from her FMA as non-winning cheques.

See particulars to paragraph 1919.a.v.

- ii. Customer 66 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;

Particulars

Between 11 February 2016 and 22 September 2016, Customer 66, together with Customer 45, Customer 20 and Person 12, funded four junkets at Star Sydney operated by Customer 20.

Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 66 between 11 February 2016 and 22 September 2016 was \$838,453,613 with losses of \$21,918,909.

The junkets partly funded by Customer 66 had two junket representatives, including Person 12.

The junkets partly funded by Customer 66 facilitated the provision of high value designated services to junket operators, junket representatives and at least 13 junket players including players in respect of whom Star Sydney had formed suspicions such as Customer 45 and Customer 20.

See paragraphs 497 to 498 and 643 to 649 above.

- iii. Customer 66 was connected to other customers at Star Sydney, including junket funders, junket operators and junket players, including players who posed higher ML/TF risks such as Customer 45 and Customer 20 and players who Star Sydney considered had acted suspiciously;

Particulars

Between 31 May 2015 and 7 October 2016, Customer 66 was a junket representative for 14 junkets operated by Customer 20, one of which was funded by Customer 45.

By 14 May 2015, Star Sydney understood that Customer 66 was married to Customer 45: SMR dated 14 May 2015.

See particulars to paragraphs 1919.a.i and 1919.a.ii above.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 66 by remitting large amounts of money into the casino environment via her accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 20 December 2013 and 25 August 2016, Customer 66 transacted a total of \$11,560,000 on 34 occasions through the Hotel Card channel.

Between 31 May 2015 and 25 August 2016, on nine occasions, Customer 66 was given temporary CCFs totalling \$1,160,000 while

funds obtained through the Hotel Card channel were cleared. The CCFs were approved by senior management at Star including the Chief Executive Officer and the Chief Financial Officer.

Other remittances into the casino environment

See paragraph 327 above.

On 31 July 2015, Star Sydney received a telegraphic transfer totalling \$200,000, which it made available to Customer 66's account for the purpose of repaying an outstanding CCF.

The above transaction was conducted through the Star Patron Account channel.

- v. Customer 66 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 2 June 2016 and 7 September 2016, Star gave the AUSTRAC CEO 31 TTRs detailing chip and cash exchanges, account deposits and account withdrawals made by Customer 66 totalling \$2,550,094.

Large and suspicious cash transactions in 2015

On 14 May 2015, Customer 45 transferred \$4,000,000 to Customer 66's account at Star Sydney, which Customer 66 then withdrew as a Star Sydney non-winning cheque. The same day, Customer 45 transferred a further \$2,000,000 to Customer 66's Star Sydney account, which Customer 66 then withdrew as another Star Sydney non-winning cheque: SMR dated 14 May 2015.

Large and suspicious cash transactions in 2016

On 26 February 2016, Customer 20 withdrew \$510,000 in cash from his account. Customer 20 returned two hours later with Customer 66 and deposited the same cash into Customer 66's Star Sydney account. Customer 66 then requested to be issued with a Star Sydney non-winning cheque for \$510,000. Customer 20 then transferred a further \$1,000,000 from his account to Customer 66's account. Customer 66 was then issued with another non-winning cheque for \$1,000,000 from Star Sydney: SMR dated 26 February 2016.

On 9 March 2016, two cheques, one for \$2,700,000 and the other for \$3,000,000, were issued by Star Sydney from Customer 20's junket to Customer 66's account. Customer 66 was listed as a player on the junket, but had not recorded any play. Star Sydney noted that it had been advised that Customer 66 had an account in Australia but that

her husband, Customer 45, who had recorded play on the junket, did not have an account: SMR dated 11 March 2016.

- vi. on 31 May 2015, Star Sydney provided Customer 66 with a significant amount of credit upon request, up to a limit of \$200,000; and

Particulars

See paragraph 516 to 518 and 552 above.

On 31 May 2015 Star Sydney senior management approved a single trip CCF limit of \$200,000 for Customer 66 which was deactivated at the end of the trip.

- vii. designated services provided to Customer 66 involved the provision by Star Sydney of non-winning cheques on three occasions;

Particulars

See particulars to paragraph 1919.a.i.

Between 14 May 2015 and 9 March 2016, Star Sydney issued four non-winning cheques to Customer 66, totalling \$2,110,000.

Customer 66's risk profile from 30 November 2016

- b. Customer 66 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

Between December 2016 and 30 November 2016, Customer 66 had no recorded gaming activity at Star Sydney. Despite this, Customer 66 conducted a number of withdrawals from her Star Sydney accounts.

See particulars to paragraph 1919.h below.

- c. designated services provided to Customer 66 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 66 was connected to other customers at Star Sydney, including junket funders, and junket operators who posed higher ML/TF risks, and who Star Sydney considered had acted suspiciously, such as Customer 45 and Customer 20;

Particulars

Between 3 March 2017 and 17 June 2018, Customer 66 was a junket representative for 11 junket programs operated by junket operator Customer 20.

See particulars to paragraphs 1919.a and 1919.h.

- e. Star Sydney provided designated services within the meaning of items 31 and 32, table 1, s6 of the Act to Customer 66, including by remitting large amounts of money within the casino environment via her accounts;

Particulars

See paragraph 347 to 349 above.

See particulars to paragraph 1919.h.

On four occasions between 20 February 2017 and 13 October 2017 Customer 66 received amounts totalling \$1,619,181 into her Star Sydney FMA from Customer 20's Star Sydney account: SMRs dated 21 February 2017, 16 August 2017, 10 October 2017, 13 October 2017. Star Sydney had formed suspicions in relation to Customer 20, who was a junket operator.

On three occasions between 27 February 2021 and 31 March 2021, Customer 66 received amounts totalling \$1,500,000 into her Star Sydney FMA from her husband Customer 45's Star Qld account: SMRs dated 3 March 2021, 31 March 2021, 17 November 2021. Customer 45 was a junket funder and player, and Star Sydney had formed suspicions in relation to Customer 45.

- f. Customer 66 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 21 December 2016 and 10 November 2021, Star gave the AUSTRAC CEO 11 TTRs detailing account withdrawals made by Customer 66 totalling \$3,010,762.

See particulars to paragraph 1919.h below.

- g. designated services provided to Customer 66 involved the provision by Star Sydney of non-winning cheques on one occasion;

Particulars

On 13 October 2017, Star Sydney issued Customer 66 with a non-winning cheque for \$500,000: SMR dated 13 October 2017.

- h. Customer 66 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including quick turnover of money (without betting);

Particulars

See paragraph 25 above.

- a. On 20 February 2017, Customer 20 transferred \$148,001 from his account to Customer 66's account. Customer 66 then withdrew the funds as cash. Customer 20 had received the funds by telegraphic transfer. None of the funds had been used for gaming purposes at any time by either Customer 20 or Customer 66: SMR dated 21 February 2017.
- b. On 15 August 2017, Customer 20 transferred \$300,000 from his account to Customer 66's account. Customer 66 then withdrew the funds as cash. Customer 20 had received the funds by telegraphic transfer. None of the funds had been used for

gaming purposes at any time by either Customer 20 nor Customer 66: SMR dated 16 August 2017.

- c. On 10 October 2017, Customer 20 transferred \$600,000 from his account to Customer 66's account. Customer 66 then withdrew the funds as cash. Star Sydney noted that the funds had originally been received by Customer 20 by telegraphic transfer and were not utilised for gaming purposes at any time. Similarly, Customer 66 had no recorded gaming against her name in 2017: SMR dated 10 October 2017.
- d. On 13 October 2017, Customer 20 transferred \$571,180 from his account to Customer 66's account. Customer 66 then withdrew \$500,000 as a Star non-winning cheque in her favour. She then withdrew the remaining \$71,180 in cash. Star Sydney noted that Customer 66 had not utilised the funds for gaming at any time. In fact, she had not recorded any gaming activity in 2017. Star Sydney noted previous SMRs concerning Customer 20 and that the large telegraphic transfers referred to in those SMRs were the source of Customer 66's funds: SMR dated 13 October 2017.
- e. On 27 February 2021, Customer 45 provided a signed authority to Star Sydney to transfer \$500,000 from his account to Customer 66's account. Customer 45 had been excluded from Star Sydney since September 2020. The \$500,000 was transferred from Customer 45's FMA to Customer 66's FMA. Customer 66 then withdrew the funds in cash and left the casino without recording any gaming activity: SMR dated 3 March 2021.
- f. On 31 March 2021, Customer 66 transferred \$500,000 from Customer 45's FMA into her FMA. Customer 66 then withdrew the funds in cash and left the casino: SMR dated 31 March 2021.
- g. On 10 November 2021, Customer 66 transferred \$500,000 from Customer 45's FMA into her FMA. Customer 66 then withdrew the \$500,000 in cash in a private gaming room. Customer 66 placed the cash into a black backpack. Customer 66 then left the casino: SMR dated 17 November 2021.
- i. Customer 66 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 66 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Sovereign Cage and Springs Salon Cage.

- j. Star Sydney did not have adequate reason to believe that Customer 66's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 66 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney was aware that:

- a. by 22 September 2016, Customer 66 had funded four junkets;
- b. between 21 December 2016 and 10 November 2021, Customer 66 had engaged in transactions totalling \$3,010,762, including several large cash withdrawals;
- c. Customer 66 had no gaming turnover recorded at Star Sydney between 1 July 2015 and 11 January 2022; and
- d. Customer 66 was associated with a number of Star Sydney customers who Star Sydney considered had acted suspiciously, including Customer 45 (who was her husband).

On 20 February 2017, 15 August 2017, 10 October 2017, 13 October 2017 and 27 February 2021, Star Sydney noted that Customer 66 had engaged in large transactions despite not using any funds for gaming purposes or recording any gaming activity.

Star Sydney was aware that more than \$3,119,181 withdrawn by Customer 66 between 20 February 2017 and 10 November 2021 was sourced from other customers, namely Customer 20 and Customer 45.

Star Sydney understood Customer 66's occupation to be performing home duties as a housekeeper or housewife.

As at 21 September 2022, Star Sydney had no other information recorded in relation to Customer 66's source of wealth.

At no time was Customer 66's financial activity at Star Sydney consistent with her source of wealth or source of funds.

Star Sydney's determination of the ML/TF risks posed by Customer 66

1920. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 66 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 66.

- a. On and from 30 November 2016, Customer 66 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 66's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 66 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 15 May 2015, Customer 66 was rated medium, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 66's transactions

1921. At no time did Star Sydney apply appropriate transaction monitoring to Customer 66's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 66, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket representatives;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 66 through the junket channel; and

Particulars

See paragraph 783 above.

- d. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 66.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 66 on 20 February 2017, 15 August 2017, 10 October 2017, 13 October 2017, 27 February 2021, 31 March 2021 and 10 November 2021: See *Customer 66's risk profile*.

The review, update and verification of Customer 66's KYC information

1922. Star Sydney did not review, update and verify Customer 66's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 66's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 66's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 66's source of wealth and source of funds were not legitimate: see *Customer 66's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 66's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 66.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 66's high ML/TF risks

1923. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 66 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 66; and
 - c. reviewing and updating Customer 66's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 66 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 66*.

ECDD triggers in respect of Customer 66

1924. Star Sydney was required to apply the ECDD Programs to Customer 66 following any ECDD triggers in respect of Customer 66.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1925. Customer 66 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 21 February 2017 and 17 November 2021, Star Sydney gave the AUSTRAC CEO seven SMRs with respect to Customer 66.

1926. The matter pleaded in paragraph 1925 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1927. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 66 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 66 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 66 and the provision of designated services to Customer 66 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 27 February 2021, 31 March 2021 and 18 November 2021, Star Sydney conducted ECDD in respect of Customer 66.

On 27 February 2021, the ECDD screening in respect of Customer 66 identified that:

- a. Star Sydney had inadequate KYC information recorded in its CMS in respect of Customer 66; and
- b. Customer 66's passport had expired.

On 18 November 2021, the ECDD screening in respect of Customer 66 identified that Star Sydney had a current and valid identification document in respect of Customer 66.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 66's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 66's source of wealth and source of funds were not legitimate: see *Customer 66's risk profile*.

- b. Customer 66 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 66 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 66 and the provision of designated services to Customer 66 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 17 November 2021, Star Sydney's Due Diligence Manager determined that a business relationship could be continued with Customer 66. In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 66's source of wealth (r 15.10(2)(a) of the Rules), having regard to her large and unusual transactions; and
- b. Customer 66's source of funds (r15.10(2)(b)), having regard to the information suggesting that there were higher ML/TF risks as to her source of funds: see *Customer 66's risk profile* above.

Contravention of s36 of the Act in respect of Customer 66

1928. By reason of the matters pleaded from paragraphs 1916 to 1927 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 66 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1929. By reason of the matters pleaded at paragraph 1928, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 66.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 67

1930. Customer 67 was a customer of Star Qld during the relevant period. Between 2016 and 2020, Star Qld recorded turnover exceeding \$340 million for Customer 67.

Particulars

Customer 67 was a customer of Star Qld from at least 11 December 2016.

On 18 July 2022, Star Qld issued a WOL in respect of Customer 67. The commencement of the WOL was deliberately delayed at the instruction of the AML/CTF Compliance Officer to accommodate Customer 67's visit to Star Qld in early July 2022.

1931. Star Qld provided Customer 67 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 16 February 2017, Star Qld opened an FMA for Customer 67 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 67 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 67 (items 31 and 32, table 1, s6 of the Act).

See Customer 67's risk profile below.

1932. At all times from 11 December 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 67.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 67's risk profile

1933. On and from 11 December 2016, Customer 67, and the provision of designated services to Customer 67 by Star Qld, posed higher ML/TF risks because of the following red flags:
- a. Customer 67 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2020, Star Qld recorded high and escalating turnover totalling \$342,336,071 for Customer 67;
 - i. between 2016 and 2020, Star Qld recorded high and escalating individual rated turnover totalling \$331,249,993 for Customer 67; and

Particulars

See paragraph 752 above.

In 2016, Customer 67's individual rated turnover was \$316,988 at Star Gold Coast and \$129,598 at Treasury Brisbane.

In 2017, Customer 67's individual rated turnover escalated to \$15,254,919 at Treasury Brisbane.

In 2018, Customer 67's individual rated turnover further escalated to \$15,785,951 at Star Gold Coast and \$78,283,695 at Treasury Brisbane.

In 2019, Customer 67's individual rated turnover was \$13,642,991 at Star Gold Coast and further escalated to \$202,003,060 at Treasury Brisbane.

In 2020, when closures due to COVID-19 commenced, Customer 67's turnover dropped but remained high.

In 2020, Customer 67's individual rated turnover was \$3,649,500 at Star Gold Coast and \$2,186,965 at Treasury Brisbane.

- ii. in 2018, Star Qld recorded high turnover on individual rebate programs totalling \$11,086,078 for Customer 67, with losses of \$488,125;

Particulars

See paragraph 623 above.

- b. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 67 by remitting large amounts of money into and within the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 16 October 2019 and 17 October 2019, Customer 67 transacted \$310,000 through the Hotel Card channel at Star Qld.

Other remittances into the casino environment

See paragraph 327 above.

On 22 May 2018, Star Qld received two telegraphic transfers totalling \$40,000, both of which were made available to Customer 67's FMA at Treasury Brisbane.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

See paragraph 1933.d below.

Between 5 July 2018 and 31 January 2020, Star Qld facilitated 12 transfers totalling \$1,079,077 from Treasury Brisbane to Star Gold Coast, each of which was made available to Customer 67's FMA at Star Gold Coast.

Between 21 July 2019 and 29 July 2019, Star Qld facilitated three transfers totalling \$451,000 from Star Gold Coast to Treasury Brisbane, each of which was made available to Customer 67's FMA at Treasury Brisbane.

- c. Star Qld was aware that Customer 67 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

2018

In May 2018, Star Qld recorded that Customer 67, who Star Qld understood was self-employed, had engaged in a number of large transactions between March 2018 and May 2018:

- a. Customer 67 recorded losses of \$49,561 in March 2018 and \$361,188 in April 2018;
- b. between 19 April 2018 and 21 May 2018, Customer 67 provided Star Qld with four bank cheques totalling \$210,000;
- c. on 21 May 2018, Customer 67 sent Star Qld two telegraphic transfers totalling \$40,000; and
- d. on 29 May 2018, Customer 67 presented \$99,900 in cash to Star Qld which comprised a mixture of \$50 notes and \$100 notes: SMR dated 30 May 2018.

2019

On 26 July 2019, Customer 67 deposited a bank cheque for \$165,000 into his account. On 1 August 2019, Customer 67 exchanged \$80,000 in cash for chips. Star Qld observed that the transaction was not supported by Customer 67's recorded play as he had lost all his funds: SMR dated 2 August 2019.

On 17 September 2019, Customer 67 deposited a bank cheque for \$369,830 into his FMA. Customer 67 then withdrew small amounts of the deposit, including one withdrawal of \$9,000 and another of \$10,000, but then redeposited those amounts back into his FMA. On 18 September 2019, Customer 67 withdrew \$200,000 in chips from his FMA, and lost \$150,000. Customer 67 then withdrew the remainder of his funds in chips, totalling \$170,830: SMR dated 18 September 2019.

On 25 October 2019, Customer 67 deposited a bank cheque for \$143,106 into his FMA. He used the funds to purchase chips which he then used for gaming. At the time Star Qld reported these transactions, Customer 67 had won approximately \$73,000 with the funds from the bank cheque. However, for the month of October 2019 to date, Customer 67 had recorded a total loss of \$483,000.

Star Qld noted that the value of the bank cheque was unusual. Further, the bank cheque had a different spelling of Customer 67's name to his passport: SMR dated 29 October 2019.

- d. by November 2018, Star Qld was aware that Customer 67 was involved in funding the gaming activity of third parties;

Particulars

On 20 November 2018, Customer 67 was observed handing another Star Qld customer \$50,000 in chips at Star Qld, which the customer then exchanged for cash and left the property. Star Qld subsequently reviewed transactions involving the customer and Customer 67 over the previous month and noted that:

- a. the customer had deposited two bank cheques totalling \$200,000 in late October 2018 in circumstances where the customer's gaming records did not support the amount deposited;
- b. the customer and Customer 67 had recorded chip and cash exchanges in similar amounts;
- c. on 21 November 2018, the customer exchanged \$50,000 in cash for chips. Customer 67 deposited \$50,000 in chips and transferred the balance of his FMA at Treasury Brisbane to his Star Gold Coast FMA. Customer 67 then withdrew \$50,000 in chips at Star Gold Coast;
- d. on 25 November 2017, Customer 67 deposited a bank cheque for \$132,662 to his FMA and then immediately withdrew \$132,600 in chips. Later that day, Customer 67 deposited \$150,000 in chips into his FMA then withdrew chips worth \$50,000 and \$100,062 in two separate transactions;
- e. between 19 October 2018 and 26 November 2018, Customer 67 had recorded substantial losses at Star Gold Coast and Treasury Brisbane; and
- f. Star Qld was unaware of the connection between Customer 67 and the customer: SMR dated 27 November 2018.

On two occasions on 15 April 2019, Customer 67 deposited a total of \$200,000 in cash into his FMA at Star Qld. Immediately after each cash deposit, Customer 67 transferred the entire amount to another Star Qld customer. On both occasions, the customer used the funds for gaming: SMR dated 24 April 2019.

On 30 May 2019, Customer 67 deposited a bank cheque for \$200,000 into his FMA at Star Qld. The bank cheque was drawn from an Australian bank and dated 30 May 2019. Customer 67 immediately transferred the funds to another Star Qld customer, Person 41. Star Qld noted that Person 41 intended to use the funds for gaming: SMR dated 30 May 2019.

On 2 June 2019, Customer 67 deposited \$180,000 in cash into his FMA at Star Qld. The cash comprised \$160,000 in \$50 notes and \$20,000 in \$100 notes. Customer 67 then withdrew \$20,000 in chips.

On 3 June 2019, Customer 67 deposited another \$20,000 in cash into his FMA before withdrawing \$180,000 in chips. Customer 67 gave the chips to Person 41, who deposited them into his own FMA.

At the time Star Qld reported these transactions, Person 41 appeared to have used the chips for play and had lost \$50,000: SMR dated 4 June 2019.

On 6 June 2019, Customer 67 deposited a bank cheque for \$200,000 into his FMA at Star Qld. The bank cheque had been drawn the same day from an Australian bank. Customer 67 then

immediately withdrew the funds and deposited them into Person 41's account. Person 41 then used the funds to purchase chips for gaming and quickly lost all of the funds. On 7 June 2019, Person 41 exchanged \$50,000 in premium chips for cash. He was in the presence of a second Star Qld customer. After completing the transaction, Person 41 gave \$10,000 to the second customer and kept the balance of the funds. Star Qld knew there was a connection between Customer 67, Person 41 and the second customer as they had been observed on 5 June 2019 standing close to each other and swapping \$100 notes that had just been paid out by Star Qld: SMR dated 7 June 2019.

On 12 June 2019, Customer 67 exchanged \$30,000 in chips for cash at Star Qld. Following the transaction, Customer 67 was observed giving the cash to another Star Qld customer, Person 19: SMR dated 12 June 2019.

On 24 June 2019, Star Qld noted that Customer 67 and Person 41 continually appeared together. When one completed a cash transaction, the other was close by. Consequently, Star Qld noted that it had become increasingly difficult to monitor the swapping of chips between each customer. Further, it was not clear who was the true owner of cash supplied to Star Qld. For example, on 24 June 2022, Star Qld observed that:

- a. Customer 67 deposited \$60,000 in \$50 notes wrapped in rubber bands into his account and also exchanged a further \$10,000 in \$100 notes for chips. Customer 67 then recorded a loss of \$83,300; and
- b. Person 41 deposited \$100,000 in \$100 notes into his FMA and then deposited a further \$87,500 in cash into his FMA a few hours later. Person 41 then withdrew all of the funds as chips and used them for gaming, losing \$173,000. Person 41 left the table with \$174,750 in premium chips and exchanged \$30,000 of those chips for cash chips. Customer 67 was within eyeshot during this exchange: SMR dated 25 June 2019.

On 27 June 2019, in the presence of Customer 67, Person 38 opened a new FMA and deposited \$50,000 in cash chips and \$100,000 from a bank cheque. Person 38 did not have any play to support the initial \$50,000 deposit of chips. Star Qld suspected that Customer 67 may have obtained the chips after making two cash and chip exchanges totalling \$170,000 on 24 June 2019: SMR dated 28 June 2019. Star Qld subsequently observed that Person 38 lost all of the funds on a rebate program: SMR dated 2 July 2019.

On 28 June 2019, Person 38 attended Star Qld with Customer 67 and Person 41. Person 38 deposited \$50,000 in cash chips into her FMA, despite not having recorded any cash play, as well as \$90,000 in premium chips, despite losing all the funds on a rebate program the previous day. Person 41 exchanged \$50,000 in premium chips

for cash chips. Star Qld believed that the premium chips presented by Person 41 had come from Person 38: SMR dated 2 July 2019.

- e. by 28 June 2019, Star Qld staff had formed suspicions that Customer 67 was conducting a junket operations business without a license or Star Qld's knowledge;

Particulars

On 28 June 2019, the AML Administrator formed suspicions that Customer 67 was conducting a junket operations business without a license or Star Qld's knowledge, and informed the General Manager, Gaming at Star Qld via email.

On or around 10 July 2019, Star Qld asked Customer 67 whether he was charging a commission or fee for the provision of funds to third parties for gaming. Customer 67 responded that his supply of funds to third parties for gaming was done "on the side" and no fee was charged: SMR dated 11 July 2019.

- f. notwithstanding the above, Star Qld continued to provide designated services to Customer 67 from July 2019 to October 2019, including in circumstances where Customer 67's activities were indicative of involvement in funding gaming activity of third parties;

Particulars

On 4 July 2019, Customer 67 arrived at Treasury Brisbane carrying a green shopping bag. He entered a private gaming room and showed the contents of the bag to several customers. He then removed a plastic bag from the green shopping bag and approached the cashier. Customer 67 emptied the plastic bag of cash and took some additional cash from the green bag. Customer 67 exchanged a total of \$200,000 in cash, comprising \$50 notes, and a bank cheque for \$100,000 drawn from an Australian bank, for \$300,000 in \$25,000 chips. Within 45 minutes, Customer 67 returned with the chips, deposited them back into his FMA, and requested that the funds be transferred to his FMA at Star Gold Coast. At the same time, he deposited another bank cheque for \$100,000 from a different Australian bank into his FMA. Customer 67 then withdrew all of the funds, gamed for a period of time, and then deposited \$500,000 in chips back into his FMA. Star Qld observed that of the \$500,000 in chips Customer 67 had presented, \$100,000 in chips could not be accounted for: SMRs dated 4 July 2019 and 5 July 2019.

On 5 July 2019, Customer 67 transferred \$200,000 each to two Star Qld customers. On 7 July 2019, Star Qld was advised that both customers were planning to move to Treasury Brisbane, and requested to move their funds there. Star Qld noted that the first customer had possibly exchanged \$100,000 of her premium chips for cash chips and then given them to Customer 67. Star Qld noted that its staff had all observed that Customer 67 appeared to be in control of "what goes on and how the funds are distributed", and that the

shifting of funds between people and Star properties was unusual:
SMR dated 11 July 2019.

On 10 July 2019, Customer 67 deposited \$200,000 in chips into his FMA, in circumstances where the volume of chips deposited was not supported by Customer 67's recorded play. The funds were transferred to another Star Qld customer who had just opened an FMA in order to play on a rebate program. The customer obtained a chip purchase voucher of \$200,000 and then obtained chips at a table: SMR dated 11 July 2019.

On 16 July 2019, a Star Qld customer opened an FMA with the intention to commence play on a rebate program. The next day, Customer 67 transferred \$200,000 to the customer's account. Star Qld was informed that the customer was Customer 67's relative, that they had a family tradition to game together around the world in unregulated places and that the customer's play was funded by her mother who had sent Customer 67 the money. Star Qld observed that the customer played at a table with a second Star Qld customer, and that Customer 67 instructed both customers on the bets made.

During the course of play, the customer who was apparently Customer 67's relative lost all of their funds and the other customer won \$334,250. That customer deposited \$200,000 of the chips that she had won into her FMA, exchanged three \$100,000 premium chips for three \$100,000 cash chips and gave two of these \$100,000 cash chips to Customer 67. Customer 67 deposited the \$200,000 in cash chips into his FMA: SMR dated 18 July 2019.

On 29 July 2019, Person 41 sought to exchange \$100,000 in premium cash chips for a \$100,000 cash chip. Person 41 was in the presence of Customer 67 at the time of the transaction. While the cashier was verifying that the chips belonged to Person 41, Customer 67 took the chips back and accused the staff of causing trouble for their guests. The cashier noted that Customer 67 had approximately another six \$100,000 premium plaques in his bag. However, gaming records did not support Customer 67 being the owner of these chips and Star Qld suspected that Customer 67 was swapping chips with Person 41: SMR dated 30 July 2019.

On 6 August 2019, Person 41 settled his commission play to receive a commission of \$57,985. This was paid as \$985 in cash and \$57,000 in chips. Person 41 was accompanied by Customer 67, who was a known associate of the customer, during this transaction. The cashier placed the cash and chips on the counter for Person 41. However, Customer 67 collected both the cash and the chips. On 7 August 2019, Customer 67 bought into play with \$57,000 in chips and lost all of the funds. Star Qld noted that the connection between Customer 67 and Person 41 remained unknown. Further, it was not known why Customer 67 had collected Person 41's commission:
SMR dated 7 August 2019.

On 9 July 2022, Customer 67 and another Star Qld customer gave approximately \$30,000 of chips to a third Star Qld customer, Person 19. Surveillance footage showed Customer 67 handing Person 19 a \$5,000 chip, which Person 19 then changed to cash, and later back to a chip. Person 19 put on two \$500 bets for Customer 67.

Customer 67 took a \$5,000 chip from Person 19 and placed a bet with it. An hour later, Customer 67 gave Person 19 \$100,000 in \$5,000 chips, which appeared to be from the bets placed by Person 19. Person 19 attempted to deposit the \$100,000 in chips to his FMA but Star Qld refused to complete the transaction because the chips were from Customer 67. Customer 67 deposited the chips into his account. Later, a cashier noticed the second customer pass \$8000 in chips to Customer 67. Customer 67 tried to deposit the chips into his FMA but Star Qld denied the transaction and returned the chips to the second customer. Customer 67's record of play indicated that he used approximately \$26,000 in chips. Customer 67 recorded a \$3,250 loss, and there were no records of Customer 67 cashing out any chips. Star Qld reported that the two other customers Customer 67 played with finished their trip with more funds than would be expected through records of play, and that it may be that the three customers were exchanging funds between themselves to disguise the origin and destination of the funds that they were using: SMR dated 15 July 2022.

- g. Customer 67, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small denominations at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 1 February 2017 and 12 July 2022, Star Qld gave the AUSTRAC CEO 171 TTRs involving Customer 67 totalling \$5,193,618, including:

- a. 154 TTRs detailing chip and cash exchanges totalling \$3,740,318;
- b. 17 TTRs detailing account deposits and withdrawals totalling \$1,453,000.

Large and suspicious cash transactions in 2017

On 17 March 2017, a Star Qld customer, who was not a member, presented \$20,000 in chips to be exchanged for cash, but advised the cage that the chips did not belong to her. The customer returned with Customer 67 who exchanged the chips for cash and then handed \$10,000 to the customer: SMR dated 22 March 2017.

Large and suspicious cash transactions in 2018

In June 2018 and July 2018, Star Qld observed that Customer 67 had presented large amounts of cash totalling \$460,000:

- a. on 12 June 2018, Customer 67 deposited \$110,000 in cash, comprising \$70,000 in \$50 notes and \$40,000 in \$100 notes, and \$10,000 in chips into his FMA. Later that day, Customer 67 withdrew the funds in chips and played on a commission program: SMR dated 13 June 2018;
- b. on 13 June 2018, Customer 67 exchanged \$100,000 in cash for chips, comprising \$90,000 in \$50 notes and \$10,000 in \$100 notes. The funds were used for gaming and the whole amount was lost: SMR dated 14 June 2018;
- c. on 14 June 2018, Customer 67 deposited \$100,000 in cash in \$100 notes into his FMA and used the funds for gaming. Customer 67 declined to provide information on the source of the cash: SMR dated 15 June 2018;
- d. on 18 June 2018, Customer 67 deposited \$50,000 in cash to his FMA and then withdrew the funds in chips. When asked about the source of the cash, Customer 67 advised that he had obtained the cash from a currency exchange service but did not disclose the name of the service: SMR dated 19 June 2018; and
- e. on 11 July 2018, Customer 67 exchanged \$100,000 in cash in \$100 notes for chips. Some of the cash was bundled in Star straps and the rest in rubber bands. Star Qld recorded that Customer 67 had lost \$205,000 on gaming in the previous two days. Star Qld was unaware of how Customer 67 had obtained the additional chips he had lost. At the time Star Qld reported these transactions, Customer 67 had recorded a total loss of \$1,484,501 on table games since January 2018: SMR dated 12 July 2018.

Large and suspicious cash transactions in 2019

On 19 June 2019, Customer 67 exchanged \$46,405 in chips for cash. He requested that the cash be comprised of \$50 notes: SMR dated 20 June 2019.

Large and suspicious transactions in 2022

On 6 July 2022, Customer 67 returned to Star Qld after being out of the country due to international border restrictions as a result of COVID-19 pandemic measures. Customer 67 presented \$100,000 in cash, comprised of \$100 notes wrapped in rubber bands and bundled in \$50,000 units. When asked about the source of funds, Customer 67 said that they were from his bank but could not provide the name of the bank: SMR dated 11 July 2022.

- h. between 2018 and 2019, Star Qld provided information in respect of Customer 67 to a law enforcement agency;

Particulars

On 20 June 2018 and 16 July 2019, Star Qld provided information in respect of Customer 67 to a law enforcement agency.

- i. in 2018, Customer 67 was the subject of law enforcement enquiries at Star Qld;

Particulars

On 7 December 2018, Star Qld received a request from a law enforcement agency in respect of Customer 67.

- j. Customer 67 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 67 had access to private gaming rooms at Star Qld, including Pit 9, Orchid Level 3, the Sovereign Room and The Suite at Treasury Brisbane and The Oasis and the Sovereign Room at Star Gold Coast.

- k. Star Qld did not have adequate reason to believe that Customer 67's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 67 at Star Qld.

Particulars

See paragraph 808 above.

During the relevant period, Star Qld held inconsistent information regarding Customer 67's occupation in its records, including that he was a contract painter (iBase and Synkros), and a principal of a real estate agency (Trackvia).

From 2019, Star Qld recorded that Customer 67 was a property developer but had formed the view that the information provided by Customer 67 regarding his source of wealth was unsatisfactory. On multiple occasions, Customer 67 either refused to say where large amounts of cash and cash that appeared suspicious had come from, or said that it came from a currency exchange service, but refused to provide the name of the service. Despite its suspicions, at no time did Star Qld take appropriate steps to verify Customer 67's source of funds: see *Customer 67's risk profile*.

Between July 2019 and March 2022, Customer 67 was retained on the agendas of the JRAMM and PAMM for the purpose of obtaining further source of wealth information. Further, Customer 67 was placed on the Private Gaming Room Banned List from July 2020 until he provided further source of wealth information: see *ECDD triggers in respect of Customer 67* below.

In June 2022, Customer 67 indicated he would be making a trip to Star Qld from overseas. Prompted by this, Star Qld asked Customer 67 to provide source of wealth information.

On 4 July 2022, Star Qld's Due Diligence Program manager recommended that Star Qld issue a WOL in respect of Customer 67 on the basis that, among other things, that it was unable to verify the source of wealth information provided by Customer 67.

Despite this, Star Qld provided designated services to Customer 67 from at least 6 July 2022, in circumstances where the services provided posed higher ML/TF risks. In particular, on 6 July 2022, Customer 67 presented \$100,000 in cash, wrapped in rubber bands and bundled in \$50,000 units, and claimed that it came from his bank but could not provide the name of the bank. On 18 July 2022, Star Qld issued a WOL in respect of Customer 67. The commencement of the WOL was deliberately delayed at the instruction of the AML/CTF Compliance Officer to accommodate Customer 67's visit to Star Qld in early July 2022.

Star Qld's determination of the ML/TF risks posed by Customer 67

1934. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 67 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 67.
- a. On and from May 2018, Customer 67 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 67's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 67 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 22 March 2017, Customer 67 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 13 June 2018, Customer 67 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 20 September 2019, Customer 67 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 67's transactions

1935. At no time did Star Qld apply appropriate transaction monitoring to Customer 67's transactions because:
- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 67, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 67 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. an international remittance channel, specifically the Hotel Card channel.

Particulars

See paragraphs 777 and 790 above.

The review, update and verification of Customer 67's KYC information

1936. Star Qld did not review, update and verify Customer 67's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 67's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 67's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 67's source of wealth and source of funds were not legitimate: see *Customer 67's risk profile*.

- d. to the extent that Star Qld reviewed Customer 67's KYC information on and from 11 December 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 67.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 67's high ML/TF risks

1937. Had Star Qld conducted ongoing customer due diligence on and from 11 December 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 67 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 67; and
 - c. reviewing and updating Customer 67's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 67 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 67*.

ECDD triggers in respect of Customer 67

1938. Star Qld was required to apply the ECDD Programs to Customer 67 following any ECDD triggers in respect of Customer 67.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1939. Customer 67 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 22 March 2017 and 15 July 2022, Star Qld gave the AUSTRAC CEO 30 SMRs with respect to Customer 67.

1940. The matter pleaded in paragraph 1939 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1941. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 67 following an ECDD trigger because:
- a. on each occasion prior to July 2022 that Star Qld conducted ECDD in respect of Customer 67 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 67 and the provision of designated services to Customer 67 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, and 807 to 809 above.

On 24 April 2019, 30 May 2019, 28 June 2019, 2 July 2019, 9 July 2019, 23 July 2019, 1 July 2022, 15 July 2022 and 18 July 2022 Star Qld conducted ECDD in respect of Customer 67.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 67's higher ML/TF risks, including the risks of Customer 67 providing funds to third parties to facilitate gaming activity: see *Customer 67's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 67's source of funds or source of wealth, in circumstances where:

- a. Customer 67 presented large amounts of cash, including cash that appeared suspicious, as well as bank cheques drawn in large amounts;
- b. Star Qld had inconsistent information regarding Customer 67's occupation in its records, including that he was a contract painter and a property developer; and
- c. although Star Qld had identified that it needed further details regarding Customer 67's source of wealth and source of funds, it did not take any steps to investigate or verify his source of wealth or source of funds until June 2022.

ECDD screening in 2022

Between July 2019 and March 2022, Customer 67 was retained on the agendas of the JRAM and PAMM for the purpose of obtaining further source of wealth information. Further, Customer 67 was placed on the Private Gaming Room Banned List from July 2020 until he provided further source of wealth information: see *Customer 67's risk profile* above.

In late June 2022, Star Qld was informed that Customer 67 intended to return to Star Qld.

On or around 24 June 2022, Star Qld obtained source of wealth information from Customer 67. Customer 67 provided business cards in support of his claim that he was:

- a. the CEO of a property development company; and
- b. a shareholder in a family business.

Star Qld was unable to verify the source of wealth information provided by Customer 67.

As a result of further requests by Star Qld, on or around 29 June 2022, Customer 67 subsequently provided further source of wealth information, including:

- a. a screenshot of Customer 67's bank balance held at an overseas bank; and
- b. details of his shareholdings in an overseas company.

On or around 1 July 2022, Star Qld's ECDD analyst conducted ECDD in respect of Customer 67. The ECDD screening in respect of Customer 67 identified that:

- a. Star Qld had given 28 SMRs to the AUSTRAC CEO in respect of Customer 67;
- b. Customer 67 had been added to the JRAMM and PAMM agendas following suspicions that he was running unauthorised junket operations;
- c. action to obtain Customer 67's source of wealth had been delayed due to international border closures; and
- d. referrals had been made to law enforcement between 2018 and 2019 in respect of Customer 67.

Following the ECDD screening, Star Qld's ECDD analyst escalated Customer 67 to the AML/CTF Compliance Officer for consideration.

From at least 6 July 2022, Star Qld provided designated services to Customer 67 at its properties: see *Customer 67's risk profile*.

Further ECDD screenings were conducted by Star Qld following the submission of SMRs on 15 July 2022 and 18 July 2022.

By reason of the matters set out above, there were real risks that Customer 67's source of wealth and source of funds were not legitimate: see *Customer 67's risk profile*.

On 18 July 2022 Star Qld issued a WOL in respect of Customer 67. The commencement of the WOL was deliberately delayed at the instruction of the AML/CTF Compliance Officer to accommodate Customer 67's visit to Star Qld in early July 2022.

- b. Customer 67 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to July 2022 that Customer 67 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 67 and the provision of designated services to Customer 67 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

JRAMM/PAMM

Between July 2019 and March 2022, Customer 67 was retained on the agendas of the JRAMM and PAMMs for the purpose of obtaining further source of wealth information.

The minutes of the JRAM meeting dated 16 August 2019 noted that:

- a. Star Qld suspected that Customer 67 was running his own junket operations business at Star Qld without a license or approval;
- b. when questioned by Star Qld, Customer 67 claimed that he just provided funds, did not charge any fees for providing those funds and did this “on the side”; and
- c. further enquiries would be made to obtain details of Customer 67’s source of wealth due to the large amounts of cash he presented.

Following the September 2019 JRAM meeting, Customer 67’s risk rating was raised to high risk, not being high risk for the purposes of the Act and Rules until November 2019.

In November 2019, the minutes of the JRAMM recorded concerns that Customer 67 was still bringing in large bank cheques to fund his gaming, in circumstances where Star Qld did not know where the cheques had come from.

In December 2019, the minutes of the JRAMM recorded that Star Qld had obtained information that Customer 67 was a property developer.

In February 2020, JRAMM minutes recorded a decision to obtain further information regarding Customer 67’s source of wealth.

However, by March 2020, the minutes of the JRAM meeting noted that:

- a. Customer 67 would be discussed in an out-of-cycle JRAMM when Star Qld reopened following the COVID-19 pandemic; and
- b. Customer 67 would be added to the Private Gaming Room Banned List, subject to providing source of wealth information.

It was not until 17 July 2020 that Customer 67 was added to the Private Gaming Room Banned list at Star Qld.

Between July 2020 and February 2022, Customer 67 was retained on the agenda of the JRAMM and PAMM for ongoing monitoring.

By March 2022, the minutes of the JRAMM and PAMM recorded a Group decision to remove Customer 67 from the agendas of each meeting, subject to the Private Gaming Room ban remaining in place, and ongoing monitoring via the transaction monitoring program and ongoing customer due diligence.

Decision to issue a WOL in respect of Customer 67 by AML/CTF Compliance Officer

Prompted by ECDD screenings in July 2022 which occurred after Customer 67 indicated he was returning to Star Qld from overseas and after further information was obtained regarding Customer 67's source of wealth, Star Qld's ECDD analyst escalated Customer 67 to the Due Diligence Program Manager for consideration.

On 4 July 2022, the Due Diligence Program Manager considered the ECDD analyst's comments and the source of wealth information recommended that a Group Wide WOL be issued in respect of Customer 67 on the basis of the 28 SMRs given by Star Qld to the AUSTRAC CEO in respect of Customer 67,, Star Qld's suspicions held in 2019 that Customer 67 was operating unauthorised junket-style operations, Customer 67's reluctance to provide source of wealth information, and Star Qld's inability to verify initial source of wealth information for Customer 67.

On 6 July 2022, Customer 67 presented \$100,000 in cash, wrapped in rubber bands and bundled in \$50,000 units, and claimed that it came from his bank but couldn't provide the name of the bank: see *Customer 67's risk profile*.

On 8 July 2022, the AML/CTF Compliance Officer agreed with the recommendation to issue a WOL in respect of Customer 67, noting that it should have been actioned prior to Customer 67's arrival in Australia. The AML/CTF Compliance Officer stated that the WOL would take effect on Customer 67's departure on 15 July 2022, subject to monitoring for activity similar to that reported in previous SMRs in respect of Customer 67.

It was not until 18 July 2022 that Star Qld issued a WOL in respect of Customer 67, which was issued to Customer 67 after Star Qld learnt that he had extended his trip to Star Qld.

Contravention of s36 of the Act in respect of Customer 67

1942. By reason of the matters pleaded from paragraphs 1930 to 1941 above, on and from 11 December 2016, Star Qld:
- a. did not monitor Customer 67 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1943. By reason of the matters pleaded at paragraph 1942, Star Qld contravened s36(1) of the Act on and from 11 December 2016 until 18 July 2022 with respect to Customer 67.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 68

1944. Customer 68 was a customer of Star Sydney during the relevant period. In 2018, Star Sydney recorded turnover exceeding \$28 million for Customer 68.

Particulars

Customer 68 was a customer of Star Sydney at least 21 May 2005.

1945. Star Sydney provided Customer 68 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 68 which were closed on 5 December 2018 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 68 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 68's risk profile* below.

1946. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 68.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 68's risk profile

1947. On and from 30 November 2016, Customer 68, and the provision of designated services to Customer 68 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 68's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 68 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 68;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 10 October 2009.

The SMR reported that Customer 68 was involved in a large and suspicious cash transaction: see paragraph 1947.a.ii below.

- ii. Customer 68 transacted using large amounts of cash and cash that appeared suspicious at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 14 January 2009 and 14 July 2010, Star Sydney gave the AUSTRAC CEO four TTRs detailing incoming payments to Customer 68 totalling \$580,700 which comprised:

- a. \$560,700 in account deposits; and
- b. \$20,000 in chip exchanges.

Between 8 January 2009 and 23 February 2016, Star Sydney gave the AUSTRAC CEO 81 TTRs detailing outgoing payments from Customer 68 totalling \$4,635,220 which comprised:

- a. \$690,000 in account withdrawals;
- b. \$3,802,000 in chip exchanges;
- c. \$22,606 in cash exchanges; and
- d. \$120,613 in other monetary value out.

On 3 October 2009, Customer 68 left Star Sydney with a junket representative while carrying \$586,000 in cash: SMR dated 10 October 2009.

- iii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 68 by remitting large amounts of money into and out of the casino environment via his accounts; and

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 3 November 2006, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$600,000 where Customer 68 was named as the ordering customer and the beneficiary was a third party.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 13 June 2008 and 6 November 2009, Star Sydney gave the AUSTRAC CEO outgoing IFTIs totalling \$2,000,000 where Customer 68 was named as the ordering customer and beneficiary.

Each of the above transactions was conducted through the Star Patron account channel.

- iv. in 2015, Customer 68 was the subject of a law enforcement enquiry at Star Sydney;

Particulars

In June 2015, Star Sydney received a request from a law enforcement agency for records in respect of Customer 68. The

reason for the enquiry was not known to Star Sydney, however a reference was made in the request to proceeds of crime.

Customer 68's risk profile from 30 November 2016

- b. Customer 68 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through the junket programs;
 - i. between 15 June 2018 and 3 July 2018, Customer 68 was a player on a junket at Star Sydney; and
 - ii. between 15 June 2018 and 3 July 2018, Star Sydney recorded high turnover totalling \$28,343,250 with wins of \$1,606,750 for Customer 68's gaming activity on the junket program;
- c. designated services provided to Customer 68 lacked transparency as the services were provided through the junket channel at Star Sydney; and

Particulars

See paragraph 650 above.

- d. Star Sydney did not have adequate reason to believe that Customer 68's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 68 at Star Sydney.

Particulars

See paragraph 808 above.

By 30 November 2016, a law enforcement agency had made enquiries at Star Sydney in respect of Customer 68 and had connected him with the proceeds of crime. Customer 68 recorded a turnover on a junket program exceeding \$28 million.

Despite this, Star Sydney did not record details of Customer 68's source of wealth or source of funds.

Star Sydney's determination of the ML/TF risks posed by Customer 68

1948. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 68 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 68.

- a. On and from 30 November 2016, Customer 68 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 68's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 68 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 14 November 2008, Customer 68 was rated low risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 68's transactions

1949. At no time did Star Sydney apply appropriate transaction monitoring to Customer 68's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 68, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 68 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 68's KYC information

1950. Star Sydney did not review, update and verify Customer 68's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 68's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney did not appropriately review, update and verify Customer 68's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 68's source of wealth or source of funds: see *Customer 68's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 68's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 68.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 68's high ML/TF risks

1951. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 68 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 68; and
- c. reviewing and updating Customer 68's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 68 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

1952. Had Star Sydney rated Customer 68 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 68.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 68

1953. By reason of the matters pleaded from paragraphs 1944 to 1952 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 68 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1954. By reason of the matters pleaded at paragraph 1953, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 68.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 69

1955. Customer 69 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$8.7 million for Customer 69.

Particulars

Customer 69 was a customer of Star Sydney from at least 10 April 2012.

1956. Star Sydney provided Customer 69 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

Customer 69 received high value gambling services at Star Sydney (table 3, s6 of the Act). Between 2016 and 2019, Star Sydney recorded high and escalating turnover totalling \$8,767,396 for Customer 69.

See Customer 69's risk profile below.

1957. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 69.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 69's risk profile

1958. On and from 30 November 2016, Customer 69, and the provision of designated services to Customer 69 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 69's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 69 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 69;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 26 February 2015 and 3 March 2015.

The SMRs reported that Customer 69 and persons associated with him were involved in large cash transactions: see paragraph 1958.a.iii below.

- ii. Customer 69 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$391,100 for Customer 69; and

Particulars

See paragraph 752 above.

- iii. Customer 69, and persons associated with him, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 1 October 2013 and 7 November 2016, Star Sydney gave the AUSTRAC CEO 33 TTRs detailing incoming payments to Customer 29 totalling \$778,000 which comprised chip exchanges.

Between 11 April 2012 and 7 November 2016, Star Sydney gave the AUSTRAC CEO 20 TTRs detailing outgoing payments from Customer 29 totalling \$436,500 which were comprised of chip and cash exchanges.

On 24 February 2015, an unknown person presented \$100,000 in cash to purchase chips at Star Sydney. When asked for identification, she presented Customer 69's player card and said that she was his daughter. The person refused to provide any identification of her own.

Star Sydney refused to process the transaction: SMR dated 26 February 2015.

On 27 February 2015, within a 24-hour period, Customer 69 made four chip purchases with cash at Star Sydney. Star Sydney considered the chip purchases to be large when compared with Customer 69's transactional history: SMR dated 3 March 2015.

On 18 July 2016, Customer 69 purchased \$9,900 in chips with cash at Star Sydney.

Customer 69's risk profile from 30 November 2016

- b. Customer 69 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 69 was a member of a foreign political body.

- c. Customer 69 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney

recorded high and escalating individual rated turnover totalling \$8,767,396 for Customer 69;

Particulars

See paragraph 752 above.

In 2016, Customer 69's individual rated gaming turnover escalated to \$5,031,363.

In 2017, Customer 69's individual rated turnover was \$3,503,654.

In 2018, Customer 69's individual rated turnover was \$208,339.

In 2019, Customer 69's individual rated turnover was \$24,040.

- d. Customer 69 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 5 December 2016 and 22 November 2017, Star Sydney gave the AUSTRAC CEO 26 TTRs detailing incoming payments to Customer 69 totalling \$260,000 which comprised chip exchanges.

Between 5 December 2016 and 21 September 2018, Star Sydney gave the AUSTRAC CEO 16 TTRs detailing outgoing payments from Customer 69 totalling \$314,000 which were comprised of were comprised of chip and cash exchanges.

- e. Customer 69 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 69 had access to private gaming rooms at Star Sydney, including Oasis and the Sovereign Room.

- f. Star Sydney did not have adequate reason to believe that Customer 69's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 69 at Star Sydney.

Particulars

See paragraph 808 above.

From 30 November 2015, Star Sydney understood Customer 69's occupation to be as a mining engineer.

Customer 69 was a foreign PEP. His turnover escalated significantly in 2017. Despite this, Star Sydney did not take steps to review, update and verify Customer 69's stated source of wealth or the source of funds used by Customer 69 for gaming activities.

Star Sydney's determination of the ML/TF risks posed by Customer 69

1959. On and from 20 July 2016, Customer 69 was rated by Star Sydney as a high risk customer for the purpose of the Act and Rules.

Particulars

On 20 July 2016, Customer 69 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 69 was rated very high risk, being high risk for the purpose of the Act and Rules.

1960. Nevertheless, for the reasons pleaded below, Star Sydney failed to monitor the high ML/TF risks posed by Customer 69 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by it with respect to Customer 69.

Monitoring of Customer 69's transactions

1961. At no time did Star Sydney apply appropriate transaction monitoring to Customer 69's transactions because:
- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 69, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney provided designated services to Customer 69 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 69's KYC information

1962. Star Sydney did not review, update and verify Customer 69's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a), (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 69's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 69's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 69's source of wealth or source of funds: see *Customer 69's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 69's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 69.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 69

1963. Star Sydney was required to apply the ECDD Programs to Customer 69 following any ECDD triggers in respect of Customer 69. In particular, because Customer 69 was a foreign PEP, Star Sydney was required to:
- a. undertake detailed analysis of Customer 69's KYC information including taking reasonable measures to identify the source of Customer 69's wealth and the source of Customer 69's funds; and
 - b. seek senior management approval for continuing a business relationship with Customer 69 and whether Star Sydney should continue to provide a designated service to Customer 69.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.10(2), 15.10(6) and 15.11 of the Rules.

1964. Customer 69:

- a. at all times was a foreign PEP; and

Particulars

See *Customer 69's risk profile* above.

- b. was determined to be high risk for the purpose of the Act and Rules prior to 30 November 2016 by Star Sydney.

Particulars

On and from 30 November 2016, Star Sydney determined that the ML/TF risks posed by Customer 69 was high risk for the purpose of

the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 69* above.

1965. Each matter pleaded in paragraph 1964 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

1966. At all times, Star Sydney was aware that Customer 69 was a foreign PEP.

1967. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 69 following the ECDD triggers:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 69 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 69 and the provision of designated services to Customer 69 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite. In particular, Star Sydney failed to monitor Customer 69 as a foreign PEP because:
 - i. Star Sydney's analysis of Customer 69's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 69;
 - ii. Star Sydney's analysis of Customer 69's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 69;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 11 November 2019 and 2 December 2020 Star Sydney conducted ECDD in respect of Customer 69.

Customer 69 was a foreign PEP. His turnover escalated significantly in 2017. Despite this, Star Sydney did not take steps to review, update and verify Customer 69's stated source of wealth or the source of funds used by Customer 69 for gaming activities.

The ECDD conducted by Star Sydney did not have appropriate regard to their higher ML/TF risks: see *Customer 69's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 69's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 69's source of wealth or source of funds: see *Customer 69's risk profile*.

- iii. Customer 69 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- iv. any senior management approval regarding Customer 69 failed to give appropriate consideration to the ML/TF risks posed by Customer 69 and the provision of designated services to Customer 69 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

Contravention of s36 of the Act in respect of Customer 69

1968. By reason of the matters pleaded from paragraphs 1955 to 1967, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 69 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1969. By reason of the matters pleaded at paragraph 1968, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 69.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 70

1970. Customer 70 was a customer of Star Sydney during the relevant period. Between 2016 and 2018, Star Sydney recorded turnover exceeding \$610 million for Customer 70.

Particulars

Customer 70 was a customer of Star Sydney from at least 12 May 2011.

1971. Star Sydney provided Customer 70 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 1 April 2014, Star Sydney opened an FMA and SKA for Customer 70 which were closed on 16 July 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 70 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 70's risk profile* below.

1972. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 70.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 70's risk profile

1973. On and from 30 November 2016, Customer 70, and the provision of designated services to Customer 70 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 70's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 70 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 70;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 29 occasions between 2 April 2014 and 11 November 2016.

The SMRs reported that Customer 70 and persons associated with him engaged in large and suspicious cash transactions: see paragraphs 1973.a.iv and 1973.a.v.

- ii. Customer 70 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$38,291,803 for Customer 70;

Particulars

See paragraph 752 above

- iii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 70 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

For example, on 14 October 2015, Star Sydney received a telegraphic transfer of \$100,000, which it made available to Customer 70's FMA.

The above transaction was conducted through the Star Patron account channel.

- iv. Customer 70 transacted using large amounts of cash at Star Sydney;
and

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 21 June 2013 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 220 TTRs in respect of Customer 70 totalling \$12,391,496, which were comprised of:

- a. 106 outgoing TTRs totalling \$8,269,521;
- b. 114 incoming TTRs totalling \$4,121,975;
- c. \$12,146,428 in chip or cash exchanges;
- d. \$210,900 in account deposits or withdrawals; and
- e. \$34,168 in EGM payouts.

Large and suspicious transactions

Between 1 April 2014 and 11 November 2016, Customer 70 and those acting on his behalf engaged in large and suspicious cash transactions totalling at least \$5,031,165, including:

- a. cash to chip exchanges by Customer 70 totalling more than \$700,000: SMRs dated 3 April 2014, 7 April 2014, 8 April 2014, 10 April 2014, 16 April 2014, 1 October 2015, 30 December 2015, 14 July 2016; and
 - b. chip to cash exchanges by Customer 70 or those acting on his behalf totalling \$4,331,165: SMRs dated 2 April 2014, 4 April 2015, 9 April 2014, 11 April 2014, 18 June 2014, 17 September 2015, 21 September 2015, 24 September 2015, 5 January 2016, 5 January 2016, 27 January 2016, 29 February 2016, 10 May 2016, 18 July 2016, 5 August 2016, 15 August 2016, 20 August 2016, 1 November 2016, 11 November 2016.
- v. Star Sydney was aware that Customer 70 had engaged in large and unusual transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 14 November 2016, Customer 59 exchanged two \$500,000 cash plaques for \$1,000,000 in cash. Customer 59 had no recorded gaming activity at the time and was asked if the plaques had been given to him. Customer 70 then arrived at the cashier and stated that the plaques were his. In the previous days, Customer 70 had recorded a turnover of approximately \$11,000,000 with a win of approximately \$1,500,000.

Due to the large amount requested, Customer 59 was offered a cheque or a telegraphic transfer. However, Customer 70 insisted that he receive cash. He stated that he intended to purchase property that day: SMR dated 15 November 2016.

Customer 70's risk profile from 30 November 2016

- b. Customer 70 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2018,

Star Sydney recorded high and escalating individual rated turnover totalling \$613,179,664 for Customer 70;

Particulars

See paragraph 752 above.

In 2016, Customer 70's individual rated turnover escalated significantly to \$440,312,249.

In 2017, Customer 70's individual rated turnover was \$170,217,253.

In 2018, Customer 70's individual rated turnover was \$2,650,162.

- c. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 70 by remitting large amounts of money out of the casino environment via his accounts;

Particulars

See paragraph 327 above.

For example, on 16 November 2017, Star Sydney sent a telegraphic transfer of \$565,000 from Customer 70's FMA to an Australian bank account.

The above transaction was conducted through the Star Patron account channel.

- d. Star Sydney was aware that Customer 70, and persons associated with him including Customer 59 and Customer 94:
- i. had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. transacted using large amounts of cash;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 9 January 2017 and 30 April 2018, Star Sydney gave the AUSTRAC CEO 65 TTRs in respect of Customer 70 totalling \$2,827,774, which were comprised of:

- a. 36 outgoing TTRs totalling \$1,863,674;
- b. 29 incoming TTRs totalling \$964,100;
- c. \$2,586,066 in chip or cash exchanges;
- d. \$100,000 in account deposits or withdrawals; and
- e. \$141,708 in EGM payouts.

Large and suspicious cash transactions in 2017

For example, on 10 January 2017, Customer 70 deposited a bank cheque for \$99,800 into his Star Sydney account. Star Sydney considered that this transaction was strange and suspected that

Customer 70 was trying to avoid a \$100,000 threshold for an unknown reason.

On 20 January 2017, Customer 70 exchanged \$280,000 in chips for cash. At the time, Customer 70 had recorded a win of \$300,280.

On 6 February 2017, Customer 59 exchanged \$100,000 in chips for cash. Customer 59 was observed to deliver the cash to Customer 70 who had recorded winnings of \$199,300 that day: SMR dated 7 February 2017.

On 9 February 2017, Customer 59 requested to exchange \$200,000 in plaques for cash. When asked where she got the plaques, Customer 59 advised Star Sydney that they belonged to her husband, Customer 70. Customer 59 returned to the cashier with Customer 70 to complete the transaction. Star Sydney noted that Customer 70's recorded play showed a win of \$300,000 in the previous days: SMR dated 10 February 2017.

On 9 March 2017, Customer 59 exchanged a \$100,000 plaque for cash. Following the transaction, Customer 59 moved from one private gaming room to another private gaming room and exchanged another \$50,000 in chips for cash. When Customer 59 returned to the first private gaming room, she met with Customer 70. Customer 70 then exchanged \$200,000 in plaques for cash. The two left the casino together. Star Sydney noted that Customer 59 had no play recorded in the previous week but that Customer 70 had a large amount of play and winnings in recent days: SMR dated 10 March 2017.

On 17 July 2017, Customer 70 cashed out \$300,000 in chips. At the time, Customer 70 had recorded a win of \$580,950.

On 25 July 2017, Customer 59 exchanged \$100,070 in chips for cash. Customer 59 placed the cash in a bag before meeting with Customer 70. However, Customer 59 was not observed giving the cash to Customer 70. Star Sydney noted that Customer 59 did not have any play recorded to support the large transaction but that Customer 70 had recorded a large amount of play and that such a transaction would not be unusual for him. Star Sydney noted that it seemed likely that Customer 59 had completed the transaction on Customer 70's behalf: SMR dated 25 July 2017.

On 11 November 2017, Customer 70 exchanged \$100,000 in cash for chips. The cash comprised \$100 notes issued by Star.

On 14 November 2017, Customer 8's junket representative, Customer 94, withdrew \$152,000 in cash from Customer 8's account. Customer 94 was observed giving the cash to Customer 70 before leaving the property. Star Sydney noted that Customer 70 was not a player on Customer 8's junket and that Star Sydney was unaware of any association between Customer 70 and the junket: SMR dated 14 November 2017.

- e. Customer 70 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 70 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Lakes Salons, Oasis, Jade and Chairman's.

- f. in 2018, Customer 70 was the subject of law enforcement enquiries at Star Sydney; and

Particulars

On 16 November 2018, Star Sydney received a request from a law enforcement agency for details concerning Customer 70.

- g. Star Sydney did not have adequate reason to believe that Customer 70's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 70 at Star Sydney.

Particulars

See paragraph 808 above.

Star understood that Customer 70 was a sales consultant. However, in 2016 alone, Customer 70's turnover escalated to over \$440 million. In addition, between 2017 and 2018, Customer 70 was involved in a number of large and suspicious cash transactions. At no time was Customer 70's source of wealth or source of funds sufficient to explain the high value financial and gambling services provided to him.

Star Sydney's determination of the ML/TF risks posed by Customer 70

1974. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 70 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 70.
- a. On and from 30 November 2016, Customer 70 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act or Rules for the reasons pleaded above: see *Customer 70's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 70 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 7 August 2014, Customer 70 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 70's transactions

1975. At no time did Star Sydney apply appropriate transaction monitoring to Customer 70's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 70, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 70 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 70.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 70 on 14 November 2017: See *Customer 70's risk profile*.

The review, update and verification of Customer 70's KYC information

- 1976. Star Sydney did not review, update and verify Customer 70's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 70's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 70's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 70's source of wealth or source of funds: see *Customer 70's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 70's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 70.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 70's high ML/TF risks

1977. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 70 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 70; and
- c. reviewing and updating Customer 70's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 70 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 70*.

ECDD triggers in respect of Customer 70

1978. Star Sydney was required to apply the ECDD Programs to Customer 70 following any ECDD triggers in respect of Customer 70.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1979. Customer 70 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 7 February 2017 and 14 November 2017, Star gave the AUSTRAC CEO five SMRs with respect to Customer 70.

1980. The matter pleaded in paragraph 1979 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1981. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 70 following an ECDD trigger because:

- a. at no time did Star Sydney apply the ECDD Programs to Customer 70;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 70's source of wealth or source of funds: see *Customer 70's risk profile*.

- b. Customer 70 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 70 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 70 and the provision of designated services to Customer 70 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 70

1982. By reason of the matters pleaded from paragraphs 1970 to 1981 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 70 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1983. By reason of the matters pleaded at paragraph 1982, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 70.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 71

1984. Customer 71 was a customer of Star Sydney during the relevant period. Between 2016 and March 2017, Star Sydney recorded turnover exceeding \$380 million for Customer 71.

Particulars

Customer 71 was a customer of Star Sydney from at least 26 December 2008.

On 18 January 2017, Customer 71 self-excluded from Star Sydney. Between 18 January 2017 and 3 March 2017, Customer 71 breached the self-exclusion at least 17 times.

On 3 March 2017, Star Sydney revoked the self-exclusion and issued a WOL in respect of Customer 71 for problem gambling.

1985. Star Sydney provided Customer 71 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 22 May 2015, Star Sydney opened an FMA and SKA for Customer 71 which were closed on 2 August 2021 (item 11, table 3, s6 of the Act).

See *Customer 71's risk profile* below.

1986. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 71.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 71's risk profile

1987. On and from 30 November 2016, Customer 71, and the provision of designated services to Customer 71 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 71's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 71 had the following risk history:
- i. Star Sydney had formed suspicions for the purpose of s41 of the Act with respect to Customer 71;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR relating to Customer 71 on eight occasions between 12 May 2015 and 30 November 2016.

The SMRs reported that Customer 71, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious: see particulars to paragraph 1987.a.v below.

- ii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 71 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraph 347 to 349 above.

For example, on around 28 January 2016, Star Sydney sent a transfer of \$25,000 from Customer 71's account to Star Qld.

- iii. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 71 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraph 347 to 349 above.

For example, on around 28 January 2016, Star Qld received a transfer of \$25,000 from Star Sydney, which it made available to Customer 71's FMA at Star Gold Coast.

- iv. Customer 71 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star recorded high individual rated turnover totalling \$37,644,561 for Customer 71;

Particulars

See paragraph 752 above.

- v. Customer 71, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes at Star Sydney; and

Particulars

See paragraphs 611 to 618 above

TTRs

Between 31 July 2014 and 30 November 2016, Star Sydney gave the AUSTRAC CEO 717 TTRs in respect of Customer 71 totalling \$21,789,547, which were comprised of:

- a. 384 outgoing TTRs totalling \$12,216,072;
- b. 333 incoming TTRs totalling \$9,573,475;
- c. \$20,013,887 in chip or cash exchanges;
- d. \$1,765,655 in account deposits or withdrawals; and
- e. \$10,005 in EGM payouts.

Large and suspicious cash transactions in 2015

On 11 May 2015, a Star Sydney customer presented \$200,000 in cash to Star Sydney to be exchanged for chips. The cash comprised \$50 notes bundled with rubber bands. After the exchange, the customer was observed giving half of the chips to Customer 71: SMR dated 12 May 2015.

On 16 May 2015, Customer 71 exchanged \$80,000 worth of \$5,000 chips for \$20,000 chips at Star Sydney. Star Sydney noted that Customer 71 presented with his arms overflowing with \$5,000 cash chips, which it understood to be typical behaviour for loan sharks.

Star Sydney considered that some of Customer 71's rated gaming activity on 16 May 2015 appeared improbable. For example, at one point Customer 71 arrived at a table with \$20,000 and left with \$136,000.

On 21 May 2015, Customer 71 exchanged \$550,000 in chips for cash at Star Sydney. Star Sydney considered that Customer 71 did not have sufficient rated gaming activity to justify such a large cash out: SMR dated 22 May 2015.

On 23 September 2015, Customer 71 exchanged \$62,055 in chips for cash at Star Sydney. Customer 71 also withdrew \$100,000 from his account. Customer 71 collected the cash in a black Star branded bag and left the gaming area: SMR dated 24 September 2015.

Large and suspicious cash transactions in 2016

On 19 June 2016, a Star Sydney customer, being the same customer the subject of the 11 May 2015 transaction, deposited a bank cheque into her account and then withdrew the amount as chips. The customer was observed handing over the chips to Customer 71, who then went to the cashier and exchanged the chips for cash. Star Sydney had no record of play for the customer or Customer 71: SMR dated 22 June 2016.

On 23 September 2016, Customer 71 made several large chip purchases and cash deposits over a short period of time at Star Sydney. The two cash deposits were of \$10,000 each, and Customer 71 presented the cash in envelopes containing \$100 and \$50 notes: SMR dated 26 September 2016.

On 31 October 2016, Customer 71 made two large chip purchases of \$200,000 and \$140,000 at Star Sydney. The cash was all in \$100 notes with Star Sydney's straps. After playing, Customer 71 cashed out \$137,020 worth of chips. Customer 71 had recorded a turnover of \$6,956,026.

On 11 November 2016, Customer 71 presented \$150,000 in cash to purchase chips at Star Sydney. The cash mostly comprised \$50 notes bundled together with elastic bands in \$10,000 units, and \$15,000 worth of \$100 notes.

On 14 November 2016, Customer 71 exchanged \$279,500 in cash for chips at Star Sydney. The cash was wrapped in Star Sydney straps and was carried in a black bag. A few hours later, Customer 71 returned with \$200,000 in cash and again purchased chips.

On 17 November 2016, a Star Sydney customer exchanged \$100,000 in chips for cash. Immediately afterwards, the customer withdrew another \$100,000 in cash. The customer told Star Sydney staff that the chips belonged to his friend, Customer 71. The customer had recorded minimal play, whereas Customer 71 had recorded a turnover of \$2,000,000 that day: SMR dated 17 November 2016.

On 23 November 2016, Customer 71 presented \$100,000 in cash at Star Sydney to purchase chips. The cash comprised \$50 notes bound together with rubber bands in \$10,000 units. The cash was carried in a plastic bag. Customer 71 recorded turnover of over \$2,000,000 following this transaction: SMR dated 24 November 2016.

On 30 November 2016, Customer 71 presented \$110,000 in cash at Star Sydney to be deposited into his FMA. The cash comprised \$50 notes bound together with rubber bands in \$10,000 units: SMR dated 30 November 2016.

- vi. by 30 November 2016, Customer 71 was the subject of law enforcement enquiries at Star;

Particulars

By October 2016, Star Sydney was informed by a law enforcement agency that Customer 71 was a person of interest.

In particular, the law enforcement agency alerted Star Sydney that Customer 71 was implicated in money laundering.

Customer 71's risk profile from 30 November 2016

- b. Customer 71 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and March 2017, Star recorded high and escalating individual rated turnover totalling \$384,897,145 for Customer 71;

Particulars

See paragraph 752 above.

In 2016, Customer 71's individual rated turnover escalated significantly to \$349,190,825.

Between 1 January 2017 and 18 January 2017 alone, Customer 71's individual rated turnover was \$35,706,320.

- c. Customer 71, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 1 December 2016 and 3 May 2018, Star Sydney gave the AUSTRAC CEO 58 TTRs in respect of Customer 71 totalling \$4,862,694, which were comprised of:

- a. 32 outgoing TTRs totalling \$2,118,244;
- b. 26 incoming TTRs totalling \$2,744,450;
- c. \$4,132,694 in chip or cash exchanges; and

- d. \$730,000 in account deposits or withdrawals.

Large and suspicious cash transactions in 2016

On 13 December 2016, Customer 71 made several large chip purchases over a 24-hour period at Star Sydney. Customer 71 recorded a turnover of \$2,655,000 with losses of \$500,990 for the day. The cash Customer 71 used comprised \$50 notes bound together with rubber bands in \$5,000 units: SMR dated 14 December 2016.

On 14 December 2016, Customer 71 made several large cash transactions at Star Sydney. The transactions were mostly chip cash outs. Customer 71 also purchased \$200,000 worth of chips, using the same cash from an earlier chip cash out. Customer 71 recorded a turnover of \$9,511,650 with losses of \$345,045: SMR dated 15 December 2016.

Large and suspicious cash transactions in 2017

On 7 January 2017, Customer 71 deposited \$400,000 in cash into his account at Star Sydney. The cash comprised \$100 notes which had been issued by Star: SMR dated 9 January 2017.

On 12 January 2017, a Star Sydney customer exchanged three large amounts of chips for cash in a two-hour period. The previous day, the customer had recorded a turnover of \$112,160 with winnings of \$1,460, and had then exchanged chips totalling \$150,000 for cash.

Star Sydney considered the exchanges to be excessive, and suspected that the customer was completing the transactions on behalf of Customer 71: SMR dated 12 January 2017.

- d. Customer 71 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 71 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Jade, Oasis, Spring Salons and Lakes Salons.

- e. on 18 January 2017, Customer 71 self-excluded from Star Sydney. Customer 71 breached the self-exclusion on multiple occasions before Star Sydney issued a WOL in respect of Customer 71; and

Particulars

Between 18 January 2017 and 3 March 2017, Customer 71 breached the self-exclusion at least 17 times.

However, it was not until 3 March 2017 that Star Sydney issued a WOL in respect of Customer 71.

- f. Star Sydney did not have adequate reason to believe that Customer 71's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 71 at Star Sydney.

Particulars

See paragraph 808 above.

From at least 13 October 2016, Star Sydney understood that Customer 71 was self-employed in retail. In 2016, Customer 71's turnover escalated very significantly to exceed \$340 million. At no stage was Customer 71's stated source of wealth commensurate with the high value financial and gambling services provided to him by Star Sydney.

By 30 November 2016, Star was aware that a law enforcement agency had linked Customer 71 to money laundering. Customer 71 had engaged in a high volume of large and suspicious cash transactions. Despite the high ML/TF risks associated with Customer 71's source of funds, it was not until 3 March 2017 that a WOL was issued in respect of Customer 71.

Star Sydney's determination of the ML/TF risks posed by Customer 71

1988. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 71 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 71.
- a. On and from 30 November 2016, Customer 71 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 71's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 71 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 15 May 2015, Customer 71 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 13 October 2016, Customer 71 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 71's transactions

1989. At no time did Star Sydney apply appropriate transaction monitoring to Customer 71's transactions because:
- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 71, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney provided designated services to Customer 71 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 71's KYC information

1990. Star Sydney did not review, update and verify Customer 71's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 71's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 71's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 71's source of wealth and source of funds were not legitimate: see *Customer 71's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 71's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 71.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 71's high ML/TF risks

1991. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 71 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 71; and
- c. reviewing and updating Customer 71's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 71 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 71*.

ECDD triggers in respect of Customer 71

1992. Star Sydney was required to apply the ECDD Programs to Customer 71 following any ECDD triggers in respect of Customer 71.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

1993. Customer 71 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 14 December 2016 and 12 January 2017, Star Sydney gave the AUSTRAC CEO four SMRs with respect to Customer 71.

1994. The matter pleaded in paragraph 1993 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

1995. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 71 following an ECDD trigger because:

- a. at no time did Star Sydney apply the ECDD Programs to Customer 71;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

By reason of the matters set out above, there were real risks that Customer 71's source of wealth and source of funds were not legitimate: see *Customer 71's risk profile*.

Despite this, Star Sydney did not apply the ECDD Programs to Customer 71 at any time.

It was not until 3 March 2017 that Star Sydney issued a WOL in respect of Customer 71. The WOL was issued in response to

responsible gaming concerns and not due to any consideration of the higher ML/TF risks posed by Customer 71.

- b. Customer 71 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 3 March 2017 that Customer 71 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 71 and the provision of designated services to Customer 71 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between December 2016 and February 2017, Customer 71 was discussed at JRAMM and PAMMs.

The minutes of the PAMMs on 8 December 2016 and 12 January 2017 noted no further information regarding Customer 71 than had been noted in previous meetings, being:

- a. the current interest by law enforcement agencies regarding Customer 71 related to money laundering; and
- b. that it had been determined that Customer 71's risk rating should be raised to high risk.

On 18 January 2017 and 16 February 2017, the minutes of the JRAM meeting noted that Customer 71 was on a month's break for responsible gambling issues.

On 16 February 2017, the minutes of the JRAM noted that Customer 71's risk rating had been raised to high risk, and no further action was required.

It was not until 3 March 2017 that Star Sydney issued a WOL in respect of Customer 71. The WOL was issued in response to responsible gaming concerns and not due to any consideration of the higher ML/TF risks posed by Customer 71.

Contravention of s36 of the Act in respect of Customer 71

1996. By reason of the matters pleaded from paragraphs 1984 to 1995, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 71 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

1997. By reason of the matters pleaded at paragraph 1996, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 3 March 2017 with respect to Customer 71.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 72

1998. Customer 72 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$270 million for Customer 72.

Particulars

Customer 72 was a customer of Star Sydney from at least 31 March 2015.

1999. Star Sydney provided Customer 72 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player and junket funder. In 2017, Star Sydney recorded that junkets funded by Customer 72 had a turnover exceeding \$330 million.

Particulars

On 2 September 2016, Star Sydney opened an FMA and SKA for Customer 72 which remain open (item 11, table 3, s6 of the Act).

Between 31 March 2015 and 21 May 2017, Star Sydney approved CCFs for Customer 72 on five occasions ranging from \$10,000,000 to \$50,000,000 (item 6, table 1, s6 of the Act).

See Customer 72's risk profile below.

2000. Customer 72 was a customer of Star Qld during the relevant period. From July to December 2018, Star Qld recorded turnover exceeding \$430 million for Customer 72.

Particulars

Customer 72 was a customer of Star Qld from at least 17 July 2018.

2001. Star Qld provided Customer 72 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player and junket funder. In 2018, Star Qld recorded that junkets funded by Customer 72 had a turnover exceeding \$620 million.

Particulars

On 17 July 2018, Star Qld opened an FMA for Customer 72 which was closed on 30 September 2020 (item 11, table 3, s6 of the Act).

On 29 July 2018, Star Qld opened an SKA for Customer 72 which was closed on 30 September 2020 (item 11, table 3, s6 of the Act).

On 10 July 2018, Star Sydney approved a CCF for Customer 72 for \$50,000,000 (item 6, table 1, s6 of the Act).

See *Customer 72's risk profile* below.

2002. At all times from 30 November 2016 in respect of Star Sydney and 17 July 2018 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 72.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 72's risk profile

2003. On and from 30 November 2016 in respect of Star Sydney and 17 July 2018 in respect of Star Qld, Customer 72, and the provision of designated services to Customer 72 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 72's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 72 had the following risk history:
- i. Customer 72 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

Particulars

Between 2 September 2016 and 4 September 2016, Customer 72 was a player on a junket at Star Sydney.

Star Sydney recorded high turnover totalling \$150,379,450 with wins of \$1,025,000 for Customer 72's gaming activity on junket programs.

Customer 72 provided \$20,000,000 in funding towards the junket program.

- ii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 72 by remitting large amounts of money out of the casino environment via his accounts; and

Particulars

See paragraph 327 above.

For example, on 7 September 2016, Star Sydney sent a telegraphic transfer of \$2,187,747 from Customer 72's SKA to an overseas bank account.

The above transaction was conducted through the Star Patron account channel.

- iii. between 31 March 2015 and 26 August 2016, Star Sydney provided Customer 72 with significant amounts of credit upon request, up to limits of \$20,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 31 March 2015, Star Sydney approved a single trip CCF limit of \$10,000,000 for Customer 72.

On 4 July 2016, Star Sydney approved a single trip CCF limit of \$15,000,000 for Customer 72.

On 26 August 2016, Star Sydney approved a single trip CCF limit of \$20,000,000 for Customer 72.

Customer 72's risk profile from 30 November 2016

- b. Customer 72 was a junket player and junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. between 20 May 2017 and 23 May 2017, Customer 72 funded a junket at Star Sydney;

Particulars

Customer 72 provided \$29,300,000 in funding towards the junket.

Customer 72 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. Customer 72 was a junket player on the junket junket that he funded between 20 May 2017 and 23 May 2017;
- iii. Star Sydney recorded that the total cumulative turnover of the junket funded by Customer 72 between 20 May 2017 and 23 May 2017 was \$332,951,970 with losses of \$22,703,841;
- iv. Star Sydney recorded high turnover totalling \$278,183,750 with losses of \$24,999,450 for Customer 72's gaming activity on the junket program that he funded;
- v. between 28 April 2017 and 21 May 2017, Star Sydney provided Customer 72 with significant amounts of credit upon request, up to limits of \$50,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 28 April 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a single trip CCF limit of \$30,000,000 for Customer 72.

On 21 May 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a single trip CCF limit of \$50,000,000 for Customer 72.

- vi. the junket funded by Customer 72 had one junket representative; and
- vii. the junket funded by Customer 72 facilitated the provision of high value designated services to junket operators, junket representatives and junket players

including players in respect of whom Star Sydney had formed suspicions such as Customer 72 himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- c. Customer 72 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Qld;
 - i. between 26 July 2018 and 7 September 2018, Customer 72 funded a junket at Star Qld;

Particulars

In 2018, Customer 72 was one of the top ten junket funders by amount of funding at Star Gold Coast.

Customer 72 provided \$50,100,000 in funding towards the junket.

Customer 72 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Qld.

- ii. Customer 72 was a junket player on the junket that he funded between 26 July 2018 and 7 September 2018;

Particulars

In 2018, CHOY was one of the top ten junket players by turnover at Star Qld.

- iii. Star Qld recorded that the total cumulative turnover of the junket funded by Customer 72 between 26 July 2018 and 7 September 2018 was \$621,798,473 with losses of \$48,516,055;
- iv. between 26 July 2018 and 7 September 2018, Star Qld recorded high turnover totalling \$437,098,250 with losses of \$47,300,000 for CHOY's gaming activity on the junket program that he funded;
- v. on 10 July 2018, Star Qld provided Customer 72 with a significant amount of credit upon request, up to a limit of \$50,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 10 July 2018, Star Qld approved a single trip CCF limit of \$50,000,000 for Customer 72.

- vi. the junket funded by Customer 72 had one junket representative; and
- vii. the junket funded by Customer 72 facilitated the provision of high value designated services to junket operators, a junket representative and junket players including players in respect of whom Star Qld had formed suspicions such as Customer 72 himself;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

On 26 July 2018, Customer 72 recorded a loss of \$47,300,000. Star Qld had not yet calculated how much commission was to be paid or the final debt to it. Customer 72 advised Star Qld that he was a stock trader. Star Qld noted that at one stage, Customer 72 had \$105,000 in cash which he had deposited into his SKA. The report was lodged due to the large losses sustained by Customer 72: SMR dated 2 August 2018.

- d. designated services provided to Customer 72 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. in July 2017, Star made a cash disbursement of \$2,295,609 to repay Customer 72's outstanding CCF;

Particulars

In a report to Star's Credit Committee, the reasons for paying off Customer 72's outstanding CCF included that:

- a. Customer 72 was one of Star's top VIP customers from a foreign country and was influential with other significant players in that region;
 - b. comparable disbursements had been offered to a person associated with Customer 72, being Customer 29;
 - c. Customer 72's actual loss of \$20,000,000 had been repaid; and
 - d. future trips were expected once the debt was cleared.
- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 72 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

For example, on 7 June 2017, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$20,000,000 where Customer 72 was named as the ordering customer and the beneficiary. The funds were transferred for the purpose of redeeming an outstanding CCF.

The above transaction was conducted through the Star Patron account channel.

- g. Customer 72 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 72 had access to private gaming rooms at Star Sydney, including Lakes Salons, Springs Salons, the Sovereign Room and Rivers Salons.

- h. Customer 72 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 72 had access to private gaming rooms at Star Sydney, including Sovereign Room, Salon 99, Salon 98, Salon 96, Salon 95, Salon 88 and Pit 8.

- i. from April 2019, media reports identified that Star had brought an action against Customer 72 for non-payment of a \$43 million debt; and

Particulars

In April 2019, media reports identified that:

- a. Customer 72 had incurred a debt of \$43,209,853 at Star Gold Coast during a five-day gambling session in July 2018;
 - b. Customer 72 had been flown to Star Gold Coast on a private jet;
 - c. Customer 72 had been gifted at least \$100,000 to gamble;
 - d. Customer 72 had provided Star Sydney with a blank cheque in 2017;
 - e. Customer 72 had been given \$40 million in chips initially and then a further \$10 million in chips several days later;
 - f. Customer 72 refused to pay the debt because of mistakes he said were made by Star gaming staff;
 - g. Star attempted to enforce the debt in a foreign jurisdiction but was unsuccessful; and
 - h. Star was attempting to enforce the debt in Australia.
- j. Star Sydney and Star Qld did not have adequate reason to believe that Customer 72's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 72 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

In 2017, Customer 72 recorded turnover exceeding \$270 million at Star Sydney.

In 2018, Customer 72 recorded turnover exceeding \$430 million at Star Qld.

In 2018, Star understood that Customer 72 was a stock trader. Star systems identified that Customer 72 'possibly' owned an online gambling company in a foreign country.

In April 2019 that Star understood that Customer 72 was a director of a property investment business.

Despite the extremely high value financial and gambling services provided to Customer 72, Star did not take steps to verify his source of funds used for gaming activities, notwithstanding that Star had repaid Customer 72's outstanding CCF of over \$2.2 million in July 2017. While Star had some understanding of Customer 72's stated source of wealth, Star did not take appropriate steps to review, update or verify its understanding of Customer 72's source of wealth.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 72

2004. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 72 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 72.

- a. On and from 30 November 2016, Customer 72 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 72's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from July 2018, Customer 72 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 72's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 72 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 31 March 2015, Customer 72 was rated low risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 72's transactions

2005. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 72's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 72, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket funders and junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 72 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- d. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 72 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 72's KYC information

- 2006. Star Sydney and Star Qld did not review, update and verify Customer 72's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 72's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 72's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 72's source of wealth or source of funds: see *Customer 72's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 72's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 72.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 72's high ML/TF risks

2007. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 72 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 72; and
 - c. reviewing and updating Customer 72's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 72 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 72*.

2008. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 72 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 72; and
 - c. reviewing and updating Customer 72's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 72 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a), rules 15.2 and 15.5 of the Rules.

2009. Had Star Sydney rated Customer 72 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 72.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 72

2010. Star Qld was required to apply the ECDD Programs to Customer 72 following any ECDD triggers in respect of Customer 72.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2011. Customer 72 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 2 August 2018, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 72.

2012. The matter pleaded in paragraph 2011 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2013. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 72 following an ECDD trigger because:

- a. on each occasion that Star Qld conducted ECDD in respect of Customer 72 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 72 and the provision of designated services to Customer 72 by Star Qld, and to whether the those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, and 807 to 809 above.

On 16 April 2019, Star Qld conducted ECDD in respect of Customer 72.

The ECDD screening in respect of Customer 72 identified that:

- a. Customer 72's KYC information was up to date;
- b. adverse media was available in respect of Customer 72 which related to Star's attempt to enforce a debt against him;
- c. Customer 72's source of wealth was confirmed to be as a director of a property investment business;
- d. there were reputational risks in respect of Customer 72, but that this was not an ML/TF risk; and
- e. there were no ML/TF risks associated with Customer 72 and so he did not need to be escalated.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 72's higher ML/TF risks: see *Customer 72's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 72's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 72's source of wealth or source of funds: see *Customer 72's risk profile*.

Rules 15.10(2) and (5) of the Rules.

- b. Customer 72 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 72 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 72 and the provision of designated services to Customer 72 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

While Star senior management considered Customer 72 in the context of his credit worthiness and the non-payment of his outstanding debt to Star, Star senior management did not consider the ML/TF risks posed by Customer 72.

Contravention of s36 of the Act in respect of Customer 72

- 2014. By reason of the matters pleaded from paragraphs 1998 to 2013 above, on and from 30 November 2016, Star Sydney:
 - a. did not monitor Customer 72 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

- 2015. By reason of the matters pleaded at paragraph 2014, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 72.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2016. By reason of the matters pleaded from paragraphs 1998 to 2013 above, on and from 17 July 2018, Star Qld:

- a. did not monitor Customer 72 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2017. By reason of the matters pleaded at paragraph 2016, Star Qld contravened s36(1) of the Act on and from 17 July 2018 with respect to Customer 72.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 73

2018. Customer 73 was a customer of Star Qld during the relevant period. Between 2017 and 2021, Star Qld recorded turnover exceeding \$550 million for Customer 73.

Particulars

Customer 73 was a customer of Star Qld from at least 25 September 2013.

On 23 August 2022, Star Qld issued a WOL in respect of Customer 73.

2019. Star Qld provided Customer 73 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period, including services as a junket player.

Particulars

On 12 February 2018, Star Qld opened an FMA for Customer 73 which remains open (item 11, table 3, s6 of the Act).

On 13 February 2018, Star Qld opened an SKA for Customer 73 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 73 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 73's risk profile below.

2020. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 73.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 73's risk profile

2021. On and from 30 November 2016, Customer 73, and the provision of designated services to Customer 73 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 73's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 73 had the following risk history:
- i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 73;

Particulars

Star Qld gave the AUSTRAC CEO an SMR relating to Customer 73 on 14 August 2015.

The SMR reported that a customer handed Customer 73 \$50,000 in cash to purchase chips. When asked by Star Qld about the origin of the cash, Customer 73 claimed that the cash was his.

- ii. Customer 73 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded individual rated turnover totalling \$4,044,515 for Customer 73; and

Particulars

See paragraph 752 above.

- iii. Customer 73 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 26 September 2013 and 2 November 2015, Star Qld gave the AUSTRAC CEO six TTRs detailing chip exchanges in respect of Customer 73 totalling \$160,000, which were comprised of:

- a. two outgoing TTRs totalling \$40,000; and
- b. four incoming TTRs totalling \$120,000.

Customer 73's risk profile from 30 November 2016

- b. Customer 73 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
- i. between 2019 and 2020, Customer 73 was a player on five junkets at Star Qld operated by three junket operators;
 - ii. one of the junkets was funded by a person other than the junket operator, including Customer 23;
 - iii. between 2019 and 2020, Star Qld recorded high and escalating turnover totalling \$328,450,421 with losses of \$5,854,755 for Customer 73's gaming activity on junket programs; and

Particulars

In 2019, Customer 73's turnover on junket programs was \$98,621,029 with losses of \$1,884,855.

In 2020, Customer 73's turnover on junket programs escalated to \$229,829,392 with losses of \$3,969,900.

- iv. by September 2018, Star Qld was aware that Customer 73 had a Queensland driver's licence and so was not eligible to play on international programs. Despite this, Customer 73 continued to play on international junket programs in 2019 and 2020 and recorded a turnover exceeding \$320 million on those programs;
- c. designated services provided to Customer 73 lacked transparency as the services were provided through the junket channel at Star Qld;

Particulars

See paragraph 650 above.

- d. Customer 73 was connected to other customers at Star Qld, including junket funders, junket operators, junket players, players who posed higher ML/TF risks and players who Star Qld considered had acted suspiciously such as Customer 54 and Customer 23;

Particulars

See particulars to paragraphs 2021.b, 2021.e, 2021.g and 2021.h.

- e. between 14 February 2018 and 20 January 2020, Customer 73 was referred to Star Qld by Customer 23 and another customer on three occasions;

Particulars

See paragraph 625 above.

Between 14 February 2018 and 20 January 2020, Customer 73 was referred to Star Qld by Customer 23 and another customer on three occasions. On one occasion, Customer 73 attended Star Qld on a rebate program without the player referrer or his junket representative being present.

Customer 23 and the other customer received a commission on amounts wagered by Customer 73, who Star Qld dealt with directly.

- f. Customer 73 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2021, Star Qld recorded high and escalating turnover totalling \$229,879,237 for Customer 73;
 - i. between 2017 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$144,150,132 for Customer 73; and

Particulars

See paragraph 752 above.

In 2017, Customer 73's individual rated turnover was \$23,332,178.

In 2018, Customer 73's individual rated turnover significantly escalated to \$103,713,285.

In 2019, Customer 73's individual rated turnover was \$8,899,930.

In 2020, when closures due to COVID-19 commenced, Customer 73's turnover remained high.

In 2020, Customer 73's individual rated turnover was \$8,198,559.

In 2021, Customer 73's individual rated turnover was \$6,180.

- ii. between 2018 and 2020, Star Qld recorded high turnover on individual rebate programs totalling \$85,729,105 for Customer 73, with losses of \$4,055,365;

Particulars

See paragraph 623 above.

In 2018, Customer 73's turnover on individual rebate programs was \$6,926,693 with losses of \$377,770.

In 2019, Customer 73's turnover on individual rebate programs significantly escalated to \$67,245,438 with losses of \$3,203,595.

In 2020, when closures due to COVID-19 commenced, Customer 73's turnover dropped but remained high.

In 2020, Customer 73's turnover on individual rebate programs was \$11,556,974 with losses of \$474,000

- g. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 73 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraph 347 to 349 above.

Between 23 September 2018 and 22 January 2020, Customer 73 received transfers into his Star Qld account totalling \$3,410,000, including:

- a. on 23 September 2018, Customer 73 received \$130,000 into his Star Qld account from another customer's FMA: SMR dated 24 September 2018;
- b. between 26 January 2019 and 25 February 2019, Customer 73 received a total of \$3,040,000 from Customer 23's account: SMRs dated 21 February 2019, 26 February 2019; and
- c. on 20 January 2020 and 22 January 2020, Customer 73 received \$850,000 into his account from another customer's account: SMR dated 23 January 2020.

- h. Star Qld was aware that:

- i. Customer 73 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
- ii. Customer 73 transacted using large amounts of cash and cash that appeared suspicious, including cash in envelopes and bundled with rubber bands;

Particulars

See paragraphs 611 to 618 above.

Between 27 January 2017 and 8 August 2022, Star Qld gave the AUSTRAC CEO 53 TTRs in respect of Customer 73 totalling \$3,720,742, which were comprised of:

- a. 38 outgoing TTRs totalling \$3,035,742;
- b. 15 incoming TTRs totalling \$685,000;
- c. \$1,802,000 in chip or cash exchanges;
- d. \$1,436,350 in account deposits or withdrawals; and
- e. \$482,392 in EGM payouts.

Large and suspicious transactions in 2017

On 25 January 2017, Customer 54 signed in Customer 73 and two other Star Qld customers at Star Qld. Customer 54 presented a \$200,000 bank cheque for deposit into his FMA and immediately withdrew the funds in chips. Customer 54 handed Customer 73 \$100,000 in chips. Customer 73 commenced play with \$145,000 in chips. Star Qld was unaware of the source of the additional \$45,000 in chips. Customer 73 recorded winnings of \$49,200 and cashed out \$30,000. Customer 54 later presented \$600,000 in chips for deposit into his account and repurchased the bank cheque: SMR dated 31 January 2017.

On 31 January 2017, Customer 73 exchanged \$100,000 in cash for chips at Star Qld. Several hours later, Customer 73 exchanged \$300,000 in chips for cash. Later in the day, Customer 73 exchanged a further \$100,000 in cash for chips. Star Qld considered that Customer 73's record of play supported the transactions: SMR dated 13 February 2017.

On 1 February 2017, a Star Qld customer exchanged \$40,000 in cash for chips and handed the cashier Customer 73's membership card. Shortly afterwards, Customer 73 stated that the \$40,000 in cash was the customer's and that he was allowing the customer to use his membership card: SMR dated 3 February 2017.

Large and suspicious transactions in 2018

On 12 February 2018, Customer 73 presented a bank cheque for \$180,000 and used the funds to gamble at Star Qld. Customer 73 recorded winnings of \$669,000. Customer 73 cashed out \$590,000 in four separate transactions and took \$570,000: SMR dated 15 February 2018.

On 20 February 2018, Customer 73 deposited \$310,000 in chips into his Star Qld account. Customer 73 was accompanied by two other patrons, including Customer 54. Customer 73 requested to withdraw \$110,000 in cash. Customer 73 then placed \$105,000 into the large yellow envelope held by the second customer. The second customer

left the casino area immediately after receiving the cash. Customer 73 continued to play: SMR dated 20 February 2018.

On 24 September 2018, a Star Qld customer deposited \$50,000 in cash into his account. The cash was all in \$100 notes separated by rubber bands. Customer 73 then joined the customer, took the chips and proceeded to play: SMR dated 25 September 2018.

On 25 September 2018, a Star Qld customer deposited a \$75,000 bank cheque into his FMA. The customer immediately withdrew the \$75,000 and deposited the funds into Customer 73's FMA. Customer 73 withdrew the \$75,000 to play: SMR dated 27 September 2018

On 3 October 2018, a Star Qld customer, in the presence of Customer 23, withdrew \$150,000 in chips from his FMA and handed the chips to Customer 73. Later that day, Customer 23 withdrew \$120,000 in chips from his FMA and handed the chips to the customer who then handed the chips to Customer 73. On 4 October 2018, Customer 73 handed an unknown amount of chips to Customer 23: SMR dated 12 October 2018.

Large and suspicious transactions in 2019

On 1 February 2019, Customer 73 presented two bank cheques totalling \$500,000. On 9 February 2019, Customer 73 presented a bank cheque in the amount of \$200,000: SMR dated 21 February 2019.

Large and suspicious transactions in 2020

On 9 February 2020, Customer 73 presented an EGM voucher for \$100,568 to exchange for cash. After Customer 73 received the cash he handed it to another customer: SMR dated 14 February 2020.

On 19 February 2020, a customer presented \$199,409 in EGM vouchers. Another customer accompanied the customer to translate a request to exchange the ticket for \$190,000 in \$5,000 chips and the remaining \$9,409 in cash. The customer picked up the chips and handed them to a third customer who put the chips in a bag. Customer 73 used \$50,000 in chips from the third customer's bag to play: SMR dated 19 February 2020.

Large and suspicious transactions in 2022

On 28 July 2022, a customer presented an EGM voucher for \$40,023 to exchange for cash. The customer then walked up to a second customer and placed the \$40,000 into a bag worn by the second customer. Around 10 minutes later, the second customer handed the bag to Customer 73. Another 10 minutes later, Customer 73 approached the cashier accompanied by the first and second customers with \$40,000 to purchase chips. Star Qld reviewed the EGM that generated the voucher presented by the first customer and determined that Customer 73 had been playing on the EGM machine, but that at the time of the win, Customer 73's card was removed from the EGM and the first customer's card was inserted.

Star Qld noted that it appeared that Customer 73 and the other customers were trying to disguise the owner of the funds being transacted, and to create the appearance of winnings for the first customer: SMR dated 29 July 2022.

- i. by July 2022, Star Qld acknowledged that Customer 73 was involved in money lending incidents with other customers;

Particulars

See particulars to paragraph 2021.h.

On 29 July 2022, Star Qld reported to AUSTRAC an incident of suspected money lending between patrons in the Sovereign Room, including Customer 73 and two other customers. The incident involved another customer redeeming an EGM ticket for \$40,023 which was in Customer 73's name. Customer 73 then purchased \$40,000 in chips.

Star Qld noted that the three customers had a history of exchanging funds between them.

On 23 August 2022, Star Qld issued a WOL in respect of Customer 73.

- j. designated services provided to Customer 73 included substantial EGM activity at Star Qld;

Particulars

See paragraph 570 and 579 above.

See paragraph 2021.h.

- k. between 2017 and 2018, Customer 73 was the subject of law enforcement enquiries at Star;

Particulars

In January 2017, Star Qld sent correspondence to a law enforcement agency relating to Customer 73.

In March 2018, a law enforcement agency requested details concerning a number of customers including Customer 73. The law enforcement agency alerted Star Qld to the fact that Customer 73 was a person of interest to them.

- l. Customer 73 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 73 had access to private gaming rooms at Star Qld, including the Sovereign Room, the Club Conrad, Pit 8, Salon 90, Salon 95 and Salon 98.

- m. Star Qld did not have adequate reason to believe that Customer 73's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 73 at Star Qld.

Particulars

See paragraph 808 above.

Star Qld was not aware of Customer 73's occupation. Despite this, between 2017 and 2021, Customer 73's cumulative turnover at Star Qld exceeded \$550 million.

Despite being a local player, Star Qld was aware that Customer 73 was a junket player on international junket programs and recorded high and escalating turnover through junket channels. In 2018, Customer 73's individual turnover at Star Qld escalated to over \$115 million. At no time was Star aware of any source of wealth or source of funds which would explain the high value designated services provided to Customer 73.

Star Qld's determination of the ML/TF risks posed by Customer 73

2022. For the reasons pleaded at paragraph 110, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 73 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 73.
- a. On and from 2018, Customer 73 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 73's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 73 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 31 January 2017, Customer 73 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 3 February 2017, Customer 73 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 73's transactions

2023. At no time did Star Qld apply appropriate transaction monitoring to Customer 73's transactions because:
- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 73, Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 73 through the junket channel;

Particulars

See paragraph 783 above.

- d. Star Qld provided designated services to Customer 73 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- e. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 73.

Particulars

Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 73 on 12 February 2018, 20 February 2018, 24 September 2018, 3 October 2018, 24 February 2019, 20 January 2020, 21 January 2020, 9 February 2020 or 19 February 2020: See *Customer 73's risk profile*.

The review, update and verification of Customer 73's KYC information

- 2024. Star Qld did not review, update and verify Customer 73's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 73's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 73's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 73's source of wealth or source of funds: see *Customer 73's risk profile*.

- d. to the extent that Star Qld reviewed Customer 73's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 73.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 73's high ML/TF risks

- 2025. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 73 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 73; and
 - c. reviewing and updating Customer 73's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 73 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 73*.

ECDD triggers in respect of Customer 73

- 2026. Star Qld was required to apply the ECDD Programs to Customer 73 following any ECDD triggers in respect of Customer 73.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

- 2027. Customer 73 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 25 January 2017 and 28 July 2022, Star Qld gave the AUSTRAC CEO 22 SMRs with respect to Customer 73.

2028. The matter pleaded in paragraph 2027 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2029. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 73 following an ECDD trigger because:

- a. on each occasion prior to August 2022 that Star Qld conducted ECDD in respect of Customer 73 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 73 and the provision of designated services to Customer 73 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 29 November 2019, Star Qld conducted ECDD in respect of Customer 73.

The ECDD screening in respect of Customer 73 identified that:

- a. Customer 73 lost \$1,623,680 in September 2019 and \$133,675 in October 2019 in table play;
- b. Customer 73 had minor play on gaming machines in September 2019 and October 2019 and had a minor loss of around \$3,000; and
- c. Customer 73 was playing under an international junket operated by a customer that was funded by Customer 23.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 73's higher ML/TF risks: see *Customer 73's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 73's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 73's source of wealth or source of funds: see *Customer 73's risk profile*.

It was not until 23 August 2022 that Star Qld issued a WOL in respect of Customer 73.

- b. Customer 73 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to August 2022 that Customer 73 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 73 and the provision of designated services to Customer 73 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 8 November 2018, Customer 73 was discussed at a PAMM. The minutes of the meetings noted that another customer presented three bank cheques and chips were given to Customer 73.

As a result, the Premium Guest Vice President requested that the AML Administrator speak to the International Marketing Host as the host knew Customer 73 and the other customer. The AML Administrator was asked to report to the Premium Guest Vice President before taking any request further.

It was not until 23 August 2022 that Star Qld issued a WOL in respect of Customer 73.

Contravention of s36 of the Act in respect of Customer 73

2030. By reason of the matters pleaded from paragraphs 2018 to 2029 above, on and from 30 November 2016, Star Qld:
 - a. did not monitor Customer 73 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2031. By reason of the matters pleaded at paragraph 2030, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 23 August 2022 with respect to Customer 73.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 74

2032. Customer 74 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$850,000 for Customer 74.

Particulars

Customer 74 was a customer of Star Sydney from at least 2006.

2033. Star Sydney provided Customer 74 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 4 July 2017, Star Sydney opened an FMA and SKA for Customer 74 which remain open (item 11, table 3, s6 of the Act).

On 9 January 2019, Star Sydney opened a CWA for Customer 74 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 74 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 74's risk profile below.

2034. Customer 74 was a customer of Star Qld during the relevant period. Between 2016 and 2022, Star Qld recorded turnover exceeding \$29 million for Customer 74.

Particulars

Customer 74 was a customer of Star Qld from at least 1995.

2035. Star Qld provided Customer 74 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 23 June 1995, Star Qld opened an FMA for Customer 74 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 74 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 74's risk profile below.

2036. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 74.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 74's risk profile

2037. On and from 30 November 2016, Customer 74, and the provision of designated services to Customer 74 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 74's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 74 had the following risk history:
 - i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 74;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 14 occasions between 3 December 2013 and 14 June 2016.

The SMRs reported that Customer 74 engaged in 14 large and suspicious transactions exceeding \$259,955: see paragraph 2037.a.vi below.

- ii. Customer 74 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$181,970 for Customer 74;

Particulars

See paragraph 752 above.

- iii. Customer 74 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high individual rated turnover totalling \$1,642,839 for Customer 74;

Particulars

See paragraph 752 above.

- iv. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 74 by remitting large amounts of money into and out of the casino environment via his accounts:

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

Between 27 June 2009 and 17 July 2014, Star Qld gave the AUSTRAC CEO eight incoming IFTIs totalling \$899,990 where Customer 74 was named as the beneficiary, and the ordering customer was a third party overseas, Person 52. The funds were deposited to Customer 74's Star Qld account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 4 July 2016, Star Qld facilitated a telegraphic transfer of \$150,000 from Customer 74's FMA at Treasury Brisbane to an overseas bank account.

Between 4 October 2016 and 7 October 2016, Star Qld facilitated five telegraphic transfers totalling \$135,000 from Customer 74's FMA at Treasury Brisbane to bank accounts located in Australia and overseas.

Each of the above transactions was conducted through the Star Patron account channel.

- v. designated services provided to Customer 74 included substantial EGM activity at Star Qld;

Particulars

See paragraph 570 and 579 above.

See paragraph 2037.a.vi below.

- vi. Star Qld was aware that Customer 74 had engaged in large and suspicious transactions, including cash transactions and transactions involving EGM vouchers; and

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 24 June 2009 and 28 October 2016, Star Qld gave the AUSTRAC CEO 42 TTRs in respect of Customer 74 totalling \$499,968, which were comprised of:

- a. 39 outgoing TTRs totalling \$466,968;
- b. three incoming TTRs totalling \$33,000;
- c. \$258,810 in chip or cash exchanges;
- d. \$30,000 in account deposits or withdrawals; and
- e. \$211,158 in EGM payouts.

Large and suspicious cash transactions

Between 19 November 2013 and 12 June 2016, Customer 74 engaged in 14 large and suspicious transactions exceeding \$259,955, namely:

- a. 12 transactions where Customer 74 deposited EGM vouchers with a cumulative value exceeding \$64,855 into his FMA, where he was not the customer recorded as using the EGM at the time of collection. Most of these transactions involved Star Qld customers who shared a residential address with Customer 74:
SMRs dated 3 December 2013, 9 December 2013, 18 December 2013, 23 December 2013, 4 February 2014, 9 February 2014, 28 July 2014, 25 July 2015, 29 July 2015, 29 October 2015, 3 June 2016 and 14 June 2016;
- b. on 28 January 2015, a third party, Person 52, sent a telegraphic transfer of \$100,000 to Customer 74, which was deposited into Customer 74's FMA. Person 52 had previously sent telegraphic transfers to Customer 74. Star Qld was unaware of any relationship between Customer 74 and Person 52. However, the telegraphic transfer receipt listed the same residential address for Person 52 as was recorded for Customer 74. Customer 74

did not appear to use all of the transferred funds for gambling purposes. The transaction was deemed suspicious as the source of the third-party deposit was unknown and not all of the funds appeared to be for gambling purposes: SMR dated 30 January 2015; and

c. between 11 July 2015 and 12 July 2015, Customer 74 exchanged two EGM vouchers for cash in amounts of \$9,000 and \$9,100. Star Qld noted that Customer 74 had a habit of using membership cards of other family members to record play at Star Qld: SMR dated 11 August 2015.

vii. by March 2015, Star had not recorded any source of wealth for Customer 74;

Particulars

Between February 2015 and March 2015, Customer 74 was discussed at PAMMs.

The minutes of the meetings noted that:

- a. Customer 74's occupation was unknown;
- b. Customer 74 had a monthly loss of \$19,000; and
- c. Customer 74 received telegraphic transfers from third parties.

Customer 74's risk profile from 30 November 2016

- b. Customer 74 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2019, Star Sydney recorded high and escalating turnover totalling \$850,259 for Customer 74;
 - i. in 2017, Star Sydney recorded high individual rated turnover totalling \$175,112 for Customer 74; and

Particulars

See paragraph 752 above.

- ii. between 2017 and 2019, Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$675,147 for Customer 74;

Particulars

See paragraph 623 above.

In 2017, Customer 74's turnover on individual rebate programs was \$338,465.

In 2018, Customer 74's turnover on individual rebate programs was \$96,336.

In 2019, Customer 74's turnover on individual rebate programs escalated to \$240,346.

- c. Customer 74 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2022, Star

Qld recorded high and escalating individual rated turnover totalling \$29,218,587 for Customer 74;

Particulars

See paragraph 752 above.

In 2016, Customer 74's individual rated turnover escalated to \$6,474,991.

In 2017, Customer 74's individual rated turnover was \$4,375,255.

In 2018, Customer 74's individual rated turnover was \$5,772,948.

In 2019, Customer 74's individual rated turnover was \$5,902,897.

In 2020, when closures due to COVID-19 commenced, Customer 74's turnover dropped but remained high.

In 2020, Customer 74's individual rated turnover was \$2,939,502.

In 2021, Customer 74's individual rated turnover was \$3,523,423.

In 2022, Customer 74's individual rated turnover was \$229,570.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 74 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraph 347 to 349 above.

On around 27 December 2017 and 4 January 2019 respectively, Star Sydney received two transfers totalling \$175,000 from Star Qld, both of which were made available to Customer 74's FMA.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 74 by remitting large amounts of money into, out of and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 28 October 2020 and 20 May 2022, Star Qld gave the AUSTRAC CEO 11 incoming IFTIs totalling \$525,000 where Customer 74 was named as the beneficiary and the ordering customer.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 23 May 2022 and 26 May 2022, Star Qld gave the AUSTRAC CEO two outgoing IFTIs totalling \$59,986 where Customer 74 was

named as the beneficiary and the ordering customer. The reason for these transfers was that Customer 74 had informed Star Qld that he resided overseas, and no play was noted at the casino. Star Qld noted that Customer 74 had funds in his FMA that he could use to gamble if he chose. Further, the receipt provided for the transfer was marked 'living expenses'.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

Between 28 June 2017 and 4 May 2019, Star Qld facilitated five transfers totalling \$210,000 from Treasury Brisbane to Star Gold Coast, each of which was made available to Customer 74's FMA at Star Gold Coast.

Between 24 December 2017 and 4 February 2019, Star Qld facilitated three transfers totalling \$265,000 from Star Gold Coast to Treasury Brisbane, each of which was made available to Customer 74's FMA at Treasury Brisbane.

On around 27 December 2017 and 4 January 2019 respectively, Star Qld facilitated two transfers totalling \$175,000 from Customer 74's FMA at Treasury Brisbane to Star Sydney.

Between 7 January 2018 and 16 January 2019, Star Qld received three transfers totalling \$49,824 from Star Sydney, each of which was made available to Customer 74's FMA at Treasury Brisbane.

Remittances involving third parties

See paragraphs 278 and 324 above.

2017

In the days leading up to 29 November 2017, Customer 74 received four telegraphic transfers from third parties into his FMA, namely:

- a. between 22 November 2017 and 27 November 2017, \$56,604 from three transaction deposited into Customer 74's FMA from a third party. While Star Qld had in its databases a customer by the same name, it was not aware if they were the same person; and
- b. on 24 November 2017, \$94,982 deposited into Customer 74's FMA from a different third party.

Star Qld noted that Customer 74 had previously recorded numerous overseas transfers into his account. Prior to the telegraphic transfers, Customer 74 had approximately \$130,000 in his FMA. Star Qld noted that the transactions seemed unusual given Customer 74 had enough funds to gamble and because the funds came from third parties: SMR dated 29 November 2017.

2018

On 12 June 2018, Customer 74 received a telegraphic transfer of \$130,000 from Person 52. Star Qld was unaware of any connection between the customers. However, Customer 74 and Person 52 shared an address. Star Qld noted that Customer 74 had sufficient funds in his account prior to the telegraphic transfer: SMR dated 14 June 2018.

Between 25 June 2018 and 19 November 2018, Star Qld received three telegraphic transfers totalling \$89,955 from a third party.

On 4 September 2018, Customer 74 received a telegraphic transfer of \$200,000 from Person 52. Person 52 appeared to be Customer 74's daughter. Customer 74 withdrew the funds in cash from his FMA in units of \$5,000 and sometimes made multiple withdrawals a day.

Star Qld noted that the majority of the funds did not appear to be used for gambling. On 5 September 2018, Customer 74 deposited a \$9,000 EGM voucher into his CWA. However, another Star Qld customer's card was in the EGM when the collect button was hit. Star Qld noted that surveillance confirmed that Customer 74 was playing the EGM at the time: SMR dated 5 September 2018.

2019

Between 25 April 2019 and 18 December 2019, Star Qld received two telegraphic transfers totalling \$185,000 from third parties, including Person 52 and a third party company.

2020

See paragraph 2037.j below.

On 28 September 2020, Star Qld received two third party transfers for Customer 74's benefit which comprised \$10,000 from a third party and \$5,000 which had been deposited at a Smart ATM. Both transfers originated in Victoria. The funds were not released to Customer 74 as he had been in Queensland at the time.

Each of the above transactions was conducted through the Star Patron account channel.

- f. designated services provided to Customer 74 included substantial EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

See paragraph 2037.h below.

- g. designated services provided to Customer 74 included substantial EGM activity at Star Qld;

Particulars

See paragraph 570 and 579 above.

See paragraph 2037.i below.

On five occasions between September 2018 and October 2019, Customer 74 presented EGM vouchers totalling \$83,070 in circumstances where the card of one of three other Star Qld customers was in the EGM at the time of collection:

- a. on 12 September 2018, Customer 74 deposited EGM voucher for \$11,280 into his FMA. Another customer's card was in the EGM at the time of collection. Both customers shared a surname and a residential address: SMR dated 13 September 2018;
- b. on 7 February 2019, 8 February 2019 and 12 October 2019, Customer 74 deposited EGM vouchers for \$15,100, \$27,000 and \$16,000 respectively into his FMA. Customer 74's wife's card was in the EGM at the time of collection. Both customers had the same residential address and phone number: SMRs dated 7 February 2019, 9 February 2019, 13 October 2019; and
- c. on 16 June 2019, Customer 74 deposited an EGM voucher for \$13,690 into his FMA. Another customer's card was in the EGM at the time of collection. Both customers shared a residential address: SMR dated 18 June 2019.

On each of the above occasions, Star Qld considered the transaction to be suspicious because Customer 74 was presenting an EGM voucher when records suggested he was not the customer using the EGM at the time of collection. Star Qld considered that Customer 74 may have been attempting to avoid reporting thresholds by using cards not connected to his customer profile.

- h. Customer 74 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 5 July 2017 and 5 January 2018, Star Sydney gave the AUSTRAC CEO 17 TTRs in respect of Customer 74 totalling \$220,460, which were comprised of:

- a. 16 outgoing TTRs totalling \$170,460;
- b. one incoming TTR of \$50,000;
- c. \$180,000 in account deposits or withdrawals; and
- d. \$40,460 in EGM payouts.

- i. Customer 74 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 19 December 2016 and 18 October 2022, Star Qld gave the AUSTRAC CEO 216 TTRs in respect of Customer 74 totalling \$2,226,998, which were comprised of:

- a. 214 outgoing TTRs totalling \$2,196,953;

- b. two incoming TTRs totalling \$30,045;
 - c. \$1,370,045 in account deposits or withdrawals; and
 - d. \$856,953 in EGM payouts.
- j. Star Qld was aware that Customer 74 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose and involved substantial EGM activity and money remitted to Star Qld by third parties;

Particulars

Star Qld was aware that Customer 74 would regularly use membership cards of his family members to gamble at Star Qld. In September 2019, Customer 74 advised Star Qld that he used those cards to ensure that his family maintained a high tier level at Star Qld and had access to the corresponding complimentary services.

Between 1 September 2020 and 4 September 2020, Star Qld informed Customer 74 that he must cease using membership cards of his family members to gamble. Star Qld noted that in the 18 months leading up to September 2020, Customer 74 had consistently received telegraphic transfers of \$30,000. Further, in some months, he had received up to three telegraphic transfers of between \$20,000 and \$110,000. The funds originated overseas. Customer 74 seemed to take all of the funds in withdrawals of \$5,000 cash at a time. Star Qld noted that EGMs required cash to be inserted.

On 7 September 2020, Customer 74 asked Star Qld staff:

- a. whether his wife, as his power of attorney, would be able to access his Star Qld funds in the event that he was incapacitated; and
- b. for documentation to authorise his wife to be able to access his funds in such an event.

After seeking advice, Star Qld declined Customer 74's requests. Star Qld noted that it seemed that Customer 74 was trying to keep his funds out of his wife's name: SMR dated 9 September 2020.

In October 2020, Star Qld noted that, since its discussion with Customer 74 in September 2019, Customer 74 had continued to use membership cards of his family members but would only issue tickets under \$9,000: SMR dated 2 October 2020

On 21 November 2021, Customer 74 withdrew \$5,000 in cash from his FMA. Customer 74 told a Star Qld staff member that he had not visited Star Qld for some time because he believed that the staff there did not like him. He informed Star Qld staff that he was eager to leave Australia and no longer be a resident for tax purposes. Star Qld considered these comments to be unusual: SMR dated 26 November 2021.

- k. Star Qld was aware that Customer 74 received third party deposits, including deposits made overseas, from unknown sources;

Particulars

On 28 September 2020, Star Qld received \$10,000 from one third party and \$5,000 which had been deposited at a Smart ATM.

Customer 74 received another six third party deposits totalling \$38,000 which originated at ATMs around Sydney and were each below the reporting threshold. Star Qld requested that Customer 74 stop having funds sent to Star Qld this way. Star Qld believed that the funds had been sent by Customer 74's associates or family members.

Customer 74 advised Star Qld that he had arranged for \$215,000 to be deposited by his friends but that he did not want his family to know about it.

On 29 September 2020, Star Qld sought more information in respect of the transactions on 28 September 2020 and attempted to return the Smart ATM funds. Star Qld noted that these deposits were unusual, given that Customer 74 already had \$100,000 in his FMA at this time: SMR dated 2 October 2020.

On 30 October 2020, Customer 74 contacted Star Qld asking for the letter as proof for the remitter. Star Qld noted that Customer 74 had stated in August 2019 that he sent \$30,000 a month from a foreign country, which was the limit imposed by the banks in that country. Further, on 29 September 2020, he had claimed that his friends were sending money to him, not a remitter: SMR dated 3 November 2020.

By 3 November 2020, the funds received by Star Qld on 28 September 2020 had not been released to Customer 74. Customer 74 stated that the funds had been sent using an overseas remitter who had organised for unknown people to make small deposits using Smart ATMs. Customer 74 requested:

- a. a letter from Star Qld to indicate that the funds had been received but were not accepted; and
- b. a document to indicate that Star Qld required the bank details and the names of the senders of the funds to accept the transfers.

Star Qld noted that Customer 74 claimed not to know the remitter and so it was unclear who or for what reason the letter was required.

On or about 24 December 2020, Customer 74 made a statutory declaration which explained the reason the funds had been sent to Star Qld by a series of third party deposits on 28 September 2020. The funds were subsequently released to Customer 74's FMA: SMR dated 24 December 2020.

- I. on and from 4 February 2022, Customer 74 had significant parked or dormant funds in his FMA at Star Qld;

Particulars

See paragraph 284 above.

On and from 4 February 2022, Customer 74 had \$70,000 parked in his Star Qld FMA. Customer 74 recorded no further play after this date and Star Qld was aware that he had relocated to a foreign country, apparently on the advice of his accountant.

On 1 March 2022, Star Qld received a telegraphic transfer of \$30,000 from a bank in a foreign country for the benefit of Customer 74, which was deposited into his FMA, bringing the balance of his FMA to \$100,000.

On 9 May 2022, Star Qld received a further telegraphic transfer of \$30,000 from a bank in a foreign country for the benefit of Customer 74. Star Qld noted that:

- a. there had been no transactions on the FMA after 4 February 2022;
- b. it seemed unusual for Customer 74 to continue to send funds to his FMA when they were not being accessed, and when there were ample funds already available in his FMA for gambling; and
- c. Customer 74 had received transfers into his FMA for the same amount, on average once per month, dating back to 2018, with funds being withdrawn for gaming purposes, predominantly using EGMs.

Star Qld instructed its bank to return to the remitter the funds received on 9 May 2022. Star Qld also sent a communication to Customer 74's casino host to advise that it would not be accepting further telegraphic transfers from him until he had used the \$100,000 remaining in his FMA.

On 13 May 2022, Star Qld received a further telegraphic transfer of \$30,000 from a bank in a foreign country for the benefit of Customer 74, which Star Qld immediately requested to be returned to the remitter. Star Qld noted that the telegraphic transfer request, which Customer 74 had signed, indicated that the reason for the transfer was 'living expenses': SMRs dated 13 May 2022 and 26 May 2022.

- m. Customer 74 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring and cuckoo smurfing at Star Qld;

Particulars

See paragraph 25 above.

Transactions indicative of structuring

On the following occasions, Customer 74 was involved in transactions indicative of the ML/TF typology of structuring:

- a. on 5 September 2018, Star Qld noted that Customer 74 had a habit of withdrawing cash in units of \$5,000 and would

sometimes make several of these withdrawals a day: SMR dated 5 September 2018; and

- b. on 2 October 2020, Star Qld noted that Customer 74 had changed his betting habits so that he would use cards of his family members when playing on EGMs but would only issue tickets up to \$9,000: SMR dated 2 October 2020.

Transactions indicative of cuckoo smurfing

On 28 September 2020, Star Qld received a third party transfer of \$5,000 for Customer 74's benefit. On 29 September 2020, Star Qld received a further six third party transfers totalling \$38,000, each of which was under the reporting threshold. Ultimately, it was determined that the funds were sourced from a foreign remitter who had organised for unknown people to make small deposits at various locations in Australia using Smart ATMs. This form of international remittance was indicative of the ML/TF typology of cuckoo smurfing.

- n. Customer 74 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 74 had access to private gaming rooms at Star Sydney, including Sovereign Harbourside, Springs Salons and Chairman's.

- o. Customer 74 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 74 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room, Pit 11 and Orchid.

- p. Star Sydney and Star Qld did not have adequate reason to believe that Customer 74's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 74 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Star was not aware of Customer 74's occupation. In 2016, Customer 74's turnover escalated at Star Qld to over \$6 million. In 2017, Customer 74's turnover escalated at Star Sydney to over \$330,000.

It was not until September 2021 that Star Qld believed that Customer 74 had some, unspecified, business interests in a foreign country: SMR dated 26 November 2021.

By and from 30 November 2016, Customer 74 would regularly receive international third party transfers. Customer 74 used those

funds, at least in part, to gamble using membership cards belonging to others. Star Qld was aware that:

- a. Customer 74 seemed to withdraw funds in cash from his FMA in units of \$5,000 and sometimes made multiple of these withdrawals a day;
- b. Customer 74 seemed to be using the majority of the funds withdrawn for reasons other than gambling; and
- c. many of the third party telegraphic transfers received by Star Qld in favour of Customer 74 occurred in circumstances where Customer 74 already had sufficient funds in his FMA to gamble.

Customer 74 regularly engaged in transactions indicative of the ML/TF typology of structuring and, in 2020, Customer 74 received third party remittances indicative of the ML/TF typology of cuckoo smurfing. There were real risks associated with Customer 74's source of funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 74

2038. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 74 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 74.

- a. On and from 30 November 2016, Customer 74 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 74's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 74 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 9 April 2014, Customer 74 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 74's transactions

2039. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 74's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 74, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 74 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Sydney and Star Qld provided designated services to Customer 74 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 74's KYC information

- 2040. Star Sydney and Star Qld did not review, update and verify Customer 74's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 74's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 74's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 74's source of wealth and source of funds were not legitimate: see *Customer 74's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 74's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 74.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 74's high ML/TF risks

2041. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 74 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 74; and
- c. reviewing and updating Customer 74's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 74 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 74*.

2042. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 74 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 74; and
- c. reviewing and updating Customer 74's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 74 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

2043. Had Star Sydney rated Customer 74 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 74.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 74

2044. Star Qld was required to apply the ECDD Programs to Customer 74 following any ECDD triggers in respect of Customer 74.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2045. Customer 74 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 29 November 2017 and 26 May 2022, Star Qld gave the AUSTRAC CEO 15 SMRs with respect to Customer 74.

2046. The matter pleaded in paragraph 2045 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2047. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 74 following an ECDD trigger because:

- a. on each occasion that Star Qld conducted ECDD in respect of Customer 74 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 74 and the provision of designated services to Customer 74 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 15 February 2019, 19 June 2019, 28 August 2019 and 9 September 2020, Star Qld conducted ECDD in respect of Customer 74.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 74's higher ML/TF risks: see *Customer 74's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 74's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 74's source of wealth and source of funds were not legitimate: see *Customer 74's risk profile*.

- b. Customer 74 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 74 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 74 and the provision of designated services to Customer 74 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

In 2020, following suspicious third party telegraphic transfers received for Customer 74's benefit, Star senior management considered the nature of the deposits. Ultimately, the funds were released to Customer 74: see paragraph 2037.k above.

On 12 August 2021 and 22 September 2021, following an ECDD screening, the Due Diligence Program Manager determined to continue a business relationship with Customer 74. The Due Diligence Program Manager noted that no adverse information was recorded in the ECDD screening. This was despite the matters pleaded above: see *Customer 74's risk profile*.

On 26 November 2021, following an ECDD screening, the Due Diligence Program Manager determined to continue a business relationship with Customer 74. The Due Diligence Program Manager noted that:

- a. 13 SMRs had been submitted in respect of Customer 74 since June 2016, but that only one had been submitted since TrackVia went live in April 2021; and
- b. no adverse information was noted in the ECDD screening. This was despite the matters pleaded above: see *Customer 74's risk profile*.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 74's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover;
- b. Customer 74's source of funds (r15.10(2)(b) of the Rules), having regard to the higher ML/TF risks as to their source of funds: see *Customer 74's risk profile* above.

Contravention of s36 of the Act in respect of Customer 74

2048. By reason of the matters pleaded from paragraphs 2032 to 2047 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 74 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2049. By reason of the matters pleaded from paragraphs 2032 to 2047 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 74 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2050. By reason of the matters pleaded at paragraphs 2048 and 2049, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 74.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 75

2051. Customer 75 was a customer of Star Sydney during the relevant period. Between 2017 and 2018, Star Sydney recorded turnover exceeding \$19 million for Customer 75.

Particulars

Customer 75 was a customer of Star Sydney from at least 16 December 2015.

2052. Star Sydney provided Customer 75 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 27 October 2017, Star Sydney opened an FMA and SKA for Customer 75 which remain open (item 11, table 3, s6 of the Act).

Between 16 December 2015 and 17 October 2018, Star Sydney approved CCFs for Customer 75 on two occasions ranging from \$2,000,000 to \$3,000,000, with a single trip additional limit of \$1,500,000 (item 6, table 1, s6 of the Act).

See Customer 75's risk profile below.

2053. Customer 75 was a customer of Star Qld during the relevant period.

Particulars

Customer 75 was a customer of Star Qld from at least 2012.

2054. Star Qld provided Customer 75 with designated services within the meaning of table 1, s6 of the Act during the relevant period.

Particulars

On 4 February 2019, Star Qld approved a CCF for Customer 75 with a limit of \$5,000,000 (item 6, table 1, s6 of the Act).

See Customer 75's risk profile below.

2055. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 75.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 75's risk profile

2056. On and from 30 November 2016, Customer 75, and the provision of designated services to Customer 75 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 75's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 75 had the following risk history:
- i. on 16 December 2015, Star Sydney provided Customer 75 with significant amounts of credit upon request, with limits of up to \$2,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 16 December 2015, Star Sydney senior management, including the Chief Executive Officer and the Chief Casino Officer, approved a single trip CCF limit of \$2,000,000 for Customer 75.

- ii. numerous media reports named Customer 75 as a person who had been arrested in a foreign country, was a reputed member of an organised crime syndicate and was involved in casino operations;

Particulars

Publicly accessible media articles dated from 1995 reported that:

- a. Customer 75 had been arrested in a foreign country in connection with an alleged assault offence and conspiracy to pervert the course of justice by a law enforcement agency concerned with organised crime and criminal syndicates; and
- b. Customer 75's brother had been arrested and charged with attempts to pervert the course of justice, criminal intimidation and false imprisonment.

Publicly accessible media articles dated from 1997 reported that Customer 75's brother, who was also his business partner, was rumoured to be a member of an organised crime syndicate.

Publicly accessible media articles dated from 2007 reported that Customer 75 and his business ventures had acquired stakes in,

financed or developed extensive casino operations in a foreign country.

In 2009, in a publicly accessible report from a foreign gaming commission named Customer 75 as a person reputed to be a member of an organised crime syndicate.

The same report named Customer 75's brother as an alleged senior office bearer of an organised crime syndicate.

Star Sydney's and Star Qld's due diligence records did not contain details of these reports.

Customer 75's risk profile from 30 November 2016

- b. Customer 75 was a foreign PEP;

Particulars

See paragraph 115 above.

Customer 75 was a former member of a foreign political body.

- c. Customer 75 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2018, Star Sydney recorded high turnover on individual rebate programs totalling \$19,211,530 with losses of \$872,100 for Customer 75;

Particulars

See paragraph 623 above.

In 2017, Customer 75's turnover on individual rebate programs was \$16,270,020 with losses of \$943,100.

In 2018, Customer 75's turnover on individual rebate programs was \$2,941,510 with wins of \$71,000.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 75 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

On 29 November 2017, Star Sydney received a telegraphic transfer of \$791,756, which it made available to Customer 75's account for the purpose of repaying an outstanding CCF.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above. On 7 November 2018, Star Sydney sent a telegraphic transfer of \$81,648 from Customer 75's FMA to an overseas bank account.

The above transaction was conducted through the Star Patron account channel.

- e. between 18 October 2017 and 17 October 2018, Star Sydney provided Customer 75 with significant amounts of credit upon request, up to limits of \$4,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 18 October 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Casino Officer, approved a single trip CCF limit of \$2,000,000 with an additional trip only limit of \$1,000,000 for Customer 75.

On 17 October 2018, Star Sydney approved a single trip CCF limit of \$3,000,000 with an additional trip only limit of \$1,500,000 for Customer 75.

- f. on 4 February 2019, Star Qld provided Customer 75 with significant amounts of credit upon request, up to limits of \$5,000,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 4 February 2019, Star Qld approved a single trip CCF limit of \$5,000,000.

- g. Customer 75 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 75 had access to private gaming rooms at Star Sydney, including Rivers Salons, Harbour Salons, Oasis and the Sovereign Room.

- h. Star Sydney and Star Qld did not have adequate reason to believe that Customer 75's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 75 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 75 was the executive director and chairman of a company.

By 30 November 2016, open source media reports and foreign gaming commission reports named Customer 75 as a person who had been arrested in a foreign country, was a reputed member of an organised crime syndicate and was involved in casino operations.

There were real risks associated with Customer 75's source of wealth. Despite this, in 2017 and 2018, Customer 75's turnover on individual rebate programs exceeded \$19 million.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 75

2057. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 75 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 75.

- a. On and from 30 November 2016, Customer 75 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 75's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 20 October 2017 that Customer 75 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 20 October 2017, Customer 75 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 75 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 75's transactions

2058. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 75's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 75, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 75 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 75's KYC information

2059. Star Sydney and Star Qld did not review, update and verify Customer 75's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC

information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 75's business with Star Sydney and Star Qld, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 75's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 75's source of wealth and source of funds were not legitimate: see *Customer 75's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 75's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 75.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 75

- 2060. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 75 following any ECDD triggers in respect of Customer 75. In particular, because Customer 75 was a foreign PEP, Star Sydney and Star Qld were required to:
 - a. undertake detailed analysis of Customer 75's KYC information including taking reasonable measures to identify the source of Customer 75's wealth and the source of Customer 75's funds; and
 - b. seek senior management approval for continuing a business relationship with Customer 75 and whether Star Sydney and Star Qld should continue to provide a designated service to Customer 75.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.10(2), 15.10(6) and 15.11 of the Rules.

- 2061. Customer 75:

- a. at all times was a foreign PEP; and

Particulars

See *Customer 75's risk profile* above.

- b. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 20 October 2017, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 75 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 75* above.

2062. Each matter pleaded in paragraph 2061 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

2063. It was not until 20 October 2017 that Star Sydney and Star Qld identified that Customer 75 was a foreign PEP.

2064. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 75 following the ECDD triggers:

- a. on each occasion that Star Sydney and Star Qld conducted ECDD in respect of Customer 75 in response to an ECDD trigger, they failed to give appropriate consideration to whether the ML/TF risks posed by Customer 75 and the provision of designated services to Customer 75 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite. In particular, Star Sydney and Star Qld failed to monitor Customer 75 as a foreign PEP because:
- i. Star Sydney's or Star Qld's analysis of Customer 75's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 75;
- ii. Star Sydney's or Star Qld's analysis of Customer 75's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 75;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 15 October 2019, 14 December 2020 and 2 August 2021, Star conducted ECDD in respect of Customer 75.

On 2 August 2021, the ECDD screening in respect of Customer 75 identified that:

- a. Customer 75 was an inactive foreign PEP;
- b. Customer 75 was the executive director and chairman of a foreign company; and

- c. no other adverse findings were available through open source searches.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to his higher ML/TF risks: see *Customer 75's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 75's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 75's source of wealth and source of funds were not legitimate: see *Customer 75's risk profile*.

- iii. Customer 75 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney or Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- iv. any senior management approval regarding Customer 75 failed to give appropriate consideration to the ML/TF risks posed by Customer 75 and the provision of designated services to Customer 75 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

On 2 August 2021, following an ECDD screening, the Due Diligence Program Manager noted that Customer 75 was described as an inactive foreign PEP in a risk intelligence database, but determined to maintain a customer relationship with Customer 75.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 75's source of wealth (r 15.10(2)(a) of the Rules);
and
- b. Customer 75's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting high ML/TF risks as to his source of funds: see *Customer 75's risk profile* above.

Contravention of s36 of the Act in respect of Customer 75

2065. By reason of the matters pleaded from paragraphs 2051 to 2064, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 75 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and

- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2066. By reason of the matters pleaded at paragraph 2065, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 75.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 76

2067. Customer 76 was a customer of Star Sydney during the relevant period. Between 3 May 2019 and 17 August 2019, Star Sydney recorded turnover exceeding \$64 million for Customer 76.

Particulars

Customer 76 was a customer of Star Sydney from 10 June 2015.

2068. Star Sydney provided Customer 76 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 14 June 2015, Star Sydney opened an FMA and SKA for Customer 76 which remain open (item 11, table 3, s6 of the Act).

Between 10 June 2015 and 9 April 2019, Star Sydney approved CCFs for Customer 76 on three occasions ranging from \$800,000 to \$1,500,000 (item 6, table 1, s6 of the Act).

See *Customer 76's risk profile* below.

2069. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 76.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 76's risk profile

2070. On and from 30 November 2016, Customer 76, and the provision of designated services to Customer 76 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 76's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 76 had the following risk history:
- i. Star Sydney provided Customer 76 with significant amounts of credit upon request, up to limits of \$1,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 10 June 2015, Star Sydney senior management approved a single trip CCF for Customer 76 with a limit of \$1,500,000.

Customer 76's risk profile from 30 November 2016

- b. Customer 76 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with junkets at Star Sydney;
 - i. between 3 May 2019 and 8 May 2019 Customer 76 funded a junket at Star Sydney;

Particulars

Customer 76 provided \$1,500,000 in funding for a junket operator at Star Sydney.

Customer 76 funded the junket operator in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

Customer 76 attended the junket program that he funded as a player.

- ii. Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 76 between 3 May 2019 and 8 May 2019 was \$10,917,179 with wins of \$1,460,830; and
- iii. the junkets funded by Customer 76 facilitated the provision of high value designated services to a junket operator and junket players;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

- c. Customer 76 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 3 May 2019 and 17 August 2019, Customer 76 was a player on two junkets at Star Sydney operated by two junket operators;
 - ii. one of the junkets was funded by a person other than the junket operator, being Customer 76; and
 - iii. between 3 May 2019 and 17 August 2019, Star Sydney recorded high turnover totalling \$64,036,960 with losses of \$1,271,635 for Customer 76's gaming activity on junket programs;

Particulars

In August 2016, Customer 76 was one of the top ten international players at Star Sydney by wins or losses.

- d. designated services provided to Customer 76 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. between 3 August 2017 and 9 April 2019, Star Sydney provided Customer 76 with significant amounts of credit upon request, up to limits of \$1,500,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 3 August 2017, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$800,000 for Customer 76.

On 9 April 2019, Star Sydney senior management approved a single trip CCF limit of \$1,500,000 for Customer 76.

- f. Customer 76 requested that Star Sydney prepare letters purportedly confirming his winnings;

Particulars

See paragraphs 337 and 338 above.

On 7 May 2019, Star Sydney issued a letter of comfort purportedly confirming Customer 76's rated winnings of \$1,406,110 between 3 May 2019 and 7 May 2019.

- g. Customer 76 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 76 had access to private gaming rooms during a junket program he attended at Star Sydney, which were exclusive to the junket, including Salon 97 and Salon 98.

- h. Star Sydney did not have adequate reason to believe that Customer 76's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 76 at Star Sydney.

Particulars

See paragraph 808 above.

At all times, Star Sydney recorded Customer 76's occupation as 'accountant'. At no time was Customer 76's stated source of wealth commensurate with the high value designated services provided to him by Star Sydney.

Star Sydney's determination of the ML/TF risks posed by Customer 76

- 2071. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 76 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 76.

- a. On and from 3 May 2019, Customer 76 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 76's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 76 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 13 June 2019, Customer 76 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 76's transactions

2072. At no time did Star Sydney apply appropriate transaction monitoring to Customer 76's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 76, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket funders and junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 76 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 76's KYC information

2073. Star Sydney did not review, update and verify Customer 76's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a), (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 76's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 76's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 76's source of wealth or source of funds: see *Customer 76's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 76's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 76.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 76's high ML/TF risks

2074. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 76 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 76; and
- c. reviewing and updating Customer 76's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 76 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

2075. Had Star Sydney rated Customer 76 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 76.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 76

2076. By reason of the matters pleaded from paragraphs 2067 to 2075 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 76 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2077. By reason of the matters pleaded at paragraph 2076, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 76.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 77

2078. Customer 77 was a customer of Star Sydney during the relevant period. Between 2016 and 2022, Star Sydney recorded turnover exceeding \$5.6 million for Customer 77.

Particulars

Customer 77 was a customer of Star Sydney from at least 22 April 2008.

On 15 June 2022, Star Sydney issued a WOL in respect of Customer 77.

2079. Star Sydney provided Customer 77 with designated services within the meaning of tables 1 and 3, s6 of the Act during the relevant period.

Particulars

On 11 November 2008, Star Sydney opened an FMA and SKA for Customer 77 which was closed on 19 July 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 77 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 77's risk profile* below.

2080. Customer 77 was a customer of Star Qld during the relevant period. Between 2016 and 2018, Star Qld recorded turnover exceeding \$4 million for Customer 77.

Particulars

Customer 77 was a customer of Star Qld from at least 22 October 2008.

On 15 June 2022, Star Qld issued a WOL in respect of Customer 77.

2081. Star Qld provided Customer 77 with designated services within the meaning of tables 1 and 3, s6 of the Act during the relevant period.

Particulars

On 22 October 2016, Star Qld opened an FMA and SKA for Customer 77 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 77 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 77's risk profile* below.

2082. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 77.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 77's risk profile

2083. At all times from 30 November 2016, Star Sydney and Star Qld were aware that Customer 77 had been the subject of proceeds of crime proceedings in 2013 in respect of funds held in Customer 77's FMA at Star Sydney.

Particulars

On 2 September 2013, Star Sydney was ordered to transfer funds held in Customer 77's FMA at Star Sydney pursuant to restraining orders issued by an Australian court under proceeds of crime legislation.

On 21 October 2014, Star Sydney was issued with a notice to produce by a law enforcement agency in respect of Customer 77.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

2084. At all times from 30 November 2016, publicly accessible media reports from November 2015 named Customer 77 as a person who laundered money at Star Sydney.

Particulars

On 10 November 2015, a media article reported that law enforcement had been successful in civil proceedings against Customer 77 alleging that he had run an "unregistered credit network" that provided undeclared cash and loaned money directly to gamblers at Star Sydney.

Media articles also reported that Customer 77 had directed an individual to deposit \$500,000 in cash at the casino but that the funds had been intercepted by law enforcement.

Star Sydney's and Star Qld's due diligence records did not contain details of these reports.

2085. In March 2017, that Star senior management made enquiries with law enforcement regarding the status of civil and criminal proceedings for money laundering and proceeds of crime offences against Customer 77.

Particulars

After Customer 77 attended Star Qld in March 2017, Star senior management, including the Group Investigations Manager, conducted enquiries with law enforcement as to the status of proceedings against Customer 77.

Star senior management were informed by law enforcement that it had pursued civil and criminal proceedings for money laundering and proceeds of crime offences against Customer 77. The criminal proceedings were withdrawn with no formal convictions recorded. The civil proceedings were enforced by way of restraining order for the forfeiture of funds in 2013.

2086. In July 2017, Customer 77 was the subject of further law enforcement enquiries at Star.

Particulars

In July 2017, a law enforcement agency issued a notice to produce seeking financial and gaming records held by Star Sydney in respect of Customer 77.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: See paragraph 49 above.

2087. Despite rating Customer 77 high risk for the purpose of the Act and Rules from 29 September 2014, Star Sydney and Star Qld did not conduct ECDD on Customer 77 until September 2019.

Particulars

See paragraph 2097 below.

2088. Notwithstanding the matters raised above, Star Sydney and Star Qld continued to provide designated services to Customer 77 on and from 30 November 2016.

Particulars

See paragraph 2089 below.

2089. In addition to the matters raised above, on and from 30 November 2016, Customer 77, and the provision of designated services to Customer 77 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 77's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 77 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 77;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on four occasions between 20 December 2011 and 28 December 2011.

The SMRs reported that Customer 77 and his associates transacted using large amounts of cash and cash that appeared suspicious, and had requested a casino cheque for a large amount, despite recording no play.

The SMRs also reported that on 28 December 2011, Customer 77 was issued a Star Sydney cheque for \$3,700,000 and the funds were withdrawn from his front money account. Star Sydney believed these transactions were suspicious due to the large movement of cash involved and the fact that Customer 77 had no recorded play in this period.

- ii. between 2008 and 2016, Customer 77 transacted using large amounts of cash at Star Sydney and cash that appeared suspicious, including large volumes of cash in small notes in suitcases;

Particulars

TTRs

Between 23 April 2008 and 21 November 2016, Star Sydney gave the AUSTRAC CEO 29 TTRs involving Customer 77, totalling \$4,815,705, including:

- a. 26 TTRs detailing chip and cash totalling \$345,805; and
- b. 3 TTRs detailing account deposits totalling \$4,469,900.

Large and suspicious cash transactions in 2011

On three occasions in December 2011, Customer 77 and third parties presented at the cage with large amounts of cash contained in suitcases and deposited the cash into his front money account at Star Sydney:

- a. on 20 December 2011, Customer 77 deposited \$2,497,100 in cash consisting of \$262,200 in \$100 notes, \$2,193,750 in \$50 notes, \$40,160 in \$20 notes, \$780 in \$10 notes, and \$210 in \$5 notes;
- b. on 21 December 2011, Customer 77 deposited \$1,599,800 consisting of \$3000 in \$100 notes, \$1,513,600 in \$50 notes, \$80,200 in \$20 notes, and \$3000 in \$10 notes; and
- c. on 24 December 2011, third parties deposited \$400,000 cash into Customer 77's front money account at Star Sydney.

- iii. in 2015, Customer 77 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded individual rated turnover totalling \$159,209 for Customer 77; and

Particulars

See paragraph 752 above.

- iv. in 2011, Customer 77 was the subject of law enforcement enquiries on one occasion at Star;

Particulars

On 21 December 2011, law enforcement officers spoke to Customer 77 while he was depositing \$1,599,800 at the Cage at Star Sydney.

Star Sydney was aware that funds held in Customer 77's FMA at Star Sydney had been seized under proceeds of crime legislation:
see paragraph 2083.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: See paragraph 49 above.

Customer 77's risk profile from 30 November 2016

- b. from 30 November 2016, Customer 77 continued to receive high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2022, Star Sydney recorded high and escalating individual rated turnover totalling \$5,656,893 for Customer 77;

Particulars

See paragraph 752 above.

In 2016, Customer 77's individual rated turnover was \$806,556.

In 2017, Customer 77's individual rated turnover escalated to \$3,756,405.

In 2018, Customer 77's individual rated turnover was \$778,695.

In 2019, Customer 77's individual rated turnover was \$125,118.

In 2020, Customer 77's individual rated turnover was \$182,032.

In 2021, Customer 77's individual rated turnover was \$7,893.

In 2022, Customer 77's individual rated turnover was \$194.

- c. from 30 November 2016, Customer 77 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2018, Star Qld recorded high and escalating individual rated turnover totalling \$4,000,415 for Customer 77;

Particulars

See paragraph 752 above.

In 2016, Customer 77's individual rated turnover was \$1,927,707 at Star Gold Coast.

In 2017, Customer 77's individual rated turnover was \$1,798,580 at Star Gold Coast and \$166,837 at Treasury Brisbane.

In 2018, Customer 77's individual rated turnover was \$107,291 at Treasury Brisbane.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 77 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraph 347 to 349 above.

For example, on 29 April 2017, Star Sydney received a transfer of \$150,000 from Star Qld, which it made available to Customer 77's account.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 77 by remitting large amounts of money into and within the casino environment;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 23 April 2017, Star Qld received a telegraphic transfer from a third party company which it made available to Customer 77's FMA: see particulars to paragraph 2089.f below.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

On 27 April 2017, Star Qld facilitated a transfer of \$50,000 from Customer 77's FMA at Star Gold Coast to Star Sydney.

- f. Star Qld was aware that Customer 77 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Between 23 April and 27 April 2017, Star Qld reported that Customer 77 and his associates were involved in a series of large and unusual transactions:

- a. on 23 April 2017, Customer 77 opened an FMA at Star Qld. Over the next two days, Star Qld received a total of \$300,000 via telegraphic transfer through a company of which he was listed as a director. The funds were deposited into Customer 77's FMA;
- b. Customer 77 had booked four rooms at the hotel for five guests during this period. Star Qld recorded some gaming for those guests, however, was unable to account for the chips cashed out by each guest. On 25 April 2017, one of Customer 77's guests cashed out \$60,000 in chips after receiving chips from Customer

77 during gameplay. On 25 April 2017, a second guest cashed out \$110,000 in chips; and

- c. by 27 April 2017, Star Qld recorded that Customer 77 held \$200,000 in his FMA and was winning \$17,200: SMR dated 27 April 2017.

- g. Customer 77 transacted using large amounts of cash at Star Sydney;

Particulars

For example, on 21 May 2017, Customer 77 withdrew \$100,000 from his FMA at Star Sydney, which was considered suspicious due to size of the cash withdrawal.

TTRs

Between 20 December 2016 and 18 November 2019, Star Sydney gave the AUSTRAC CEO:

- a. 23 TTRs detailing chip and cash exchanges made by Customer 77 totalling \$379,474; and
- b. 3 TTRs detailing account withdrawals made by Customer 77 totalling \$160,000.

- h. Customer 77 engaged in transactions indicative of ML/TF typologies and vulnerabilities, including structuring;

Particulars

On 14 July 2018, Customer 77 converted \$9,900 in cash for chips, which was considered suspicious on the basis that it appeared that he was structuring to avoid reporting requirements.

- i. Customer 77 transacted using large amounts of cash at Star Qld;

Particulars

Between 28 December 2016 and 27 March 2018, Star Qld gave the AUSTRAC CEO:

- a. 17 TTRs detailing chip and cash exchanges made by Customer 77 totalling \$305,020; and
- b. 1 TTR detailing account withdrawals made by Customer 77 totalling \$10,000.

- j. designated services provided to Customer 77 included substantial EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

Between 23 January 2017 and 22 September 2017, Star gave the AUSTRAC CEO two TTRs detailing EGM payouts to Customer 77 totalling \$37,900.

- k. designated services provided to Customer 77 involved the provision by Star Sydney of a non-winning cheque;

Particulars

On 6 October 2018, Star Sydney issued a non-winning cheque for Customer 77, payable to a third party.

- l. it was not until July 2021 that Star's AML team became aware of media reports from 2013 that alleged Customer 77 laundered money through Star Sydney's accounts; and

Particulars

By July 2021, Star's AML team became aware of media reports published in 2013 which accused Customer 77 of laundering more than \$4,000,000 in cash through Star Sydney's accounts and recorded this information in Customer 77's due diligence records.

- m. Star Sydney and Star Qld did not have adequate reason to believe that Customer 77's source of wealth or source of funds were sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) recorded by Customer 77 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

At no time prior to 28 January 2020 did Star Sydney and Star Qld make enquiries regarding Customer 77's source of wealth or source of funds.

In September 2013, an Australian court ordered Star Sydney to transfer funds held in Customer 77's FMA pursuant to restraining orders under proceeds of crime legislation. At all times during the relevant period, publicly available media articles named Customer 77 as a person who had laundered money at Star Sydney.

By 2017, Customer 77's turnover at Star Sydney had escalated significantly and his turnover at Star Qld was high.

By July 2017, Star Sydney was aware that Customer 77 continued to be of interest to at least one law enforcement agency. At this time, Star senior management was also informed by law enforcement that civil proceedings for money laundering and proceeds of crime offences against Customer 77 had been successful.

It was not until 28 January 2020 that Star management requested Customer 77 provide information regarding his source of wealth or source of funds.

Following this, Star was advised that Customer 77 was a business development manager of an overseas company, which was a subsidiary of a larger overseas company.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 77

2090. On and from 29 September 2014, Customer 77 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

On 29 September 2014, Customer 77 was rated critical risk, being high risk for the purpose of the Act and Rules.

2091. Nevertheless, for the reasons pleaded below, Star Sydney and Star Qld failed to monitor the high ML/TF risks posed by Customer 77 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by them with respect to Customer 77.

Monitoring of Customer 77's transactions

2092. Despite being aware of allegations that Customer 77 had laundered money through Star Sydney's accounts, at no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 77's transactions because:

Particulars

See *Customer 77's risk profile* above.

a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 77, Star Sydney's and Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 77 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 77's KYC information

2093. Star Sydney and Star Qld did not review, update and verify Customer 77's KYC information, having regard to the high ML/TF risks posed, because:

a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 77's business with Star Sydney and Star Qld, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 77's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 77's source of wealth and source of funds were not legitimate: see *Customer 77's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 77's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 77.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See particulars to paragraph 2097.

ECDD triggers in respect of Customer 77

- 2094. At all times from 30 November 2016, Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 77 following any ECDD triggers in respect of Customer 77.

Particulars

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

- 2095. Customer 77:

- a. was at all times determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld; and

Particulars

On 29 September 2014, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 77 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 77*.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 24 April 2017 and 25 June 2017, Star Qld gave the AUSTRAC CEO two SMRs with respect to Customer 77.

- 2096. Each matter pleaded in paragraph 2095 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

2097. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 77 following an ECDD trigger because:

- a. on each occasion prior to 15 June 2022 that Star Sydney and Star Qld conducted ECDD in respect of Customer 77 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 77 and the provision of designated services to Customer 77 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797, and 807 to 809 above.

On 28 September 2019, 28 January 2020, 26 October 2020 and 15 July 2021, Star Sydney and Star Qld conducted ECDD in respect of Customer 77.

On 15 July 2021, the ECDD screening conducted by Star's AML team in respect of Customer 77 identified that:

- a. proceedings had been commenced against Customer 77 for money laundering in 2013;
- b. a prosecution had been commenced against Customer 77 by an Australian regulator in 2007;
- c. despite the forfeiture of funds under proceeds of crime litigation, law enforcement had advised Customer 77 had not been convicted of money laundering offences;
- d. two SMRs had been reported in relation to large chip and cash exchanges and telegraphic transfers to Star Qld; and
- e. Star Sydney and Star Qld had recorded Customer 77's occupation as a business development manager of an overseas resources company.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 77's higher ML/TF risks: see *Customer 77's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 77's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 77's source of wealth and source of funds were not legitimate: see *Customer 77's risk profile*.

On 15 June 2022, Star issued a WOL in respect of Customer 77.

- b. Customer 77 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 15 June 2022 that Customer 77 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 77 and the provision of designated services to Customer 77 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 26 October 2021, Star's Due Diligence Manager reviewed the analysis performed by the AML team outlined above and requested information about internal steps taken regarding the 2013 money laundering matter.

By 11 November 2021, Star's Due Diligence Manager decided to "maintain customer relationship" with Customer 77.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 77's source of wealth (r15.10(2)(a) of the Rules), having regard to his high and escalating turnover from 2017; and
- b. Customer 77's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to his source of funds: see *Customer 77's risk profile*.

On 15 June 2022, Star issued a WOL in respect of Customer 77.

Contravention of s36 of the Act in respect of Customer 77

2098. By reason of the matters pleaded from paragraphs 2078 to 2097, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 77 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2099. By reason of the matters pleaded at paragraph 2098, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 15 June 2022 with respect to Customer 77.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 78

2100. Customer 78 was a customer of Star Sydney during the relevant period. Between 2017 and 2019, Star Sydney recorded turnover exceeding \$8.1 billion for Customer 78.

Particulars

Customer 78 was a customer of Star Sydney from at least 28 January 2006.

On 21 July 2020, Star Sydney issued a WOL in respect of Customer 78 at the direction of the Group AML Manager.

2101. Star Sydney provided Customer 78 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 78 which were closed on 9 September 2021.

While a customer of Star Sydney, Customer 78 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 78's risk profile below.

2102. Customer 78 was a customer of Star Qld during the relevant period. In 2017, Star Qld recorded turnover exceeding \$94 million for Customer 78.

Particulars

Customer 78 was a customer of Star Qld from at least 19 August 2012.

On 21 July 2020, Star Qld issued a WOL in respect of Customer 78 at the direction of the Group AML Manager.

2103. Star Qld provided Customer 78 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

Between 20 October 2017 and 23 October 2017, Star Qld recorded high turnover for Customer 78 on junket programs totalling \$42,700,000 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 78 remitted funds to and from the casino environment (items 31 and 32, table 1, s6 of the Act).

See Customer 78's risk profile below.

2104. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 78.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 78's risk profile

2105. On and from 30 November 2016, Customer 78, and the provision of designated services to Customer 78 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 78's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 78 had the following risk history:
 - i. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 78 by remitting large amounts of money into the casino environment via his accounts;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 18 July 2008, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$1,311,681 where Customer 78 was named as the beneficiary and the ordering customer was a third party company account.

The above transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 20 March 2007 and 11 December 2012, Star Sydney gave the AUSTRAC CEO 14 incoming IFTIs totalling \$26,249,206 where Customer 78 was named as the beneficiary and the ordering customer.

The above transactions were conducted through the Star Patron account channel.

Customer 78's risk profile from 30 November 2016

- b. Customer 78 was a junket player who received high value gambling and financial services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 25 September 2017 and 28 March 2019, Customer 78 was a player on 15 junkets at Star Sydney operated by three junket operators;

Particulars

In 2017, 2018 and 2019, Customer 78 was one of the top ten junket players by turnover at Star Sydney.

- ii. several of the junkets were funded by a person other than the junket operator, including Customer 24; and
- iii. between 25 September 2017 and 28 March 2019, Star Sydney recorded high and escalating turnover totalling \$8,150,435,800 with losses of \$109,222,250 for Customer 78's gaming activity on junket programs;

Particulars

In 2017, Customer 78's turnover on junket programs was \$2,346,644,300 with losses of \$39,292,000.

In 2018, Customer 78's turnover on junket programs escalated to \$3,718,490,750 with losses of \$20,106,250.

In 2019, Customer 78's turnover on junket programs was \$2,085,300,750 with losses of \$49,824,000.

- c. Customer 78 was a junket player who received high value gambling services and financial services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 20 October 2017 and 23 October 2017, Customer 78 was a player on a junket at Star Qld;

Particulars

In 2017, Customer 78 was one of the top ten junket players by turnover at Star Gold Coast despite only having participated in one junket.

- ii. the junket was funded by a person other than the junket operator; and
 - iii. between 20 October 2017 and 23 October 2017, Star Qld recorded high turnover totalling \$94,367,000 with losses of \$1,841,250 for Customer 78's gaming activity on junket programs;
- d. designated services provided to Customer 78 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- e. Customer 78 was connected to other customers at Star Sydney and Star Qld, including a junket funder and junket player in respect of whom Star Sydney and Star Qld had formed suspicions, including Customer 1;

Particulars

In 2019, Customer 1 brought proceedings against Customer 78 in a foreign court in respect of a large outstanding debt.

- f. Customer 78 received high value gambling and financial services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2018, Star Sydney recorded high and escalating individual rated turnover totalling \$4,544,569 for Customer 78;

Particulars

See paragraph 752 above.

In 2017, Customer 78's individual rated turnover was \$133.

In 2018, Customer 78's individual rated turnover significantly escalated to \$4,544,436.

- g. Customer 78 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

For example, on 16 April 2018, Customer 78 was a junket player on a junket program. A junket representative of that program withdrew \$500,000 in cash from the junket operator's account. The junket operator gave the cash to Customer 78, who had recorded a win of \$7,453,750 for the junket: SMR dated 17 April 2018.

- h. Customer 78 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 78 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Rivers Salons and Lakes Salons.

- i. Customer 78 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 78 had access to private gaming rooms at Star Qld, including Pit 8 and Salon 22.

- j. by 23 March 2018, Star was aware that Customer 78 had been involved in financial crime;

Particulars

On 23 March 2018, Star became aware that Customer 78 had been involved in financial crime. However, Star did not further investigate the nature or scope of Customer 78's involvement.

- k. by March 2019, Star was aware that Customer 78 had been involved in several legal proceedings relating to contract fraud, misappropriation of company funds and non-payment of outstanding debts; and

Particulars

From at least 2011, open source media articles reported that in 2009, Customer 78 had been arrested in a foreign country and charged with contract fraud and misappropriation of company funds. In 2011, Customer 78 was sentenced in respect of these offences to three years imprisonment, which was suspended for five years, and was fined for illegal lending.

It was not until March 2019 that Star became aware of these reports.

In July 2014, open source media articles reported Customer 78 as a person against whom another Australian casino had launched proceedings in an Australian court to recover a debt of nearly \$10,000,000.

It was not until 29 August 2019 that Star became aware of this report.

- I. Star Sydney and Star Qld did not have adequate reason to believe that Customer 78's source of wealth or source of funds was sufficient to explain the high value gambling and financial services (tables 1 and 3, s6 of the Act) received by Customer 78 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By May 2019, Star understood that Customer 78's occupation was as a 'trader'. In May 2019, Star understood from a marketing representative that Customer 78 was a property developer in a foreign country and a fund consultant in Melbourne.

In 2006, open source media articles reported that Customer 78 was one of the richest persons in a foreign country. However, in May 2019, Star became aware that Customer 78 had been declared bankrupt.

From at least 2011, open source media articles reported that in 2009 Customer 78 had been arrested in a foreign country for fraud and misappropriation offences.

By March 2018, Star was aware that Customer 78 had been involved in financial crime.

While Star had reason to believe that Customer 78 had significant personal wealth at some times during the relevant period, it did not take steps to verify the source of funds used by Customer 78 in respect of the very high value designated services provided to him at Star Sydney and Star Qld. This was despite the high ML/TF risks posed by Customer 78's source of funds by reason of:

- a. his involvement in financial crime;
- b. his foreign convictions for crimes associated with fraud and misappropriation; and
- c. his bankruptcy.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 78

2106. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 78 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 78.
- a. On and from 2017, Customer 78 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 78's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 15 March 2019 that Customer 78 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 24 October 2017, Customer 78 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 15 March 2019, Customer 78 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 78 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 78's transactions

2107. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 78's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 78, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 78 through the junket channel;

Particulars

See paragraph 783 above.

- d. Star Qld provided designated services to Customer 78 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- e. Star senior management were not specifically informed of large and suspicious cash incidents involving Customer 78.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 78 on 16 April 2018: See *Customer 78's risk profile*.

The review, update and verification of Customer 78's KYC information

- 2108. Star Sydney and Star Qld did not review, update and verify Customer 78's KYC information, having regard to the high ML/TF risks posed, because:
 - a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 78's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 78's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 78's source of wealth or source of funds: see *Customer 78's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 78's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 78.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

From at least 2011, open source media articles reported that in 2009 Customer 78 had been arrested in a foreign country for fraud and

misappropriation offences. By March 2018, Star was aware that Customer 78 had been involved in financial crime.

While Star had reason to believe that Customer 78 had significant personal wealth at some times during the relevant period, it did not take steps to verify the source of funds used by Customer 78 in respect of the very high value designated services provided to him at Star Sydney and Star Qld. This was despite the high ML/TF risks posed by Customer 78's source of funds.

Failure to apply appropriate due diligence suited to Customer 78's high ML/TF risks

2109. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 78 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 78; and
 - c. reviewing and updating Customer 78's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 78 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 78*.

ECDD triggers in respect of Customer 78

2110. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 78 following any ECDD triggers in respect of Customer 78.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

2111. Customer 78:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

On 17 April 2018, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 78.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

On 17 November 2017, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 78.

- c. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 15 March 2019, Star Sydney and Star Qld determined that the ML/TF risks posed by Customer 78 was high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 78* above.

2112. Each matter pleaded in paragraph 2111 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

2113. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 78 following an ECDD trigger because:

- a. on each occasion prior to 21 July 2020 that Star Sydney and Star Qld conducted ECDD in respect of Customer 78 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 78 and the provision of designated services to Customer 78 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, and 807 to 809 above.

In March 2019, August 2019 and October 2019, Star conducted ECDD in respect of Customer 78.

In October 2019, the ECDD screening in respect of Customer 78 identified that:

- a. since November 2017, three suspect matter reports had been raised in respect of Customer 78, two of which were given to the AUSTRAC CEO as SMRs;
- b. Customer 78 was of 'ongoing influence to the AML area';
- c. Customer 78 had business interests in a foreign country;
- d. in 2009, Customer 78 had been arrested in a foreign country and charged with contract fraud and misappropriation of company funds. In 2011, Customer 78 was sentenced in respect of these offences to three years imprisonment, which was suspended for five years, and was fined for illegal lending;
- e. in 2009, Star Sydney had brought proceedings against Customer 78 in respect of a large outstanding debt;
- f. in 2014, publicly accessible media articles had reported that another Australian casino had brought proceedings against Customer 78 in respect of a large outstanding debt; and
- g. in 2019, Customer 1 brought proceedings against Customer 78 in a foreign court in respect of a large outstanding debt.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 78's higher ML/TF risks: see *Customer 78's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 78's source of funds or source of wealth: see *Customer 78's risk profile* above.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 78's source of wealth or source of funds: see *Customer 78's risk profile*.

However, it was not until 21 July 2020 that Star Sydney and Star Qld issued a WOL in respect of Customer 78 at the direction of the Group AML Manager.

- b. Customer 78 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney and Star Qld's ML/TF risk appetite;

Particulars

See paragraph 810 above.

- c. on any occasion prior to 21 July 2020 that Customer 78 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 78 and the provision of designated services to Customer 78 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between March 2019 and August 2020, Customer 78 was regularly discussed at JRAMM and PAMMs.

The minutes of the meetings:

- a. from March 2019, noted that Customer 78 was a trader by occupation and a junket player. From March 2019, the minutes also noted that Customer 78 had been arrested in a foreign country, charged with contract fraud and misappropriation of company funds and sentenced for those offences to three years imprisonment, which was suspended for five years, and fined for illegal lending;
- b. from May 2019, noted that Customer 78 had been declared bankrupt and that Star did not have any further information as to his source of wealth. From May 2019, the minutes also noted that Customer 78 was a property developer in a foreign country and a fund consultant in Melbourne;

- c. from May 2019, noted that Customer 78 had been removed from the JRAMMs agenda as Customer 78's source of wealth had been provided;
- d. from November 2019, noted that Customer 78 would be raised at an international rebate management meeting and would be advised that he could not attend Star until he had provided source of wealth and supporting documentation;
- e. from February 2020, noted that further information would be sought about Customer 78's source of wealth from the Star credit team; and
- f. from March 2020, noted that Customer 78 would not be dealt with at Star until source of wealth information had been provided.

From at least March 2019, Star senior management was aware that there were serious concerns in respect of Customer 78's source of funds which raised ML/TF risks in the provision of designated services to him.

From at least May 2019, Star senior management was aware that there were serious concerns in respect of Customer 78's source of wealth which raised ML/TF risks in the provision of designated services to him.

In 2019, Customer 78's turnover as a junket player at Star Sydney exceeded \$2 billion.

However, it was not until 21 July 2020 that Star Sydney and Star Qld issued a WOL in respect of Customer 78 at the direction of the Group AML Manager.

Contravention of s36 of the Act in respect of Customer 78

2114. By reason of the matters pleaded from paragraphs 2100 to 2113 above, on and from 25 September 2017, Star Sydney:
- a. did not monitor Customer 78 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2115. By reason of the matters pleaded at paragraph 2114, Star Sydney contravened s36(1) of the Act on and from 25 September 2017 to 21 July 2020 with respect to Customer 78.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2116. By reason of the matters pleaded from paragraphs 2100 to 2113 above, on and from 20 October 2017, Star Qld:
- a. did not monitor Customer 78 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2117. By reason of the matters pleaded at paragraph 2116, Star Qld contravened s36(1) of the Act on and from 20 October 2017 to 21 July 2020 with respect to Customer 78.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 79

2118. Customer 79 was a customer of Star Sydney during the relevant period. Between 2016 and 2018, Star Sydney recorded turnover exceeding \$210 million for Customer 79.

Particulars

Customer 79 was a customer of Star Sydney from at least 27 March 2006.

2119. Star Sydney provided Customer 79 with designated services within the meaning of table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 4 March 2009, Star Sydney opened an FMA and SKA for Customer 79 which remain open (item 11, table 3, s6 of the Act).

See Customer 79's risk profile below.

2120. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 79.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 79's risk profile

2121. On and from 30 November 2016, Customer 79, and the provision of designated services to Customer 79 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 79's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 79 had the following risk history:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 79;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR relating to Customer 79 on three occasions between 6 October 2009 and 3 April 2013.

The SMRs reported that Customer 79 and persons associated with him transacted using large amounts of cash: see particulars to paragraph 2121.a.iii below.

- ii. by 30 November 2016, Customer 79 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;

Particulars

By 30 November 2016, Customer 79 was a junket player on at least five junkets at Star Sydney.

- iii. Customer 79, and persons associated with him or the junkets he played on, transacted using large amounts of cash at Star Sydney; and

Particulars

On 3 October 2009, a junket representative exchanged \$386,000 in chips for cash on behalf of a junket. The junket representative placed \$100,000 each into three separate envelopes and \$50,000 into a fourth envelope. Customer 79 took \$26,000 of the remaining amount of cash, and gave the last \$10,000 to the junket representative. Star Sydney considered the large cash transaction to be suspicious: SMR dated 6 October 2009.

On 24 April 2012, Customer 79 settled an individual rebate program at Star Sydney and took \$603,100 in cash. Several hours later, Customer 79 returned with \$250,000 in cash to be deposited into a junket account, as Customer 79 was joining that junket as a player. Star Sydney considered the large amount of cash involved in the transactions to be suspicious: SMR dated 26 April 2012.

On 2 April 2013, a junket representative exchanged \$247,550 in chips for cash on behalf of a junket. The junket representative gave the cash to Customer 79, who was a junket player on the junket program. Star Sydney considered the large amount of cash involved in the transactions to be suspicious: SMR dated 3 April 2013.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 79 by remitting large amounts of money into the casino environment via his accounts;

Particulars

See paragraph 327 above.

Between 2007 and 2011, Star Sydney gave the AUSTRAC CEO four incoming IFTIs totalling \$9,672,625 where Customer 79 was named as the beneficiary and ordering customer.

Each of the above transactions was conducted through the Star Patron account channel.

Customer 79's risk profile from 30 November 2016

- b. Customer 79 was a foreign PEP;

Particulars

See paragraph 115 above.

On 8 November 2017, Star Sydney identified that Customer 79 was a foreign PEP due to his membership of a foreign political party.

- c. Customer 79 was a junket player who received high value gambling services (table 3, s6 of the Act) at Star Sydney through junket programs;
- i. between 2017 and 2018, Customer 79 was a player on two junkets at Star Sydney operated by two junket operators including Customer 28; and
- ii. between 2017 and 2018, Star Sydney recorded high and escalating turnover totalling \$213,236,270 for Customer 79's gaming activity on junket programs;

Particulars

In 2017, Customer 79's turnover on junket programs was \$63,990,550 with wins of \$2,084,500.

In 2018, Customer 79's turnover on junket programs escalated to \$149,245,720 with wins of \$11,526,800.

- d. designated services provided to Customer 79 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Customer 79 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs;

Particulars

See paragraph 752 above.

In 2018, Star Sydney recorded individual rated turnover totalling \$19,076 for Customer 79.

- f. Customer 79, and persons associated with him or the junkets he played on, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

On 4 January 2019, Star Sydney gave the AUSTRAC CEO one TTR detailing chip and cash exchanges to Customer 79 totalling \$40,090.

Large and suspicious cash transactions in 2018

On 30 December 2018, a junket representative withdrew \$600,000 in cash from a junket operator's account at Star Sydney. Several hours later, the junket representative settled the junket program and took a further \$326,948 in cash. On both occasions, the junket representative gave the cash to Customer 79, who was a player on the junket and had recorded a turnover of \$32,760,900 with a win of \$11,526,800: SMR dated 4 January 2019.

- g. Customer 79 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 79 had access to private gaming rooms at Star Sydney, including the Lakes Salons, River Salons and the Sovereign.

- h. between 2007 and 2017, media reports named Customer 79 as a person connected to several senior foreign politicians and involved in money laundering schemes;

Particulars

Between 2007 and 2017, a number of accessible open source articles reported on Customer 79's association with foreign politicians and his involvement in money laundering activities:

- a. a 2007 media report referred to Customer 79 as a 'frontman' for a senior foreign politician;
 - b. a 2015 media article reported on Customer 79's ties to a prominent foreign political family, and stated that in 2010 Customer 79 established an underground bank overseas to launder money for foreign high level officials and tycoons; and
 - c. a 2017 media article reported that Customer 79's proposed takeover of overseas sports clubs had been subject to an investigation that raised a number of concerns, one of which was the financial difficulties Customer 79's company faced.
- i. by October 2020, Star Sydney was aware of media articles which reported that Customer 79 was allegedly involved in money laundering schemes and other criminal activities; and

Particulars

By at least October 2020, Star Sydney was aware of a media article from July 2020 that reported that:

- a. Customer 79 and another individual, who was related to a former senior foreign political leader, opened an underground money bank that was designed to transfer assets overseas. Through this business they laundered large amounts of foreign currency;
- b. Customer 79 used his political connections to set up a nightclub and make money from the gambling and drug business; and

- c. in 2010, Customer 79 helped people overseas launder money through overseas casinos.
- j. Star Sydney did not have adequate reason to believe that Customer 79's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 79 at Star Sydney.

Particulars

See paragraph 808 above.

It was not until September 2019 that Star Sydney took steps to understand Customer 79's source of wealth and source of funds.

Between 2016 and 2018, Star Sydney recorded turnover exceeding \$210 million for Customer 79 in circumstances where it had no information as to his source of wealth or source of funds.

From September 2019, Star Sydney took steps to understand Customer 79's source of wealth and source of funds, and identified that he was involved in a number of overseas companies.

From October 2020, Star became aware of media reports that identified that Customer 79's source of wealth and source of funds may involve illegitimate revenue streams: see particulars to paragraph 2121.i.

Star Sydney's determination of the ML/TF risks posed by Customer 79

2122. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 79 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 79.
- a. On and from 30 November 2016, Customer 79 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 79's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 8 November 2017 that Customer 79 was rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 8 November 2017, Customer 79 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 15 July 2020, Customer 79 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 79's transactions

2123. At no time did Star Sydney apply appropriate transaction monitoring to Customer 79's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 79, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 79 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 79's KYC information

2124. Star Sydney did not review, update and verify Customer 79's KYC information having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 79's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 79's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 79's source of wealth or source of funds: see *Customer 79's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 79's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 79.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

It was not until September 2019 that Star Sydney took steps to understand Customer 79's source of wealth and source of funds, and identified that he was involved in a number of overseas companies, including as the chairman of a company from 2008 to 2018 and the CEO of that company from 2008 to 2014.

From October 2020, Star Sydney became aware of articles that identified that Customer 79's source of wealth and source of funds may involve illegitimate revenue streams. As a result, Star Sydney obtained further information that identified that Customer 79 was associated with several overseas companies.

ECDD triggers in respect of Customer 79

2125. Star Sydney was required to apply the ECDD Programs to Customer 79 following any ECDD triggers in respect of Customer 79. In particular, because Customer 79 was a foreign PEP, Star Sydney was required to:
- a. undertake detailed analysis of Customer 79's KYC information including taking reasonable measures to identify the source of Customer 79's wealth and the source of Customer 79's funds; and
 - b. seek senior management approval for continuing a business relationship with Customer 79 and whether Star Sydney should continue to provide a designated service to Customer 79.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) 15.9(3), 15.10, 15.10(2), 15.10(6) and 15.11 of the Rules.

2126. Customer 79:

- a. at all times from 30 November 2016, was a foreign PEP;

Particulars

See *Customer 79's risk profile* above.

- b. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

On 4 January 2019, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 79.

- c. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney.

Particulars

On 8 November 2017, Star Sydney determined that the ML/TF risks posed by Customer 79 was high risk for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 79* above.

2127. Each matter pleaded in paragraph 2126 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

2128. It was not until 8 November 2017 that Star Sydney identified that Customer 79 was a foreign PEP.

2129. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 79 following the ECDD triggers because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 79 in response to an ECDD trigger, it failed give appropriate consideration to the ML/TF risks posed by Customer 79 and the provision of designated services to Customer 79 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite. In particular, Star Sydney failed to monitor Customer 79 as a foreign PEP because:
- i. Star Sydney's analysis of Customer 79's KYC information failed to give appropriate consideration to the ML/TF risks posed by Customer 79;
- ii. Star Sydney's analysis of Customer 79's source of wealth and source of funds failed to give appropriate consideration to the ML/TF risks posed by Customer 79;

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 150, 797, 800, 807 and 810 above.

On 30 September 2019, 28 October 2020 and 17 September 2021, Star Sydney conducted ECDD in respect of Customer 79.

On 30 September 2019, the ECDD screening in respect of Customer 79 confirmed Customer 79's foreign PEP status, but identified no other adverse information.

On 28 October 2020, the ECDD screening in respect of Customer 79 identified that:

- a. open source searches returned adverse information in relation to potential issues Customer 79 had with an overseas government over money laundering and other criminal activities;
- b. Customer 79 remained an inactive foreign PEP due to his previous membership of a foreign political party; and
- c. Customer 79 had recorded no play in the previous 12 months.

On 17 September 2021, the ECDD screening in respect of Customer 79 identified that:

- a. Customer 79 was an inactive foreign PEP;
- b. there had been no adverse media on Customer 79 since the article published in July 2020, that was identified in the 2020 ECDD screening. The ECDD Analyst noted that since Customer 79 had not been officially charged and was already listed as 'very high' risk due to his foreign PEP status, Star Sydney did not need to change Customer 79's risk rating; and
- c. Customer 79 had recorded no play in the previous three months.

The ECDD conducted by Star Sydney did not have appropriate regard to their higher ML/TF risks: see *Customer 79's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 79's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 79's source of wealth or source of funds: see *Customer 79's risk profile*.

- iii. Customer 79 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- iv. any senior management approval regarding Customer 79 failed to give appropriate consideration to the ML/TF risks posed by Customer 79 and the provision of designated services to Customer 79 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rule 15.10(2), (5), (6) and (7) of the Rules.

See paragraphs 797 and 810 above.

On 17 September 2021, the Due Diligence Manager determined to maintain a customer relationship with Customer 79.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 79's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover; and
- b. Customer 79's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting higher ML/TF risks as to their source of funds: see *Customer 79's risk profile* above.

Contravention of s36 of the Act in respect of Customer 79

2130. By reason of the matters pleaded from paragraphs 2118 to 2129, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 79 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2131. By reason of the matters pleaded at paragraph 2130, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 79.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 80

2132. Customer 80 was a customer of Star Sydney during the relevant period. Between 2016 and 2017, Star Sydney recorded turnover exceeding \$760,000 for Customer 80.

Particulars

Customer 80 was a customer of Star Sydney from at least 24 September 2015.

2133. Star Sydney provided Customer 80 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket representative.

Particulars

On 18 July 2016, Star Sydney opened an FMA and SKA for Customer 80 which remain open (item 11, table 3, s6 of the Act).

Between 17 August 2016 and 11 December 2017, Star Sydney approved CCFs for Customer 80 on 19 occasions ranging from \$30,000 to \$450,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 80 (items 31 and 32, table 1, s6 of the Act).

See Customer 80's risk profile below.

2134. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 80.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 80's risk profile

2135. On and from 30 November 2016, Customer 80, and the provision of designated services to Customer 80 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 80's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 80 had the following risk history:
- i. between 17 August 2016 and 28 November 2016, Star Sydney provided Customer 80 with significant amounts of credit upon request, up to limits of \$450,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 17 August 2016, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$200,000, which was then increased to \$450,000, for Customer 80. The funds were withdrawn and deposited into Customer 14's account for the purpose of redeeming a CCF.

On 13 September 2019, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$300,000 for Customer 80. The funds were withdrawn and deposited into Customer 14's SKA.

On 23 November 2016, Star Sydney senior management, including the General Manager VIP Credit and Collections, approved a single trip CCF limit of \$30,000 for Customer 80.

On 25 November 2016, Star Sydney senior management, including the General Manager VIP Credit and Collections, approved a single trip CCF limit of \$100,000 for Customer 80. The funds were used for a buy-in for Customer 14's junket.

On 28 November 2016, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved

a single trip CCF limit of \$250,000 which was then increased to \$385,000 for Customer 80. The funds were deposited into Customer 80's FMA.

On each occasion, the CCF was provided on a "temporary" basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer and the General Manager VIP Credit and Collections.

- ii. between 15 July 2016 and 19 October 2016, Customer 80 was a junket representative for Customer 14's junket on at least three occasions. On each occasion, the junket was funded by Customer 13;
- iii. Customer 80 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs; and

Particulars

Between 23 September 2015 and 10 October 2015, Customer 80 was a player on a junket operated by Customer 14.

Star Sydney recorded turnover of \$470,730 with a loss of \$12,975 for Customer 80's junket activity.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 80 by remitting large amounts of money into and out of the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 1 August 2016 and 28 November 2016, Customer 80 transacted \$1,265,000 through the Hotel Card channel. On all but one occasion, Customer 80 was given a temporary CCF while waiting for the funds to clear.

See paragraph 2135.a.i.

Remittances out of the casino environment

See paragraph 327 above.

On 20 August 2016, Star Sydney sent a telegraphic transfer of \$272,900 from Customer 80's FMA to another Australian casino.

The above transaction was conducted through the Star Patron account channel.

Customer 80's risk profile from 30 November 2016

- b. between 30 November 2016 and 29 January 2018, Customer 80 was a junket representative for Customer 14's junket on at least ten occasions. On each occasion, the junket was funded by Customer 13;
- c. designated services provided to Customer 80 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 80 was connected to other customers at Star Sydney, including junket funders, junket operators and junket players who posed higher ML/TF risks, and players who Star Sydney considered had acted suspiciously (such as Customer 14 and Customer 13);

Particulars

Customer 80 was related to Customer 14 and Customer 13.
Customer 80 acted as a junket representative for Customer 14's junket, which was funded by Customer 13.

By 30 November 2016, open source media articles, court records and other material linked a brothel owned by Customer 13 to alleged serious organised crime, including human trafficking. It was not until August 2019 that Star Sydney became aware that Customer 13 owned a brothel: see Customer 13.

- e. Customer 80 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2017, Star Sydney recorded high and escalating individual rated turnover totalling \$763,403 for Customer 80;

Particulars

See paragraph 752 above.

In 2016, Customer 80's individual rated turnover was \$13,223.

In 2017, Customer 80's individual rated turnover escalated to \$750,180.

- f. Star Sydney was aware that Customer 80:
 - i. had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 14 September 2017 and 2 January 2018, Star Sydney gave the AUSTRAC CEO 15 TTRs detailing incoming payments to Customer 80 totalling \$524,000 which comprised:

- a. \$285,000 in account deposits;

- b. \$129,000 in chip exchanges; and
- c. \$110,000 in other monetary values in.

Between 26 June 2017 and 2 January 2018, Star Sydney gave the AUSTRAC CEO 16 TTRs detailing outgoing payments from Customer 80 totalling \$398,645 which comprised account withdrawals and chip exchanges.

On 14 December 2017, Customer 80 presented \$115,000 in cash to be deposited into his account at Star Sydney. The cash comprised \$100 notes bound with Star straps. Customer 80 then requested that \$150,000 be withdrawn from his account as a Star cheque in his favour. Customer 80 advised Star Sydney staff that the cash was a commission from Customer 14's junket and that he would use the cash to game at another Australian casino: SMR dated 15 December 2017.

- g. between 2 December 2016 and 11 December 2017, Star Sydney provided Customer 80 with significant amounts of credit upon request, up to limits of \$380,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 2 December 2016, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$160,000 which was then increased to \$380,000 for Customer 80. The funds were deposited into Customer 80's FMA and then transferred to Customer 14's SKA to be applied to her CCF.

On 9 December 2016, Star Sydney senior management, including the General Manager (VIP Credit and Collections), approved a single trip CCF limit of \$50,000 for Customer 80. The funds were deposited into Customer 80's SKA.

On 11 December 2016, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$110,000 for Customer 80. The funds were deposited into Customer 80's SKA.

On 22 December 2016, Star Sydney senior management, including the General Manager (VIP Credit and Collections), approved a single trip CCF limit of \$60,000 for Customer 80. The funds were deposited into Customer 80's SKA.

On 23 December 2016, Star Sydney senior management, including the General Manager (VIP Credit and Collections), approved a single trip CCF limit of \$55,000 for Customer 80. \$50,000 of the funds were deposited into Customer 80's SKA and \$5,000 was taken as cash chips by Customer 80.

On 29 December 2016, Star Sydney senior management, including the General Manager (VIP Credit and Collections), approved a single

trip CCF limit of \$55,000 for Customer 80. The funds were deposited into Customer 80's SKA.

On 2 January 2017, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$123,000 for Customer 80. The funds were deposited into Customer 80's FMA and then transferred to Customer 14's SKA.

On 5 January 2017, Star Sydney senior management, including the General Manager (VIP Credit and Collections), approved a single trip CCF limit of \$30,000 for Customer 80. The funds were deposited into Customer 14's SKA.

On 6 January 2017, Star Sydney senior management, including the General Manager (VIP Credit and Collections), approved a single trip CCF limit of \$60,000 for Customer 80. The funds were deposited into Customer 14's SKA.

On 8 January 2017, Star Sydney senior management, including the Chief Executive Officer, approved a single trip CCF limit of \$117,000 for Customer 80. The funds were deposited into Customer 14's SKA.

On 11 December 2017, Star Sydney approved a single trip CCF limit of \$210,000 for Customer 80.

On each occasion, the CCF was provided on a "temporary" basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Executive Officer and the General Manager VIP Credit and Collections.

- h. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 80 by remitting money into the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 3 December 2016 and 11 December 2017, Customer 80 transacted \$1,150,000 through the Hotel Card channel in 13 separate transactions. On all but one occasion, Customer 80 was given a temporary CCF while waiting for the funds to clear.

See paragraph 2135.g above.

Other remittances into the casino environment

See paragraph 327 above.

On 12 December 2017, Star Sydney gave the AUSTRAC CEO an incoming IFTI detailing a transfer of \$60,000 from Customer 80's bank account overseas. The funds were made available to Customer 80's Star Sydney account.

The above transaction was conducted through the Star Patron account channel.

- i. Customer 80 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 80 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Lakes Salons, Springs Salons, Jade and Chairman's.

- j. by July 2021, media reports named Customer 80 as a person involved in potential money laundering activities at another Australian casino;

Particulars

In July 2021, publicly accessible media reports alleged that:

- a. Customer 80 was related to Customer 13; and
- b. a gaming inspector had identified that in May 2017 Customer 80 had engaged in potential money laundering in a junket room at another Australian casino by giving out cash contained in a cooler bag in exchange for chips.

Star Sydney's due diligence records did not contain details of these reports.

- k. by October 2021, a State gaming regulator made findings that Customer 80 had been arrested and charged in respect of money laundering offences; and

Particulars

By October 2021, an independent investigation made findings that:

- a. Customer 80 was involved in an incident at another Australian casino involving potential money laundering activities in May 2017;
- b. from June 2017 to May 2018, a State gaming regulator conducted ongoing surveillance of Customer 80 at the other Australian casino. At the same time, Customer 80 was under criminal investigation by a law enforcement agency for fraud-related matters unrelated to the cooler bag incident; and
- c. in May 2018, Customer 80 was arrested by a law enforcement agency while attending the other Australian casino and charged with obtaining property by deception and dealing with the proceeds of crime.

Star Sydney's due diligence records did not contain details of this report.

- l. Star Sydney did not have adequate reason to believe that Customer 80's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 80 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood Customer 80's occupation to be as a junket representative.

At no point did Star Sydney take steps to establish or verify Customer 80's source of wealth or source of funds.

Nonetheless, Star Sydney facilitated the provision of high value financial and gaming services to Customer 80, including through the high risk Hotel Card channel and by providing him with temporary CCFs.

At no point did Star Sydney consider the high ML/TF risks associated with Customer 80's source of wealth and source of funds.

In particular, no consideration was given to Customer 80's connection to high risk customers such as Customer 14 and Customer 13 or his arrest in 2018 in respect of charges of obtaining property by deception and dealing with the proceeds of crime.

While Customer 80 does not appear to have visited Star Sydney at any time after January 2018, he remains a customer of Star Sydney.

Star Sydney's determination of the ML/TF risks posed by Customer 80

2136. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 80 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 80.
- a. On and from 30 November 2016, Customer 80 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see Customer 80's *risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 80 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 15 December 2017, Customer 80 was rated low risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 80's transactions

2137. At no time did Star Sydney apply appropriate transaction monitoring to Customer 80's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 80, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 80 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- iii. an international remittance channel, specifically the Hotel Card channel;

Particulars

See paragraphs 777 and 790 above.

- c. Star Sydney provided designated services to Customer 80 through multiple accounts and was not able to collate information from those accounts; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

- d. Star senior management were not specifically informed of the large and suspicious cash incidents involving Customer 80.

Particulars

Star senior management were not specifically informed of the large and suspicious cash incident involving Customer 80 on 14 December 2017: See *Customer 80's risk profile*.

The review, update and verification of Customer 80's KYC information

- 2138. Star Sydney did not review, update and verify Customer 80's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 80's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 80's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 80's source of wealth and source of funds were not legitimate: see *Customer 80's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 80's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 80.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 80's high ML/TF risks

2139. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 80 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 80; and
 - c. reviewing and updating Customer 80's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 80 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 80*.

ECDD triggers in respect of Customer 80

2140. Star Sydney was required to apply the ECDD Programs to Customer 80 following any ECDD triggers in respect of Customer 80.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2141. Customer 80 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period;

Particulars

On 15 December 2017, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 80.

2142. The matter pleaded in paragraph 2141 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2143. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 80 following an ECDD trigger because:

- a. at no time did Star Sydney apply the ECDD Program to Customer 80;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797, and 807 to 809 above.

Star Sydney understood Customer 80's occupation to be as a junket representative. At no point did Star Sydney take steps to establish or verify Customer 80's source of wealth or source of funds.

Nonetheless, Star Sydney facilitated the provision of high value financial and gaming services to Customer 80, including through high risk international remittance channels, including the Hotel Card channel and by providing him with temporary CCFs.

At no point did Star Sydney consider the high ML/TF risks associated with Customer 80's source of wealth and source of funds. In particular, no consideration was given to Customer 80's connection to high risk customers such as Customer 14 and Customer 13 or his arrest in 2018 in respect of charges of obtaining property by deception and dealing with the proceeds of crime. While Customer 80 does not appear to have visited Star Sydney at any time after January 2018, he remains a customer of Star Sydney.

By reason of the matters set out above, there were real risks that Customer 80's source of wealth and source of funds were not legitimate: see *Customer 80's risk profile*.

Despite this, there is no evidence that any ECDD was conducted by Star Sydney in respect of Customer 80.

- b. Customer 80 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 80 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 80 and the provision of designated services to Customer 80 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Customer 80 was referred to Star's AML team in respect of the large cash deposit the subject of the SMR dated 15 December 2017.

Contravention of s36 of the Act in respect of Customer 80

2144. By reason of the matters pleaded from paragraphs 2132 to 2143, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 80 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2145. By reason of the matters pleaded at paragraph 2144, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 80.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 81

2146. Customer 81 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$220 million for Customer 81.

Particulars

Customer 81 was a customer of Star Sydney from at least 9 July 2016.

2147. Star Sydney provided Customer 81 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 9 July 2016, Star Sydney opened an FMA and SKA for Customer 81 which remain open (item 11, table 3, s6 of the Act).

Between 8 July 2016 and 8 February 2020, Star Sydney approved CCFs for Customer 81 on 121 occasions ranging from \$10,000 to \$350,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 81 (items 31 and 32, table 1, s6 of the Act).

See Customer 81's risk profile.

2148. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 81.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 81's risk profile

2149. On and from 30 November 2016, Customer 81, and the provision of designated services to Customer 81 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 81's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 81 had the following risk history:
- i. between 8 July 2016 and 7 November 2016, Star Sydney provided Customer 81 with significant amounts of credit upon request, up to limits of \$340,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 8 July 2016 and 7 November 2016, Star Sydney provided Customer 81 with at least \$1,640,000 in CCFs, the limits of which ranged between \$10,000 and \$340,000, on 19 occasions.

On each occasion, the CCF was provided on a "temporary" basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Executive Officer, the Star Sydney Managing Director and the General Manager (VIP Credit & Collections).

On 11 July 2016, Customer 81 was given a temporary CCF on this basis, despite not having given notice to Star Sydney of the Hotel Card channel transaction, not requesting a CCF amount from Star Sydney and not providing a signature. Star senior management, including the General Manager VIP Credit & Collections, only approved the temporary CCF after it had been given to Customer 81.

- ii. by 30 November 2016, Star Sydney recorded high turnover on individual rebate programs totalling \$13,835,042 for Customer 81 with losses of \$534,774.

Particulars

See paragraph 623 above.

- iii. designated services provided to Customer 81 included substantial EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

Between 16 August 2016 and 14 November 2016, Star Sydney gave the AUSTRAC CEO 42 TTRs detailing EGM payouts totalling \$761,577.

- iv. Customer 81 transacted using large amounts of cash at Star Sydney;

Particulars

Between 10 August 2016 and 7 November 2016, Star Sydney gave the AUSTRAC CEO 24 TTRs detailing incoming payments to Customer 81 totalling \$500,535 which were comprised of:

- a. \$362,635 in account deposits;
- b. \$37,900 in chip exchanges; and
- c. \$100,000 in other monetary values out.

Between 21 July 2016 and 3 November 2016, Star Sydney gave the AUSTRAC CEO 13 TTRs detailing outgoing payments from Customer 81 totalling \$391,969 which were comprised of:

- a. \$160,000 in account withdrawals;
- b. \$121,845 in chip exchanges; and
- c. \$110,124 in other monetary values out.

- v. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 81 by remitting large amounts of money, into, out of and within the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks; and

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 9 July 2016 and 7 November 2016, Customer 81 transacted \$1,460,000 through the Hotel Card channel in 18 separate transactions and was given a temporary CCF while waiting for the funds to clear.

See paragraph 2149.a.i above.

- vi. Star Sydney suspected that Customer 81 was using the Hotel Card channel, which was a high risk international remittance channel and other methods to remit money out of a foreign country;

Particulars

On 29 September 2016, Customer 81 settled a program and took \$110,124 in cash. Customer 81 had used the Hotel Card channel to

fund the program. Star Sydney suspected that Customer 81 was using the Hotel Card channel to remit money out of a foreign country.

Customer 81's risk profile from 30 November 2016

- b. Customer 81 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. between 12 January 2018 and 13 January 2018, Customer 81 was a player on a junket at Star Sydney; and
 - ii. between 12 January 2018 and 13 January 2018, Star Sydney recorded high turnover totalling \$552,279 with losses of \$57,195 for Customer 81's gaming activity on the junket program;
- c. designated services provided to Customer 81 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- d. Customer 81 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high and escalating turnover totalling \$220,772,097 for Customer 81;
 - i. between 2016 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$164,035,983 for Customer 81; and

Particulars

See paragraph 752 above.

In 2016, Customer 81's individual rated turnover was \$10,697,744.

In 2017, Customer 81's individual rated turnover was \$3,256,360.

In 2018, Customer 81's individual rated turnover escalated to \$33,422,667.

In 2019, Customer 81's individual rated turnover significantly escalated to \$108,348,937.

In 2020, when closures due to COVID-19 commenced, Customer 81's turnover fell but remained high.

In 2020, Customer 81's individual rated turnover was \$8,310,275.

- ii. between 2016 and 2018, Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$56,736,114 with losses of \$1,360,235 for Customer 81;

Particulars

See paragraph 623 above.

In 2016, Customer 81's turnover on individual rebate programs was \$10,838,890 with losses of \$580,975.

In 2017, Customer 81's turnover on individual rebate programs escalated to \$40,670,519 with losses of \$978,355.

In 2018, Customer 81's turnover on individual rebate programs was \$11,708,414 with losses of \$149,145.

- e. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 81 by remitting large amounts of money into the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 357 above.

Between 25 December 2016 and 8 February 2020, Customer 81 transacted \$8,760,100 through the Hotel Card channel in 101 separate transactions and was given a temporary CCF while waiting for the funds to clear.

Customer 81 was one of the top ten customers by number of Hotel Card channel transactions between December 2013 and March 2020.

Customer 81 was one of the top ten customers by Hotel Card channel transaction value between January 2019 and March 2020.

See paragraphs 2149.h and 2149.i below.

- f. designated services provided to Customer 81 included substantial EGM activity at Star Sydney;

Particulars

See paragraph 570 and 579 above.

See paragraph 2149.h below.

Between 23 December 2016 and 8 February 2020, Star Sydney gave the AUSTRAC CEO 508 TTRs detailing EGM payouts to Customer 81 totalling \$11,353,992.

- g. by and from 30 November 2016, Star Sydney suspected that Customer 81 was using the Hotel Card channel, which was a high risk international remittance channel, and other methods to remit money out of a foreign country;

Particulars

See paragraph 2149.a.vi above.

December 2018 transactions

On 29 December 2018, Customer 81 and her husband, Person 57, commenced rebate programs at Star Sydney and engaged in a series of large and suspicious cash transactions which had no visible lawful purpose:

- a. Customer 81 deposited \$200,000 in cash which comprised \$100 notes in units of \$10,000 and was contained in a secure bag;

- b. Person 57 withdrew \$190,000 in cash;
- c. Customer 81 gave \$125,000 in cash to Person 57, which they bundled into units of \$10,000;
- d. Person 57 deposited the \$125,000 in cash into his account before then withdrawing the cash again; and
- e. Customer 81 then deposited \$150,000 in cash into her account.

Star Sydney asked Customer 81 and Person 57 about the purpose of these transactions. Customer 81 advised Star Sydney that it was difficult for them to get money out of a foreign country and that these transactions would make them eligible to play on rebate programs.

While Customer 81 had recorded a significant amount of play, Person 57 had not recorded any play as at 29 December 2018: SMR dated 4 January 2019.

June 2019 transactions

On 21 June 2019, Customer 81 and Person 57 engaged in a series of large and suspicious cash transactions which had no visible lawful purpose:

- a. Customer 81 deposited \$200,000 in cash, which comprised \$100 notes bundled in Star straps dated February 2019 and presented in a security bag wrapped with sticky tape;
- b. Customer 81 withdrew \$190,000 in cash and \$10,000 in TITO vouchers;
- c. Person 57 deposited \$125,000 in cash which comprised loose \$100 notes presented in a security bag; and
- d. Person 57 withdrew \$120,000 in cash and \$5,000 in TITO vouchers.

Star Sydney considered this activity to be suspicious as, when asked about their transactions previously, both Customer 81 and Person 57 had advised that it was difficult to get money out of a foreign country and that these transactions would, in an unknown way, make them eligible to play on rebate programs: SMR dated 25 June 2019.

January 2020 transactions

On 26 January 2020, Customer 81 and Person 57, engaged in a series of large and suspicious cash transactions which had no visible lawful purpose:

- a. Customer 81 deposited \$400,000 in cash, which comprised four bundles of \$100,000 each in Star Sydney straps;
- b. Customer 81 withdrew \$190,000 in cash; and

- c. Person 57 presented a further \$49,900 in cash, also comprised of \$100 notes issued by Star Sydney, to be deposited into Customer 81's account.

Customer 81 and Person 57 advised that the cash belonged to Customer 81 and had originated in a foreign country.

On 27 January 2020, Person 57 presented \$125,000 which comprised \$100 notes in two bundles, one of \$90,000 and one of \$35,000, wrapped with rubber bands. Person 57 advised Star Sydney that the funds were income from his foreign business and that he used a foreign money exchange service to convert the foreign currency into Australian dollars. Star Sydney considered this activity to be suspicious as Customer 81 and Person 57 had previously withdrawn cash and removed the straps only to present the same cash as different funds. Star Sydney considered that the transactions did not appear to have any purpose other than to meet minimum requirements for program buy-ins. Since making the deposits, Customer 81 had recorded a turnover of \$607,105 and a win of \$16,003 while Person 57 recorded a turnover of \$89,508 and a loss of \$26,422: SMR dated 28 January 2020.

- h. Star Sydney was aware that:
 - i. Customer 81 and her husband, Person 57, transacted using large amounts of cash and cash that appeared suspicious, including cash contained in plastic bags with writing in a foreign language; and
 - ii. Customer 81 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

See paragraphs 611 to 618 above.

See paragraph 2149.g above.

TTRs

Between 3 January 2017 and 10 February 2020, Star Sydney gave the AUSTRAC CEO 150 TTRs detailing incoming payments to Customer 81 totalling \$73,423,655 which were comprised of:

- a. \$6,979,000 in account deposits;
- b. \$203,365 in chip exchanges; and
- c. \$160,000 in other monetary values out.

, Between 29 December 2016 and 7 February 2020, Star Sydney gave the AUSTRAC CEO 95 TTRs (in addition to the 508 EGM TTRs) detailing outgoing payments from Customer 81 totalling \$4,592,156 which were comprised of:

- a. \$2,889,829 in account withdrawals;

- b. \$716,763 in chip exchanges; and
- c. \$985,564 in other monetary values out.

Large and suspicious cash transactions in 2017

On 31 January 2017, Customer 81 deposited \$150,000 in cash into her FMA at Star Sydney. The cash comprised \$100 notes issued by Star Sydney.

On 15 April 2017, Customer 81 deposited \$125,000 in cash into her Star Sydney account for a buy-in. Customer 81 then presented a further \$75,000 in cash for a further buy-in. The cash was comprised of \$100 notes, some of which were bundled with Star Sydney straps, some of which were bundled with straps from another casino and \$50,000 of which were loose.

On 20 May 2017, Customer 81 deposited \$125,000 in cash into her FMA. The cash comprised \$100 notes issued by Star and was used for a buy-in.

On 4 September 2017, Customer 81 deposited \$125,000 in cash into her FMA. Customer 81 then withdrew \$115,000 to play on EGMs.

On 29 September 2017, Customer 81 deposited \$108,000 and \$88,000 in cash. The cash was comprised of \$100 notes issued by Star Sydney.

Large and suspicious cash transactions in 2018

On 12 January 2018, Customer 81 deposited \$125,000 in cash into her FMA. The cash comprised \$100 notes issued by Star Sydney.

On 18 February 2018, Customer 81 deposited a total of \$250,635 in cash into her FMA. The cash comprised \$100 notes issued by Star Sydney.

On 27 October 2018, Customer 81 withdrew \$115,000 in cash from her FMA.

On 23 November 2018, Customer 81 and her husband, Person 57, completed a Hotel Card channel transaction for \$150,000 and deposited \$50,000 in cash, which comprised \$100 notes, into Customer 81's account. Customer 81 then withdrew \$190,000 in cash, provided in straps marked with a permanent marker, and left the buy-in room with Person 57. An hour later, Person 57 deposited into his account \$125,000 in cash bundled in the same straps given to Customer 81, and soon after withdrew \$120,000 in cash. Customer 81 later returned with the \$120,000 in cash withdrawn by Person 57 and an additional \$115,000 in cash. Star Sydney considered this activity suspicious as it appeared that Customer 81 and Person 57 were swapping large amounts of cash without engaging in any play to ensure they could both be on programs: SMR dated 27 November 2018.

Large and suspicious cash transactions in 2019

On 4 January 2019, Customer 81 cashed out \$150,000 in chips. Customer 81 had recorded a win of \$150,255 at the time.

On 6 February 2019, Customer 81 presented \$200,300 in cash at Star Sydney. The cash comprised \$100 notes and was contained in grey bags wrapped with thick sticky tape and labelled with the date in a foreign language. Customer 81 deposited \$200,000 in cash into her FMA and kept \$300 in cash. She then withdrew \$190,000 in cash.

Shortly after, Person 57 deposited \$125,000 in cash. The cash comprised loose \$100 notes. Star Sydney believed that this was the same cash withdrawn by Customer 81, as Customer 81 and Person 57 had previously been observed to remove straps from cash before depositing it into their account. Person 57 then withdrew \$120,000 in cash and later returned to deposit \$125,000 in cash. Both Customer 81 and Person 57 recorded a significant amount of play following these transactions: SMR dated 7 February 2019.

On 8 February 2019, Customer 81 exchanged \$100,000 in chips for cash at Star Sydney. Star Sydney considered this activity to be suspicious as Customer 81 did not have sufficient gaming activity to support possession of this amount in chips. In the two days leading up to this transaction, Customer 81 had recorded a turnover of \$1,512,635 and a loss of \$135,415: SMR dated 8 February 2019.

On 16 February 2019, Customer 81 deposited \$200,000 in cash at Star Sydney. The cash comprised \$100 notes wrapped with packaging tape. Customer 81 then withdrew \$190,000 cash. Star Sydney considered this activity to be suspicious due to the packaging of the cash and Customer 81's history of large cash transactions not supported by her play: SMR dated 19 February 2019.

On 23 July 2019, Customer 81 deposited \$200,000 in cash at Star Sydney. The cash comprised \$100 notes bundled with Star Sydney straps dated February 2019 and packaged in plastic wrapping with the words "express pack" and other foreign characters. Person 57 deposited \$25,000 in cash. The cash comprised \$100 notes bundled in Star Sydney straps dated February 2019. Customer 81 withdrew \$90,000 in cash and \$10,000 in TITO vouchers, and transferred the remaining \$100,000 to Person 57. Person 57 then withdrew \$120,000 in cash and \$500 in TITO vouchers. Star Sydney considered this activity to be suspicious as Customer 81 and Person 57 appeared to be layering cash between the accounts held by each of them and immediately withdrawing cash following their transactions: SMR dated 24 July 2019.

On 30 July 2019, Customer 81 deposited \$100,000 in cash. The cash comprised \$100 notes issued by Star Sydney. Customer 81 used the funds to purchase \$90,000 in chips and \$10,000 in TITO vouchers.

On 17 August 2019, Customer 81 deposited \$200,000 in cash for a buy-in at Star Sydney. However, Customer 81 then withdrew \$190,000 in cash and \$10,000 in TITO vouchers. She later deposited another \$100,000 in cash. The cash comprised \$100 notes bundled in Star Sydney straps, packaged in sealed bags and stored in a grey plastic bag. Customer 81 used \$50,000 of the cash for a program buy-in under another customer number linked to her and withdrew \$50,000 in cash. Star Sydney considered this activity to be suspicious due to the excessive amount of cash presented and subsequent cash withdrawals: SMR dated 19 August 2019.

Customer 81 then gave the \$50,000 cash to Person 57 who later deposited \$125,000 in cash. The cash comprised \$100 notes in units of \$50,000 bundled with Star Sydney straps. Subsequently, Person 57 withdrew \$120,000 in cash and \$5,000 in TITO vouchers. Star Sydney considered this activity to be suspicious due to Customer 81 providing cash to Person 57 and the volume of cash withdrawals: SMR dated 20 August 2019.

On 21 September 2019, Customer 81 and Person 57 each presented \$200,000 in cash for buy-ins. The cash comprised notes bundled with Star Sydney straps dated June 2019 in units of \$5,000 and tightly wrapped in white plastic with foreign writing on it. Following the buy-in, Customer 81 recorded a turnover of \$1,236,420 and a win of \$6,995 and Person 57 recorded a turnover of \$226,286 and a win of \$5,301 on EGMs. While Star Sydney noted that the play recorded by both patrons appeared legitimate, it considered this activity to be suspicious due to the large amount of cash presented: SMR dated 23 September 2019.

Large and suspicious cash transactions in 2020

On 6 February 2020, Customer 81 presented \$244,600 in cash. Shortly afterwards, Customer 81 presented a further \$141,700 in cash. The cash comprised \$100 notes issued by Star Sydney.

- i. between 25 December 2016 and 8 February 2020, Star Sydney provided Customer 81 with significant amounts of credit upon request, up to limits of \$350,000;

Particulars

See paragraph 516 to 518 and 552 above.

Between 25 December 2016 and 8 February 2020, Star provided Customer 81 with at least \$11,220,000 in CCFs, the limits of which ranged between \$20,000 and \$350,000, on 101 occasions.

On each occasion, the CCF was provided on a “temporary” basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Executive Officer, the Chief Financial Officer, the Star Sydney Managing Director, Chief Casino Officer and the General Manager (VIP Credit & Collections).

- j. Customer 81 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 81 had access to private gaming rooms at Star Sydney, including Oasis, the Sovereign Room, Lakes Salons, Chairman's and Springs Salons.

- k. in 2019 and 2020, Customer 81 was the subject of law enforcement enquiries at Star Sydney;

Particulars

On 3 January 2019, Star Sydney received a request from a law enforcement agency in respect of Customer 81.

On 29 January 2020, Star Sydney received a request from a law enforcement agency in respect of Customer 81.

- l. in 2019 and 2020, Star Sydney provided information to law enforcement in respect of Customer 81 on at least three occasions; and

Particulars

Between June 2019 and February 2020, Star Sydney provided information in respect of large cash transactions conducted by Customer 81 to a law enforcement agency.

- m. Star Sydney did not have adequate reason to believe that Customer 81's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 81 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 81's occupation was in marketing.

By and from 30 November 2016, Star Sydney recognised that Customer 81 and her husband, Person 57, had access to significant amounts of cash including cash that was presented in suspicious forms. On multiple occasions, Star Sydney questioned the provenance of the cash presented by Customer 81 and Person 57, and the purpose of the complex transaction chains associated with the cash.

By 30 November 2016, Star Sydney suspected that Customer 81 and Person 57 were using the high risk Hotel Card channel to remit money out of a foreign country.

By December 2018, Customer 81 had informed Star Sydney that she was removing large amounts of cash from a foreign country for use in Australia.

Star Sydney's determination of the ML/TF risks posed by Customer 81

2150. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 81 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 81.

- a. On and from 30 November 2016, Customer 81 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 81's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 81 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 30 September 2016, Customer 81 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 18 April 2017, Customer 81 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 81 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 81's transactions

2151. At no time did Star Sydney apply appropriate transaction monitoring to Customer 81's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 81, Star Sydney transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666 to 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 81 through:

- i. the junket channel; and

Particulars

See paragraph 783 above.

- ii. an international remittance channel, specifically the Hotel Card channel; and

Particulars

See paragraphs 777 and 790 above.

- d. Star Sydney provided designated services to Customer 81 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 81's KYC information

- 2152. Star Sydney did not review, update and verify Customer 81's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 81's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 81's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 81's source of wealth and source of funds were not legitimate: see *Customer 81's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 81's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 81.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 81's high ML/TF risks

2153. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 81 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 81; and
- c. reviewing and updating Customer 81's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 81 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 81*.

ECDD triggers in respect of Customer 81

2154. Star Sydney was required to apply the ECDD Programs to Customer 81 following any ECDD triggers in respect of Customer 81.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2155. Customer 81 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 27 November 2018 and 28 January 2020, Star Sydney gave the AUSTRAC CEO 11 SMRs with respect to Customer 81.

2156. The matter pleaded in paragraph 2155 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2157. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 81 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 81 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 81 and the provision of designated services to Customer 81 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraph 797 and 807 above.

On 7 February 2019, 21 June 2019, 23 July 2019, 21 September 2019 and 26 January 2020, Star Sydney conducted ECDD in respect of Customer 81.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 81's higher ML/TF risks: see *Customer 81's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 81's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 81's source of wealth and source of funds were not legitimate: see *Customer 81's risk profile*.

- b. Customer 81 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 81 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 81 and the provision of designated services to Customer 81 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 81

2158. By reason of the matters pleaded from paragraphs 2146 to 2157 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 81 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced;
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules; and

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2159. By reason of the matters pleaded at paragraph 2158, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 81.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 82

2160. Customer 82 was a customer of Star Sydney during the relevant period. Between 2016 and 2019, Star Sydney recorded turnover exceeding \$210 million for Customer 82.

Particulars

Customer 82 was a customer of Star Sydney from at least 11 October 1995.

2161. Star Sydney provided Customer 82 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 13 February 2012, Star Sydney opened an FMA and SKA for Customer 82 which remain open (item 11, table 3, s6 of the Act).

Between 30 November 2016 and 21 October 2019, Star Sydney approved CCFs for Customer 82 on 11 occasions ranging from \$100,000 to \$7,500,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 82 (items 31 and 32, table 1, s6 of the Act).

See Customer 82's risk profile below.

2162. Customer 82 was a customer of Star Qld during the relevant period. Between 2016 and 2019, Star Qld recorded turnover exceeding \$41 million for Customer 82.

Particulars

Customer 82 was a customer of Star Qld from at least 19 August 2012.

2163. Star Qld provided Customer 82 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 2 July 2017, Star Qld opened an SKA for Customer 82 which remains open (item 11, table 3, s6 of the Act).

On 2 July 2019, Star Qld opened an FMA for Customer 82 which remains open (item 11, table 3, s6 of the Act).

Between 17 June 2019 and 2 July 2019, Star Qld approved CCFs for Customer 82 on two occasions of up to \$3,000,000 with an additional trip only limit of \$950,000 (item 6, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the EEIS remittance channel, which it made available to Customer 82 (items 31 and 32, table 1, s6 of the Act).

See Customer 82's risk profile below.

2164. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 82.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 82's risk profile

2165. On and from 30 November 2016, Customer 82, and the provision of designated services to Customer 82 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 82's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 82 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 82;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 29 December 2011.

The SMRs reported that Customer 82 transacted using large amounts of cash at Star Sydney: see paragraph 2165.a.v below.

- ii. Customer 82 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. By 30 November 2016, Star Sydney recorded high turnover on individual rebate programs totalling \$351,529,000 for Customer 82, with losses of \$7,872,555;
- iii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 82 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 7 May 2008 and 6 August 2014, Star Sydney gave the AUSTRAC CEO 17 incoming IFTIs totalling \$7,853,611 where Customer 82 was the beneficiary and the ordering customer. The funds were used to repay CCFs, or deposited to Customer 82's FMA or SKA.

Between 30 June 2016 and 7 October 2016, Star Sydney received nine telegraphic transfers totalling \$1,645,162, each of which was made available to Customer 82's account for the purpose of repaying outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 7 May 2008 and 1 August 2008, Star Sydney gave the AUSTRAC CEO two outgoing IFTIs totalling \$2,148,000 where Customer 82 was named as the ordering customer and beneficiary.

The funds were program settlements from Star Sydney.

On 4 September 2015 and 8 October 2015, Star Sydney sent two telegraphic transfers totalling \$2,040,000 from Customer 82's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances involving third parties

See paragraphs 278 and 327 above.

Between 16 December 2009 and 29 July 2014, Star Sydney gave the AUSTRAC CEO four incoming IFTIs where Customer 82 was the beneficiary, and the ordering customer was a third party, including company accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- iv. between 18 August 2014 and 2 March 2016, Star Sydney provided Customer 82 with significant amounts of credit upon request, up to limits of \$7,500,000; and

Particulars

See paragraph 516 to 518 and 552 above.

On 18 August 2014, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanent active CCF limit of \$5,000,000 with an additional trip only limit of \$2,500,000 which was deactivated.

On 30 August 2015, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a permanent active CCF limit of \$7,500,000 which was deactivated on 2 March 2016.

- v. Customer 82 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 19 April 2010 and 5 January 2016, Star Sydney gave the AUSTRAC CEO 14 TTRs detailing outgoing transactions from Customer 82 totalling \$371,928.

On 24 December 2011, Customer 82 withdrew \$150,000 cash from his FMA at Star Sydney. Star Sydney considered this transaction

suspicious due to the large amount of cash involved: SMR dated 29 December 2011.

Customer 82's risk profile from 30 November 2016

- b. Customer 82 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2019, Star Sydney recorded high turnover totalling \$216,641,879 for Customer 82;
 - i. in 2019, Star Sydney recorded high individual rated turnover totalling \$2,684,279 for Customer 82; and

Particulars

See paragraph 752 above.

- ii. between 2016 and 2019, Star Sydney recorded high turnover on individual rebate programs totalling \$213,957,600 for Customer 82, with losses of \$5,032,479;

Particulars

See paragraph 623 above.

In December 2016, Customer 82's turnover on individual rebate programs was \$20,685,000 with losses of \$92,729.

In 2017, Customer 82's turnover on individual rebate programs was \$110,581,600 with losses of \$5,410,000.

In 2019, Customer 82's turnover on individual rebate programs was \$82,691,000 with wins of \$470,250.

- c. Customer 82 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2019, Star Qld recorded high and escalating turnover on individual rebate programs totalling \$41,503,000 for Customer 82;

Particulars

See paragraph 623 above.

In 2016, Customer 82's turnover on individual rebate programs was \$5,253,000.

In 2019, Customer 82's turnover of individual rebate programs was \$36,250,000.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 82 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 20 February 2019 and 22 February 2019, a third party acting on behalf of Customer 82 deposited a total of \$619,960 into

the EEIS Patron accounts, which Star Sydney made available to Customer 82 through the EEIS remittance channel.

Between 26 February 2019 and 20 August 2019, third party companies acting on behalf of Customer 82 deposited a total of \$2,979,428 into the EEIS Patron accounts, which Star Sydney made available to Customer 82 through the EEIS remittance channel.

Other remittances involving third parties

See paragraphs 278 and 327 above.

On 8 June 2018, Customer 82 received \$323,625 into his Star Sydney account from an overseas remitter, Company 1.

The above transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

Between 9 December 2016 and 10 March 2020, Star Sydney received 30 telegraphic transfers totalling \$8,745,679, each of which was made available to Customer 82's account for the purpose of repaying outstanding CCFs.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 23 April 2019, Star Sydney sent a telegraphic transfer of \$3,000,000 from Customer 82's account to another Australian casino.

Between 31 August 2017 and 8 April 2020, Star Sydney sent seven telegraphic transfers totalling \$7,202,197 from Customer 82's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Other remittances within the casino environment

See paragraph 347 to 349 above.

On 13 December 2016, Star Sydney received a transfer of \$1,396,771 from Star Qld, which it made available to Customer 82's FMA.

On 19 December 2016 and 17 June 2019, Star Sydney sent two transfers totalling \$314,655 from Customer 82's account to Star Qld.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 82 by remitting large amounts of money into, out of and within the casino environment via his accounts, including through an international remittance channel which involved higher ML/TF risks;

Particulars

Remittances through the EEIS remittance channel

See paragraphs 461, 465 to 467, 491 and 492 above.

Between 14 June 2019 and 20 June 2019, a third party acting on behalf of Customer 82 deposited a total of \$1,099,922 into the EEIS Patron accounts, which Star Qld made available to Customer 82 through the EEIS remittance channel.

Between 26 June 2019 and 9 July 2019, third party companies acting on behalf of Customer 82 deposited a total of \$1,699,791 into the EEIS Patron accounts, which Star Qld made available to Customer 82 through the EEIS remittance channel.

Other remittances involving third parties

See paragraphs 281 and 327 above.

On 10 March 2017, Star Qld facilitated a telegraphic transfer of \$39,007 from Customer 82's FMA at Star Gold Coast to the bank account of a third party company.

The above transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327 above.

For example, on 18 June 2019, Star Qld gave the AUSTRAC CEO an incoming IFTI totalling \$199,954 where Customer 82 was named as the ordering customer and beneficiary.

The above transaction was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 13 January 2017 and 15 July 2019, Star Qld facilitated three telegraphic transfers totalling \$4,185,133 from Customer 82's FMA at Star Gold Coast to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

On 17 June 2019, Star Qld received a transfer of \$300,000 from Star Sydney, which it made available to Customer 82's FMA at Star Gold Coast once it was opened.

On 2 July 2019, Star Qld received a transfer of \$13,158 from Star Sydney, which it made available to Customer 82's FMA at Star Gold Coast.

- f. between 12 August 2017 and 21 October 2019, Star Sydney provided Customer 82 with significant amounts of credit upon request, up to limits of \$5,130,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 12 August 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a single trip CCF limit of \$2,000,000.

On 19 October 2017, Star Sydney senior management, including the Chief Executive Officer and the Chief Financial Officer, approved a single trip CCF limit of \$2,000,000 with an additional trip only limit of \$1,000,000.

On 4 April 2019, Star Sydney approved a single trip CCF limit of \$3,000,000.

On 2 August 2019, Star Sydney approved a single trip CCF limit of \$5,000,000.

On 6 August 2019, Star Sydney approved a single trip CCF limit of \$3,000,000.

On 16 August 2019, Star Sydney approved a single trip CCF limit of \$4,000,000.

On 21 October 2019, Star Sydney approved single trip CCF limits of \$5,000,000 and \$5,130,000.

- g. between 17 June 2019 and 2 July 2019, Star Qld provided Customer 82 with significant amounts of credit upon request, up to limits of \$3,000,000 with an additional trip only limit of \$950,000;

Particulars

See paragraph 516 to 518 and 552 above.

On 17 June 2019, Star Qld approved a single trip CCF limit of \$3,000,000.

On 2 July 2019, Star Qld approved a single trip CCF limit of \$3,000,000 with an additional trip only limit of \$950,000.

- h. Customer 82 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 82 had access to private gaming rooms at Star Sydney, including Lakes Salon, Oasis, the Sovereign Room, Rivers Salons and Chairman's.

- i. Customer 82 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 82 had access to private gaming rooms at Star Qld, including The Club, Salon 99 and Pit 8.

- j. by 2011, media reports named Customer 82 as a person connected to a foreign PEP, being the leader of a foreign country;

Particulars

In and from 2011, media reports named Customer 82 as a person connected to the leader of a foreign country.

It was not until 2019 that Star became aware of these reports.

- k. Star Sydney and Star Qld did not have adequate reason to believe that Customer 82's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 82 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016 Star understood that Customer 82 had significant business interests in a foreign country and operated an EGM company.

However, Star failed to take steps to review, and update and verify Customer 82's source of wealth or source of funds. Instead, they relied on publicly accessible media articles which reported Customer 82's wealth.

Customer 82 remitted large amounts of money to Star through third party companies overseas and was associated with a foreign PEP, being the leader of a foreign country. Despite this, Star did not take steps to review, and update and verify Customer 82's source of funds in respect of third party deposits made for his benefit, including funds remitted through the high risk EEIS channel.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 82

2166. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 82 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 82.

- a. On and from June 2019, Customer 82 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 82's risk profile* above.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 82 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

Until 27 June 2019, Customer 82 was rated low risk by default.

On 27 June 2019, Customer 82 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 82's transactions

2167. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 82's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 82, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 82 through:
- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. an international remittance channel, specifically the EEIS remittance channel; and

Particulars

See paragraphs 493 and 777 above.

- c. Star Sydney and Star Qld provided designated services to Customer 82 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 82's KYC information

2168. Star Sydney and Star Qld did not review, update and verify Customer 82's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC

information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 82's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 82's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 82's source of wealth or source of funds: see *Customer 82's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 82's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 82.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 27 June 2019, Star Sydney conducted due diligence in respect of Customer 82.

The due diligence screening identified that Customer 82 was associated with a foreign PEP.

The due diligence conducted by Star did not have appropriate regard to Customer 82's higher ML/TF risks: see *Customer 82's risk profile* above.

The due diligence conducted by Star did not have appropriate regard to the higher ML/TF risks posed by Customer 82's source of funds or source of wealth.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 82's source of wealth or source of funds: see *Customer 82's risk profile*.

Failure to apply appropriate due diligence suited to Customer 82's high ML/TF risks

2169. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 82 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 82; and
 - c. reviewing and updating Customer 82's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would likely have rated Customer 82 as a high risk customer for the purpose of the Act and Rules.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

2170. Had Star Sydney and Star Qld rated Customer 82 as a high risk customer for the purpose of the Act and Rules, they would have been required by the Act and Rules to apply the ECDD Programs to Customer 82.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 82

2171. By reason of the matters pleaded from paragraphs 2160 to 2170 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 82 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2172. By reason of the matters pleaded at paragraph 2171, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 82.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

DOMESTIC CUSTOMERS

Customer 83

2173. Customer 83 was a customer of Star Qld during the relevant period. Between 2016 and 2021, Star Qld recorded turnover exceeding \$13.9 million for Customer 83.

Particulars

Customer 83 was a customer of Star Qld from at least June 2012.
On 18 June 2015, Customer 83 was excluded from Star Sydney at the direction of a law enforcement agency.

However, it was not until 6 January 2021 that Star Qld issued a WOL in respect of Customer 83.

2174. Star Qld provided Customer 83 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

Between 2016 and 2021, Star Qld recorded turnover exceeding \$13.9 million for Customer 83 (table 3, s6 of the Act).

See Customer 83's risk profile below.

2175. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 83.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 83's risk profile

2176. On and from 30 November 2016, Customer 83, and the provision of designated services to Customer 83 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 83's risk history as at 30 November 2016

a. By 30 November 2016 Customer 83 had the following risk history:

- i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 83;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 10 February 2015.

The SMR reported that Customer 83 had experienced a large loss of \$77,600 in January 2015. Star Qld did not have any record of previous wins to account for the loss. Star Qld was unaware of Customer 83's source of income: SMR dated 10 February 2015.

- ii. Customer 83 transacted using large amounts of cash at Star Qld;

Particulars

On 10 March 2015, Star Qld gave the AUSTRAC CEO a TTR detailing a chip cash out by Customer 83 totalling \$10,000.

- iii. Customer 83 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. Between 2006 and 2015, Star Qld recorded high and escalating turnover totalling \$5,031,296 for Customer 83;

Particulars

In 2006, Customer 83's individual turnover was \$1,310,875.

In 2009, Customer 83's individual turnover was \$1,656,216.

In 2010, Customer 83's individual turnover was \$255,942.

In 2015, Customer 83's individual turnover escalated to \$1,808,263.

- iv. by at least June 2015, Star Qld was aware of a media article which alleged that Customer 83 had close connections to organised crime figures;

Particulars

By June 2015, Star Qld was aware of a media article published that month which alleged that:

- a. Customer 83 was an associate of organised crime figures;
- b. Customer 83 had met with drug importers;
- c. Customer 83 was accused of being a murderer for hire; and
- d. Customer 83 had been at the centre of criminal investigations in respect of a substantial number of crimes, including murder, gunshot wounding and arson.

- v. numerous media reports named Customer 83 as the alleged head of an organised crime syndicate in Australia which had allegedly been involved in criminal activity in Australia, including murder for hire;

Particulars

By 2014, publicly accessible media articles reported that Customer 83:

- a. was the alleged head of an organised crime syndicate in Australia; and
- b. had been banned from another Australian casino by a law enforcement agency.

Star Qld was aware of these 2014 articles from at least January 2017.

However, it was not until 6 January 2021 that Star Qld issued a WOL in respect of Customer 83.

- vi. on 18 June 2015, Customer 83 was excluded from Star Sydney at the direction of a law enforcement agency; and
- vii. in January 2015 and March 2016, Customer 83 was the subject of law enforcement correspondence at Star Qld;

Particulars

In January 2015, Star Qld received correspondence from a law enforcement agency which said that there was information to

suggest that Customer 83 had recently been excluded from another Australian casino but continued to gamble at Star Qld.

In March 2016, Star Qld received a request for information from a law enforcement agency in respect of Customer 83. Star Qld provided some of the information sought.

Customer 83's risk profile from 30 November 2016

- b. Star Qld was aware that Customer 83 continued to be excluded from Star Sydney at the direction of a law enforcement agency;

Particulars

On 9 June 2015, an entry was created in Star's investigations database respect of Customer 83, identifying that he had been the subject of an exclusion at the direction of a law enforcement agency at Star Sydney. Star Qld had access to the investigations database.

In January 2019 and February 2019, Customer 83 was discussed at JRAMMs.

The minutes of the meetings noted that Customer 83 was the subject of an exclusion order at Star Sydney.

- c. Customer 83 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 5 January 2017, Star Qld gave the AUSTRAC CEO a TTR detailing a chip cash out by Customer 83 totalling \$13,000.

Between 3 January 2019 and 16 January 2019, Customer 83 gambled using cash at Star Gold Coast and recorded a loss of \$76,240. Star Qld was unaware of the source of the cash or of Customer 83's occupation. Star Qld was aware that there were substantial open source media articles concerning Customer 83: SMR dated 18 January 2019.

- d. Customer 83 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high and escalating turnover totalling \$13,941,351 for Customer 83;

Particulars

In 2016, Customer 83's individual turnover was \$2,443,886.

In 2017, Customer 83's individual turnover was \$2,443,886.

In 2018, Customer 83's individual turnover escalated to \$3,161,477. In January and February 2018, Customer 83 was one of Star Gold Coast's top table game players.

In 2019, Customer 83's individual turnover was \$2,951,401.

In 2020, when closures due to COVID-19 commenced, Customer 83's turnover remained high.

In 2020, Customer 83's individual turnover was \$2,287,163.

By 6 January 2021, on which date Customer 83 was issued with a WOL at Star Qld, Customer 83's individual turnover for 2021 was \$446,293.

- e. Customer 83 had access to private gaming rooms at Star Qld;

Particulars

Customer 83 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room and Club Conrad.

- f. Customer 83 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 18 January 2019.

The SMR reported that Customer 83 had experienced a large loss of \$76,240 in January 2019. Star Qld was unaware of Customer 83's source of income or occupation.

- g. in January 2018, a series of internal emails at Star Qld raised issues concerning the spelling of Customer 83's name in its customer management system;

Particulars

On 29 January 2018, a Star Qld business manager determined that Customer 83's name had been misspelled in its internal customer management system. The business manager indicated that there were issues with Customer 83 and his 'background' and identified that he was the subject of an exclusion in NSW and various news articles.

That day, the Star Qld Investigations Manger forwarded the business manager's email to a Star AML Administrator. The AML Administrator responded: 'No issues with me' and expressed an awareness of the media articles relating to Customer 83.

- h. by at least January 2019, Star Qld was aware of further open source media articles naming Customer 83 as a person involved in an organised crime syndicate and criminal activity in Australia;

Particulars

Publicly accessible media articles reported that Customer 83:

- a. had repeatedly been accused by law enforcement in Australian courts of being a high-ranking member of an organised crime syndicate in Australia;

- b. was the subject of substantial intelligence which indicated that he had substantial and close involvement with criminal conduct including drug importation, murder and extortion; and
 - c. was a known associate of prominent criminal entities and persons who had a history of significant criminal conduct that included money laundering and drug trafficking.
- i. by November 2020:
- i. Star Qld was aware of court proceedings in a foreign jurisdiction which alleged that Customer 83 had dealings with a foreign organised crime syndicate; and

Particulars

In November 2020, JRAMM minutes noted that Customer 83, together with another Star Qld customer, had dealings with a foreign organised crime syndicate.

- ii. open source media articles alleged that Customer 83 had dealings with a foreign organised crime syndicate; and

Particulars

See paragraph 2176.a.iv above.

By February 2020, publicly accessible media articles reported that Customer 83, together with another Star Qld customer:

- a. had dealings with a foreign organised crime syndicate; and
 - b. were senior figures in the foreign organised crime syndicate.
- j. Star Qld did not have adequate reason to believe that Customer 83's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 83 at Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, numerous media reports named Customer 83 as a person involved in an organised crime syndicate and criminal activity in Australia.

From at least 30 November 2016, Star Qld was aware of media reports suggesting Customer 83 was connected to organised crime.

Nevertheless, Star Qld was unaware of Customer 83's occupation or source of funds: SMR dated 18 January 2019. Star Qld has no basis to believe that Customer 83's source of funds or source of wealth were legitimate.

Star Qld's determination of the ML/TF risks posed by Customer 83

2177. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 83 appropriately because the risk-based procedures,

systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 83;

- a. On and from 30 November 2016, Customer 83 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules: see *Customer 83's risk profile* above.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 12 February 2020 that Customer 83 was rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 12 February 2020, Star Qld determined that Customer 83's ML/TF risk was very high, being high for the purpose of the Act and Rules.

Monitoring of Customer 83's transactions

2178. At no time did Star Qld apply appropriate transaction monitoring to Customer 83's transactions because, where Star Qld conducted any transaction monitoring of transactions involving Customer 83, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

On 9 January 2019, Star Qld conducted transaction monitoring in respect of Customer 83 following a chip cash out of \$9,000 on 2 January 2019.

The review, update and verification of Customer 83's KYC information

2179. Star Qld did not review, update and verify Customer 83's KYC information, having regard to the high ML/TF risks posed, because:
 - a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 83's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 83's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 83's source of wealth and source of funds were not legitimate: see *Customer 83's risk profile* above.

- d. to the extent that Star Qld reviewed Customer 83's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 83.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 83's high ML/TF risks

2180. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 83 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 83; and
- c. reviewing and updating Customer 83's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 83 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 83*.

ECDD triggers in respect of Customer 83

2181. Star Qld was required to apply the ECDD Programs to Customer 83 following any ECDD triggers in respect of Customer 83.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

2182. Customer 83:

- a. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

On 18 January 2019, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 83.

- b. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Qld.

Particulars

On 12 February 2020, Star Qld determined that the ML/TF risks posed by Customer 83 was high risk for the purpose of the Act and Rules: see *Star Qld's determination of the ML/TF risks posed by Customer 83* above.

2183. Each matter pleaded in paragraph 2182 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

2184. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 83 following an ECDD trigger because:

- a. on each occasion prior to 6 January 2021 that Star Qld conducted ECDD in respect of Customer 83 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 83 and the provision of designated services to Customer 83 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807 and 810 above.

On 1 March 2019, Star Qld conducted ECDD in respect of Customer 83: see particulars to paragraph 2184.c below.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 83's higher ML/TF risks: see *Customer 83's risk profile* above.

The ECDD conducted Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 83's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 83's source of wealth and source of funds were not legitimate: see *Customer 83's risk profile*.

- b. Customer 83 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 6 January 2021 that Customer 83 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 83 and the provision of designated services to Customer 83 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810.

In January 2019, a Star AML Administrator attempted to conduct a media search in respect of Customer 83 but could not access the full text of certain articles because Star did not have the required media subscription.

In January 2019 and February 2019, Customer 83 was discussed at JRAMMs.

The minutes of the meetings noted that Customer 83:

- a. was the subject of an exclusion order at Star Sydney;
- b. attended Star Gold Coast twice a year;
- c. had recorded a loss of \$76,000 on his most recent trip; and
- d. was suspected of involvement in criminal activity but had not been charged with an offence.

The meeting minutes recorded a recommendation that Star Qld issue Customer 83 with a WOL and his risk rating be elevated to critical.

Despite this:

- a. Customer 83 was not rated high risk for the purpose of the Act and Rules until 12 February 2020: see *Star Qld's determination of the ML/TF risks posed by Customer 83* above;
- b. by 6 January 2021, Customer 83's individual turnover in that year was \$446,293; and
- c. Star Qld did not issue Customer 83 with a WOL until 6 January 2021.

In March 2019, Customer 83 was the subject of ECDD and removed from discussion at future JRAMMs.

On 1 March 2019, the Chief Risk Officer determined that, as there had been no material change in circumstances in respect of Customer 83, to issue a WOL in respect of him would be a 'departure from [Star's longstanding practice]'. The Chief Risk Officer said that more was required to justify a WOL at Star Qld than exclusions at other casinos. This was despite the fact that, in the AML Administrator's email to the Chief Risk Officer,

she identified that Customer 83 was allegedly highly placed in an organised crime syndicate and was involved in extortion.

In October 2020, Customer 83 was the subject of annual due diligence which identified the significant adverse information concerning him and his connections to organised crime.

Contravention of s36 of the Act in respect of Customer 83

2185. By reason of the matters pleaded from paragraphs 2163 to 2184 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 83 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions:
s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2186. By reason of the matters pleaded at paragraph 2185, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 6 January 2021 with respect to Customer 83.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 84

2187. Customer 84 was a customer of Star Qld during the relevant period. Between 2016 and 2021, Star Qld recorded turnover exceeding \$300 million for Customer 84.

Particulars

Customer 84 was a customer of Star Qld from at least 23 August 1996.

On 10 December 2021, Star Qld issued a WOL in respect of Customer 84 at the direction of the Star GM of Financial Crime and Investigations for “undesirable behaviour”.

2188. Star Qld provided Customer 84 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 23 August 1996, Star Qld opened an FMA for Customer 84 under his primary account, which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 84 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 84's risk profile* below.

2189. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 84.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 84's risk profile

2190. On and from 30 November 2016, Customer 84, and the provision of designated services to Customer 84 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 84's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 84 had the following risk history:
- i. by at least July 2016, Star Qld was aware that Customer 84 had been subject to a law enforcement exclusion at Star Sydney since 2007;

Particulars

Customer 84 was excluded from Star Sydney on 24 July 2007 following a NSW exclusion order.

In July 2016, a JRAM meeting attended by senior management, including the Group Investigations Manager and the Chief Risk Officer noted that Customer 84 was excluded from Star Sydney. The minutes of the meeting noted that:

- a. a law enforcement agency had recently requested information relating to Customer 84's gaming records; and
- b. Customer 84 was excluded from Star Sydney following a NSW exclusion order.

The meeting also considered whether Customer 84's risk rating should be raised from medium to a high in light of the intelligence received.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 84;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 49 occasions between January 2009 and August 2016.

On 27 occasions, Star Qld noted that it considered that Customer 84 was carrying a large amount of cash on his person.

- iii. Customer 84 was connected to other customers at Star Qld, in respect of whom Star Qld had formed suspicions;

Particulars

Between 24 March 2010 and 3 August 2016, on at least nine occasions, Star Qld gave the AUSTRAC CEO an SMR noting suspicious transactions by Customer 84 and/or other Star Qld customers who were associated with Customer 84. The suspicious transactions included the following:

- a. other customers deposited cash into Customer 84's Star Qld account;
 - b. Customer 84 attended a private gaming room cashier at Star Gold Coast and deposited chips for cash. Customer 84 then gave some of the cash to an unknown male and then placed the remainder in a yellow envelope and provided the envelope to another person;
 - c. a customer deposited \$38,000 worth of \$50 notes, which were wrapped in rubber bands and slightly sticky, at Star Gold Coast for Customer 84. Customer 84 subsequently used these funds for gaming at Star Gold Coast;
 - d. a customer provided some of his chips at Star Gold Coast to Customer 84 and then both patrons proceeded to play on the same table;
 - e. Customer 84's brother deposited chips for cash at Star Gold Coast and advised that the chips were Customer 84's, despite Customer 84 denying this;
 - f. a customer presented chips at Star Gold Coast that were not supported by play and claimed that he was playing with Customer 84, despite the surveillance footage not supporting this;
 - g. a customer drew down from his CCF to obtain chips and provided \$50,000 worth of chips to Customer 84; and
 - h. a customer with no record of play deposited chips that he had indirectly received from Customer 84 for cash at Star Gold Coast.
- iv. Customer 84 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high individual rated turnover totalling \$32,294,010 for Customer 84 at Star Gold Coast;

Particulars

See paragraph 752 above.

- v. Star Qld was aware that Customer 84 had recorded large losses from gaming activity at Star Qld;

Particulars

On 25 March 2010, Star Qld conducted a review of Customer 84's play which showed that Customer 84 had lost \$426,900 in the

previous 90 days at Star Gold Coast. Star Qld considered this was a spike compared to his previous play: SMR dated 25 March 2010.

On 8 July 2011, Star Qld conducted a review of Customer 84's play on table games at Star Gold Coast for the 15 months from March 2010 to June 2011. The review indicated that Customer 84 had lost \$747,900 during this period, despite not playing for five of those months. Star Qld also noted that Customer 84's source of funds was not confirmed: SMR dated 8 July 2011.

On 14 June 2012, Star Qld conducted a review and noted that Customer 84 had lost \$124,150 for the month of June to date and \$192,150 in the last 90 days: SMR dated 14 June 2012.

From 7 to 16 April 2015, Star Qld recorded losses by Customer 84 at Star Gold Coast totalling \$359,400. The funds used by Customer 84 for this gameplay were telegraphic transfers and bank cheques: SMR dated 17 April 2015.

On 4 January 2016, Star Qld recorded that Customer 84 had lost \$553,000 at Star Gold Coast since 27 December 2015: SMR dated 4 January 2016.

- vi. Customer 84 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 4 May 2006 and 5 October 2016, Star Qld gave the AUSTRAC CEO 249 TTRs detailing transactions made by Customer 84 totalling \$13,965,450, including:

- a. 50 TTRs detailing account deposits totalling \$3,368,700;
- b. 30 TTRs detailing account withdrawals totalling \$4,705,000;
- c. 166 TTRs detailing chip and cash exchanges totalling \$5,581,750;
- d. one TTR detailing other monetary value in totalling \$20,000; and
- e. one TTR detailing other monetary value out totalling \$20,000.

Large and suspicious cash transactions between 2009 and 2016

Between January 2009 and early August 2016, Star Qld recorded that Customer 84 had engaged in transactions at Star Qld totalling at least \$14,000,000, including:

- a. \$3,227,350 in cash deposits by Customer 84;
- b. \$6,080,000 in cash withdrawals by Customer 84;
- c. \$2,830,000 in chip deposits by Customer 84; and
- d. \$2,344,000 in chip purchases by Customer 84.

- vii. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 84 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between January 2010 and March 2010, Customer 84 transferred \$300,000 from his personal bank account in Australia via telegraphic transfer. The funds were made available to Customer 84's Star Qld account: SMR dated 25 March 2010.

Between 11 January 2016 and 4 October 2016, Star Qld received 15 telegraphic transfers totalling \$277,000, each of which was made available to Customer 84's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 9 June 2014, Customer 84 transferred \$250,000 from his Star Qld account via telegraphic transfer to his personal bank account in Australia: SMR dated 10 June 2014.

On 13 June 2016, Customer 84 transferred \$50,000 from his Star Qld account via telegraphic transfer to his personal bank account in Australia: SMR dated 16 June 2016.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances involving third parties

See paragraphs 278 and 327 above.

On 15 January 2012, Customer 84 received \$20,000 into his Star Qld account from a third party company account in Australia: SMR dated 25 January 2012.

On 8 January 2009, Customer 84 received \$20,000 into his Star Qld account from an unknown account. Customer 84 informed Star Qld that only his initials were listed on the deposit as he did not want to put his name on the bank transfer, as then it could be easily traced by other parties and identified as his funds. Star Qld noted that historically Customer 84's deposits to his Star Qld account were made by unknown third parties, and very few deposits included Customer 84's details because he did not want them identified as his funds: SMR dated 13 January 2009.

Between 27 August 2011 and 1 August 2016, Customer 84 received at least 16 transfers totalling \$1,235,000 into his Star Qld account

from an unknown account. On three occasions, Star Qld noted in an SMR given to the AUSTRAC CEO that it did not know who sent the funds because the transfer was made via the internet.

Each of the above transactions was conducted through the Star Patron account channel.

- viii. Customer 84 transacted at Star Qld using bank cheques issued by Australian banks drawn in large amounts;

Particulars

Between 2011 and 2016, Customer 84 deposited eight bank cheques issued by Australian banks at Star Qld totalling \$2,075,000 including:

- a. on 2 July 2014, Customer 84 provided Star Gold Coast with a bank cheque for \$200,000 from an Australian bank. Star Qld was subsequently informed by its bank that the issuing Australian bank had dishonoured the cheque. Star Qld contacted the issuing Australian bank, which confirmed the cheque had been dishonoured: SMR dated 4 July 2014;
 - b. Customer 84 played at Star Gold Coast from 27 December 2015 to 17 January 2016. The funds provided by Customer 84 included four bank cheques from three different Australian banks, totalling \$550,000. Customer 84 recorded a loss of \$927,250 for the trip: SMR dated 20 January 2016; and
 - c. on 10 June 2016 Customer 84 attended Star Gold Coast and provided a \$50,000 bank cheque from an Australian bank. On 13 June 2016, Customer 84 provided a \$50,000 cheque from a different Australian bank. At the end of his play on 13 June 2016, Customer 84 made a telegraphic transfer to his personal bank account with a third Australian bank: SMR dated 16 June 2016.
- ix. Star Qld was aware that Customer 84 had engaged in large and unusual cash transactions, which had no apparent economic or visible lawful purpose; and

Particulars

2010

On 17 June 2010, Customer 84 withdrew \$100,000 from his FMA at Star Gold Coast. Customer 84 stated that he did not want a cheque as he was giving the funds to an unknown third party: SMR dated 17 June 2010.

2012

On 16 January 2012, Customer 84 withdrew \$100,000 in cash from his FMA at Star Gold Coast, which was supported by play. On 17 January 2012, Customer 84 returned to Star Gold Coast with \$100,000 in cash and deposited it into his FMA: SMR dated 17 January 2012.

2014

On 11 January 2014, Customer 84 attended the cashier at Star Gold Coast with two shopping bags, one inside the other, containing \$200,000 in \$50 and \$100 notes. The funds were deposited into Customer 84's Star Qld account and he used the funds for gaming: SMR dated 13 January 2014.

2015

On 7 January 2015, Customer 84 attended the private gaming room cage at Star Gold Coast with a pink suitcase. Customer 84 withdrew \$400,000 from his account and placed the funds into the suitcase. Customer 84 then attended a restaurant at Star Gold Coast where he met with six other people. At this time, Customer 84 had \$780,000 remaining in his account: SMR dated 7 January 2015.

On 13 January 2015, Customer 84 withdrew all of his funds from his FMA for cash and chips across several transactions. On 14 January 2015, Customer 84 bought chips with cash at the Star Gold Coast cage, using primarily \$50 notes. Star Qld noted that this was "new" money as Star Qld had given Customer 84 \$100 notes earlier in the evening. Customer 84 told staff that the \$50 notes were from a restaurant across the road: SMR dated 14 January 2015.

- x. by 30 November 2016, Customer 84 had been the subject of law enforcement enquiries at Star Qld;

Particulars

In around July 2016, Star Qld received a request from a law enforcement agency relating to Customer 84's gaming records.

On 19 January 2016 and 13 June 2016, the Star Qld AML team referred Customer 84 to a law enforcement agency.

Customer 84's risk profile from 30 November 2016

- b. Star Qld was aware that Customer 84 had been issued with a NSW exclusion order at Star Sydney;

Particulars

Customer 84 was excluded from Star Sydney on 24 July 2007 following a NSW exclusion order. As a result, Customer 84's membership card was deactivated.

In July 2016, a JRAM meeting noted that Customer 84 was excluded from Star Sydney. The meeting was attended by the senior management, including the Group Investigations Manager and the Chief Risk Officer.

On each occasion that Customer 84 attended Star Qld from 30 November 2016, Star Qld staff reactivated Customer 84's membership card to allow Customer 84 to receive gambling services. At the end of Customer 84's trip, Star Qld staff would change Customer 84's account status back to "Excluded NSW".

In January 2020, Star Qld conducted ECDD with respect to Customer 84. The ECDD Analyst noted (incorrectly) that Customer 84 appeared to have been excluded from Star Sydney in January 2018.

On 7 February 2020, an ECDD Analyst at Star Qld requested more information about the nature of Customer 84's exclusion from Star Sydney. The ECDD Analyst was provided with information from a Guest Support Manager which showed that Customer 84 had been excluded indefinitely from Star Sydney on 24 July 2007.

- c. Customer 84 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded a high and escalating individual rated turnover totalling \$307,624,330 for Customer 84;

Particulars

See paragraph 752 above.

In 2016, Customer 84's individual rated gaming turnover was \$35,188,091.

In 2017, Customer 84's individual rated gaming turnover was \$61,194,770.

In 2018, Customer 84's individual rated gaming turnover was \$89,837,058.

In 2019, Customer 84's individual rated gaming turnover was \$59,872,544.

In 2020, Customer 84's individual rated turnover was \$15,423,985.

In 2021, Customer 84's individual rated gaming turnover was \$46,107,882.

- d. between 2016 and 2021, Customer 84 received significant benefits and complimentary services from Star Qld;

Particulars

Between 28 December 2016 and 31 May 2021, Customer 84 received benefits and complimentary services at Star Qld including:

- a. 13 single play vouchers totalling \$120,000;
- b. two private jet trips from Melbourne to Queensland;
- c. limousine trips;
- d. Christmas lunches for Customer 84 and his family valued at \$10,000;
- e. a cake in the shape of a Rolex watch;
- f. a \$50,000 Rolex watch as a birthday gift; and
- g. football grand final private box tickets valued at \$6,100.

- e. between 2017 and 2021, Star Qld was aware that Customer 84 had recorded large losses from gaming activity at Star Qld;

Particulars

2017

On 22 February 2017, Star Gold Coast identified that Customer 84 had lost \$1,152,150 in January 2017 at Star Gold Coast and was one of the top patrons by loss at the tables. Star Gold Coast noted that the majority of the funds Customer 84 used for gaming were deposited into his account via bank cheques. Customer 84 had recorded a win of \$127,750 in December 2016 and no play in November 2016. On 22 February 2017, Star Qld gave the AUSTRAC CEO an SMR due to Customer 84's large loss in February 2017: SMR dated 22 February 2017.

2018

On 27 March 2018, Star Gold Coast identified that Customer 84 had lost \$286,150 in February 2018, \$232,300 in January 2018 and \$201,400 in December 2017. Star Qld noted that Customer 84 was one of the top patrons by loss at the tables in February 2018, and that there was no record of any recent significant win by Customer 84 to account for the losses, with Customer 84 recording a loss of \$61,000 for the period 1 July 2017 to 31 December 2017. Star Qld also noted that Customer 84's source of funds was not confirmed: SMR dated 27 March 2018.

On 14 June 2018, Star Gold Coast identified that Customer 84 had lost \$660,650 in the month of June 2018 to date. Customer 84 had also made losses in previous months of play. Customer 84 largely provided Star Gold Coast with funds via bank cheques, and Star Qld considered it odd that Customer 84 presented bank cheques at the same time that were drawn on different branches of the same bank. Star Qld noted that Customer 84 appeared to have fairly consistent large losses: SMR dated 14 June 2018.

On 26 July 2018, Star Gold Coast identified that Customer 84 had lost \$540,850 in June 2018 and was one of the top patrons by loss for June 2018 at Star Gold Coast. Star Qld also recorded that Customer 84 had lost \$28,950 in May 2018 and \$190,450 in April 2018, and \$1,283,350 since 1 January 2018. Star Qld received the majority of Customer 84's funds for this gaming as telegraphic transfers or bank cheques. Star Qld noted that Customer 84's losses appeared too large to sustain based on his occupation, which Star Qld understood to be "in business": SMR dated 26 July 2018.

On 28 September 2018, Star Gold Coast reviewed Customer 84's play and transactions since 1 August 2018, which showed a loss of \$209,100 since that time: SMR dated 28 September 2018.

2019

On 11 January 2019, Star Qld recorded that Customer 84 had lost \$381,100 at Star Gold Coast since 7 January 2019. Star Qld also observed that Customer 84 had access to large amounts of money very quickly: SMR dated 11 January 2019.

2021

On 22 July 2021, Star Gold Coast identified that Customer 84 had lost \$368,000 in June 2021. Star Qld noted that there was no record of any recent wins to account for the continued losses. Star Qld considered that Customer 84 had had large wins in previous years on occasions but soon lost again. The funds Customer 84 used for gaming in June 2021 appeared to be supplied via telegraphic transfers to Star's bank account. Star Qld considered that Customer 84's losses still appeared large for Customer 84: SMR dated 22 July 2021.

- f. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 84 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 5 December 2016 and 5 March 2020, Star Qld received 56 telegraphic transfers totalling \$2,084,000, each of which was made available to Customer 84's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 2 June 2019, Customer 84 transferred \$150,000 from his Star Qld FMA to his personal bank account in Australia: SMR dated 4 June 2019.

Between 9 April 2017 and 5 March 2020, Star Qld facilitated 36 telegraphic transfers totalling \$2,540,000 from Customer 84's FMA at Star Gold Coast to accounts at three Australian banks.

On 1 September 2019 and 21 December 2019, Star Qld facilitated two outgoing telegraphic transfers totalling \$270,000 from Customer 84's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances involving third parties

See paragraphs 278 and 327 above.

In June 2018, Customer 84 received three transfers totalling \$60,000 into his Star Qld account from an unknown account: SMR dated 14 June 2018.

In August 2018 and September 2018, Customer 84 received six transfers totalling \$130,000 into his Star Qld account from an unknown account: SMR dated 28 September 2018.

On 7 January 2019, Customer 84 received \$20,000 into his Star Qld account from an unknown account: SMR dated 11 January 2019.

On 25 March 2021, Customer 84 received \$100,000 into his Star Qld FMA from an unknown account: SMR dated 30 March 2021.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraph 347 to 349 above.

On 7 September 2019, Star Qld facilitated a transfer of \$25,000 from Star Gold Coast to Treasury Brisbane, which it made available to Customer 84's FMA.

- g. Customer 84, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and plastic bags at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 5 December 2016 and 16 July 2021, Star Qld gave the AUSTRAC CEO 236 TTRs detailing transactions made by Customer 84 totalling \$10,911,570, including:

- a. nine TTRs detailing account deposits totalling \$978,450;
- b. 10 TTRs detailing account withdrawals totalling \$735,000;
- c. 215 TTRs detailing chip and cash exchanges totalling \$9,077,120;
- d. one TTR detailing other monetary value out totalling \$100,000;
and
- e. one TTR detailing EGM payouts totalling \$21,000.

Large and suspicious cash transactions in 2017

On 13 January 2017, Customer 84 attended a cashier at Star Gold Coast with a shopping bag containing \$150,000 in cash, comprising \$108,500 in \$50 notes and \$41,500 in \$100 notes. Star Qld noted that the cash was bundled in an unusual way. It was bundled in "packs" with small rubber bands of around \$5,000. Each pack contained both \$50 and \$100 notes. Each denomination was

separated in bands and the separate denomination bundles were then banded together: SMR dated 13 January 2017.

Large and suspicious cash transactions in 2018

On 1 May 2018, Customer 84 arrived at the Sovereign Room cashier at Star Gold Coast with a blue cooler bag and handed it to the cashier. Inside the bag was another large plastic bag. That bag was full of \$50 notes in bundles of \$10,000 with a rubber band on each end. The cashier counted \$100,000, placed the cash into Customer 84's FMA and issued him with chips. The cashier then counted the remaining amount, \$98,950, and placed the amount into Customer 84's FMA. The cage noted that the \$50 notes may have previously been wet and when they dried the edges stuck together. The notes had to be "fanned" before they could be put into the machines for counting. Customer 84 took the \$100,000 in chips to the table and won \$65,000. He then returned to the cage, put the \$100,000 in chips back into his account and took the \$65,000 in winnings in \$100 notes. Early on 2 May 2018, Customer 84 returned to Star Gold Coast and took \$198,000 in chips from his FMA. Following play, Customer 84 walked away from the table with \$230,000. Customer 84 put \$100,000 in chips back into his FMA and then took \$125,000 in cash. On 2 May 2018, Star Qld gave the AUSTRAC CEO an SMR due to the large amount in \$50 notes that Customer 84 had supplied: SMR dated 2 May 2018.

Large and suspicious cash transactions in 2019

On Sunday, 17 February 2019, Customer 84 purchased \$15,000 in chips with cash at Star Qld. He also added \$2,200 in cash at the table, and lost it all shortly after. Star Qld then observed Customer 84 on the phone. Customer 84 then left the casino and returned less than an hour later with \$50,000 in cash in a plastic shopping bag, comprising \$18,900 in \$100 notes and \$31,100 in \$50 notes. Customer 84 purchased chips with the cash and lost it all quickly. Star Qld recorded two further instances of Customer 84 using \$20,000 in chips at a table. There was a record of Customer 84 using \$20,000 in cash to buy chips, but Star Qld was unable to ascertain where Customer 84 obtained the other \$20,000 from. Customer 84 lost all his funds that day totalling \$107,200. Star Qld lodged an SMR due to Customer 84 accessing cash at fairly short notice, particularly on a Sunday when banks were closed: SMR dated 19 February 2019.

On 2 June 2019, Customer 84 attended Star Gold Coast with a plastic bag containing \$150,000 cash in \$50 notes. The funds were placed into Customer 84's FMA and he was issued chips for the entire value. Customer 84 played for a short period and then walked away from the table with \$235,000 in chips. He deposited \$150,000 of the chips into his FMA and requested that it be immediately transferred to his personal bank account with a particular Australian bank. Star Qld recorded that Customer 84 was very concerned that

the money was transferred to the right bank, as he did not want the money to go to an account with another Australian bank. Later that day Customer 84 played more and then cashed out \$117,000 in chips.

On 3 June 2019, Customer 84 returned to Star Gold Coast with \$90,000 of the cash he had obtained on 2 June 2019. Some of the cash was presented in a white cardboard bag. Customer 84 engaged in play and lost the entire amount.

On 4 June 2019, Customer 84 presented \$150,000 cash in \$50 notes in a plastic bag and asked Star Qld to transfer that sum to a bank: SMR dated 4 June 2019.

Large and suspicious cash transactions in 2021

On 5 January 2021, Customer 84 handed a black bag with a Star logo to a cashier on the main gaming floor at Star Gold Coast. The bag contained \$149,500 in cash. All but two of the straps were Star's with dates that were supported by previous payouts made to Customer 84. However, Star Qld noted that the other two straps appeared to have come from a bank.

On 17 February 2021, Customer 98 attended Star Qld with a black and white bag containing \$150,000 in cash. The cash comprised \$25,000 in \$100 notes and the rest in \$100 notes. Star Qld recorded that \$75,000 of the \$100 notes were presented in a plastic heat-sealed bag and the remainder of the cash was in \$5,000 bundles wrapped in rubber bands. Customer 98 told the cashier that he got the cash from Customer 84 when he played with him the day before.

Customer 98 also stated that Customer 84 owed him another \$100,000: SMR dated 18 February 2021.

On 18 February 2021, Customer 84 attended a cashier at Star Gold Coast and handed over a shopping bag which contained cash in bundles of \$50 notes wrapped in rubber bands. Customer 84 stated that the cash was his savings. Customer 84 received chips for the entire amount and then played and won \$65,000. Customer 84 then returned to the cashier, bought back all of his \$50 notes and took the \$65,000 in \$100 notes with Star straps on them. He put the \$50 notes back in the shopping bag: SMR dated 19 February 2021.

On 25 March 2021, Customer 84 attended Star Gold Coast with another person. The other person was carrying a plastic shopping bag. Customer 84 appeared to sign the other person into the Sovereign Room reception, and both patrons entered the room. Customer 84 collected four \$25,000 plaques from the cashier, as \$100,000 had been deposited into his Star Qld FMA via a bank transfer. After Customer 84 lost the \$100,000 at the table, Customer 84 took the bag to the cashier and emptied the contents on the counter. Later, Customer 84 advised that the cash came from his savings. The cash was in multiple bundles of \$100 notes totalling \$149,000. Star Qld noted that the cash was bundled in a way that

was different to how casinos present cash, and that the straps appeared unusual and special and were made with a high quality paper. The straps were fastened by a heat seal with a computer encoded reference on each one. The straps were also all marked in the same place with an orange highlighter and dated 13 August 2019. Customer 84 collected \$149,000 worth of chips in exchange for the cash and returned to the table, where he lost the entire amount gaming: SMR dated 30 March 2021.

- h. on multiple occasions, Customer 84 engaged in suspicious transactions using bank cheques, including using bank cheques drawn on different branches of the same bank;

Particulars

See particulars to paragraph 2190.e.

Customer 84 attended Star Gold Coast between 11 August 2017 and 20 August 2017 and recorded a loss of \$258,400. Customer 84 used two different bank cheques totalling \$290,000. These cheques were drawn on two different branches of the same Australian bank: SMR dated 13 October 2017.

On 6 October 2017, Customer 84 attended Star Gold Coast and commenced play using a bank cheque for \$150,000 issued by an Australian bank: SMR dated 13 October 2017.

On 28 November 2018, Star Qld gave an SMR to the AUSTRAC CEO for Customer 84's continual use of bank cheques for gaming purposes. Since 28 September 2018, Customer 84 had supplied eight bank cheques to Star Gold Coast totalling \$1,200,000. These cheques were all from the same Australian bank but from different branches. Star Qld noted that it was not known who purchased the bank cheques, but that it seemed unusual. Star Qld also considered that Customer 84 often had large wins with his gaming habits and often took large amounts of cash, which he often then brought back in to play when he was losing. Customer 84 won approximately \$220,000 in September 2018 and October 2018, but lost \$286,000 in November 2018: SMR dated 28 November 2018.

On 7 January 2019, Customer 84 supplied Star Gold Coast with a bank cheque for \$450,000 issued by an Australian bank in exchange for chips. Customer 84 subsequently provided two further bank cheques for \$80,000 and \$300,000, the latter of which was from a different Australian bank. Customer 84 also informed Star Qld staff verbally on 11 January 2019 that an Australian bank had closed his bank accounts, but did not explain why: SMR dated 11 January 2019.

On 28 December 2019, Customer 84 provided Star Gold Coast with a bank cheque for \$700,000 issued by an Australian bank. Star Qld noted that this was unusual as Customer 84 had advised staff in January 2019 that the issuing Australian bank was closing all his accounts. After January 2019, all of the funds Star Qld received for

Customer 84 were from another Australian bank. In around late November 2019 or early December 2019, Customer 84 told Star Qld staff that he was again looking for another Australian bank, as his new Australian bank was also going to close his accounts: SMR dated 3 January 2020.

On 24 December 2020, Customer 84 phoned Star Gold Coast and advised that he wanted to bring in a bank cheque for \$500,000 on Christmas Day. Star Qld noted that the conversation was odd, as Customer 84 initially said he was in Melbourne but later said he was on the Gold Coast. Customer 84 subsequently provided a bank cheque for \$500,000 issued by an Australian bank. Star Qld did not know the account name on which the cheque was drawn, or whether Customer 84 was a party to that account. Customer 84 used the funds from the bank cheque for gaming: SMR dated 30 December 2020.

- i. Customer 84 was connected to other customers at Star Qld, including players who Star Qld considered had acted suspiciously, such as Customer 98;

Particulars

See particulars to paragraph 2190.g above.

2016

On 2 December 2016, Star Qld's investigations team was aware that a guest that Customer 84 had signed into a private gaming room on 1 December 2016 had notoriety as a hitman.

2018

On 1 July 2018, Customer 98 withdrew two lots of \$50,000 in cash chips within a short period at Star Gold Coast and handed them straight to Customer 84. Later that night, Customer 98 withdrew \$19,000 in cash from his account, put it in an envelope and stated that it was the third time that month he was giving Customer 84 cash.

On 2 July 2018, Customer 84 approached the Sovereign Cage at Star Gold Coast with \$60,000 in cash chips. He then provided two lots of \$10,000, and asked for the total amount of \$80,000 to be quickly added to his account. Customer 84 stated that he owed Customer 98 \$100,000 and that Customer 98 had phoned him that morning to ask where the money was. Star Qld conducted a review of Customer 98's FMA and threshold transaction records, which supported those amounts being taken out in cash the previous month. Star Qld noted that it did not know the nature of the relationship between Customer 98 and Customer 84: SMR dated 10 July 2018.

On 11 December 2018 and 8 January 2019, a customer sent a telegraphic transfer of \$15,000 to Star Qld. On each occasion, Star Qld credited his FMA. On 10 January 2019, the customer attended Star Gold Coast on an individual rebate program. He withdrew \$20,000 in cash chips and \$10,000 in premium chips which had to be

used on an individual rebate program. Star Qld recorded that this appeared unusual to staff, especially as the customer was on a rebate program. The customer was observed by staff taking the \$20,000 in cash chips to a table and giving them to Customer 84, who was already at the table. Star Qld's play records did not support the customer using the cash chips, and Customer 84's account suggested that Customer 84 received \$18,000 in chips at this time. Star Qld recorded that it did not know the connection, if any, between the Customer 84 and the customer, and noted that the withdrawal by the customer of the cash chips and premium chips was unusual due to there being no record of the customer using the chips: SMR dated 11 January 2019.

- j. in 2020 and 2021, Customer 84 was the subject of law enforcement enquiries on at least four occasions at Star;

Particulars

On two occasions between November 2016 and January 2017, the Star Qld AML team made a referral to a law enforcement agency with respect to Customer 84.

On 27 May 2020, Star Qld responded to a notice from a government regulator with respect to Customer 84.

On 8 December 2020, Star Qld received two requests with respect to Customer 84 from a law enforcement agency and provided a response.

On 21 January 2021, Star Qld received a request with respect to Customer 84 from a law enforcement agency, and provided a response. Star Qld also forwarded its response to another law enforcement agency.

On 1 February 2021, Star Qld received a request from the Star Sydney Investigations team to assist with a request from a law enforcement agency with respect to Customer 84. Star Qld provided a response.

- k. Customer 84 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

From at least 27 September 2011, Customer 84 had access to a private gaming room at Star Gold Coast: SMR dated 28 September 2011.

From at least 14 January 2015, Customer 84 signed guests into a private gaming room at Star Gold Coast: SMR dated 14 January 2015.

From at least 1 May 2018, Customer 84 had access to the Sovereign Room at Star Gold Coast: SMR dated 2 May 2018.

- I. by January 2020, Star Qld was aware of media articles which reported that Customer 84 was associated with individuals involved in domestic organised criminal syndicates and had pleaded guilty to receiving insider information;

Particulars

By 8 January 2020, Star Qld obtained media articles indicating that Customer 84 was associated with high profile individuals involved in domestic organised criminal syndicates, including Person 39. Star Qld noted that, according to open sources, Customer 84 and Person 39 were business associates and specialised in debt collection and industrial mediation.

Open source media articles had reported on Customer 84's association with individuals involved in domestic organised criminal syndicates since at least 2008.

In October 2019, media reports stated that Customer 84 had pleaded guilty in court to receiving information from an insider for the purposes of placing a multi-bet. Customer 84 was fined and no conviction was recorded.

- m. between October 2007 and October 2021, a number of widely accessible media reports named Customer 84 as a person involved in money laundering, scams and associating with domestic organised criminal syndicates;

Particulars

Publicly accessible media articles from October 2007 to October 2021 included:

- a. a 2008 article that reported on details of an investigation by a law enforcement agency into Customer 84 and other key figures. By September 2008, a company owned by Customer 84 was named by the law enforcement agency in an Australian court as being involved in an alleged money-laundering scheme that also included a number of suspicious loans;
- b. a 2012 article that reported on a cover audit by a government agency into Customer 84's brother, as a result of information from third parties about his unexplained accumulation of significant assets;
- c. articles published between 2010 and 2012 that reported on details of Customer 84's alleged involvement in a scam that was the subject of Australian court proceedings;
- d. a 2016 article that reported that Customer 84 was named in a law enforcement agency report in 2003 as a person who regularly associated with individuals involved in domestic organised criminal syndicates;
- e. an October 2021 article that reported on details of an intelligence probe into Customer 84 that was conducted by law enforcement agencies in 2017 and uncovered large amounts of money

moving between Customer 84's Star Gold Coast account between 2010 and 2017; and

- f. an October 2021 article that reported that, despite Customer 84 being banned from Star Sydney due to his organised crime associations, he had been wooed for years by Star Gold Coast and given luxury gifts, flights and accommodation in return for his turnover at the casino.

Star Qld's due diligence records did not contain details of these reports.

- n. in June 2022, open source media reported claims by Customer 84 that Star Gold Coast had given him benefits to game there, despite him being banned from Star Sydney; and

Particulars

In June 2022, publicly accessible media articles published the following claims by Customer 84:

- a. over the past 14 years, Star Gold Coast had given him a \$50,000 gold watch, event tickets, the use of a private jet on two occasions, dinners involving luxury ingredients such as Patagonian toothfish, accommodation and chips in return for his frequent attendance at Star Gold Coast; and
 - b. Star Qld provided benefits to Customer 84 after he was banned from Star Sydney.
- o. Star Qld did not have adequate reason to believe that Customer 84's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 84 at Star Qld.

Particulars

See paragraph 808 above.

By at least 26 July 2018, Star Qld understood Customer 84's occupation to be "in business": SMR dated 26 July 2018.

On 7 February 2020, following ECDD on Customer 84, the Compliance Manager, Group Risk, Compliance and Assurance asked for a source of wealth update for Customer 84. By that time Star Qld had recorded turnover exceeding \$240,000,000 between 2016 and 2019 for Customer 84.

An ECDD Analyst made internal enquiries regarding Customer 84's source of wealth on the same day. The Star Qld Vice President of Sales and Marketing Tables responded saying that Customer 84 was a property developer.

The ECDD Analyst advised that Customer 84's occupation did not support his source of wealth and additional information and supporting evidence of his occupation was needed.

Between February 2020 and January 2021:

- a. Star Qld recorded further turnover exceeding \$15,000,000 for Customer 84;
- b. Customer 84 presented at least \$149,500 in cash to exchange for chips; and
- c. Customer 84 presented a large bank cheque of \$500,000 and used the funds for gaming, in circumstances where Star did not know the account name on which the cheque was drawn, or whether Customer 84 was a party to that account.

See Customer 84's risk profile above.

In January 2021, a mandatory note was added to Customer 84's Synkros profile seeking source of wealth information before transactions would be processed.

On 8 January 2021, Customer 84 provided Star Qld with a cut-off screenshot of a statement and stated that he was the director of a company.

On 11 January 2021, a Star staff member forwarded Customer 84's cut-off screenshot to the AML/CTF Compliance Officer and raised concerns regarding the approach taken by Star staff members to seeking source of wealth information from customers, noting that there was conflict between the business and the AML team regarding such enquiries in relation to high value patrons such as Customer 84.

On 12 January 2021, the AML/CTF Compliance Officer agreed that Customer 84's cut off screenshot was insufficient evidence of Customer 84's source of wealth. The AML/CTF Compliance Officer also noted that he had spoken to the Star marketing team to indicate that players like Customer 84 who were excluded in one state may be subject to exclusion in another state.

By at least 20 September 2021, Star Qld understood that Customer 84 was also the director and secretary of a further six companies. By that time, Customer 84 had turned over a further \$46,000,000 at Star Qld since January 2021, and Star Qld had reported more than \$1,695,650 in threshold transactions between 11 January 2021 and 15 July 2021.

Star Qld's determination of the ML/TF risks posed by Customer 84

2191. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 84 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 84.
- a. On and from 30 November 2016, Customer 84 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 84's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 7 February 2020 that Customer 84 was rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 7 January 2015, Customer 84 was rated medium risk in respect of his primary account held by Star Qld, being medium for the purpose of the Act and Rules.

It was not until 25 July 2015 that Star Qld rated Customer 84 medium risk in respect of a second account held by Star Qld, being medium for the purpose of the Act and Rules.

On 7 February 2020, Customer 84 was rated critical risk in respect of his primary account, being high for the purpose of the Act and Rules.

On 15 July 2020, Customer 84 was rated very high, being high for the purpose of the Act and Rules.

At all times from 30 November 2016, Customer 84 had been excluded from Star Sydney since 24 July 2007 following a NSW exclusion order.

Monitoring of Customer 84's transactions

2192. At no time did Star Qld apply appropriate transaction monitoring to Customer 84's transactions because:
- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 84, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 84 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Qld provided designated services to Customer 84 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 84's KYC information

2193. Star Qld did not review, update and verify Customer 84's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 84's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 84's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 84's source of wealth and source of funds were not legitimate: see *Customer 84's risk profile*.

- d. to the extent that Star Qld reviewed Customer 84's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 84.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 84's high ML/TF risks

2194. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 84 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 84; and
- c. reviewing and updating Customer 84's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 84 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 84*.

ECDD triggers in respect of Customer 84

2195. Star Qld was required to apply the ECDD Programs to Customer 84 following any ECDD triggers in respect of Customer 84.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1), 15.9(3) and 15.10 of the Rules.

2196. Customer 84:

- a. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

Between January 2017 and July 2021, Star Qld gave the AUSTRAC CEO 20 SMRs relating to Customer 84.

- b. was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Qld.

Particulars

On 7 February 2020, Star Qld determined that the ML/TF risks posed by Customer 84 was high risk for the purpose of the Act and Rules in respect of his primary account: see *Star Qld's determination of the ML/TF risks posed by Customer 84* above.

2197. Each matter pleaded in paragraph 2196 was an ECDD trigger.

Particulars

See paragraphs 792, 798, 799 and 801 above.

2198. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 84 following an ECDD trigger because:

- a. on each occasion prior to 10 December 2021 that Star Qld conducted ECDD in respect of Customer 84 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 84 and the provision of designated services to Customer 84 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, and 807 to 810 above.

On 19 February 2019, 8 January 2020, 23 July 2021 and 20 September 2021, Star Qld conducted ECDD in respect of Customer 84.

On 8 January 2020, the ECDD screening in respect of Customer 84 identified that:

- a. publicly available information identified that Customer 84 was associated with individuals involved with domestic organised crime syndicates, including Person 39, and had a long-term business association with Person 39;
- b. Star Qld had given the AUSTRAC CEO several SMRs which reported that Customer 84 had provided suspicious cash to Star Qld; and
- c. Customer 84 appeared to have been excluded from Star Sydney in January 2018 (which was incorrect).

The ECDD Analyst escalated the matter to the Compliance Manager, Group Risk, Compliance and Assurance.

On 11 January 2020, the Compliance Manager, Group Risk, Compliance and Assurance reviewed the ECDD conducted in respect of Customer 84 and asked whether Customer 84 had any charges or convictions recorded against him.

On 13 January 2020, the ECDD Analyst replied that Customer 84 had used insider information to place a bet.

On 7 February 2020, the Compliance Manager, Group Risk, Compliance and Assurance suggested that Customer 84's risk rating should be at least high, and he should be added to the PAMM agenda.

On or around 22 July 2021, Star Qld conducted ECDD in respect of Customer 84. The ECDD screening in respect of Customer 84 identified that:

- a. whilst media searches returned multiple articles referencing Customer 84's close business association to an individual involved with domestic organised crime syndicates, Person 39, there were no adverse findings relating directly to Customer 84;
- b. Customer 84's source of wealth was his directorship of a company that specialised in debt collection, industrial mediation, and residential property development;
- c. Star Qld gave the AUSTRAC CEO 21 SMRs with respect to Customer 84 between 2016 and March 2021; and
- d. Customer 84 was discussed at a JRAM meeting in 2016, which noted that he was the subject of enquiries from a law enforcement agency and had been excluded from Star Sydney following a NSW exclusion order.

By July 2021, publicly available media articles published in 2016 had reported Customer 84 was named in a law enforcement agency report in 2003 as a person who regularly associated with individuals

involved in domestic organised criminal syndicates: see *Customer 84's risk profile*.

On 20 September 2021, the ECDD screening in respect of Customer 84 identified that, in addition to the matters identified in July 2021:

- a. Customer 84 was the director and secretary of seven different companies registered in Victoria; and
- b. Customer 84 had pleaded guilty to using insider information to place a bet in 2019 and received a fine.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 84's higher ML/TF risks: see *Customer 84's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 84's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 84's source of wealth and source of funds were not legitimate: see *Customer 84's risk profile*.

It was not until 10 December 2021 that Star Qld issued a WOL in respect of Customer 84, and it was not until 16 December 2021 that the JRAM determined to formally issue a group-wide WOL in respect of Customer 84.

- b. Customer 84 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 10 December 2021 that Customer 84 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 84 and the provision of designated services to Customer 84 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

By January 2020, the Compliance Manager, Group Risk, Compliance and Assurance was aware of:

- a. media articles that reported that Customer 84 was associated with individuals involved in domestic organised crime syndicates; and
- b. Customer 84 had pleaded guilty to using insider information to place a bet.

On 7 February 2020, the Compliance Manager, Group Risk, Compliance and Assurance suggested that Customer 84's risk rating should be at least high, and he should be added to the PAMM agenda.

From 7 February 2020, Customer 84 was rated high risk by Star Qld in respect of his primary account.

However, Customer 84 was not added to the PAMM agenda until 13 October 2021.

In January 2021, in response to concerns raised regarding the approach taken by Star staff members to seeking source of wealth information, the AML/CTF Compliance Officer expressed concerns that the cut off screenshots provided by Customer 84 on 8 January 2021 (see *Customer 84's risk profile* above) were insufficient evidence of Customer 84's source of wealth, and noted that he had spoken to the Star marketing team to indicate that players like Customer 84 who were excluded in one state may be subject to exclusion in another state.

However, Star Qld's due diligence records suggest that no further steps were taken until July 2021.

In July 2021, the Due Diligence Manager considered the ECDD conducted in respect of Customer 84, which reported that a JRAM meeting in 2016 had identified that Customer 84 was the subject of law enforcement interest and was excluded from Star Sydney.

The Due Diligence Manager drafted a recommendation that Customer 84 be added to the PAMM agenda for monitoring when he attended Star Qld, and then escalated the decision to the AML/CTF Compliance Officer.

On 11 August 2021, the AML/CTF Compliance Officer determined to maintain Star's relationship with Customer 84. The AML/CTF Compliance Officer noted that Customer 84 could be added to the watchlist or the PAMM agenda, and he was satisfied that Star could maintain a relationship with Customer 84.

In determining that a business relationship could be continued, the AML/CTF Compliance Officer did not have regard to:

- a. Customer 84's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high turnover;
- b. Customer 84's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 84'S risk profile* above.

On 23 September 2021, the Due Diligence Manager reviewed the ongoing customer due diligence conducted in respect of Customer 84, escalated the decision to the AML/CTF Compliance Officer and recommended that a WOL be issued with respect to Customer 84.

The Due Diligence Manager noted that Customer 84 was excluded from Star Sydney as well as another Australian casino, and that he was concerned that Customer 84 was engaging in money laundering, based on the SMRs given by Star Qld to the AUSTRAC CEO.

Between October 2021 and December 2021, Customer 84 was discussed at JRAM and PAMMs.

The minutes of the JRAM meeting on 14 October 2021 noted that:

- a. the JRAM had decided to issue Customer 84 with a private gaming room ban at both Qld properties; and
- b. the Group Investigations Manager and another Star staff member would request a face to face discussion with Customer 84 to discuss the allegations contained in open source media and to review his source of wealth.

On 25 October 2021, the AML/CTF Compliance Officer recorded the decision to issue a group-wide WOL with respect to Customer 84 in Star's due diligence systems.

The decision noted that the AML/CTF Compliance Officer wanted to interview Customer 84 before actioning and issuing the group-wide WOL, and was comfortable that the restrictions on travel due to COVID-19 provided an appropriate risk mitigation strategy in the interim.

The minutes of the JRAM meeting on 28 October 2021 noted that Customer 84's private gaming room ban had been issued.

The minutes of the PAMM on 11 November 2021 noted that:

- a. the Group Investigations Manager was to contact Customer 84, however due to COVID-19 the meeting was likely to be held in Melbourne once borders opened; and
- b. Customer 84 would remain on the PAMM agenda.

The minutes of the JRAM meeting on 18 November 2021 noted that Customer 84 was to remain on the JRAM agenda until further advice was received.

However, it was not until 10 December 2021, Star Qld issued a WOL in respect of Customer 84.

It was not until 16 December 2021 that the JRAM determined to formally issue a group-wide WOL in respect of Customer 84.

On 13 January 2022, the PAMM noted that the Group Investigations Manager had held a face to face meeting with Customer 84 at the Gold Coast that day.

The outcome of that meeting was not recorded, however the PAMM minutes noted that Customer 84 had been excluded on 16 December 2021.

On 8 May 2022, Star Qld received a notice of direction to exclude Customer 84 pursuant to s94 of the *Casino Control Act 1982* (Qld) from a law enforcement agency.

On 9 May 2022, Star Qld issued a notification of exclusion to Customer 84 pursuant to s94 of the *Casino Control Act 1982* (Qld).

Contravention of s36 of the Act in respect of Customer 84

2199. By reason of the matters pleaded from paragraphs 2187 to 2198, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 84 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2200. By reason of the matters pleaded at paragraph 2199, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 16 December 2021 with respect to Customer 84.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 85

2201. Customer 85 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$1.9 billion for Customer 85.

Particulars

Customer 85 was a customer of Star Sydney from at least 1 July 2007.

On 19 July 2021, Star Sydney issued a WOL in respect of Customer 85 at the direction of the General Manager Social Responsibility.

2202. Star Sydney provided Customer 85 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

By 2008, Star Sydney had opened an FMA and SKA for Customer 85, which were closed on 15 October 2021 (item 11, table 3, s6 of the Act).

Between September 2016 and 8 August 2019, Star Sydney approved permanently active CCFs for Customer 85 on 10 occasions ranging from \$3,000,000 to \$4,000,000 with an additional trip only limit of \$1,000,000 (item 6, table 1, s6 of the Act).

Star Sydney remitted money through high risk international remittance channels including the Hotel Card channel, which it made available to Customer 85 (items 31 and 32, table 1, s6 of the Act).

See Customer 85's risk profile below.

2203. Customer 85 was a customer of Star Qld during the relevant period. In 2019, Star Qld recorded turnover exceeding \$3.8 million for Customer 85.

Particulars

Customer 85 was a customer of Star Qld from at least 19 August 2012.

On 11 August 2021, Star Qld issued a WOL in respect of Customer 85.

2204. Star Qld provided Customer 85 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 25 March 2019, Star Qld opened an FMA for Customer 85, which was closed on 15 July 2021 (item 11, table 3, s6 of the Act).

Between 25 March 2019 and 8 August 2019, Star Qld approved permanently active CCFs for Customer 85 on three occasions ranging from \$3,000,000 to \$5,000,000 with an additional trip only limit of \$1,000,000 (item 6, table 1, s6 of the Act).

See *Customer 85's risk profile* below.

2205. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 85.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 85's risk profile

2206. On and from 30 November 2016, Customer 85, and the provision of designated services to Customer 85 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 85's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 85 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 85;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 64 occasions between 25 January 2005 and 6 January 2016.

The SMRs reported large cash transactions and chip and cash exchanges, including transactions indicative of structuring, large buy-ins using bank cheques, and transactions involving third parties.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 85;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on one occasion on 15 July 2010.

Between 12 July 2010 and 14 July 2010, Customer 85 deposited three bank cheques totalling \$600,000, losing the majority of the funds. Star Qld formed suspicions with respect to Customer 85 due to the spike in play: SMR dated 15 July 2010.

- iii. Customer 85 received high value financial and gambling services (tables 1 and 3, s6) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$251,728,157 for Customer 85;

Particulars

See paragraph 752 above.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 85 by remitting large amounts of money into the casino environment via his account, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

Between 18 November 2014 and 1 November 2016, Customer 85 received a total of \$99,200,000 through the Hotel Card channel across at least 144 transactions, including:

- a. at least \$12,000,000 on 4 April 2015;
- b. at least \$11,000,000 around 6 April 2015;
- c. a total of \$47,000,000 for the 2016 financial year; and
- d. a further \$2,950,000 across two transactions on 21 October 2016 and 1 November 2016.

During this period, Customer 85 was provided with temporary CCFs by Star Sydney, including up to \$23,000,000 on one occasion approved by the Chief Executive Officer and the Group General Counsel, while waiting for the funds obtained through the Hotel Card channel to clear.

On 6 April 2015, Customer 85 signed a counter-cheque made out to Star Sydney, drawn on the overseas bank linked to the debit cards used for his Hotel Card channel transactions. Star Sydney was aware that Customer 85 did not hold a cheque account with his overseas bank, such that it could not rely on the counter-cheque for payment if the Hotel Card transaction was rejected.

On 13 April 2015, Star Sydney issued a two week ban on the use of the Hotel Card channel by Customer 85.

On the same day, Star Sydney suspected that Customer 85 was using another customer as a proxy to use the Hotel Card channel. Nevertheless, Star Sydney approved a further Hotel Card channel transaction of \$5,000,000 by that customer despite these suspicions.

By May 2015, Star Sydney was aware of the following matters:

- a. that Customer 85 had at least 23 debit cards used for his Hotel Card channel transactions linked to accounts in other jurisdictions;
- b. Star employees, including the General Manager Credit & Collections, had raised concerns that Customer 85 was abusing the Hotel Card channel, including by using proxies and asking Star employees to conduct Hotel Card channel swipes on Customer 85's behalf; and
- c. Customer 85's gaming activity did not support the amount of funds they had withdrawn via the Hotel Card channel.

Customer 85 was the first ranked user of the Hotel Card channel by total value of monies transferred at Star Sydney during the period the channel was active between 2013 and 2020.

Other remittances into the casino environment

See paragraph 327 above.

Between 3 October 2015 and 24 October 2015, Star Sydney received three telegraphic transfers totalling \$2,920,000, each of which was made available to Customer 85's account.

Each of the above transactions was conducted through the Star Patron account channel.

- v. Customer 85, and persons acting on behalf of Customer 85, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 20 February 2006 and 2 November 2016, Star Sydney gave the AUSTRAC CEO 270 TTRs totalling \$19,344,688, including:

- a. two TTRs detailing account deposits made by Customer 85, totalling \$100,000;
- b. two TTRs detailing account withdrawals made by Customer 85, totalling \$100,000;
- c. 73 TTRs detailing buy-ins to a game made by Customer 85;
- d. eight TTRs detailing cheque redemptions made by Customer 85;
- e. 173 TTRs detailing chip and cash exchanges made by Customer 85, totalling at least \$6,598,940;
- f. six TTRs detailing other monetary value in or out made by Customer 85, totalling \$12,147,776; and
- g. five TTRs detailing purchases of foreign currency made by Customer 85.

2008 – 2015

On 24 occasions between 13 May 2008 and 5 January 2016, Customer 85 exchanged at least \$3,465,000 in chips for cash at Star Sydney.

On 4 September 2012, Customer 85 withdrew \$100,000 from their FMA, which was regarded by Star Sydney as suspicious due to the large amount of cash involved.

Between 14 February 2014 and 12 October 2015, a number of third parties exchanged chips for cash on behalf of Customer 85, or used chips suspected to be obtained from Customer 85, at Star Sydney totalling at least \$492,455 across five transactions.

On 25 May 2015, Customer 85 made a number of requests to the Star Sydney cage, including to cash out \$80,000 and \$90,000 in cash, to draw a \$2,000,000 non-winnings cheque to a friend without gaming ratings, and to cash out a further \$25,000 to the same friend without gaming ratings.

On 26 May 2015, a Star Sydney cage staff member sent an email to the Star Sydney Cashier Services Manager advising of Customer 85's attempt to cash out \$25,000 to his friend and raising concerns that:

- a. while the cage was speaking to the Manager (Credit & Collections) regarding the transaction, another senior Star Sydney staff member, the Chief Operating Officer, Gaming demanded that the cage staff member release the \$25,000 in cash to Customer 85; and
- b. when met with resistance, the senior Star staff member insisted that the cage staff pay Customer 85 because he was a \$20 million player and he didn't want to jeopardise Star Sydney's relationship with him.

2016

Between 5 January 2016 and 29 September 2016, Customer 85 and a number of third parties using chips suspected to be obtained from Customer 85, exchanged chips for a total of \$590,000 in cash at Star Sydney:

- a. on 5 January 2016, Customer 85 exchanged \$100,000 in chips for cash;
 - b. on 29 March 2016, Customer 85 exchanged \$250,000 in chips for cash;
 - c. on 10 September 2016, a third party exchanged \$100,000 in chips for cash, in circumstances where Star Sydney believed that Customer 85 had provided the third party with the chips: SMR dated 12 September 2016; and
 - d. on 29 September 2016, Customer 85 exchanged \$140,000 in chips for cash.
- vi. Customer 85 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 23 July 2010, Star Qld gave the AUSTRAC CEO one TTR detailing chip and cash exchanges made by Customer 85 totalling \$37,972.

- vii. Customer 85, and persons associated with Customer 85, engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring and cashing-in large value chips with no evidence of play at Star Sydney;

Particulars

See paragraph 25 above.

2015

In 2015, Customer 85 held at least \$20,500,000 in Star plaques, worth \$500,000 each.

Between 3 May 2015 and 18 June 2015, third parties connected to Customer 85 were involved in transactions indicative of the ML/TF typology of cashing-in large value chips with no evidence of play:

- a. between 4 May 2015 and 6 May 2015, a third party deposited two plaques of \$500,000, totalling \$1,000,000, into her FMA, despite only having turnover of \$15,000. Star Sydney suspected the plaques had come from Customer 85. The third party queried whether they could take a Star cheque at the end of their stay and negotiate with it overseas; and
- b. on 18 June 2015, a third party presented a \$100,000 plaque, suspected to have been provided by Customer 85, and requested a non-winnings cheque.

By 26 May 2015, Star Sydney formed suspicions that Customer 85 was distributing plaques in their possession to other players, who would then cash them in, sometimes without evidence of play. At this point, Star Sydney was aware that Customer 85:

- a. held at least \$14,000,000 in plaques at their home;
- b. would ask Star employees to approve transfers through the Hotel Card channel, which he would use to redeem his CCFs, without using the plaques he held at his home; and
- c. Customer 85's requests for transfers through the Hotel Card channel exceeded his losses from gaming activity.

Between 5 October 2015 and 9 October 2015, a third party deposited an unknown amount of chips and cash into their FMA, indicating that the funds were provided by Customer 85 for them to play with but that they did not have time to play. The third party requested the funds be sent via telegraphic transfer to their overseas bank account.

- viii. Star Sydney was aware that Customer 85 had engaged in large and unusual transactions which had no apparent economic or visible lawful purpose;

Particulars

In April 2015, Star Sydney provided Customer 85 with winnings cheques worth \$5,150,000, in circumstances where it was aware that Customer 85 had only won \$3,481,650.

On 26 May 2015, Customer 85 presented plaques which had been in their possession since April 2015 and requested two non-winnings cheques from Star Sydney for \$2,000,000 and \$12,000,000, respectively.

- ix. between 10 July 2015 and 28 August 2016, Star Sydney provided Customer 85 with significant amounts of credit upon request, up to limits of \$4,500,000;

Particulars

See paragraphs 516 to 518 and 552 above.

Between 10 July 2015 and 28 August 2016, Star Sydney provided Customer 85 with CCFs between \$210,000 and \$4,500,000 on 27 occasions.

On at least 24 occasions, the CCF was provided on a temporary basis while funds obtained through the Hotel Card channel were cleared, and was approved by senior management at Star, including the Chief Executive Officer and the Chief Financial Officer.

- x. by February 2015, Star Sydney had added Customer 85 to the agenda of the PAMM; and

Particulars

See paragraph 810 above.

On 12 February 2015, a meeting of the PAMM considered Customer 85's profile, noted their occupation was recorded as 'company director' but that there were questions regarding their occupation, and instructed that Star Sydney's investigator was to investigate.

- xi. between March 2016 and October 2016, Customer 85 was the subject of law enforcement enquiries on two occasions at Star;

Particulars

In October 2016, Star Sydney received a request from a law enforcement agency for information regarding Customer 85's associates.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

Customer 85's risk profile from 30 November 2016

- b. Customer 85 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2021, Star Sydney recorded high individual rated turnover totalling \$1,975,293,512 for Customer 85;

Particulars

See paragraph 752 above.

In 2016, Customer 85's individual rated turnover was \$785,082,044.

In 2017, Customer 85's individual rated turnover was \$512,109,909.

In 2018, Customer 85's individual rated turnover was \$157,599,994.

In 2019, Customer 85's individual rated turnover was \$272,301,084.

In 2020, Customer 85's individual rated turnover was \$85,444,596.

In 2021, Customer 85's individual rated turnover was \$162,755,884.

- c. Customer 85 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2019, Star Qld recorded high turnover on individual rebate programs totalling \$3,812,250 for Customer 85 with losses of \$28,250;

Particulars

See paragraph 623 above.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 85 by remitting large amounts of money into and within the casino environment via his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

On 12 January 2017 and 21 January 2017, Customer 85 transacted a total of \$3,000,000 through the Hotel Card channel and was given a temporary CCF while waiting for the funds to clear that was approved by the Star Chief Executive Officer.

In February 2017, Customer 85 transacted a total of \$900,000 through the Hotel Card channel in two transactions.

On 24 February 2018, Customer 85 transacted \$800,000 through the Hotel Card channel and was given a temporary CCF while waiting for the funds to clear.

Other remittances into the casino environment

See paragraph 327 above.

On 30 May 2018, Star Sydney received a telegraphic transfer of \$1,130,995, which it made available to Customer 85's account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 3 June 2017, Customer 85 received \$1,900,000 into their Star Sydney FMA from another customer's FMA. Following receipt of the funds, Customer 85 arranged for \$1,000,000 to be transferred for the purpose of redeeming their outstanding CCF, \$100,000 to be provided to him in cash and \$800,000 to be provided to him in a Star cheque.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6) to Customer 85 by remitting large amounts of money within the casino environment via his account;

Particulars

See paragraphs 347 to 349 above.

For example, on 16 April 2019, Star Qld received a transfer of \$230,000 from Star Sydney, which Star Qld made available to Customer 85's FMA at Star Gold Coast.

- f. designated services provided to Customer 85 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 2016 and 2020, Star Sydney recorded that Customer 85 had played for at least 34 hours on EGMs, with turnover of \$232,606.

- g. Customer 85, and persons acting on behalf of Customer 85, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 12 December 2016 and 25 June 2021, Star Sydney gave the AUSTRAC CEO 77 TTRs detailing transactions made by Customer 85 totalling \$7,216,750, including:

- a. 63 TTRs detailing chip and cash exchanges made by Customer 85 totalling \$6,367,750; and
- b. 12 TTRs detailing account withdrawals made by Customer 85 totalling \$639,000.

2017

Between 12 January 2017 and 3 December 2017, Customer 85, and a number of third parties using chips suspected to be obtained from Customer 85, engaged in cash and chip exchanges at Star Sydney totalling \$1,115,400:

- a. on 12 January 2017, Customer 85 withdrew \$100,000 in cash from their FMA;
- b. on 19 January 2017, Customer 85 exchanged \$105,400 in chips for cash;
- c. on 31 March 2017, Customer 85 exchanged \$100,000 in chips for cash, in circumstances where Star Sydney was aware that Customer 85 held a large number of plaques;
- d. on 11 May 2017, Customer 85 exchanged \$100,000 in chips for cash;
- e. on 23 May 2017, Customer 85 exchanged \$100,000 in chips for cash;
- f. on 25 May 2017, Customer 85 handed a third party a \$100,000 plaque, which the third party then exchanged for cash. The third party then placed \$50,000 into two black bags and provided one to a couple outside the casino and the other to Customer 85:
SMR dated 26 May 2017;
- g. on 6 June 2022, Customer 85 withdrew \$100,000 in cash from their FMA and then left the premises;
- h. on 12 June 2017, Customer 85 exchanged \$125,000 in chips for cash;
- i. on 24 August 2017, Customer 85 exchanged \$105,000 in chips for cash;
- j. on 25 August 2017, Customer 85 withdrew \$30,000 in cash from their FMA and exchanged \$50,000 in chips for cash, and a third party withdrew \$100,000 in cash from her FMA at Star Sydney. Customer 85 and the third party gave the cash to another third party who left the premises with the cash in a bag: SMR dated 28 August 2017;
- k. on 29 August 2017, Customer 85 exchanged \$100,000 in chips for cash;
- l. on 18 October 2017, Customer 85 engaged in a chip and cash exchange of \$80,000, withdrew \$100,000 from their FMA and then left the premises at Star Sydney; and
- m. on 3 December 2017, Customer 85 exchanged \$100,000 in chips for cash.

2018

Between 24 February 2018 and 30 December 2018, Customer 85 engaged in cash and chip exchanges at Star Sydney totalling \$2,386,350:

- a. on 24 February 2018, Customer 85 exchanged \$100,000 in chips for cash;
- b. on 2 May 2018, Customer 85 exchanged \$143,750 in chips for cash;
- c. on 5 July 2018, Customer 85 exchanged \$169,000 in chips for cash;
- d. on 6 July 2018, Customer 85 exchanged \$173,600 in chips for cash;
- e. on 16 September 2018, Customer 85 exchanged \$100,000 in chips for cash;
- f. on 29 September 2018, Customer 85 exchanged \$100,000 in chips for cash;
- g. on 30 September 2018, Customer 85 exchanged \$100,000 in chips for cash, in circumstances where he had recorded turnover of \$4,610,000 with losses of \$899,700 that day;
- h. on 8 October 2018, Customer 85 exchanged \$100,000 in chips for cash, in circumstances where he had recorded turnover of \$7,065,550 with losses of \$724,970 that day;
- i. on 17 October 2018, Customer 85 exchanged \$100,000 in chips for cash;
- j. on 18 October 2018, Customer 85 exchanged \$100,000 in chips for cash;
- k. on 19 October 2018, Customer 85 exchanged \$100,000 in chips for cash, in circumstances where he had recorded turnover of \$2,375,200 with losses of \$49,950 that day;
- l. on 21 October 2018, Customer 85 exchanged \$100,000 in chips for cash, in circumstances where he had recorded turnover of \$15,258,000 with losses of \$847,650 that day;
- m. on 11 December 2018, Customer 85 exchanged \$200,000 in chips for cash, in circumstances where he recorded turnover of \$3,587,000 and had lost \$205,000 during gameplay that day.
Star Sydney suspected that the chips provided were from Customer 85's stockpile at their home: SMR dated 12 December 2018;
- n. on 12 December 2018, Customer 85 exchanged \$200,000 in chips for cash;

- o. on 23 December 2018 and 24 December 2018, Customer 85 exchanged a total of \$400,000 in chips for cash, in circumstances where he had lost \$800,000 during gameplay across those two days at Star Sydney. Star Sydney suspected that the chips provided were from Customer 85's stockpile at their home: SMR dated 27 December 2018; and
- p. on 30 December 2018, Customer 85 exchanged \$200,000 in chips for cash, in circumstances where he had lost \$234,000 during gameplay the previous day. Star Sydney suspected that the chips provided were from Customer 85's stockpile at their home: SMR dated 4 January 2019.

2019

Between 7 January 2019 and 31 October 2019, Customer 85 engaged in cash and chip exchanges at Star Sydney totalling \$600,000:

- a. on 7 January 2019, Customer 85 exchanged \$200,000 in chips for cash;
- b. on 8 January 2019, Customer 85 exchanged \$200,000 in chips for cash, in circumstances where he had recorded turnover of \$14,754,250 and lost \$1,999,950 during gameplay over the previous 24 hours. Star Sydney suspected that the chips provided were from Customer 85's stockpile at their home: SMR dated 9 January 2019;
- c. on 27 August 2019, Customer 85 exchanged \$100,000 in chips for cash; and
- d. on 31 October 2019, Customer 85 exchanged \$100,000 in chips for cash.

2020

Between 25 October 2020 and 9 December 2020, Customer 85 engaged in cash and chip exchanges at Star Sydney totalling \$700,000:

- a. on 25 October 2020, Customer 85 exchanged \$200,000 in chips for cash;
- b. on 21 November 2020, Customer 85 exchanged \$100,000 in chips for cash;
- c. on 22 November 2020, Customer 85 exchanged \$100,000 in chips for cash;
- d. on 5 December 2020 and 6 December 2020, Customer 85 exchanged a total of \$200,000 in chips for cash, in circumstances where he had recorded turnover of \$8,509,300 with wins of \$155,000 that day; and

- e. on 9 December 2020, Customer 85 exchanged \$100,000 in chips for cash after he had recorded turnover of \$16,830,300 with losses of \$359,900.

2021

Between 7 January 2021 and 12 February 2021, Customer 85 engaged in cash and chip exchanges at Star Sydney totalling \$400,000:

- a. on 7 January 2021, Customer 85 exchanged \$100,000 in chips for cash, in circumstances where he had recorded turnover of \$7,673,000 with wins of \$56,000 that day;
- b. on 9 January 2021, Customer 85 exchanged \$100,000 in chips for cash;
- c. on 11 January 2021, Customer 85 exchanged \$100,000 in chips for cash. Star Sydney noted that Customer 85 had recorded turnover of \$9,212,040 with losses of \$794,000 that day, but had requested the exchange of chips for cash at a time when he was recording a win; and
- d. on 12 February 2021, Customer 85 exchanged a \$100,000 plaque for cash, in circumstances where he had recorded turnover of \$708,750 with losses of \$28,000 that day.

See also particulars to paragraph 2206.d.

- h. Customer 85 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 27 March 2019 and 30 December 2019, Star Qld gave the AUSTRAC CEO two TTRs detailing account withdrawals made by Customer 85 totalling \$210,000.

Large and suspicious transactions in 2019

On 27 March 2019, Customer 85 attended Star Qld and drew down \$4,000,000 from a CCF. Customer 85 then used the funds for gaming, recorded a win of \$380,000 and deposited \$200,000 in chips to their FMA, which he subsequently withdrew in cash.

- i. Customer 85, and persons associated with Customer 85, engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including cashing-in large value chips with no evidence of play at Star Sydney;

Particulars

See paragraph 25 above.

Between 11 May 2017 and 12 February 2021, Customer 85, and third parties connected to Customer 85, were involved in the following transactions:

- a. on 11 May 2017, a third party deposited \$2,000,000 in chips into her FMA, in circumstances where Star Sydney believed that Customer 85 had provided the third party with the chips. Two days later, the third party requested that Star Sydney transfer the funds to an overseas casino;
- b. on 5 August 2017, a third party exchanged a \$25,000 plaque for cash, in circumstances where the third party had advised Star Sydney that he was Customer 85's solicitor and had been given the plaque by Customer 85, and the third party had no recorded gameplay at Star Sydney;
- c. between 17 June 2017 and 7 August 2017, a third party deposited \$295,000 in chips into her FMA, in circumstances where the third party had recorded turnover of \$85,550 since 1 January 2017 and Star Sydney suspected that the chips had been obtained by the third party from Customer 85;
- d. on 10 April 2018, a third party exchanged \$125,000 in chips for cash on behalf of Customer 85, in circumstances where Customer 85 had no recorded gameplay at Star Sydney in March 2018;
- e. on 30 May 2019, Customer 85 exchanged \$100,000 in chips for cash, in circumstances where Customer 85 had no recorded gameplay at Star Sydney in May 2019;
- f. on 15 November 2020, third parties exchanged \$20,000 in chips which Star Sydney suspected had been obtained from Customer 85 for cash, in circumstances where the third parties had no recorded gameplay at Star Sydney; and
- g. on 12 February 2021, a third party exchanged \$102,525 in chips for cash, in circumstances where Star Sydney did not believe the third party's gameplay supported the cash out but suspected that the third party had obtained some of the chips from Customer 85.

See also particulars to paragraph 2206.g.

- j. in 2017, Customer 85 was the subject of law enforcement enquiries on one occasion at Star;

Particulars

On 14 June 2017, Star Sydney provided information to a law enforcement agency in respect of Customer 85.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database.

Star Qld had access to the investigations database: see paragraph 49 above.

- k. Customer 85 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 85 had access to the Sovereign Room at Star Qld.

- l. Customer 85 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 85 had access to the Chairman's Room, Oasis, Lakes Salon and Springs Salon at Star Sydney.

- m. in 2018, Star Sydney responded to a request for information from an Australian government agency;

Particulars

In June 2018, Star Sydney's investigation team responded to a request for information from an Australian government agency.

- n. by 16 July 2021, Star Sydney and Star Qld were aware that an Australian government agency was taking action against Customer 85; and

Particulars

On 16 July 2021, Star Sydney and Star Qld were issued a garnishee notice in respect of Customer 85's assets held by Star.

Following receipt of the garnishee notices, on 19 July 2021, Star Sydney and Star Qld issued a WOL against Customer 85 at the direction of the General Manager, Social Responsibility.

- o. Star Sydney and Star Qld did not have adequate reason to believe that Customer 85's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 85 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

During the relevant period, Star Sydney and Star Qld recorded Customer 85's occupation as 'company director'. Star Sydney and Star Qld were aware that Customer 85 also owned a prestigious property in Sydney, which he had purchased for over \$39,000,000.

At no time did Star Sydney and Star Qld appropriately review the nature of Customer 85's business with each of them, in circumstances where it appeared that Customer 85 was using the

casinos to obfuscate the movement of funds. During this period,
Customer 85:

- a. had a recorded turnover from gaming activity exceeding \$1.2 billion between 2016 and 2021;
- b. stockpiled large volumes of CVIs, including chips and plaques, at times up to a value of \$20 million, which he also provided to third parties;
- c. cashed in large amounts of gaming chips in exchange for cash, in circumstances where there was no corresponding gaming activity, which is an ML/TF typology; and
- d. was a prolific user of the Hotel Card channel, which was a non-transparent and high risk channel through which Star Sydney made available large amounts of money to Customer 85, including \$99,200,000 by 30 November 2016 and \$4,700,000 in 2017.

By June 2018, Star Sydney and Star Qld were aware that an Australian government agency and other LEAs had commenced investigations into Customer 85.

Following receipt of the garnishee notices from the Australian government agency, on 19 July 2021, Star Sydney and Star Qld issued a WOL against Customer 85 at the direction of the General Manager, Social Responsibility.

See *Customer 85's risk profile* above.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 85

2207. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 85 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 85.
- a. On and from 30 November 2016, Customer 85 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 85's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Act and Rules.

- b. At no time was Customer 85 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 10 April 2014, Customer 85 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 21 August 2014, Customer 85 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 85 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 85's transactions

2208. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 85's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 85, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 85 through:

- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. an international remittance channel, specifically the Hotel Card channel.

Particulars

See paragraphs 777 and 790 above.

The review, update and verification of Customer 85's KYC information

2209. Star Sydney and Star Qld did not review, update and verify Customer 85's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Programs did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 85's business with each of them, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 85's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out at above, there were real risks that Customer 85's source of wealth and source of funds were not legitimate: see *Customer 85's risk profile* above.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 85's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 85.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

Failure to appropriate due diligence suited to Customer 85's high ML/TF risks

- 2210. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 85 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 85; and
- c. reviewing and updating Customer 85's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 85 at a time before the date of the ECDD triggers below: see *ECDD triggers in respect of Customer 85*.

- 2211. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 85 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 85; and
- c. reviewing and updating Customer 85's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 85 as a high risk customer for the purpose of the Act and Rules at a time before Customer 85 was issued with a WOL at Star Qld.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

On 11 August 2021, Star Qld issued a WOL in respect of Customer 85.

2212. Had Star Qld rated Customer 85 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 85 at a time before Customer 85 was issued with a WOL at Star Qld.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 85

2213. Star Sydney was required to apply the ECDD Programs to Customer 85 following any ECDD triggers in respect of Customer 85.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2214. Customer 85 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 15 May 2017 and 15 February 2021, Star Sydney gave the AUSTRAC CEO 12 SMRs with respect to Customer 85.

2215. The matter pleaded in paragraph 2214 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2216. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 85 following an ECDD trigger because:

- a. on each occasion prior to mid-2021 that Star Sydney conducted ECDD in respect of Customer 85 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 85 and the provision of designated services to Customer 85 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 30 May 2019, 27 August 2019 and 12 February 2021, Star Sydney conducted ECDD in respect of Customer 85.

Star Sydney did not record any adverse findings from the ECDD screenings in respect of Customer 85.

By reason of the matters set out above, there were real risks that Customer 85's source of wealth and source of funds were not legitimate: see *Customer 85's risk profile* above.

Following receipt of garnishee notices from an Australian government agency, on 19 July 2021, Star Sydney issued a WOL against Customer 85 at the direction of the General Manager, Compliance and Responsible Gambling.

- b. Customer 85 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to mid-2021 that Customer 85 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 85 and the provision of designated services to Customer 85 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

There are no records of senior management consideration following an ECDD trigger in Star Sydney's due diligence records relating to Customer 85.

Contravention of s36 of the Act in respect of Customer 85

2217. By reason of the matters pleaded from paragraphs 2201 to 2216, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 85 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2218. By reason of the matters pleaded at paragraph 2217, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 19 July 2021 with respect to Customer 85.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2219. By reason of the matters pleaded from paragraphs 2201 to 2216, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 85 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and

b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2220. By reason of the matters pleaded at paragraph 2219, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 11 August 2021 with respect to Customer 85.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 86

2221. Customer 86 was a customer of Star Sydney during the relevant period. Between 2018 and 2020, Star Sydney recorded turnover exceeding \$180 million for Customer 86.

Particulars

Customer 86 was a customer of Star Sydney from 28 July 2012.

2222. Star Sydney provided Customer 86 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket player.

Particulars

On 8 September 2019, Star Sydney opened an FMA and SKA for Customer 86 both of which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 86 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 86's risk profile* below.

2223. Customer 86 was a customer of Star Qld during the relevant period. Between 2017 and 2021, Star Qld recorded turnover exceeding \$670 million for Customer 86.

Particulars

Customer 86 was a customer of Star Qld from at least 19 August 2012.

2224. Star Qld provided Customer 86 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 22 July 2018, Star Qld opened a CWA for Customer 86, which remains open.

On 9 September 2019, Star Qld opened an FMA for Customer 86 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 86 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 86's risk profile* below.

2225. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 86.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 86's risk profile

2226. On and from 30 November 2016, Customer 86 and the provision of designated services to Customer 86, posed higher ML/TF risks because of the following red flags:
- a. Customer 86 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;
 - i. in 2020, Customer 86 was recorded as a player on one junket at Star Sydney operated by Customer 95; and
 - ii. in 2020, Star Sydney recorded high turnover totalling \$11,691,342 with wins of \$264,150 for Customer 86's gaming activity on that junket program;
 - b. designated services provided to Customer 86 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- c. Customer 86 was connected to other customers, including junket funders, junket operators, junket representatives and junket players at Star Sydney and Star Qld, including customers in respect of whom Star Sydney and Star Qld had formed suspicions such as Customer 87, Customer 95 and Customer 94;

Particulars

Customer 86 often engaged in suspicious transactions with his wife, Customer 87, at Star Sydney and Star Qld: see particulars to paragraphs 2226.g, 2226.j, 2226.k, 2226.l and 2226.m below.

Customer 86 played on junket programs in Star Sydney that were operated by Customer 95: see paragraph 2226.a above. Customer 94 was a junket representative and junket player on these programs.

- d. Customer 86 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2020, Star Sydney recorded high and escalating turnover totalling \$169,294,070 for Customer 86; and
 - i. between 2018 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$18,314,715 for Customer 86; and

Particulars

See paragraph 752 above.

In 2018, Customer 86's individual rated turnover was \$176,359.

In 2019, Customer 86's individual rated gaming turnover escalated to \$16,080,029.

In 2020, Customer 86's individual rated turnover of \$2,058,328.

- ii. in 2019, Star Sydney recorded high turnover on individual rebate programs totalling \$150,979,355 for Customer 86, with losses of \$75,720;

Particulars

See paragraph 623 above.

- e. Customer 86 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$ 670,655,741 for Customer 86;

Particulars

See paragraph 752 above.

In 2017, Customer 86's individual rated turnover was \$598,211 at Star Gold Coast and \$4,360,684 and at Treasury Brisbane.

In 2018, Customer 86's individual rated turnover was \$5,311,090 at Star Gold Coast and \$21,053,481 at Treasury Brisbane.

In 2019, Customer 86's individual rated turnover was \$492,714,013 at Star Gold Coast and \$48,186,994 at Treasury Brisbane.

In 2020, despite the COVID-19 pandemic closures, Customer 86's individual rated turnover was \$32,303,724 at Star Gold Coast and \$66,127,544 at Treasury Brisbane.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 86 by remitting large amounts of money into and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

On 29 December 2019, Customer 86 received two transfers totalling \$350,000 into his Star Sydney account from an unknown account.

On 30 December 2019, Customer 86 received \$200,000 into his Star Sydney account from an unknown account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

See particulars to paragraph 2226.g below.

- g. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) including by remitting large amounts of money into, out of and within the casino environment via his accounts;

Particulars

Remittances involving third parties

See paragraph 327 above.

See particulars to paragraphs 2226.k and 2226.l below.

Other remittances into the casino environment

See paragraphs 278 and 327 above.

See particulars to paragraph 2226.k below.

Between September 2019 and December 2019, Star Qld received at least 14 telegraphic transfers totalling at least \$2,259,990, each of which was made available to Customer 86's FMA at Star Gold Coast.

Between November 2019 and July 2020, Star Qld received at least six telegraphic transfers totalling at least \$745,000, each of which was made available to Customer 86's FMA at Treasury Brisbane.

On 16 December 2019, Star Qld received \$1,000,000 from an unknown account, which it made available to Customer 86's Star Qld account.

On 14 October 2020, Star Qld received \$300,000 an unknown account, which it made available to Customer 86's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

For example, on 25 November 2019, Star Qld transferred \$300,000 from Customer 86's Star Qld account to his personal bank account overseas. On 2 December 2019, Star Qld was informed by the overseas bank that the funds were being returned on religious grounds. Following consideration by senior management, including the Group Manager AML/CTF and Financial Crime, Star Qld noted that it intended to advise Customer 86 that it would no longer accept instructions from him to transfer funds overseas: SMR dated 3 December 2019.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 23 September 2019 and 13 December 2019, Star Qld facilitated three transfers totalling \$335,026 from Treasury Brisbane to Star Gold Coast, each of which was made available to Customer 86's FMA at Star Gold Coast.

Between 21 September 2019 and 21 November 2019, Star Qld facilitated six transfers totalling \$1,000,000 from Star Gold Coast to Treasury Brisbane, each of which was made available to Customer 86's FMA at Treasury Brisbane.

Between September 2019 and January 2020, Star Qld received four transfers totalling \$1,916,046 from Star Sydney, each of which was made available to Customer 86's FMA at Treasury Brisbane.

On 22 September 2019, Star Qld received a transfer of \$700,000 from Star Sydney, which it made available to Customer 86's FMA at Star Gold Coast.

Between 6 September 2019 and 24 September 2019, Star Qld facilitated three transfers totalling \$510,000 from Customer 86's FMA at Treasury Brisbane to Star Sydney.

On 22 September 2019, Star Qld facilitated a transfer of \$1,000,000 from Customer 86's FMA at Star Gold Coast to Star Sydney.

On 7 January 2020, Customer 86 transferred \$530,054 from his Star Sydney FMA to his Star Qld FMA. On the same day, Customer 86's wife, Customer 87 transferred \$250,007 from her Star Sydney FMA to her Star Qld FMA: SMR dated 8 January 2020.

- h. designated services provided to Customer 86 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

TTRs

Between 12 July 2019 and 10 September 2019, Star Qld gave the AUSTRAC CEO six TTRs detailing EGM payouts to Customer 86 totalling \$153,645.

- i. designated services provided to Customer 86 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

Between 21 March 2017 and 19 October 2020, Star Qld gave the AUSTRAC CEO 65 TTRs detailing EGM payouts to Customer 86 totalling \$1,615,930.

See particulars to paragraphs 2226.l and 2226.m below.

On 23 July 2018, Customer 86 exchanged three EGM vouchers totalling \$104,755 for cash at Star Qld. Star Qld considered it to be a large amount of cash to be withdrawn at once: SMR dated 24 July 2018.

- j. from July 2019, Customer 86, and his wife Customer 87, transacted using large amounts of cash and cash that appeared suspicious, at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 12 July 2019 and 14 October 2019, Star Sydney gave the AUSTRAC CEO 20 TTRs totalling \$3,099,350 detailing transactions involving Customer 86.

Large and suspicious cash transactions in 2019

Between 8 September 2019 and 11 September 2019, Customer 86 was the sole player on a rebate program at Star Sydney. On 11 September 2019, Customer 86 requested \$264,296 in cash for the settlement of the program. Following the transaction, Customer 87 and Customer 86 divided the cash between them. Star Sydney noted that this was Customer 86's largest cash transaction since becoming a patron of Star Sydney, and considered the large cash transaction to be suspicious: SMR dated 12 September 2019.

On 24 September 2019, Customer 86 deposited \$300,000 in cash into his Star Sydney account for a subsequent buy-in. The cash comprised of \$100 notes with straps from Treasury Brisbane dated 22 September 2019. Star Sydney noted that Customer 86 was on an active program, and on 24 September 2019 he recorded a turnover of \$791,000 with a win of \$571,500 on table games. Whilst Customer 86's play supported the amount of cash presented, Star Sydney considered the amount of cash to be unusually excessive: SMR dated 25 September 2019.

On 25 September 2019, Customer 86 conducted five chip to cash transactions at Star Sydney totalling \$874,750. Star Sydney noted that Customer 86 was currently on a program and whilst Customer 86's play appeared to support the amount of chips obtained, Star Sydney considered the amount of cash to be excessively large and unusual: SMR dated 26 September 2019.

On 28 September 2019, Customer 87 presented \$300,000 in cash to Star Sydney which she exchanged for cash chips. Customer 87 asked whether she could purchase non-negotiable chips for another player and was advised by Star Sydney that this was not allowed. Customer 87 returned shortly after with a black bag which contained \$500,000 in cash comprised of \$100 notes bundled with Star straps,

which she also exchanged for cash chips. Star Sydney identified that the cash had been paid to Customer 86 as winnings from gameplay the previous day.

Later on 28 September 2019, Customer 86 returned to Star Sydney in possession of the \$800,000 in cash chips issued to Customer 87, with \$300,000 of the cash chips used to buy-in to gameplay and the remaining \$500,000 in cash chips exchanged for non-negotiable chips. Customer 86 then requested an additional account withdrawal of \$490,000 in cash. He then returned approximately an hour later to deposit a further \$500,000 in cash, bundled with Star straps dated 27 September 2019: SMR dated 30 September 2019.

Between 29 December 2019 and 7 January 2020, Customer 86 and Customer 87 played at Star Sydney on rebate programs. Customer 87 mainly played on EGMs, with some minor play on tables until 2 January 2020. Customer 86 recorded a loss of \$372,475, however he earned significant commission from his play and he took some of this commission in chips. On 2 January 2020, Customer 87 deposited \$250,000 in chips into her Star Sydney FMA. Star considered that the chips for this deposit came from Customer 86's commission. On the same day, Customer 87 made buy-ins totalling \$300,000 in chips, which were not supported by her play. However, Star noted that the buy-ins were supported by Customer 86's play: SMR dated 8 January 2020.

- k. Customer 86 and his wife Customer 87, had engaged in large and unusual transactions and patterns of transactions involving telegraphic transfers, which had no apparent economic or visible lawful purpose, at Star Qld;

Particulars

2019

On 4 November 2019, Customer 86 received \$170,000 into his Star Qld FMA from a bank account held by Company 3. At the time, Star Qld understood that Customer 86 was linked to Company 3.

Customer 86 withdrew the entire amount in chips. Customer 86 recorded over an hour of play, and then returned to exchange \$100,000 of these chips for cash. Star Qld noted that Customer 86 recorded a win of \$5,000, and it did not know where the remaining chips were. Later that evening, Customer 86 recommenced play and deposited \$100,000 in chips into his Star Qld FMA. He recorded a win of \$46,000: SMR dated 5 November 2019.

On 9 December 2019, Customer 86 received \$1,000,000 into his Star Qld account from Customer 87's company's bank account, Company 3. Star Qld noted that company records held by an Australian government regulator indicated that Customer 87 was the sole director of Company 3. Customer 86 used the funds to gamble. Star Qld noted that Customer 86 had recorded winnings of \$1,400,000 at Star Gold Coast since 1 January 2018, however he had recorded

losses of \$4,000,000 at Star Sydney and Treasury Brisbane over that same period: SMR dated 13 December 2019.

On 26 November 2019, Customer 87 received \$500,000 into her Star Qld account from an unknown account. On 29 November 2019, Customer 87 received three transfers totalling \$600,000 into her Star Qld account from an unknown account. On each of these occasions, Customer 87 withdrew the money as chips and handed the chips to her husband Customer 86: SMR dated 3 December 2019.

On 30 November 2019, Customer 87 received \$600,000 into her Star Qld FMA from an unknown account. Customer 87 then withdrew the entire amount as chips and provided them to Customer 86. Later that day, Customer 87 returned to the cashier with \$600,000 in chips and requested a casino cheque. Star Qld declined this request on the basis that Customer 87 had no record of play and questioned whether the chips belonged to Customer 87 or Customer 86. Star Qld noted that this question had been asked of Customer 87 previously. After Star Qld refused to give Customer 87 a casino cheque, Customer 87 accused staff of making her feel like a criminal: SMR dated 3 December 2019.

On 26 December 2019, Customer 87 transferred \$100,000 from her company's bank account, Company 3, to Star Qld. The \$100,000 was then made available to her Star Qld account. Customer 87 withdrew the funds from her account as chips. Customer 87 appeared to use \$5,000 of those chips for gambling herself, and provided the remaining \$95,000 in chips to Customer 86. Star Qld considered that Customer 87 and Customer 86 were moving funds from Company 3's bank account for Customer 86 to gamble with. Customer 86 would then deposit the money into his casino account under his name or exchange it for larger cash outs: SMR dated 27 December 2019.

2020

On 7 January 2020, Customer 86 transferred \$530,054 from his Star Sydney FMA to his Star Qld FMA. On the same day, Customer 86's wife Customer 87 transferred \$250,007 from her Star Sydney FMA to her Star Qld FMA. Customer 87 then withdrew \$150,000 in chips from her funds. Star Qld's records for Customer 87 showed play on EGMs with a loss of \$30,000. Customer 86 recorded a chip buy-in of \$150,000 very shortly after Customer 87 withdrew the \$150,000 in chips from her account. Star Qld had no record of Customer 86 cashing out any chips, however it recorded Customer 87 making five chip cash outs the following day, on 8 January 2020, totalling \$281,000: SMR dated 8 January 2020

Despite concerns raised by the AML/CTF Administrator as to whether Star Qld should accept telegraphic transfers from Customer 87's Australian company where the funds were used by Customer 86 for gambling (see particulars to paragraph 2234.c), Star Qld continued to

accept transfers from Customer 87's company bank account in 2020, including:

- a. on 13 February 2020, Customer 86 received \$100,000 into his Star Qld account from Company 3's bank account. Customer 86 withdrew the sum in chips. Customer 86 then returned to the cashier with \$140,000 and exchanged it for cash. Star Qld reviewed Customer 86's records, which indicated he had won \$35,000. Star Qld considered it unusual that Customer 86 wanted to exchange all the chips for cash: SMR dated 14 February 2020;
 - b. on 4 March 2020, Customer 86 received \$300,000 into his Star Qld account from Company 3's bank account. Customer 86 withdrew the sum in chips: SMR dated 6 March 2020;
 - c. on 4 July 2020, Customer 86 received \$20,000 into his Treasury Brisbane FMA from Company 3's bank account. On 5 July 2020, Customer 86 received three transfers totalling \$120,000 into his Treasury Brisbane FMA from Customer 87's company's bank account. On 9 July 2020, Customer 86 used the funds to gamble and recorded a loss of \$32,000. Customer 86 then exchanged \$104,874 in chips for cash: SMR dated 10 July 2020; and
 - d. on 10 July 2020, Customer 86 received \$1,000,000 into his Star Gold Coast FMA from Company 3's bank account. Star Qld considered this amount to be a large increase from that provided by the company to Treasury Brisbane in the previous days: SMR dated 10 July 2020; and
 - e. on 16 October 2020, Customer 86 received two transfers totalling \$300,000 into his Star Qld account from Company 3's bank account. On 20 October 2020, Star Qld noted that this cash had not yet been exchanged. It queried whether Customer 86 was banking the cash back to Customer 87's company: SMR dated 20 October 2020.
- I. Customer 86 and Customer 87 transacted using large amounts of cash and cash that appeared suspicious at Star Qld, including large volumes of cash wrapped in rubber bands or in black plastic bags, and appeared to be using multiple gambling services at Star Qld to avoid attracting suspicion;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 8 March 2017 and 20 October 2020, Star Qld gave the AUSTRAC CEO 236 TTRs totalling \$13,159,568 detailing transactions involving Customer 86.

Large and suspicious cash transactions in 2018

On 6 October 2018, Customer 86 presented \$50,000 in cash to Star Qld. The cash comprised of \$100 notes with Star Qld straps dated September 2017. Customer 86 deposited \$30,000 into his CWA, and exchanged \$20,000 for chips. About four hours later, Customer 86 returned with another \$50,000 in cash and exchanged it for chips. Star Qld noted that Customer 86's table play on 5 October 2018 and 6 October 2018 indicated a loss of \$151,000. Star Qld considered this loss to be significant: SMR dated 9 October 2018.

Large and suspicious cash transactions in 2019

In January 2019, Star Qld noticed that Customer 86 and Customer 87 were using multiple gambling services at Star Qld to engage in cash transactions in a manner that made it difficult for it to track their transactions.

On 25 January 2019, the following transactions occurred (SMR dated 31 January 2019):

- a. Customer 87 exchanged \$80,000 in cash for chips at Star Qld, but did not subsequently record any table play;
- b. Customer 86 redeemed an EGM voucher for \$9,583, which had been issued to Customer 87;
- c. Customer 86 presented \$45,000 in chips to buy-in at a table. Star Qld's records of Customer 86's prior play did not support the amount of chips presented; and
- d. Star Qld reviewed its TTR reports for the previous 90 days, which suggested that Customer 86 was recording substantial wins, however his play records over that period showed a loss of \$136,518. Likewise, Customer 87 recorded a loss of \$61,884 in the same period.

By 15 May 2019, Star Qld staff observed Customer 86 and Customer 87 engaging in suspicious behaviour at the Star Qld cage, in which Customer 86 would walk away during a transaction and Customer 87 would wait to pick up the cash. Star Qld observed that the funds provided by Customer 86 to facilitate Customer 87's play had increased significantly in the previous four to six weeks. Star Qld noted that between 1 January 2018 and 15 May 2019, Customer 86 and Customer 87 had recorded large and suspicious losses totalling \$1,934,000: SMR dated 15 May 2019.

Despite Star Qld's suspicions, Customer 86 continued to engage in suspicious cash transactions at Star Qld.

- a. On 26 May 2019, a Star Qld customer exchanged \$10,000 in cash, comprised of \$20 notes, for chips at the cashiers in a private gaming room. The customer went to the tables but

recorded no play. Star Qld also noted that this exchange amount was above the customer's normal play amount. It therefore conducted a review to determine if the cash came from someone else before the customer attended the counter. The review indicated that on 26 May 2019, Customer 86 drove to the casino with another individual, and that both Customer 86 and the other individual attended the foyer where they met with the Star Qld customer. Customer 86 handed over the \$10,000 to the customer. The three individuals then attended the private gaming room, where the customer exchanged \$10,000 in cash given to them by Customer 86. The customer then gave Customer 86 some of the chips following the transaction: SMR dated 28 May 2019.

- b. On 27 May 2019, Customer 87 exchanged \$18,500 in cash for chips at Star Qld. The cash was comprised of \$100 notes. Following the exchange, Customer 87 handed \$18,000 worth of chips to Customer 86. Star Qld's records showed Customer 87 as having lost \$212,000 since 1 January 2019. In the same period, Star Qld's records showed Customer 86 as having lost \$965,000: SMR dated 28 May 2019.
- c. On 6 December 2019, a Star Qld customer, Person 64, exchanged \$100,000 in cash for chips. The cash was presented in \$100 notes with Star straps dated 22 November 2019, in circumstances where Star Qld did not know where Person 64 had obtained the money. Person 64's play and TTRs since 1 November 2019 did not support him having \$100,000 in cash. Star Qld was aware that Person 64 had come to the casino to meet with Customer 86 and noted that the \$100,000 in cash was supported by Customer 86's play and TTR records. By the end of his trip on 10 December 2019, Star Qld's records indicated that Person 64 held \$134,000 in chips but did not have any evidence of the customer exchanging the chips for cash or depositing them into his FMA. However, Star Qld had records of Customer 86 engaging in play on 9 December 2019 that was unsupported by his transactions and was of a similar value to the chips Person 64 held: SMR dated 10 December 2019.
- d. On 15 December 2019, Customer 86 gave another Star Qld customer \$40,000 in cash for gambling. On 16 December 2019, Customer 87 exchanged \$500,000 in cash for chips at Star Qld. The cash was presented in a large black plastic bag and was strapped with Star Qld straps. Star Qld understood from the straps that some of the cash presented had previously been paid to a second Star Qld customer, who was an associate of Customer 87 and the partner of the first customer, Person 64, earlier in the day. Star Qld identified that its records of Customer 87's play did not support her using these chips. However,

Customer 86's play did support the use of chips to the same value. Star Qld therefore assumed that Customer 87 had given the \$500,000 in chips to Customer 86. Star Qld also noted that at the same time as Customer 87 purchased these chips, Customer 86 received a telegraphic transfer for \$500,000. Prior to the receipt of these funds, Customer 86 had been playing with Person 64 at a private table, and had recorded a loss of \$2,788,650. Customer 86 kept playing after he received the additional funds and recorded a win of \$2,150,800. Star Qld did not know the connection between the four customers: SMR dated 17 December 2019.

Large and suspicious cash transactions in 2020

In 2020, Customer 86 continued to engage in suspicious cash transactions at Star Qld.

- a. On 3 March 2020, Customer 86 attended a private gaming room cashier at Star Qld and withdrew \$200,000 in chips from his FMA. Customer 86 was accompanied by two men, including a known Star Qld customer Person 6 and an unknown individual. Customer 86 went to a gaming table whilst the two other individuals went to a lounge area. Customer 86 lost the \$200,000 within 20 minutes.
- b. On 4 March 2020, the known Star Qld customer Person 6 requested to exchange \$200,000 in cash for chips at a private gaming room cage at Star Qld. The cash was comprised of \$100 notes, \$150,000 of which was in Star straps and the remainder in rubber bands. Star Qld asked Person 6 where the money came from. Person 6 did not answer, and instead made a phone call. Customer 86 then arrived and told Star Qld that the money was his and he had given it to his friend to exchange while he went to the bathroom. Star Qld advised Customer 86 that he must be present for the exchange of his cash. Star Qld noted that the \$150,000 in cash with Star straps was supported by Customer 86's play in February, but considered it odd that some of the cash provided was wrapped only in rubber bands. At the same time, Customer 86 received \$300,000 via telegraphic transfer into his Star Qld FMA from Company 3's bank account. Customer 86 withdrew the money as chips was given a total of \$500,000 in chips. Customer 86 subsequently recorded a loss of \$500,000. After Customer 86 received the chips, Person 6 approximately \$1,000 to \$2,000 in cash from his shoulder bag: SMR dated 6 March 2020.
- c. On 11 July 2020, Customer 86 and Customer 87 signed in four associates as guests at Star Qld. Star Qld also identified a further three individuals who it believed were associated with Customer 86, including Person 47. One of these associates redeemed five

tickets totalling \$8,500, that were originally generated under Customer 86's card. Between 11 July 2020 to 12 July 2020, Star Qld gave the AUSTRAC CEO six TTRs totalling \$372,500 detailing cash outs by Customer 86 totalling \$372,500. The balance in his FMA was \$980,017 and he had recorded winnings of approximately \$284,000. Star Qld noted that Customer 86 had significant movement of funds between tables, machines, his FMA and his CWA, which made his transactions hard to track with accuracy: SMR dated 14 July 2020.

- d. On 18 July 2020, Customer 86 made two large cash outs of \$400,000 and \$110,000 at Star Qld. On 19 July 2020, Customer 86 arrived at the private gaming room cashiers at Star Qld with \$329,000 in chips. He was accompanied by Customer 87, and a guest who was signed in by Customer 87. Customer 86 deposited \$250,000 in chips into his FMA, \$29,000 in chips into his CWA and exchanged \$50,000 in chips for cash. Immediately afterward, Customer 86 handed the \$50,000 in cash to Customer 87's guest, who placed the cash in a white envelope and handed it to Customer 87. Star Qld noted that this interaction between the three customers was conducted in front of cashier staff and under full surveillance camera view. Star Qld considered this behaviour very unusual for Customer 86 and Customer 87, and noted that it appeared that Customer 86 and Customer 87 had planned this interaction and intended Star Qld staff and surveillance cameras to observe it. Star Qld also noted that it did not have any recorded play for Customer 87's guest for the year to date: SMR dated 21 July 2020.
- e. On 1 August 2020, Customer 86 attended Star Gold Coast with \$100,000 in cash. The cash was comprised of \$100 notes with straps that were consistent with the cash being from a casino. Star Qld noted that Customer 86 had recorded multiple large cash payouts since Star Gold Coast and Treasury Brisbane had reopened on 3 July 2020 following the COVID-19 pandemic closures, which payouts could support the \$100,000 Customer 86 had in cash. Later that night, a person attempted to deposit \$300,000 in cash into Customer 86's CWA. The person was not a member in Star Qld's system, and was advised that Customer 86 would need to deposit the funds himself. Shortly after, a Star Qld customer, Person 47, attended the cashiers and sought to exchange \$300,050 in chips for cash. Person 47's play did not support the amount of chips. When asked about the origins of the chips, the Star Qld customer advised that the chips belonged to Customer 86: SMR dated 5 August 2020.
- f. On 3 August 2020, Customer 86 attended Treasury Brisbane and exchanged \$270,000 in cash for chips. The cash was comprised of \$100 notes with Star straps that suggested it had been paid

out by Star Gold Coast the previous day. Customer 86 lost all the funds. Star Qld's records since 3 July 2020 indicated that Customer 86 had lost approximately \$1,700,000: SMR dated 5 August 2020.

- g. On 10 August 2020, Customer 86 presented \$30,000 in cash at Star Qld. The cash was comprised of \$100 notes with a strap from an Australian bank dated 2 July 2020. Customer 86 exchanged \$20,000 for chips and deposited the remaining \$10,000 into his CWA. Customer 86 then played and lost all the funds. Later that day, Customer 86 returned to Star Qld and exchanged \$80,100 in cash for chips. The cash was comprised of \$100 notes, in \$1,000 bundles wrapped with rubber bands. Star Qld noted that the cash could not be from its casino because it did not pay out cash in this format. Customer 86 later returned to the cashiers with \$119,000 in chips. Customer 86 was then joined by another customer. The customer exchanged two gaming machine tickets totalling \$59,940 for cash. At this point, Customer 86 handed the customer his membership card and Star Qld noted that Customer 86's name was on both tickets. Customer 86's machine play supported the tickets. All the funds from the chips and tickets were paid in cash to Customer 86, totalling \$178,940. Customer 86 requested a large envelope after he received this cash. Star Qld did not know the connection between Customer 86 and the other customer: SMR dated 11 August 2020.
- h. On 14 October 2020, Person 6 exchanged \$40,000 in cash, made up of \$35,000 in \$50 notes and \$5,000 in \$100 notes, for \$100 notes at a private gaming room cashier. Star Qld considered that Person 6 wanted to have Star's straps on the notes. After receiving the cash, Person 6 went to a gaming table, where Customer 86 and a second customer, Person 47, were already sitting. Person 6 recorded no play at the table. Star Qld observed the three customers then attend the balcony, however surveillance was unable to capture their exchange. Person 6 then returned to the cashier and deposited \$13,000 in chips into his CWA. After this exchange, the customer returned to the table where Customer 86 and the other customer were playing. All three customers then left the private gaming room and recording the following transactions.
 - i. Person 6 transferred \$5,000 from his CWA to an EGM, and lost all the funds. He then went to another EGM, transferred a further \$5,000 from his CWA and then requested a ticket for \$4,755. Person 6 cashed out the ticket at the private gaming room cashier. He then returned to the first EGM he had used, transferred the remaining \$3,000 from his CWA, and lost all these

funds. Star Qld noted that it did not know what Person 6 did with the \$40,000 in cash.

- ii. Customer 86 took \$300,000 from his FMA as a chip purchase voucher. He then played and recorded a win of \$73,000. Customer 86 then deposited \$300,000 in chips back into his FMA and cashed out \$60,000. Star Qld noted that it did not know what Customer 86 did with the remaining \$13,000 in chips.
 - iii. Person 47 played with a chip buy-in of \$30,000, and recorded a win of \$19,000. Star Qld noted that it could not account for Person 47 having the \$30,000 in chips. However, Star Qld noted that Customer 86 had previously shared part of his bankroll with Person 47, and he may have given the customer some of his \$300,000 in chips on this occasion. Person 47 subsequently cashed out \$20,070: SMR dated 16 October 2020.
- i. On 16 October 2020, Person 47 exchanged \$60,000 in chips for cash. Person 47 informed Star Qld that the chips were his. However, Star Qld subsequently reviewed Person 47's play and noted that it did not support the quantity of chips. A review of surveillance indicated that Customer 86 gave the chips to Person 47 to cash out, and after Person 47 exchanged the chips for cash he gave the cash back to Customer 86. On the same day, Customer 86 received \$300,000 into his Star Qld account from Company 3's bank account. Star Qld noted that whilst Customer 86 was losing at the tables, he kept some funds aside to play on EGMs and eventually took larger amounts of cash. Star Qld queried whether Customer 86 was banking the cash back to Customer 87's company, but it considered it unusual that Customer 86 was obtaining cash from Person 47 but playing with the money sent by telegraphic transfer: SMR dated 20 October 2020.
 - j. On 22 October 2020, Customer 87 deposited \$50,000 into her CWA at Star Qld. The cash comprised of \$100 notes with Star Qld straps dated 11 October 2020 and 16 October 2020. Star Qld noted that Customer 87 had no play or reports to support having the \$50,000 in cash. It considered that the cash may have related to a payment made to Customer 86, but this could not be confirmed: SMR dated 23 October 2020.
- m. Customer 86 and his wife, Customer 87, engaged in other transactions at Star Qld indicative of ML/TF typologies and vulnerabilities, including using each other's membership accounts to avoid reporting obligations;

Particulars

See paragraph 25 above.

Between 31 May 2017 and 4 August 2020, Star Qld gave the AUSTRAC CEO ten SMRs in relation to Customer 86 and Customer 87 after it had formed suspicions that the customers were attempting to avoid reporting obligations by using each other's membership accounts.

- a. On 30 May 2017, Customer 86 presented an EGM voucher to Star Qld for \$14,413 to be exchanged for cash. Star Qld identified that Customer 87's membership card was in the gaming machine at the time the collect button was hit. At the time, Star Qld did not know of the relationship between Customer 86 and Customer 87: SMR dated 31 May 2017.
- b. On 23 September 2018, Customer 86 presented an EGM voucher to Star Qld for \$15,050 to be exchanged for cash. Star Qld again identified that Customer 87's membership card was in the gaming machine at the time the collect button was hit: SMR dated 24 September 2018.
- c. On 29 September 2018, Customer 86 bought in with \$3,000 in cash for chips on the main gaming floor at Star Qld. Star Qld was aware that Customer 86 had previously bought in on other tables for cash and was at that point winning, and that he had declined to provide any identification. Star Qld observed, via surveillance, that Customer 86 handed \$10,000 in \$500 chips to Customer 87. Customer 87 then went to the cashiers and exchanged the chips for cash. Approximately 90 minutes later, Customer 87 returned to the cashiers with \$30,000 in chips and attempted to exchange the chips for cash. Customer 87 was advised that the owner of the chips was required to cash them out as Star Qld could not verify Customer 87 had won them. Customer 87 advised Star Qld that it was her husband playing. Customer 86, who was Customer 87's husband, then came over with his membership card and exchanged the chips for cash: SMR dated 3 October 2018.
- d. On 11 October 2018, Customer 86 presented two EGM vouchers to Star Qld for \$34,800 and \$69,200 to be exchanged for cash. Star Qld identified that Customer 87's membership card was in the gaming machine at the time the collect button was hit: SMR dated 12 October 2018.
- e. On 26 October 2018, Customer 87 presented two EGM vouchers to Star Qld for \$13,310 and \$35,270 to be exchanged for cash. Star Qld identified that Customer 86's membership card was in the gaming machine at the time the collect button was hit: SMR dated 27 October 2018.

- f. On 1 February 2019, Customer 86 cashed out a total of \$160,000 worth of chips at Star Qld. Star Qld's records showed that Customer 86 played from 25 January 2019 to 28 January 2019, with a loss of \$31,900. He then played again from 31 January to 1 February 2019 and won \$67,500. However, the last TTR that Star Qld had given to the SMR suggested that Customer 86 had last purchased chips was on 25 January for \$30,000. Star Qld then reviewed Customer 87's records, which showed that on 31 January 2019 Customer 87 made four separate purchases of chips with cash at Star Qld, totalling \$112,500. Part of the cash used to purchase \$52,500 in chips was comprised of \$100 notes bundled with Star Qld straps, and the balance of chips were purchased using \$50 notes. On the same day, Customer 87 deposited \$10,000 in cash on two occasions into her CWA, and also made another deposit of \$15,000 in chips. Star Qld was unable to confirm the source of funds or occupation of either Customer 86 or Customer 87: SMR dated 1 February 2019.
- g. On 25 March 2019, Customer 86 and Customer 87 attended a private gaming room at Treasury Brisbane and sought to exchange \$50,000 in cash for chips. The cash came from Customer 87's purse, and consisted of \$100 notes in bundles of \$1,000, secured by elastic bands. Customer 86 walked away as the chip sale was almost complete. Customer 87 presented Customer 86's membership card to the cashier and claimed the chips were for him. Later that evening, Customer 87 returned to the cashier with Customer 86, who then walked away. Customer 87 deposited \$50,000 into Customer 86's CWA. Star Qld informed Customer 87 that all future transactions had to be completed by the person who was playing, buying chips or depositing chips: SMR dated 29 March 2019.
- h. On 26 March 2019, Customer 87 presented to the Star Qld cashier again with an EGM ticket and a TITO ticket in Customer 86's name, totalling \$20,844. Star Qld advised Customer 87 that Customer 86 would have to present to the cashier with the tickets in order to exchange them for cash. Shortly after, Customer 87 and Customer 86 presented to the cashier with the tickets, as well as \$9,000 in chips, and sought to exchange the tickets and chips for cash. Customer 86 signed the EGM ticket and then left, and Customer 87 remained to collect the cash: SMR dated 29 March 2019.
- i. On 30 July 2019, Star Qld identified that Customer 86's play showed a loss of \$75,000 at Star Gold Coast and \$32,000 at Treasury Brisbane. However, Star Qld gave the AUSTRAC CEO two TTRs with respect to Customer 86 over this period, which indicated that he was winning \$25,000. Customer 87's table play showed a loss of \$46,000 at Star Gold Coast and \$32,000 at

Treasury Brisbane. However, Star Qld gave the AUSTRAC CEO five TTRs with respect to Customer 87 over this period, which suggested that she was winning \$90,000 at Treasury Brisbane, and had a buy-in of \$35,000 at Star Qld. Based on the TTRs that had been given to the AUSTRAC CEO with respect to Customer 86 and Customer 87 at each casino, Star Qld considered that the customers were possibly structuring their transactions, which were all in cash, over multiple casino services to avoid reporting how much they were spending: SMR dated 30 July 2019.

- j. On 2 October 2019, Customer 86 exchanged \$100,000 in cash for chips at Treasury Brisbane. The cash was comprised of \$100 notes. Customer 86 gambled over a seven-hour period, and recorded a loss of \$50,000. At around the time that Customer 86 finished gambling, Customer 87 cashed out \$100,000 in chips at Treasury Brisbane. Star Qld reviewed Customer 87's play and identified that her play did not support her having \$100,000 worth of chips. Customer 87's buy-in on this occasion was around \$10,000 with a loss of around \$5,000: SMR dated 2 October 2019.
- k. On 1 August 2020, Star Qld customer, Person 47, presented \$185,000 in cash to the cashier in the private gaming room. Customer 86 was with Person 47. The cash comprised of \$100 notes and had straps recording the date and the wording 'hard count', 'main bank' or 'soft count'. The dates on the cash straps ranged from 2 June 2020 to 19 July 2020. Star Qld noted that it was closed until 3 July 2020, indicating that \$95,000 of the funds came from another casino that was open in June 2020. Star Sydney had no records for Person 47 or Customer 86 since June 2020. Further, Star Qld's records did not support Person 47 having been paid this amount in cash since it reopened in July 2020. Star Qld therefore suspected that Customer 86 may have used Person 47 to make the transaction on his behalf to avoid reporting obligations: SMR dated 4 August 2020.
- n. by March 2020, Star Qld had formed suspicions that Customer 86 was involved in money lending with two other individuals at Star Qld;

Particulars

Between 3 March 2020 and 4 March 2020, Star Qld observed three large cash and chip transactions involving Customer 86 and two other individuals including Person 6 which Star Qld suspected were indicative of possible money lending at Star Qld.

- o. Customer 86 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 86 had access to private gaming rooms at Star Sydney, including the Sovereign, Vantage, Lakes Salons, Oasis and the Oasis (Cage).

- p. Customer 86 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 86 had access to private gaming rooms at Treasury Brisbane, including Pit 9, Orchid Level 2, The Suite – Ground Floor, Orchid Level 3, Sovereign Room – EGMs, The Suite – EGMs, Sovereign Room – Tables, The Suite – Tables and the Cage.

Customer 86 had access to private gaming rooms at Star Gold Coast, including The Suite, The Oasis, the Sovereign Room and the Chairmans.

- q. in 2019 and 2021, Star Qld provided information to law enforcement on at least two occasions;

Particulars

In February 2019, Star Qld investigation staff identified that Customer 86 and Customer 87 had been involved in large and suspicious cash transactions, including structuring at Star Qld properties, on an almost daily basis since October 2018. Star Qld provided this information to a law enforcement agency in February 2019.

By March 2021, Star Qld had identified that Customer 86 was connected to a group of individuals that Star Qld suspected were involved in money laundering at Star Qld properties, and provided this information to law enforcement.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- r. between 2019 and 2022, Customer 86 was the subject of law enforcement enquiries on at least four occasions at Star; and

Particulars

By May 2019, in response to Star Qld's email providing information about Customer 86 and Customer 87 to a law enforcement agency, Star Qld was advised by the law enforcement agency that Customer 86:

- a. was a known person of interest;
- b. was regarded as a 'nasty piece of work' but was safe to have around; and

c. was suspected to be connected to human trafficking and extortion, although no charges or convictions had been recorded.

This information was recorded in Star's due diligence records.

In December 2021, Star Qld received a request from a law enforcement agency regarding Customer 86 and Customer 87's financial and gaming activity at Star Qld. Star Qld provided a response.

In February 2022, Star Qld received a request from law enforcement regarding Customer 86 and Customer 87's financial and gaming activity at Star Qld. Star Qld provided a response.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- s. Star Sydney and Star Qld did not have adequate reason to believe that Customer 86's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 86 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Prior to April 2019, Star had not been able to confirm Customer 86's source of wealth or source of funds. By April 2019:

- a. Customer 86's turnover escalated from approximately \$500,000 in 2017 to \$5,000,000 by the end of 2018 at Star Qld;
- b. Customer 86 transacted using large amounts of cash and cash that appeared suspicious, including cash provided by Customer 87 at Star Sydney and Star Qld;
- c. Star Qld had formed suspicions that Customer 86 appeared to be using multiple gambling services at Star Qld to avoid attracting suspicion; and
- d. Star Qld had formed suspicions that Customer 86 and Customer 87 were attempting to avoid reporting obligations by using each other's membership accounts.

On 4 April 2019, Star recorded in Customer 87's AML Risk Register that Customer 86 had informed Star that he and Customer 87 owned several construction companies, including Company 3. On the same day, Star Qld granted Customer 86 Diamond tier membership, despite having twice reported in SMRs given to the AUSTRAC CEO that it could not confirm Customer 86's source of funds or occupation: SMRs dated 1 February 2019 and 29 March 2019.

Between May 2019 and November 2019, Customer 86 provided Star Qld with inconsistent information regarding his occupation and source of funds, in circumstances where Star Qld had been advised by law enforcement agencies that Customer 86 was a person of interest and suspected to be connected to human trafficking and extortion.

- a. In May 2019, Star Qld attempted to find further information concerning Customer 87 and Customer 86's source of funds, and noted that:
 - i. Customer 86 was potentially a tiler, locksmith or in sales; and
 - ii. Customer 86 and Customer 87 had advised Star Qld that they owned a few home building companies in Brisbane: SMR dated 15 May 2019.
- b. In July 2019, Star Qld recorded that it considered Customer 86 and Customer 87's losses to be large compared to any potential income source: SMR dated 30 July 2019.
- c. By at least 25 September 2019, Star Sydney understood Customer 86's occupation to be a consumer product sales person in retail.
- d. In November 2019, Star Qld made further requests from Customer 86 regarding his source of income. Customer 86 informed Star Qld that he was the owner of a construction company in Brisbane, Company 3. He also advised Star Qld that he owned other companies, but did not give their names. Star Qld noted in an SMR given to the AUSTRAC CEO that it considered Customer 86's losses to be too large for a company to sustain: SMR dated 22 November 2019.

No further steps were taken to identify or verify Customer 86's source of funds or source of wealth until February 2022. Both Star Sydney and Star Qld continued to provide designated services to Customer 86 during this time, including:

- a. multiple large cash and chip exchanges for Customer 86, in circumstances where Star suspected that the cash originated from third parties;
- b. accepting at least \$2,890,000 in transfers from Customer 87's company account, which it made available to Customer 86's FMA at Star Qld;
- c. recording turnover exceeding \$630 million for Customer 86 at Star Qld between 2019 and 2020; and
- d. recording turnover exceeding \$160 million for Customer 86 at Star Sydney between 2019 and 2020.

By at least 7 February 2022, Star recorded in Customer 86's Patron Register Report that his occupation was as a salesperson. It also noted that he was the owner of several construction companies, including Company 3, and possibly worked in tiling or was a locksmith.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 86

2227. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 86 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 86.

- a. On and from 2017, Customer 86 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 86's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 86 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 1 June 2017, Customer 86 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 31 October 2018, Customer 86 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 86's transactions

2228. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 86's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 86, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld was unable to monitor Customer 86's activity across Star Gold Coast and Treasury Brisbane because gaming records were only available at each individual property;

Particulars

On 22 November 2019, Star Qld identified that Customer 86 played at Star Sydney, Star Gold Coast and Treasury Brisbane, and that gaming records were only available at each individual property which made it difficult to track his financial and gaming activity.

Star Qld was unable to confirm whether Customer 86's losses at one site could be accounted for by wins at the other site, because records suggested that:

- a. Customer 86 had recorded a loss of \$1,300,000 at Star Gold Coast, a loss of \$1,400,000 at Treasury Brisbane and a loss of \$1,200,000 at Star Sydney;
 - b. when Customer 86's machine play was taken into account, these losses would be greater; and
 - c. Customer 86's membership card may not have been in the machine on each occasion that he played: SMR dated 22 November 2019.
- c. Star Sydney did not make and keep complete and reliable records of designated services provided to junket players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 86 through:
- i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel.

Particulars

See paragraph 783 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 86 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- f. Star Sydney provided designated services to Customer 86 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 86's KYC information

2229. Star Sydney and Star Qld did not review, update and verify Customer 86's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney or Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 86's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 86's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 86's source of wealth and source of funds were not legitimate: see *Customer 86's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 86's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 86.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) and rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 86's high ML/TF risks

2230. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 86 appropriately;

- b. applying appropriate risk-based transaction monitoring to Customer 86; and
- c. reviewing and updating Customer 86's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 86 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 86*.

ECDD triggers in respect of Customer 86

2231. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 86 following any ECDD triggers in respect of Customer 86.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2232. Customer 86:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 12 September 2019 and 30 September 2019, Star Sydney gave the AUSTRAC CEO four SMRs with respect to Customer 86.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 31 May 2017 and 23 October 2020, Star Qld gave the AUSTRAC CEO 34 SMRs with respect to Customer 86.

2233. Each matter pleaded in paragraph 2232 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2234. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 86 following an ECDD trigger because:

- a. on each occasion that Star Sydney or Star Qld conducted ECDD in respect of Customer 86 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 86 and the provision of designated services to Customer 86 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney or Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 23 March 2019, 11 September 2019, 24 September 2019, 25 September 2019, 28 September 2019, 2 October 2019, 22 November 2019, 24 January 2020, 10 July 2020, 4 August 2020, Star conducted ECDD in respect of Customer 86.

The ECDD conducted by Star Sydney or Star Qld did not have appropriate regard to Customer 86's higher ML/TF risks, including the large and suspicious cash transactions he conducted and that were conducted on his behalf, and transactions indicative of the ML/TF typology of using third parties to conduct transactions: see *Customer 86's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 86's source of funds or source of wealth, in circumstances where:

- a. Star had been warned that Customer 86 was a person of interest and suspected to be connected to human trafficking and extortion; and
- b. Customer 86 claimed he owned several construction companies but where Star Qld suspected that the losses sustained by Customer 86 were too large for a company to sustain.

By reason of the matters set out above, there were real risks that Customer 86's source of wealth and source of funds were not legitimate: see *Customer 86's risk profile*.

- b. Customer 86 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 86 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 86, the provision of designated services to Customer 86 by Star Sydney and Star Qld, and whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 2 December 2019, senior management were aware that a telegraphic transfer of \$300,000 sent on 25 November 2019 by Star Qld from Customer 86's overseas bank account had been returned. Star senior management, including the Group Manager (AML/CTF and Financial Crime), were informed of the transaction and decided

that it would only allow Customer 87 and Customer 86 to make transfers to Australian banks going forward.

On 13 December 2019, the Star Qld AML/CTF Administrator conducted a company search in respect of Company 3 and identified that:

- a. there were two secured creditors of the company;
- b. Customer 87 and Customer 86 were using company funds to fund Customer 86's gambling at Star Qld; and
- c. there was a risk that the company may face financial difficulty, such that Star may face adverse media attention due to its receipt of company funds for gambling.

The AML/CTF Administrator considered that Star Qld should cease accepting telegraphic transfers from Company 3's bank account, with all funds to come directly from Customer 87's or Customer 86's personal bank account. This request was raised with the Group Manager AML/CTF and Financial Crime (who was also the AML/CTF Compliance Officer at the time) by email on 13 December 2019. On 24 January 2020, the Star Qld AML/CTF Administrator followed up the email. There are no records of any response to this request in Star Qld's due diligence records.

At no time did Star senior management appropriately consider the ML/TF risks of continuing to provide designated services to Customer 87 and Customer 86 in light of the higher ML/TF risks posed: see *Customer 87's risk profile*.

Contravention of s36 of the Act in respect of Customer 86

2235. By reason of the matters pleaded from paragraphs 2221 to 2234 above, on and from 30 November 2016, Star Sydney and Star Qld:
- a. did not monitor Customer 86 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2236. By reason of the matters pleaded at paragraph 2235, Star Sydney and Star Qld contravened s36(1) of the Act on and from October 2018 with respect to Customer 86.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 87

2237. Customer 87 was a customer of Star Sydney during the relevant period. Between 2018 and 2020, Star Sydney recorded turnover exceeding \$5 million for Customer 87.

Particulars

Customer 87 was a customer of Star Sydney from at least 16 June 2018.

2238. Star Sydney provided Customer 87 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 19 February 2019, Star Sydney opened an FMA and a SKA for Customer 87, both of which remain open (items 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 87 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 87's risk profile below.

2239. Customer 87 was a customer of Star Qld during the relevant period. Between 2017 and 2020, Star Qld recorded turnover exceeding \$15 million for Customer 87.

Particulars

Customer 87 was a customer of Star Qld from at least 19 August 2012.

2240. Star Qld provided Customer 87 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 27 June 2016, Star Qld opened a CWA for Customer 87, which remains open.

On 18 February 2019, Star Qld opened an FMA for Customer 87 which remains open (items 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 87 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 87's risk profile below.

2241. At all times from 16 June 2018 in respect of Star Sydney and 30 November 2016 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 87.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 87's risk profile

2242. On and from 16 June 2018 in respect of Star Sydney and 30 November 2016 in respect of Star Qld, Customer 87, and the provision of designated services to Customer 87 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

- a. Customer 87 was connected to other customers at Star Sydney and Star Qld, including players who posed higher ML/TF risks such as Customer 86;

Particulars

Customer 87 often engaged in suspicious transactions with her husband Customer 86 at Star Sydney and Star Qld: see particulars to paragraphs 2242.e, 2242.i and 2242.j below.

- b. Customer 87 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2020, Star Sydney recorded high turnover totalling \$5,824,363 for Customer 87;
 - i. between 2018 and 2020, Star Sydney recorded high individual rated turnover totalling \$2,573,107 for Customer 87; and

Particulars

See paragraph 752 above.

In 2018, Customer 87's individual rated turnover was \$6,505.

In 2019, Customer 87's individual rated turnover escalated to \$1,621,308.

In 2020, despite the COVID-19 pandemic closures, Customer 87's individual rated turnover was \$945,293.

- ii. in 2019, Star Sydney recorded high turnover on individual rebate programs totalling \$3,251,257 for Customer 87;

Particulars

See paragraph 623 above.

- c. Customer 87 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2020, Star Qld recorded high and escalating individual rated turnover totalling \$15,289,625 for Customer 87;

Particulars

See paragraph 752 above.

In 2017, Customer 87's individual rated turnover was \$937,865.

In 2018, Customer 87's individual rated turnover escalated to \$3,298,880.

In 2019, Customer 87's individual rated turnover further escalated to \$8,631,759.

In 2020, despite the COVID-19 pandemic closures, Customer 87's individual rated turnover was \$2,421,120.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 87 by remitting large amounts of money into, out of and within the casino environment via her accounts;

Particulars

Remittances into the casino environment

See paragraphs 278 and 327 above.

Between 28 August 2019 and 7 September 2019, Star Sydney received seven telegraphic transfers totalling \$440,000, each of which was made available to Customer 87's FMA.

On 30 December 2019, Customer 87 received \$60,000 into her Star Sydney account from an unknown account.

On 31 December 2019, Customer 87 received \$20,000 into her Star Sydney account from an unknown account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

On or around 1 January 2020, Customer 87 transferred \$27,692 from her Star Sydney account to an unknown account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 16 July 2019 and 5 September 2019, Star Sydney sent three transfers totalling \$118,000 from Customer 87's FMA to Star Qld.

On 10 July 2019 and 11 July 2019, Star Sydney received two transfers totalling \$50,000 from Star Qld, both of which were made available to Customer 87's FMA.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 87 by remitting large amounts of money into, out of and within the casino environment via her accounts;

Particulars

Remittances into the casino environment

See paragraph 327.

Between 8 April 2019 and 18 December 2019, Star Qld received 11 telegraphic transfers totalling \$1,560,000, each of which was made available to Customer 87's FMA at Star Gold Coast.

Between 10 April 2019 and 16 February 2020, Star Qld received six telegraphic transfers totalling \$310,000, each of which was made available to Customer 87's FMA at Treasury Brisbane.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances involving third parties

See paragraph 327 above.

See paragraph 2242.i below.

Between 5 October 2019 and 30 November 2019, Star Qld received four telegraphic transfers totalling \$645,000 from Company 3, each of which was made available to Customer 87's FMA at Star Gold Coast.

Between 26 November 2019 and 30 November 2019, Star Qld received five telegraphic transfers totalling \$1,700,000 from an unknown account. The funds were made available to Customer 87's Star Qld FMA: SMR dated 3 December 2019.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 24 March 2019 and 26 July 2019, Star Qld facilitated four transfers totalling \$305,000 from Treasury Brisbane to Star Gold Coast, each of which was made available to Customer 87's FMA at Star Gold Coast.

Between 9 April 2019 and 9 July 2019, Star Qld facilitated four transfers totalling \$210,000 from Star Gold Coast to Treasury Brisbane, each of which was made available to Customer 87's FMA at Treasury Brisbane.

On 10 July 2019 and 11 July 2019, Star Qld facilitated two transfers totalling \$50,000 from Customer 87's FMA at Treasury Brisbane to Star Sydney.

Between 16 July 2019 and 7 January 2020, Star Qld received five transfers totalling \$395,700 from Star Sydney, each of which was made available to Customer 87's FMA at Treasury Brisbane.

- f. designated services provided to Customer 87 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 30 September 2019 and 30 December 2019, Star Sydney gave to the AUSTRAC CEO five TTRs detailing EGM payouts to Customer 87 totalling \$102,028.

- g. designated services provided to Customer 87 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See particulars to paragraphs 2242.j and 2242.k below.

Between 11 May 2017 and 19 December 2019, Star Qld gave to the AUSTRAC CEO 15 TTRs detailing EGM payouts to Customer 87 totalling \$266,974.

On 6 April 2019, Treasury Brisbane recorded that an EGM voucher for \$9,517.10 issued under Customer 87's name was paid to Customer 86.

- h. by January 2019, Star Qld was aware that:
- i. Customer 87, and her husband Customer 86, transacted using large amounts of cash and cash that appeared suspicious at Star Qld, by using multiple gambling services to avoid attracting suspicion;
 - ii. Customer 87's gaming activity was not commensurate with size of the cash transactions at Star Qld;

Particulars to (i) and (ii)

See paragraphs 611 to 618 above.

TTRs

Between 30 March 2017 and 23 October 2020, Star Qld gave the AUSTRAC CEO 108 TTRs detailing transactions made by Customer 86 totalling \$4,384,093, including:

- a. 77 incoming TTRs totalling \$3,164,600;
- b. 31 outgoing TTRs totalling \$1,219,493;
- c. 32 TTRs totalling \$1,477,600 detailing account deposits and withdrawals; and
- d. 76 TTRs totalling \$2,906,493 detailing chip and cash exchanges.

Large and suspicious cash transactions in 2019

In January 2019, Star Qld noticed that Customer 87 and Customer 86 were using multiple gambling services to engage in cash transactions that made it difficult for Star Qld to track their transactions. On 25 January 2019, the following transactions occurred:

- a. Customer 87 exchanged \$80,000 in cash for chips at Star Qld, but did not subsequently record any table play;

- b. Customer 87's husband, Customer 86, redeemed an EGM voucher for \$9,583, which had in fact been issued to Customer 87;
- c. Customer 86 presented \$45,000 in chips to buy-in at a table. Star Qld's records of Customer 86's prior play did not support the amount of chips presented;
- d. Star Qld reviewed its TTR reports for the previous 90 days, which suggested that Customer 86 was recording substantial wins, however his play records over that period showed a loss of \$136,518. Likewise, Customer 87 recorded a loss in the same period of \$61,884; and
- e. Star Qld noted that the use of multiple services by Customer 87 and Customer 86 to shift their cash around made it difficult for it to track all of their transactions: SMR dated 31 January 2019.

Between February 2019 and March 2019, Star Qld observed the following transactions:

- a. on 3 February 2019, Customer 87 presented to the Treasury Brisbane cage a total of \$80,000 in cash, comprised of \$100 notes in Star straps dated 31 January 2019;
- b. on 13 February 2019, Customer 87 presented \$20,000 in cash to the cage, comprised of \$100 notes wrapped in two \$10,000 bundles wrapped in rubber bands to the cage. Customer 87 exchanged \$10,000 for chips, and deposited the remaining \$10,000 into her CWA. Customer 87 later took out the \$10,000 in her CWA as chips. Shortly after, Customer 87 deposited \$5,000 back into her account. Customer 87 recorded no play on tables, and recorded some play on EGMs around the time she took out the chips from her CWA; and
- c. on 4 March 2019, Customer 87 presented Treasury Brisbane with \$19,200 in \$100 notes and \$800 in \$50 notes in exchange for chips. The cash was wrapped in rubber bands.

By 15 May 2019, Star Qld staff observed Customer 87 and Customer 86 engaging in suspicious behaviour at the Star Qld cage, in which Customer 86 would walk away during a transaction and Customer 87 would wait to pick up the cash. Star Qld observed that the funds presented by Customer 87's husband, Customer 86, to facilitate play had increased significantly in the previous four to six weeks. Star Qld noted that between 1 January 2018 and 15 May 2019, Customer 87 and Customer 86 had recorded large and suspicious losses totalling \$1,934,000: SMR dated 15 May 2019.

On 27 May 2019, Customer 87 exchanged \$18,500 in cash for chips at Star Qld. The cash comprised of \$100 notes. Following the exchange, Customer 87 handed \$18,000 worth of chips to Customer

86. Star Qld's records showed that Customer 87 had lost \$212,000 since 1 January 2019. In the same period, Star Qld's records showed that Customer 86 had lost \$965,000: SMR dated 28 May 2019.

On 5 November 2019, Customer 87 presented \$165,000 in cash comprised of \$100 notes with Star straps dated 2 November 2019 to the Star Gold Coast cage. Customer 87 exchanged the cash for chips. Star Qld noted that its records did not support Customer 87 having this amount of cash but that Customer 86 had cashed out \$165,000 in chips over two transactions the previous day. On 6 November 2019, Customer 87 recorded minimal play of \$3,000 at Star Gold Coast. Customer 86 recorded substantial play on EGMs and tables, and used all the chips purchased by Customer 87.

On 16 December 2019, Customer 87 exchanged \$500,000 in cash for chips at Star Qld. The cash was presented in a large black plastic bag and was strapped with Star Qld straps. Star Qld understood from the straps that some of the cash presented was paid to Person 64, an associate of Customer 87, earlier in the day. Star Qld identified that its records of Customer 87's play did not support her using these chips, however Customer 86's play did support it. Star Qld therefore assumed that Customer 87 gave the chips to Customer 86. Star Qld also noted that at the same time that Customer 87 purchased these chips, Customer 86 received a telegraphic transfer for \$500,000. Star Qld did not know the connection between Customer 87 and Customer 86 and Person 64: SMR dated 17 December 2019.

Large and suspicious cash transactions in 2020

On 7 January 2020, Customer 87 transferred \$250,007 from her Star Sydney account to her Star Qld FMA. On the same day, Customer 86 transferred \$530,054 from his Star Sydney account to his Star Qld FMA. Customer 87 then withdrew \$150,000 in chips from her funds. Star Qld's records however showed no play for Customer 87 on the tables, only on EGMs with a loss of \$30,000. Customer 86 did not access any of the funds sent to his FMA, but recorded a chip buy-in of \$150,000 very shortly after Customer 87 withdrew the \$150,000 in chips from her account. Star Qld had no record of Customer 86 cashing out any chips, however it recorded Customer 87 making five chip cash outs on 8 January 2020 totalling \$281,000: SMR dated 8 January 2020.

On 18 February 2020, Customer 87 withdrew \$100,000 as cash and then deposited \$25,000 of the cash into Customer 86's CWA. Star Qld noted that Customer 87 recorded no play, whilst Customer 86 recorded a loss of \$200,000 following these transactions. It also recorded that a staff member was going to have a discussion with Customer 87 and Customer 86.

On 19 July 2020, Customer 87 arrived with Customer 86 and another Star Qld customer at a private gaming room at Star Qld. The other

Star Qld customer was signed in by Customer 87 as her guest. Customer 86 deposited \$250,000 in chips into his FMA, \$29,000 in chips into his CWA and exchanged \$50,000 in chips for cash. Immediately afterward, Customer 86 handed the \$50,000 in cash to Customer 87's guest, who placed the cash in a white envelope and handed it to Customer 87. Star Qld noted that this interaction between the three customers was conducted in front of cashier staff and under full surveillance camera view. Star Qld considered this behaviour very unusual for Customer 87 and Customer 86, and noted that it appeared that Customer 87 and Customer 86 had planned this interaction and intended Star Qld staff and surveillance cameras to observe it. Star Qld also noted that it did not have any recorded play for Customer 87's guest for the year to date: SMR dated 21 July 2020.

On 22 October 2020, Customer 87 deposited \$50,000 in cash, comprised of \$100 notes, into her CWA at Star Qld. Star Qld identified that the straps on the notes were from a payment that Star Qld had made, but the straps were dated 11 to 16 October 2020. Star Qld identified that Customer 87 did not have the play to support her having this amount of cash, and that the cash could relate to a payment made to Customer 86. However, Star Qld had no way to confirm this: SMR dated 23 October 2020.

- i. Star Qld was aware that Customer 87 and her husband, Customer 86, engaged in large and unusual transactions and patterns of transactions involving telegraphic transfers, which had no apparent economic or visible lawful purpose;

Particulars

On 26 November 2019, Customer 87 received \$500,000 in her Star Qld account from an unknown account. On 29 November 2019, Customer 87 received three transfers totalling \$600,000 into her Star Qld account from an unknown account. On each of these occasions, Customer 87 withdrew the money as chips and handed the chips to her husband Customer 86: SMR dated 3 December 2019.

On 30 November 2019, Customer 87 received \$600,000 into her Star Qld FMA from an unknown account. Customer 87 then withdrew the entire amount as chips and provided them to Customer 86. Later that day, Customer 87 returned to the cashier with \$600,000 in chips and requested a casino cheque. Star Qld declined this request on the basis that Customer 87 had no record of play and questioned whether the chips belonged to Customer 87 or Customer 86. Star Qld noted that this question had been asked of Customer 87 previously. After Star Qld refused to give Customer 87 a casino cheque, Customer 87 accused staff of making her feel like a criminal: SMR dated 3 December 2019.

On 9 December 2019, Customer 87 transferred \$1,000,000 from Company 3's bank account to Star Qld, which was then deposited

into her husband Customer 86's Star Qld account. Star Qld noted that company records held by an Australian government regulator indicated that Customer 87 was the sole director of the company. Star Qld noted that this was by far the largest transfer Customer 87 and this company had made, and considered it to be a very large amount to be coming from a company account: SMR dated 13 December 2019.

Despite the concerns raised by the Star Qld AML/CTF Administrator as to whether Star Qld should accept telegraphic transfers from Customer 87's Australian company bank account where funds were used by Customer 86 for gambling (see particulars to paragraph 2250.c below), Star Qld continued to accept transfers from Customer 87's company account in 2019 and 2020:

- a. On 26 December 2019, Customer 87 transferred \$100,000 from Company 3's account to Star Qld, which it made available to her Star Qld's account: SMR dated 27 December 2019.
- b. On 26 December 2019, Customer 87 transferred \$100,000 from Company 3's bank account to Star Qld. The \$100,000 was then made available to her Star Qld account. Customer 87 withdrew the funds from her account as chips. Customer 87 appeared to use \$5,000 of those chips to gamble herself, and provided the remaining \$95,000 in chips to Customer 86. Star Qld considered that Customer 87 and Customer 86 were moving funds from Customer 87's company's account for Customer 86 to gamble with. Customer 86 would then deposit the money into his casino account under his name or exchange it for larger cash outs: SMR dated 27 December 2019.
- c. On 27 December 2019, Star Qld received a telegraphic transfer of \$100,000 from Company 3, which it made available to Customer 87's FMA at Treasury Brisbane.
- d. On 18 February 2020, Customer 87 transferred \$100,000 from her company's account to Star Qld, which was then deposited into her Star Qld account.
- e. On 4 July 2020, Customer 87 transferred \$20,000 from Company 3's account to Star Qld, which was then deposited into her husband Customer 86's Star Qld account: SMR dated 10 July 2020.
- f. On 5 July 2020, Customer 87 made three transfers totalling \$120,000 from Company 3's account to Star Qld, each of which was then deposited into her husband Customer 86's Star Qld account: SMR dated 10 July 2020.
- j. Customer 87, and her husband Customer 86, engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Qld, including using each other's membership accounts to avoid reporting obligations;

Particulars

See paragraph 25 above.

On nine occasions between 31 May 2017 and 2 October 2019, Star Qld gave the AUSTRAC CEO SMRs in relation to Customer 87 and Customer 86 after it had formed suspicions that the customers were attempting to avoid reporting obligations by using each other's membership accounts.

- a. On 30 May 2017, Customer 86 presented an EGM voucher to Star Qld for \$14,413 to be exchanged for cash. Star Qld identified that Customer 87's membership card was in the gaming machine at the time the collect button was hit. At the time, Star Qld did not know of the relationship between Customer 86 and Customer 87: SMR dated 31 May 2017.
- b. On 23 September 2018, Customer 86 presented an EGM voucher to Star Qld for \$15,050 to be exchanged for cash. Star Qld again identified that Customer 87's membership card was in the gaming machine at the time the collect button was hit: SMR dated 24 September 2018.
- c. On 29 September 2018, Customer 86 bought in with \$3,000 in cash for chips on the main gaming floor at Star Qld. Star Qld was aware that Customer 86 had previously bought in on other tables for cash and was at that point winning, but that he had declined to provide any identification. Star Qld observed, via surveillance, that Customer 86 handed \$10,000 in \$500 chips to Customer 87. Customer 87 then went to the cashiers and exchanged the chips for cash. Approximately 90 minutes later, Customer 87 returned to the cashiers with \$30,000 in chips and attempted to exchange the chips for cash. Customer 87 was advised that the owner of the chips was required to cash them out as Star Qld could not verify that Customer 87 had won them. Customer 87 advised Star Qld that it was her husband playing. Customer 87's husband, Customer 86, then came over with his membership card and exchanged the chips for cash: SMR dated 3 October 2018.
- d. On 11 October 2018, Customer 86 presented two EGM vouchers to Star Qld for \$34,800 and \$69,200 to be exchanged for cash. Star Qld identified that Customer 87's membership card was in the gaming machine at the time the collect button was hit: SMR dated 12 October 2018.
- e. On 26 October 2018, Customer 87 presented two EGM vouchers to Star Qld for \$13,310 and \$35,270 to be exchanged for cash. Star Qld identified that Customer 86's membership card was in the gaming machine at the time the collect button was hit: SMR dated 27 October 2018.

- f. On 31 January 2019, Customer 87 made four separate purchases of chips with cash at Star Qld, totalling \$112,500. Part of the cash used to purchase \$52,500 in chips was comprised of \$100 notes bundled with Star Qld straps, and the balance of the chips were purchased using \$50 notes. On the same day, Customer 87 deposited \$10,000 in cash on two occasions into her CWA, and made another deposit of \$15,000 in chips. Star Qld also noted that Customer 86 had cashed out a total of \$160,000 worth of chips on 1 February 2019, despite the last record of Customer 86 purchasing chips being on 25 January 2019: SMR dated 1 February 2019.
- g. On 25 March 2019, Customer 87 and Customer 86 attended a private gaming room at Treasury Brisbane and sought to exchange \$50,000 in cash for chips. The cash came from Customer 87's purse, and consisted of \$100 notes in bundles of \$1,000, secured by elastic bands. Customer 86 walked away as the chip sale was almost complete. Customer 87 presented Customer 86's membership card to the cashier and claimed the chips were for him. Later that evening, Customer 87 returned to the cashier with Customer 86, who then walked away. Customer 87 deposited \$50,000 into Customer 86's CWA. Star Qld informed Customer 87 that all future transactions had to be completed by the person who was playing, buying chips or depositing chips.
- h. On 26 March 2019, Customer 87 presented to the Star Qld cashier with an EGM ticket and a TITO ticket in the name of Customer 86, totalling \$20,844. Star Qld advised Customer 87 that Customer 86 would have to present to the cashier with the tickets in order to exchange them for cash. Shortly after, Customer 87 and Customer 86 presented to the cashier with the tickets, as well as \$9,000 in chips, and sought to exchange the tickets and chips for cash. Customer 86 signed the EGM ticket and then left, and Customer 87 remained to collect the cash: SMR dated 29 March 2019.
- i. On 30 July 2019, Star Qld observed that Customer 87's table play showed a loss of \$46,000 at Star Gold Coast and \$32,000 at Treasury Brisbane for July 2019. However, Star Qld gave the AUSTRAC CEO five TTRs with respect of Customer 87 over this period, which suggested that she was winning \$90,000 at Treasury Brisbane, and had a buy-in of \$35,000 at Star Gold Coast. Star Qld observed that Customer 86's play showed a loss of \$75,000 at Star Gold Coast and \$32,000 at Treasury Brisbane. However, Star Qld gave the two TTRs with respect to Customer 86 which suggested that he was winning \$25,000 over this period. Based on the TTRs that had been given to the AUSTRAC CEO with respect to Customer 87 and Customer 86 at each Star

Qld property, Star Qld considered that the customers were possibly structuring their transactions, which were all in cash, over multiple casino services to avoid reporting how much they were spending: SMR dated 30 July 2019.

- j. On 2 October 2019, Customer 86 exchanged \$100,000 in cash for chips at Treasury Brisbane. The cash was comprised of \$100 notes. Customer 86 gambled over a seven-hour period, and recorded a loss of \$50,000. At around the time that Customer 86 finished gambling, Customer 87 cashed out \$100,000 in chips at Treasury Brisbane. Star Qld reviewed Customer 87's play and identified that her play did not support her having \$100,000 worth of chips. Customer 87's buy-in on this occasion was around \$10,000 with a loss of around \$5,000: SMR dated 2 October 2019.
- k. from July 2019, Customer 87, and her husband Customer 86, transacted using large amounts of cash and cash that appeared suspicious, at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 15 July 2019 and 2 January 2020, Star Sydney gave the AUSTRAC CEO 7 TTRs detailing transactions made by Customer 87 totalling \$906,000, including:

- a. six incoming TTRs totalling \$890,000;
- b. one outgoing TTR totalling \$16,000;
- c. four TTRs totalling \$861,000 detailing account deposits and withdrawals; and
- d. three TTRs totalling \$45,000 detailing chip and cash exchanges.

Large and suspicious cash transactions in 2019

Between 8 September 2019 and 11 September 2019, Customer 86 was the sole player on a junket program at Star Sydney. On 11 September 2019, Customer 86 requested \$264,296 in cash for the settlement of the junket program. Following the transaction, Customer 87 and Customer 86 divided the cash between them. Star Sydney noted that this was Customer 86's largest cash transaction since becoming a patron of Star Sydney, and considered the large cash transaction to be suspicious: SMR dated 12 September 2019.

On 28 September 2019, Customer 87 presented \$300,000 in cash to Star Sydney to deposit into her account to exchange for cash chips.

Customer 87 asked whether she could purchase non-negotiable chips for another player and was advised by Star Sydney that this was not allowed. Customer 87 returned shortly after with a black bag

which contained \$500,000 in cash comprised of \$100 notes bundled with The Star straps, and deposited the cash into her account to exchange for cash chips. Star Sydney identified that the cash had been paid to Customer 86 as winnings from gameplay the previous day.

Later on 28 September 2019, Customer 86 returned to Star Sydney in possession of the cash chips issued to Customer 87, with \$300,000 cash chips used to buy-in to gameplay and the \$500,000 in cash chips exchanged for non-negotiable chips. Customer 86 then requested an additional account withdrawal of \$490,000 in cash. He then returned approximately an hour later to deposit \$500,000 in cash, that was bundled with Star straps dated 27 September 2019: SMR dated 30 September 2019.

Between 29 December 2019 and 7 January 2020, Customer 87 and Customer 86 played at Star Sydney on individual rebate programs. Customer 87 mainly played on EGMs, with some minor play on tables until 2 January 2020. Customer 86 recorded a loss of \$372,475, however he earned significant rebates from his play and he took some of this rebate in chips. On 2 January 2020, Customer 87 deposited \$250,000 in chips into her Star Sydney FMA. Star considered that the chips for this deposit came from Customer 86's rebate. On the same day, Customer 87 made buy-ins totalling \$300,000 in chips, which were not supported by her play. However, Star noted that the buy-ins were supported by Customer 86's play: SMR dated 8 January 2020.

- I. Customer 87 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 87 had access to private gaming rooms at Star Sydney, including the Sovereign, Vantage, Lakes Salons and the Oasis (Cage).

- m. Customer 87 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 87 had access to private gaming rooms at Treasury Brisbane, including The Suite – Ground Floor, Orchid Level 3, Sovereign Room – EGMs, The Suite – EGMs, Sovereign Room – Tables, The Suite – Tables and the Cage.

Customer 87 had access to private gaming rooms at Star Gold Coast, including The Suite, The Oasis, the Sovereign Room, Chairmans and the Sovereign (Cage).

- n. between 2019 and 2021, Star Qld provided information in respect of Customer 87 to law enforcement;

Particulars

On 1 February 2019, Star Qld sent Customer 87's details to a law enforcement agency regarding suspicious activity and potential money laundering.

On 28 May 2019, Star Qld sent Customer 87's details to a law enforcement agency regarding suspicious activity and potential money laundering. Star Qld was advised that Customer 87 was possibly linked to money laundering activities.

On 30 September 2019, Star Qld sent details regarding Customer 87 to a law enforcement agency. The law enforcement agency responded and requested further information.

- o. between 2019 and 2021, Customer 87 was the subject of law enforcement enquiries at Star; and

Particulars

On 13 September 2019, Star Qld received a request for information from a law enforcement agency regarding Customer 87.

On 13 December 2021, Star Qld received a request for information from a law enforcement agency regarding Customer 87.

On 14 December 2021, Star Qld received a search warrant from a law enforcement agency regarding Customer 87.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- p. Star Sydney and Star Qld did not have adequate reason to believe that Customer 87's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 87 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

On 1 February 2019 and 29 March 2019, Star Qld gave the AUSTRAC CEO an SMR which reported that it could not confirm Customer 87's source of funds or occupation.

On 4 April 2019, Customer 86 had informed Star that he and Customer 87 owned several construction companies, including Company 3.

On 15 May 2019, Star Qld recorded in an SMR given to the AUSTRAC CEO that it had attempted to find further information

concerning Customer 87 and Customer 86's source of funds, and noted that:

- a. Customer 86 was potentially a tiler, locksmith or in sales; and
- b. Customer 87 and Customer 86 had advised Star Qld that they owned a few home building companies in Brisbane.

On 30 July 2019, Star Qld recorded in an SMR given to the AUSTRAC CEO that it considered Customer 87 and Customer 86's losses to be large compared to any potential income source.

By at least 9 December 2019, Star Qld understood that Customer 87 was the sole director of one of the construction companies, including Company 3 said to be owned by Customer 86 and Customer 87.

By at least 7 February 2022, Star recorded Customer 87's occupation as a customer service agent.

Customer 87's gaming activity was not commensurate with size of the cash transactions at Star Qld or with her purported source of wealth or source of funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 87

2243. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 87 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 87.
- a. On and from January 2019, Customer 87 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 87's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 87 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 3 October 2018, Customer 87 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 7 February 2022, Customer 87 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 87's transactions

2244. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 87's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 87, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 87 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Sydney provided designated services to Customer 87 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 87's KYC information

2245. Star Sydney and Star Qld did not review, update and verify Customer 87's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 87's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 87's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 87's source of wealth and source of funds were not legitimate: see *Customer 87's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 87's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 87.

Particulars

See paragraph 155 above.

Section 36(1)(a), (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 87's high ML/TF risks

2246. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 87 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 87; and
- c. reviewing and updating Customer 87's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 87 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 87*.

ECDD triggers in respect of Customer 87

2247. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 87 following any ECDD triggers in respect of Customer 87.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2248. Customer 87:

- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 12 September 2019 and 30 September 2019, Star Sydney gave the AUSTRAC CEO two SMRs with respect to Customer 87.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 31 May 2017 and 23 October 2020, Star Qld gave the AUSTRAC CEO 21 SMRs with respect to Customer 87.

2249. Each matter pleaded in paragraph 2248 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2250. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 87 following an ECDD trigger because:

- a. on each occasion that Star Sydney or Star Qld conducted ECDD in respect of Customer 87 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 87 and the provision of designated services to Customer 87 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite;

Particulars

See paragraphs 797, 807, 808 and 809 above.

Rules 15.10(2) and (5) of the Rules.

On 11 September 2019 and 28 September 2019, Star Sydney conducted ECDD in respect of Customer 87: see *Customer 87's risk profile*.

On 29 March 2019, 10 July 2020 and 21 July 2020, Star Qld conducted ECDD in respect of Customer 87: see *Customer 87's risk profile*.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 87's higher ML/TF risks: see *Customer 87's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 87's source of funds or source of wealth, in circumstances where Star Qld was aware that:

- a. Customer 87 was the director of a company that made large telegraphic transfers to Star Qld, which had two secured creditors;
- b. while Customer 86 and 87 had advised that they owned several construction companies, the losses sustained by Customer 87 and Customer 86 were too large for any company to sustain; and
- c. Customer 87's financial transactions were not commensurate with her gaming activity at Star Qld.

By reason of the matters set out above, there were real risks that Customer 87's source of wealth and source of funds were not legitimate: see *Customer 87's risk profile*.

- b. Customer 87 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 87 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 87 and the provision of designated services to Customer 87 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

By 2 December 2019, senior management were aware that a telegraphic transfer of \$300,000 sent on 25 November 2019 by Star Qld to Customer 87's husband Customer 86's overseas bank account had been returned. Star senior management, including the Group Manager AML/CTF and Financial Crime, were informed of the transaction and decided that Star Qld would only allow Customer 87 and Customer 86 to make transfers to Australian banks going forward.

On 13 December 2019, the Star Qld AML/CTF Administrator conducted a company search in respect of Company 3 and identified that:

- a. there were two secured creditors of the company;
- b. Customer 87 and Customer 86 were using company funds to fund Customer 86's gambling at Star Qld; and
- c. there was a risk that the company may face financial difficulty, such that Star may face adverse media attention due to its receipt of company funds for gambling.

The AML/CTF Administrator considered that Star Qld should cease accepting telegraphic transfers from Company 3's bank accounts, with all funds to come directly from Customer 87 or Customer 86's personal bank account. This request was raised by email with the Group Manager AML/CTF and Financial Crime on 13 December 2019.

There are no records of any response to this request in Star Qld's due diligence records.

At no time did Star senior management appropriately consider the ML/TF risks of continuing to provide designated services to Customer

87 and Customer 86 in light of the higher ML/TF risks posed: see
Customer 87's risk profile.

Contravention of s36 of the Act in respect of Customer 87

2251. By reason of the matters pleaded from paragraphs 2237 to 2250, on and from 16 June 2018, Star Sydney:

- a. did not monitor Customer 87 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2252. By reason of the matters pleaded at paragraph 2251, Star Sydney contravened s36(1) of the Act on and from January 2019 with respect to Customer 87.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2253. By reason of the matters pleaded from paragraphs 2237 to 2250, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 87 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2254. By reason of the matters pleaded at paragraph 2253, Star Qld contravened s36(1) of the Act on and from January 2019 with respect to Customer 87.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 88

2255. Customer 88 was a customer of Star Sydney during the relevant period. Between 2017 and 2021, Star Sydney recorded turnover exceeding \$3.7 million for Customer 88.

Particulars

Customer 88 was a customer of Star Sydney from at least 22 September 2011.

On 22 December 2021, Star Sydney issued a WOL in respect of Customer 88.

2256. Star Sydney provided Customer 88 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

Between 2017 and 2021, Star Sydney recorded high turnover totalling \$3,779,956 for Customer 88 (table 3, s6 of the Act).

See Customer 88's risk profile.

2257. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 88.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 88's risk profile

2258. On and from 30 November 2016, Customer 88, and the provision of designated services to Customer 88 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 88's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 88 had the following risk history:
- i. Customer 88 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded individual rated turnover totalling \$26,163 for Customer 88; and
 - ii. Customer 88 was connected to other customers at Star Sydney, including players who posed higher ML/TF risks and who Star Sydney considered had acted suspiciously;

Particulars

In January 2016, Customer 88's father, who was also a Star Sydney customer, was issued with a venue exclusion for being associated with an Australian organised crime syndicate. In June 2016, that exclusion was revoked.

Customer 88's risk profile from 30 November 2016

- b. Customer 88 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$3,779,956 for Customer 88;

Particulars

See paragraph 752 above.

In 2017, Customer 88's individual rated turnover escalated to \$545,362.

In 2018, Customer 88's individual rated turnover was \$416,416.

In 2019, Customer 88's individual rated turnover escalated significantly to \$2,495,061.

From 2020, when the COVID-19 pandemic closures commenced, Customer 88's turnover dropped but remained high.

In 2020, Customer 88's individual rated turnover was \$155,766.

In 2021, Customer 88's individual rated turnover was \$167,351.

- c. designated services provided to Customer 88 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 12 August 2017 and 11 July 2019, Star Sydney gave the AUSTRAC CEO 11 TTRs detailing EGM payouts to Customer 88 totalling \$277,402.

Between 10 January 2021 and 7 March 2021, Customer 88 had an EGM turnover at Star Sydney of \$134,916 with a win of \$2,087.

- d. Customer 88 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 4 June 2018 and 4 January 2020, Star Sydney gave the AUSTRAC CEO nine TTRs detailing chip and cash exchanges made by Customer 88 totalling \$150,670.

On 11 July 2019, Star Sydney gave the AUSTRAC CEO a TTR detailing an account deposit by Customer 88 totalling \$10,000.

- e. Customer 88 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 88 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Vantage and Oasis.

- f. on multiple occasions in July 2020, Customer 88 appeared as a criminal defendant in a New South Wales court;

Particulars

Between 8 July 2020 and 23 July 2020, Customer 88 appeared as a criminal defendant in a New South Wales court on at least four occasions.

- g. by early to mid-2021, Star Sydney was aware of a number of suspicious incidents involving Customer 88 and his associates at various Star properties, including:
- i. by 8 January 2021, Star Sydney was aware that, while attending Star Gold Coast, Customer 88 was identified by Star Qld to have organised the supply of drugs;

Particulars

In 2020, Star Qld monitored Customer 88's activities at gaming tables at Star Gold Coast due to concerns that he was cheating. As a result, Star Qld formed suspicions that he was organising the supply of drugs.

- ii. by 24 May 2021, Star Sydney was aware that, while attending Star Gold Coast, Customer 88 was involved in large scale drug activity including organising the supply of drugs while at gaming tables using multiple mobile phones; and
- iii. by 24 May 2021, Star Sydney was aware that Customer 88 had attempted to pay cash for accommodation at Star Sydney for a stay in March 2021;

Particulars

When hotel staff informed Customer 88 that he was required to provide a credit card for the room booking, there was an altercation and Customer 88 was 'blacklisted' from Star's accommodation due to his behaviour.

Customer 88 returned to Star's hotel a few months later, using his partner's name for the booking.

- h. in September 2019 and 2021, Customer 88 was the subject of law enforcement enquiries at Star Sydney;

Particulars

On 19 September 2019, Star Sydney received a request from a law enforcement agency for information concerning Customer 88.

In January 2021, Star Sydney received a request for information from a law enforcement agency concerning Customer 88.

By 8 January 2021, Star Sydney was aware that Customer 88 was a person of interest for a law enforcement agency in respect of a large-scale drugs and firearm related investigation.

- i. in September 2021, Customer 88 was arrested and charged by a law enforcement agency; and

Particulars

On 7 October 2021, Star Sydney was informed by a law enforcement agency that Customer 88 had been arrested on 3 September 2021 and refused bail. Customer 88 was arrested in connection with his involvement in a drug supply syndicate, and charges including knowingly dealing with the proceeds of crime.

- j. Star Sydney did not have adequate reason to believe that Customer 88's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 88 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 88 was a builder.

From 2017, Customer 88's turnover was not consistent with his source of wealth.

By 2019, Customer 88's turnover had escalated significantly to \$2,495,061.

By early 2021, Star was aware that Customer 88 was suspected by law enforcement to be involved in the supply of drugs.

In September 2021, Customer 88 was arrested and charged by a law enforcement agency.

Star Sydney's determination of the ML/TF risks posed by Customer 88

2259. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 88 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 88.
2260. On 25 October 2021, Customer 88 was rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

On 25 October 2021, Customer 88 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 88's transactions

2261. At no time did Star Sydney apply appropriate transaction monitoring to Customer 88's transactions because where Star Sydney conducted any transaction monitoring of transactions involving Customer 88, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 88's KYC information

2262. Star Sydney did not review, update and verify Customer 88's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in rule 1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 88's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 88's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 88's source of wealth and source of funds were not legitimate: see *Customer 88's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 88's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 88.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 88's high ML/TF risks

2263. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 88 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 88; and
- c. reviewing and updating Customer 88's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 88 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 88*.

ECDD triggers in respect of Customer 88

2264. Star Sydney was required to apply the ECDD Programs to Customer 88 following any ECDD triggers in respect of Customer 88.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and 15.10 of the Rules.

2265. Customer 88 was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney.

Particulars

On 25 October 2021, Star Sydney determined that the ML/TF risks posed by Customer 88 was high risk for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 88* above.

2266. The matter pleaded in paragraph 2265 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

2267. On 25 October 2021, at the same time Customer 88 was rated as high risk for the purpose of the Act and Rules, the AML/CTF Compliance Officer determined that a group wide WOL should be issued in respect of Customer 88 and his father.

2268. On 22 December 2021, Star Sydney issued a WOL in respect of Customer 88.

Particulars

Customer 88 was in police custody from or about early October 2021.

Contravention of s36 of the Act in respect of Customer 88

2269. By reason of the matters pleaded from paragraphs 2255 to 2268 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 88 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2270. By reason of the matters pleaded at paragraph 2269, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 22 December 2021 with respect to Customer 88.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 89

2271. Customer 89 was a customer of Star Qld during the relevant period. Between 2016 and 2022, Star Qld recorded turnover exceeding \$400 million for Customer 89.

Particulars

Customer 89 was a customer of Star Qld from at least 5 October 2008.

On 28 January 2022, Star Qld issued a WOL in respect of Customer 89.

2272. Star Qld provided Customer 89 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 28 January 2022, Star Qld closed an FMA, SKA and CWA for Customer 89 (item 11, table 3, s6 of the Act).

See Customer 89's risk profile below.

2273. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 89.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 89's risk profile

2274. On and from 30 November 2016, Customer 89, and the provision of designated services to Customer 89 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 89's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 89 had the following risk history:
 - i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 89;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 11 June 2016 and 14 July 2016.

The SMRs reported that Customer 89 transacted using large amounts of cash at Star Qld and had provided two forms of identification with slightly different names: see paragraphs 2274.a.iv and 2274.a.v below.

- ii. Customer 89 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high individual rated turnover totalling \$31,821,181 for Customer 89;

Particulars

See paragraph 752 above.

In 2015, Customer 89's individual rated turnover was \$187,229 at Star Gold Coast and \$31,633,952 at Treasury Brisbane.

- iii. by 30 November 2016, Customer 89 had self-excluded herself from Star Qld on three occasions;

Particulars

On 26 May 2010, 30 September 2012 and 28 June 2013, Customer 89 self-excluded from Star Qld.

The 28 June 2013 self-exclusion was revoked on 7 August 2016. Despite this, Customer 89 recorded a turnover of \$31,821,181 at Star Qld in 2015: see paragraph 2274.a.ii above.

- iv. Customer 89 transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

Between 30 August 2012 and 11 August 2016, Star Qld gave the AUSTRAC CEO 39 TTRs detailing incoming payments to Customer 89 totalling \$453,000 in chip exchanges.

Between 12 November 2009 and 8 August 2016, Star Qld gave the AUSTRAC CEO 35 TTRs detailing outgoing payments from Customer 89 totalling \$662,097 in chip exchanges.

On 11 June 2016, Customer 89 exchanged \$100,000 in chips for cash. Star Qld reviewed Customer 89's play, which supported the transaction. Star Qld nonetheless considered the large cash transaction to be suspicious: SMR dated 11 June 2016.

On 21 June 2016, Customer 89 made a cash buy-in of \$9,000.

- v. Customer 89 presented two forms of identification with different names;

Particulars

On 14 July 2016, Star Qld noted that Customer 89 had provided two forms of identification, being an Australian passport and a Qld drivers licence, with different names: SMR dated 14 July 2016.

Customer 89's risk profile from 30 November 2016

- b. Customer 89 received high value gambling services (table 3, s6) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$405,150,964 for Customer 89;

Particulars

See paragraph 752 above.

In 2016, Customer 89's individual rated turnover was \$37,936,680, being \$2,717,096 at Star Gold Coast and \$35,219,584 at Treasury Brisbane.

In 2017, Customer 89's individual rated turnover escalated to \$49,633,390, being \$2,912,024 at Star Gold Coast and \$46,721,366 at Treasury Brisbane.

In 2018, Customer 89's individual rated turnover significantly escalated to \$83,655,801, being \$9,617,383 at Star Gold Coast and \$74,038,418 at Treasury Brisbane.

In 2019, Customer 89's individual rated turnover escalated to \$88,576,324, being \$8,082,739 at Star Gold Coast and \$80,493,585 at Treasury Brisbane.

From 2020, despite the COVID-19 pandemic closures, Customer 89's turnover remained high.

In 2020, Customer 89's individual rated turnover was \$53,715,274, being \$2,069,327 at Star Gold Coast and \$51,645,947 at Treasury Brisbane.

In 2021, Customer 89's individual rated turnover escalated to \$86,202,978, being \$7,865,811 at Star Gold Coast and \$78,337,167 at Treasury Brisbane, with losses of \$1,524,120, being \$116,632 at Star Gold Coast and \$1,407,487 at Treasury Brisbane.

In 2022, Customer 89's individual rated turnover was \$5,430,517 at Treasury Brisbane.

- c. by April 2017, Star Qld was aware that Customer 89 was suspected of using Star Qld to launder money;

Particulars

In April 2017, the Star Qld investigations department prepared a monthly report. The report noted that Customer 89:

- a. had a history of drug trafficking and was the subject of a law enforcement investigation; and
- b. was suspected of using Star Qld as a place to launder money.

- d. by January 2018, Star Qld was aware of information that suggested that Customer 89 was supplying drugs at Star Qld premises;

Particulars

In January 2018, the Star Qld investigations department prepared a monthly report. The report noted that Customer 89:

- a. was the subject of intelligence suggesting that she was supplying drugs at Star Qld premises;

- b. had been the subject of comprehensive surveillance which identified that she would leave Star Qld premises on many occasions and meet third parties; and
- c. would often enter vehicles and return to Star Qld a short time later.

The report stated that all available details had been provided to onsite police, who were conducting an ongoing investigation.

- e. Star Qld were aware that:
 - i. Customer 89 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;
 - ii. Customer 89, and persons associated with her, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes and counterfeit cash at Star Qld;

Particulars

Between 27 February 2017 and 22 November 2021, Star Qld gave the AUSTRAC CEO 152 TTRs detailing chip exchanges by Customer 89 totalling \$1,899,613, including:

- a. between 27 February 2017 and 4 November 2020, 39 TTRs detailing incoming payments to Customer 89 totalling \$445,300 in chip exchanges; and
- b. between 20 March 2017 and 22 November 2021, 89 TTRs detailing outgoing payments from Customer 89 totalling \$1,454,313 in chip exchanges.

Large and unusual transactions in 2017

On 9 March 2017, Customer 89 signed another customer into a private gaming room. The customer exchanged \$10,000 in cash for chips. However, no play was recorded for that customer. Star Qld reviewed Customer 89's play. Between January 2017 and March 2017, Customer 89 had lost \$96,000 at Star Gold Coast and \$346,000 at Treasury Brisbane. Customer 89 had only engaged in cash play and the TTRs generated did not account for the level of Customer 89's losses. Star Qld identified that Customer 89 had second membership card linked to her account in a different name. At the time of review, the second membership card had recorded a loss of \$27,000 at Star Gold Coast and \$166,000 at Treasury Brisbane. There were no recorded TTRs for the first membership card, which had only been engaged in cash play. Star Qld noted that the losses were not commensurate with Customer 89's stated profession as a nail technician and beauty therapist: SMR dated 15 March 2017.

On 18 March 2017, Customer 89 made a cash buy-in of \$9,500. On the same day, Customer 89 made another two cash buy-ins of \$5,000 each.

On 17 April 2017, Customer 89 exchanged \$5,000 in cash for chips. Customer 89 then exchanged a further \$5,000 in cash for chips which she claimed belonged to her friend. No details were provided at the time for Customer 89's friend. A TTR was generated for \$10,000. Customer 89 appeared to use all of the funds herself. Star Qld was unable to link Customer 89 to any other customer. However, on 15 April 2017, Customer 89 had signed in a guest who had no previous record at Star Qld: SMR dated 18 April 2017.

On 9 May 2017, Star Qld identified that over the previous three months, Customer 89 had consistent losses of \$13,800 in February 2017, \$68,600 in March 2017 and \$56,300 in April 2017. In addition, Customer 89 had some recorded losses on EGMs and Star Qld had no record of any significant win to account for the losses. Star Qld noted that the losses seemed unusual given Customer 89's stated occupation as a beauty therapist: SMR dated 9 May 2017.

On 8 September 2017, Customer 89 made a cash buy-in of \$9,900. Customer 89 had also recorded buy-ins of \$5,000.

On 24 September 2017, Customer 89 made a cash buy-in of \$9,000.

On 30 September 2017, Customer 89 exchanged \$9,000 in chips for cash. Customer 89 then exchanged a further \$5,097 in chips for cash, which was supported by recorded play. Star Qld noted that Customer 89's behaviour suggested she was attempting to avoid reporting obligations. A further review indicated that, in September 2017, Customer 89 had lost \$106,039 in cash play on tables. Customer 89's recorded loss for the year as at 30 September 2017 was \$273,991. Star Qld noted that Customer 89's source of wealth and source of funds was a chain of beauty salons that she owned: SMR dated 5 October 2017.

On 4 October 2017, Customer 89 attempted to exchange \$3,450 in \$50 notes at Treasury Brisbane. One of the notes was determined to be counterfeit and had foreign characters printed on it.

On 16 November 2017, Customer 89 made a cash buy-in of \$9,940. Customer 89 had recorded a loss of \$36,550 on that day.

On 14 December 2017, Customer 89 exchanged \$12,000 in chips for cash. Shortly afterwards, Customer 89 exchanged a further \$90,000 in chips for cash. However, Customer 89's recorded play only supported a cash out of \$28,500. Shortly afterwards, Customer 89's gaming partner exchanged \$261,037 in chips for cash, which was supported by the gaming partner's recorded play. Surveillance of play indicated that Customer 89's gaming partner had given approximately 15 chips worth \$5,000 each to Customer 89 under the gaming table. This accounted for the difference between Customer 89's recorded play and the \$90,000 in chips cashed out by Customer 89. Star Qld

was unaware why the gaming partner had given Customer 89 the additional chips: SMR dated 15 December 2017.

On 28 December 2017 and 30 December 2017, Customer 89 made a cash buy-in of \$9,000.

Large and unusual transactions in 2018

On 22 January 2018, Customer 89 made a cash buy-in of \$9,000.

On 29 January 2018, a customer exchanged \$6,500 in cash for chips at one gaming table and \$5,000 in cash for chips at another gaming table. This was the first time that the customer had transacted in this way. Once the transactions were completed, the customer was observed giving Customer 89 some of the chips. Star Qld noted that Customer 89 might have been attempting to avoid reporting obligations. Star Qld was aware that since 1 January 2018, the customer had lost \$614,235.11 and Customer 89 had lost \$768,103. The other customer's source of income was unknown. Customer 89's source of wealth and source of funds was understood to be her beauty salons: SMR dated 30 January 2018.

On 1 April 2018, Customer 89 cashed out \$9,000 in chips.

On 3 April 2018, Customer 89 made a cash buy-in of \$9,000.

On 27 May 2018, Customer 89 cashed out \$9,000 in chips.

On 15 November 2018, Star Qld identified that Customer 89 had recorded a small win of \$76 in August 2018, a loss of \$103,098 in September 2018 and a loss of \$108,442 in October 2018. Between September 2018 and October 2018, Customer 89 had also lost a total of \$30,000 on EGMs. Star Qld had no record of any significant win to account for the losses: SMR dated 15 November 2018.

Large and unusual transactions in 2019

On 6 February 2019, Star Qld identified that Customer 89 had recorded a loss of \$33,400 in November 2018, \$127,650 in December 2018 and \$42,088 in January 2019. Customer 89 recorded a win of \$27,544 on EGMs in January 2019. Star Qld had no record of any significant win to account for the losses. Star Qld noted that Customer 89's sustained losses were unusual given Customer 89's stated source of wealth and source of funds as a beauty therapist: SMR dated 6 February 2019.

On 29 May 2019, Star Qld identified that a customer had lost \$128,327 on table games between February 2019 and April 2019 and won \$4,000 on EGMs in April 2019. Star Qld had no record of any significant win to account for the losses. Star Qld was unaware of the customer's source of wealth and source of funds. Star Qld was aware that the customer was associated with Customer 89. Star Qld noted

that it had been advised by a law enforcement agency that Customer 89:

- a. had previous links to illicit drugs; and
- b. was under investigation by a state-based government agency: SMR dated 29 May 2019.

On 27 June 2019, Star Qld received an email requesting an acknowledgement of receipt of \$20,000 for a customer. The funds were located and released to the customer's account. Further review noted that the email address was also used by a second customer who was associated with Customer 89: SMR dated 28 June 2019.

On 24 July 2019, Customer 89 cashed out \$9,500 in chips.

On 11 September 2019, Customer 89 was playing at Star Gold Coast despite the majority of her previous play being recorded at Treasury Brisbane. Customer 89 did not use her membership card, which Star Qld considered to be unusual. Customer 89 exchanged \$35,000 in chips for cash, and then exchanged another \$31,000 in chips for cash within an hour. Shortly afterwards, Customer 89 exchanged an EGM ticket for \$15,005 in cash. Customer 89 had no recorded play on that day. A review of previous play indicated that both sets of chips belonged to Customer 89. Nonetheless, the manner with which Customer 89 completed the two transactions was considered to be unusual. The exchange of \$31,000 was split into two parts: first, \$25,000 was taken in cash, which comprised \$20,000 in \$100 notes and \$5,000 in \$50 notes; and, second, the remaining \$6,000 was exchanged for \$1,000 in \$100 notes and \$5,000 in \$50 notes. Star Qld considered it unusual that Customer 89 requested \$50 notes, particularly for a combined total of \$10,000: SMR dated 14 September 2019.

Large and unusual transactions in 2020

In late October 2020, Customer 89 cashed out chips for cash in units of approximately \$5,000 on several occasions. In addition, despite predominantly playing in the private gaming rooms where there was a cashier, Customer 89 had made the cash outs at a cashier in a different area of Star Qld. In the same week, Customer 89 had won approximately \$32,000 on the tables. Star Qld considered that Customer 89 might have been avoiding reporting obligations in respect of her winnings. No TTRs were recorded for Customer 89 in this period: SMR dated 26 October 2020.

Large and unusual transactions in 2021

On 5 January 2021, a customer presented \$20,000 in cash to be exchanged for chips. The cash was comprised of \$1,400 in \$100 notes and \$18,600 in \$50 notes. When asked where the money originated, the customer replied that her friend, Customer 89, had

given it to her in the bathroom. Star Qld informed the customer that Customer 89 would need to be present to complete the transaction. The customer decided to cancel the transaction and took the cash.

Later, Customer 89 informed Star Qld that she had given the customer the money as a loan. Customer 89 stated the reason the loan occurred in the bathroom was so that the customer's husband would not know about it: SMR dated 6 January 2021.

On 23 January 2021, Customer 89 exchanged \$5,000 in chips for cash. Immediately after the transaction, Customer 89 requested another \$5,000 in chips be exchanged for cash. When asked for her membership card, Customer 89 decided instead to exchange five \$1,000 chips for one \$5,000 chip. At the time of the cash out, Customer 89 had left the table with \$25,000 in chips. Subsequent gaming records for 23 January 2021 indicated that she was still winning around \$8,000 on the tables. However, when combined with her EGM activity in the same period, Customer 89 recorded an overall loss of \$1,400. Star Qld noted that Customer 89 might have given other customers chips to cash out on her behalf, being behaviour observed by Star Qld on previous occasions. Star Qld noted that Customer 89 sometimes split the payment of EGM tickets between cash and chips. However, given Customer 89 played heavily on both EGMs and tables, Star Qld considered that it was difficult to assess on that behaviour alone whether Customer 89 was trying to avoid reporting obligations. In 2020, Customer 89 had recorded a total loss of \$197,757 on table games and EGMs: SMR dated 28 January 2021.

On 25 February 2021, Customer 89 exchanged \$4,900 in chips for cash. Customer 89 returned later and exchanged \$4,800 in cash for chips. On each occasion, Customer 89 refused to supply identification. However, Customer 89 was well known to Star Qld staff. Star Qld believed that Customer 89 might have been trying to avoid all forms of reporting obligations. Star Qld reviewed Customer 89's play. Customer 89 had arrived with \$5,000 in chips and won \$1,000 in play. She moved to another table with the \$6,000 in chips and eventually walked away with \$12,000 in chips. Subsequent play saw her lose approximately \$5,500: SMR dated 26 February 2021.

On 18 March 2021, Customer 89 cashed out \$5,000 in chips.

On 24 June 2021, Star Qld identified that Customer 89 had recorded a loss of \$53,887 in March 2021, a loss of \$217,511 in April 2021 and a loss of \$76,740 in May 2021. In April 2021 and May 2021, Customer 89 had a total loss of \$63,000 on EGMs. Star Qld had no record of any significant win to account for these losses. Customer 89's total loss for 2021 by 24 June 2021 was \$883,749. Star Qld noted that, given Customer 89 had indicated her occupation as a beauty therapist, the consistent large losses were highly unusual: SMR dated 24 June 2021.

On 25 August 2021, Customer 89 sought to exchange \$5,000 in cash for chips at Star Gold Coast. She then reduced the requested amount to \$4,900. The cash comprised \$3,700 in \$50 notes and \$1,200 in \$100 notes. Star Qld staff observed that there was more cash in Customer 89's bag and that this behaviour seemed odd. However, Customer 89 willingly provided her membership card when requested. Star Qld noted that Customer 89 rarely played at Star Gold Coast, with the majority of her play at Treasury Brisbane. At the time, Customer 89 was known to have become increasingly aggressive with Treasury Brisbane staff when asked to provide her membership card for similar cash transactions. Star Qld reviewed Customer 89's play for 25 August 2021. Customer 89 had arrived with another customer and an unknown guest. Customer 89 completed the above transaction before commencing play at a table with the other customer. Star Qld considered it unusual that Customer 89 played at Star Gold Coast and had not requested that her play be recorded to earn points as she usually did: SMR dated 30 August 2021.

On 31 August 2021, Customer 89 exchanged \$7,000 in chips issued by Star Gold Coast for \$6,000 in chips issued by Treasury Brisbane and \$1,000 in cash. Treasury Brisbane staff contacted Star Gold Coast to confirm ownership of the chips. Customer 89 had visited Star Gold Coast and purchased approximately \$5,000 in chips. Customer 89 had recorded minimal play there and it was not known how she had obtained the additional \$2,000 in chips. No play was recorded for Customer 89 on 31 August 2021 or 1 September 2021. Star Qld noted it was unusual for Customer 89 to have purchased chips on two occasions and not played with them: SMR dated 2 September 2021.

On 3 September 2021 and 4 September 2021, a customer previously associated with Customer 89 conducted several transactions not supported by their gaming activity: SMR dated 8 September 2021.

Between 14 September 2021 and 16 September 2021, Star Qld noted that Customer 89's behaviour at Star Gold Coast had continued to be unusual. Customer 89 had not used her membership card, had taken large payouts in \$50 notes and was usually accompanied by another customer. On 15 September 2021, Customer 89 exchanged \$42,000 in chips for cash. A later review confirmed that the majority of the chips belonged to Customer 89 but that the other customer was also observed giving her an unknown amount of chips. Two hours later, Customer 89 exchanged \$15,000 in chips and a gaming voucher of \$15,942 for cash. Customer 89 requested the entire amount in \$50 notes. Later that day, Customer 89 exchanged an EGM ticket for \$10,600 in chips. Star Qld reviewed the gaming activity of Customer 89 and the other customer, with nothing unusual noted. However, Customer 89's interest in obtaining large numbers of

\$50 notes was noted as unusual. Star Qld noted that Customer 89 may be attempting to secure Star Qld straps to use to disguise the origin of her funds. Between 14 September 2021 and 16 September 2021, \$40,000 in \$50 notes had been paid to Customer 89. Star Qld noted that from 16 September 2021, an additional marking would be added to any straps on cash payments paid by Star Gold Coast to Customer 89: SMR dated 16 September 2021.

On 27 September 2021, Star Qld conducted a review of Customer 89's transactions. Since 16 September 2021, Customer 89 had played at Star Gold Coast and used her membership card inconsistently. Previous reviews and continued observation indicated that Customer 89 played with another customer who was also known to play without her membership card. Star Qld noted that Customer 89, for an unknown reason, redeemed large cash pay outs in \$50 notes. Between 17 September 2021 and 27 September 2021, there were nine transactions totalling \$219,569. This included \$124,800 taken as cash in \$100 notes, \$53,000 taken in \$50 notes and \$96 taken in change. In addition, \$10,673 was taken as a casino cheque and the rest of the amount comprised both chips and gaming vouchers. It was difficult for Star Qld to ascertain how much of Customer 89's previous wins had been used for gaming, as she had not been using her card consistently. This was also complicated by Customer 89's sharing of chips and funds with the other customer. Star Qld noted that Customer 89 might be attempting to structure her play to appear to be winning more than she actually was by not having her buy-ins recorded and placing cash into EGMs: SMR dated 27 September 2021.

On 27 November 2021, Customer 89 and two regular customers at Star Qld were noted to have behaved suspiciously. The first customer exchanged \$5,000 in cash for chips. The cash comprised \$50 notes. While playing at a table, Customer 89, was observed taking cash from a bag and giving it to the first customer. The cash appeared to be comprised of \$50 notes to an approximate total of \$5,000. The first customer then handed the loose cash to the second customer, who moved to another table to exchange \$5,000 in cash for chips. The second customer then returned to the table and handed the first customer \$5,000 in chips. The first customer then left the table with more cash and returned shortly afterwards with an additional \$5,000 in chips. This was added to the first customer's existing pile of chips, which she had left on the table. In the interim, Customer 89 had returned to the table and taken the \$5,000 in chips that had been obtained by the second customer and given to the first customer. After the first customer returned to the table, she was observed giving Customer 89 under the table the additional \$5,000 in chips that the first customer had obtained while away from the table. Customer 89 placed the chips in her bag. Star Qld noted that Customer 89 and the two other customers appeared to be acting in an orchestrated effort to

conceal the true ownership of the cash to avoid reporting obligations. Customer 89 and the two other customers also appeared to have a continuous supply of \$50 notes. Star Qld noted that previous SMRs had reported that Customer 89 had been insistent on being paid large amounts in \$50 notes. Customer 89 had stated that it was easier to spend. However, Star Qld noted that her behaviour suggested it was designed to comingle the cash with funds from other cash sources:
SMR dated 30 November 2021.

Large and unusual transactions in 2022

On 21 January 2022, Star Qld identified that Customer 89 had recorded a loss of \$2,925 in October 2021, a loss of \$46,917 in November 2021 and a loss of \$160,660 in December 2021. In addition, Customer 89 had lost a total of \$56,241 on EGMs in November 2021 and December 2021. At Treasury Brisbane, Customer 89 recorded a loss of \$1,407,487 for 2021. At Star Gold Coast, Customer 89 recorded a loss of \$116,632,620 for 2021. There was no record of any significant win to account for Customer 89's losses. Star Qld noted that Customer 89's consistent and large losses were unusual given her stated occupation: SMR dated 21 January 2022.

- f. Customer 89, and persons associated with her, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes and counterfeit cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See particulars to paragraph 2274.e above.

- g. designated services provided to Customer 89 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See particulars to paragraph 2274.e above.

Between 9 September 2017 and 10 October 2021, Star Qld gave the AUSTRAC CEO 24 TTRs detailing EGM payouts to Customer totalling \$614,957.

- h. Customer 89 and persons associated with her engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring and the involvement of third parties in relation to customer transactions;

Particulars

See paragraph 25 above.

See particulars to paragraph 2274.e above.

Structuring

Between 18 March 2017 and 23 January 2021, Customer 89 was involved in transactions indicative of the ML/TF typology of structuring on at least seven occasions totalling at least \$104,497.

The involvement of third parties in relation to customer transactions

On the following occasions, Customer 89 was involved in activity indicative of the ML/TF typology of the involvement of third parties in relation to customer transactions:

- a. on 14 December 2017, Star Qld determined that Customer 89's playing partner had given approximately 15 chips worth \$5,000 each to Customer 89 under the gaming table, which Customer 89 cashed out;
 - b. on 29 January 2018, Star Qld observed a customer giving Customer 89 some chips;
 - c. on 5 January 2021, a customer presented \$20,000 in cash to be exchanged for chips. When asked where the money originated, the customer replied that her friend, Customer 89, had given it to her in the bathroom. Later, Customer 89 informed Star Qld that she had given the customer the money as a loan. Customer 89 stated the reason the loan occurred in the bathroom was so that the customer's husband would not know about it. Star Qld advised a law enforcement agency about this transaction;
 - d. on 15 September 2021, Customer 89 exchanged \$42,000 in chips for cash. A later review confirmed that the majority of the chips belonged to Customer 89 but that another customer was also observed giving Customer 89 an unknown amount of chips;
and
 - e. on 27 November 2021, Star Qld observed Customer 89 engaged in suspicious transactions with two other customers. Customer 89 was observed to take cash from a bag and give it to the first customer at a gaming table. The first customer then gave the cash to the second customer. The second customer exchanged the cash for chips, returned to the gaming table and handed the first customer \$5,000 in chips. Customer 89 then took the \$5000 in chips. The first customer then gave Customer 89 under the table an additional \$5,000 in chips which Customer 89 placed in her bag.
- i. in 2017, 2020 and 2021, Customer 89 was the subject of law enforcement enquiries at Star;

Particulars

On 19 April 2017, Star Qld was given verbal advice from a law enforcement agency that Customer 89's address had been searched

in late 2016 in connection with illicit drugs and that Customer 89 was suspected of having links to illicit drugs as a 'ring leader'. Star Qld was aware that a business connected to Customer 89 was being investigated by other law enforcement agencies and state-based government agencies.

On 8 October 2020, Star Qld advised a law enforcement agency that Customer 89 had handed over counterfeit notes.

In October 2020, a law enforcement agency informed Star Qld verbally that Customer 89 was a person of interest to them.

On 6 January 2021, Star Qld advised a law enforcement agency that Customer 89 was allegedly involved in money lending.

- j. Customer 89 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 89 had access to private gaming rooms at Star Qld, including The Suite, the Sovereign Room, Orchid, Pit 8, Pit 9, Chairman's, Salon 66 and the Club Conrad.

- k. in October 2020, Star Qld became aware that Customer 89 had hidden a large amount of cash under her bed at a Star Qld hotel;

Particulars

On 11 October 2020, a housekeeper located \$2,000 in cash on the floor underneath Customer 89's bed at a Star Qld hotel.

The cash was taken to Star Qld's lost property.

- l. on 27 January 2022, Customer 89 was charged with a criminal offence; and

Particulars

On 27 January 2022, Star Qld was informed that Customer 89 had been charged with a criminal offence.

On 28 January 2022, Star Qld issued Customer 89 with a WOL.

- m. Star Qld did not have adequate reason to believe that Customer 89's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6) received by Customer 89 at Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Customer 89 turned over tens of millions of dollars at Star Qld. From 30 November 2016 to 2021, Customer 89 turned over hundreds of millions of dollars at Star Qld.

On and from March 2017, Customer 89 had engaged in highly suspicious cash transactions at Star Qld including transactions indicative of the ML/TF typology of structuring.

In April 2017, the Star Qld investigations department prepared a monthly report. The report noted that Customer 89:

- a. had a history of drug trafficking and was the subject of a law enforcement investigation; and
- b. was suspected of using Star Qld as a place to launder money.

On and from December 2017, Star Qld observed Customer 89 providing chips or cash to other customers.

By January 2018, Star Qld was aware of information to suggest that Customer 89 was supplying drugs at Star Qld premises.

By January 2021, Star Qld had formed a suspicion that Customer 89 was involved in money lending.

At all times, Star Qld understood that Customer 89 was a nail technician and beauty therapist. On multiple occasions, Star Qld questioned Customer 89's source of wealth and source of funds and yet took no steps further to review, update and verify that source of wealth and source of funds.

At no time was Customer 89's turnover consistent with her source of wealth and source of funds.

See Customer 89's risk profile above.

Star Qld's determination of the ML/TF risks posed by Customer 89

2275. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 89 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 89.

- a. On and from 30 November 2016, Customer 89 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 89's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 89 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 12 May 2016, Customer 89 was rated medium risk in respect of one of her accounts, not being high risk for the purpose of the Act and Rules.

On 6 June 2016, Customer 89 was rated medium risk in respect of a second of her accounts, not being high risk for the purpose of the Act and Rules.

On 16 November 2018, Customer 89 was rated high risk in respect of all but one of her accounts, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 89's transactions

2276. At no time did Star Qld apply appropriate transaction monitoring to Customer 89's transactions because:

- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 89, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld provided designated services to Customer 89 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 89's KYC information

2277. Star Qld did not review, update and verify Customer 89's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a), (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 89's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 89's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set above, there were real risks that Customer 89's source of wealth and source of funds were not legitimate: see *Customer 89's risk profile* above.

- d. to the extent that Star Qld reviewed Customer 89's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 89.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 89's high ML/TF risks

2278. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 89 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 89; and
 - c. reviewing and updating Customer 89's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 89 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 89*.

ECDD triggers in respect of Customer 89

2279. Star Qld was required to apply the ECDD Programs to Customer 89 following any ECDD triggers in respect of Customer 89.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2280. Customer 89 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 15 March 2017 and 21 January 2022, Star Qld gave the AUSTRAC CEO 23 SMRs with respect to Customer 89.

2281. The matter pleaded in paragraph 2280 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2282. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 89 following an ECDD trigger because:

- a. on each occasion prior to 28 January 2022 that Star Qld conducted ECDD in respect of Customer 89 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 89 and the provision of designated services to Customer 89 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 25 June 2021, 30 August 2021, 6 September 2021, 15 September 2021, 17 September 2021 and 27 September 2021, Star Qld conducted ECDD in respect of Customer 89.

On each occasion, the ECDD screening in respect of Customer 89 identified that there were no adverse findings.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 89's higher ML/TF risks: see *Customer 89's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 89's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 89's source of wealth and source of funds were not legitimate: see *Customer 89's risk profile* above.

However, it was not until 28 January 2022 that Star Qld issued a WOL in respect of Customer 89.

- b. Customer 89 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 28 January 2022 that Customer 89 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 89 and the provision of designated services to Customer 89 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Senior management consideration by 30 November 2016

In May 2016, Customer 89 was discussed at a PAMM and JRAMM.

The minutes of the meetings noted that:

- a. Customer 89 had losses of over \$200,000 in 2016;
- b. Customer 89's occupation was as a beauty therapist;
- c. a Star Qld staff member would attempt to confirm Customer 89's source of funds; and
- d. Customer 89's risk rating of medium was sufficient pending further information.

Senior management consideration in 2018

In January 2018, Customer 89 was discussed at a PAMM.

The minutes of the meeting noted that Customer 89 was the subject of a law enforcement investigation.

Senior management consideration in 2021

On 25 June 2021, 31 August 2021, 6 September 2021, 15 September 2021 and 17 September 2021, following an ECDD screening, the Due Diligence Program Manager determined to maintain a business relationship with Customer 89. On 17 September 2021, the Due Diligence Program Manager noted that five SMRs had been given to the AUSTRAC CEO since 24 June 2021 and that Customer 89 was on a watchlist.

On 27 September 2021, following an ECDD screening, the Due Diligence Program Manager escalated Customer 89 to the AML/CTF Compliance Officer. The Due Diligence Program Manager noted that:

- a. six SMRs had been given to the AUSTRAC CEO in respect of Customer 89 since 24 June 2021;
- b. Customer 89 was associated with another customer who had recently been recommended as the subject of a WOL after investigations confirmed that the other customer had been convicted of drug trafficking in September 2019 and received a nine-month custodial sentence;
- c. Customer 89 was a beauty therapist and her gaming activity did not seem consistent with her source of wealth; and
- d. Customer 89 was on a watchlist at Star.

On 26 October 2021, the AML/CTF Compliance Officer determined to maintain a business relationship with Customer 89. The AML Compliance Manager agreed that Customer 89 should be added to a watch list.

In determining that a business relationship could be continued, the AML/CTF Compliance Officer did not have regard to:

- a. Customer 89's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover; and
- b. Customer 89's source of funds (r15.10(2)(b) of the Rules), having regard to the information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 89's risk profile* above.

On 28 January 2022, after becoming aware that Customer 89 had been charged with a criminal offence, Star Qld issued a WOL in respect of Customer 89.

Contravention of s36 of the Act in respect of Customer 89

2283. By reason of the matters pleaded from paragraphs 2271 to 2282, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 89 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2284. By reason of the matters pleaded at paragraph 2283, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 28 January 2022 with respect to Customer 89.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 90

2285. Customer 90 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$130 million for Customer 90.

Particulars

Customer 90 was a customer of Star Sydney from at least 6 October 2007.

On 11 June 2021, Star Sydney issued a WOL in respect of Customer 90 for reasons unrelated to his ML/TF risk.

2286. Star Sydney provided Customer 90 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 11 November 2008, Star Sydney opened an FMA and SKA for Customer 90 which were closed on 14 November 2008.

See Customer 90's risk profile below.

2287. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 90.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 90's risk profile

2288. On and from 30 November 2016, Customer 90, and the provision of designated services to Customer 90 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 90's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 90 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 90;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 1 January 2016.

The SMR reported that, on 29 January 2016, Customer 90 had won an EGM payout and had a Star winning cheque issued to him for \$100,000. The following day, Customer 90 returned the cheque and exchanged it for cash.

- ii. Customer 90 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2014 and 2015, Star Sydney recorded high and escalating individual rated turnover totalling \$42,497,940 for Customer 90;

Particulars

See paragraph 752 above.

In 2014, Customer 90's individual rated turnover was \$8,441,747.

In 2015, Customer 90's individual rated turnover escalated significantly to \$34,056,193.

- iii. designated services provided to Customer 90 by 30 November 2016 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 19 November 2014 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 417 TTRs detailing EGM payouts to Customer 90 totalling \$10,715,088.

- iv. Customer 90 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 7 July 2014 and 10 November 2016, Star Sydney gave the AUSTRAC CEO 47 incoming TTRs detailing chip and currency exchanges involving Customer 90 totalling \$481,000.

Between 24 June 2014 and 8 November 2016, Star Sydney gave the AUSTRAC CEO 63 outgoing TTRs involving Customer 90 totalling \$2,622,740, including:

- a. one TTR detailing \$40,000 in account withdrawals;
 - b. 62 TTRs detailing \$2,582,740 in chip and currency exchanges;
 - c. \$201,000 in chip exchanges; and
 - d. \$82,000 in other monetary values out.
- v. between October 2015 and August 2016, Customer 90 was the subject of law enforcement enquiries on multiple occasions at Star; and

Particulars

On 15 October 2015, Star Sydney received a request from a law enforcement agency relating to Customer 90's membership and attendance information, hotel bookings and issued cheques. Star Sydney provided these details to the law enforcement agency together with other documents for a future search warrant.

In June 2016, a law enforcement agency informed Star that Customer 90 was a person of interest in respect of a proceeds of crime offence.

On 8 August 2016, the law enforcement agency informed Star Sydney that they had suspended their inquiries and investigation into Customer 90.

- vi. on 21 May 2016, persons at the Star Sydney Astral Hotel who were registered under Customer 90's name were evicted following the discovery of a white powder in the room which one of the persons identified as belonging to Customer 90;

Customer 90's risk profile from 30 November 2016

- b. Customer 90 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high individual rated turnover totalling \$132,0024,906 for Customer 90;

Particulars

See paragraph 752 above.

In 2016, Customer 90's individual rated turnover was \$77,268,434.

In 2017, Customer 90's individual rated turnover was \$33,088,470.

In 2018, Customer 90's individual rated turnover was \$8,248,970.

In 2019, Customer 90's individual rated turnover was \$8,148,584.

From 2020, when the COVID-19 pandemic closures commenced, Customer 90's turnover decreased but remained high.

In 2020, Customer 90's individual rated turnover was \$1,890,904.

In 2021, Customer 90's individual rated turnover was \$3,379,543.

- c. designated services provided to Customer 90 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

In 2019, Customer 90 was regularly included on the EGM Top 100 list at Star.

Between 19 December 2016 and 14 April 2021, Star Sydney gave the AUSTRAC CEO 417 TTRs detailing EGM payouts to Customer 90 totalling \$3,681,972.

- d. Customer 90 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 16 January 2017 and 12 April 2021, Star Sydney gave the AUSTRAC CEO seven incoming TTRs detailing chip and cash exchanges involving Customer 90 totalling \$89,900.

Between 12 January 2017 and 12 April 2021, Star Sydney gave the AUSTRAC CEO 17 ongoing TTRs detailing chip and cash exchanges Customer 90 totalling \$1,165,000.

On 22 September 2017, Customer 90, while playing on EGMs, handed another Star Sydney customer cash on three occasions.

- e. Customer 90 was connected to other customers at Star Sydney, including players who posed higher ML/TF risks and who Star Sydney considered had acted suspiciously such as Customer 97;

Particulars

Customer 90 was a known associate of Customer 97.

- f. between January 2017 and November 2021, Customer 90 was the subject of law enforcement enquiries;

Particulars

Between January 2017 and November 2021, Star Sydney received requests from a law enforcement agency for details in respect of Customer 90.

On 3 June 2021, Star Sydney was informed by a law enforcement agency that Customer 90, together with Customer 97, had been arrested and charged with serious drug related offences.

Shortly afterwards, Star Sydney issued a WOL in respect of Customer 90 on 11 June 2021.

- g. by at least 24 February 2017, Customer 90 had been identified by the Star Investigations team as a person who raised extreme money laundering concerns, together with concerns about the legitimacy of his source of funds;

Particulars

On 24 February 2017, a Star Investigations Manager noted that Customer 90 was 'allegedly' a baggage handler who was 'bringing in gear left right and centre'. The Star Investigations Manager noted that this explained his very significant level of gaming at Star.

On 14 July 2017, a Star Investigations Manager identified that Customer 90 had been the subject of law enforcement interest because of his involvement in 'large imports'. The Star Investigations Manager noted that Customer 90 allegedly spent his profits at Star.

On 20 September 2017, a Star Investigations Manager identified concerns that Customer 90 was importing illegal drugs and spending the proceeds at Star.

- h. by June 2021, Star Sydney was aware that Customer 90 had been arrested and charged in connection with a transnational organised criminal syndicate engaged in a conspiracy, together with Customer 97, to supply cocaine with a potential street value of \$900,000,000;

Particulars

On 3 June 2021, Star Sydney became aware that Customer 90 had been charged in connection with an alleged plot related to drug smuggling.

Shortly afterwards, on 11 June 2021, Star Sydney issued Customer 90 with a WOL at the direction of an Investigations Manager for undesirable behaviour.

- i. Star Sydney did not have adequate reason to believe that Customer 90's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 90 at Star Sydney.

Particulars

See paragraph 808 above.

By 30 November 2016:

- a. Star was aware that Customer 90 was a person of interest to a law enforcement agency in respect of a proceeds of crime offence; and
- b. Star's only information on Customer 90's source of wealth and source of funds was that he was a baggage handler or (as identified in Star's internal systems) a car salesman.

In 2016 and 2017, Customer 90's turnover escalated significantly. From 2018 onwards, Customer 90's turnover remained consistently high.

By 2017, Star Sydney suspected that Customer 90 was involved in the importation of drugs.

By November 2019, Star understood Customer 90's source of wealth and source of funds to be his job as a car salesman and ownership of a car yard.

At no time was Customer 90's turnover consistent with his source of wealth and source of funds.

See particulars to paragraphs 2288.a.v, 2288.b and 2288.g above.

Star Sydney's determination of the ML/TF risks posed by Customer 90

2289. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 90 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 90.

- a. On and from 30 November 2016, Customer 90 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 90's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 4 June 2021 that Customer 90 was rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 1 February 2016, Customer 90 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 10 March 2016, Customer 90 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 18 May 2016, Customer 90 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 4 June 2021, Customer 90 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 90's transactions

2290. At no time did Star Sydney apply appropriate transaction monitoring to Customer 90's transactions because, where Star Sydney conducted any transaction monitoring of transactions involving Customer 90, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 90's KYC information

2291. Star Sydney did not review, update and verify Customer 90's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a), (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 90's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 90's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out at above, there were real risks that Customer 90's source of wealth and source of funds were not legitimate: see *Customer 90's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 90's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 90.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Senior management consideration in respect of Customer 90

Between May 2016 and July 2016, Customer 90 was discussed at JRAMM and PAMMs.

The minutes of the meetings noted that Customer 90:

- a. was a car salesman; and
- b. was of external interest.

Between 30 November 2016 and December 2019, Customer 90 recorded tens of millions of dollars in turnover at Star Sydney.

Between August 2019 and December 2019, Customer 90 was again discussed at JRAMM and PAMMs.

The minutes of the meetings noted that:

- a. Customer 90 was on the EGM Top 100 list;
- b. Customer 90 was a car salesman;
- c. Customer 90 had been of interest to law enforcement;
- d. in 2018, a decision had been made to continue a business relationship with Customer 90; and
- e. the Group Investigations Manager had assumed that Customer 90 was excluded.

The minutes of the meetings contained certain action items, including that:

- a. Star would request Customer 90's source of wealth; and
- b. Star was to conduct an assessment of whether there were losses or wins from Customer 90's active play.

Despite this, Star Sydney did not appropriately review, update and verify Customer 90's source of funds, including the origin of funds, having regard to his high ML/TF risks: see *Customer 90's risk profile* above.

In 2020, Customer 90 recorded nearly \$2,000,000 in turnover at Star Sydney. At no point did senior management appropriately consider Customer 90's source of funds or source of wealth.

Failure to apply appropriate due diligence suited to Customer 90's high ML/TF risks

2292. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 90 appropriately;

- b. applying appropriate risk-based transaction monitoring to Customer 90; and
- c. reviewing and updating Customer 90's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 90 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 90*.

ECDD triggers in respect of Customer 90

2293. Star Sydney was required to apply the ECDD Programs to Customer 90 following any ECDD triggers in respect of Customer 90.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and 15.10 of the Rules

2294. Customer 90 was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney.

Particulars

On 4 June 2021, Star Sydney determined that the ML/TF risks posed by Customer 90 was high risk for the purpose of the Act and Rules:
see *Star Sydney's determination of the ML/TF risks posed by Customer 90* above.

2295. The matter pleaded in paragraph 2294 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

2296. On 11 June 2021, Star Sydney issued a WOL in respect of Customer 90.

Particulars

On 11 June 2021, shortly after Star Sydney became aware that Customer 90 had been charged in connection with an alleged plot related to drug smuggling, Star Sydney issued Customer 90 with a WOL at the direction of an Investigations Manager for undesirable behaviour.

Contravention of s36 of the Act in respect of Customer 90

2297. By reason of the matters pleaded from paragraphs 2285 to 2296 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 90 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2298. By reason of the matters pleaded at paragraph 2297, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 11 June 2021 with respect to Customer 90.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 91

2299. Customer 91 was a customer of Star Qld during the relevant period. Between 2016 to 2021, Star Qld recorded turnover exceeding \$260 million for Customer 91.

Particulars

Customer 91 was a customer of Star Qld from at least 2012.

On 22 October 2021, Star Qld issued a WOL in respect of Customer 91 at the direction of the Investigations Manager for 'undesirable behaviour'.

2300. Star Qld provided Customer 91 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 1 December 2007, Star Qld opened an FMA for Customer 91 which was closed on 25 October 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 91 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 91's risk profile below.

2301. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 91.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 91's risk profile

2302. On and from 30 November 2016, Customer 91, and the provision of designated services to Customer 91 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 91's risk history as 30 November 2016

a. by 30 November 2016, Customer 91 had the following risk history:

- i. Star Qld was aware that Customer 91 was excluded from Star Sydney from 6 May 2008;

Particulars

By at least 6 May 2008, Customer 91 was excluded from Star Sydney following a NSW exclusion order.

This information was recorded on Star's Protecht due diligence database. Star Qld had access to Protecht.

Notwithstanding Customer 91's exclusion from Star Sydney, Star Qld continued to provide designated services to Customer 91 on and from 30 November 2016.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 91;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 13 occasions between 23 September 2009 and 28 September 2016.

The SMRs reported that Customer 91, and persons associated with him, engaged in several large transactions involving cash and bank cheques, and transactions indicative of the ML/TF typology of structuring: see particulars to paragraph 2302.a.v.

On five occasions between 17 December 2012 and 24 March 2014, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 91 because it considered that, under its AML program, Customer 91 was carrying a large amount of cash on his person.

- iii. Customer 91 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2015 and 2016, Star Qld recorded high and escalating turnover totalling \$8,238,958 for Customer 91;

Particulars

Individual rated play

See paragraph 752 above.

In 2015, Customer 91's individual rated turnover was \$6,661,018.

Individual rebate play

See paragraph 623 above.

In September 2016, TIN's turnover on individual rebate programs was \$1,577,940 with losses of \$130,000.

- iv. Star Qld recorded high gambling losses incurred by Customer 91;

Particulars

On 11 September 2009, Customer 91 arrived at Star Gold Coast with two bank cheques for \$30,000 and \$50,000. Star Qld noted that Customer 91's last recorded trip to Star Gold Coast was in May 2009, where he recorded losses of approximately \$53,600. Prior to that, Customer 91 attended Star Gold Coast in December 2008 and recorded a loss of \$199,900. In September 2009, Customer 91 recorded losses of \$76,000 over two days.

On 19 September 2009, Customer 91 arrived at Star Gold Coast again with \$40,000 in cash and recorded losses of \$35,000. Star Gold Coast considered Customer 91's unverified source of funds and large losses to be suspicious: SMR dated 23 September 2009.

On 9 May 2010, Customer 91 arrived at Star Qld with a bank cheque for \$50,000. On 10 May 2010, Customer 91 used \$30,000 of those funds to play at the casino and recorded winnings of \$42,000. On the same day, Customer 91 exchanged \$32,850 in chips for cash and then withdrew another \$10,000 from his account. By early on 11 May 2010, Customer 91 had recorded a loss of \$35,000. Customer 91 then lost \$10,000 over three bets. He then presented two further bank cheques over the day, totalling \$95,000: SMR dated 11 May 2010.

On 7 July 2010, Customer 91 deposited \$19,000 cash into his FMA at Star Qld. Customer 91 used these funds, along with another \$2,000 cash, and played on various tables in a private gaming room until he lost all the funds. Star Qld conducted a review of Customer 91's play, which indicated that Customer 91 had lost \$124,700 in June 2010, \$2,100 to date in July 2010, and \$249,900 in the last 90 days. Customer 91's total losses since he opened an account with Star Qld in December 2007 were \$1,038,550: SMR dated 8 July 2010.

On 13 March 2013, Star Qld conducted a review of Customer 91's play at the casino. Star Qld's records showed that Customer 91 recorded losses of \$807,600 in the last 90 days and a total of \$2,042,700 since he opened an account with Star Qld in December 2007. Customer 91 recorded a significant win in December 2012, however this was entirely lost in January 2013. Star Qld noted that it did not know the source of Customer 91's funds: SMR dated 13 March 2013.

- v. Customer 91 transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 10 December 2007 and 14 July 2016, Star Qld gave the AUSTRAC CEO 117 TTRs totalling at least \$4,070,279 involving Customer 91, including at least:

- a. 31 TTRs detailing transactions involving account deposits and withdrawals totalling \$1,334,704; and
- b. 70 TTRs detailing transactions involving chip and cash exchanges totalling \$2,736,205.

Large and suspicious transactions

On 20 March 2014, Customer 91 presented a cheque for \$100,000 at Star Qld to be deposited into his account. The cheque was from another casino and was to be used for play on a commission program. On 21 March 2014, the commission program settled and Customer 91 took \$106,102 cash from his account. On 22 March 2014, Customer 91 deposited \$50,000 in cash into his account for play on another commission program. When that commission program settled, Customer 91 took \$116,504 cash from his account. Star Qld considered carrying this large amount of cash to be suspicious: SMR dated 24 March 2014.

On 9 December 2012, Customer 91 deposited \$100,000 cash into his Star Qld account. Customer 91 had received the cash from another Star Qld customer, who in turn had received the cash from a second Star Qld customer. The cash appeared to have been sourced from the second customer's commission play program. Approximately four hours later, Customer 91 deposited another \$100,000 cash into his account. Customer 91 subsequently recorded losses of \$224,000: SMR dated 11 December 2012.

- vi. Customer 91 and persons associated with him engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring;

Particulars

See paragraph 25 above.

On 26 September 2016, a Star Qld customer exchanged \$18,000 cash for chips at a gaming table. The customer was then observed handing \$9,000 in chips to Customer 91. Star Qld considered the handing over of chips immediately after purchase to be suspicious. Star Qld suspected that the Star Qld customer and Customer 91 were structuring buy-ins to avoid reporting obligations: SMR dated 28 September 2016.

Customer 91's risk profile from 30 November 2016

- b. Customer 91 was connected to other customers at Star Qld, in respect of whom Star Qld had formed suspicions such as Customer 109 and Customer 117;

Particulars

Star Qld recorded in its AML Risk Register that Customer 109 and Customer 91 were known associates.

On 19 February 2018, surveillance at Star Gold Coast observed Customer 91 and Customer 109 at a gaming table and the cage together.

On an unknown date, surveillance at Star Qld observed Customer 91 and Customer 117 together.

- c. Customer 91 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high and escalating turnover totalling \$262,228,038 for Customer 91;
- i. between 2016 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$32,409,934 for Customer 91; and

Particulars

See paragraph 752 above.

In 2016, Customer 91's individual rated turnover was \$4,849,285 at Star Gold Coast.

In 2017, Customer 91's individual rated turnover was \$693,038 at Star Gold Coast.

In 2018, Customer 91's individual rated turnover was \$6,051,520 at Star Gold Coast.

In 2019, Customer 91's individual rated turnover was \$6,913,937 at Star Gold Coast.

In 2020, despite the COVID-19 pandemic closures, Customer 91's individual rated turnover was \$5,039,523 at Star Gold Coast.

In 2021, Customer 91's individual rated turnover was \$8,862,632 at Star Gold Coast.

In 2021, Customer 91's individual rated turnover of \$3,759,417 at Treasury Brisbane.

- ii. between 2017 and 2020, Star Qld recorded high and escalating turnover on individual rebate programs totalling \$229,818,104 for Customer 91, with losses of \$1,205,257;

Particulars

See paragraph 623 above.

In 2017, Customer 91's turnover on individual rebate programs was \$31,051,144, with losses of \$58,610.

In 2018, Customer 91's turnover on individual rebate programs was \$117,729,573, with losses of \$684,012.

In 2019, Customer 91's turnover on individual rebate programs was \$76,872,863, with losses of \$377,805.

In 2020, despite the COVID-19 pandemic closures, Customer 91's turnover on individual rebate programs was \$4,164,524, with losses of \$84,830.

- d. Star Qld recorded high gambling losses incurred by Customer 91;

Particulars

On 25 May 2018, Star Qld identified that Customer 91 appeared to have sustained significant losses over the previous three months at Star Gold Coast and was a monthly top patron by loss at gaming tables. Customer 91 recorded losses of \$253,395 in April 2018 and \$232,350 in February 2018 but recorded a small win of \$24,555 in March 2018. Customer 91 provided funds for gambling during this period via bank cheques: SMR dated 25 May 2018.

On 5 April 2019, Star Qld identified that Customer 91 had recorded losses of \$56,310 in March 2019, \$207,095 in February 2019 and \$259,920 in January 2019. Star Qld then identified that, since January 2018, Customer 91 had recorded losses of \$1,031,000. Star Qld did not know the source of Customer 91's funds, but noted that it was aware that Customer 91 also played at another Australian casino and that Customer 91 had presented casino cheques from that casino for play at Star Qld. Since January 2019, Customer 91 had also provided funds for gambling via bank cheques, telegraphic transfers and sums of reportable cash. Star Qld considered Customer 91's large and sustained losses to be suspicious: SMR dated 5 April 2019.

On 26 February 2021, Star Qld identified that Customer 91 had recorded losses of \$116,030 in January 2021 and \$98,110 in December 2020. Star Qld then identified that, since February 2019, Customer 91 had recorded losses of \$780,000. Star Qld had no record of recent significant wins by Customer 91. Star Qld did not know the source of Customer 91's funds, however Customer 91 advised staff that he was in the information technology industry. Star Qld considered Customer 91's large and sustained losses to be suspicious: SMR dated 26 February 2021.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 91 by remitting large values into, out of and within the casino environment via his accounts;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 26 May 2021, Customer 91 received \$10,000 into his Star Gold Coast account from an unknown account.

The transaction was conducted through the Star Patron account channel.

Other remittances into the casino environment

See paragraph 327.

Between 18 June 2018 and 8 January 2020, Star Qld received 12 telegraphic transfers totalling \$227,600, each of which was made available to Customer 91's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraphs 281 and 327 above.

For example, on 24 October 2019, Star Qld facilitated a telegraphic transfer of \$55,000 from Customer 91's FMA at Star Gold Coast to unknown parties.

The transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 19 February 2018, Star Qld facilitated a transfer of \$3,254 from Treasury Brisbane to Star Gold Coast, which it made available to Customer 91's FMA at Star Gold Coast.

- f. Customer 91 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 1 June 2017 and 27 May 2021, Star Qld gave the AUSTRAC CEO 86 TTRs totalling \$2,519,226 involving Customer 91, including at least:

- a. 52 incoming TTRs totalling \$1,407,378;
- b. 34 outgoing TTRs totalling \$1,111,848;
- c. 74 TTRs detailing account deposits and withdrawals totalling \$2,368,461; and
- d. 12 TTRs detailing chip or cash exchanges totalling \$150,765.

Large and suspicious cash transactions in 2021

On 21 May 2021, Customer 91 played at Treasury Brisbane. Star Qld considered this unusual, as it noted that Customer 91 rarely visited that casino. Whilst playing at Treasury Brisbane, Customer 91 made the following cash transactions using loose \$50 notes:

- a. at a gaming table, Customer 91 exchanged \$10,000 in cash for chips in two transactions of \$5,000 each. These transactions occurred within a minute of each other; and
- b. at the cashier, Customer 91 exchanged \$20,000 in cash for chips in two transactions of \$10,000 each. These transactions occurred within 20 minutes of each other.

On 24 May 2021, Customer 91 exchanged \$10,000 in chips for cash at Treasury Brisbane and recorded a loss of \$5,600.

Late in the evening on 25 May 2021, Customer 91 attended Star Gold Coast. Customer 91 handed over a total of \$20,000 in cash, made up of \$9,800 in \$100 notes and \$10,200 in \$50 notes. One of the \$50 notes would not go through Star Gold Coast's counting machine.

Early on 26 May 2021, Customer 91 handed over another \$20,000 in cash, made up of \$100 notes that were wrapped in straps from Treasury Brisbane. The same day, Star Gold Coast also received \$100,000 into its bank account via EFTPOS facilities for Customer 91's play. By the end of 26 May 2021, Star Gold Coast recorded a loss of \$34,500 by Customer 91.

Star Qld noted that a total of \$40,000 in \$50 notes was supplied by Customer 91 at both Star Gold Coast and Treasury Brisbane. Star Qld considered the \$50 note that would not go through the money counter to be suspicious, as it noted that the note would not have come out of an ATM and was unlikely to have come from a bank, as banks usually ran their cash through similar machines to casinos:
SMR dated 27 May 2021.

- g. by January 2018, Star Qld became aware that Customer 91 was excluded from other Australian casinos and racetracks and that law enforcement suspected that Customer 91 was gambling with the proceeds of crime;

Particulars

On 4 January 2018, Star Qld received a request for information from a law enforcement agency in respect of Customer 91. The law enforcement agency told Star Qld that it suspected that Customer 91 was gambling with proceeds of crime. It also noted that Customer 91 was banned from Star Sydney and another Australian casino. Star Qld's response stated that its records did not support Customer 91 using large amounts of cash and putting it through the casino to clean it, because Customer 91 used cheques and his FMA. However, Star Qld noted Customer 91's possible association with Customer 109, who attended Star Qld at the same time as Customer 91 with plenty of cash.

On 1 March 2019, a different law enforcement agency informed Star Qld that it suspected that Customer 91 was involved in laundering money for a domestic organised criminal syndicate.

On 28 March 2019, a third law enforcement agency informed Star Qld that it suspected that Customer 91 was moving cash derived from the proceeds of crime to launder through the casino.

On 24 May 2021, Star Qld provided information in respect of Customer 91 to a law enforcement agency. The law enforcement agency responded, acknowledging that they were aware that Customer 91 had extensive dealings with another law enforcement agency for drug offences.

- h. between 2018 and 2021, Customer 91 was the subject of law enforcement enquiries at Star Qld;

Particulars

On 30 January 2018, Star Qld received a request for information from a law enforcement agency in respect of Customer 91. The law enforcement agency did not inform Star Qld of the nature of its interest in Customer 91.

Between June 2018 and 2 October 2018, Star Qld received several enquiries from a law enforcement agency about Customer 91's gaming activity.

In March 2019, Star Qld received several requests for information from a law enforcement agency in respect of Customer 91 and his associates.

In March 2019 and April 2019, Star Qld received a request for information from a law enforcement agency in respect of Customer 91.

On 27 May 2019, Star Qld received a request for information from a law enforcement agency regarding Customer 91. The law enforcement agency alluded to Customer 91's criminal history in another jurisdiction, including his involvement in drug offences, possessing property and money related to the proceeds of crime and breach of a casino exclusion order.

On 26 November 2021, Star Qld received a request for information from a law enforcement agency regarding Customer 91's exclusion status at Star Qld.

- i. Customer 91 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 91 had access to a private gaming room in the Cage at Treasury Brisbane.

Customer 91 had access to private gaming rooms at Star Gold Coast, including the Club Conrad, Pit 8, Pit 9, Salon 21, Salon 69, Sovereign Room – Table Games, and the Sovereign Room – EGM.

- j. from 2 June 2017 to January 2021, Customer 91 received benefits totalling approximately \$79,000 from Star Qld; and

Particulars

Between 2 June 2017 and 8 January 2021, Star Qld provided Customer 91 with benefits including hotel upgrades, airfares and food and drink packages.

- k. Star Qld did not have adequate reason to believe that Customer 91's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6) received by Customer 91 at Star Qld.

Particulars

See paragraph 808 above.

On 7 July 2010, Star Qld recorded that Customer 91 had provided Star Qld with a copy of his business card, but that Star Qld had been unable to locate any information about the company listed on it.

On five occasions between 23 September 2009 and 26 February 2021, Star Qld recorded in an SMR given to the AUSTRAC CEO that Customer 91's source of funds was not known and not verified.

On 26 February 2021 and 7 February 2022, Star Qld recorded that Customer 91 had advised it that his occupation was in the information technology industry.

At no time did Star Qld take appropriate steps to verify Customer 91's source of wealth or source of funds, in circumstances where:

- a. at all relevant times, Star Qld was aware that Customer 91 had been excluded from Star Sydney;
- b. Customer 91's turnover exceeded \$262 million between 2016 and 2021;
- c. by 4 January 2018, Star Qld was aware that law enforcement suspected that Customer 91 was gambling with the proceeds of crime; and
- d. by May 2019, Star Qld was aware that Customer 91 had a criminal history in Australia, including for drug offences.

Star Qld's determination of the ML/TF risks posed by Customer 91

2303. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 91 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 91.

- a. On and from 30 November 2016, Customer 91 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 91's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 25 January 2022 that Customer 91 was rated high risk for the purpose of the Act and Rules by Star Qld, after Star Qld issued a WOL in respect of Customer 91.

Particulars

See paragraph 110 above.

On 5 April 2014 and 22 May 2015, Customer 91 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 19 November 2018, Customer 91 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 22 October 2021, Star Qld issued a WOL in respect of Customer 91 at the direction of the Investigations Manager for 'undesirable behaviour'.

It was not until 25 January 2022 that Customer 91 was rated very high risk, being high risk for the purpose of the Act and Rules, after Star Qld issued a WOL in respect of Customer 91.

Monitoring of Customer 91's transactions

- 2304. At no time did Star Qld apply appropriate transaction monitoring to Customer 91's transactions because:

- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 91, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 91 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Qld provided designated services to Customer 91 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 91's KYC information

2305. Star Qld did not review, update and verify Customer 91's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 91's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 91's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 91's source of wealth and source of funds were not legitimate: see *Customer 91's risk profile*.

- d. to the extent that Star Qld reviewed Customer 91's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 91.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

On 18 January 2018, Customer 91 was discussed at a Star Qld PAMM. The minutes noted that Customer 91 was currently under investigation by a law enforcement agency, however no suggested course of action was noted and his risk rating remained 'low'.

At no time did the JRAM or PAMM consider Customer 91 after January 2018, despite multiple law enforcement enquiries between 2018 and 2021, in circumstances where:

- a. Customer 91's turnover exceeded \$262 million between 2016 and 2021;
- b. suspicions were held that Customer 91 was laundering money at Star Qld for a domestic organised criminal syndicate;

- c. suspicions were held that Customer 91 was gambling with the proceeds of crime at Star Qld;
- d. law enforcement agencies had told Star Qld that Customer 91 was linked to possible drugs offences; and
- e. Star Qld was aware that Customer 91 had been excluded from multiple casinos and racetracks in Australia, including Star Sydney: see *Customer 91's risk profile*.

It was not until 22 October 2021 that Star Qld issued a WOL in respect of Customer 91 following an investigation into customers who had been excluded in Star Sydney but not had their exclusion status updated at Star Qld.

Failure to apply appropriate due diligence suited to Customer 91's high ML/TF risks

2306. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 91 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 91; and
 - c. reviewing and updating Customer 91's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 91 at a time before the date of the ECDD triggers pleaded below: see ECDD triggers in respect of Customer 91.

ECDD triggers in respect of Customer 91

2307. Star Qld was required to apply the ECDD Programs to Customer 91 following any ECDD triggers in respect of Customer 91.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2308. Customer 91 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 25 May 2018 and 27 May 2021, Star Qld gave the AUSTRAC CEO four SMRs with respect to Customer 91.

2309. The matter pleaded in paragraph 2308 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2310. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 91 following an ECDD trigger because:

- a. on each occasion prior to October 2021 that Star Qld conducted ECDD in respect of Customer 91 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 91, the provision of designated services to Customer 91 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 5 April 2019, Star Qld conducted ECDD in respect of Customer 91.

On 27 May 2021, Star Qld conducted ECDD in respect of Customer 91. The ECDD screening in respect of Customer 91 identified that he had been excluded from Star Sydney in 2008 at the direction of police.

On 22 October 2021, Star Qld issued a WOL in respect of Customer 91 following an investigation into customers who had been excluded in Star Sydney but not had their exclusion status updated at Star Qld.

- b. Customer 91 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to October 2021 that Customer 91 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 91 and the provision of designated services to Customer 91 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 28 May 2021, the Due Diligence Manager determined to maintain a customer relationship with Customer 91, despite the higher ML/TF risks associated with Customer 91: see *Customer 91's risk profile*.

In particular:

- a. Star Qld was aware that Customer 91 had been excluded from multiple casinos and racetracks in Australia, including Star Sydney;
- b. Customer 91's turnover exceeded \$262 million between 2016 and 2021;

- c. suspicions were held that Customer 91 was laundering money at Star Qld for a domestic organised criminal syndicate;
- d. suspicions were held that Customer 91 was gambling with the proceeds of crime at Star Qld; and
- e. law enforcement agencies had told Star Qld that Customer 91 was linked to possible drugs offences: see *Customer 91's risk profile*.

On 22 October 2021, Star Qld issued a WOL in respect of Customer 91 following an investigation into customers who had been excluded in Star Sydney but not had their exclusion status updated at Star Qld.

Contravention of s36 of the Act in respect of Customer 91

2311. By reason of the matters pleaded from paragraphs 2299 to 2310 above, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 91 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2312. By reason of the matters pleaded at paragraph 2311, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 22 October 2021 with respect to Customer 91.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 92

2313. Customer 92 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$10 million for Customer 92.

Particulars

Customer 92 was a customer of Star Sydney from at least 16 September 2012.

2314. Star Sydney provided Customer 92 with designated services within the meaning of table 1 and 3, s6 of the Act during the relevant period.

Particulars

On 9 March 2013, Star Sydney opened an FMA and SKA for Customer 92 which were closed on 19 July 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 92 remitted funds to and from their accounts (items 31 and 32, table 1, s6 of the Act).

See *Customer 92's risk profile* below.

2315. Customer 92 was a customer of Star Qld during the relevant period. Between 2016 and 2022, Star Qld recorded turnover exceeding \$340 million for Customer 92.

Particulars

Customer 92 was a customer of Star Qld from at least 28 December 1998.

2316. Star Qld provided Customer 92 with designated services within the meaning of table 1 and 3, s6 of the Act during the relevant period

Particulars

On 28 December 1998, Star Qld opened an FMA for Customer 92 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 92 remitted funds to and from their accounts (items 31 and 32, table 1, s6 of the Act).

See *Customer 92's risk profile* below.

2317. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 92.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 92's risk profile

2318. On and from 30 November 2016, Customer 92, and the provision of designated services to Customer 92 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 92's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 92 had the following risk history:
- i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 92;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on ten occasions between 23 February 2012 and 12 August 2016.

The SMRs reported that Star Qld:

- a. was unaware of, or unable to confirm, Customer 92's source of funds;
- b. considered the amount of cash Customer 92 was willing to carry to be large; and

- c. suspected that Customer 92 was attempting to avoid threshold reporting.
- ii. Customer 92 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high and escalating turnover totalling \$2,101,999 for Customer 92;

Particulars

See paragraphs 623 and 752 above.

In 2015, Customer 92's individual rated turnover was \$90,226.

In 2015, Customer 92's turnover on individual rebate programs was \$2,011,773.

- iii. Customer 92 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high individual rated turnover totalling \$16,746,062 for Customer 92;

Particulars

See paragraph 752 above.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 92 by remitting large amounts of money into the casino environment via her accounts;

Particulars

See paragraph 327 above.

For example, between 1 July 2015 and 5 August 2016, Star Sydney received seven telegraphic transfers totalling \$450,000, each of which was made available to Customer 92's account.

Each of the above transactions was conducted through the Star Patron account channel.

- v. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 92 by remitting large amounts of money into the casino environment via her accounts;

Particulars

See paragraph 327 above.

For example, between 1 January 2016 and 22 July 2016, Star Qld received three telegraphic transfers totalling \$40,000, each of which was made available to Customer 92's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

- vi. designated services provided to Customer 92 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2318.a.viii below.

- vii. designated services provided to Customer 92 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2318.a.ix below.

By 30 November 2016, the SMRs given to the AUSTRAC CEO by Star Qld reported that between February 2011 and August 2015, Customer 92 had EGM losses in excess of \$4,200,000.

In July 2016, Customer 92 was one of Star Qld's top patrons by EGM loss.

- viii. Customer 92 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 18 September 2012 and 31 October 2016, Star Sydney gave the AUSTRAC CEO 237 TTRs in respect of Customer 92 totalling \$3,660,151, including:

- a. 230 outgoing TTRs totalling \$3,365,151;
- b. seven incoming TTRs totalling \$295,000;
- c. \$20,000 in chip or cash exchanges;
- d. \$1,718,551 in account deposits or withdrawals; and
- e. \$1,921,600 in EGM payouts.

- ix. Customer 92 transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

Between 19 March 2010 and 30 November 2016, Star Qld gave the AUSTRAC CEO 872 TTRs in respect of Customer 92 totalling \$22,819,563, including:

- a. 858 outgoing TTRs totalling \$22,538,663;
- b. 14 incoming TTRs totalling \$280,900;
- c. \$1,622,541 in chip or cash exchanges;
- d. \$316,989 in account deposits or withdrawals; and
- e. \$20,880,033 in EGM payouts.

- x. in 2014, Customer 92 was the subject of a law enforcement enquiry at Star;

Particulars

In September 2014, Star Qld received a request for information from a law enforcement agency.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

Customer 92's risk profile from 30 November 2016

- b. Customer 92 received high value financial and gambling services (tables 1 and 3, s6) at Star Sydney other than through junket programs. Between 2016 and 2021, Star Sydney recorded high and escalating turnover totalling \$10,062,205 for Customer 92;
- i. between 2016 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$5,362,432 for Customer 92; and

Particulars

See paragraph 752 above.

In 2016, Customer 92's individual rated turnover was \$48,332.

In 2017, Customer 92's individual rated turnover escalated to \$1,010,275.

In 2018, Customer 92's individual rated turnover was \$254,749.

In 2019, Customer 92's individual rated turnover escalated to \$2,878,468.

From 2020, despite the COVID-19 pandemic closures, Customer 92's turnover remained high.

In 2020, Customer 92's individual rated turnover was \$888,763.

In 2021, Customer 92's individual rated turnover was \$281,844.

- ii. between 2016 and 2017, Star Sydney recorded high turnover on individual rebate programs totalling \$4,699,774 for Customer 92;

Particulars

See paragraph 623 above.

In 2016, Customer 92's turnover on individual rebate programs was \$2,792,712.

In 2017, Customer 92's turnover on individual rebate programs was \$1,907,062.

- c. Customer 92 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2022, Star Qld recorded high and escalating individual rated turnover totalling \$344,531,765 for Customer 92;

Particulars

See paragraph 752 above.

In 2016, Customer 92's individual rated turnover was \$50,948,985.

In 2017, Customer 92's individual rated turnover was \$35,742,317.

In 2018, Customer 92's individual rated turnover was \$31,081,955.

In 2019, Customer 92's individual rated turnover escalated to \$49,605,202.

From 2020, despite the COVID-19 pandemic closures, Customer 92's turnover escalated significantly.

In 2020, Customer 92's individual rated turnover escalated to \$57,707,963.

In 2021, Customer 92's individual rated turnover significantly escalated to \$115,298,477.

In 2022, Customer 92's individual rated gaming turnover was \$4,146,865.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 92 by remitting large amounts of money into the casino environment from Australian banks;

Particulars

See paragraph 327 above.

For example, on 19 July 2017, Star Sydney received a telegraphic transfer of \$25,000, which it made available to Customer 92's account.

The above transaction was conducted through the Star Patron account channel.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 92 by remitting large amounts of money into the casino environment from Australian banks;

Particulars

See paragraph 327 above.

For example, between 4 March 2020 and 2 July 2020, Star Qld received seven telegraphic transfers totalling \$66,000, each of which was made available to Customer 92's FMA at Star Gold Coast.

Each of the above transactions was conducted through the Star Patron account channel.

- f. designated services provided to Customer 92 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2318.h below.

- g. designated services provided to Customer 92 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2318.i below.

By July 2020, Star Gold Coast identified Customer 92 to be its 'biggest' EGM player.

- h. Customer 92 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 3 March 2017 and 21 June 2021, Star Sydney gave the AUSTRAC CEO 59 TTRs in respect of Customer 92 totalling \$979,094, including:

- a. 50 outgoing TTRs totalling \$809,094;
- b. nine incoming TTRs totalling \$170,000;
- c. \$85,000 in chip or cash exchanges;
- d. \$180,027 in account deposits or withdrawals; and
- e. \$714,067 in EGM payouts.

- i. Customer 92 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 5 December 2016 and 24 October 2022, Star Qld gave the AUSTRAC CEO 1162 TTRs in respect of Customer 92 totalling \$42,105,867, including:

- a. 1145 outgoing TTRs totalling \$41,866,067;
- b. 17 incoming TTRs totalling \$239,800;
- c. \$306,067 in chip or cash exchanges;
- d. \$6,023,402 in account deposits or withdrawals; and
- e. \$35,776,398 in EGM payouts.

- j. Customer 92 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including refining;

Particulars

See paragraph 25 above.

Between 27 July 2020 and 4 March 2021, Customer 92 engaged in transactions indicative of the ML/TF typology of refining on three occasions totalling \$20,000 at Star Gold Coast. On each occasion, Customer 92 exchanged \$50 notes for \$100 notes.

- k. in 2022, Customer 92 was the subject of law enforcement enquiries on multiple occasions at Star;

Particulars

On multiple occasions between 10 January 2022 and 5 March 2022, Star Qld sent email correspondence to a law enforcement agency in respect of a TTR of \$40,000 and above related to Customer 92.

On 7 February 2022, Star Gold Coast received a request for information from a law enforcement agency in respect of Customer 92. Star Qld responded to the request on the same day.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database. Star Sydney had access to the investigations database: see paragraph 49 above.

- l. Customer 92 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 92 had access to private gaming rooms at Star Sydney, including Springs Salons, the Sovereign Room, Lakes Salons, Oasis and Chairman's.

- m. Customer 92 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 92 had access to private gaming rooms at Star Qld, including Orchid, the Sovereign Room, the Oasis, the Suite and Pit 11.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 92's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 92 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Star understood Customer 92's occupation to be as a retired business owner. Customer 92's turnover was not consistent with her source of wealth.

In 2021, Customer 92's turnover escalated significantly at Star Qld.

On 7 October 2021, Star Gold Coast placed Customer 92 on a watchlist due to the multiple SMRs given to the AUSTRAC CEO in respect of her before 30 November 2016.

By 7 February 2022, Star continued to understand Customer 92's occupation to be 'retired'.

On 18 February 2022, Star Gold Coast removed Customer 92 from the watchlist because no further SMRs had been given to the AUSTRAC CEO in respect of her and her source of wealth was confirmed to be that she and her family were wealthy property developers.

This was despite Customer 92's cumulative turnover at Star Sydney and Star Qld being in excess of \$350,000,000 between 2016 and 2022.

See particulars to paragraphs 2318.a.i, 2318.b and 2318.c above.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 92

2319. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 92 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 92.

- a. On and from 30 November 2016, Customer 92 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 92's risk profile* above.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 92 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 7 January 2015, Customer 92 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 92's transactions

2320. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 92's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 92, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 92 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Sydney and Star Qld provided designated services to Customer 92 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 92's KYC information

- 2321. Star Sydney and Star Qld did not review, update and verify Customer 92's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney or Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 92's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 92's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 92's source of wealth and source of funds were not legitimate: see *Customer 92's risk profile*.

At all times, Star understood Customer 92 to be retired. Between 2016 and 2019, prior to the COVID-19 pandemic closures in 2020, Customer 92's turnover at Star Sydney and Star Qld exceeded \$174,000,000 and Star Sydney and Star Qld had given the AUSTRAC CEO multiple SMRs questioning her source of funds.

In February 2022, Star determined that Customer 92's source of wealth was that she and her family were wealthy property developers. Between 2016 and 2022, Customer 92's cumulative turnover at Star Sydney and Star Qld exceeded \$350,000,000.

- d. to the extent that Star Sydney or Star Qld reviewed Customer 92's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 92.

Particulars

See paragraph 155 above.

Section 36(1)(a), (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 92's high ML/TF risks

2322. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- identifying and assessing the ML/TF risks posed by Customer 92 appropriately;
 - applying appropriate risk-based transaction monitoring to Customer 92; and
 - reviewing and updating Customer 92's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would likely have rated Customer 92 as a high risk customer.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2323. Had Star Sydney and Star Qld rated Customer 92 as a high risk customer for the purpose of the Act and Rules, they would have been required by the Act and Rules to apply the ECDD Programs to Customer 92.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 92

2324. By reason of the matters pleaded from paragraphs 2313 to 2323 above, on and from 30 November 2016, Star Sydney and Star Qld:
- did not monitor Customer 92 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
 - did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2325. By reason of the matters pleaded at paragraph 2324, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 92.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 93

2326. Customer 93 was a customer of Star Sydney during the relevant period. In 2017, Star Sydney recorded turnover exceeding \$17 million for Customer 93.

Particulars

Customer 93 was a customer of Star Sydney from at least 18 October 2007.

On 5 October 2017, Star Sydney issued a WOL in respect of Customer 93 following a NSW exclusion order.

2327. Star Sydney provided Customer 93 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

Prior to 2008, Star Sydney opened an FMA and SKA for Customer 93 which were closed on 29 April 2019 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 93 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 93's risk profile below.

2328. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 93.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 93's risk profile

2329. On and from 30 November 2016, Customer 93, and the provision of designated services to Customer 93 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 93's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 93 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 93;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on eight occasions between 29 March 2010 and 16 August 2012.

The SMRs reported that Customer 93 engaged in several large cash transactions and transactions indicative of the ML/TF typology of structuring: see particulars to paragraph 2329.a.ii below.

- ii. Customer 93 engaged in transactions indicative of ML/TF typologies and vulnerabilities, including transactions indicative of structuring;

Particulars

See paragraph 25 above.

On 27 March 2010, Customer 93 requested to cash out \$10,000 in chips at Star Sydney. However, when his identification was requested, he took back \$5,000 in chips and cashed out the remaining \$5,000. Star Sydney deemed this transaction as suspicious as it appeared Customer 93 was structuring to avoid providing identification and reporting obligations: SMR dated 29 March 2010.

- iii. Customer 93 transacted using large amounts of cash;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 26 December 2006 and 21 October 2014, Star Sydney gave the AUSTRAC CEO 80 TTRs totalling \$2,400,991, including:

- a. 41 TTRs detailing chip and cash exchanges made by Customer 93 totalling \$1,368,615;
- b. nine TTRs detailing account deposits made by Customer 93 totalling \$315,000;
- c. three TTRs detailing account withdrawals made by Customer 93 totalling \$300,000; and
- d. 27 TTRs detailing EGM payouts made by Customer 93 totalling \$417,376.

Large cash transactions in 2010

On three occasions between 28 March and 16 May 2010, Customer 93 engaged in suspicious large cash transactions:

- a. on 28 March 2010, Customer 93 cashed out \$150,000 in gaming chips at Star Sydney: SMR dated 29 March 2010;
- b. on 5 May 2010, Customer 93 deposited \$75,000 in cash at Star Sydney, comprising \$100 and \$50 notes: SMR dated 6 May 2010; and

- c. on 16 May 2010, Customer 93 cashed out \$120,015 in gaming chips at Star Sydney. He was then observed putting the money into a brown carry bag and taking it to a different floor of Star Sydney's hotel: SMR dated 17 May 2010.

Large cash transactions in 2011

On 27 December 2011, Customer 93 exchanged \$5,000 in chips for cash and then requested to exchange a further \$5,000 of chips at Star Sydney. When his identification was requested, Customer 93 refused to complete the transaction. He later returned to the cashier, and exchanged \$75,000 of gaming chips for cash: SMR dated 29 December 2011.

On 28 December 2011, Customer 93 deposited \$150,000 into his Star Sydney FMA and then withdrew the funds as chips. Later that evening, on two occasions Customer 93 exchanged \$5,000 worth of chips for cash. Customer 93 then completed a further two separate chip cash outs for \$5,000. Star Sydney considered these transactions to be suspicious due to the initial large cash deposit and the subsequent \$5,000 chip cash outs: SMR dated 30 December 2011.

On 29 December 2011, Customer 93 exchanged \$200,000 in chips for cash at Star Sydney. Star Sydney considered the large amount of cash to be suspicious: SMR dated 30 December 2011.

Large cash transactions in 2012

On 14 August 2012 and 15 August 2012, Customer 93 had four account deposits at Star Sydney totalling \$300,000:

- a. \$100,000 and \$50,000 via telegraphic transfer;
- b. \$110,000 via chips; and
- c. \$40,000 via an EGM payout.

Customer 93 then withdrew the total amount deposited in cash. Star Sydney deemed these transactions suspicious due to the large amount of cash involved: SMR dated 16 August 2012.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6) to Customer 93 by remitting large amounts of money into the casino environment via his account;

Particulars

See paragraph 327 above.

For example, on 14 August 2012 and 15 August 2012, Customer 93 received a total of \$150,000 into his Star Sydney account from an unspecified account in Australia.

Each of the above transactions was conducted through the Star Patron account channel.

- v. designated services provided to Customer 93 included EGM activity at Star Sydney; and

Particulars

See paragraphs 570 and 579 above.

On 15 August 2012, Customer 93 received an EGM payout of \$40,000 at Star Sydney, which he deposited into his FMA.

- vi. in 2012, Customer 93 was the subject of a law enforcement enquiry at Star;

Particulars

In 2012, Star Sydney received a request form a law enforcement agency in respect of Customer 93's gaming activity at Star.

Customer 93's risk profile from 30 November 2016

- b. Customer 93 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2017, Star Sydney recorded high turnover totalling \$17,513,165 for Customer 93;
 - i. in 2017, Star Sydney recorded high individual rated turnover totalling \$17,087,740 for Customer 93; and

Particulars

See paragraph 752 above.

In October 2021, open source media reported that Customer 93 was Star Sydney's biggest patron from the Australian Capital Territory until a WOL was issued in respect of him in 2017.

- ii. in 2017, Star Sydney recorded high turnover on individual rebate programs totalling \$425,425 for Customer 93;

Particulars

See paragraph 623 above.

- c. Customer 93 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 29 April 2017 and 6 August 2017, Star Sydney gave the AUSTRAC CEO 32 TTRs involving Customer 93 totalling \$2,646,710, including:

- a. 5 TTRs totalling \$500,200 detailing account deposits and withdrawals;
- b. 20 TTRs totalling \$1,766,510 detailing chip and cash exchanges; and

- c. 7 TTRs totalling \$380,000 detailing EGM payouts.

Large cash transactions in 2017

On 29 May 2017, Customer 93 exchanged \$110,000 in chips to cash at Star Sydney. He then withdrew \$250,000 from his account: SMR dated 29 May 2017.

On five occasions in June 2017, Customer 93 engaged in large cash transactions at Star Sydney:

- a. on 12 June 2017, Customer 93 exchanged \$200,000 in chips for cash;
- b. on 15 June 2017, Customer 93 purchased \$180,000 worth of chips using the cash he received on 12 June 2017, which was all in \$100 notes with Star Sydney's straps;
- c. on 18 June 2017, Customer 93 exchanged \$225,010 in chips for cash;
- d. on 24 June 2017, Customer 93 purchased \$200,000 worth of chips using cash that was originally issued by Star Sydney; and
- e. on 26 June 2017, Customer 93 exchanged \$350,000 in chips for cash.

On 1 July 2017, Customer 93 purchased \$125,000 worth of chips at Star Sydney, using cash issued by Star Sydney.

On 2 July 2017, Customer 93 deposited \$140,000 into his FMA, using cash issued by Star Sydney.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 93 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 29 April 2017 and 5 August 2017, Star Sydney received eight telegraphic transfers totalling \$610,000, which it made available to Customer 93's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

On 3 May 2017, Star Sydney sent a telegraphic transfer totalling \$100,000 from Customer 93's FMA to an Australian bank.

The above transaction was conducted through the Star Patron account channel.

- e. between 2017 and 2021, Customer 93 was the subject of law enforcement enquiries on two occasions at Star;

Particulars

On 15 June 2017, Star Sydney received a request from a law enforcement agency for details regarding Customer 93.

In June 2021, Star Sydney received a request from a law enforcement agency for records relating to Customer 93.

- f. Customer 93 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 93 had access to private gaming rooms at Star Sydney, including the Sovereign Room, the Sovereign (Cage) and the Springs Salon (Cage).

- g. in August 2017 and October 2017, media reports named Customer 93 as a person convicted of several criminal offences; and

Particulars

On 18 August 2017, open source media reported that Customer 93 appeared in a Australian court on 16 August 2017 and had been found guilty in respect of five charges, including intimidating staff of a gaming venue and police officers, using an offensive weapon to avoid lawful detention and assaulting a police officer. The incident occurred on 29 December 2016, after police were called when Customer 93 refused to leave the venue, where he had been using EGMs.

On 9 October 2017, open source media reported that Customer 93 was sentenced for the above charges to a suspended prison sentence, a number of good behaviour bonds and a fine.

- h. Star Sydney did not have adequate reason to believe that Customer 93's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 93 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood Customer 93's source of wealth and source of funds to be his occupation as a chef.

By 30 November 2016, Customer 93's turnover was not consistent with his source of wealth and source of funds.

At no time did Star Sydney seek to verify Customer 93's source of wealth and source of funds, in circumstances where, by 2017,

Customer 93's turnover had escalated significantly and he had made eight telegraphic transfers totalling \$610,000 between May 2017 and August 2017.

See particulars to paragraphs 2329.b and 2329.c above.

Star Sydney's determination of the ML/TF risks posed by Customer 93

2330. For the reasons pleaded at paragraph 110 above, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 93 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 93.

- a. On and from 30 November 2016, Customer 93 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 93's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 93 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 11 April 2014, Customer 93 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 93's transactions

2331. At no time did Star Sydney apply appropriate transaction monitoring to Customer 93's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 93, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 93 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 93's KYC information

2332. Star Sydney did not review, update and verify Customer 93's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 93's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 93's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 93's source of wealth and source of funds were not legitimate: see *Customer 93's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 93's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 93.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 93's high ML/TF risks

2333. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 93 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 93; and
- c. reviewing and updating Customer 93's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 93 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 93*.

ECDD triggers in respect of Customer 93

2334. Star Sydney was required to apply the ECDD Programs to Customer 93 following any ECDD triggers in respect of Customer 93.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2335. Customer 93 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

On 29 May 2017, Star Sydney gave the AUSTRAC CEO an SMR with respect to Customer 93.

2336. The matter pleaded in paragraph 2335 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2337. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 93 following an ECDD trigger because:

- a. at no time prior to October 2017 did Star Sydney apply its ECDD Programs to Customer 93;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

- b. Customer 93 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to October 2017 that Customer 93 was escalated to senior management in response to an ECDD trigger, senior management failed to give appropriate consideration to whether the ML/TF risks posed by Customer 93 and the provision of designated services to Customer 93 by Star Sydney, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

There are no records of senior management consideration of Customer 93 prior to October 2017 in Star Sydney's due diligence records.

On 5 October 2017 that Star Sydney issued a WOL in respect of Customer 93.

Contravention of s36 of the Act in respect of Customer 93

2338. By reason of the matters pleaded from paragraphs 2326 to 2337 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 93 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2339. By reason of the matters pleaded at paragraph 2338, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 5 October 2017 with respect to Customer 93.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 94

2340. Customer 94 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$12 million for Customer 94.

Particulars

Customer 94 was a customer of Star Sydney from at least 29 January 2016.

2341. Star Sydney provided Customer 94 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a junket funder, junket representative and junket player. Between 2019 and 2020, Star Sydney recorded that junkets partly funded by Customer 94 had a turnover exceeding \$100 million.

Particulars

On 29 January 2016, Star Sydney opened an FMA and SKA for Customer 94, which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 94 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 94's risk profile* below.

2342. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 94.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 94's risk profile

2343. On and from 30 November 2016, Customer 94, and the provision of designated services to Customer 94 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 94's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 94 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 94;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on five occasions between 23 February 2016 and 23 November 2016.

The SMRs reported that:

- a. Customer 94 was a junket representative for Customer 7 and Customer 8; and
- b. Customer 94 engaged in large cash transactions, and transactions indicative of ML/TF typologies, involving Customer 7 and Customer 8's accounts at Star Sydney: see paragraphs 2343.a.iii and 2343.a.iv below.
- ii. Customer 94 was connected to other customers at Star Sydney, including junket funders, junket operators, junket representatives and junket players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously such as Customer 8, Customer 7, Customer 49 and Customer 65;

Particulars

In 2016, Customer 94 was a junket representative for at least two junket operators at Star Sydney, Customer 8 and Customer 7:

- a. between 1 April 2016 and 30 November 2016, Customer 94 was a junket representative for eight junkets operated by Customer 8 and funded by Customer 7 at Star Sydney. Customer 49 was also a junket representative on these programs. Junket players on these programs included Customer 65; and
- b. between 1 April 2016 and 1 September 2016, Customer 94 was a junket representative for four junkets operated and funded by Customer 7 at Star Sydney. Customer 49 was also a junket representative on some of these programs.
- iii. Customer 94, in his capacity as a junket representative for Customer 7 and Customer 8's junkets, transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

On 19 February 2016, junket representative Customer 94 and another Star Sydney customer presented \$450,000 in cash and requested the

cash be deposited into the customer's account. The cash was comprised of \$100 notes and had previously been issued by Star. Once deposited, Customer 94 and the other customer requested that the funds be transferred to the junket operator's, Customer 7's, account: SMR dated 23 February 2016.

On 6 June 2016, Customer 94 deposited \$300,000 in cash into Customer 7's Star Sydney account. The cash was comprised of \$100 notes with Star straps: SMR dated 8 June 2016.

On 20 June 2016, Customer 94, on behalf of Customer 7, exchanged \$102,884 in a foreign currency for cash at Star Sydney. Following the exchange, Customer 94 requested that the funds be deposited into Customer 7's account: SMR dated 21 June 2016.

On 21 November 2016, Customer 94 withdrew \$300,000 in cash from Customer 8's Star Sydney account: SMR dated 23 November 2016.

- iv. Customer 94, in his capacity as a junket representative for Customer 7's junket, engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including quick turnover of money (without betting);

Particulars

See paragraph 25 above.

On 13 July 2016, Customer 94 withdrew \$500,000 in cash from Customer 7's account. Over the course of the next seven hours, the junket representative incrementally deposited the same cash back into the Customer 7 account via three deposits: SMR dated 14 July 2016. This transaction was indicative of the ML/TF typology of quick turnover of money without betting.

Customer 94's risk profile from 30 November 2016

- b. Customer 94 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with domestic junkets at Star Sydney;
 - i. between 28 August 2019 and 10 January 2020, Customer 94 partly funded five domestic junkets at Star Sydney;

Particulars

At Star Sydney, Customer 94 partly funded five domestic junkets for Customer 95.

Customer 94 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

Customer 94 was also a junket player on two of the junkets that he partly funded and a junket representative on each junket that he partly funded.

- ii. Star Sydney recorded that the total cumulative turnover of junkets partly funded by Customer 94 between 28 August 2019 and 10 January 2020 was \$105,577,369 with losses of \$107,315;

Particulars

In 2019, junket programs partly funded by Customer 94 had a turnover of \$80,311,566 with losses of \$962,690.

Between January and March 2020, junket programs partly funded by Customer 94 had a turnover of \$25,245,802 with wins of \$855,375.

- iii. the junkets partly funded by Customer 94 had two junket representatives, including Customer 94; and
- iv. the junkets partly funded by Customer 94 facilitated the provision of high value designated services to at least 29 junket players including players in respect of whom Star Sydney had formed suspicions such as Customer 86;

Particulars

See paragraphs 497 to 498 and 643 to 649 above.

See Customer 86's risk profile.

- c. Customer 94 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through domestic junket programs;
 - i. between 6 February 2018 and 10 January 2020, Customer 94 was a player on 16 domestic junkets at Star Sydney operated by Customer 95;
 - ii. two of the junkets were partially funded by Customer 94, with the balance funded by Customer 95; and
 - iii. between 6 February 2018 and 10 January 2020, Star Sydney recorded high turnover totalling \$31,347,038 with losses of \$293,115 for Customer 94's gaming activity on domestic junket programs;

Particulars

In 2018, Customer 94's turnover on domestic junket programs was \$30,498,785 with losses of \$300,760.

In 2019, Customer 94's turnover on domestic junket programs was \$848,253 with wins of \$5,445.

- d. designated services provided to Customer 94 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Customer 94 was connected to other customers at Star Sydney, including junket funders, junket operators, junket representatives and junket players including players who posed higher ML/TF risks and players who Star Sydney considered had acted

suspiciously such as Customer 14, Customer 95, Customer 8, Customer 7, Customer 65, Customer 59, Customer 62, Customer 56 and Customer 86;

Particulars

During the relevant period, Customer 94 was a junket representative for at least five junket operators at Star Sydney, including Customer 14, Customer 95, Customer 8 and Customer 7:

- a. between 31 December 2016 and 28 November 2017, Customer 94 was a junket representative on five international junkets operated and funded by Customer 7 at Star Sydney. Customer 49 was also a junket representative on these junket programs. Junket players on these programs included Customer 59; and
 - b. between 1 December 2016 and 2 January 2018, Customer 94 was a junket representative on 12 international junkets operated by Customer 8 and funded by Customer 7 at Star Sydney. Customer 49 was also a junket representative on some of these junket programs. Junket players on these programs included Customer 65 and Customer 59;
 - c. between 29 January 2018 and 29 July 2019, Customer 94 was a junket representative on 17 international junkets operated by Customer 14 and funded by Customer 13 at Star Sydney. Customer 13 was also a junket representative on these junket programs. Junket players on the programs included Customer 62 and Customer 56; and
 - d. between 11 January 2018 and 31 March 2020, Customer 94 was a junket representative on 40 domestic junkets operated and funded by Customer 95 at Star Sydney. Junket players on these programs included Customer 86.
- f. Customer 94 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$12,110,621 for Customer 94;

Particulars

See paragraph 752 above.

In 2016, Customer 94's individual rated turnover was \$143,005.

In 2017, Customer 94's individual rated turnover was \$130,446.

In 2018, Customer 94's individual rated turnover escalated to \$1,506,681.

In 2019, Customer 94's individual rated turnover further escalated to \$7,9873,473.

In 2020, when the COVID-19 pandemic closures commenced, Customer 94's turnover dropped but remained high.

In 2020, Customer 94's individual rated turnover was \$2,237,016.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 94 by remitting large amounts of money out of and within the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327.

On 14 May 2019, on behalf of junket operator Customer 95, Customer 94 withdrew \$193,900 from Customer 95's Star Sydney account. Customer 94 then transferred the funds to his own personal bank account in Australia.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349.

On or about 6 January 2020, a customer requested to transfer \$100,000 from her Star Sydney account to another customer's Star Sydney account. Soon after, the second customer requested that the \$100,000 be transferred from their account to Customer 94's Star Sydney account. There were no known links between the three customers, and Star Sydney considered the transactions to be an attempt to disguise the ownership and source of the funds. Star Sydney also noted that the transfers did not appear to serve any purpose. The funds remained in Customer 94's account: SMR dated 6 January 2020.

- h. Star Sydney was aware that Customer 94, in his capacity as a junket representative for the Customer 8, Customer 95 and Customer 14 junkets:
- i. transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and contained in various carry bags at Star Sydney;
 - ii. had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Between 15 February 2016 and 31 January 2022, Star Sydney gave the AUSTRAC CEO 369 TTRs in respect of Customer 94 totalling \$13,753,718, including:

- a. 288 outgoing TTRs totalling \$9,457,868;
- b. 81 incoming TTRs totalling \$4,295,850;
- c. \$4,445,018 in chip or cash exchanges;

- d. \$9,278,470 in account deposits or withdrawals; and
- e. \$30,230 in EGM payouts.

Large and suspicious cash transactions in 2017

In 2017, Customer 94 withdrew a total of \$776,000 from Customer 8's account at Star Sydney in his capacity as a junket representative for Customer 8's junket:

- a. on 4 February 2017, Customer 94 asked Star Sydney to transfer \$193,000 by telegraphic transfer from Customer 8's Star Sydney account to a junket player on Customer 8's junket. Star Sydney declined to process the transaction as the nominated account was in the name of the junket player's daughter. Customer 94 then withdrew \$193,000 in cash from Customer 8's account. Star Sydney staff observed him handing the cash to the junket player's daughter, who placed the funds in a black carry bag and left the premises: SMR dated 6 February 2017;
- b. on 8 February 2017, Customer 94 withdrew \$300,000 in cash from Customer 8's Star Sydney account and gave the cash to a junket player. Later that evening, Customer 94 withdrew a further \$131,000 in cash from the account. Star Sydney was unaware who the funds were for: SMR dated 9 February 2017; and
- c. on 14 November 2017, Customer 94 withdrew \$152,000 in cash from Customer 8's Star Sydney account. Star Sydney staff observed Customer 94 give the cash to Customer 70, who was not a player on Customer 8's junket. Star Sydney was unaware of any connection between Customer 70 and Customer 8: SMR dated 14 November 2017.

Large and suspicious transactions in 2018

In 2018, Customer 94, in his capacity as a junket representative for Customer 14's and Customer 95's junkets, was involved in suspicious cash transactions totalling at least \$1,713,000 involving Customer 14 and totalling at least \$464,000 involving Customer 95 at Star Sydney:

- a. on 21 February 2018, Customer 94 presented \$100,000 in cash at Star Sydney. The cash comprised \$4,700 in \$100 notes, \$94,300 in \$50 notes, \$900 in \$20 notes, \$80 in \$10 notes and \$20 in \$5 notes. The cash was bundled in small rubber bands. Customer 94 requested that \$86,000 be deposited into Customer 14's account and the remaining \$14,000 be placed in Customer 95's safe deposit box: SMR dated 22 February 2018;
- b. on 26 February 2018 and 27 February 2018, Customer 94 deposited large amounts of cash into Customer 14's Star Sydney account. The cash comprised \$50 notes. The cash was bundled with rubber bands into \$10,000 units. Although Star Sydney acknowledged that large cash transactions were common for a

junket operator, it considered that the cash all being in \$50 notes was unusual: SMR dated 28 February 2018;

- c. on 27 February 2018, Customer 94 withdrew \$400,000 in cash from Customer 14's Star Sydney account. The cash was for a junket player on Customer 14's junket who had recorded a turnover of \$1,964,215 with a loss of \$98,900. Star Sydney considered the transaction to be unusual given the loss recorded for the junket player: SMR dated 28 February 2018;
- d. on 19 May 2018, Customer 94 exchanged \$193,000 in chips for cash at Star Sydney on behalf of Customer 14. Customer 94 split the cash between two junket players on Customer 14's junket. One customer had recorded a turnover of \$828,115 with a win of \$31,015 and the other customer had recorded a turnover of \$1,276,675 with a win of \$785: SMR dated 21 May 2018;
- e. on 10 July 2018, Customer 94 deposited a total of \$200,000 in cash into Customer 14's account at Star Sydney for a buy-in. The cash was presented in a shopping bag in multiple denominations. The cash was bundled in rubber bands. Customer 94 was given the cash by another Star Sydney customer who was not a player on Customer 14's junket program. Customer 94 deposited \$88,850 and then left Star Sydney in a vehicle. He returned later to deposit a further \$111,150: SMR dated 11 July 2018;
- f. on 14 July 2018, Customer 94 deposited \$204,000 in cash into Customer 14's account at Star Sydney. The cash had been given to Customer 94 by his 'local companion' in a cloth bag and comprised \$22,300 in \$100 notes, \$180,100 in \$50 notes, \$20 in \$1,560 notes and \$40 in \$10 notes. The 'local companion' was not a player on Customer 14's junket. The cash was used as a buy-in for a junket player: SMR dated 17 July 2018;
- g. on 29 July 2018, Customer 94 withdrew \$150,000 in cash from the Customer 95 account at Star Sydney. Customer 94 then gave the cash to a Star Sydney customer who deposited the cash into his account. The customer then withdrew the cash again and left Star Sydney in a vehicle. The customer was not a player under Customer 95's junket but was a player on Customer 14's junket. Star Sydney considered that it was a large amount of cash to withdraw given that the customer had recorded a turnover of \$1,708,000 with a win of \$39,325 under Customer 14's junket and was not a player on Customer 95's junket: SMR dated 31 July 2018;
- h. on 15 August 2018, Customer 94 withdrew \$630,000 in cash from Customer 14's account. The cash was given to a player on Customer 14's junket, Person 36, who had a recorded turnover of \$8,770,100 with a win of \$845,320 and was the only key player

on that junket program. Star Sydney considered that it was a large amount of cash to withdraw: SMR dated 17 August 2018;

- i. on 23 October 2018, Customer 94 withdrew \$100,000 in cash from Customer 95's account at Star Sydney. Customer 94 gave the cash to two other Star Sydney customers, including Person 41, neither of whom were junket players on Customer 95's junket. The first customer had minimal gaming activity recorded on Customer 14's junket and Person 41 had no gaming activity recorded and no history of junket activity. Star Sydney considered it suspicious that Customer 94 withdrew funds from a junket and gave the cash to customers not affiliated with that junket: SMR dated 24 October 2018;
- j. on 8 November 2018, a junket representative, Person 35, settled the accounts for a junket group operated by Person 18 and took \$97,557 in cash at Star Sydney. Shortly after, Customer 94 deposited \$100,000 in cash into Customer 95's junket operator account. Star Sydney noted that \$95,000 of that deposit comprised the same cash from the earlier junket settlement. Star Sydney considered it unusual for junkets to swap large amounts of cash between themselves for no apparent reason: SMR dated 9 November 2018; and
- k. on 1 December 2018, Customer 94 deposited \$100,000 in cash into Customer 95's junket operator account at Star Sydney. The cash comprised \$50,000 in \$100 notes and \$50,000 in \$50 notes. The \$50 notes were bundled with elastic bands and the \$100 notes were bundled with Star issued straps. Customer 94 had received the cash from another customer in a red bag. Star Sydney noted that the customer was not a player on a Customer 95 junket, and lived locally so was not eligible to play on one. Star Sydney was not aware of a relationship between the customer and the junket: SMR dated 3 December 2018.

Large and suspicious transactions in 2019

In 2019, Customer 94, in his capacity as a junket representative for the Customer 14 and Customer 95 junkets, was involved in suspicious cash transactions totalling at least \$2,500,000 involving Customer 14 and totalling at least \$593,000 involving Customer 95 at Star Sydney:

- a. on 3 January 2019, Customer 94 deposited \$135,000 in cash into Customer 14's account at Star Sydney. The cash had been given to Customer 94 by another Star Sydney customer, Person 3, and an unknown person in a yellow paper bag with a logo on the side of it. The cash comprised \$120,000 in \$50 notes and \$15,000 in \$20 notes. The cash was bundled with elastic bands. Person 3 was a local player and not a junket player. The unknown person was not a Star customer or known to Star Sydney. Star Sydney considered it unusual that cash was being delivered from

someone not associated with Customer 14's junket to be deposited into Customer 14's account: SMR dated 7 January 2019;

- b. on 23 January 2019, Customer 94 deposited \$150,000 in cash into Customer 14's account at Star Sydney. The cash was in \$50 notes. The cash was bundled into \$10,000 units with rubber bands and was noted by Star Sydney staff to be partially sticky. The funds were allocated to a junket player on Customer 14's junket, Person 13. At the time Star Sydney gave the AUSTRAC CEO an SMR reporting the transaction, the funds had not yet been used by Person 13 for gaming purposes: SMR dated 24 January 2019;
- c. on 27 January 2019, Customer 94 exchanged \$200,000 of chips for cash on behalf of a junket operator, Customer 95. Soon afterwards, a customer returned with \$150,000 in cash to open a Star Sydney account in which to deposit the funds. The funds presented were made up of the same cash that Customer 94 had taken following his chip exchange. The customer transferred the \$150,000 to Customer 14's account to fund a junket player. The customer then deposited \$200,000 in cash which comprised \$100 notes issued by Star Sydney. Star Sydney was unable to determine when or why the funds were issued. Later that day, Customer 94 gave \$200,000 worth of chips to the customer which were deposited into the customer's account. Star Sydney was unaware of any link between the customer and any of Customer 94, Customer 14 or Customer 95. The customer lived locally and was ineligible to play on the junket. Further, the gaming activity recorded for the customer was minimal compared with the large transactions conducted: SMR dated 30 January 2019;
- d. on 1 February 2019, Customer 94 deposited \$138,000 in cash into Customer 14's account. The cash comprised \$50 and \$20 notes and was contained in a shopping bag. Star Sydney considered it unusual for such a large cash transaction to be completed using small denomination notes: SMR dated 4 February 2019;
- e. on 7 February 2019, Customer 94 and a Star Sydney customer approached the Star Sydney cashiers to deposit \$200,000 into the customer's account. The customer was a junket player on Customer 14's junket. The cash was comprised of \$50 notes bundled with rubber bands in units of \$10,000 and was contained in a shopping bag. The customer had recorded a turnover of \$760,590 with a win of \$65,105 on Customer 14's junket. Soon after the transaction, Customer 94 returned with a further \$100,000 in cash to be deposited into Customer 14's account.

The cash again was comprised of \$50 notes contained in a shopping bag: SMR dated 8 February 2019;

- f. on 8 February 2019, a Star Sydney customer deposited \$200,000 in cash into his account with Customer 94 present. The customer was a junket player on Customer 14's junket. The cash comprised \$50 notes bundled with rubber bands in \$10,000 units contained in white shopping bags. After the deposit, the customer transferred the funds to Customer 14's account. Star Sydney identified that this was the largest single cash transaction recorded for the customer. Star Sydney also noted that the transaction was consistent with other recent dealings with Customer 94 involving the deposit of large amounts of cash comprising \$50 notes bundled and presented in the same way: SMR dated 11 February 2019;
- g. on 9 February 2019, another Star Sydney customer deposited \$200,000 in cash into his account with Customer 94 present. The customer was a junket player on Customer 14's junket. The cash comprised \$190,000 in \$50 notes and \$10,000 in \$100 notes bundled with rubber bands in \$10,000 units and was contained in white shopping bags. After the deposit, the customer withdrew \$20,000 in cash and transferred the remaining \$180,000 to Customer 14's account. Star Sydney identified that this was the largest single cash transaction recorded for the customer. Star Sydney also noted that the transaction was consistent with other recent dealings with Customer 94 and the deposit of large amounts of cash comprising \$50 notes bundled and presented in the same way: SMR dated 11 February 2019;
- h. on 10 February 2019, Customer 94 presented \$220,000 in cash to be deposited into Customer 14's account at Star Sydney. The cash was comprised of \$100 notes, some of which had Star straps but the majority of which were bundled with rubber bands in units of \$10,000. Star Sydney noted that Customer 94 had been involved in several large cash transactions in respect of Customer 14's junket in recent days. Star Sydney identified that it was out of the ordinary for such large amounts of cash to be deposited daily: SMR dated 12 February 2019;
- i. on 13 February 2019, Customer 94 deposited \$120,000 in cash into Customer 14's account at Star Sydney. The cash was comprised of \$100,000 in \$50 notes bundled in rubber bands in units of \$5,000 and \$20,000 in \$100 notes bundled in Star straps. The cash had been withdrawn from Customer 95's safe deposit box. Customer 94 was a representative of both Customer 95's and Customer 14's junkets. Star Sydney considered it unusual that Customer 94 would be taking cash from one junket's safe deposit box to give to another junket: SMR dated 15 February 2019;

- j. on 14 February 2019, Customer 94 deposited \$110,000 in cash into Customer 14's account at Star Sydney. Shortly afterwards, Customer 94 deposited a further \$10,000 in cash into Customer 14's account. The cash comprised \$50 notes bundled with rubber bands in units of \$10,000. Star Sydney identified that Customer 94 had made similar deposits on numerous occasions: SMR dated 15 February 2019;
- k. on 15 February 2019, Customer 94 presented \$250,000 in cash to be deposited into Customer 14's account at Star Sydney. The cash comprised \$249,200 in \$50 notes and \$800 in \$100 notes. Customer 94 initially provided \$200,000 and then left the room and returned with another \$40,000. Customer 94 realised that he was still 'short' and so left again to collect another \$10,000. Customer 94 was noted to have met with another junket representative who was supplying the cash: SMR dated 19 February 2019;
- l. on 16 February 2019, Customer 94 presented \$200,000 in cash bundled in rubber bands and contained in a shoe box. The cash comprised \$100 notes. Customer 94 requested that \$180,000 of the funds be deposited into Customer 14's account and the remaining \$20,000 be returned to him. Customer 94 purchased \$20,000 of chips with the cash later that evening but recorded no play. Star Sydney identified that this was another deposit into Customer 14's account by Customer 94 involving a large amount of cash or cash received in suspicious packaging: SMR dated 19 February 2019;
- m. on 21 February 2019, junket operator Customer 95 deposited \$200,000 into his account at Star Sydney. Customer 95 was accompanied by Customer 94. The cash comprised \$50 notes and was bundled with rubber bands and carried in a shopping bag. Star Sydney considered the number of \$50 notes provided to be suspicious: SMR dated 22 February 2019;
- n. on 5 April 2019, Customer 94 presented \$300,000 in cash to be deposited into Customer 14's account. The cash comprised \$7,300 in \$100 notes, \$290,500 in \$50 notes and \$2,200 in \$20 notes. The cash was bundled with rubber bands and contained in a beige duffel bag. Customer 94 had been given the cash by another Star Sydney customer, Person 3, who had no known links to Customer 94 or Customer 14's junket: SMR dated 8 April 2019;
- o. on 14 May 2019, on behalf of junket operator Customer 95, Customer 94 withdrew \$193,900 from Customer 95's Star Sydney account. Customer 94 then transferred the funds to his own personal bank account in Australia. Customer 94 was a player on the junket, but had recorded no play and a loss of

\$51,315. Star Sydney considered it unusual that Customer 94 had transferred funds from Customer 95's Star Sydney account to his own personal bank account in Australia: SMR dated 15 May 2019; and

- p. on 19 June 2019, a Star Sydney customer presented \$200,000 in chips from his program and exchanged them for eight \$25,000 plaques. A short time later, Customer 94 deposited the same plaques into Customer 14's account. The customer was not a junket player on Customer 14's junket and Star Sydney was unaware of any link between the customer and Customer 94 or the customer and Customer 14: SMR dated 19 June 2019.

In 2019, Customer 94 was also involved in a number of other suspicious cash transactions at Star Sydney:

- a. on 9 January 2019 and 11 January 2019, a Star Sydney customer who was not playing on any junkets for which Customer 94 was a junket representative, made several large and suspicious cash deposits into his account. The cash was comprised of \$50 notes bundled with elastic bands. On one of the occasions, the customer deposited \$95,000 in cash in the presence of Customer 94. The cash was presented in a plastic bag and comprised \$20,000 in \$50 notes in \$5,000 bundles, with the remainder loose in the bag. Following this deposit, the customer left the premises: SMR dated 14 January 2019;
- b. on 18 August 2019, a customer deposited \$100,000 in cash into his Star Sydney account. The cash comprised \$50 notes in \$5,000 bundles, wrapped with elastic bands and presented in a plastic bag. The customer was accompanied by an unknown male customer. The cash had been given to the customer by an unknown female customer. Star Sydney noted that the customer was currently playing on a junket and the junket representative was Customer 94. Customer 94 had instructed that the funds be transferred to the junket as a buy-in. Star Sydney considered the amount of cash comprised in small denominations and handed to the customer by the unknown female customer to be suspicious: SMR dated 20 August 2019; and
- c. on 6 November 2019, Customer 94 deposited \$190,000 into his Star Sydney account. The cash comprised \$50 notes bundled with elastic bands in \$10,000 units. The cash was in a green recyclable shopping bag. When asked about the source of the funds, Customer 94 replied that it was his money. He advised that the funds were to be used for a buy-in for another junket operator. The funds were transferred to the other junket operator's account on 7 November 2019: SMR dated 8 November 2019.

Large and suspicious transactions in 2020

On 26 January 2020, Customer 94 deposited \$110,000 in chips to Customer 95's Star Sydney FMA, and withdrew the equivalent amount in cash from Customer 95's Star Sydney SKA. At this time the junket had recorded a loss of \$50,440.

On 1 March 2020, Customer 94 presented \$35,000 in cash at Star Sydney. The cash comprised wet \$50 notes. Customer 94 stated that the notes were wet because water had spilled on them in a suitcase.

- i. at various times, Customer 94 had significant parked or dormant funds in his FMA at Star Sydney;

Particulars

Between 31 July 2020 and at least 5 August 2022, Customer 94 had \$57,318 parked in his FMA.

See paragraph 284 above.

- j. Customer 94, in his capacity as a junket representative for Customer 95's junket, engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including quick turnover of money (without betting);

Particulars

See paragraph 25 above.

For example, on 10 October 2018, Customer 94 deposited \$100,000 in cash into Customer 95's account at Star Sydney. The cash was in a black shopping bag and was comprised of \$50 notes and one \$100 note. The cash was bundled with elastic bands. Four hours later, Customer 94 returned and withdrew \$119,000 in cash from the account. The funds from the initial deposit were not used for gaming purposes at any time. Star Sydney considered that the funds had been deposited and withdrawn shortly after in order to exchange the Star issued notes: SMR dated 11 October 2018.

This transaction was indicative of the ML/TF typology of quick turnover of money (without betting).

- k. Customer 94 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 94 had access to private gaming rooms at Star Sydney, including the Sovereign, Chairman's, Oasis and Lakes Salons.

- l. between 2018 and 2020, Customer 94 was the subject of law enforcement enquiries at Star Sydney;

Particulars

In March 2018, a law enforcement agency made enquiries at Star Sydney about a transaction involving Customer 94.

In November 2018, a law enforcement agency requested that Star Sydney provide to it Customer 94's profile and details.

In February 2019, Star Sydney advised a law enforcement agency of a suspicious cash deposit made by Customer 95 in the company of Customer 94. Star Sydney set the cash aside for review.

In February 2019, Customer 94 was referred to the JRAM following interest in him by a law enforcement agency.

In July 2019, a law enforcement agency requested information about Customer 94's accommodation at Star Sydney.

By November 2019, Star Sydney understood that Customer 94 was being investigated by a law enforcement agency in respect of alleged financial crimes.

In March 2020, Customer 94 was referred to the PAMM and JRAM following interest in him by law enforcement agencies.

- m. by January 2019, Star Sydney was aware that Customer 94 was formerly an employee of another Australian casino who had been terminated for serious misconduct;

Particulars

In November 2018, a law enforcement agency notified Star Sydney that Customer 94 had formerly been a manager at another Australian casino.

On 18 January 2019, the Director of Surveillance at that other Australian casino sent an email to a Star Sydney Investigations Officer identifying that Customer 94:

- a. was formerly an employee at that other Australian casino in the international business operations team;
 - b. had been terminated by that other Australian casino in 2015 for serious misconduct; and
 - c. had been issued with an indefinite WOL by that other Australian casino.
- n. by February 2019, Star Sydney was aware that Customer 94 was providing fraudulent utility bills to it in order to confirm that junket players did not live in New South Wales and so were eligible to play on junket programs; and

Particulars

On 14 February 2019, a Premium Services Operations Manager, SEG sent an email to the Star investigations team alerting them to the fact that Customer 94, as the junket representative for

Customer 95, had provided fraudulent utility bills as evidence that junket players did not live in New South Wales and so were eligible to play on junket programs.

The Premium Services Operations Manager, SEG suggested that the purpose of the deception was to grow the junket business.

- o. Star Sydney did not have adequate reason to believe that Customer 94's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 94 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood Customer 94's occupation to be as a junket representative.

By 30 November 2016, Customer 94 had made large cash transactions as a junket representative for multiple junkets and engaged in transactions indicative of the ML/TF typology of quick turnover of money (without betting).

Customer 94 was a junket funder, junket representative and junket players. Junkets partly funded by Customer 94 had a turnover exceeding \$100 million at Star Sydney. At no time was Customer 94's stated source of wealth commensurate with the high value financial and gambling services provided to him.

In 2018 and 2019, Customer 94's turnover escalated significantly. Customer 94 was the subject of multiple law enforcement enquiries. Concurrently, Customer 94 engaged in increasingly frequent large and suspicious cash transactions, using small denomination notes, that regularly involved multiple third parties, junket operators and junket representatives. Star Sydney formed suspicions as to the origin of the cash but did not take steps to verify Customer 94's source of funds.

By January 2019, Star Sydney was aware that Customer 94 had been terminated from employment at another Australian casino due to serious misconduct.

By February 2019, Star Sydney was aware that Customer 94 was providing fraudulent utility bills to it as evidence that junket players did not live in New South Wales and so were eligible to play on junket programs.

By November 2019, Star Sydney understood that Customer 94 was being investigated by a law enforcement agency in respect of alleged financial crimes.

Despite this, Customer 94 continued to engage in large and suspicious cash transactions until at least March 2020, the value of which exceeded \$145,000.

Star Sydney's determination of the ML/TF risks posed by Customer 94

2344. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 94 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 94.

- a. On and from 30 November 2016, Customer 94 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 94's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 94 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 6 May 2016, Customer 94 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 94's transactions

2345. At no time did Star Sydney apply appropriate transaction monitoring to Customer 94's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 94, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket funders, representatives and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 94 through:
 - i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- d. Star Sydney provided designated services to Customer 94 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 94's KYC information

- 2346. Star Sydney did not review, update and verify Customer 94's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 94's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 94's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 94's source of wealth and source of funds were not legitimate: see *Customer 94's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 94's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 94.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 94's high ML/TF risks

2347. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 94 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 94; and
- c. reviewing and updating Customer 94's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 94 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 94*.

ECDD triggers in respect of Customer 94

2348. Star Sydney was required to apply the ECDD Programs to Customer 94 following any ECDD triggers in respect of Customer 94.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2349. Customer 94 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 6 February 2017 and 6 January 2020, Star Sydney gave the AUSTRAC CEO 35 SMRs with respect to Customer 94.

2350. The matter pleaded in paragraph 2349 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2351. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 94 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 94 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 94 and the provision of designated services to Customer 94 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 4 February 2019, 5 April 2019, 14 May 2019, 18 June 2019, 18 August 2019, 6 November 2019 and 2 January 2020, Star Sydney conducted ECDD in respect of Customer 94.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 94's higher ML/TF risks: see *Customer 94's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 94's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 94's source of wealth and source of funds were not legitimate: see *Customer 94's risk profile*.

- b. Customer 94 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 94 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 94 and the provision of designated services to Customer 94, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 21 March 2019, Customer 94 was discussed at a JRAM. The minutes of the meeting noted that:

- a. Customer 94 deposited large amounts of cash on behalf of junket operator Customer 95;
- b. law enforcement agencies had taken an interest in Customer 94; and
- c. the Group Investigation Manager would provide further information from the law enforcement agencies.

However, Customer 94 was not discussed again at a JRAM or PAMM until February 2020.

Between February 2020 and August 2020, Customer 94 was discussed at JRAMs and PAMMs.

The minutes of the meetings noted that:

- a. Customer 94 lived overseas and his occupation was as a junket representative;
- b. Customer 94 was a former employee of another Australian casino;

- c. law enforcement agencies were interested in Customer 94; and
- d. Customer 94 handed out business cards while at the Star Sydney property, and it appeared as though he was recruiting junket players on behalf of Star.

The minutes of the JRAMM on 23 February 2020 noted the following action items with respect to Customer 94:

- a. the Group Investigation Manager would investigate whether Customer 94 was indeed recruiting junket players, as he did not work for Star; and
- b. Customer 94 would be discussed again at an out of cycle JRAMM once Star began operating again.

The minutes of the PAMM on 9 July 2020 noted the following action items with respect to Customer 94:

- a. the matter would be escalated internally due to Customer 94's behaviour in relation to swapping funds between junkets;
- b. notes would be placed in Synkros to contact certain Star Sydney staff when Customer 94 was next at the Star Sydney property; and
- c. a Star Sydney staff member would raise awareness amongst Star Sydney staff to monitor Customer 94's behaviour.

The minutes of the JRAMM on 20 August 2020 noted that:

- a. Customer 94 was removed from the JRAMM, as action by the staff member as per the July meeting had been completed; and
- b. Customer 94's rating was to remain a medium.

Contravention of s36 of the Act in respect of Customer 94

2352. By reason of the matters pleaded from paragraphs 2340 to 2351, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 94 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2353. By reason of the matters pleaded at paragraph 2352, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 94.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 95

2354. Customer 95 was a customer of Star Sydney during the relevant period. Between 2018 and 2019, Star Sydney recorded turnover exceeding \$69 million for Customer 95.

Particulars

Customer 95 was a customer of Star Sydney from at least 11 January 2018.

2355. Star Sydney provided Customer 95 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a domestic junket operator, junket funder and junket player. Between 2018 and 2020, Star Sydney recorded that junkets operated by Customer 95 had a turnover exceeding \$780 million.

Particulars

On 11 January 2018, Star Sydney opened an FMA and SKA for Customer 95 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 95 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 95's risk profile below.

2356. At all times from 11 January 2018, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 95.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 95's risk profile

2357. On and from 11 January 2018, Customer 95, and the provision of designated services to Customer 95 by Star Sydney, posed higher ML/TF risks because of the following red flags:

- a. Customer 95 was a domestic junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6) at Star Sydney;
 - i. between 2018 and 2020, Customer 95 operated 40 domestic junkets at Star Sydney, seven of which were funded by Customer 14 and two of which were funded by Customer 8;

Particulars

Between 2018 and 2020, Customer 95 was a top 10 junket operator by number of programs operated.

Funding for Customer 95's domestic junkets comprised:

- a. \$2,801,986 funded by Customer 14; and
- b. \$192,500 funded by Customer 8.

- ii. between 2018 and 2020, Star Sydney recorded that the total cumulative turnover of domestic junkets operated by Customer 95 was \$780,405,934 with losses of \$14,804,644;

Particulars

In 2018, junkets operated by Customer 95 had turnover of \$412,016,037 with losses of \$5,098,610.

In 2019, junkets operated by Customer 95 had turnover of \$302,235,249 with losses of \$8,585,554.

In 2020, prior to the COVID-19 pandemic closures, junkets operated by Customer 95 had turnover of \$66,154,648 with losses of \$1,120,480.

- iii. although Customer 95 was a player on a number of their own junkets, between 2018 and 2020, Star Sydney recorded a cumulative turnover of \$71,663,120 for Customer 95 as a junket player on their own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 2357.c below.

- iv. between 2018 and 2020, total benefits of \$5,726,626 were payable to Customer 95 by Star Sydney in their capacity as a domestic junket operator including rebates earned, percentages of earnings from revenue share programs and other complimentary services;

Particulars

Customer 95 was entitled to benefits from Star Sydney in their capacity as a junket operator, including:

a. in 2018, total benefits of \$3,097,979 were payable to Customer 95;

b. in 2019, total benefits of \$2,309,941 were payable to Customer 95; and

c. in 2020, total benefits of \$318,706 were payable to Customer 95.

- v. Customer 95 operated junkets in private gaming rooms including private gaming rooms that were exclusive to the domestic junket at Star Sydney;

Particulars

Customer 95 operated junkets in non-exclusive private gaming rooms, including Sovereign Room, Oasis Room, Chairman's Room and Pit 80.

Customer 95 operated junkets in exclusive private gaming rooms, including Salon 68, Salon 69, Salon 76, Salon 85 and Salon 86.

- vi. Customer 95 had two junket representatives at Star Sydney, one of which was Customer 94; and
- vii. Customer 95 and their junket representatives facilitated the provision of high value designated services to at least 95 domestic junket players at Star Sydney including players who Star Sydney considered had acted suspiciously;

Particulars

See paragraph 643 to 649 above.

- b. Customer 95 was a junket funder who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) in connection with international junkets at Star Sydney;
 - i. between 2018 and 2019, Customer 95 funded five junkets at Star Sydney;

Particulars

At Star Sydney, Customer 95 funded:

- a. four junkets totalling \$1,533,868 for the junket operator, Customer 14; and
- b. one junket totalling \$204,500 for junket operator, Customer 7.

Customer 95 funded junket operators in circumstances where the division of funds to the individual players on the junket was not controlled by Star Sydney.

- ii. Star Sydney recorded that the total cumulative turnover of junkets funded by Customer 95 between 2018 and 2019 was \$300,429,665 with losses of \$7,564,240;

Particulars

In 2018 and 2019, Customer 14's junket programs funded by Customer 95 had turnover of \$300,429,665 with losses of \$7,564,240.

In 2019, Customer 7's junket programs funded by Customer 95 had turnover of \$65,278,096 with losses of \$4,079,920.

- c. Customer 95 was a domestic junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 2018 and 2019, Customer 95 was a player on 15 of their own junket programs at Star Sydney;
 - ii. seven of the junket programs were funded by Customer 14 and two of the junket programs were funded by Customer 8; and
 - iii. between 2018 and 2019, Star Sydney recorded high turnover totalling \$69,239,952 with losses of \$418,440 for Customer 95's gaming activity on junket programs;

Particulars

In 2018, Customer 95's turnover on junket programs was \$47,352,885 with losses of \$100,770.

In 2019, Customer 95's turnover on junket programs was \$21,887,067 with losses of \$317,670.

- d. designated services provided to Customer 95 lacked transparency as the services were provided through the junket channel at Star Sydney;

Particulars

See paragraph 650 above.

- e. Customer 95 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2020, Star Sydney recorded individual rated turnover totalling \$9,799 for Customer 95;

Particulars

In 2018, Customer 95's individual rated turnover was \$9,132.

In 2019, Customer 95's individual rated turnover of \$654.

In 2020, Customer 95's individual rated turnover of \$13.

- f. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 95 by remitting large amounts of money into, out of, and within the casino environment via her accounts;

Particulars

Remittances involving third parties

See paragraphs 281 and 327 above.

For example, on 14 May 2019, Customer 94 instructed Star Sydney to transfer \$193,900 from Customer 95's account at Star Sydney to Customer 94's personal bank account in Australia: SMR dated 15 May 2019.

Remittances into the casino environment

See paragraph 327 above.

Between 11 January 2018 and 12 March 2020, Star Sydney received 156 telegraphic transfers totalling \$8,524,610, each of which was made available to Customer 95's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

Between 16 January 2018 and 14 September 2019, Star Sydney sent seven telegraphic transfers totalling \$337,920 from Customer 95's account to an Australian bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349.

On 11 February 2018, Customer 95 received \$100,000 into their Star Sydney FMA from their junket representative's Star Sydney FMA.

- g. designated services provided to Customer 95 included EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

For example, on 16 December 2018, Star Sydney gave the AUSTRAC CEO one TTR detailing EGM payouts to Customer 95 totalling \$10,460.

- h. Customer 95, and persons associated with their junket including Customer 94, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and shopping bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 12 January 2018 and 23 March 2020, Star Sydney gave the AUSTRAC CEO 446 TTRs totalling \$14,491,112, including:

- a. 149 TTRs detailing account deposits totalling \$6,595,300;
- b. 130 TTRs detailing account withdrawals totalling \$4,359,857;
- c. 165 TTRs detailing cash and chip exchanges totalling \$3,525,955; and
- d. one TTR detailing other monetary value in totalling \$10,000.

Large and suspicious cash transactions in 2018

On 11 February 2018, Customer 95's junket representative deposited \$150,000 in cash into Customer 95's FMA.

On 21 February 2018, Customer 94, a junket representative for Customer 14's and Customer 95's junkets, presented \$100,000 in cash at Star Sydney. The cash was comprised of \$4,700 in \$100 notes, \$94,300 in \$50 notes, \$900 in \$20 notes, \$80 in \$10 notes and \$20 in \$5 notes, and was bundled in elastic bands. Customer 94 deposited \$86,000 in cash to Customer 14's junket account and

requested that the remaining \$14,000 be placed in Customer 95's safe deposit box: SMR dated 22 February 2018.

On 27 May 2018, Customer 95's junket representative, Customer 94, deposited \$100,000 in cash in \$50 notes into Customer 95's FMA at Star Sydney.

On 29 July 2018, Customer 94, a junket representative for Customer 14's and Customer 95's junkets, withdrew \$150,000 in cash from Customer 95's junket account at Star Sydney. Customer 94 then gave the cash to a Star Sydney customer who deposited the cash into his account but then withdrew the cash and left Star Sydney. Star Sydney considered the amount of cash withdrawn to be large given that the customer had recorded a turnover of \$1,708,000 with a win of \$39,325 under the Customer 14 junket and was not a player in the Customer 95 junket: SMR dated 31 July 2018.

On 10 October 2018, Customer 94, Customer 95's junket representative, deposited \$100,000 in cash into Customer 95's junket account at Star Sydney. The cash was presented in a black shopping bag and comprised \$50 notes and one \$100 note. The cash was bundled with elastic bands. Four hours later, Customer 94 returned and withdrew \$119,000 in cash from the account. The funds from the initial deposit were not used for gaming purposes at any time. Star Sydney considered that the funds were deposited and withdrawn shortly after to exchange the notes for notes issued by Star: SMR dated 11 October 2018.

On 12 October 2018, Customer 94, Customer 95's junket representative presented a total of \$101,000 in \$100 notes, bundled in units of \$5,000 in straps from Star Sydney at the Cage.

On 23 October 2018, Customer 94, a junket representative for Customer 14's and Customer 95's junkets, withdrew \$100,000 in cash from Customer 95's junket account at Star Sydney. Star Sydney staff observed Customer 94 hand the cash to two other Star Sydney customers, including Person 41. The first customer had minimal gaming activity recorded on the Customer 14 junket and was not a junket player on the Customer 95 junket. Person 41 had no gaming activity recorded and no history of junket activity. Star Sydney considered it suspicious that Customer 94 would withdraw funds from Customer 95's junket and gave the cash to customers not affiliated with that junket: SMR dated 24 October 2018.

On 18 November 2018, a junket representative, Person 35, settled the accounts for a junket operated by Person 18 by withdrawing \$97,557 in cash. Soon after, Customer 95's junket representative, Customer 94, deposited \$100,000 cash to Customer 95's FMA. Star Sydney noted that \$95,000 of the cash deposited was comprised the same cash from the earlier settlement conducted by Person 35. Star Sydney noted it was unusual for junkets to swap large amounts of

cash between themselves for no apparent reason: SMR dated 9 November 2018.

On 1 December 2018, Customer 94, Customer 95's junket representative, deposited \$100,000 in cash into Customer 95's junket account at Star Sydney. The cash was comprised of \$50,000 in \$100 notes and \$50,000 in \$50 notes. The \$50 notes were bundled with elastic bands. The \$100 notes were bundled with Star issued straps.

Customer 94 had received the funds from another customer. Star Sydney noted that the other customer was not a player on Customer 95's junket and lived locally so was not eligible to play on Customer 95's junket in any event. There was no known relationship between the customer and the junket: SMR dated 3 December 2018.

Large and suspicious cash transactions in 2019

On 27 January 2019, Customer 94, exchanged \$200,000 of chips to cash on behalf of Customer 95. Shortly afterwards, a customer returned with \$150,000 in cash to open a Star Sydney account and deposit the funds. The funds were the same as those given to Customer 94. The customer then transferred \$150,000 to Customer 14's junket account to fund another junket player. The customer then deposited \$200,000 in cash comprised of \$100 notes issued by Star Sydney. Star Sydney was unable to determine the origin of the funds.

Later that day, Customer 94 gave \$200,000 worth of chips to the customer which were deposited into the customer's account. Star Sydney was unaware of any link between the customer and any of Customer 94, Customer 14 or Customer 95: SMR dated 30 January 2019.

On 13 February 2019, Customer 94, in their capacity as a junket representative for Customer 14's junket, deposited \$120,000 in cash into the Customer 14 junket account. The cash had been withdrawn from Customer 95's safe deposit box. The cash comprised \$100,000 in \$50 notes bundled in rubber bands in units of \$5,000 and \$20,000 in \$100 notes bundled in Star straps. Customer 94 was a representative of both the Customer 95 and the Customer 14 junkets. Star Sydney considered it unusual that Customer 94 would be taking cash from a safe deposit box held by one junket operator to another junket operator's FMA: SMR dated 15 February 2019.

On 13 February 2019, a junket representative deposited \$90,000 in cash to a junket operator's account. The cash was presented in a black plastic bag. The cash was comprised of \$5,000 in \$100 notes, \$74,600 in \$50 notes and \$10,400 in \$20 notes. Later that evening, the same junket representative returned with an additional \$80,000 in cash. The cash was presented in a yellow plastic bag. The junket representative deposited \$70,000 into the first junket operator's account. The remaining \$10,000 was deposited in Customer 95's FMA. Star Sydney noted that it was unusual for a junket to deposit

large amounts of cash with small denomination notes. Further, it was unusual for two different junkets to split cash: SMR dated 15 February 2019.

On 21 September 2019, Customer 95 deposited \$200,000 in cash in \$50 notes contained in a shopping bag, secured with elastic bands, into her FMA.

On 24 September 2019, a third party presented a \$100,000 plaque to be deposited to Customer 95's FMA. The third party then requested to withdraw \$95,000 in cash from Customer 95's FMA. Following the transaction, the third party was observed giving the cash to an unknown male who promptly left the casino with the cash. On review, Star Sydney noted that an unknown male had given the \$100,000 plaque to the third party. Star Sydney noted that it was unusual for the third party to receive a plaque from an unknown male and then to transact on his behalf. The relationship between the two was unknown: SMR dated 25 September 2019.

Large and suspicious cash transactions in 2020

On 26 January 2020, Customer 94 deposited \$110,000 in premium chips into Customer 95's FMA, then withdrew \$110,000 in cash from the FMA, despite that Star Sydney's records indicated that the junket program had recorded a loss of \$50,550.

On 29 February 2020, Customer 94 deposited \$52,500 in cash, comprised of \$5000 bundles wrapped in rubber bands into Customer 95's SKA. Star Sydney observed that the cash had come from a junket player on Customer 95's junket, who had retrieved the cash from a luxury sports car.

- i. in 2018 and 2020, Customer 95 was the subject of law enforcement enquiries on three occasions at Star Sydney;

Particulars

In 2018, Star Sydney received a request from a law enforcement agency with respect to Customer 95.

In 2020, Star Sydney received two requests from a law enforcement agency with respect to Customer 95.

- j. by February 2019, Star Sydney was aware that Customer 94, a junket representative acting on behalf of Customer 95, was providing fraudulent documentation in respect of players on their domestic junkets;

Particulars

On 14 February 2019, a Star staff member identified that Customer 94 was providing fraudulent documentation to evidence that prospective junket players held interstate residency, such that they qualified to play on domestic junkets operated by Customer 95. This

issue was raised with the Star investigations team and Star banned players from continuing to play on the junket programs.

- k. Customer 95 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

See particulars to paragraph 2357.a.

- l. Star Sydney did not have adequate reason to believe that Customer 95's source of wealth/funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 95 at Star Sydney.

Particulars

See paragraph 808 above.

During the relevant period, Star Sydney recorded Customer 95's occupation was as a junket operator and junket representative.

At no time did Star Sydney take appropriate steps to verify Customer 95's occupation or source of wealth and source of funds in circumstances where:

- a. large amounts of suspicious cash were being presented at the Cage for deposit into Customer 95's FMAs and safe deposit boxes at Star Sydney, including by Customer 94;
- b. Customer 95's domestic junkets recorded turnover exceeding \$780 million at Star Sydney; and
- c. Customer 95 was linked to other customers who posed higher ML/TF risks, including Customer 8, Customer 14 and Customer 94: see *Customer 95's risk profile* above.

Star Sydney's determination of the ML/TF risks posed by Customer 95

- 2358. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 95 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 95.

- a. On and from mid-2018, Customer 95 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 95's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 95 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 12 January 2018, Customer 95 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 22 February 2018, Customer 95 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 5 March 2021, Customer 95 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 95's transactions

2359. At no time did Star Sydney apply appropriate transaction monitoring to Customer 95's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 95, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not make and keep complete and reliable records of designated services provided to junket funders, operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 95 through:

- i. the Star Patron account channel;

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783.

- d. Star Sydney provided designated services to Customer 95 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 95's KYC information

2360. Star Sydney did not review, update and verify Customer 95's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 95's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 95's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 95's source of wealth and source of funds were not legitimate: see *Customer 95's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 95's KYC information on and from 11 January 2018, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 95.

Particulars

See paragraph 155 above.

See particulars to paragraph 2365.a and 2365.c.

Failure to apply appropriate due diligence suited to Customer 95's high ML/TF risks

2361. Had Star Sydney conducted ongoing customer due diligence on and from 11 January 2018 by:

- a. identifying and assessing the ML/TF risks posed by Customer 95 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 95; and
- c. reviewing and updating Customer 95's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 95 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 95*.

ECDD triggers in respect of Customer 95

2362. Star Sydney was required to apply the ECDD Programs to Customer 95 following any ECDD triggers in respect of Customer 95.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2363. Customer 95 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 22 February 2018 and 25 September 2019, Star Sydney gave the AUSTRAC CEO 12 SMRs with respect to Customer 95.

2364. Each matter pleaded in paragraph 2363 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2365. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 95 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 95 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 95 and the provision of designated services to Customer 95, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 15 February 2019, 14 May 2019, 24 September 2019 and March 2021, Star Sydney conducted ECDD in respect of Customer 95.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 95's higher ML/TF risks: see *Customer 95's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 95's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 95's source of wealth and source of funds were not legitimate: see *Customer 95's risk profile*.

- b. Customer 95 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite;

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 95 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 95 and the provision of designated services to Customer 95, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

In 2018, Customer 95 was the subject of law enforcement enquiries at Star Sydney: see *Customer 95's risk profile*.

However, it was not until 27 February 2019 and March 2019 that Customer 95 was discussed at JRAMMs. The minutes of the meetings noted that:

- a. Customer 94 was depositing large amounts of cash on behalf of Customer 95;
- b. law enforcement had taken an interest in Customer 94; and
- c. the AML/CTF Compliance Officer was to provide further information from law enforcement.

Despite being aware of these matters, Star Sydney allowed Customer 95 to deposit \$200,000 in cash in \$50 notes in September 2018 and allowed Customer 95's junket representative, Customer 94, to deposit a further \$52,500 in cash, strapped in \$5000 bundles with rubber bands in February 2020: see *Customer 95's risk profile*.

Contravention of s36 of the Act in respect of Customer 95

2366. By reason of the matters pleaded from paragraphs 2354 to 2365 above, on and from 11 January 2018, Star Sydney:
 - a. did not monitor Customer 95 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2367. By reason of the matters pleaded at paragraph 2366, Star Sydney contravened s36(1) of the Act on and from 11 January 2018 with respect to Customer 95.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 96

2368. Customer 96 was a customer of Star Sydney during the relevant period. Between 2016 and 2017, Star Sydney recorded turnover exceeding \$1,800,000 for Customer 96.

Particulars

Customer 96 was a customer of Star Sydney from at least 1995.

On 23 November 2020, Star Sydney issued a WOL in respect of Customer 96.

2369. Star Sydney provided Customer 96 with designated services within the meaning of table 1 and 3, s6 of the Act during the relevant period.

Particulars

On 9 October 2012, Star Sydney opened an FMA and SKA for Customer 96, which were both closed on 24 April 2019 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 96 remitted funds to and from their account (items 31 and 32, table 1, s6 of the Act).

See Customer 96's risk profile below.

2370. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 96.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 96's risk profile

2371. On and from 30 November 2016, Customer 96, and the provision of designated services to Customer 96 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 96's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 96 had a risk history at Star Sydney. In particular, Customer 96 had transacted using large amounts of cash at Star Sydney;

Particulars

Between 25 September 2012 and 6 November 2016, Star Sydney gave the AUSTRAC CEO 27 TTRs detailing chip and cash exchanges, account deposits and account withdrawals made by Customer 96 totalling \$790,530.

Customer 96's risk profile from 30 November 2016

- b. Customer 96 received high value financial and gambling services (tables 1 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2017, Star Sydney recorded individual rated turnover totalling \$1,891,045 for Customer 96, with cumulative losses of \$33,704;

Particulars

See paragraph 752 above.

In 2016, Customer 96's individual rated turnover was \$912,377 with losses of \$20,174.

In 2017, Customer 96's individual rated turnover was \$978,668 with losses of \$13,530.

- c. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 96 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 21 December 2016 and 30 March 2017, Star Sydney received three telegraphic transfers totalling \$45,000, each of which was made available to Customer 96's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

On 29 December 2016, Star Sydney sent a telegraphic transfer of \$15,000 from Customer 96's FMA to an Australian bank account.

The above transaction was conducted through the Star Patron account channel.

- d. Customer 96 transacted using large amounts of cash;

Particulars

See paragraphs 611 to 618 above.

Between 29 December 2016 and 23 May 2017, Star Sydney gave the AUSTRAC CEO eight TTRs detailing account deposits and chip cash outs made by Customer 96 totalling \$143,415.

- e. Customer 96 had access to private gaming rooms at Star Sydney until November 2019;

Particulars

See paragraph 616 above.

Customer 96 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Lakes Salons, Sovereign Cage and Springs Salon Cage.

By November 2019, Customer 96's access to private gaming rooms at Star Sydney had been revoked.

- f. by 30 November 2016, Star Sydney was aware of a number of media articles which reported that Customer 96 had been imprisoned for money laundering offences carried out at another Australian casino;

Particulars

On 16 December 2013, an open source media article reported that Customer 96, a financial advisor and authorised representative of a junket group, had been sentenced to more than two years imprisonment for recklessly dealing with the proceeds of crime. The article reported that Customer 96 had used a bank account at another Australian casino to launder \$682,000 derived from drug importations and trafficking by an international crime syndicate.

On 20 June 2014, an Australian government agency published a press release naming Customer 96 as a person who had been permanently banned from providing financial services due to his criminal conviction for recklessly dealing with the proceeds of crime where the value of the money was \$100,000 or more.

- g. during the relevant period, Star Sydney was aware that:
- i. Customer 96 was a person of interest referred to in the Bergin ILGA Inquiry; and
 - ii. was identified in a number of media reports connecting him to overseas organised criminal syndicates; and

Particulars

In July 2019, an Australian television program:

- a. reported that Customer 96 was alleged to have engaged in money laundering activity on behalf of a transnational drug trafficking and money laundering syndicate, including through another Australian casino;
- b. showed footage of Customer 96 at the Australian casino taking possession of cash suspected to be the proceeds of crime in the amount of \$191,000 in a plastic bag; and
- c. reported that, at the time of his arrest for money laundering, Customer 96 had allegedly admitted to law enforcement that laundering money through casinos was 'easier than using a bank'.

In 2020, the Bergin ILGA Inquiry report referenced Customer 96's appearance on the Australian television program referred to above, and concluded that there was no doubt that the money laundered by

Customer 96 through the Australian casino came from the proceeds of criminal activity by a known international drug trafficking syndicate.

- h. Star Sydney did not have adequate reason to believe that Customer 96's source of wealth or source of funds was sufficient to explain the gambling services (tables 1 and 3, s6 of the Act) received by Customer 96 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney recorded Customer 96's occupation as 'Businessman – Import'.

At all material times, Star Sydney was aware that:

- a. Customer 96 was a convicted money launderer who had laundered money derived from drug importations through another Australian casino; and
- b. Customer 96 had been permanently banned from his previous occupation of providing financial advice.

In January 2017, Star purported to restrict Customer 96's access to private gaming rooms, unless he could provide occupation and source of wealth information.

Despite this, Star Sydney failed to obtain any further information concerning Customer 96's source of wealth or source of funds during the time that Customer 96 was a customer.

See particulars to paragraphs 2371.f, 2371.g, and 2379.c.

Star Sydney's determination of the ML/TF risks posed by Customer 96

- 2372. On and from 25 November 2016, Customer 96 was rated by Star Sydney as a high risk customer for the purpose of the Act and Rules.

Particulars

On 25 November 2016, Customer 96 was rated critical, being high for the purpose of the Act and Rules.

- 2373. Nevertheless, for the reasons pleaded below, Star Sydney failed to monitor the high ML/TF risks posed by Customer 96 appropriately on an ongoing basis because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by it with respect to Customer 96.

Monitoring of Customer 96's transactions

- 2374. At no time did Star Sydney apply appropriate transaction monitoring to Customer 96's transactions because:
 - a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 96, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 96 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Sydney provided designated services to Customer 96 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 96's KYC information

- 2375. Star Sydney did not review, update and verify Customer 96's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above

- b. Star Sydney did not appropriately review the nature of Customer 96's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 96's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 96's source of wealth and source of funds were not legitimate: see *Customer 96's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 96's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 96.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

ECDD triggers in respect of Customer 96

2376. Star Sydney was required to apply the ECDD Programs to Customer 96 following any ECDD triggers in respect of Customer 96.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and 15.10 of the Rules.

2377. Customer 96 was determined to be high risk for the purpose of the Act and Rules by 30 November 2016 by Star Sydney.

Particulars

On 25 November 2016, Star Sydney determined that Customer 96 was high risk for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 96* above.

2378. The matter pleaded in paragraph 2377 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

2379. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 96 following an ECDD trigger because:

- a. on each occasion prior 3 November 2020 that Star Sydney conducted ECDD in respect of Customer 96 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 96 and the provision of designated services to Customer 96 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 29 August 2019, Star Sydney conducted ECDD in respect of Customer 96 which identified numerous media reports from December 2013 to July 2019 regarding Customer 96's links to a foreign criminal organisation and his conviction for laundering money through another casino.

On 17 October 2019 and 22 October 2020, Star Sydney conducted ECDD in respect of Customer 96 and identified the same adverse

media reports mentioning Customer 96 as identified on 29 August 2019.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 96's higher ML/TF risks: see *Customer 96's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 96's source of funds or source of wealth: see *Customer 96's risk profile* above.

By reason of the matters set out above, there were real risks that Customer 96's source of wealth and source of funds were not legitimate: see *Customer 96's risk profile* above.

It was not until 23 November 2020 that Star Sydney issued a WOL in respect of Customer 96.

- b. Customer 96 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 23 November 2020 that Customer 96 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 96 and the provision of designated services to Customer 96 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between November 2016 and 23 November 2020, senior management considered the higher ML/TF risks posed by Customer 96 on numerous occasions:

Senior management consideration in late 2016

By late December 2016, the Group General Counsel and Company Secretary was aware that:

- a. in November 2013, Customer 96 pleaded guilty to money laundering, and was sentenced to 2 years and 3 months imprisonment;
- b. Customer 96 was permanently banned from providing financial services and engaging in credit activity from June 2014; and
- c. Customer 96's risk rating would be raised to critical.

On 29 December 2016, the Group General Counsel and Company Secretary asked the Star Sydney AML/CTF Administrator to confirm with the VIP team whether Star Sydney had occupation and source of funds information on file for Customer 96, and, if not, to carry out customer due diligence for that information. There is no evidence that any steps were taken to obtain Customer 96's occupation or source of funds information.

Senior management consideration in 2017

In January and February 2017, Customer 96 was discussed at JRAMMs.

- a. On 18 January 2017, JRAM noted:
 - i. Customer 96's conviction for money laundering in 2013;
 - ii. that Customer 96's risk had been raised to critical;
 - iii. that Customer 96 would no longer be allowed into private gaming room areas without providing occupation and source of wealth information; and
 - iv. that Customer 96's wife was also raised to high risk (previously being medium for the purpose of the Act and Rules) due to concerns that she may be involved with Customer 96 and money laundering.
- b. On 16 February 2017, the same information in relation to Customer 96 was discussed at a JRAM. JRAM determined that no action was required.

Senior management consideration in 2019

On 15 August 2019, the Group General Counsel and Company Secretary presented a paper to the SEG Board in relation to the recent adverse media in relation to another Australian casino's links to foreign organised crime groups. The Board Paper noted that Customer 96's access to private gaming rooms had been revoked in February 2017 that Customer 96 had been identified by JRAM.

Between August 2019 and 23 November 2020, Customer 96 was discussed at 13 JRAMs and 12 PAMMs, including:

- a. on 15 August 2019, JRAM and PAMM both noted that Customer 96 was mentioned in recent adverse media in relation to another casino's links to foreign organised crime groups. Media reports identified Customer 96 as having been hired by an organised crime, and as having laundered almost \$1,000,000 through another casino. PAMM noted Customer 96's occupation to be 'Businessman – Import';
- b. in September and October 2019, at meetings of JRAM, the Group Investigations Manager noted adverse media concerning

Customer 96 and his money laundering at another casino. Meeting minutes recorded that Customer 96 would be maintained on the JRAM list as a 'watch and brief' in relation to adverse media coverage regarding junkets at another casino;

- c. in September, October, November 2019, PAMM noted the adverse media concerning Customer 96, referred to above;
- d. in November 2019, JRAM noted that Customer 96 would be retained on the JRAM list as a 'watch and brief' until a risk assessment in relation to a junket (with which Customer 96 had been associated in media reports) was complete;
- e. in December 2019, JRAM and PAMM both noted that Customer 96 had been placed on a banned list for all private gaming rooms in November 2019;

f. In December 2019, JRAM noted that:

- i. Group Investigations Manager commented that adverse media reports concerning junkets at another Australian casino (in which Customer 96 was mentioned) were 'currently media allegations only'; and
- ii. a 'full ECDD' would be undertaken for the junket with which Customer 96 had been associated in media reports.

Senior management consideration in 2020

In January 2020, PAMM and JRAM noted that Star Sydney was considering issuing a WOL in respect of Customer 96. JRAM noted that, due to Customer 96's 'criminal background' there was 'no reason to retain him as a patron of The Star'. Customer 96 was retained as a patron until November 2020.

In February 2020, JRAM noted that Customer 96 would be retained on the discussion list until the conclusion of the Bergin Inquiry.

Between March 2020 and November 2020, PAMM also noted that Customer 96 would remain on the PAMM list until the end of the Bergin Inquiry.

Between March and July 2020, JRAM noted that Star Sydney was 'highly' considering issuing a WOL in respect of Customer 96, but that it considered Star Sydney's risk in relation to Customer 96 to be 'currently managed' because Customer 96 was not attending its property. Star Sydney was closed due to the COVID-19 pandemic restrictions between 23 March 2020 to 1 June 2020.

In August 2020 and September 2020, JRAM noted that Customer 96 would remain in JRAM discussions 'until the outcome of due diligence' was reached.

In October 2020, JRAM noted that the 'outcome of due diligence' in relation to Customer 96 was 'still pending'.

On 23 November 2020, Star Sydney issued a WOL in respect of Customer 96.

Findings in respect of Customer 96 in Star's internal review of high-risk patrons in August 2021

In August 2021, an internal lookback undertaken by Star concluded that it was 'highly surprising' that Customer 96 had not been issued with a WOL during 2016, and that, notwithstanding the broadcast of the Australian television program in July 2019, it took until November 2020 for a WOL to be actioned.

This conclusion took into account the fact that senior management, including JRAM and PAMM, considered Customer 96 on a number of occasions on and from 2016.

On 16 August 2021, in a report addressed to the Chief Legal and Risk Officer and Group Investigations Manager, the Due Diligence Program Manager noted that Customer 96 had demonstrated links to serious and organised crime entities and had a conviction for money laundering that was connected to conduct at another Australian casino.

However, it was not until 23 November 2020 that Star Sydney issued a WOL in respect of Customer 96.

Contravention of s36 of the Act in respect of Customer 96

2380. By reason of the matters pleaded from paragraphs 2368 to 2379 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 96 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2381. By reason of the matters pleaded at paragraph 2380, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 23 November 2020 with respect to Customer 96.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 97

2382. Customer 97 was a customer of Star Sydney during the relevant period. Between 2018 and 2021, Star Sydney recorded turnover exceeding \$860,000 for Customer 97.

Particulars

Customer 97 was a customer of Star Sydney from at least 5 September 2018.

On 11 June 2021, Star Sydney issued a WOL in respect of Customer 97.

2383. Star Sydney provided Customer 97 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 30 November 2020, Star Sydney opened an FMA and SKA for Customer 97 which were closed on 4 February 2022 (item 11, table 3, s6 of the Act).

On 30 November 2020, Star Sydney opened a CWA for Customer 97 which was closed on 11 June 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 97 remitted funds to and from their account (items 31 and 32, table 1, s6 of the Act).

See Customer 97's risk profile below.

2384. At all times from 5 September 2018, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 97.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 97's risk profile

2385. On and from 5 September 2018, Customer 97, and the provision of designated services to Customer 97 by Star Sydney, posed higher ML/TF risks because of the following red flags:
- a. Customer 97 was connected to other customers at Star Sydney, including players who posed higher ML/TF risks and who Star Sydney considered had acted suspiciously such as Customer 90;

Particulars

Customer 97 was a known associate of Customer 90.

By at least 24 February 2017, Customer 90 had been identified by the Star Investigations team as a person who raised extreme money laundering concerns together with concerns about the legitimacy of his source of funds.

See Customer 90's risk profile.

- b. Customer 97 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$862,691 for Customer 97;

Particulars

See paragraph 752 above.

In 2018, Customer 97's individual rated turnover was \$6,852.

In 2019, Customer 97's individual rated turnover was \$8,033.

In 2020, despite the COVID-19 pandemic closures, Customer 97's turnover escalated.

In 2020, Customer 97's individual rated turnover escalated to \$184,263.

In 2021, Customer 97's individual rated turnover escalated to \$663,543.

- c. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 97 by remitting large amounts of money within the casino environment via his account;

Particulars

See paragraphs 347 to 349 above.

For example, on 23 December 2020, Star Sydney sent a telegraphic transfer of \$3,000 from Customer 97's account to Star Qld.

- d. Customer 97 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 97 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Lakes Salons, Sovereign Harbourside, Vantage, Oasis and Chairman's.

- e. in 2020 and 2021, Customer 97 was the subject of law enforcement enquiries on multiple occasions at Star Sydney;

Particulars

On 1 July 2020, Star Sydney received a request from a law enforcement agency seeking details in respect of Customer 97, which Star Sydney provided.

On 12 October 2020, Star Sydney received a request from a law enforcement agency indicating that Customer 97 may be the subject of an exclusion order in the future.

On 3 June 2021, Star Sydney was informed by a law enforcement agency that Customer 97, together with Customer 90, had been arrested and charged with serious drug related offences.

Shortly afterwards, on 11 June 2021, Star Sydney issued a WOL in respect of Customer 97.

- f. Customer 97 had reportedly been convicted in 2006 of drug importation offences;

Particulars

In June 2021, publicly accessible media articles reported that Customer 97 had been imprisoned in 2006 and released on parole in connection with drug importation offences.

There is no evidence that Star Sydney was aware, or took steps to become aware, of Customer 97's reported conviction.

On 11 June 2021, Star Sydney issued Customer 97 with a WOL.

- g. by June 2021, media reports named Customer 97 as a person arrested and charged as an accomplice, together with Customer 90, in connection with a transnational organised criminal syndicate engaged in a conspiracy to supply cocaine with a potential street value of \$900,000,000; and

Particulars

In June 2021, Star Sydney became aware that Customer 97 had been charged in connection with an alleged plot related to drug smuggling.

Shortly afterwards, on 11 June 2021, Star Sydney issued Customer 97 with a WOL.

- h. Star Sydney did not have adequate reason to believe that Customer 97's source of wealth or source of funds was sufficient to explain the financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 97 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 97 was retired.

Despite this, between 2018 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$862,691 for Customer 97. At no time was Customer 97's stated source of wealth or source of funds commensurate to the designated services provided to him by Star Sydney.

Further, Customer 97 was a known associate of Customer 90, a person who Star Sydney understood raised extreme money laundering concerns together with concerns about the legitimacy of his source of funds.

Star Sydney's determination of the ML/TF risks posed by Customer 97

2386. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 97 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 97.
- a. On and from mid-2020, Customer 97 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 97's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On 4 June 2021, Customer 97 was rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

Until 4 June 2021, Customer 97 was rated low risk by default, not being high risk for the purpose of the Act and Rules.

On 4 June 2021, Customer 97 was rated very high risk, being high risk for the purpose of the Act and Rules.

On 11 June 2021, Star Sydney issued a WOL in respect of Customer 97.

Monitoring of Customer 97's transactions

2387. At no time did Star Sydney apply appropriate transaction monitoring to Customer 97's transactions because, where Star Sydney conducted any transaction monitoring of transactions involving Customer 97, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 97's KYC information

2388. Star Sydney did not review, update and verify Customer 97's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 97's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 97's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

Star Sydney understood that Customer 97 was retired.

Despite this, between 2018 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$862,691 for Customer 97. At no time was Customer 97's stated source of wealth or source of funds commensurate to the designated services provided to him by Star Sydney.

By reason of the matters set out above, there were real risks that Customer 97's source of wealth and source of funds were not legitimate: see *Customer 97's risk profile*.

On 11 June 2021, Star Sydney issued a WOL in respect of Customer 97.

- d. to the extent that Star Sydney reviewed Customer 97's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 97.

Particulars

See paragraph 155 above.

Section 36(1)(a), (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Customer 97 was a known associate of Customer 90, a person who Star Sydney understood raised extreme money laundering concerns together with concerns about the legitimacy of his source of funds.

From July 2020, Customer 97 was the subject of law enforcement enquiries at Star Sydney.

In June 2021, Star Sydney issued a WOL in respect of Customer 97.

Failure to apply appropriate due diligence suited to Customer 97's high ML/TF risks

2389. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 97 appropriately;

- b. applying appropriate risk-based transaction monitoring to Customer 97; and
- c. reviewing and updating Customer 97's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 97 at a time before the ECDD trigger pleaded below: see *ECDD trigger in respect of Customer 97*.

ECDD triggers in respect of Customer 97

2390. Star Sydney was required to apply the ECDD Programs to Customer 97 following any ECDD triggers in respect of Customer 97.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and 15.10 of the Rules.

2391. Customer 97 was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney.

Particulars

On 4 June 2021, Star Sydney determined that the ML/TF risks posed by Customer 97 were high for the purpose of the Act and Rules: see *Star Sydney's determination of the ML/TF risks posed by Customer 97* above.

2392. The matter pleaded in paragraph 2391 was an ECDD trigger.

Particulars

See paragraph 792, 798 and 799 above.

2393. On 11 June 2021, Star Sydney issued a WOL in respect of Customer 97.

Contravention of s36 of the Act in respect of Customer 97

2394. By reason of the matters pleaded from paragraphs 2382 to 2393 above, on and from 5 September 2018, Star Sydney:

- a. did not monitor Customer 97 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2395. By reason of the matters pleaded at paragraph 2394, Star Sydney contravened s36(1) of the Act on and from 5 September 2018 to 11 June 2021 with respect to Customer 97.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 98

2396. Customer 98 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$130 million for Customer 98.

Particulars

Customer 98 was a customer of Star Sydney from at least 21 June 2014.

On 23 February 2021, Star Sydney issued a WOL in respect of Customer 98.

2397. Star Sydney provided Customer 98 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 23 September 2016, Star Sydney opened an FMA and SKA for Customer 98 which were closed on 26 May 2021 (item 11, table 3, s6 of the Act).

Between 29 June 2015 and 4 September 2018, Star Sydney approved CCFs for Customer 98 on six occasions, ranging from \$20,000 to \$500,000 (item 6, table 1, s6 of the Act).

See Customer 98's risk profile below.

2398. Customer 98 was a customer of Star Qld during the relevant period. Between 2016 and 2021, Star Qld recorded turnover exceeding \$170 million for Customer 98.

Particulars

Customer 98 was a customer of Star Qld from at least 9 August 2012.

On 23 February 2021, Star Qld issued a WOL in respect of Customer 98.

2399. Star Qld provided Customer 98 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 7 September 2012 and 4 August 2017, Star Qld opened FMAs for Customer 98 which were closed on 1 June 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 98 remitted funds to and from his FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 98's risk profile below.

2400. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 98.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 98's risk profile

2401. On and from 30 November 2016, Customer 98, and the provision of designated services to Customer 98 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 98's risk history as at 30 November 2016

a. by 30 November 2016:

- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 98;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 2 June 2015 and 4 June 2015.

The SMRs reported that Customer 98 was involved in several large and suspicious cash transactions: see paragraph 2401.a.vi below.

- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 98;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 17 February 2014.

The SMR reported that Customer 98 was involved in a large and suspicious cash transaction: see paragraph 2401.a.vii below.

- iii. Customer 98 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. By 30 November 2016, Star Sydney recorded high turnover totalling \$27,899,593 for Customer 98;

Particulars

See paragraphs 623 and 752 above.

In 2015, Star Sydney recorded high individual rated turnover totalling \$16,988,993 for Customer 98.

By 30 November 2016, Star Sydney recorded high turnover on individual rebate programs totalling \$10,910,600 for Customer 98.

- iv. Customer 98 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. By 30 November 2016, Star Qld recorded high turnover totalling \$16,067,189 for Customer 98;

Particulars

See paragraphs 623 and 752 above.

In 2015, Star Qld recorded high individual rated turnover totalling \$9,125,789 for Customer 98.

By 30 November 2016, Star Qld recorded high turnover on individual rebate programs totalling \$6,941,400 for Customer 98.

- v. between 29 June 2015 and 28 March 2016, Star Sydney provided Customer 98 with significant amounts of credit upon request, up to limits of \$500,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 29 June 2015, Star Sydney approved a single trip CCF limit of \$500,000 for Customer 98.

On 17 August 2015, Star Sydney senior management, including the General Manager (Credit and Collections), approved a single trip CCF limit of \$100,000 for Customer 98.

On 19 March 2016, Star Sydney senior management, including the Managing Director and CEO, approved a single trip CCF limit of \$125,000 for Customer 98.

On 18 March 2016, Star Sydney senior management, including the General Manager (Credit and Collections), approved a single trip CCF limit of \$75,000 for Customer 98.

- vi. Customer 98 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 9 February 2015 and 14 November 2016, Star Sydney gave the AUSTRAC CEO 17 TTRs detailing incoming payments involving Customer 98 totalling \$776,776 which comprised:

- a. \$532,776 in account deposits; and
- b. \$244,000 in chip exchanges.

Between 28 October 2014 and 5 September 2016, Star Sydney gave the AUSTRAC CEO 24 TTRs detailing outgoing payments involving Customer 98 totalling \$986,106 which comprised:

- a. \$631,320 in account withdrawals;
- b. \$354,786 in chip exchanges.

On 1 June 2015, Customer 98 deposited \$150,000 in cash into his Star Sydney account. The cash comprised \$100 notes with straps from another Australian casino. Star Sydney noted that the deposit was not consistent with his previous history: SMR dated 1 June 2015.

On 3 June 2015, Customer 98 withdrew a large amount of cash from his Star Sydney account and cashed out a large amount of chips. Star Sydney considered that the transactions were supported by his 1 June 2015 deposit of \$150,000 and further play since that deposit: SMR dated 4 June 2015.

- vii. Customer 98 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 24 September 2012 and 3 August 2016, Star Qld gave the AUSTRAC CEO 15 TTRs detailing incoming payments to Customer 98 totalling \$379,100 which comprised:

- a. \$106,600 in account deposits; and
- b. \$272,500 in chip exchanges.

Between 6 July 2012 and 22 August 2016, Star Qld gave the AUSTRAC CEO 18 TTRs detailing outgoing payments from Customer 98 totalling \$586,299 which comprised:

- a. \$311,555 in account withdrawals;
- b. \$254,744 in chip exchanges; and
- c. \$20,000 in other monetary value out.

On 15 February 2014, Customer 98 purchased \$100,000 in chips with cash at Star Qld. Star Qld considered this purchase not to be consistent with Customer 98's previous history and a large amount of cash to carry. Customer 98 did not appear to play with the funds: SMR dated 17 February 2014.

- viii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 98 by remitting large values into and within the casino environment via his account; and

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 1 July 2015 and 19 April 2016, Star Sydney received three telegraphic transfers totalling \$753,000, each of which was made available to Customer 98's account. At least \$500,000 of the funds were transferred for the purpose of redeeming outstanding CCFs.

In March 2016, Star Sydney received at least two telegraphic transfers totalling \$200,000 from another Australian casino, both of which it made available to Customer 98.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 22 December 2015 and 17 May 2016, Star Sydney sent two telegraphic transfers totalling \$32,410 from Customer 98's account to Star Qld.

- ix. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 98 by remitting large amounts of money out of and within the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327.

On 10 March 2016, Star Qld facilitated a telegraphic transfer of \$500,000 from Customer 98's FMA at Star Gold Coast to Customer 98's Australian bank account.

The above transaction was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349.

On 17 April 2016, Star Qld facilitated a telegraphic transfer of \$178,000 from Customer 98's FMA at Star Gold Coast to Star Sydney.

On 15 May 2016, Star Qld received a telegraphic transfer of \$7,410 from Star Sydney, which it made available to Customer 98's FMA at Star Gold Coast.

Customer 98's risk profile from 30 November 2016

- b. Customer 98 was connected to other customers at Star Qld, including persons in respect of whom Star Qld had formed suspicions (such as Customer 84);

Particulars

By July 2018, Star Qld was aware that Customer 98 and Customer 84 were involved together in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose: see paragraph 2401.g below.

By July 2018:

- a. Star Qld had given the AUSTRAC CEO 56 SMRs in respect of Customer 84;
- b. Customer 84 had been the subject of law enforcement enquiries on at least one occasion; and

- c. Star Qld was aware that Customer 84 had been excluded at Star Sydney.

See Customer 84's risk profile.

- c. Customer 98 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high and escalating turnover totalling \$138,201,419 for Customer 98;
- i. between 2016 and 2020, Star Sydney recorded high individual rated turnover totalling \$97,685,465 for Customer 98; and

Particulars

See paragraph 752 above.

In 2016, Customer 98's individual rated turnover escalated to \$71,937,082.

In 2017, Customer 98's individual rated turnover was \$22,118,210.

In 2018, Customer 98's individual rated turnover was \$495,965.

In 2019, Customer 98's individual rated turnover was \$592,520.

In 2020, despite the COVID-19 pandemic closures, Customer 98's individual rated turnover increased.

In 2020, Customer 98's individual rated turnover escalated to \$2,541,688.

- ii. between 2017 and 2019, Star Sydney recorded high and escalating turnover on individual rebate programs totalling \$40,515,954 for Customer 98;

Particulars

See paragraph 623 above.

In 2017, Customer 98's turnover on individual rebate programs was \$8,843,516.

In 2018, Customer 98's turnover on individual rebate programs escalated to \$25,366,424.

In 2019, Customer 98's turnover on individual rebate programs was \$6,306,014.

- d. Customer 98 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high and escalating turnover totalling \$170,865,316 for Customer 98;
- i. between 2016 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$142,571,602 for Customer 98; and

Particulars

See paragraph 752 above.

In 2016, Customer 98's individual rated turnover was \$59,217,287.

In 2017, Customer 98's individual rated turnover was \$13,548,124.

In 2018, Customer 98's individual rated turnover was \$8,269,284.

In 2019, Customer 98's individual rated turnover was \$40,906.

In 2020, despite the COVID-19 pandemic closures, Customer 98's individual rated turnover remained high.

In 2020, Customer 98's individual rated turnover escalated to \$270,618.

In 2021, Customer 98's individual rated turnover significantly escalated to \$61,225,383.

- ii. between 2017 and 2020, Star Qld recorded high and escalating turnover on individual rebate programs totalling \$28,293,714 for Customer 98;

Particulars

See paragraph 623 above.

In 2017, Customer 98's turnover on individual rebate programs was \$5,823,041.

In 2018, Customer 98's turnover on individual rebate programs escalated to \$21,321,472.

In 2019, Customer 98's turnover on individual rebate programs was \$939,250.

In 2020, Customer 98's turnover on individual rated programs was \$209,950.

- e. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 98 by remitting large values into, out of and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327.

Between 7 May 2017 and 12 March 2019, Star Sydney received 23 telegraphic transfers totalling \$433,000, each of which was made available to Customer 98's account. At least \$60,000 of the funds were transferred for the purpose of redeeming outstanding CCFs.

In addition, in June 2017, Customer 98 transferred \$40,000 from another Australian casino to Star Sydney. The funds were made available to Customer 98's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

Between 4 October 2017 and 15 March 2019, Star Sydney sent eight telegraphic transfers totalling \$322,996 from Customer 98's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 17 April 2017, Star Sydney sent a transfer of \$322,996 from Customer 98's account to Star Qld.

Between 28 August 2017 and 28 February 2020, Star Sydney received three transfers totalling \$116,386 from Star Qld, each of which was made available to Customer 98's account.

- f. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 98 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327.

Between 11 February 2017 and 14 February 2020, Star Qld received nine telegraphic transfers totalling \$383,000, each of which was made available to Customer 98's FMA at Star Gold Coast.

Between 4 August 2017 and 17 August 2018, Star Qld received seven telegraphic transfers totalling \$134,000, each of which was made available to Customer 98's FMA at Treasury Brisbane.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

Between 19 November 2017 and 22 September 2019, Star Qld facilitated seven telegraphic transfers totalling \$1,170,525 from Customer 98's FMA at Star Gold Coast to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 17 April 2017, Star Qld received a transfer of \$50,000 from Star Sydney, which it made available to Customer 98's FMA at Star Gold Coast.

On 15 April 2017, Star Qld facilitated a transfer of \$25,000 from Customer 98's FMA at Star Gold Coast to Star Sydney.

On 28 February 2020, Star Qld facilitated a transfer of \$10,000 from Customer 98's FMA at Star Gold Coast to Star Sydney.

- g. Star Qld was aware that Customer 98:
- i. had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and shopping bags at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 29 March 2017 and 19 February 2021, Star Qld gave the AUSTRAC CEO 29 TTRs detailing incoming payments to Customer 98 totalling \$1,570,709 which were comprised of:

- a. \$1,330,509 in account deposits; and
- b. \$240,200 in chip exchanges.

Between 24 April 2017 and 17 February 2021, Star Qld gave the AUSTRAC CEO 51 TTRs detailing outgoing payments from Customer 98 totalling \$1,670,995 which were comprised of:

- a. \$398,933 in account withdrawals;
- b. \$1,122,460 in chip exchanges;
- c. \$12,718 in EGM payouts; and
- d. \$136,884 in other monetary value out.

Large and unusual transactions in 2017

On 23 June 2017, Customer 98 presented a \$100,000 bank cheque and a \$100,000 cheque from another Australian casino at Star Qld. Customer 98 deposited the funds into his FMA and used the funds to gamble on an individual rebate program. At settlement, Customer 98 received \$325,000. On 25 June 2017, Customer 98 used the funds from settlement to repurchase his two cheques. He withdrew the remaining \$136,884 funds in his FMA in cash: SMR dated 28 June 2017.

Large and unusual transactions in 2018

On 1 July 2018, Customer 98 withdrew \$100,000 in cash chips and handed them to Customer 84 at Star Qld. Later that night, he withdrew \$19,500 in cash from his account and put some of the cash into an envelope and the rest into his pockets. He told Star Qld that the cash was for Customer 84 and that it was the third time that he

had given cash to Customer 84 in the past month. On 2 July 2018, Customer 84 approached the Cage with three parcels of cash chips totalling \$60,000, \$10,000 and \$10,000 respectively. Customer 84 stated that he wanted to arrange a telegraphic transfer to his account for that amount. Customer 84 said that he owed \$100,000 to Customer 98, who had called him to ask where the money was. Star Qld reviewed Customer 84's and Customer 98's FMA and telegraphic transfer records, as well as their gaming records, to confirm this statement. Star Qld considered this activity to be suspicious as Customer 84 had been the subject of numerous previous SMRs and Customer 98's relationship with Customer 84 was unknown: SMR dated 10 July 2018.

Large and unusual transactions in 2021

On 8 February 2021, Customer 98 cashed out \$112,500 in premium chips at Star Qld.

On 9 February 2021, Customer 98 deposited \$300,000 in \$100 notes at the Cage into his FMA. He withdrew the funds from his FMA in chips. On 11 February 2021, Customer 98 presented a bag containing \$195,000 in \$100 notes at the Cage. He advised that it contained \$200,000 in cash but did not dispute the counted amount. \$190,000 of the cash was strapped together in bundles using Star Qld straps, and various dates in 2021 were printed on them, while the remaining \$5,000 was loose. Star Qld could not account for the origin of \$100,000 of the cash which Customer 98 supplied. On that day, Customer 98 won approximately \$1,000,000 and took a casino cheque for that amount: SMR dated 12 February 2021.

On 10 February 2021, Customer 98 purchased chips using \$300,000 in cash which comprised \$100 notes with Star Qld straps.

Between 14 February and 18 February 2021, Customer 98 lost a total of \$130,000 during play at the Star Gold Coast. On 15 February 2021, Star Qld issued Customer 98 with a casino cheque for \$1,000,000 which he redeemed later that day: SMR dated 18 February 2021.

On 16 February 2021, Customer 98 arrived with \$114,000 in \$100 notes to purchase chips. The cash was strapped together in bundles using Star Qld straps. Star Qld considered the transaction to be accounted for by cash-outs over the previous three days: SMR dated 18 February 2021.

On 17 February 2021, Customer 98 presented a bag of cash to the Cage at Star Qld. Customer 98 requested premium chips and then walked back to the gaming table before the money had been counted. The Cage counted \$150,000 in cash comprising \$25,000 in \$100 notes and \$125,000 in \$50 notes. \$75,000 of the \$50 notes were presented in a plastic heat-sealed bag. The remainder of the cash

was strapped together in bundles of \$5,000 using rubber bands.
Customer 98 later returned to the cashier and advised that he obtained the cash from Customer 84 with whom he had played the day before. He also advised that Customer 84 owed him another \$100,000: SMR dated 18 February 2021.

- h. designated services provided to Customer 98 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2401.g above.

For example, on 8 February 2021, Customer 98 received seven EGM payouts totalling \$9,509.

- i. Customer 98 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 16 January 2017 and 4 March 2020, Star Sydney gave the AUSTRAC CEO 16 TTRs detailing incoming payments to Customer 98 totalling \$628,000 which were comprised of:

- a. \$543,000 in account deposits; and
- b. \$85,000 in chip exchanges.

Between 7 March 2017 and 5 June 2018, Star Sydney gave the AUSTRAC CEO 22 TTRs detailing outgoing payments from Customer 98 totalling \$762,955 which were comprised of:

- a. \$105,100 in account withdrawals;
- b. \$317,215 in chip exchanges; and
- c. \$340,640 in other monetary value out.

On 4 September 2017, Customer 98 deposited \$160,000 into his Star Sydney FMA. The cash was from a program settlement totalling \$143,503 and a payout of \$20,000 two days prior.

- j. between 11 June 2017 and 4 September 2018, Star Sydney provided Customer 98 with credit upon request, up to limits of \$40,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 11 June 2017, Star Sydney senior management, including the General Manager (VIP Credit & Collections), approved a single trip CCF limit of \$40,000 for Customer 98.

On 4 September 2018, Star Sydney approved a single trip CCF limit of \$20,000 for Customer 98.

- k. in 2021, Customer 98 was the subject of law enforcement enquiries on two occasions at Star;

Particulars

In February 2021, Star Qld contacted a law enforcement agency in connection with Customer 98's gaming activity.

On 8 October 2021, Star Qld received a request for information from a law enforcement agency in respect of Customer 98. Star Qld responded on the same day.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- l. Customer 98 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 98 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Chairman's, Oasis, Springs Salons, Lakes Salons and Harbours Salons.

- m. Customer 98 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 98 had access to private gaming rooms at Star Gold Coast, including Pit 9, the Sovereign Room and the Suite.

Customer 98 had access to private gaming rooms at Star Brisbane, including the Club Conrad, Pit 8, Pit 9, Pit 11, Salon 21, Salon 22 and the Sovereign Room.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 98's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 98 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 98 to be an engineering professional.

Between 2016 and 2021, Customer 98 recorded hundreds of millions of dollars in turnover at Star Sydney and Star Qld.

Customer 98's stated source of wealth and source of funds was not commensurate with his turnover.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 98

2402. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to appropriately identify or assess the ML/TF risks posed by Customer 98 because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 98.
- a. On and from 30 November 2016, Customer 98 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 98's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 98 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

On 4 June 2015, Customer 98 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 23 February 2021, Star Sydney and Star Qld issued a WOL in respect of Customer 98.

On 31 January 2022, Customer 98 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 98's transactions

2403. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 98's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 98, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 98 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Sydney and Star Qld provided designated services to Customer 98 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 98's KYC information

2404. Star Sydney and Star Qld did not review, update and verify Customer 98's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 98's business with Star Sydney and Star Qld, including the nature, extent and purpose of his transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 98's source of funds, including the origin of funds, having regard to the high ML/TF risks;

Particulars

By reason of the matters set out above, there were real risks that Customer 98's source of wealth and source of funds were not legitimate: see *Customer 98's risk profile*.

Star understood Customer 98 to be an engineering professional.

In 2016, Customer 98's turnover escalated very significantly at both Star Sydney and Star Qld. Between 2016 and 2021, Customer 98 recorded hundreds of millions of dollars in turnover at Star Sydney and Star Qld.

Customer 98's stated source of wealth and source of funds was not commensurate with his turnover. Customer 98 transacted using large amounts of cash and cash that appeared suspicious.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 98's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 98.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 98's high ML/TF risks

2405. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 98 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 98; and
 - c. reviewing and updating Customer 98's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 98 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 98*.

2406. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 98 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 98; and
 - c. reviewing and updating Customer 98's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 98 as a high risk customer for the purpose of the Act and Rules at a time before Customer 98 was issued with a WOL at Star Sydney.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.5 of the Rules.

2407. Had Star Sydney rated Customer 98 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 98 at a time before Customer 98 was issued with a WOL at Star Sydney.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 98

2408. Star Qld was required to apply the ECDD Programs to Customer 98 following any ECDD triggers in respect of Customer 98.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2409. Customer 98 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 28 June 2017 and 18 February 2021, Star Qld gave the AUSTRAC CEO four SMRs with respect to Customer 98.

2410. The matter pleaded in paragraph 2409 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2411. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 98 following an ECDD trigger because:

a. at no time did Star Qld apply the ECDD Programs to Customer 98;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

b. Customer 98 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

c. on any occasion prior to 24 February 2021 that Customer 98 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 98 and the provision of designated services to Customer 98, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

After several suspicious cash transactions at Star Gold Coast, in which Star Qld formed suspicions that Customer 98 was engaging in money lending, associated with Customer 84, exhibiting bad behaviour and acting violently on Star Qld premises, Customer 98 was referred to the Star investigations manager in 2018. No further action was taken.

It was not until 24 February 2021 that Star Qld issued a WOL in respect of Customer 98.

Contravention of s36 of the Act in respect of Customer 98

2412. By reason of the matters pleaded from paragraphs 2396 to 2411 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 98 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2413. By reason of the matters pleaded at paragraph 2412, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 24 February 2021 with respect to Customer 98.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2414. By reason of the matters pleaded from paragraphs 2396 to 2411 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 98 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2415. By reason of the matters pleaded at paragraph 2414, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 24 February 2021 with respect to Customer 98.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 99

2416. Customer 99 was a customer of Star Qld during the relevant period. In 2021, Star Qld recorded turnover exceeding \$3 million for Customer 99.

Particulars

Customer 99 was a customer of Star Qld from at least 8 October 2020.

On 25 October 2021, Star Qld issued a WOL in respect of Customer 99 at the direction of the Star AML team for 'undesirable behaviour'.

2417. Star Qld provided Customer 99 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 20 October 2021, Star Qld opened an FMA for Customer 99, which remains open (item 11, table 3, s6 of the Act).

See *Customer 99's risk profile* below.

2418. At all times from 8 October 2020, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 99.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 99's risk profile

2419. On and from 8 October 2020, Customer 99, and the provision of designated services to Customer 99 by Star Qld, posed higher ML/TF risks because of the following red flags:
- a. Customer 99 was connected to other customers at Star Qld, who Star Qld considered had acted suspiciously, such as Person 27 and Person 29;

Particulars

See particulars to paragraph 2419.e.

Between 26 August 2021 and 8 September 2021, Star Qld gave the AUSTRAC CEO three SMRs where it reported that Customer 99 and his two associates, Person 27 and Person 29, were exchanging \$50 notes for \$100 notes.

- b. Customer 99 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. In 2021, Star Qld recorded individual rated turnover totalling \$3,190,976 for Customer 99;

Particulars

On 9 February 2021, Star Qld identified that Customer 99 had lost \$98,693 since 13 January 2021.

On 7 April 2021, Star Qld recorded that Customer 99 had lost \$42,511 since 11 March 2021. Star Qld considered the losses to be large and the source of Customer 99's cash to be unusual.

- c. designated services provided to Customer 99 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

Between 9 October 2020 and 30 September 2021, Star Qld gave the AUSTRAC CEO 56 TTRs detailing EGM payouts made to Customer 99 totalling \$1,162,923.

- d. Customer 99 transacted using large amounts of cash at Star Qld;

Particulars

TTRs

Between 26 October 2020 and 16 October 2021, Star Qld gave the AUSTRAC CEO 27 TTRs totalling \$283,100 in respect of Customer 99, including:

- a. three TTRs detailing account deposits totalling \$30,000;
 - b. one TTR detailing a cheque cashing transaction totalling \$19,600;
 - c. two TTRs detailing chip and cash exchanges totalling \$20,000;
and
 - d. 21 TTRs detailing other monetary values in totalling \$213,500.
- e. Customer 99 engaged in a number of suspicious cash transactions in a short period of time indicative of a number of ML/TF typologies and vulnerabilities, including refining and structuring;

Particulars

See paragraph 25 above.

Between February 2021 and September 2021, Star Qld identified transactions involving Customer 99 indicative of the ML/TF typologies of refining and structuring.

- a. On 9 February 2021, Customer 99 exchanged \$3,550 in \$50 and \$20 notes for \$100 notes at Star Gold Coast. Star Qld conducted a review of Customer 99's play, which indicated that all of his play was on machines. Customer 99 had played for nearly two and a half hours and recorded a loss of \$18,262.
- b. On 17 February 2021, Customer 99 exchanged \$4,000 in \$50 notes for \$100 notes at Star Gold Coast. Shortly after, he returned and exchanged \$3,900 in \$50 notes and \$1,000 in \$20 notes for \$100 notes. Customer 99's play on machines supported the use of funds, however Star Qld considered it was a large amount of \$20 notes to have. On 20 February 2021, Customer 99 exchanged \$6,300 in \$50 notes for \$100 notes at Star Gold Coast. Customer 99 had played for less than an hour and recorded a loss of \$8,064.
- c. On 25 February 2021, Customer 99 exchanged \$5,700 in \$50 notes for \$100 notes at Star Gold Coast. Star Gold Coast conducted a review of Customer 99's play on two machines that he used prior to this exchange. The review noted that Customer 99 had signed a guest in to the private gaming room, and that the associate may have continued playing on one of the machines whilst Customer 99 made the cash exchange. Customer 99 lost over \$8,000 during this visit.

- d. On 27 February 2021, Customer 99 exchanged a total of \$9,880 in \$20 and \$50 notes for \$100 notes at Star Gold Coast. Later that day he exchanged \$7,700 in \$50 notes for \$100 notes. Star Gold Coast conducted a review of Customer 99's play and found he had lost around \$31,700 during that day. Star Gold Coast noted that Customer 99 appeared to have access to a frequent supply of small denomination notes.
- e. On 11 March 2021, Customer 99 exchanged \$7,850 in \$50 notes for \$100 notes at Star Gold Coast. Customer 99 played for over two and a half hours and lost \$16,205.
- f. On 18 March 2021, Customer 99 exchanged \$5,000 in \$50 notes for \$100 notes at Star Gold Coast. Prior to the cash exchange, Customer 99 had played for over one and a half hours and lost \$10,555. Star Gold Coast sent Customer 99's details to its investigations team and noted he should be monitored.
- g. On 2 April 2021, Customer 99 exchanged \$6,100 in \$50 notes for \$100 notes at Star Gold Coast. Customer 99 played for less than an hour and lost \$6,649.
- h. On 29 April 2021, Customer 99 exchanged \$9,300 in \$50 notes for \$100 notes at Star Gold Coast. Star Gold Coast conducted a review of Customer 99's play, which showed he lost all of these funds. Star Gold Coast noted that Customer 99 had a history of having a large supply of \$50 notes.
- i. On 5 April 2021, Customer 99 exchanged \$7,000 in \$50 notes for \$100 notes at Star Gold Coast.
- j. On 11 June 2021, Customer 99 had a large gaming machine payout of \$35,043 at Star Gold Coast. This cash was paid to Customer 99 in \$100 notes. On 15 June 2021, Customer 99 presented at Star Gold Coast on four separate occasions with small denomination notes totalling \$21,600 and exchanged them for \$100 notes. Star Gold Coast considered it unusual that Customer 99 presented such a large amount of small denomination notes after such a large payout in \$100 notes, and noted that each exchange request was under reporting thresholds.
- k. On 19 June 2021, Customer 99 exchanged \$9,000 in \$50 notes for \$100 notes at Star Gold Coast. On 21 June 2021, Customer 99 again exchanged \$9,000 in \$50 notes for \$100 notes at Star Gold Coast. Customer 99 recorded no play after the second exchange. Star Coast considered that following the recorded win, the second exchange was an odd transaction to make.
- l. On 3 July 2021, Customer 99 attended a cashier at Star Gold Coast with \$11,050 in cash, comprising \$10,100 in \$50 notes, \$40 in \$20 notes, \$640 in \$10 notes and \$270 in \$5 notes.

Customer 99 said the \$50 notes came from the bank and the smaller denominations came from his savings. Shortly after, Customer 99 returned with an EGM ticket for \$11,260 and was paid in \$100 notes. Later that day Customer 99 returned to Star Gold Coast to exchange \$9,800 in \$50 notes for \$100 notes. Star Gold Coast considered this was very unusual considering the amount of cash Customer 99 would have had from his previous exchanges.

- m. On 23 August 2021, Customer 99 exchanged \$6,300 in \$50 notes for \$100 notes at Star Gold Coast. Star Gold Coast noted that two of Customer 99's known associates, Person 27 and Person 29, made similar exchanges at Star Gold Coast around the same time. Star Gold Coast considered that Customer 99, Person 27 and Person 29 may have been working together to split up the \$50 notes to avoid reporting thresholds.
- n. On 31 August 2021, Star Gold Coast identified that:
 - i. Customer 99 and two other Star Qld customers, Person 27 and Person 29, appeared to be known associates and were at the casino property at around the same time;
 - ii. over four separate occasions on 28 and 29 August 2021, Customer 99, Person 27 and Person 29 exchanged a total of \$21,000 in \$50 notes for \$100 notes at Star Gold Coast;
 - iii. shortly after Customer 99 exchanged money on 29 August 2021, he cashed out \$9,000 an EGM ticket, which was paid in \$100 notes; and
- o. on 31 August 2021, one of Customer 99's associates, Person 27, deposited \$9,450 in \$50 notes to his CWA.
- p. On 6 September 2021, Customer 99 was unable to provide Star Gold Coast with any photo identification when he tried to cash out an EGM ticket. Customer 99 refused to take his winnings in the form of a cheque. He later returned with alternative identification and was paid out \$15,011 in cash. The Star Gold Coast staff member serving Customer 99 noted that he was only interested in getting cash for his EGM ticket. Shortly after, Customer 99 exchanged \$10,000 in \$50 notes for \$100 notes. Star Gold Coast considered this suspicious, as it had just paid Customer 99 over \$15,000 in \$100 notes.
- q. On 8 September 2021, Customer 99 exchanged another \$10,000 in \$50 notes for \$100 notes at Star Gold Coast. Shortly after, he exchanged \$2,900 in \$50 notes for \$100 notes. Later that night Customer 99 was observed with a known associate of his, Person 29. Person 29 cashed out an EGM ticket for \$5,000 and handed

over another \$7,700 in cash in exchange for chips. Star Gold Coast staff were concerned about the identification that Person 29 provided, and a law enforcement agency indicated that the identification provided may not be genuine. Customer 99 and Person 29 were also observed with another Star Qld customer, who exchanged \$5,000 in \$50 notes for \$100 notes. A second known associate of Customer 99, Person 27, exchanged \$4,900 in \$50 notes for \$100 notes that evening. Star Gold Coast observed that these customers continued to have access to large amounts of \$50 notes.

- r. On 12 September 2021, Customer 99 and another Star Qld customer each exchanged \$50 notes for \$100 notes at Star Gold Coast. Star Gold Coast understood that Customer 99 and the other patron were known associates of each other. Customer 99 exchanged \$5,200 of mixed smaller denomination notes for \$100 notes at the main gaming floor cashier. Customer 99's associate exchanged \$9,300 in \$50 notes for \$100 notes at the private gaming room cashier, which he only gained entry to as a guest of Customer 99. Star Gold Coast reviewed the recorded play and suspected that the cash supplied by Customer 99's associate may have belonged to Customer 99 and that the pair had conducted these transactions in this manner to avoid reporting thresholds or questions.
- s. On 21 September 2021, Customer 99 exchanged \$6,350 in \$50 notes for \$100 notes at the main gaming floor cashier at Star Gold Coast. Star Gold Coast conducted a review of Customer 99's play, which showed a \$100 bet on a machine and no other play recorded. Star Gold Coast considered it very unusual for Customer 99 not to have his play recorded. Star Gold Coast also considered it unusual for Customer 99 to conduct such a transaction on the main gaming floor, as he would usually do this at a private gaming room cashier.
- f. throughout 2021, law enforcement agencies communicated with Star Qld regarding Customer 99's activity at Star Qld;

Particulars

In 2021, law enforcement agencies informed Star Qld that Customer 99:

- a. was an associate of an individual known to be involved in dealing drugs; and
- b. was a person of interest.

In August 2021, the law enforcement agency informed Star Qld issuing Customer 99 with a WOL would not interfere with its investigation into Customer 99.

On 25 October 2021, Star Qld issued a WOL in respect of Customer 99.

- g. Customer 99 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

From at least 25 February 2021, Customer 99 had access to a private gaming room for machine players at Star Qld and signed guests into the private gaming room.

- h. Star Qld did not have adequate reason to believe that Customer 99's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 99 at Star Qld.

Particulars

See paragraph 808 above.

By at least 17 February 2021, Star Qld was aware that a law enforcement agency was interested in Customer 99's source of cash.

Between April 2021 and August 2021, on at least five separate occasions, Star Qld recorded comments to the effect that Customer 99's source of funds was not known. At the same time, Star Qld was aware that Customer 99 was a person of interest to law enforcement and associated with a person known to deal drugs.

During this period, at Star Qld, Customer 99:

- a. engaged in transactions indicative of the ML/TF typology of refining or structuring;
- b. was involved in 27 threshold transactions totalling \$283,100; and
- c. recorded turnover exceeding \$3 million.

Star Qld recorded Customer 99's occupation as a business owner. However, ECDD conducted on 8 September 2021 found that there were no records to verify this and Customer 99's source of wealth and source funds was therefore unknown.

Despite these concerns, Star Qld did not take appropriate steps to verify Customer 99's source of wealth and source of funds: see *Customer 99's risk profile* above.

Star Qld's determination of the ML/TF risks posed by Customer 99

2420. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 99 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 99.

2421. At no time was Customer 99 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 9 February 2021, Customer 99 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 19 February 2021, Customer 99 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 99's transactions

2422. At no time did Star Qld apply appropriate transaction monitoring to Customer 99's transactions because, where Star Qld conducted any transaction monitoring of transactions involving Customer 99, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 99's KYC information

2423. Star Qld did not review, update and verify Customer 99's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 99's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 99's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 99's source of wealth and source of funds were not legitimate: see *Customer 99's risk profile*.

- d. to the extent that Star Qld reviewed Customer 99's KYC information on and from 8 October 2020 to October 2021, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 99.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 99's high ML/TF risks

2424. Had Star Qld conducted ongoing customer due diligence on and from 8 October 2020 to October 2021 by:
- a. identifying and assessing the ML/TF risks posed by Customer 99 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 99; and
 - c. reviewing and updating Customer 99's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 99 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 99*.

ECDD triggers in respect of Customer 99

2425. Star Qld was required to apply the ECDD Programs to Customer 99 following any ECDD triggers in respect of Customer 99.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2426. Customer 99 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 10 February 2021 and 23 September 2021, Star Qld gave the AUSTRAC CEO 14 SMRs with respect to Customer 99.

2427. The matter pleaded in paragraph 2426 is an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2428. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 99 following an ECDD trigger because:
- a. on each occasion prior to October 2021 that Star Qld conducted ECDD in respect of Customer 99 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 99, the provision of designated services to Customer 99 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 1 May 2021, 18 June 2021, 24 June 2021, 5 July 2021, 1 September 2021, 8 September 2021, 18 September 2021 and 24 September 2021 Star Qld conducted ECDD in respect of Customer 99.

On 8 September 2021, the ECDD screening identified that:

- a. Customer 99's source of wealth had not been accurately established. Customer 99's listed occupation was a Business Owner, but a company search returned no results; and
- b. Customer 99's accounts had been reviewed for potential suspicious activity, and it was noted that he had an FMA at Star Qld.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 99's higher ML/TF risks, including the multiple cash transactions engaged in by Customer 99 indicative of ML/TF typologies and Customer 99's high individual rated gaming activity and losses: see *Customer 99's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 99's source of funds or source of wealth, despite Star Qld being aware from at least February 2021 that a law enforcement agency was interested in Customer 99's supply of cash.

By reason of the matters set out above, there were real risks that Customer 99's source of wealth and source of funds were not legitimate: see *Customer 99's risk profile*.

By 13 August 2021, Star Qld had been advised by the law enforcement agency that issuing Customer 99 with a WOL would not interfere with the agency's investigation.

On 25 October 2021, Star Qld issued a WOL in respect of Customer 99.

At no time was Customer 99 rated high risk for the purpose of the Act and Rules by Star Qld: see *Star Qld's determination of the ML/TF risks posed by Customer 99* above.

- b. Customer 99 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on each occasion prior to October 2021 that Customer 99 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 99 and the provision of designated service to Customer 99 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

On 1 May 2021, 18 June 2021, 24 June 2021, 5 July 2021 and 1 September 2021, the Due Diligence Program Manager determined to maintain Star Qld's relationship with Customer 99.

On 8 September 2021, the Due Diligence Program Manager escalated the decision to maintain a customer relationship to the AML/CTF Compliance Officer, which was not reviewed until 25 October 2021, by which time Customer 99 had already been issued with a WOL by Star Qld.

Between August 2021 and October 2021, Customer 99 was discussed at PAMMs and JRAMs.

In August 2021, the PAMM was made aware that the issuance of a WOL would not interfere with the law enforcement agency's investigation into Customer 99.

On 26 August 2021, a meeting of the JRAM recommended issuing a WOL in respect of Customer 99.

On 9 September 2021, the PAMM agreed to issue a groupwide WOL to Customer 99.

On 23 September 2021, the JRAM agreed with the recommendation to issue a WOL in respect of Customer 99, and an action item was recorded to send the matter to Investigations to issue the WOL.

On 14 October 2021, the PAMM made a decision to follow up the WOL that was to be issued in respect of Customer 99.

However it was not until 25 October 2021 that Star Qld issued a WOL in respect of Customer 99.

Contravention of s36 of the Act in respect of Customer 99

2429. By reason of the matters pleaded from paragraphs 2416 to 2428 above, on and from 8 October 2020, Star Qld:
- did not monitor Customer 99 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2430. By reason of the matters pleaded at paragraph 2429, Star Qld contravened s36(1) of the Act on and from 8 October 2020 to 25 October 2021 with respect to Customer 99.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 100

2431. Customer 100 was a customer of Star Sydney during the relevant period. Between 2017 and 2020, Star Sydney recorded turnover exceeding \$260 million for Customer 100.

Particulars

Customer 100 was a customer of Star Sydney from at least 2 December 2017.

On 28 July 2020, Star Sydney issued a WOL in respect of Customer 100 at the direction of the Star AML team.

2432. Star Sydney provided Customer 100 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 7 August 2018, Star Sydney opened an FMA and SKA for Customer 100 which were closed on 28 July 2020 (item 11, table 3, s6 of the Act).

Between 18 July 2018 and 28 May 2019, Star Sydney approved CCFs for Customer 100 on 12 occasions ranging from \$500,000 to \$3,100,000 (item 6, table 1, s6 of the Act).

While a customer of Star Sydney, Customer 100 remitted funds to and from their account (items 31 and 32, table 1, s6 of the Act).

See Customer 100's risk profile below.

2433. Customer 100 was a customer of Star Qld during the relevant period. Between 2018 and 2019, Star Qld recorded turnover exceeding \$53 million for Customer 100.

Particulars

Customer 100 was a customer of Star Qld from at least 22 August 2018.

On 29 July 2020, Star Qld issued a WOL in respect of Customer 100 at the direction of the Star AML team.

2434. Star Qld provided Customer 100 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 17 August 2018, Star Qld opened an FMA for Customer 100 which was closed on 15 September 2020 (item 11, table 3, s6 of the Act).

Between 16 August 2018 and 18 April 2019, Star Qld approved CCFs for Customer 100 on seven occasions ranging from \$500,000 to \$3,000,000 (item 6, table 1, s6 of the Act).

While a customer of Star Qld, Customer 100 remitted funds to and from their account (items 31 and 32, table 1, s6 of the Act).

See Customer 100's risk profile below.

2435. At all times from 2 December 2017 in respect of Star Sydney and 22 August 2018 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 100.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 100's risk profile

2436. On and from 2 December 2017 in respect of Star Sydney and 22 August 2018 in respect of Star Qld, Customer 100, and the provision of designated services to Customer 100 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:
- a. Customer 100 was connected to other customers at Star Sydney, including players who posed higher ML/TF risks such as Customer 102, Customer 101, Customer 114 and players who Star Sydney considered had acted suspiciously;

Particulars

By July 2018, Star Sydney understood that Customer 102, a former employee of Star Sydney, worked for Customer 100. Star Sydney received reports in March 2018 that Customer 102 was observed gambling at another Australian casino with a significantly increased available funds and \$7.8 million in turnover, associating with persons including Customer 100. Star Sydney understood that Customer 100 'provided funds via transfers, front money and comps to help facilitate Customer 102's stays' at the other Australian casino.

Customer 101 and Customer 100 were business partners. By January 2019, Star Sydney was aware that Customer 100 was involved in recurring private high stakes poker games hosted by Star Sydney involving Customer 100, Customer 114, Customer 102 and other players in respect of whom Star Sydney had formed suspicions. Star Sydney noted that Customer 102 worked for Customer 100, and that Customer 102 has been known to facilitate the pooling together of front money for the poker games, including depositing of bags of cash.

On 14 February 2019, another Star Sydney customer exchanged \$150,000 in chips for cash at Star Sydney. The customer was known to be an associate of Customer 100. On 13 February 2019, the customer recorded a turnover of \$238,000 with losses of \$11,000: SMR dated 15 February 2019. Star Sydney noted that it appeared that the Star Sydney customer was performing the transaction on Customer 100's behalf. On 21 February 2019, Star Sydney observed that the Star Sydney customer had email addresses recorded for him which were in company domains related to Customer 100's company.

On 28 May 2019, Customer 102 presented \$110,000 in cash to purchase chips at Star Sydney. The cash was provided to Customer 102 by his associate. The cash was comprised of \$50 notes wrapped in elastic bands and carried in a cardboard bag. After the transaction, Customer 102 met with Customer 100 and handed him the purchased chips. Star Sydney considered the delivery of chips through multiple people to be unusual: SMR dated 29 May 2019.

On 29 May 2019, Customer 100 was playing poker with two other Star Sydney customers. Star Sydney was unaware of any relationship between these customers. One of the customers carried a light grey plastic bag containing \$150,000 in cash. The cash was comprised of \$50 and \$100 notes held in \$5,000 and \$10,000 bundles bound with elastic bands and Star casino straps. A Star assistant gaming manager requested that \$100,000 be deposited into Customer 100's FMA. The remaining \$50,000 cash was returned to the customer. Customer 100 then withdrew \$100,000 in chips from his FMA. Customer 100 provided the chips to the second customer. Star Sydney considered the involvement of multiple people in this transaction to be unusual, particularly as the relationship between the players was unknown: SMR dated 30 May 2019.

- b. Customer 100 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2017 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$268,247,939 for Customer 100;

Particulars

See paragraph 752 above.

In 2017, Customer 100's individual rated turnover was \$278,482.

In 2018, Customer 100's individual rated turnover escalated to \$59,377,000.

In 2019, Customer 100's individual rated turnover escalated to \$199,487,186.

In 2020, when COVID-19 pandemic closures commenced, Customer 100's individual rated gaming activity declined but remained high.

In 2020, Customer 100's individual rated turnover was \$9,105,271.

- c. Customer 100 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2018 and 2019, Star Qld recorded high and escalating turnover totalling \$53,376,496 for Customer 100;
- i. Between 2018 and 2019, Star Qld recorded high individual rated turnover totalling \$23,127,121 for Customer 100; and

Particulars

See paragraph 752 above.

In 2018, Customer 100's individual rated turnover was \$12,305,291.

In 2019, Customer 100's individual rated turnover was \$10,821,830.

- ii. between 2018 and 2019, Star Qld recorded high and escalating turnover on individual rebate programs totalling \$30,249,375 for Customer 100, with wins of \$1,394,000;

Particulars

See paragraph 623 above.

In 2018, Customer 100's turnover on individual rebate programs was \$10,342,800 with wins of \$1,015,000.

In 2019, Customer 100's turnover on individual rebate programs was \$19,906,575 with wins of \$379,000.

- d. designated services provided to Customer 100 included EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

For example, on 4 December 2018, Star Sydney gave the AUSTRAC CEO one TTR detailing EGM payouts to Customer 100 totalling \$40,000.

- e. Customer 100 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes and in bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Large and suspicious cash transactions in 2017

Between 4 and 5 December 2017, Star Sydney gave the AUSTRAC CEO three TTRs detailing the following transactions involving Customer 100 totalling \$32,806:

- a. one chip cash out of \$10,000;
- b. one sale of foreign currency totalling \$16,806; and
- c. one chip purchase of \$15,000.

Large and suspicious cash transactions in 2018

Between 26 June 2018 and 4 December 2018, Star Sydney gave the AUSTRAC CEO 12 TTRs detailing transactions involving Customer 100 totalling \$481,355, including:

- a. six chip cash outs totalling \$351,355;
- b. four chip purchases totalling \$70,000;
- c. one account withdrawal of \$20,000; and
- d. one EGM payout to Customer 100 totalling \$40,000.

See particulars to paragraph 2436.k.

Large and suspicious cash transactions in 2019

Between 20 February 2019 and 30 May 2019, Star Sydney gave the AUSTRAC CEO four TTRs detailing transactions made by Customer 100 totalling \$1,460,000, including:

- a. three deposits totalling \$1,150,000; and
- b. one chip purchase totalling \$310,000.

On 16 February 2019, Customer 100 presented \$310,000 in cash at Star Sydney to purchase chips. The cash was presented in \$50 notes (\$294,300) and \$100 notes (\$15,700) and was carried in a pink bag. Customer 100 proceeded to play poker after purchasing the chips: SMR dated 19 February 2019.

On 17 April 2019, Customer 100 presented \$1,000,000 at Star Sydney to redeem a cheque. The cash was carried in two green shopping bags and comprised \$100 notes (\$76,100), \$50 notes (\$901,700), \$20 notes (\$21,220), \$10 notes (\$890) and \$5 notes (\$90). Star Sydney identified that the notes were in good condition. Star Sydney considered the cash presented to be an unusually large amount: SMR dated 18 April 2019. Star Sydney later reviewed surveillance camera footage and determined that the \$1,000,000 cash was delivered to Customer 100 by another Star Sydney customer prior to Customer 100 presenting it.

See particulars to paragraph 2436.a.

Large and suspicious cash transactions in 2020

On 10 February 2020 and Star Sydney gave the AUSTRAC CEO three TTRs detailing three chip purchases made by Customer 100 totalling \$160,000.

On 9 February 2020 Customer 100 presented \$100,000 cash at Star Sydney to purchase chips. The cash was carried in a black Star branded paper bag. The cash comprised of \$50 notes (\$95,000) and \$100 notes (\$5,000). Customer 100 advised Star Sydney staff that the source of the cash was 'from his home.' Customer 100 did not

provide any further explanation. By 11 February 2020, Star Sydney had no record of gaming activity from Customer 100 and the chips had not been returned: SMR dated 11 February 2020.

In June 2020, Customer 100 provided a cheque to the Star for \$2,800,000, which was drawn down on one of his companies, Company 5, to be applied to the payment of an EEIS loan to Customer 5. The cheque was not cashed as Star Sydney needed additional due diligence documentation in relation to Company 5 and Customer 100's authority to present a company cheque for his personal debts, which Customer 100 did not provide.

- f. Customer 100 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

For example, on 14 January 2019, Star Qld gave the AUSTRAC CEO a TTR detailing an account withdrawal made by Customer 100 from Customer 100's betting accounts totalling \$67,097.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 100 by remitting large amounts of money into, out of and within the casino environment via his accounts;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

For example, on 28 May 2019, Star Sydney received \$2,000,000 to repay part of a CCF provided to Customer 100, via a bank transfer. The money was transferred from a bank account that was in the name of Customer 101, Customer 100's business partner.

The above transaction was conducted through the Star Patron account channel.

Remittances into the casino environment

See paragraph 327 above.

Between 7 August 2018 and 16 March 2020, Star Sydney received 20 telegraphic transfers totalling \$10,635,000, each of which was made available to Customer 100.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 28 August 2018 and 9 February 2019, Star Sydney sent four telegraphic transfers, totalling \$2,400,000 from Customer 100's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 5 December 2018, Star Sydney sent a transfer of \$400,000 from Customer 100's account to Star Qld.

On 9 December 2018, Star Sydney received a transfer of \$50,840 from Star Qld, which it made available to Customer 100.

- h. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 100 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

Between 9 December 2018 and 14 January 2019, Star Qld facilitated three transfers totalling \$1,650,840 from Customer 100's FMA at Star Gold Coast to Star Sydney.

On 5 December 2018, Star Qld received a transfer of \$400,000 from Star Sydney, which it made available to Customer 100's FMA at Star Gold Coast.

- i. between 18 July 2018 and 28 May 2019, Star Sydney provided Customer 100 with significant amounts of credit upon request, up to limits of \$3,100,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 18 July 2018, Star Sydney senior management approved a single trip CCF limit of \$500,000 for Customer 100, which was deactivated at the end of the trip.

On 12 November 2018, Star Sydney senior management approved a CCF limit of \$1,000,000 for Customer 100, which was deactivated at the end of the trip.

On 30 November 2018, Star Sydney senior management approved a single trip CCF limit of \$2,000,000 for Customer 100, which was deactivated at the end of the trip.

On 11 December 2018, Star Sydney senior management approved a single trip CCF limit of \$2,300,000 for Customer 100, which was deactivated at the end of the trip.

On 18 December 2018, Star Sydney senior management approved a single trip CCF limit of \$2,500,000 for Customer 100, which was deactivated at the end of the trip.

On 5 March 2019, Star Sydney senior management approved a single trip CCF limit of \$2,000,000 for Customer 100, which was deactivated at the end of the trip. In its justification for approval, Star noted that Customer 100 had a substantial financial background, and was Group CEO of a company that had just purchased an Australian casino and sold a hotel for over for \$54 million.

On 25 March 2019, Star Sydney senior management approved a single trip CCF limit of \$2,500,000 for Customer 100, which was deactivated at the end of the trip.

On 27 March 2019, Star Sydney senior management approved a single trip CCF limit of \$3,000,000 for Customer 100, which was deactivated at the end of the trip. In its justification for approval, Star Sydney senior management noted that:

- a. Customer 100 currently had \$2,500,000 credit outstanding at The Star which was not yet due;
- b. Customer 100 had a matching credit line of \$2,500,000 outstanding at another Australian casino due on 29 March 2019; and
- c. Customer 100 had made over 10 trips at Star Sydney since 2018 and the cheques he had previously provided had cleared.

On 1 April 2019, Star Sydney senior management approved a single trip CCF limit of \$3,100,000 for Customer 100, which was deactivated at the end of the trip. In its justification for approval, Star Sydney noted that:

- a. Customer 100 had transferred \$100,000 to the Star on 31 March 2019 which was pending clearance;
- b. Customer 100 currently had \$3,000,000 credit outstanding at the Star which was not yet due; and
- c. Customer 100 currently had \$3,000,000 credit outstanding at another Australian casino which was due on 29 March 2019.

On 4 April 2019, Star Sydney senior management approved a single trip CCF limit of \$3,000,000 for Customer 100, which was deactivated at the end of the trip. In its justification for approval, Star Sydney noted that:

- a. Customer 100 currently had \$2,500,000 credit outstanding at another Australian casino which was not yet due;

- b. Customer 100 had previously applied for a similar amount of credit at Star Sydney with no payment issues; and
- c. Customer 100 had made several trips with no payment issues.

On 18 April 2019, Star Sydney senior management approved a single trip CCF limit of \$3,000,000 for Customer 100, which was deactivated at the end of the trip. In its justification for approval, Star Sydney management noted that:

- a. Customer 100 currently had \$2,500,000 credit outstanding at Star Sydney which was due on 6 May 2019; and
- b. Customer 100 currently had \$2,000,000 outstanding at another Australian casino which was not due yet.

In respect of the CCF approved on 18 April 2019, Customer 100 sought to repay the amount of \$3,000,000 using a cheque, which bounced. On 25 May 2019, Customer 100 repaid \$100,000 via a telegraphic transfer. On 28 May 2019, Customer 100 repaid \$2,000,000 of the CCF via a bank transfer from an account in the name of Customer 101 (his business associate), and another \$900,000 in chips.

On 28 May 2019, Star Sydney senior management approved a single trip CCF limit of \$2,000,000 for Customer 100, which was deactivated at the end of the trip. In its justification for approval, Star Sydney management noted that Customer 100 had \$2,000,000 outstanding at another Australian casino and was in a dispute with that casino.

- j. between 16 August 2018 and 5 March 2019, Star Qld provided Customer 100 with significant amounts of credit upon request, up to limits of \$3,000,000;

Particulars

See paragraphs 516 to 518 and 552 above.

On 16 August 2018, Star Qld senior management approved a single trip CCF limit of \$500,000 for Customer 100, which was deactivated at the end of the trip.

On 30 November 2018, Star Qld senior management approved a single trip CCF limit of \$2,000,000 for Customer 100, which was deactivated at the end of the trip.

On 18 January 2019, Star Qld senior management approved a single trip CCF limit of \$2,500,000 for Customer 100, which was deactivated at the end of the trip. In its justification for approval, Star Sydney senior management noted that Customer 100 had a substantial financial background, and was Group CEO of a company that had just purchased an Australian casino and just sold a hotel for over for \$54 million. Star Qld derived this information from the website of Customer 100's company, Company 5.

On 5 March 2019, Star Qld senior management approved a single trip CCF limit of \$2,000,000 for Customer 100, which was deactivated at the end of the trip.

- k. Customer 100 engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Sydney, including cashing-in large value chips with no evidence of play;

Particulars

See paragraph 25 above.

For example, on 25 June 2018, Customer 100 exchanged \$100,000 in chips for cash at Star Sydney. Customer 100 did not have any record of gaming with the Star since December 2017. Star Sydney considered that there was no reason for Customer 100 to possess a large amount of chips.

- l. Customer 100 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 100 had access to private gaming rooms at Star Qld, including Pit 8, Salon 66, Sovereign Room and Sovereign Room Cage.

- m. Customer 100 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 100 had access to private gaming rooms at Star Sydney, including Sovereign, Lakes Salons, Harbours Salons, Sovereign Cage, Oasis Cage, Lakes Salon Cage.

- n. between July 2018 and June 2019, Customer 100 was the subject of law enforcement enquiries on eight occasions at Star;

Particulars

Between July 2018 and June 2019, Star Sydney received several requests from a law enforcement agency for information concerning Customer 100. Star Sydney provided responses.

On 12 April 2019, Star Sydney received a request from a different law enforcement agency for information concerning Customer 100 and others involved in a private high stakes poker game.

On 13 May 2019, Star Sydney was informed by law enforcement that cash deposited by Customer 100 was potentially linked to organised crime.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database.

Star Qld had access to the investigations database: see paragraph 49 above.

- o. by 19 July 2020, open source media reports named Customer 100 as the founder of a collapsed business, Company 5, and referred to multiple legal proceedings and judgments against him and Company 5 for the recovery of loans;

Particulars

By 19 July 2020, an open source media article named Customer 100 as the founder of a collapsed business, Company 5, which had been partly placed into administration as of July 2020. The article reported that Customer 100 had judgments against him in 2019 for payments of \$6.2 million and \$5.8 million respectively.

Star Sydney's due diligence records did not contain details of these reports.

- p. by 23 July 2020, Star Sydney was aware of media articles which reported that Customer 100 was being pursued by investors for at least \$70,000,000 in relation to his collapsed business, Company 5; and

Particulars

An open source media article published on 21 July 2020 reported that Customer 100 was being pursued by investors for at least \$70,000,000 in relation to his collapsed business, Company 5, and that his business had represented that a specific person was its chairman, when in fact that person had never been appointed as a chairman or director of Company 5.

- q. Star Sydney and Star Qld did not have adequate reason to believe that Customer 100's source of wealth and source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 100 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney recorded Customer 100's occupation as a company director and hotel owner, and also as 'junket promoter / operator'.

Star Sydney and Star Qld frequently provided Customer 100 with substantial amounts of credit, totalling \$26,900,000 at Star Sydney and \$7,000,000 at Star Qld.

Between 2017 and 2020, Customer 100 recorded turnover exceeding \$260 million at Star Sydney and \$53 million at Star Qld.

By May 2019, Star Sydney was aware that cash deposited by Customer 100 was potentially linked to organised crime.

In June 2020, Customer 100 attempted to repay an EEIS loan held by Customer 5 by using a cheque drawn on his company's bank account, Company 5.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 100

2437. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 100 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 100.

- a. By early 2019, Customer 100 should have been recognised as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 100's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 100 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 27 August 2018, Customer 100's rating was changed from low to medium, neither of which were high risk for the purpose of the Act and Rules.

On 26 June 2020, Customer 100 was rated high, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 100's transactions

2438. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 100's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 100, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 100 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 100's of KYC information

2439. Star Sydney and Star Qld did not review, update and verify Customer 100's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 100's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 100's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 100's source of wealth and source of funds were not legitimate: see *Customer 100's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 100's KYC information on and from 2 December 2017 in respect of Star Sydney and 22 August 2018 in respect of Star Qld, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 100.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 100's high ML/TF risks

2440. Had Star Sydney conducted ongoing customer due diligence on and from 2 December 2017 in respect of Star Sydney and on and from 22 August 2018 in respect of Star Qld by:
- a. identifying and assessing the ML/TF risks posed by Customer 100 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 100; and
 - c. reviewing and updating Customer 100's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 100 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 100*.

2441. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by
- a. identifying and assessing the ML/TF risks posed by Customer 100 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 100; and
 - c. reviewing and updating Customer 100's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 100 as a high risk customer for the purpose of the Act and Rules at a time before Customer 100 was issued with a WOL at Star Qld.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2442. Had Star Qld rated Customer 100 as a high risk customer for the purpose of the Act and Rules, they would have been required by the Act and Rules to apply the ECDD Programs to Customer 100 at a time before Customer 100 was issued by the WOL at Star Qld.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 100

2443. Star Sydney was required to apply the ECDD Programs to Customer 100 following any ECDD triggers in respect of Customer 100.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2444. Customer 100 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 25 June 2018 and 11 February 2020, Star Sydney gave the AUSTRAC CEO seven SMRs with respect to Customer 100.

2445. The matter pleaded in paragraph 2444 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2446. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 100 following an ECDD trigger because:

- a. on each occasion prior to 28 July 2020 that Star Sydney conducted ECDD in respect of Customer 100 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 100 and the provision of designated services to

Customer 100 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules

See paragraphs 797 and 807 above.

On 15 February 2019, 17 April 2019, 28 May 2019, 29 May 2019 and 9 February 2020, Star Sydney conducted ECDD in respect of Customer 100.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 100's higher ML/TF risks: see *Customer 100's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 100's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 100's source of wealth and source of funds were not legitimate: see *Customer 100's risk profile*.

On 28 July 2020, Star Sydney issued a WOL in respect of Customer 100.

- b. Customer 100 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 28 July 2020 that Customer 100 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 100 and the provision of designated services to Customer 100, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

On 13 January 2019, an incident occurred between Customer 100 and a staff member at Star Gold Coast. Customer 100 requested that a staff member settle his play and deposit chips which she said she could not do in the way requested. Customer 100 swore at and threatened the staff member. The Star Sydney Premium Guest Manager was notified of the incident. The Chief Operating Officer was also informed of the incident on 14 January 2019.

On 26 June 2020, the Group Investigations Manager emailed the AML Administrator (NSW) advising that Customer 100 had recently come to his attention and he had reviewed Customer 100. The Group Investigations Manager requested that Customer 100's risk rating be upgraded to high (but not being high risk for the purpose of the Act and Rules: see paragraph 110).

In April 2022, an external party was commissioned by Star to review its investigations practices and make recommendations for its AML framework. The external party's report made the following retrospective observations regarding Customer 100's dealings with Star Sydney and its senior management.

On 7 July 2018, the Star Sydney Premium Guest Manager sought approval from the Star Sydney Managing Director to upgrade Customer 100's membership from Silver to Diamond. The Star Sydney Premium Guest Manager proactively sought Customer 100's patronage at the Star.

On 29 May 2019, the Investigations Manager made a comment in an email regarding suspicious activity surrounding a high-stakes private poker game that involved Customer 100, which was the subject of enquiries from a law enforcement agency. The report concluded the comment could be interpreted as 'one of the investigation team not taking the risk of money laundering seriously'.

On 28 July 2020, Star Sydney issued a WOL in respect of Customer 100.

Contravention of s36 of the Act in respect of Customer 100

2447. By reason of the matters pleaded from paragraphs 2431 to 2446 above, on and from 2 December 2017, Star Sydney:
- a. did not monitor Customer 100 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2448. By reason of the matters pleaded at paragraph 2447, Star Sydney contravened s36(1) of the Act on and from 2 December 2017 to 28 July 2020 with respect to Customer 100.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2449. By reason of the matters pleaded from paragraphs 2431 to 2446 above, on and from 22 August 2018, Star Qld:

- a. did not monitor Customer 100 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2450. By reason of the matters pleaded at paragraph 2447, Star Qld contravened s36(1) of the Act on and from 22 August 2018 to 29 July 2020 with respect to Customer 100.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 101

2451. Customer 101 was a customer of Star Sydney during the relevant period. Between August 2018 and June 2020, Star Sydney recorded turnover exceeding \$61,000,000 for Customer 101.

Particulars

Customer 101 was a customer of Star Sydney from at least 7 August 2018.

On 28 April 2021, Star Sydney issued a WOL in respect of Customer 101 at the direction of the Star AML team.

2452. Star Sydney provided Customer 101 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 13 November 2018, Star Sydney opened an FMA and SKA for Customer 101 which was closed on 28 April 2021 (item 11, table 3, s6 of the Act).

While a customer at Star Sydney, Customer 101 remitted funds to Star Sydney (items 31 and 32, table 1, s6 of the Act).

See Customer 101's risk profile below.

2453. At all times from 7 August 2018, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 101.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 101's risk profile

2454. On and from 7 August 2018, Customer 101, and the provision of designated services to Customer 101 by Star Sydney, posed higher ML/TF risks because of the following red flags:
- a. Customer 101 was connected to other customers at Star Sydney who posed higher ML/TF risks, such as Customer 100;

Particulars

For example, see particulars to paragraph 2454.f.

See Customer 100's risk profile.

- b. Customer 101 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$61,336,711 for Customer 101;

Particulars

See paragraph 752 above.

In 2018, Customer 101's individual rated turnover was \$9,059,036.

In 2019, Customer 101's individual rated turnover escalated to \$37,655,161.

Between January and June 2020, Customer 101's individual rated turnover was \$14,622,514.

- c. Customer 101 transacted using large amounts of cash;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 27 November 2018 and 18 March 2020, Star Sydney gave the AUSTRAC CEO 34 TTRs totalling \$958,280 involving Customer 101, including:

- a. 33 TTRs detailing chip and cash exchanges made by Customer 101 totalling \$932,130; and
- b. one TTR detailing an account withdrawal made by Customer 101 totalling \$26,150.

Large and suspicious cash transactions in 2019

On 20 March 2019, Customer 101 exchanged \$880,000 in chips for a Star non-winning cheque at Star Sydney. Since the beginning of March, Customer 101 recorded a turnover of \$505,000 and a win of \$64,000. Star Sydney believed this transaction was disproportionate to Customer 101's small amount of play and win recorded: SMR dated 22 March 2019.

On 28 September 2019, Customer 101 exchanged \$119,500 of chips for cash.

Large and suspicious cash transactions in 2020

On 21 June 2020, Customer 101 exchanged \$101,250 and \$120,000 in chips for cash.

On 24 June 2020, Customer 101 exchanged \$100,000 in cash in Star straps for chips. Star Sydney observed that Customer 101 had cashed out \$221,250 in chips three days earlier, and this appeared to be the same cash being returned.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 101 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 13 November 2018 and 10 February 2020, Star Sydney received 37 telegraphic transfers totalling \$5,450,000, each of which was made available to Customer 101's account.

In addition, on 28 May 2019, Customer 101 transferred \$2,000,000 from his personal bank account to Star Sydney. The funds were made available by Star Sydney to Customer 101 for the purpose of partly repaying Customer 100's outstanding CCF at Star Sydney.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

Between 17 November 2018 and 16 January 2020, Star Sydney sent 13 telegraphic transfers totalling \$4,000,000 from Customer 101's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

- e. designated services provided to Customer 101 included EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

For example, on 8 January 2019, Star Sydney gave the AUSTRAC CEO one TTR detailing EGM payouts to Customer 101 totalling \$10,000.

- f. by August 2020, media reports named Customer 101 as a person involved in a fraudulent Ponzi scheme together with Customer 100;

Particulars

On 14 August 2020, an Australian media article reported that Customer 101 was the Chief Financial Officer of Company 5 that collapsed and owed creditors \$350,000,000. The article alleged that Customer 101 and Customer 100 ran a crude Ponzi scheme.

Star Sydney's due diligence records did not contain details of this report.

- g. it was not until 5 March 2021 that Star Sydney became aware of media articles which reported that Customer 101 was an international fugitive following the collapse of his business in Australia;

Particulars

Between August 2020 and March 2021, media articles reported that:

- a. Customer 101 had left Australia following the collapse of his business, Company 5, owing debts of approximately \$350,000,000; and
- b. Customer 101 was associated with Customer 100, who was a co-founder of the collapsed business.

It was not until 5 March 2021 that Star Sydney became aware of these reports.

- h. in 2021, law enforcement made enquiries with Star Sydney regarding Customer 101 and Customer 100; and

Particulars

On 27 April 2021, Star Sydney was notified by a law enforcement agency that Customer 101 was linked to suspicious money laundering activity.

- i. Star Sydney did not have adequate reason to believe that Customer 101's source of wealth or source of funds were sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) recorded by Customer 101 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney recorded Customer 101's occupation as a financial investment advisor.

From 2018, Customer 101's turnover was not consistent with his source of wealth.

By 2019, Customer 101's turnover had escalated significantly to over \$37 million: see particulars to paragraph 2454.b.

In August 2020, publicly accessible media articles reported that Customer 101 and Customer 100 operated a Ponzi scheme and owed

creditors \$350,000,000: see particulars to paragraphs 2454.f and 2454.g.

Star Sydney's determination of the ML/TF risks posed by Customer 101

2455. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 101 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 101.
- a. On and from November 2018, Customer 101 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons above: see *Customer 101's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 101 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

On 22 March 2019, Customer 101 was rated low, not being high risk for the purpose of the Act and Rules.

On the same day, Customer 101 was rated medium, not being high risk for the purpose of the Act and Rules.

On 30 July 2021, Customer 101 was rated high, not being high risk for the purpose of the Act and Rules. Customer 101 had been issued a WOL on 28 April 2021.

Monitoring of Customer 101's transactions

2456. At no time did Star Sydney apply appropriate transaction monitoring to Customer 101's transactions because:
- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 101, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 101 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of KYC information

2457. Star Sydney did not review, update and verify Customer 101's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 101's business with it, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 101's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 101's source of wealth and source of funds were not legitimate: see *Customer 101's risk profile*.

On and from 2018, Customer 101's turnover was very high and escalated significantly. This turnover was not proportionate to his purported source of wealth. From 2020, publicly accessible media articles identified Customer 101 as a person involved in a fraudulent Ponzi scheme with Customer 100, suggesting that there were real ML/TF risks as to Customer 101's source of funds: see paragraphs 2454.f and 2454.g.

- d. to the extent that Star Sydney reviewed Customer 101's KYC information on and from 7 August 2018 until 28 April 2021, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 101.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

By August 2020, publicly accessible media articles reported that Customer 101 and Customer 100 operated a Ponzi scheme and owed creditors \$350,000,000: see particulars to paragraphs 2454.f and 2454.g.

Between August 2020 and March 2021, there was no record in Star Sydney's due diligence records of the details of these reports.

It was not until 5 March 2021 that an ongoing customer due diligence screening in respect of Customer 101 identified that:

- a. Customer 101 was involved in a fraudulent Ponzi scheme in Australia;
- b. Customer 101 was an international fugitive whose collapsed company owed debts of approximately \$350,000,000; and
- c. Customer 101 was connected to Customer 100 through this company.

Between 8 April 2021 and 28 April 2021, Customer 101 was discussed at JRAMMs and PAMMs.

The minutes of the meetings noted that:

- a. Star had located a media article that reported that Customer 101 had fled Australia with his co-founder, Customer 100, following the collapse of the business which owed \$350,000,000; and
- b. Star was attempting to confirm that the person reported in the article was a match to Customer 101.

It was not until 28 April 2021 that Star Sydney issued a WOL in respect of Customer 101.

Failure to apply appropriate due diligence suited to Customer 101's high ML/TF risks

2458. Had Star Sydney conducted ongoing customer due diligence on and from 7 August 2018 by:
- a. identifying and assessing the ML/TF risks posed by Customer 101 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 101; and
 - c. reviewing and updating Customer 101's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 101 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 101*.

ECDD triggers in respect of Customer 101

2459. Star Sydney was required to apply the ECDD Programs to Customer 101 following any ECDD triggers in respect of Customer 101.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2460. Customer 101 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

On 20 March 2019, Star Sydney gave the AUSTRAC CEO one SMR with respect to Customer 101.

2461. The matter pleaded in paragraph 2460 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2462. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 101 following the ECDD trigger because:

- a. on each occasion prior to 28 April 2021 that Star Sydney conducted ECDD in respect of Customer 101 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 101 and the provision of designated services to Customer 101 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 23 March 2019 and 30 September 2019, Star Sydney conducted ECDD in respect of Customer 101 but did not have appropriate regard to his higher ML/TF risks: see *Customer 101's risk profile*.

The ECDD screening did not identify adverse information with respect to Customer 101.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 101's higher ML/TF risks: see *Customer 101's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 101's source of funds or source of wealth, in circumstances where on and from 2018, Customer 101's turnover was very high and escalated significantly. This turnover was not proportionate to his identified source of wealth.

By reason of the matters set out above, there were real risks that Customer 101's source of wealth and source of funds were not legitimate: see *Customer 101's risk profile* above.

However, it was not until 28 April 2021 that Star Sydney issued a WOL in respect of Customer 101.

- b. Customer 101 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 28 April 2021 that Customer 101 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 101 and the provision of designated services to Customer 101 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

There was no record in Star Sydney's due diligence records of senior management consideration of Customer 101 prior to 28 April 2021, when Star Sydney issued a WOL in respect of Customer 101.

Contravention of s36 of the Act in respect of Customer 101

2463. By reason of the matters pleaded from paragraphs 2451 to 2462, on and from 7 August 2018, Star Sydney:
 - a. did not monitor Customer 101 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2464. By reason of the matters pleaded at paragraph 2463, Star Sydney contravened s36(1) of the Act on and from 7 August 2018 to 28 April 2021 with respect to Customer 101.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 102

2465. Customer 102 was a customer of Star Sydney during the relevant period. Between 2018 and 2020, Star Sydney recorded turnover exceeding \$100 million for Customer 102.

Particulars

Customer 102 was a customer of Star Sydney from at least 23 July 2018.

On 1 September 2020, Star Sydney issued a WOL in respect of Customer 102.

2466. Star Sydney provided Customer 102 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 10 December 2018, Star Sydney opened an FMA and SKA for Customer 102 which were closed on 24 June 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 102 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 102's risk profile below.

2467. Customer 102 was a customer of Star Qld during the relevant period. Between 2017 and 2018, Star Qld recorded turnover exceeding \$6.8 million for Customer 102.

Particulars

Customer 102 was a customer of Star Qld from at least December 2018.

On 2 September 2020, Star Qld issued a WOL in respect of Customer 102.

2468. Star Qld provided Customer 102 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 7 December 2018, Star Qld opened an FMA for Customer 102 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 102 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 102's risk profile below.

2469. At all times from 23 July 2018 in respect of Star Sydney and December 2018 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 102.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 102's risk profile

2470. On and from 23 July 2018 in respect of Star Sydney and December 2018 in respect of Star Qld, Customer 102, and the provision of designated services to Customer 102 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

- a. Customer 102 was formerly a Star employee;

Particulars

Customer 102 resigned suddenly from Star and had previously worked in the Salons and with the VIP team.

- b. Customer 102 was connected to other customers at Star Sydney and Star Qld, including players who posed higher ML/TF risks and players who Star Sydney and Star Qld considered had acted suspiciously such as Customer 100;

Particulars

After ceasing to be an employee at Star, Customer 102 became employed by Customer 100. By at least March 2019, Star considered that it was 'highly likely' that Customer 102 was gambling with Customer 100's funds. In July 2020, open sources reported that there were Australian court proceedings related to Customer 100 and his companies which found that Customer 100 had engaged in improper conduct and that the conduct of his companies had been dishonest and evasive.

In March 2019, Customer 102 was involved in a large and suspicious cash transaction involving another Star Sydney customer: see paragraph 2470.g below. By April 2019, a law enforcement agency had contacted Star in relation to the Star Sydney customer, who was implicated in alleged tobacco smuggling and money laundering.

In August 2020, Star Sydney was aware that Customer 102 had been involved in large and suspicious cash transactions involving another Star Sydney customer. Star Sydney recognised that the other customer was gambling beyond his means, had borrowed money from Customer 102 and had been used by Customer 102 to bring money into the casino to purchase chips in order to avoid reporting under Customer 102's name.

- c. Customer 102 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$102,519,993 for Customer 102;

Particulars

See paragraph 752 above.

In 2018, Customer 102's individual rated turnover was \$2,932,010.

In 2019, Customer 102's individual rated turnover escalated to \$41,178,202.

In 2020, despite the COVID-19 pandemic closures, Customer 102's turnover continued to escalate.

In 2020, Customer 102's individual rated turnover further escalated to \$58,409,722.

- d. Customer 102 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2018 and 2019, Star Qld recorded high and escalating turnover totalling \$6,588,613 for Customer 102;

- i. between 2018 and 2019, Star Qld recorded high and escalating individual rated turnover totalling \$1,673,573 for Customer 102; and

Particulars

See paragraph 752 above.

In 2018, Customer 102's individual rated turnover was \$587,216.

In 2019, Customer 102's individual rated turnover escalated to \$1,086,357.

- ii. between 2018 and 2019, Star Qld recorded high and escalating turnover on individual rebate programs totalling \$4,915,040 for Customer 102, with losses of \$15,400;

Particulars

See paragraph 623 above.

In 2018, Customer 102's turnover on individual rebate programs was \$459,680 with wins of \$74,950.

In 2019, Customer 102's turnover on individual rebate programs escalated to \$4,455,360 with losses of \$90,350.

- e. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 102 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327 above.

Between 6 August 2019 and 27 July 2020, Star Sydney received ten telegraphic transfers totalling \$1,015,000, each of which was made available to Customer 102's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327 above.

Between 13 June 2019 and 13 August 2020, Star Sydney sent 13 telegraphic transfers totalling \$2,190,000 from Customer 102's FMA to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 4 October 2019 and 14 November 2019, Star Sydney sent three transfers totalling \$400,000 from Customer 102's account to Star Qld.

On 10 October 2019 and 14 November 2019, Star Sydney received two transfers totalling \$465,000 from Star Qld, both of which were made available to Customer 102's account.

- f. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 102 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

On 10 October 2019, Star Qld facilitated a transfer of \$345,000 from Star Gold Coast to Star Sydney. The funds were used for a program settlement.

Between 4 October 2019 and 14 November 2019, Star Qld received three transfers totalling \$400,000 from Star Sydney, each of which was made available to Customer 102's FMA at Star Gold coast.

- g. Star Sydney was aware that Customer 102:
- i. had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes wrapped in rubber bands, medical bandages and vacuum sealed plastic bags and counterfeit cash;

Particulars

See paragraphs 611 to 618 above.

Between 24 July 2018 and 2 September 2020, Star Sydney gave the AUSTRAC CEO 143 TTRs in respect of Customer 102 totalling \$6,923,714, which comprised:

- a. 113 outgoing TTRs totalling \$4,030,164;
- b. 30 incoming TTRs totalling \$2,893,550;
- c. \$5,089,314 in chip or cash exchanges;
- d. \$1,814,400 in account deposits or withdrawals; and
- e. \$20,000 in EGM payouts.

Large and suspicious cash transactions in 2018

On 11 December 2018, Customer 102 presented a bag containing \$300,000 in cash which was comprised of \$100 notes to deposit into his account. Star Sydney believed the cash had been issued by it in recent weeks. Customer 102 then requested the funds as chips.

Customer 102 recorded minimal play and left the premises with the chips. By 12 December 2018, the chips were still outstanding: SMR dated 12 December 2018.

Large and suspicious cash transactions in 2019

On 20 January 2019, Customer 102 presented \$300,000 in cash to be deposited to his account at Star Sydney. He first presented \$100,200 in \$50 notes contained in a clear vacuum sealed bag. He presented the remaining \$199,800 in \$100 notes. One bundle had straps from an Australian bank, four bundles had straps from the Star, and one bundle had unidentified strap. Customer 102 then requested the funds as chips. Customer 102 left the premises without recording any play. By 21 January 2019, the chips were still outstanding: SMR dated 21 January 2019.

On 1 March 2019, a Star Sydney customer exchanged \$199,600 in cash for chips. The cash comprised \$26,800 in \$100 notes, \$164,400 in \$50 notes and \$8,400 in \$20 notes. The cash was contained in a grey laundry bag and bundled with either elastic bands or medical bandages. After completing the transaction, the customer gave the chips to Customer 102: SMR dated 5 March 2019.

On 20 March 2019, Customer 102 exchanged \$300,000 chips for cash at Star Sydney. After the transaction, Customer 102 left Star Sydney in a private car. The previous day, Customer 102 had recorded a turnover of \$170,000 and a loss of \$58,000. Star Sydney believed the transaction to be excessive given the amount of play and loss recorded prior to the transaction: SMR dated 22 March 2019.

On 21 March 2019, a Star Sydney customer gave Customer 102 a white bag. Customer 102 then met with a second Star Sydney customer. Customer 102 and the second customer proceeded to the Darling Hotel. When they re-emerged, the second customer was holding a blue plastic bag containing \$100,000 cash. He then exchanged \$100,000 in cash for chips. The cash comprised \$92,000 in \$100 notes and \$8,000 in \$50 notes. After the transaction, the second customer met Customer 102 in a gaming area and handed the chips to him. Customer 102 then handed the chips to the first customer: SMR dated 22 March 2019.

On 2 April 2019, Customer 102 exchanged \$130,000 chips for cash at Star Sydney. In the days leading up to the transaction, Customer 102 recorded a turnover of \$13,500 and a win of \$12,000. Star Sydney considered the cash transaction to be disproportionate given the amount of play recorded prior to the transaction: SMR dated 2 April 2019.

On 22 April 2019, Customer 102 exchanged \$200,000 chips for cash at Star Sydney. Star Sydney considered the cash transaction to be disproportionate given that in the five days prior to the transaction,

Customer 102 did not record any gaming activity: SMR dated 23 April 2019.

On 27 April 2019, Customer 102 exchanged \$400,000 in chips for a Star cheque. In the week prior to this, Customer 102 recorded a turnover of \$1,024,700 and a loss of \$11,700 on the gaming tables.

Given the recorded loss, Star Sydney considered it unusual that Customer 102 had \$400,000 in chips: SMR dated 30 April 2019.

On 28 May 2019, Customer 102 exchanged \$110,000 in cash for chips at Star Sydney. The cash was comprised of \$50 notes bundled with elastic bands and carried in a cardboard designer bag. The cash was provided to Customer 102 by his associate. After the transaction,

Customer 102 met up with Customer 100, who was a known associate of Customer 102, and gave him the chips: SMR dated 29 May 2019.

On 7 September 2019, Customer 102 exchanged \$100,000 cash for chips at Star Sydney. The cash was previously issued by the Star and comprised \$100 notes bundled with Star straps. After the transaction, Customer 102 used the funds for gaming activity. Shortly afterwards,

Customer 102 deposited \$200,000 in cash into his account and withdrew the funds in chips. The cash comprised \$100 notes and was bundled with Star straps. Star Sydney considered the amount of cash presented in two separate transactions to be unusual: SMR dated 9 September 2019.

On 18 and 19 December 2019, Customer 102 engaged in large cash transactions at Star Sydney. Customer 102 deposited \$120,000 in cash followed by a further \$200,000 in cash into his account. The cash was comprised of \$100 notes bundled with Star straps.

Customer 102 then withdrew \$320,000 in chips. Customer 102 then recorded a turnover of \$1,610,500 and a win of \$4,500. He then exchanged \$380,000 in chips for cash, and deposited \$100,000 in chips to his account. Star Sydney believed these deposits and the cash out were disproportionate when compared to Customer 102's recorded win: SMR dated 19 December 2019.

Large and suspicious cash transactions in 2020

On 5 March 2020, Customer 102 exchanged \$100,000 in chips for cash at Star Sydney. This transaction was consistent with his play, as Customer 102 had recorded a turnover of \$2,644,000 and a win of \$141,000. After the transaction, Customer 102 handed the cash to a Star Sydney customer. Star Sydney was not aware of any known association between Customer 102 and the other customer: SMR dated 6 March 2020.

On 5 March 2020, a Star Sydney customer exchanged \$200,000 in chips for cash at Star Sydney. Star Sydney considered that the amount cashed out was disproportionate to the customer's recorded

win of \$38,295. After the transaction, the customer gave the cash to Customer 102. Star Sydney was not aware of any known association between Customer 102 and the other customer: SMR dated 9 March 2020.

- h. in 2018 and 2019, Customer 102 was the subject of law enforcement enquiries at Star;

Particulars

By January 2019, Star was aware that Customer 102 was being investigated by a law enforcement agency in respect of a serious of large cash buy-ins under suspicious circumstances.

Between December 2018 and May 2019, Star Sydney sent numerous unsolicited emails to a law enforcement agency in respect of large and suspicious cash transactions involving Customer 102.

Interactions and information shared between Star Sydney and law enforcement agencies were stored on Star's investigations database. Star Qld had access to the investigations database: see paragraph 49 above.

- i. Customer 102 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 102 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Lakes Salons, Vantage, Oasis and Chairman's.

- j. Customer 102 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 102 had access to private gaming rooms at Star Qld, including the Sovereign Room, Salon 66 and Pit 8.

- k. Star Sydney and Star Qld did not have adequate reason to believe that Customer 102's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 102 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By August 2020, Star understood that Customer 102 was an 'investor' but had not confirmed his occupation or source of wealth. That month, Star confirmed that Customer 102 was the director of a company and owned a number of investment properties.

However, a law enforcement agency advised Star in August 2020 that company searches showed that Customer 102 was not connected to

any current or operating business. Further, Customer 102 did not provide proof that he owned any investment properties. Star took inadequate steps to verify Customer 102's source of wealth.

In 2019, Customer 102's turnover escalated at Star Sydney and Star Qld. This coincided with numerous large and suspicious cash incidents involving Customer 102 at Star Sydney. Star was aware of Customer 102's connection with Customer 100, and suspected that Customer 102 was gambling with funds sourced from Customer 100.

However, Star did not take steps to verify the source of Customer 102's funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 102

2471. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 102 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 102.
- a. On and from early 2019, Customer 102 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 102's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 102 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 12 December 2018, Customer 102 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 21 January 2019, Customer 102 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 102's transactions

2472. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 102's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 102, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 102 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Sydney and Star Qld provided designated services to Customer 102 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 102's KYC information

- 2473. Star Sydney and Star Qld did not review, update and verify Customer 102's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 102's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 102's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 102's source of wealth and source of funds were not legitimate: see *Customer 102's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 102's KYC information on and from 2018, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 102.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 102's high ML/TF risks

2474. Had Star Sydney conducted ongoing customer due diligence on and from 2018 by:
- identifying and assessing the ML/TF risks posed by Customer 102 appropriately;
 - applying appropriate risk-based transaction monitoring to Customer 102; and
 - reviewing and updating Customer 102's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 102 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 102*.

2475. Had Star Qld conducted ongoing customer due diligence on and from December 2018 by:
- identifying and assessing the ML/TF risks posed by Customer 102 appropriately;
 - applying appropriate risk-based transaction monitoring to Customer 102; and
 - reviewing and updating Customer 102's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 102 at a time before Customer 102 was issued with a WOL at Star Qld.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2476. Had Star Qld rated Customer 102 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 102 at a time before Customer 102 was issued with a WOL at Star Qld.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 102

2477. Star Sydney was required to apply the ECDD Programs to Customer 102 following any ECDD triggers in respect of Customer 102.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10 of the Rules.

2478. Customer 102 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 12 December 2018 and 9 March 2020, Star Sydney gave the AUSTRAC CEO 13 SMRs with respect to Customer 102.

2479. The matter pleaded in paragraph 2478 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2480. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 102 following an ECDD trigger because:

- a. on each occasion prior to 1 September 2020 that Star Sydney conducted ECDD in respect of Customer 102 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 102 and the provision of designated services to Customer 102, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 5 March 2019, 20 March 2019, 21 March 2019, 1 April 2019, 22 April 2019, 27 April 2019, 28 May 2019, 8 September 2019 and 19 December 2019, Star Sydney conducted ECDD in respect of Customer 102 including open source and media searches.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 102's higher ML/TF risks: see *Customer 102's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 102's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 102's source of wealth and source of funds were not legitimate: see *Customer 102's risk profile*.

On 1 September 2020 that Star Sydney issued a WOL in respect of Customer 102.

- b. Customer 102 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was with Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 1 September 2020 that Customer 102 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 102 and

the provision of designated services to Customer 102 by Star Sydney, and whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between April 2019 and September 2020, Customer 102 was discussed at JRAMMs. Star determined to take steps to verify Customer 102's source of wealth.

Customer 102 was removed from the meeting agenda after he was excluded in September 2020.

On 1 September 2020 that Star Sydney issued a WOL in respect of Customer 102.

On 17 September 2020, JRAMM minutes recorded that Customer 102 had been issued with a WOL for suspected money laundering behaviour.

Contravention of s36 of the Act in respect of Customer 102

2481. By reason of the matters pleaded from paragraphs 2465 to 2480 above, on and from 23 July 2018, Star Sydney:

- a. did not monitor Customer 102 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2482. By reason of the matters pleaded at paragraph 2481, Star Sydney contravened s36(1) of the Act on and from 23 July 2018 to 1 September 2020 with respect to Customer 102.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2483. By reason of the matters pleaded from paragraphs 2465 to 2480 above, on and from December 2018, Star Qld:

- a. did not monitor Customer 102 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and

b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2484. By reason of the matters pleaded at paragraph 2483, Star Qld contravened s36(1) of the Act on and from December 2018 to 2 September 2020 with respect to Customer 102.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 103

2485. Customer 103 was a customer of Star Sydney during the relevant period. Between 2016 and 2018, Star Sydney recorded turnover exceeding \$15 million for Customer 103.

Particulars

Customer 103 was a customer of Star Sydney from at least 26 April 2016.

On 13 December 2018, Star Sydney issued a WOL in respect of Customer 103 at the direction of the General Manager, Compliance and Responsible Gambling for 'undesirable behaviour'.

2486. Star Sydney provided Customer 103 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 11 November 2016, Star Sydney opened an FMA and SKA for Customer 103 which was closed on 17 September 2019 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 103 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 103's risk profile below.

2487. Customer 103 was a customer of Star Qld during the relevant period. Between 2016 and 2018, Star Qld recorded turnover exceeding \$34 million for Customer 103.

Particulars

Customer 103 was a customer of Star Qld from at least 19 August 2012.

On 8 August 2009, Star Qld issued a WOL in respect of Customer 103 in response to a self-exclusion notice which was revoked on 8 August 2014.

On 13 December 2018, Star Qld issued a WOL in respect of Customer 103 at the direction of the General Manager, Compliance and Responsible Gambling for 'undesirable behaviour.'

2488. Star Qld provided Customer 103 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 22 November 2016, Star Qld opened an FMA and SKA for Customer 103 which was closed on 17 September 2019 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 103 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 103's risk profile below.

2489. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 103.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 103's risk profile

2490. On and from 30 November 2016, Customer 103, and the provision of designated services to Customer 103 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 103's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 103 had the following risk history:
 - i. Customer 103 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded individual rated turnover of \$82,083 for Customer 103;
 - ii. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 103 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

For example, on 22 November 2016, Star Sydney sent a transfer of \$40,000 from Customer 103's account to Star Qld.

- iii. Customer 103 transacted using large amounts of cash at Star Sydney; and

Particulars

TTRs

Between 16 May 2016 and 14 November 2016, Star Sydney gave the AUSTRAC CEO 32 TTRs totalling \$631,510, including:

- a. 31 TTRs detailing chip and cash exchanges totalling \$591,510 made by Customer 103; and
- b. one TTR detailing an account deposit totalling \$40,000 made by Customer 103.

Large and suspicious cash transactions in 2016

On 30 November 2016, Customer 103 exchanged \$20,000 in cash for chips at Star Sydney. The cash was comprised of \$50 notes. Customer 103 recorded minimal play after this transaction.

- iv. Customer 103 transacted using large amounts of cash at Star Qld;

Particulars

Between 11 January 2016 and 25 November 2016, Star Qld gave the AUSTRAC CEO 17 TTRs totalling \$234,295, including:

- a. 16 TTRs detailing chip and cash exchanges totalling \$194,295; and
- b. one TTR detailing an account withdrawal totalling \$40,000.

Customer 103's risk profile from 30 November 2016

- b. Customer 103 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld, other than on junket programs. Between 2016 and 2018, Star Qld recorded high and escalating individual rated turnover totalling \$34,985,604 for Customer 103;

Particulars

See paragraph 752 above.

In 2016, Customer 103's individual rated gaming turnover was \$3,229,127.

In 2017, Customer 103's individual rated gaming turnover was \$3,938,840.

In 2018, Customer 103's individual rated turnover significantly escalated to \$27,817,636.

- c. Customer 103 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney, other than on junket programs. Between 2016 and 2018, Star Sydney recorded high and escalating turnover totalling \$15,630,101 for Customer 103;
 - i. between 2016 and 2018, Star Sydney recorded high and escalating individual rated turnover totalling \$11,412,647 for Customer 103; and

Particulars

In 2016, Customer 103's individual rated gaming turnover was \$792,141.

In 2017, Customer 103's individual rated turnover significantly escalated to \$3,995,739.

In 2018, Customer 103's individual rated turnover was \$2,972,132.

- ii. In 2018, Star Sydney recorded high turnover on individual rebate programs totalling \$4,217,454 with wins of \$68,200;
- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 103 by remitting large amounts of money out of and within the casino environment via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327.

On 13 June 2018, Star Sydney sent a telegraphic transfer of \$50,000 from Customer 103's FMA to an Australian bank account.

On about 13 November 2018, Customer 103 transferred \$112,000 from his Star Sydney account to a personal bank account in Australia: SMR dated 13 November 2018.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349.

On 2 May 2017, Star Sydney sent a transfer of \$35,000 from Customer 103's account to Star Qld.

On 8 July 2017, Star Sydney received a transfer of \$15,000 from another Star Group entity, which it made available to Customer 103's account.

On 12 February 2018, Star Sydney transferred \$90,000 from Customer 103's Star Sydney account to his Star Qld account: SMR dated 8 March 2018.

On 25 August 2018, Star Sydney received a transfer of \$25,000 from Star Qld, which it made available to Customer 103's account.

On 14 November 2018, Star Sydney transferred \$100,000 from his Star Sydney account to his Star Qld account. Customer 103 withdrew this amount in chips at Star Qld. Customer 103 recorded losses of \$148,000, including the \$100,000 transferred from Star Sydney: SMR dated 16 November 2018.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 103 by remitting large amounts of money out of and within the casino environment at Star Qld via his accounts;

Particulars

Remittances out of the casino environment

See paragraph 327.

On 13 September 2018, Star Qld transferred \$15,000 from Customer 103's Star Qld account to a personal bank account in Australia: SMR dated 14 September 2018.

On 21 September 2018 and 24 September 2018, Star Qld transferred \$20,800 and \$10,000 respectively from Customer 103's Star Qld account to a personal bank account in Australia.

On 25 September 2018, Customer 103 presented \$26,000 in chips at the cashier desk at Star Qld. Of this, \$21,000 was exchanged for cash. Star Qld transferred the remaining \$5,000 from Customer 103's Star Qld account to a personal bank account in Australia.

On 26 September 2018 and 30 October 2018, Star Qld facilitated two telegraphic transfers totalling \$25,000 from Customer 103's FMA at Treasury Brisbane to Australian bank accounts.

On 23 October 2018, Customer 103 presented \$54,000 cash at Star Qld. Of this, Customer 103 took \$14,000 in cash and deposited \$40,000 into his FMA. Star Qld transferred \$40,000 from Customer 103's Star Qld FMA to a personal bank account in Australia.

See particulars to paragraph 2490.f.

The above transactions were conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 2 May 2017 and 13 November 2018, Star Qld received four transfers totalling \$240,000 from Star Sydney, each of which was made available to Customer 103's FMA at Treasury Brisbane.

Between 25 January 2018 and 12 October 2018, Star Qld facilitated three transfers totalling \$66,000 from Customer 103's FMA at Treasury Brisbane to Star Sydney: SMRs dated 28 August 2018 and 17 October 2018.

See particulars to paragraph 2490.f.

- f. Customer 103 and persons associated with him transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and plastic bags and boxes and notes which were worn, sticky or omitting a musty odour at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 1 December 2016 and 14 November 2018, Star Qld gave the AUSTRAC CEO 281 TTRs totalling \$6,662,059 involving Customer 103, including:

- a. 258 TTRs detailing chip and cash exchanges totalling \$5,155,354;
- b. 14 TTRs detailing account deposits totalling \$603,500;
- c. five TTRs detailing account withdrawals totalling \$215,000;
- d. four TTRs detailing other monetary value in totalling \$152,500; and
- e. four TTRs detailing other monetary value out totalling \$68,800.

Summary

Between 6 October 2017 and 6 December 2018, Customer 103 and his associates engaged in large and suspicious cash transactions at Star Qld totalling at least \$3,801,282 on at least 103 occasions.

Large and suspicious cash transactions in 2017

On 6 October 2017, Customer 103 presented \$50,000 in cash at Star Qld. The cash was comprised of \$50 notes (\$49,600) and \$20 notes (\$400) notes respectively. Customer 103 exchanged the cash for \$40,000 in \$100 notes and \$10,000 in chips. Customer 103 subsequently used \$5,000 of the chips. Star Qld was aware that Customer 103 had conducted similar transactions since 2016. The transactions were followed by little or no gaming activity: SMR dated 10 October 2017.

Between October 2017 and February 2018, Customer 103 conducted the following transactions under \$10,000 at Star Qld:

- a. on 19 October 2017, Customer 103 exchanged \$9,000 in cash for chips;
- b. on 15 November 2017, Customer 103 exchanged \$9,500 in chips for cash;
- c. on 23 January 2018, Customer 103 exchanged \$9,000 in cash for chips; and
- d. on 7 February 2018, Customer 103 exchanged \$9,000 in cash for chips.

Star Qld considered that some of the transactions above were supported by Customer 103's play.

Large and suspicious cash transactions in February 2018

On 16 February 2018, Customer 103 and another customer, Person 21, arrived at a Star Qld cashier desk with \$22,930 in chips to be exchanged for cash. When asked about the source of the chips, Customer 103 and Person 21 said that all the chips belonged to Person 21. While at the cashier, Customer 103 and Person 21 split the cash evenly between them. Following the transaction, Star Qld ascertained that only Person 21's play could support the transaction.

Star Qld was unaware of the relationship between Customer 103 and Person 21. Star Qld considered that Customer 103 and Person 21 may not have given a truthful account of the ownership of the chips:
SMR dated 20 February 2018.

Large and suspicious cash transactions in March 2018

On 6 March 2018, Customer 103 presented \$107,500 in cash at the Star Qld cashier desk. The cash was comprised of \$50 notes bound together with elastic bands. The cash appeared to be very worn. Customer 103 requested that \$20,000 cash be exchanged for chips and \$87,500 cash be exchanged for \$100 notes. Without being asked, Customer 103 provided specific detail about the cash being sourced from two Australian banks.

Customer 103 then gambled for 30 minutes and lost \$15,000 before returning to the cashier and stated that he had changed his mind. Customer 103 now wanted to exchange \$37,500 of the cash (i.e. the \$87,500) for chips. Customer 103 retained \$50,000 of the cash.

Customer 103 recorded winnings of \$370,000 over the next two hours. Customer 103 then exchanged \$93,550 in chips for cash. Whilst waiting for the cash, Customer 103 answered a telephone call and stated that he would meet the caller to give them \$80,000 cash.

Star Qld contacted the onsite law enforcement unit about these events. Star Qld was aware that Customer 103 appeared to have access to large sums of cash: SMR dated 8 March 2018.

On 20 March 2018, Customer 103 presented \$50,000 in cash at Star Qld in a private gaming room for deposit into his FMA. The cash was contained in a bag. Star Qld noticed that the bag contained more cash which was not presented. Customer 103 left without waiting for the cash to be deposited and without checking the money was counted correctly. He stated that he had to meet a friend. Five hours later, Customer 103 returned to Star Qld with another customer, Person 21.

Customer 103 proceeded to the cashier where he signed for the deposit of the \$50,000 in cash. By the next morning, the deposit had not been used.

Star Qld contacted the onsite law enforcement unit. Customer 103 was a known person of interest following a large cash transaction that

occurred on 6 March 2018. Star Qld did not know the source of cash or the connection between Customer 103 and the other customer.

On 23 March 2018, Customer 103 exchanged \$20,000 in cash for chips at Star Qld. The cash was comprised of \$50 notes that were bound together in bundles of \$5,000 and \$10,000, with elastic bands. Customer 103 also appeared to be carrying another \$5,000 in chips at the time. Customer 103 recorded losses of \$4,000. However, after 30 minutes of play he exchanged \$24,002 in chips for cash.

On 29 March 2018, Customer 103 exchanged \$297,000 in cash for chips. The cash was loose, sticky and was difficult for Star Qld to count. Customer 103 used \$3,000 in chips for play: SMR dated 29 March 2018.

Large and suspicious cash transactions in April 2018

In April 2018, Customer 103 continued to present large volumes of \$50 notes at Star Qld, including the following:

- a. on 13 April 2018, Customer 103 presented \$22,000 in cash and \$3,000 in chips to be deposited into his account. The cash was comprised of \$100 notes, bound together like a brick and with elastic bands;
- b. on 17 April 2018, Customer 103 presented \$15,000 in cash. The cash was comprised of \$50 notes to be exchanged for chips. The cash was bound together with elastic bands in lots of \$1,000;
- c. on 23 April 2018, Customer 103 presented \$11,000 in cash. The cash was comprised of \$50 notes; and
- d. on 26 April 2018, Customer 103 presented \$35,000 in cash comprised of \$50 notes bound together with elastic bands. Customer 103 exchanged the cash for \$20,000 in \$100 notes and \$15,000 in chips. On the same day, Customer 103 exchanged \$50,000 in cash, comprised of \$100 notes, for chips in two transactions occurring within 15 minutes.

Large and suspicious cash transactions in May 2018

On 4 May 2018, Customer 103 exchanged \$45,000 in cash comprised of \$50 notes for chips at Star Qld, then engaged in gaming activity.

After play, Customer 103 exchanged \$55,200 in chips for cash, comprised entirely of \$100 notes: SMR dated 4 May 2018.

After exchanging the \$55,200 in chips for cash, Customer 103 commenced another gaming session. Customer 103 used \$1,500 in cash and \$5,000 in chips. Customer 103 recorded a loss of the entire \$6,500. Customer 103 then exchanged another \$30,400 in chips for cash. Star Qld noted that earlier on the same day, another Star Qld customer, Person 21, had attended the cashier desk with Customer 103. Person 21 presented \$25,000 in cash, which was comprised of

\$100 notes, to be exchanged for chips. Person 21 recorded minimal play but Star Qld did not have any record of him cashing out these chips.

On 8 May 2018, Customer 103 exchanged \$40,000 in cash for chips at Star Qld. The cash was comprised of \$50 notes (\$35,000) and \$20 notes (\$5,000). Customer 103 then proceeded to gamble. After completing play, Customer 103 exchanged \$46,715 in chips for cash: SMR dated 9 May 2018.

On 9 and 10 May 2018, Customer 103 presented \$7,820, \$26,800 and \$6,800 in cash to be exchanged for chips at Star Qld gaming tables. Customer 103 also exchanged \$20,000 cash for chips at a cashier desk. The cash was comprised of \$100 notes.

On 30 and 31 May 2018, Star Qld observed that Customer 103 appeared intent on obtaining cash bound with Star Qld straps. On 30 May 2018, Customer 103 exchanged \$17,750 in chips for cash at Star Qld. Customer 103 then presented \$7,900 in cash, comprised of \$100 notes, and requested that the cash be exchanged for \$100 notes bound with Star Qld straps. Star Qld declined the request. This was Customer 103's second attempt at this type of transaction. Star Qld did not know why Customer 103 wanted to exchange his cash in this manner. Customer 103 then exchanged \$3,000 in chips for cash: SMR dated 31 May 2018.

Large and suspicious cash transactions in June and July 2018

In June and July 2018, Customer 103 exchanged a total of \$23,900 in cash, which was comprised of loose \$50 and \$100 notes, for chips on four separate occasions at Star Qld. Each transaction was in amounts less than \$10,000: SMR dated 3 August 2018.

On 16 July 2018, Customer 103 presented \$19,000 in cash at Star Qld to be exchanged for chips. The cash comprised mostly of \$50 notes. Around this time, Star Qld commenced marking its straps to ascertain whether Customer 103 or another customer would return the cash to the casino.

Large and suspicious cash transactions in August 2018

On 3 August 2018, Customer 103 presented \$27,700 in cash, which was comprised of loose \$50 notes, to be exchanged for chips at Star Qld. Following this transaction, Star Qld monitored Customer 103 in order to ascertain if he associated with any person. At the time, Customer 103 continued to play at gaming table where he presented further unspecified amounts of cash: SMR dated 3 August 2018.

On 7 August 2018, Customer 103 exchanged \$20,000 in cash for chips at Star Qld. Later that day, Customer 103 presented \$65,000 in cash to be deposited into his FMA. On both occasions the cash comprised mostly of \$50 notes bound together with elastic bands.

When asked about the source, Customer 103 stated words to the effect that he had obtained the cash from 'all over the place.' Star Qld considered Customer 103's answers about the source of the cash to be evasive. At the time, Customer 103 was playing in the private gaming room: SMR dated 7 August 2018.

That afternoon, Customer 103 presented \$110,000 in cash in the private gaming room. Customer 103 held the cash in a re-useable shopping bag. The cash was comprised mostly of \$100 notes (\$15,100) and \$50 notes (\$92,800). The cash was bundled in lots of \$5,000 and bound together with elastic bands.

Of these funds, \$20,000 in cash was exchanged for chips and the remaining \$90,000 in cash was deposited into Customer 103's FMA. Following this transaction, Customer 103 withdrew all funds from his FMA, including the funds deposited earlier in the day. Customer 103 had purchased a total of \$195,000 in chips throughout the day.

At the time, Customer 103 had recorded winnings of \$40,000. However, this occurred after he had lost almost all the chips. That evening, Customer 103 exchanged \$201,500 in chips for cash. Given Customer 103's history of cash transactions, Star Qld marked the straps with a code to ascertain whether he, or another person, would return with the same cash: SMR dated 8 August 2018.

Between 10 and 24 August 2018, Customer 103 presented a total of at least \$60,875 in cash at Star Qld. The cash was primarily comprised of \$100 and \$50 notes: SMR dated 28 August 2018.

On 27 August 2018, Customer 103 presented \$40,000 in cash at Star Qld to be exchanged for chips. The cash was comprised old \$50 and \$100 notes bound together with elastic bands. The transaction took place at the private gaming room. Customer 103 carried the cash in a green reusable shopping bag. Customer 103 gambled for four hours and moved between several gaming tables.

During this time, Customer 103 exchanged another \$5,000 in cash for chips. The \$5,000 comprised of \$100 notes bound in two bundles of \$2,500. Customer 103 concluded play with \$45,300 in chips that he cashed out. The cash received was comprised of nine bundles of \$5,000 bound with Star Gold Coast straps and three \$100 notes. Customer 103 collected two envelopes from the Sovereign private gaming room desk and placed the cash into the envelopes. He then left the casino alone, carrying the cash.

On 27 August 2018, Customer 103 presented \$22,550 in cash at Star Qld to be exchanged for chips. The cash comprised of mostly \$50 notes.

On 29 August 2018, Customer 103 exchanged \$25,000 in chips for cash at Star Qld.

Large and suspicious cash transactions in September 2018

On 7 September 2018, Customer 103 presented \$40,000 in cash at Star Gold Coast to be exchanged for chips. Following play, Customer 103 presented \$42,959 in chips at the Star Gold Coast cashier. Whilst Star Gold Coast were conducting checks of Customer 103's play, he became agitated.

On 12 September 2018, Customer 103 presented \$60,000 in cash at Treasury Brisbane comprised of \$50 notes. Star Qld considered that some of the notes were mouldy in appearance and smelled musty. Of this cash, Customer 103 exchanged \$20,000 for chips and \$40,000 was deposited into Customer 103's FMA. Customer 103 recorded winnings of \$15,000.

Customer 103 then returned to the cashier and requested to transfer \$50,000 to his bank account via telegraphic transfer. When Treasury Brisbane declined his request, Customer 103 asked to speak with the duty manager. Customer 103 asserted that he did not want to carry large amounts of cash at night. The duty manager pointed out that Customer 103 had arrived with a large amount of cash. Customer 103 laughed at this comment. The duty manager advised Customer 103 that he could send his winnings of \$15,000 via telegraphic transfer, but the rest would have to be taken in cash. On 13 September 2018, Customer 103 transferred \$15,000 from his Star Qld account to a personal bank account in Australia.

Upon transferring the \$15,000, Customer 103 asked whether he could send winnings to an account in a foreign country. He did not provide the account details. The duty manager advised Customer 103 that Treasury Brisbane would look into this issue. However, Treasury Brisbane internally noted that it would attempt to obtain the account details before advising Customer 103 that they would not transfer funds to this country. Customer 103 then decided to withdraw \$60,000 in cash from his account in \$100 notes: SMR dated 14 September 2018.

On 14 September 2018, Customer 103 presented \$20,000 in cash at Treasury Brisbane to be exchanged for chips. The cash was comprised of \$50 notes. Customer 103 was with another customer, Person 21, when he arrived at the casino. Customer 103 recorded a loss of the entire \$20,000. Person 21 lost the \$5,000 in chips.

At around 11 pm on 14 September 2018, Customer 103 arrived at Star Gold Coast. Customer 103 presented \$20,000 in cash to be exchanged for chips and \$53,700 cash to be deposited into his FMA. The cash was comprised of \$100 and \$50 notes.

On 15 September 2018, Customer 103 was in the private gaming area at Star Gold Coast with another customer, Person 31, believed to be Customer 103's brother. At that time, Customer 103 was getting his play rated under Person 31's account. Person 31 recorded losses

of \$44,900. Star Qld knew that the chips used by Person 31 had been sourced from the deposits made into Customer 103's FMA. Customer 103 recorded losses of \$38,900.

On 18 September 2018, Customer 103 presented \$10,000 in cash at Treasury Brisbane to be exchanged for chips. Shortly afterwards, Customer 103 exchanged another \$30,000 cash for chips. The cash comprised of \$50 notes that were sticky and smelt musty. Shortly after, Customer 103 commenced play with \$25,000 in chips in the private gaming room. Customer 103 was recorded to have left the private gaming room with \$12,000 in chips. Customer 103 then presented \$5,000 in chips to buy-in at another gaming table. Shortly after, he left that gaming table with \$4,000 in chips. At about 1 pm, Customer 103 left the casino: SMR dated 19 September 2018.

On 19 September 2018, Customer 103 arrived at Star Qld in a red mustang. Customer 103 presented \$30,000 in cash comprised of \$50 notes to be exchanged for chips.

On 20 September 2018, Customer 103 presented \$16,500 in cash at Star Qld to be exchanged for chips. The cash was comprised of \$100 notes and \$50 notes.

On 24 September 2018, Customer 103 exchanged \$20,000 in cash for chips. Customer 103 then proceeded to play at a gaming table for approximately 40 minutes. Shortly after, Customer 103 left the gaming area and exchanged \$30,010 in chips for \$20,010 in cash (which was comprised of \$100 notes) and deposited the remaining \$10,000 into his FMA.

On 25 September 2018, Customer 103 presented \$10,000 in cash at Star Qld to be exchanged for chips. The cash appeared to be sourced from a payment made to Customer 103 the previous day.

Later in the day, Customer 103 exchanged \$26,000 in chips for \$21,000 in cash. Customer 103 requested that the remaining \$5,000 be transferred to his personal bank account via telegraphic transfer.

At about 2:50 pm on 26 September 2018, Customer 103 arrived at Star Qld. Customer 103 proceeded to the cashier desk and presented \$11,000 in chips. Customer 103 requested that \$10,000 be deposited into his FMA at Star Qld and \$1,000 be exchanged for cash.

Large and suspicious cash transactions in October 2018

On 6 October 2018, Customer 103 exchanged \$20,000 in cash for chips. Shortly after, Customer 103 exchanged \$42,000 in chips for cash.

Very early the following day, Customer 103 exchanged a total of \$54,950 cash for chips in two transactions. Customer 103 also deposited \$30,000 cash into his FMA. Star Gold Coast did not know

why Customer 103 would keep purchasing chips in circumstances where he was winning and already held a number of chips.

Shortly afterwards, Customer 103 exchanged \$167,000 in chips for cash. Customer 103 also withdrew the \$30,000 deposited earlier that morning. Star Gold Coast considered it unusual that Customer 103 would unnecessarily make cash purchases of chips: SMR dated 9 October 2018.

On 9 October 2018, Customer 103 arrived at Star Gold Coast in a red Mustang. Shortly after, Customer 103 presented \$20,000 cash to be exchanged for chips. The cash comprised of \$100 notes. After briefly playing table games in the Sovereign room, Customer 103 met with another customer, Person 31, in the main gaming area. Customer 103 played baccarat with Person 31 for 45 minutes.

Customer 103 then left Person 31 at the table and returned to the Sovereign room where he exchanged \$30,000 in chips for cash. Shortly afterwards, Customer 103 carried the cash in his hands, returned to his car and left Star Gold Coast.

Approximately an hour later, Customer 103 returned to Star Gold Coast in the same car. Customer 103 held a large amount of cash which was comprised of \$50 notes. He then presented \$24,000 in cash at the cashier desk, to be exchanged for chips. The cash was comprised of \$50 notes and one \$100 note. Customer 103 then proceeded to the Sovereign room where he met Person 31. Customer 103 and Person 31 sat at a gaming table. However, on two occasions Customer 103 left Person 31 in the gaming area and returned to his car. Customer 103 appeared to collect \$28,850 and \$29,850 in cash from his car on each occasion. On each occasion, Customer 103 returned to the cashier desk where he presented the cash.

After playing more table games, Customer 103 returned to the cashier desk and exchanged \$106,400 in chips for cash. Customer 103 took the cash in a bag, returned to his car and left Star Gold Coast. Customer 103 had only recorded winnings of \$30,000 that day.

On 10 October 2018, Customer 103 presented \$45,000 in cash at Treasury Brisbane to be exchanged for chips. Customer 103 returned to the cashier three times to exchange cash totalling \$100,000 for chips. The straps binding the cash appeared to be those obtained from Star Gold Coast the previous day.

Later on 10 October 2018, Customer 103 exchanged \$150,000 in chips for cash. Customer 103 placed the cash in a box. When a staff member commented about the style of the box, Customer 103 said that it was for someone else.

At that time, Star Gold Coast noted that Customer 103 continued to present large volumes of \$50 notes and that Customer 103 appeared

to regularly win money back after suffering large losses: SMR dated 10 October 2018

Between 11 and 12 October 2018, Customer 103 presented \$50,000 in cash across three transactions at Treasury Brisbane. The cash comprised of \$100, \$50 and \$20 notes. This included \$25,000 in cash which was bound in Star casino straps.

On 17 October 2018, Customer 103 presented approximately \$80,000 in cash at Star Gold Coast to be exchanged for chips. The cash was contained in a black plastic bag and was comprised of various notes that were bound together with elastic bands. Customer 103 asked if he could leave the cash with the cashier whilst he went to dinner. He stated that there should be \$80,000, but it could be more or it could be less. Star Gold Coast's count of the cash came to \$79,900. Upon receiving the chips, Customer 103 said words to the effect; 'I'll have to tell him he was \$100 short.'

Later that day, after finishing play, Customer 103 cashed out winnings of \$100,000 at Star Gold Coast. He was with a customer, Person 31, when this occurred. Person 31 took \$1,500 of the cash presented. Customer 103 and Person 31 requested two envelopes to carry the cash: SMR dated 17 October 2018.

On 19 October 2018, Customer 103 presented \$25,000 in cash at Star Qld to be exchanged for chips. The cash was comprised of \$50 notes. Customer 103 appears to have exchanged a further \$5,900 cash for chips at a gaming table. Customer 103 lost both amounts. Customer 103 then exchanged another \$50,000 cash for chips. The cash comprised mostly of \$100 notes and \$50 notes. At the time, Customer 103 did not appear to use the chips: SMR dated 19 October 2018.

On 22 October 2018, Customer 103 presented \$20,000 in cash for chips at Star Qld. The cash was comprised of \$100 notes that were bound with Star Qld straps. Later that day, Customer 103 exchanged \$106,275 in chips for cash. His record of play supported this transaction. Customer 103 placed the cash into a large plain yellow envelope. At this time, Star Qld overheard him saying that he had just given \$25,000 to another customer. Star Qld considered that this may have been a customer who played at the same table as Customer 103.

On 23 October 2018, Customer 103 presented \$20,000 in cash at Star Qld. The cash was comprised of \$100 notes bound with Star Qld straps. Some of the straps had codes that showed the cash had previously been paid to Customer 103. Customer 103 requested that the cash be transferred to an account in a foreign country in his wife's name. Customer 103 said that he was moving his whole family to that foreign country in April 2019: SMR dated 23 October 2018

Between 24 and 30 October 2018, Customer 103 presented \$114,700 in cash at Star Qld in six separate transactions. The cash presented ranged from \$14,000 to \$25,000 per transaction and mostly comprised of \$100 and \$50 notes. On three occasions the cash was bound with straps stamped and coded to Star Qld.

On 31 October 2018, Customer 103 presented a further \$25,000 in cash at Star Qld. The cash was bound with Star Qld straps displaying a code. Star Qld considered that presentation of cash with these straps was very unusual as the straps were not stamped in the way Star Qld usually stamped straps, were not sourced from any casino in Qld and dated back to July 2018: SMR dated 31 October 2018.

On 1 November 2018, Star Qld determined that the straps belonged to Star Gold Coast. However, Star Qld noted that the Star Gold Coast's license number was CE186846.

Large and suspicious cash transactions in November 2018

On 14 November 2018, Customer 103 presented \$40,000 in cash at Treasury Brisbane to be exchanged for chips. The cash was comprised of \$100 notes bound together with elastic bands. Customer 103 subsequently lost this entire amount.

Customer 103 then withdrew \$100,000 in chips from his FMA. Customer 103 had transferred these funds from Star Sydney following his recent activity at that venue. Shortly after, Customer 103 presented \$9,000 in cash to be exchanged for chips. Customer 103 recorded \$148,000 in losses for the day.

On 15 November 2018, Customer 103 presented \$60,000 in cash at Star Gold Coast to be exchanged for chips. The cash comprised of mostly \$100 notes and \$50 notes. Customer 103 recorded losses of \$75,600 for the day. Star Gold Coast could not ascertain the source of the additional \$15,600, being the difference between \$75,600 and \$60,000: SMR dated 16 November 2018

Between 16 November 2018 and 23 November 2018, Customer 103 conducted eight cash transactions at Star Qld venues. During this period, Customer 103 presented a total of \$132,700 in cash at Treasury Brisbane to be exchanged for chips. On 22 November 2018, Customer 103 exchanged \$80,000 in cash at Star Gold Coast for chips. Customer 103 recorded losses of \$73,500 at Star Gold Coast and \$130,972 at Treasury Brisbane. Star Qld did not know the source of Customer 103's cash. When asked, Customer 103 only implied that the cash came from his bank account: SMR dated 27 November 2018.

On 30 November 2018, Customer 103 waited in line at a cashier desk to exchange chips for cash. Customer 103 allowed other customers to proceed ahead of him as his transaction would take some time. At this time, another Star Qld customer approached the cashier. Customer

103 spoke to the customer and asked if he could buy \$30,000 in chips from him. The customer agreed and Customer 103 purchased the chips from him. As Customer 103 walked away, he informed the cashier that he had given the customer the cash and that it was easier that way. Customer 103 then proceeded to buy-in at a gaming table with \$25,000 in chips. Star Qld did not know if Customer 103 had any connection to the customer or if the meeting was pre-arranged. Star Qld considered that Customer 103 may have been waiting in the queue deliberately, to transact with the customer and avoid reporting of the cash: SMR dated 3 December 2018.

Large and suspicious cash transactions in December 2018

On 5 December 2018, Customer 103 presented \$75,000 in cash at Star Qld to be deposited into his FMA. Customer 103 carried the cash in a plastic shopping bag which itself was contained in a green reusable shopping bag. The cash was mostly comprised of \$50 and \$100 notes. Customer 103 took \$15,000 in chips and said he would return for the balance after the count was finished. Customer 103 discarded the plastic shopping bag and the reusable shopping bag.

Star Qld staff deposited the remaining cash (i.e. \$60,000) into Customer 103's FMA as he did not return for some time. Customer 103 returned to the cashier very early the next morning. Customer 103 exchanged \$15,000 in chips for cash and withdrew \$60,000 in cash from his FMA. Star Qld retrieved the two shopping bags and an Allen key that was found within: SMR dated 6 December 2018.

- g. Customer 103 and persons associated with him transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and plastic bags and boxes at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 1 December 2016 and 14 November 2018, Star Sydney gave the AUSTRAC CEO 51 TTRs totalling \$2,043,635 involving Customer 103, including:

- a. 17 TTRs detailing account deposits totalling \$720,000;
- b. three TTRs detailing account withdrawals totalling \$257,400;
- c. 30 TTRs detailing chip and cash exchanges totalling \$1,006,235;
and
- d. one TTR detailing other monetary value in totalling \$60,000.

Summary

Between 12 December 2016 and 13 November 2018, Customer 103 and persons associated with him were engaged in large and

suspicious cash transactions at Star Sydney totalling at least \$1,336,070 on at least 22 occasions.

Large and suspicious cash transactions in 2016

On 12 December 2016, Customer 103 presented \$60,000 in cash at Star Sydney. The cash was comprised of \$50 notes in bundles of \$5,000, bound together with elastic bands. Customer 103 exchanged the \$50 notes for \$100 notes. Customer 103 then recorded turnover of \$248,500 with losses of \$16,000 for the day: SMR dated 13 December 2016

On 29 December 2016, Customer 103 exchanged \$69,850 in cash for chips at Star Sydney. The cash was comprised of \$50 notes, bound together with elastic bands in bundles of \$5,000 and \$10,000. Customer 103 then exchanged \$50,000 in chips for cash comprising of only \$100 notes: SMR dated 29 December 2016.

Large and suspicious cash transactions in 2017

On about 29 April 2017, Customer 103 exchanged a total of \$200,000 in cash for chips at Star Sydney. The cash was bound in Star casino straps. Customer 103 recorded turnover of \$387,450 and a loss of \$31,600. Following play, Customer 103 exchanged \$105,000 in chips for cash.

Large and suspicious cash transactions in 2018

On 11 February 2018, Customer 103 made three cash deposits totalling \$120,000 into his account at Star Sydney within 15 minutes of each other. Customer 103 then recorded losses of \$18,000 at Star Sydney. Star Qld noted that on 12 February 2018, Customer 103 transferred \$90,000 from Star Sydney to Star Qld: SMR dated 8 March 2018

On 25 August 2018, Customer 103 attended Star Sydney. At this time Customer 103 presented \$3,820 in cash at a gaming table in the private gaming room. Customer 103 also presented \$15,000 in cash and \$5,400 in chips to be deposited into his FMA. Customer 103 had also transferred \$25,000 to his Star Sydney account from his account at Star Qld: SMR dated 28 August 2018.

On 13 or 14 October 2018, Customer 103 attended Star Sydney. At this time, Customer 103 transferred \$31,000 from his Star Qld account to his Star Sydney account. The funds were sourced from play at Star Qld. Customer 103 also added another \$5,000 cash when he arrived at the Star Sydney. Whilst at Star Sydney, Customer 103 recorded losses of \$50,000. The source of the additional funds (i.e. the difference between the \$31,000 and \$5,000 presented and the \$50,000 lost) was unknown: SMR dated 17 October 2018

Between 11 and 12 November 2018, Customer 103 made four cash deposits totalling \$240,000 into his account at Star Sydney. The first

two deposits were for \$50,000 each. The cash was presented to Star Sydney in a black box. Star Sydney counted the total as \$102,400. However, Customer 103 took back \$2,400 and only wanted to deposit \$100,000. Soon after, Customer 103 deposited another \$90,000 and then a further \$50,000. The cash was comprised of \$50 and \$100 notes bound together with elastic bands. Following the cash deposits, Customer 103 recorded turnover of \$881,300 with losses of \$54,900: SMR dated 12 November 2018

On 12 November 2018, Customer 103 made three cash deposits totalling \$140,000 at Star Sydney. The three transactions took place within ten minutes of each other. The cash was comprised of \$50 notes bound together with elastic bands and held in a branded plastic bag.

On the morning of 13 November 2018, Customer 103 requested \$200,000 in cash from his account. Customer 103 also transferred \$112,000 to his Australian bank account. Customer 103 recorded turnover of \$2,000,300 and winnings of \$68,300: SMR dated 13 November 2018

h. between October 2017 and December 2018, Customer 103 engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Qld, including:

i. refining;

Particulars

See paragraph 25 above.

For example, Customer 103 exchanged small denomination notes for \$100 notes on at least four occasions totalling \$155,400.

See particulars at paragraph 2490.f.

ii. structuring;

Particulars

For example, Customer 103 conducted transactions in amounts under \$10,000 to avoid reporting thresholds on at least 11 occasions totalling at least \$57,020.

See particulars at paragraph 2490.f.

iii. cashing-in large value chips with little or no evidence of play;

Particulars

For example, Customer 103 cashed in large amounts of chips on at least eight occasions totalling \$471,842 with little or no evidence of play.

See particulars at paragraph 2490.f.

iv. use of chips and quick turnover of money (without betting); and

Particulars

For example, Customer 103 cashed in large amounts of chips on at least 13 occasions totalling \$763,759 with little or no evidence of play.

See particulars at paragraph 2490.f.

- v. use of casino accounts and facilities;

Particulars

For example, Customer 103 frequently transacted through his Star Qld accounts on at least 16 occasions totalling \$693,700.

See paragraph 25 above.

See particulars to paragraphs 2490.e and 2490.f.

- i. by December 2018, Customer 103 had engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Sydney, including:

- i. refining;

Particulars

See paragraph 25 above.

For example, Customer 103 exchanged small denomination notes for \$100 notes on at least one occasion totalling approximately \$60,000.

See particulars at paragraph 2490.g.

- ii. cashing-in large value chips with little or no evidence of play;

Particulars

See paragraph 25 above.

For example, Customer 103 cashed in large amounts of chips on at least two occasions totalling \$155,000 with little or no evidence of play.

See particulars at paragraph 2490.g.

- iii. use of chips and quick turnover of money (without betting); and

Particulars

For example, Customer 103 had cashed in large amounts of chips on at least four occasions totalling \$140,000 with little or no evidence of play.

See particulars at paragraph 2490.g.

- iv. use of casino accounts and facilities at Star Sydney;

Particulars

For example, Customer 103 had frequently transacted through his Star Sydney accounts on at least five occasions totalling \$458,000.

See particulars at paragraphs 2490.d and 2490.g.

- j. Customer 103 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

From at least 21 March 2018, Customer 103 had access to private gaming rooms at Star Qld.

- k. Customer 103 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

From at least 25 August 2018, Customer 103 had access to private gaming rooms at Star Sydney.

- l. Star Sydney provided information to law enforcement agencies regarding Customer 103's gaming activity and transactions;

Particulars

Star Sydney received three requests from a law enforcement agency in relation to Customer 103 in April and November 2018.

In August and September 2017, and November and December 2018, Star Sydney provided information to a law enforcement agency in relation to Customer 103 on its own initiative.

- m. Star Qld provided information to law enforcement agencies regarding Customer 103's gaming activity and transactions;

Particulars

In October 2017, Star Qld received a request for information from a law enforcement agency in relation to Customer 103.

Between March and December 2018, Star Qld received multiple requests for information from three law enforcement agencies in relation to Customer 103.

On 7 March 2018, Star Qld was advised by a law enforcement agency of suspicions that funds used by Customer 103 may have come from drugs transactions.

- n. in December 2018, Customer 103 was arrested and charged by a law enforcement agency in relation to money laundering activities at Star Sydney and Star Gold Coast; and

Particulars

On about 11 December 2018, Customer 103 was arrested by a law enforcement agency and was charged with dealing with proceeds of crime over \$100,000.

Customer 103 pleaded guilty to this offence.

- o. Star Sydney and Star Qld did not have adequate reason to believe that Customer 103's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 103 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star Sydney and Star Qld recorded Customer 103's occupation as 'Drivers (Automobile)' or limo driver.

Customer 103 frequented Treasury Brisbane and Star Gold Coast in a red mustang.

In 2017 and 2018, Customer 103:

- a. was involved in 281 threshold transactions totalling \$6,662,059 at Star Qld;
- b. was involved in 51 threshold transactions totalling \$2,043,635 at Star Sydney;
- c. recorded turnover exceeding \$34 million at Star Qld; and
- d. recorded turnover exceeding \$15 million at Star Sydney.

Customer 103's gaming and transactional activity was inconsistent with Star Sydney's and Star Qld's understanding of his source of funds and source of wealth: see particulars to paragraphs 2490.f and 2490.g.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 103

2491. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 103 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 103.
2492. It was not until 20 December 2018 that Customer 103 was rated high risk for the purposes of the Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 1 December 2016, Customer 103 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 14 December 2016, Customer 103 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 21 March 2018, Customer 103 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 21 December 2018, Customer 103 was rated critical risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 103's transactions

2493. At no time between 30 November 2016 and December 2018 did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 103's transactions because:
- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 103, Star Sydney's and Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 103 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 103's KYC information

2494. Star Sydney and Star Qld did not review, update and verify Customer 103's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 103's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 103's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 103's source of wealth and source of funds were not legitimate: see *Customer 103's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 103's KYC information on and from 30 November 2016 to December 2018, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 103.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 2499 below.

Failure to apply appropriate due diligence suited to Customer 103's high ML/TF risks

2495. Had Star Sydney and Star Qld conducted ongoing customer due diligence by:
- identifying and assessing the ML/TF risks posed by Customer 103 appropriately;
 - applying appropriate risk-based transaction monitoring to Customer 103; and
 - reviewing and updating Customer 103's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 103 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 103*.

ECDD triggers in respect of Customer 103

2496. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 103 following any ECDD triggers in respect of Customer 103.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2497. Customer 103:
- was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 10 October 2017 and 6 December 2018, Star Qld gave the AUSTRAC CEO 24 SMRs with respect to Customer 103.

- was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

In December 2016 and December 2018, Star Sydney gave the AUSTRAC CEO a total of four SMRs with respect to Customer 103.

2498. Each matter pleaded in paragraph 2497 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2499. Star Sydney and Star Qld did not carry out appropriate risk-based ECDD measures with respect to Customer 103 following an ECDD trigger because:

- a. at no time prior to 13 December 2018 did Star Sydney and Star Qld apply the ECDD Programs to Customer 103; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

- b. prior to 13 December 2018, Customer 103 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's or Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810.

On about 11 December 2018, Customer 103 was arrested by a law enforcement agency and was charged with dealing with proceeds of crime over \$100,000.

On 13 December 2018, Star Qld and Star Sydney issued a group-wide WOL in respect of Customer 103 at the direction of the General Manager, Compliance and Responsible Gambling for 'undesirable behaviour'.

It was not until 21 December 2018 that Customer 103 was rated high risk for the purpose of the Act and Rules, after Customer 103 was arrested.

Contravention of s36 of the Act in respect of Customer 103

2500. By reason of the matters pleaded from paragraphs 2485 to 2499 above, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 103 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2501. By reason of the matters pleaded at paragraph 2500, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to December 2018 with respect to Customer 103.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 104

2502. Customer 104 was a customer of Star Qld during the relevant period. Between 2016 and 2022, Star Qld recorded turnover exceeding \$32 million for Customer 104.

Particulars

Customer 104 was a customer of Star Qld from at least 23 February 2016.

On 22 April 2022, Star Qld issued a WOL in respect of Customer 104.

2503. Star Qld provided Customer 104 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 22 May 2018, Star Qld opened an FMA for Customer 104 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 104 remitted funds from her FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 104's risk profile.

2504. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 104.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 104's risk profile

2505. On and from 30 November 2016, Customer 104, and the provision of designated services to Customer 104 by Star Qld, posed higher ML/TF risks because of the following red flags:

- a. Customer 104 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2022, Star Qld recorded a high individual rated turnover of \$32,333,990 for Customer 104;

Particulars

See paragraph 752 above.

In 2016, Customer 104's individual rated gaming turnover was \$5,867,738.

In 2017, Customer 104's individual rated gaming turnover was \$6,606,611.

In 2018, Customer 104's individual rated gaming turnover was \$5,195,687.

In 2019, Customer 104's individual rated gaming turnover was \$4,742,339.

In 2020, despite the COVID-19 pandemic closures, Customer 104's individual rated turnover remained high.

In 2020, Customer 104's individual rated gaming turnover was \$5,368,047.

In 2021, Customer 104's individual rated gaming turnover was \$4,464,497.

In 2022, Customer 104's individual rated gaming turnover was \$89,071.

- b. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 104 by remitting large amounts of money within the casino environment via her accounts;

Particulars

See paragraphs 347 to 349 above.

For example, on 24 May 2018, Star Qld facilitated a transfer of \$26,000 from Customer 104's FMA at Treasury Brisbane to Star Sydney.

- c. from at least 2 February 2021, Star Qld was aware that Customer 104 was part of a group of customers, including Customer 105 and Customer 106, conducting transactions involving the receipt and movement of small denominations of cash with no visible lawful purpose:
- i. the group of customers, including Customer 104, engaged in suspicious conduct at Star Qld;

Particulars

Red flags reflective of higher ML/TF risks included:

- a. following each other between gaming tables and to the cashier desk: SMRs dated 10 December 2020, 2 February 2021, 4 February 2021, 15 April 2021, 14 June 2021;
- b. exchanging cash and chips on multiple gaming tables or cashiers across several transactions: SMRs dated 2 February 2021, 4 February 2021, 19 February 2021, 26 February 2021, 17 March 2021, 9 April 2021, 14 June 2021, 23 June 2021;
- c. handing chips or cash to one another: SMRs dated 10 December 2020, 2 February 2021, 4 February 2021, 19 February 2021, 26

February 2021, 9 April 2021, 15 April 2021, 29 April 2021, 14 June 2021, 23 June 2021;

- d. handing unknown items to one another: SMRs dated 11 January 2021, 19 February 2021, 15 April 2021, 14 June 2021;
 - e. attempting to deposit funds into one another's FMA: SMR dated 16 April 2021;
 - f. exchanging smaller denomination chips for higher denomination chips: SMRs dated 10 December 2020, 19 February 2021, 9 April 2021, 29 April 2021;
 - g. using small denomination notes: SMRs dated 4 December 2020, 7 January 2021, 28 January 2021, 4 February 2021, 19 February 2021, 26 February 2021, 15 April 2021, 14 June 2021, 23 June 2021, 20 July 2021;
 - h. engaging in minimal gaming activities which did not support transactional activity: SMRs dated 10 December 2020, 11 January 2021, 4 February 2021, 19 February 2021, 26 February 2021, 17 March 2021, 16 April 2021, 29 April 2021, 20 July 2021;
 - i. placing chips or cash in bags: SMRs dated 10 December 2020, 19 February 2021;
 - j. presenting cash from satchels and shopping bags: SMRs dated 10 December 2020, 11 January 2021, 2 February 2021, 19 February 2021, 9 April 2021;
 - k. presenting cash bundled with elastic bands: SMR dated 11 January 2021;
 - l. using a foreign exchange service to explain the source of funds: SMR dated 10 December 2020; and
 - m. providing various and inconsistent explanations for the source of funds: SMRs dated 15 April 2021, 16 April 2021, 29 April 2021, 20 July 2021.
- ii. Star Qld formed suspicions in respect of the conduct of the group of customers;

Particulars

Star Qld considered it suspicious that:

- a. the group of customers' transactions were not supported by gaming activity: SMRs dated 26 February 2021, 17 March 2021;
- b. the group of customers had a steady source of large amounts of cash that was not from the casino, including large amounts of \$50 notes: SMRs dated 2 February 2021, 23 June 2021;
- c. the group appeared to be using smaller amounts of cash across several tables in order to avoid questions about its source: SMRs dated 2 February 2021, 14 June 2021;

- d. the group appeared to be using various methods and casino services to break up transactions and make it difficult to track the origin and destination of the cash: SMRs dated 4 February 2021, 17 March 2021;
 - e. the size of the group continued to expand: SMR dated 17 March 2021;
 - f. the group quickly adapted to the casino's processes and were conducting transactions to dilute and disguise the source of funds: SMR dated 17 March 2021;
 - g. the group appeared to be using EFTPOS facilities to transact a significant amount of funds: SMR dated 2 February 2021;
 - h. the group went to great lengths to deliver and move funds around the casino: SMR dated 15 April 2021;
 - i. there was no known connection between the members of the group: SMR dated 29 April 2021; and
 - j. the group may have been structuring transactions to avoid reporting requirements and questions about the source of cash: SMRs dated 14 June 2021, 23 June 2021, 14 February 2022.
- iii. the group of customers, including Customer 104, engaged in a series of large cash, chip and other exchange transactions with no visible lawful purpose;

Particulars

Cash to chip transactions

Between 28 January 2020 and 21 June 2021, Customer 104 exchanged cash to chips with Star Qld in amounts below \$10,000 on three occasions totalling \$8,500.

Between 8 December 2020 and 10 June 2021, Customer 104 exchanged cash to chips with Star Qld in amounts above \$10,000 on 13 occasions totalling \$318,950.

Between 28 January 2021 and 21 June 2021, other members of the group of customers associated with Customer 104 exchanged cash to chips with Star Qld in amounts below \$10,000 on 17 occasions totalling \$77,200.

Between 8 December 2020 and 17 July 2021, other members of the group of customers associated with Customer 104 exchanged cash to chips transactions with Star Qld above \$10,000 on 15 occasions totalling \$622,950.

Chip to cash transactions

Between 29 January 2021 and 10 June 2021, Customer 104 exchanged chips to cash with Star Qld in amounts above \$10,000 on five occasions totalling \$138,348.

On 15 April 2021, other members of the group of customers associated with Customer 104 exchanged chips to cash with Star Qld in amounts above \$10,000 on one occasion totalling \$50,000.

Cash to cash transactions

Between 8 January 2021 and 21 June 2021, Customer 104 exchanged, or was considered by Star Qld to have exchanged, cash to cash with other customers on 12 occasions totalling \$231,500.

Between 28 January 2021 and 19 April 2021, other members of the group of customers associated with Customer 104 exchanged cash to cash with other customers on three occasions totalling \$30,000.

Chip for chip transactions

On 8 December 2020, Customer 104 exchanged chips for chips with Star Qld above \$10,000, totalling \$25,000.

Between 8 December 2020 and 21 June 2021, Customer 104 exchanged chips for chips with other customers on 11 occasions totalling \$139,500.

Between 28 January 2021 and 21 June 2021, other members of the group of customers associated with Customer 104 exchanged chips to chips with other customers on 11 occasions totalling \$89,400.

Other transactions

On 28 January 2021, members of the group of customers, of which Customer 104 was a part, used EFTPOS and bank cheques to purchase \$60,000 in chips.

- iv. the group of customers engaged in a series of large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

See paragraph 2505.c.iii above.

Large and unusual transactions in 2018

On 22 May 2018, Customer 104 opened an FMA at Star Qld and deposited \$15,200. Customer 104 had recorded losses of \$65,000 since the start of 2018. Star Qld understood Customer 104's occupation to be as a 'housewife'. Star Qld considered that Customer 104's losses were not commensurate with her stated occupation and that the deposit was not supported by winnings: SMR dated 23 May 2018.

Large and unusual transactions in 2020

On 5 November 2020, Customer 104 presented \$50,000 cash, which was comprised of mostly \$100 notes, at Star Qld to be exchanged for chips. Another Star Qld customer, Customer 106, was present during

the transaction. Customer 104 then handed all of the chips to Customer 106. Customer 106 and Customer 104 then proceeded to play at the gaming tables. Customer 104 recorded a loss of \$200 and Customer 106 recorded a loss of \$41,500 for the day. Star Qld considered the purchase and handover of the chips to be unusual: SMR dated 9 November 2020.

Large and unusual transactions in 2021

On 19 January 2021, Customer 104 exchanged \$5,000 in cash for chips at Star Qld. During the day, Customer 104 recorded had a win of \$1,500 but Star Qld was unaware of the source of the other \$3,500 in cash. Later in the day, Customer 104 presented \$10,000 in chips to be exchanged for cash at Star Qld. Since 30 December 2020, Star Qld had given the AUSTRAC CEO four TTRs totalling \$83,000 relating to chip purchases by Customer 104. Customer 104's recorded play did not support this amount. Star Qld considered Customer 104's behaviour in the months prior to the SMR to be unusual: SMR dated 20 January 2021.

On 19 January 2021, another Star Qld customer, Customer 106, presented \$60,410 in chips and requested \$50,410 in cash and a casino cheque for \$10,000. Customer 104 was present at the time of the transaction. Star Qld staff noticed that Customer 106 was also carrying a chip worth \$25,000. Customer 106 had previously attempted to procure a casino cheque at Star Qld. However, that cheque was declined as his play at that time did not support the amount of chips presented. Star Qld believed that Customer 106 had sought a casino cheque for only his recorded winnings of \$10,400. Star Qld also considered that Customer 106 may have been trying to trigger TTRs when he cashed out so that it appeared as though he was recording winnings and could justify the source of the cash: SMR dated 20 January 2021.

On 21 January 2021, Customer 105, who was a known associate of Customer 104, exchanged \$50,010 in chips for cash. Star Qld considered that this was an unusual amount of chips to cash out. Further, Customer 105's gaming activity did not support the cash transaction. Star Qld noticed that the amount exchanged was similar in value to cash that had been paid out to Customer 106 the previous day. Customer 106 was known to be an associate of Customer 105. Customer 104, Customer 73 and two other Star Qld customers were with Customer 106 when the transaction took place: SMR dated 22 January 2021.

Large and unusual transactions in 2022

On 12 February 2022, Customer 104 exchanged a total of \$30,000 in cash for chips at Star Qld. These transactions took place variously at the cashier desk and at gaming tables. Customer 104 staggered the exchanges over a period of several hours and recorded minimal play

between transactions. At the end of play, Customer 104 exchanged \$30,000 in chips for cash. Customer 104 advised Star Qld that her occupation was 'home duties.' Star Qld considered it unusual that Customer 104 would purchase multiple chips in circumstances where she had several unused chips in her possession. Star Qld considered that Customer 104 may have been structuring the exchanges to avoid reporting of the cash brought into the casino. The TTR in respect of the \$30,000 cash exchange could then suggest that the funds were played and won at the casino: SMR dated 14 February 2022.

- d. Customer 104, and persons associated with her, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands contained in shopping bags and satchels at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 2505.c above.

Between 7 August 2017 and 31 August 2021, Star Qld gave the AUSTRAC CEO 30 TTRs detailing incoming payments to Customer 104 totalling \$638,150 which comprised account deposits and chip exchanges.

Between 19 February 2018 and 17 February 2022, Star Qld gave the AUSTRAC CEO 14 TTRs detailing outgoing payments from Customer 104 totalling \$305,478 which comprised account withdrawals and chip exchanges.

- e. Customer 104, and persons associated with her, engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Qld, including structuring;

Particulars

See paragraph 25 above.

See paragraphs 2505.c and 2505.d above.

On the following occasions, Customer 104 and persons associated with her were involved in transactions indicative of the ML/TF typology of structuring:

- a. on 3 June 2021, Star Qld considered that transactions involving a group of customers, including Customer 104, and totalling \$40,000, were structured to avoid reporting requirements and questions about the source of cash: SMR dated 14 June 2021;
- b. on 18 June 2021, Star Qld considered that transactions involving a group of customers, including Customer 104, were structured to avoid reporting requirements: SMR dated 23 June 2021; and
- c. on 12 February 2022, Star Qld considered that transactions conducted by Customer 104 may have been structured to avoid reporting requirements and that a TTR had been sought by

Customer 104 in order to give the impression that the funds received were won at the casino: SMR dated 14 February 2022.

- f. between November 2020 and January 2022, Star Qld provided information in respect of Customer 104 and persons associated with her, including Customer 106 and Customer 105 to law enforcement agencies;

Particulars

On 9 December 2020, Star Qld provided information to a law enforcement agency regarding its suspicions in respect of possible money lending or money laundering conducted by Customer 104 or persons associated with her, including Customer 106 and Customer 105.

Between February 2021 and June 2021, Star Qld provided information in respect of Customer 104, and persons associated with her, including Customer 106 and Customer 105, to another law enforcement agency.

On 12 January 2022, Star Qld provided information in respect of transactions involving Customer 104 to two law enforcement agencies.

- g. in December 2021, Star received a law enforcement enquiry in respect of Customer 104 and persons associated with her, including Customer 105 and Customer 106;

Particulars

On 2 December 2021, Star Qld received a request for information in respect of Customer 104 and persons associated with her, including Customer 106 and Customer 105. At that time, Customer 105 had been excluded from Star for problem gambling.

- h. Customer 104 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 104 had access to private gaming rooms at Star Qld including the Suite, Chairman's room, the Cage, the Sovereign Room and the Club Conrad.

- i. Star Qld did not have adequate reason to believe that Customer 104's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 104 at Star Qld.

Particulars

See paragraph 808 above.

By at least 23 May 2018, Star Qld understood that Customer 104 was a housewife. By at least 14 February 2022, Customer 104 confirmed with Star Qld that her occupation was in respect of home duties.

Between 2016 and 2022, Customer 104 received high value gambling services at Star Qld and recorded a cumulative turnover exceeding \$32 million.

From December 2020, Customer 104, in consort with a group of customers, engaged in transactions involving high volumes of cash and cash in small notes. These transactions included those indicative of the ML/TF typology of structuring.

At no time was Star Qld's understanding of Customer 104's source of wealth or source of funds sufficient to explain the high value gambling services received by her at Star Qld.

Star Qld's determination of the ML/TF risks posed by Customer 104

2506. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 104 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 104.
- a. On and from 30 November 2016, Customer 104 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 104's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 104 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 23 May 2018, Customer 104 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 10 December 2020, Customer 104 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 21 February 2022, Customer 104 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 104's transactions

2507. At no time did Star Qld apply appropriate transaction monitoring to Customer 104's transactions because, where Star Qld conducted any transaction monitoring of transactions involving Customer 104, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 104's KYC information

2508. Star Qld did not review, update and verify Customer 104's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 104's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 104's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 104's source of wealth and source of funds were not legitimate: see *Customer 104's risk profile*.

- d. to the extent that Star Qld reviewed Customer 104's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 104.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 104's high ML/TF risks

2509. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 104 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 104; and
- c. reviewing and updating Customer 104's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 104 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 104*.

ECDD triggers in respect of Customer 104

2510. Star Qld was required to apply the ECDD Programs to Customer 104 following any ECDD triggers in respect of Customer 104.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2511. Customer 104 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 23 May 2018 and 4 February 2021, Star Qld gave the AUSTRAC CEO 21 SMRs with respect to Customer 104.

2512. The matter pleaded in paragraph 2511 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2513. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 104 following an ECDD trigger because:

- a. on each occasion prior to 22 April 2022 that Star Qld conducted ECDD in respect of Customer 104 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 104 and the provision of designated services to Customer 104 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 20 April 2021, 30 April 2021 and 16 June 2021, Star Qld conducted ECDD in respect of Customer 104.

On each occasion, Star did not locate any adverse findings in respect of Customer 104.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 104's higher ML/TF risks, including suspicions formed by Star's investigations team regarding Customer 104's activity at Star Qld.

By 4 February 2021, an investigations report was prepared outlining suspicions regarding a group of customers including Customer 104, Customer 106 and Customer 105:

- a. one member of the group, Person 24, was imprisoned for smuggling illegal tobacco and tax fraud;

- b. the group's activities increased following Person 24's conviction;
- c. at least \$850,000 in cash had been passed through the group since the end of 2020, however the true value could be 'a lot more';
- d. the group had modified its behaviour each time Star Qld had begun to ask questions about where the cash originated; and
- e. the group had adopted and used various means, methods and services that Star Qld provided to attempt to make it difficult to track who and how much money was coming into and out of the casino.

By 2 June 2021, an investigations report was updated in respect of the group of customers including Customer 106, Customer 105 and Customer 104, outlining suspicions that:

- a. there was doubt as to the legitimacy of the source of the funds being brought to Star Qld;
- b. there was evidence of potential structuring, layering of transactions and reporting avoidance; and
- c. Star suspected that the group's activity had increased following the conviction of a known associate of the group, Person 24, for smuggling illegal tobacco and tax fraud. Person 24 had also been charged with another money lending and theft incident.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 104's source of funds or source of wealth, in circumstances where:

- a. by at least 23 May 2018, Star Qld understood that Customer 104 was a housewife. By at least 14 February 2022, Customer 104 confirmed with Star Qld that her occupation was in respect of home duties; and
- b. between 2016 and 2022, Customer 104 received high value gambling services at Star Qld and recorded a cumulative turnover exceeding \$32 million.

At no time did Star Qld have a basis to accept that its understanding of Customer 104's source of wealth or source of funds justified the high value gambling services received by her at Star Qld.

By reason of the matters set out above, there were real risks that Customer 104's source of wealth and source of funds were not legitimate: see *Customer 104's risk profile*.

On 22 April 2022, Star Qld issued a WOL in respect of Customer 104.

- b. Customer 104 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 22 April 2022 that Customer 104 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 104 and the provision of designated services to Customer 104, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Decisions to continue to do business with Customer 104

On 22 April 2021, 30 April 2021 and 16 June 2021, on the basis of the ECDD conducted in respect of Customer 104, the Due Diligence Program Manager determined to maintain a customer relationship with Customer 104.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 104's source of wealth (r 15.10(2)(a) of the Rules), having regard to her high turnover despite her stated occupation as a housewife;
- b. Customer 104's source of funds (r15.10(2)(b) of the Rules), having regard to the large volume of cash available to Customer 104 and the group of customers of which she was a part.

There is no record in Star's due diligence records that the Due Diligence Manager took into consideration the report prepared by Star's investigations team regarding Customer 104's activity at Star Qld.

Investigations reports

In June 2021, the Star investigation team prepared a report summarising its suspicions with respect to the activities of Customer 106, Customer 105 and Customer 104, along with others. The report was distributed to the AML/CTF Compliance Officer and Group General Counsel. By March 2022, no response had been received from the recipients to the Star investigations team.

In September 2021, Star senior management, including the AML/CTF Compliance Officer, were provided with the May 2021 report on Customer 106, Customer 105 and Customer 104, along with others. By March 2022, no response had been received from the recipients to the Star investigations team.

On or about 12 January 2022, a summary report regarding a group of customers including Customer 104 was prepared.

JRAM

In March 2022, Customer 106, Customer 105, Customer 104 and others were discussed at a JRAMM.

Following the meeting, on 30 March 2022, a Star Qld investigations manager prepared a further report regarding a group of customers including Customer 104, summarising the history of the investigations into Customer 104 and the group she was associated with, referrals to law enforcement, prior notification of suspicions to Star senior management in May 2021 and September 2021.

The report recommended that Star issue Group-wide WOLs in respect of Customer 104 and others on the basis of the observed suspicious activity summarised in the report.

WOL

On 22 April 2022, Star Qld issued a WOL in respect of Customer 104.

Contravention of s36 of the Act in respect of Customer 104

2514. By reason of the matters pleaded from paragraphs 2502 to 2513, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 104 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2515. By reason of the matters pleaded at paragraph 2514, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 22 April 2022 with respect to Customer 104.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 105

2516. Customer 105 was a customer of Star Qld during the relevant period. Between 2016 and 2021, Star Qld recorded turnover exceeding \$310 million for Customer 105.

Particulars

Customer 105 was a customer of Star Qld from at least 19 August 2012.

On 6 October 2021, Star Qld issued a WOL in respect of Customer 105 for problem gambling.

2517. Star Qld provided Customer 105 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 28 December 2015, Star Qld opened an FMA for Customer 105 which was closed on 5 October 2021 (item 11, table 3, s6 of the Act).

On 29 November 2020, Star Qld opened a CWA for Customer 105 which was closed on 5 October 2021 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 105 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 105's risk profile below.

2518. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 105.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 105's risk profile

2519. On and from 30 November 2016, Customer 105, and the provision of designated services to Customer 105 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 105's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 105 had the following risk history:
- i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 105;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on five occasions between 29 October 2013 and 18 June 2016.

The SMRs reported that Customer 105 engaged in transactions and gaming activity that was not supported by her stated source of wealth.

- ii. Customer 105 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded high individual rated turnover totalling \$8,656,892 for Customer 105;

Particulars

See paragraph 752 above.

- iii. Customer 105 transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

Between 14 June 2013 and 4 November 2016, Star Qld gave the AUSTRAC CEO 112 TTRs in respect of Customer 105 totalling \$1,869,898, which comprised:

- a. 99 outgoing TTRs totalling \$1,724,898;
 - b. 13 incoming TTRs totalling \$145,000;
 - c. \$1,447,351 in chip or cash exchanges;
 - d. \$357,000 in account deposits or withdrawals; and
 - e. \$65,547 in EGM payouts.
- iv. on and from October 2013, Customer 105 engaged in large and suspicious transactions and gaming activity which Star Qld considered was not commensurate with her stated source of wealth;

Particulars

In the three months leading up to October 2013, Customer 105 had recorded a loss of \$96,825. Star Qld considered these losses to be unusual in circumstances where Customer 105's stated occupation was 'home duties': SMR dated 29 October 2013.

On 15 May 2014, Customer 105 exchanged \$9,000 in chips for cash. Customer 105's recorded play did not support this transaction. Star Qld again acknowledged that Customer 105's stated occupation was 'home duties': SMR dated 12 June 2014.

In the three months leading up to August 2014, Customer 105 had recorded a loss of \$170,654. Customer 105 had not recorded any significant wins to account for these losses. Star Qld again noted that Customer 105's stated occupation was 'home duties': SMR dated 15 August 2014.

On 1 August 2015, Customer 105 exchanged a \$5,120 EGM voucher for cash. However, Star Qld was aware that another customer's membership card was in the EGM when the collect button was pressed. Star Qld was unaware of any relationship between the other customer and Customer 105: SMR dated 4 August 2015.

In the two months leading up to November 2016, Customer 105 had recorded a loss of \$209,845. Customer 105 had not recorded any significant wins to account for these losses. Star Qld noted that Customer 105 had advised that she was self-employed, and that the amount of the losses were unusual: SMR dated 18 June 2016.

Customer 105's risk profile from 30 November 2016

- b. Customer 105 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high individual rated turnover totalling \$310,453,305 for Customer 105;

Particulars

See paragraph 752 above.

In 2016, Customer 105's individual rated turnover was \$22,634,034.

In 2017, Customer 105's individual rated turnover was \$13,186,679.

In 2018, Customer 105's individual rated turnover was \$19,875,230.

In 2019, Customer 105's individual rated turnover escalated significantly to \$88,374,950.

In 2020, when the COVID-19 pandemic closures commenced, Customer 105's turnover remained very high.

In 2020, Customer 105's individual rated turnover was \$81,821,265.

In 2021, Customer 105's individual rated turnover was \$84,561,149.

- c. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 105 by remitting large amounts of money into, out of, and within the casino environment via her accounts;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 10 March 2020, Star Qld received a telegraphic transfer of \$10,000 from a third party's Australian bank account, which it made available to Customer 105's FMA at Treasury Brisbane.

The above transaction was conducted through the Star Patron account channel.

Remittances into the casino environment

See paragraph 327.

Customer 105 regularly transferred money via EFTPOS transactions from her debit card, which were made available by Star Qld to her FMA: SMRs dated 16 June 2021, 28 September 2021, 6 October 2021, 6 October 2021.

The above transactions were conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

Between 10 October 2019 and 11 March 2020, Star Qld facilitated five telegraphic transfers totalling \$151,500 from Customer 105's FMA at Treasury Brisbane to Australian bank accounts.

On 14 October 2019, Star Qld facilitated a telegraphic transfer of \$80,000 from Customer 105's FMA at Treasury Brisbane to another Australian casino.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

On 1 August 2018 and 28 July 2019, Star Qld facilitated two transfers totalling \$67,000 from Star Gold Coast to Treasury Brisbane, both of which were made available to Customer 105's FMA at Treasury Brisbane.

Between 8 August 2018 and 30 August 2019, Star Qld facilitated five transfers totalling \$140,025 from Treasury Brisbane to Star Gold Coast, each of which was made available to Customer 105's FMA at Star Gold Coast.

- d. from at least 2 February 2021, Star Qld was aware that Customer 105 was part of a group of customers, including Customer 104 and Customer 106, conducting transactions involving the receipt and movement of small denominations of cash with no visible lawful purpose;
 - i. the provision of designated services to the group of customers, including Customer 105, by Star Qld raised red flags reflective of higher ML/TF risks;

Particulars

Red flags reflective of higher ML/TF risks included:

- a. following each other from between gaming tables and to the cashier desk: SMRs dated 10 December 2020, 2 February 2021, 4 February 2021, 14 June 2021;
- b. exchanging cash with chips on multiple gaming tables or cashiers in several transactions: SMRs dated 2 February 2021, 9 April 2021, 14 June 2021, 23 June 2021;
- c. handing chips or cash to one another: SMRs dated 10 December 2020, 2 February 2021, 4 February 2021, 29 April 2021, 14 June 2021, 23 June 2021;
- d. handing unknown items to one another: SMRs dated 11 January 2021, 14 June 2021;
- e. attempting to deposit funds into one another's FMA: SMR dated 16 April 2021;

- f. exchanging smaller denomination chips for higher denomination chips: SMRs dated 10 December 2020, 4 February 2021, 29 April 2021;
 - g. using small denomination notes: SMRs dated 4 February 2021, 14 June 2021, 23 June 2021;
 - h. engaged in minimal gaming activities which did not support the amounts exchanged: SMRs dated 10 December 2020, 11 January 2021, 4 February 2021, 16 April 2021, 29 April 2021;
 - i. placing chips or cash in bags: SMRs dated 10 December 2020;
 - j. presenting cash from satchels and shopping bags: SMRs dated 10 December 2020, 11 January 2021, 2 February 2021, 9 April 2021;
 - k. presenting cash bundled with elastic bands: SMR dated 11 January 2021;
 - l. using a foreign exchange service to explain the source of funds: SMR dated 10 December 2020; and
 - m. providing various and inconsistent explanations for the source of funds: SMRs 16 April 2021, 29 April 2021.
- ii. Star Qld formed suspicions in respect of the conduct of the group of customers; and

Particulars

Star Qld considered it suspicious that:

- a. the group of customers' transactions were not supported by gaming activity: SMRs dated 26 February 2021, 17 March 2021;
- b. the group of customers had a steady source of large amounts of cash that was not from the casino, including large amounts of \$50 notes: SMRs dated 2 February 2021, 23 June 2021;
- c. the group appeared to be using smaller amounts of cash across several tables in order to avoid questions about its source: SMRs dated 2 February 2021, 14 June 2021;
- d. the group appeared to be using various methods and casino services to break up transactions and make it difficult to track the origin and destination of the cash: SMRs dated 4 February 2021, 17 March 2021;
- e. the size of the group continued to expand: SMR dated 17 March 2021;
- f. the group quickly adapted to the casino's processes and were conducting transactions to dilute and disguise the source of funds: SMR dated 17 March 2021;

- g. the group appeared to be using EFTPOS facilities to transact a significant amount of funds: SMR dated 2 February 2021;
 - h. the group went to great lengths to deliver and move funds around the casino: SMR dated 15 April 2021;
 - i. there was no known connection between the members of the group: SMR dated 29 April 2021; and
 - j. the group may have been structuring transactions to avoid reporting requirements and questions about the source of cash: SMRs dated 14 June 2021, 23 June 2021, 14 February 2022.
- iii. the group of customers engaged in a series of large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 21 January 2021, Customer 105, who was a known associate of Customer 104, exchanged \$50,010 in chips for cash. Star Qld considered that this was an unusual amount of chips to cash out. Further, Customer 105's gaming activity did not support the cash transaction. Star Qld noticed that the amount exchanged was similar in value to cash that had been paid out to Customer 106 the previous day. Customer 106 was known to be an associate of Customer 105. Customer 104, Customer 73 and two other Star Qld customers were with Customer 106 when the transaction took place: SMR dated 22 January 2021.

- e. Star Qld was aware that:
- i. Customer 105 and persons associated with her had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. Customer 105 and persons associated with her transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes;

Particulars

Between 28 December 2016 and 5 October 2021, Star Qld gave the AUSTRAC CEO 545 TTRs in respect of Customer 105 totalling \$10,379,888, which comprised:

- a. 312 outgoing TTRs totalling \$7,138,103;
- b. 233 incoming TTRs totalling \$3,241,785;
- c. \$9,578,210 in chip or cash exchanges;
- d. \$568,785 in account deposits or withdrawals; and
- e. \$232,893 in EGM payouts.

Large and unusual transactions in 2019

On 25 June 2019, Customer 105 exchanged \$4,630 in cash for chips at Star Qld. The cash was comprised mostly of \$20 notes. Shortly afterwards, Customer 105 exchanged a further \$10,000 in cash for chips. The cash was comprised of \$50 notes. Soon afterwards, Customer 105 returned with another customer who presented \$30,000 in cash. The cash was comprised of \$50 notes. The customer requested that the cashier count the cash twice and then return \$5,000, which the customer gave to Customer 105. The customer exchanged the balance of the cash for \$25,000 in chips. Star Qld was unaware of the origin of the cash or of the relationship between Customer 105 and the other customer, but believed that the customer owed Customer 105 money: SMR dated 26 June 2019.

On 29 September 2019, a customer, Person 24, exchanged \$70,000 in cash for chips at Star Qld. The cash was comprised of \$100 notes. Person 24 said that he had won the cash at Star Qld, however records did not fully support Person 24 having that much cash. After receiving the chips, Person 24 gave a large amount of the chips to Customer 105. Star Qld was unaware of the connection between Person 24 and Customer 105. Customer 105 did not record any play at Star Qld on that day: SMR dated 30 September 2019.

Large and unusual transactions in 2020

On 17 September 2020, Customer 105 withdrew \$25,000 in chips from her FMA. Later that day, she redeemed a casino cheque for \$49,000. Customer 105 then deposited \$10,000 and \$60,000 into her FMA and withdrew \$70,000. Later that day again, a third party presented \$100,000 in \$50 notes and requested to purchase chips. The customer advised that the cash originated from his family. After the transaction was completed, the third party was observed to meet with Customer 105 at an EGM. The two exchanged text messages and then the third party handed the chips to Customer 105 before leaving the casino with no play recorded. Customer 105 used the chips to gamble: SMR dated 18 September 2020.

On 5 November 2020, Customer 105 exchanged \$30,000 in cash for chips. Customer 105 had retrieved the cash from her car. Star Qld noted that it was unusual for Customer 105 to leave that much cash in an unattended car. Star Qld noted that it was attempted to obtain more information about Customer 105's source of funds, but that Customer 105 was not forthcoming with that information. Customer 105 had variously described herself as a franchisee of an overseas bakery, a media contractor for shopping centres in a foreign country, a clothing manufacturer, an owner of commercial and investment properties and Qld and the beneficiary of her husband's trust: SMR dated 9 November 2020.

Large and unusual transactions in 2021

On 21 April 2021, a Star Qld customer exchanged \$35,600 in cash for chips across seven transactions. The customer only gambled with \$600 in chips. On 22 April 2021, the same customer exchanged \$40,000 in cash for chips across five transactions. No play was recorded with these chips. The customer had been signed in by Customer 105. The two were observed throughout the day. However, no money or chips appeared to have been exchanged: SMR dated 23 April 2021.

On 31 May 2021, a Star Qld customer exchanged \$11,700 in cash for chips. The cash was comprised of \$1,000 in \$20 notes, \$8,500 in \$50 notes and \$2,200 in \$100 notes. The customer played on various tables before she arrived at a table where Customer 105 was playing. Customer 105 appeared to borrow one \$1,000 chip from the customer. After winning the bet, Customer 105 was observed handing \$1,000 in chips back to the customer. Later, the customer appeared to ask for and receive \$15,000 in cash from Customer 105. The customer typed something into her mobile and showed it to Customer 105. The customer then used the cash to purchase \$15,000 in chips and meet another person outside a private gaming room. Customer 105 appeared to give the first customer something. The customer then returned to the private gaming room while Customer 105 left in her car. The customer exchanged \$30,000 in cash for chips. The cash was bundled and comprised \$20,000 in \$50 notes and \$10,000 in \$100 notes with straps. The customer recorded a total loss of \$37,400: SMR dated 9 June 2021.

On 11 June 2021, Customer 105 arrived with another customer and exchanged \$1,300 in cash for chips. The cash was comprised of \$100 notes. At a gaming table, Customer 105 exchanged another \$900 in cash for chips. Customer 105 then exchanged an EGM voucher for \$700 in chips. Shortly afterwards, Customer 105 received \$20,000 via EFTPOS and withdrew it in chips. Customer 105 showed the other customer her chips and then commenced play with them. Early the next day, Customer 105 cashed out \$33,000 in chips for cash, and placed the cash in her bag. Customer 105 then returned to the table and appeared to give the other customer some chips. Later in the morning, Customer 105 and the other customer went to the cashier. Customer 105 exchanged \$12,110 in chips for cash. She was then observed giving the other customer \$10,000 in cash. The other customer was also observed taking an additional \$7,620 from Customer 105, before both left the casino. Early in the afternoon, both customers returned. Customer 105 exchanged \$5,000 in cash for chips. An hour later, Customer 105 cashed out \$12,010 in chips for cash. The other customer was with her. The next day, Customer 105 exchanged \$10,000 in cash for chips. Later that day, she deposited \$60,000 into her account via EFTPOS and withdrew the amount in chips: SMR dated 16 June 2021.

In the three months leading up to July 2021, Customer 105 recorded a loss of \$416,572. Star Qld noted that these losses appeared high given that Customer 105's stated source of funds was as a self-employed property investor: SMR dated 21 July 2021.

In the three months leading up to September 2021, Customer 105 recorded a loss of \$625,622. During this period, Customer 105 had received \$808,000 from EFTPOS payments. Star Qld understood that Customer 105 was the registered business owner of a small retail shopping centre: SMR dated 28 September 2021.

On 2 October 2021, Customer 105 exchanged \$10,000 in cash for chips. Shortly afterwards, Customer 105 exchanged a further \$9,200 in cash for chips at a different cashier. The cash was comprised of \$50 notes. Customer 105's subsequent gaming activities were supported by these transactions. However, Star Qld considered it suspicious that such a large volume of \$50 notes were presented in a short time frame at different cashiers. On 3 October 2021, Customer 105 exchanged \$10,000 in cash, which comprised \$50 notes, for \$6,000 in chips and \$4,000 in \$100 notes. Star Qld noted that Customer 105's usual buy-in method was via EFTPOS transactions. Star Qld considered it unusual that Customer 105 had access to a large volume of \$50 notes: SMR dated 6 October 2021.

On 3 October 2021, Customer 105 deposited \$66,000 via EFTPOS into her FMA, which she withdrew as chips. The following day, another customer deposited \$100,000 via EFTPOS into his FMA, which he withdrew as chips while Customer 105 was present. Customer 105 and the customer proceeded to a gaming table. The customer gave all of the chips to Customer 105, who handed one chip to a second customer. The second customer then passed the chip to a third customer. Customer 105 and the first customer then returned to the cashier and deposited \$66,000 in chips and \$85,000 in chips into her FMA. Customer 105 requested that \$66,000 be transferred to her personal bank account and \$85,000 be issued as a casino cheque. The first customer placed the cheque in an envelope and handed it back to Customer 105. Customer 105 then made enquiries with Star Qld about self-exclusion.

On 6 October 2021, Customer 105 informed Star Qld that the cheque had been damaged and asked for the funds to be transferred to her bank account instead. When Star Qld refused, a new casino cheque was issued. Star Qld considered that it was possible that Customer 105 was attempting to use it to exchange funds with another customer. Star Qld was not aware of the connection between any of the customers: SMR dated 6 October 2021.

On 6 October 2021, Customer 105 self-excluded herself from Star Qld. Later that day, Star Qld received a phone call from another Australian casino to confirm that Star Qld had issued the \$85,000 cheque. Star Qld understood that Customer 105 used the funds from

that cheque to gamble. Star Qld considered it unusual that Customer 105 self-excluded from Star Qld only to use the proceeds of the cheque at another casino: SMR dated 13 October 2021.

- f. Customer 105 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring;

Particulars

See paragraph 25 above.

On 4 February 2019 and 22 February 2019, Customer 105 exchanged \$9,470, \$9,800 and \$9,200 in chips for cash. Star Qld noted that the transactions were just below the reporting threshold and that the 22 February 2019 transactions were not supported by Customer 105's gaming activities. Star Qld further noted that the TTRs given to the AUSTRAC CEO generated by Customer 105 would give the impression that Customer 105 was winning approximately \$100,000, despite having a true loss of approximately \$55,000. Star Qld considered that Customer 105 appeared to be structuring her transactions to give regulators the impression that she was winning more than she was. Further, Customer 105 had advised Star Qld that her source of wealth was from ownership of bakeries overseas, rather than home duties: SMR dated 27 February 2019.

On 18 June 2021, Star Qld considered that transactions involving a group of customers, including Customer 105, were structured to avoid reporting requirements: SMR dated 23 June 2021.

- g. between 2020 and 2021, Star Qld provided law enforcement with information in respect of Customer 105 and persons associated with her, including Customer 106 and Customer 104 on multiple occasions;

Particulars

Between 22 September 2020 and 13 October 2021, Star Qld provided information to a law enforcement agency on nine occasions to report large and suspicious transactions conducted by Customer 105 or persons associated with her, including Customer 106 and Customer 104.

On 9 December 2020, Star Qld provided information to another law enforcement agency regarding their suspicions in respect of possible money lending or money laundering conducted by Customer 105 or persons associated with her, including Customer 106 and Customer 104.

- h. in December 2021, Star Qld received a law enforcement enquiry in respect of Customer 73 and persons associated with her;

Particulars

On 2 December 2021, Star Qld received a request for information in respect of Customer 105 and persons associated with her, including Customer 104 and Customer 106.

Star Qld provided a response stating that Customer 105 had been excluded from the casinos for problem gambling, but that the other two individuals were still active.

- i. Customer 105 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 105 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room, Orchid and Pit 9.

- j. Star Qld did not have adequate reason to believe that Customer 105's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 105 at Star Qld.

Particulars

See paragraph 808 above.

From 30 November 2016 to October 2020, Star understood that Customer 105's occupation was in respect of 'home duties'. Between 2016 and 2020, Star Qld recorded high and escalating turnover for Customer 105 at Star Qld exceeding \$220 million.

In October 2020, Customer 105 provided various explanations as to her source of wealth, including that her husband oversaw businesses in a foreign country; that she was a franchisee of bakeries in a foreign country; that she was a media contractor for shopping centres in a foreign country; that she was a clothing manufacturer in a foreign country; and that she owned numerous commercial buildings and investment properties in Queensland. However, at no point did Star verify any of Customer 105's stated sources of wealth. In 2021 alone, Star Qld recorded turnover for Customer 105 at Star Qld which exceeded \$84 million. At no point was Customer 105's stated source of wealth commensurate with the high value designated services provided to her at Star Qld.

From December 2020, Customer 105, in consort with a group of customers, engaged in transactions involving high volumes of cash and cash in small notes. These transactions included those indicative of the ML/TF typology of structuring. By at least June 2021, Star Qld doubted the legitimacy of the source of funds being brought into the casino by the group. There were real risks associated with Customer 105's source of funds.

Star Qld's determination of the ML/TF risks posed by Customer 105

2520. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 105 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 105.
- a. On and from 30 November 2016, Customer 105 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 105's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 105 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 8 July 2014, Customer 105 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 105's transactions

2521. At no time did Star Qld apply appropriate transaction monitoring to Customer 105's transactions because:
- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 105, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 105 through the Star Patron account channel; and

Particulars

See paragraph 774 above.

- c. Star Qld provided designated services to Customer 105 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and(b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 105's KYC information

2522. Star Qld did not review, update and verify Customer 105's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 105's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 105's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 105's source of wealth and source of funds were not legitimate: see *Customer 105's risk profile*.

- d. to the extent that Star Qld reviewed Customer 105's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 105.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 105's high ML/TF risks

2523. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 105 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 105; and
- c. reviewing and updating Customer 105's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 105 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 105*.

ECDD triggers in respect of Customer 105

2524. Star Qld was required to apply the ECDD Programs to Customer 105 following any ECDD triggers in respect of Customer 105.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2525. Customer 105 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 27 February 2019 and 13 October 2021, Star Qld gave the AUSTRAC CEO 21 SMRs with respect to Customer 105.

2526. The matter pleaded in paragraph 2525 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2527. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 105 following an ECDD trigger because:

- a. on each occasion prior to 6 October 2021 that Star Qld conducted ECDD in respect of Customer 105 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 105 and the provision of designated services to Customer 105 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 26 June 2019 and 18 September 2020, Star Qld conducted ECDD in respect of Customer 105. On each occasion, Star did not identify any adverse findings in respect of Customer 105.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 105's higher ML/TF risks, including suspicions formed by Star's investigations team regarding Customer 105's activity at Star Qld.

By 4 February 2021, an investigations report was prepared outlining suspicions regarding a group of customers including Customer 104, Customer 106 and Customer 105, including:

- a. one member of the group, Person 24, was imprisoned for smuggling illegal tobacco and tax fraud, and that the group's activities increased subsequent to his conviction;

- b. at least \$850,000 in cash had been passed through the group since the end of 2020, however the true value could be 'a lot more';
- c. the group had modified its behaviour each time Star Qld had begun to ask questions about where the cash originated; and
- d. the group had adopted and used various means, methods and services that Star Qld provided to attempt to make it difficult to track who and how much money was coming into and out of the casino.

By 2 June 2021, the investigations report was updated outlining in respect of the group of customers including Customer 106, Customer 105 and Customer 104, suspicions that:

- a. there was doubt as to the legitimacy of the source of the funds being brought to Star Qld;
- b. there was evidence of potential structuring, layering of transactions and reporting avoidance; and
- c. Star suspected that the group's activity had increased since the conviction of a known associate of the group, Person 24, for smuggling illegal tobacco and tax fraud who was also charged with another money lending and theft incident.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 105's source of funds or source of wealth, in circumstances where:

- a. from 30 November 2016 to October 2020, Star understood that Customer 105's occupation was in respect of 'home duties';
- b. between 2016 and 2020, Star Qld recorded high and escalating turnover at Star Qld for Customer 105 exceeding \$220 million;
- c. in October 2020, Customer 105 provided various explanations as to her source of wealth, including that her husband oversaw businesses in a foreign country; that she was a franchisee of bakeries in a foreign country; that she was a media contractor for shopping centres in a foreign country; that she was a clothing manufacturer in a foreign country; and that she owned numerous commercial buildings and investment properties in Qld. However, at no point did Star verify any of Customer 105's stated sources of wealth; and
- d. in 2021 alone, Star Qld recorded turnover at Star Qld for Customer 105 exceeding \$84 million.

At no time did Star Qld have a basis to accept that its understanding of Customer 105's source of wealth or source of funds justified the high value gambling services received by her at Star Qld.

By reason of the matters set out above, there were real risks that Customer 105's source of wealth and source of funds were not legitimate: see *Customer 105's risk profile*.

On 6 October 2021 Star Qld issued a WOL in respect of Customer 105 following a decision by Customer 105 to self-exclude from the casino for problem gambling.

- b. Customer 105 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 6 October 2021 that Customer 105 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 105 and the provision of designated services to Customer 105 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

JRAMM and PAMM

Customer 105 was discussed at JRAMMs and PAMMs between September 2020 and January 2021.

The minutes of the September 2020 meeting noted that:

- a. Customer 105 had experienced significant losses;
- b. Customer 105's occupation was self-employed or as a housewife;
and
- c. Star Qld intended to liaise with Customer 105's host to obtain source of wealth details.

On 18 September 2020, an AML/CTF Administrator requested that the AML/CTF Compliance Officer confirm with Customer 105 that the bank account that Star Qld sent funds to on her behalf belonged to her.

The minutes of the October 2020 meetings recorded that Customer 105 had provided information about her source of wealth and source of funds, noting that Customer 105 was very hesitant to provide further information to support her source of wealth.

In October 2020, further source of wealth checks were conducted in respect of Customer 105, who told Star Qld that she was retired but owned a company which invested in a small shopping centre and

some other commercial properties. However, a company search showed that there were no records held for Australian Business Number provided by Customer 105.

The minutes of the November 2020 meeting noted that Star Qld had determined to require documentary proof of Customer 105's source of wealth. However, the minutes of the December 2020 and January 2021 meetings did not include any changes or updates in respect of Customer 105.

On 11 February 2021, the AML/CTF Compliance Officer advised that there was enough information concerning Customer 105's source of wealth and that he was comfortable removing her from discussion.

This was despite there being no additional material concerning Customer 105's source of wealth and no independent verification of the same.

Investigations reports

In June 2021, the Star investigation team prepared a report summarising its suspicions with respect to the activities of Customer 106, Customer 105 and Customer 104, along with others. The report was distributed to AML/CTF Compliance Officer and Group General Counsel. By March 2022, no response had been received from the recipients to the Star investigations team.

In September 2021, Star senior management, including the AML/CTF Compliance Officer, were provided with the June 2021 report on Customer 106, Customer 105 and Customer 104, along with others. By March 2022, no response was received from the recipients to the Star investigations team.

Decisions to continue to do business with Customer 105

On 17 June 2021, 22 July 2021, 29 September 2021 and 8 October 2021, the Due Diligence Program Manager determined to maintain a business relationship with Customer 105. The Due Diligence Program Manager noted that no issues were identified in respect of Customer 105 during the ECDD screening.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 105's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover; and
- b. Customer 105's source of funds (r15.10(2)(b) of the Rules), having regard to the concerns Star Qld held in respect of the failure to verify their source of funds: see *Customer 105's risk profile* above.

There is no record in Star's due diligence records that the Due Diligence Manager took into consideration the report prepared by

Star's investigations team regarding Customer 105's activity at Star Qld.

WOL

On 6 October 2021 Star Qld issued a WOL in respect of Customer 105 following a decision by Customer 105 to self-exclude from the casino.

Contravention of s36 of the Act in respect of Customer 105

2528. By reason of the matters pleaded from paragraphs 2516 to 2527 above, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 105 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2529. By reason of the matters pleaded at paragraph 2528, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 6 October 2021 with respect to Customer 105.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 106

2530. Customer 106 was a customer of Star Qld during the relevant period. Between 2016 and 2021, Star Qld recorded turnover exceeding \$130 million for Customer 106.

Particulars

Customer 106 was a customer of Star Qld from at least 20 April 2015.

On 22 April 2022, Star Qld issued a WOL in respect of Customer 106.

2531. Star Qld provided Customer 106 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 29 April 2016, Star Qld opened an FMA and SKA for Customer 106, both of which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 106 remitted funds to their FMA (items 31 and 32, table 1, s6 of the Act).

See *Customer 106's risk profile* below.

2532. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 106.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 106's risk profile

2533. On and from 30 November 2016, Customer 106, and the provision of designated services to Customer 106 by Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 106's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 106 had the following risk history:
- i. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 106;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on one occasion on 18 May 2016.

The SMRs reported that Customer 106 had recorded losses of \$117,550 and \$106,230 in March and April 2016, which Star Qld considered was not commensurate with Customer 106's stated source of wealth, being retail.

- ii. Customer 106 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded individual rated turnover totalling \$1,851,801 for Customer 106; and

Particulars

See paragraph 752 above.

- iii. Customer 106 and persons associated with them transacted using large amounts of cash at Star Qld;

Particulars

TTRs

Between 10 July 2015 and 11 May 2016, Star Qld gave the AUSTRAC CEO 11 TTRs totalling \$210,245 detailing chip and cash exchanges involving Customer 106.

Customer 106's risk profile from 30 November 2016

- b. Customer 106 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high and escalating turnover totalling \$137,665,668 for Customer 106;
- i. between 2016 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$123,207,737 for Customer 106; and

Particulars

See paragraph 752 above.

In 2016, Customer 106's individual rated turnover was \$21,181,971 at Treasury Brisbane.

In 2017, Customer 106's individual rated turnover was \$5,642,402 at Treasury Brisbane and \$1,322,817 at Star Gold Coast.

In 2018, Customer 106's individual rated turnover was \$4,240,847 at Treasury Brisbane and \$55,038 at Star Gold Coast.

In 2019, Customer 106's individual rated turnover was \$9,806,065 at Treasury Brisbane.

In 2020, despite the COVID-19 pandemic closures, Customer 106's individual rated turnover escalated significantly to \$49,144,159 at Treasury Brisbane and \$892,548 at Star Gold Coast.

In 2021, Customer 106's individual rated turnover was \$29,339,158 and \$1,582,823 at Star Gold Coast.

- ii. between 2017 and 2018, Star Qld recorded high turnover on individual rebate programs totalling \$14,457,931 for Customer 106, with losses of \$290,145;

Particulars

See paragraph 623 above.

In 2017, Customer 106's turnover on individual rebate programs was \$5,874,014 with losses of \$159,695.

In 2018, Customer 106's turnover on individual rebate programs was \$8,583,916 with losses of \$130,450.

- c. Star Qld was aware that:

- i. Customer 106 and persons associated with them had engaged in large and unusual transactions and patterns of transactions; and

Particulars

Between 1 January 2018 and 15 April 2019, Customer 106 recorded sustained losses of \$296,000 with no record of recent wins to account for the losses. Star Qld considered these losses to be unusual and not commensurate with Customer 106's stated source of wealth in circumstances where their stated occupation was retail manager: SMR dated 28 April 2021.

On 17 July 2020, a third party deposited a cheque of \$200,000 to his FMA at Star Qld and took the entire amount in chips. Star Qld observed that Customer 106 used approximately \$180,000 of the chips while the third party used \$20,000: SMR dated 23 July 2020.

On 13 December 2020, Customer 106, and two other individuals, engaged in a series of suspicious transactions involving following one

another to private gaming rooms and exchanging cash and chips between one another: SMR dated 16 December 2020.

By 15 April 2021, Star Qld was aware of further instances of unusual activity conducted by a group of customers, which included Customer 106, who went to unusual lengths deliver and move funds around the casino. Star Qld was aware that more customers had become involved in the group and that they were using ETFPOS facilities to transact significant amounts of money. On 13 April 2021, Customer 106 was involved as part of one such instance of movement of cash: SMR dated 15 April 2021.

On 28 April 2021, Star Qld was aware that Customer 106 was part of a group of patrons known to be associated with one another. This included another third party. On 27 April 2021, this customer arrived by himself to Star Qld and deposited \$20,000 in \$50 notes to his FMA, advising that the source of his funds was from Customer 106. He said he had lent money to Customer 106 to go to Adelaide: SMR dated 29 April 2021.

By 27 May 2021, Star Qld recorded that Customer 106 had sustained losses to date of \$41,760 at Star Gold Coast and \$3,054,399 at Treasury Brisbane.

- ii. Customer 106 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 30 December 2016 and 21 June 2021, Star Qld gave the AUSTRAC CEO 102 TTRs totalling \$2,618,478, including:

- a. 76 incoming TTRs totalling \$1,925,400;
- b. 26 outgoing TTRs totalling \$693,078;
- c. 95 TTRs totalling \$2,345,778 detailing chip and cash exchanges involving Customer 106; and
- d. 7 TTRs totalling \$272,700 detailing account deposits and withdrawals involving Customer 106.

Large and suspicious cash transactions in 2021

On 9 April 2021, Customer 106 exchanged \$20,000 cash, comprised of \$13,500 in \$100 notes and \$6,500 in \$50 notes, for chips at Star Qld. Customer 106 advised the cash came from the casino. Star Qld noted that while some of Customer 106's recent transactions supported him being in possession of \$100 notes, Star did not pay out in \$50 notes which appear to have come from another source: SMR dated 9 April 2021.

On 20 April 2021, Customer 106 exchanged \$60,000 cash, all in \$100 notes in rubber bands, for chips at Star Qld. Customer 106 advised the cash was from another Australian casino. However, Star Qld was unable to verify if the other casino paid the cash to Customer 106: SMR dated 21 April 2021.

On 16 May 2021, Customer 106 presented \$10,000 in \$50 notes at Star Qld. Customer 106 advised the cash was from another Australian casino. Star Qld believed this was a large amount of cash for a casino to pay in \$50 notes: SMR dated 18 May 2021.

- d. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 106 by remitting large amounts of money into the casino environment via his account;

Particulars

Remittances involving third parties

See paragraphs 278 and 327 above.

On 7 January 2017 and 19 January 2017, Customer 106 received \$70,000 and \$94,125 into their Star Qld account from a third party individual. Customer 106 used the funds for gameplay but Star Qld was unaware of the connection between the two parties: SMR dated 20 January 2017.

On 15 July 2020, a third party individual transferred \$30,000 with the narrative that the funds were for further credit for Customer 106. Customer 106 advised that was their cousin, but Star Qld could not confirm this relationship. The entire amount was returned to the sender via telegraphic transfer and Star Qld advised Customer 106 that any amounts transferred would be returned if they were not sent from their own bank account. Despite this, Customer 106 advised Star Qld he was expecting a further \$200,000 from the same third party individual via telegraphic transfer: SMR dated 16 July 2020.

On 10 September 2020, Customer 106 arrived at a private gaming room at Star Qld and queried whether a telegraphic transfer of \$30,000 had arrived for him. He was unable to provide a receipt of transfer. After this interaction, Star Qld received \$20,000, which it made available to Customer 106 to play with: 11 September 2020.

Each of the above transactions was conducted through the Star Patron account channel.

- e. Customer 106 and persons associated with him engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including using third parties to conduct transactions, at Star Qld;

Particulars

See paragraph 25 above.

On 21 July 2020, third party gave \$10,000 in cash to Customer 106, who gave him chips in return. Star Qld believed this activity was suspicious as it meant that both patrons avoided threshold reporting requirements: SMR dated 22 July 2020.

- f. Customer 106 was connected to other customers at Star Qld, including players who posed higher ML/TF risks such as Customer 104 and Customer 105 and players who Star Qld considered had acted suspiciously;

Particulars

See Customer 104's risk profile and Customer 105's risk profile.

- g. from at least 2 February 2021, Star Qld was aware that Customer 106 was part of a group of customers, including Customer 104 and Customer 105, who were conducting transactions involving the receipt and movement of small denominations of cash with no visible lawful purpose;
 - i. the provision of designated services to the group of customers, including Customer 106, by Star Qld raised red flags reflective of higher ML/TF risks;

Particulars

Red flags reflective of higher ML/TF risks included:

- a. following each other from between gaming tables and to the cashier desk: SMRs dated 10 December 2020, 2 February 2021, 4 February 2021, 14 June 2021;
- b. exchanging cash with chips on multiple gaming tables or at cashiers in several transactions: SMRs dated 2 February 2021, 9 April 2021, 14 June 2021, 23 June 2021;
- c. handing chips or cash to one another: SMRs dated 10 December 2020, 2 February 2021, 4 February 2021, 29 April 2021, 14 June 2021, 23 June 2021;
- d. handing unknown items to one another: SMRs dated 11 January 2021, 14 June 2021;
- e. attempting to deposit funds into one another's FMA: SMR dated 16 April 2021; exchanging smaller denomination chips for higher denomination chips: SMRs dated 10 December 2020, 4 February 2021, 29 April 2021;
- f. using small denomination notes: SMRs dated 4 February 2021, 14 June 2021, 23 June 2021;
- g. engaged in minimal gaming activities which did not support the amounts exchanged: SMRs dated 10 December 2020, 11 January 2021, 4 February 2021, 16 April 2021, 29 April 2021;
- h. placing chips or cash in bags: SMRs dated 10 December 2020;

- i. presenting cash from satchels and shopping bags: SMRs dated 10 December 2020, 11 January 2021, 2 February 2021, 9 April 2021;
 - j. presenting cash bundled with elastic bands: SMR dated 11 January 2021;
 - k. using a foreign exchange service to explain the source of funds: SMR dated 10 December 2020; and
 - l. providing various and inconsistent explanations for the source of funds: SMRs 16 April 2021, 29 April 2021.
- ii. Star Qld formed suspicions in respect of the conduct of the group of customers; and

Particulars

Star Qld considered it suspicious that:

- a. the group of customers' transactions were not supported by gaming activity: SMRs dated 26 February 2021, 17 March 2021;
- b. the group of customers had a steady source of large amounts of cash that was not from the casino, including large amounts of \$50 notes: SMRs dated 2 February 2021, 23 June 2021;
- c. the group appeared to be using smaller amounts of cash across several tables in order to avoid questions about its source: SMRs dated 2 February 2021, 14 June 2021;
- d. the group appeared to be using various methods and casino services to break up transactions and make it difficult to track the origin and destination of the cash: SMRs dated 4 February 2021, 17 March 2021;
- e. the size of the group continued to expand: SMR dated 17 March 2021;
- f. the group quickly adapted to the casino's processes and were conducting transactions to dilute and disguise the source of funds: SMR dated 17 March 2021;
- g. the group appeared to be using EFTPOS facilities to transact a significant amount of funds: SMR dated 2 February 2021;
- h. the group went to great lengths to deliver and move funds around the casino: SMR dated 15 April 2021;
- i. there was no known connection between the members of the group: SMR dated 29 April 2021; and
- j. the group may have been structuring transactions to avoid reporting requirements and questions about the source of cash: SMRs dated 14 June 2021, 23 June 2021, 14 February 2022.

- iii. the group of customers engaged in a serious of large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

Large and unusual transactions in 2020

On 5 November 2020, another Star Qld customer, Customer 104, presented \$50,000 cash, which comprised mostly \$100 notes, at Star Qld to be exchanged for chips. Customer 106 was present during the transaction. Customer 104 then handed all of the chips to Customer 106. Customer 106 and Customer 104 then proceeded to play at the gaming tables. Customer 104 recorded a loss of \$200 and Customer 106 recorded a loss of \$41,500 for the day. Star Qld considered the purchase and handover of the chips to be unusual: SMR dated 9 November 2020.

Large and unusual transactions in 2021

On 19 January 2021, Customer 106 presented \$60,410 in chips and requested \$50,410 in cash and a casino cheque for \$10,000. Another Star Qld customer, Customer 104 was present at the time of the transaction. Star Qld staff noticed that Customer 106 was also carrying a chip worth \$25,000. Customer 106 had previously attempted to procure a casino cheque at Star Qld. However, that cheque was declined as their play at that time did not support the amount of chips presented. Star Qld believed that Customer 106 had sought a casino cheque for only their recorded winnings of \$10,400. Star Qld also considered that Customer 106 may have been trying to trigger TTRs when he cashed out so that it appeared as though he was recording winnings and could justify the source of the cash: SMR dated 20 January 2021.

On 21 January 2021, Customer 105, who was a known associate of Customer 104, exchanged \$50,010 in chips for cash. Star Qld considered that this was an unusual amount of chips to cash out. Further, Customer 105's gaming activity did not support the cash transaction. Star Qld noticed that the amount exchanged was similar in value to cash that had been paid out to Customer 106 the previous day. Customer 106 was known to be an associate of Customer 105. Customer 104, Customer 73 and two other Star Qld customers were with Customer 106 when the transaction took place: SMR dated 22 January 2021.

- h. in 2020 and 2021, Star Qld provided information in respect of Customer 106 to law enforcement;

Particulars

On 9 December 2020, Star Qld provided information to a law enforcement agency regarding their suspicions in respect of possible

money lending or money laundering conducted by Customer 106 or persons associated with him, including Customer 105 and Customer 104.

Between 4 February 2021 and 25 August 2021, Star Qld provided information to another law enforcement agency in respect of Customer 106, and persons associated with him, including Customer 104 and Customer 105.

- i. in December 2021, Star Qld received a law enforcement enquiry in respect of Customer 106 and persons associated with them, including Customer 104 and Customer 105;

Particulars

On 2 December 2021, Star Qld received a request for information in respect of Customer 106 and persons associated with him, including Customer 104 and Customer 105. At that time, Customer 105 had been excluded from Star for problem gambling.

- j. Customer 106 had access to private gaming rooms at Star Qld, at both Treasury Brisbane and Star Gold Coast; and

Particulars

See paragraph 616 above.

Customer 106 had access to private gaming rooms at Star Qld at Treasury Brisbane, including Pit 9, the Sovereign Room (EGMs and Tables), the Suite (EGMs and Tables).

Customer 106 had access to private gaming rooms at Star Qld at Star Gold Coast, including the Sovereign Room.

- k. Star Qld did not have adequate reason to believe that Customer 106's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 106 at Star Qld.

Particulars

See paragraph 808 above.

By 30 November 2016, Star Qld considered that Customer 106's losses were not commensurate with Customer 106's stated source of wealth, being retail or retail manager.

During the relevant period, Star Qld recorded Customer 106's stated occupation as in retail, retail manager and semi-retired.

By June 2021, Star Qld understood that Customer 106's stated occupation was 'Import/Export firearms to sell to retail stores'.

At various times, Star Qld formed suspicions that Customer 106's gaming losses, which exceeded \$3 million by May 2021, were not commensurate with their stated source of wealth, being retail.

Between 2016 and 2021, Star Qld recorded a cumulative turnover for Customer 106 exceeding \$137 million.

From February 2021, Star Qld was aware that Customer 106, in consort with a group of customers, engaged in transactions involving high volumes of cash and cash in small notes.

At no time was Star Qld's understanding of Customer 106's source of wealth or source of funds sufficient to explain the high value financial and gambling services received by them at Star Qld.

Star Qld's determination of the ML/TF risks posed by Customer 106

2534. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 106 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 106.

- a. On and from January 2017, Customer 106 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 106's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 106 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 18 May 2016, Customer 106 was rated low, not being high risk for the purpose of the Act and Rules.

On 20 January 2017, Customer 106 was rated medium, not being high risk for the purpose of the Act and Rules.

On 22 April 2022, Star Qld issued a WOL in respect of Customer 106.

Monitoring of Customer 106's transactions

2535. At no time did Star Qld apply appropriate transaction monitoring to Customer 106's transactions because:

- a. where Star Qld conducted any transaction monitoring of transactions involving Customer 106, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 106 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 106's KYC information

- 2536. Star Qld did not review, update and verify Customer 106's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in which circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 106's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 106's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 106's source of wealth and source of funds were not legitimate: see *Customer 106's risk profile*.

- d. to the extent that Star Qld reviewed Customer 106's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 106.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 106's high ML/TF risks

- 2537. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 106 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 106; and

- c. reviewing and updating Customer 106's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 106 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 106*.

ECDD triggers in respect of Customer 106

2538. Star Qld was required to apply the ECDD Programs to Customer 106 following any ECDD triggers in respect of Customer 106.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10 of the Rules.

2539. Customer 106 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 20 January 2017 and 23 June 2021, Star Qld gave the AUSTRAC CEO 26 SMRs with respect to Customer 106.

2540. The matter pleaded in paragraph 2539 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2541. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 106 following an ECDD trigger because:

- a. on each occasion prior to April 2022 that Star Qld conducted ECDD in respect of Customer 106 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 106 and the provision of designated services to Customer 106, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 15 April 2019, 16 July 2020, 11 January 2021, 20 April 2021, 30 April 2021, 19 May 2021, 15 June 2021, and 24 June 2021, Star Qld conducted ECDD in respect of Customer 106.

The ECDD screenings in respect of Customer 106 included open source and risk intelligence searches in respect of Customer 106.

The ECDD conducted by Star Qld did not have appropriate regard to Customer 106's higher ML/TF risks, including suspicions formed by Star's investigations team regarding Customer 104's activity at Star Qld.

On 4 February 2021, an investigations report was prepared outlining suspicions regarding a group of customers including Customer 106, Customer 104 and Customer 105, including:

- a. one member of the group, Person 24, was imprisoned for smuggling illegal tobacco and tax fraud;
- b. the group's activities increased following his conviction;
- c. at least \$850,000 in cash had been passed through the group since the end of 2020, however the true value could be 'a lot more';
- d. the group had modified its behaviour each time Star Qld had begun to ask questions about where the cash originated; and
- e. the group had adopted and used various means, methods and services that Star Qld provided to attempt to make it difficult to track who and how much money was coming into and out of the casino.

By 2 June 2021, the investigations report was updated in respect of the group of customers including Customer 106, Customer 105 and Customer 104, outlining suspicions that:

- a. there was doubt as to the legitimacy of the source of the funds being brought to Star Qld;
- b. there was evidence of potential structuring, layering of transactions and reporting avoidance; and
- c. Star suspected that the group's activity had increased since the conviction of a known associate of the group, Person 24, for smuggling illegal tobacco and tax fraud who was also charged with another money lending and theft incident.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 106's source of funds or source of wealth, in circumstances where Star Qld suspected, from at least 30 November 2016, that Customer 106's gaming losses, which exceeded \$3 million by May 2021, were not commensurate with their stated source of wealth, being retail or retail manager.

By reason of the matters set out above, there were real risks that Customer 106's source of wealth and source of funds were not legitimate: see *Customer 106's risk profile*.

On 22 April 2022, Star Qld issued a WOL in respect of Customer 106.

- b. Customer 106 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to April 2022 Customer 106 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 106 and the provision of designated services to Customer 106 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Decisions to continue to do business with Customer 106

On 22 April 2021, 1 May 2021, 19 May 2021, 16 June 2021, 26 June 2021, the Due Diligence Program Manager determined to maintain a customer relationship with Customer 106.

In determining that a business relationship could be continued, the Due Diligence Program Manager did not have regard to:

- a. Customer 106's source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover;
- b. Customer 106's source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 106's risk profile* above.

There is no record in Star's due diligence records that the Due Diligence Program Manager took into consideration the report prepared by Star's investigations team regarding Customer 106's activity at Star Qld.

Investigations reports

In June 2021, the Star investigation team prepared a further report summarising its suspicions with respect to the activities of Customer 106, Customer 105 and Customer 104, along with others. The report was distributed to AML/CTF Compliance Officer and Group General Counsel. By March 2022, the recipients had not provided a response to the Star investigations team.

In September 2021, Star senior management, including the AML/CTF Compliance Officer, were provided with the May 2021 report on Customer 106, Customer 105 and Customer 104, along with others. By March 2022, the recipients had not provided a response to the Star investigations team.

JRAMM and PAMM

On 30 July 2021, Star Qld added Customer 106 to its watchlist for monitoring.

In September 2021, Customer 106 was discussed at a PAMM.

In March 2022, Customer 106, Customer 105, Customer 104 and others were discussed at a JRAMM.

Following the meeting, on 30 March 2022, a Star Qld investigations manager prepared a further report summarising the history of the investigations into Customer 106 and the group they were associated with, referrals to law enforcement, prior notification of suspicions to Star senior management in May 2021 and September 2021.

The report recommended that Star issue group-wide WOLs against Customer 106 and others on the basis of the observed suspicious activity summarised in the report.

WOL

On 22 April 2022, Star Qld issued a WOL in respect of Customer 106.

Contravention of s36 of the Act in respect of Customer 106

2542. By reason of the matters pleaded from paragraphs 2530 to 2541 above, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 106 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2543. By reason of the matters pleaded at paragraph 2542, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 22 April 2022 with respect to Customer 106.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 107

2544. Customer 107 was a customer of Star Sydney during the relevant period. Between 2016 and 2017, Star Sydney recorded turnover exceeding \$10 million for Customer 107.

Particulars

Customer 107 was a customer of Star Sydney from at least 30 June 2015.

On 11 February 2019, Star Sydney issued a WOL in respect of Customer 107 at the direction of a law enforcement agency.

2545. Star Sydney provided Customer 107 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

Between 2016 and 2017, Star Sydney recorded high and escalating individual rated turnover of \$10,397,535 for Customer 107 (table 3, s6 of the Act).

See *Customer 107's risk profile* below.

2546. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 107.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 107's risk profile

2547. On and from 30 November 2016, Customer 107, and the provision of designated services to Customer 107 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 107's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 107 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 107;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 23 February 2008.

The SMR reported suspicious cash transactions involving Customer 107 at Star Sydney: see paragraph 2547.a.iv below.

- ii. Customer 107 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded a high individual rated turnover totalling \$59,682 for Customer 107;

Particulars

See paragraph 752 above.

- iii. designated services provided to Customer 107 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 20 July 2016 and 18 November 2016, Star Sydney gave the AUSTRAC CEO 52 TTRs detailing EGM payouts to Customer 107 totalling \$855,314.

- iv. Customer 107 transacted using large amounts of cash at Star Sydney; and

Particulars

See paragraphs 611 to 618 above.

On 22 February 2008, Customer 107 cashed out \$5,000 in chips at Star Sydney. Several minutes later, Customer 107 cashed out a further \$4,000 in chips. Star Sydney considered this to be a suspicious transaction: SMR dated 23 February 2008.

Between 3 March 2016 and 7 November 2016, Star Sydney gave the AUSTRAC CEO 28 TTRs detailing incoming payments to Customer 107 totalling \$345,400 which comprised chip exchanges.

Between 30 June 2015 and 27 September 2016, in addition to the 52 EGM TTRs, Star Sydney gave the AUSTRAC CEO 30 TTRs detailing outgoing payments from Customer 107 totalling \$510,455 which comprised chip exchanges.

- v. by 2013, media reports named Customer 107 as a person involved in fraudulent schemes for his material benefit;

Particulars

In 2012, publicly accessible media articles reported that Customer 107:

- a. had pleaded guilty to a series of identity-theft offences after appropriating over \$50,000 using a stolen identity; and
- b. was at the time of sentencing serving a term of imprisonment for a similar offence.

In 2013, publicly accessible media articles reported that Customer 107:

- a. had escaped from an imprisonment facility; and
- b. prior to his escape, had been serving a sentence for fraud and driving offences as well as breach of parole.

Star Sydney's due diligence records did not contain details of these reports.

Customer 107's risk profile from 30 November 2016

- b. Customer 107 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2017, Star Sydney recorded a high and escalating individual rated turnover totalling \$10,397,535 for Customer 107;

Particulars

See paragraph 752 above.

In 2016, Customer 107's individual rated turnover escalated to \$8,227,724.

In 2017, Customer 107's individual rated turnover was \$2,169,811.

Customer 107 last received designated services at Star Sydney in September 2017.

- c. designated services provided to Customer 107 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 16 December 2016 and 27 September 2017, Star Sydney gave the AUSTRAC CEO 48 TTRs detailing EGM payouts to Customer 107 totalling \$801,467.

- d. Customer 107 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 16 December 2016 and 19 September 2017, Star Sydney gave the AUSTRAC CEO 23 TTRs detailing incoming payments to Customer 107 totalling \$295,500 which comprised chip exchanges.

Between 1 February 2017 and 31 August 2017, Star Sydney gave the AUSTRAC CEO nine TTRs detailing outgoing payments from Customer 107 totalling \$229,920 which comprised chip exchanges and account withdrawals.

- e. in 2017 and 2018, Customer 107 was the subject of law enforcement enquiries on multiple occasions at Star Sydney;

Particulars

On 4 September 2017, 6 March 2018, 28 March 2018 and 13 August 2018, Star Sydney received requests from law enforcement agencies seeking details about Customer 107.

On 19 June 2018, Star Sydney received a request for information from a Commonwealth agency in respect of Customer 107.

On 11 February 2019, Star Sydney issued a WOL in respect of Customer 107 at the direction of a law enforcement agency.

- f. Customer 107 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 107 had access to private gaming rooms at Star Sydney, including the Sovereign Room and Oasis.

- g. in April 2019, Customer 107 was arrested and charged with fraud related offences; and

Particulars

On 11 February 2019, Star Sydney issued a WOL in respect of Customer 107.

In 2020, publicly accessible media articles reported that Customer 107:

- a. had been arrested in April 2019;
- b. was awaiting trial on nearly 600 charges relating to an alleged long-term fraud syndicate which included members of Australian organised crime syndicate;
- c. had committed offences similar to those for which he was sentenced in 2012; and
- d. had gambled large sums of money at Star casino.

In 2021, publicly accessible media articles reported that Customer 107 had allegedly gambled more than \$9,500,000 at Star Sydney after defrauding millions of dollars through luxury car loans.

- h. Star Sydney did not have adequate reason to believe that Customer 107's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 107 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 107 was a manager in sales and marketing.

In 2016, Customer 107's turnover escalated significantly. Customer 107's source of wealth was not commensurate with the high value gambling services provided to him by Star Sydney.

By 2013, media reports had identified that Customer 107 was serving a term of imprisonment in respect of a series of identity-theft offences involving the appropriation of significant amounts of money. Despite this, Star Sydney failed to verify Customer 107's source of wealth and source of funds.

Star Sydney's determination of the ML/TF risks posed by Customer 107

2548. For the reasons pleaded at paragraph 110 above, Star Sydney unable to identify or assess the ML/TF risks posed by Customer 107 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 107.

- a. On and from 30 November 2016, Customer 107 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 107's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 107 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 3 May 2019, Customer 107 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 11 February 2019, Star Sydney issued a WOL in respect of Customer 107.

On 13 May 2019, Customer 107 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 107's transactions

2549. At no time did Star Sydney apply appropriate transaction monitoring to Customer 107's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 107, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney provided designated services to Customer 107 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 107's KYC information

2550. Star Sydney did not review, update and verify Customer 107's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 107's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 107's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

Star Sydney understood that Customer 107 was a manager in sales and marketing.

By reason of the matters set out above, there were real risks that Customer 107's source of wealth and source of funds were not legitimate: see *Customer 107's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 107's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 107.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 107's high ML/TF risks

2551. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 107 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 107; and
- c. reviewing and updating Customer 107's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 107 as a high risk customer for the purpose of the Act and Rules at a time before Customer 107 was issued with a WOL at Star Sydney.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2552. Had Star Sydney rated Customer 107 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 107 at a time before Customer 107 was issued with a WOL at Star Sydney.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 107

2553. By reason of the matters pleaded from paragraphs 2544 to 2552 above, on and from 30 November 2016, Star Sydney:
- a. did not monitor Customer 107 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2554. By reason of the matters pleaded at paragraph 2553, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 11 February 2019 with respect to Customer 107.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 108

2555. Customer 108 was a customer of Star Qld during the relevant period. Between 2017 and 2021, Star Qld recorded turnover exceeding \$44 million for Customer 108.

Particulars

Customer 108 was a customer of Star Qld from at least 19 August 2012.

2556. Star Qld provided Customer 108 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 9 July 2019, Star Qld opened an FMA for Customer 108 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 108 remitted funds to and from their account (items 31 and 32, table 1, s6 of the Act).

See Customer 108's risk profile below.

2557. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 108.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 108's risk profile

2558. On and from 30 November 2016, Customer 108, and the provision of designated services to Customer 108 by Star Qld, posed higher ML/TF risks because of the following red flags:

- a. Customer 108 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. Between 2017 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$44,707,507 for Customer 108;

Particulars

See paragraph 752 above.

In 2017, Customer 108's individual rated turnover was \$38,905.

In 2018, Customer 108's individual rated turnover escalated to \$275,153.

In 2019, Customer 108's individual rated turnover further escalated to \$9,285,308.

In 2020, Customer 108's individual rated turnover further escalated to \$16,227,332.

In 2021, Customer 108's individual rated turnover further escalated to \$18,880,809.

Between 1 July 2021 and 22 December 2021, Customer 108's individual rated loss was \$358,605: SMR dated 24 December 2021.

- b. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 108 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

For example, on 30 November 2019, Star Qld facilitated a transfer of \$650 from Star Gold Coast to Treasury Brisbane, which it made available to Customer 108's FMA at Treasury Brisbane.

- c. Star Qld was aware that Customer 108 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose;

Particulars

On 15 March 2021, Customer 108 exchanged \$6,500 in cash for chips. Customer 108 subsequently withdrew \$30,000 in chips from his FMA. Customer 108 later presented \$37,500 in chips and \$1,085 in EGM tickets and requested a casino cheque for the entire amount of \$38,585. Star Qld declined to issue a cheque for the full amounts and instead offered a cheque for \$7,000, which was the total sum gaming records could verify. Customer 108 declined the offer and deposited all the funds into his FMA. Customer 108 later returned with \$6,000 in \$50 notes and exchanged this cash for chips. Star Qld

considered that the inconsistency between Customer 108's initial payout and deposit, and between Customer 108's subsequent deposits and recorded loss for the day of approximately \$9,000, was suspicious: SMR dated 16 March 2021.

On 31 August 2021, Customer 108 exchanged \$20,000 in \$100 notes for chips at Star Qld. After this buy-in, he played on tables and EGMs. At the end of play, he approached the cashier with EGM vouchers totalling \$18,364 and requested payment by either casino cheque or telegraphic transfer. Star Qld declined this request as it had recorded an overall loss for the day of \$7,605 for Customer 108 on table games and EGMs. The EGM vouchers totalling \$18,364 were instead paid out in cash: SMR dated 2 September 2021.

On 1 September 2021, Customer 108 presented EGM vouchers totalling \$16,461 at a Star Qld cashier and requested a casino cheque or telegraphic transfer. Star Qld declined this request as it had recorded an overall loss for Customer 108 for the day of \$3,646.

On 31 August 2021 and 1 September 2021 when Customer 108 presented the EGM tickets for cashing out at Star Qld, Customer 108 specifically mentioned his time of arrival. Star Qld considered that Customer 108's repeated patterns of cash buy-ins and requires for cash out in casino cheque or telegraphic transfers and announcements of his time of arrival, were suspicious. It concluded that Customer 108 seemed to be attempting to make his funds appear to have been won at the casino: SMR dated 2 September 2021.

On 23 December 2021, Customer 108 exchanged \$20,000 in cash for chips. The cash comprised \$19,600 in \$50 notes, and \$400 in \$100 notes. Star Qld observed that the cash was loose and came out of Customer 108's back pocket. Customer 108 subsequently spent a short period of time on an EGM and obtained a voucher for \$105. Customer 108 then collected a bag that was left for him by staff at a private gaming room reception and returned to the cashier. He presented \$24,500 in chips and \$15,509 in nine EGM vouchers, totalling \$40,009, and requested that the funds be transferred to his private bank account. Of the nine gaming vouchers, eight were issued on 20 December 2021. Star Qld declined his request to transfer the funds to his private bank account as it was not fully supported by Star Qld's records. Unlike on previous occasions, Customer 108 did not attempt to question or negotiate this result. Star Qld considered it suspicious that Customer 108 appeared to have access to large amounts of cash, particularly \$50 notes, given that he claimed that his source of wealth was a café business. Star Qld suspected from his behaviour that Customer 108 was endeavouring to mix his independently-sourced cash into what could appear as legitimate funds from play at the casino: SMR dated 24 December 2021.

- d. designated services provided to Customer 108 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See paragraphs 2558.c and 2558.e.

Between 27 October 2020 and 23 December 2021, Customer 108 conducted at least three EGM ticket to cash exchange transactions at Star Qld that were not the subject of TTRs totalling at least \$28,023.

- e. Customer 108 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small denominations and rubber bands at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 2558.c above.

Between 27 May 2019 and 23 September 2022, Star Qld gave the AUSTRAC CEO 349 TTRs in respect of Customer 108 totalling \$6,522,782, which comprised:

- a. 194 outgoing TTRs totalling \$3,711,083;
- b. 155 incoming TTRs totalling \$2,811,698;
- c. \$5,881,507 in chip or cash exchanges;
- d. \$420,798 in account deposits or withdrawals; and
- e. \$220,477 in EGM payouts.

Large and suspicious cash transactions in 2020

On 12 August 2020, Customer 108 conducted four cash and chip exchange transactions at Treasury Brisbane in quick succession totalling \$95,200. He exchanged denominations of cash for chips and then exchanged the same amount of chips back to cash, before placing the cash into a backpack.

On 27 November 2020, Customer 108 exchanged \$34,400 in chips for cash and withdrew \$53,465 from his FMA in cash at Treasury Brisbane. Star Qld considered that these transactions were not supported by Customer 108's recorded play, given that he had recorded a loss of \$238,000 during this same period. Star Qld noted in particulars that this loss was not commensurate with the deposits that he had made into his FMA, and were not supported by his stated occupation as a lawyer: SMR dated 30 November 2020.

On 20 December 2020, Customer 108 exchanged \$35,000 in chips for cash at Treasury Brisbane. Customer 108 subsequently exchanged another \$50,000 in cash for chips at Treasury Brisbane

and lost all of these funds in play. Star Qld considered that this activity was suspicious as Customer 108 had suffered significant losses of \$137,000 during December 2020, his stated occupation as a lawyer did not support these losses, and he had apparently had access to cash which Star Qld could not account for from his gaming activity: SMR dated 21 December 2020.

Large and suspicious cash transactions in 2021

On 8 April 2021, Customer 108 presented \$4,900 and \$5,100 in cash for play at two gaming tables at Star Qld and subsequently lost all of these funds. He later exchanged \$80,000 in \$50 notes for chips at Star Qld. The cash was presented in rubber bands and Customer 108 advised that it came from his business. In subsequent play, Customer 108 only used \$25,000 of the chips and lost them all. Star Qld also observed that he had a bucket of chips in his bag. Customer 108 subsequently presented \$60,000 in chips, exchanged \$20,000 of these chips for cash, and deposited the remaining \$40,000 into his FMA. Star Qld considered that the large amount of cash apparently available to Customer 108 from his operation of a café business and employment at a migration law firm was suspicious: SMR dated 21 December 2020.

On 19 May 2021, Customer 108 exchanged \$39,140 in cash for chips at Star Qld. The cash comprised \$9,800 in \$100 notes, \$28,250 in \$50 notes and \$1,360 in \$20 notes. He advised that the total should have been \$40,000 and asked for it to be recounted three times. He subsequently only played with \$14,000 of the purchased chips. He also later exchanged \$25,000 in chips for cash and withdrew \$20,000 from his FMA in cash. Customer 108 repeated to Star Qld staff that the earlier cash exchange was not for the amount that he understood he had presented. He also advised that he planned to go to his vehicle to check other money that he had previously withdrawn: SMR dated 20 May 2021.

Between 8 July 2021 and 13 July 2021, Customer 108 exchanged \$93,900 in cash for chips at Star Qld. The cash comprised \$83,900 in \$50 notes and \$10,000 in \$100 notes. Star Qld considered that Customer 108's presentation of a large number of \$50 notes in a short period was suspicious. In particular, Star Qld noted that especially when Customer 108 had limited play and a recorded loss of \$16,100 for the same period, and had previously purchased chips with cash in small denominations and then not used the full amount of chips before presenting more cash: SMR dated 13 July 2021.

On 11 July 2021, Star Qld provided Customer 108 with a casino cheque for \$12,500. Star Qld considered that Customer 108 may have been requesting a casino cheque to try and legitimise cash he had presented over the previous days.

Between 12 July 2021 and 15 July 2021, Customer 108 exchanged \$50,500 in \$50 notes and \$4,500 in \$100 notes for chips. Star Qld considered that Customer 108's continued presentation of large amounts of cash in small denominations was highly unusual: SMR dated 16 July 2021.

Between 23 August 2021 and 25 August 2021, Customer 108 exchanged \$70,000 in cash for chips at Star Qld. The cash comprised \$58,000 in \$50 notes, \$2,000 in \$100 notes and \$10,000 in notes of undisclosed denominations. Customer 108 subsequently exchanged \$37,000 in chips for cash in \$100 notes. Star Qld noted that there was an absence of cash-outs or losses to support Customer 108 additional cash buy-ins totalling \$70,000, and considered them suspicious. It also suspected from Customer 108's exchange of \$37,000 in \$100 notes that he may have been using the casino as a channel to legitimise the appearance of his funds: SMR dated 26 August 2021.

On 3 October 2021, Customer 108 exchanged \$20,000 in cash for chips at Star Qld. The cash comprised \$19,700 in \$50 notes and \$300 in \$20 notes. Customer 108 advised that the cash was sourced from his employment and that he had more cash in his car. Star Qld considered that Customer 108's access to large amounts of cash was suspicious and identified that, from 1 September 2021 to 6 October 2021, Customer 108 had presented approximately \$193,000 in cash of which \$126,850 was in \$50 notes: SMR dated 6 October 2021.

Between 10 November 2021 and 17 November 2021, Customer 108 exchanged \$75,000 in cash for chips at Star Qld. During this period, Customer 108 also presented approximately \$17,500 in cash on gaming tables. Star Qld considered that Customer 108's access to large amounts of cash, and the contrast between Customer 108's presentation of this volume of cash over a relatively short period and the fact that Customer 108 did not present any cash for the majority of October 2021, was very unusual and required reporting. Star Qld suspected that Customer 108 may be stockpiling \$100 notes from the casino rather than using this cash for return visits: SMR dated 18 November 2021.

In December 2021, Star Qld identified that between 1 July 2021 and 22 December 2021, Customer 108 had presented approximately \$757,000 in cash including:

- a. \$234,600 in \$100 notes;
- b. \$435,150 in \$50 notes;
- c. \$20,000 in \$20 notes; and
- d. \$85,250 in notes of unspecified denominations: SMR dated 24 December 2021.

Large and suspicious cash transactions in 2022

On 9 September 2022, Customer 108 exchanged \$20,000 in cash for chips at Star Qld. The cash comprised \$4,000 in \$100 notes, \$14,200 in \$50 notes and \$1,800 in lower denomination notes. Customer 108 recorded minimal gaming, with a loss of \$1,750, before returning 39 minutes later and exchanging \$22,625 in chips back to cash. Following the cash out, Customer 108 advised that he had transferred \$10,000 from his bank account to his FMA at Star Sydney, and requested to withdraw the funds as cash. Star Qld noted that Customer 108 had no prior history of transferring funds into his FMA at Star Sydney. Star Qld noted that it was suspicious for Customer 108 to request a withdrawal when he had \$22,625 in cash in his possession. The transaction from Customer 108's bank account was denied and transferred back to the originating bank account. Star Qld considered that Customer 108 appeared to be using the casino to exchange smaller denomination notes for larger denomination notes and to disguise his source of funds, giving them the appearance of casino winnings: SMR dated 9 September 2022.

- f. Customer 108 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring, refining, cashing in large value chips with no evidence of play, and quick turnover of money (without betting);

Particulars

See paragraph 25 above.

See paragraphs 2558.c and 2558.e above.

Between 23 December 2018 and 22 July 2020, Customer 108 conducted at least five transactions indicative of the ML/TF typology of refining totalling \$25,100.

Between 7 July 2020 and 28 October 2020, Customer 108 conducted at least nine transactions indicative of the ML/TF typology of structuring totalling at least \$75,400.

On 30 September 2020, Customer 108 conducted at least two transactions indicative of the ML/TF typology of quick turnover of money (without betting) totalling at least \$60,000.

On 23 December 2021, Customer 108 conducted at least two transactions indicative of the ML/TF typology of cashing in large value chips with no evidence of play totalling over \$60,000.

On 9 September 2022, Customer 108 conducted two transactions indicative of the ML/TF typology of quick turnover of money (without betting) totalling over \$42,000: SMR dated 9 September 2022.

- g. in 2021, Star provided information in respect of Customer 108 to law enforcement; and

Particulars

In September 2021, November 2021 and December 2021, Star Qld provided information about Customer 108 to a law enforcement agency.

- h. Star Qld did not have adequate reason to believe that Customer 108's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 108 at Star Qld.

Particulars

See paragraph 808 above.

At no time was Customer 108's gaming activity commensurate with their stated occupation, source of wealth or source of funds.

Between May 2019 and November 2021, Star Qld reported its concerns that Customer 108's source of wealth and source of funds was not confirmed, and it could not verify his stated source of wealth and source of funds, which he claimed derived from his occupation as:

- a. a café owner;
- b. a lawyer; and
- c. the owner of a range of companies and businesses, including:
 - i. an education and migration business;
- ii. a group company that owned event management, private tutoring and accounting businesses;
- iii. a construction company; and
- iv. a legal business.

Between February 2021 and September 2021, Star Qld recorded its concerns that Customer 108 had declined or been unable to provide further information to support his stated source of wealth and source of funds in response to direct requests.

From 1 September 2021 to 6 October 2021, Customer 108 presented approximately \$193,000 in cash of which \$126,850 was in \$50 notes: SMR dated 6 October 2021.

By November 2021, Customer 108's individual rated turnover at Star Qld was over \$38 million, and Star Qld gave the AUSTRAC CEO 317 TTRs detailing transactions made by Customer 108 totalling over \$6 million.

It was not until January 2022 that Star Qld verified that Customer 108 owned a hospitality business and concluded that Customer 108's source of wealth had been satisfied on this basis.

However, between April 2021 and December 2021, Star Qld reported to the AUSTRAC CEO that the amount of cash Customer 108 was

presenting at its casino seemed a very large amount to be coming out of his café business.

From November 2021 onwards, Customer 108's individual rated turnover at Star Qld was over \$1 million and Star Qld gave the AUSTRAC CEO 25 TTRs detailing transactions made by Customer 108 totalling over \$380,000.

At no time was Customer 108's activity at Star Qld commensurate with his stated source of funds or source of wealth.

Star Qld's determination of the ML/TF risks posed by Customer 108

2559. For the reasons pleaded at paragraph 110, Star Qld was unable appropriately to identify or assess the ML/TF risks posed by Customer 108 because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 108.
- a. On and from May 2019, Customer 108 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 108's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 108 rated high risk for the purpose of the Act and Rules by Star Qld.

Particulars

See paragraph 110 above.

On 24 December 2018, Customer 108 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 4 September 2020, Customer 108 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 30 November 2021, Customer 108 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 108's transactions

2560. At no time did Star Qld apply appropriate transaction monitoring to Customer 108's transactions because, where Star Qld conducted any transaction monitoring of transactions involving Customer 108, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 108's KYC information

2561. Star Qld did not review, update and verify Customer 108's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of its business with Customer 108, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 108's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 108's source of wealth and source of funds were not legitimate: see *Customer 108's risk profile*.

During the relevant period, Star Qld recorded turnover exceeding \$44 million for Customer 108.

Between May 2019 and December 2021, Star Qld reviewed Customer 108's source of wealth and source of funds but did not take appropriate steps to verify the limited and varied information that Customer 108 provided.

In January 2021, Star Qld conducted searches of open source information and company records and concluded that Customer 108's claims to own and operate at least five businesses were unsupported.

It noted that:

- a. Customer 108 claimed to be the owner or director of an education and migration business, but open source searches suggested that he was only possibly employed by it, and there were inconsistencies between the registered business information and the information that Customer 108 had provided;
- b. Customer 108 claimed to own a café business, but the business name he provided had been deregistered since 2019 and was previously registered to another person;
- c. Customer 108 claimed to own a group company, but Star Qld could not find any information about the company except that it

was registered under Customer 108's name. The purported activities of the group company's subsidiaries could not be verified;

- d. Customer 108 claimed to own two other businesses but did not provide the names of those businesses and company searches indicated that Customer 108 was only associated with one other registered company; and
- e. the professional qualifications stated on Customer 108's business card and websites did not support his claims of being a lawyer or operating an accounting business.

In February 2021, Star Qld requested that Customer 108 provide further clarification of his stated source of wealth and source of funds. Customer 108 declined to provide further information.

Despite this, Star Qld continued to provide designated services to Customer 108.

In late 2021, Star Qld again requested that Customer 108 provide further information in relation to his source of wealth. Customer 108 provided a registered Australian Business Number for a hospitality business in response.

Star Qld subsequently verified that Customer 108 owned a restaurant business and concluded that Customer 108's source of wealth had been confirmed on this basis.

However, between April 2021 and December 2021, Star Qld had reported to the AUSTRAC CEO its suspicions that the amount of cash Customer 108 was presenting at its properties seemed very large to be coming out of his café business.

- d. to the extent that Star Qld reviewed Customer 108's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 108.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 108's high ML/TF risks

2562. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 108 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 108; and
 - c. reviewing and updating Customer 108's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 108 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 108*.

ECDD triggers in respect of Customer 108

2563. Star Qld was required to apply the ECDD Programs to Customer 108 following any ECDD triggers in respect of Customer 108.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and (3), 15.10 of the Rules.

2564. Customer 108 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 29 May 2019 and 9 September 2022, Star Qld gave the AUSTRAC CEO 15 SMRs with respect to Customer 108.

2565. The matter pleaded in paragraph 2564 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2566. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 108 following an ECDD trigger because:

- a. on each occasion that Star Qld conducted ECDD in respect of Customer 108 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 108 and the provision of designated services to Customer 108 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

ECDD screenings

Between 20 May 2021 and 11 September 2022, Star Qld conducted ECDD screenings in respect of Customer 108 on nine occasions.

On each occasion, the Due Diligence Program Manager and Group Manager, Due Diligence and Intelligence concluded that the review did not identify any issues and that Star Qld should maintain its customer relationship with Customer 108.

In determining that a business relationship could be continued, the Due Diligence Manager did not have regard to:

- a. Customer 108's stated source of wealth (r 15.10(2)(a) of the Rules), having regard to their high and escalating turnover;

- b. Customer 108's stated source of funds (r15.10(2)(b) of the Rules), having regard to the publicly available information suggesting that there were higher ML/TF risks as to their source of funds: see *Customer 108's risk profile* above; and
- c. Customer 108's conduct, which Star Qld considered suspicious and indicative of ML/TF typologies.

Other ECDD

In December 2021, a Star Qld AML Analyst conducted a review of Customer 108's activity and transaction history following correspondence with a law enforcement agency. They noted a number of red flags in relation to Customer 108, including that:

- a. Customer 108's café business apparently provided him with a continual supply of consistently larger amounts of cash and, in particular, cash in denominations of \$50 and \$20 notes;
- b. there was no way to determine with certainty how many of the \$100 notes that Customer 108 was presenting to Star Qld were originally paid out by Star Qld;
- c. Customer 108 had unsuccessfully attempted on numerous occasions to present large amounts of cash at Star Qld to exchange for chips, appear to play and then request Star Qld to transfer the funds back to his account;
- d. Customer 108's behaviour aligned with a similar pattern of behaviour to other patrons who had been arrested and charged with tobacco offences;
- e. a law enforcement agency was interested in Customer 108's source of cash; and
- f. Star Qld had given the AUSTRAC CEO a significant number of TTRs in respect of Customer 108.

On 6 January 2022, Star Qld removed Customer 108 from its watchlist.

On 9 September 2022, Customer 108 was re-added to Star Qld's watchlist.

As at 13 September 2022, Star Qld had not issued a WOL in respect of Customer 108.

- b. Customer 108 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion that Customer 108 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 108 and the provision of designated services to Customer 108 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

JRAMM and PAMM consideration

Between July 2021 and 30 December 2021, Customer 108 was discussed at PAMMs and JRAMMs.

The minutes of the meetings noted that:

- a. by mid-September 2021, Customer 108 had access to large amounts of cash for gambling. This included \$220,000 in cash at Star Qld, partially comprised of \$167,000 in \$50 notes;
- b. Star Qld had made multiple requests to clarify Customer 108's source of wealth and occupation but had been unable to verify Customer 108's claim that he was a lawyer and owned a migration firm; and
- c. in November 2021, Customer 108 attended Star Gold Coast early in the mornings, and was intent on advising cage staff that this was due to him operating multiple businesses in the mornings, and Star Qld had only verified that Customer 108 owned one of these businesses.

At no time did Star Qld have adequate reason to believe that Customer 108's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6) that Customer 108 received.

In September 2021, the PAMM noted that Star's investigations division was to liaise with a law enforcement agency in relation to Customer 108's presentation of over \$220,000 in cash in the preceding month.

In November 2021, after referring Customer 108 to a Responsible Gaming welfare check, the PAMM and JRAMM removed Customer 108 from their agendas.

As at 13 September 2022, Star Qld had not issued a WOL in respect of Customer 108.

Contravention of s36 of the Act in respect of Customer 108

2567. By reason of the matters pleaded from paragraphs 2555 to 2566 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 108 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2568. By reason of the matters pleaded at paragraph 2567, Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 108.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 109

2569. Customer 109 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$44 million for Customer 109.

Particulars

Customer 109 was a customer of Star Sydney from at least 8 October 2011.

On 30 September 2018, Star Sydney issued an involuntary WOL in respect of Customer 109. On 3 March 2020, Star Sydney withdrew the WOL as Customer 109 requested that it be revoked.

On 2 July 2020, Star Sydney issued a further involuntary WOL in respect of Customer 109 for problem gambling. This WOL remains in place.

2570. Star Sydney provided Customer 109 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 25 June 2018, Star Sydney opened an FMA and SKA for Customer 109 which were closed on 3 July 2020 (item 11, table 3, s6 of the Act).

See Customer 109's risk profile below.

2571. Customer 109 was a customer of Star Qld during the relevant period. In 2018, Star Qld recorded turnover exceeding \$780,000 for Customer 109.

Particulars

Customer 109 was a customer of Star Qld from at least 10 February 2018.

On 8 July 2020, Star Qld issued a WOL in respect of Customer 109 for problem gambling.

2572. Star Qld provided Customer 109 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 23 June 2018, Star Qld opened an FMA for Customer 109 which was closed on 3 July 2020 (item 11, table 3, s6 of the Act).

See *Customer 109's risk profile* below.

2573. At all times from 30 November 2016 in respect of Star Sydney and 10 February 2018 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 109.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 109's risk profile

2574. On and from 30 November 2016 in respect of Star Sydney and 10 February 2018 in respect of Star Qld, Customer 109, and the provision of designated services to Customer 109 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 109's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 109 had the following risk history:
- i. Customer 109 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 6 May 2016 and 21 November 2016, Star Sydney gave the AUSTRAC CEO five TTRs detailing incoming payments to Customer 109 totalling \$63,900 in chip exchanges.

Between 2 May 2016 and 31 October 2016, Star Sydney gave the AUSTRAC CEO seven TTRs detailing outgoing payments from Customer 109 totalling \$136,840 in chip exchanges.

On 2 May 2016 and 22 July 2016, Customer 109 made a \$9,000 cash buy-in at Star Sydney.

Customer 109's risk profile from 30 November 2016

- b. Customer 109 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$44,403,633 for Customer 109;

Particulars

See paragraph 752 above.

In 2016, Customer 109's individual rated turnover was \$3,495,233.

In 2017, Customer 109's individual rated turnover was \$22,097,492.

In 2018, Customer 109's individual rated turnover was \$4,853,895.

Between September 2018 and March 2020, Customer 109 was excluded from Star Sydney.

In 2020, despite the COVID-19 pandemic closures, Customer 109's individual rated turnover was \$13,957,013.

- c. Customer 109 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. In 2018, Star Qld recorded high individual rated turnover totalling \$787,619 for Customer 109;
- d. Star Sydney was aware that:
 - i. between 25 January 2017 and 30 June 2020, Customer 109 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in shopping bags and a shoebox at Star Sydney; and
 - ii. between 8 June 2020 and 30 June 2020, on multiple occasions, Customer 109 had requested that other Star Sydney customers conduct large and suspicious cash transactions on her behalf;

Particulars

See paragraphs 611 to 618 above.

TTRs

Between 25 January 2017 and 29 June 2020, Star Sydney gave the AUSTRAC CEO 47 TTRs detailing incoming payments to Customer 109 totalling \$1,160,870 in chip exchanges.

Between 6 February 2017 and 30 June 2020, Star Sydney gave the AUSTRAC CEO 42 TTRs detailing outgoing payments from Customer 109 totalling \$788,765 in account withdrawals, chip exchanges and EGM payouts.

Large and suspicious transactions in 2020

On 8 June 2020, Customer 109 presented \$9,900 in cash to purchase chips at Star Sydney. The cash was bundled with straps issued by Star. Customer 109 removed a note from the bundle prior to handing it to the Star Sydney staff. The staff were of the view that

Customer 109 appeared to be avoiding threshold reporting obligations. However, Star Sydney noted that this was the first time that Customer 109 had recorded a transaction between \$9,000 and \$9,999 in 2020 and that Customer 109's subsequent turnover rendered the transaction not suspicious.

On 13 June 2020, Customer 109 exchanged \$100,000 in cash for chips at Star Sydney. The cash was presented in a black paper shopping bag and was comprised of \$3,200 in \$100 notes and \$96,800 in \$50 notes. Star Sydney noted this transaction was, to date, the largest cash transaction recorded for Customer 109. After

purchasing the chips, Customer 109 engaged in gaming activity: SMR dated 15 June 2020.

On 24 June 2020, a Star Sydney customer exchanged \$100,000 in cash for chips at Star Sydney. The cash was presented in a red shopping bag and was comprised of \$3,300 in \$100 notes, \$96,650 in \$50 notes, and \$50 in \$5 notes. The customer advised Star Sydney that they got the cash 'from the bank'. However, Star Sydney was aware that prior to the transaction, Customer 109 had given the cash to the Star Sydney customer. After the transaction, the Star Sydney customer engaged in gaming activity. Star Sydney believed this activity to be suspicious as there were no known links between the Star Sydney customer and Customer 109: SMR dated 25 June 2020.

On 25 June 2020, Customer 109 exchanged \$50,000 in cash for chips at Star Sydney. The cash was presented in a shoe box. When asked how much cash was in the shoe box, Customer 109 stated that there was \$150,000 in \$50 notes. Customer 109 initially advised she wanted to exchange the full amount for chips. However, she changed her mind several times before deciding to exchange \$50,000 in cash for chips. Customer 109 advised Star Sydney that the cash was from her company in a foreign country. Star Sydney observed Customer 109 asking another Star Sydney customer to exchange a further \$50,000 in cash on her behalf. The other Star Sydney customer declined. After the exchange, Customer 109 engaged in gaming activity. Star Sydney noted that this was not the first occasion on which Customer 109 had asked another customer to purchase chips using \$50 notes on her behalf: SMR dated 26 June 2020.

On 28 June 2020, Customer 109 exchanged \$100,000 in cash for chips at Star Sydney, being the remaining cash that had been presented in a shoebox on 25 June 2020. The cash was comprised of \$3,100 in \$100 notes and \$96,900 in \$50 notes. Customer 109 deposited the chips into her account. She then withdrew \$5,000 in cash and \$95,000 in chips. On 30 June 2020, Customer 109 deposited \$60,000 in chips into her account and withdrew the equivalent amount in cash. Star Sydney asked Customer 109 where the cash came from, and she advised she had borrowed it but refused to identify from where. After the chip purchase on 28 June 2020, Customer 109 engaged in gaming activity: SMR dated 29 June 2020.

On 30 June 2020, a Star Sydney customer exchanged \$100,000 in cash for chips at Star Sydney. The cash was presented in three shopping bags, and was comprised of \$50 notes in \$5,000 bundles. Star Sydney asked the customer where the cash came from and she advised she had sold two properties. Shortly after the transaction, the customer exchanged a \$1,000 chip for cash. Shortly afterwards, the Star Sydney customer exchanged the remaining \$99,000 in chips for cash. The Star Sydney customer had not recorded any play since

cashing out the chips. After receiving the cash, the Star Sydney customer met Customer 109 in the hotel lobby. They proceeded to a Star Sydney hotel room. Star Sydney was of the view that the customer completed these transactions on Customer 109's behalf:
SMR dated 3 July 2020.

- e. Customer 109 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

TTRs

On 12 February 2018, Star Qld gave the AUSTRAC CEO a TTR detailing an incoming payment to Customer 109 totalling \$10,002 in a chip exchange.

On 15 February 2018, Star Qld gave the AUSTRAC CEO a TTR detailing an outgoing payment from Customer 109 totalling \$10,000 in a chip exchange.

- f. in June 2020, Star Sydney was aware that Customer 109 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including offsetting (including with unrelated third parties);

Particulars

See paragraph 25 above.

In June 2020, following several large and suspicious cash transactions involving Customer 109 at Star Sydney (see paragraph 2574.d above), an Investigations Manager, Financial Crime and investigations, SEG met with Customer 109.

Customer 109 said that she:

- a. had borrowed the \$100,000 in cash involved in the 27 June 2020 transaction from a friend;
- b. would repay the debt in a foreign country; and
- c. her family had a business in a foreign country which limited the amount of money that could be remitted to Australia. When that limit was reached, Customer 109 said that she borrowed money in Australia from friends or remitters and paid them back in the foreign country.

This arrangement was indicative of the ML/TF typology of offsetting (including with unrelated third parties).

- g. in 2018, 2020 and 2021, Customer 109 was the subject of law enforcement enquiries at Star;

Particulars

In February 2018, Star Qld exchanged emails with a law enforcement agency regarding information in respect of a hotel room connected to Customer 109.

In June and September 2020, Star Sydney received a request from a law enforcement agency seeking details about Customer 109, which Star Sydney provided. Star Sydney also indicated that Customer 109 had been excluded on 2 July 2020.

On 30 November 2021, Star Sydney received a request from a law enforcement agency seeking details about Customer 109, which Star Sydney provided.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Qld and Star Sydney had access to the investigations database: see paragraph 49 above.

- h. Customer 109 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 109 had access to private gaming rooms at Star Sydney, including the Chairman's, the Sovereign Room, Lakes Salons, Vantage and Oasis.

- i. Customer 109 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 109 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room, Oasis and the Sapphire Room.

- j. Star Sydney and Star Qld did not have adequate reason to believe that Customer 109's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 109 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood Customer 109's occupation to be as a hairdresser.

At all times, Customer 109's high turnover was not consistent with her source of wealth.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 109

- 2575. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 109 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 109.

- a. On and from 2017, Customer 109 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 109's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from 2018, Customer 109 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 109's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 109 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 25 July 2016, Customer 109 was rated medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 109's transactions

2576. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 109's transactions because, where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 109, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 109's KYC information

2577. Star Sydney and Star Qld did not review, update and verify Customer 109's KYC information, having regard to the high ML/TF risks posed, because:
 - a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 109's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 109's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 109's source of wealth and source of funds were not legitimate: see *Customer 109's risk profile*.

Customer 109's turnover was high throughout the relevant period. This turnover was not proportionate to her source of wealth.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 109's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 109.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 109's high ML/TF risks

2578. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 109 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 109; and
- c. reviewing and updating Customer 109's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 109 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 109*.

2579. Had Star Qld conducted ongoing customer due diligence on and from 2018 by:

- a. identifying and assessing the ML/TF risks posed by Customer 109 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 109; and
- c. reviewing and updating Customer 109's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 109 as a high risk customer for the purpose of the Act and Rules at a time before Customer 109 was issued with a WOL at Star Qld.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2580. Had Star Qld rated Customer 109 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 109 at a time before Customer 109 was issued with a WOL at Star Qld.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 109

2581. Star Sydney was required to apply the ECDD Programs to Customer 109 following any ECDD triggers in respect of Customer 109.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10 of the Rules.

2582. Customer 109 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 15 June 2020 and 3 July 2020, Star Sydney gave the AUSTRAC CEO five SMRs with respect to Customer 109.

2583. The matter pleaded in paragraph 2582 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2584. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 109 following an ECDD trigger because:

- a. on each occasion prior to 2 July 2020 that Star Sydney conducted ECDD in respect of Customer 109 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 109 and the provision of designated services to Customer 109 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 13 June 2020, 24 June 2020, 25 June 2020, 27 June 2020 and 30 June 2020, Star Sydney conducted ECDD in respect of Customer 109.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 109's higher ML/TF risks: see *Customer 109's risk profile*.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 109's source of funds or source of wealth, in circumstances where Star Sydney recorded Customer 109's stated occupation as 'hairdresser'.

By reason of the matters set out above, there were real risks that Customer 109's source of wealth and source of funds were not legitimate: see *Customer 109's risk profile*.

However, it was not until 2 July 2020 that Star Sydney issued a WOL in respect of Customer 109.

- b. Customer 109 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 109

2585. By reason of the matters pleaded from paragraphs 2569 to 2584 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 109 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2586. By reason of the matters pleaded at paragraph 2585, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 2 July 2020 with respect to Customer 109.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2587. By reason of the matters pleaded from paragraphs 2569 to 2584 above, on and from 10 February 2018, Star Qld:

- a. did not monitor Customer 109 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2588. By reason of the matters pleaded at paragraph 2587, Star Qld contravened s36(1) of the Act on and from 10 February 2018 to 2 July 2020 with respect to Customer 109.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 110

2589. Customer 110 was a customer of Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$350 million for Customer 110.

Particulars

Customer 110 was a customer of Star Sydney from at least 2010.

On 23 November 2021, Star Sydney issued a WOL in respect of Customer 110 at the direction of the Star AML team.

2590. Star Sydney provided Customer 110 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

Between 2016 and 2021, Star Sydney recorded turnover exceeding \$350 million for Customer 110 (table 3, s6 of the Act).

See Customer 110's risk profile below.

2591. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 110.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 110's risk profile

2592. On and from 30 November 2016, Customer 110, and the provision of designated services to Customer 110 by Star Sydney, posed higher ML/TF risks because of the following red flags:

Customer 110's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 110 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 110;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on 8 February 2016.

The SMR reported that designated services provided to Customer 110 included substantial EGM activity at Star Sydney: see paragraph 2592.a.ii below.

- ii. by 30 November 2016, designated services provided to Customer 110 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2592.a.iv below.

On 7 February 2016, Customer 110 exchanged a \$105,000 EGM payout for cash at Star Sydney. Star Sydney considered that this transaction was suspicious as Customer 110 had recorded a large amount of EGM play the day prior and the payout was not consistent with the amount of play recorded: SMR dated 8 February 2016.

- iii. Customer 110 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$4,216,519 for Customer 110; and

Particulars

See paragraph 752 above.

- iv. Customer 110 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 19 April 2010 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 271 TTRs in respect of Customer 110 totalling \$5,601,596, which comprised:

- a. 261 outgoing TTRs totalling \$5,496,596;
- b. ten incoming TTRs totalling \$105,000;
- c. \$739,935 in chip or cash exchanges;
- d. \$10,000 in account deposits or withdrawals; and
- e. \$4,851,661 in EGM payouts.

Customer 110's risk profile from 30 November 2016

- b. Customer 110 received high value gambling services (table 3, s6) at Star Sydney other than through junket programs. Between 2016 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$350,653,609 for Customer 110;

Particulars

See paragraph 752 above.

In 2016, Customer 110's individual rated turnover escalated to \$11,135,897.

In 2017, Customer 110's individual rated turnover was \$7,702,925.

In 2018, Customer 110's individual rated turnover escalated to \$20,269,971.

In 2019, prior to Customer 110's exclusion from Star Sydney on 24 September 2019, Customer 110's individual rated turnover further escalated to \$27,860,300.

In 2020, despite the COVID-19 pandemic closures, Customer 110's turnover escalated dramatically.

Between 22 June 2020 and 31 December 2020, immediately after Customer 110's exclusion was revoked, Customer 110's individual rated turnover escalated significantly to \$73,561,607.

In 2021, Customer 110's individual rated turnover escalated very significantly to \$210,122,908.

c. Star Sydney was aware that:

- i. designated services provided to Customer 110 included substantial EGM activity at Star Sydney;
- ii. Customer 110, and persons associated with him, transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes bundled with elastic bands; and
- iii. Customer 110, and persons associated with him, engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring;

Particulars)

See paragraphs 25, 570, 579 and 611 to 618 above.

TTRs

Between 5 December 2016 and 26 November 2021, Star Sydney gave the AUSTRAC CEO 870 TTRs in respect of Customer 110 totalling \$25,805,210, which comprised:

- a. 437 outgoing TTRs totalling \$20,619,510;
- b. 433 incoming TTRs totalling \$5,185,700;
- c. \$5,488,275 in chip or cash exchanges; and
- d. \$20,316,935 in EGM payouts.

EGM activity involving cash-outs in units of \$100,000

Between 3 April 2019 and 19 November 2021, Customer 110 exchanged EGM payout vouchers totalling \$5,566,567 for \$3,626,890 in cash in units of approximately \$100,000 with the balance taken as TITO vouchers:

- a. on 3 April 2019, Customer 110 exchanged an EGM voucher worth \$120,923 for \$100,000 in cash and \$20,923 in TITO vouchers;

- b. on 16 June 2019, Customer 110 exchanged an EGM voucher worth \$126,152 for \$100,000 in cash and \$26,152 in TITO vouchers;
- c. on 8 August 2020, Customer 110 exchanged an EGM voucher worth \$100,009 for cash;
- d. on 22 August 2020, Customer 110 exchanged an EGM voucher worth \$220,406 for \$200,000 in cash and \$20,406 in TITO vouchers;
- e. on 28 September 2020, Customer 110 exchanged an EGM voucher worth \$179,995 for \$100,000 in cash and \$80,000 in TITO vouchers: SMR dated 30 September 2020;
- f. on 22 December 2020, Customer 110 exchanged an EGM voucher worth \$280,000 for \$200,000 in cash and \$80,000 in TITO vouchers;
- g. on 29 December 2020, Customer 110 exchanged an EGM voucher worth \$180,003 for \$100,000 in cash and \$80,003 in TITO vouchers;
- h. on 2 January 2021, Customer 110 exchanged an EGM voucher worth \$273,718 for \$173,718 in cash and \$100,000 in TITO vouchers;
- i. on 9 January 2021, Customer 110 exchanged an EGM voucher worth \$372,000 for \$200,000 in cash and \$172,000 in TITO vouchers;
- j. on 28 January 2021, Customer 110 exchanged an EGM voucher worth \$150,035 for \$100,000 in cash and \$50,035 in TITO vouchers. The EGM voucher belonged to another Star Sydney customer, Person 22, who was a known associate of Customer 110;
- k. on 29 January 2021, Customer 110 exchanged an EGM voucher worth \$200,031 for \$100,000 in cash and \$100,031 in TITO vouchers;
- l. on 30 January 2021, Customer 110 exchanged an EGM voucher worth \$103,095 for cash. The voucher belonged to Customer 110's wife. Star Sydney understood that Customer 110 was known to use his wife's card while using EGMs;
- m. on 5 February 2021, Customer 110 exchanged an EGM voucher worth \$200,018 for cash. Customer 110 then exchanged a second EGM voucher worth \$147,996 for \$100,000 in cash and \$47,996 in TITO vouchers;
- n. on 7 February 2021, Customer 110 exchanged an EGM voucher worth \$282,600 for \$100,000 in cash and \$182,600 in TITO

- vouchers. Star Sydney observed that Customer 110 handed the cash to another Star Sydney customer, Person 23;
- o. on 8 February 2021, Customer 110 exchanged an EGM voucher worth \$200,035 for cash;
 - p. on 10 February 2021, Customer 110 exchanged EGM vouchers worth \$296,479 for \$200,000 in cash and \$96,479 in TITO vouchers. Customer 110 then exchanged an EGM voucher worth \$100,000 for cash: SMR dated 11 February 2021;
 - q. on 11 February 2021, Customer 110 exchanged an EGM voucher worth \$100,011 for cash;
 - r. on 14 February 2021, Customer 110 exchanged an EGM voucher worth \$200,019 for \$100,000 in cash and \$100,019 in TITO vouchers;
 - s. on 23 February 2021, Customer 110 exchanged EGM vouchers worth \$637,059 for \$400,004 in cash and \$237,055 in TITO vouchers. On each occasion, Customer 110 passed the cash to Person 23, who was a known associate of Customer 110's;
 - t. on 12 March 2021, Customer 110 exchanged EGM vouchers worth \$320,021 for \$250,000 in cash and \$70,021 in TITO vouchers: SMR dated 18 March 2021; and
 - u. on 18 November 2021, Customer 110 exchanged an EGM voucher worth \$230,035 for \$100,000 in cash and \$130,035 in TITO vouchers. On 19 November 2021, Customer 110 exchanged EGM vouchers worth \$452,079 for \$300,000 in cash and \$152,021 in TITO receipts. The following day, Customer 110 exchanged an EGM voucher worth \$150,000 for \$100,000 in cash and \$50,000 in TITO vouchers: SMR dated 25 November 2021.

EGM activity involving third parties

On 18 May 2019, a Star Sydney customer exchanged \$35,000 in chips for TITO vouchers. The customer then gave the TITO vouchers to Customer 110. Star Sydney considered that this activity was suspicious as the patron had no recorded chip purchases to support the exchange: SMR dated 20 May 2019.

On 13 September 2020, Customer 110 and a Star Sydney customer, Person 23, exchanged unusually large amounts of cash for EGM vouchers at Star Sydney. Person 23 exchanged \$22,000 in cash for EGM vouchers. Customer 110 exchanged \$47,000 in cash for EGM vouchers through a series of small transactions. Star Sydney observed that all of the cash presented comprised \$50 notes and originated from Customer 110. Customer 110 recorded a turnover on 13 September 2020 of \$693,609 with a loss of \$10,943. Person 23 recorded a turnover on 13 September 2020 of \$193,461 with a win of

\$29,454. Star Sydney observed that Customer 110 used his wife's membership card in the EGMs. Customer 110's wife recorded a turnover on 13 September 2020 of \$497,418 and a loss of \$2,421: SMR dated 25 September 2020.

On 11 January 2021, a Star Sydney customer, Person 22, was observed purchasing EGM tickets that were ultimately used by other customers, including Customer 110. On seven occasions, Customer 110 handed \$10,000 in cash to Person 22 who used this cash to purchase EGM tickets for Customer 110. On some occasions, Customer 110 gave Person 22 one or two tickets for play. On one occasion, another customer, Person 23, was observed handing \$10,000 in cash to Person 22 who then purchased tickets for Customer 110. Star Sydney considered this activity to be suspicious as Customer 110 and Person 23 appeared to be avoiding reporting thresholds: SMR dated 15 January 2021.

On 20 and 21 January 2021, two Star Sydney customers, Person 22 and Person 23 continued to purchase EGM tickets on Customer 110's behalf and returned the tickets to Customer 110 for his use.

On 12 March 2021, after exchanging EGM vouchers for \$250,000 in cash, Customer 110 handed an unidentified amount of cash to another customer, Person 23. The customer then used this cash to gamble. Customer 110 handed over an undisclosed amount of TITO vouchers to a second customer, Person 22. Customer 110 then exchanged another two EGM vouchers for cash. Customer 110 handed this cash to Person 22 who took the cash to a car before continuing to play. Star Sydney considered these transactions were suspicious given the large amount of cash totalling \$450,011 that Customer 110 received and the fact that the transactions all took place within a short period of time: SMR dated 18 March 2021.

EGM activity indicative of the ML/TF typology of structuring

On 17 June 2019, Customer 110 exchanged \$9,000 in cash for TITO vouchers at Star Sydney. Shortly afterwards, Customer 110 exchanged another \$9,000 in cash for TITO vouchers. The cash comprised \$100 notes. Star Sydney considered that the cash originated from a large win that was recorded for Customer 110 during this period. However, Star Sydney concluded that the transactions were suspicious as Customer 110 appeared to be structuring his purchases to avoid the reporting threshold: SMR dated 19 June 2019.

On 22 August 2019, a Star Sydney customer, Person 22, exchanged \$9,000 in cash for EGM vouchers at Star Sydney. The cash was comprised of \$50 notes. Star Sydney understood that Person 22 was acting on behalf of Customer 110. Customer 110 then exchanged \$9,000 in cash for EGM tickets. The cash comprised \$50 notes bundled with elastic bands. Another customer exchanged \$9,000 in cash for EGM vouchers. The cash comprised \$100 notes. Star

Sydney confirmed that these tickets were for Customer 110. Person 22 then exchanged \$9,000 in cash for EGM vouchers. The cash comprised \$100 notes in good condition. After completing this transaction, Person 22 handed the EGM vouchers to Customer 110.

Star Sydney considered these transactions to be suspicious as patrons were acting on Customer 110's behalf to exchange cash to EGM vouchers below the reporting threshold: SMR dated 23 August 2019.

On 28 September 2020, Customer 110 used cash to purchase four TITO vouchers for \$9,000 each within a short period. The cash comprised \$100 notes bundled together in Star straps, with each bundle having had ten notes removed before each transaction. Star Sydney considered that this activity was suspicious as Customer 110 appeared to be structuring transactions to avoid the reporting threshold: SMR dated 30 September 2020.

In May and June 2021, Star Sydney recorded a number of suspicious TITO ownership alerts relating to Customer 110 and his associates.

- a. On 29 May 2021, Customer 110 swapped \$4,147 worth of TITO vouchers with a customer.
- b. On 11 June 2021, a second customer, Person 22, swapped \$3,000 worth of TITO vouchers with a third customer.
- c. On 16 June 2021, Person 22 swapped \$4,000 worth of TITO vouchers with the first customer.
- d. On 11 June 2021 and 16 June 2021, the third customer purchased TITO vouchers worth \$13,000 which were used by Customer 110 and Person 22.
- e. On 11 June 2021, 12 June 2021 and 17 June 2021, the first customer purchased TITO vouchers worth \$34,000 which were used by Customer 110, Person 22 and a third customer.

Star Sydney considered this activity to be suspicious as it appeared that Customer 110 and the other patrons were structuring their purchases to avoid the reporting threshold and obscure the true ownership of the funds involved. Star Sydney also noted that Customer 110 had a history of swapping tickets with Person 22 and Person 23: SMR dated 30 June 2021.

In October and November 2021, Star Sydney recorded 136 suspicious TITO ownership alerts relating to Customer 110 and his associates with a total value of \$208,071. Star Sydney issued 48 TITO vouchers to Customer 110 with a total value of \$95,002.

- a. On 7 November 2021, Customer 110 gave one voucher worth \$2,000 to Person 22.
- b. On 8 November 2021, Customer 110 gave two vouchers with a total value of \$3,002 to Person 23.

- c. On 9 November 2021, Customer 110 gave 11 vouchers with a total value of \$22,000 to Person 22.
- d. On 10 November 2021, Customer 110 gave 34 vouchers with a total value of \$68,000 to Person 22 and Person 23.

Star Sydney considered this activity to be suspicious due to the large amount of TITO ownership alerts and the apparently organised nature of the group's attempt to disguise the ownership of funds: SMR dated 19 November 2021.

- d. from at least April 2019, Star Sydney was aware that Customer 110 was the target of a law enforcement agency investigation in connection with drug related matters;

Particulars

See particulars to paragraph 2592.e below.

- e. between 2020 and 2021, Customer 110 was the subject of law enforcement enquiries at Star Sydney;

Particulars

In February 2019, Star Sydney was informed by a law enforcement agency that Customer 110 had been the subject of multiple charges involving the use of violence.

In March 2019, a law enforcement agency requested information in respect of Customer 110 from Star Sydney. Star Sydney understood that Customer 110 was suspected to be involved in drug supply and money laundering, including at Star Sydney.

Later in March 2019, a law enforcement agency informed Star Sydney that Customer 110 was associated with persons involved in organised crime.

In April 2019 and July 2019, a law enforcement agency requested information in respect of Customer 110.

On 27 April 2021, Star Sydney received an email from a law enforcement agency in respect of Customer 110 and two of his associates.

- f. on 24 September 2019, Star Sydney excluded Customer 110 on the grounds of illegal and undesirable conduct. On 22 June 2020, Star Sydney revoked this exclusion;
- g. by 30 June 2021, Star Sydney was aware that Customer 110 was involved in criminal conduct; and

Particulars

By 30 June 2021, Star Sydney was aware that media reports identified that Customer 110 had pleaded guilty to possession of a prohibited drug while on Star Sydney premises.

- h. Star Sydney did not have adequate reason to believe that Customer 110's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 110 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood that Customer 110 founded and operated a building and property development business.

In 2018, Customer 110's turnover escalated significantly to over \$20 million.

By March 2019, Star Sydney was aware that a law enforcement agency had received information to suggest that Customer 110 was involved in the supply of drugs in Sydney and was laundering the proceeds of crime through Star Sydney.

In and from April 2019, Customer 110 engaged in large and suspicious EGM transactions involving a very high volume of cash. This included large volumes of cash transactions engaged in by third parties on Customer 110's behalf, and cash transactions indicative of the ML/TF typology of structuring. At no stage did Star Sydney verify Customer 110's source of funds.

Between September 2019 and June 2020, Customer 110 was excluded from Star Sydney pursuant to a WOL. After the WOL was lifted, and despite the COVID-19 pandemic closures, Customer 110's turnover escalated again to over \$73 million in 2020.

In 2021, Customer 110's turnover escalated dramatically to over \$210 million. Despite this, Star Sydney did not take appropriate steps to review, update and verify Customer 110's source of wealth and source of funds information to ensure that it was sufficient to explain the increasingly high value gambling designated services provided to him.

Star Sydney's determination of the ML/TF risks posed by Customer 110

2593. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 110 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 110.
- a. On and from 2018, Customer 110 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 110's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 110 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 9 February 2016, Customer 110 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 17 June 2019, Customer 110 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 17 June 2020, Customer 110 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 110's transactions

2594. At no time did Star Sydney apply appropriate transaction monitoring to Customer 110's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 110, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney provided designated services to Customer 110 through multiple accounts and was not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 110's KYC information

2595. Star Sydney did not review, update and verify Customer 110's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 110's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney did not appropriately review, update and verify Customer 110's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 110's source of wealth and source of funds were not legitimate: see *Customer 110's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 110's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 110.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 110's high ML/TF risks

2596. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 110 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 110; and
- c. reviewing and updating Customer 110's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 110 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 110*.

ECDD triggers in respect of Customer 110

2597. Star Sydney was required to apply the ECDD Programs to Customer 110 following any ECDD triggers in respect of Customer 110.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2598. Customer 110 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 25 May 2019 and 25 November 2021, Star Sydney gave the AUSTRAC CEO 11 SMRs with respect to Customer 110.

2599. The matter pleaded in paragraph 2598 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2600. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 110 following an ECDD trigger because:

- a. on each occasion prior to November 2021 that Star Sydney conducted ECDD in respect of Customer 110 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 110 and the provision of designated services to Customer 110 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

Between 25 September 2020 and 12 March 2021, Star Sydney conducted various ECDD enquiries in respect of Customer 110.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 110's higher ML/TF risks: see *Customer 110's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 110's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 110's source of wealth and source of funds were not legitimate: see *Customer 110's risk profile*.

On 23 November 2021, Star Sydney issued a WOL in respect of Customer 110.

- b. Customer 110 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to November 2021 that Customer 110 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 110 and the provision of designated services to Customer 110 by Star Sydney, and to whether those risks were within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between October 2019 and November 2021, Customer 110 was discussed at JRAMM and PAMM. The meetings considered Customer

110's level of EGM play and his suspicious behaviour, including using other customers' cards to play.

Between 1 July 2021 and 25 November 2021, Star Sydney senior management determined to maintain a business relationship with Customer 110 and noted that there was no adverse information in respect of Customer 110.

In determining that a business relationship could be continued, Star Sydney senior management did not have regard to:

- a. Customer 110's source of wealth (r 15.10(2)(a) of the Rules), having regard to his high and escalating turnover;
- b. Customer 110's source of funds (r15.10(2)(b) of the Rules), having regard to the information provided to Star Sydney by law enforcement agencies concerning the higher ML/TF risks as to his source of funds: see *Customer 110's risk profile* above.

It was not until 23 November 2021 that Star Sydney issued a WOL in respect of Customer 110 at the direction of the Star AML team.

Contravention of s36 of the Act in respect of Customer 110

2601. By reason of the matters pleaded from paragraphs 2589 to 2600 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 110 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2602. By reason of the matters pleaded at paragraph 2601, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 23 November 2021 with respect to Customer 110.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 111

2603. Customer 111 was a customer of Star Sydney during the relevant period. Between 2016 and 2018, Star Sydney recorded turnover exceeding \$250 million for Customer 111.

Particulars

Customer 111 was a customer of Star Sydney from at least 13 July 2007.

On 28 November 2018, Star Sydney issued a WOL in respect of Customer 111.

2604. Star Sydney provided Customer 111 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

See Customer 111's risk profile below.

2605. Customer 111 was a customer of Star Qld during the relevant period. Between 2016 and 2017, Star Qld recorded turnover exceeding \$470,000 for Customer 111.

Particulars

Customer 111 was a customer of Star Qld from at least 19 August 2012.

On 28 November 2018, Star Qld issued a WOL in respect of Customer 111.

2606. Star Qld provided Customer 111 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 18 February 2012, Star Qld opened an FMA for Customer 111 which was closed on 28 November 2018 (item 11, table 3, s6 of the Act).

See Customer 111's risk profile below.

2607. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 111.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 111's risk profile

2608. On and from 30 November 2016, Customer 111, and the provision of designated services to Customer 111 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 111's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 111 had the following risk history:
 - i. Star Sydney had formed suspicions for the purposes of s41 of the Act with respect to Customer 111;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on eight occasions between 29 November 2013 and 20 January 2016.

The SMRs reported that Customer 111:

- a. engaged in cash transactions consistent with the ML/TF typology of structuring totalling at least \$234,850: see paragraph 2608.a.ix below; and
 - b. had substantial EGM activity at Star Sydney: see paragraph 2608.a.vii below.
- ii. Star Qld had formed suspicions for the purposes of s41 of the Act with respect to Customer 111;

Particulars

Star Qld gave the AUSTRAC CEO an SMR on 9 January 2015.

The SMR reported that Customer 111 engaged in cash transactions consistent with the ML/TF typology of structuring totalling at least \$19,300: see paragraph 2608.a.x below.

- iii. Customer 111 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded a high individual rated turnover of \$37,853,575 for Customer 111;
- iv. Customer 111 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. In 2015, Star Qld recorded a high individual rated turnover of \$94,365 for Customer 111;
- v. Customer 111 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

See paragraph 2608.a.ix below.

Between 19 April 2011 and 29 November 2016, Star Sydney gave the AUSTRAC CEO 279 TTRs detailing incoming payments to Customer 111 totalling \$4,490,650 which comprised:

- c. \$47,400 in cash exchanges;
- d. \$4,340,725 in chip exchanges; and
- e. \$102,525 in other monetary value in.

Between 12 April 2010 and 28 November 2016, Star Sydney gave the AUSTRAC CEO 85 TTRs detailing outgoing payments from Customer 111 totalling \$1,413,794 which comprised:

- c. \$40,090 in account withdrawals;
- d. \$1,338,704 in chip exchanges; and
- e. \$35,000 in other monetary value out.

- vi. Customer 111 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

See paragraph 2608.a.x below.

Between 5 June 2012 and 19 February 2014, Star Qld gave the AUSTRAC CEO four TTRs detailing incoming payments to Customer 111 totalling \$63,000 in chip exchanges.

Between 17 June 2013 and 10 January 2014, Star Qld gave the AUSTRAC CEO five TTRs detailing outgoing payments from Customer 111 totalling \$82,394 which comprised:

- a. \$26,893 in account withdrawals; and
- b. \$55,500 in chip exchanges.

- vii. designated services provided to Customer 111 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 3 August 2010 and 30 November 2016, Star Sydney gave the AUSTRAC CEO 722 TTRs detailing EGM payouts to Customer 111 totalling \$12,482,929.

On 20 January 2016, Customer 111 exchanged a \$100,000 EGM voucher for chips at Star Sydney: SMR dated 20 January 2016.

- viii. designated services provided to Customer 111 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

On 2 October 2014, Star Qld gave the AUSTRAC CEO one TTR detailing EGM payouts to Customer 111 totalling \$143,559.

- ix. Customer 111 engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Sydney, including structuring;

Particulars

See paragraph 25 above.

On the following occasions, Customer 111 was involved in transactions indicative of the ML/TF typology of structuring totalling \$431,150:

- a. between 16 October 2013 and 1 August 2016, Customer 111 exchanged between \$9,000 and \$9,999 in cash for chips on 42 occasions totalling at least \$402,750; and
- b. between 26 April 2016 and 1 August 2016, Customer 111 made buy-ins between \$9,400 and \$9,500 in cash on three occasions totalling \$28,400.

Customer 111's transactions indicative of the ML/TF typology of structuring included:

- a. on 28 November 2013, Customer 111 exchanged \$9,900 cash to chips at Star Sydney. Customer 111 returned a few minutes later and exchanged a further \$2,500 in cash to chips. Star Sydney considered the transactions to be suspicious as it appeared that Customer 111 had split the transactions in order to avoid reporting obligations: SMR dated 29 November 2013;
 - b. on 12 August 2014, Star Sydney identified that Customer 111 had conducted 22 transactions between \$9,000 and \$9,999 in 2014 totalling \$213,900. Star Sydney considered these transactions to be suspicious as it appeared that Customer 111 was structuring his transactions to avoid reporting obligations: SMR dated 12 August 2014;
 - c. on 15 April 2015, Customer 111 exchanged \$9,950 in \$50 notes for chips at Star Sydney. When asked if he had a further \$50 to round the sum up to \$10,000, he replied that he did not as he wanted to avoid reporting the transaction to the government: SMR dated 17 April 2015;
 - d. on 8 November 2015, Customer 111 presented \$10,000 in chips to exchange for cash at Star Sydney. Customer 111 then took back \$5,000 of the chips and requested cash for the balance. Customer 111 was asked to present his identification and did not cash out the remaining \$5,000: SMR dated 10 November 2015;
and
 - e. on 1 December 2015, Customer 111 presented \$9,950 in cash to exchange for chips at Star Sydney after being observed removing some notes from the bundle. The cash comprised \$100 notes: SMR dated 2 December 2015;
 - f. On 3 September 2016, Customer 111 made two cash buy-ins of \$9,500.
- x. Customer 111 engaged in other transactions indicative of ML/TF typologies and vulnerabilities at Star Qld, including structuring;

Particulars

See paragraph 25 above.

Customer 111 was involved in transactions indicative of the ML/TF typology of structuring totalling \$19,300.

On 22 December 2014, Customer 111 made two chip purchases of \$9,800 and \$9,500 respectively. Star Qld considered that Customer 111 may have been trying to avoid reporting obligations. Star Qld was unaware of Customer 111's occupation: SMR dated 9 January 2015.

- xi. between 2014 and 2015, Customer 111 was the subject of law enforcement enquiries at Star; and

Particulars

Between 2014 and 2015, several enquiries were made by law enforcement agencies in respect of Customer 111.

In February 2016, a law enforcement agency requested information from Star Sydney in respect of Customer 111, including for an investigation related to money laundering.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Qld and Star Sydney had access to the investigations database: see paragraph 49 above.

- xii. between 2009 and 2014, media reports named Customer 111 as a person involved in contraventions of Australian labour law and tax fraud;

Particulars

In 2009, publicly accessible media articles reported that:

- a. Customer 111 was formerly the director of a labour hire company;
- b. Customer 111 was suspected of being investigated by an Australian government department in connections with allegations that the labour hire company was involved in the production of false work documents and had supplied illegal labour in Australia; and
- c. former employees of the labour hire company alleged that workers sourced through the company were underpaid, had their passports removed, were given poor housing conditions and sent to work with false documents.

In 2014, publicly accessible media articles reported that:

- a. Customer 111 was the director of a second labour hire company; and
- b. a union alleged that thousands of migrant workers employed in Australian business through the labour hire company were not appropriately paying taxes.

Star Sydney's and Star Qld's due diligence records did not contain details of these reports.

Customer 111's risk profile from 30 November 2016

- b. Customer 111 received high value gambling services (table 3, s6) at Star Sydney other than through junket programs. Between 2016 and 2018, Star Sydney recorded high and escalating individual rated turnover of \$251,100,024 for Customer 111;

Particulars

See paragraph 752 above.

In 2016, Customer 111's individual rated turnover escalated to \$108,025,074.

In 2017, Customer 111's individual rated turnover was \$75,673,144.

In 2018, Customer 111's individual rated turnover was \$67,401,806.

- c. Customer 111 received high value gambling services (table 3, s6) at Star Qld other than through junket programs. Between 2016 and 2017, Star Qld recorded high and escalating individual rated turnover of \$475,977 for Customer 111;

Particulars

See paragraph 752 above.

In 2016, Customer 111's individual rated turnover escalated to \$311,945.

In 2017, Customer 111's individual rated turnover was \$164,032.

- d. designated services provided to Customer 111 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

Between 5 December 2016 and 27 November 2018, Star Sydney gave the AUSTRAC CEO 400 TTRs detailing EGM payouts to Customer 111 totalling \$6,663,485.

- e. Customer 111 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 5 December 2016 and 28 November 2018, Star Sydney gave the AUSTRAC CEO 345 TTRs detailing incoming payments to Customer 111 totalling \$6,334,450 in chip exchanges.

Between 5 December 2016 and 28 November 2018, Star Sydney gave the AUSTRAC CEO 51 TTRs detailing outgoing payments from Customer 111 totalling \$971,040 which comprised chip exchanges and other monetary values out.

- f. Customer 111 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

On 20 December 2016, Star Qld gave the AUSTRAC CEO two TTRs detailing outgoing payments from Customer 111 totalling \$23,008 which comprised chip exchanges and EGM payouts.

- g. Customer 111 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 111 had access to private gaming rooms at Star Sydney including the Sovereign Room, Chairman's, Jade, Oasis and Lakes Salons.

- h. Customer 111 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 111 had access to private gaming rooms at Star Qld including the Suite and the Sovereign Room.

- i. in December 2016, Customer 111 was the subject of a law enforcement enquiry at Star;

Particulars

In December 2016, a law enforcement agency requested information from Star Sydney in respect of Customer 111.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Qld and Star Sydney had access to the investigations database: see paragraph 49 above

- j. by 11 May 2018, Star Sydney and Star Qld were aware of publications on an Australian government regulator's website which reported that Customer 111 had been fined \$43,000 for underpaying migrant workers;

Particulars

In May 2018, an article on an Australian government regulator's website reported that Customer 111 had been fined \$43,000 for underpaying migrant workers between March 2011 and July 2013.

Customer 111 was held accessorially liable for the underpayments by the company of which he was formerly the general manager.

- k. between 2019 and 2021, media reports named Customer 111 as a person who had withdrawn nearly \$2,000,000 from ATMs at Star Sydney and who was involved in, among other things, money laundering;

Particulars

In 2019, publicly accessible media articles reported that:

- a. Customer 111 owed \$121,000,000 to the Commonwealth in respect of eight companies operated by Customer 111;
- b. Customer 111 had consented to pay \$42,000,000 in personal taxes and fines to an Australian government agency;

- c. Customer 111 had engaged in 'phoenixing' behaviour in respect of labour hire companies;
- d. Customer 111 was alleged to have gambled vast sums at casinos, mainly Star Sydney, and had withdrawn nearly \$2,000,000 from ATMs there over five years; and
- e. Customer 111 had sent \$43,000,000 overseas.

In 2021, publicly accessible media articles reported that:

- a. in 2018, a law enforcement agency executed search warrants in respect of several properties owned by Customer 111 in connection with a recruitment and labour hire syndicate operated by him;
- b. Customer 111 was suspected of several criminal offences including money laundering, tax fraud, secret commissions and breaches of migration law; and
- c. Customer 111 was, unsuccessfully, resisting requests by an Australian government agency to establish his Australian wealth on the grounds that the documents would tend to incriminate him.

These reports were published after Star Sydney and Star Qld had issued Customer 111 with a WOL on 28 November 2018.

- l. in December 2021, an Australian court made findings that Customer 111 controlled companies involved in money laundering and overseas remittance; and

Particulars

In December 2021, the Australian court held that companies controlled by Customer 111 were involved, over a lengthy period of time, in the employment of common methods of tax evasion and avoidance, including phoenix activity, asset diversion and money laundering, together with improper treatment of employees.

The Court held that there was evidence that the group of companies had made over \$7,000,000 in overseas payments and transfers.

This judgment was published after Star Sydney and Star Qld had issued Customer 111 with a WOL on 28 November 2018.

- m. Star Sydney and Star Qld did not have adequate reason to believe that Customer 111's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 111 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 111 was in the import/export business.

By 30 November 2016, open-source media identified that there were real ML/TF risks associated with Customer 111's source of funds or source of wealth.

Star did not record any information relating to Customer 111's source of wealth or source of funds beyond his occupation.

Between 2016 and 2018, Customer 111 recorded a turnover of hundreds of millions of dollars at Star Sydney and Star Qld. Customer 111 also engaged in transactions indicative of the ML/TF typology of structuring and was the subject of a law enforcement inquiry. Despite this, Star did not take steps to review, update and verify Customer 111's source of wealth and source of funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 111

2609. For the reasons pleaded at paragraph 110, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 111 appropriately because the risk-based procedures, systems and controls in the Joint Part A Programs were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 111.
- a. On and from 30 November 2016, Customer 111 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 111's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. It was not until 20 November 2018 that Customer 111 was rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

Until 19 November 2018, Customer 111 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 19 November 2018, Customer 111 was rated high risk, not being high risk for the purpose of the Act and Rules.

On 20 November 2018, Customer 111 was rated critical risk, being high risk for the purpose of the Act and Rules.

On 28 November 2018, Star Sydney and Star Qld issued a WOL in respect of Customer 111.

On 15 July 2020, Customer 111 was rated very high risk, being high risk for the purpose of the Act and Rules.

Monitoring of Customer 111's transactions

2610. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 111's transactions because, where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 111, Star Sydney's and Star Qld's

transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 111's KYC information

2611. Star Sydney and Star Qld did not review, update and verify Customer 111's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 111's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. until November 2018, Star Sydney and Star Qld did not appropriately review, update and verify Customer 111's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

Star understood that Customer 111 was in the import/export business. By 30 November 2016, open-source media identified that there were real ML/TF risks associated with Customer 111's source of funds or source of wealth.

Between 2016 and 2018, Customer 111 recorded a turnover of hundreds of millions of dollars at Star Sydney and Star Qld.

Star did not record any information relating to Customer 111's source of wealth or source of funds beyond his occupation.

On or about 23 May 2018, Star conducted a risk intelligence search in respect of Customer 111 which identified that:

- a. Customer 111 was the former general manager of a company;
and
- b. in May 2018, Customer 111 was fined \$43,000 by the Federal Circuit Court for deliberate exploitation of migrant workers between March 2011 and July 2013.

Customer 111 also engaged in transactions indicative of the ML/TF typology of structuring and was the subject of a law enforcement inquiry. Despite this, Star did not take steps to review, update and verify Customer 111's source of wealth and source of funds.

By reason of the matters set out above, there were real risks that Customer 111's source of wealth and source of funds were not legitimate: see *Customer 111's risk profile*.

- d. until November 2018, to the extent that Star Sydney and Star Qld reviewed Customer 111's KYC information on and from 30 November 2016, they failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 111.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Despite the high ML/TF risks posed by Customer 111 and the provision of designated services to him, it was not until October 2018 that Star senior management considered whether those risks were within Star Sydney's or Star Qld's ML/TF risk appetite.

Between October 2018 and December 2018, Customer 111 was discussed at PAMMs and JRAMMs. Information had been found identifying that Customer 111 had been fined for deliberate exploitation of migrant workers in May 2018.

Between November 2018 and December 2018, Customer 111 was discussed at JRAMMs. The discussion concerned the same matters as the PAMMs.

Star Sydney and Star Qld issued Customer 111 with a WOL on 28 November 2018.

Failure to apply appropriate due diligence suited to Customer 111's high ML/TF risks

2612. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:

- a. identifying and assessing the ML/TF risks posed by Customer 111 appropriately;
- b. applying appropriate risk-based transaction monitoring to Customer 111; and
- c. reviewing and updating Customer 111's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Program to Customer 111 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 111*.

ECDD triggers in respect of Customer 111

2613. Star Sydney and Star Qld were required to apply the ECDD Program to Customer 111 following any ECDD triggers in respect of Customer 111.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(1) and 15.10 of the Rules.

2614. Customer 111 was determined to be high risk for the purpose of the Act and Rules during the relevant period by Star Sydney and Star Qld.

Particulars

On 20 November 2018, Customer 111 was rated critical risk, being high risk for the purpose of the Act and Rules: see *Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 111* above.

2615. The matter pleaded in paragraph 2614 was an ECDD trigger.

Particulars

See paragraphs 792, 798 and 799 above.

2616. On 28 November 2018, Star Sydney and Star Qld issued a WOL in respect of Customer 111.

Contravention of s36 of the Act in respect of Customer 111

2617. By reason of the matters pleaded from paragraphs 2603 to 2616 above, on and from 30 November 2016, Star Sydney and Star Qld:

- a. did not monitor Customer 111 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2618. By reason of the matters pleaded at paragraph 2617, Star Sydney and Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 28 November 2018 with respect to Customer 111.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 112

2619. Customer 112 was a customer of Star Sydney during the relevant period. Between 2016 and 2020, Star Sydney recorded turnover exceeding \$2 million for Customer 112.

Particulars

Customer 112 was a customer of Star Sydney from at least 17 October 2015.

2620. Star Sydney provided Customer 112 with designated services within the meaning of tables 1 and 3, s6 of the Act during the relevant period.

Particulars

On 22 October 2019, Star Sydney opened an FMA and SKA for Customer 112 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 112 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 112's risk profile below.

2621. Customer 112 was a customer of Star Qld during the relevant period. Between 2016 and 2022, Star Qld recorded turnover exceeding \$165 million for Customer 112.

Particulars

Customer 112 was a customer of Star Qld from at least 2012.

2622. Star Qld provided Customer 112 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 21 October 2019, Star Qld opened an FMA for Customer 112 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 112 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

Star Qld remitted money through high risk international remittance channels, including the Hotel Card channel, which it made available to Customer 112 (items 31 and 32, table 1, s6 of the Act).

See Customer 112's risk profile below.

2623. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 112.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 112's risk profile

2624. On and from 30 November 2016, Customer 112, and the provision of designated services to Customer 112 by Star Sydney and Star Qld posed higher ML/TF risks because of the following red flags:

Customer 112's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 112 had the following risk history:
- i. Customer 112 received high value gambling services (tables 1 and 3, s6 of the Act) at Star Sydney. In 2015, Star Sydney recorded individual rated turnover of \$75,991 for Customer 112;
 - ii. Customer 112 received high value gambling services (tables 1 and 3, s6 of the Act) at Star Qld. In 2015, Star Qld recorded high individual rated turnover of \$2,881,007 for Customer 112;
 - iii. Customer 112, and persons associated with him, transacted using large amounts of cash at Star Qld; and

Particulars

See paragraphs 611 to 618 above.

Between 28 August 2014 and 1 September 2016, Star Qld gave the AUSTRAC CEO 12 TTRs in respect of Customer 112 totalling \$140,270, which comprised:

- a. 10 outgoing TTRs totalling \$120,270;
 - b. two incoming TTRs totalling \$20,000;
 - c. \$96,801 in chip or cash exchanges; and
 - d. \$43,470 in EGM payouts.
- iv. designated services provided to Customer 112 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2624.a.iii above.

Customer 112's risk profile from 30 November 2016

- b. Customer 112 received high value financial and gambling services (tables 1 and 3, s6 of the Act) other than through junket programs at Star Sydney. Between 2016 and 2020, Star Sydney recorded high and escalating individual rated turnover totalling \$2,881,007 for Customer 112;

Particulars

See paragraph 752 above.

In 2016, Customer 112's individual rated turnover was \$19,480.

In 2017, Customer 112's individual rated turnover was \$31,699.

In 2018, Customer 112's individual rated turnover escalated to \$514,277.

In 2019, Customer 112's individual rated turnover further escalated to \$2,215,084.

From 2020, when the COVID-19 pandemic closures commenced, Customer 112's turnover dropped but remained high.

In 2020, Customer 112's individual rated turnover was \$100,467.

- c. Customer 112 received high value financial and gambling services (tables 1 and 3, s6 of the Act) other than through junket programs at Star Qld. Between 2016 and 2022, Star Qld recorded high and escalating individual rated turnover totalling \$165,270,395 for Customer 112;

Particulars

See paragraph 752 above.

In 2016, Customer 112's individual rated turnover escalated to \$2,914,473.

In 2017, Customer 112's individual rated turnover further escalated to \$9,028,991.

In 2018, Customer 112's individual rated turnover further escalated to \$21,787,569.

In 2019, Customer 112's individual rated turnover further escalated to \$80,643,445.

From 2020, despite the COVID-19 pandemic closures, Customer 112's turnover remained high.

In 2020, Customer 112's individual rated turnover was \$26,631,866.

In 2021, Customer 112's individual rated turnover was \$20,846,028.

In 2022, Customer 112's individual rated turnover was \$1,155,807.

- d. Star Qld was aware that:
- i. Customer 112 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
 - ii. Customer 112, and persons associated with him, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 24 January 2017 and 17 October 2022, Star Qld gave the AUSTRAC CEO 796 TTRs in respect of Customer 112 totalling \$17,904,897, which comprised:

- a. 700 outgoing TTRs totalling \$16,098,747;

- b. 96 incoming TTRs totalling \$1,806,150;
- c. \$3,129,433 in chip or cash exchanges;
- d. \$1,879,788 in account deposits or withdrawals; and
- e. \$12,895,676 in EGM payouts.

Large and unusual transactions in 2017

In October and November 2017, Customer 112 recorded losses on EGMs totalling \$73,000. Customer 112's losses in 2017 totalled \$122,000 for table play. Star Qld was unaware of Customer 112's source of income. Star Qld also observed that there was some evidence of repeated transactions conducted by Customer 112 just below the reporting threshold: SMR dated 14 December 2017.

Large and unusual transactions in 2019

On 2 March 2019, Customer 112 presented at the cashier at Star Qld with an EGM payout ticket totalling \$102,556. Customer 112 requested the entire amount in cash and provided a Queensland driver's licence in his anglicised name. Star Qld's records indicated that there was another card in the EGM when the collect button was pressed. Customer 112 said that he had put his partner's card in the EGM before pressing the collect button. Star Qld suspected that Customer 112 was using his partner's card to gamble, possibly to conceal how much he was gambling. Star Qld noted that it had given the AUSTRAC CEO ten TTRs in respect of Customer 112 in the last 30 days for EGMs and table play. Only one was for a table buy-in of \$10,000. The remaining TTRs were for payouts totalling \$292,426. In the same period, Customer 112 recorded a win of \$1,001 for EGMs and table play and Customer 112's partner's account recorded a win of \$85,318. Star Qld considered that these records seemed to support that there was an element of structuring to make it appear as if Customer 112 was winning more than he actually was: SMR dated 5 March 2019.

On 23 September 2019, Star Qld observed that Customer 112's gambling activity had escalated throughout the year. Since the beginning of 2019, Customer 112 had a recorded loss in excess of \$500,000. Most of these losses occurred within the previous three months. Star Qld observed that Customer 112 played both table games and EGMs equally. Star Qld had not yet obtained Customer 112's source of income or occupation, but considered that he did not appear to be avoiding reporting requirements as Star Qld had lodged a substantial number of TTRs in the last 90 days. Star Qld observed that the value total of these TTRs would indicate that Customer 112 was almost even in his losses, but that its own gaming records contradicted this: SMR dated 24 September 2019.

On 17 October 2019, Customer 112 cashed out an EGM payout of \$164,653 at Star Qld. The cash out comprised \$50,000 in chips and \$114,653 in cash. Customer 112 had an original cash buy-in of \$6,725 for the EGMs. Star Qld observed that the play on gaming tables was in line with the chips taken and that EGM records showed substantial play with cash buy-ins. On 18 October 2019, Customer 112 recorded a loss of \$25,000 following play at gaming tables and a loss of \$8,000 following play at EGMs. Star Qld's records showed a win of \$131,168 for the day, indicating that Customer 112 still held \$106,000 in cash and \$25,000 in chips. Star Qld observed that this was an unusually large amount of cash for Customer 112 to carry on himself and that this could be an indication of illegal activity: SMR dated 18 October 2019.

Large and unusual transactions in 2020

On 10 July 2020, Customer 86, who was a known associate of Customer 112, received a large and suspicious telegraphic transfer at Star Qld totalling \$1,000,000. Star Qld determined that Customer 112 was redeeming tickets that were originally generated under Customer 86's card. The amount of tickets generated under Customer 86 and redeemed by Customer 112 totalled \$8,500. Customer 86 originally withdrew \$10,000 from his FMA and deposited it into his CWA. Customer 86 then requested two tickets for \$2,000 and three tickets for \$1,500: SMR dated 14 July 2020.

On 27 July 2020, Star Qld received \$3,000 into its account. The transfer came from another Star Qld customer, Person 48, for the credit of Customer 112. Star Qld was not aware of the connection between Person 48 and Customer 112, or why Person 48 was sending funds to Customer 112. Star Qld was aware that Person 48 held a membership account at Star Qld and was a frequent player at Star Qld. Star Qld suspected that Person 48 and Customer 112 were using the casino to avoid the banking system to make transfers: SMR dated 28 July 2020.

On 31 July 2020, Star Qld's marketing team notified the Star Qld cashier team that Customer 112 was expecting a telegraphic transfer that day, and emailed an image from a mobile device of a fast payment. The image suggested that Star Qld would receive a payment for \$68,000 from a company bank account that listed Customer 112's casino membership number. Star Qld's bank statement did not show that the payment had come from the company account but instead from another Star Qld customer, Person 48. Star Qld suspected that Person 48 may have been able to change the transaction details to conceal that it was coming from a company account. Star Qld was not aware of the connection between the company account, Person 48 and Customer 112: SMR dated 4 August 2020.

- e. Customer 112 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including structuring;

Particulars

See paragraph 25 above.

For example, on 14 December 2017, Star Qld observed that there was some evidence over the previous two months of repeated transactions conducted by Customer 112 just below the reporting threshold: SMR dated 14 December 2017.

- f. designated services provided to Customer 112 included substantial EGM activity at Star Sydney;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2624.j below.

- g. designated services provided to Customer 112 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

See paragraph 2624.d above.

- h. Star Qld provided designated services (items 31 and 32, table 1, s6 above) to Customer 112 by remitting large amounts of money into and out of the casino environment his accounts, including through international remittance channels which involved higher ML/TF risks;

Particulars

Remittances through the Hotel Card channel

See paragraphs 356 to 367 above.

On 23 November 2019 and 26 November 2019, Customer 112 transacted a total of \$40,000 through the Hotel Card channel.

Remittances involving third parties

See paragraphs 278 and 327 above.

See paragraph 2624.d above.

- i. Star Sydney provided designated services (items 31 and 32, table 1, s6 above) to Customer 112 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

On 26 March 2022, Star Sydney sent a transfer of \$10,142 from Customer 112's FMA to Star Qld.

On 22 March 2022, Star Sydney received a transfer of \$160,210 from Star Qld, which it made available to Customer 112's FMA.

- j. Customer 112, and persons associated with him, transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Between 5 November 2018 and 23 March 2022, Star Sydney gave the AUSTRAC CEO 27 TTRs in respect of Customer 112 totalling \$538,600, which comprised:

- a. 23 outgoing TTRs totalling \$498,600;
- b. four incoming TTRs totalling \$40,000;
- c. \$142,080 in chip or cash exchanges;
- d. \$10,000 in account deposits or withdrawals; and
- e. \$386,520 in EGM payouts.

On 15 July 2019, a Star Sydney customer, Person 48, exchanged \$108,500 in cash for chips at Star Sydney. The cash was comprised of \$8,100 in \$100 notes, \$99,500 in \$50 notes and \$900 in \$20 notes.

The cash was bundled with elastic bands and was contained in an orange bag. Following the transaction, Person 48 met with Customer 112 and handed the chips to him. Star Sydney was not aware of the relationship between Person 48 and Customer 112, but considered that it was suspicious that the cash was in mixed denominations and handed over to Customer 112: SMR dated 16 July 2019.

- k. Star Qld was aware that Customer 112 transacted using multiple aliases;

Particulars

On 10 January 2019, Star Qld identified that Customer 112's personal identification was not in the same name as Customer 112's Star Qld account. Star Qld observed that Customer 112's Star Qld account was in his birth name but the identification was in his anglicised name. Star Qld also had a record of a foreign passport connected to Customer 112, but could not confirm the name contained in this document.

Star Qld identified three accounts in its records belonging to Customer 112, two of which were in his birth name. The third account was in his anglicised name.

Star Qld requested name change documents and advice as to which name Customer 112 intended to use. Star Qld observed that it seemed unusual that Customer 112 had been using multiple names for some time: SMR dated 10 January 2019.

As at 5 March 2019, Customer 112 had not provided these documents. Star Qld observed that Customer 112 seemed reluctant to provide them: SMR dated 5 March 2019.

- l. Customer 112 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 112 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Oasis and Chairman's.

- m. Customer 112 had access to private gaming rooms at Star Qld; and

Particulars

See paragraph 616 above.

Customer 112 had access to private gaming rooms at Star Qld, including the Suite, the Sovereign Room, Chairman's, the Oasis and the Club Conrad.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 112's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 above) received by Customer 112 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Between 2016 and 2022, Customer 112 recorded a cumulative turnover at Star Sydney and Star Qld exceeding \$165 million.

At no point did Star Sydney or Star Qld establish Customer 112's source of wealth or source of funds.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 112

2625. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 112 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 112.

- a. On and from 2018, Customer 112 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 112's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 112 rated high risk for the purpose of the Act and Rules by Star Sydney or Star Qld.

Particulars

See paragraph 110 above.

On 6 September 2017, Customer 112 was rated low risk in respect of one of his account numbers, and on 26 April 2019 Customer 112 was rated low risk in respect of a second of his account numbers, not being high risk for the purpose of the Act and Rules.

On 5 March 2019, Customer 112 was rated medium risk in respect of one of his account numbers, and on 4 August 2020 Customer 112 was rated medium risk in respect of a second of his account numbers, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 112's transactions

2626. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 112's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 112, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 112 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. an international remittance channel, specifically the Hotel Card channel; and

Particulars

See paragraphs 777 and 790 above.

- c. Star Sydney and Star Qld provided designated services to Customer 112 through multiple accounts and were not able to collate information from those accounts.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraph 764 above.

The review, update and verification of Customer 112's KYC information

2627. Star Sydney and Star Qld did not review, update and verify Customer 112's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC

information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a), (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 112's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 112's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 112's source of wealth or source of funds:
see Customer 112's risk profile.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 112's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 112.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 112's high ML/TF risks

2628. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 112 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 112; and
 - c. reviewing and updating Customer 112's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 112 at a time before the date of the ECDD triggers pleaded below: *see ECDD triggers in respect of Customer 112.*

2629. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 112 appropriately;

- b. applying appropriate risk-based transaction monitoring to Customer 112; and
- c. reviewing and updating Customer 112's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 112 as a high risk customer.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2630. Had Star Sydney rated Customer 112 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 112.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 112

2631. Star Qld was required to apply the ECDD Programs to Customer 112 following any ECDD triggers in respect of Customer 112.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2632. Customer 112 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 14 December 2017 and 4 August 2020, Star Qld gave the AUSTRAC CEO nine SMRs with respect to Customer 112.

2633. The matter pleaded in paragraph 2632 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2634. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 112 following an ECDD trigger because:

- a. at no time did Star Qld apply the ECDD Programs to Customer 112; and

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

Between 2016 and 2022, Customer 112 recorded a cumulative turnover at Star Qld exceeding \$165 million. At no point did Star Qld establish Customer 112's source of wealth or source of funds.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 112's source of wealth or source of funds:
see *Customer 112's risk profile*.

- b. Customer 112 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 112

2635. By reason of the matters pleaded from paragraphs 2619 to 2634 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 112 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2636. By reason of the matters pleaded at paragraph 2635, Star Qld contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 112.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2637. By reason of the matters pleaded from paragraphs 2619 to 2634 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 112 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2638. By reason of the matters pleaded at paragraph 2637, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 112.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 113

2639. Customer 113 was a customer of Star Sydney during the relevant period. Between 2018 and 2019, Star Sydney recorded turnover exceeding \$210,000 for Customer 113.

Particulars

Customer 113 was a customer of Star Sydney from at least 22 May 2011.

On 13 August 2021, Star Sydney issued a WOL in respect of Customer 113.

2640. Star Sydney provided Customer 113 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 22 May 2011, Star Sydney provided Customer 113 with an item 11, table 3, s6 designated service.

See Customer 113's risk profile below.

2641. Customer 113 was a customer of Star Qld during the relevant period. Between 2016 and 2021, Star Qld recorded turnover exceeding \$840,000 for Customer 113.

Particulars

Customer 113 was a customer of Star Qld from at least 22 May 2011.

On 13 August 2021, Star Qld issued a WOL in respect of Customer 113.

2642. Star Qld provided Customer 113 with designated services within the meaning of table 3, s6 of the Act during the relevant period.

Particulars

On 22 May 2011, Star Qld provided Customer 113 with an item 11, table 3, s6 designated service.

See Customer 113's risk profile below.

2643. At all times from 30 November 2016, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 113.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 113's risk profile

2644. On and from 30 November 2016, Customer 113, and the provision of designated services to Customer 113 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:

Customer 113's risk history as at 30 November 2016

- a. by 30 November 2016 Customer 113 had the following risk history:
- i. by 2006, an open source media article linked Customer 113 to a drug trafficker;

Particulars

In 2006, an open source media article linked Customer 113 and his wife to a drug trafficker. The media article alleged that Customer 113's wife, who had been granted a gaming venue operator's licence, was involved in a business venture with family members of the drug trafficker.

Star Sydney's and Star Qld's due diligence records did not contain details of this report.

- ii. by 2008, an open source media article linked Customer 113 to the racing and gaming industry;

Particulars

In 2008, an open source media article alleged that:

- a. Customer 113 was a very close associate of a drug trafficker;
- b. Customer 113 was involved in the racing and gaming industry with the drug trafficker; and
- c. the drug trafficker had laundered millions of dollars through racing in Australia.

Star Sydney's and Star Qld's due diligence records did not contain details of this report.

- iii. by 2015, open source media articles alleged that Customer 113 had been charged with fraud offences;

Particulars

In 2015, open source media articles alleged that:

- a. Customer 113 had appeared in a Queensland court on fraud charges;
- b. law enforcement alleged that Customer 113 co-ordinated an unregulated business offering fraudulent investment opportunities; and
- c. Customer 113 had operated a betting business for a drug trafficker on the Gold Coast.

It was not until October 2017 that Star became aware of these charges.

- iv. by March 2015, Star Qld was aware that Customer 113 was implicated in a boiler room investigation; and

Particulars

In March 2015, a law enforcement agency informed Star Qld that it was investigating a boiler room operating out of Star Gold Coast and Star Brisbane and noted that there appeared to be a substantial quantity of cash being pushed through the casinos.

Customer 113 and Customer 84, among others, were implicated in this investigation by the law enforcement agency.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

- v. by June 2016, open source media articles alleged that Customer 113 had been charged with illegal bookmaking and dishonestly inducing investments in companies that offered fraudulent investments;

Particulars

In June 2016, open source media articles alleged that:

- a. an Australian government agency had launched an action against Customer 113 in respect of an alleged boiler room scam and were seeking over \$10 million from him;
- b. Customer 113 had failed to pay income tax in the previous six years;
- c. Customer 113 had been charged with dishonestly inducing investments in companies that offered fraudulent investments and with illegal bookmaking; and
- d. Customer 113 had been released on bail.

It was not until October 2017 that Star became aware of these charges.

Customer 113's risk profile from 30 November 2016

- b. Customer 113 was connected to other customers at Star Sydney and Star Qld, including players who posed higher ML/TF risks and players who Star Sydney and Star Qld considered had acted suspiciously such as Customer 84;

Particulars

By July 2018:

- a. Star Qld had given the AUSTRAC CEO 56 SMRs in respect of Customer 84;
- b. Customer 84 had been the subject of law enforcement enquiries on at least one occasion; and
- c. Customer 84 had been excluded from Star Sydney.

See *Customer 84's risk profile*.

- c. Customer 113 received high value gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2019, Star Sydney recorded high individual rated turnover totalling \$216,167 for Customer 113;

Particulars

See paragraph 752 above.

In 2018, Customer 113's individual rated turnover was \$170,550.

In 2019, Customer 113's individual rated turnover was \$45,617.

- d. Customer 113 received high value financial and gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$848,757 for Customer 113;

Particulars

See paragraph 752 above.

In 2016, Customer 113's individual rated turnover was \$40,759.

In 2017, Customer 113's individual rated turnover was \$63,516.

In 2018, Customer 113's individual rated turnover escalated to \$159,713.

In 2019, Customer 113's individual rated turnover was \$181,392.

In 2020, despite the COVID-19 pandemic closures, Customer 113's turnover remained high.

In 2020, Customer 113's individual rated turnover was \$129,250.

In 2021, Customer 113's individual rated turnover escalated to \$274,127.

- e. Customer 113 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 3 January 2017 and 13 January 2021, Star Qld gave the AUSTRAC CEO 12 TTRs in respect of Customer 113 totalling \$169,700, which comprised chip exchanges:

- a. ten outgoing TTRs totalling \$149,700; and
- b. two incoming TTRs totalling \$20,000.

On 2 April 2018, Customer 113 exchanged \$20,000 in cash for chips at Star Qld. The exchange comprised two transactions of \$10,000 each. Star Qld considered that Customer 113's play did not support these transactions. Star Qld observed that there was no record of the chips being cashed out: SMR dated 4 April 2018.

On 26 March 2019, Customer 113 cashed out \$9,000 in chips, despite that Star Qld had recorded that he was losing \$4,750 at that time.

- f. Customer 113 had access to private gaming rooms at Star Sydney;

Particulars

See paragraph 616 above.

Customer 113 had access to private gaming rooms at Star Sydney, including the Sovereign Room.

- g. Customer 113 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 113 had access to private gaming rooms at Star Qld, including the Sovereign Room, Oasis and the Club Conrad.

- h. in February 2017, open source media articles alleged that Customer 113 was facing a committal hearing in respect of a \$60 million investment scam;

Particulars

In February 2017, an open source media article alleged that:

- a. Customer 113 was facing a committal hearing in March 2017 in respect of a \$60 million investment scam; and
- b. Customer 113 had also been charged with illegal bookmaking.

Star became aware of this report in October 2017.

- i. by June 2017, Star Qld was aware that Customer 113 was implicated in money laundering offences;

Particulars

In June 2017, a law enforcement agency served on Star Qld a notice to produce which included allegations that, between February 2010 and June 2017, Customer 113 and others, including Customer 84, knowingly engaged in money laundering.

Interactions and information shared between Star Qld and law enforcement agencies were stored on Star's investigations database.

Star Sydney had access to the investigations database: see paragraph 49 above.

On 16 February 2018, the notice was emailed to a Star Investigations Manager.

- j. in July 2018, open source media articles alleged that Customer 113 was implicated in tainted property charges;

Particulars

In July 2018, open source media articles alleged that Customer 113 and his father were implicated in tainted property charges.

It was not until 19 November 2018 that Star became aware of this report.

- k. in 2017 and 2021, Customer 113 was the subject of law enforcement enquiries at Star; and

Particulars

On 14 February 2017, Star Qld received a request from a law enforcement agency for information concerning Customer 113 together with other customers, including Customer 84.

On 19 October 2017, Star sent an email to a law enforcement agency advising of a positive risk intelligence search.

Between 8 January 2021 and 8 July 2021, Star sent a number of emails to a law enforcement agency in relation to publicly accessible media articles which alleged that Customer 113, who continued to gamble at Star Qld, had been charged with a number of fraud related offences.

Interactions and information shared between Star Sydney, Star Qld and law enforcement agencies were stored on Star's investigations database. Star Qld and Star Sydney had access to the investigations database: see paragraph 49 above.

On 8 July 2021, following a request by Star for law enforcement information in respect of Customer 113, Star were advised that Customer 113 was heavily involved in organised crime and had been charged with major fraud offences.

On 13 August 2021, Star issued a WOL in respect of Customer 113.

- l. Star Sydney and Star Qld did not have adequate reason to believe that Customer 113's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 113 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

On and from 30 November 2016, there were real risks associated with Customer 113's source of funds. By 30 November 2016, open source media articles alleged that Customer 113:

- a. was personally and professionally associated with a drug trafficker who had laundered millions of dollars through racing in Australia;
- b. was involved in the racing and gaming industry;

- c. was linked to investment and betting companies; and
- d. had been charged with major fraud offences and was on bail for those offences.

By 30 November 2016, a law enforcement agency had informed Star that Customer 113 was implicated in boiler room offences. By June 2017, a law enforcement agency had informed Star that Customer 113 was implicated in money laundering offences.

Star's understanding of Customer 113's source of wealth evolved over time.

Star initially understood that Customer 113's occupation was in construction. By February 2021, Star senior management determined to conduct further enquiries as to Customer 113's source of wealth.

However, by April 2021, no further enquiries had been made.

In May 2021, Star understood Customer 113's occupation to be managing superannuation and investment funds together with some association with his wife's company. By June 2021, Star understood that Customer 113 was self-employed. It was not until August 2021 that Star confirmed Customer 113's source of wealth through discussions with him.

Despite this, Customer 113 continued to gamble at Star Sydney and Star Qld, including in private gaming rooms, in circumstances where Customer 113's source of funds had not been verified by the casinos. In 2018, Customer 113's turnover escalated at Star Sydney and Star Qld. Between 2016 and 2021, Customer 113's cumulative turnover at Star Sydney and Star Qld exceeded \$1 million.

At no point was Star's understanding of Customer 113's source of wealth commensurate with the high value designated services provided to him at Star Sydney and Star Qld.

On 13 August 2021, Star issued a WOL in respect of Customer 113.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 113

2645. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 113 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 113.
- a. On and from 30 November 2016, Customer 113 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 113's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 113 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 11 August 2016, Customer 113 was rated low risk, not being high risk for the purpose of the Act and Rules.

On 20 October 2017, Customer 113 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 16 November 2018, Customer 113 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 113's transactions

2646. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 113's transactions because, where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 113, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

The review, update and verification of Customer 113's KYC information

2647. Star Sydney and Star Qld did not review, update and verify Customer 113's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 113's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 113's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 113's source of wealth and source of funds were not legitimate: see *Customer 113's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 113's KYC information on and from 30 November 2016, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 113.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 113's high ML/TF risks

2648. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 113 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 113; and
 - c. reviewing and updating Customer 113's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 113 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 113*.

2649. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 113 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 113; and
 - c. reviewing and updating Customer 113's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 113 as a high risk customer for the purpose of the Act and Rules at a time before Customer 113 was issued with a WOL at Star Sydney.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2650. Had Star Sydney rated Customer 113 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 113 at a time before Customer 113 was issued with a WOL at Star Sydney.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 113

2651. Star Qld was required to apply the ECDD Programs to Customer 113 following any ECDD triggers in respect of Customer 113.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2652. Customer 113 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 4 April 2018, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 113.

2653. Each matter pleaded in paragraph 2652 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2654. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 113 following an ECDD trigger because:

a. at no time did Star Qld apply the ECDD Programs to Customer 113;

Particulars

Rule 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

By reason of the matters set out above, there were real risks that Customer 113's source of wealth and source of funds were not legitimate: see *Customer 113's risk profile*.

It was not until 13 August 2021 that Star Qld issued a WOL in respect of Customer 113.

b. Customer 113 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

c. on any occasion prior to August 2021 that Customer 113 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 113 and the provision of designated services to Customer 113, and to whether those risks were within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Between April 2018 and January 2021, Customer 113 was not escalated to senior management for consideration.

Between January 2021 and August 2021, Customer 113 was discussed at JRAMM and PAMMs.

In January 2021, the minutes of the meetings noted that:

- a. in 2015, Customer 113 had been charged with a boiler room scam worth \$59,000,000;
- b. Customer 113 had faced court in 2017;
- c. Customer 113 appeared to be on bail; and
- d. Customer 113 was associated with other persons suspected to be implicated in organised crime, including Customer 84 and Person 39.

In January 2021, the Star Qld AML/CTF Administrator requested that an Investigations Manager determine whether Customer 113 had been convicted of an offence. This was because the AML/CTF Administrator did not have access to media articles which appeared to suggest that Customer 113 had been convicted in March 2020. A law enforcement agency confirmed that Customer 113 had not yet been convicted of the major fraud offences with which he had been charged.

The Investigations Manager identified that:

- a. Customer 113 was associated with Customer 84, who was described as a 'crook' and linked to an alleged organised crime figure, Person 39; and
- b. Star Qld had received information several years ago that Customer 113 had been arrested and charged for his involvement in a boiler room fraud.

In February 2021, the minutes of the meetings noted that Star would attempt to establish Customer 113's source of wealth. However, by April 2021, no further enquiries had been made as to Customer 113's source of wealth.

In May 2021, the minutes of the meetings noted that Customer 113's occupation was said to be managing superannuation and investment funds.

In June 2021, the minutes of the meetings noted that a Star employee had spoken to Customer 113 regarding his source of wealth and

occupation and had been informed that Customer 113 was self-employed.

In July 2021, the minutes of the meetings noted that the Star Investigations team would liaise with law enforcement agencies to obtain any further information relevant to Customer 113. The minutes noted that Customer 113 was excluded from private gaming rooms on 8 July 2021 and that, if it was confirmed that Customer 113 managed other people's funds, he would be escalated with a view to having a WOL issued in respect of him.

On 13 August 2021, Star Qld issued a WOL in respect of Customer 113.

Contravention of s36 of the Act in respect of Customer 113

2655. By reason of the matters pleaded from paragraphs 2639 to 2654 above, on and from 30 November 2016, Star Qld:

- a. did not monitor Customer 113 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2656. By reason of the matters pleaded at paragraph 2655, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 13 August 2021 with respect to Customer 113.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2657. By reason of the matters pleaded from paragraphs 2639 to 2654 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 113 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2658. By reason of the matters pleaded at paragraph 2657, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 to 13 August 2021 with respect to Customer 113.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 114

2659. Customer 114 was a customer Star Sydney during the relevant period. Between 2016 and 2021, Star Sydney recorded turnover exceeding \$3.4 million for Customer 114.

Particulars

Customer 114 was a customer of Star Sydney from at least 16 October 2007.

2660. Star Sydney provided Customer 114 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 17 April 2011, Star Sydney opened an FMA and SKA for Customer 114 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 114 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 114's risk profile below.

2661. At all times from 30 November 2016, Star Sydney was required to conduct ongoing customer due diligence in respect of Customer 114.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 114's risk profile

2662. On and from 30 November 2016, Customer 114, and the provision of designated services to Customer 114 by Star Sydney posed higher ML/TF risks because of the following red flags:

Customer 114's risk history as at 30 November 2016

- a. by 30 November 2016, Customer 114 had the following risk history:
- i. Star Sydney had formed suspicions for the purposes of s 41 of the Act with respect to Customer 114;

Particulars

Star Sydney gave the AUSTRAC CEO an SMR on nine occasions between 22 January 2014 and 14 October 2016.

The SMRs reported that Customer 114 conducted several large and suspicious cash transactions, including large transactions associated with minimal or no gaming activity, cash presented in bags, cash bundled with rubber bands, and large amounts of cash presented in mostly \$50 notes: see paragraphs 2662.a.ii and 2662.a.v below.

- ii. Customer 114 was connected to other customers at Star Sydney, including players who posed higher ML/TF risks and players who Star Sydney considered had acted suspiciously, such as Person 50;

Particulars

On 10 October 2015, a Star Sydney customer withdrew \$150,000 in chips from his account, and gave the chips to Customer 114: SMR dated 12 October 2015.

On 12 August 2016, a Star Sydney customer, Person 50, arrived at the poker desk with \$350,000 cash in a knapsack. The cash was mostly in \$50 notes, with some \$20 notes, bundled with rubber bands. Star Sydney advised Person 50 that the note counter wasn't working and that it would take some time to count the cash. After \$120,000 worth of \$50 notes were counted, Person 50 advised that he would exchange the \$120,000 for chips, and have the remaining cash counted in the private gaming room. Person 50 then gave the knapsack containing cash to Customer 114. Customer 114 then took the cash to the private gaming room, had it counted, and deposited the cash into his account. The cash deposited into Customer 114's account totalled \$220,000 which was comprised of \$5,800 in \$100 notes, \$209,200 in \$50 notes and \$5,000 in \$20 notes: SMR dated 15 August 2016.

- iii. Customer 114 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. In 2015, Star Sydney recorded high individual rated turnover totalling \$2,018,116 for Customer 114;

Particulars

See paragraph 752 above.

In 2015, Star Sydney recorded high individual rated turnover totalling \$2,018,116 for Customer 114.

- iv. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 114 by remitting large amounts of money into and out of the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327.

On 28 June 2012, Star Sydney gave the AUSTRAC CEO an incoming IFTI totalling \$18,101 from an overseas casino where Customer 114 was named as the beneficiary. The funds were deposited into Customer 114's Star Sydney FMA.

In addition, between 1 August 2015 and 21 October 2016, Star Sydney received five telegraphic transfers totalling \$356,000, each of which was made available to Customer 114's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

On 8 August 2012, Star Sydney gave the AUSTRAC CEO an outgoing IFTI totalling \$56,000 to Customer 114's bank account overseas. The funds were withdrawn from Customer 114's Star Sydney FMA.

The above transaction was conducted through the Star Patron account channel.

- v. Customer 114 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes, cash bundled with rubber bands and cash in bags at Star Sydney;

Particulars

Transactions recorded by Star Sydney

Between 7 January 2011 and 25 November 2016, Star gave the AUSTRAC CEO 55 TTRs detailing chip and cash exchanges, account deposits, account withdrawals and other transactions made by Customer 114 totalling \$2,888,198, including:

- a. 29 chip purchases totalling \$1,289,120;
- b. five chip cash outs totalling \$50,000;
- c. 13 account deposits totalling \$1,299,000;
- d. five account withdrawals totalling \$131,000;
- e. two other withdrawals of monetary value associated with games of chance or skill, totalling \$93,460; and
- f. one sale of foreign currency totalling \$25,618.

Large and suspicious transactions in 2014

On 3 September 2014, Customer 114 presented \$170,000 in cash at Star Sydney to exchange for chips. The cash was presented in a paper shopping bag, and was made up of \$50 notes in \$10,000 bundles. Minimal play was recorded following the transaction: SMR dated 5 September 2014.

Large and suspicious transactions in 2015

On 27 November 2015, Customer 114 purchased \$190,000 in chips with cash. The cash was presented in a brown designer brand satchel bag, made up of \$170,000 in \$100 notes, and \$20,000 in \$50 notes. By 30 November 2015, no gaming had been recorded since the purchase of the chips: SMR dated 30 November 2015.

See particulars to paragraph 2662.a.ii above.

Large and suspicious transactions in 2016

On 4 April 2016, Customer 114 purchased \$161,120 in chips with cash. The cash was comprised of \$1800 in \$100 notes, \$150,100 in \$50 notes, \$9,200 in \$20 notes, and \$20 in \$10 notes. Shortly after, Customer 114 deposited the chips into his account: SMR dated 5 April 2016.

On 8 June 2016, Customer 114 deposited \$299,000 in cash into his FMA. The cash comprised \$8,900 in \$100 notes, \$283,400 in \$50 notes, \$6,580 in \$20 notes and \$120 in \$10 notes: SMR dated 10 June 2016.

On 6 July 2016, Customer 114 deposited \$210,000 in cash into his FMA. The cash comprised \$1,700 in \$100 notes, \$207,150 in \$50 notes, \$880 in \$20 notes, \$240 in \$10 notes and \$30 in \$5 notes: SMR dated 7 July 2016.

On 20 July 2016, Customer 114 deposited \$146,000 into his FMA. The cash was presented in a plastic shopping bag, in bundles of \$10,000 using elastic bands. The cash was in good condition and comprised \$142,000 in \$50 notes and \$4,000 in \$100 notes.

On 13 October 2016, Customer 114 purchased \$115,100 in chips with cash. The cash was bundled with rubber bands, and comprised \$110,000 in \$50 notes, with the remaining amount in a mixture of \$100 and \$20 notes: SMR dated 14 October 2016.

See particulars to paragraph 2662.a.ii above.

- vi. Star Sydney was aware that Customer 114 had engaged in large and unusual transactions which had no apparent economic or visible lawful purpose;

Particulars

On 23 January 2014, Star Sydney issued Customer 114 with a non-winnings cheque for \$122,000: SMR dated 24 January 2014.

On 25 June 2016, Star Sydney issued Customer 114 with a non-winnings cheque for \$200,000.

- vii. in 2016, Customer 114 was the subject of law enforcement enquiries at Star;

Particulars

On 17 October 2016, Star Sydney received a request from a law enforcement agency for information concerning Customer 114.

Customer 114's risk profile from 30 November 2016

- b. Customer 114 was connected to other customers at Star Sydney, including players who posed higher ML/TF risks such as Customer 100, Customer 102 and players who Star Sydney considered had acted suspiciously, including Person 15;

Particulars

Between 7 and 9 January 2018, a Star Sydney customer purchased a large amount of chips, but did not record any gaming activity. On 9 January 2018, the Star Sydney customer purchased a further \$135,000 in chips using cash. The Star Sydney customer gave the chips to Customer 114: SMR dated 10 January 2018.

By January 2019, Star Sydney was aware that Customer 114 was organising recurring private high stakes poker games hosted by Star Sydney involving players including Customer 100, Customer 102 and other Star Sydney customers respect of whom Star Sydney had formed suspicions.

On 11 January 2022, Customer 114 withdrew \$131,000 in chips from his account. Customer 114 then met with another Star Sydney customer, Person 15, in the Star Sydney retail arcade. Customer 114 and Person 15 were observed on surveillance going into the Star Sydney customer's vehicle for two minutes, before both returning to the retail arcade. Customer 114 then left Star Sydney on foot. Person 15 entered the Star Sydney casino and presented \$141,000 in chips from his black backpack to deposit into his account. The Star Sydney customer then requested \$32,090 be transferred to his personal bank account, and \$10,000 be transferred to Star Qld. A balance of \$100,000 remained in the Star Sydney customer's account. Star Sydney staff considered that Person 15's play was inconsistent with the amount of chips he held. When Person 15 was asked where the chips came from, he claimed that he had the chips prior to lockdown. Person 15 then exchanged \$500 cash for chips at a gaming table, and played for five minutes before leaving. Star Sydney did not know of any relationship between Customer 114 and Person 15: SMR dated 13 January 2022.

- c. Customer 114 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2016 and 2021, Star Sydney recorded high turnover totalling \$3,451,996 for Customer 114;

Particulars

In 2016, Customer 114's individual rated turnover was \$759,447.

In 2017, Customer 114's individual rated turnover was \$393,213.

In 2018, Customer 114's individual rated turnover was \$34,478.

In 2019, Customer 114's individual rated turnover was \$748,045.

In 2020, despite the COVID-19 pandemic closures, Customer 114's individual rated turnover escalated to \$1,436,012.

In 2021, Customer 114's individual rated turnover was \$80,801.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 114 by remitting large amounts of money into, out of and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327.

Between 22 February 2017 and 25 July 2022, Star Sydney received 14 telegraphic transfers totalling \$825,000, each of which was made available to Customer 114's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

See particulars to paragraph 2662.g.

Between 16 March 2017 and 7 July 2022, Star Sydney sent 22 telegraphic transfers totalling \$5,544,000 from Customer 114's account to Australian bank accounts.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

See particulars to paragraph 2662.g.

On 15 September 2022, Star Sydney sent a transfer of \$250,000 from Customer 114's account to Star Qld.

On 7 October 2019 and 29 January 2020, Star Sydney received two transfers totalling \$654,611 from Star Qld, both of which were made available to Customer 114's account.

- e. Customer 114 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes in rubber bands and bags at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

Transactions recorded by Star Sydney

Between 5 December 2016 and 3 June 2022, Star Sydney gave the AUSTRAC CEO 36 TTRs detailing cash transactions involving Customer 114 totalling \$2,740,586 including:

- a. 24 chip purchases totalling \$1,508,950;

- b. one chip cash out totalling \$50,000;
- c. six account deposits totalling \$694,736; and
- d. five account withdrawals totalling \$486,900

Large and suspicious cash transactions in 2016

See particulars to paragraph 2662.g.

Large and suspicious cash transactions in 2017

On 26 May 2017, Customer 114 purchased \$100,000 in chips using cash which was comprised of \$100 and \$50 notes. On 29 May 2017, Star Sydney had not recorded any gaming for Customer 114 since the purchase of the chips: SMR dated 29 May 2017.

See particulars to paragraph 2662.g.

Large and suspicious cash transactions in 2018

See particulars to paragraphs 2662.b. and 2662.g.

Large and suspicious cash transactions in 2019

On 3 April 2019, Customer 114 deposited \$100,000 in cash into his account. The cash comprised \$65,000 in \$50 notes, \$65,000 in \$50 notes, \$33,460 in \$20 notes, and \$1,540 in \$10 notes. The cash was bundled into lots of \$10,000 with rubber bands. Customer 114 later withdrew the funds as chips: SMR dated 4 April 2019.

On 19 April 2019, Customer 114 was part of a high limit poker game at Star Sydney with two other players. After the game, Customer 114 deposited \$450,000 into his FMA, then withdrew \$200,000 in cash. Customer 114's FMA had a balance of \$1,256,000.

See particulars to paragraphs 2662.b and 2662.g.

Large and suspicious cash transactions in 2020

On 16 March 2020, Customer 114 withdrew \$200,000 from his account in cash, in all \$100 notes. After the transaction, Customer 114 was observed on surveillance going to Star Sydney's covered entrance, and giving the cash to the driver of a vehicle. Customer 114 then returned inside to the Star Sydney premises: SMR dated 18 March 2020.

Large and suspicious cash transactions in 2022

See particulars to paragraph 2662.b and 2662.g.

- f. Star Sydney was aware that Customer 114 had engaged in large and unusual transactions which had no apparent economic or visible lawful purpose;

Particulars

See paragraph 2662.e above.

On 13 October 2018, Star Sydney issued Customer 114 with a non-winnings cheque for \$59,000: SMR dated 15 October 2018.

- g. Customer 114 engaged in other transactions indicative of ML/TF typologies and vulnerabilities, including cashing-in large value chips with no evidence of play, and quick turnover of money (without betting);

Particulars

See paragraph 25 above.

On the following occasions, Customer 114 was involved in transactions indicative of the ML/TF typology of quick turnover of money (without betting):

- a. on 8 December 2016, Customer 114 purchased \$100,000 in chips. The cash presented was mostly in \$50 notes, bundled, and in good condition. Customer 114 then deposited \$98,000 in chips into his account;
- b. on 22 August 2017, Customer 114 purchased \$170,000 of chips, using cash presented in all \$50 notes. Later the same evening, Customer 114 deposited \$85,000 of the chips into his account. On 23 August 2017, no gaming had been recorded since the purchase of the chips: SMR dated 23 August 2017;
- c. on 12 October 2018, Star Sydney received \$100,000 for Customer 114 by way of telegraphic transfer. Customer 114 withdrew these funds as chips. Several hours later, Customer 114 deposited \$46,000 in chips back into his account. He then requested a Star Sydney cheque for the \$46,000, as well as the remaining funds in his account. No gaming activity was recorded for Customer 114 between the initial withdrawal of chips and the deposit of the same chips back into his account: SMR dated 15 October 2018;
- d. on 19 January 2019, Customer 114 had deposited \$141,000 in cash into his account, then withdrew that amount as chips. On 20 January 2019, Customer 114 purchased \$90,000 in chips using cash that was presented in a cooler bag. The cash was comprised of \$7,100 in \$100 notes, \$72,900 in \$50 notes and \$10,000 in \$20 notes. After the chip purchase, Customer 114 left the Star Sydney premises. On 21 January 2019, Customer 114 deposited \$736,000 in chips into his account. Star Sydney staff noted that Customer 114 had some gaming recorded, but that the transactions completed seemed excessive for the amount of gaming: SMR dated 21 January 2019;
- e. on 3 April 2019, Customer 114 deposited \$100,000 in cash into his account. The cash was comprised of \$65,000 in \$50

notes, \$65,000 in \$50 notes, \$33,460 in \$20 notes, and \$1,540 in \$10 notes. The cash was bundled into lots of \$10,000 with rubber bands. Customer 114 later withdrew the funds as chips, but no gaming was recorded following the chip purchase: SMR dated 4 April 2019; and

- f. on 6 July 2022, Customer 114 deposited \$17,800 in gaming chips and \$200 in cash into his FMA bringing the account balance to \$396,000. Customer 114 transferred \$250,000 to his bank account via a telegraphic transfer. Star Sydney reviewed surveillance camera footage from the previous day which showed Customer 114 withdrawing \$150,000 in chips from his FMA before meeting up with two other Star Sydney customers, including Person 15. Six hours later, Customer 114 was observed handing \$50,000 in chips to one of the Star Sydney customers in the lift to a private gaming room. Customer 114 then deposited \$342,000 in chips into his FMA without any rated play to support the amount of funds he was transacting with. Star Sydney noted that Customer 114 appeared to be disguising the funds as winnings before transferring funds to his bank account: SMR dated 14 July 2022.
- h. between 2019 and 2020 Customer 114 was the subject of law enforcement enquiries on seven occasions at Star;

Particulars

In April 2019, Star Sydney received a request from a law enforcement agency for information concerning Customer 114 and his involvement in high stakes poker games at Star Sydney.

On 6 June 2019, Star Sydney received a request from a law enforcement agency for information concerning Customer 114 and a suspicious transaction he was involved in.

On 13 June 2019, Star Sydney received a request from a law enforcement agency for information concerning Customer 114.

In September 2019, Star Sydney received a request from law enforcement agency concerning Customer 114 and his involvement in high stakes poker games at Star Sydney.

On 17 August 2020, Star Sydney received a request from a law enforcement agency for information concerning Customer 114.

On 20 October 2020, Star Sydney received a request from a law enforcement agency for information concerning Customer 114.

On 22 September 2020, Star Sydney received a request from a law enforcement agency for information concerning Customer 114.

- i. Customer 114 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 114 had access to private gaming rooms at Star Sydney, including the Sovereign, Sovereign Cage, Oasis, Oasis Cage, Lakes Salon, and Springs Salon Cage gaming rooms.

- j. Star Sydney did not have adequate reason to believe that Customer 114's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 114 at Star Sydney.

Particulars

See paragraph 808 above.

Star Sydney understood Customer 114's occupation to be 'business owner' until at least January 2022.

Until July 2022, Star Sydney took no steps to verify Customer 114's occupation, source of wealth or source of funds in circumstances where:

- a. between 2015 and 2021, Star Sydney recorded turnover exceeding \$5.4 million for Customer 114;
- b. between 2014 and 2022, Star Sydney reported on multiple occasions that Customer 114 conducted high value chip and cash exchanges without recording commensurate gaming activity;
- c. between 5 December 2016 and 3 June 2022, Star Sydney recorded cash transactions made by Customer 114 totalling \$2,740,586;
- d. between 2018 and 2020, Customer 114's individual rated turnover escalated significantly; and
- e. from 2019, law enforcement made enquiries concerning Customer 114 on multiple occasions.

It was not until July 2022 that Star Sydney recorded the following additional information, which did not substantiate Customer 114's stated occupation:

- a. Customer 114 held no current directorships;
- b. Customer 114's source of wealth was funds from a family trust;
- c. the family trust was a discretionary investment trust, but Star Sydney had no further details; and
- d. Customer 114 also earned income from working as a financial consultant and had supplied a payslip for the month of June 2022 showing that he had earned \$12,500.

Star Sydney's determination of the ML/TF risks posed by Customer 114

2663. For the reasons pleaded at paragraph 110, Star Sydney was unable to identify or assess the ML/TF risks posed by Customer 114 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney with respect to Customer 114.

- a. On and from 30 November 2016, Customer 114 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 114's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 114 rated high risk for the purpose of the Act and Rules by Star Sydney.

Particulars

See paragraph 110 above.

On 5 September 2014, Customer 114 was rated medium, being medium for the purpose of the Act and Rules.

Monitoring of Customer 114's transactions

2664. At no time did Star Sydney apply appropriate transaction monitoring to Customer 114's transactions because:

- a. where Star Sydney conducted any transaction monitoring of transactions involving Customer 114, Star Sydney's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 114 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 114's KYC information

2665. Star Sydney did not review, update and verify Customer 114's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney did not appropriately review the nature of Customer 114's business with Star Sydney, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney did not appropriately review, update and verify Customer 114's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 114's source of wealth and source of funds were not legitimate: see *Customer 114's risk profile*.

- d. to the extent that Star Sydney reviewed Customer 114's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney to Customer 114.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 114's high ML/TF risks

2666. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 114 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 114; and
 - c. reviewing and updating Customer 114's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would have been required by the Act and Rules to apply the ECDD Programs to Customer 114 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 114*.

ECDD triggers in respect of Customer 114

2667. Star Sydney was required to apply the ECDD Programs to Customer 114 following any ECDD triggers in respect of Customer 114.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3), 15.10 of the Rules.

2668. Customer 114 was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period.

Particulars

Between 29 May 2017 and 14 July 2022, Star Sydney gave the AUSTRAC CEO nine SMRs with respect to Customer 114.

2669. The matter pleaded in paragraph 2668 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2670. Star Sydney did not conduct appropriate risk-based ECDD with respect to Customer 114 following an ECDD trigger because:

- a. on each occasion that Star Sydney conducted ECDD in respect of Customer 114 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 114 and the provision of designated services to Customer 114, and to whether those risks were within Star Sydney's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

On 3 April 2019, Star Sydney conducted ECDD in respect of Customer 114 which identified, through open source searches, that Customer 114 was a poker player.

Star Sydney also noted that:

- a. casino records gave the impression that Customer 114 completed large chip purchases and had little play and a low win/ loss recorded;
- b. Customer 114 had a casino account where he transferred funds via bank transfer and used those funds to play;
- c. poker was not a rated game at the casino, and therefore Customer 114's low win/loss did not reflect his true gaming level; and
- d. Customer 114's transactions were not considered suspicious.

On 14 July 2022, Star Sydney conducted ECDD in respect of Customer 114.

The ECDD conducted by Star Sydney did not have appropriate regard to Customer 114's higher ML/TF risks: see *Customer 114's risk profile* above.

The ECDD conducted by Star Sydney did not have appropriate regard to the higher ML/TF risks posed by Customer 114's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 114's source of wealth and source of funds were not legitimate: see *Customer 114's risk profile*.

- b. Customer 114 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 114

2671. By reason of the matters pleaded from paragraphs 2659 to 2670 above, on and from 30 November 2016, Star Sydney:

- a. did not monitor Customer 114 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2672. By reason of the matters pleaded at paragraph 2671, Star Sydney contravened s36(1) of the Act on and from 30 November 2016 with respect to Customer 114.

Particulars

Section 36(1) of the Act is a civil penalty provision: Section 36(2) of the Act.

Customer 115

2673. Customer 115 was a customer of Star Sydney during the relevant period. Between 2018 and 2019, Star Sydney recorded turnover exceeding \$190 million for Customer 115.

Particulars

Customer 115 was a customer of Star Sydney from at least 18 August 2018.

On 4 November 2019, Customer 115 self-excluded from Star Sydney.

2674. Star Sydney provided Customer 115 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 24 January 2019, Star Sydney opened an FMA for Customer 115 which was closed on 4 November 2019 (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 115 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 115's risk profile below.

2675. Customer 115 was a customer of Star Qld during the relevant period. In 2019, Star Qld recorded turnover exceeding \$2.3 million for Customer 115.

Particulars

Customer 115 was a customer of Star Qld from at least 22 February 2019.

2676. Star Qld provided Customer 115 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period.

Particulars

On 22 February 2019, Star Qld opened an FMA for Customer 115 which was closed on 8 December 2020 (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 115 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 115's risk profile below.

2677. At all times from 18 August 2018 in respect of Star Sydney and 22 February 2019 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 115.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 115's risk profile

2678. On and from 18 August 2018 in respect of Star Sydney and 22 February 2019 in respect of Star Qld, Customer 115, and the provision of designated services to Customer 115 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:
- a. Customer 115 was connected to other customers at Star Sydney and Star Qld, including players who Star Sydney and Star Qld considered had acted suspiciously;

Particulars

By October 2018, Star Sydney recorded that Customer 115 had ties to a number of 'undesirable' individuals.

By March 2019, Star Sydney recorded that Customer 115 was the partner of a customer who had been excluded from Star Sydney and

who was associated with a person of interest to a law enforcement agency.

By March 2019, Star Sydney was aware that Customer 115 was associated with a customer who was subject to police warnings with respect to domestic organised criminal syndicates, drugs and firearms.

By June 2019, Star Qld was aware of the same and that Customer 115 was associated with two other customers who were subject to law enforcement suspicions and connected with possible drug supply and proceeds of crime related offences, including Person 16.

- b. Customer 115 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2019, Star Sydney recorded high and escalating individual rated turnover totalling \$199,880,535 for Customer 115;

Particulars

See paragraph 752 above.

In 2018, Customer 115's individual rated turnover at Star Sydney was \$51,001,021.

By October 2018, Star Sydney identified that Customer 115 had recorded significant wins on baccarat tables in the two months he had been a customer of Star Sydney.

In 2019, Customer 115's individual rated turnover at Star Sydney was \$148,879,514.

By February 2019, Star Sydney identified that Customer 115 had recorded wins of over \$800,000 since joining in August 2018.

By March 2019, Star Sydney identified that Customer 115 had recorded wins of over \$2.2 million since joining in August 2018.

- c. Customer 115 received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld other than through junket programs. In 2019, Star Qld recorded high turnover totalling \$2,341,226 for Customer 115;
 - i. in 2019, Star Qld recorded high individual rated turnover totalling \$339,463 for Customer 115; and

Particulars

See paragraph 752 above.

In 2019, Customer 115's individual rated turnover at Star Qld was \$339,463.

- ii. in 2019, Star Qld recorded high turnover on individual rebate programs totalling \$2,001,763 for Customer 115, with losses of \$140,380;

Particulars

See paragraph 623 above.

In 2019, Customer 115's turnover on individual rebate programs at Star Qld was \$2,001,763 with losses of \$140,380.

- d. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 115 by remitting large amounts of money into and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327.

Between 13 June 2019 and 17 September 2019, Star Sydney received four telegraphic transfers totalling \$125,000, each of which was made available to Customer 115's account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

For example, on 7 October 2019, Star Sydney received a transfer of \$147,000 from Star Qld, which it made available to Customer 115's account.

- e. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 115 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

For example, on 7 October 2019, Star Qld facilitated a transfer of \$147,000 from Customer 115's FMA at Treasury Brisbane to Star Sydney.

- f. Customer 115 engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose at Star Qld;

Particulars

Around 22 June 2019, a Star Gold Coast customer, Person 16, presented \$10,800 in cash to purchase chips. The cash was comprised of three bundles of \$4,900, \$3,900 and \$5,000. Person 16 initially stated that the amounts were for different people, but then stated that he was to take all the chips himself. While the cash was being counted, Star Gold Coast observed that Customer 115 walked up to Person 16 and asked after 'his' chips. Person 16 then conducted a chip to cash exchange with Star Gold Coast totalling

\$110,000. Star Gold Coast considered that Person 16 appeared to be a relative of another Star Sydney customer who had accompanied Customer 115 to Star Sydney on 1 April 2019: SMRs dated 2 April 2019 and 24 June 2019.

In February 2021, Customer 115 conducted two chip deposits at Star Gold Coast of \$100,000 each. Shortly after each transaction he used these funds gambling at tables and lost them all, recording a loss of \$206,680 during this period. Given that this was Customer 115's only record of play at Star Gold Coast, Star Qld considered that Customer 115's spike in play and losses was suspicious. It also reported that it could not account for the source of the \$200,000 in chips: SMR dated 22 March 2019.

- g. designated services provided to Customer 115 included EGM activity at Star Sydney;

Particulars

See paragraph 2678.h below.

- h. Customer 115 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes, and in rubber bands and bags, at Star Sydney;

Particulars

See paragraphs 611 to 618 above.

By February 2019, Star Sydney was aware that Customer 115 was presenting significant amounts of cash at its casino.

Between 2 October 2018 and 17 October 2022, Star Sydney gave the AUSTRAC CEO 95 TTRs in respect of Customer 115 totalling \$3,357,034, which comprised:

- a. 37 outgoing TTRs totalling \$1,691,834;
- b. 58 incoming TTRs totalling \$1,665,200;
- c. \$2,810,097 in chip or cash exchanges;
- d. \$512,000 in account deposits or withdrawals; and
- e. \$34,937 in EGM payouts.

In relation to Customer 115's cash transactions, Star Sydney recorded that:

- a. on 20 March 2019, Customer 115 conducted a chip to cash exchange with Star Sydney totalling \$108,100 despite recording a win of \$31,275 the day prior: SMR dated 22 March 2019;
- b. on 1 April 2019, Customer 115 conducted a cash to chip exchange with Star Sydney totalling \$120,000. The cash was comprised of \$91,900 in \$100 notes, \$25,100 in \$50 notes, \$2,880 in \$20 notes and \$120 in \$10 notes. Customer 115

subsequently used the chips on gaming tables, recording a turnover of \$751,230 and a loss of \$166,075. Star Sydney considered that this activity was quite unusual due to the large amount of small denomination notes provided: SMR dated 2 April 2019;

- c. on 25 May 2019, Customer 115 conducted a chip to cash exchange with Star Sydney totalling \$98,000: SMR dated 27 May 2019;
- d. on 30 June 2019, Customer 115 conducted a chip to cash exchange with Star Sydney totalling \$100,000 and departed with the cash in a black Sovereign Room bag;
- e. on 22 July 2019, Customer 115 conducted a chip to cash exchange with Star Sydney totalling \$109,000: SMR dated 23 July 2019;
- f. on 30 August 2019, Customer 115 conducted a cash to chip exchange with Star Sydney totalling \$15,000. The cash was comprised of \$800 in \$100 notes, \$14,150 in \$50 notes, \$40 in \$20 notes and a \$10 note. Customer 115 advised that he was not sure how much cash he had presented. After the cash was counted, he advised that the total should have been higher. Star Sydney considered that this activity was highly suspicious as the cash was comprised of notes in mixed denominations, was in poor physical condition and Customer 115 did not know how much cash he had presented: SMR dated 2 September 2019;
and
- g. on 10 October 2019, Customer 115 presented at Star Sydney with \$143,000 in chips issued by Treasury Brisbane and requested that Star Sydney exchange them for cash. The chips included two \$25,000 chips. Star Sydney contacted Treasury Brisbane to confirm that Customer 115 was the owner of the chips. Treasury Brisbane advised that Customer 115 did not have play records to support his being in possession of this many chips, and that he had previously attempted to exchange the chips for cash at Star Gold Coast but was declined. Customer 115 confirmed to Star Sydney that this was true and admitted that he had borrowed the chips from a friend, but refused to identify this friend. Star Sydney advised Customer 115 that it may be able to accept the chips if the original owner presented the chips and the details were confirmed with Treasury Brisbane. However, Customer 115 instead requested to withdraw \$147,000 in cash from his FMA. These funds had been transferred to Star Sydney from Star Gold Coast in the days prior, and were sourced from an individual rebate program at Star Gold Coast where Customer 115 had a balance of approximately \$60,000. Both Star Sydney and Star Qld considered this conduct was

suspicious: SMRs dated 11 October 2019, 14 October 2019, 22 October 2019.

On 21 October 2019, Star Sydney suspected that Customer 115 gave \$100,000 in chips issued by Treasury Brisbane to a Star Sydney customer, who in turn handed them over to another Star Sydney customer. The second customer then presented at Star Sydney with \$100,000 in chips issued by Treasury Brisbane and requested cash. Neither of the customers had any recorded play at Treasury Brisbane and one of them advised that they 'got [the chips] off some friends who owed us money': SMRs both dated 22 October 2019.

- i. Customer 115 transacted using large amounts of cash and cash that appeared suspicious, including large volumes of cash in small notes and in rubber bands at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 24 June 2019 and 10 October 2019, Star Qld gave the AUSTRAC CEO three TTRs detailing transactions made by Customer 115 totalling \$142,425, which comprised:

- a. one account deposit of \$100,000; and
- b. two cash and chip exchanges with Star Qld totalling \$42,425.

In relation to the account deposit, Star Gold Coast recorded that on 6 October 2019, Customer 115 deposited \$100,000 in cash into his FMA and used the funds to commence an individual rebate program.

The cash was comprised entirely of \$50 notes that were bundled together in rubber bands and had a musty smell. Customer 115 also presented \$143,000 in chips that had been issued by Treasury Brisbane. However, he had no record of play at Treasury Brisbane. When Star Gold Coast asked Customer 115 who owned the chips, Customer 115 refused to say and took the chips back. Later that day, Customer 115 recorded a win of \$62,400 in table play. During the day, Customer 115 was in the company of another Star Qld customer, who presented \$50,000 in \$50 notes and conducted a cash to chips exchange with Star Gold Coast for this amount. This customer did not record any play at Star Gold Coast and provided a driver's licence as personal identification that was broken into two pieces: SMR dated 9 October 2019.

See paragraphs 2678.f.

- j. Customer 115 had access to private gaming rooms at Star Sydney and Star Qld;

Particulars

See paragraph 616 above.

From at least March 2019, Customer 115 had access to private gaming rooms at Star Sydney, including the Sovereign Room and the Chairman Room.

From at least June 2019, Customer 115 had access to private gaming rooms at Star Qld, including the Sovereign Room.

- k. in 2019, Customer 115 was the subject of correspondence between Star and law enforcement;

Particulars

In October 2018, November 2018 and February 2019, Star Sydney contacted law enforcement agencies with respect to Customer 115.

In March 2019, Star Sydney responded to requests for information from a law enforcement agency concerning Customer 115.

Between September and October 2019, Star Sydney and Star Qld responded to further requests for information for law enforcement agencies.

- l. by June 2019, Star Qld was aware that Customer 115 was engaged in suspicious behaviour and that cash belonging to him had been seized by law enforcement;

Particulars

On 24 June 2019, Star Qld was aware that a law enforcement agency had seized \$35,000 in cash from a Star Qld customer. Star Sydney subsequently reported to the agency that its records indicated the cash belonged to Customer 115, who had been observed at its casino with the Star Qld customer.

On 26 June 2019, Customer 115 advised Star Gold Coast that his cash had been seized by police at an airport and requested a statement that he had won the cash at the casino. Star Gold Coast subsequently identified that Customer 115 helped an associate gamble at a gaming table with his card and that another unknown person waited several metres behind them while they played. When Customer 115 and the associate eventually left the table, the unknown person also left with them.

- m. by October 2019, Star Qld was aware that Customer 115 was suspected as being involved in activity related to organised crime; and

Particulars

On 16 October 2019, a law enforcement agency requested further information about a man that attended a Star Qld casino alongside another person of interest. The agency noted that the man was said to be based in Sydney and involved in some organised crime activity.

Star Qld subsequently identified the man as Customer 115.

- n. Star Sydney and Star Qld did not have adequate reason to believe that Customer 115's source of wealth or source of funds was sufficient to explain the high value financial and

gambling services (tables 1 and 3, s6of the Act) received by Customer 115 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

By late October 2018, around two months after Customer 115 became a customer at Star Sydney, Star Sydney reported that Customer 115 recorded significant wins on baccarat tables, and gave the AUSTRAC CEO three TTRs detailing transactions made by Customer 115 totalling \$160,000. Star also reported that it held concerns in relation to Customer 115's source of wealth and source of income.

By November 2018, Star had made enquiries into Customer 115's source of wealth and source of funds and identified that he was employed in construction or a construction manager, but had failed to verify that information.

Between November 2018 and July 2019, Star continued to provide designated services to Customer 115. By July 2019, Customer 115 recorded turnover at Star Sydney of over \$100 million and Star Sydney gave the AUSTRAC CEO 52 TTRs detailing transactions made by Customer 115 totalling over \$1.5 million.

By June 2019, Star Qld was aware that Customer 115 was engaged in suspicious behaviour and his cash had been seized by law enforcement.

In July 2019, Customer 115 advised Star that he was the owner of an automobile business.

Between July 2019 and November 2019, Star Sydney and Star Qld gave the AUSTRAC CEO 42 TTRs detailing transactions made by Customer 115 totalling over \$1.7 million and Customer 115 recorded turnover at Star Sydney and Star Qld of over \$60 million.

On 4 November 2019, Customer 115 self-excluded from Star Sydney.

At no point was Customer 115's stated source of wealth and source of funds commensurate with the high value designated services provided to him by Star Sydney and Star Qld.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 115

2679. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 115 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 115.
- a. On and from late 2018, Customer 115 should have been recognised by Star Sydney as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 115's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. On and from early 2019, Customer 115 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 115's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- c. At no time was Customer 115 rated high risk for the purpose of the Act and Rules by Star Sydney or Star Qld.

Particulars

See paragraph 110 above.

On 19 November 2018, Customer 115's risk rating was elevated from low to medium risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 115's transactions

- 2680. At no time did Star Sydney and Star Qld apply appropriate transaction monitoring to Customer 115's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 115, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers; and

Particulars

Section 36(1)(a), (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 115 through the Star Patron account channel.

Particulars

See paragraph 774 above.

The review, update and verification of Customer 115's KYC information

- 2681. Star Sydney and Star Qld did not review, update and verify Customer 115's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 115's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 115's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were real risks that Customer 115's source of wealth and source of funds were not legitimate: see *Customer 115's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 115's KYC information on and from 18 August 2018 in respect of Star Sydney and 22 February 2019 in respect of Star Qld, they each failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 115.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Between October 2018 and February 2019, Star Sydney identified that:

- a. In October 2018, Customer 115 had recorded significant wins in baccarat, and Star Sydney held concerns with respect to his source of income and ties to 'undesirable' individuals;
- b. In November 2018, Customer 115 appeared to have access to significant amounts of cash; and
- c. between October 2018 and February 2019, Customer 115 had a recorded turnover of over \$26 million with wins of over \$800,000, and presented significant amounts of cash at Star Sydney.

Between November 2018 and January 2019, Customer 115 was discussed at JRAM and PAMMs:

- a. The minutes of the November 2018 PAMM recorded that Customer 115 had been listed for discussion;

- b. The minutes of the November 2018 JRAMM recorded that Customer 115's risk rating had been raised from low to medium for the purpose of the Act and Rules;
- c. The minutes of the December 2018 PAMM recorded that Customer 115 was imprisoned. However, in January 2019, the PAMM minutes recorded that Customer 115 had been removed from discussion as Star's suspicions that he was imprisoned were incorrect and he had been confused with another person who was imprisoned;
- d. The minutes of the December 2018 JRAMM recorded that a risk review was to be undertaken by Star's investigations division. However, Star's records do not contain further information about this review or its findings; and
- e. The minutes for the January 2019 JRAMM recorded that Customer 115 had been removed from consideration due to him being incorrectly identified as a person who had been imprisoned.

On 4 November 2019, Customer 115 self-excluded from Star Sydney.

Failure to apply appropriate due diligence suited to Customer 115's high ML/TF risks

2682. Had Star Sydney and Star Qld conducted ongoing customer due diligence on and from 18 August 2018 in respect of Star Sydney, and 22 February 2019 in respect of Star Qld, by:
- a. identifying and assessing the ML/TF risks posed by Customer 115 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 115; and
 - c. reviewing and updating Customer 115's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney and Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 115 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 115*.

ECDD triggers in respect of Customer 115

2683. Star Sydney and Star Qld were required to apply the ECDD Programs to Customer 115 following any ECDD triggers in respect of Customer 115.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2684. Customer 115:
- a. was the subject of suspicions formed by Star Sydney for the purposes of s41 of the Act during the relevant period; and

Particulars

Between 22 March 2019 and 27 May 2019, Star Sydney gave the AUSTRAC CEO eight SMRs with respect to Customer 115.

- b. was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

Between 22 March 2019 and 22 October 2019, Star Qld gave the AUSTRAC CEO five SMRs with respect to Customer 115.

- 2685. Each matter pleaded in paragraph 2684 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

- 2686. Star Sydney and Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 115 following an ECDD trigger because:

- a. on each occasion prior to 4 November 2019 in respect of Star Sydney and at all times in respect of Star Qld, that Star Sydney and Star Qld conducted ECDD in respect of Customer 115 in response to an ECDD trigger, they failed to give appropriate consideration to the ML/TF risks posed by Customer 115 and the provision of designated services to Customer 115 by Star Sydney or Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite;

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797 and 807 above.

Between March 2019 and October 2019, Star Sydney conducted ECDD screening in respect of Customer 115 on at least eleven occasions: see *Customer 115's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to Customer 115's higher ML/TF risks: see *Customer 115's risk profile* above.

The ECDD conducted by Star Sydney and Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 115's source of funds or source of wealth.

By reason of the matters set out above, there were real risks that Customer 115's source of wealth and source of funds were not legitimate: see *Customer 115's risk profile*.

- b. Customer 115 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Sydney's and Star Qld's ML/TF risk appetite; and

Particulars

See paragraph 810 above.

- c. on any occasion prior to 4 November 2019 in respect of Star Sydney and at all times in respect of Star Qld, that Customer 115 was escalated to senior management for consideration in response to an ECDD trigger, senior management failed to give appropriate consideration to the ML/TF risks posed by Customer 115 and the provision of designated services to Customer 115 by Star Sydney and Star Qld, and to whether those risks were within Star Sydney's and Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Customer 115 was discussed at JRAMMs and PAMMs in March, April and May 2019. Customer 115 was re-listed for consideration due to a spike in play.

In May 2019, Customer 115 was removed from the JRAMM agenda because his play had settled.

There is no record of either JRAMM or PAMM considering:

- a. Customer 115's source of wealth (r15.10(2)(a)), having regard to his high and escalating turnover; or
- b. Customer 115's source of funds (r15.10(2)(b)), having regard to the available information suggesting there were higher ML/TF risks as to his source of funds: see *Customer 115's risk profile* above.

Contravention of s36 of the Act in respect of Customer 115

2687. By reason of the matters pleaded from paragraphs 2673 to 2686 above, on and from 18 August 2018, Star Sydney:

- a. did not monitor Customer 115 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2688. By reason of the matters pleaded at paragraph 2687, Star Sydney contravened s36(1) of the Act on and from 18 August 2018 to 4 November 2019 with respect to Customer 115.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2689. By reason of the matters pleaded from paragraphs 2673 to 2686 above, on and from 22 February 2019, Star Qld:

- a. did not monitor Customer 115 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2690. By reason of the matters pleaded at paragraph 2689, Star Qld contravened s36(1) of the Act on and from 22 February 2019 with respect to Customer 115.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 116

2691. Customer 116 was a customer of Star Qld during the relevant period. Between 2016 and 2021, Star Qld recorded turnover exceeding \$6 million for Customer 116.

Particulars

Customer 116 was a customer of Star Qld from at least 22 April 2016.

On 16 March 2021, Customer 116 self-excluded from Star Qld.

In August 2022, Star Qld issued a WOL in respect of Customer 116.

2692. Star Qld provided Customer 116 with designated services within the meaning of table 3, s6 of the Act during the relevant.

Particulars

On 16 March 2021, Star Qld closed an FMA, SKA and CWA for Customer 116 (item 11, table 3, s6 of the Act).

See *Customer 116's risk profile* below.

2693. At all times from 30 November 2016, Star Qld was required to conduct ongoing customer due diligence in respect of Customer 116.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 116's risk profile

2694. On and from 30 November 2016, Customer 116, and the provision of designated services to Customer 116 by Star Qld, posed higher ML/TF risks because of the following red flags:
- a. Customer 116 received high value gambling services (table 3, s6 of the Act) at Star Qld other than through junket programs. Between 2016 and 2021, Star Qld recorded high and escalating individual rated turnover totalling \$6,066,359 for Customer 116;

Particulars

See paragraph 752 above.

In 2016, Customer 116's individual rated turnover was \$28,024.

In 2018, Customer 116's individual rated gaming turnover escalated to \$1,128,217.

In 2019, Customer 116's individual rated gaming turnover escalated to \$2,435,431.

From 2020, despite the COVID-19 pandemic closures, Customer 116's turnover remained high.

In 2020, Customer 116's individual rated turnover was \$2,068,387.

In 2021, Customer 116's individual rated turnover was \$406,300.

On 16 March 2021, Customer 116 self-excluded from Star Qld.

- b. designated services provided to Customer 116 included substantial EGM activity at Star Qld;

Particulars

See paragraphs 570 and 579 above.

Between 14 May 2018 and 10 August 2021, Star Qld gave the AUSTRAC CEO seven TTRs detailing EGM payouts to Customer 116 totalling \$122,000.

- c. Customer 116 had access to private gaming rooms at Star Qld;

Particulars

See paragraph 616 above.

Customer 116 had access to private gaming rooms at Star Qld, including The Suite, Sovereign Room, Orchid, Chairman's and The Oasis.

- d. Star Qld did not have adequate reason to believe that Customer 116's source of wealth or source of funds was sufficient to explain the high value gambling services (table 3, s6 of the Act) received by Customer 116 at Star Qld.

Particulars

See paragraph 808 above.

Star Qld did not record occupation details for Customer 116.

Despite this, Star Qld provided high value designated services to Customer 116. In 2018, Customer 116's turnover escalated dramatically. At no time did Star Qld determine Customer 116's source of wealth or source of funds to explain to escalation in turnover.

Star Qld's determination of the ML/TF risks posed by Customer 116

2695. For the reasons pleaded at paragraph 110 above, Star Qld was unable to identify or assess the ML/TF risks posed by Customer 116 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Qld with respect to Customer 116.
- a. On and from 2018, Customer 116 should have been recognised by Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 116's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 116 rated high risk for the purpose of the Act or Rules by Star Qld.

Particulars

See paragraph 110 above.

On 12 December 2010, Customer 116 was rated low risk, not being high risk for the purpose of the Act or Rules.

Monitoring of Customer 116's transactions

2696. At no time did Star Qld apply appropriate transaction monitoring to Customer 116's transactions because, where Star Qld conducted any transaction monitoring of transactions involving Customer 116, Star Qld's transaction monitoring program did not include appropriate risk-based systems and controls to monitor the transactions of customers.

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713.

The review, update and verification of Customer 116's KYC information

2697. Star Qld did not review, update and verify Customer 116's KYC information, having regard to the high ML/TF risks posed, because:
- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Qld did not appropriately review the nature of Customer 116's business with Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;
- c. Star Qld did not appropriately review, update and verify Customer 116's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

Star Qld did not record occupation details for Customer 116. Despite this, Star Qld provided high value designated services to Customer 116. In 2018, Customer 116's turnover escalated dramatically. At no time did Star Qld determine Customer 116's source of wealth or source of funds to explain to escalation in turnover.

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 116's source of wealth or source of funds: see *Customer 116's risk profile*.

On 16 March 2021, Customer 116 self-excluded from Star Qld.

In August 2022, Star Qld issued a WOL in respect of Customer 116.

- d. to the extent that Star Qld reviewed Customer 116's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Qld to Customer 116.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 116's high ML/TF risks

2698. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
- a. identifying and assessing the ML/TF risks posed by Customer 116 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 116; and
 - c. reviewing and updating Customer 116's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would likely have rated Customer 116 as a high risk customer for the purpose of the Act and Rules at a time before Customer 116 was issued with a WOL at Star Qld.

Particulars

Section 36(1)(a) and rules 15.2 and 15.5 of the Rules.

2699. Had Star Qld rated Customer 116 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 116 at a time before Customer 116 was issued with a WOL at Star Qld.

Particulars

Rule 15.9 of the Rules.

Contravention of s36 of the Act in respect of Customer 116

2700. By reason of the matters pleaded from paragraphs 2691 to 2699 above, on and from 30 November 2016, Star Qld:
- a. did not monitor Customer 116 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
 - b. did not do so in accordance with r15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2701. By reason of the matters pleaded at paragraph 2700, Star Qld contravened s36(1) of the Act on and from 30 November 2016 to 16 March 2021 with respect to Customer 116.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customer 117

2702. Customer 117 was a customer of Star Sydney during the relevant period. Between 2018 and 2021, Star Sydney recorded turnover exceeding \$2.7 million for Customer 117.

Particulars

Customer 117 was a customer of Star Sydney from at least 11 August 2018.

2703. Star Sydney provided Customer 117 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a domestic junket operator and junket player. Between 2019 and 2020, Star Sydney recorded that domestic junkets operated by Customer 117 had a turnover exceeding \$23 million.

Particulars

On 18 January 2019, Star Sydney opened an FMA and SKA for Customer 117 which remain open (item 11, table 3, s6 of the Act).

While a customer of Star Sydney, Customer 117 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 117's risk profile below.

2704. Customer 117 was a customer of Star Qld during the relevant period. In 2019, Star Qld recorded turnover exceeding \$200,000 for Customer 117.

Particulars

Customer 117 was a customer of Star Qld from at least 21 January 2019.

2705. Star Qld provided Customer 117 with designated services within the meaning of table 1 and table 3, s6 of the Act during the relevant period including services as a domestic junket operator and junket player. In 2019, Star Qld recorded that domestic junkets operated by Customer 117 had a turnover exceeding \$3.6 million.

Particulars

On 21 January 2019, Star Qld opened an FMA for Customer 117 which remains open (item 11, table 3, s6 of the Act).

While a customer of Star Qld, Customer 117 remitted funds to and from their FMA (items 31 and 32, table 1, s6 of the Act).

See Customer 117's risk profile below.

2706. At all times from 11 August 2018 in respect of Star Sydney and 21 January 2019 in respect of Star Qld, Star Sydney and Star Qld were required to conduct ongoing customer due diligence in respect of Customer 117.

Particulars

Section 36(1) of the Act and rules 9.1.3, 9.1.4 and 15.2 to 15.11 of the Rules.

Customer 117's risk profile

2707. On and from 11 August 2018 in respect of Star Sydney and 21 January 2019 in respect of Star Qld, Customer 117, and the provision of designated services to Customer 117 by Star Sydney and Star Qld, posed higher ML/TF risks because of the following red flags:
- a. Customer 117 was a domestic junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney;
 - i. between 23 February 2019 and 3 February 2020, Customer 117 operated seven domestic junkets at Star Sydney;

Particulars

On 17 January 2019, Customer 117 was approved to be a junket operator at Star Sydney.

- ii. between 23 February 2019 and 3 February 2020, Star Sydney recorded that the total cumulative turnover of junkets operated by Customer 117 was \$23,569,064 with losses of \$713,930;
- iii. although Customer 117 was a player on some of his own junkets, between 23 February 2019 and 28 September 2019, Star Sydney recorded a cumulative turnover of \$673,730 for Customer 117 as a junket player on his own junkets despite not being a junket player on those particular junkets;

Particulars

See paragraph 670 above.

See paragraph 2707.c below.

- iv. Customer 117 had one junket representative at Star Sydney; and
- v. Customer 117 and his junket representatives facilitated the provision of high value designated services to 30 junket players at Star Sydney;

Particulars

See paragraph 643 to 649 above.

- b. Customer 117 was a domestic junket operator who facilitated the provision of high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld;
 - i. between 5 May 2019 and 30 September 2019, Customer 117 operated two domestic junkets at Star Qld;

Particulars

On 17 April 2019, Customer 117 was approved to be a junket operator at Star Qld.

In 2019, Customer 117 was one of the top ten junket operators who operated the highest number of junket programs, and whose junket operations in total involved the highest total turnover, at Treasury Brisbane.

Customer 117 was a junket player on each junket.

- ii. between 5 May 2019 and 30 September 2019, Star Qld recorded that the total cumulative turnover of junkets operated by Customer 117 was \$3,687,042 with losses of \$2,200;

Particulars

Customer 117 provided at least \$275,000 in front money for the junkets.

- iii. Customer 117 operated junkets in private gaming rooms; and

Particulars

Customer 117 operated junkets in non-exclusive private gaming rooms, including the Suite.

- iv. Customer 117 and his junket representatives facilitated the provision of high value designated services to 12 junket players at Star Qld;

Particulars

See paragraph 643 to 649 above.

- c. Customer 117 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Sydney through junket programs;

- i. between 11 May 2019 and 3 February 2020, Customer 117 was a player on three junkets at Star Sydney operated by himself; and
 - ii. between 11 May 2019 and 3 February 2020, Star Sydney recorded high turnover totalling \$1,216,716 with losses of \$3,685 for Customer 117's gaming activity on junket programs;
- d. Customer 117 was a junket player who received high value financial and gambling services (tables 1 and 3, s6 of the Act) at Star Qld through junket programs;
 - i. between 5 May 2019 and 30 September 2019, Customer 117 was a player on two junkets at Star Qld operated by himself; and
 - ii. between 5 May 2019 and 30 September 2019, Star Qld recorded high turnover totalling \$223,873 with losses of \$10,350 for Customer 117's gaming activity on junket programs;
- e. designated services provided to Customer 117 lacked transparency as the services were provided through the junket channel at Star Sydney and Star Qld;

Particulars

See paragraph 650 above.

- f. Customer 117 received high value financial and gambling services (table 3, s6 of the Act) at Star Sydney other than through junket programs. Between 2018 and 2021, Star Sydney recorded high and escalating individual rated turnover totalling \$869,137 for Customer 117;

Particulars

See paragraph 752 above.

In 2018, Customer 117's individual rated turnover was \$38,847.

In 2019, Customer 117's individual rated turnover escalated to \$792,879.

In 2020, Customer 117's individual rated turnover was \$3,289.

In 2021, Customer 117's individual rated turnover was \$34,121.

- g. Star Sydney provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 117 by remitting large amounts of money into, out of, and within the casino environment via his accounts;

Particulars

Remittances into the casino environment

See paragraph 327.

Between 20 February 2019 and 22 August 2019, Star Sydney received three telegraphic transfers totalling \$400,000, each of which was made available to Customer 117's FMA.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances out of the casino environment

See paragraph 327.

Between 24 August 2019 and 26 March 2020, Star Sydney sent three telegraphic transfers totalling \$368,000 from Customer 117's FMA to an Australian bank account.

Each of the above transactions was conducted through the Star Patron account channel.

Remittances within the casino environment

See paragraphs 347 to 349 above.

Between 4 May 2019 and 28 September 2019, Star Sydney sent three transfers totalling \$300,000 from Customer 117's account to Star Qld.

On 6 May 2019 and 30 September 2019, Star Sydney received two transfers totalling \$326,717 from Star Qld, which was made available to Customer 117's FMA.

- h. Star Qld provided designated services (items 31 and 32, table 1, s6 of the Act) to Customer 117 by remitting large amounts of money within the casino environment via his accounts;

Particulars

See paragraphs 347 to 349 above.

On 4 May 2019, Star Qld received two telegraphic transfers totalling \$220,000 from Star Sydney, both of which were made available to Customer 117's FMA at Treasury Brisbane.

On 6 May 2019, Star Qld facilitated a telegraphic transfer of \$246,717 from Customer 117's FMA at Treasury Brisbane to Star Sydney.

- i. Customer 117 transacted using large amounts of cash at Star Sydney;

Particulars

See paragraphs 611 to 618 above

Between 23 April 2019 and 22 October 2019, Star Sydney gave the AUSTRAC CEO 16 TTRs in respect of Customer 117 totalling \$427,273, which comprised:

- a. eight outgoing TTRs totalling \$177,973;
 - b. eight incoming TTRs totalling \$249,300;
 - c. \$19,545 in chip or cash exchanges; and
 - d. \$407,728 in account deposits or withdrawals.
- j. Star Qld was aware that:

- i. Customer 117 had engaged in large and unusual transactions and patterns of transactions, which had no apparent economic or visible lawful purpose; and
- ii. Customer 117 transacted using large amounts of cash at Star Qld;

Particulars

See paragraphs 611 to 618 above.

Between 7 May 2019 and 1 October 2019, Star Qld gave the AUSTRAC CEO 11 TTRs in respect of Customer 117 totalling \$379,975, which comprised:

- a. seven outgoing TTRs totalling \$174,975;
- b. four incoming TTRs totalling \$205,000;
- c. \$10,000 in chip or cash exchanges; and
- d. \$369,975 in account deposits or withdrawals.

On 28 September 2019, Customer 117 arrived at Star Qld. He had transferred \$80,000 from his Star Sydney FMA to his Star Qld FMA and deposited a bank cheque of \$170,000. Customer 117 used the total balance of \$250,000 to fund a junket program and purchased \$80,000 in chips that day.

Soon afterwards, Customer 117 deposited \$35,000 in cash chips into his Star Qld FMA. Customer 117 then presented \$100,000 in cash which comprised \$100 notes. Some of the cash had casino straps and the rest was loose. Customer 117 used the additional cash to fund his junket program. However, Customer 117 only utilised about \$80,000 of the funds for buy-ins and was showing a loss of \$18,000.

Star Qld considered that the large amount of front money was not commensurate with Customer 117's intended play: SMR dated 30 September 2019.

- k. Customer 117 had access to private gaming rooms at Star Sydney; and

Particulars

See paragraph 616 above.

Customer 117 had access to private gaming rooms at Star Sydney, including the Sovereign Room, Oasis and Lakes Salons.

- l. Star Sydney and Star Qld did not have adequate reason to believe that Customer 117's source of wealth or source of funds was sufficient to explain the high value financial and gambling services (tables 1 and 3, s6 of the Act) received by Customer 117 at Star Sydney and Star Qld.

Particulars

See paragraph 808 above.

Star understood that Customer 117's occupation was in sales.

Between 2019 and 2020, junkets operated by Customer 117 recorded a turnover exceeding \$20 million. Over \$1 million was attributable to Customer 117's turnover as a junket player on his own junket programs.

At no time was Customer 117's stated occupation commensurate with the high value designated services provided to him through junket channels.

Star Sydney's and Star Qld's determination of the ML/TF risks posed by Customer 117

2708. For the reasons pleaded at paragraph 110 above, Star Sydney and Star Qld were unable to identify or assess the ML/TF risks posed by Customer 117 appropriately because the risk-based procedures, systems and controls in the Joint Part A Program were not aligned to the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to Customer 117.

- a. On and from 2019, Customer 117 should have been recognised by Star Sydney and Star Qld as a high risk customer for the purpose of the Act and Rules for the reasons pleaded above: see *Customer 117's risk profile*.

Particulars

Section 36(1)(a) and (b) of the Act and Chapter 15 of the Rules.

- b. At no time was Customer 117 rated high risk for the purpose of the Act and Rules by Star Sydney and Star Qld.

Particulars

See paragraph 110 above.

On 3 July 2019, Customer 117 was rated medium risk, not being high risk for the purpose of the Act and Rules.

On 5 March 2021, Customer 117 was rated high risk, not being high risk for the purpose of the Act and Rules.

Monitoring of Customer 117's transactions

2709. At no time did Star Sydney or Star Qld apply appropriate transaction monitoring to Customer 117's transactions because:

- a. where Star Sydney and Star Qld conducted any transaction monitoring of transactions involving Customer 117, Star Sydney's and Star Qld's transaction monitoring programs did not include appropriate risk-based systems and controls to monitor the transactions of customers;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 711, 712 and 713 above.

- b. Star Sydney and Star Qld did not make and keep complete and reliable records of designated services provided to junket operators and players;

Particulars

Section 36(1)(a) and (b) of the Act and rules 15.4 to 15.8 of the Rules.

See paragraphs 666, 667, 668 and 669 above.

- c. appropriate records were not kept of designated services provided to junket players on Customer 117's junket as turnover was recorded against Customer 117 as the junket operator rather than the junket players;

Particulars

See paragraph 670 above.

- d. Star Sydney did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 117 through:
 - i. the Star Patron account channel; and

Particulars

See paragraph 774 above.

- ii. the junket channel; and

Particulars

See paragraph 783 above.

- e. Star Qld did not apply appropriate risk-based transaction monitoring to designated services provided to Customer 117 through the junket channel.

Particulars

See paragraph 783 above.

The review, update and verification of Customer 117's KYC information

- 2710. Star Sydney and Star Qld did not review, update and verify Customer 117's KYC information, having regard to the high ML/TF risks posed, because:

- a. the Joint Part A Program did not include appropriate risk-based systems and controls to enable Star Sydney and Star Qld to determine in what circumstances further KYC information should be collected, verified, reviewed or updated for ongoing customer due diligence purposes;

Particulars

Section 36(1)(a) and (b) of the Act, rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

See paragraph 145 above.

- b. Star Sydney and Star Qld did not appropriately review the nature of Customer 117's business with Star Sydney and Star Qld, including the nature, extent and purpose of their transactions, having regard to the high ML/TF risks;

- c. Star Sydney and Star Qld did not appropriately review, update and verify Customer 117's source of funds, including the origin of funds, having regard to the high ML/TF risks; and

Particulars

By reason of the matters set out above, there were higher ML/TF risks associated with Customer 117's source of wealth or source of funds: see *Customer 117's risk profile*.

- d. to the extent that Star Sydney and Star Qld reviewed Customer 117's KYC information on and from 30 November 2016, it failed to appropriately consider the high ML/TF risks posed by the provision of designated services by Star Sydney and Star Qld to Customer 117.

Particulars

See paragraph 155 above.

Section 36(1)(a) and (b), rule 15.2 of the Rules and the definition of KYC information, in relation to a customer who is an individual, in r1.2.1 of the Rules.

Failure to apply appropriate due diligence suited to Customer 117's high ML/TF risks

- 2711. Had Star Qld conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 117 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 117; and
 - c. reviewing and updating Customer 117's KYC information appropriately, having regard to the high ML/TF risks;

Star Qld would have been required by the Act and Rules to apply the ECDD Programs to Customer 117 at a time before the date of the ECDD triggers pleaded below: see *ECDD triggers in respect of Customer 117*.

- 2712. Had Star Sydney conducted ongoing customer due diligence on and from 30 November 2016 by:
 - a. identifying and assessing the ML/TF risks posed by Customer 117 appropriately;
 - b. applying appropriate risk-based transaction monitoring to Customer 117; and
 - c. reviewing and updating Customer 117's KYC information appropriately, having regard to the high ML/TF risks;

Star Sydney would likely have rated Customer 117 as a high risk customer.

Particulars

Section 36(1)(a) of the Act and rules 15.2 and 15.6 of the Rules.

- 2713. Had Star Sydney rated Customer 117 as a high risk customer for the purpose of the Act and Rules, it would have been required by the Act and Rules to apply the ECDD Programs to Customer 117.

Particulars

Rule 15.9 of the Rules.

ECDD triggers in respect of Customer 117

2714. Star Qld was required to apply the ECDD Programs to Customer 117 following any ECDD triggers in respect of Customer 117.

Particulars

Section 36(1)(a) and (b) of the Act.

Rules 15.9(3) and 15.10 of the Rules.

2715. Customer 117 was the subject of suspicions formed by Star Qld for the purposes of s41 of the Act during the relevant period.

Particulars

On 30 September 2019, Star Qld gave the AUSTRAC CEO an SMR with respect to Customer 117.

2716. The matter pleaded in paragraph 2715 was an ECDD trigger.

Particulars

See paragraphs 792 and 801 above.

2717. Star Qld did not conduct appropriate risk-based ECDD with respect to Customer 117 following an ECDD trigger because:

- a. on each occasion that Star Qld conducted ECDD in respect of Customer 117 in response to an ECDD trigger, it failed to give appropriate consideration to the ML/TF risks posed by Customer 117 and the provision of designated services to Customer 117 by Star Qld, and to whether those risks were within Star Qld's ML/TF risk appetite; and

Particulars

Rules 15.10(2) and (5) of the Rules.

See paragraphs 797, 807, 808 and 809 above.

On 30 September 2019 and 5 March 2021, Star conducted ECDD in respect of Customer 117. During this period, Star understood that Customer 117's occupation was in sales.

Between 2019 and 2020, junkets operated by Customer 117 recorded a turnover exceeding \$20 million. Over \$1 million was attributable to Customer 117's turnover as a junket player on his own junket programs. At no time was Customer 117's stated occupation commensurate with the high value designated services provided to him through junket channels. The ECDD conducted by Star Qld did not have appropriate regard to Customer 117's higher ML/TF risks: see *Customer 117's risk profile* above.

The ECDD conducted by Star Qld did not have appropriate regard to the higher ML/TF risks posed by Customer 117's source of funds or

source of wealth. By reason of the matters set out above, there were higher ML/TF risks associated with Customer 117's source of wealth or source of funds: see *Customer 117's risk profile*.

- b. Customer 117 was not appropriately escalated to senior management in response to emerging ML/TF risks to determine whether an ongoing business relationship was within Star Qld's ML/TF risk appetite.

Particulars

Rules 15.10(6) and (7) of the Rules.

See paragraph 810 above.

Contravention of s36 of the Act in respect of Customer 117

2718. By reason of the matters pleaded from paragraphs 2702 to 2717, on and from 11 August 2018, Star Sydney:

- a. did not monitor Customer 117 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2 and 15.5 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2719. By reason of the matters pleaded at paragraph 2718, Star Sydney contravened s36(1) of the Act on and from 11 August 2018 with respect to Customer 117.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2720. By reason of the matters pleaded from paragraphs 2702 to 2717, on and from 21 January 2019, Star Qld:

- a. did not monitor Customer 117 in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced; and
- b. did not do so in accordance with rr15.2, 15.5 and 15.9 of the Rules.

Particulars

Section 36(1)(a) and (b) of the Act are civil penalty provisions: s36(2) of the Act.

See also rules 9.1.3 and 9.1.4 of the Rules.

2721. By reason of the matters pleaded at paragraph 2720, Star Qld contravened s36(1) of the Act on and from 21 January 2019 with respect to Customer 117.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customers transacting through high ML/TF risk channels

Customers remitting money through the Hotel Card channel – Confidential Schedules A and B

2722. On each of the dates listed in column 2 of Confidential Schedule A, Star Sydney approved a temporary CCF, or approved an increased temporary CCF limit, in the amount specified in column 3 for each of the customers specified in column 1.

Particulars

See paragraph 495 above.

2723. The temporary CCF, or increased temporary CCF limit, approved for each customer on each occasion specified in Confidential Schedule A, was an advance of money to the customer by Star Sydney pending clearance of a Hotel Card payment made by the customer via the Hotel Card channel in the amount specified in column 4.

Particulars

The temporary CCF, or increased temporary CCF limit, was for an amount that was equal or proximate to the total amount stated on the customer's Hotel Card payment receipt.

Star Sydney deposited money drawn from the temporary CCF into the customer's FMA.

See paragraphs 357, 358 and 363 above.

Paragraph (a) of the definition of 'loan' in s5 of the Act.

Star Sydney approved a total of 5,560 temporary CCFs or increased limits for temporary CCFs pending clearance of a Hotel Card payment for the customers specified in Confidential Schedule A between 30 November 2016 and 8 March 2020. Each of the customers specified in Confidential Schedule A received temporary CCFs or had their temporary CCF limits increased during this period.

For example:

- a. between 26 April 2017 and 24 February 2020, Person 71 transacted over \$2.7 million through the Hotel Card channel in 132 transactions. On each occasion, Star Sydney approved a temporary CCF, or approved an increased temporary CCF limit; and
- b. between 8 December 2016 and 17 February 2020, Person 72 transacted over \$7.9 million through the Hotel Card channel in 122 transactions. On each occasion, Star Sydney approved a temporary CCF, or approved an increased temporary CCF limit.

The total value of the Hotel Card payments specified in Confidential Schedule A was over \$424 million.

2724. The approval of each temporary CCF, or the increased limit of a temporary CCF, was a designated service provided by Star Sydney within the meaning of item 6, table 1, s6 of the Act.

Particulars

See paragraph 358 above.

2725. Customers could also access the Hotel Card channel without a temporary CCF.
2726. On each of the dates listed in column 2 of Confidential Schedule B, Star Sydney or Star Qld (as specified in column 4) deposited money in the amount specified in column 3 into the FMA of the customer specified in column 1.

Particulars

Star Sydney or Star Qld made money available to the customer when it credited the customer's FMA with an amount that was equal or proximate to the total amount of the Hotel Card payment.

See paragraphs 357, 358, 359, 363 and 364 above.

Star Sydney deposited money into the FMAs of customers specified in Confidential Schedule B on 75 occasions between 1 December 2016 and 18 February 2022. The total value of the deposits specified in Confidential Schedule B made by Star Sydney over this period was over \$19.9 million.

Star Qld deposited money into the FMAs of customers specified in Confidential Schedule B on 1,102 occasions between 31 January 2017 and 26 October 2021. The total value of the deposits specified in Confidential Schedule B made by Star Qld over this period was over \$50.1 million.

For example:

- a. between 23 December 2016 and 29 December 2019, Star Sydney deposited money into Person 73's FMA drawn from Hotel Card transactions on 18 occasions, totalling \$8.6 million; and
- b. between 22 April 2017 and 27 December 2019, Star Qld deposited money into Person 74's FMA drawn from Hotel Card transactions on 77 occasions, totalling \$5.8 million.

2727. Star Sydney or Star Qld made money available to the customer within the meaning of item 32, table 1, s6 of the Act when it credited the customer's FMA with funds drawn from the Hotel Card payment.

Particulars

See paragraph 360 above.

2728. Transactions involving the designated services pleaded at paragraphs 2724 and 2727 above were provided through the Hotel Card channel.

Particulars

See paragraphs 356 to 362 above.

The Hotel Card channel involved higher ML/TF risks: see paragraph 365 above.

2729. Star Sydney and Star Qld did not appropriately assess the ML/TF risks of providing the designated services pleaded at paragraphs 2724 and 2727 above to the customers specified in Confidential Schedules A and B.

Particulars

See paragraph 366 above.

The Joint Part A Programs did not include appropriate risk-based systems and controls that were capable by design of identifying, mitigating and managing the ML/TF risks reasonably faced by Star Sydney and Star Qld with respect to designated services provided to customers through the Hotel Card channel: see paragraph 367 above.

2730. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to transactions provided or facilitated through the Hotel Card channel at any time.

Particulars

See paragraph 790 above.

2731. By reason of the matters pleaded at paragraphs 2729 and 2730 above, Star Sydney failed to monitor each of the customers specified in Confidential Schedule A, and Star Sydney or Star Qld (as specified in column 4) failed to monitor each of the customers specified in Confidential Schedule B, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced in relation to the provision of designated services.
2732. By reason of the matters pleaded at paragraphs 2722 to 2731 above, Star Sydney did not monitor each of the customers specified in Confidential Schedule A, and Star Sydney or Star Qld (as specified in column 4) did not monitor each of the customers specified in Confidential Schedule B in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they reasonably faced, and did not do so in accordance with the Rules.
2733. By reason of the matters pleaded at paragraph 2732 above, Star Sydney and Star Qld contravened s36(1) of the Act.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customers remitting money through the EEIS remittance channel – Confidential Schedule C

2734. On each of the dates listed in column 2 of Confidential Schedule C, money in the amount specified in column 3 was deposited into an EEIS Patron account by or on behalf of the customer specified in column 1.
2735. Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule C) made each deposit of money specified in column 3 available to each customer specified in column 1, by either:
- a. crediting the customer's CCF account with a CCF repayment;
 - b. crediting the customer's FMA; and/or

- c. crediting the customer's SKA.

Particulars

Item 13, table 3, s6 of the Act.

Item 7, table 1, s6 of the Act.

See paragraphs 461 and 467 above.

2736. Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule C) made each deposit of money specified in column 3 available to each customer specified in column 1 as a result of a transfer through a designated remittance arrangement.

Particulars

Item 32, table 1, s6 of the Act.

See paragraph 468 above.

2737. The transactions in Confidential Schedule C involved the designated services pleaded at paragraphs 2735 and 2736 above, which were provided or facilitated through the EEIS remittance channel.

Particulars

See paragraphs 461 and 422 above.

The EEIS remittance channel involved higher ML/TF risks: see paragraph 491.

The 125 deposits specified in Confidential Schedule C, totalling over AUD 53 million, HKD 50 million and USD 3.3 million, were made available by Star Sydney or Star Qld to the customers specified in Confidential Schedule C between 27 November 2017 and 14 April 2021.

Of the 125 deposits specified in Confidential Schedule C, Star Sydney facilitated the movement of over AUD 48 million and USD 3.3 million via the EEIS remittance channel, for customers specified in Confidential Schedule C between 27 November 2017 and 14 April 2021.

Of the 125 deposits in Confidential Schedule C, Star Qld facilitated the movement of over AUD 4.8 million and HKD 500,000 via the EEIS remittance channel for customers specified in Confidential Schedule C between 27 November 2017 and 15 January 2020.

For example:

- a. between 16 January 2019 and 4 February 2019, Star Sydney made \$3,499,910 available to Person 75 from nine deposits specified in Confidential Schedule C. Each deposit was made by an overseas remittance service provider, Company 8; and
- b. between 19 February 2019 and 21 March 2019, Star Qld made \$2,999,920 available to Person 76 from eight deposits specified in

Confidential Schedule C. Each deposit was made by an overseas remittance service provider, Company 8.

The deposits specified in Confidential Schedule C do not include transactions that were made through the Customer 9 channels. Transactions via the EEIS remittance channel that were made through the Customer 9 channels are specified in Confidential Schedule F.

2738. Star Sydney and Star Qld did not appropriately assess the ML/TF risks of providing the designated services pleaded at paragraphs 2735 and 2736 above to the customers specified in Confidential Schedule C.

Particulars

At no time did Star Sydney or Star Qld carry out an appropriate assessment of the ML/TF risks of the EEIS remittance channel: see paragraph 492 above.

2739. The Joint Part A Programs did not include appropriate risk-based systems and controls to understand the source of funds of transactions through the EEIS remittance channel.

Particulars

See paragraph 493 above.

2740. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to transactions provided or facilitated through the EEIS remittance channel at any time.

Particulars

See paragraph 779 above.

2741. By failing to apply appropriate risk-based transaction monitoring to the transactions involving the designated services pleaded at paragraphs 2735 and 2736 above, Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule C) failed to monitor each of the customers specified in Confidential Schedule C with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced in relation to the provision of designated services.

2742. By reason of the matters pleaded at paragraphs 2734 to 2741 above, Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule C) did not monitor each of the customers specified in Confidential Schedule C in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced, and did not do so in accordance with the Rules.

Particulars

Transactions through the EEIS remittance channel involved higher ML/TF risks, including less transparency regarding the source of funds of persons conducting transactions through that channel.

2743. By reason of the matters pleaded at paragraph 2742 above, Star Sydney and Star Qld (as specified in column 4 of Confidential Schedule C) contravened s36(1) of the Act.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Of the 125 deposits specified in Confidential Schedule C, 97 deposits (totalling over AUD 45.6 million, HKD 50.6 million and USD 3.3 million) were made by a third party individual or company.

Of the 125 deposits specified in Confidential Schedule C, 37 deposits totalling over \$15.3 million were made by Company 8, being an overseas remittance service provider. The deposits specified in Confidential Schedule C were also made by other overseas remittance service providers, including Company 1 and Company 9. Deposits by overseas remitters involve higher ML/TF risks: see paragraph 445 above.

Third party deposits through Star Patron accounts – Confidential Schedule D

2744. On each of the dates listed in column 2 of Confidential Schedule D, money in the amount specified in column 3 was deposited by a third party into the Star Patron account held by Star Sydney or Star Qld specified in column 4, for the benefit of the customer specified in column 1.
2745. Star Sydney or Star Qld (as specified in column 5 of Confidential Schedule D) made each third party deposit specified in column 3 available to each customer specified in column 1 by either:
- a. crediting the customer's FMA; and/or
 - b. crediting the customer's SKA.

Particulars

Item 13, table 3, s6 of the Act.

See paragraph 312 above.

2746. Star Sydney or Star Qld (as specified in column 5 of Confidential Schedule D) made each third party deposit specified in column 3 available to each customer specified in column 1 as a result of a transfer through a designated remittance arrangement.

Particulars

Item 32, table 1, s6 of the Act.

See paragraph 324 above.

The 433 third party deposits specified in Confidential Schedule D totalled over \$17.4 million. Star Sydney or Star Qld (as specified in column 5 of Confidential Schedule D) made those funds available to the customers specified in Confidential Schedule D as a result of a designated remittance arrangement.

Of the 433 third party deposits specified in Confidential Schedule D, 385 third party deposits (totalling over \$16.4 million) were made available by Star Sydney to customers specified in Confidential Schedule D between 4 December 2017 and 28 October 2021.

Of the 433 third party deposits specified in Confidential Schedule D, 48 third party deposits (totalling over \$1 million) were made available by Star Qld to customers specified in Confidential Schedule D between 22 January 2018 and 22 September 2021.

For example:

- a. between 28 September 2018 and 17 June 2019, Star Sydney made \$8.5 million available to Person 70 from eight third party deposits specified in Confidential Schedule D; and
- b. between 29 January 2019 and 24 February 2020, Star Qld made \$100,000 available to Person 77 from 11 third party deposits specified in Confidential Schedule D.

2747. Transactions involving the designated services pleaded at paragraphs 2745 and 2746 above were third party deposits into Star Patron accounts held by Star Sydney or Star Qld, which were provided or facilitated through the Star Patron account channel.

Particulars

See paragraphs 311 and 312 above.

The Star Patron account channel involved higher ML/TF risks: see paragraph 327 above.

Third party deposits made available to customers via the Star Patron account channel involved additional high ML/TF risks: see paragraphs 278 and 327 above.

At no time did Star Sydney or Star Qld have appropriate policies or procedures in place to identify which deposits made into Star Patron accounts were made in cash: see paragraphs 276 and 330 above.

The third party deposits into Star Patron accounts specified in Confidential Schedule D included deposits from overseas remittance service providers, including Company 1.

Deposits by overseas remitters involve higher ML/TF risks: see paragraph 445 above.

2748. Star Sydney and Star Qld did not appropriately assess the ML/TF risks of providing the designated services pleaded at paragraphs 2745 and 2746 above to the customers specified in Confidential Schedule D.

Particulars

Star Sydney and Star Qld failed to assess the ML/TF risks of providing item 32, table 1, s6 designated services through the Star Patron accounts channel: see paragraph 329 above.

2749. The Joint Part A Programs did not include appropriate risk-based systems and controls to understand the source of funds of third party transactions facilitated through the Star Patron account channel.

Particulars

See paragraph 330 above.

2750. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to third party transactions provided or facilitated through the Star Patron account channel at any time.

Particulars

See paragraph 779 above.

2751. By failing to apply appropriate risk-based transaction monitoring to the third party transactions involving the designated services pleaded at paragraphs 2745 and 2746 above, Star Sydney or Star Qld (as specified in column 5 of Confidential Schedule D) failed to monitor each of the customers specified in Confidential Schedule D with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced in relation to the provision of designated services.

Particulars

Star Sydney or Star Qld (as specified in column 5 of Confidential Schedule D) failed to detect that the deposits were made by third parties and failed to carry out appropriate risk-based checks on the source of funds for these deposits.

2752. By reason of the matters pleaded at paragraphs 2744 to 2751 above, Star Sydney or Star Qld (as specified in column 5 of Confidential Schedule D) did not monitor each of the customers specified in Confidential Schedule D in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced, and did not do so in accordance with the Rules.
2753. By reason of the matters pleaded at paragraph 2752 above, Star Sydney and Star Qld (as specified in column 5) contravened s36(1) of the Act.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Cash deposits into Bank 1 (Macau) accounts – Confidential Schedule E

2754. On each of the dates listed in column 2 of Confidential Schedule E, cash in the amount specified in column 3 of Confidential Schedule E was deposited into one of the Star Patron accounts with Bank 1 (Macau) by or on behalf of the customer specified in column 1.
2755. Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule E) made each deposit of money specified in column 3 available to each customer specified in column 1 by way of a credit to their Star Sydney or Star Qld FMA or SKA, which was an item 32, table 1, s6 designated service.

Particulars

Item 32, table 1, s6 of the Act.

See paragraph 374 above.

2756. The Star Sydney or Star Qld customer specified in column 1 of Confidential Schedule E could then apply the money to:
- a. front money for gambling services, which could be accessed by the customer at the Star Sydney or Star Qld Cage once the deposit had been credited into their FMA or SKA; or
 - b. a debt that was owed by the customer to Star Sydney or Star Qld, such as to an amount owed under a CCF; or
 - c. any transaction otherwise permitted through their FMA or SKA, including cash withdrawals.

Particulars

Item 13, table 3, s6 of the Act.

Item 7, table 1, s6 of the Act.

See paragraph 375 above.

2757. Transactions involving the designated services pleaded at paragraphs 2755 and 2756 above were provided or facilitated through the Bank 1 (Macau) cash channel.

Particulars

See paragraphs 372 and 373 above.

The Bank 1 (Macau) cash channel involved higher ML/TF risks: see paragraphs 380 to 384 above.

Cash deposits via the Bank 1 (Macau) cash channel involved additional high ML/TF risks: see paragraphs 380 to 384 above.

The 45 cash deposits specified in Confidential Schedule E, totalling over \$20.4 million, were deposited into Star Patron accounts at Bank 1 (Macau) between 9 December 2016 and 29 November 2017. Star Sydney or Star Qld made those funds available to the customers specified in Confidential Schedule E via the Bank 1 (Macau) cash channel.

Of the 45 deposits specified in Confidential Schedule E, 40 deposits totalling \$18.1 million were made available by Star Sydney to customers specified in Confidential Schedule E between 14 December 2016 and 29 November 2017.

Five of the 45 deposits specified in Confidential Schedule E (totalling \$2.2 million) were made available by Star Qld to customers specified in Confidential Schedule E between 9 December 2016 and 8 November 2017.

For example:

- a. between 17 May 2017 and 31 October 2017, Star Sydney made over \$5.4 million available to Person 78 from cash deposited into Star Patron accounts at Bank 1 (Macau); and

- b. on or around 1 April 2017, Star Qld made over \$1 million available to Person 74 from cash deposited into Star Patron accounts at Bank 1 (Macau).

2758. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to transactions provided or facilitated through the Bank 1 (Macau) cash channel at any time.

Particulars

See paragraphs 380, 383 and 779 above.

Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule E) did not keep appropriate records of which deposits into the Bank 1 (Macau) accounts were made in cash or which Star customers deposited cash through the Bank 1 (Macau) cash channel: see paragraph 380 above.

2759. Star Sydney and Star Qld did not appropriately assess the ML/TF risks of providing the designated services pleaded at paragraphs 2755 and 2756 above to the customers specified in Confidential Schedule E.

Particulars

See paragraphs 381 and 384 above.

2760. The Joint Part A Programs did not include appropriate risk-based systems and controls to understand the source of funds of cash deposits through the Bank 1 (Macau) cash channel.

Particulars

See paragraph 382 above.

2761. By failing to apply appropriate risk-based transaction monitoring to the transactions involving the designated services pleaded at paragraphs 2755 and 2756 above, Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule E) failed to monitor each of the customers specified in Confidential Schedule E with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced in relation to the provision of designated services.

Particulars

Star Sydney and Star Qld (as specified in column 4 of Confidential Schedule E) failed to detect that the deposits were made in cash and failed to carry out appropriate risk-based checks on the source of funds for these deposits: see paragraph 380 above.

2762. Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule E) was unable to identify or verify the source of funds of cash deposits by or on behalf of customers through the Bank 1 (Macau) cash channel.

Paragraph

See paragraph 382 above.

2763. By reason of the matters pleaded at paragraphs 2754 to 2762 above, Star Sydney or Star Qld (as specified in column 4 of Confidential Schedule E) did not monitor each of the

customers specified in Confidential Schedule E in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced, and did not do so in accordance with the Rules.

2764. By reason of the matters pleaded at paragraph 2763 above, Star Sydney and Star Qld (as specified in column 4 of Confidential Schedule E) contravened s36(1) of the Act.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Remittance through the Customer 9 channels – Confidential Schedule F

2765. On or around each of the dates listed in column 2 of Confidential Schedule F, funds approximate to the amount specified in column 3 were made available to each of the customers specified in column 1 via deposits conducted through the Customer 9 channels.

Particulars

See paragraphs 398 and 421 above.

2766. Star Sydney or Star Qld (as specified in Column 4 of Confidential Schedule F) made each deposit of money specified in column 3 available to each customer specified in column 1 by either:

- a. crediting the customer's FMA;
- b. crediting the customer's SKA; and/or
- c. crediting the customer's CCF account with a CCF repayment.

Particulars

Item 32, table 1, s6 of the Act.

Item 13, table 3, s6 of the Act.

See *the Customer 9 channels* above.

2767. Star Sydney or Star Qld (as specified in Column 4 of Confidential Schedule F) made each deposit of money pleaded at paragraph 45 above available to each customer specified in column 1 as a result of a transfer through a designated remittance arrangement.

Particulars

Item 32, table 1, s6 of the Act.

See *the Customer 9 Channels* above.

2768. Transactions involving the designated services pleaded at paragraphs 2766 and 2767 above were facilitated through the Customer 9 channels.

Particulars

See *the Customer 9 Channels* above.

The Customer 9 channels involved higher ML/TF risks: see paragraph 439 above.

Between 11 January 2018 and 2 September 2019, over AUD 32.1 million and HKD 107.6 million was transacted through the Customer 9 channels and made available to the customers specified in Confidential Schedule F. Star Sydney or Star Qld (as specified in Column 4 of Confidential Schedule F) made those funds available to the customers specified in Confidential Schedule F via the Customer 9 channels.

Star Sydney facilitated the movement of over AUD 30.5 million and HKD 107.6 million via the Customer 9 channels for customers specified in Confidential Schedule F between 11 January 2018 and 2 September 2019.

Star Qld facilitated the movement of over \$1.2 million via the Customer 9 channels for customers specified in Confidential Schedule F between 20 July 2018 and 2 July 2019.

For example:

- a. between 14 February 2018 and 27 July 2018, Star Sydney facilitated the movement of approximately HKD 37.8 million to Person 79 via the Customer 9 channels; and
- b. on or around 11 September 2018, Star Qld facilitated the movement of \$810,910 to Person 80 via the Customer 9 channels. The funds were deposited into an EEIS Patron account by an overseas remittance service provider, Company 1.

There were higher ML/TF risks associated with the EEIS Patron accounts: see paragraph 328 above.

Some of the deposits made available to the customers specified in Confidential Schedule F through the Customer 9 channels were made by overseas remittance service providers. For example, 35 deposits (totalling over \$17.4 million) specified in Confidential Schedule F were made by overseas remittance providers Company 1 and Company 9.

Deposits by overseas remitters involve higher ML/TF risks: see paragraph 445 above.

2769. Star Sydney and Star Qld did not appropriately assess the ML/TF risks of providing the designated services pleaded at paragraphs 2766 and 2767 above to the customers specified in Confidential Schedule F.

Particulars

The provision of designated services by Star Sydney and Star Qld through the Customer 9 channels involved high ML/TF risks: see paragraph 439 above.

At no time did SEG or Star Sydney or Star Qld, carry out an appropriate risk assessment of the ML/TF risks posed by the Customer 9 channels: see paragraph 440 above.

2770. The Joint Part A Programs did not include appropriate risk-based systems and controls to understand the source of funds of transactions facilitated through the Customer 9 channels.

Particulars

See paragraph 441 above.

2771. Star Sydney and Star Qld did not apply appropriate risk-based transaction monitoring to transactions provided or facilitated through the Customer 9 channels at any time.

Particulars

See paragraphs 771, 777, 781 and 782 above.

2772. By failing to apply appropriate risk-based transaction monitoring to the transactions involving the designated services pleaded at paragraphs 2766 and 2767 above, Star Sydney or Star Qld (as specified in Column 4 of Confidential Schedule F) failed to monitor each of the customers specified in Confidential Schedule F with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced in relation to the provision of designated services.

Particulars

Star Sydney or Star Qld (as specified in Column 4 of Confidential Schedule F) had no systems or controls in place to identify who was depositing money through the Customer 9 channels and failed to carry out appropriate risk-based checks on the source of funds for these deposits.

Star Sydney or Star Qld (as specified in Column 4 of Confidential Schedule F) had no systems or controls in place to identify or appropriately monitor transactions through Customer 9's FMA or SKA that were being conducted on behalf of customers who were using the Customer 9 channels.

2773. By reason of the matters pleaded at paragraphs 2765 to 2772 above, Star Sydney or Star Qld (as specified in Column 4 of Confidential Schedule F) did not monitor each of the customers specified in Confidential Schedule F in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks they each reasonably faced, and did not do so in accordance with the Rules.

2774. By reason of the matters pleaded at paragraph 2773 above, Star Sydney and Star Qld contravened s36(1) of the Act.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Customers subject to a NSW exclusion order

2775. From the date listed in column 2 of Confidential Schedule G, each customer specified in column 1 was subject to a NSW exclusion order (the **Sydney excluded customers**).

Particulars

See paragraph 159 above.

2776. From the date specified in column 3 of Confidential Schedule G to the date specified in column 4, Star Qld provided designated services to each of the customers specified in column 1 at Star Gold Coast and/or Treasury Brisbane, as specified in Column 5.
2777. Star Qld provided incentives to attract the customers specified in Confidential Schedule G to the Star Qld casinos, notwithstanding that they were subject to a NSW exclusion order.

Particulars

Star Qld offered the customers specified in Confidential Schedule G complimentary incentives including:

- a. travel to Star Gold Coast or Treasury Brisbane including airfares and limousines;
- b. hotel accommodation and upgrades;
- c. food and beverage packages; and
- d. accrual and redemption of loyalty and membership points.

2778. Star Qld failed to apply appropriate risk-based criteria to:
- a. identify, escalate and risk rate Sydney excluded customers; and
 - b. determine whether designated services should be, or should continue to be, provided to Sydney excluded customers having regard to the ML/TF risks.

Particulars

See paragraph 168 above.

The 13 customers specified in Confidential Schedule G were provided with designated services by Star Qld after each was subject to a NSW exclusion order.

Furthermore, 12 of these customers continued to receive designated services after February 2019, despite the exclusion policies that required that customers subject to a NSW exclusion order be issued with a withdrawal of licence or venue exclusion in respect of Star Qld casinos. The most recent designated service provided to one of the Sydney excluded customers was provided in March 2022: see paragraph 173 above.

2779. Star Qld did not appropriately assess the ML/TF risks of providing designated services to the customers specified in Confidential Schedule G.

Particulars

See paragraphs 110 and 168 above.

2780. By reason of the matters pleaded at paragraphs 2778 and 2779 above, Star Qld failed to monitor each of the customers specified in Confidential Schedule G with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced in relation to the provision of designated services.

2781. By reason of the matters pleaded at paragraphs 2775 to 2780 above, Star Qld did not monitor each of the customers specified in Confidential Schedule G in relation to the provision of designated services, with a view to identifying, mitigating and managing the ML/TF risks it reasonably faced, and did not do so in accordance with the Rules.
2782. By reason of the matters pleaded at paragraph 2781 above, Star Qld contravened s36(1) of the Act.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

Contraventions in respect of Confidential Schedules A to G

2783. By reason of the matters pleaded at paragraphs 2733, 2743, 2753, 2764 and 2774 above, on and from 30 November 2016 Star Sydney contravened s36(1) of the Act in relation to 1,087 customers specified in Confidential Schedules A to F.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

2784. By reason of the matters pleaded at paragraphs 2733, 2743, 2753, 2764, 2774 and 2782 above, on and from 30 November 2016 Star Qld contravened s36(a) of the Act in relation to 251 customers specified in Confidential Schedules B to G.

Particulars

Section 36(1) of the Act is a civil penalty provision: s36(2) of the Act.

And the Applicant claims the relief specified in the accompanying Application.

Date: 30 November 2022
